People's Party Extravagance

Editor Evening Telegram.

Dear Sir,—The thanks of this community and the country in general are due the Right Hon. Sir Robert Bond for the effective manner in which he is exposing in the House of Assembly the wholesale waste of the people's money by the so-called "Picnic Party." The electors throughout the country have already witnessed for themselves what an extravagant lot they sent to represent them in the House of Assembly when they helped to elect the Morris party to power. Fellow fishermen, what a picnic they are having! Nearly every one of the anything but an independent lot, and the culling of the fishermen receive

Mr. Editor, the country knows that this district helped to put the Morris Party in power/ when they elected Mr. Goodison. When seeking our votes and driving round he repeatedly informed us that the former representative was not the right man for the job, and that if we elected him, which we did, he would see that everything came our way. No wonder you didn't, for the man who cannot digest cannot enjoy very much. When the stomach refuses to work the whole system goes wrong, and there follows heartburn, headadhe, constipation, bad breath and severe pain. Then the mind is affected; a person becomes irritable, sarrastic, sarty—in fact, almost unbearable.

Father Morriscy gave this matter special study, and devised a tablet now known as "Father Morriscy's No. 11;" which relieves the misery. Bach tablet is capable of digesting 1% pounds of food — a good square meal. One tablet after eating, with a half tumbler of water, instites perfect digestion, providing reasonable care is taken to avoid foods that have been found especially disagreeable to the stomach.

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations. It's only a "tenderfoot" farmer that would try such
