LORD GRANVILLE MAKES HIS OBEISANCE TO BISMARCK. ____

The Brittsh Foreign Secretary Acknowledges the German Chancellor's Super-tor Wisdom and Hopes He Will not be Offended.

LONDON, March 6 .- Earl Granville de ivered a long speech in the lords this even. ing about the Bismarck controversy. He said it was now more than ever before to the interests of Germany and England that the relations between the two governments should be good because it was at a time when both powers were about to meet each other in all parts of the world. "Whilst each power will maintain its rights both ought to ad-vance," continued the speaker, "in their common work of extending com-merce and civilization in a spirit of candid co-operation." "All my efforts," said Earl Orange in the speaker of the co operation." "All my efforts," said Earl Granville, "will be exerted in favor of the conciliatory policy which Prince Bismarck has sketched out." He denied that he had published confidential matter communi cated by Prince Bismarck, who, he said must have misunderstood him, for Eng-land beyond any other nation was grati-fied at Germany's greatness and would spare no efforts to retain the friendship

hed at Germany's greatness and would spare no efforts to retain the friendshin now existing between the two nations. "I hope," said Earl Granville, "to make such a statement in the regular way to Prince Bismarck as shall show him that the points raised by him concerning the pub-lication of communications may bear a very different color. I sincerely regret that the speech I made in the house of lords under pressure of a severe party attack should have annoyed Prince Bis-marck. The duke of Richmond had attacked the government, saying a great foreign statesman condemns it. I retorted that the duke of Richmond had no occasion to complain of Prince Bismarck's disap-proval because we failed to follow the very friendly advice Prince Bismarck gave to the previous government to take Event. I added that I presumed he did to the previous government to take Egypt. I added that I presumed he did not expect us to abandon all liberty of not expect us to abandon all liberty of action in our foreign and colonial policy. The thrust was aimed at the duke of Rich-mond, not at Prince Bismarck. The latter, to my great regret, construed this as hav-ing a meaning, which I positively assert does not attach to it. Regarding the words! 'take Egypt,' I ought probably to have used the better phrase, although the words were certainly applicable to annexa-tion. a protectorate, or even to occupation. words were containing approach to occupation. Nobody would regret more, and nobody would be is jured more by a breach of con-fidence, than myself. I did not mean to refer to those private and friendly communi-cations described by Prince Bismarck in the cations described by Prince Bismarck in the reichstag, but to the subsequent declara-tions which were not confidential, and which appeared to me to express Ger-many's former, if not her present, hope that England would represent Europe's interests in Egypt. An event occurred at the meeting of St. George's society last night out of the ordinary and pleasant to all present. President Symons decorated the manly bosom of his predecessor with a past president's medal. In doing so he highly complinented Mr. Elliot for his efficient and aithful services as head of the society last year. Two other members testified to the recipient's good work. Mr. Elliot's reply

recipient's good work. Mr. Elliot's reply was touching. He never would forget the days of sorrow and of joy that he had passed in the chair—sorrow for the poverty and distress that came to St. George's for rolief, joy that the so-ciety was able to and did afford it. If they had faith in God, if they had faith in their nationality, if they had any faith at all, they must believe that those who mourn with them that mourn and rejoice with them that rejoice and express their sympathy in a practical way, will experi-ence an abiding reward and happiness therefrom. On this occasion he felt like a soldier returning from the war and who had just been decorated with a medal at the hands of her gracious majety. He had just been decorated with a medal at the hands of her gracious majerty. He would wear the medal with pride and hand it down to his children as a highly prized memento. Having finished his re-marks amidst applause, Mr. Elliot pre-sented the society with his photograph, handsomely framed, to be hung alongside those of his predecessors in the presi-dence.

The Sons of St. George. The St. George's society held its monthly neeting last night, President Symons in he chair. Several new members were

elected. The annual sermons were fixed for April 19 and April 26, at St. James' cathedral and Carlton street methodist cathedral and Carlton street methodist church respectively. The Sons of England will be invited to join the society on these occasions. The anniversary of the society's patron saint will be celebrated by a ban-quet. The secretary intimated that Wm. Gooderham had contributed \$160 to the society's funds. A resolution was passed requesting the directors of the house of industry to reconsider their decision as to the time limited for lodging men, so as to give a longer time to destitute Englishmen until employment becomes more numerous.

IMPORTANT NOTICE

The Government have increased the Excise A. duty on Cigars manufactured from Havana and duty on Cigars manufactured from Havana and other Foreign Tobaccos, and discriminated in favor of (TO THE EXTENT OF ONE HUNDRED PER CENT.) Cigars made from Canadian tobacco. This will have the effect of a very interior quality of Cigars being placed before the smoking public, which Cigars are liable to contain chemicals and artificial flavorings, that are injusticent to the smok artificial flavorings that are injurious to the system. We have raised our prices in proportion to the increased duty, and intend keeping our goods up to the standard they have heretofore been. We insist upon having our

brands (made from the finest tobacco grown) if they desire to obtain a FIRST-CLASS smoke at a REASONABLE PRICE, as some dealers will endeavor to introduce Cigars of an inferior and cheaper kind that pays them a larger profit, the consumer being a loser thereby.
