FARMER ESCAPED

But Was Too Dazed To Tell How The Tragedy Occurred.

BRUNSWICK, Vt., Dec. 13-Mrs. Laura Smith, housekeeper for James Gilkey, a wealthy farmer here, and her two-year-old daughter, were burned to death early today in a fire that destroyed Mr. Gilkey's farm buildings on the North Stratford road, about two miles from the latter place.

Mr. Gilkey himself escaped in his night clothes, but was so dazed that he is unable to tell a connected story.

CATHOLIC DIOCESE

There is a rumor that changes in the Catholic dioceses of St. John and Chatham are contemplated, in fact the matter has already been submitted to Rome for sauction. One of the clergymen has said that, instead of having only two dioceses, as at present, the French people of the province will be given a diocese of their own with a new bishop, probably at Moneton, and the two dioceses at present existing will be divided between Bishops Casey and Barry. Altoough Bishop Casey has not announced the change, it is no secret in the Chatham diocese over which Bishop Barry presides. This matter of course depends upon the approval of the authorities at Rome.

Rome.

The additional to the additionals and laymen have been working to bring about the appointment of an Aca I an Bishop. It is generally understood the visit to Rome of Monsignor Richard, of Rogersville, had connection with the proposal. The Acadian convention at St. Bezil in August last demanded the organization of a diocese, with Moncton as the Ser So far, it is not believed Rome has definitely pronounced on the matter. It is claimed in Acadian circles, however, that they have substantially ever, that they have substantially gained their point; that a third Bishop for New Brunswick will be appointed, and the province divided as nearly, equally as posible. Some details how-ever, are incomplete.

That New Brunswick possesses the greatest deposits of hematite iron ore of a merchantable quality yet discov ered in Canada is now beyond all question. A well known mining engineer, John E. Hardman, of Mon. treal, who has visited the Drummond ming in Gloucester county several times and made an exhaustive examination, reports the mine the most valuable one that he has ever examined and states that it is the largest body of iron ore known to him in the Dominion today. He estimates there are twenty millions of tons of ore containing 55 per cent metallic iron with a large portion stripped and standing to a height of 78 feet above the level of the surrounding country. This ore can be won by open quarrying. The main body already shows a width of over 160 feet without discovering hanging wall and this has been prov ed by diamond drills to a depth of 500 feet and a length of 2,600 feet.

RIOT SENT TO ST. JOHN

Foundation For Report and Tow Was Placed in Bad Light

(Campbellton Graphic) The following is the first paragraph report of a riot supposed to have taken place here Tuesday afternoon. and which appeared in the St. John

Brandishing clabs, revolvers and tillettos, one hundred drunken Itaians reeled into the streets of Campbeliton yesterday afternoon, proceeding to paint the place a vivid red, acthat town. They were arrested, however, in the initial stages of their designs, prosecution by the prompt and oncentrated action of the citizens and police, who in the capture of five of the mob undoubtedly succeeded in averting a calamity."

The report goes on to tell of the prompt action taken by Chief Crawford and citizens to quell the disturb ance and concludes with 'fortunatery no one was hurt as the result of the occasion.

Now what are the facts of the case So far as the Graphic can learn there number of Italians had been paid off on Tuesday at the I. N. R. office, just outside the town. These came to town in an orderly manner, with the exception of four or five, who had embibed too freely.

These were very quarrelsome and on arrival at Water street were met by Ohief Crawford and with the assistance of one young man, two of tion and locked up, and later there were three more run in. There was no fighting or weapons brandished. In searching the men on one was found a revolver. The prisoners were arsted as common drunks. If the Chief of Police is responsible

for the despatch, as the item states, the police committee should instruc him in future to refrain from giving either himself or the town cheap no toriety, as no good ends are served in either case.

The Graphic was called up at a late hour Tuesday night and sent the Telegraph a despatch stating that there was no truth in the report.

Mr. Gregory called Braithwaite, who said that he went to the Surveyor General's office with the Solicitor General, who said he was wanted and here the charges were laid. He had formerly been employed for four years with Mr. Robinson, Mr. Braithwaite said he found five carcasses of ig game in the close season. One was at Jack Lake, where a cow moose was Lake on June 29th and heard a shot in the direction of Jack Lake and on July 6th at Jack Lake he found the ow moose carcass. The day after he heard the shooting the witness said, on information from Chas. Love, he went out to find a clue to who did the shooting. A fresh trail made by a sporting boot running to and from Mr. Robinson's camp was found. Witness believed this trail was Mr. Robinson's and later he made a search about July 6th and found the carcass of the cow moose about 50 feet in the lake from the shore. The animal had apparently been shot about 10 days before and killed by bullets from a small bore rifle, such as the Purdy express rifle bore 360, that Mr. Robinson owned This was the only rifle of that kind in the country.

Mr. Robinson reached his camp on the morning of June 29th and the shooting took place that afternoon.

The sporting boot tracks referred to were traced by the witness to the shore of Jack Lake at a point 150 yards away from where he found the carcass of the cow moose, and marks of the butt end of a gun were found. The return trail led to Mr. Robinson's cance land-

Some weeks later the witness was accompanied by Hon. H. F. McLeod and another carcass of a cow moose was found by them funther up Jack Lake. No clues were found to indicate who did the shooting as the carcass had been badly destroyed by rotting and the bears. Later a dead noose was found lying alongside a trail at Moccasin Lake. This was only one thing to do, and that was early in September before the season opened. This animal had been killed during the summer and had been shot by a small bore rifle. Another cow moose carcass was found on the dead history of these Muskoka Homes, water, about three miles below Gover to the Egyptian section Brookfield in-Lake. This was on the 6th ofSer tember. This animal had been killed during the early part of the summer, but there was no identification of how it was killed

This was the regular Saturday outing of the Settlement club, and Irm took great delight in piloting the girls to the museums and galleries, where she hoped real works of art in time would give them a truer sense of ar

"Here is where I shall prove use-less," he said to Irma, with a smile.

"I thank you very much for letting me run on as you have. I love the collection. I was one of the explora-tion party that dug it up."
"We should—and do—thank you," dis-claimed Irms. "I am sorry that our

schedule does not permit us more time. I should be glad to hear the rest."
"Why not?" he suggested. "I am

here almost every afternoon."

Irma shook her head smilingly as the little party went up the stairs, leaving Brookfield looking after them, but a couple of weeks later she found her-self in the vicinity of the museum and with a little spare time on her hands in the intervals of her social duties. Brookfield was leaning over one of the cases which an attendant had opened for him, but at Irma's approach he closed the case and hurried toward her.

"You did find time to come!" he cried.
"I have half an hour to spare," was
the smiling explanation. "I thought
you might be there. I wanted to ask you if you could give a lecture to my

class on the exploration work."
"With pleasure," was the prompt answer. "If you will give me the address and name the day, I shall come

Irma named an evening and gave the address of the settlement house. Then they looked over the collection, and the girl marveled at the breadth of his information. His specialty was the Astecs. He knew the entire field, and there was a genuine enthusiasin about Tom Brookfield which compelled reciprocal interest.

Almost before the realized it the gioring time had some, and she had spend to have in his company. The

"You must think me a presumptuo fool," he began, "to ask you to share the paltry salary which this after-noon seemed so great. I did not learn until later who you really were. A Sheriff Who Was as Brave as He Was Tender Hearted.

HOW HE COLLECTED A DEBT.

The Man Who Owed the Money Was Well Able to Pay, and the Grim, De-termined Old Cheriff Made Him Realize That It Was Time to Pay.

There is a great in the me gray, one time sheriff, whose heart was as tender as his courage was stoot. As he came down the steps of the use one day in Waynesburg a who had been waiting for him fired at who had been waiting for him fred at him three times from a revolver. Cos-gray quickly walked over to him, took his gun away and said: "Now, look here, daddy, if you do

that again I'll prosecute you."

It had fallen to Cosgray in the line of duty to serve an execution on the old man, who, worried by financial difsculttes, had got lopsided mentally and conceived the idea that Cosgray was personally responsible for his troubles. The late Judge A. E. Wilson of Union town was at that time holding court in Waynesburg and had witnessed the shooting from the window of his hotel.

Many others had se "Now," remarked the judge to his stenographer, L. L. Minor, at his side, "when that shooting comes up for in-vestigation in court we'll learn how many different stories the witness will tell about it."

The judge knew from long experi ence how many viewpoints there are to such episodes, but this case never came up to trial.

In 1876 a Greene county man who had become bankrupt—at least to the extent of inability or unwillingness to pay his debts in Greene county-went to Philadelphia, where he secured a valuable concession in connection with the Centennial exposition. Reports were brought back to Waynesburg during the summer by visitors that he was making barrels of money. Coswithout comment, to all these stories because this man had left Greene coun-ty owing him \$5,000. Finally Cosgray e day packed his grip and left tow Next day he turned up in Philade at the hotel where his prosperous or was stopping and was shown by request to the latter's room. His recep-

Cosgray got up, walked to the do

locked it and put the key in his pocket. Then he said: "It's just this way, my friend, Waynesburg people have been coming home from Philadelphia all summer telling how much money you've been makin' here, and I think they've been tellin' the truth, for I've been very

careful in my inquiries about you. Now, I want that money." Here he took a revolver from his

pocket and ominously tapped on the table with the muzzle. "I'm an old man, with but a few more years to live, and I'm not a bit partickler whether I live 'em at all or not. That \$5,000 'll make 'em pass a sight easier. I don't intend to live without the money, and I don't intend you shall live with it." THE PEOPLE'S MEDICAL

The man knew Cosgray meant every word he said. He fen id and fumed, threatened and spotter it, but there sat the silent, grant in hand, ready to such it off any instant. His determination never wavered. He was a man of few words, and the outcome was exactly as he had resolved it should be. The man went to a corner of his room, opened a satetal and counted out \$5,000 to Cosgray. The sheriff returned to Waynesburg and knew how he came by it until the vic-tim himself finally disburdened his heart of its weight of woe.-Uniontowa

"GOMMON LABORERS."

Self Respect

We notice that a writer is of the orinion that one of the serious em ts of the times is owing to the fact that there are too many common laborers." He says: "In every industry the common laborers are the frequent applicants, The "common laborers" are men without trades, "unskilled" laborars the idea, being, if all laborers were "skilled mechanics, all capable of taking first positions, instead of being "helpers," the labor question would at once assume a more cheering and cheerful aspect. Such views are seen to be vagaries at a glance. The trouble is, that there has grown up in the United States, an aristoeracy in the ranks of labor. The 'common laborer' has occupied the position of plebeian, while his skilled fellow-citizen, has assumed the airs of patrician. The importance of the "common laborer" can be made to appear, about as con spicuously as that of his skilled coworker. In the great business of architecture the hod carrier, has occupied the lowest level. No special skill is required to be a hod carrier. He needs to be strong and sure footed, able to climb a ladder with a hod on his shoulder. He need not be educated. It matters to employer very little how he lives or where he lives. He occupies, ordinarily, the bottom strata of social life. Well, recently, the hod carriers in several cities concluded to dethey had been so many blind pau-

mand an advance in wages. In some instance, no more attention was paid to their demand than if pers. But, hod carriers, however humble their calling, however common their labor, had learned that bod carriers are as necessary as NEW CHRISTIAN bricklayers, and they concluded to quit work, unles wages were advanced. This done, work stopped,

Not a brick could be laid. Then bosses ascertained that "common labor" is as essential as skilled labor-and common laborers, being Canadian citizens, are coming to the conclusion that they ought to live in a way in some measure becoming their prerogatives.

We view the situation as eminently cheering. It betokens more paper, giving lots of news, but nothing for mere sensation's sake. Invoices a spiri of independence which society should value above price. It is a move upward. It is indicative of dissatisfaction with squalor, poverty and degradation. It is significant of better homes, happier wives and children, more education for the children, a larger attendance upon church and Sunday schools, and a higher appreciation of the inestimable blessings of free government-British

Why this ceaseless depreciation of the common laborer? All cannot be skilled mechanics, or if such a thing were possible, then skilled mechanics would be required to 24.35 perform what is called COMMON LABOR. Common labor must be done by someone. As well might the head complain of the feet, or the heart make degrading reference to the kidney. A man who would grind the common laborer, who would rob him of just compensation f r his toil, becomes a detestable monster, a highway robber. What is common labor? It digs the canals, it makes the bed of railroads, it hows down forests, t prepares if e clay for brick making; in a wor I it performs the beginning work of all enterprises requiring labo. It is essential, a supreme necesity, and was never properly rec gnized nor half paid. In this coun y the common laborer holds the ballet, and it will never be surrendered, and if the "common laborer" is beginning to realize his responsibilities, and is nxious to qualify himself for their

instead of creating alarm, should be hailed as a glowing tribute to the vitalizing influence of our institutions, which level up, elevate and dignify all who come within the boundaries of their operations.

The old fashioned way of dosing a weak stomach, or stimulating the Heart or Kidneys is all wrong. Dr. Shoop first pointed out this error. This is why his prescription—Dr. Shoop's Restorative—is directed entirely to the cause of these ailments—the weak inside or controlling nerves. It isn't so difficult says Dr. Shoop, to strengthen a weak Stomach, Heart or Kidneys, if one goes at it correctly. Each inside organ has its controlling or inside nerve. When these perves fail then these organs must orely falter. These vital trut a re leading druggists everywhyre to dispense and druggists everywhere to dispense and recommend Dr. Shoop's Restorative. Christmas Stamps A Million to be Sold Before Christmas.

Every penny from the stamps, after paying for printing and distribution will be used for the naintenance of poor patients at MUSKOKA FREE HOSPITAL FOR

CONSUMPTIVES, and for extending the fight against the dread White This Christmas Stamp idea was started in Denmark about four years

ago, where the eash returns have built and financed a Consumptive Hospital. A year ago, the Red Oross Society of Denmark sold over 400,000 with the co-operation of stores, churches, clubs, and boys and girls. In fact, everybody helped in this popular movement, and this year their National Red Cross Society is selling the stamps all over the States.

A STAMP FOR CANADA

The neat little stamp in red and white, like above cut, and selling at one cent each, is published by the National Sanitarium Association in the interests of the Muskoka Free Hospital. The stamp does not pay postage, but may be put on letters, packages and Christmas cards of all kinds, and will bear the happy Season's Greetings everywhere. Willing workers all over the Domine

ion are organizing little bands for stamp selling. The hospital board is hoping that over a million stamps will be sold before Christmas, and the work for the consumptive poor from sea to sea will be greatly strengthened. Other interesting information may be obtained by writing Mr. J. S. Roberts son, Secy. Treas. of the Association 817 King Street West, Toronto.
