OTTAWA :

PRINTED BY TAYLOR & GILBERT, 208 SPARKS STREET.
1896

NOTICE.

The Bell Telephone Company of Canada assumes no liability whatever for damages occurring from errors or omissions in the making up and printing of this Book.

Persons representing themselves as Telephone employes should not be admitted to subscribers' premises unless they exhibit a Bell Telephone Badge.

Complaints regarding inattention or interruption to the service should be sent to the Local Manager, 60 Queen St., Telephone No. 188. Don't complain to the Operator.

REMOVALS AND ALTERATIONS.

Subscribers who may require their telephones moved from one address to another, or taken down or removed temporarily during alterations to their premises, are requested to give in writing to the Local Manager as early notice as possible of their requirements, so as to avoid any break in the communication. Only the actual cost of material and labor involved in such change is charged for.

Instructions and Suggestions.

—:—

DESTROY ALL PREVIOUS LISTS.

—:—

Call by Number.—The Operator will immediately connect with the number, or notify you if the line is busy.

When through talking ring once for disconnection ; **YOUR LINE MUST BE REPORTED "BUSY"** until you do so.

Much dissatisfaction arises from improper use of the instrument. Face the transmitter with the mouth about three inches from the opening. Speak naturally, distinctly and not too rapidly.

Answer your bell as promptly as you do a person speaking to you direct. Do not answer a call by ringing the bell.

The use of profane, obscene or improper language over the lines is strictly forbidden. Subscribers will be held responsible for the enforcement of this rule, and if such language is persistently indulged in, the telephone will be promptly removed.

Do not allow non-subscribers to use your telephone. It is unjust to other subscribers, impedes the service, and is a violation of your contract.

Complaints to Operators avail nothing.

Do not use the Telephone during a thunder storm.

—:—

"LINE IN USE," OR "LINE BUSY."

About ten per cent. of all calls made find the line wanted "busy." This can readily be understood from the fact that each wire is connected, upon an average, about fifteen times a day. On the railway and heavy commercial wires this average is more than trebled. Operators will always inform a subscriber when the line is in use. Subscribers are inclined to think because lines are often reported "busy," that the Operators do so to save labor, when, in fact, it is less difficult to make a connection than it is to report back to the one calling "the line is busy." Consideration of this fact, coupled with a visit to the Exchange, will enable subscribers to realize how necessary it is to quickly tell the Operator what is wanted, and to just as quickly leave the telephone if the line wanted is in use by some one else. The thousands of calls that are rushed into the Exchange at irregular moments make the assistance of the subscriber an essential element of prompt service. The instant a line is reported "busy," do not keep the attention of the Operator another moment, as there are others calling who should be promptly waited on.

as
of

Long Distance Line Service.

—:—

INSTRUCTIONS.

Ring Central, and when your local operator answers, say "Give me the Long Distance Operator." When that operator answers, she should be informed who is talking. It will save time to instruct her thus: "This is Mr. Smith, I want Mr. Brown at Montreal." If the desired line is disengaged you will be connected at once; therefore retain the telephone at your ear until the connection is made. If the line is busy, the operator will advise you to hang up the telephone, and will call you when the connection is made.

Do not ring your bell while connected with a Long Distance Line until you have finished, or your line will be disconnected.

We will send messengers, when possible, to call a non-subscriber to the telephone for a reasonable messenger charge. If the person cannot be found, the messenger service only will be charged.

No charge will be made for Long Distance Line service when the particular person called for cannot be found by our operators. If, however, the subscriber personally communicates with the place of business of the person called for, the tariff will be charged, whether the person wanted is present or not.

Subscribers will be held responsible for all messages originating at their stations, or provided for and agreed to in their leases, and upon refusal to pay such messages, further use of the Long Distance Lines from such instruments will be refused.

—:—

SPECIAL.

A New Copper Metallic Circuit Line to Toronto and Western points has been opened for business.

The time unit for conversation on this line is THREE MINUTES, the overtime charge is per minute.

Long Distance Operators are furnished with stop watches in order to prevent disputes with subscribers as to time occupied. Time is not counted until conversation commences.
