### HOLLOWAY'S

#### WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the Weak, the Nervous, the Delicate, and the Infirm, of all climates, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines and offers them to free and enlightened people, as the best remedy the world ever saw for the removal of disease.

#### THESE PILLS PURIFY THE BLOOD.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

#### DYSPEPSIA AND LIVER COMPLAINTS.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to their success in disorder of the liver, dyspepsia, and stomach complaints generally. These pills give a healthy tone to those organs, however deranged, and when all other means have failed.

#### GENERAL DEBILITY—ILL HEALTH

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or whose system has been impaired, as its invigorating properties never fail to afford relief.

#### FEMALE COMPLAINTS.

No female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without them.

### HOLLOWAY'S OINTMENT.

The Grand External Remedy.

By the aid of a microscope, we see millions of little openings on the surface of our bodies. Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part.—Disease of the Kidneys, disorders of the Liver, affections of the Heart, Inflammation of the Lungs, Asthma, Coughs and Colds, are by its means effectually cured. Every housewife knows that salt passes freely through bone or meat of any thickness. This healing Ointment far more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.  
*Erysipelas and Rheumatism, Scorbatic Humours.*

No remedy has ever done so much for the cure of disease of the Skin, whatever form they may assume, as this Ointment. Scourvy, Sore Throats, Scrophula, Erysipelas, cannot long withstand its influence. The inventor has travelled over many parts of the globe, visiting the principal hospitals, dispensing this Ointment, giving advice as to its application, and has thus been the means of restoring countless numbers to health.  
*Sore Legs, Sore Breasts, Wounds and Ulcers.*

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment, when having to cope with the worst cases of sores, wounds, ulcers, glandular swelling, stiffness or contraction of the joints, even of 20 years standing.

*Piles and Fistulas.*

These and other similar distressing complaints can be effectually cured if the Ointment be well rubbed in over the parts affected, and by otherwise following the printed directions around each pot.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs, Bad Breasts, Burns, Bunions, Bite of Mosquitoes and Sand Flies, Cocco-bay, Chigo-foot, Chilblains, Chapped hands, Corns, (soft) Cancers, Contracted and Stiff Joints, Elephantiasis, Fistulas, Gout, Glandular Swellings, Lumbago, Piles, Rheumatism, Scalds, Sore Nipples, Sore Throat, Skin-diseases, Scourvy, Sore-heads, Tumours, Ulcers, Wounds, Yaw.

# THE CONCEPTION-BAY MAN.

[FROM THE MORNING POST.]

The information received by the Tug Boat *Blue Jacket*, which arrived yesterday, not only confirms the intelligence previously received at the Telegraphic and General News Agency, and which was referred to in this Journal last week, relative to the whereabouts of the *Agamemnon* on the 23rd June, but furnishes the further and more interesting particulars of the position of the Cable Fleet on the evening of the 24th, with the exception of the *Gorgan*, which would probably have come up with the others that night, so that it may be safely assumed that the Wire Squadron reached the mid-ocean rendezvous by the 25th, on which day there were strong breezes from the South-west by West with thick hazy weather, high seas and a heavy, Westerly swell, so that we have again to repeat the expression of the hope that they did not attempt to splice until after the 25th, and it is not likely they did, as the indications of unfavorable weather would have been sufficiently plain before the preliminary arrangements for splicing could have been completed.

The informant, alluded to in the Morning Post last week, stated the *Agamemnon* to have been seen on the 23rd June, in Lat. 53.36, Long. 30.6, steering West.

The *Blue Jacket* reports that on the 24th June, Lat. 51.32 N., Long. 32 W. they saw a large double-bank frigate, with cog-wheels fore and aft for paying out with, which passed within a mile of them, and a large paddle steamer about half a mile off; towards evening, as the *Blue Jacket* was losing sight of them, another large war steamer was seen bearing down on them, which, of course, was the *Niagara*.

The two vessels first seen were both British, and made signals, which, the *Blue Jacket*, not having the signal code, could not understand. The steamer last seen was not near enough for them to discern her national colours.

From the Log-Book of the *Blue Jacket* it appears that after the 25th the weather was thick, wind moderate, until the 3rd July, when there was a strong gale S. W. by W. with a high sea.—Lat. by observation 52. 12 North—whether or not the Cable Fleet would seriously have felt its effects, must remain a matter of speculation until further intelligence shall be received.

From the London Times.

We have received the following message from the Foreign-office:—

"The following telegram from the British Acting Agent and Consul-General at Alexandria, was received at the Foreign-office June 28, at 8, 30 a. m.:

ALEXANDRIA, JUNE 28.

"The steamer *Madras* arrived yesterday at Suez, with Bombay dates to the 5th of June.

"Send this by the steamer *Taurus* to Malta, which also carries the Mail.

"Sir H. Rose captured Calpee on the 23d May, having been twice ineffectually attacked by the rebels during his advance. Sir H. Rose made his approach by the river side, below Calpee, having entered into communication with Colonel Maxwell, who held a position on the west bank of the Jumna so as to shell the town and fort.

"The enemy offered no resistance, and the city fell without any loss on our part. A rapid pursuit was made by cavalry, and the result was the capture of all the guns, elephants, and ammunition.

"Chundaree, which had been attacked by the insurgents, has been recaptured from them by Smith's brigade sent from Goonan.

"Gwalior has been attacked and plundered by the insurgents.

"After the relief of Shahjehanpore by Brigadier Jones, he was surrounded by masses of the enemy. This was on the 15th of May, on which day Sir Colin Campbell left Bareilly with the whole of his disposable force, reaching Shahjehanpore on the 18th. The 23d he drove back the enemy, capturing Mohuudee (q. Moulie?).

"On the 26th Sir Colin Campbell occupied Jellalabad, on the Futteghu road.

"Mr. C. R. Manson, Political Agent in the Southern Mahrat country, has been murdered. Much difficulty has been experienced in disarming that district.

"Qude is still disturbed; the rebels again approaching Lucknow. It was not thought however, they would venture on an attack, as the city is fully defended, and the garrison very strong.

"J. GREEN."

"This telegram arrived from Alexandria by the steamer *Taurus* at 8 p. m. June 27.

"M. STOPFORD, Rear Admiral.

## IMPORTANT FROM SALT LAKE.

BIG TREES, June 1st.

Mr. George Webber has just arrived direct from Carson Valley, and brings the following news: A report reached Carson Valley that 1500 Mormon families are now on their way to the latter place, and that Brigham Young had fled

for parts unknown. The report was brought and communicated to Asa Canion by some Shoshone and Pahyate Indians. Mr. Canion considers the news reliable, from the fact that he has had frequent news by the same Indians, and he has never found them to be false in a single instance. Mr. Canion is a trader at or near Ragtown. Mr. Webber states that the Walker river gold mines had proven a failure.

The rush to the Frazer river gold mines continues. About 2,500 persons have passed through this city since April 20th, mostly miners from the interior counties of California. It is estimated that about 5,000 are already collected in Puget Sound, en route for the new El Dorado.

During the week, ending May 22nd, 640,000 dols was coined at the United States Branch Mint, consuming 86,222.96 ounces (Troy) of gold bullion.

(FROM THE INDIA-HOUSE.)

On Monday, June 28, received the following message, dated Malta:—

To J. D. DICKENSON, Esq., INDIA-HOUSE LONDON.

### BOMBAY PRESIDENCY.

Serious disturbances have occurred in Gud-duck, in the Dharwar Collectorate; the outbreak was headed by Bheem Rao, of Koombderger, and the Desayee of Hembege, who obtained possession of the Fort Fowl (q.) by treachery; the chief of Nurgoon was suspected of being chiefly implicated. The acting Political agent, Mr. C. T. Menon, attended by a few horse-men, proceeded rapidly to the Nurgoon district, in the hope of restoring order, when he was treacherously attacked on the night of May 29, by 800 men, headed by the chief of Nagoond, and killed with all his escort. It being greatly feared that the disaffection would spread all over the Southern Mahratta country, reinforcements have been ordered to proceed immediately to Belgaum and Kolapoor; in the meantime it is hoped that the outbreak has been promptly repressed. A Madras column, under Major Hughes, June 1, took the fort of Copal by assault, and among the slain were Bheem Rao and the Desayee; on the same day Malcolm, with a light Bombay detachment, arrived at Nurgoon and stormed the town. On the next day he occupied the [fort?], which was evacuated during the night. A pursuit of the Chief was then commenced, and intelligence has just been received that the chief was captured by Mr. Southern, the Superintendent of Police, on June 2d.

## THE CONCEPTION-BAY MAN

WEDNESDAY, July 14 1858.

Who are the Government now? Such is the enquiry which was lately made by a venerable Planter.—We hasten to reply.—The same unprincipled Cabal, which took advantage of a time of excitement and party prejudice, to seize the reins of power, and who still retain it at the expense of truth and probity and at the sacrifice of a People's liberty. Nothing is gained by Mess. Little and Emerson's removal from the Executive Council; men of less ability, but of character not less notoriously venal, fill their places.—The tail is sufficiently lengthy for its members successively to occupy all "lucrative Government Offices" and verge enough for more; the offices are valuable but the incumbents should not be envied, they may continue to fatten on the taxes, whilst the poor cry for bread, they may still pay off old mortgages and rear their palaces with the money wrung from the toil of the Fisherman, whilst the aged and helpless widowed and orphans must shrink in their destitute and miserable cabins; They may continue to increase the revenue, to swell the civil list to increase retiring salaries, to raise legislative contingencies, to create new offices, and to neglect the Outports; All this may be done, and for the sake of order and the peace of society may be patiently borne, but there is something in the conviction that the constitution is deliberately and systematically violated by our rulers.—That by their insidious acts liberty is prostrated in the dust, and that they tread as upon necks, whilst the people's cry for freedom is stifled to the death.—We repeat there is something in such rule which jars upon the heart strings, and enters into the souls of all who value the birthright of British Subjects or recognize the claims of humanity.

Nothing connected with the policy of the day is too insignificant for observation—nothing so despicable, but that good may be educed; even Mr. Little's address, bombastic and trashy as it is, affords a hint which should be laid to account. He says:—

"I shall oppose every attempt to alter the present system of Representation of the several Electoral Districts of this Island, as I consider it as just to all parties as any that can be adopted under existing circumstances."

So that altho by the late census it is shown that the Representation is most unfair—that

thousands of people have been defrauded of even a nominal Representation in the Assembly, altho by that census the Brigus, Harbor Grace, Carbonear, and Bay Verbs Districts, are each entitled to an additional Member according to Population. Yet the People of this Bay must submit to this wrong to suit the purposes of the ruling powers. On behalf of this population we put the question—Are our Members to aid in the perpetuation of this grievous wrong? Waiving all other objections, forgiving the plunder of the Poor Money, forgetting Baccaloo Light House, and our local requirements, such as water tanks, by which the Town might have been saved from fire, losing sight of increased taxation, Labrador included, and passing for the nonce the French exclusive fishery rights, as advocated by the Ministry.—In short overlooking every other wrong, and admitting every claim urged by the Newfoundlanders upon the people's gratitude—we contend that the violation of the Constitution alone in cases of unfair representation, and Representative corruption, would, in any other civilized country on the face of the globe, swamp to all intents and purposes a much more Talented, Patriotic, and Liberal Ministry than that by which this Country is at present embarrassed and impoverished.

(For the Conception Bay Man).

MR. EDITOR,—

Is there truth in the Report that a change is likely to take place in our representation. That there is a good time coming, was generally believed, but the People this end of the Town did not expect it very early. We would hail with satisfaction an offer which may enable us to return to the assembly, a man who would despise a bribe himself, and use his influence to counteract its effect upon others. If a pledge to this effect were heartily and honestly given, it would be the Candidates own fault or the fault of his committee if he was not triumphantly returned.

QUERIST

OUR Correspondent is welcome to all the information we can afford upon the subject alluded to. We have been assured that an independent and public spirited Citizen, being dissatisfied with the conduct of the Government, is determined to become a Candidate for the representation of the district: we have not the advantage of being in his confidence, neither are we aware of the extent and character of his opposition, but as many of his fellow Citizens are ready to support him, it is probable that a committee will shortly be organised, if not already done, when the nature of the pledge required will doubtless be made public. For the reasons given in our leader to day, we would require one pledge more than our correspondent deems sufficient, one which, like his own, involves in the breach, a violation of constitutional principles.—To wit—Population numerically, and ratably, the basis of representation in every district. Elevated far beyond his competitors, by the sentiments such pledges would indicate, the man who first evinced the spirit essential to the overthrow of a corrupt system, should, irrespective of other considerations, be faithfully and zealously supported.

WE are sorry to state that our Fishery prospects are not so good as at the commencement of the caplin cool, very little have been taken lately by the hook and line; but we understand some good hauls have been made with the seine; a proof that there is an abundance in the Bay, but glutted with bait. It is reasonable to expect that, like our ministerial responsables, they will bite again by and bye.

WE commend attention to the notices of Building Painting &c. the parties advertising are masters of their business, and it is no bad criterion of character, that they set the example to Tradesmen of contributing to the support of a liberal press.

THE CONCEPTION-BAY MAN.

GENTLE RIVER.

PERCY'S RELIQUES.

Gentle river gentle river,  
Lo! thy streams are stained with gore;  
Many a brave and noble captain  
Floats along thy willowed shore.

All beside thy limped waters,  
All beside thy sands so bright,  
Moorish chiefs and Christian warriors  
Joined in fierce and mortal fight.

Lords, and dukes, and noble princes,  
On thy fatal banks were slain;  
Fatal banks, that gave to slaughter  
All the pride and flower of Spain!

There the hero, brave Alonzo,  
Full of wounds and glory, died;  
There the fearless Urdiales  
Fell a victim by his side.

Lo! where yonder Don Saavedra  
Through their squadrons slow retires;  
Proud Seville, his native city,  
Proud Seville, his worth admires.

Close behind, a renegade  
Loudly shouts, with taunting cry,  
"Yield thee, yield thee, Don Saavedra!  
Dost thou from the battle fly?"

"Well I know thee, haughty Christian,  
Long I lived beneath thy roof;  
Oft I've in the lists of glory  
Seen thee win the prize of proof.

"Well I know thy aged parents,  
Well thy blooming bride I know;  
Seven years I was thy captive,  
Seven years of pain and woe.

"May our prophet grant my wishes,  
Haughty chief, thou shalt be mine;  
Thou shalt drink that cup of sorrow  
Which I drank when I was thine."

Like a lion turns the warrior,  
Back he sends an angry glare;  
Whizzing came the Moorish javelin,  
Vainly whizzing, through the air.

Back the Hero, full of fury,  
Sent a deep and mortal wound;  
Instant sunk the renegade,  
Mute and lifeless, on the ground.

With a thousand Moors surrounded,  
Brave Saavedra stands at bay;  
Wearied out, but never daunted,  
Cold at length the warrior lay.

Near him fighting, great Alonzo  
Stout resists the Paynim bands;  
From his slaughtered steed dismounted,  
Firm intrenched behind him stands.

Furious press the hostile squadron,  
Furious he repels their rage;  
Loss of blood at length enfeebles;  
Who can war with thousands wage?

Where yon rock the plain o'ershadows,  
Close beneath its foot retired,  
Fainting sunk the bleeding hero,  
And without a groan expired.

FOREIGN OFFICE DESPATCH.

The following telegraphic despatch from Acting-Consul-General Green, was received via Malta at the Foreign Office, on the 11th June, at 9 45 p.m.;

ALEXANDRIA, June 8.

The steamer Bombay, with Bombay dates to the 19th May, arrived at Suez on the 6th inst. Bareilly was occupied by the troops under the Commander-in-Chief on the 7th May. Very little resistance was offered, the Garrison having dispersed on our approach.

During our advance on Bareilly General Penny was killed. A detachment of 600 of H. M. 62nd regt. was left to garrison. Shah Jehanpore was surrounded by 8000 of the enemy, with 15 guns, but no fear was entertained of their safety, as General Jones had left Bareilly

on the 8th of May, and would be able to relieve them on the 11th.

Rohilcund is now entirely in our hands. An amnesty has been published, and tranquillity is restored. Oude is also becoming quiet, and the land-owners are tendering their submission.

Sir Hope Grant with a strong force guards the road between Cawnpore and Lucknow.

Sir H. Rose advanced on Komos on the 7th of May and defeated the enemy, killing 700 and capturing 7 guns. He was within 14 miles of Calpee on the 14th of May, and it was expected that it would be attacked on the 16th.

A village in Central India was stormed, after an obstinate resistance, by a detachment from Gen. Rose's force, under Colonel Gall on the first of May, the whole adult male inhabitants being put to the sword.

Coor Sing has died of his wounds. Sir Edward Lugard crossed the Ganges on the 2nd of May, relieved Arrah, and was to attack Jung Despoor on the 11th.

General Whitlock continued at Banda on the 6th of May, awaiting the infantry of his force, which he had outmarched. On their arrival he was to leave for Calpee.

The disarming proceeds quietly in western India. Bararoin is in a disturbed state.

This intelligence goes forward to Malta by the Cambria, with the Australian Mails, which reached Suez in the Victoria on the 6th instant.

Greek telegraphic despatch arrived from Alexandria by the Cambria.

TELEGRAPH TO THE TIMES.

We have received the following telegraphic despatch from our correspondent at Alexandria forwarded by our correspondent at Corfu:—

ALEXANDRIA, June 4.

The Calcutta and China Mails leave to-day, with intelligence from Calcutta to the 5th of May, Madras the 10th, Ceylon the 14th, Hong Kong April 23rd, and Mauritius May 10th.

Sir Hugh Rose defeated the rebels at Bull Sir Koonah about the 30th of April, killing 400. They are making another stand near Calpee, and thence escape to Central India.

Oude is quieting down. Mr Montgomery has restored the Talookdars, and established the Zemindaree system to the content of the people. Jung Bahadour had reached Azimghar, on his return march.

There has been some slight disturbance caused by a hill tribe in Assam. A small detachment of Europeans and Ghoorkas, having followed them into the mountains, had been repulsed with loss.

The victoria, with the Australian mails, started from Aden for Suez before the Nemesis, but has not yet been heard of.

CHINA.

A despatch from Peking directs the foreign Plenipotentiaries to return to Canton to meet the new Commissioner who it is said, is gathering forces with the intention of attempting the recapture of Canton.

Lord Elgin and his colleagues had left for the Peiho.

SUPPLEMENT TO MR. SECRETARY EDMONSTONE MESSAGE, DATED MAY 10.

Sir E. Lugard attacked the rebels at Donstanpore on May 9, and drove them before him to Judgespore, which place he entered on the same day. The enemy, having sustained severe loss, retreated to the southward, and abandoned the two guns they had captured from the Arrah force.

Sir E. Lugard entered Jaitpore on May 11, after repulsing an attack of the enemy; on May 12 he formed a junction with Colonel Corfield at Parou, and on May 13 returned, hearing that Major Lightfoot, who had been left at that place, had been attacked by the rebels. Ameer Singh, a rebel leader, is reported to have been killed at Jaitpore.

ROHILCUND.

On May 9 Brigadier Jones relieved the garrison at Shahjehanpore, after defeating the Moulvie.

ALLYGHUR.

A rebel force has crossed the Ganges and entered the Allyghur districts.

PUNJAB.

A conspiracy has been discovered and suppressed in the wing of the 4th Bengal Native Infantry at Hooshaipore; six of the conspirators have been hanged. The wing had been sent to Jullundur.

R. L. ANDERSON, Secretary to Government. Bombay Castle, May 19.

CENTRAL INDIA.

The Ranees of Jaloun has surrendered to Sir R. Hamilton. The Ranees of Jhansi and Tania Topee are at Calpee. The Nawab of Banda has joined them with a strong force. The road leading to Calpee has been destroyed, in order to prevent the passage of guns, and a bridge has been contracted for escape across the Jumna. Brigadier Smith's column, from Kotah took the Fort of Parou on May 8. The Ranees of Parou was captured at Dadgur on May 9.

Information was received at Gonah on May 13 that 5000 rebels had stormed retaken Chundaree which had been left by Sir H. Rose in charge of Scindia's troops. The resistance was obstinate. The rebels have also seized Sullutpore and Thalbut, and threatened Baghur.

THE ATLANTIC TELEGRAPHIC EXPEDITION.

The Atlantic Telegraphic squadron, which left Portsmouth on Saturday afternoon, the 28th ult., on an experimental trip for the purpose of testing machinery and rehearsing various operations connected with the laying of the cable, returned on Thursday evening the 3rd instant.

The piece of cable with which the experiments were made was between 30 and 40 miles in length, and was a portion of the coil lost in the attempt of last year, and which was so injured in its recovery from a depth of 1,000 fathoms as to be rendered unfit for electrical purposes.

Dense fogs were experienced during the whole of the experiments.

The vessels having reached deep water, being out of soundings, the experiments were commenced at a depth of 2,800 fathoms, and we are informed that every thing proceeded satisfactorily until about 8 miles of the cable had been run out, when the eye of the buoy to which the wire was attached gave way, and the latter suddenly snapped, and operations were in consequence prematurely terminated. We are glad however, to find that notwithstanding this mishap, the officers of the expedition are sanguine of ultimate success; and the squadron having coaled, and the Agamemnon received her last coil of 95 miles, the vessels took their final departure on Tuesday last.

The Submerging of the cable will be commenced by both ships from about the centre of the Atlantic, and not from the Irish coast as was the case last year. The whole operation will be thus finished in half the time, and a proportionately less risk from unfavourable weather will be incurred. A correspondent says:—"In the experimental trials which have been made during the last few days to lay the Atlantic cable, it was discovered that although the cable could be reeled in again with facility, it was now rendered useless. During the operation of paying out, the strain upon the cable produced a tendency in the wire covering to unwind itself, and accordingly the cable was seen to spin rapidly on its axis. This circumstance produced very mischievous effects, for when the cable was reeled in again, it was found to be so full of curls as to be perfectly useless."

Torquay Chronicle, June 12.

LATEST TELEGRAPHIC DESPATCHES

The Dispute with America.—The temperate and conciliatory discussion in the House of commons last night leads, says the "Times", to the conclusion that the dispute with the United States is at an end, but the graver question still remains whether the traditional policy of this country is to be continued. The question is about to enter a new phase.

The "Herald" remarks on the great political benefits which the Atlantic telegraph would confer in a crisis like the present with the United States. The order transmitted to the Admiral on the West India station would have reached him, and the offensive operations of our cruisers been stopped, in three days. Six weeks is now required for the same service, and opportunities for a collision, which may involve the two nations in war, are left open.

France.—The French Mediterranean fleet ordered to Brest to be present during the Emperor's visit, will consist of twelve line of battle ships, five frigates, four corvettes, and a certain number of small steamers.

The festivities at Fontainebleau are over, and the Emperor was expected in Paris. The Conference will hold another session to-day.

The Maritime Perfect of L'Orient has received official notice of the Emperor's intention to visit the ports of Brest and Lorente, immediately after the inauguration of the new works at Cherbourg.

Turin, June 18.—The government have announced their intention of bringing a bill to prevent frauds and corruptions in the election of members of Parliament.

Mr. Russell.—Much suffering has already been entailed on our men in the field, from the great power of the sun. We see with regret that Mr. William Russell, the Times correspondent, was struck in this way at the attack of the Bareilly cantonments, and requires much care

and attention before he can recover.—Bombay Gazette May 19. His first accident was a kick from a horse, which compelled him to resort to a dhooly. When the baggage was in danger at Bareilly his bearers put him down on the road and bolted. Weak and very ill, he nevertheless managed to mount a horse, when a sun-stroke knocked him down, and very nearly proved fatal.

PLYMOUTH, Thursday Evening, June 19.—Attended by the Valorous and towed by two steam-tugs, the Agamemnon left the Sound at 9 o'clock this morning and waited outside. The Niagara, under steam, and attended by the Gorgon, did not leave until eleven o'clock. At that time there was no wind, but a favourable breeze from the north having sprung up subsequently the squadron started, under canvass only, for their destination.

In the nursery it is invalua- ble as a cooling application for the rashes, excor- iations and scabious sores, to which children are liable, and mothers will find it the best pre- paration for alleviating the torture of a "broken breast." As a remedy for cutaneous diseases generally, as well as for ulcers, sores, boils tumours and all scrofulous eruptions, it is incom- parably superior to every other external remedy.
