ROME, Sept. 14.—The Russian em-  
bassy today gave out the following  
statement:  
"Gen. Mindinger's army has been  
defeated near Mlawka, a village near  
the western frontier of Russian Pol-  
and."  
"The Germans are evacuating Pol-

### AUSTRIA IS PREPARING FOR ATTACK BY ITALY

Reserves Reported to Be Massed on Border Where En-  
trenchments Have Been Dug—Trieste Has Been  
Fortified as a Precaution.

Canadian Press Despatch.

LONDON, Sept. 14.—4.05 a.m.—A  
Reuters' despatch from Rome quotes  
the Giornale d'Italia as saying:  
"Austria has removed her first line  
of troops from the Italian frontier, es-  
pecially the frontier riflemen. The  
Alpine sharpshooters are being again  
at the Russians but the Austrians have  
prepared a defence of the border with  
gendarmes, reservists and members of

the landsturm and landwehr. Besides  
they have cut entrenchments eight  
feet wide and ten feet deep."  
"A possible landing of the Italians  
at Trieste, which is unfortified has  
been provided against by previous en-  
trenchments on the Campo Marzio hill,  
which overlooks the town and by  
blockhouses around the spur of Trieste.  
The remainder of the coast of Istria  
and Dalmatia has been mined."

### AUSTRIANS IN FLIGHT.

Canadian Press Despatch.

PETROGRAD, Sept. 14.—The fol-  
lowing official communication was is-  
sued tonight:  
"On the Austrian front the Russian  
troops are crossing the San River. On  
taking position near Rawa Ruska, the  
Russian troops captured 20 cannon  
and 8000 prisoners, and also enormous  
stores of war material and provisions."  
"The results of the pursuit of the  
enemy in that territory are still un-  
known."  
"In the marshes of Belgorod, the  
Russians found some more Austrian  
batteries sunk in the mud, abandoned  
during retreat."  
"The general army, while repulsing  
the last desperate Austrian attack,  
captured the moment our troops took  
the offensive, a great number of pri-  
soners and guns, the total number of  
which has not as yet been determined."  
"Gen. Brusiloff declares that his  
troops gave proof of great energy,  
determination and bravery. The com-  
manders of the corps, he says, led  
their units with imperturbable cool-  
ness, snatching victory from the  
enemy on more than one occasion at  
critical moments."  
"Gen. Brusiloff particularly com-  
mends the activity of the Bulgarian  
General Radko Dimitrieff in the fight-  
ing."

Extraordinary Vigor Shown by Highly Elated Victors, Who  
Have Gathered Many Pieces of Artillery and Much  
Other Spoil—Next Great Battle May Be  
on German Frontier.

Canadian Press Despatch.

PARIS, Sept. 14.—5.11 p.m.—Unre-  
lent pursuit of the rapidly retreat-  
ing German armies by the British and  
French forces continued today with  
extraordinary vigor, according to the  
French view.  
Despite the great numbers operat-  
ing their various armies, which com-  
posed together against the allies, the  
German withdrawal movement is be-  
ing carried out with great rapidity and  
cleverness. The main body appears to  
be approaching the Belgian frontier,  
while the German left wing, seemingly  
is gaining shelter in German Lor-  
raine.

hundreds of thousands of men are  
engaged on the western field alone,  
will take place in German territory.  
The allies, according to the military  
experts, doubtless will endeavor to  
prevent the German armies should  
they succeed in eluding capture, from  
taking strong defensive positions near  
the frontier.  
Large bodies of fresh troops are un-  
derstood to have been sent forward to  
assist in the pursuit, and many more  
are ready to share the chase, it is said.  
Some portions of the allied armies  
which thru the hot and sunny days  
interpersed with rain, bore the brunt  
of the fighting, are taking a brief  
rest in preparation for movements  
which may call for equally great  
efforts.

### ITALY MUST SOON JOIN WITH TRIPLE ENTENTE

Italians Declared to Be United in Demand That the Country  
Separate Entirely From Triple Alliance—Fleet Mo-  
bilized and Coaled Ready for Action.

Canadian Press Despatch.

BORDEAUX, Sept. 14, 7.30 a.m.—  
The Temps quotes Prince Tassa di  
Cute, an Italian Socialist deputy, with  
reference to the attitude of Italy.  
"Opinion in Italy," says the deputy,  
is unanimous in demanding the real-  
ization of the anti-triple alliance pro-  
gram. Everyone today believes that  
Italy must absolutely separate her  
policy and destiny from the triple al-  
liance."  
"United action with the triple en-  
tente in the immediate outgrowth of  
the situation. Italy's neutrality has  
been a necessary transition; our mili-  
tary necessities have been taken as  
quickly as geographical conditions per-  
mitted and the Italian army is ready  
for all eventualities. Our fleet is mo-  
bilized and coaled, thanks to arrange-  
ments with England."  
"We are now neutral only in ap-  
pearance. The action of Italy might  
definitely turn the scale in favor of  
the triple entente."

Last Stand of Kaiser's Men in France Will Be

Germans Have Concentrated, Practically at  
Bay—Fighting in Galicia a Series of Massa-

Say Belgian Garrison at Antwerp Was Re-  
pulsed—25,000 Japanese Landed on Shan-  
tung Peninsula.

(French Official)

PARIS, Sept. 14.—(10 p.m.)—The French official statement,  
issued tonight, says that French troops have reoccupied Amiens, which  
was abandoned by the Germans, but that the Germans are making a  
stand on the River Aisne.

The statement is as follows:  
"On our left wing we have everywhere caught up with the rear  
guards, and even the main body of the enemy."  
"Our troops have re-entered Amiens, abandoned by the German  
forces."  
"The enemy appears to be making a stand on a prepared front  
along the River Aisne."  
"On the centre, similarly, it would seem as if the enemy intends  
to resist on the heights to the northwest, and to the north of Rheims.  
In the region between Argonne and the Meuse he continues to retire."  
"On our right wing, in the Woivre district, we have succeeded in  
relieving the fort of Troyon, which has been stubbornly attacked time  
and time again during the last few days. (Troyon is 12 miles south-  
southeast of Verdun.)"  
"In Lorraine our pursuing detachments are keeping, as every-  
where else, in touch with the Germans."  
"The morale and sanitary condition of our armies continue ex-  
cellent."

NEW LINES OF DEFENCE.

The following communique has been issued by the war office:  
"On our left wing the enemy had prepared to the north of the  
River Aisne, between Compiegne and Soissons, a line of defence.  
Detachments which the enemy had around Amiens have now retired  
on Peronne and St. Quentin."  
"On our centre, likewise, the Germans had organized a rear de-  
fensive position, which they have not been able to hold. In Argonne  
they have fallen back northwards, beyond the forest of Belfoue and  
of Triancourt."  
"On our right wing, the enemy's retreating movement, which is  
general now, extends from Nancy to the Vosges mountains. Last  
evening all the French territory in that quarter was completely  
evacuated."

GENERAL AND STAFF CAPTURED.

A batch of German prisoners, composed of a general with his  
entire staff and six other officers and 300 men, arrived today at Noisy-  
le-Sec, 50 miles northeast of Paris, whence they were sent to the  
south.

VALOR OF ALLIED TROOPS.

LONDON, Sept. 14.—The consensus of the day's news is pre-  
gnant with reports of the valor of the allied troops and the headlong  
flight of the Germans and their Austrian allies. Russian advices declare  
that the success of their armies in Galicia is overwhelming, and that  
the enemy is retreating as fast as its crippled troops will admit.

Reports that the Kaiser's troops are giving way along the line  
with the purpose that they may realign on a new front on northern  
France are not borne out by the facts on hand. The official reports  
from Paris, London and Petrograd agree as to the present disposition  
of the troops of the allies and their opponents, and the possibility of  
another front movement is minimized.

In the north of the present established troops of the allies, the  
Germans took up a defensive position yesterday, but they have been  
compelled to abandon it.

LANDING OF RUSSIANS DENIED.

The official press bureau issued tonight a denial of the reports  
that Russian troops have been landed in Belgium.

"There is no truth whatever," says the bureau, "in the rumors

tween Malines and Louvain—Contributed Largely  
to Success of Allies' Great Flanking Movement.

Special Direct Copyrighted Cable to

GHENT, via London, Sept. 14.—The  
magnitude of the battle between the  
Belgian army and the Germans who  
remained in this country instead of  
joining their fellows and invading  
France has been carefully masked in  
all the official communications from  
the capital at Antwerp, and the few  
scrapes of information about it which  
have trickled into this place, have  
given little hint of its importance.

the success of this movement, by far  
the most important of the Belgian  
army since the days after Liege.  
Every available man of the German  
Landsturm and the Army, which  
has held Belgium for three weeks, was  
massed along the fighting line. The  
pieces held by the enemy were Sampe-  
weerde, Elwy, Campenhout, Wier-  
pelael, Not-el et and Hollenbeck. The  
Belgian forces lay to the northeast of  
this line, a further flank to the  
south of Leershot, and the centre about  
Keerbergen. The centre of the battle  
sto in a cross-roads about middle  
distance between Malines and Lou-  
vain.

The battle lasted for four days, but  
the people here in Ghent have heard  
nothing of it. They believe all the  
fighting there is in Belgium is between  
cyclist and cavalry detachments and  
squads of Uhlans.

Yet the flanking movement of the  
allies in France depended largely on

### HOST OF RUSSIANS LANDED IN LEITH?

Welsh Engineer Says There  
Were Seventy Thousand  
Men in Contingent.

Special Direct Copyrighted Cable to  
The Toronto World.

LONDON, Sept. 14.—The Evening  
News of Cardiff, Wales, publishes a  
statement, wherein W. H. Champion, a  
well-known Welsh engineer, who trav-  
elled on a steamer from Archangel to  
Leith with 2500 Cossacks, says that  
the contingent was the last of fully  
70,000 troops from Archangel, and  
that the Russians knew nothing as to  
their destination. Champion said that  
the Russians were magnificent speci-  
mens of manhood, the majority being  
over six feet in height.  
Champion landed in Leith and then  
proceeded with the Russians thru  
York to Peterboro, where he left the  
train.

The British official press bureau de-  
nies that any Russians have passed  
into France or Belgium.

Canadian Press Despatch.  
LONDON, Sept. 14, 8.40 p.m.—The  
following official German communica-  
tion was received here tonight by the  
Marconi Wireless Telegraph Co.:  
"The few German residents in Her-  
bertshöhe, in the Bismarck Archipelago  
in the Pacific Ocean, are making  
an heroic resistance against the in-  
vading forces, which are in command  
of the chief of the Australian navy."  
"It is apparent from the reports ap-  
pearing in the English newspapers  
concerning engagements in German  
colonies in Africa, and from the lists  
of officers who have fallen in action,  
that the Nigerian troops took part in  
the fighting in the Kamerun (German  
West Africa)."

"Brutal, Senseless" Charge Against French

that Russian soldiers have landed or passed thru Great Britain on their way to France or Belgium. The statement that Russian troops are on Belgian or French soil should be discredited.

The Germans put up a strong resistance against the British troops crossing the River Aisne, but despite the difficulty encountered in forcing and fording the stream, the Britons crossed the river at various points before sunset. On the right and left wings the French forces met similar opposition, but they, too, were successful in the face of a strong fire.

Many additional prisoners have been captured. It is said from French headquarters that the crown prince's army was driven back, and that he has moved his headquarters from Menebould to Montsacon.

OFFICIAL GERMAN STATEMENT

BERLIN, Sept. 14.—(Via wireless)—The Belgian garrison in Antwerp has been repulsed in its ally against the Germans. The army of Crown Prince Friedrich Wilhelm is attacking the forts between Verdun and Louvain on both sides.

Prince Joachim arrived today in Berlin, and has been lodged in Bellevue Palace. Last night's official details of the battle to the east of Paris cannot yet be made public.

25,000 JAPS LANDED

PEKING, Sept. 14.—It is believed here that 25,000 Japanese troops have now been landed on the Shantung Peninsula. The Chinese are sending 25 Red Cross men to serve among both combatants at Kiao-chau. This is the first time the Chinese Red Cross members have worked among foreigners. A despatch from Laichow today says that Japanese troops are passing toward Shao and Pingtu. (Pingtu is about 40 miles north of Kiao-chau.)

A SERIES OF MASSACRES

ROME, Sept. 14.—A despatch from the Austrian Tyrol says that thirty Italians have returned wounded from Galicia, and report the fighting there as a series of massacres. They declare nearly 100,000 wounded have been conveyed to Vienna, Budapest, Prague and elsewhere. More than 8000 beds are occupied by wounded in Vienna alone.

The knowledge of the Russians, that the Italians and the Slavs in the Austrian army are deliberately firing low, is believed to account for the large proportion of wounded. Austria has lost practically half of her army.

As a Home Guard. Col. Brock in a brief address to the meeting said: "To go to the front and to be prepared to do his duty at the front, a man must be trained. To secure this training a man must have leisure, youth and health. The rifle club members encountered at Valenciennes that many of the men have not been trained. I would advise that the rifle club make arrangements to fit up a military range for use during the winter and that they be instructed in the rudiments of drill. The club might be extremely useful as a gun and target range for the boys."

ASQUITH TO MODIFY HOME RULE MEASURE

Marquis of Ulster, Supplementing the Statement of Premier, Said Amending Bill Would Be Submitted—Ulster or Any Part of It Not Necessarily Excluded.

Canadian Press Despatch. LONDON, Sept. 14.—Imparting to the house of lords today the government's intentions in regard to the home rule bill, the Marquis of Ulster somewhat amplified the statement made in the house of commons by Premier Asquith. He pledged the government to introduce a bill to amend the home rule bill and promised that it should be dealt with before the home rule measure became operative.

The amending bill would not necessarily exclude Ulster or any part of Ulster, he said, as the whole temper of Ireland had changed greatly for the better since the outbreak of the war. The Marquis ventured the opinion that when the Irish bill was placed upon the statute books there would be a rush of Irishmen to enlist in the army. He recalled the objections that were raised to granting self-government to South Africa and pointed to the fact that the Union of South Africa and the Dutch element there now was playing for the empire.

# GERMANS HAVE REPAIRED THEIR BATTLE LINE FROM LIANCOURT TO LOSGROES

## Army Attacking Verdun Is Only One To Hold Ground—Defensive Position on the River Aisne Between Compiegne and Soissons Abandoned—Communication With Belgium Now Threatened.

**Canadian Press Despatch.**  
LONDON, Sept. 14, 10.10 p.m.—Except for the army which has been attacking Verdun, the German forces in France have fallen back all along the line, according to the French official report issued this afternoon.

From Nancy to the Vosges they have withdrawn from French territory, while on the extreme right Gen. von Kluck and Gen. von Buesow continued to retreat to the northeast between the French and British, even giving up their defensive position on the River Aisne, between Compiegne and Soissons.

Further west the German detachment which held Amiens have moved northeastward to try to rejoin the German army of the right at St. Quentin. It is possible that all the German forces in the north have done likewise; otherwise they would be in danger of being cut off in the centre.

**Pursuit on Huge Scale.**  
Another defensive position behind the Aisne has been taken up and in the Argonne region a general retreat is taking place toward the forest of Belouze and Triancourt. The allies are pushing their advance and doing their utmost to turn the retreat into a disaster by a stern pursuit perhaps on the broadest scale yet known in war. On the right they are in good position to continue the offensive. The men and horses are not too tired for further effort. They are based on a strong line running from the Marne to the fortresses thru the hilly country south of Argonne.

**May Cut Communication.**  
While the allied left, composed largely of fresh troops, with a heavy force of cavalry under Gen. Faur, is wheeling around to force Gen. von Kluck and von Euelow towards Ardennes and Luxembourg, Gen. Pau's army by a few more marches near Laere and Laon might cut communication between the German forces and Belgium.

The British, who yesterday captured heavily all the crossings on the River Aisne and the German positions, are now north of that river and are pushing the attack, would assist in forcing the Germans to evacuate Rheims. The centre, commanders between Charleville and Rheims, is making an effort to recapture the latter city, which would be one of the most popular victories that could be announced to the British people.

Should these movements be crowned with success and Laon and Rheims again fall into the hands of the allies the Germans would have only one line of communication left, that between Metz and Thionville, and even that might be cut.

Gen. von Kluck, however, is looking for re-inforcements from Belgium, if he have not already reached them, and with these he might make another stand against his relentless pursuers.

**Von Kluck's Fatal Error.**  
The British are fitting a long despatch today from Field Marshal Sir John French, covering more completely than the previous summaries, the fighting from Sept. 4 to Sept. 10 inclusive, between the German and British armies. According to this report the German army to the southeast of Paris is accounted for by Gen. von Kluck's decision that the British had been so heavily engaged in the retreat from the Belgian frontier, could be ignored and that he could proceed with his plan of enveloping the main French army.

## DUKE WITNESSES REVIEW AT CAMP

### Twenty Thousand Troops in Half Battalions Pass His Royal Highness.

**U. S. OFFICER VISITOR**  
General Crozier in Full Uniform Represents American Army at Manoeuvres.

**Canadian Press Despatch.**  
VALCARTIER CAMP, Sept. 14.—His Royal Highness the Duke of Connaught for the second time reviewed the troops at Valcartier this afternoon. Twenty thousand men passed by in half battalions, marching with the precision of veterans.

"I am more than proud of them," said Col. Sam Hughes after the review. "But they have had enough of this work." He added, "They are going across to march only. They must now put in all their time shooting and learning field movements for the active service which they must face."

One remarkable feature of the review was that it was witnessed by Gen. Crozier, chief of the ordnance department of the United States army. He wore his uniform, his visit being an official one, and his presence was taken to indicate the sympathetic feeling of the government of the United States toward the allies.

One of the unfortunate features of the parade was the accident to Lt.-Col. G. Shannon of Prince Albert, Sask., who was thrown from his horse. He sustained a fractured arm and was taken to No. 2 clearing hospital, and from there was removed to the military hospital in the Red Cross camp.

Excitement was given the camp early in the evening by a fire which destroyed the moving picture show which was started on the grounds. The proprietor, it is stated, had been overcharging the men, and has not changed his program since he opened.

Manoeuvring was begun yesterday by the first brigade, but the review rather upset the program. From now on, however, there will be three brigades at the butts each day, and one brigade will manoeuvre.

## CANON HENDERSON CALLED BY DEATH

**Rev. Canon Henderson,** 79 Poplar Plains road, Toronto, is dead at the Bowmanville, Ont. hospital. He was for forty years rector of the Anglican church of St. Mark, at Orangeville, whence he moved to Guelph and afterwards to this city. He was one of the earliest graduates of Trinity University, being a member of the class of 1860. He was a brother-in-law of Rev. George J. Taylor, rector of St. Bartholomew's church, Toronto, and he is survived by two daughters, Miss Mabel Henderson of the Toronto Conservatory of Music staff and Mrs. George Woods Smith, Minneapolis, and a son, Ernest Henderson, architect, Vancouver. Francis Irwin, Orangeville, and Thomas Fisher, Crawford street, Toronto, are brothers-in-law. The funeral will be held at Orangeville on Thursday afternoon.

## DEVELOPMENT OF BRITAIN'S NAVY

### H. B. Ames Described Naval Strength of Empire at Canadian Club Meeting.

## GREAT FIGHTING UNIT

### Kaiser a Peacemaker in Irish Affairs, Declared Sir William Mulock.

"The British Navy" was the subject of an address by H. B. Ames, M.P., last night in Convocation Hall at an open meeting of the Canadian Club, in which an excellent exposition was given of Britain's naval power, the number and effectiveness of the various units, the classes of fighting ships, and the organization and control. It is the courage and resourcefulness of the British volunteer sailor in whom we place our trust to defend the empire from the forces which menace its existence." During the course of the meeting an offering was taken in aid of the Patriotic Fund, and several hundred dollars was realized as a result of the appeal to the generosity of the audience.

**Kaiser a Peacemaker.**  
Sir William Mulock, in an address, characterized the Kaiser as being an unintentional peacemaker in Irish affairs, and also as the man who applied the test of loyalty to the people of India. As a result of that test it was that the British Empire was a united Empire. The present war, Sir William exclaimed, "modern civilization against a relic of barbarism that had survived its time." He warned that the public must not think that the war was over because of the successes of the last few days. It was only in its preliminary stages.

The development of the British navy from the days of Nelson's "Victory" to the present time was traced by Mr. Ames. It was pointed out that six inches of Krupp steel was equal to 18 inches of wrought iron, which represented the best that science could offer in 1889. Modern gun development was also described. The 15-inch gun could launch a projectile of 1400 pounds weight to a distance of eight miles, and could pierce 15 inches of wrought steel. The inauguration of the Dreadnought having all big guns, and the later development of diversified guns was referred to, the Lord Nelson, the Dreadnought, the Neptune, the Orion and the King George V, being cited. The Iron Duke was the last word in machine construction, being provided with means of defence against aerial attack.

**A Bulwark of Defence.**  
The various classes of cruisers, the torpedo, the submarine and the sea plane were described. An unforeseen use of the latter has been discovered in locating submarines. The submarine mine and its development of diverse uses were also described, and the strength of British fleet in each of the five seas was estimated. The organization included the first fleet which was always ready, the second fleet composed of nuclear crews which could be mustered in two days, and the third fleet, which could be gathered together in a week. The material reserves were composed of obsolete ships which would be used only in great emergencies.

A vote of thanks to the lecturer was voiced by President Falconer, who stated that he regretted his presence in Toronto to the efficiency of the British fleet.

### Makes Grant for Concrete Highway to Toronto.

**By a Staff Reporter.**  
TORONTO, Sept. 14.—At the judicial enquiry which opened today into the civic works department for 1913 and 1912, efforts were made to involve Charles E. Venator, an assistant city engineer, who has been in the employ of the city for eleven years. W. C. Brennan, of the City of Hamilton, formerly works department secretary; W. J. Carter, an ex-city foreman; S. B. Phillips, city foreman; James Weeden, the present street commissioner; Frank Waddell, former of the city yard and Alfred Watson, district foreman. The statements of some of the witnesses went to show that W. C. Brennan, C. E. Venator and S. B. Phillips had small jobs done and paid for by the city. C. E. Venator had a small cement walk constructed by W. J. Carter, whom he paid. Venator when called to the stand, made a complete denial of the charge, contending that the work was done by the City of Hamilton.

## EIGHTY CHILDREN BURNED TO DEATH

### Germans Set Fire to a Village After "Losing Their Heads"

**Special Direct Copyrighted Cable to The Toronto World.**  
PARIS, Sept. 14.—A German who has arrived in Basle gives the following account of the Germans' destruction of the village of Hurzwiler: "A small detachment of German soldiers entered Hurzwiler to take the night. The kindly inhabitants gave them the best they could. Later, more soldiers camped near the village. During the night, in order to shorten the sufferings of a wounded army horse, a soldier killed it. A sentry, hearing the noise, opened fire, and the troopers asleep in the house rushed themselves and frantically fired from the windows in the belief that the Germans were outside. Eighty children were burned to death and numerous non-combatants were shot."

The injury would appear as if caused by two blows from a sharp instrument. Loss of blood and shock were sufficient to account for death. The enquiry was adjourned until Monday, Sept. 21.

figures in gray, but that was all. The men below, except hedges, gardens and red roofed houses of the country town. They knew the enemy was there of the taking of Weerde. Owing, however, to circumstances over which neither the Belgians nor I had control, Weerde remains unharmed.

Four Belgian divisions pressed forward down the front, extending from Aershot nearly to Alost, a distance of something over 10 miles, on Saturday morning. The Belgian centre rested at Sempt, two miles south of Weerde, on the Antwerp and Brussels Railway, a point of considerable strategic importance. It was known that the Germans occupied Weerde in force, so through the day the Belgian army, masked by heavy woods, pounded Weerde incessantly. By noon the German garrison ceased to reply, which was assumed by the jubilant Belgians to be a sign that the enemy's army had been silenced. Thompson, the now famous war photographer, and I arrived at the headquarters of the first divisions at Sempt early in the afternoon.

**Obtained View of Fighting.**  
Leaving our car at the gate of the convent, over which a Red Cross flag was flying, and which promised therefore to be fairly immune from shell fire, Thompson and I, accompanied by five, a Belgian military driver, in keeping the trenches which the Belgian infantry had evacuated in their advance, succeeded in reaching a farm house, which stood quite by itself in the middle of a field. A hundred yards from the front of the farm house stretched the highway which runs from Brussels to Antwerp. Lying in a deep ditch bordering our side of the highway was the Belgian firing line, which formed the garret of the house. To the left a hole thru the tiled roof and found our eyes looking down upon a battle preliminary match from the upper seats in the Harvard stadium. In the immediate foreground were two regiments of carabiniers, one in front of the chasserais, and two regiments of chasserais, the men crouching in the ditch, or lying prone on the ground. Five hundred yards on the other side of the highway we could see thru the trees the village of Weerde, which was washed whiteout the town and white-washed a short distance to the right, while a heavily wooded park, was a large picnic ground. The only sign that the town was occupied was the pall of blue grey smoke which hung over it and the constant crackle of musketry from the front. Occasionally one looks up a machine gun could catch a glimpse of a machine gun in the upper window of the chateau.

## GERMANS LEAVE POLAND WITH LOSS

**(Continued From Page 1.)**  
Bukovina, the Austro-Hungarian crownland in western Hungary, is proceeding unopposed. Placards have been found everywhere in the country announcing Austrian victory. "The Germans are strongly fortifying Kalitz, Russian Poland," the correspondent adds, "and the city has been surrounded by barbed wire entanglements and mine fields. Kalitz has been named Grossgarten." "A semi-official communication says that the success of the Russian operations in Eastern Prussia is not quieting. The affairs have only been minor ones which were alternately successful and unsuccessful. They have no importance in such a gigantic struggle." "An energetic attack has begun in the district of Tschestokhova, where the Russians took a strong German position by storm Saturday."

Late in the afternoon word passed down the line that the Germans had been put out of action, that the enemy was evacuating town in disorder and that five-thirty o'clock sharp the whole Belgian line would advance. Under cover of artillery fire in the mountains, the Belgian infantry climbed out of their trenches and throwing aside their knapsacks formed up behind the road preparatory to making a grand assault. A moment later a dozen dog batteries came trotting up and took position on the left of the infantry.

**Taken By Surprise.**  
At five-thirty the minute whistles sounded shrilly and the mile line, the chasserais in blue and the carabiniers in bottle green, swept forward. They crossed the road, they scrambled across the ditches they pushed thru hedges until they were within a hundred yards of the line of buildings in the outskirts of the town, when their feet broke loose. The whole German front which for an hour past had replied but feebly to the Belgian fire, spat a continuous stream of lead and flame. The rolling crash of musketry and the ripping and tearing of the machine gun was stabbed by the vicious pom-pom-pom of quick firing from every window of the three storey chateau opposite us. Less than a minute later the chateau was in flames, and the machine gun was in the hands of the Belgians. I have been fighting on two continents, but never have witnessed so deadly a fire as that which wiped out the head of that Belgian column; wiped it out just as the enemy wipes out figures on a slate. The Germans had prepared a trap and the Belgians had stumbled into it. Three minutes later the dog batteries came tearing back on a dead run, it was high time for the Belgians to be aware of the fact that a storm was brewing, we awaited to see the ninth inning.

**Things Began to Happen.**  
Then things began to happen with bewildering rapidity. Back thru the hedges, across ditches, over the road, came the Belgian infantry, crouching in the ditches for their lives. Bullets began to smatter their marks. "This is no place for two innocent little American boys," remarked Thompson, shoving his camera, "and besides if we don't hurry we shall not get back to town in time for dinner."

By the time we reached the ground, we found the Belgian infantry were over a mile in our rear and that to reach our car, we had to cross nearly a mile of open field. Bullets were whistling overhead, and the air was thick with the spurs of brown earth, where they struck. The man who won the marathon at the Olympic games would have been a few minutes when I thought, Ross and myself, as we hurried on our way.

**Open With Shrapnel.**  
We had not gotten a quarter of our way across the field when the German artillery, which Belgians had confidently asserted was silenced, opened fire. You have no idea what an annoying shrapnel is when it explodes in your immediate vicinity. You feel as if you would like nothing in the world so much to be suddenly transported to the Central News from Copenhagen says that Berlin messages received in Copenhagen admit that the chief Austrian army has suffered an absolute defeat, but claim it is retiring in good order.

## GERMANS SHARE DEFEAT.

**Canadian Press Despatch.**  
ROME, via Paris, Sept. 14, 6 p.m.—Reports from Petrograd, received in official channels here, say that the few German contingents who had been in the Austrians in their last encounters with the Russians were so exhausted that they composed scarcely a fight. News received here from Austria says the Austrian army is everywhere rallying and will make a strong stand against a further Russian advance.

## RUSSIANS' SWEEPING VICTORY.

**Canadian Press Despatch.**  
LONDON, Sept. 14, 10.05 p.m.—A despatch to the Central News from Rome says telegraphic advices received there from Petrograd are to the effect that the 17 days' battle of the Russians against the Austro-German forces ended with the following result: "Prisoners taken 180,000, field guns captured 460, fortress artillery captured 1000 pieces, transport wagons taken 4000, and aeroplanes captured 7."

## GERMANS SHARED DEFEAT.

**Canadian Press Despatch.**  
LONDON, Sept. 14.—All the news coming in today seems to confirm the Russian reports that the Russians have inflicted another crushing defeat on the Austrians, who, on the right, were supported by some German divisions. By the capture of Tomaszow the Russians drove a wedge between the Austrian army, which had invaded Poland as far as Opole, Krainostav and Zamosc, and the army which they defeated at Lemberg and which, although it lost heavily in killed, wounded, prisoners and guns, managed to reform to some extent and undertake the offensive.

The Germans, who reinforced the Austrians, according to latest advices, shared in the defeat. They are trying to reach the fortress at Przemysl, and the rear guard is endeavoring to keep

formed into a woodchuck with a convenient hole to hide. "When we were half way across the field, two Belgian soldiers came up from a trench with leveled rifles and shouted, 'Holt, hands up.' It was a fine place to be held up and cross questioned with German rifles making as much racket as fire works on the fourth of July evening. The invitation, extended by the soldiers being very urgent, however, as we saw a good would not take no for an answer, we advanced with hands above our heads, wondering whether we would get a Belgian bullet in front or a German shell in our back. As we saw a good enough for them to recognize us, the soldiers exclaimed 'Oh! it is the Americans.' It felt explained any madness suggested, possibly that we had better make for the shelter of a row of cottages in the rear, we enthusiastically agreed with him and started on the run. Again shrapnel was now bursting a dozen to the minute and as all three of us were thirsty, I decided that it would be an excellent idea to see if we could get into the wine cellar of the nearest farmhouse.

As we approached two sentries came running up. "Keep away from that house," they shouted, "the man who lives there is crazy drunk, he is up stairs with a rifle shooting at everyone he sees." "I call that damned inhumanity of him," remarked Thompson, as a shell burst with a crash and the adjacent barn went up in a cloud of brown smoke.

**Fired on Red Cross Flag.**  
We had not chosen, but make a dash for the car. As we came in sight of the machine a shell burst within thirty feet of it, demolishing the entire front of the house in front of which it was standing. The Red Cross flag over the convent was evidently proving the safeguard we had supposed. I hope nothing happened to those men. They were very sweet and kind and were caring for a number of little children. I suppose it actually did not take more than three seconds to crank the car, but it seemed like three hours. KOENIGSBERG IN GRAVE DANGER

Fall of City in East Prussia Will Hit Hohenzollern Dynasty Hard.

Canadian Press Despatch. LONDON, Sept. 14.—A Petrograd despatch to The Daily Telegraph says: "Summing up the latest official reports, it appears that the left and centre of the enemy were totally routed, while the right on the Rawa-Ruska-Dnester line is still maintaining a desperate resistance in the hope of covering its retreat and preventing a disaster from developing into annihilation."

GERMANS HOPE TO CAPTURE ANTWERP

Huge Siege Guns Counted Upon to Demolish Formidable Fortresses.

Canadian Press Despatch. LONDON, Sept. 14, 4:08 p.m.—In a despatch from Antwerp the correspondent of The Evening News says: "According to the German commanding officer from Aerschot, who is now in prison here, the Germans firmly believe that the Antwerp forts are no match for their 17-inch siege guns, of which he says they have 50. The range of these guns is about six miles, and each piece can be fired only 20 times. While confessing that the Germans are unable to spare enough men to invest Antwerp, this officer says he believes the siege guns will enable them to take a couple of the forts, thus giving access to the city. As a bombardment would be destructive to Antwerp, such action is not contemplated, because its harbor is too valuable an asset for Germany."

INDIAN "REVOLUTION" WEIRD INVENTION

German Legations Continue to Spread Utterly Baseless Reports.

Canadian Press Despatch. WASHINGTON, Sept. 14.—The British foreign office today cabled to the British embassy here an emphatic denial of the report of a revolution in India. The despatch says: "The story of a revolution in India which has been given out by German legations in certain capitals is a sheer invention. The enthusiasm in India with regard to the war is most striking. All native princes, political organizations of all parties, as well as the general population are offering striking proofs of their loyalty to the British Empire; offers of military and financial support have been made and are being gratefully accepted by his majesty's government. Additional evidence is received daily of the loyalty of the princes and public."

TRADING VESSELS TO MAKE DECLARATIONS

French Authorities Make Regulations for Ships Entering French Ports.

Canadian Press Despatch. BORDEAUX, France, Sept. 14.—The official journal has published a ruling of the minister of marine which requires that every trading ship entering a French port make a declaration to the military authorities, setting forth the nationality of the ship and the citizenship of her passengers and crew. This is in order that steps may be taken for the transportation of aliens. Ship captains failing to make this declaration will not be permitted entry and will be regarded as coming with hostile intentions.

Belgian Wire Tappers Learned That Enemy Was Short of Artillery in Louvain.

Special Direct Copyrighted Cable to The Toronto World. AMSTERDAM, Sept. 14.—During the battle which preceded the reoccupation of Aerschot soldiers under the command of a Belgian sergeant succeeded in tapping German wires to the quarters of the Germans in Brussels. "The Germans in Louvain telegraphed: 'We are being attacked. Send aid quickly.'" "Brussels replied: 'Ask assistance from Richeim and Scherpen Neuvil. Have more guns.'" "Another telegram from Vilvro code said: 'No more guns here except two batteries, which we are sending you.'" "The German left wing between Moolby and Louvain prepared cemented entrenchments but the Belgian heavy guns easily shattered them."

Koichi Fujii Goes to Prison Following His Conviction on Charges of Bribery.

Special Direct Copyrighted Cable to The Toronto World. LONDON, Sept. 14.—Vice-Admiral Koichi Fujii was sentenced today to serve a term of four years and six months in prison following his conviction on charges of bribery in connection with the naval corruption scandal of last year. He was formerly Japanese naval attaché at Berlin. He was tried before a court-martial last February on the charge that he received illicit commissions for influencing the allotment of admiralty contracts in favor of a German firm.

SERVIAN ADVANCE PRESSED FURTHER

Victory at Semlin is Actively Followed Up, Says Official Statement.

Canadian Press Despatch. LONDON, Sept. 14, via London, 5:10 p.m.—The following official statement was issued here today: "On our northern front, after taking Semlin, our troops still continue successfully to pursue the offensive. "The hurried nature of the flight of the enemy at Semlin can be estimated by the quantity of provisions, equipment, arms and ammunition and other war material found in the town. Our troops were received with indescribable enthusiasm in Semlin. A Te Deum was sung for the victory of the Servian army. The railroad as far as the station in Belgrade has been repaired and is ready for use in the transportation of troops. "A continuous artillery duel is taking place on the northern front."

BRITAIN INVESTIGATES ALLEGED ATROCITIES

But Premier Asquith Says No Official Information Has Been Received.

Canadian Press Despatch. LONDON, Sept. 12, 3:23 p.m.—Premier Asquith told the house of commons today that no official information had reached the ministry of war concerning the repeated stories that German soldiers had abused the Red Cross flag, killed and maimed the wounded and killed women and children, as had been alleged so often in stories of the battlefields. He added that this subject was under consideration and that an inquiry was being made.

AUSTRIAN ARMY STILL RESISTING

Left Wing Probably Caught in Trap—Russians Retire in East Prussia.

Canadian Press Despatch. LONDON, Sept. 14.—Despatches from many sources, including Vienna, indicate that the Austrian army in Galicia is in sore straits, but the story of its complete destruction is evidently exaggerated, as the latest Russian reports indicate that Gen. Ruzsky's forces are still meeting with organized resistance. It is evident, however, from the disposition of the combatants that the Austrian centre was crumpled up, while the left wing was hurled back into the marshes of the River San. This left wing, composed of the flower of the Austrian troops, may be caught in a trap, making unconditional surrender their only alternative. The official statement, given out in Petrograd, says that Gen. Rennenkampf, in East Prussia, is stubbornly retreating before a superior force, rather than risk the turning of his left flank by the Germans.

SOLDIERS USED CORK TO BLACKEN FACES

"You Should Have Seen the Germans Run," Said a Wounded French Fighter.

Special Direct Copyrighted Cable to The Toronto World. LONDON, Sept. 14.—Incidents of the recent fighting in France between the Germans and the Anglo-French troops, related by members of the French light infantry passing thru Paris today, show that the Kaiser's troops have a mortal fear of the black soldiers brought from Africa to fight with the allies. Taking advantage of the Germans' timidity in the respect, the white French troops blackened their faces with burnt cork to make themselves look like the dark skinned warriors. "You should have seen the Germans run the next day, when we charged them, uttering fearful shrieks," said one of the soldiers who had blackened his face. "They took us for real blacks."

MOORS WERE ROUTED BY SPANISH COLUMN

Spaniards Lost Five Killed in Fight at Abd-el-Homan.

Canadian Press Despatch. MADRID, Sept. 14.—It is officially announced that a Spanish column, commanded by Gen. Silvestre, inflicted a severe defeat, with heavy losses, upon a force of Moors at Abd-el-Homan. The Spaniards lost one officer and four soldiers killed, and two officers and 25 men wounded. Communications between Larache, Tangier, and Tetuan are now assured.

COMMITTEE AT PARIS TO CARE FOR BELGIANS

Canadian Press Despatch. PARIS, Sept. 14.—There has been organized in the French capital a committee to care for Belgian refugees under the name of Committee Cirque de Paris. The aims of this organization are: To reunite those families who have been separated; to endeavor to improve the health of refugees sent to the provinces and to see that they get better food, and after the end of the war to help in the restoration of those homes which have been destroyed. Among those working with this committee is the Grand Duchess Zenia, sister of Emperor Nicholas of Russia.

"The Battle of Teutoberger Forest"

Augustus Caesar sent one day three legions of his veterans under Quintilius Varus into Teuton Land. "Go, scourge me these yellow-bearded barbarians!" he cried. "Come back a conqueror, or show me never your face again!" So forth fared Roman Varus into deep and narrow valleys, through dark and fearsome woods, o'er steep and rugged mountains traversed by icy torrents, till he came to the dark shadows of the Teutoberger Wald.

Varus, like some huge Midgard Serpent, slithering along in quest of prey. And now came swamps and marshes, sunken and sodden with flood-time waters to stop the march of men weighted with weapons and heavy armor. Nor could they go to right or left, for that there came such blinding showers of spear and dart, and fiendish faces all set with flaming beards and savage eyes that glowed with hate.

and downpoured the waters of their wrath upon the invading host—they could make no more fight.

And now was heard the ringing Saxon shout through the forest gloom. Fierce Hermann pressed through the fray into its thick and cheered his comrades on, and bade them to the finish. Then Varus strove no more. Bleeding with many wounds, anguished still greater with defeat of shame, he fell upon his sword, and his ghost passed on. And when the news came to Rome, as in good time it did, Augustus Caesar, in grief and great despair, cried out: "O Varus, Varus, give me back my legions!"

And had brave Hermann not won the fight in Teutoberger Forest that fearful day, there would have been no England—not even the name—and we English and Americans, upon whose people and whose tongue there is no sun that sets—of all our hundred millions could not now count one living soul.

Deep within the forest waited him young Hermann, chief of the Cheruscan Saxons, who, when that morning sun's first rays gilded the glittering lances and flashing armor of the Roman soldiery, kissed farewell his bride, sweet-lipped Thusnelda—and went his way into that day's fierce fighting.

And then passed word from rank to rank that all the wild barbaric host were in their rear, hacking and hewing and cutting like demons, and that none escaped.

Came a little island once more with firm footing and fast, and here huddled together the Roman legionaries and made last stand—all armed with helmet, cuirass, greave and shield. In vain they hurled their heavy javelins; futile and of no use their short, sharp swords. And when at last the angry Teuton gods opened the very gates of heaven

ARCHBISHOP McNEIL CELEBRATED HIGH MASS

Last Rites of Church Performed Over Body of Late Father Rohleder.

Testimony to the warm place held in the hearts of the priests and people of the archdiocese by the late Rev. Francis F. Rohleder was given during the funeral obsequies yesterday morning when St. Joseph's church in which he had ministered as parish priest for the past six years, was all too small to accommodate the numbers who crowded its nave.

The church was heavily draped and the sanctuary and seats fronting the chancel were filled with between sixty and seventy ecclesiastics from the city and outside.

Archbishop McNeill was celebrant of the mass and was assisted by Rev. Dr. Treacy as deacon and Rev. Father Walsh as sub-deacon. Very Rev. Dean Hand was assistant priest and Rev. Father Joseph, Rev. Dean Harris, an old friend of Father Rohleder, preached the sermon, in which he outlined the life of Father Rohleder when as a young man, he had ministered to the country parish of Brock, enduring all the hardships of long travelling on bad roads and doing much heroic work in the performance of his sacred office.

An impressive moment in the service was during the singing of the "Libera" when the concourse of white surpliced priests holding lighted tapers surrounded the open bier before the altar and the archbishop pronounced the last absolution. The pallbearers were Rev. Father Sullivan, Thorold; Rev. Father Coyne, Toronto; Rev. Dean Morris, St. Catharines; Rev. Father Cambing, Rev. Father Murray, C.S.B., Rev. Dean Moyna, Barrie; the chorists of St. Joseph, Christian Brothers, Loreto, Erecius Blood and Carmelites were all represented, as were also the separate school board and children of St. Joseph's parish, and Father Dollard officiated at the grave.

TOUCHED LIVE WIRE.

COLBORNE, Sept. 14.—Some of the village boys have recently been enjoying the stunt of climbing up the ladder on the side of the water tank and touching electric wires passing above them. Joseph Rood was one of the boys who touched a live wire with one hand, while with the other he touched the water at the tank brim, making a short circuit. His hand was burned across the palm and the tips of his fingers and he was unable to let go. He took his feet off the ladder and the weight of his body loosened the grip and he dropped to the ground. His injuries are not serious.

HIGH SCHOOL WILL COST THOUSAND FAMILIES SLIGHTLY OVER MILLION ALREADY CARED FOR

Quarter-Million Dollars to Be Spent on Equipment for Technical Centre. Canadian Patriotic Fund Has Distributed Money in Montreal—Toronto Cheques This Week.

The first cheques from the Canadian Patriotic Fund to the wives and families of volunteers at the front, arrive in Toronto this week for distribution. To arrange a proper system for the local branch of the larger organization, B. Ames of Montreal was in conference with Sir John Gibson and Sir William Mulock for some time yesterday. He stated that the payment made at Ottawa was arranging to send along the first cheques on the 20th of the month, and also that the organization manage its own affairs, the federal office acting only as a centre of activity, in cases where enough is not subscribed to meet the local demand, the larger office will take charge.

In Montreal 1000 families have already benefited. This number includes the dependents on 372 French reservists. The standard established allows a woman with three children \$45 per month. On that basis, counting the government's separation allowance of \$20 monthly, \$150 is advanced from the fund fortnightly. In addition an allowance operating in cases of illness.

NORTH RAIN SOAKED FIRE PERIL PASSED

Government, Therefore, Called in Rangers Ahead of Usual Time. In answer to questions concerning the calling in of the Ontario Government fire rangers on Sept. 15, it was stated at the department of lands, forests and mines that evening that the reason of this action was because the forests were so thoroughly water-soaked that all danger of fire was past. There had been so much rain in the past few weeks that it was impossible for any fire to make headway. As it is, the men are called in only two weeks in advance of the usual time.
