

European Intelligence.

ARRIVAL OF THE "BOHEMIAN."

The Steamship "Bohemian," from London, with dates to 7th inst., arrived at Portland today. The U. S. ship-of-war "Tuscarora" left Coves on the 6th, forty hours behind the Confederate steamer "Nashville," whose Engineer told pilot that she would be blown up rather than be captured.

FROM THE STATES.

Gen. Hallock telegraphs that Gen. Curtis has captured Gen. Sterling Price, and Col. Dorsey, Col. Cass, and Capt. Judge, of his Staff, in Arkansas. Capt. Stubbs, of 8th Iowa Regiment, on Sunday night captured Brig. Gen. Edward Price, son of Gen. Sterling Price, Col. Philip Major Cross, and Capt. Crosby, near Warsaw and brought them to Sedalia.

Operations progressing for the capture of Savannah. All communications with Fort Pulaski cut off. One of Tatham's fleet captured. An island in Savannah River, where Confederates were erecting batteries, taken possession of. Faulkner's Speech at Martinsburg strongly against Secession War.

Gen. Curtis has taken Bentonville, Arkansas, with considerable quantity of luggage. Union sentiment in Tennessee is very strong. The people say they were deceived as to the character of the Federal army and are now anxious to return to their allegiance. Gov. Harris has summoned Legislature for Monday, for the purpose it is believed, to amend all unconstitutional acts. Prominent citizens declare the State soon to be back in Union.

Provincial Parliament.

FREDERICTON, Feb. 18th. Mr. William introduced a bill to authorize the Trustees of St. Andrews Church, Clitham, to sell Lands Devised by the late Wm. Kirkpatrick, and re-invest the proceeds. W. J. Gilbert introduced a Bill to simplify the practice of the Law, so as to abolish special bail. The Committee on Reporting and Publishing the Debates, reported that they had accepted the tender of Mr. McHenry, and had the question of publication in French still under consideration.

Monday. Saturday week was appointed for the consideration of the Committee. Some progress was made in Committee of the Whole on Mr. Kerr's Bill (which has twice passed the Lower House) for the settlement of the Poor in this Province. Mr. Kerr said that the House contained several new members, who might never have seen the Bill, thought that progress might be reported, to enable them to read it. Mr. Kerr said the Bill had been before the country a long time, and it had been published in the Gazette; he was willing to give way, however.

The House went into Committee of the Whole on a Bill of Mr. Stevens for amending the Law relating to the admission of evidence. The object of this Bill, as stated by Mr. Stevens, is to alter the Law which now gives the plaintiff and defendant in civil cases a right to be heard in their own defence, that is, cases whereof the parties concerned is an executor, the opposing party shall not be entitled to give evidence, because, as was alleged, the executor is not in a position to give evidence, and it was unfair that the other party should be. It was generally admitted that the Bill was important, and at the suggestion of several hon. members its consideration stood over.

A Bill of Mr. Grimmer's, to enable the Justices of the Peace in the Parish of St. Stephen to sell certain lands, was taken up in Committee. It appeared from Mr. G's explanation that the land in question had some buildings erected upon it, but that the rents from the lands were not all commensurate with the value of the land itself. By the passing of the Bill they would be enabled to sell the land at a good price, and the proceeds, if properly invested, would produce a much larger sum than was now received from the rents. There was considerable discussion about it, and, at the suggestion of hon. members, to allow inquiry to be made as to the intention of the original donors of the land, so that the proceeds, if the land be sold, is not diverted from those intentions, the Bill was referred to a Special Committee, as was another Bill of a similar nature brought in by Mr. Williston.

Mr. McPhelin brought in a Bill to increase the representation of some of the Counties in general Assembly; this is to take the place of the Bill brought in by the same gentleman the other day to amend the Law relating to the election of members of General Assembly. Mr. Skinner moved for leave to bring in a Bill to compel the Corporation of the Charlotte County Bank to wind up the affairs of that Bank and dissolve; there was a great deal of discussion as to whether this was a private bill, and whether it ought to be paid for it. Various opinions were expressed; and, of course, some gentlemen in opposition, thought that the Government were going to bring in a Bill to cover all these situations. Mr. Angus referred to this subject; and Mr. Steadman said that the Government had nothing to do with the action of any hon. member; it would bring in its measures without reference to the hon. members who had just sat down; it cared as little about what he did, as it did about him.

The Standard.

ST. ANDREWS, FEB. 26, 1862. An article in the "Morning News" of the 21st inst., demands our attention, from its injurious tendency and gross errors. Our contemporary knows well that our good town has seen better days, when the West India trade flourished, and that the later Whipping Laws have seriously injured our trade. In the Custom House Returns from St. John, dated 13th May, 1861, signed by the Controller and Registrar of Shipping, he says:—"At St. George, St. Andrews, and St. Stephen, all the Foreign tonnage employed in the carrying trade to the United Kingdom last year, belonged to the United States."

for vessels to clear from Ports on the British side, while there is a double advantage in landing and clearing on the American side, where the cargo escapes the payment of the New Brunswick export duty, and the ship can carry a deck load to England at any time when the River is open. This gives the Shipping there (at Calais, U. S.) an advantage over those at the other Ports in this Province, (St. Stephen, St. Andrews and St. George), in the shape of reduced freights, &c. At the request of the Imperial authorities in London, I have fully reported to them my views on the subject. [Our Legislature should give this subject their attention.]

This accounts for the present reduced position of St. Andrews, for the timber trade has passed by the St. Croix to Calais, Maine, and St. Stephen in consequence of the Saw Mills there, and St. George, Maguadavie, and Digdegush for the same reason. But we are happy to state that influential men are about erecting Mills on the banks of the New Brunswick & Canada Railway, and we hope soon to have a returned trade to the old town of St. Andrews. We have also the pleasure of informing our people, that despite the inquiries of some of our St. John contemporaries, who would endeavor from jealousy of our returning importance to keep us down to our present reduced trade circumstances, (which we confess with regret, that there is a returning hope, that the timber trade itself, will restore to St. Andrews the position it once occupied in this Province, besides the impetus which will follow a connection with the Grand Trunk Railway of Canada, and ultimately the Atlantic port of the Atlantic & Pacific Railway, which our splendid Bay, 18 miles long by 6 miles wide, land locked, and with from 30 to 47 fathoms water would safely harbour the fleets of England.

In our last issue, over the signature of E. we published a communication from a gentleman of acknowledged scientific attainments and ability in his profession, on the construction of Railways having engaged his attention for several years. It was not his first appearance before the public either through his journals or otherwise, and we trust it may be the last in our own columns. We hope the views herefore so fully advanced will have their desired effect in demonstrating both to the Provincial and English public, the imperative necessity of providing at once a means of speedy communication between the Colonies; particularly as regards the New Brunswick & Canada Railway.

We do not hold ourselves responsible for any views either expressed or implied upon the political affairs of the United States, and being to a strict neutrality in all such matters, but this much we venture to say (and we think it must be evident to any person of common sense) that if the possession of the outlet of the Mississippi enter into the American question at all, calling for such a vast expenditure of life and treasure, surely our rulers must regard us as almost beneath contempt, if a railway connection between the Seaboard and interior will not justify an expenditure equal to the cost of maintaining the army of the Northern States 3 days.

TEA MEETING.

From printed notices it will be seen that the Ladies of the Scotch Church, intend holding a Tea Meeting, in the Town Hall, on Thursday evening, 6th March. We trust the meeting will be largely patronized, as the Ladies belonging to the Church, are deservedly popular for conducting such affairs in a most efficient and satisfactory manner. WORTH SEEING.—Any one who will take the trouble of going to the shore about a hundred yards beyond Joe's Point will see a splendid specimen of a frozen Arcade. A stream runs out of the bank, covered with trees and falls into the salt water; the gradual increase downwards gives it a pyramidal form; the largest part of the base is clear blue ice, the whole is slightly sprinkled over with snow, and the part underneath is covered with stalactites of ice, which give it a most beautiful appearance. The distance to this romantic spot, is about a mile and a half, and will repay a visit.

We have every reason to believe, that the Intercolonial Railway, in accordance with the design of the Portland Convention of 1851, would secure all the benefits stated in the memorial. Commercially we consider it would be more advantageous even to Halifax and to Nova Scotia generally, than the route direct to Quebec, inasmuch as it will bring them in connection also with the Atlantic States as well as with Canada. Indeed we consider it preferable also in a Military point of view to be able to transport troops from ALL our seaports to ANY point on the frontier where they may be required. With these remarks we dismiss the subject for the present, leaving the question of route to be determined by disinterested parties. We commend to those interested in the subject, the perusal of two articles in our contemporary the "Morning News" of September 8, 1861.

"How glow ye wintry tracks below, Thou art not so unkind as man's ingratitude." "Ingratitude!—no envy, jealousy—we regret to say on the part of some journals.—The "small wooden village" of St. Andrews, mentioned in the London "Sun & Daily" newspaper, by its Halifax correspondent, the insinuations of the "Morning News" respecting the advertisements for the conveyance of military stores; provisions &c., from St. Andrews either to Halifax or St. John. "These things were landed at St. Andrews some short time for conveyance over the Railway, but being unable to send them that way (for reasons we do not know,) the military authorities intend having them re-shipped for either of the places mentioned above." Our readers cannot fail to perceive the unfair insinuation. The E. & N. A. Railway was laid up and closed for nearly a week—yes from Saturday to Friday morning, and so was the N. B. & C. Railway for full a week, and so were some of the Railways in the States, but they are all open again. After the fulsome remarks in the paper upon Messrs Barker and Pepper having fulfilled their engagements with the regularity of a railroad, what follows?—"Since writing the above, the train which left yesterday morning, returned again after proceeding as far as the law in consequence of the great snow storm."

Col. Ingall of the 62nd Regt. in reply to Capt Robinson contraries in the fullest manner, the Quarterly report set forth under 16 men of 62d Regt., while on their way from St. Andrews to Canterbury, in the Railway cars, were severely frozen, while detained in the cars on the 2nd inst. "The Col. says the men were as comfortable as could be expected, and that there was not the slightest foundation, to the gross misrepresentation and untrue. The fact is, every car was supplied with stoves and plenty of good wood, and the men were as comfortable as possible.

TEA MEETING.—From printed notices it will be seen that the Ladies of the Scotch Church, intend holding a Tea Meeting, in the Town Hall, on Thursday evening, 6th March. We trust the meeting will be largely patronized, as the Ladies belonging to the Church, are deservedly popular for conducting such affairs in a most efficient and satisfactory manner. WORTH SEEING.—Any one who will take the trouble of going to the shore about a hundred yards beyond Joe's Point will see a splendid specimen of a frozen Arcade. A stream runs out of the bank, covered with trees and falls into the salt water; the gradual increase downwards gives it a pyramidal form; the largest part of the base is clear blue ice, the whole is slightly sprinkled over with snow, and the part underneath is covered with stalactites of ice, which give it a most beautiful appearance. The distance to this romantic spot, is about a mile and a half, and will repay a visit.

A MEETING OF THE ST. ANDREWS BRANCH OF THE BRITISH & FOREIGN BIBLE SOCIETY.

A meeting of the St. Andrews branch of the British & Foreign Bible Society was held in the Town Hall, on Wednesday evening last. The agent of the Society, Mr. Smith, the Rev. John Ross, Rev. Mr. Williston, and D. W. Jack, Esq., the chairman, addressed the meeting. During the last and present week we have had a succession of snow storms, blocking up the post roads, and rendering the travelling very heavy. We are happy to report that the trains on the Railway have run regularly and that the mails have been received each day. GREAT STORM.—On Monday last the weather became moderate, and in the afternoon and up till midnight rain fell. About 3 o'clock on Tuesday morning the wind veered round to the westward when a considerable quantity of snow fell. The wind increased to a hurricane, drifting the snow into huge piles and filling up the roads, so as to make travelling out of the question. This storm will put a stop to railway as well as other travelling for a few days, in the States and Colonies.

THE LEGISLATURE.—From a synopsis of the proceedings in the Assembly it will be noticed that the members are busy at work.—The new as well as the old members from this County, appear to advantage, and are looking sharply after the interests of their constituents as well as the Province generally. Willour's friends please send us the Journals and other public documents emanating from the House. THE WESTMINSTER REVIEW for January has been received from Messrs. L. Scott & Co., the American publishers. The contents are:—Law in and for India, The Dramatic Poetry of Oehlenschlaeger, The Religious Heresies of the Working Classes, Income-Tax Reform, Admiral Sir Charles Napier, On Translating Homer, Popular Education in Russia, The American Believers: Rights of Neutrals, The Late Prince Consort, Contemporary Literature, GREAT ENCOUNTER AT WINDSOR.—We learn from Halifax papers (that in consequence of the refusal of the people of Windsor to pay the Railway Taxes, an order to levy had been issued by the Government.—We believe all the Magistrates in Windsor applied, to refuse to issue process, and resigned their Commissions. A Justice of Peace from Newport undertook the duty, and the Sheriff levied on a number of articles which were advertised to be sold on Saturday. We learn by telegraph that about 300 persons were present. The goods were all offered, but there were no bidders. Articles all remain in the hands of the Sheriff.—Courier. The Thirty sleds which left here on Thursday with the Military Train, were compelled to return on account of the heavy snow storm which then prevailed. On their return they found that there were no fire as their return was unexpected, and the wood yard was locked up. Some "good Samaritans" sent them a supply of wood, so that the troops appeared very thankful.

At St. John, on Wednesday the 14th inst., at half-past 12 o'clock, at Trinity Church, by the Rev. J. W. D. Gray, D. D., Rector, William B. Archibald, Esq., R. N., to Elizabeth White, eldest daughter of John Howe, Esq. On the 13th inst., Mr. John Lewis, aged 23 years; nephew of the late Mr. J. Lewis, of this place. On 23th inst., Mr. James Lamert, aged 75 years, and old a respectable inhabitant of this town. At Brentford, Canada West, on the 14th inst., Peter Marler, M. D., eldest son of the late Deputy Assistant Commissary General Marler, of St. John. At Scotch Ridge, St. James, on the 9th inst., Janet, relict of the late Mr. George McKay, aged 31 years. At St. John on the 21st inst., Stanislaw Jayard, aged 4 years and 3 months; third son of Edwin Jayard, M. D.

DR. LA MERT'S SELF-PRESERVATION.

ON SELF-PRESERVATION. Price, with Engravings and Cases, 25 cents; by post thirty cents. SELF-PRESERVATION is a popular Essay on Nervous and Physical Debility, resulting from impure habits contracted in youth, or excess in maturity, which, by progressively exhausting the functions of Marrow, destroys the happiness of Married Life, or prevent the fulfillment of engagement that constitute the most cherished objects of existence. By Dr. LaMert, 37 Bedford square, London, Licentiate of the Royal College of Physicians of Edinburgh; Member of the Royal College of Surgeons, England, &c. The above work contains most useful and interesting information on the physiological changes which occur in the Reproductive System during the periods of youth, puberty, and manhood; and on the due attainment of that degree of functional vigor upon which the hopes of posterity depend. It also points out how all the attributes of Manhood can be preserved to advance period of life, how they are lost, and how they can be recovered. It is free from the gross exaggeration, alarming descriptions, and dangerous remedies so generally resorted to by persons, who practising with false medical qualifications, inflict the most serious injuries, and render judicious treatment frequently abortive. The Author is the only legally-qualified practitioner whose name stands on the Medical Register (the sole test of medical qualification), who has been exclusively engaged for a series of years in the treatment of the various functional disorders of the nervous and reproductive systems, which, owing to the great discoveries of modern science, are rendered subservient to a rational, simple, and easy mode of treatment. At home for consultation daily from ten till two, and from six till eight, either personally or by letter.—37 Bedford Square, London, England. Patients residing in the colonies can be successfully treated by correspondence, and remittances can be forwarded in security and safety to any address. "SELF-PRESERVATION" may be had of the undermentioned Agents, price 25 cents, free by post, 30 cents.—HALIFAX, N. S.—Mr. E. G. Fuller, Express Agent. YARMOUTH, N. S.—Messrs. Young and Baker, Bookellers. SYDNEY, C. B.—Mr. J. P. Wood, News Office. ST. JOHN, N. B.—Messrs. H. Chubb and Co., "Courier" Office. CHARLOTTETOWN, P. E. I.—Mr. J. Jones, "Islander" Office.

presents to the attention of mothers, her  
**SOOTHING SYRUP,**  
FOR CHILDREN TEETHING,  
which greatly facilitates the process of teeth-  
ing, by softening the gum, reducing all inflama-  
tion—will allay all pain and spasmodic action and  
SECRETLY REGULATE THE BOWELS  
Depend upon it, mothers, it will give rest to  
yourselves, and  
**RELIEF AND HEALTH TO YOUR INFANTS**  
We have put up and sold this article for over  
twenty years, and in confidence and truth, we  
know what we have never been able to do, a simple  
medicine—never has it failed in a single instance  
to effect a cure when timely used. Never did we  
know an instance of dissatisfaction by any one who  
used it. On the contrary, all are delighted with  
its operations, and speak in terms of commenda-  
tion of its magical effect and medical virtues. We  
speak in this matter, what we do know, after  
ten years experience, and pledge our reputation for  
the fulfillment of what we here declare. In  
almost every instance where the infant is suffer-  
ing from pain and exhaustion, relief will be found  
in fifteen or twenty minutes after the syrup is ad-  
ministered.  
This valuable preparation is the prescription of  
one of the most EXPERIENCED and SKILL-  
FUL NURSES in New England, and has been  
used with never failing success, in  
THOUSANDS OF CASES.  
It not only relieves the child from pain, but it  
regulates the stomach, corrects acidity  
and restores energy to the whole system.  
It will almost instantly relieve  
**CRIPPLING IN THE TOWELS AND WIND COLIC**  
and overcome convulsions, which, if not speedily  
remedied, end in death. We believe it the best  
and surest remedy in the world, in all cases of  
dysentery and diarrhea in children, whether it  
arises from teething or any other cause. We would  
say to a mother who has a child suffering from any  
of the foregoing complaints—do not let your prej-  
udices, nor the prejudices of others, stand between  
you and your suffering child, and the relief that  
will be sure—yes, absolutely sure—to follow the  
use of this medicine if timely used. Full direc-  
tions for using will accompany each bottle. Name  
genuine unless the fac-simile of Curtis & Perkins,  
New York, is on outside wrapper.  
Sold by Druggists throughout the world.  
Principal Office 13, Cedar Street, N. Y.  
Price only 25 Cents per Bottle.  
Prepared by Donald Cookson, St. Andrews.

**THE OXYGENATED BITTERS,**  
**THE OXYGENATED BITTERS.**  
The results is just what it purports to be, — a "remedy  
for Dyspepsia." There is containing no alcohol, yet it re-  
stores its vitality in any climate. It is highly nourishing,  
— a teaspoonful in half a tumbler of water constitut-  
ing a dose. Among all the remedies ever discovered for this  
prevalent and obstinate complaint, there is none which  
ever wrought such great and permanent cures, or which  
can produce so many and unaccountable cures, from the  
recipients of its benefits. A single dose often restores  
the stomach, and a permanent cure speedily follows.

From a highly respected Physician in Mexico.  
SOUTH FARM, Mo., Dec. 13, 1861.  
"Gentle, R. W. FOWLE & Co.,—Gentlemen: For  
several years past I have had a knowledge of the opera-  
tions of the OXYGENATED BITTERS in some cases  
of Dyspepsia and General Debility. They have generally  
given satisfaction, and sometimes have effected a perma-  
nent cure which other remedies had been and without  
benefit. I do not hesitate to recommend them.  
Respectfully yours,  
WILLIAM A. DUST, M. D.

**THE OXYGENATED BITTERS**  
**THE OXYGENATED BITTERS**  
Letter from George Foster, Esq.  
STONINGTON, N. H., Sept. 30, 1861.  
"Gentle, R. W. FOWLE & Co.,—Gentlemen: I was  
for many years, a great sufferer from DYSPEPSIA or  
WATERBRASH, and tried almost everything within my  
reach, but to no benefit, until I was induced by the re-  
commendation of my physician, Dr. Hazleton, to make  
use of the OXYGENATED BITTERS. The first bottle  
produced by a slight alteration in the disease, and had  
it not been for the urgent request of my physician, I  
should then have discontinued their use, thinking them  
to be of no avail; but his confidence inspired me to  
persevere, and after using to the extent of half a dozen  
bottles, I had entirely regained my health. I hope all  
dyspeptic persons will be induced to give them a fair  
trial, being confident that this remedy is the most pre-  
ficial, for the various forms of DYSPEPSIA, that has  
been produced. Yours,  
GEORGE FOSTER
