Quently potting was done towards mak-ing arrangements for the ceremony. On Monday morning a hurriedly cal-led meeting of the citizens was held in the Council Chamber and energetic com-mittees formed to carry out a demonstra-tion befitting the occasion, and through the shortness of the time at their disposal they were kept very busy. Early Wednesday morning the busi-ness men commenced decorating, and the work was done so well that the town looked very attractive. Flags of all shapes and sizes, bunting and banners made Main street look more attractive than it has been since the Old Boys' Re-union. The decorating committee strung four large banners across the street bear-ing the words "Welcome," "Remember Hughes and Helifery " "A Greater Consed the gathering. Mr. Armstrong spoke briefly. He eu ogized Colonel Hughes for the great work he had accomplished in bringing the mi-litia of the country to a higher plane. He had banished liquor from the camps, he had made the department a telling force in Canadian life. He urged a more pa-triotic outlook on the future of Canada. It was time that this country came to the aid of the motherland, by gifts of shups and inculcate here a more sympathetic and inculcate here a more sympathetic love for the homeland. the day the results of mis enorgs. When he invited me to come to Watford and lay the corner stone, I could not refuse." Col. Hughes gave a most interesting talk on the aims of the department. The militia was intended to inculcate into the (boys and young men the love of order and discipline. Lads who roamed the streets at night, untrained and un-disciplined, would not become good citi-zens, and it was for the purpose of bringing these under the control of com-of attraction of the purpose of bringing these under the control of com-of authority and inculcate in them the love of country and of empire that drill halls were being established throughout the Dominion. Military training made for good citizenship, and that made for an orderly, prosperous 'and happy coun-try. Discipline, not repression, stability and usefulness, not idleness and way-wardness, were the aims of the depart-ment, and the results during the past two years had shown that such a policy was in the best interests of the Dominion. The youth who went to the annual training camps was not the only care of the militia department. The cadet camps were near to his heart. "We want to give the boys a chance," he declared. #### MARKETS Toronto.

Toronto. Toronto, July 29,—There was a very slow market at the Union stockyards to-day, and bidding was still decidedly groggy. Cattle went off another 25c largely owing to the poor quality of many shipments of the bad, grassy kind of stock. There was practically a uni-versal complaint on the part of the deal-ers over the slowness of the turnover, many commission men not being able to find bidders at anywhere near their prices. There was a good run on hogs, with sheep steady and lambs up slightly. The hog trade is booming these days, while the cattle suffered from the tight market.

court, spent Friday with Mr. and Mrs. G. Johnston. Mr. and Mrs. Theodore Luckham nd daughter Gladys, of Enniskillen, took in the excursion to the Falls last Wednesday, returning home on Friday.

A serious accident occurred on Monday evening of last week as Mr. Alfred Wilkes was driving home from his brother Charles' after drawing in hay all day, his team ran away throw-ing Mr. Wilkes out on the road, where he lay in an unconscious condition for some time before he was found by a neighbor, Mr. Gus Mc-Laughlin, who took him to his home, and then went for the team, which had run two miles past their own home. When Dr. Taylor arrived he found no bones broken but Mr. Wilkes was badly bruised, and will be laid up for some time, which is very unfortunate at this season of the year.

Another bad run-away happened on Saturday evening as Mr. George McIntosh and son, accompanied by Mr. George Hicks, of Sarnia, were driving into the village. Their horse became frightened by children with an express wagon on the street, and threw them all out. Mr. Hicks was stunned and had to be carried in. When the Doctor arrived he soon revived, but was very badly cut about the head and face, but other-wise nothing serious. The others were not so badly injured as Mr. Hicks.

ideal at all. That ideal was Fred Sumner. No two men could have been more different. Sumner's clothes were cut in the height of fashion, and his manners were delightful, especially with women, toward whom he was charmingly deferential. John Ryerson not only wore his hat on all occasions, but it was very shabby. Moreover, he had no fraternity badge to pin on his waistcoat. In other words, he was not considered of enough importance to be elected a member of a fraternity. And yet there was something about

John that I liked. I suppose it was his integrity. The world, especially the social world, takes no account of integrity. Those who are on top are there When the season comes round in

L ET the greatest athlete have dyspepsia and his strength will soon fail. One's stamina-force-fullness and strength of mind or muscle depend upon the blood, and the blood in turn, requires a healthy stomach, for the stomach is the laboratory where the food is digested and such ele-ments are taken up-or assimilated-which make blood. In consequence all the organs of the body, such as heart, lungs, liver and kidneys, as well as the nervous system, feel the bad effect if the stom-ach is deranged.

#### LAUNDRY MATTERS.

How to Do Up the Season's Fashionable Embroidered Collars and Cuffs. No matter how particular you may be in caring for embroidered collars or centerpleces, they will become solled. Every housewife should know how to clean these articles, so that she need not resort to the professional cleaner when they become solled. Place a half pint of bran in a pan

and add the same amount of cold water. Allow it to boil slowly for twenty minutes and then strain through a fine cloth. Add a pint of boiling water and use this mixture to wash fine embroideries and laces for the first time. Squeeze them gently with the hands, and if they are much solied soap jelly can be added to the mix-ture. This is made by dissolving pure white scap to belly white soap in boiling water.

If the embroidery is done with col-ors add salt to the rinsing water, which should be clean and moderately hot. This will set the colors of silks or cottons so that they will not run. It is a wise precaution to immerse colored embroideries in salt water before wash ig in the bran water.

Embroidered articles should be dried quickly and ironed on the wrong side. First spread the work over a folded blanket covered with clean muslin. When ironed on this the embroidery will stand out in bold relief.

If the doilies or scarfs are fringed at the edges shake them well when quite damp and never iron, or they will become matted.

## A REAL WORKSHOP.

What the Kitchen Is to the Progressive Housewife.

Many women have a wrong idea of what a kitchen should be. They often seem to think of it as a kind of room where everything should be hidden away and tucked away from sight. This may result in "appearance," but it is not efficiency. A kitchen is the workshop for the preparing of food, and efficiency and convenient placing should rule over mere looks.

The efficient kitchen should be so arranged that it is not necessary to hide all pots and pans under doors and in cupboards away from sight. Did you ever visit a factory or large establishment where the boilers and the caldrons and the belting and the thousand tools were stuck away from sight when not in use? Your kitchen equipment should be so attractive and good that it looks well and doesn't need to be

thusiasts. Yellow linen in a shade bordering on leaf green is one of the best liked of the new colors.

White linen, however, is always the standby of the conservative woman and the pretty dress illustrated is of white linen. It is well adapted for street wear because the linen of which it is made is not transparent and the simple bands of Cluny lace are put on with tailored effect.

#### The Color Note.

Whatever the fabric or fashion of your blouse, it should have on it somewhere a touch of color, for the all white blouse, it seems, is not in the running.

The Handy Washer Skate. A new boon to the bachelor girl and tourist is seen in the shops. It is called a "washer skate" and is a small, hard-wood roller fitted with a handle. A pair of these can be used at one time or the single one, which will act as a miniature washboard, with much better results.

Stockings placed in a bowl, children's small pieces or a soiled waist can be easily rubbed clean with this simple device. It is also particularly good for lingerie, stocks and the small trifles we all wear in summer.

#### Waists Fasten In Front.

Every one must be happy that it is fashionable to have waists button in

the front. The cotton crape waists are the suc cess of the hour and crepe de chine waists are more popular than ever.

GOOD BLOOD THE SECRET OF HEALTH

## To be Healthy You Must Keep the Blood Rich Red

Dr. Williams' Pink Pills are useful in any disease caused by thin or impure-blood, and the list of such diseases is-astonishingly large. Anaemia literally means a condition in which the blood is-thin and watery. In rheumatism the blood becomes thin more rapidly than un any other disease. After an attack of la grappe or acute fevers the blood is-always thin and impure, and Dr. Wil-liams' Pink Pills are the tonic to use during convalescence. When the blood is poor and thin the stomach suffers. The food ferments, gas and certain acids form and the trouble is pronounced in-digestion or dyspepsia. The nerves re-ceive from the blood all of their noursh-ment to keep up their energy and repair waste or damage. Some forms of paraly-sis are caused by thin blood. The pro-gress of locomotor ataxia is stopped in many cases when the blood is made pure, rich and red. This is only a partial list of the troubles having their origin in impure, watery blood, and all can be-cured by supplying the blood with its-missing constituents. This is exactly what Dr. Williams" Pink Pills do. Their chief mission is-to make rich, red blood, and this good blood reaches every organ and every nerve in the human body, thus driving Who succeeded Mr. F. W.
