Laurier and Borden Confer on Supplies

Need of Money to Carry on Business of Country Forced Premier to Take Step—Not Likely to Agree on More Than Enough for Month at a Time.

SESSION MAY LAST WELL INTO SUMMER

OTTAWA, March 29.—(Special.)—The government, by reason of the dilatory tactics it has pursued, was compelled today to make advances to R. L. Borden, leader of the opposition, looking to the passage of a percentage of the estimates of the fiscal year, which commences on Saturday, sufficient to permit the carrying on of the affairs of the country. While it is possible that the opposition will accede to the request, the amount granted will not be by any means as large as that suggested by Mr. Fielding, and it is probable that the opposition will rely only to the extent of permitting the passage of sufficient supply to carry on the nation's business to the end of May.

BORDEN STAYS

OTTAWA, March 29.—(Special.)—R. L. Borden will remain at the head of the Conservative opposition at Ottawa. The crisis in the affairs of the party has been passed, and the intended resignation has not been handed in. It is now well-known that Premier Borden and Hon. Robert Rogers will enter the federal parliament at an early date to assist Mr. Borden, and this influx will be a great strength to the party.

Southerners Are Sure We Want to Be Annexed

Reciprocity Agreement Has Convicted Them of This—Opinion of Leading Business Men.

MONTREAL, March 29.—Ald. James Robinson, who has just returned from a 25 days' visit to the southern states, today said: "The south is perfectly satisfied that Canada today wishes to be annexed to the United States. For years the idea has been prevalent, but the reciprocity agreement makes them positive that we are anxious to be taken into the union. I do not speak of the unthinking classes, but rather of the leading business men. I had occasion to come home by way of Washington, where I called upon my daughters, who are at college there. One of the professors, upon being introduced, at once asked me: 'What about annexation of Canada, to the United States?' 'I asked him if he was serious, and he replied in the affirmative, and then I made it very plain that neither he nor his descendants would ever see the Stars and Stripes floating over Canada.' Asked for his opinion, as a business man, regarding reciprocity, Mr. Robinson said: 'It is all rot. There is not a single proposition in the whole treaty that could do the Dominion, as a whole, any good. It is all very well to quote Sir John A. Macdonald, 30 years ago, as being in favor of reciprocity, and then using this as an argument for the present proposition. The situation has changed. There is not a Canadian outlet that has not a market without giving away anything to the United States. As far as my business is concerned, it would not be affected in the least, but I see many instances in which it would be disastrous to the business interests of Canada.'

Fernie Mines Will Be Closed on Saturday

Meeting of Men Endorsed Attitude Taken by their Representatives at Calgary Conference.

FERNIE, B.C., March 29.—A mass meeting of the Coal Creek and Fernie miners was held in the Grand Theatre here this afternoon, which was attended by over 800 men, who packed the building to the doors, and two or three hundred men were upon the steps. The meeting endorsed the attitude taken by their representatives at the Calgary conference, thus making it certain that the mines here will be closed down on Saturday. The same action was taken last night at Hosmer, and a meeting at Michel tomorrow is expected to do the same. The men seem united, and the operators refuse to go farther, so that it looks like a stoppage of work for some time. J. N. McEwen, fair wage officer of the department of labor at Ottawa, is in town, but is taking no part so far in the proceedings. Some men are leaving the camp, and this exodus will increase as soon as the mines are closed.

AN AGED MURDERER

INDEPENDENCE, Kas., March 29.—A. A. Trubick, 70 years of age, a wealthy business man of Casey, Kas., to-night was found guilty of murdering J. D. S. Nesley, a millionaire oil operator, of Lima, Ohio. The verdict was second degree murder.

Shoe Fitters Strike

Twelve fitters in the employ of the Hewit & Son Shoe Company, at 88 Tealway street, are out on strike, and state that they intend to show their resentment at the attempt of the firm to reduce their wages from six to four cents per pair. The men are foreigners and not union men. There are about sixty other workers, all union men, and not affected.

TWO PHENOMENAL CAMPS

H. W. Hardinge, the eminent mining engineer of New York, whose profession has called him into all the great mining centres of the American continent, was in Toronto yesterday on his return from a second visit to Porcupine. He was one of the first well-known mineralogists to realize the importance of Cobalt as a silver camp, and speaking of Cobalt yesterday he said that it was greater than ever, and for years and years to come would be the greatest producer of silver for its area on the American continent. In regard to Porcupine, he said he had been up there last year, and he regretted that his knowledge of mining had made him dubious with reference to gold in Canada, and his attitude was that of the "Man from Missouri." Now his attitude is that of the "Man from Porcupine," and while he could say that Cobalt was phenomenal in the experience of any engineer who had examined it, he was becoming more and more convinced that Porcupine as a gold camp was also to be phenomenal, and was destined to attract the attention of the world at large. He left last night for Montreal, and from there he would go to Cuba on a special mission, but he had seen enough of Porcupine to make him anxious to get back there again as soon as he could.

MONSTER FUNERAL FOR 143 VICTIMS OF FIRE

150,000 Persons Expected to Join in Procession, Which Will Pass Scene of Disaster.

NEW YORK, March 29.—Arrangements for a funeral demonstration in which 150,000 sympathizers will be asked to join; identification of four more bodies, leaving but sixteen now unnamed; the swelling of the relief fund to nearly \$50,000, and the effort of the district attorney's office and the fire marshal to fix the blame, were activities which followed Saturday's fire horror to-day.

It is proposed to draw the bodies of most of the 143 victims thru the streets by a chorus of 70 singers from the Jewish Chorists' Union, followed by the 600 surviving employes of the Trianglone Waist Company, and as many sympathizing workers as can be induced to join.

The United Cloak Makers' Union has asked that all of its 70,000 members march in the procession, and according to the plan made to the police to-day a line of 150,000 can easily be formed if the authorities will permit it. It is suggested that the procession pass the morgue by the Washington-place building, where the fire occurred. Jewish victims will be interred in Mount Sinai Cemetery; the few Italians and others elsewhere.

ON STRICT PARTY VOTE

HALIFAX, March 29.—At midnight a vote was taken in the House of Assembly on a resolution favoring the reciprocity agreement negotiated by Messrs. Fielding and Paterson at Washington and commending them for their efforts on behalf of that measure. The debate extended over three days. An amendment was moved by the Conservative opposition that there had been no mandate from the people for reciprocity and expressing the opinion that the coal interests of Nova Scotia would suffer from the proposed reduction in the duty on that article. At midnight the amendment was voted down and the resolution carried by a strict party vote in a full house.

C. P. R. WRECK AT BYNG INLET

Ten Freight Cars Off Track Cause Serious Delay to Traffic.

As the result of the derailment of a freight train near Byng Inlet, on the Sudbury line, the Canadian Pacific train from Winnipeg, which should have arrived at 3.10 yesterday, had not arrived up to an early hour to-day. C. P. R. officials were reticent as to the nature of the accident, the most that could be gathered being the statement that ten freight cars had jumped the track, thus holding up the passenger. Last night's train for the west went out as usual, and it was stated that arrangements had been made that would enable it to get thru.

WISHART IS INNOCENT

Secular Animosities Said to Have Inspired Charge of Theft.

Arrested in Toronto at the request of the Irish police, Abraham Wishart, executive of the Royal Irish Constabulary, was held here a considerable time awaiting surrender to the English authorities. Taken back to face a charge of theft of \$1.50, he was arrested weekly and remanded and re-manded to jail. He has now been acquitted of the charge and the feeling of the populace was such that bonfires were lighted in his honor at the event. It is believed that religion entered into the matter deeply. The charge was laid by a Catholic and Wishart is a Protestant.

Rumors of War

ST. PETERSBURG, March 29.—A rumor was current to-night that the Chinese had surrounded and were attacking Blagoveshchensk, capital of the Amur Province, on the Amur River, in Asiatic Russia. The rumor is without confirmation. Blagoveshchensk is situated close to Manchuria. It is cholera infected, and some trouble has arisen between the Russians and Chinese over the epidemic and quarantine measures. This town was unsuccessfully attacked by the Chinese in 1900, during the Boxer trouble.

FOUR FORGERY CHARGES AGAINST MRS. McEWEN

Woman is Alleged to Have Made Use of Cheques Signed in Blank.

Mrs. Barbara McEwen, 30 years, 128 Sackville-street, was arrested yesterday by Detective Newton. She is held on four charges of forgery. The total amount involved is about \$200. It is alleged that in some way she became possessed of thirteen cheques from a book in which James E. Doyle, grocer, 142 Parliament-street, had signed all the cheques in blank so that his clerk might pay out money. These she cashed at intervals at the bank upon which they were drawn, \$100 in the amounts. The woman admits cashing the cheques, but denies that she filled them out. She says this was done by another party. The cheques were drawn in favor of and endorsed in the name of W. Pennick.

TRIED TO END HER LIFE

Mrs. Ethel Kilne Took Bichloride Tablets, But Will Recover.

Crazed with drink, Ethel Kilne, 25 years of age, living at 3 Alice-street, swallowed five bichloride tablets, an antiseptic, at 12.30 this morning. A man rooming in the house found her and rushed into the street to summon aid. The police ambulance was called and she was removed to St. Michael's Hospital, where, after working over her for some time, the doctors decided that she was not in a critical condition and will recover. It is said that her attempt to end her life followed a quarrel with a man friend. She was intoxicated.

Hon. Mr. Brodeur states that with the many advantages set forth by the board of trade some of the firms who tendered to Quebec as the scene of operations, and the minister states he will be very happy to have the choice endorsed.

ALBANY'S CAPITOL BURNED.

ALBANY, N.Y., March 29.—Fire-drenched, smoke-strewn and water-soaked, New York State's magnificent \$7,000,000 capitol stands this morning a partial wreck by flames that started in the assembly library, burned away the entire west wing, and did damage estimated at between \$5,000,000 and \$7,000,000 before the flames were declared under control.

CANADA'S INNINGS

ANTWERP, March 29.—The diversion of European emigration from the United States to Canada is said to be serious, affecting the Atlantic steamship lines. The Red Star to-day gives up to the American Canada line two of the best special emigrant steamers afloat, the Gothland and the Samland. These vessels, heretofore in the Antwerp-New York service, are now to be operated from Rotterdam to Canadian ports. There are now 1200 emigrants bound for Canada held up here by a lack of transportation facilities. There is a proportionate decrease in the emigration to the United States.

MAY ENLARGE ENQUIRY TO PROBE COAL CONTRACTS

Sturgeon Stewart and Parkdale Meth. Church

During the Levee enquiry on Tuesday, Sturgeon Stewart, formerly secretary-treasurer of the Sloum Medicine Co., asserted that he had been compelled to leave Parkdale Methodist Church, of which Rev. W. B. Caswell is pastor, because Mr. Levee made defamatory statements about him. Last night the trustees of the church unanimously adopted the following statement: "In regard to the matter of Mr. Sturgeon Stewart and his relationship to the Parkdale Methodist Church, we beg to state: "1. That Mr. Stewart's relationship to our trustees board was in no way whatsoever influenced by any statement of Mr. L. S. Levee. "2. That the pastor always acted in the matter of his resignation in the full knowledge of, and with the unanimous assent of, the board. "3. That the board unanimously requested his resignation on their own responsibility. The secretary of the board so informed Mr. Stewart and the latter was, furthermore, urged to resign by the recording steward. "Signed on behalf of the board, 'Jas. M. Redmond, Secretary.'"

Private Detective in Employ of Coal Company Alleged that Trustee Levee and ex-Trustee Smith Got Commissions From Rival Firm—Investigation Into Stock Sale Concluded.

A new sensation was sprung in the Levee investigation yesterday afternoon, which may call for special consideration by the board of education, to see if the scope of the enquiry shall be broadened to take in the conduct of ex-Trustee W. H. Smith, in conjunction with Chairman Levee, in connection with allegations that they were acting as agents for the Connell Coal Company while the school contracts for coal were being considered. Alf. Rogers of the Elias Rogers Coal Company was the witness who opened the blinds on this matter. He told of having tendered on hard coal, although his figure was from 25 to 35 cents per ton lower than the Connell, the latter was awarded the contract. He had been unable to get his bids accepted for the past five years, and to ascertain why it was he had engaged a private detective named Mamama, of Chicago, to ferret things out. The investigation, so far as the solicitations of the Sloum Medicine Company amongst teachers are concerned, concluded at 6.15 last night; but Judge Winchester announced that he would not make his report until the board of education shall have had an opportunity to decide what it intended to do with regard to the coal case. J. R. L. Starr, counsel for Mr. Levee, interposed that it should be treated as a separate matter; but his honor declared that it should come up in the present case if the board of education deemed it worth investigating. Thirty-five witnesses were examined yesterday, including Inspectors Hughes and Chapman, Secretary Wilkinson and Superintendent Bishop of the board of education. Levee on the Stand. Mr. Levee was put on the stand for a brief minute and replied to Mr. Drayton that he had sold stock to teachers as an absolutely business transaction, and it had not made any difference and could not make any difference with him whether teachers took his stock or not, insofar as his attitude toward them as trustee was concerned. H. Gagnier, proprietor of the journal that published the articles about Mr. Levee, was the last witness. Mr. Starr went after him for having referred to Mr. Levee as chairman of the board of education, when the data contained in the article of Jan. 24 had been collected before Mr. Levee was appointed to the chairmanship. Mr. Gagnier had to admit that he did not know of any shares having been sold to teachers after Mr. Levee became chairman. "Assuming, then, that no shares had been sold after Jan. 1, how did you come to drug him in as chairman?" "We had no desire to hurt Mr. Levee personally." "Then, why did you distribute 200 copies in his ward?" "Because a customer ordered them," replied the publisher, "but he couldn't tell the customer's name." "Who distributed them?" "We did." "Has this customer of yours paid for them yet?" "No; but I presume he has the bill." After some cross-examining Mr. Gagnier said he had no objection to publishing a statement that Mr. Levee had not sold any shares since he became chairman, if he could be convinced it was a fact; but he insisted that it could not be called a retraction, and he would retract nothing. He had considered the article in the public interest, observing the discipline of the schools was wrong and the gossip that teachers were investing in patent medicine stock was harmful. Mr. Starr put a hypothetical question. Sir Edmund Walker was once a member of the board of education, and would it have been harmful for a teacher to deposit her savings in the Bank of Commerce there? "No; but there is a difference between the business. I am particularly opposed to the consumption cure end of the business." Then Mr. Starr asked if a doctor, lawyer or insurance man were on the board of education. Continued on Page 2, Column 4.

ENGLISH BIBLE BOND OF UNION

Tercentenary Celebration in London Brings Eulogies of Arbitration Movement—Suffragettes Disturb Meeting.

LONDON, March 29.—At a great meeting of churchmen and statesmen in Albert Hall this evening to celebrate the tercentenary of the revision of the English translation of the Bible by a commission which completed the so-called King James version in 1611, Premier Asquith and Whitelaw led the principal speakers, seized the opportunity to eulogize the arbitration movement. Suffragettes interfered with the proceedings, and when the prime minister began, the unfurled banners bearing the inscription: "Votes for Women." The banners were torn up after a free fight. In his address Mr. Asquith said: "The English Bible belongs not only to the subjects of King George, but to the whole English-speaking world. One of the truths which has been slowly realized, and which now I firmly believe is rooted in the faith of Christian men and women on both sides of the Atlantic, is that war between English-speaking people would be not only a crime against civilization, but an unforfeitable breach of the few commandments which are enshrined in the New Testament, on which both nations have been bred. An appropriate monument. There surely could not be a more worthy, a more appropriate, a more splendid monument to this tercentenary year than that it should witness the sealing of a solemn pact between us which would put an end, once for all, to the hideous and unthinkable possibilities of fratricidal strife."

Speaking of how the Bible furnished the strongest and most indestructible bond for the present practical unity in the aims and aspirations of the English-speaking family, Ambassador Balfour said: "While that community of aims and aspirations endures, starting as it does from our common possession and use of this book, and supported by the same language, the same common law, the same parliamentary institutions, the same civil rights and largely the same blood, it is the greatest single guarantee for the peace of the world."

"In fact," continued the speaker, "from the men and from the peoples hurtured on the precepts of this book, and mainly this version, came the recent statesmanlike proposal of the President of the United States and the inspiring response of King George, thru Sir Edward Grey, which promises to make war as a settlement of any dispute henceforth between any English-speaking peoples impossible, and between any other civilized nations discreditabile."

The ambassador concluded by reading President Taft's letter. WASHINGTON, March 29.—Felicitations on the Bible tercentenary ceremony at London to-night were expressed in a message sent thru Ambassador Field by President Taft, dated March 27, as follows: "To the tercentenary celebration of the publication of the King James version, Royal Albert Hall, London, Eng. It affords me very great pleasure to express thru Mr. Field my congratulations to those who in the mother country are commemorating so signal and historic event as the publication of the Bible. THOUSAND MORE IMMIGRANTS.

Over a thousand emigrants from the old country came in at the Union Station yesterday. There were 250 on a C.P.R. train at 9 a.m., another lot of 400 arrived by the C.P.R. at 7.45 p.m. The 3 p.m. G.T.R. train brought in 350 immigrants, who came over on the Allan liner Ionia. The majority of these went thru to points in the west.

# As to Friends Old and New of THE NEW OAK HALL

HE is our best friend who promptly calls attention to our shortcomings, instead of overlooking them, or worse still, accepting them as representing our attitude to our customers.

When a man doesn't do this kindness, he is more apt to quit us than not, with the result that one more prejudice is born into the world.

We suppose this happens once in a while, for despite our utmost effort to keep things running straight, a cog will slip here and there.

The man offended will say to himself: "Those folks don't want my trade, I guess, and are so big, of course, don't need it, but I'll get my satisfaction by not spending my money with them."

Quite on the contrary—we do need the business. A customer lost is always to be sorely regretted.

A customer gained never offsets such a loss, even if measured by dollars and cents he might be considered a better customer.

One as much as the other is necessary to our growth, our success.

We must hold old friends and make new ones or our big plan will not work out.

To any old friends who have strayed away, we say: "Come in, even if you have a chip on your shoulder."

Tell us our faults — we will correct them and give redress.

To the rest of the world our invitation is as broad as we can make it.

In the main, it's a question of getting most for your money in goods and service.

So, for whatever cause you are passing us by, turn in the next time, and put us to the test.

As we treat you, you treat us. There's nothing else for a sensible man to do; there's nothing else good merchants can say to get him to do it.

As just one example of what this store can do for you, if you need a Spring Overcoat: We are showing fifteen new shades of the swellest garments ever shown for \$15.00, \$18.00, \$20.00, \$22.00, \$25.00 and \$30.00. Tailored to perfection and fitted to you in 10 minutes. Suit to match them if you want them that way.

### T.E.L. WILL ON MAY 2 DEAL WITH CITY'S OFFER

Notices Sent Out to Shareholders — Prospects Seem to Favor Acceptance.

The meeting of the Toronto Electric Light Co.'s shareholders has been called for April 8, leaving only two days to accept or reject the city's offer. The notices were sent out yesterday morning. This is the adjourned annual meeting, which has been twice postponed, awaiting the action of the city towards the purchase of the plant.

It was rumored in financial circles that the shareholders would have two offers for purchase to consider when assembled, but this was flatly denied by General Manager H. H. Macrae last night. He says there is absolutely no truth in the statement that Sir William Mackenzie is likely to make the company an offer.

### OBITUARY

**Frederick Ferguson.** Frederick A. Ferguson of New York formerly of Philadelphia, died suddenly yesterday in this city, after a comparatively short illness. Mr. Ferguson was well known in Toronto, having spent the greater part of the past two years at the leading hotels here. He was in his 63rd year. He leaves no relatives in Toronto. His brother, G. Alfred Ferguson, died about eighteen months ago. The remains were taken to Philadelphia for interment.

board and passed amongst the teachers would there be anything wrong. "If the teachers sought their services it might be all right." "Then the whole thing resolves itself to the fact that the only thing wrong was the canvassing?" "Yes."

Mr. Drayton: "I think we're all agreed upon that point." "I think, your honor, in view of what he is saying to-day, that there should be some application for perjury in this case," said Mr. Starr, after he had concluded another brief examination of Sturgeon Stewart, ex-secretary-treasurer of the Slocum Medicine Co. Witness' attention had been called to letters he had been sent, and that 27 per cent had been earned on the paid-up capital. Witness thought there was no harm in sending statements so long as he had been paid. Pressed as to the letter, and other letters that bore his signature, he said he did not read them, as they were only form letters, and he was under constraint to sign them.

He was shown a letter, purportedly in his own handwriting, in which it was stated that the writer had every reason to believe that an investment in the stock would pay over 25 per cent. "I don't know," said the witness, "but he looks like his own, but he declines to take the responsibility for the letter." Rogers Bought Stock. Alf Rogers, the Slocum Coal Co. Co., said he had five shares of Slocum stock. His company had been a tenderer for coal contracts with the board of education, but he was not successful until the last four or five years.

Witness had been led to subscribe through Mr. Levee, having told him he wanted two or three men to take a controlling interest in the company; but after looking things over he only took five shares, and he was so that Mr. Levee would not be offended.

Company had at one time been in despair because he could not break in on the business that the Rogers people were doing with the board of education, and that he had decided that the only way was to elect his own trustees.

#### A Real Kingmaker.

The report stated that to this end Mr. Wheeler had learned which trustees would be retiring on a certain year, and he put Smith up and got him elected, or words to that effect. It quotes a subsequent conversation between Wheeler and Smith in the latter's tailor shop, wherein Mr. Wheeler said Smith was to be chairman of the property committee the next year. Smith replied that he could do as much for him on the committee as by being chairman, but Mr. Wheeler was insistent and Smith got the office. Mr. Wheeler, the report went on, had it all planned that Smith was to be chairman of the board this year, but Mr. Smith was noised out at the polls.

#### Rogers Bought Stock.

Alf Rogers, the Slocum Coal Co. Co., said he had five shares of Slocum stock. His company had been a tenderer for coal contracts with the board of education, but he was not successful until the last four or five years.

#### Did Work for Teachers.

Architect Henry Simpson, ex-school trustee, swore that while on the board he had often heard the remark amongst disappointed teachers: "Well, if we had subscribed for stock we would likely have been alright." To Mr. Starr, witness admitted that he had done architectural work for teachers while a trustee; but he would not let that influence him.

#### A Losing Venture.

F. W. King, one time secretary-treasurer of the Slocum Company, said the company was losing all the time. Mr. Levee had personally guaranteed certain stock at 10 per cent, which could not be legally guaranteed by the company, yet the company's funds paid it.

#### Wheeler Within Wheeler.

To Mr. Starr, witness said: "We have reason to believe that there were wheels within wheels that we couldn't control, and it was useless to tender for school contracts."

#### Was Inferior Coal.

Mr. Rogers stepped down, while C. H. Bishop, superintendent of buildings for the board of education, exhibited the tenders. TheConnell Company's figures were \$3.15 a ton, and the Rogers' were \$4.50 delivered in December, or \$4.65 delivered in July. Mr. Bishop said the Rogers' tender was clearly the lowest, but from a test that had been made by the university under the direction of Mr. Campbell, with representatives from the board, and the two coal companies present, the quality of the Rogers' coal was superior.

#### Inspector Elliott said he held no stock.

Inspector Elliott and Chapman also testified. The former denied that Slocum stock was anything to do with his appointment.

#### Mr. Hughes' Investment.

Mr. Hughes' first investment in medicine stock was made through Mr. Levee guaranteeing him 10 per cent. In 1908 he took 10 shares more, and paid \$100 for 10 shares in 1909. Later he invested another \$5000. The last investment was the result of a conversation at the exhibition when Mr. Levee told witness of the change from 10 per cent to 7 per cent. The chief inspector said he had only heard of the canvassing amongst teachers last fall from Miss Simms. He called up Mr. Levee, who replied that he had already warned his agent, and it had been stopped.

#### Inspector Elliott, he had no other reasons for investing than that the proposition looked good.

As to Inspector Elliott, he had recommended him as he would anyone else, because he thought he was the best man.

#### Inspector Hughes objected to Mr. Fraser's calling the nomination of Dr. Embree as a "blind."

When he found the trustees almost unanimous in favor of a local man, he had called to gether four or five trustees to consider it, and they supported Dr. Embree. "I did not ask Mr. Levee to do this against it. I was afraid of him."

#### Trustee Noble, who seconded the resolution calling for an investigation, was asked to define the difference in principle between Levee selling stock and witness selling his brains to teachers whom he might be treating.

"I don't sell them; they're too precious," he replied.

#### How to Choose a Teapot.

The real secret in choosing a teapot is made of silver, crown derby or even the humble but useful brown "mug." Is this: Never buy a teapot with the root of the spout low down in the body of the pot. Let the spout be set high in the body, then you can fill the pot well up without the tea dribbling over, as it never fails to do when having a low built spout close to the teapot's foundation. Far too many fancy articles are made and sold more to stand among chimney-piece ornaments than to brew and pour that welcome beverage which cheers but does not inebriate.

### WESTON.

Local Implement Agent Committed Suicide Early Yesterday.

WESTON, March 29.—(Special.)—Geo. Robinson, a well-known local implement agent, about 43 years of age, and employed around the lively and important house of Henry Cousins, committed suicide at an early hour this morning by shooting himself with a revolving pistol, the result of which was a fatal wound in the chest.

### SCARBORO MEN TO MEET AGAIN.

On Friday afternoon, March 31, at 2 o'clock sharp a meeting of Scarboro farmers and any others who may desire will be held in the Temperance Hall, in Agincourt. The meeting is free to the general public, and while it is not known who will be the speakers it is expected that the question will be handled pro and con. Friday afternoon at 2 o'clock.

### ANTIS ACTIVE IN NORTH YORK.

The opponents of the reciprocity bill in North York do not propose to let the deal go thru by default if they can stop it and a series of meetings are arranged for.

## CAMORRISTS REJOICE

### THINK JUDGE WITH THEM

Severely With Which Disputed Points Are Selected For Explanation Their Ground For Hope.

VITERBO, Italy, March 29.—The entire sitting in the trial of the Camorrista was occupied to-day in the further examination of Zennaro Abbate-maggio, whose testimony was constantly interrupted by the prisoners in the case. The president of the court, Signor Bianchi, interrogated the witness about the alleged "get-rich-quick" operations involving several million dollars. McCaskill hopes to start back with the prisoner within 48 hours. The authorities of Brockton, Mass., where Sheldon, under the name of Charles D. Sheldon, with many assumed names, to Montreal, Canada, where he is wanted for "get-rich-quick" operations involving several million dollars. McCaskill hopes to start back with the prisoner within 48 hours.

### OLD-TIME IMPLEMENTS.

Sale on Mr. Holley's Farm Was Interesting Affair.

Under Threats of Death, CHICAGO, March 29.—Chicago Italians, under threats of death, have contributed \$100,000 or more, it is believed, for the defence of the Camorrista on trial in Viterbo.

### LAMBTON MILLS.

NEW GLASGOW, N.S., March 29.—The management of the Nova Scotia Steel and Coal Company came in for unstinted praise at the annual meeting of shareholders today when the report and accounts for the most successful year in the company's history were presented.

## HOPE TO HAVE SHELDON

### BACK WITHIN 48 HOURS

Quebec Officer Arrives in Pittsburg — U. S. Authorities Will Let Him Go.

PITTSBURG, March 29.—K. P. McCaskill, chief of the provincial detectives of Quebec, arrived here to-night to take Charles D. Sheldon, with many assumed names, to Montreal, Canada, where he is wanted for "get-rich-quick" operations involving several million dollars. McCaskill hopes to start back with the prisoner within 48 hours.

### FEW POPES ARE HUMORISTS.

The list of popes who are also humorists is not a long one, notes an English writer. The famous "Angela," not "Angela," takes us back to the sixteenth century, and there is little or no papal word-play affecting England after that until we come to the nineteenth century, when Pius IX. was always ready in repartee, and had a decided partiality for a pun.

### Under Threats of Death.

CHICAGO, March 29.—Chicago Italians, under threats of death, have contributed \$100,000 or more, it is believed, for the defence of the Camorrista on trial in Viterbo.

### To Be Exact.

"This meat," protested the boarder, "is overdone."

## CITY LOSES BIG MILL

### IF PACT IS CONFIRMED

Bonds Cannot Be Floated Until Issue is Settled—More Civic Autos.

It was decided by the board of council yesterday to defer action on the lease of the Esplanade property to the Alex. Brown Milling Co. until the reciprocity question has been settled. The company has a lease on the property until 1923 and sought to have it extended for 21 years. They planned to increase their business and arranged for the sale of bonds amounting to \$1,500,000. When the results of the reciprocity negotiations were announced their underwriters refused to proceed further with sale of the bonds until it is known how the reciprocity pact will affect the milling industry.

### Civic Garage Needed.

Automobiles for police use and the best means of taking care of them occupied the attention of the board of council yesterday.

## MEMBERS POURING IN

### TO BOARD OF TRADE

First Day's Hustling Campaign Encouraging—Board's Record of Achievement.

The first day of the whirlwind campaign, inaugurated by the board of trade, to add one thousand names to the membership roll proved entirely successful. Before 10:30 in the morning Mr. W. P. Gundy, chairman of the committee, received a telephone message from one of the captains of the sub-committees, saying he had secured ten members already. Similar reports were received during the day from other captains, and it looks as if the wish for thousands will be exceeded before the expiration of the allotted ten days.

Buffalo Bowlers Are Coming Over Strong

To C.B.A. Tourney

BUFFALO, March 28.—To show the Toronto bowlers that their efforts to help along the recent N.E.A. tournament with so big an entry was appreciated by the Buffalo pin knights, a big delegation of the best teams in the city has made arrangements to take part in the Canadian championships, which will be started on Saturday, April 1, and continue for some days.

Up to date the following teams have entered:

Floes Coits; George J. Floes, captain. Blue Ribbons; M. T. Wessler, captain.

Champion Tigers; William Lindner, captain. Heavyweights; Major Ed Beck, captain.

West End floor, the competing teams have been secured, and, best of all, the bowlers will be able to shoot all three events on the same day.

Teams are also expected to enter from the Toronto area.

Championship Basketball.

Great interest is being taken in the coming basketball contest for the Canadian championship on Saturday night on the West End floor.

These two teams always put up a good show, and this will be no exception.

THE FIGHT BY ROUNDS

Carl Morris was Slow, But He Had the PUNCH—Will Improve.

They are still talking of Tuesday's fight at Sappara. Morris is slow. He has a punch, but it will take a large amount of training to put him in a class with any of the leading boxers in the heavy weight division.

Round 1—Both fighters rushed. Morris led off with a hard right swing for the head, but missed.

Round 2—Morris led with a left to the head. Schreck missed a right to the head, and followed it with a right to the stomach and left to the head.

Round 3—Morris was at his man quickly, sending a left to the head and short right to the jaw.

Round 4—Morris missed a left to the head. He then landed a right to the head and received a similar blow in return.

Round 5—Morris sent three rights and lefts to the head, Schreck trying futilely to cover up.

Round 6—Morris missed a left to the head. He then landed a right to the head and received a similar blow in return.

Round 7—Morris missed a left to the head. He then landed a right to the head and received a similar blow in return.

Round 8—Morris missed a left to the head. He then landed a right to the head and received a similar blow in return.

Round 9—Morris missed a left to the head. He then landed a right to the head and received a similar blow in return.

Round 10—Morris missed a left to the head. He then landed a right to the head and received a similar blow in return.

Round 11—Morris missed a left to the head. He then landed a right to the head and received a similar blow in return.

Round 12—Morris missed a left to the head. He then landed a right to the head and received a similar blow in return.

Round 13—Morris missed a left to the head. He then landed a right to the head and received a similar blow in return.

THE EXCLUSIVE BICYCLE TIRE.

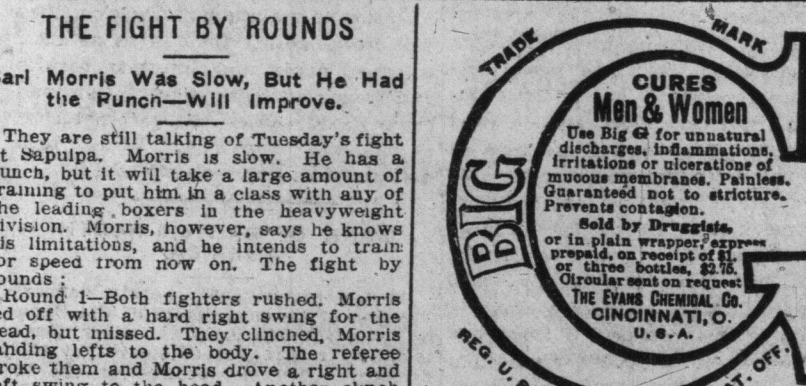

The Doughty Patent Process for making Bicycle Tires is probably the greatest step forward in the tire industry in recent years.

Dunlop Detachable Bicycle Tires are made by the Doughty Process.

This accounts for Dunlop exclusiveness when it comes to durability, resiliency and uniformity.

There is any writing on the wall which you should particularly heed in bicycle tire-buying time.

It is this: "That man is no friend of yours who tries to talk you out of your preference for Dunlop Tires."

**USED FALSE ORDERS TO GET DENTAL GOLD**  
William Simpson Charged With Ingenious Method of Perpetrating Fraud.

Traced by following him from the Temple-Patterson Company's store, where he appeared there yesterday selling dental gold, to which was signed the name of a dentist, William Simpson, 41 East Front street, was taken by two of the company's men to police headquarters, and there located up by Detective Twigg, who was looking for him for two similar offences.  
It is alleged that he is the man who got gold from three firms in this way. On March 23 a messenger appeared at the Temple-Patterson company with a company man, when Simpson called yesterday with a quantity of the gold to sell, he was given a cheque and followed. He was followed to the bank and then taken to headquarters. Three charges of false pretence were laid.

**SCHOOL CHILDREN'S HEARING**  
Stethoscope to Make Tests Arrives—Card Index System.

The stethoscope ordered by the medical inspectors for testing the hearing of school children has arrived, and will be put into use next week. It consists of a very intricate mechanism, by which the acuteness of hearing is shown by the faint tinkling of a bell, graded up to 100 per cent. An attachment also shows the degree of acuteness in the different ears. It will not be used on every pupil, but only on those thought hard of hearing or backward in their hearing. The inspectors and nurses are much hampered in their work. It is expected, however, that these will soon be ready. This card system arranges for a complete record of a pupil's health during his school life, to be kept at the school. One case shows the degree of interest the parents are taking in the work.

**300,000 WHITE SLAVES IN UNITED STATES ALONE**

**Starting Statements as to Widespread Evil by Mrs. Blanche Johnson.**  
At yesterday's session of the Women's Home Missionary Society of the Presbyterian Church Mrs. Blanche Johnson delivered a stirring arraignment of the white slave traffic and the methods of this evil. She attributed the cause of this evil to many sources, such as insufficient pay to working girls, heredity and environment, and brooding over broken hearts and betrayals of trust. She cited many of her own experiences in rescue work, and stated that in the United States alone over 300,000 girls were employed in the country, and that many of the establishments of this kind were in the cities. She urged the necessity of kind treatment and Christian sympathy to the rescued.

**Large value of a helping hand.** said the speaker, "cannot be underestimated. It often stimulates the sense of duty and the sympathetic attitude of the way of temptation. Oftentimes a fallen woman desires to achieve a better life, but the unemphatic attitude of many so-called Christians repels her and she falls back into temptation."  
Mrs. Bell, of Toronto, Mass., followed with a missionary address on her work among Galician children, in which she set forth the many evils and habits of the race, and the great progress made in the work.

**EVOLUTION OF TEETH.**  
An instructive lecture on the evolution of teeth from the earliest animals, by P. A. Saxton, a collector of rare teeth, at the Royal College of Dental Surgeons.

**Removal of the Embargo.**  
J. E. Armstrong (East Lambton) supported the removal of the embargo on the necessity of the government taking steps to have the British cattle embargo removed. He was interrupted several times by E. W. Nesbitt (St. Oxford), who declared that the farmers of Canada did not want the embargo removed, as it would be a source of frequent interruptions being so frequent, the Speaker called Mr. Nesbitt to order.

**He declared that unless the department of agriculture worked to its duty regarding the export trade of the products of the farm, and placed these products in Britain in a condition which would compete with the products of the Argentine, New Zealand, etc., Canada was not going to occupy a position which would do the advantage of the farmers of this country.**

**Canadian and U. S. Wheat.**  
Mr. Fielding told Mr. Sharp (Lisgar) that the United States and Canadian wheat was exactly the same in the Liverpool market. As to the prices in Dakota, he said the market was purely speculative and it would be necessary to get the local papers to obtain the prices there. Quotations from Duluth and Minnesota had not been noted by the department.  
In reply to Mr. Wilcox the minister of public works said that the government had under consideration the establishment of a government dock at Windsor.  
Mr. Fielding was curt in answer to a

**WANTED AGRICULTURE TO GET 10 PER CENT.**

**But House Declined To Devote a Title of Revenues to Farmers**  
—Intercolonial Estimates.

**OTTAWA, March 29.**—(Special.)—Drummond-Arthabaska had its findings in the house to-day. Arthur Gilbert, Nationalist, introduced an amendment to the motion to go into supply calling upon the government to spend 10 per cent. of the annual revenue in the interests of agriculture. The discussion for the most part was in French.

The motion was finally lost on division, and the house went into committee to supply on the intercolonial estimates.  
Hon. Mr. Graham explained that an additional \$90,000 would be required this year on account of a payroll owing to certain salary increases, following an adjustment all around. Notwithstanding the fact that commitments to the system, exclusive of certain amounts to be set aside for retaining rails and equipment, a bill to devote 10 per cent. of the annual revenue to the system, as proposed in the amendment, there was some discussion over the inertia of the traffic department.  
John Stanfield (Coblescook), remarked that the government had not been as enterprising in going after tonnage as the officials of other railways. Stanfield thought the hardest work the traffic officials did was to draw their salaries.

**Dr. Spruille (E. Grey)** asked the minister if it had not been Mr. Gilbert's intention to provide a two-cent mill rate.  
Mr. Graham replied that the second-class rate was so near two cents a mile that there was practically no difference.

**Ten-Tenth Agriculture.**  
A. Gilbert, Nationalist member for Drummond and Arthabaska, introduced a discussion on agricultural topics by moving in amendment to the motion to go into supply a resolution calling upon the government to spend one-tenth of its annual revenue upon the free list of the country, and particularly on the farmers who could receive the benefit of the government's agricultural teachers. Up-to-date methods in connection with the dairy interests of the country, he said, would more than double its value to the country.

**Let's Spend for Farmers.**  
R. Lenoir (L'Assommoir-Napierville) said he could not see the propriety of spending money on any particular branch of agriculture to the neglect of the interests of the farming community. Touching on a reference made by a previous speaker to the necessity for better roads, he pointed out that this was a matter for the provincial governments to attend to.

**Andrew Broder (Dundas)** showed that the resolution was too local to the situation. No man, he said, was standing as much for the farmer as the farmer. But the farmer didn't need to be put to bed with an embargo, and he didn't need to be carried about. The farmer wanted help and instructions. The land would give back abundantly if well treated, and the farmer would be a better citizen if the government would help the farmer in regard to agriculture and better organization in the country.

**He declared that unless the department of agriculture worked to its duty regarding the export trade of the products of the farm, and placed these products in Britain in a condition which would compete with the products of the Argentine, New Zealand, etc., Canada was not going to occupy a position which would do the advantage of the farmers of this country.**

**question by Peter Wilson** as to why wool in the fleece, which is a product of the farm, had not been placed on the free list, the reciprocity agreement. He said: "The item was not one of those upon which an agreement was reached. It might be difficult to determine the reasons which entered into the minds of the negotiators as respects any particular item."  
Hon. Sydney Fisher quoted Hansard to show that in 1899 he had made a proposal to the house to put an experimental station in every county. The opposition had fought the proposal so vigorously that the government was compelled to withdraw the vote from the estimates.  
Haughton Lennox (N. Simcoe) asked if the minister had ever renewed, and the minister said that it had not. Mr. Fisher added that the expenditure should be based on the needs of the country, and that the principle set forth in the motion was a sound one for the fiscal year which will open on April 1, an increased vote being indicated. The opposition was crying for more money, but he did not notice any eagerness on their part to pass the estimates, especially the agricultural estimates.

**DOORS ON ONE SIDE WERE ALWAYS KEPT LOCKED**  
Starting Evidence of Girl Who Survived New York Fire Horror.

**NEW YORK, March 28.**—The grand jury threw into action to-day the machinery for the investigation of the Washington-square fire of Saturday in which 142 lives were lost, by subpoenaing twenty persons to testify in a court of inquiry to establish the facts of the case. The board of aldermen passed the resolution for an ordinance making fire drills compulsory in city factories. Among the witnesses summoned before the grand jury are Max Blank, one of the proprietors of the Triangle Waist Co., whose employees were the victims, and Joseph A. Costello, one of the survivors. They may testify to-morrow. One hundred and fifty survivors of the tragedy also will be summoned and examined.

**The work of identification eliminated from the morgue all but twenty bodies of the victims and scores of funeral trains wended their way thru Manhattan's "Little Italy" and the Jewish section of the East Side.**  
The alderman committee was instructed to draft a bill to the legislature to install and maintain fire escapes on all buildings solely under the jurisdiction of the fire department.

**Two girls who escaped from the eighth floor by running down the narrow stairs made affidavit for the building department this afternoon that the doors on the Washington-square side of the building were always kept locked. To these locked doors they saw most of the girls groped their way thru the smoke and flames to beat in vain against them or turn back to their death. After many had turned away a man opened one of the doors and they escaped.**

ONTARIO RAILWAY BOARD FAVORS SUNDAY CARS

Chairman Leitch Frank in Reply to Objectors Who Would Balk People's Will.

"This is a Sunday car board," was the clear cut declaration of Chairman Leitch of the Ontario Railway and Municipal Board Tuesday afternoon.

John A. Paterson, K.C., made an application on behalf of Wm. Curley of St. Thomas for permission to sue the London and Lake Erie Transportation Company for penalties for operating its line on Sundays.

M. K. Cowan opposed the granting of a reference to the court on the ground of public convenience.

Mr. Paterson: The legal points concerning the right to operate on Sunday cars were rendered the case unique. He wanted it tested thoroughly.

Heavy Pressure on Wheat Options Prices Have Sharp Decline

Weak Wheat Cables and Flattering Crop Reports Are Useful to Bear Operators—Coarse Grains Steadier.

CHICAGO, March 29.—Snow or rain, as it made to order for the new crops, broke the price of wheat to-day to a new low record for the season—the third smash of the kind this week.

Liquidating sales of the May option took the largest share of attention in wheat. Many of the discouraged long traders transferred their interest to the September delivery and thus caused the new crop months to show less depression than May.

During most of the day corn held steady despite wheat weakness, but finally went on the downward track. Wet weather furnished the early strength. Loss of nerve on the part of those who had bought led to the change.

European Grain Markets. Liverpool closed 1/4 to 1/2 lower on wheat, and 1/4 to 1/2 lower on corn, unchanged, and Berlin wheat 1/4 lower.

# Mining Stocks Firm--Apex and Foley-O'Brian Dealt In

## Cobalts Show More Buoyancy While Some Porcupines Lag

### Mining Exchanges Have Well Distributed Orders and Attention is Again Given to Cobalts.

World Office.  
Wednesday Evening, March 29.  
A generally better undertone was experienced in the whole of the mining securities today on all the Toronto exchanges. This was clearly apparent in several of the Cobalt issues which have been under some pressure recently owing to liquidation, and also to growing interest in the new Porcupine issues.

Timiskaming and Beaver were both picked up to-day by those who are looking for bargains, and the latter of these stocks fell well from yesterday's low price, a rise of over four points.

Crown Reserve was the star actor in the Cobalts, reaching at one stage of the business as high as \$2.50, a rise of nearly a dollar in two days. This extreme price was not, however, held, the stock reacting when sales came forward from Montreal. The big buying of this stock is well concentrated in the eastern city, and operations on the local exchanges are due to progressive orders from Montreal.

In the Porcupine stocks the main strength was exhibited in Pearl Lake and Dome Extension, both of which sold up above yesterday's prices.

A resting period is being experienced in such issues as Dobie, Hollinger and West Dome, and there is still a little resting from underwriters in Preston E. Dome which has retained the upward movement in these shares.

A new issue was added to the market yesterday by the introduction of a company which has claims adjacent to the Foster and which is capitalized at \$2,000,000, one million of which is in the treasury. A quotation for the shares was made as low as 24 cents, but there was considerable demand for the stock at 25 cents, and few offerings were available at below that figure.

Today's market was characterized by and on the New York curb at 23 1/2, and some sales were reported slightly above that price.

The market closed in a buoyant attitude, and interest in the Porcupine, particularly the Porcupine, is undoubtedly spreading.

**Phone or Come for these Bargains**

This is a page of red-hot bargains for Friday. You will be more than satisfied with any purchase, as the items from first to last represent value extraordinary.

Phone direct to the departments. We have fifty lines to Central, and your order will receive the same attention as if you give it over the counter. This is a timely remark for our Grocery Department, but no apology is necessary because if unable to offer the same comfortable shopping facilities as usual it is only for the moment. Building improvements have somewhat interfered, but what matter. The Simpson Store is not content to stand still.
