INCOME TAX BILL INTRODUCED BY MINISTER OF FINANCE

Canada's Wealth to Contribute Full Share in Prosecution of the War.

A despatch from Ottawa says:—The wealth of Canada will be made to contribute its full share toward the cost of carrying on the war. In the Commons Sir Thomas White introduced his income tax proposals and the extent of the toll to be taken of the incomes of the rich met with decided approval from both sides of the House. The Finance Minister proposes to exempt the incomes of single men and widowers without children up to \$2,000, and all other persons up to \$3,000.

Income Tax and How it Works Out.
Four per cent. upon incomes exceeding \$2,000 per annum in the case of unmarried men or widowers without children.
The same tax on incomes exceeding \$3,000 in the case of other persons.
In addition the following super-tax is to be imposed:
Where income exceeds \$6,000 and does not exceed \$10,000, 2 per cent.
Where income exceeds \$10,000 and does not exceed 20,000, 5 per cent.

Where income exceeds \$20,000 and does not exceed \$30,000, 8 per cent.
Where income exceeds \$30,000 and does not exceed \$50,000, 10 per cent.
Where income exceeds \$50,000 and does not exceed \$100,000, 15 per cent.
Where income exceeds \$100,000, 25 per cent.
A tax of 4 per cent. on incomes exceeding \$3,000 in the case of corporations or joint stock companies.
The plan will work out as follows:

Income.	Unmarried.	Married.
\$ 4,000	\$ 80	\$ 40
5,000	120	80
7,000	220	180
10,000	400	360
12,000	550	540
15,000	850	810
20,000	1,300	1,260
30,000	2,500	2,460
50,000	5,300	5,260
75,000	10,050	10,010
100,000	14,800	14,760
150,000	29,300	29,260
200,000	43,800	43,760

WAR COSTS CANADA \$850,000 A DAY

Statement Showing Financial Burden Assumed by the Dominion.

A despatch from Ottawa says:—Canada's war expenditure both in the Dominion and overseas now amounts to over \$850,000 a day. This statement of the extent of the tremendous financial burden the nation is assuming, in carrying on her part in the great struggle, was given in the Commons by Sir Thomas White. The Finance Minister gave the figures to the House in explaining the necessity for the new income taxation. From the beginning of April to July 20th war expenditure in Canada amounted to \$39,700,000, and estimated expenditure elsewhere, including France, during the same period, was \$52,600,000, or a total of \$92,300,000. Taking that total as a rough basis Sir Thomas estimated the daily war outlay now at \$850,000 to \$900,000.

CANADA OBTAINS \$100,000,000 LOAN

A despatch from New York says:—J. P. Morgan & Company announced that arrangements had been perfected for the flotation of a \$100,000,000 loan of the Government of the Dominion of Canada, which will be offered to the American public upon a basis to yield approximately 6 per cent. The loan will be unsecured, and it will run for two years. The loan to Canada will be the first foreign Government transaction that has been undertaken since America's entrance into the European war.

FRENCH AND ITALIAN SHIP LOSSES LIGHT

A despatch from Paris says:—During the week ending midnight July 22 not a single French vessel either over or under 1,600 tons was lost, according to the official statement. Six French merchantmen were attacked unsuccessfully during that time by submarines. Ships of all nationalities, numbering 1,063, entered port and 937 departed.

A despatch from Rome says:—Two Italian steamers were sunk and one small sailing vessel was damaged during the week ending midnight July 22, says an official announcement. Five hundred and ninety-three vessels, with a gross tonnage of 389,815, arrived, and 550 of a tonnage of 403,450 left port.

LOANS BY BRITAIN TO HER WAR ALLIES

A despatch from London says:—Bonar Law has made a statement in the House of Commons in regard to loans to the allies and the dominions. The total advances to the allies are \$1,025,000,000 in addition to \$146,000,000 loaned to the dominions, the total being \$1,171,000,000.

RUSS TRAITORS PUT TO DEATH

Capital Punishment to be Meted Out to Seditious Troops.

A despatch from London says:—The Russian Government's policy of "Blood and Iron" is to be carried out along lines which bode ill for the seditious troops along the Eastern front and those persons within the country who are trying to nullify the good work that has followed in the wake of the revolution.
Capital punishment, abolished with the advent of the new Government, again has been put into force on the demand of the military commanders at the front, who will now be able to assemble field courts-martial and put to death summarily traitors in the army. Gen. Korniloff, commander of the forces in Galicia, whose disaffection and desertions have wrought havoc in the Russian morale, was the most insistent of the military chiefs in calling for a free hand to check the refractory troops, declaring that the death penalty was the only means of saving the army.

FRENCH CAPTURE ENEMY TRENCHES

German Losses Are Very Heavy in Aisne Region.

London, July 26.—Again the Germans have made a vicious thrust at the French line in the Aisne region of France, and again they have paid dearly in men killed or wounded for a slight gain. The attack was delivered over a front of two miles, from Hurtebise to La Rovelle, but only to the south of Ailles was the Crown Prince's army able to penetrate French first-line trenches. In Champagne the French have captured German trenches.

PLACE NEW BRIDGE SPAN ON SEPTEMBER 12TH

A despatch from Quebec says:—The centre span of the Quebec bridge will be put in place on the morning of September 12. The event was planned to take place quietly without witnesses, but an engineer of the commission is supposed to have told the secret to a newspaper man this morning.

SUBMARINE TOLL WAS 24 VESSELS

A despatch from London says:—Twenty-one British vessels of more than 1,600 tons each, and three of less than 1,600 tons each, were sunk last week by mines or submarines, according to the weekly Admiralty report on shipping losses. One fishing vessel was also lost.

The Farmer and Conscription.

There is probably no class in the community that'll benefit more by Conscription than the farming class. The lack of proper help is the greatest difficulty with which the farmer has to contend, and in this time of increased demand for production it is more acutely felt than even in ordinary times. Prices are good, the demand for farm produce is unlimited, but the farmer is often obliged to forego the opportunity which these advantages offer because of the lack of labor. Conscription, if properly enforced, should prove a remedy for this need. It may, at first sight, appear paradoxical to suggest that the withdrawal of men for the Army will enable the farmer to obtain more help, but a right appreciation of the facts will explain the seeming paradox. The fact is that there are plenty of men to supply both reinforcements to the trenches and help to the farmer, but they are at present so distributed as to deprive both the trenches and the farmer of the needed help. Conscription will give the Government such a power of redistribution as to enable them to put the man power of the country where it properly belongs. At present the military authorities are obliged to take men where they can get them and they sometimes take them from the farms where they are most needed. On the other hand many young men who were brought up on farms and who have the necessary knowledge of farming operations are engaged in non-essential occupations. The production of munitions, for example, is an essential occupation, but there are many young farmers working in munition plants, not as expert mechanics, but at work which could be just as well done by older men or by women. The enactment of the Military Service Bill will enable the Government to bring all these young men under control and to put them where their energy will be used to the greatest advantage for the welfare of the State. There is no lack of material in the Country, for there are at least a million, probably a million and a half, men of military age, and many a man who is working in a lawyer's office, a motor garage, a shoe shop or a dry goods store has had a farm education, and should be in the trenches or on the farm. It is, therefore, to the interest of the farmer and to the interest of every essential business the Government should be in a position so to co-ordinate all the forces of the country as to obtain the best results. No doubt the majority of farmers would welcome conscription apart from any question of self interest, but it happens that in this case duty and enlightened self interest march together.

"Don't Worry."

A Sergeant of engineers at the front in France, Hemi Raveau by name, sent to one of his friends in the U. S. the following litany which has come out of the death-struggle of the trenches:

"You have two alternatives: either you are mobilized or you are not. If not, you have nothing to worry about.

"If you are, you have two alternatives: either you are in camp or at the front. If you are in camp, you have nothing to worry about.

"If you are at the front you have two alternatives; either you are in reserve or you are on the fighting line. If you are in reserve you have nothing to worry about.

"If you are on the fighting line you have two alternatives, either you scrap or you don't. If you don't you have nothing to worry about.

"If you scrap you have two alternatives: either you get hurt or you don't. If you don't you have nothing to worry about.

"If you get hurt you have two alternatives: either you get slightly hurt or you get badly hurt. If slightly hurt you have nothing to worry about.

"If you get badly hurt you have two alternatives: either you recover or you don't. If you recover you have nothing to worry about.

"If you don't you have done with worry forever."

You have two alternatives. Be a whiner and worry about something, or be worth while and cheer up.

Nearly Poisoned.

Mrs. Andrew Kirstine, Jr. of the South Line, Brant, had a rather close call recently, when, after purchasing some arsenate of lead in Walkerton to kill potato bugs, she put the package in a basket along with some groceries she had bought, and on arriving home took it in mistake for one of the other items. In drinking a small portion of a mixture containing the poisonous powder she became apprised of the grievous error, and hastily summoned a doctor, who with the aid of emetics, succeeded in ejecting the baneful fluid, and bringing her around again alright. The incident, however, shows the need of care in the handling of this dangerous ingredient, and should serve as a warning to others to observe safety first principles by keeping it in a separate place and entirely isolated from any table edibles or other items on the household bill of fare.

Overland Motor Cars

Light Four \$1110
Country Club (four-seater)
f. o. b. Toronto
Price subject to change without notice

The Peak of Motor Car Fashions

This new Overland Country Club Light Four is a distinctive and smart car in the low-priced car class. The rich, gray body, with black fenders and trimmings is set off to pleasing advantage by red wire wheels that give just the right flash of brilliant color. The two comfortable front seats move forward or back independently, and a spacious aisle between gives free passage to a roomy seat for two passengers in the rear. For riding comfort, the Overland Country Club is a revelation. Long, cantilever rear springs give it the riding ease of a much heavier, bigger car. It has ample power—and it is economical of gasoline. An easy car to handle, and completely equipped. An unusual demand for this model makes it necessary to place orders at once to secure spring delivery.

PETER REUBER, AGENT.

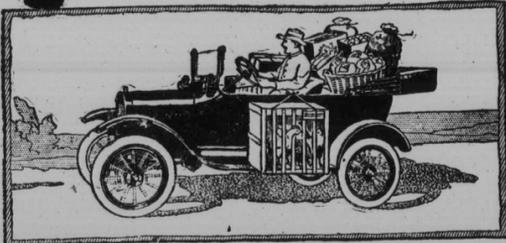

Willis-Overland Limited, Toronto, Ont.
Willis-Knight and Overland Automobiles, Commercial Cars

Peter Robinson, a well known farmer near Ripley, in Huron Township died suddenly from lock jaw last week. On Saturday he was leading an animal on the end of the rope. The animal became frightened and started to pull away. The rope ran through his hand the snap catching in the palm of the hand, tore the thumb out. Lockjaw developed and he passed away the following night.

Two Stratford motorists, George Goetler and Frank Lloyd, had a unique escape from injury near Palmerston last Friday. Seeing an aeroplane volplaning toward the road the men stopped their car, and the plane, coming straight for the auto, stopped six feet away when a wire fence checked its progress. An aviator from Camp Borden had missed his way to Toronto, and was descending to learn his whereabouts.

An Elderslie farmer was observed one day recently scated in an auto bringing his cows home. When the cows halted he would touch them up with the auto. Gasoline is not only saving a lot of arm power but a lot of leg power as well.

Two cases of booze addressed to a Paisley citizen were seized by constable Leitbb of that village who locked them up pending an investigation by Inspector White. During the night following the seizure some one broke into the place where the liquor was kept and stole it.

Quick Hauling to Market

Just think of the time the Ford saves a busy farmer in hauling milk to the cheese factory—vegetables, butter, eggs and poultry to market—fruit to the railway station. One fruit grower, last season, made four trips a day to the railway station, a total of 144 miles, and carried as high as 72 crates of 11 quarts each on a trip. He couldn't have made more than one 36 mile trip a day with a team.

The Ford soon pays for itself in the time it saves the farmer. With help so scarce, every farmer needs to make use of every precious minute of his time. To him the Ford car is a real necessity. Indeed, some farmers tell us that it is doubtful if they could carry on their farm work under present labor conditions if it wasn't for the time the Ford saves them.

No farmer need be without a Ford. In fact, the average farmer could afford one if it was double the price. It is as easy to drive as a horse, three times as fast, and costs less per mile to run. Why not order one to-day?

WINNER OR WASTER. Which are You?

On a recent occasion the Honorable the Minister of Finance for Canada, in addressing a representative Canadian audience, dealt with the urgency of everybody doing, even in the smallest way, their share towards aiding the Empire.

It is well to remember that every dollar thrown away extravagantly does one hundred per cent. more good to the enemy than one dollar saved by ourselves.

The wealth of the world finally filters through individual dollars, and if the curse of extravagance strikes deeply enough, our ruin is bound to follow.

Save a dollar TO-DAY and do a hundred per cent. more for the Empire than your extravagant neighbor does for the enemy.

Hen Had Joy Ride.

Dr. Russel McLean of Welland, who was here visiting his home, motored the other day with his mother Mrs. Chas. McLean, his sister, Miss Kate McLean, and Mrs. Robert Richardson to the home of his brother-in-law, Mr. Thos. Chisholm, near Eden Grove, and while there noticed a hen, which was mothering several chicks, tied to a post. After spending the evening, the party returned to Walkerton, and on putting up the car for the night, they beheld the hen, which had broken loose, perched on the mud-guard of the auto, the bird having kept her place during the 12 mile trip, and alighted after the trip none the worse for the nocturnal joy ride.

Wet Goods in Churchman's Name.

License Inspector White has been working on a rather strange case in Ripley, where large quantities of liquor had been consigned through the express office to a certain name. Thinking it was a big supply of moisture for one party to be getting, the Inspector visited that territory and found the tangle foot had been consigned to one of the elders of a Presbyterian church in Huron Township, and who was an advice to booze as the devil is to scripture. On quizzing him on the subject the churchman got so insulted that the Inspector felt, as it were, that he had been treading on holy ground. It was evidently a pure case of impersonation, some scamp having ordered a heavy supply of the thirst quencher in the name of one of the greatest wielders of the Temperance club that Huron Township knows. As the culprit, who tried to put one across, hasn't yet showed up for the stuff, which if mopped up in a given period by one man, would give him such a dose of delirium tremens that he would think he had cornered up all the snakes on the map; as the culprit, we repeat, hasn't showed up, the Inspector will in all likelihood seize the shipment and confiscate the moisture.—Herald and Times.

Four boys, ranging from 15 to 17 years of age, and residing in or near Scottsville, about seven miles south of London were killed by lightning while on their way home from Sunday School. The names of the killed lads are—Leonard and George Jones of Scottsville, Glen Scovye, of Scottsville, and Aubrey Lovely, of Payne's Mills. The storm in which they were killed occurred shortly after four o'clock, but the bodies were not found till about six o'clock, when Wesley Baker, a farmer, found them when going for his cattle.

Experience

I jogged along a country road, in my large choo-choo dragon, and met a farmer with a load of pumpkins in his wagon, "Go back, go back," the granger said, through whiskers long and ruddy, "you'd best turn round—the road ahead is dangerous and muddy." I never yet have seen the pike," I said, "that scared this auto, and I'll go on, so help me Mike for 'Get There' is my motto." I drove into a marshy hole, when I had gone some distance, and took away my roll for giving me assistance. We toiled and wrought a night and day, to remedy my folly, and when again I took my way, I reeled with melancholy. The road of life is much the same, the road we bitherly follow; we're warned by men who've played the game, to shun the swampy hollow. They tell us where the way is worst, and where the bridge is rotten, and when we've gone a half a verst their counsel is forgotten. We will not learn from sage and seer who've walked the path before us; we greet the prophet with a sneer and wise men only bore us. And every day we pay the price, the cost this course engenders; we stick in mud and break through ice, and bust our best suspenders.—By Walt Mason.

The autoist still uses our streets without regard for the safety of pedestrians.

Proclamation

To the citizens of Bruce County:

In connection with the request of the Lieut. Governor of the Province of Ontario, I hereby call upon the loyal citizens of the County of Bruce, to again, on the third anniversary of the war, solemnly pledge ourselves as to the righteousness of the Allied cause:

To record our inalienable loyalty to our beloved Mother Country.

To acknowledge and impress upon our children and all people that although this war is fought upon a foreign land, it is our fight, and one in defence of our homes.

To honor the heroes who have fallen in defence of our country.

To support and assist those who are heretofore heroic men, who have laid down their lives on our behalf.

To thank those on land and sea who are prepared to give up their lives in our defence.

To pledge ourselves to give assistance to every cause and work which may bring victory to the Allied cause.

And to pray that Almighty God may aid the cause of the Allies for universal peace.

The Fire Marshall of Ontario says that from Jan. 1, 1917, to May 31, 1917, 147 barns have been fired by lightning, with a loss of \$181,491. He adds, "After most careful inquiries, and many special investigations that in instance has lightning caused fire to a barn which was equipped with lightning rods."

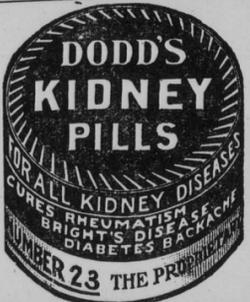

The matter of the submarine still continues to be of interest to us. Astonishing reports were made last week crediting the loss of 1,600,000 tons of Allied shipping a month to German submarines but these figures were shown to be utterly astray. The maximum rate of loss would work out to about 9,000,000 tons a year, a terrible figure, it is true, and yet one that could be put up with for a time at least. Last week the returns showed fourteen vessels over 1,600 tons sunk, four under 1,600 tons, and eight fishing vessels, as compared with fourteen, three and seven respectively for the week previous. As this is the choice season for the submarine these figures are not too discouraging. It is evident, however, that the great new invention that was to solve the submarine menace has not yet appeared. There seems to be considerable dissatisfaction with the amount of new tonnage being turned out, and Sir Edward Carson and Admiral Jellicoe have joined in an urgent appeal to shipyard workers.

A new clause has been placed in the act which governs the driving of automobiles which says no one may drive at night with no less than two head lights on the front. Magistrates have drawn attention to this clause and wish the public to govern themselves accordingly. They don't want to find one without first giving them the time to know the law.

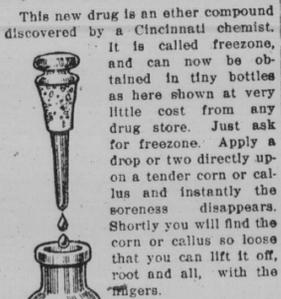

The Waste of War is terrible, but the waste of food in times of peace is colossal. Rich and poor alike eat tons of food that has little food value...

VISITED BY A LION.

Only the Good Temper of the Animal Averted Serious Consequences.

There is plenty of danger in training wild animals; nevertheless, in many cases those who work among the carnivores owe their lives to the good temper of their charges.

In the beginning of the sixties, writes Mr. Hagenbeck, I was bringing from Cologne to Hamburg a large collection of animals. Among them was a four-year-old lion.

The train rumbled on through the night and the unsuspecting keeper dozed peacefully. Suddenly he felt a great weight upon his chest, and woke with a start.

Druid was a trainer of long experience, and he knew that this lion was good-tempered. So he decided at once that the best thing to do was somehow or other to tie the animal up.

Fortunately, no trouble broke out between the lion and the other animals. Had anything of that sort occurred, the man would never have lived to tell the tale.

SUMMER HEAT HARD ON BABY

No season of the year is so dangerous to the life of little ones as is the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand the baby may be beyond all human help before the mother realizes he is ill.

When a girl—or a woman—finds her color fading, when her cheeks and lips grow pale, and she gets short of breath easily and her heart palpitates after slight exertion, or under the least excitement, it means that she is suffering from anaemia—thin, watery blood.

The remedy for this condition is to build up the blood, and for this purpose there is no medicine can equal Dr. Williams' Pink Pills. They build up and renew the blood, bring brightness to the eyes, color to the cheeks, and a general feeling of renewed health and energy.

RUSSIAN ROYALTY IN PRISON

How the Deposed Czar and His Family Spend Their Time.

The former czar of all the Russias is not a man of resource, says the London Mail, and he is feeling horribly bored with nothing to do but to water his flowers and talk to the wife of his bosom on the telephone—in the presence of a guard.

The other girls, with the czarevitch, try to keep up their spirits with tennis and lessons and music. Tatiana, the second girl, has quite a lovely voice and is as musical as her brother.

Those who have come in contact with the czarevitch feel very sorry for the poor little chap for the change in his life. He was patriotic above all things, and it was a passion with him to stay with his father at headquarters.

He was found one day tearing up the photographs of all his German relatives. When he came to that of the Grand Duke of Hesse he sent for his youngest sister, who is his chief pal.

"I like to have vacation," said Tony. "We can't get along very well without you," said the boss. "You don't need a vacation. You'll only blow your money and come back broke."

"I like to have vacation," persisted Tony. "I get married, and I kinda like to be there."

Dr. Beck, The Well Known Eye Specialist

and Doctor Judkins, The Medical Author, Publish Astonishing Report on Wonderful Remedy To Strengthen Eyesight

Say it Strengthens Eyesight 50% in One Week's Time in Many Instances

DR. BECK. A Free Prescription You Can Have Filled and Use at Home.

New York.—Dr. Beck, a New York state eye specialist, and Dr. Judkins, a Massachusetts physician, were asked to make a thorough test of the popular eye remedy, Bon Opto. Their reports were most interesting. Here they are:

Dr. Beck reports, "When my attention was first called to the wonderful eye remedy, Bon Opto, I was inclined to be skeptical. I made it a rule to test every new treatment which is brought to my attention. Having specialized in eye work for the past twenty years, I believe I am qualified to express an intelligent opinion on remedies applicable to the eye. Since Bon Opto has created such a sensation throughout the United States and Canada, I welcomed the opportunity to test it. I began to use it in my practice a little over a year ago and I am frank to say that the results obtained have, namely, that the conclusion I have reached is that it will strengthen the eyesight at least 50 per cent in one week's time in many instances."

Dr. Judkins, Massachusetts physician, formerly Chief of Clinics in the Union General Hospital, Boston, Mass., and formerly in charge of the New England Eye and Ear Infirmary of Portland, Maine, and a medical author for many years, reports:

"I have found oculists too prone to operate and opticians too willing to prescribe glasses while neglecting the simple formulae which form the basis of that wonderful home treatment for eye troubles, Bon Opto. This, in my opinion, is a remarkable remedy for the cure and prevention of many eye disorders. Its success in developing and strengthening the eyesight will soon make eye glasses old-fashioned and the form of eye baths which the Bon Opto method provides, will make its use as common as that of the tooth brush. I am thoroughly convinced from my experience with Bon Opto that it will strengthen the eyesight at least 50 per cent in one week's time in many instances. Dr. W. H. DeWine, director of medical inspection in the Boston schools, in his report published February 29, 1917, states that only 14.6% out of 8,175 examined need to wear glasses now, a marked decrease over the previous report. Bon Opto is hastening the eyesightless age in our beloved Boston."

Victims of eye strain and other eye weaknesses and those who wear glasses will be glad to know that according to Dr. Beck and Dr. Judkins, there is real hope and help for them. Many whose eyes were failing have had their eyes restored by this remarkable prescription and many who once wore glasses say they have thrown them away. "One man says, after using it: 'It was almost blind. Could not see to read at all. Now I can read everything without my glasses and my eyes do not hurt any more. At night they would pain dreadfully. Now they feel fine all the time. It was like a miracle to me.' A lady says: 'I have worn glasses for years for my eyes, with or without glasses but after using this prescription for 15 days everything seems clear. I can read even the print without glasses.' Another who used it says: 'I was bothered with eye strain

Like A Boy at 50 Bubbling Over With Vitality--Taking Iron Did It

Doctor says Nuxated Iron is greatest of all strength builders—Often increases the strength and endurance of delicate, nervous folks 100 per cent. in two weeks' time.

NEW YORK, N. Y.—Not long ago a man came to me who was nearly half a century old and asked me to give him a preliminary examination for life insurance. I was astonished to find him with the blood pressure of a boy of 20 and as full of vigor, vim and vitality as a young man; in fact a young man he really was notwithstanding his age. 22 he said he was taking iron—nuxated iron had filled him with renewed life. At 30 he was in perfect health; at 40 he was carefree and nearly all in. Now at 50 after taking Nuxated Iron a miracle of vitality and his face beaming with the buoyancy of youth. As I have said a hundred times over, iron is the greatest of all strength builders. If people would only take Nuxated Iron when they feel weak or run-down instead of dosing themselves with habit-forming drugs, stimulants and alcoholic beverages I am convinced that in this way they could ward off disease, prevent becoming organic in thousands of cases and thereby the lives of thousands might be saved who now die every year from pneumonia, kidney, liver, heart trouble and other dangerous maladies. The real and true cause of weakness, nervousness and debility is not lack of food but lack of living tissue. Without it, no matter how much you eat, your food merely passes through you without doing you any good. You don't get the strength out of it. If you are not strong come weak, pale and sickly looking just like a plant trying to grow in a soil deficient in iron. If you are not strong well you owe it to yourself to make the following test: See how long you can walk or how far you can walk before becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times per day after meals for two weeks. Then test your strength

again and see for yourself how much you have gained. I have seen dozens of nervous run-down people who were all the while, double their strength and endurance and entirely get rid of all symptoms of dyspepsia, liver and other troubles in from ten to fourteen days' time simply by taking iron in the proper form. And this after they had in some cases been doctoring for months without obtaining any benefit. They take the old forms of reduced iron, iron acetate or tincture of iron simply to save a few cents. You must take iron in a form that can be easily absorbed and assimilated like nuxated iron if you want it to do you any good, otherwise it may prove worse than useless. Many an athlete or prizefighter has won the day simply because he knew the secret of great strength and endurance and filled his blood with iron before he went into the fray, while many another has gone down to ignominious defeat simply for the lack of iron.—E. Sauer, M.D.

NOTE: Nuxated Iron, recommended above by Dr. E. Sauer, is not a patent medicine nor secret remedy, but one which is well known to druggists, and whose ingredients are widely prescribed by the best physicians everywhere. Unlike the older ferruginous iron products, it is easily assimilated, does not injure the teeth, makes no noise in the stomach, and, on the contrary, it is a most potent remedy in nearly all forms of indigestion as well as for nervous, run-down conditions. The manufacturers have such great confidence in Nuxated Iron that they offer to forfeit \$100.00 to any chemist or analyst if they cannot take any man or woman, under 60, who lacks iron, and increase their strength 100% or over in four weeks' time, provided they have no serious organic trouble. They also offer to refund your money if it does not at least double your strength and endurance in ten days' time. It is dispensed by all good druggists.

caused by overworked, tired eyes which induced fierce headaches. I have worn glasses for several years, both for distance and close work and without them I could not read my own name on an envelope or the typewriting on the machine before me. I can do both now and have discarded my long distance glasses altogether. I can count the fluttering leaves on the trees across the street now, which for several years have looked like a dim green blur to me. I cannot express my joy at what has done for me.

It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. Eye troubles of many descriptions may be wonderfully benefited by the use of this prescription at home. Here is the prescription: Go to any active drug store and get a bottle of Bon Opto tablets. Drop one Bon Opto tablet in a fourth of a glass of water and let it dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation and redness will quickly disappear. If your eyes bother you even a little, it is your duty to take steps to save them now before it is too late. Many hopelessly blind might have saved their sight if they had cared for their eyes in time.

NOTE—Another prominent physician to whom the above article was submitted, said: "The Bon Opto prescription is truly a wonderful eye remedy. It constitutes an extraordinary and widely prescribed by the best eye specialists and widely prescribed in my own practice on patients whose eyes were strained through overwork or mild glaucoma. It is one of the very few preparations that should be kept on hand for regular use in almost every family." Bon Opto referred to above, is not a patent medicine or a secret remedy. It is an ethical preparation, the name being printed on the package. The manufacturers guarantee it to strengthen eyes in any case of eye weakness, and to refund the money by all good druggists, if it does not do so. Write to Dr. E. Sauer, 516 Lyman Bldg., Montreal, Canada.

**LIVE STOCK MARKETS
TORONTO.**

A comparatively light run of cattle at the Union Stock Yards yesterday (about 1800 head in all), coupled with a fairly good demand stimulated trading very materially and the prices, especially for good to choice butcher cattle, firmed up from 25c to 40c per cwt. It was a good market taken all round with practically everything pretty well cleaned up shortly after the noon hour.

The market was in striking contrast with the whole of last week and several lots held over from Thursday went out at from 25c to in some cases 85c over the best bid on Wednesday and Thursday. The latter advance were only isolated cases, but served to indicate the improved tone of the market.

For extra choice well finished steers carrying weight there is a good demand and more would have found ready sale at good prices. A reference to the market notes will serve to bear out this contention.

Sheep and Lambs.

The run of sheep and lambs was light and the market was stronger by about 50c per cwt. over last week's prices. Choice lambs sold yesterday at from 14c to 14½c; yearlings, 10c to 10½c; light handy sheep, 9c to 9½c; heavy fat sheep and bucks 6½c to 7½c.

Hogs were steady to firm at last week's prices, 16½c fed and watered, and 16c off cars, but the market feeling was strongly for a continuance of the present rate, if not slightly higher in the immediate future. The run as indicated by the board was less than 300.

A strange feature of the high cost of living in Canada is that bread is selling in England at less cost than in this country, although Canadian wheat is shipped about three thousand miles across the ocean at a big cost, the British getting the finished product, which is bread, at a lower rate than the people in the country where the wheat is grown. Even with the submarine campaign in full blast, and Germany sure she can starve England, the English people are paying 24 cents for a three pound loaf. Much the same condition exists with bacon, eggs and cheese. The hogs are born, fed and raised in Canada, but the Britisher is able to get the finished product, bacon cheaper than prices in Canada. Cheese has sold two or three cents per lb lower in the old country than in Canada where it is made.
