FREDERICTON, JANUARY 26, 1895.

### MR. LAURIER AT MONTREAL.

The Liberal leader, who with Sir Oliver Mowatt and Mr. Patterson, M. P. for Brant, spoke at Montreal, Tuesday evening, was given a rousing reception by a meeting representing the best elements of the metropolitan city, and his address left no uncertainty as to the policy of his party, and the issues which they will present to the electors during the approaching campaign.

We have space today only to give a few Conservative victories achieved in recent | ending in a verdict for neither party. years in Montreal, but he thought the prestige of John A. McDonald was the cause of this, and now that he was gone, line Place by Governor and Mrs. Fraser. there were many signs that the political The little ones had a delightful time. influence of the party, who considered themselves appointed by divine right to govern this country, was passing away and would soon be no more.

Mr. Laurier then referred to the fact that when the policy of protection was inaugurated, its promoters promised that it should be only temporary and not permanent; there were many who had agreed with it then, but who believed it had passed its appointed time, and that the period had arrived for a change. There might be some believers in this policy yet, but who, shocked and alarmed by the revelations of corruption and mal- lows and keen curlers, and deserved be feasance in office, had come to the con. | ter luck .- Record. clusion that the duty of the hour demanded that prompt and salutary justice should | moved from its present position to a si be meted out to the men, who, recreant some distance above the Canada Easter to their promises, had left offenders un- station, where it will be fitted up punished, and from whom it would be a car shed. folly to expect the redress of any wrongs. Miss Lizzie Niles, daughter of Hubbard the convention at Ottawa in June, 1893, Dr. Coulthard rendered the necessary which was called to determine that policy. | medical assistance. That policy comprehended the following subjects:

First, condemnation of the fiscal policy with the declaration of the Liberal party House of Commons. on the same subject. Second, reciprocity of trade with our neighbors.

Third, repression of corruption and malfeasance in office. Fourth, economy in the administration

of public affairs. Fifth, the right and duty of parliament to investigate all corruption and malfeasance in office.

Sixth the selling of lands to actual settlers, and not to speculators. Seventh, the franchise—the equitable distribution of parliamentary represent-

Eighth, temperance. servative party believed in protection. president of the Board. The Liberal party believed in free trade on broad lines such as exist in Great Britain, and their immediate object was a

revenue tariff. There was only one sound permanently bent into the palm of his profitable, desirable, patriotic system, it hand, had the two fingers amputated was that which was conclusive to the Monday afternoon. Dr. Coburn, assisted prosperity of not one class or section, not | by Dr. Bridges, performed the operation. only of cities, but of all classes and sections, of the cities and country at large. Referring to the claim of the Tory party to all the loyalty of the country, Mr. Laurier said he might not always proclaim his loyalty so glibly, but alwhich there will be skirt dancing and though he was of French origin, he was a Liberal of the English school. He loved England and he loved British institutions and why? Because under the

banner of St. George, 'his fellow countrymen of French origion had found far greater freedom than they ever could have hoped for had they remained subjects of France. It was from Old Eng- carrying Henry and the horses with it. land that he took his theories of economic principles, of sound government and good on sense, and upon that platform exemplified as he had told them, the McLearn gave a drive to Springhill and nephew of Alex. Wisely, who attended liberal party of Canada would fight the dance at the hotel there Thursday evennext battle. Mr. Laurier concluded thus: | ing to about eighty of their friends, and "Gentlemen of the city of Montreal, I the occasion was a very pleasant one. have now exposed to you what is the Music was furnished by an orchestra policy of the Liberal party. It is as plain | composed of Messrs. McGrath, O'Brien as it can be. It is a programme for a and McGinn, and an excellent supper customs tariff upon a basis of revenue was served at midnight. The latter was and nothing else. That is the issue up- gotten up by Mr. and Mrs. Gunn and on which we intend to fight, and that is Wardlow Dunphy of the hotel, and orethe issue upon which I invite the cor- flected the greatest credit on that popular dial co-operation of the whole city of hostelry. Montreal and the whole people of Canada at large."

Advices from Newfoundiand say that confederation with Canada is the main topic of conversation there. It is stated that the government will send a delegation to Canada immediately to negotiate terms, but Premier Bowell says he has Lower French Village, Monday. Presihad no notice of their coming. The dele- dent Dykeman in opening the meeting gation is likely to consist of Premier said: That while the past year had not Greene, ex-Premier Whiteway and ex- been so prosperous for the company as Colonial Secretary Bond. HOUSE MOVING

Interesting Ceremonies at the Formal Opening of the Calais--St. Stephen Bridge.

Addresses by Mayor Murchie, Hon. Messrs. Emmerson, Mitchell and Powers.

AN IMPORTANT DAY IN THE HISTORY OF TWO IMPORTANT TOWNS.

Random Observations of the Twin Boroughs and their People.

[Editorial Correspondence.] St. Stephen, Jan. 22. Annexation is now a living issue in this Plocality, and has been an active burning question ever since Saturday last. Not that the diplomatists of the United States and Canada have been in conclave to arrange a pasis of union between the two countries: not that the spirit of conquest has seized the people of these border towns, but the open ing of the new and magnificent steel highway bridge, with all the oratorical and orchestral accompaniments has given an impetus to the intercourse between the two countries, as represented by the enterprising owns of St. Stephen and Calais, which may eventually lead to Canada's absorbtion of her powerful neighbor. A bridge uniting he two towns, is not a new thing, but a free bridge is a decided novelty. Up to within a Jew months ago you couldn't cross from one to the other without putting up the amount of toll-one cent if you were a pedestrian, and six cents if you drove a team. The old bridge, which existed for many years, was a homely thing to look at, and quite an expensive luxury to everybody except the company that owned it. In its day, however, it was a useful structure as a means of communication between the towns, and is said to have paid for itself every three years. More than a year ago the New Brunswick government, urged on by Charlotte's faithful and popular representative, Hon. James Mitchell, provincial secretary, united with the city of Calais, represented by that enterprising citizen, Mayor George A. Murchie, in negotiating with the toll bridge company with a view to purchasing the

The Project Takes Shape Eventually arrangements were completed and the company handed over their property for the sum of \$7,000, the purchase money being equally assessed on Calais and e province of N.B. This accomplished. the city and province continued the copartnership for the erection of a new bridge. a free bridge-one that would be a credit to both parties to the agreement, and the hopes of the firm of Calais, New Brunswick & Co., have been fully realized. The cost of the new structure opened on Saturday, was about \$28,000, and the citizens of Calais are directedly assessed for their half of the amount. They have not received one dollar from any other source—there is no state aid to roads and bridges in Maine, so it will be seen that the new bridge entails quite a burden on the taxpayers of Calais, and shows what a great desire and neccessity there was for the work when the people were willing to tax themselves an amount equal to one third the entire annual assessment of Fredericton to. pay for their share of it. This amount however, is exclusive of one half the purchose money for the old bridge, which runs Stephen people are equally accommodated by the new erection, and the expenditure made by the local government can be justified without any special argument. Hon. Mr. Mitchell and Mayor Murchie of Calais, are the fathers of the new bridge, and these gentlemen have laid their respective constituents under a deep debt of gratitude for having accomplished such a necessary work.

bridge and the company's corporate rights,

and giving the residents of the two towns

free communication with each other.

ception of the bridge project, let me say more, Andrews and McVay had done their something of the structure itself before coming to the formal opening ceremonies of Saturday, to describe which is the real purpose of this letter. The new bridge is of steel, two spans, of the Pratt truss single intersection principle, each 125 feet long. There are also two plate girders, one on either shore fifty feet long, and these with the solid masonry approaches give a total length of 495 feet. The breadth of the driveway is twenty-five feet clear, and the sidewalk on the lower side is eight feet clear. The sub-structure was built by Joseph Mc-Vay, the well known St. Stephen contractor. and all agree that he has done his work admirably. He commenced work July 5th, 1893, and was ready for the superstructure the middle of October last. The masonry consists of three oblong piers with circular ends' and two abutments with retaining walls continued in to the shore on each end and filled in solid with stone and gravel. The Boston Bridge Company had the contract for the superstructure, and deserve every credit for the manner in which they carried out their contract. Every pound a rigid inspection by Ferris & Co. of Pittsburg, Pa., and is of first class character. The plans for the bridge were drawn by A. R. Wetmore, the efficient engineer of the N . B. Holt, on behalf of Calais, carefully watched commissioner, also gave a good deal of attention to the matter, and the result is a

### POETRY.

HIS DAUGHTER'S GRADUATION.

- My darter's been through college, an' s'pose it's done her good, Though what's the use o' some things l have never understood.
- She's learned to play the organ in a noisy sort of way, An' tunes no man could whistle if he prac ticed all the day.
- She's learned to dress her pretty hair fashions strange an' new; Some's Greek, and some is Roman, but no
- old red-white-and-blue, Plain, simple Yankee fashion, with two little finger curls, That seems to be so dressy in our next-door neighbor's girls.
- She talks a lot about something called physiology, Which tells her what effect plain meals will have on ma and me
- But as for making biscuit or pumpkin pie, She seems to think they ain't worth while, an' lets em' all go by.
- She knows about a branch she calls the calisthenic course,
- That sets her prancin' round the room just like an old lame horse. An' mother says she told her should slip an' fall,
- The folks would think 'twas purposely she'd gone and done it all. She practiced tumblin' every day
- (rules from off a chart Made up by some professor like Delsy-art;
- But when I ast her how to make a bed, an how to sew. She turned her nose away, 'way up, an said she didn't know.
- In course this eddication does good in many But on the whole I-cannot truly think it
- It takes a sweet an' simple girl that's full & life and spice, An' fills her up with notions vain, an
- makes her cold as ice. It makes her think the dear old home where she was born and bred, Upon the whole, ain't nothin' more
- It makes her think her brothers fools; and as for ma and me. When she's at home, why then we ain't which I don't like to see

just a common shed.

R. CHESTNUT & SONS.

Boston Transcript Facts! Facts! ters, in both reading and advertising columns offering to the educated and intelligent public, the

T is false economy to refuse a good article and accept a poor one because of the low price. All goods cost money to produce. The better the good the greater the cost. There are certain prices below which no good, henest materials can be lought. If you pay less, you get loss, no use dodging the fact. We always buy the best and sell the best, we don't believe in shoddy. We have just received one curload of STOVES and we consider them THE BEST in the market of their kind, and we invite the public to look them over if they are in want. ost instructive and entertaining selection of news iterary, political, financial, art, music and general
