presenting Oxford and Cambridge race, and in 1872 the race was rowed Light Blue, and the historic aquatic bridge winning in the snowstorm and struggle that has continued for almost Oxford leading their opponents in century will have come up for an- the gale. In 1912 the boats of both athletic life of English collegues and ond race. In recent years Cambridge Universities, with the first recorded has had slightly the better of the arrace between college boats taking gument, winning ten of the seventeen tween the rival universities, and it tories for Cambridge. Oxford has had two prolonged periods during which they have had winning crews, winning the race on nine successive years, from 1861 to 1869, and duplicated this feat in the 1889-1898 period, Cambridge's best run or victories covered the five years, 1870-1874.

TRAINING COMPLETED.

The crews this year completed their training on their home waters almost a month ago, the Oxford crew going to Bourne End on March 2, when E. D. Horsfail, (Magdalen) took over the supervision of their training. The physique of the Dark Blue this year is not nearly equal to that of last year's crew and at the time of the removal to Bourne End the most enthusiastic well-wisher of Oxford would hardly assert that their representatives consituted a really good crew. W. N. Campbell, (Christ Church) who came up with such a reputation as a stroke is not an unqualified success. He rows very light and there is always a fear that there may be a recurrence of the strain which twice kept him out of the crew in the early days of practice. The Light Blues completed training at Ely on March 2, and after a five days rest, proceeded to Henley, where they resumed work. The Cambridge eight was badly handicapped in their early training by the heavy winds that constantly prevailed and as a result the Light Blues were unable to work up a fast stroke, except at the risk of pulling the crew all to pieces. Harold Peake had charge of the coaching at Henley, and he shaped most of the work in the direction of remedving best that had been sent to Ely for a long time. They might not be quite as clever as the 1914 crew when they left Cambridge, but there is little to

choose between them. Present crews and weights are a

It's Flavor that Makes the Meal!

LIBBY'S CATCHUP and CHILI SAUCE are made from red.

And the sauces that the Libby chefs have adapted for you give flavor to the simplest dishes.

It may be eggs, or macaroni, or a cheap cut of meat—an unusual and delicious sauce will make it something you eat with delight and remember with pleasure—because of its flavor.

ripe tomatoes, grown in the fertile soil of Kent County, Ontario, picked when they are mellowed by the sunshine of long summer days, then rushed to the nearby Libby kitchen.

Here in sunny rooms the tomatoes are cooked with fragrant spices, onlons, sugar and the best vinegar-cooked for hours until all the flavors are blended through and through.

Now the sauce is ready to give an appetizing relish to your steaks and chops, or a new piquancy to the meat gravy you serve with vour roasts.

Your grocer has, or can get you, Libby's Catchup or Chili Sauce. Use it with your cold meat teas and note how quickly the second helping is necessary.

> The delightful flavor of Libby's Beans is due largely to the wonderful Sauce prepared by the skilled chefs. Have you tried them?

Intending competitors for the Boxing and Wrestling Events must enter before 6.30 p.m. Saturday, April 1st, at the offices of J. A. MacKenzie, Esq., Law

EXTRACTS FROM RULES.

P. le VIII. (Weights).—Contestants will weigh in on the day of their first bout; time to be arranged by the weighers. The weight registered at the original weighing-in will be the competitor's official weight for the entire competition.

Competitions in all championships will be held in the following weights and classes:

Weight and Classes:-Bantam Weight, 118 lbs.; Featherweight, 125 lbs.; Lightweight, 135 lbs.; Welter. weight, 147 lbs.; Middleweight, 160 lbs.; Heavyweight,

A competitor may enter only the class of his own weight unless he is the only entry in that class when he may be allowed to enter in the class next heavier. Any competitor entering for any weight and failing to make that weight at the required time may enter the next heavier class or be scratched from the list.

Diana Abandoned And Set on Fire.

Sagona Took Off Crew---Other Units of wedding yesterday at 3 p.m., when Fleet Picking Up Seals.

last night stated that the crews were dipping; all well. picking up scattered seals. The Terra Nova reports using guns, and Capt. Bartlett in the Gulf reports that the seals are dipping so that the chances of a good catch are not bright. The loss of the s.s. Diana too, is also reported. According to messages received yesterday the crew abandoned he ship during the morning and joined the s.s. Sagona which went to he assistance in response to S.O.S. calls. The Diana lost her tail shaft on March 16th off the mouth of Bonavista Bay and up to yesterday was drifting south in the ice. The first Diana's crew to Watchful. intimation that the ship was on the noint of foundering reached Messrs. Baird, Ltd. yesterday evening when a message was received from Captain Parsons who stated that the Diana had been abandoned and that the crew and well. were on the Sagona The ship was encrted for 7,000 seals but it is understood that only 1,000 were on coard. Before leaving, the ship was set on fire, the crew having time to pick up their belongings and transfer them to the Sagona. The s.s. Thetis was reported also as having been to the Diana's assistance, but particulars were not received. The Diana was probably the oldest of the sealing fleet being built by A. Stephen & Sons, at Dundee, in 1870. She was then named the Hector, and was owned by Messrs. Job Bros & Co. The ship was very successful during her long career and brought in altogether about 600,000 seals. Some 33 years ago she was reclassed in England and on arrival here was renamed the Diana. Good luck followed the change as on her first spring out she made wo trips and on each occasion rought in a full load of whitecoats.

"HAZEL KIRKE" TO BE STAGED AGAIN.

Old friends are truest, old songs are best, and the old plays of other days come with a strong appeal to those who look back upon them with pleasant memories, All who recall "Hazel Kirke" as played here some years ago will gladly welcome the revival of that stage classic which is now being arranged by our well known local producer and actor-manager, Mr. Thomas H. O'Neill, who has undertaken the task of producing the drama under the auspices of the Knights of Columbus. Included in the caste are, Mrs. J. Baxter, Misses K. Fraser, H. Krentzlin, and Joyce Dunfield and Messrs. T. H. O'Neill, H. F. Glass, A. R. Stansfield, A. Holmes, P. Jardine and J. Walsh. "Hazel Kirke" is a name to conjure with in the theatrical world. It drew crowded houses in the old days, and in the hands of the talented ladies and gentlemen named above theatre goers can be assured that the standard of the production will be admirably sustained. The first performance will take place on Easter Monday night in the Casino Theatre .--

he annexed letter, which appeared in the current issue of the Harbon Grace Standard. It supports the heory advanced by Mr. M. E. Condon in his series of excellent articles that Newfoundland suffers chiefly from the slovenly methods of the curing and making of fish so much in vogue, The slogan should therefore be IM-

Editor Harbor Grace Standard. Dear Sir .-- Mr. M. E. Condon, in an article from his pen in the Telegram, shows up the true inwardness of the fishing industry. Mr. Condon has had practical experience of the fishery, judging from his remarks. Among other matters, Mr. Condon states that codfish caught by the use of jiggers will make a better article of food than those caught in any other way. This the jigger mostly striking some vital many matters, always kill the fish when it is possible to do so. Should for 70 Years. the fish be required for immediate use, it is killed by the use of a knife and solid within half an hour of killing

The Frenchmen also kill their fish. While it is impossible to kill the fish taken from a trap, there is not much me lost in killing and bleeding those taken by hook. The cured fish will show a marked improvement when so treated from those that are left to perish without being bled. Why not our fishermen try the method? Then the words of Mr. Gosling, in a recent letter on an entirely different subject. but dealing with the economy of the fishery are particularly pertinent-"Merchantable fish is worth more than the West Indian quality."

Yours truly,

Keep the Cold Out! Cold and draft come in around your windows and doors, not through them. Install Ceco Metal Weatherstrips and actually save one-third of your fuel costs. At the present price of coal this means a substantial saving in dollars and cents.

Ceco Metal Weatherstrips are the most simple, most practical weatherstrips on the market. No weather conditions affect them; self-adjusting with the shrinking or expanding of the sash. They keep out dust, dirt, soot and draft, deaden outside noises, stop any rattle, and last as long as the window or door. For new houses or old. Easily installed. First cost is only cost.

Anaemia

Thin, watery blood is no more nourishing than thin, watery milk

But you can soon enrich thin blood, overcome the anaemic condition and build up the whole system by using Dr. Chase's Nerve. Mrs. F. G. Simmons, 42 Cur-

tis St., Brantford, Ont., writes: "For about eight years I suffered from anaemia. My circulation was poor, my gums and lips were pale, and my hands and feet were always cold. I was nervous and unable to sleep well. I had frequent headaches, seemed restless and easily worried or irritated. There was a buzzing sound in my ears. Indigesting and I was also one of my complaints, and I buzzing sound in my ears. Indigestion was also one of my complaints, and I often was attacked by weak spells. I went to a doctor, who told me I was anaæmic, but as I did not get any better I decided to try Dr. Chase's Nerve Food, and after the first box I felt brighter and my headaches completely disappeared. I continued using the Nerve Food for quite a while. I am quite well now, and cheerfully and gratefully recommend Dr. Chase's Nerve Food to people suffering as I did before I used this splendid medicine."

Generally it's your Ma that comes afterwards; and she sure does wave a wicked wand.

Don't Miss Him at the NICKEL To-Day!

You wouldn't say bein' bad is a gift so much as a habit. It, grows on you, like a soft spot in an apple.

So a cop ain't much different from the man who peddles apples on a barrow. They both make money by getting rid of bad habits.

But it's the barrow man who gets rid of his first. He seems ashamed of them, and puts them in the bottom of the bag.

Folks say I'm wicked and will go where all bad boys go. Won't they be pleased when they learn I'm in the movies!

But I'm in good company. Irvin S. Cobb is down here, too. He writes my subtitles. Maybe you've heard of my friend Irv. He sometimes gets pieces in the papers-mostly when the regular editors are away on vacation.

That's all. Gotta smash another window now.

Ribbon will be popular for trim For evening, the long, straight sil

houette triumphs.

A dash of green is wel spring fashions. Linen and ratine frocks come traight-like models. One rival of the cape for wear is the silk coat.

Belts of mother-of-pearl are replacing those of steel. Wide decorated sleeves are general pink roses as trimming.

The dark ribbon cravat will com-Tarnished silver lace is effective with seal brown chiffon velvet. Carved ivory buttons appear on coats of more elaborate design. The V and bateau neck line appear nest often on evening gowns.

A sports dress of red tweed has aids in the chic of the tailleur,

FALSE ECONOMY.

It is often remarked by customers, "I must try and make my old clothes do for the winter." Perhaps the winter may mean very much longer. To protect your body against our cold winds you want warm woollens. An investment in a good Suit or Overcoat may save you months of illness. Durable material, cut and moulded to your figure by expert workmanship in the garment at MAUNI) ER'S. Samples and self-measuring cards sent to your address.

Heavy weight, well made from good strong cloth, at an exceptionally low price,

\$1.37.

Don't miss this Bargain. We have other Overalls also, but these are special.

ROBERT TEMPLETON.

Upon His Honor as Minister of the Gospel REV. W. A. THOMPSON WRITES OF DR. F. G. KINSMAN'S

HEART TABLETS. I had heart trouble severely for fifteen years and had many doctors to treat me with no discernible effect. I had become so low that I could scarcely walk fifty steps. At night I was troubled with fluttering of the heart, and by no means had a night's rest for that length of time. I had pains most excruciating could not lie on my left side even for a moment. I tried five boxes of your Heart Tablets and can now truthfully say that I am well. I am a Minister of the Gospel and upon my word as such, I believe I could not have lived had it not been for your remedy. I am not, generally speaking, willing to give testimonials, but I fully owe this or more to you as owner of the Heart

Notice! TO INCOME TAXPAYERS!

Returns for the accounting period of 1921 will be due on March 31st, 1922. Persons whose returns are not filed with this department on or before the above date are hereby notified that the negligence penalty as provided by Section 2 of the Act to amend the Income War Tax Act of 1918, shall be added to the assessment of all taxpayers who have not complied with Section seven of the Act. All others to whom forms have been sent under the Eighth section of the Act, as persons suspected as being liable to taxation, are bound to make returns even though they would have no tax to pay. For every default in not making returns under Sections 7 and 8 of the Act, the taxpayer and also the person or persons required to make return, shall each be liable on summary conviction to a penalty of one hundred dollars for each day during which the default

The penalties provided by the sections named apply to fiduciaries, executors, guardians and legal representatives; it also applies to all employers, corporations, associations and syndicates, who are required to forward returns for estates, &c.

What is Your Verdict!

Is it not safe to assume that the Ford Motor Company of Canada, Limited, who manufacture in their own huge perfectly equipped plant practically every part of the Ford car, are the people best qualified to make replacement parts at the lowest price compatible with the high quality which must be main-

Manufacturers of spurious parts, operating as they do on a small scale with limited capital and inadequate equipment, cannot possibly make parts of the same quality or accuracy at anywhere near the low price you have to pay for Genuine Ford Parts. Yet you are asked to believe that these spurious parts not only equal Genuine Ford Parts in quality but can be produced to sell for less!

We rest oour case here. The verdict we leave to you.
