Ladies' Jackets

Possibly there has never been a season when Ladies' Jackets were so distinctively NEW as this season. Change in the length, change in the sleeve, change in the materials used, in fact such a change in the general appearance as will make the selection of a new jacket extremely interesting to you this season. Our New Jackets have come to hand, and it is the general verdict of sales ladies and customers that they surpass in style and value our showing of previous seasons. It will be interesting for you to see them; it will be a pleasure for us to show them.

TWO STYLES stand out prominently, and are very worthy of special description, "The Empire Style," and "The Paddock Style."

THE EMPIRE STYLE

This coat is a distinct innovation from any style on record, cut semi fitting half way down to the waist line, forming what might be called a deep yoke, and falling from there to the entire length in full, graceful folds or pleats. The new large sleeve with the piped cuff completes the very stylish appearance of "The Empire Coat." This style is made in Black Beavers and Kerseys, Tweeds and Fawn Coverts. We show a splendid assortment of this style at

\$10, \$15 and \$18

THE PADDOCK COAT

This coat, while extremely stylish, is not quite so abrupt a departure from past styles as the "Empire." It is made three-quarter and seven-eighths lengths and tight fitting. The skirt hangs in full pleats from the waist line and gives a decidedly mannish appearance to the garment. The large new sleeve with the new cuff adds greatly to the effect and tends to take away the severe plainness. This garment is made in Black, Kerseys and Fawn Coverts and is shown here at

\$15 and \$18

HARVEST HOME AT HOLY TRINITY

Splendid Services and Delightful Music Characterized the Memorable Festival

Able Addresses by Rev. Mr. Hodgins—Service of Song a Tribute to Mrs. Bray and Miss Morrison

"And He said, I beseech thee, shew me Thy glory."
"And He said, I will make all My goodness to pass before thee, and I will proclaim the name of the Lord before thee."—Exodus xxxiii, 17, 18.

Such was the theme of the earnest and eloquent rector, Rev. Mr. Hodgins, at the memorable and much-enjoyed harvest home festival at Holy Trinity church yesterday. He dwelt ably upon the bountiful harvest and the goodness of God in the manifold visitations of life and exhorted all to service of thanksgiving.

Two large congregations attended the services morning and evening. The edifice was beautifully and bountifully bedecked with flowers, foliage and the rich grains from the harvest fields, charmingly intertwined into appropriate and pleasing designs. The decorations were the work of the ladies of the church and were much admired.

The music at both services was distinctly enjoyable. In the morning three anthems were admirably rendered and Miss Eva Degge contributed an exquisite solo; in the evening the complete choral service was inaugurated and was much admired. Too much praise cannot be given the energetic and capable lady director, Mrs. R. V. Bray, who so successfully trained the choir and conducted the choral work, or to the accomplished young organist, Miss Rose Morrison, whose playing was so much admired and who contributed to such a large extent to the success of the services.

The offerings were liberal, and the era of spiritual and material prosperity so auspiciously inaugurated in Holy Trinity church under the pastorate of Rev. Mr. Smith promises to be further extended during the ministry of Rev. Mr. Hodgins.

MEETING CALLED

S. B. Morris summons the Bean Producers and Dealers to Ridgetown to Discuss Freight Rates

A circular letter has been issued by S. B. Morris, of London, calling a meeting of the producers of and dealers in beans for September 29th at the Arlington Hotel, Ridgetown, at 10.30 a. m., for the purpose of taking united action looking toward the obtaining of more equitable rates of freight, and for the purpose of discussing the advisability of laying before the Tariff Commission the facts in connection with the bean trade of Canada, with the object of moving the Government to action, whereby the Canadian markets may be retained to Canadians, at present California producers and dealers are able to monopolize the Pacific Coast trade, while Ontario producers and dealers are excluded from the American market by reason of a prohibitory duty of 45 cents per bushel, we are authorized by the convenor of the meeting to extend to all producers an invitation to present the farmers in the locality of Ridgetown being the persons principally interested, should avail themselves of this opportunity to endeavor by united action to remedy the present unfavorable conditions which are said to exist, to their detriment.

Don't forget the Fair this week. Better than ever.

MAKE CHANGE

Miss Gertrude Carnovsky Succeeds Miss Brackin as Organist of Victoria Ave. Church

A meeting of the choral managers of Victoria Avenue Methodist church is being held this evening to appoint a new organist to succeed Miss B. Brackin, resigned.

The position, it is understood, has been offered to Miss Gertrude Carnovsky, a young lady of exceptional ability and who is, moreover, taken an earnest and much appreciated worker in the church and its various organizations. Miss Carnovsky's selection as organist would be most favorably received.

Ridgetown Dominion Says C. C. I. Board Were Fortunate in Securing Mr. McRitchie's Services

Writing editorially, in this week's issue of the Ridgetown Dominion, of the new teacher who to-day joined the C. C. I. staff, P. H. Bowyer, M. P. P., says:—

"The Chatham C. C. I. Board made no mistake in securing the services of Mr. A. R. McRitchie, B. A. Mr. McRitchie is a son of Kent county, who had made a high mark in his chosen profession when ill health forced his retirement to the farm. He has now fully recovered his old-time vigor, and we are pleased to note not only his return to his proper sphere, but that his valuable services are retained in his native county."

NEW ORGANIST

Mr. John Smith Will Assume Charge of the Christ Church Organ Next Sunday—Farewell Recital Given by Mr. Doleman

The services in Christ Church were particularly bright and attractive yesterday, and were attended by very large congregations. Rev. T. Dobson filled the pulpit, as the rector, Rev. Robt. McCosh, was conducting Harvest Home services in Tilbury. Mr. Dobson preached two splendid sermons, which were greatly appreciated. The Tilbury Church is fortunate in having such an able man for their rector.

The vested choir turned out in full numbers and contributed largely to the brightness of the service. In the evening the music was especially good and included a selection, "The Sands of Time are Sinking," from the male quartet, Messrs. Angus, W. Smith, J. Smith and Wilson.

After the evening service an organ recital was given by Mr. Walter Doleman, the retiring organist of the church. Mr. Doleman rendered a number of excellently executed selections, which were greatly appreciated. A number of people from other churches of the city attended the recital. Mr. Doleman is a capable organist, and his many friends wish him continued success in his future career.

The new organist, Mr. John R. Smith, a member of the Christ Church male quartet, will take charge of the organ next Sunday. Mr. Smith is a Chatham boy and a talented musician, and his abilities are well known to Chatham music lovers, who will be interested to learn that he is making rapid strides in his chosen profession.

At a meeting of the Speed committee it was decided that the farmers' race on Wednesday at the Fair should be trotted in one-half mile heats, and that in the running race heats should be five-eighths mile in place of seven-eighths mile, as published. These changes should doubt be appreciated by those entering in these two events.

A SUCCESSFUL ANNIVERSARY

Excellent Services Characterize Occasion at St. Andrew's Church

Splendid Sermons and Good Music Were Features of the Occasion

Large congregations attended both services on the occasion of the successful anniversary of St. Andrew's church yesterday and the proceedings were distinctly edifying and enjoyable.

Rev. Mr. Knox, of Strathroy, an able young divine, occupied the pulpit and preached two eloquent discourses, which were much appreciated. The morning text was "Behold the Lamb of God which taketh away the sin of the world," and the speaker spoke of the terrible power and presence of sin and its great remedy. In the evening his address was of a stirring missionary character and a strong appeal was made on behalf of the Canadian Northwest.

The music contributed by the splendid choir under the accomplished leadership of Miss Ada Ross, was keenly enjoyed. Four splendid anthems were sung and exquisite solos rendered by Misses Brock and Somerville, while at the evening service Misses Somerville, Brackin and Ross sang an admirable trio unaccompanied.

The services were among the most successful in the history of the church and were a tribute to the zeal and effort of the popular and esteemed pastor, Rev. J. R. Battisby, D. D., Ph. D., LL. D.

NOT SO

Mayor Cowan Never Applied for School Board Books Nor Was He Refused—Chairman Morley's Letter

The Planet received this morning the following communication from Chairman Morley, of the Public School Board, which deals briefly with the allegation of the Mayor that he applied for and was refused access to the Board's books:—

To the Editor of The Planet:—
Dear Sir,—In order to correct the mis-statement furnished to The Planet of Sept. 22nd re alleged refusal to show the minute books of the School Board, I desire to make the following brief and simple statement:—

The facts are these: On Friday morning last I was called to the phone by Mr. Wilson, the city solicitor, who informed me that Mr. Cowan wanted to see the minute book of the School Board. My answer was, "All right; any person is at liberty to do so. We have nothing to conceal."

Mr. Wilson then asked, "When can he see them?" My answer was, "Tomorrow. I am too busy to-day."

That ended the entire conversation. I have two witnesses who can verify my statement.

Had Mr. Cowan come to me as a citizen and asked permission to see the books, busy as I was, I would have at once complied with his request.

I very much regret the absence of our secretary. He has been in the city there would have been no necessity for even making the request.

A BUSY DAY

Several Cases Disposed of by Judge Houston at the Police Court This Morning

There was a full Police Court docked this morning and Judge Houston was kept busy dealing out justice during most of the morning.

The two men who were found guilty of stealing wood from the Pere Marquette were allowed to go on suspended sentence, after paying costs, which amounted to \$35. The Judge took into consideration the evidence of the men when they said that they thought the wood was abandoned by the railway. He gave them a severe lecture, however, and it is thought the men will not have to appear in Police Court again—not on a similar charge, at any rate.

Richard Masters, who was locked up for attempting to commit suicide, was also allowed to go on suspended sentence.

Gus Smith showed up bright and early, sober as a judge, to answer to an old charge of being drunk and disorderly. Gus was locked up one night last week and the judge let him go with the understanding that he could get off by paying a fine if he did not take a drink of liquor before Monday. Gus was true to his word and showed up with the dough this morning. The Judge warned him that if he ever got drunk again it would go hard with him.

William Watson was fined \$1 and costs, \$5 in all.

The Transient Traders' case against Mr. Sharpero was adjourned until the 2nd of October. The case was argued this morning by Counsels Lewis and H. D. Smith, the former appearing for Sharpero.

GETTING NEXT TO THE FAMILY.

The forum of the American purchasing public is distinctly in the house. All the we eat, wear and use in a thousand and one different ways has its origin of demand in the household, and the product that succeeds in obtaining a firm footing in the household is sure to bring success to the advertiser.—Ad. Sense.

This is concentrated extract of "ad." sense. It touches the vital point. One of the chief sources of The Planet's strength with advertisers is its standing as a home newspaper. It "gets next" to all who have a voice in the appointment of the household expenditures, and is worth ten times as much to any merchant as a medium that has access only to the treasurer of the family.

CANADA'S STATESMAN.

We hear a great deal about the ignoring of Mr. Haultain in connection with the festivities at Edmonton and Regina, but no one has yet called attention to the fact that throughout the proceedings and in none of the speeches was the name of Sir John A. Macdonald mentioned—the statesman who by his wisdom and political sagacity laid the foundation that made possible the creation of the new provinces, at least at the present time. Without Sir John with his great and abiding faith in the future capacity and capabilities of the Northwest, that vast country would not have been acquired from the Hudson Bay Co., perhaps for many years after it became truly part and parcel of the Dominion, and to the same statesman we owe the inception and triumphant completion of the C. P. R. in the face of the strenuous opposition of the glib-tongued gentlemen and their friends who played the leading parts in the inaugural proceedings at the two new capitals.—Ridgeway Dominion.

POWER AT NIAGARA.

The Iron Age supplies the following authoritative summary of the progress of electric power at the Falls, and its present status:

"On Aug. 26, ten years ago, the Niagara Falls Power Company sent out its initial supply of electric power to its first customer, the Pittsburgh Reduction Company. This was for the operation of the upper plant of the reduction company, which was the first factory to be located on the power company's lands. The second block of power was supplied to the Carborundum Company about a month later. To-day the power company's consumers are numbered by the hundred, nearly all the factories in Niagara Falls and many in Buffalo and at intervening points being operated by this company's power. The electric power development has resulted in the location of many new electro-chemical industries in proximity to the Falls, and has doubled the population of the city. The original capacity of the power plant was 50,000 electrical horse power, which has since been doubled. In addition to the Niagara Falls Power Company, two other power companies have come into existence on the American side, and three on the Canadian side of the river, with plants having an available capacity of nearly 1,000,000 horse power."

It appears that the American interests at Niagara Falls have got a long way the start of Ontario in the utilization of the power generated there, and build on a capacity to absorb all that can be supplied. To the industries above referred to is to be added a demand for railway purposes to an extent unlimited. Already the power of the Canadian Falls is flowing to the other side of the river. It may require vigorous interference to prevent its exhaustion on foreign account, just as our natural gas has been drained away to cheapen the industrial facilities of rivals.

DOUGH HEADS WIN

An extremely exciting game of bowling was played on the Park on Friday afternoon, when the Dough Heads defeated the Hot Heads in a closely contested encounter. As a result of the game the Dough Heads are a necktie in advance, gifts from the Hot Heads. Another game for the same prizes were played Saturday afternoon, as the losers claimed the grounds were poor. The following was the score Friday:

Dough Heads—Messrs. McGregor, McDonald, Heath and VonGuten, skip 23.

Hot Heads—Messrs. J. B. Rankin, Hodgins, R. G. Fleming, and Dr. J. L. Bray, skip 18.

Talents never wear out.

TELEPHONE TALKS.

TO TELEPHONE USERS AND THE GENERAL PUBLIC.

Though the rapid growth of the telephone business is one of the marvels of this generation, yet it is apparent to those who have considered the matter, that the record of the past twenty-five years will be exceeded even in the next decade.

An expert witness stated before the Special Committee that from \$15,000,000 to \$20,000,000 per annum would be required for years to come, in Great Britain alone, to meet the demand for telephone service.

Another expert stated that the investment in farmers' lines alone, in the States of Ohio, Indiana and Illinois, represented a capital of upwards of \$50,000,000.

In Canada, the number of telephone subscribers has doubled in five years, and the long distance line mileage has increased in the same proportion.

The capital investment has likewise been doubled, emphasizing the fact that a telephone company, to maintain its existence, must have a continuous increase of capital.

The greatest of all telephone problems is the extension of the service to farmers. An expert witness declared before the Special Committee that the financial obligations in providing a farmers' telephone service in Canada, were greater even than the Dominion Government could safely undertake. His advice was that the farmers should unite with the Company in providing telephone service for themselves, upon the co-operative plan, thus securing service at the lowest possible expense, while securing the advantages of both local and long distance connections.

This recommendation is the result of experience, and the advantages it contains are offered by The Bell Telephone Company of Canada to those who wish to avail themselves of it.

Big Convention of Dominion Manufacturers Held, Mr. and Mrs. John Piggott of this City Attended

Mr. and Mrs. John Piggott have returned home from Quebec, where Mr. Piggott has been attending the annual convention of the Dominion Manufacturers' Association. They report a very pleasant time, the Quebec people being excellent entertainers.

"We had a most successful convention," remarked Mr. Piggott this morning, "and of the entertainment provided by the Quebec people I can only say it was of the very highest and best. We were in Quebec three days, arriving there on Monday. There were 160 members of the association present during the proceedings, from all over Canada. There were quite a number of delegates from Winnipeg and also from St. John, N. B."

The city gave us a grand reception, one of the finest demonstrations I ever attended. It was given in the City Hall, which was appropriately decorated for the occasion. Speeches were made and musical numbers given, and refreshments were served. Mayor Parent presided and was most courteous.

"On Tuesday we had a trip in the Government steamer 'Druid' and were shown over the harbor and also visited the new Government bridge which is in the course of erection over the St. Lawrence River two miles below Quebec. It is said this will be the biggest bridge in Canada. It will cost six million dollars."

"Wednesday night we closed with a large banquet at which 200 people were present and speeches were given by prominent parliamentarians. The ladies were very ably looked after by Mrs. Amyott, who gave an At Home at the Government House and also provided a drive around the city. Mrs. Amyott is an excellent entertainer and she was very gracious and willing in extending courtesies to the visitors."

GOOD TIME

Mayor Cowan has received an invitation from the Brantford authorities to be present at the ceremonies there September 30th. Brantford has had no connection with the main lines of either of the large Canadian trunk roads until it persuaded the G. T. R. to make a detour and take them in on the route of their main line. This has been done and the present ceremonies are attendant upon the inauguration of the new order of things.

Many prominent political and business men will be present, including Premier Whitney, Hon. C. S. Hyman, Sir Wm. Mellock, Hon. Wm. Patterson and others. Invitations have also been extended to the mayors of neighboring municipalities and the presidents of the banks represented in Brantford as well as the managers of the Canadian railroads and proprietors of Canadian papers. The G. T. R. has generously offered to furnish accommodation and transportation for all these who wish to attend.

Will Burn and Sack.

Cadiz, Sept. 23.—Report from the famine districts show that the workmen threaten to burn and sack if they are not furnished with food. Appeals have been sent to the Government to distribute rations.

In order to secure the full benefit of the Government grant, the directors of the Fair on Sept. 26, 27 and 28, have increased the prize list to a considerable extent. The result is more entries and a better showing than ever.

STRIKING SCHOOL BOYS.

Will Not Go Back Till Peterboro School Plumbing Is Repaired.

Peterboro, Sept. 23.—A peculiar state of affairs developed early yesterday morning at the Central school, when twenty-five boys in J. T. Wallace's room went "on strike," as they call it, until the alleged unsanitary condition of the building is remedied. The boys will not return until the plumbing beneath the floor has been fixed. The School Board maintains that the conditions are not unsanitary, and have strongly denounced the action of the lads. The boys are considered as truants in the eyes of the law and will be severely dealt with.

Turbinia Was In Fault.

Toronto, Sept. 22.—As a result of the inquiry into the Turbinia-Primrose collision of August 12, Commander Spain has suspended the certificate of Capt. Bongard of the former steamer for nine months from that date. Capt. Bongard holds a certificate of service as master of a fore-and-aft rigged sailing ship in inland waters. This certificate is endorsed to permit him to act as master of a steamer also, but Commander Spain finds that it does not entitle him to command a passenger steamer. He is not censured officially for this but to resume command of a passenger steamer he must possess himself of the requisite papers. Both steamers are held to have been transgressing the harbor rules in the matter of speed, but the Turbinia, being the overtaking vessel, should have kept clear of the Primrose.

Orders for bookbinding should be left at this office. It is surprising how nice a volume can be made of these magazines, even though they are somewhat soiled from much handling. Books, magazines or periodicals bound or rebound in any style at very reasonable prices. Blank books, such as journals, ledgers, day books with any kind of ruling, made to order. All work warranted first class.

Subscription For Widow.
Detroit, Sept. 23.—Nearly \$500 were raised by public subscription for Mrs. George Johnston, whose husband, a mason, was killed a few days ago by falling from the fifth story of the new twelve-story Breitmeyer building. The Breitmeyers have also promised Mrs. Johnston a life janitorship in the new building as soon as completed. She has temporary employment. The Johnstons came here a few weeks ago from Toronto, and were in destitute circumstances. A 14-year-old son is a bank messenger in Toronto.

Second Death From Toadstools.
Toronto, Sept. 23.—At 4.30 a. m. yesterday, Andrew Jackson Goulding died at his home, 14 McMurray avenue, as a result of partaking of toadstools with his wife and family on Sunday in the belief that they were mushrooms. Mrs. Goulding and her eight children are all said to be now out of danger, with the exception of Herbert Goulding, aged 24 years, who is still very low. Mr. Goulding was 54 years of age, and leaves a wife, three daughters and five sons to mourn their loss.

8-YEAR-OLD GIRL MISSING.
Foul Play On the Part of Tramps Is Suspected.
Prescott, Sept. 23.—The entire community of Roebuck and Denville is aroused over the disappearance of an eight-year-old girl.
On Wednesday John Gill, a farmer living six miles north of Prescott, sent his little daughter on an errand across the fields to a neighbor's house. She arrived there safely and left about 10.30 and has not been seen since.
Foul play is suspected, as four rough characters were seen in the swamp near her home that night, and it is reported they tried to hold up a man near midnight.
Toronto Man Confesses Murder.
Oakland, Cal., Sept. 23.—Quite a commotion has been caused in this neighborhood by the appearance of a tramp claiming Toronto, Ont., as his home, and claiming to be the real murderer of little Florence Barker of Petaluma, Cal., six years ago. James V. McCloud, the accused murderer, has served six years of a life sentence, and by appearance he will be released and another claimant to his cell put in his place.
Woman Wrestles With Burglars.
Brampton, Sept. 23.—Shortly after midnight yesterday Mrs. James Ward, who lives with her two sons, was awakened by a burglar in her room. He immediately seized her wrist and demanded a large sum of money. She had taken out of the bank the day before. She pluckily resisted, but finally told him where the money was concealed. The midnight visitor looked her in her room and went for the money. Mrs. Ward then raised her window and screamed and in a short time the neighbors appeared, but failed to locate the burglar. Luckily the money was not in the place indicated, and beyond the nervous shock and scare no damage was done.

He Will Cure You First Then You Pay Him

The physician, who has not sufficient confidence in his own ability to cure his patient first, will not pay after he has cured him. Dr. Goldberger's method is to cure first, and then pay. He is a known expert in his chosen specialty, and offers you the best, and only the best treatment. When your life or your health is at stake, inferior treatment (which leaves after-effects worse than the disease itself) is dear at any price.
Dr. Goldberger has 14 diplomas and certificates from the various colleges and state boards of medical examiners, which should be sufficient guarantee as to his standing and ability. It makes no difference who has failed to cure you, it will be to your advantage to get the doctor's opinion of your case free of charge. He wants to hear from patients who have been unable to get cured, as he guarantees a cure. He will cure chronic, nervous, blood and skin diseases, which he accords for treatment. He not only cures the condition itself, but likewise all the complications, such as rheumatism, bladder or kidney troubles, blood poisoning, physical and nervous debility, lack of vitality, stomach trouble, etc. All medicines for patients are prepared in his own laboratory to meet the requirements of each individual case. He will send a diet on the subject, which contains the 14 diplomas and certificates, entirely free. All mail orders for Canadian patients sent from Windsor, Ont., duty and transportation prepaid. Address: 511 St. John St., Dr. S. Goldberger, 508 Woodward Ave., Suite 511 Detroit, Michigan.

value he has given the patient, but he expects to prove his worth and show positive and satisfactory results before he asks for the fee. So, should he fail to cure the case, the patient loses nothing, while the doctor, when he cures the patient, has given him what is worth much more than money—he has given him his health back. Dr. Goldberger is the first specialist in the United States or Canada, who has had sufficient confidence in his ability to say to the afflicted that no dollar need be paid until cured.
There is no guesswork, no experiment about his method. He is a known expert in his chosen specialty, and offers you the best, and only the best treatment. When your life or your health is at stake, inferior treatment (which leaves after-effects worse than the disease itself) is dear at any price.

STAB AMOS MARLOW

Canadian Peacemaker Dies At Italian Hands.

SUSPECTS IN TORONTO JAIL

Scene of the Murder Was the Windsor Hotel, Mimico—Result of a Quarrel In the Barroom—Victim Was Trying to Quell Disturbance When He Was Stabbed Twice and Died Almost Instantly.

Toronto, Sept. 23.—Amos Marlow, a factory employee, aged about 35, was murdered last night at Mimico, and the assassin is supposed to be one of half a dozen Italians who were arrested. Marlow was stabbed. He died almost immediately.

There was no premeditation. It was the outcome of the victim interfering in a quarrel between some of the foreigners, who are laborers in the vicinity. The authorities think they have the guilty party in Dominique Taberinto. All the suspects are held till to-day by the Toronto police.

"I am stabbed!" Gasping these words Amos Marlow with two knife wounds in his side staggered from the barroom door of the Windsor Hotel at Mimico and fell dead on the steps of the rear entrance.

In an inoffensive manner he had tried to quell a quarrel among several Italians employed at the Mimico Brick yard, and was cruelly murdered.

There seemed to the few laborers on the spot to be almost no motive for the deed, for he had been sitting in the barroom a moment before talking to a friend and had no part in the wrangle among the Italians. "Curly" Marlow, as he has been best known, was a Canadian who has been working for the Ontario Sewer Pipe Co. at Mimico since last May, though he is a moulder by trade. He worked for several months at the Deering works in Hamilton before coming to Mimico. His friends are said to live at Brockville.

Murder in Labelle.

Rouvier Will Demand Disavowal.

Paris, Sept. 23.—The offensive attitude of Venezuela towards M. Taigny, the French charge d'affaires at Caracas, has aroused indignation in official quarters here. Although the Ministry has not yet taken definite action, it is said in the highest quarters that Premier Rouvier will demand that Venezuela disavow the offensive action and adopt a course conformable with the usual courtesies of diplomatic intercourse. The subsequent course of France will depend upon Venezuela's reply.

If you think you believe all you hear, don't imagine that every one else is similarly impressed.

A mother's love starts a man or woman on the right path. The right remedy at the right time fits a mother for the ordeal. Motherhood is often looked forward to with feelings of great dread by most women. Here is a medicine that has stood the test of a third of a century with approval, in which time it has sold more largely than any other remedy put up specially for women's weaknesses. It is guaranteed by the proprietors not to contain a particle of alcohol—which could only do harm to a sensitive system.

The World's Dispensary Medical Association, of Buffalo, N. Y., proprietors of Dr. Pierce's Favorite Prescription, offer a \$500 reward for women who cannot be cured of Leucorrhoea, Female Weakness, Prolapsus, or Falling of Womb. ANNOUNCEMENTS

At The Grand—
Isle of Spice—Sept. 25.
Down By The Sea—Sept. 27-28.
The Isle of Bong Bong—Oct. 5.

(Supplied to The Planet by Press Agents.)

"ISLE OF SPICE."

After a record of a hundred and fifty nights each in Chicago, Boston and New York City, the "Isle of Spice," described as a piquant musical mixture, will be seen at the Grand to-night.

The entire company, principals and chorus, numbering over seventy people, who were responsible for the great success of the New York run, which has recently been brought to a successful close, together with the scenery, costumes and sensational electrical effects, will be seen here. A perfectly drilled army of musical supernumeraries, youthful, pretty of face, graceful of movement and exquisitely gowned, fill the scenes continually, it is said; lights and all the other accessories of brilliant stage surroundings dazzle the eye, while the music tickles the palate, and the comedy pleasantly excites the risibilities.

Although there are fourteen or fifteen musical numbers in the piece, it has been said that there are more popular song hits in the "Isle of Spice" than in any musical comedy or comic opera ever written. Among them may be mentioned: "Peggy Brady," "The Broomstick Witches," "Mercenary Mary Ann," "The Goo Goo Man," "Any Old King Will Do," "The Sam's Marines," "The Maid of Nicobar," and "How Can You Tell Till You Try." For the music Paul Schindler and Ben M. Jerome are jointly responsible, while the book and lyrics are by Allen Lowe and George E. Stoddard.

The day of the blood and thunder melodrama has passed. The unusual climaxes are exaggerated characters of the palmy day series.

of theatrical entertainment are not tolerated by the up-to-date patron of the drama. "Down by the Sea," the attraction announced for presentation at the Grand on Wednesday and Thursday does not depend on horse play and maudlin sentiment for its success. Its quiet and charming story is free from all melodramatic exaggerations. The entirely human manner in which the actors interpret their respective roles and the way the most powerful situations thrill the audience by the quietest methods imaginable, have earned for this attraction a position on the dramatic stage with such plays as "Way Down East" and "Shore Acres." The scenic effects are magnificent and elaborate and include some startling realistic electrical novelties, particularly in the storm scenes of act three. The company is usually powerful and the attraction is one of the most expensive of its kind on tour. The engagement is limited to two nights, which are during the Chatham Fair, Wednesday and Thursday, Sept. 27th and 28th.

EVANGELISTIC UNION NOTES

"A day in Thy courts is better than a thousand," and yet many of your readers may not know some of the spiritual delights that burn and brighten localities, outside the court of their own church. So we shall begin the day at the Sabbath sunrise service at the Barracks, where are found a number of men and one woman all entering heartily into the exercises of the hour; it is their annual harvest festival day and praise and thanksgiving abound; in their prayers for the great world white unto harvest; every church and pastor in town is remembered. After breakfast our comrades scatter to their class meetings and church prayer meetings; others go visiting the sick and the non-church-goers, inviting them and their children to attend, and an hour or so is often well spent before the 11 o'clock morning congregations assemble, where all active workers attend. After dinner comes the Sunday school work, by our hundreds of teachers, amongst our thousands of scholars.

By the way, there is an invitation out for a united gathering of the teachers of different denominations to meet socially Tuesday evening at Christ Church school room to confer on our teachers.

The usual jail meeting held weekly by the soldiers was omitted owing to special doings at Barracks, so other Union men held an hour's service with the prisoners. They used the Book of Common Prayer, that marvellous of devotion, and a more orderly, respectful and attentive congregation could not be found. The occasion would have been improved had each man had a Bible to read the responsive psalms for the day. Thirty years ago, when attending a similar service, Bibles were there for the use of the prisoners, and they are needed now. The Bible Society will supply them at cost. A word to the wise, etc.

For a short time two brethren visit the home of Mr. Arthur Andrew for praise, prayer and fellowship. They find him away with several others conducting the usual afternoon meeting at our County House of Refuge, while the Home of the Friendless is attended by a number of lovers of God and humanity, with a bright, cheerful hour spent with those old people, who often take part in the gospel songs, prayers and testimonies.

Next comes supper, then we all scatter to our different places of worship for evening service, and the day and its record has passed into eternity.

SPRAINED HER ANKLE.

"I slipped on an icy step and sprained my right ankle very badly," writes Miss Minnie Burgoyne, of Glenwood. "It swelled to a tremendous size and caused intense pain. I applied Polson's Nerviline and got prompt relief; the swelling was reduced, and before long I was able to use my foot." For sprains, swellings and muscular pains Nerviline is the sure remedy. Strong, penetrating, swift to destroy pain—that's Polson's Nerviline. Fifty years in use.

VIA GAS ROUTE

Guest at Rankin House has Narrow Escape From Asphyxiation

A young commercial traveller, stopping at the Rankin House, had a very narrow escape from asphyxiation last night. He sought his room about 11 p. m., and found that he had only the stub of a match in his pocket. He turned on the gas but the match went out before the gas was lighted. Thinking he could find a match in the room he began a search, leaving the gas turned on. His search proved futile and he retired without a light, forgetting all about the escaping gas, and was soon asleep.

There he might have been yet had not the guest occupying the next room come in quite late and, noticing the strong odor, raised his window. As there is only a light partition between the two rooms a great quantity of the deadly stuff escaped by the open window.

No bad effects were experienced by either man other than slight headaches this morning.

WILL GET BOOKS

Chairman Morley will Grant Mayor Permission to Peruse Board's Books

Mayor Cowan informed The Planet this afternoon that he has made application to Chairman of Trustees W. N. Morley for the books of the Public School Board, and he received a favorable response.

"I have been informed by Chairman Morley," said Mr. Cowan, "that the books will be placed at my disposal either to-day or to-morrow, when I shall have an opportunity of investigating further the matters concerning the School Board that have been referred to, by me, in the press. I have only, so far, made charges against two of the trustees, Messrs. Robertson and Paxton, which I shall proceed to substantiate. It may be depended upon that the matter will be gone into fully and thoroughly investigated at the earliest possible moment."

FREE DRINKS

Unlicensed Chatham T. Tavern Supplied Booze Free A Mecca for Thirsty Ones

That License Inspector Massey meant what he said when he announced that under the new regime the liquor laws must be strictly observed was further evidenced at County Court this morning in the case against Wm. Rose, a second offence, charged with selling liquor without a license. Crown Attorney Smith appeared for the prosecution and J. A. Walker, K. C., for the defence.

An interesting defence was established and the defendant escaped with the Scottish verdict. It was alleged that the liquor dispensed at Rose's place was handed out free, Wm. H. Pool being the good Samaritan. The witnesses all swore that Pool donated the liquor to the Basswood House, that it was placed on tap at the bar and handed out free to all thirsty visitors.

It was a novel defence and, while both Inspector and Magistrate seemed somewhat strangely questioned it, it went for what it was worth.

WORTHY WORK

Game Warden Wigle Continues his Excellent Administration—Work at Mitchell's Bay

Game Warden Wigle returned this morning from Mitchell's Bay, where he has been on an official visit for the past week. Mr. Little, the overseer from Wallaceburg, joined him there and the Warden went carefully over the whole locality and struck a line from Tick Tack Point to Grassy Point.

All nets are now removed outside that line and thereby all the objections of the anglers are removed. "The bass fishing is something immense," said Game Warden Wigle in a brief interview with The Planet. "They are securing some of the finest strings I ever saw."

"I should be pleased," he continued, "if The Planet would emphasize the fact that late shooting is strictly prohibited and the law in that regard will be rigidly enforced. Mr. Geo. Kime has been appointed deputy at Mitchell's Bay to strictly look after this matter."

Mr. Wigle's attention was called to an item in to-day's Detroit paper saying that sportsmen were objecting to the close season on quail, claiming there were lots of birds. Mr. Wigle said that the close season had been declared on account of the scarcity of the birds and that the item was probably the result of the fact that there were a few birds in Essex that pot-hunters wanted to kill off. It would not, however, be permitted.

On every hand Game Warden Wigle is being praised for his firm and sportsmanlike administration of the game laws.

GOING TO OSGOODE

Harry S. Pritchard, who for the past three months has been a valued assisting member of The Planet's editorial staff, laid aside his journalistic work on Saturday to leave for Toronto to-morrow, where he enters upon his final year at Osgoode Hall. During his connection with The Planet Mr. Pritchard has earned the high esteem and appreciation of this journal for his splendid ability, unfailing courtesy and untiring energy. The Planet can make no better wish for Mr. Pritchard's future than that he will prove as good and successful a lawyer as he has a journalist.

FOR A CAUCASUS PEACE

Tartars and Armenians Sign Preliminary Agreement.

Will Meet in General Conference to Draft Treaty to Prevent Further Trouble Between Themselves—Ten Millionaires on Each Side Agree to Guarantee the Strict Observance of the Agreement.

Baku, Sept. 25.—A conference of representatives of the Armenians and Tartars under the presidency of Prince Louis Napoleon, Governor-General of the Caucasus, has just been concluded. The conference decided to summon a general congress representing the inhabitants of the Caucasus to meet in October for the purpose of considering the causes of the enmity existing between the Tartars and the Armenians; resolved to urge upon the Government the necessity for the adoption of prompt measures to ensure the safety of the life and property, and arrange that Armenians and Tartars shall become mutually responsible for all material damage in the event of massacre or pillage by either side until January, 1907.

Ten Armenians and Ten Mussulmans, all millionaires, undertook to guarantee the strict observance of the agreement.

The conference also resolved to form an arbitration court to consist of five Armenians and five Tartars, which will settle the details of the agreement and remove any difficulties that may arise. The agreement will become effective October 14.

A preliminary peace agreement between the Tartars and the Armenians was signed yesterday.

Moscow, Sept. 26.—Owing to the fact that there is no danger of police interference, the congress of Zemstvos and municipal representatives, which opens here to-day, is attracting less attention than that given to previous congresses, but the program for discussion is extremely important, as it will be a criticism of the National Assembly project.

On the Verge of Revolt. St. Petersburg, Sept. 25.—An article in The Novoye Vremya, which bears marks of inspiration, intimating that all parties in Finland are preparing for an uprising and that the country is on the verge of revolt, is attracting much attention. Finlanders fear the article was put forth on behalf of the Russian administration in Finland in order to justify more vigorous military measures.

200 Jews Arrested. Warsaw, Sept. 25.—The police Saturday night surrounded a party in which thousands of Jews were promenading. All of them were searched and two hundred were arrested.

Six Millions For Relief. St. Petersburg, Sept. 25.—Special commissions from the Department of Agriculture and Forestry of the Interior left here Saturday to take charge of the relief work in the famine districts of Russia. The cost of this work is estimated by the Government at \$6,000,000.

Deaths From Cholera. St. Petersburg, Sept. 25.—Two deaths from cholera have occurred at Blocki, a few miles from the Vistula River. The victims were members of the same family in which a death from cholera was reported last Wednesday. At Stettin one death from cholera has occurred.

THEY MUST GO BACK.

The Gaynor-Greene Extradition Case Reaches Final Stage.

Montreal, Sept. 25.—What is considered a final judgment in the Gaynor and Greene extradition proceedings was given Saturday morning by Judge Oulmet in the court of King's Bench. The judgment concluded as follows: "I am of opinion that the commitments in its face is legal and valid; that the offences charged are extradition crimes under the terms of treaty, and that the whole is supported by the information and evidence adduced, therefore the writ of habeas corpus is quashed and the prisoners are ordered to be returned to jail, to be kept under Judge Lafontaine's order of commitment."

Big Refunds to Pulp Importers. Washington, Sept. 25.—The United States has concluded to drop its contention that an additional duty should be levied on wood pulp, the product of pulp wood cut from Crown lands and private lands in the Province of Quebec. This information is contained in a letter written by James B. Reynolds, U. S. Attorney at New York, to the test case has been under consideration, many cases have been placed on the suspended files of the board of appraisers. These will now be decided and large refunds made to importers.

Sultan Fears James Bryce. Constantinople, Sept. 25.—The Porte is greatly excited over the fact that James Bryce, the British statesman and writer, author of "The American Commonwealth," is making a tour of Macedonia. Mr. Bryce is president of the English Balkan committee, and the Porte fears he is gathering material for a spectacular denunciation in the House of Commons of Turkish rule in Macedonia. Orders have been given to detectives to keep a close watch on his movements.

Dynamite Mine in Suez Canal. Port Said, Sept. 25.—Seventy tons of dynamite will be exploded in the Suez Canal next Thursday. It is among the other cargo in the hold of the British steamer Chatham, which was compulsorily sunk on September 6, owing to the unquenchable fire aboard it, which threatened to reach the dynamite. The effect of the explosion on the side and bed of the canal cannot be foreseen, and it is expected great damage will be done.

Montreal Gambling Raid. Montreal, Sept. 25.—A general round-up of gambling houses was made by the police yesterday. It resulted in 63 arrests and a great deal of excitement.

POOR SEWERS

Residents of Raleigh St. Complain that Connections Have Not been Properly Made

For several days Mayor Cowan has been receiving complaints from some of the residents of Raleigh street that the sewer connections on that street have not been properly made. It is claimed by some that instead of using "T's" in making property connections, holes have been cut into the main pipes and the property pipes shoved into them, making a job which will soon render the sewer useless as the sand and mud can easily get into the pipes.

The residents who complained wished the matter looked into now as it will mean an endless bill of expense if the sewers have to be remedied after the pavement is put down.

Mr. Phelps, one of the residents spoken of, is one of the chief complainants. When Mayor Cowan heard his complaint he asked Mr. Phelps to have one of the connections unearthed, and if conditions are such as Mr. Phelps describes, the expense of unearthing will be borne by the city and the sewers fixed, and if not the residents will bear the expense themselves.

SUDDENLY CALLED

William Norman, the infant son of Mr. and Mrs. W. J. Easton, Adelaide street, passed away yesterday, after a short illness extending over one week. The little fellow was a particularly bright child, being eleven months old. He had already won a warm spot in the hearts of his parents and their friends and the sad death is mourned by a large number. The funeral will be held on Monday afternoon at 2:30 o'clock to the Maple Leaf Cemetery.

No Trace of Lost Girl.

Prescott, Sept. 25.—Although a search has been continuously in progress since Wednesday, no trace has yet been gotten of the missing eight-year-old girl. It is not thought that she has met with foul play, but that she has strayed into the big swamp near her home and been either lost or immersed. Yesterday a party of over 200 neighbors and friends were out searching the swamp.

Russian Generals Leave.

Godzadyan, Manchuria, Sept. 25.—Gen. Kaubars, formerly in command of the Russian second army, left here Friday on a special train for St. Petersburg. From St. Petersburg, Gen. Kaubars will proceed to Odessa to assume his duties as Governor-General. Gen. Zerpitsky, the hero of Mukden, left here Saturday for Russia. He is seriously ill, and was carried to the train on a litter.

BRUNO CHARGED WITH MURDER.

Italian Implicated in Mimico Murder Remanded Until Thursday.

Toronto Junction, Sept. 25.—Before Magistrate Ellis on Saturday, Bero Bruno was charged with the murder of Amos Marlow at Mimico on Friday night. The other five Italians were held as accessories. They were all remanded until Thursday next, when they will appear at the City Hall court at 11 o'clock.

According to a despatch from Brockville, Marlow frequently appeared in Police Court there charged with drunkenness, and also served a six months' term in the Central, resulting from the same weakness. He did not return, but relatives there understood he was doing well in Western Ontario. He was about 35 years old and unmarried. He leaves four brothers and two sisters.

The week of Sept. 26, 27 and 28 promises great things for the children. Come and bring them to the Fair. They will enjoy it and remember it for years.

Every Cook Stove or Range

has an oven. But what a vast difference between them. Some ovens are no more good than if they were holes cut in the wall. Don't seem to have any excuse for ever having been made.

Not so with the ovens in the "Empire Queen" Ranges.

They respond so quickly and thoroughly to the fire that they really seem to be human. No bad baking, ruffled tempers or depleted pocket books, when they are used.

We'll be glad to show them to you and send you one on trial.

HE FALLS AS YOUNG AS EVER

Chesler Loomis Took Dodd's
Kidney Pills.

And From a Used Up Man he Became
as Smart as a Boy.

Orlando, Ont., Sept. 25.—(Special).—
Mr. Chester Loomis, an old and re
spected farmer living in this sec
tion, is spreading broadcast the good
news that Dodd's Kidney Pills are a
sure cure for the lame back and
Kidney Disease so common among
old people. Mr. Loomis says:
"I am 73 years of age and smart
and active as a boy and I give
Dodd's Kidney Pills all the credit for
it."

"Before I started to use Dodd's
Kidney Pills I was so used up I
could hardly ride in a buggy and I
could not do work of any kind.
Everybody thought I would not live
long. Dodd's Kidney Pills are a won
derful remedy."

The kidneys of the young may be
wrong but the kidneys of the old
must be wrong. Dodd's Kidney Pills
make all wrong Kidneys right. That
is why they are the old folks great
est friend.

Canadians Go To Persia For Oil.

Montreal, Sept. 23.—A party of five
Canadians from the Petrolia oil district
left by the steamship Tunisian yester
day for England on their way to Per
sia where they propose to develop the
oil fields of that country. The men,
whose names are Crawford, Kirby,
Naughton, McInyre and P. Slack, are
expert oil drillers and have obtained a
concession from the Persian Govern
ment which will enable them to enter
the field under specially favorable cir
cumstances.

BE DONE WITH CATARRH!

Why allow this filthy disease to
poison your system? It drains your
strength, ruins digestion, pollutes the
breath, makes you repulsive. The
one certain cure is "Catarrhazone,"
it cures because it destroys the
cause of the disease, cures thorough
ly because it goes wherever the cat
arrh is, cures every case because its
action destroys the catarrh germs in
stantly. To get well and stay free
from catarrh get Catarrhazone and
use it; satisfaction guaranteed.

Troops For Finland.

Helsingfors, Finland, Sept. 23.—A
large increase in the number of Rus
sian troops in Finland is expected
shortly. An explosion near the resi
dence of the Governor of Vasa Thurs
day evening created excitement, but no
damage is reported beyond the shat
tering of the windows of a neighboring
house.

NERVOUSNESS A CALAMITY.

Many who don't realize what lies
beyond, treat an attack of the
"nerves" with indifference. Others
consider it will soon pass away. But
in every case nervousness is a cal
amity. Only one remedy will cure—
Perrone— a nerve strengthener
that acts through the blood. First
it gives you that which you need
for the inner nerve cells. Energy
and strength is instilled into every
part of the system. You get well—
keep well—nervousness forever de
stroyed, because you've used Perrone.

Throw Bomb at Warsaw Bank.

Warsaw, Russian Poland, Sept. 23.—
An attempt was made at noon yester
day to destroy the Shensky Bank. A
man threw a bomb at an open win
dow of the bank, but missed his aim
and the missile exploded in the court
yard, dangerously injuring the per
petrator, a young Jew. It
appears that the outrage was due to
the fact that the bank officials had re
fused to contribute to the funds of the
revolutionists.

ARE YOU COSTIVE?

If you knew how bad for health
constipation is you would be more
careful. Irregular bowels cause ap
pendicitis, jaundice, anæmia and a
thousand other diseases too. Sooner
or later it will bring you to a sick
bed. The use of Dr. Hamilton's
Pills changes all this quickly. They
are made to cure constipation in one
night, and always do so. By taking
Dr. Hamilton's Pills you are sure of
a keen appetite, splendid color, jovial
spirits and sound, restful sleep. Gen
tle in action; good for men, women
or children. 25c. per box, or five for
\$1.00. At all dealers in medicine.

"Keeping at it" is a mighty good
substitute for real genius.

The worries of a weak and sick
mother are only begun with the birth
of her child. By day her work is
constantly interrupted and at night
her rest is broken by the wailing of
the praviish, puny infant. Dr. Pierce's
Favorite Prescription makes weak
women strong and sick women well.
It lightens all the burdens of matern
ity, giving to mothers strength and
vigor, which they impart to their
children. In over thirty years of
practice Dr. Pierce and his associates
have treated a score of physicians
who were invited to consult Dr.
Pierce by letter free of charge. All
correspondence is strictly private. Ad
dress Dr. R. V. Pierce, Invalids' Ho
tel and Surgical Institute, Buffalo,

Maudsland, captains of the Beaverlton

THREE JURORS CURED

Of Cholera Morbus With One Small
Bottle of Chamberlain's Colic,
Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler, of Hightower,
Ala., relates an experience he had
while serving on a petit jury in a
murder case at Edwardsville, county
seat of Clouborne county, Ala. He
says: "While there I ate some of the
meat and some soups and it gave me
cholera morbus in a very severe
form. I was never more sick in my
life and sent to the drug store for a
certain cholera mixture, but the drug
gist sent me a bottle of Chamber
lain's Colic, Cholera and Diarrhoea
Remedy instead, saying that he had
what I sent for, but that this medi
cine was so much better he would
rather send it to me in the fix I was
in. I took one dose of it and was
better in five minutes. The second
dose cured me entirely. Two fellow
jurors were afflicted in the same
manner, and one twenty-five cent bot
tle cured the three of us." For sale

Repeat the Scott Act.

Ottawa, Sept. 23.—Steps are now
being taken in Prince County, Prince
Edward Island, to have the Scott
Act repealed and have a local law
substituted therefor. It is said that
the local law is more stringent. The
Scott Act was first adopted in Prince
County in 1878.

DEAFNESS CANNOT BE CURED.

By local applications, as they can
not reach the diseased portion of the
ear. There is only one way to cure
deafness, and that is by constitution
al remedies. Deafness is caused by
an inflamed condition of the mucous
lining of the Eustachian Tube. When
this tube is inflamed you have a
rumbling sound or imperfect hearing,
and when it is entirely closed, Deaf
ness is the result, and unless the in
flammation can be taken out and this
tube restored to its normal condi
tion, hearing will be destroyed for
ever; nine cases out of ten are caused
by Catarrh, which is nothing but
an inflamed condition of the mucous
surfaces.

We will give One Hundred Dollars
for any case of Deafness (caused by
Catarrh) that cannot be cured by
Hall's Catarrh Cure. Send for circulars,
free.

Dear Sirs,—While in the country
last summer I was badly bitten by
mosquitoes, so badly that I thought
I would be disgraced for a couple of
weeks. I was advised to try your

did so. The effect was more than I
expected, a few applications com

MINARD'S LIMENT is also a good

SERIOUS ACCIDENT

John Maggs, a resident of Murray street, met with a serious accident at Blenheim on Saturday evening. He was driving in a rig with another man named Mr. Thompson, of Abernethy, Scotland, when the horse became frightened at a train and ran away. Mr. Thompson jumped from the rig and came off unhurt while Mr. Maggs, who was driving, held on to the reins and attempted to get the animal under control. He was unsuccessful, however, and was thrown out of the rig into a ditch ten feet deep, sustaining severe injuries. He was removed to Dr. Langford's office, where it was found he had received a severe gash in his head which required sixteen stitches in dressing. Mrs. Maggs drove out to Blenheim yesterday and brought him home. While his injuries are very painful, he is able to continue his work this morning.

PRINCE CHARLES OF DENMARK.

During the past week there has been increasing agitation over the question of a constitution for Norway. The Republicans made great efforts to organize a party, but they are in a hopeless minority, as the candidature of a Bernadotte prince has been abandoned. All attention is now directed to Prince Charles of Denmark, who, if he accepts the throne, will be enthusiastically received.

AGREEMENT ON ALL POINTS.

Norwegian and Swedish Delegates Successfully Finish Their Work.

Karlstad, Sept. 25.—After protracted sessions extending over some weeks, the Norwegian and Swedish delegates have here to settle the terms of separation of the two countries early Saturday evening arrived at an agreement on all points. The terms were not made public.

Peculiar Negotiations.

The negotiations which are now concluded were peculiar in nature. On one side, the delegates were four Swedish men, who at the time of the Riksdag decision were leading members of the committee which framed the Swedish conditions to assent to dissolution. On the other side the delegates were men who led Norway in its revolution of June 7, but who were not guided by any mission of the Riksdag. On the contrary, their every act was looked upon with suspicion by men more radical.

When Sweden's conditions were made known, many voices in Norway were raised against assenting to them. Premier Michelsen of Norway was more conservative, and seeing the consequences to Norway of a breach with Sweden was willing to enter into an agreement so long as it was honorable to Norway and preserved as much as possible her national pride. Mr. Berner, President of the Norwegian Storting, and Mr. Loveland, the Norwegian Foreign Minister, were perhaps "not so" but they followed Premier Michelsen.

For Good Feeling.

The purpose of the Swedish delegates was to make an agreement preserving the good feeling between the two peoples. From his viewpoint, of course, Sweden was compelled to insist upon demolition of the frontier fortifications, which Norway, notwithstanding the close relations of the countries, had erected against Sweden's entirely unprovoked invasion. The first purpose of the Swedish delegates was to express as little as possible the feelings of Norway and the Swedish delegates throughout the proceedings have tried to find out a way in which the fortress could be made less threatening, while the others they contended should be demolished. It is believed this point was successfully carried. The Swedish delegates were also anxious to preserve free and untrammelled intercourse between the two countries, and they therefore proposed that Sweden should be made regarding transit and railways which were equal in benefit to both, and which would prevent one country from interfering with the other. These matters also were settled to the satisfaction of both sides.

Hunting of Reindeer.

Finally Sweden did not consider that she could leave unprotected the interests of the poor nomadic Laplanders, who, for their existence, depend upon the use of pastures in both countries at different seasons for their reindeer. The Norwegians held out against the granting of this right, which had been established for centuries, but it is thought they at last gave in.

QUESTIONS FOR THE HAGUE.

Limitation of Armaments Urged By the Peace Advocates.

Lucerne, Sept. 25.—The final session of the International Peace Congress Saturday adopted a proposition of the British delegates for the formation of clubs in various centres to further the peace movement. Resolutions were also passed requesting the Hague Congress to discuss the question of limitation of armaments, the creation of an international assembly to discuss questions of general interest, and the codification of international laws. The congress expressed the opinion that neutral powers should interdict the public issue of war loans in their territories. The conference will meet next year at Milan.

PHONE SAVES LIFE.

Windsor Man Called Up Guelph and Headed Off Death.

Guelph, Sept. 25.—Early Saturday afternoon a long distance telephone call from Windsor asked one of the local papers if a man by the name of Sterling had suicided in Guelph. A reporter who hurried over to the hotel startled the proprietor by the query. The door of Sterling's room was found to be bolted on the inside. The door was broken in and the man found stretched unconscious on the bed, apparently under the influence of some powerful drug.

Medical aid was summoned and Sterling was finally brought around. His first words were for a cigarette. He probably had taken the drug in the hospital and will probably recover.

The telephone message undoubtedly saved his life. He had written to F. S. Maroon of Windsor saying "when you receive this I shall have ended my life."

Sterling was formerly a resident and while in that city made several attempts to end his life. He is about 30 years old and was formerly employed by the Walkerville Match Co. as a travelling salesman.

HUNGARIAN CRISIS NOW

Count Cziraky's Mission With Coalition Leaders Fails.

Attempt of King-Emperor to Formulate Program For Government Is Declared to Be Impossible—Francis Joseph's Ultimatum Cannot Be Accepted By the Hungarian Nation—Public Opinion Behind Coalition.

Vienna, Sept. 25.—The King-Emperor Francis Joseph received in audience at the palace Saturday morning the five leaders of the Hungarian coalition parties (Count Julius Andrássy, Francis Kossuth, Baron Banffy, Count Zichy and Count Albert Apponyi), and suggested that they enter into negotiations with Count Goluchowski, the Minister

of the Imperial and Royal house, relative to the formation of a Hungarian Cabinet.

The King-Emperor showed himself ready to make what he regarded as appreciable concessions in the direction desired by the Hungarian nation.

Count Cziraky Fails.

Vienna, Sept. 25.—Count Cziraky, who was Saturday appointed by the King-Emperor, Francis Joseph, to negotiate with the leaders of the coalition parties in the Hungarian Diet with a view to the formation of a Hungarian Cabinet, had a conference with these leaders yesterday at the Hotel Bristol lasting for an hour and a half. It is understood that the count received from them a written declaration to the effect that they would be unable to assume the responsibility of government on conditions imposed by His Majesty, as these conditions were directly in opposition to the personal view, and also in opposition to the mandate of the people at the last election.

An Ultimatum.

Buda-Pesth, Sept. 25.—All parties here discuss without special comment the meeting between the King-Emperor and the coalition leaders Saturday, and the conference between the leaders and Count Cziraky yesterday.

They describe the King-Emperor's conditions as an ultimatum which cannot be accepted by the Hungarian nation.

The entire press is united in warning the people to act with reserve, pointing out that prudent observance of the law is their best weapon.

It is expected public opinion will stand solidly behind the coalition for some time to come.

French Republic Scared.

Paris, Sept. 25.—Constans remains in French naval circles because the plans of the best French submarine have been obtained by the German naval constructors.

A despatch published recently in several papers states that a submarine boat had been launched at Kiel, and that the vessel had been constructed on plans made by a French engineer. It was asserted these plans had been treasonably sold to Germany.

M. Laubeuf, the naval constructor upon whose plans the largest type of French submarine has been built, has declared his belief that the boat launched at Kiel is a copy of the Aligrette.
