

POLITICAL POINTS.

Pithy Remarks from our Representatives.

Mr. M. Macdonald, who was chosen at recent Convention as candidate in the Reform interest for this Riding, has been compelled to retire, owing to his being Postmaster. A new Convention has been called to meet in Kincardine, when a candidate will be chosen.

Of the 15 manufacturers in Nanawau, 13 have declared themselves in favour of Mr. Blake's policy. It is the true National Policy for Canada, because it gives free raw materials to the manufacturer, and takes the taxes off the poor man's feet and his head.—[Whig.]

A paper published in Mitchell records that Mr. Trow, having given five dollars to a church subscription, Mr. Guest, his Tory opponent, heard of it, and gave ten dollars. The paper forwarded therefore judges that Mr. Guest will receive the votes of those who worship in that particular church. A greater insult was never offered to a religious body.

We trust our friends in the constituency where they are "hived" will not neglect to poll every vote. A few votes more or less may not matter in that particular Riding, but it is important to show that the great bulk of the people of Ontario are Reform, and so make more manifest the glaring outrage in the John-Amander. Let the full Liberal vote everywhere polled.

What interest has the Conservative candidate in the West Riding of Huron that he should take the support of the electors? He resides about twenty miles from the nearest corner of the constituency, and is in every sense of the word an outsider. While Mr. Cameron is not only a resident, but all his interests are in the riding, and he is therefore in a better position to act as our representative. Electors, mark your ballot for Cameron.—[New Era.]

When a man who is the leader of a great political party, and at the same time Premier of the Dominion of Canada, can not only state a positive untruth in a public meeting, but confirm it with an oath, it is time for the people of Canada to ask themselves what they have come to. Yet this is just what was done by Sir John A. Macdonald at Yorkville on Thursday evening. When questioned in reference to his action in Parliament on the prohibition to pay the expense of the Boundary Commission, he had the audacity not only to affirm that he voted against that proposition, but to support his assertion with an appeal to his Maker so irreverent that it must have shocked every right-minded person in the assembly. One prominent clergyman at least felt himself compelled to utter his protest by leaving the room.

Washington, June 5.—The Court en banc to-day rendered the following decision in the case of Guitau.—The Judges who listened to arguments in the case have come to the conclusion that they have exhausted their powers upon it. They have heard it patiently, fairly and fully, and a reargument would bring them no other conclusion than that already arrived at, and that they decline to reopen the case for argument. Reed has received a letter from Mrs. Dunmore, formerly wife of Guitau, saying, "I shall esteem it a personal favor if you will inform me at once if any effort will be made with the President to assist to a successful accomplishment, I am ready to act. We are not in favor of him being hung." It is stated that Guitau no longer indulges in reading and writing, but broods much, and sometimes paces the floor of his cell, wringing his hands and talking incoherently. It is reported he awoke the other night trembling, and exclaimed, "Oh, why did I assassinate him!" When quieted he said he had been dreaming. He was not afraid to die, but did not think it was possible the President would allow him to be hanged.

The Reform nominee for London is ex-Mayor John Campbell, a man of affairs in Ontario and Manitoba. In his address of acceptance Mr. Campbell said "the N. P. was a national fraud; a discriminating tariff operating against the poor of the country. Was that a notional policy which reduced the purchasing power of the poor man's dollar? Did it clothe the children of mechanic and laborer? Did it reduce the price of the poor man's fuel and breadstuffs? (No, no, and cheers.) They had been told that Mr. Blake and Mr. Mackenzie advocated free trade for Canada. A greater fallacy had never been promulgated. It was universally conceded that a revenue tariff was an absolute necessity in the present condition of affairs. That was the position the leaders of the Liberal party held on this subject, and the position taken by himself. His own experience as a manufacturer proved that by the enhanced price of raw materials the profits were kept at about the old rate. There it is again. Raise the price of the raw material and, to get his old profit, the manufacturer has to charge more for his product. There is nothing more for the workingman. The consumer buys less, and thus the workingman finds less to do. The working of the tariff has not been understood in Canada while times were good and times broke. Keep up the system, and every workingman will understand it—learn the lesson by bitter experience—before another five years. The workingman's true policy is to support the Liberal candidates, who will give the manufacturers free raw material."—[Hamilton Times.]

Instructions have been issued by the Conservatives to swear every questionable voter on the Reform side. No objection can be raised to them swearing "questionable" ones, but there will be a tendency to swear some whose votes are perfectly good, and we urge upon our Reform friends throughout the country the necessity of rigidly guarding against any subterfuges that might cause them the loss of legitimate votes.

At Odessa D. W. Allison got off a good thing in regard to Sir John's appeal to the electors of Lennox because he was once a barefooted boy in Adolphustown. He said he was also once a barefooted boy in Adolphustown, and if this was any claim upon the suffrages of the people his portion was far stronger than that of Sir John, for as soon as Sir John got his boots on he walked out of the county and had never assisted in its development, while he (Mr. A.) had remained here nearly the whole of his life and had done all in his power to promote the social, religious and moral welfare of his fellow citizens. There was great applause following this home thrust.

There are many things which the Liberal party will be able to do. It promises to be faithful to its history the world over, to have sympathy now and in the future for every move made in the direction of human progress. It promises, further, to give to this country a policy which will afford just the equal taxation, and at the same time lead to a rapid and wealthy development of all the interests, especially the manufacturing interests, of this country.

It promises to call a halt in this sweeping tide of public expenditure, which threatens to engulf the country in financial ruin. It promises to adopt, as a matter of parliamentary policy, the assumption that the public debt is large enough, and should not be permitted to exceed reasonable limits.

It promises to pay due regard to provincial rights, and prevent the Federal power trespassing on the rights of the Provinces in this Dominion. It proposes to adopt a land policy for this country with regard to the disposal of that vast public domain in the North West, which is to be the home of future millions—a policy conceived in the interests of the masses, in the interests of the men who will till that soil, and not in the interests of the hordes of speculators who throng to that country and desire to win millions out of the sweat and toil of those who will be called upon to pay the vast profits they expect to make from lands the settler will be compelled to buy from them. The Reform party promises the country honest administration.

It promises an end to those contract scandals, at the head of which stands the Pacific Railway Syndicate bargain, a disgrace to this country, and not far distant from which stands the Orendonk contract. It promises to remedy these things, and it promises to place the affairs of this country in the hands of a leader who is temperate, honest and capable, of the highest personal character, recognized as a prince among his fellow men. [Ex.]

Nervous debility is a result of indigestion in the mode of living. Head Nature's unerring laws and Burdock Blood Bitters, the Great System Renovator and Blood, Liver and Kidney regulator and tonic. Sample bottles 10 cents.

Snatched From the Grave. Mrs. Helen Pharris, No. 331 Dayton st. Chicago, Ill., is now in her sixty-eighth year, and states that she has suffered with Consumption for about ten years, was treated by nine physicians, all of whom pronounced her case hopeless. She had given up all hopes of ever recovering. Seven bottles of Dr. King's New Discovery for Consumption completely cured her. Doubting ones, please drop her a postal and satisfy yourselves. Trial bottles free at Rhynas' Drug Store. Large size \$1.00. (1)

Dropsy is essentially a watery condition of the blood, dependent upon disordered kidneys. Burdock Blood Bitters are strongly Diuretic, and consequently the best known remedy, acting as it does upon the entire Secretory System. Never Give Up. If you are suffering with low and depressed spirits, loss of appetite, general debility, disordered blood, weak constitution, headache, or any disease of a bilious nature, by all means procure a bottle of Electric Bitters. You will be surprised to see the rapid improvement that will follow; you will be inspired with new life; strength activity will return; pain and misery will cease, and henceforth you will rejoice in the praise of Electric Bitters. Sold at fifty cents a bottle, by Geo. Rhynas. [1]

Gold—Is excellent for filling decayed Teeth; but "TRABERY" prevents the decay, makes them white, and make people lovable. 5 cent samples.

COUNTY COUNCIL.

The June Session of our County Council.

The County Council met in June session on Tuesday, at 4 o'clock p. m., the Warden in the chair and the following Councilors present: Webster, Griffin, Esau, Rogers, Corbett, Cooper, Young, Allan, Campbell, Hutchinson, Elliott, Whitley, Strachan, Hialop, Oliver, East, Kaine, Cook, Weir, Mason, Hays, Forsyth, Miller, Wilson, Bhattie, Graham, Castle, Ritz, Elber, Walker, Hannah, Hennings, McPherson, Kay, Shier, Currie, Girvin, Gaunt, Gibson, and Meyer.

After the approval of the minutes of last meeting, Warden Johnston addressed the Council on the following matters, viz: The repairs to the old Maitland bridge, the testing of the iron for the new bridge, the necessity of calling his committee together to consult about lowering Mr. Platt's dam, and allowing Mr. Jamieson the use of the scaffolding to erect the new structure; the memorial forwarded to the Government in reference to the second selection of jurors; the repairs at the gaol and court house, and that all the iron had been delivered for the new bridge, upon which the company had received an estimate of \$6,000.

The report of Messrs. Gibson and Hardy, giving the results of the tests made upon the iron for the new bridge, was read and referred to the Road and Bridge Committee. (The substance of this report we gave in our issue of April 14th.)

Communications were read from the Inspector of Asylums and the Sheriff—the former regarding three new entry books which the county must furnish the gaoler, and the latter a return of prisoners employed. Referred to Gaol and Court House Committee.

The report of the county auditors was read, showing the balance on hand Dec. 31, 1881, \$16,554.19; also statements of the County and Northern Gravel Road sinking fund account, and the liabilities and assets of the county. Referred to the Finance Committee.

A communication was read from John Hialop, claiming damages of \$300, sustained by him in not being allowed to proceed with the mason work of the Maitland Bridge at the time agreed in contract, and offering to settle for \$200, in addition to contract price. Referred to Road and Bridge Committee.

After reading and referring a number of accounts to the Finance Committee, the Council adjourned until 10 a. m. on Wednesday.

SECOND DAY.

The Council met again at ten o'clock, the members all present except Messrs. Kelly, McMillan, Evans, and Taylor. Minutes of yesterday read and approved.

The report of Mr. Girvin, as road commissioner, was read and referred to the Road and Bridge Committee.

Moved by Mr. Kay, seconded by Mr. Shier, that this Council authorize Mr. Hardy, road commissioner, to have the bridge on the boundary between Usborne and Hibbert, known as bridge No. 32, rebuilt, as it is not safe for public travel, provide that the county of Perth, or the township of Hibbert, pay one-half the cost. Referred to Road and Bridge Committee.

The report of Mr. Mason, as Road Commissioner, was read and referred to Road and Bridge Committee.

According to instructions at the January meeting, I had plans prepared and called for tenders for the construction of a new bridge at Blyth, with the assistance of Mr. Hardy and Mr. Kelly. We accepted the lowest tender, that of L. J. Bruce, for \$1,583, the bridge to be built with stone abutments and to be completed by October 1st. I also went to Kingsbridge, and found that the old bridge is not long enough to take the high water through. I would recommend that the said bridge be built by the county. I also had some repairs made on Turner's bridge, at a cost of \$5. With Mr. Elliott, reeve of Goderich township, I went to Bayfield and found the north end of the approach to the bridge giving way, threatening to undermine the spiles which support the end. I inspected the Rathwell's bridge, and let the job for repairing the same at once. I was notified by the reeve of Wingham that the bridge at that place was tight, and I inspected the same, and the work is going on at present. I also inspected the town bridge between Hay and Stephen, with the assistance of Mr. Hardy and Dr. Buchanan, and would recommend that this bridge be rebuilt by the county and be made shorter, as I think a bridge of 16 feet would take all the water through, by cleaning away the timber on the south side of the bridge.

JOHN MASON, Commissioner.

Moved by Mr. Kaine, seconded by Mr. Weir, that the clerk be instructed to notify the council of the county of Bruce that the road across the lake at Good and Carrick, is in a very dangerous condition, and that we are prepared to carry out the work to completion, and hope that the county of Bruce will at once grant one-half the sum required.—Carried.

On motion of Mr. Meyer, seconded by Mr. Hardy, Elliott, of Wingham, was placed on the Equalization committee, in the place of Mr. Meyer.

The council then adjourned to meet at 3 o'clock on Thursday.

THIRD DAY.

June 8th 1882  
The Council met pursuant to the adjournment, the warden in the chair. The minutes of yesterday were read and approved.

A communication from Sheriff Gibbons in reference to repairs at Gaol was read and referred to the Gaol and Court House Committee.

A circular from the Toronto Prisoner's Aid Association was read and referred to the Finance Committee.

A petition from D. Ross and others in reference to the Bayfield Milldam was read and referred to the Road and Bridge Committee.

A letter from the county treasurer was read accompanied by Schedules of collections on lands and cash on hand. Report of Mr. Gibson, road commissioner was read.

ers be authorized to construct a railing on the approach to the Jamestown bridge, such approach being dangerous to the travelling public. Referred to the

ROAD AND BRIDGE COMMITTEE.

The following is the report of the Road and Bridge Committee. On the report of Messrs. Gibson and Hardy, on the testing of the iron for the Maitland bridge, we recommend that the report be adopted and printed in the minutes. On the claim of John Hialop, for damages sustained by not being allowed to proceed with the additional stone-work on the piers at the Maitland Bridge, according to agreement, we recommend that Mr. Hialop be paid \$100 in full of all claims for damages sustained through not being allowed to proceed with the work. The report of Mr. Girvin, road commissioner he adopted, on the motion of Mr. Hay, to authorize Mr. Hardy to have the bridge on the boundary between Usborne and Hibbert rebuilt, provided the township of Hibbert pay one-half of the cost, we recommend that the motion be granted. On the report of Mr. Mason, road commissioner, we recommend that he make the necessary repairs to protect the north embankment of the Bayfield bridge from being washed away, and that the report be adopted with the above recommendation. On the petition of Donald Ross and 49 others, asking that steps be taken by the County Council to compel Mr. Thomson to construct a slide on his midland to allow fish to ascend the Bayfield river in the proper season, we recommend that the Clerk notify the Inspector of Fisheries to see that sec. 8, chap. 113 of the Revised Statutes be enforced. On the report of Mr. Gibson, road commissioner we recommend that he have a bent put under the bridge on the boundary between Howick and Grey, and that the other repairs mentioned in his report be completed as he may think necessary, and that the clerk of the County notify the party having a building on the road allowance at the end of the Bluevale bridge to have it removed on reasonable notice. On the motion of Mr. Strachan to construct a railing on the approach to the Jamestown bridge, we recommend that Mr. Gibson see that the work be performed. On the motion of Mr. Hays for Messrs. Mason and Hardy to meet Mr. Jones, reeve of Hibbert, with respect to the bridge on the boundary between McKillop and Logan, and to examine two bridges on the gravel road north of Seaford, we recommend that the motion be granted. On the motion of Mr. Kaine, that the road commissioners be instructed to proceed with the construction of the bridge across the Maitland river on the boundary between Howick and Minto, we recommend that the bridge be built as soon as the road is built to it, provide the County of Wellington pay one-half of the cost. On motion of Mr. Webster to have the approach at the west end of the bridge at Port Albert be repaired, we recommend that the matter be left to the road commissioner, Mr. Girvin. On the communication of Mr. Butler, offering \$1 each for a few of the bolts taken out of the old Maitland Bridge, we recommend that the matter be left to the road commissioner, also giving them power to dispose of all the timber and iron of the old bridge to the best advantage. On motion of Mr. Young to have a stone parapet wall built at each end of the new bridge, as far as the abutments extend and recommend that an iron railing be constructed instead of a stone parapet, and that the road commissioners be instructed to have the work performed.

All of which is respectfully submitted.  
JOHN HAYMAN,  
Chairman, pro tem.  
(Continued on 8th page.)

The exemption of several individuals from Typhoid Fever, which recently prevailed very largely in a Western town, was directly traced to the fact that they maintained an excellent state of health by the use of Dr. Carson's Stomach and Constipation Bitters. This medicine is purely vegetable, non-alcoholic, and may be had of all Druggists. Price 50c. C. Rhynas, agent for Goderich.

If Catarrh has destroyed your sense of smell and hearing, Hall's Catarrh Cure will cure you. 75 cents per bottle. All druggists sell it. For sale by George Rhynas, sole agent, Goderich. 1843-3m

Changeable weather is trying to the system, rendering it more liable to disease. As a pre-ventative of sickness use Dr. Carson's Stomach & Constipation Bitters. They purify the blood, cure all Bilious Stomach and Liver disorders, and give tone and strength to the system. Price 50c. For sale by all druggists. Geo. Rhynas, agent for Goderich.

Mr. John McArthur, banker, of Hensall, recently rode from Hensall to Alton Craig, via Exeter, on a bicycle, a distance of 26 miles, in three hours and 15 minutes.

Sick Headache, Neuralgia, Dyspepsia and Constipation relieved and cured by the use of Dr. Carson's Stomach and Constipation Bitters. Try them. They are safe and effectual. Sold by all druggists. Geo. Rhynas, agent for Goderich.

Is offered for sale of Catarrh that can't be cured with Hall's Catarrh Cure. Taken internally. Price 75 cents. For sale by George Rhynas, sole agent for Goderich.

Dr. Smith's German Worm Remedy Removes stomach and Seat Worms from adult or child, and as a cure for Costiveness, Biliousness, Indigestion, Sour or Weak Stomach, it is unexcelled, removing all impurities from the Stomach and keeping the bowels regular. Put up in Packages at 25 cents. Sold by druggists and country storekeepers generally. If your druggist does not keep it, write No Other, but send to our nearest office, or ask your druggist to obtain it for you. Sent post paid with full directions for using, on receipt of price. SERRA MEDICINE CO., 663 Craig Street, Montreal. Sold by Jas. Wilson, Goderich, Ont. 2

Hall's Catarrh Cure is taken internally. It acts directly upon the blood and the mucous surfaces of the system. Price 75 cents. For sale by George Rhynas, sole agent for Goderich. 1843-3m

Household Hints.

Weak persialah water is said to be good to remove stains caused by acids on scarlet wooden goods.

To preserve mulberry of either gum arabic or tragacanth, add a few drops of oil of cloves or alcohol.

Lemon juice and glycerine will cleanse and soften the hands. Cream of tartar will clean white kid shoes or gloves nicely.

Take pie crust and cut out with a biscuit cutter. Use two crusts to each tart; for inside one cup of chopped raisins and one-half cup of sugar.

To perfume clothes, take cloves, cedar and rhubarb, each one ounce; pulverize and sprinkle it in the closet or drawer. It will also prevent moths.

To insure paste from moulding put into it a proportion of alum and resin. A few drops of any essential oil will preserve the leather from mould, and a single clove put into a bottle of ink will have the same effect upon it.

If you have any old plaster of Paris figures, such as "shepherds," "shepherdesses," etc., that are still whole and unbroken but too much soiled to look well, bronze them with the article generally used for bronzing children's shoes, etc., and they will appear to advantage once more.

Regless Cake.—One-half cup of butter, one and one-half cups of sugar, one cup of sour milk, three level cups of sifted flour, one teaspoonful of soda, one-half teaspoonful each of cinnamon and grated nutmeg, and one cup of chopped and well-sifted raisins. Beat the butter and sugar very light, and in stirring in the flour beat very thoroughly.

Farm and Garden.

It is important to destroy the first brood of potato beetles.

A few sprigs of cedar branches (or leaves) have a strong tendency to drive off insects from the nests of hens.

A little grease or kerosene on the legs of fowls will remove scabs in a short time. Two applications are sometimes needed.

On many farms there are some old cattle and old sheep that can only be kept at a loss. It is economy to fatten them for the butcher.

Make surface drains and let off the water from the low places in the wheat fields. Good wages can be earned by prompt attention to this matter.

When potatoes are planted deep, as they should be, the soil must be worked correspondingly deep, and the manure well and deeply mixed with it.

Ventilate the stables, let in the light and air. It might almost be said that nearly one-half of all the diseases which affect stock are due to bad ventilation.

In making a plantation of strawberries old plants that have borne fruit and the small plants that form late in the autumn should be rejected, and good sized vigorous plants set.

A good, permanent pasture, handy to the barn-yard, is very convenient, almost a necessity, on every well regulated farm. Such a field needs to be well fertilized and cared for that it may give the best returns in an abundant supply of green food for the farm stock.

A writer gives this thorough method for applying fertilizers to trees. He takes the top soil of the surface without laying the roots bare, and then applies several inches of stable manure which is covered by again returning the soil. The surface is kept clean and mellow. With a saw he thins out here and there enough of the crowded limbs to let in the sunlight. Soap-suds are also applied.

Geraniums have become so well known as bedding plants that we need say but little concerning their merits further than advising that the tall-growing sorts be placed in the middle of the bed, and the dwarfs put around as a border. In selecting variegated sorts see to it that they are such as will bear our hot sun.

For instance Mrs. Pollock, one of our most gorgeously marked tri-colors when grown in-doors, will lose the zones and beauty in the sunshine. On the other hand, Marshal McMahon, whose markings are dim in the house, glories and is greatly improved in the sun.

Heliotropes and lantanas make excellent bedding plants. They bloom freely, are easily grown and require no particular treatment.

Then we come to what are popularly called foliage plants. In this family, which is only cultivated for the beautiful leaf marking, the flowers being insignificant, there are now some hundreds of varieties, some differing as much in color and habit as day and night, while there are others which require the practical eye of an expert to detect any difference.

For a shady place, the north side of the house for example, that is the place for a bed of pansies. They do not want a raised mound to live in, but prefer a slightly depressed bed so that they can have plenty of moisture. Then, there is Drummond's phlox, a whole garden in itself, so varied are the hues of its flowers. We find they give better satisfaction if sown in boxes early, then transplanted nine to ten inches apart and the plants pegged down as they grow. A bed so planted will give as much pleasure and at far less cost than verbenas. The secret of pansy culture, says the Philadelphia Ledger, is to pick every flower that opens, and never allow a seed pod to mature.

W. S. Hart & Co. PROPRIETORS OF THE Goderich Mills (LATE PIPER'S.) Beg to return their thanks to the public for the liberal patronage received during the past year, and to state they are prepared to do

WILL YOU EXCHANGE

a case of Dyspepsia or Biliousness for 75 cents?

It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver...

with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Get this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts.

It is warranted to cure Dyspepsia and Biliousness.

The Poet's Corner.

One and then another. One step and then another. And the longest walk is ended; One stick and then another. And the longest rest is needed. One brick upon another. And the highest wall is made; One flake upon another. And the deepest snow is laid. So the little coral workers, By their slow and constant motion, Have built these pretty islands In the distant blue ocean: And the noblest undertakings Man's wisdom hath conceived, By oft-repeated effort Has been peacefully achieved.

Then do not look disheartened On the work you have to do, And say that such a mighty task, You never can get through; But just endeavor day by day. Another point to gain, And soon the mountain which you feared Will prove to be a plain. "Rome was not built in a day," The ancient proverb teaches, And nature, by her trees and flowers, The same sweet sermon preaches. Think not of far-off duties, But of the duties which are near, And having once begun to work, Receive to perseverence.

Fun and Fancy.

The road to matrimony is a bridal path. A lover has all the qualities a husband has not. The paper hanger's business is very stock up. What kind of a hen lays the longest? A dead hen. The telephone tells its own story, and its a sound one of that. Does a girl eudge her brains every time she bangs her hair? A cigar is perhaps the only thing that is destroyed by being puffed too freely. "Misery may like company," says a colored philosopher; "but I'd rather have a rhematis in one leg than ten in both."

Under the microscope a hair has rough edges like a rasp. No wonder then that a young man's mustache often tickles a girl's nose. One year ago a needle entered the wrist of a young lady, and the other day it was removed from the right arm of the fellow who is her "steady company." The Philadelphia Press says that the mark of "a perfect gentleman" is his making sure that nobody is looking before he wipes his mouth on the tablecloth. It is said that at learning to swim women are quicker than men. This probably because the custom of wearing trains has learned them to kick out gracefully. There are three prominent phases of a young woman's life, all visibly connected. As a baby, she's lugged; as a young woman, she's hugged; as a wife, she's humbugged. The gambler lives on our hopes, the lawyer on our quarrels, the doctor on our ills, and the clergyman on our fears. The millennium will throw these people all out of employment. "Natural history: 'Listen, aunty! What's that?' 'It's the cuckoo, darling. Don't you know the cuckoo?' 'Oh, yes! the cuckoo's that horrid bird that doesn't lay its own eggs.' 'What building is that?' asked a stranger of a boy, pointing to a school house. 'That!' said the boy. 'Why, that's a tannery!' and he feebly rubbed his back as he passed on. "Don't stand on ceremony, come in," said a lady to an old friend, as she opened the door. "Why, my goodness! Excuse me, ma'am, I thought all along I was standin' on the door mat."

An exchange says that man is very much like an egg. Yes, poor man, he carries his yoke around with him, and had to shell out every time his house-keeper gives him a rap on the head. A young lawyer was receiving the congratulations of his friends the other day, on his statement that he had won his first case. It turned out that it was a case of bottled lager, and he won it on a base ball bet. Physicians and druggists have been in the habit of charging patients and customers more than many of them are able to pay. We are glad to inform our readers that Mack's MAGNETIC MEDICINE is sold at the low price of fifty cents a box, a quantity sufficient to last over two weeks. Read the advertisement in another column.

General Debility. This convenient term includes numerous ill-defined and suppose incurable forms of disease, accompanied by general lassitude and exhaustion; without any ascertainable external or internal cause. The PERUVIAN STRUPTENDS its renovating influence to impart resources of the system, and has relieved in our community many cases of supposed incurable disease. Sold by dealers generally.

A VULGARITY TO BE AVOIDED.—In asking a man questions concerning his wife, you should not say: "How is your lady?" This is vulgar, and invariably betrays a lack of cultivation. The term of wife is far more beautiful and appropriate and refined, whatever may be said to the contrary. Suppose a lady was to say, instead of "my husband," "my gentleman," or "suppose we were to speak of 'Mr. Fitz, Maurice and her gentleman.'" The thing would be positively ludicrous, and its converse is none the less so, if rightly considered. A man's wife is his wife, and not his lady. The term should be tabooed.

Rheumatism is greatly dependent on visited condition of the fluids, and may be eliminated from the system by cleansing the Blood and regulating the Kidneys. Burdock Blood Bitters will do this most effectually. Trial bottle 10 cents.

The Fashions.

Gloves a yard long are imported to wear with dresses that have short sleeves. A dark red parasol for general wear, a white parasol for dress, and a black one for use as the popular choice. Superb mantles for church and visiting are made of black grenadine, with broad velvet figures of great size, and silk hand-made Spanish lace for trimming. Stripes of satin alternating with checked stripes are in great favor for the pleated flounces of walking dresses. The overdress is then made of the plain color of the satin stripe, and may be either of satin or cashmere. A favorite combination for a young lady's costume is a blue or black dress for the overdress, with pleated skirt of invisible green satin duchesse. The collar and cuffs are of the green satin covered with ecru embroidery, and there is a pleasing of the embroidery at the foot of the green skirt. The new ulsters for traveling are English greatcoats of a severe shape, following the outlines of a figure as closely as possible, without a pleat or fold in the back, and with a single-breasted front buttoned from the throat to the foot. The material is English checked cloth known as "suitings." Similar coats of velvet were worn during the winter by English women of fashion. Picturesque and quaint styles of dress prevail for children. Small boys are dressed in little prince suits of black velvet, with wide collar and cuffs of embroidery, knee-breeches, long black silk stockings and pumps; their flowing hair is cropped short across the forehead. Little girls wear full-moon hats that frame their faces and have a single great bow for trimming. Their dresses have guimpes, with shoulder puffs, and have plumps from the shoulders or the fullness is sheared in closely by the knees.

The first thing necessary to a successful picnic is a plan. You must know who are to compose the party, where you intend to go, and what you can do to amuse yourselves when you get there. Then, too, you must have what in armies is called a commissary department, which shall see about the provisions. A picnic without a dinner would be very dull. Two or three days before the event, the boys and girls who wish to spend some bright summer hours together in the woods or park should ask their parents advice about a good place. A place to be good should be safe, beautiful, and not too far from home. If not within walking distance, it is well to know whether it can be easily reached by boat or cars, or by stage or carriage. You should find out beforehand precisely how much it will cost to convey the party to the spot. Then select a treasurer, who shall pay all expenses, buy tickets, and take charge of the funds. The treasurer must keep an exact account of everything he or she may spend, putting it down in writing, that a report may be given at the proper time. Your fathers or teachers will usually be able to warn you against dangerous places, or those which are too public to be pleasant for a little picnic party. As a rule, you should not admit strangers or acquaintances picked up on the way to share your frolic. It is always best to keep the party strictly to its original numbers. There are two ways of providing the luncheon. One is to decide in advance what each shall bring as his or her contribution, so that there may not be too large a quantity of one article, and too little of another. John may be told to bring lemons, Jane may furnish pound-cake, Alice biscuits and butter, Louise sugar, and Mabel sandwiches. Or each of the company may provide a nice basket of food, and when the time comes for the meal everything may be shared, and the table spread for the general feast as well as the former. Hard-boiled eggs, potted meats, thin slices of ham or tongue, cold chicken, and plenty of good bread and sweet butter, are among the must-haves. Picnic appetites are famous, and you need plenty of the "substantials." Jelly in little glasses, fruit, cake, and, if mother says so, a few of her delicious pickles or an apple pie do not prove as indigestible when eaten out doors as they do under other circumstances. Do not forget the salt. Nor the pepper. Bottles of milk wrapped in cabbage leaves, or set into a pan of ice for cooling, are not to be overlooked. Be sure there is a spring near your picnic ground, or an old well on some kind of a farm. If it has a long sweep and a deep moss-green bucket, so much the better. Do not trespass on anybody's private grounds. Always send a committee to the house to ask permission to help yourselves to water from the well, or to pass through fields and lanes not open to the public. The girls must remember that so far as possible all picnic preparations should be made the day before. It is not well to leave cooking for the morning of the day when you are to go. The boys, too, should have their fishing-tackle in readiness overnight. If swarms are to be put up, a man should be engaged to see about them, or at least the oldest and most trustworthy boys of the party should see that the

ropes are firm, and the tree branches stout. Nothing is more terrible in its consequence than a fall from a swing. Always leave the grounds in time to reach home before dark. Take wraps for the cool of the day. Be polite, unselfish, and very good-natured in a kind. I hope you: picnic parties may be very delightful, and that nobody may do as I once did on such an occasion. Five of us, Henry, Belle, Jennie, Nellie, and I went to spend the day at a lovely spot a little way from the city. As the eldest of the number, the luncheon basket was committed to my care. I kept it by me, and with a charming book sat and read until the little steambot stopped at its landing. Then we all rushed off, and the boat puffed away up the river. Presently said one of the group: "Why, Marjorie Precept, what have you done with the basket?" "Sure enough! I had left it on the boat. There is no use of trying to tell you what the rest of the party said to me. Imagine for yourselves five boys and girls, with the appetites that are gained by a sail on a steambot, delicious luncheon prepared for them, by my carelessness. We did not get that basket again for three days. Well, what I suffered has been a good lesson to me. Now-a-days I know how to go pick-nicking, as I hope you will agree from the directions I have tried to give.—[Harper's Young People.

"I write this," says Mr. Nelson of Paw, of Napierville, Quebec, Canada, "to say that, after suffering six years with rheumatism—accompanied with the most intense pain with which any one could be afflicted—I have been completely cured by the use of St. Jacobs Oil. I thus write because I consider it my duty to suffering humanity the wonderful efficacy of the Great German Remedy. When I remember that during the six years in which I was beridden with this awful disease, I tried all kinds of remedies, and expended a very large amount of money with doctors of all schools, and underwent all kinds of treatment, the feeling of gratitude at my marvelous recovery impresses me to give the widest publicity to my case.

Don't be whining about not having a fair chance. Throw a sensible man out of a window and he'll fall on his feet; and ask the nearest way to his work. The more you have to begin with the less you have in the end. Money you can get yourself is much brighter than any you get out of dead men's bags. A scant breakfast in the morning of life whets the appetite for a feast later in the day. He who has tasted a sour apple will have the more relish for a sweet one. Your present want will make future prosperity all the sweeter. 25 cents has set up many a peddler in business, and he has turned it over until he has kept his carriage.

To the Medical Profession, and all whom it may concern. Phosphate, or Nerve Food, a Phosphate Element based upon Scientific Facts, Formulated by Professor Austin, M. D. of Boston, Mass., cures Pulmonary Consumption, Sick Headache, Nervous Attacks, Vertigo and Nouralgia and all wasting diseases of the human system. Phosphate is not a Medicine, but a Nutrient, because it contains no Vegetable or Mineral Poisons, Opium, Narcotics, and no Stimulants, but simply the Phosphate of Gastric Elements found in our daily food. A single bottle is sufficient to convince. All Druggists sell it. \$1.00 per bottle. LOWDEN & Co., sole agents for the Dominion, 55 Front Street East, Toronto.

Bucklen's Arnica Salve. The best salve in the world for Cuts, Bruises, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Geo. Rhyms, 1830 ly.

MRS. WARNOCK. Begs to acquaint the ladies of Goderich and vicinity, that she is now showing Spring and Summer Millinery at her shop, Hamilton Street, in great and beautiful variety. She has secured the services of a city milliner, and feels assured that she can give SATISFACTION IN BOTH STYLE AND MAKE. She hopes to be favored with a visit from her patrons, and the ladies generally. MRS. WARNOCK.

HO! HO! MANITOBA. The Great Western Railway will run their excursions to MANITOBA and DAKOTA points during May and June every two weeks, commencing TUESDAY May, 2nd, 1881. Fares Reduced. For information, tickets, etc., apply to GEO. B. JOHNSTON, Special Agent Great Western Railway, Goderich, April 28, 1882.

"Twenty-four years' Experience." Says an eminent physician, convalescent from the only way to cure nervous exhaustion, and weakness of the sexual organs, is to repair the waste by giving brain and nerve foods, and of all the remedies compounded, Magnetic Medicine is the best. See advertisement in another column. Sold in Goderich by Jas. Wilson, druggist.—1m

COUNTY COUNCIL. The June Session of our County Senators.

(Continued from 3rd page.)

ROAD COMMISSIONER'S REPORT. That, as instructed by the Council at its meeting in January last, I went to examine the bridge referred to in item 96 of the minutes, and found that the bridge is over a creek in a deep and narrow gully, and is in freshets liable to have a very heavy rush of water through it; the bridge is 141 feet span and 3 feet high, and in a flood it is oftentimes choked up with water, and consequently the water finds an outlet over the embankment at the north end of the bridge, and washes it away sometimes as much as sixty-three feet. I would suggest that the bridge be made 6 or 8 feet more of a span, and 2 feet higher, which I believe would allow any flood there to pass safely. I examined the bridge over the Eighteen Mile river on the Ashfield road, and find that it will require a new floor and some slight repairs to the approaches and hand railing. The Graham's bridge on the Lake Shore Road, will require to have some repairs to the approaches. The approaches to Help's Bridge will need some slight repair, and the plank is torn off of the piers with the ice. I would take the liberty to suggest that it might be well to have a plate of iron put over the point of the cutwater, so as to save this plank from being torn off yearly. In connection with the affairs of the Maitland bridge, I have much pleasure in stating to the Council that I have been able to secure the services of the Clerk in all the various little matters and troubles incidental to so large an undertaking. I have further to state that as authorized by the Warden's Committee, I superintended the finding and making of a safe fording place across the river while the traffic is stopped across the bridge by taking away the old bridge and erecting the new one. Considerable time and labor for that purpose was spent, as the early season of the year made it more difficult. The dam for Mr. Platt's new mill was partly to remove and lower, which was a difficult work, the water being cold and deep, and it was difficult to find men who could or would work under such conditions. At the fording place there was a number of heavy boulders in the bed of the stream which had to be removed at a depth of not less than four feet of water, and deep holes in the bottom were filled with gravel. After all this had been done the approaches on both sides of the river required to be cut away in some places and filled in others to make it as safe and convenient as we could for teams and light vehicles, and after all that was completed, a temporary foot bridge, which should be left safe, had to be made as to allow foot travellers to get across. The various items of expense for the above works cost the moderate sum of \$87.37, the account for which will be laid before you. I have also to say that some of the timber supplied for the erection of the new bridge was lost in the ice and had to be replaced, which was done, amounting to a little over 2000 feet. I have succeeded in obtaining all the cedar for the flooring joists in local mills, which it was feared we would scarcely be able to obtain, and which is nearly all delivered on the ground. I have also to say that with the concurrence of the Warden's committee, I engaged Mr. Sands to superintend and inspect the mason work, all the time that it was being laid in position on the piers and abutments. I cannot conclude my report without stating to the Council that Mr. Leckman, the superintendent of the work for the Iron Bridge Company, has rendered us very able advice and efficient assistance in all or any of the little difficulties that are sure to occur, and do occur, where so many contractors are carrying on each his own contract simultaneously on the one work, and I believe that it is a good guarantee that the work will be satisfactorily finished, as he thoroughly understands the whole work.

All of which is respectfully submitted, CHAS. GIRVIN, Road Com. The following motion by Mr. Hayes, seconded by Mr. Evans, was also referred to Road and Bridge Committee: That Messrs. Mason and Hardy, Road Commissioners, be instructed to confer with Mr. Jones, Reeve of Logan, with respect to a bridge on the boundary of Logan and McKillop, to have the same rebuilt at once. Also that they examine the two bridges north of Searforth, one on the 4th and 5th concession, and the other on the 11th concession, and have them put in a proper state of repair.

Moved by Mr. Elliott, seconded by Mr. Kaine, that this Council grant the sum of ten cents per day, in addition to the non-commissioned officers and men of the 33rd battalion, who perform their annual drill this year. Carried. Moved by Mr. Kaine, seconded by Mr. Cook, that the Road Commissioners be instructed to proceed with the construction of the boundary line between Howick and Minto. Referred to the Road and Bridge Committee.

Moved by Mr. Graham, seconded by Mr. Castle, that a by-law be passed to confirm by-law No. 3, of the township of Stanley for 1881, for the disposal and closing up of part of concessions 4 and 5 from the south boundary to the side line between lots 5 and 6, to James Lawson and others named in said by-law. Carried. The reports of Messrs Miller and Dewar, I. P. S. were read and referred to the School Committee.

Moved by Mr. Webster, seconded by Mr. Griffin, that Road Commissioner Girvin be instructed to have the approach at the west end of the bridge at Port Albert repaired. Referred to the Road and Bridge Committee. The Council then adjourned to meet at 3 p. m. to-morrow.

FOURTH DAY - FRIDAY.

The Council met at 5 o'clock to-day, the Warden in the Chair. Mr. Butler, in reference to the old iron of the Maitland Bridge, was read and referred to the Road and Bridge Committee.

The following report of the Finance Committee was read and adopted: REVENUE COMMISSIONER'S REPORT. Recommending payment of a number of small accounts. The treasurer laid the mortgages for moneys of the sinking fund received since January 1st, 1882, before us, amounting to \$9,300, as follows: No. 10, for \$1400, Turnberry; No. 11, for \$400, Hullett; No. 12, for \$1000, East Wawanosh; No. 13, for \$2,900, McKillop. They have been examined by us and we find them all very satisfactory. The Treasurer's securities have been found satisfactory. The estimates for the current year were laid before us, amounting to \$47,685, exclusive of the equivalent to the Legislative Grant to Public Schools, requiring a rate levied of one and a half miles on the dollar, on the equalized assessment of the county—and we recommend that a by-law for raising the above sum be passed, also a by-law for raising a sum equal to the Legislative School Grant.

Recommended that the Warden be authorized to discount notes to the amount of not exceeding \$15,000 to meet current expenses, as shown by the Treasurer's statement. A. L. GIBSON, Chairman. The following report of the Jail and Court House Committee was read and adopted.

JAIL AND COURT HOUSE. Your committee report that they have visited and inspected the jail, and find it clean and well kept. There are at present seven male prisoners confined in the jail—one for vagrancy, two drunk and disorderly, one larceny, one forgery one for illicit distilling, and one for assault.

We recommend that one of the cells in the female department be wainscotted with hard wood, and that two dozen pillow slips and two dozen towels be purchased. Your committee recommend the following repairs in the Court House: the tables in the room of the County Attorney be recovered; Mr. Malcolmson's room be fitted up the same as Mr. McDonald's; the plastering in the Clerk's office and Grand Jury room be repaired; and also the roof of the Court House. Work to be done under the supervision of the Warden and Clerk, and that Mr. Hardy superintend repairs to the roof.

JOHN HENNING, Chairman. The report of the Equalization Committee last year. Moved by Mr. Girvin, seconded by Mr. Gaunt, that the report be amended by reducing the equalization of West Wawanosh to \$32 on the real property and \$2.25 on the personal property. Lost on a division.

Moved by Mr. Forayth, seconded by Mr. Miller, that the report be amended by reducing the township of Morris one dollar per acre. Lost on a division by a majority of 34.

The report was then adopted as submitted. Moved by Mr. Young, seconded by Mr. Allan, that the commissioners be instructed to have a suitable parapet wall built at each end of the new bridge on each side of the road. Referred to the Road and Bridge Committee.

Moved by Mr. Mason, seconded by Mr. Girvin, that the Council, before adjourning, desire to convey to Mr. Taylor, the respected reeve of East Wawanosh, his sympathy for him in having his leg broken, which prevents him from occupying his seat at the Board, during the present session—Carried.

The Council then adjourned to meet at 9 o'clock on Saturday morning. FIFTH DAY - SATURDAY. The Council met, the Warden in the Chair. Minutes of yesterday read and approved.

The report of the School Committee recommending that the Inspectors' reports be printed in the minutes, was read and adopted. The following report of the Road and Bridge Committee was read and adopted: No. 6, of 1882, to confirm by-law No. 3, of the township of Stanley; No. 7, imposing county rates for the current year; No. 8, equalizing the assessments for 1881; and No. 9, raising a sum equal to the Legislative School Equivalent.

The Council then adjourned to meet at the call of the Warden. Raw Material. Well, now, what is wanted besides judicious treaties for this purpose? Economy of production is wanted. Economy of production is wanted to enable you to compete in your own countries with other manufacturers; and what can be done in order to procure economy of production? There are two capital points to be considered; the first is the question of the raw materials which enter into the manufacture; the second is the question of the labor which is employed in converting those raw materials into the finished article. Now, our policy with reference to the raw material used in manufacturing is that these should be distinct and should be admitted upon a lower scale of duty, and in some instances absolutely free of duty (cheers) in order that we may thus enable the manufacturer to produce the finished article at a convenient rate, and that he may sell to us, who are home consumers, and sell abroad, when he can operate abroad, by producing at a cheaper rate, to advantage. Thus you will see that the whole country is benefitted by the reduction or the abolition of taxes on the raw materials which are used in manufacturing. I have proved from the Government blue books that there has been a great expansion in our foreign trade in products of the forest, of the mine and of the farm. Last year we had a decrease of \$1,500,000 in the value of manufactures exported. How is this to be accounted for? There cannot be a doubt that, to a very great extent, the falling off in our exports of manufactures is due to the increased expense of production due to the heavy charges on certain raw materials. [Hon. EDWARD BLAKE.

THE CAMPAIGN.

Reports from over the County. Particulars of the Meetings - Facing the Battle on the Platforms - Getting Ready for the Polls.

DONNYBROOK. Mr. Porter held a meeting here on Thursday evening of last week, which was well attended. Mr. Porter opened the meeting by an address which occupied an hour and a half. Mr. D. McGillicuddy represented Mr. Cameron at the meeting, but was allowed only one hour to reply to Mr. Porter. At the end of Mr. McGillicuddy's remarks Mr. Porter closed the meeting with a fifteen minutes speech. The chair was occupied by Mr. Troy of Wawanosh in a creditable manner. The meeting was unmistakably in favor of Mr. Cameron, and the cheering for Hon. Mr. Blake was most enthusiastic.

BENMILLER. Mr. Cameron's meeting at Benmiller on Friday night was a great success. The village band turned out to meet him, and furnished choice selections during the evening. Mr. Garrow spoke first hour for Mr. Cameron in his well known able manner. Mr. Porter replied, and kept up his reputation for vigor on the occasion. The closing remarks by Mr. Cameron who was, however, still suffering from hoarseness, carried the meeting by storm. Mr. J. Kernighan occupied the chair.

At the close of the meeting Mr. F. W. Johnson came forward to the platform, and made a speech in which he alluded to his satellites at the Smith's Hill meeting. "When I tap you on the shoulder, yell like hell!" He would bet \$100 that no one could prove he said it. Two prominent Reformers came forward and asked him to put up his money, and Mr. Johnson wisely withdrew his offer. He stated, and kept up his reputation for vigor on the occasion. The closing remarks by Mr. Cameron who was, however, still suffering from hoarseness, carried the meeting by storm. Mr. J. Kernighan occupied the chair.

OTHER MEETINGS. Hoover's Schoolhouse, and Deacon's Schoolhouse during the week. At Donnybrook "Steelrails" Jimmy Johnston, who had recovered from the dressing-down given him by Mr. McGillicuddy at Oliver's schoolhouse, endeavored, with the aid of Higginbotham and Wallace, to create a disturbance in favor of Mr. Porter, but the good sense of the meeting was against them; and Mr. Gibbons the chairman brought them to order.

The Pacific Railway.

The Syndicate bargain was premature, in that a large expenditure of land and money might be avoided, if we would wait until the end of the road, our railroads across the prairies of the North West, and get our emigrants into the country. In a short time we should be able to finish our own line from Thunder Bay we had just made connections with the American system by the Pambina branch, and if we had a few miles across the prairie west of Red River, we could then show to the world a country traversed by a railway which would offer attractions to the capitalist. Having made our own boom, we could then proceed to negotiate with the Government, which brought down to us by the Government, based as it was on the idea that the railway must be a losing property for a long term of years. Events justified what I claimed in this regard. Certainly, immigrants are flocking in from Ontario and from the old world, and the land here is found in value and the Government has been able to sell lands 40 miles back from the railway for \$2.50 an acre in cash. Only a little more than a year ago 25,000,000 acres were sold to the Syndicate at an actual valuation of only \$1 an acre. The Government gave \$20,000,000, as has been said, but now it is confidently affirmed that the Syndicate can construct all its railways out of the land and money subsidies. All these prospects of profit would have been ours to barter if we had done our work properly; had proceeded with the prairie sections, which were cheaply constructed, and had first made the land boom before we made the railway contract. But no, our Government, in spite of all warnings, made the bargain before it made the boom. I said that a miserable system of exaction, of delays, of discounts, and of all the evils attendant upon a monopoly would grow out of that infamous 20 years clause, by which a Chinese wall 15 miles broad is kept up. I warned them of this when they were in the act of rejecting the proposition to build the whole road for \$3,000,000 less and 3,000,000 acres less land, with no monopoly clause, no exemption from customs duty, and no exemption from municipal taxation. But they rejected the better offer and preferred the worse. And if that monopoly clause has been found hurtful, already, what will it not be in five or six years? These are results coming as we expected they would come, and other points of difficulty are not yet fully developed. One, to which in my mind great importance attaches, is the regulation exempting railway property and land from municipal taxes. When the time comes that, with the progress of settlement, the questions of roads and of bridges have to be considered, then the exemption of the alternate lots belonging to the Syndicate will be found to involve a great evil. The land policy of the Reform Administration was to sell the land to actual settlers, but the present Government has proposed that it should be sold to a monopoly of speculators and so-called colonization companies, without the necessary provisions for settlement, and these people intend to make many times the cost of the land out of the settlers, as I will show you by one of their prospectuses. (Here Mr. Blake read a prospectus of a Colonization Company, on which John A. MacKenzie's name appeared as a director.)

A voice—Some of the speculators are Reformers. Mr. Blake—There is no provision made by the Government to prevent Reformers taking advantage of this law, (Cheers.) It would have been perfect had none but good Conservatives been allowed to profit by its provisions. (Cheers and Laughter.) It says that the law is not right, but you can't blame Reformers for taking advantage of it. (Applause.) Mr. Blake, at the close of his speech, said: "I have no objection to your making a speech in my honor." How to Vote. Electors, who go to vote on the 20th inst., should be very careful that they do not spoil their ballots, and in order that their vote may be on the right side should mark their ballot as follows: CAMERON. Malcolm Colin Cameron of the Town of Goderich, barrister. PORTER. Robert Porter, of the township of Uxbridge, yeoman.

Be sure and put a cross after the first name as the Reform vote, without striking the outside lines. Goderich Township. POSTPONEMENT. The picnic in connection with school section No. 1 has been postponed until Thursday next, June 22nd.

The most wonderful curative remedies of the present day, are those that come from Germany, or at least originate there. THE GREAT GERMAN INVIGORATOR, which has never been known to fail in curing a single case of impotency, spermatorrhoea, weakness and all diseases resulting from self-abuse, as nervous debility, inability, mental anxiety, languor, lassitude, depression of spirits and functional derangements of the nervous system. For sale by druggists, or sent free by mail on receipt of the price, \$1.00 per box, or six boxes for \$5.00. Address F. J. CHEWY, Toledo, O., Geo. Rhyas, Sole Agent, Goderich, 1843.

ROBBED. Thousands of graves are annually robbed of their victims, lives are prolonged, happiness and health restored by the use of the great GERMAN INVIGORATOR, which positively and permanently cures impotency (caused by excess of any kind), Seminal Weakness, and all diseases that follow as a sequence of Self-Abuse, as loss of energy, loss of memory, prostration, loss of power in the back, dimness of vision, premature old age, and many other diseases that lead to insanity or consumption and a premature grave. Send circulars with testimonials free by mail. THE INVIGORATOR is sold at \$1 per box, or six boxes for \$5, by all druggists, or by the sole agent, Geo. Rhyas, 187 Summit St., Toledo, Ohio. F. J. CHEWY, Druggist, 187 Summit St., Toledo, Ohio. Sole Agent for Goderich.

Real Estate. HOUSE AND LOTS NOS. 33 AND 76, corner of Victoria and East streets, in the town of Goderich, for sale cheap, or will be exchanged for farm property. For particulars apply to J. S. SMITH, Architect, office Crabb's block, or J. C. CURRIE, auctioneer.

APPOINTMENT OF ELECTION AGENT. I HAVE APPOINTED WILLIAM I. PROUDFOOT of the Town of Goderich, in and for the Township of Uxbridge, to act as my agent for the Electoral District of West Huron, pursuant to the Dominion Election Act. M. C. CAMERON. Goderich, June 8, 1882. 1812

FOR SALE. THE SUBSCRIBER, FINDING that his whole attention will be required in the management of the BIG HOUSE, will dispose of that property known as "WINTER BRANCH," situated on the Main Gravel Road, consisting of a capital house of ten rooms, with verandah on two sides, large driving house 60x22, stable for ten horses, wood shed, etc., together with one and a half acres excellent garden, well fenced. The premises are all new and in first-class order. To a good man no reasonable offer will be refused. J. J. WRIGHT, POINT FARM, GODERICH, P. O. April 21st, 1882.

Shorthorn. I will sell at reasonable prices a number of choice young shorthorn bulls and heifers. The splendid young bull "Beaconsfield" is a well served cow. Charge for service, grades \$1. Lot 7, Maitland con. Huron Road. 1840-31. \$66 a week in your own town. Terms and mode of sale, apply to H. HALLETT & Co., Portland, Maine.

JULY EXAMINATION - 1882.

FIRST CLASS, GRADE "C" NON-PROFESSIONAL, will begin at the Normal School, Toronto, Monday, July 10th, at 2 p.m. Intermediate at the High Schools of the County, Monday, July 10th, at 2 p.m. The professional examinations for intermediate certificates will begin at the conclusion of the non-professional examination. The examinations for first-class, grades "A" and "B," will begin after the conclusion of the professional examination. It is indispensable that candidates should notify the Secretary not later than the 1st of June, of their intention to present themselves for examination, and furnish the necessary certificates of character and service. Forms of notice to be given by each candidate previously, can be obtained on application to the Secretary. Teachers desiring to pass the Intermediate Examination must be particular to state the High School at which they desire to write, and the optional subject which they intend to take. PETER ADAMSON, Secretary, Goderich P. O.

Valuable Stone Warehouse. Penders will be received by the undersigned up to JULY 1ST, 1882, for the purchase of lot 167 and E. half 1099 running numbers in the town of Goderich, known as the Seymour Warehouse property, opposite the extensive flour mills of Ogilvie & Hetherington. There are Public Highways on two sides of the property, in addition to which it fronts directly upon the docks at Goderich Harbor and upon the Grand Trunk Railway. From its position it is unsurpassed for manufacturing or warehouse purposes. The owners are non-resident and for that reason are anxious to sell if a fair price can be obtained, but no tender will be accepted. The title is perfect. Terms of payment to be furnished. Apply to J. L. MORTON, 12th May 1882. Solicitors.

ALLAN LINE. ROYAL MAIL STEAMSHIPS. LIVERPOOL, LONDON, DERRY, GLASGOW. SUMMER ARRANGEMENTS. MAIL STEAMERS - SEASON 1882. Cabin, Intermediate and Steerage Tickets at LOWEST RATES. WARNOCK, Hamilton St. Goderich.

1882-MANTOBA--1832. SPECIAL EXCURSIONS. THE GRAND TRUNK RAILWAY has arranged for a series of excursion trains, in charge of special agents, to run through to Dakota and Manitoba without change of cars. These trains will commence to run about the first of March. Parties who intend going to the Northwest should bear in mind that the Grand Trunk is the shortest and best route, having an independent line to Chicago, thus avoiding all unnecessary bus transfers and tedious changes, and this year offer facilities to the travelling public unequalled by any other road. The undersigned will have much pleasure in furnishing every information as to fares, tickets, baggage, freight and live stock to all parts of Dakota and Manitoba, and desirable goods checked through to destination. Pamphlets made &c., free on application. J. L. MORTON, Agent G. T. R., or H. ARMSTRONG and ticket agent G. T. R., Goderich.
