OTTAWA, 4th January, 1916.

Sir,—I have the honour to inform you that His Royal Highness the Governor General will proceed to the Senate Chamber to formally open the Session of the Dominion Parliament on Thursday, the 13th January at Three o'clock.

I have the honour to be, Sir,

Your obedient servant

E. A. STANTON, Lieut.-Colonel, Governor General's Secretary.

The Honourable

The Speaker of the Senate.

The Senate was adjourned during pleasure.

After awhile, His Royal Highness the Governor General having come, and being seated on the Throne,

The Honourable the Speaker commanded the Gentleman Usher of the Black Rod to proceed to the House of Commons and acquaint that House that,—It is His Royal Highness the Governor General's pleasure that they attend him immediately in the Senate.

Who being come with their Speaker, the Honourable Albert Sévigny, who said:-

May it please Your Royal Highness,-

The House of Commons have elected me as their Speaker, though I am but little able to fulfill the important duties thus assigned to me.

If in the performance of those duties, I should at any time fall in error, I pray that the fault may be imputed to me, and not to the Commons, whose servant I am.

The Honourable the Speaker of the Senate then said:-

Mr. Speaker,—I am commanded by His Royal Highness the Governor General to assure you that your words and actions will constantly receive from him the most favourable construction.

His Royal Highness the Governor General was then pleased to open the Session by a Gracious Speech to both Houses, as follows:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

Since I last addressed you the war in which we are engaged has been continued with unabated vigour and varying fortunes.

The Empire's part therein has been amply maintained at sea by the inspiring achievements of the Navy, and on land by the distinguished valour of the great armies which have enrolled themselves in all parts of His Majesty's Dominions for the common defence of our liberties.

In a spirit of splendid loyalty and unfaltering devotion, India and the Overseas Dominions have vied with each other in co-operating with the Mother Country to achieve this great purpose.

The call to service has evoked a widespread and notable response in Canada. Already 120,000 men have crossed the seas, an equal number is now being actively trained and equipped for service abroad, and a call extending the authorized enlistment to half a million men has been received with warm enthusiasm.

At the front our gallant soldiers have met the enemy in repeated contests, and by their pre-eminent courage and heroic endurance have shed lustre upon their country and upheld its highest traditions.

Equally praiseworthy and impressive has been the self-sacrificing and loyal spirit shown by all the Canadian people who have freely dedicated their manhood and substance to the common defence of the Empire.

The life of the present Parliament expires in the autumn of this year, and, under existing legislation, a dissolution and election would be necessary in the early future. My advisers, however, are of the opinion that the wishes of the Canadian people and the present requirements of the war would be best met by avoiding the distraction and confusion consequent upon a general election at so critical a time.

That purpose can only be effected through the medium of legislation by the Parliament of the United Kingdom. A resolution authorizing and requesting the enactment of such legislation as will extend the life of this Parliament for the period of one year will be presented to you.

Measures will be submitted for your consideration to further the effective co-operation of Canada in the defence of the Empire and in the maintenance of this war, waged for liberty and lasting peace.

It is a matter for profound thankfulness that Providence has blessed the labours of our husbandmen during the past year with the most bountiful harvest in the history

of Canada.

Gentlemen of the House of Commons:

The accounts for the last, and the estimates for the next fiscal year will be submitted to you without delay, and you will be asked to make the necessary financial provision for the effective conduct of the war.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:-

The high courage, the splendid heroism, and the unalterable determination which have marked the united efforts of all portions of His Majesty's Dominions, during a year of unprecedented strain and effort, justify our supreme confidence in the triumph of our cause and in the lasting affirmation of the principles of liberty and justice throughout the world. I commend to your earnest consideration the measures which will be submitted to you for aiding in that great purpose, and I pray that the Divine blessing may rest upon your counsels.

His Royal Highness the Governor General was pleased to retire, and the House of Commons withdrew.

The Senate resumed.

The Honourable Mr. Lougheed presented to the Senate a Bill () intituled:— "An Act relating to Railways."

The said Bill was read a first time.

The Honourable the Speaker informed the Senate that a copy of the Speech of His Royal Highness the Governor General, had been left in his hands.

The same was then read by the Honourable the Speaker.

Ordered, That the Speech of His Royal Highness the Governor General be taken into consideration on Tuesday next.

By unanimous consent, it was

Ordered, That all the Senators present during this Session be appointed a Committee to consider the Orders and Customs of the Senate and Privileges of Parliament, and that the said Committee have leave to meet in the Senate Chamber when and as often as they please.

The Honourable the Speaker presented to the Senate the Report of the Joint Librarians on the state of the Library for the year 1915.

The same was then read by the Clerk, as follows:-

To the Honourable the Speaker of the Senate:-

The joint Librarians have the honour to report on the affairs of the Library of Parliament for the year 1915.

Owing to the partial cessation of publishing volumes of Miscellaneous Literature, the additions to the Library of such Literature have not been as many as usual.

Large demands have, however, been deemed necessary for the purchase of books that relate to the various aspects of the war, such as Law books dealing with contraband, neutrality, trade and finance.

The purely historical volumes that have been, by general consent, considered standard works, have been procured in sufficient numbers to satisfy the requirements of Members.

The Diplomatic Correspondence of all the Nations, so far as it was obtainable, has also been collected in numbers.

Particular attention has been given to the Diplomatic Correspondence of the United States with all the warring Nations; and a liberal supply of copies has been procured.

A very large collection of war pamphlets has been made and bound for reference; and a considerable number have been retained unbound for the convenience of Members.

Where an unusually large number of pamphlets and small books have accumulated on their hands, the Librarians have sent them to the Department of Militia and to the various military camps for the use of the troops, and to some soldiers' clubs, where they have been much appreciated.

Among the donations to the Library during the year we may mention specially:

- 1. A collection of Provincial Statutes and Sessional Papers; and
- 2. A copy of the six volumes of the Century Dictionary;
- 3. A collection of the proceedings of the Royal Society of Canada; and other donations from T. B. Flint, Esq., LL.D., the Clerk of the House of Commons, whose attention to the interests of the Library has been constant and valuable;
- 4. A collection of war pamphlets and posters of value for historical purposes, from Honourable Sir Clifford Sifton, K.C.M.G.;
- 5. Many beautiful and costly volumes from the Trustees of the British Museum, including a catalogue of Cuneiform Tablets, and one of Greek and Roman lamps; also a volume of select bronzes, Greek, Roman and Etruscan; and other exquisite productions more fully set forth in the donation list;
- 6. A splendid collection of reproductions of Roman Antique monuments of architecture, the work of the celebrated artist Piranesi. It is contained in nine immense folio volumes. We owe this very rare work to the liberality of the Italian Government, from which it was obtained through the kind request of Chevalier G. Chilesotti, Italian Consul for Canada in Montreal;
- 7. The customary donations from the Imperial Government; the Congress of the United States; the Government of France; the various States of the United States; the Legislatures of all the Colonies of the Empire.

A glance at the donation list appended hereto will show the varied sources from which the Library is recruited, and the constant care taken in preserving and extending the exchange system. This work alone occupies the time and attention of the Library Staff to a large extent.

The large additions made to the Library from year to year, by purchase, exchange and donation, justify the demands so often made for an enlargement of space, demands which the present war conditions and the need for economical expenditure prevent us from repeating at present.

The Librarians desire to acknowledge the courtesy which they have had in the discharge of their duties, from the late Speaker, Honourable Thos. S. Sproule.

The list of copyrights has also been prepared, and will be found as usual among the sessional papers when printed.

The annual catalogue of accessions has been prepared, and is in course of printing. It will be distributed at an early date.

All of which is respectfully submitted.

A. D. DE CELLES, General Librarian.

MARTIN I. GRIFFIN,
Parliamentary Librarian.

Library of Parliament, January 12, 1916.

Ordered, That the same do lie on the Table.

(For list of donations to the Library of Parliament Vide Sessional Papers, 1916, No. 40.)

By unanimous consent, The Senate adjourned until Tuesday next, at Three o'clock in the afternoon.

"IN THE SUPREME COURT OF SASKATCHEWAN.

"Judicial District of Prince Albert.

"I certify that Fred. Farera was, on the 22nd day of April, 1914, at Prince Albert, Saskatchewan, convicted before the Honourable Mr. Justice Newlands, for that he at Shellbrook, in Saskatchewan, on the 23rd day of January 1914, did carnally know Lizzie Daly, a girl under the age of fourteen years, not being his wife, contrary to Section 301 of the Criminal Code, and was this day sentenced for such offence to be imprisoned in the Penitentiary at Prince Albert, and there kept at hard labour for the term of two years."

"Given at Prince Albert, this 23rd day of April, 1914.

"(L.S.)

"J. McMILLAN, Local Registrar."

It was considered unnecessary to require in evidence the testimony of the said Lizzie Daly in confirmation of the finding of the Jury as certified in the foregoing conviction, among other reasons owing to the fact that she is at present an inmate of a Reformatory in the Province of Saskatchewan, and that the expense of securing her attendance would be very heavy and would necessarily fall upon the Petitioner, who is without financial means.

At the request of the Honourable the Speaker,

The Honourable Mr. Sproule took the Chair in order to give his ruling on the Point of Order raised by the Honourable Mr. Choquette yesterday (Vide p. 89).

I regard it as my duty to give a ruling on the question that was raised yesterday and which I then held in abeyance until I could consult the authorities on the subject. The question was whether the Honourable Mr. Pope could deal with the matter on the Order Paper as a Question of Privilege. At the time I was not quite sure whether it could be so regarded, but on looking up the authorities on the subject I came to a conclusion in the matter. I may preface my remarks by saying that in giving a ruling, as I understand it, the strongest authority and the controlling authority must be the Orders or Rules made by the Senate itself and embodied in any work to guide the conduct of the Senate.

Rule 41 says:

"Whenever a matter or question directly concerning the privileges of the Senate, or of any committee or member thereof, has arisen, a motion calling upon the Senate to take action thereon may be moved, without notice, and shall, until decided, unless the debate be adjourned, suspend the consideration of other motions as well as Orders of the Day."

The question submitted to me was whether the Honourable Member had a right, on a Question of Privilege, to ask a question and deal with it before the House. I am convinced that he was quite within his rights in so doing, and I, therefore, declare the Point of Order not well taken.

The Honourable Mr. Sproule then left the Chair.

Whereupon the Honourable the Speaker resumed the Chair.

Pursuant to the Order of the Day, the Bill O, "An Act for the relief of Nora Louise Jackson," was, on division, read a second time, and

With leave of the Senate.

Rule 24a and b was suspended in respect to the said Bill.

The question was put whether this Bill shall pass.

It was, on division, resolved in the affirmative.

Ordered, That the Clerk do go down to the House of Commons and acquaint that House that the Senate have passed this Bill, to which they desire their concurrence; also to communicate to that House the evidence taken in the case before the Standing Committee on Divorce, together with all the papers produced in said evidence before them, with a request that the same be returned to this House.

Pursuant to the Order of the Day, Bill Q, "An Act for the relief of Robert William Thompson," was, on division, read a second time.

Ordered, That the Clerk do go down to the House of Commons and acquaint that House that the Senate have passed this Bill, to which they desire their concurrence; also to communicate to that House the evidence taken in the case before the Standing Committee on Divorce, together with all the papers produced in said evidence before them, with a request that the same be returned to this House.

THOS. B. FLINT,

Clerk of the House.

The Honourable the Speaker laid on the Table the following statement:-

I rise to a Question of Privilege. There is on the Order Paper for to-morrow a Notice of Motion which is to be submitted to this House. I consider it a direct attack against me, based on the assumption that "in a speech at a public meeting held at Ottawa on the 27th day of June last, His Honour the Speaker of the Senate made injurious and unjustifiable remarks about Members of the Senate."

This Motion is a sequence of the reading, the other day, of an assumed correct report of a speech delivered by me on the aforesaid date.

I was asked if the report was correct, and I refused to answer immediately because I claimed the right to have two days' notice, before being obliged to give my answer.

My refusal to answer was, by the Hon. Member, taken for an admission, though I then set forth that I was not refusing to give a definite answer, but merely claimed my right to give that answer at the proper time.

The Motion now before you positively assures that His Honour the Speaker of the Senate has made injurious remarks. Though I may have the right to complain of the procedure which has been followed in this case, I will not do so, but without further discussion, will proceed to give immediately the answer expected by this Honourable House.

My answer is this: The report, a translation of which I have read, in the Debates of this House, is not a correct report of my speech.

If the translation is a good one, then I may say that both the French and English reports (translation) do not render the sentiments which I expressed in that speech. I have been incorrectly reported.

On motion, it was Ordered, That an humble Address be presented to His Royal Highness the Governor General, praying His Royal Highness to have laid on the Table of the Senate a statement giving the following information as regards each of the following countries: Great Britain, France, Russia, Italy, Belgium, Servia, The Dominion of Canada, Australia, New Zealand, and the Confederation of South Africa, for each of the last three years for which the information may be at hand, namely:

(a) The quantity and value of spirituous liquors produced or manufactured;

(b) the quantity and value imported;

(c) the quantity and value exported; and

(d) the quantity and value consumed, giving, in each case, the information for each kind of spirituous liquors separately.

Ordered, That the said Address be presented to His Royal Highness the Governor General by such of the Senators as are Members of the Privy Council.

Pursuant to the Order of the Day, the Bill 10, "An Act to incorporate Les Sœurs de l'Assomption de la Sainte-Vierge," was read a third time.

"FUNDS TO AID EAST COAST.

"HOM. WALTER LONG SUGGESTED TO CANADIAN GOVERNMENT THAT \$750,000 BE ALLOTTED, AND LATTER AGREED.

"(Special Cable from the Gazette's Resident Staff Correspondent.)

"October 31. 'Canada's aid to the East Coast towns of England, which are suffering through the war, is the subject of some misconception,' said Sir George

Perley to-day. In a statement in the Commons, Hon. Walter Long said that the necessary funds for a Government scheme of help for hotel and lodging house keepers had been generously provided by the Canadian Government. This gave rise to the idea that the Dominion was taking a new step, but the fact is that no money is coming from Canada. Of the flour sent by Canada a year ago to relieve distress in England, very little was distributed, as poverty was in no way abnormal. Some 400,000 bags of this flour were transferred to the American committee for Belgian relief, which purchased them. The money paid for this flour being in the hands of the Local Government Board, Hon. Walter Long, as President of the Board, suggested to Sir George Perley that this might be utilized for the relief of the East Coast towns where the season had been ruined owing to the lack of railway facilities and the disinclination of the public to visit the East Coast because of the possibility of German naval or aerial raids. The Dominion Government acquiesced in this proposal, and the sum of \$750,000, part of the proceeds of the sale of the flour, has now been allotted for this purpose. Canada's generosity will therefore go to alleviate the distress of a large number of better-class people, who are direct sufferers from the war, instead of the destitute poor, for whom it was intended, but who, it develops, were not in need

- 2. Whether the said article is accurate. If not, in what respect it is inaccurate. 198a. Return showing:—
- 1. Whether the Government is aware that the following extract from an article was published on the 12th January, 1915, in the Montreal Gazette:—

"DISTRESS CAUSED IN ENGLAND BY WAR IS NEGLIGIBLE.

"COMPARATIVELY SMALL PORTION OF COLONIAL GIFTS USED FOR NATIONAL RELIEF.

" MUCH WENT TO BELGIANS.

"WAR OFFICE ALSO TOOK LARGE SHARE. SALVATION ARMY HAS SCHEME REQUIRING CANADIAN CO-OPERATION.

"(Special Cable from the Gazette's Resident Staff Correspondent.)

"London, January 11. Very s tisfactory evidence of the comparative absence in England of any distress caused by the war is furnished by a report on the special work of the Local Government Board arising out of the war, which was issued to-day as a White Paper. PRAYERS.

The Honourable Mr. Beique, from the Special Committee appointed to inquire into what is being done and what could be done to best promote the Agricultural, Industrial and Trade Interests of this country, both during the war and after, presented their Second Report.

The same was then read by the Clerk, as follows:-

THE SENATE,

COMMITTEE ROOM No. 69,

THURSDAY, May 11, 1916.

The Special Committee appointed to inquire into what is being done and what could be done to best promote the Agricultural, Industrial and Trade Interests of this country, both during the war and after, beg leave to make their Second Report, as follows:—

1. Your Committee beg to report that they have adopted the following form of circular to be issued to all organized bodies in the country:—

"SIR,—By instruction from the Special Committee lately appointed by the Senate of Canada 'to inquire into what is being done and what could be done to best promote the agricultural, industrial and trade interests of the country, both during and after the war,' we enclose herewith copy of the Order in Council upon which the Economic Development Commission was appointed by the Government, in October, 1915.

On perusing the Order in Council you will see that it covers a great variety of important questions, such as the whole field of agriculture, colonization, immigration, labour employment for returning soldiers at the end of the war, improvement of highways, branch railway development, the attraction of

capital in the country, and the extension of trade relations. You will readily understand that the Commission can hardly be expected to solve these questions without the earnest help and co-operation of the public at large and especially of all the organized bodies in the country.

The object of the Senate in appointing the Special Committee, is mainly to help the Commission in the discharge of the heavy task imposed upon it, to also inquire as to the development and utilization of our natural resources generally, and to make an appeal to all organized bodies for their best co-operation in the matter.

The frightful expense, destruction of life and waste of property entailed by the unprecedented war into which almost the whole of Europe and Canada are now engaged, the new and temporary channels of industry to which both public and individual energies are now mainly directed, will demand prompt and radical re-adjustment when peace is signed.

The re-adjustment in this country will be best found in the development and in the improvement of agriculture, in the fostering of homogeneous industry and in the expansion of our trade.

The development of our agriculture being dependent upon an increase of population, it becomes imperative to find the means of attracting a proper class of immigrants and as numerous as possible.

With the peace, great avenues of trade will be opened within the Empire and with the Allies and neutral countries. Let us prepare to take our fair share and thereby find permanent employment for the capital and labour, which is presently engaged in the manufacture of munitions of war.

Let us prepare also for the transferring, at the end of the war, of the energies of the country from the military to the economic field.

The Special Committee most earnestly request your prompt co-operation in seriously studying these and all other questions which you may consider falling within your province.

A like appeal is being made to all municipal bodies, Boards of Trade and Chambers of Commerce, Schools, Colleges and Universities, School Commissions, Farmers' Associations, Manufacturers' Associations, Transportation Companies, Church Dignitaries, heads of the various Federal and Provincial Government Departments, Bar, Medical, Notarial and Trade Associations, all newspapers and Press Associations, Labour Associations, in fact to all the organized bodies in the country, and the Committee hope that it will receive from every one of them, at as early a date as possible, the result of their best thoughts and suggestions in concrete form. Everybody should give his mite towards bridging the cataclysm we are going through. Let all bear in mind that this joint and common action may be the means of avoiding a great depression at the end of the war, and of laying the best foundation for the future prosperity of our Great Dominion."

2. Your Committee recommend that a sufficient number of copies of this circular, together with a like number of the Order in Council referred to therein, envelopes, etc., be printed, and that the Joint Secretaries of the Committee be empowered to secure, subject to the approval of the Chairman, the necessary temporary assistance for the addressing, mailing and recording of the circular, and that the Clerk of the Senate be authorized to pay for such additional help.

All which is respectfully submitted.

F. L. BEIQUE, Chairman.

Ordered, That the said Report be placed on the Orders of the Day for consideration to-morrow.

With leave of the Senate, it was

Ordered, That the Bill B2, intituled: "An Act to incorporate The Atlantic Park Association," which was rejected by the six months' hoist yesterday, be replaced on the Orders of the Day for consideration to-morrow.

The Honourable Mr. Derbyshire, from the Joint Committee of both Houses on the Printing of Parliament, presented their Third Report.

The same was then read by the Clerk, as follows:-

The Joint Committee of both Houses on the Printing of Parliament beg leave to present the following as its Third Report:—

The Committee has had before it for consideration the question of the prevention

of waste in public printing and distribution.

The Committee has made careful investigation and inquiry, and after referring the matter to a sub-committee for further investigation, beg leave to report as follows:—

The Committee desire, in the first place, to call attention to the great increase in the cost of Parliamentary and Departmental printing in recent years. For instance, the expenditure in 1895 was \$330,627. In 1915 this had increased to \$1,807,390.

Within the past few days the Committee has had before it the King's Printer and other officials of the Department of Public Printing and Stationery. After hearing the testimony of these gentlemen, the Committee is of the opinion that great economies can be effected by the adoption of certain changes, both in the manner of printing and distributing. A complete review of the situation from the King's Printer's standpoint is contained in a memorandum which he prepared in March last year, copy of which is attached hereto, and which it is recommended be printed with this report.

Dealing first with the distribution lists, because upon these the extent of the

printing to be done depends, the Committee recommend:-

That all distribution be made from the office of the King's Printer, as provided by the Act constituting the Department of Public Printing and Stationery (Chapter 80, R.S.C.).

That all Departmental mailing lists be sent to the Distribution Branch of the Government Printing Bureau, and that these lists be revised annually by the Distribution Office. This should be done by sending out reply cards to all individuals on the lists—for any class of Government publication. In the event of no response within a specified time, the name or names to be dropped.

The same practice to be pursued with regard to bound volumes of the Sessional Papers, over 640 sets of which are now sent out to different institutions. It is estimated that fully half of this quantity is thrown away, and that if the lists be reduced

by fifty per cent there will be a saving of at least 9,600 bound volumes.

Distribution lists and the printing of the Debates of both Houses in every case,

to be referred to the Printing Committee.

Recommendations made to either House by any Committee for the printing of evidence taken before it to be referred to the Printing Committee for action.

Reports of Special Commissions to be referred to the Printing Committee to

determine whether they shall be printed, and if so, in what quantities.

The Committee is of the opinion that the practice of charging the general public for Departmental blue books and special publications should be strictly adhered to. The indiscriminate distribution of maps, annual blue books and special monthly reports has led to many abuses in the past. Instances have been cited by many Departments where scores of applications have been received from schools in different parts of the country for publications which could not, in the slightest degree, interest the school children applying for them. These books have been asked for probably on the mere mention by some newspaper that they would be sent free. Some Deputy Ministers are of the opinion that the motive underlying the requests for these reports is the hope that the report will contain pictures.

In order to expedite the mailing of Governmental publications, it is earnestly recommended that a branch post office be established in connection with the Distribution Branch of the Department of Public Printing and Stationery, and mail be sent therefrom direct to the railway stations.

With regard to the Parliamentary printing which is done under the supervision of the King's Printer, the Committee is pleased to learn that during the past two or three years changes have been made in the typographical arrangements of several blue books, whereby considerable economy has been effected. On these books it is estimated that an annual saving of \$15,000 has been made. The King's Printer, however, has no editorial authority, and can only bring about these changes through the goodwill of the officials of the several Departments.

Attention is called by the Committee to the enormous increase in the number of illustrations in annual and special reports. Many of these illustrations are of no value. It is suggested that only such plates be incorporated in Parliamentary blue books as are necessary for a proper understanding of the text.

There is great room for economy in the printing of annual Departmental reports, by eliminating entirely technical treatises, complimentary references, lists of staffs of officials, formal introductions and formal signatures, duplications of statistical information, etc. In the latter connection one has only to examine the statistical reports of the Departments of Customs and Trade and Commerce to see the proof of this statement. The Committee recommend that where at all possible duplications should be avoided.

The Committee recommends that the scope of the monthly Agricultural Gazette be extended, by incorporating with it Seasonable Hints and small bulletins now issued by the Department of Agriculture in leaflet form in order to give them permanent value, and that the Gazette be distributed free to all Canadian farmers who apply for it. This could be accomplished without much additional cost, by dropping the Bulletin of Foreign Agricultural Intelligence, much of the information contained in which is of little practical value to the Canadian farmer. The best features of the Bulletin could be incorporated in the Agricultural Gazette, which should be published in cheaper form. The Bulletin of Agricultural Intelligence has been in existence for over five years, and costs annually about \$9,400.

The Committee would call attention to the large quantities of maps, which are prepared by some sixteen branches of the Public Service, and which in a large measure are circulated free. The Report of the Royal Commission appointed in 1914 to "inquire into the state of the records of the Public Departments" called attention to this great division of labour, and suggested "that the whole of the map-making for the Dominion Government might be carried on more effectively and economically under the direction of a central authority." We would recommend that this work be supervised by the Department of Public Printing, with absolute authority to prevent useless duplication or overlapping.

The Committee would further recommend that all "copy" for the printer be type-written. Instances innumerable have been noted of the great waste of public funds through bad caligraphy and consequent corrections of proof. Last year at the Government Bureau the cost of authors' corrections was \$48,376. This was a decrease of \$5,000 over the previous year, but the Committee is satisfied that this charge can be largely reduced by the exercise of greater care in the preparation of "copy".

As already pointed out, the King's Printer and the Bureau staff have no authority to make any changes in the text of any Parliamentary or Departmental document. Recognizing that thousands of pages of reports of no value are printed annually, the Committee is of the opinion that to revise copy and to avoid redundancy and overlapping, a Board of Editors of Parliamentary and Departmental publications should be established by the Government to work in conjunction with the King's Printer.

To this Board all reports and publications should be referred, and authority should be vested in such a Board to decide what should or what should not be printed. The Committee is of opinion that such a Board, properly constituted, with wide editorial powers, could save the country thousands of dollars annually.

All of which is respectfully submitted.

D. DERBYSHIRE.

The Senate, May 11, 1916.

MEMORANDUM.

It is assumed that the object of the query submitted to the Department of Public Printing and Stationery is to secure a summary of the views of the Department—

- (1) As to the means of reducing the original cost of parliamentary and departmental publications.
 - (2) As to the means of avoiding waste and cheapening distribution.

PRELIMINARY REMARKS.

On several recent occasions, public commissions or committees, both in Canada and in the United States, have reported upon this very subject.

- 1. In January, 1906, a "Committee on Department Methods" reported to the President of the United States on the query: "How much too much is printed of Government Publications?"
- 2. In 1908, a Canadian Public Service Commission incidentally reported on the preparation of blue-books in the departments (page 43 of the report, Sess. Paper No. 29 A, 1908).
- 3. In 1908, a special inquiry into the methods of the Public Printing and Stationery Department was instituted by the then Secretary of State (Sess. Paper No. 39, 1911).
- 4. In December, 1911, a Commission on "Economy and Efficiency" reported to the President of the United States on the centralization of the distribution of the Government publications (U. S. Senate Document No. 293, 1912).
- 5. In 1912, a Dominion Public Service Commission, amongst other matters, investigated the working of the Department of Public Printing and Stationery, and their own report is accompanied by a sub-report of Messrs. Price, Waterhouse and Company (Sess. Paper No. 57, 1913).

6. The Royal Commission appointed to inquire into the state of records of the Public Departments, whose advance report has been communicated to us, made an inquiry, several features of which apply to the subject matter of these notes.

The above mentioned United States reports apply to our Canadian problem, as the conditions in Washington will be found to have been almost identical to conditions in Ottawa.

The conclusions of these American and Canadian reports cover the subject fully and well, are very plain, and based on findings of common practices.

I. REDUCTION OF COST OF PUBLICATIONS.

Excessive expenditure in public printing may be classified under the following heads:—

- 1. Excessive cost in the execution of printing work in the Government Printing Office.
- 2. Excessive size of documents and printing of unimportant documents for Parliament or the Departments.
 - 3. Excessive editions of such publications.

S-17

1. Cost of Printing.

The cost of printing has been, in the late years, the object of a good deal of study and improvement in the Printing Bureau. The suggestions of the 1910 and 1912 inquiries have been mainly carried into practice, and this, coupled with certain changes in the personnel, and the use of modern machinery previously introduced and kept up, has certainly brought the Bureau to a satisfactory state of efficiency, if one considers the drawbacks inherent to the working of a government institution, and those resulting from more or less congestion in several portions of the department.

The output of the Printing Bureau per head of its force will favourably compare with the output of a large number of outside printing establishments and this showing would be still more conclusive if the Government Bureau were allowed to charge Parliament and the departments for their publications according to the rates allowed to outside printing establishments on work executed for the Government. Wages, stock, and a few overhead charges are only permitted to be charged by the Printing Bureau against the departments, nothing being included in the overhead charges to cover Civil Service salaries, heat, light, and power, depreciation and maintenance of building, plant and capital equipment, nor for interest on the investment, insurance, etc. As the technical working of the Department of Public Printing and Stationery has already been inquired into, we abstain from going further into details.

- 2. Excessive Size of Publication.
- 3. Excessive Editions of Publications.

If these two items are considered in the light of the responsibility for the size of the documents and for the excessive editions of same, they may be studied together.

The copy or subject matter of publications is, of course, prepared in the several departments.

The original requisitions or orders on the Department of Public Printing and Stationery for the printing of publications are issued by each of the departments (including Parliament) wanting them.

The publications are classified into two main divisions:—

- (a) Parliamentary publications which are ultimately intended to be collected and bound in the annual series designated as "Sessional Papers." All the annual reports of the departments, in several cases with appendices, are included in that division.
- (b) Departmental publications proper, which include all publications not otherwise belonging to the first division (technical reports, monographs, monthly publications, bulletins, and also all forms, account books, etc., etc., vanted for the sundry services).

The present notes are only dealing with the publications of the first of these divisions.

The total edition of any given publication going into the Sessional Papers is not wholly ordered by any one department. The total edition is made up of the number of copies ordered separately by the House of Commons, by the departments, and by the Distribution Office.

The edition of blue-books or number of copies of "all printed matter over which the Joint Committee on Printing has jurisdiction" is apparently regulated by report of the committee dated May 1, 1902 (still in force), and which approved of distribution lists laid before them then, and followed since, corrections have been made from time to time in consequence of events (deaths, removals, etc.).

The editions or number of copies intended for the departments are requisitioned for, or ordered printed, by the departments under the authority of an Order in

¹At the same time the remarks made as to preparation of copy, size of publications, editions, etc., etc., will generally apply.

Council of the 16th January, 1893, fixing the limit of the number of copies to be printed for distribution by them to 500 copies. From time to time since, this Order in Council has been severally amended by other Orders in Council, according to a list annexed to the present memorandum.

The Distribution Office of the Department of Public Printing and Stationery issues its own requisitions under the authority of the Order in Council of January, 1893, which provides that the "Queen's Printer be authorized to reserve for purposes of sale such numbers of the departmental reports and to arrange for their sale in such

manner as may be deemed advisable by the Secretary of State."

Apparently, therefore, each department is responsible for the quantities of reports ordered for its own service. But, by a peculiar practice, the exact origin of which we cannot trace, the quantities ordered for the departments proper (not for the House or Senate), under the authority of Orders in Council, are not charged against the departments.

The departments only pay for the number of copies which they order in excess of the quantities fixed by the Order in Council. The number of copies ordered by them under the authority of Orders in Council (even though printed exclusively for them and until now distributed by them) are charged against the parliamentary appropriation voted to the Department of Public Printing and Stationery under the appellation of "Miscellaneous Printing."

The amounts required to cover this "Miscellaneous Printing" are increasing at a great pace. A table annexed to this report shows that the appropriation in 1900 was only \$30,000; in 1910-11, it reached \$85,000; in 1911-12, it was made \$100,000; and this year the Main Estimates of \$100,000 have been increased by \$50,000 in the Supple-

mentary Estimates.

The opening of this appropriation and account of "Miscellaneous Printing" had likely for its object the centralization under one head of the expense of printing the annual reports of the several departments. However, if it is thought that excessive expense, in size and in addition, results directly from the authorized requisitions of the departments, it seems that the responsibility would be more directly traceable to the departments, if each one had to have its appropriation for printing voted singly and annually, in lieu of the lump appropriation voted to all departments under the general heading "Miscellaneous Printing."

Of this "Miscellaneous" appropriation the departments can only use what Orders in Council allow them to use, but there seems to be no definite limit to the passing of Orders in Council, and the "Miscellaneous Printing" may be considered as only a covering appropriation, for which Supplementary Estimates have been several times

voted or will be more and more needed in the future.

We will now examine items 2 and 3 singly.

To eliminate waste in the unnecessary size of public documents, the United States Committee of 1906 made the following recommendations, which are undoubtedly applicable to the Dominion publications:—

- (a) There should be in each department of the Government a committee advisory to the head of the department on the subject of printing and publications;
- (b) This committee should examine the copy for the reports with, a view to the exclusion of unnecessary matter;
- (c) It should see that such copy is edited carefully before, and not after, going to the printing office;
- (d) It should see that the statistical matter is kept within reasonable bounds and compiled in condensed form;
- (e) It should give its special supervision to the question of costly and unnecessary illustration of public documents;
 - (f) It should prevent the duplication of matter in different departments.

And the same committee laid down, amongst others, the following rules to govern all classes of publications:—

- (a) Annual reports should be confined to concise accounts of work done and expenditure incurred during the period covered by the report, with recommendations relating to the future, including plans for work about to be undertaken.
- (b) Contributions to knowledge in the form of scientific treatises and general discussion have no place in an annual report. Observance of this rule would, they say, exclude an immense quantity of matter from annual reports as now printed. (And the committee here point out the tendency of departments to have the cost of their printing charged against other appropriations than their own, which gives further ground to our previous remarks about "Miscellaneous" appropriation.)
- (c) Illustrations in annual reports should be excluded, except maps or diagrams indispensable to the understanding of the text, views of monuments begun or erected during the period covered by the report, etc.
- (d) Inserted material written or compiled by persons not connected with the reporting office, and biographical and eulogistic matter relating to the past or present personnel of the office, should be rigorously excluded.
- (e) The reports of officers who do not report directly to the head of an executive department should not be printed, but may be summarized in the reports if their head officers, etc., etc.

To eliminate waste by excessive editions, the measures recommended to do away with excessive size of documents may be applied with good results.

How many copies of each publication are really needed, or wanted, is a piece of information which few officials can fully and authoritatively supply. It seems to have been a very general impression in the several Canadian Commissions, and with the members and officers of Parliament who have handled the subject in or before Parliament, that a great waste takes place.

It has been affirmed time and again and lately reported that a large number of copies are refused by persons entitled to receive them in Parliament, and are piling up in the storerooms of Parliament and the departments, ultimately to find their way to the junk stores or waste-paper dealers.

But even an inventory of the accumulation of documents in the different departments would afford only a partial demonstration of this fact, as a large number of publications have already found their way to junk stores and waste-paper dealers' yards.

Excessive editions contribute directly to the waste in distribution, and the remedies against such waste will afford the control and the means of guarding against printing unnecessary numbers of copies, and reciprocally.

But it must not be assumed that a very great saving can be affected by reducing the editions (number of copies) of the publications. It has been estimated by officers of the Printing Bureau that cutting down the edition or number of copies of average so-called blue-books will not result in a saving of more than 25 cents for each unit of 500 pages. The first and heaviest cost of publication being that of composition, revising, make-up and preparation for press, it will only matter to that extent of 25 cents per unit of 500 pages, if any given edition be increased or decreased. This figure cannot possibly apply to all cases, but it is given as an average basis for calculations.

The cutting out of unnecessary copy or subject-matter of reports will much more effectively influence the total cost than the reduction of the number of copies to be printed, except when the cutting may unmercifully be applied to very large editions.

II. Avoiding Waste and Cheapening Distribution.

A large number of persons, in the Senate and the House of Commons, or through the members of the same, officials in the Provincial Governments, judges, etc., etc.—or of institutions, libraries, educational establishments, etc., etc., are entitled to or do receive government publications. All the departments distribute copies of their own reports. Many of these are again bound up in the Sessionals and sent again to libraries, etc. An American official appointed to inquire into the itinerary of public documents so sent broadcast (in the United States) was able to write, in 1905:—

"Since the establishment of this office, in 1895, 800,000 duplicate documents have been returned to the Superintendent of Documents by libraries receiving more than one copy, and applications have been made for the return of several hundred thousand additional volumes, which were declined owing to lack of storage facilities."

And the report from which this quotation is taken adds:-

"These figures relate solely to duplication of distribution to libraries, and take no account whatever of very large duplication in distribution to individuals."

These processes of handling by which documents, after printing, successively pass to the hands of packers in the shipping rooms, to the wagons and conveyances, to the members of the Senate and the House of Commons, to the departments, from the departments to other departments, or through the mailing clerks to the public, and from them all to post offices and railway stations, are both slow and costly. It has been calculated by the United States Committee in Economy and Efficiency that the handling of the publications from the Government Printing Office to the post offices and railway stations in Washington, via the departments entailed the expenditure of the vast annual sum of \$327,000.

With these and similar findings before them, what do the above reports suggest in order to avoid waste in and cheapen distribution? Unanimously, the centrali-

zation of the distribution of Government publications.

The 1911 United States Commission on Efficiency Report covers the ground so effectively and completely that we insert their conclusions:—

"1. That the work of distributing documents be centralized in the office of the Superintendent of Documents of the Government Printing Office, instead of being performed as at present by the departments, establishments, and bureaus issuing such documents.

"2. That each department and establishment retain only such part of its present organization and facilities for the handling of documents as is

needed to prepare and issue orders for the mailing of publications.

"3. That the use of teams and trucks, and operators in connection therewith, as well as the other equipment now used in conveying publications from the Government Printing Office to the several departments and establishments, and from such departments and establishments to the post office, and from the post office to the Union station, be discontinued.

"4. That such portion of the forces of the various departments and independent establishments now engaged in addressing, wrapping, sealing, and otherwise handling publications for distribution, as may be necessary, be transferred from the departments and establishments in which they are now employed to the office of the Superintendent of Documents of the Government Printing Office.

"5. That, if necessary for the direct conveyance of publications from the Government Printing Office to the Union station, a sub-post office station be established in or adjacent to the mailing room, for the purpose of giving such postal supervision as may be required in the distribution, routing, etc., of documents."

What legislative provisions would have to be passed in order to permit the centralization of distribution of government publications in Ottawa? Likely none at all.

It is important here to note the wording of the Order in Council of 1893, relating to distribution, and to compare it with the law respecting Public Printing and Stationery:—

"On a report dated 16th January, 1893, from the Minister of Finance, the Minister finds that the number (of copies) required for Parliamentary inside and outside distribution is, as to most of the departmental reports. 1,800 each, and as to five of the most important, 2,500 each. The numbers ordered by the different departments for their own distribution vary from 350 to 10,000, as will be seen from the annexed list. The Minister is of opinion that it is desirable to secure greater uniformity and economy in the orders from the various departments, and that the numbers ordered by each should be based on the call for necessary official distribution. The Minister, therefore, recommends that each department be authorized to order within its discretion, for its own distribution, copies of its reports not to exceed a maximum of 500 copies of each, and that the Queen's Printer be authorized to reserve for purposes of sale such number of the department reports and to arrange for their sale in such manner as may be deemed advisable by the Secretary of State."

Now the law respecting Public Printing and Stationery reads thus, chap. 80, R.S.C.

- (b) The purchase and distribution of all paper, books, and other articles of stationery of whatsoever kind, except books which are required for the Library of Parliament, etc.

"Sec. 22, ss. 2. The Superintendent of Stationery shall also have charge of the sale of all official publications of the Parliament and Government of Canada, which are issued for sale, as well as of the distribution of all public documents and papers to the officials and other persons who are entitled to receive the same without payment.

With this statutory enactment, it seems that if the Order in Council of 1893 and the amending ones are valid as to the number of copies of publications to be printed, they cannot be interpreted as lawfully establishing a right to, or a justification for, the distribution of the publications by the departments as carried on now.

Attention is only drawn to this peculiar situation for the purpose of pointing out that if the central distribution is to be considered and recommended as the actual and best remedy against the waste of printed publications, and the most effective means of cheapening distribution, no legislation need be resorted to carry it into effect. It is already provided for, and never, at any time, in our statutes, since the institution of the Department of Public Printing and Stationery, was it contemplated that the actual work of distribution should be carried by departments.

The President of the United States, in adding his recommendations of the report of this committee to the favourable consideration of Congress, added this explanation:—

"The plan (of centralizing distribution) does not contemplate any change in the authority which determines the persons to whom documents shall be sent, but, only that the physical work of wrapping, addressing, and mailing the documents shall be done at one place, and that the place of manufacture."

Respectfully submitted,

J. de L. Taché, King's Printer.

The Order of the Day being read for the further consideration in a Committee of the Whole of the Bill 67, "An Act relating to the St. Peter's Indian Reserve,"

The Honourable the Speaker gave his ruling on the Point of Order raised by the Honourable Mr. Lougheed yesterday, that this Bill is a Money Bill and cannot therefore be amended by the Senate, and declared the same not well taken, for the following reasons:—

All Bills, the object of which are to raise money whether by way of loan or otherwise or to warrant the expenditure of any portion of the same, are held to be Money Bills.

They may be divided into three classes: Tax Bills, Bills of Supply and Bills of Appropriation.

Tax Bills, for raising revenue to be applied towards the services of the current year, are founded upon resolutions of the Committee of Ways and Means.

In like manner, Bills of Supply, authorizing an advance out of the Consolidated Fund or the issue of Exchequer Bills towards making good, supplies which have been voted by the House of Commons for the service of the year, emanate from the Committee of Ways and Means and are founded on resolutions.

When the Committees of Supply and Ways and Means have finished their sittings, a Bill is introduced, which enumerates every grant which has been made, appropriates the several sums which have been voted by the Committee of Supply, which shall be issued and applied to each service. This is known as the Consolidated Fund Bill, or more generally as the Appropriation Bill.

The Senate was then adjourned during pleasure and again put into a Committee of the Whole on the said Bill.

(In the Committee.)

Clause 2 being again considered, it was moved to amend it, as follows:—
"Strike out all of that part of Section 2 following the first paragraph thereof."
The question being put on the said amendment, the Committee divided, as follows:—

YEAS, 25-NAYS, 16.

So it was resolved in the affirmative. After a while the Chairman left the Chair.

The Senate was resumed.

Pursuant to the Order of the Day, the Senate was adjourned during pleasure, and put into a Committee of the Whole on the Bill 99, "An Act to amend The Exchequer Court Act."

(In the Committee.)

After some time the Senate was resumed, and

CIVIL SERVICE COMMISSION OF CANADA, OTTAWA.

The Civil Service Commissioners have had under consideration an application from the Honourable the Speaker of the Senate for the issue of a Certificate of Qualification, under the provisions of Section 24 of the Civil Service Amendment Act, 1908,

in favour of Mr. Louvigny de Montigny, Assistant French Translator in Subdivision B of the First Division, who is recommended for promotion to the position of Chief French Translator in Subdivision A of the First Division. Having satisfied themselves that Mr. de Montigny is fully competent to perform the duties of the position to which he is to be promoted, and that, in their opinion, the case is one in which a special examination may be dispensed with,

Now, therefore, This is to Certify, pursuant to the provisions of Section 24 of the Civil Service Amendment Act, 1908, that, in their opinion, Mr. Louvigny de Montigny is duly qualified to be an officer of Subdivision A of the First Division on the Staff of the Senate.

ADAM SHORTT,

M. G. LAROCHELLE, Commissioners.

Also Letters, with enclosures, from the Librarians of Parliament in reference to:-

- (a) Mr. Alfred Carter, Accountant of the Library; and
- (b) Napoleon Aubry, Caretaker of the Library, as follows:-

(A.)

LIBRARY OF PARLIAMENT,

OTTAWA, April 14, 1916.

DEAR MR. SPEAKER,—With reference to your note on the subject of Mr. Carter's appointment, we have the honour to forward a copy of the Civil Service Commissioners' certificate, dated October 8, 1915.

Up to that date, the position of Accountant had been unsatisfactorily filled by a temporary clerk, who was supposed to pass the examinations. He failed to do so, and Mr. Speaker Sproule refused to continue him.

Our accounts were in danger of falling into confusion, so when Mr. Carter was made available we accepted him gladly and assumed that the Civil Service Commissioners understood their own mode of proceeding.

Mr. Carter's appointment was on probation and he had also been in the service in another department.

Parliament did not meet till January; and owing to the adjournment of the Senate and the confusion of the fire we have not had opportunity till now when the probationary period is over, to place the matter in your hands and recognize your authority.

We regret any apparent want of regularity and respect, and recommend Mr. Carter strongly for confirmation. He has exhibited steadiness and knowledge in his work, and will do justice to your approval.

We have the honour to be, Sir,

Your obedient servants,

A. D. DE CELLES, General Librarian.

MARTIN J. GRIFFIN, Parliamentary Librarian.

The Honourable The Speaker, The Senate.

CERTIFICATE OF APPOINTMENT TO SUBDIVISION B OF THE SECOND DIVISION.

Whereas by an Act of the Parliament of Canada, Chapter 15 of 7-8 Edward VII, intituled: "An Act to amend the Civil Service Act," it is amongst other things in effect enacted, that except as therein otherwise provided, appointments to positions in the Inside Service under that of Deputy Head shall be by competitive examination, which shall be of such a nature as will determine the qualifications of candidates for the particular positions to which they are to be appointed, and shall be held by the Commission from time to time in accordance with the regulations made by it, and approved by the Governor in Council.

And whereas, Mr. Alfred Martin Whinney Carter, of Grand Vital, Man., aged twenty-four (hereinafter called the candidate) has been examined under the direction of the Civil Service Commission in open competitive examination, in conformity with the provisions of the Civil Service Act, and of the rules and regulations made thereunder, and has established his fitness for appointment by securing 23rd place at the said examination;

And Whereas the said Civil Service Commission has ascertained respecting the candidate:

That he is a British subject and has been a resident of Canada for at least three years;

That he is within the limits of age prescribed for the position to which it is proposed to appoint him;

That he is free from any physical defect or disease which would be likely to interfere with the proper discharge of his duties;

That his character and habits are such as to qualify him for such position; and That he possesses the requisite knowledge and ability to enter on the discharge of his official duties:

Now this is to Certify that the candidate is qualified to be admitted on probation to the Department of Library of Parliament as a Clerk of the Second Division, Subdivision B.

Dated this Eighth day of October, one thousand nine hundred and fifteen.

CIVIL SERVICE COMMISSION OF CANADA.
OTTAWA.

The Civil Service Commissioners have had under consideration an application from the General Librarian of Parliament for the issue of a Certificate of Qualification under the provisions of Section 33 of the Civil Service Amendment Act, 1908, in favour of Mr. Alfred Martin Whinney Carter, who was assigned to the position of Accountant on the Staff of the Library of Parliament, Sub-division B of the Second Division, on the 8th of October, 1915, and to whom it is proposed to pay a salary of \$1,000 per annum from the date of such appointment. It having been represented to the Commissioners that the duties of this position are of an exceptional character, and it having been ascertained upon careful inquiry that Mr. Carter is qualified to perform such duties and has given satisfactory service during his probationary employment in the Department.

Now, therefore, this is to certify, pursuant to the provisions of Section 33 of the Civil Service Amendment Act, 1908, that Mr. Alfred Martin Whinney Carter, a clerk in Sub-division B of the Second Division, on the Staff of the Library of Parliament, possesses the exceptional qualifications required for the performance of the duties of the position which he now holds and is, in the opinion of the Commissioners, entitled to be paid a salary at the rate of \$1,000 per annum.

PRAYERS.

The Honourable the Speaker laid on the Table a Petition from the Assistant Curator of the Reading Room, as follows:—

OTTAWA, May 15, 1916.

The petition of the undersigned respectfully showeth:-

That for three years before the superannuation of Mr. Ralph, I had most of the work to do in the reading room, and on that account his position was promised to me. But instead of that, a curator was appointed over me, thus depriving me of any improvement in my position, and moreover I have had to perform the curator's work eleven out of thirteen months, as I may say he was curator only by name. Taking this into consideration and the salary of Mr. Deacon, holding the same position in the House of Commons with the maximum of \$2,100, and that of Mr. Nicholson, of \$2,800, compared with my own salary with a maximum of \$1,200; considering also that I have been in the service of the Senate for over thirty years, first as page, and then as sessional and permanent messenger; I was employed in the reading room for five years before being classified and then by some mistake was dated two years back, which deprived me of seven years of increase of salary; I may add that during that time I trained three messengers to do the work, the first being promoted as doorkeeper, the second having withdrawn on account of ill health and the third being with me still.

On account of my having reached my maximum this year, I will receive no statutory increase, and this together with the fact of being the father of seven children, and on account of the increased cost of living, makes it impossible for me to make both ends meet.

For the above reasons I would most respectfully ask you to lay before His Honour the Speaker my application for promotion to Class 2-B, at a salary of \$1,200 to \$1,600. Respectfully submitted.

ERNEST BERUBE,

Asst. Curator, Senate Reading Room.

Major Chapleau, Clerk of the Senate, Ottawa. A Message was brought from the House of Commons by their Clerk with a Bill 104, intituled: "An Act for granting to His Majesty certain sums of money for the public service of the financial years ending respectively the 31st March, 1916, and the 31st March, 1917," to which they desire the concurrence of the Senate.

The said Bill was read a first time.

With leave of the Senate,

Ordered, That Rules 23f, 30 and 63 be suspended in respect to the said Bill.

The said Bill was then read a second time and a third time.

The question was put whether this Bill shall pass.

It was resolved in the affirmative.

Ordered, That the Clerk do go down to the House of Commons and acquaint that House that the Senate have passed this Bill.

A Message was brought from the House of Commons by their Clerk with a Bill 21, intituled: "An Act to amend The Canada Shipping Act," to which they desire the concurrence of the Senate.

The said Bill was read a first time.

Ordered, That Rules 23f, 24a, b and e, and 63 be suspended in respect to the said Bill.

The said Bill was then read a second time and ordered that it be committed to a Committee of the Whole presently.

The Senate was then adjourned during pleasure and put into a Committee of the Whole on the said Bill.

(In the Committee.)

After some time the Senate was resumed, and

The Honourable Mr. Poirier from the said Committee, reported that they had gone through the said Bill, and had directed him to report the same to the Senate, without any amendment.

A Message was brought from the House of Commons by their Clerk, in the following words:—

House of Commons,

OTTAWA, Wednesday, May 17, 1916.

After which the Right Honourable the Deputy Governor General was pleased to close the Sixth Session of the Twelfth Parliament of the Dominion of Canada, with the following Speech:-

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In this crisis of our national life your attention has been directed to affairs of supreme importance; and it is with gratitude that I recall the care and devotion with which you have considered and approved all necessary measures for effective prosecution of the war. Our Empire, with unexampled singleness of purpose, is defending not only its own integrity and institutions but also the rights of mankind. It is my sincere conviction that your efforts will materially aid in the achievement of that unquestioned victory for which we shall not cease to strive until it is attained.

The struggle, still proceeding in many widespread theatres, has recently become more intense on the western front, where for more than a year the Dominion troops have been engaged. The Canadian Army Corps has been entrusted with an important position, and the people of the Dominion justly cherish a calm confidence that it will fully maintain the honourable and distinguished record already established by the First Division.

Throughout our country the response to the urgency of the Empire's need has been unfailing, and unaccustomed burdens have been accepted with an unfaltering spirit. Nearly 170,000 troops have gone overseas and more than 140,000 are undergoing training in Canada. To supply the needed reinforcements men have offered themselves in even greater numbers during the first four months of this year than in any similar period during the war.

I am convinced that the important measures which you have taken for the eronomic well-being of the Dominion will meet the needs of the situation and will be

attended with marked advantage to the public interest.

The magnificent crops harvested during the past season have materially assisted in maintaining the stability of our national fabric. You will rejoice to learn that the vastly increased volume of Canada's exports is still maintained and that the general prosperity of the country has not been perceptibly diminished by the war.

In dealing with national problems of railway development you have made provision by which present needs will be met. Steps will be taken by my advisors without delay to insure an effective inquiry into the conditions by which those problems are

surrounded and the most efficient methods by which they can be solved.

The provision for supplementing, with such aid as is required from the federal power, the operation of provincial legislation restricting the sale or use of intoxicating liquors, is in accordance with the marked advance of public opinion to which the provincial enactments are due.

I deplore with you the partial destruction of the historic building in which the deliberations of Parliament have been held since the founding of this Dominion. It is anticipated that in its restoration the destinctive features of its architecture will be preserved while at the same time more spacious and convenient accommodation will be provided.

Gentlemen of the House of Commons:

I thank you on behalf of His Majesty for the liberal provision which you have made for the public needs and for the increasing demands of the war.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

It is my privilege now to relieve you for the present from your arduous labours, and I do so with an evergrowing confidence that, notwithstanding any temporary reverse, victory will crown our high cause; with a fervent prayer also, and an humble faith that out of this time of trial and suffering our country will assuredly advance to a greater and nobler future.

The Honourable the SPEAKER of the Senate then said:-

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

It is the Right Honourable the Deputy Governor General's will and pleasure that this Parliament be prorogued until Tuesday, the 27th day of June next, to be here holden, and this Parliament is accordingly prorogued until Tuesday, the 27th day of June next.
