REVOLUTIONISTS TAKE TWO IMPORTANT TOWNS

Area of Chinese Uprising Materially Extended by Capture of Kiang and Sian — Government Has Pessimistic Reports from Other Centres.

PEKING, Oct. 23.—Two important towns, Kiang, in the Province of Kansu, and Sian, capital of Shensi Province, have fallen into the hands of the revolutionists, very materially extending the area of the uprising, disheartening the government and giving new confidence to the leaders in the movement to establish a republic. Sian was regarded as a government stronghold.

Consular reports from Kiang say that the people of that town rose on the evening of Oct. 24. They burned the Tsoai's yamen and declared in favor of the rebels. The imperial troops made no serious resistance. Gen. Yu Tchang, who commands the province, still remains in Sian. He demands reinforcements before taking the offensive, as he has learned, according to his own report to the administration here, that the rebels are abundantly supplied with artillery and have many adherents.

Rebel Fortifications. A steamer from Ichang crowded with Chinese soldiers reached Wu-chang yesterday under a white flag. The rebels, who are considered of the greatest strategic importance, as it commands the railway and river approaches to Hankow.

A messenger from Hankow says that the revolutionists have advanced to a point eight miles north of that city, near to where the imperialists in unknown numbers are entrenched in a position protected by swamps on both sides of the railway.

One of the latest messages from Sian says that the rebels are making overtures to the Mohammedans in the Province of Kansu, which lies to the north of Sian. The Mohammedans have been in open rebellion since August, and the sender of the message believes that the two revolutionary parties will join forces.

In a Serious Position. Kai-Feng, in the province of Honan, is in a serious position because the local officials have practically abandoned the whole place to the soldiers. There have been several clashes between soldiers and police and there is much danger of rioting.

Pessimistic reports are at hand from Soochow, Tai-Nan-Fu and other centres. Numerous soldiers have deserted the Chinese gunboats and joined the rebels.

It is officially reported that no news has been received from the tenth division, which left Ching Tang Tao by steamer on Oct. 17 for Hankow.

Fears are entertained for the loyalty of the garrison at Kiang-Yin, a strong fort on the lower Yang-Tze.

There is no information as to whereabouts of Admiral Sahn's gunboats.

Imperial Successes. SHANGHAI, Oct. 24.—A Chinese official despatch from Yin Tchang, the war minister, reports imperial successes over the rebels on October 20 and 21 at Sinyanchow. The despatch states that the rebels had more than 600 killed while the losses of the imperialists amounted to a few score.

A long letter from General Liyuan-beng to Admiral Sahn, whom the rebel

ANNEX LAND TO BANISH SLUMS

Special Civic Committee Believes in Broad Annexation Policy — Sanitary Evils to Be Attacked.

The report of the sub-committee of the board of health on the report of the medical health officer re the housing conditions in the city was presented yesterday. Discussion on it was deferred.

The recommendation of the sub-committee, composed of Ald. McCarthy and Graham, is substantially as follows: Every home in the city should have an independent and convenient water supply. The classes of water waste should be referred to the board of control to deal with.

Toronto should not permit a single family to live in a place unfit for human habitation.

Steps should be taken to secure for each house a separate closet convenience. When there is sewer accommodation on the street we recommend that the medical officer force them to put in the proper closet accommodation with sewage connection.

There must be no cess pool closets left in this city where there is a possible sewer accommodation.

Dwellings without drains are a menace to the health of the city, and steps should be taken toward forcing proper drain connection.

As for the congested districts of unsanitary, overcrowded dwellings, the sub-committee recommends that the M. H. O. confer with the city collector and submit a housing bylaw. Suburban garden cities are required with rapid transportation facilities at single fare. We require a proper scheme of city planning and to secure control of the area surrounding the city for about five miles, by securing an option on the required districts, or by annexing the necessary territory.

WHERE IS THIS BOY? Little Lloyd MacDonnell Lost on Way to City.

Where is little Lloyd MacDonnell of New Hamburg? He is only 1-2 years old and on Saturday night he left his uncle's house and his whereabouts have since been unknown.

Mrs. MacDonnell, his mother, has been only two days out of a Toronto hospital, where she had been lying ill for some time past. She thinks that her little son, who has been staying with his uncle since she came to the hospital, has attempted to come to Toronto to see her.

The boy was seen in Baden on Sunday night, and he was in Rockwood on Monday. At that time he was riding on the buffers of a freight train coming towards Toronto. Nothing, however, has since been seen of him and his mother is doing her best to locate him. The police are on the lookout here.

EAST ELGIN LIBERALS. AYLMER, Ont., Oct. 24.—(Special)—At a meeting of East Elgin Liberals held here to-day Daniel McIntyre, Yarmouth Township, was nominated to contest the riding against C. A. Brower.

He will take ten days to consider office. Several others were named, but all have withdrawn but Mr. McIntyre. He had twice contested East Elgin in 1888 and 1890. Both times he was defeated by Mr. Brower.

Three Great Attractions. "The Pink Lady" last week, Maude Adams in "Chanticleer" this week and the big London success, "A Butterfly on the Wheel," with beautiful Marie Dorso as the star next week, give the patrons of the Princess plenty of superior entertainment.

Knights of Forceps Met. Over sixty dentists attended the first of the Toronto Dental Society's monthly meetings held in McConkey's banquet hall last night. Dinner was served after which Dr. W. Bush of New York addressed the meeting on a number of business topics of interest to the profession.

HANDICAPPED

SPORTSMAN MACKAY: Aw, what's th' use?

ABOLISH GAS IN HOTELS SAYS CORONER'S JURY

No Personal Blame Attached for Deaths of Five Men in West Toronto Hotel.

"We find that William Allan came to his death by gas poisoning on Sunday morning, Oct. 15, by gas escaping from the adjoining room.

"We find that the men in the adjoining room were under the influence of alcohol and not in a condition to take the necessary precautions in turning off the gas.

"We find also that the other four men came to their death in the same manner.

"We recommend that public houses should be lighted by electricity.

Such was the verdict returned by the jury investigating the death of the five men, Geo. H. Knowles, Sam Eddie, Geo. Williams, William Downes and Wm. Allan found dead in their rooms at the Occidental Hotel, West Toronto, on Sunday morning, Oct. 15.

After hearing the evidence of several more witnesses, the jury last evening were out for a long time before returning their verdict.

Robt. Field, manager of the Lambton Hotel, told the jury that Allan and his son had been in his hotel about noon on the Saturday, and that the other men were in later, but he did not take particular notice of any of them save that he had a short talk on general matters with Mr. Allan, whom he had known for nearly half a century.

Timidity Cost Lives. Bert Patterson told of having gone into the main hall of the hotel about 3 o'clock in the morning and testing the gas there and also of hearing the men talking in their room. He intimated that he was afraid to enter their room to find if the escaping gas was coming from their room.

About 7 o'clock in the evening of Saturday Williams had been conveyed from Lambton to the Junction in Herbert Washington's buggy, but there was no evidence to show where he went afterwards.

Arthur McWilliam and his wife, owners of the Subway Hotel, were questioned regarding the character of their boarding-house and that of Downes, who occupied a room in their hotel. Both the witnesses stated emphatically that no liquor was obtainable on their premises.

Anna Hentszberger, the cook at the Occidental Hotel, Emma Tyler, another employe, and John Moon, who was accustomed to spend his evenings with the five men, but who was spared from their company that night by being arrested for drunkenness, was put in the box, but could furnish the jury with no evidence further than they had already gathered.

Some of the harrowing details were made public when Samuel Verdall, the shopkeeper, was fined \$100 and costs in the police court here to-day, for his share in the battle. Max Chavler, a clothing merchant, who received one of Samuel's bullets in his foot as he sat before his clothing store, was the chief war correspondent. The other bullets went wild, but no wider than Sam or his Swede customer.

Here is the sorrowful story: Yon Yonson entered Sam's fruit emporium. He asked for apples, but Sam thought he was saying things about Italy, which his warm blood and enthusiastic expatriated patriotism, could not

FOUR HUNDRED TURKS KILLED AT BENGHAZI

Number of Wounded Estimated at From 800 to 1200—Aeroplanes Causing Consternation.

TRIPOLI, Oct. 23.—(Delayed in transmission.)—The combined attack of Arabian horsemen and Turkish cavalry against the Italian lines yesterday (Sunday) morning was both picturesque and fierce.

The main attacking force was assisted by Turkish infantry and small guerrilla bands of Arabs, who directed a gallant fire from the shelter of trees.

The Italians withstood the shock and then repulsed the enemy, eventually surrounding and capturing several hundred. The enemy lost several hundred dead and many wounded. The Italian loss was not serious.

Advices from Benghazi say that the Arabian and Turkish losses in the engagement which followed the Italian dismemberment at that place are estimated at 400 dead and from 800 to 1200 wounded.

Aeroplanes Terrify Arabs. ROME via the frontier, Oct. 24.—Messages from the interior of Tripoli say that the reports of "flying Italians" with destructive machines are everywhere causing consternation and terror.

Some of the native tribes have decided to migrate to points further into the interior, while others are buying their valuables in the ground. Bolder tribesmen are devising means to attract the aeroplanes into positions where they can be fired upon.

In military circles it is thought that the aeroplanes are helping to influence the natives to surrender.

SON OF ITALY UNMASKED

BIG LIMBURGER BATTERY Scandinavian Adversary Returns the Broadside, But Flees Before Scattering Fire of Revolver—Wop Shopkeeper Later Pays War Indemnity.

NORTH BAY, Oct. 24.—(Special)—General Sherman knew and said what he thought of war, but even he had little idea of just how much of what he said it was war could be when waged between an Italian shopkeeper and Swede laborer in which the heavy artillery was a fifteen pound cheese in robust health, and revolver bullets together with sundry vegetables and fruits were used as small shot, of which numerous volleys were fired.

Some of the harrowing details were made public when Samuel Verdall, the shopkeeper, was fined \$100 and costs in the police court here to-day, for his share in the battle. Max Chavler, a clothing merchant, who received one of Samuel's bullets in his foot as he sat before his clothing store, was the chief war correspondent. FIELDING MAY YET LEAD OPPOSITION

Graham Boom Has Flattened Out—Plans for Session Are Still Somewhat Vague.

OTTAWA, Oct. 24.—(Special.)—The mantle of opposition leader may after all adorn the shoulders of Hon. W. S. Fielding. The Graham boom has flattened out during the last few days, the Liberal effort to obtain a re-election for the ex-minister of railways in return for acclamations for the Ontario ministers, having been so far unsuccessful.

Mr. Fielding, on the other hand, might not be opposed in Yarmouth and could come back in time for the second session. B. E. Low, who won the Yarmouth seat, cannot resign till there is a speaker, and even then the writ might not be issued at once.

There is no certainty yet as to the duration of the session. The probabilities are for a short session before Christmas, and another beginning in the spring, but many ministers prefer a session extending into the new year, after which a comprehensive legislative program could be arranged.

R. B. Bennett of Calgary will move the address in reply to the speech from the throne, seconded by Arthur Severy of Dorchester.

Dr. Sproule, the new speaker, comes to Ottawa to-morrow and will superintend the general rearrangement of rooms, etc. An army of charwomen has been turned loose in the house of commons.

A cabinet council was held to-day, presided over by Hon. Geo. E. Foster. No appointments were made.

Earl Grey Replies. Earl Grey had a rousing reception on rising to respond. Alluding to his welcome, he said:

"It is a great reward for seven years' constant effort to serve Canada and the crown and I hardly think such a reward is deserved, when the conditions of my governorship are considered. I have said more than once that I believe I have been privileged to occupy the most pleasant billet in the whole empire. It is no ordinary privilege to be in an atmosphere of undiluted optimism and continued new development.

"I feel that, with the shadow of the governorship still upon me, it would be

CANADIANS ALL IMPERIALISTS SAYS GREY

Ex-Governor-General Declares That Even Anti-Naval Attitude in Quebec Is a Temporary Delusion — Makes Reference to Recent Election.

LONDON, Oct. 24.—(C. A. P. Cable.)—The Royal Canadian Institute banqueted Earl Grey yesterday evening. Rt. Hon. Louis Harcourt, colonial secretary, presiding, and Lord Minto, Sir J. Bevan Edwards, the Duke of Marlborough, Earl Carrington, Hon. A. Lytton, Earl Dundonald and Earl Brassey being among those at the head table.

The general body of guests included practically all the leading men in London Canadian circles, the crush being so great that many guests were forced to dine in the anteroom. The total company numbered nearly 300.

Harcourt, in proposing Earl Grey's health, said his departure from Canada coincided with Laurier's resignation. He was quite sure there was no assembly of Englishmen who would wish at this moment to pay a tribute to that distinguished prime minister and express a grateful sense of the great services rendered so many years to the progress and prosperity of the Dominion to which he had devoted his intellect and energy.

No divergences upon the latest policy could detract from the warmth of gratitude felt for achievement of his past career. (Cheers.)

A Popular Governor. Turning to Earl Grey's return, Harcourt said it was no reflection upon his able and distinguished successor to say that Canada would gladly have seen Grey's governorship indefinitely prolonged.

Harcourt quoted many administrative acts for strengthening, solidifying and even extending the Dominion during Earl Grey's term of office. During the last five years the Canadian Government had been in close touch with the Washington ambassador, and through him had negotiated a series of treaties and arrangements of the highest possible value to the amicable relations of Canada and the United States.

"I am not referring at this moment," added Harcourt, amidst laughter, "to the recent reciprocity proposals. I don't think in my official position any advantage would be gained by discussing these circumstances. I had in a few other agreements, which in public estimation have been overshadowed by those proposals. Effectively every outstanding question between Canada and the United States has either been settled or placed in a way of settlement."

He proceeded to say that Earl Grey had witnessed and assisted in the advance of the naval and military protective forces of Canada. During the life of his governorship, he had witnessed perhaps the greatest and most rapid extension of commercial and agricultural prosperity ever recorded in Canada's history.

Harcourt finally referred to the charm and ability displayed by Lady Grey and said: "We welcome Grey back as a great governor, a good fellow and a true friend."

Earl Grey Replies. Earl Grey had a rousing reception on rising to respond. Alluding to his welcome, he said:

"It is a great reward for seven years' constant effort to serve Canada and the crown and I hardly think such a reward is deserved, when the conditions of my governorship are considered. I have said more than once that I believe I have been privileged to occupy the most pleasant billet in the whole empire. It is no ordinary privilege to be in an atmosphere of undiluted optimism and continued new development.

HAMILTON HAPPENINGS

ALDERMAN RYAN RAISED STORM IN COMMITTEE

Compelled by Chairman to Apologize—Union of Radial and City Car System.

HAMILTON, Oct. 24.—(Special.)—The works committee of the city council held an important, interesting and at times, exciting meeting to-night.

Mr. Lees sharply resented the insinuation and declared that he would not appear before the committee again if he was to be insulted in such a manner.

Later in the evening, when the committee was proceeding with machine-like precision with its work, the same alderman precipitated a wordy warfare in which he came out second best.

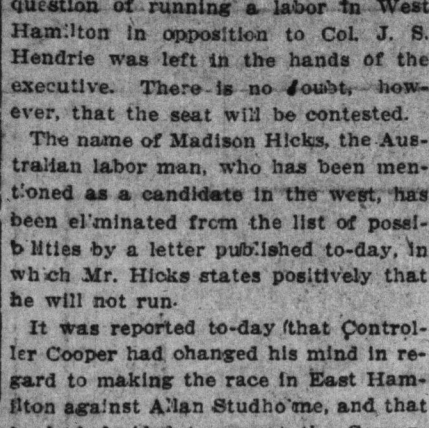

Mr. Lees, however, could not brook the insult to Controller Cooper, and at once arose and demanded that Ald. Ryan either prove his insinuation or apologize.

Chairman Wallace demanded that Ald. Ryan apologize for his remarks, and the alderman, after some further argument and with poor grace, complied with the chairman's demand.

Street Railway Negotiations. The special committee on street railway matters made its report, the most important feature of which concerned the negotiations with the Hamilton Street Railway and the Barton Radial in regard to connecting the two lines.

WHITE ISLANDERS TO PROTEST PHONE RATES

City's Battle on Their Behalf Needs Support, Think Mabees—Win for Stock Yards.

The city asked yesterday that the rate for telephone service that the Dominion railway commissioner had ordered for the city, be enforced at the island.

H. H. Howitt, assistant city solicitor, said his application was based on a petition received by the city council from the people of the island, who had to pay ten cents per call to and from the island.

For the Bell Telephone Co. Lawrence J. Mabees stated that they charged the city rates, plus \$30 for cable charges, and \$5 extra for each quarter charge, and \$5 extra for direct phones. In addition to these direct charges, they installed phones for \$10, with a slot machine attached, that collected ten cents each call.

Chairman Mabees said that when the board in December, 1910, made the flat rate order, the island phone rates were discussed, and therefore the order of that time was not meant to apply to the island.

Mr. McFarland declared the phone company had got no complaints from island phone users.

Mr. Mabees: "The city doesn't always know what individuals want. I'd like to have some evidence about these island charges. Now that the season at the island is over, how would it do if we were to leave this matter over until next February or March, and that will give the people a chance to make complaint."

Stock Yard Phone.

The Union Stock Yards complained that they were not getting fair treatment from the Bell Telephone Co. The phone people objected to others outside of the stockyards employes using the phones scattered about the grounds.

Chairman Mabees was sympathetic towards the stockyards. "What do these people have four telephones distributed about their yards for unless they're for use by others?" he asked of Phone Manager Dunstan.

And as Mr. Dunstan couldn't say why the city stock yards and the Union Stock Yards should be differently treated in the matter of phone service, the board ruled that the Bell Company be enjoined from removing phones in question.

Beyond Delivery Pale.

The Ford Motor Car Co. of Walkerville complained that the express companies refused to deliver parcels to their factory on the ground that it was outside of the town limits.

R. H. Chrysler for the express companies argued that it would embarrass them if they had to deliver beyond municipal boundaries. It would create a dangerous precedent. If the privilege was given to one, they would be charged with discrimination by other concerns.

The application was of the nature of a test case, J. E. Walsh of the C. M. A., pleading for it.

Chairman Mabees observed: "I don't know where it will end if it begins." The board will locally investigate the Walkerville case, and will decide it, and any others that may follow, upon individual merit.

Rate on Coke.

The Consumers' Gas Company asked that the freight rate on coke from Toronto be reduced, as at the present time coke from the States could be sold cheaper in Canada than the home product. Discriminatory freight rates were given as the cause. Judgment was reserved.

A statement will be prepared for the board, showing the demurrage paid on cars since the first of the year by all shippers. This is to enable the board to reach a decision on the application for average demurrage made by coal dealers.

PORCUPINE BULLETIN.

PORCUPINE, Oct. 24.—(Special).—Heavy freezing set in last night, with moderate temperatures to-day. Snow fell to the depth of two inches, but warmer weather has taken most of it away. The ground is literally baked to a crisp and traveling is most difficult along the coast and trails. Surface water entered shafts in places and all the mine pumps are in operation to-day. Chas. Fox.

Family Doubly Bereaved.

Much sympathy is felt for the family of Mr. and Mrs. W. P. Sexton of 47 Leonard-avenue in the double affliction which has taken from them two daughters within four days. Mabel M., aged 22, succumbed to the disease against which she had battled for a year on Friday of last week and was buried on Monday afternoon. On Tuesday morning Ethel Louise, the eldest daughter, died after a short period of illness. Her funeral will take place to-morrow afternoon.

They are survived by the father and mother, one sister, Mrs. W. J. Gill, and two brothers, W. Russell and Harold.

Seventy-five Cents a Week Buys a Piano.

The small sum of seventy-five cents a week will put a good square piano in your home. The old firm of Heintzman & Co., Ltd., 193-195-197 Yonge-st., Toronto, are clearing some thirty square pianos of makers like Chickering, Steinway, Miller and others, the prices ranging from fifty dollars to one hundred and fifty dollars.

To the Highest Bidder.

Twenty-five dollars for a twenty-five cent ticket! That is the sum already offered for the number one ticket for Rev. J. D. Morrow's benefit concert, to be held in Massey Hall on November 11. The secretary is going to hold that ticket for the highest bidder, the name to be announced at the concert. A number have already been offered, with the result that its price is now \$25. Who will be the next highest bidder? The ticket is in the hands of J. D. Morrow's secretary at 183 Adelaide West. Phone Adelaide 718.

Specters Pierced Eyeballs.

BRANTFORD, Oct. 24.—(Special).—Nellie Chambers, 24 Lawrence-street, was probably lose the sight of one eye as a result of the point of a pair of trousers which she was using to untie her shoe laces, penetrating the eyeball.

Andy For Aberdeen.

ABERDEEN, Scotland, Oct. 24.—The first of the first Aberdeen to-day nominated for the Liberal nomination for the constituency of Aberdeen. He will be declared on Saturday.

MAYOR GEARY STRONG ON BEAUTY TOUCHES

He Will Also Reform Street Railway and Other Things He Tells High Park Residents.

Mayor Geary and his promises were in evidence last night at the meeting of the Parkdale Ratepayers' Association, at Argyle Hall, at which there was a large attendance, including ladies.

According to his worship, if he has his way, many improvements in High Park will be made, including the filling in of the objectionable marsh. Among other things was promised a speedy remedy of the Honesvalley street car line, on which cars run just every once in a while.

Here the mayor said: "I have the feeling that the Toronto Railway Co. has not done the right thing by the people, and they have themselves to blame for the just criticism by the people, who keep up their life." The city, he said, was now realizing the mistake made formerly of dumping garbage into the lake, and his worship explained now the evil would be corrected by the new sewerage plant, nearing completion.

Just a Few Ideas.

Among the improvements the mayor was in favor of and would work for were the acquisition of more parks and playgrounds, Humber Valley as far as possible, the furnishing of a list of names to the people of milk sellers who were complying with the law regulating the control of the sale of milk, a plant to successfully handle the city garbage and a law compelling wooden posts on the streets to be taken down and all wires, telephone, electric and telegraph to be put under ground.

Mr. W. G. MacKenzie, president of the Toronto Horticultural Society, addressed the meeting on the care of flowers, after which he distributed prizes for well-kept lawns and gardens during the summer. Hugh Johnson of Berford-street was chairman of the meeting.

BILL MINER—ROBBER

A few characteristics of the world-renowned robber and prison jumper, as told by one who was at one time well acquainted with him:

"Jim Anderson, or Bill Miner, as he is more familiarly known to scores of detectives, prison wardens and the world in general, is one of the kindest and most tender-hearted men it was ever my lot to fall in with.

"I remember years ago, when at Eagle City, British Columbia, where we practically lived together for nearly eight years, Bill secured a job. I forget at the moment just what it was, but I know he stuck to it for nearly eight months, and for his industry was rewarded with two months' pay.

"One day Bill held up a stage coach, where there happened to be one lady passenger. He went thru every one as clean as a whistle but after the excitement had died away and Bill was gone, the lady found she was \$300 richer for his visit. He had left that amount in her traveling bag during his search for valuables.

"He would always spend every cent he had immediately he got to town, and if anyone was known to be in want they never had to appeal to Bill for help in vain. Many's the time old Bill has helped me out of financial difficulties when I belonged to the 'down and out club' and there is nothing I would not do for him to-day if it were in my power.

"I hear there is a reward of \$500 offered for him. Well, they'll never get him, for Bill has got a bunch of friends who would never go back on him not for ten times the money.

"He seemed to make friends wherever he went. If you happened to be classed as his friend and incidentally got mixed up in a little deal he had on hand to get the wherewithal to buy a few necessities and have a good time, your friend Bill went thru, you the same as the rest, but after he met you alone he usually handed you a few 'bones' extra to make up for the trouble and inconvenience he had put you to.

"Yes, sir, Bill is a fine man. A little too forceful perhaps when he wanted anything, and with not too great an education, nevertheless he is a great man."

"They'll never keep Bill in prison. There isn't a prison in America, or anywhere else for that matter, that could hold B.H."

"No, sir, he's too slippery." E.C.

Won't Cut Fire Rates.

Secretary Robertson stated to the World that so far as he knew no reduction in fire insurance rates would come as a result of the new fire alarm system now being completed in the rear of the Bay-street station.

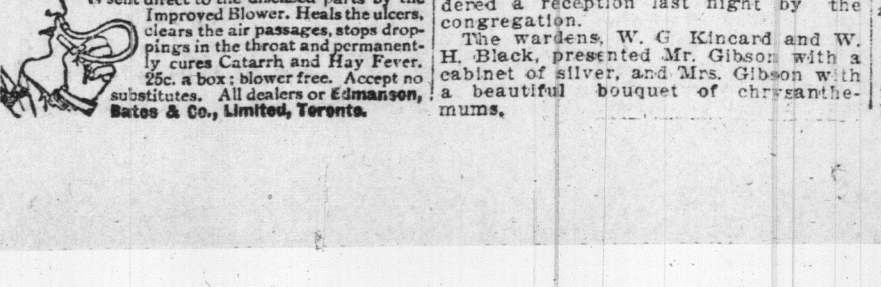

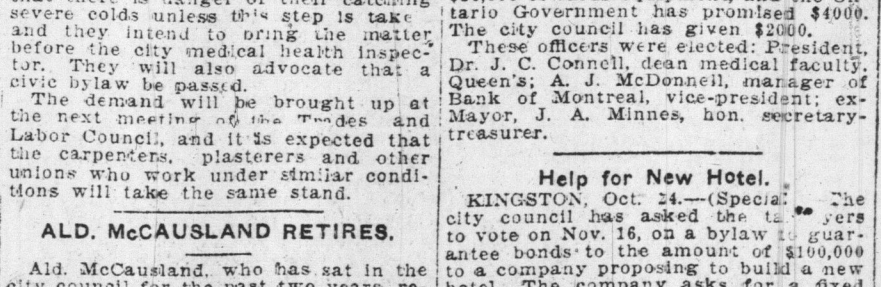

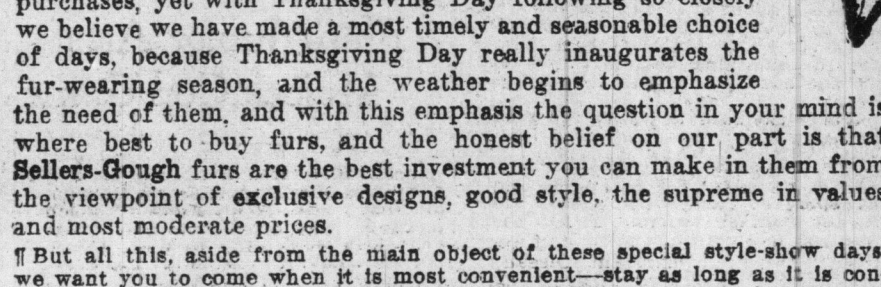

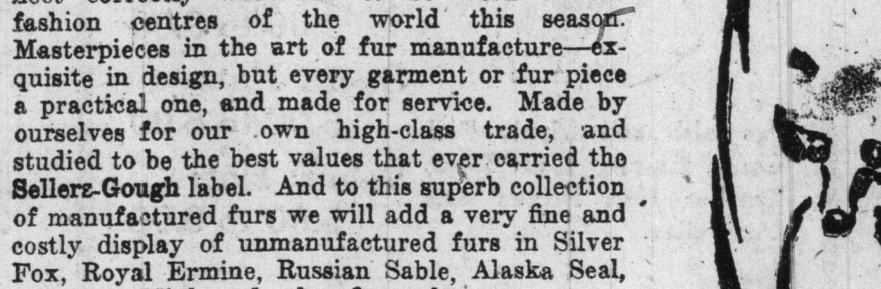

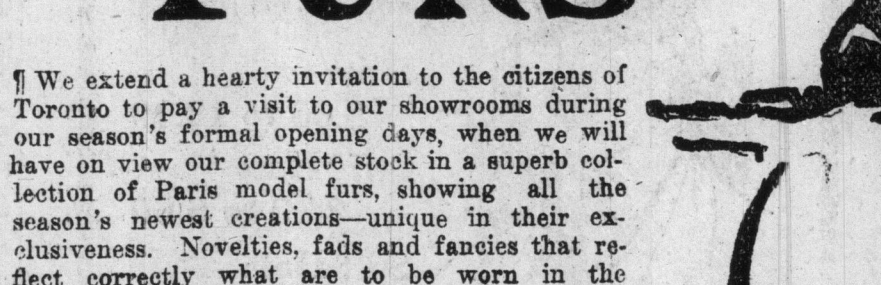

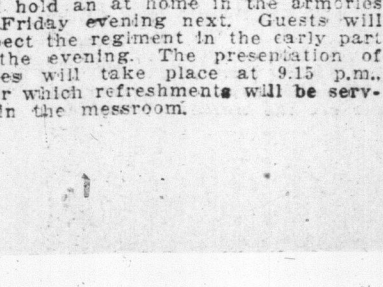

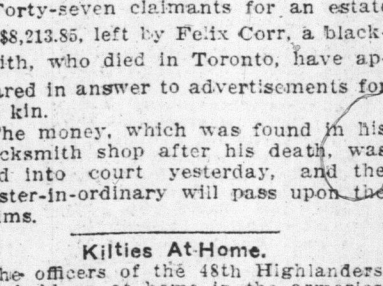

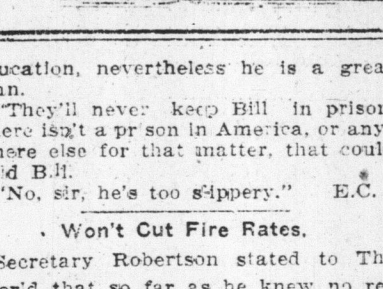

To Mr. Robertson reduced insurance rates were far from being a logical sequence to a new alarm system. He believed that the new system of recording a fire was not so superior to the old as to warrant any reduction.

Claimants Are Many.

Forty-seven claimants for an estate of \$8,213.55, left by Felix Corr, a blacksmith, who died in Toronto, have appeared in answer to advertisements for his estate.

Killies At Home.

The officers of the 18th Highlanders will hold an at home in the armories on Friday evening next. Guests will inspect the regiment in the early part of the evening. The presentation of prizes will take place at 9:15 p.m., after which refreshments will be served in the messroom.

SELLERS-GOUGH

The Largest Exclusive Fur House in the British Empire

The Season's Formal Opening—A Three Days' Fete—Style Show of the New Creations in Paris Model

FURS

¶ We extend a hearty invitation to the citizens of Toronto to pay a visit to our showrooms during our season's formal opening days, when we will have on view our complete stock in a superb collection of Paris model furs, showing all the season's newest creations—unique in their exclusiveness. Novelties, fads and fancies that reflect correctly what are to be worn in the fashion centres of the world this season. Masterpieces in the art of fur manufacture—exclusive in design, but every garment or fur piece a practical one, and made for service. Made by ourselves for our own high-class trade, and studied to be the best values that ever carried the Sellers-Gough label. And to this superb collection of manufactured furs we will add a very fine and costly display of unmanufactured furs in Silver Fox, Royal Ermine, Russian Sable, Alaska Seal, Canadian Mink and other fine pelts.

Thursday, Friday & Saturday will be Special Style Show Days

¶ While we would not say a word here that could be construed into meaning that we expect you to come to the store on these special days for the specific purpose of making fur purchases, yet with Thanksgiving Day following so closely we believe we have made a most timely and seasonable choice of days, because Thanksgiving Day really inaugurates the fur-wearing season, and the weather begins to emphasize the need of them, and with this emphasis the question in your mind is where best to buy furs, and the honest belief on our part is that Sellers-Gough furs are the best investment you can make in them from the viewpoint of exclusive designs, good style, the supreme in values and most moderate prices.

¶ But all this, aside from the main object of these special style-show days, we want you to come when it is most convenient—stay as long as it is convenient. Be free to ask questions, get all the information you can on fur styles, appropriate designs—the most becoming furs for your individual needs, and, if not on these special days, when it comes the time that you feel a fur purchase an actual need to you, we feel we can well afford to trust your judgment as to where you will make your selection—but let these opening days be visiting days. We will appreciate your presence, and we repeat our heartiest welcome. Here is one Opening Day special:

Building Workers Want City to Shut Off Botherome Draughts.

Letters are being sent out to the architects and builders of the city by the local Builders' Union, virtually demanding that all windows and doors of newly constructed buildings be covered from Nov. 15 to April 1. The men claim that there is danger of their catching severe colds unless this step is taken before the city medical health inspector. They will also advocate that a civic bylaw be passed.

The demand will be brought up at the next meeting of the Trades and Labor Council, and it is expected that the carpenters, plasterers and other unions who work under similar conditions will take the same stand.

ALD. MCCAUSLAND RETIRES.

Ald. McCausland, who has sat in the city council for the past two years, representing the sixth ward, announces that his business will not allow him the time to return to the city hall next year. His retirement will be regretted, as he has been effective in the city's service.

It notes now as the ex-Ald. David Spence is likely to capture the vacant seat.

DR. A. W. CHASE'S CATARRH POWDER 25c.

is sent direct to the diseased parts by the Improved Blower. Heals the inflamed, clears the air passages, stops droppings in the throat and prevents the cure. Catarrh and Hay Fever. 25c. a box; 50c. a dozen. Accept no substitutes. All orders to E. J. Mansfield, Bates & Co., Limited, Toronto.

NEW KINGSTON HOSPITAL.

KINGSTON, Oct. 24.—(Special).—The Kingston Health Association has been organized and has taken over the old homestead of Col. Bowen Van Straubenzale at Portmouth, which will be fitted up for treatment of tuberculosis patients. It will be known as the Sir Oliver Mowat Memorial Hospital. Kingstonians have already subscribed \$16,000 towards equipment, and the Ontario Government has promised \$4000. The city council has given \$2000.

These officers were elected: President, Dr. J. C. Connell, dean medical faculty; Queen's; A. J. McDonnell, manager of Bank of Montreal, vice-president; ex-Mayor J. A. Minnes, hon. secretary-treasurer.

Help for New Hotel.

KINGSTON, Oct. 24.—(Special).—The city council has asked the 15 voters to vote on Nov. 16, on a bylaw to guarantee bonds to the amount of \$100,000 to a company proposing to build a new hotel. The company asks for a direct assessment of \$50,000, exclusive of school tax.

A Thrilling Experience.

KINGSTON, Oct. 24.—(Special).—The schooner *Chryseis*, on her way to Oswego, had a thrilling time in a gale today. She lost all her sails, and the steamer *Seward* came along just in time to take her in tow.

Rector's Honeymoon Over.

On their return from their honeymoon, Rev. J. E. and Mrs. Gibson of the Church of the Ascension, were tendered a reception last night by the congregation.

The wardens, W. G. Kincaid and W. H. Black, presented Mr. Gibson with a cabinet of silver, and Mrs. Gibson with a beautiful bouquet of chrysanthemums.

Veterans Banquet.

His Majesty's Army and Navy Veterans will hold their annual banquet at the Arlington Hotel on Thursday evening, Nov. 2, at 8 p.m. Major Collins, the president, will be toastmaster, and reminiscences will flow freely.

Comet and Their Whims.

"Celestial Motion" was the topic of an interesting address by Prof. De Lury before the Canadian Astronomical Society last night in the Canadian Institute.

He ably dealt with comets and their cause, with special reference to one seen in the west until a few days ago, called Quinquisept. He referred to Brooks comet, which has been seen of late in the eastern sky, under the planet of Venus, after four o'clock in the morning.

CANADIANS IMPERIALISTS SAYS EARL GREY

Continued From Page 1.

out of place to give expression to any individual views upon subjects of controversy. I can say however, with the greatest confidence that, with the exception of an occasional crank here or there, it is impossible to find a Canadian who is not...

Talks Politics

Earl Grey's proceeding, and that the relation of Canada to the empire was twofold in character, the one being that of a province and the other that of a nation...

Canada Scented Danger

"The people of Canada, however, snuffed a great danger in these proposals, which might, if carried out, be a great blow to the U. S. A. recollections of past hard treatment suffered from the U. S. A. and the present great abundance of property in the Dominion, all combined to strengthen the national resolve to vote against a policy which, however advantageous to their material interests, was one in which they scented possible danger to their fiscal independence and national autonomy."

Refers to Nationalists

"Let it be clearly understood that the Canadian people are not in sympathy with any form of imperialism which involves the idea of the subjugation of a self-governing people to an authority outside or above their own laws."

Quebec Gains by Navy

"From the point of self interest there are more other inhabitants of Quebec who stand to gain more from our naval supremacy. There is on part of the work of the Roman church, which is a great privilege as guaranteed to Quebec by the British North America Act."

Muzzled

"They do anything in Chicago. Now it comes out that a woman has been restrained by an order of court from talking to her husband or his patients, for the man in the case is a doctor."

Kitchener Statue

The models for the proposed statue of Lord Kitchener at Calcutta have been approved by the committee. The statue itself will represent him in full military uniform, standing on a stone pedestal containing four bronze panels in bas-relief representing scenes from his life."

The Food Question

It seems improbable that Turkey has declared grain contraband of war, although reports to that effect are common and seem to come from Baltic ports, where the attitude of Turkey would be early known. If the Turks take such action they will interfere with all grain shipments to Western Europe, particularly England. The English have long been considered the food question in war.—Providence Journal.

EX-ALDERMEN TESTIFY AS TO DEAL WITH LENOX

Understanding as to Renumeration Was Slightly Cloudy—Cross-Examination Ends—

Corporation Counsel Drayton yesterday completed his cross-examination of E. J. Lennox in the famous suit over the erection of the city hall. Mr. K. Cowan, K.C., counsel for the architect, hopes to have the whole of the evidence in substantiation of Mr. Lennox's claim by this evening.

"I didn't invite tenders." "So in spite of that you simply engaged yourself to do the work and did not have others tender on it at a possibly cheaper rate?" asked Mr. Drayton.

Held Radiator Stock

In letting the contract for radiators Mr. Lennox's holding of stock was brought up. He stated that he found the Dominion radiator best, but had given half the contract to the company. The committee finally decided to give the entire contract to the Dominion Radiator Company as the most advanced radiator.

Didn't Know of Contract

Mr. Sheppard, replying to a question, admitted that the subject of extra pay for Mr. Lennox might have been before the committee in a conventional way. His remuneration was often discussed by the aldermen.

Many Verbal Instructions

Wm. Burns, chairman of the court house committee in 1891-92, was next called. He stated that Mr. Lennox was instructed to take over the Elliott and Neelon work. He admitted that Mr. Lennox received many instructions, which were never put on record, substantiating the architect's claim that the minutes were improperly kept.

PORT McNICOLL

ONTARIO THE NEW C.P.R. EASTERN TERMINAL ON GEORGIAN BAY, at TORONTO'S BACK DOOR 117 MILES FROM TORONTO OFFERS A SAFE FIELD FOR INVESTMENT

Now is the time to embrace your opportunity to buy in Port McNicoll. The most conservative real estate valuers of Toronto and the Province are buying lots in Port McNicoll. See this map. This represents the sales of lots in the past three days. The balance we expect will be quickly assigned.

Quietly, and without the knowledge of Toronto people, the Canadian Pacific Railway have been building on the shores of Georgian Bay, at Port McNicoll, what one of their own officials has said will be the LARGEST TERMINAL on their system. For months the work of creating a new shipping port has been going on. Seven Million Dollars have already been spent, ten millions will be spent. Grain elevators are now being erected, freight sheds provided and a city is in the making.

WHAT THE C.P.R. HAS DONE FOR FORT WILLIAM AND OWEN SOUND THE C.P.R. WILL DO EVEN MORE ABUNDANTLY FOR PORT McNICOLL

IT HAS BEEN SAID THAT PORT McNICOLL IN 1915 WILL HAVE 15,000 PEOPLE BUY YOUR LOT TO-DAY

ALLY YOUR DOLLARS WITH PORT McNICOLL, REAP FOUR-FOLD

OUR GUARANTEE

We guarantee the title to our lots in Port McNicoll to be perfect. We guarantee to furnish a good and valid deed to each purchaser of a lot or lots in Port McNicoll. We guarantee to pay all expenses, both for time and money expended, if any person who upon investigation finds that we have stated anything in printed literature or written letter materially at variance with the facts in regard to Port McNicoll.

Symptoms Are the Same Description of a mysterious plant that grows in Arabia leads to the belief that it is near kin to American yucca. "Tut-Bits" declares that it "produces flowers of a bright yellow, with seeds that resemble small black beans. The native dry and pulverize them, and the powder, taken in small doses, makes the soberest person behave like a circus clown or a madman, for he will dance, sing and laugh most boisterously, cut the most fantastic capers and be in an uproariously ridiculous condition for about an hour. When the excitement ceases the exhausted exhibitor of these antics falls asleep, and when he awakes he has not the slightest remembrance of his 'drisky doings'."

INVEST NOW IN INDUSTRIAL CENTRE

The Plan of Industrial Centre. This Sub-division is just to the north and above the City Park Annex

FOR years Edmonton was without direct railway connections. Only to-day are the railways coming in.

And yet, without that direct railway communication — which is the prosperity basis of many places — Edmonton has grown to a city of 31,000 people, adding 20,000 in five years. Now three great transcontinentals converge at Edmonton. Who can say what the progress of Alberta's premier city will be ten years, or even two years hence?

THE great Peace River Valley, the last great west, is now opening up. Several charters have been granted to construct railways from Edmonton into Peace River. Edmonton is the natural, is the logical gate way to the Peace District, the coming home of hundreds of thousands of raisers of the finest wheat in the world. All about Edmonton are thousands of fertile farms, but

IT is not farming alone that has made Edmonton great. It is a city whose richness in natural resources will make it one of the most renowned in the world. It is just coming into its own. Coal fields stretch in a gigantic arch to the northwest and west of Edmonton. Quietly and with no publicity millions have been invested in the coal fields, the wealth of which can scarcely be appreciated. The Edmonton district is rich in timber. The lands of the Edmonton district grow the best grain that comes out of the west, Edmonton is the centre of a veritable Empire of Wealth.

AND while the development of these natural resources is causing the city to throb with hot, surging enterprise and energy, the industrial side of Edmonton is just stretching itself into life. Great industries are establishing plants in Edmonton that will make this city the industrial city of the

west. And these factories are locating in the north part of the town, are spending millions of dollars, and all this great development is going on a half-mile away from Industrial Centre.

INDUSTRIAL CENTRE—It is shown on the plan herewith — is within the city limits of Edmonton, and almost adjoins its industrial section, North Edmonton. There one company, the Swift Canadian Company, have a pay roll of over \$1000 a day. The P. Burns Company are starting to build a million-dollar plant. Other big concerns are preparing to build—and the industrial growth is all toward Industrial Centre.

INDUSTRIAL CENTRE is next in line for advancement. It has everything in its favor. Even now several manufacturers are negotiating for factory sites along the railroad in Industrial Centre. We do not guarantee that these lots will make you a magnificent profit within a year, but we do say that Industrial Centre is just as certain to grow as is the great west itself, and we do say that these lots are as low in price as any offered in the west.

THE street cars run to within half a mile of Industrial Centre; the tracks will be extended to this subdivision in the very near future. The Grand Trunk Pacific proposes to build a station on Industrial Centre. The subdivision is within the city limits of Edmonton and the trend of improvement and industry is toward it. Vacant lots between the postoffice at North Edmonton and Industrial Centre are selling now at \$800 to \$1000. Read the prices at which we offer our lots. They are marked away below their value, compared with other lots in Edmonton. We must sell them now. Most lots are 25 ft. by 123 ft., some are 33 ft. by 123 ft.

IN THE CITY OF EDMONTON THE HEART OF OPPORTUNITY WHEAT, COAL and TIMBER

Edmonton is surrounded by many natural resources; each one would make a city great. Edmonton is the portal of Peace River. Edmonton is fast becoming the industrial city of the west, and "Industrial Centre" is on the line of industry's march.

CITY LOTS \$200 to \$350

THE progress of Edmonton has been so consistently phenomenal that it has almost ceased to create wonder in the mind of any person familiar with Western Canada. But to those who do not intimately know Edmonton, the capital of that wonderfully rich province, Alberta, the growth, enterprise and business energy of this rising city of the real Northwest is amazing.

THE PRICES.

- In blocks 1 to 24, inclusive:
 - Corner lots\$250
 - Inside lots\$200
- In blocks 25 to 32, inclusive:
 - Lots 15 and 26\$300
 - Lots 1 and 40\$250
 - Lots 2 to 14\$225
 - Lots 27 to 39\$225
- In blocks 33 to 40, inclusive:
 - Lots 11 and 22\$350
 - Lots 12 to 15\$250
 - Lots 16 and 17\$300
 - Lots 18 to 21\$250

Note.—All trackage property on each side of the G. T. P. is reserved for manufacturers. All lots facing on street leading to the proposed G. T. P. Station withheld from present sale for higher prices.

TERMS:

- One-third cash; balance 6, 9 and 12 months, at 6 per cent.
- If all cash, 8 per cent. discount off two-thirds of purchase price.
- Special Terms**—Monthly payments—15 per cent. cash; balance in 12 monthly payments, with interest at 6 per cent.
- Blocks 2, 8, 9, 10, 15, 24 are being sold in Edmonton.
- Blocks 5, 12, 16 are being sold in Saskatoon.
- Blocks 6, 7, 25, 31, east half of 30 and lots 11 to 22 inclusive, in blocks 37 and 38 are being sold in Winnipeg.

BUY IN INDUSTRIAL CENTRE NOW—NOW IS THE TIME.

TORONTO UNIVERSITY HOLDS FIRST PLACE Total Registration Greater Than Any Other on the Continent of America.

Toronto University continues to occupy front rank in point of attendance among the higher seats of learning on this continent.

Without taking into consideration the regular occasional students, the dental students and those teachers who take the summer session course as well as post-graduates, numbering in all about 700, the total registration in arts is 1750.

The total regular registration this season at the university is 3311, which is about the same as the regular registration of last year.

At the end of last year the grand total in attendance at the university, both regular and occasional students, and from affiliated colleges was 4144.

The registrar says this year's figure will amount to about the same as last year's.

FROM ENGINEER TO PIVER Captain Midford's Pretensions Worried Board of Control.

That Capt. Midford, the submarine engineer, thought he had struck "quite a thing" with regard to his engagement by the city to make an independent examination of the intake pipe, was the statement made by Mayor Geary yesterday.

The captain had been left open to claims. Controller Ward said that the captain had called at the city hall with a "sub-aggressive attitude."

LE DEVOIR BACKS BORDEN. MONTREAL, Oct. 22.—(Special.)—Le Devoir is apparently the chief French mouthpiece of the Borden ministry, and the paper evidently wants the prime minister well thought of by the Quebec electorate.

DR. ROLLER LOSES BOUT. NEW YORK, Oct. 22.—Dr. Roller, the Seattle physician, lost his catch-as-catch-can match with Paul Samson, the German wrestler, at the Harmon Casino to-night.

To Deal With Garbage. With regard to the bylaw providing for the construction of a modern garbage disposal plant, which will be sent to the people of Jan. 1, Mr. Hering will suggest whether incineration or reduction of garbage is the better system.

WILL RESUME PRACTICE. MONTREAL, Oct. 24.—On the eve of his retirement from public life, His Honor J. J. Tweedie, lieutenant-governor of New Brunswick, who is at a prominent local hotel, announced that he will resume the practice of his legal profession.

British M. P.'s Suicide. LONDON, Oct. 24.—Alfred Peter Hillier, Unionist member of parliament for the north division of Hertfordshire, committed suicide by cutting his throat to-day.

Chief Geographer Dead. OTTAWA, Oct. 24.—Robert Evans Young, D.L.S., chief geographer of the Dominion and superintendent of lands in the interior department, was found dead in his bed at his home here this morning. He had retired at 10.30 last night, apparently in good health.

Porcupine Issues Hanging Fire, But Tone Is Responsive

Upward Swing Carried Further In a Quiet But Firm Market

Unostentatious Trading in Porcupines, With Undertone Steady to Firm Throat—Cobalt Develop More Responsible Trend.

World Office, Tuesday Evening, Oct. 24. The upward swing in the Porcupine issues was carried on somewhat further in to-day's session of the local mining exchanges, the market displaying remarkable indications of firmness, though without any ostentatious features. Trading was only moderately active, but the idea to be gleaned from the market speculation was rather that the market was pretty well bare of offerings, than that there was restriction of public information at work. Little stock came out save at higher prices, and as there was no rush to take on securities, transactions were carried on in a quite orderly manner.

Specialties Lead. The main strength shown in the gold mining issues to-day occurred in some of those which have come in for special operations of late. The buying in these instances has been of a more responsible character, and as holders are not offering anything freely, any sustained demand quickly results in establishing values on a higher basis. Vipond continued one of the leading features in the cheaper issues. The reported buying by holders was carried on further, and a rally of two points to 4 1/2 occurred. It was reported on the street that the recent recession in these shares was brought about for the purpose of accumulation by insiders, and also to clean up a few weakly-held accounts.

Marked firmness was shown generally throughout the list, but price changes in the main were restricted to small fractions. Dome Extension held its own around 75, yesterday's high figure, with no difficulty whatever; Preston East Dome recovered a portion of its loss, but was off again in the late trading.

Pearl Lake was strong at a small advance on rumors being for inside account, and Crown Chartered got up to a new high level at 4 3/4 for the movement, a gain of nearly a point for the session, on a continuation of the responsible buying demand which has brought about the sharp advance in the last week or so.

The big issues were quiet with values but little changed. Res showed a stronger trend at \$2.75, but Hollinger held only steady.

RAPID PROGRESS

Temporary Plant for Vipond—Twenty Stamps This Winter.

Porcupine, Oct. 21.—(From Our Man Up North.)—The manager of the Porcupine Gold Mines (Vipond) returned from New York this week, where he attended a meeting of the company's directors. A 20-stamp mill will be put in this winter. The machinery has already been ordered. In the meantime a powerful steam engine and a large pump have been ordered to carry on the work of drilling and crushing will be installed.

The railway line is about completed to Pearl Lake, although freight is not yet going over the rails because the ballasting is not in shape to permit of heavy loads. Very soon now the railway with which to begin work can be taken in the mine. A good wagon road has been made south from Pearl Lake.

Building and preparing winter quarters are under way and very soon comfortable and commodious housing facilities will be had.

The mine work is going ahead steadily and several hundred feet of underground drifting and cross-cutting completed. Chas. Fox.

HARGRAVES IN LUCK

Reported Big Discovery on Company's Porcupine Claims.

Porcupine, Oct. 21.—(From Our Man Up North.)—Reports are out that the Hargraves, diamond drilling on the Campbell lot along the railway line in Tisdale, at the depth of 100 to 150 feet, has encountered a wide lead of quartz. The lot is located mostly in low land and this fact has been mostly with interest by mine men here.

The first 55 feet the drill cut the muskeg and clay. Then the country rock is in place and it is unofficially reported, a quartz lead was estimated at from 12 to 20 feet, mixed with schist, was picked up. Of course no one has knowledge of what values are in the quartz, if any.

This is one of the best tests to give results so far, if the reports are later substantiated, of the drills working in the muskeg. Chas. Fox.

NIPISING STATEMENT

The financial statement of the Nipissing Mining Co. as of date Oct. 2, united with the current dividend checks, shows cash on hand of \$39,884; one in transit and at smelters, \$131,782; one sacked at mine, ready for shipment, \$197,653; or a total of \$669,320, and a bonus of 2 1/2 per cent, amounts \$450,000. The operating company is shown to have had on hand on Oct. 2, therefore \$549,000 in excess of the dividend requirements of the holding company.

MINES USE ELECTRIC POWER

Porcupine, Oct. 21.—(From Our Man Up North.)—The first mines to use electrical power for mine work are as follows: Crown Chartered, Pearl Lake Gold Mines, Jupiter and the Pleasurium. The last three named are installing electric machinery and should be running within a very short time. Steam power has been provided for emergency purposes. Chas. Fox.

Off to Shining Tree. The West Shining Tree Goldfield continues to come to the front. Last night Mr. M. Medley, the well-known mining engineer, formerly of South Africa, left for the district. He will make an inspection trip to several of the more important properties. Mr. Medley's report will be awaited with considerable interest.

FREE GOLD SHOWINGS IN RAILROAD BED KIN'S NEST HOME STRUCK BIG DOME DEPOSIT?

Rich Vein Blown Out in Railway Blasting—Tinminis Growing Rapidly—Business Expands. Porcupine Hears Rumor That Drills Have Picked Up Continuation of Big Lead.

Porcupine, Oct. 21.—(From Our Man Up North.)—The camp's business centres are rapidly widening, and with the building of the railway line to Timmins business is rapidly drifting to that centre. The steel is laid to within 100 rods of Aurs Lake settlement. A heavy rock-out across the southwest corner of the McIntyre, at the north end of the Tinminis-McMartin lots, has made the work of reaching the Tinminis townsite a task. In blasting out the schist ridge and carting away the earth a new lead of quartz was found on the west side of the McIntyre with free gold in the vein. This lead has a northeast strike and is the "A" vein that crosses the Pearl Lake Gold Mines holdings to the northeast. Thus, there is one railway bed made in a free gold foundation, and Porcupine holds the credit for it.

Building is rapidly spreading as far west as the river, and already over 50 buildings are up on the Tinminis, where Charles Auer owns a platted townsite. To the east of the Auer is the Way Township, which is the connecting link between Timmins heights and the river.

At the Mattagami. The Mattagami centre is to be a busy spot. A company headed by G. H. Springer of Halleyville, have the material on the ground now for a 36-room hotel. This is an accommodation that will be of the west to some extent.

The company will also build two large-sized river boats for freighting and passenger traffic on the river between the Sandy Falls and Watagan. The material is now being shipped in and the boats will be ready for use by April.

Many prospective mines operating in the Townships of Carleton Place, Turberville, Bristol, Byers and Price, mine men already state that they expect by another year to have a large yield from one to two mines in each township of a large low-grade yield. This is the character of mining that will bring capital to the district.

Already winter roads are out from the junction of the Red Sucker River on the Mattagami, thru the centre of Bristol, into Carleton. From this centre it will be possible to reach the mountains to reach any part of the western country.

In this section the Dome mines are working on several claims formerly held by the Jewsey-Woods syndicate. B. F. Cartwright is also operating under an option given last August by the McIntyre and Bryson. A. B. Stewart, the well-known engineer, also has men prospecting on the Woodney claims recently taken over. Several other syndicates are at work in the different western districts. Chas. Fox.

BIG MINING CONGRESS

The 14th annual session of the American Mining Congress, which opened yesterday at Chicago, will continue in session until Saturday, will be one of the most important gatherings which this organization has held since its inception. Among the features of the first session of the congress at which the president of the United States will be present, the plans now being made for its address are more than usually significant on account of his manifold experience in gold mining in Ontario.

The convention will occupy itself principally with the following subjects: 1. Prevention of mining accidents. 2. "Workmen's" compensation for the victims of mining accidents. 3. The prevention of the waste of the natural resources and the conservation of the energy which now contributes to coal production. 4. The general problems of the bituminous coal mining industry as intended by the demand for protection to miners and the conservation of fuel resources. 5. The Alaska question. 6. The public interest question of the wet: as it affects the mining industry.

BROKERS WON'T PAY UP

Fire-Works in Porcupine Central Have Resulted in Embarrassment.

A sequel to the Porcupine Central episode of a month ago is now to be found in a letter addressed by Mr. J. Thomas Reinhardt to the New York Curb Market Association with reference to its action or rather its lack of action in respect to defaulting members. It will be recalled that stock of the Porcupine Central Mining Company, which was offered for public subscription in forty cents per share early this year by Mr. Thomas Reinhardt, took a sudden jump early in September from around ninety cents to three dollars per share. It appears that a number of curb brokers who had been short of stock were caught by this sudden advance and refused to make good on their contracts. The matter was submitted to the New York Curb Market Association for adjustment, and they called upon the defaulting brokers to return the money they owed. This the defaulting brokers refused to do, and furthermore brought an injunction to restrain the association from posting their names on the blackboard.

Mr. Reinhardt has now put it squarely up to the association, either to enforce its rules or else virtually to become liable for the default of those members who live up to the rules that the association refuses to enforce.

PRESENTATION TO WHYTE

WINNIPEG, Oct. 24.—Sir William Whyte, resident of the Canadian Pacific, was the guest of honor this evening at the Royal Alexandra Hotel banquet tendered by the western officials of the road, over 125 being in attendance, including also 40 former officials of the road. Sir William was the recipient of a splendid silver service, including a monster punch bowl.

Eldorado the Buy

Since our personal inspection of the company's three properties we are more than ever convinced that ELDERADO is one of the best purchases in Porcupine. Our prediction is that the company's mine manager, writing under date of the 20th, states that the stringer in the shaft showing free gold gives every promise of widening, and continuing with depth.

The stock is strongly held, and has never fallen below its issue price. We believe that ELDERADO will see a big advance over present prices. When cross-cutting commences we believe the main ore body will be quickly located. Cobalt stocks. We buy and sell all Porcupine and Cobalt stocks.

A. J. BARR & CO., MEMBERS STANDARD STOCK AND MINING EXCHANGE, 43 Scott Street, Toronto.

SENATE IN AUSTRALIA POPULAR WITH PEOPLE

Sir Albert Gould, Its Former President, Discusses Problems of Trade and Emigration.

Sir Albert Gould, the president until after the last election of the senate of the Commonwealth Parliament of Australia, is in Toronto on his way home from England. He was elected to the office he held by the members of the senate, as is the custom, and was for many years a representative from New South Wales, and at one time was minister of justice in that state.

Sir Albert was asked for his opinion on senate reform. The World man mentioning that in this country there was a general feeling that the senate should be abolished. He replied that the principles of government in Canada and Australia were entirely different, and that a comparison would be impossible. In Australia the senate is elected by the people, as well as the house of commons, and when the people express their opinion on any great subject the two houses practically form one to deal with the subject.

How have Australians taken Canada's proposal of opinion on the reciprocity proposals? "The defeat of the proposals was accepted by Australia as a very good thing, not only for Canada, but in the interests of the whole empire. It is best that all the countries within the empire should continue united closely together. If Canada were lopped off from the mother country she would not be the nation she is to-day."

Like Reciprocity's Defeat. "The defeat of the proposals was accepted by Australia as a very good thing, not only for Canada, but in the interests of the whole empire. It is best that all the countries within the empire should continue united closely together. If Canada were lopped off from the mother country she would not be the nation she is to-day."

Prize Day at U.C.C. It was prize day at Upper Canada College yesterday and an unusually large number of awards were made. The assembly room was filled with "old boys" and other friends of the school, among whom were: W. G. Gooderham, president of the Old Boys' Association; Col. J. G. King, Mayor Geary, R. S. Henderson, Col. William Ponton, K.C.; Professors Baker, Young, Keys, Keeler, Wallace and Ellis, Bishop Edgar, Premier Falconer, E. R. Peacock, Rev. Dr. Mackenzie and Rev. T. W. Patterson.

LA ROSE MEETING. Directors Decided to Defer Distribution of Cash Surplus. MONTREAL, Oct. 24.—(Special.)—Resolved that the directors are still of the opinion that a portion of the cash surplus should be distributed among the shareholders at an early date, but on mature consideration they are of the opinion that the payment of any portion of the cash surplus to the shareholders should be accompanied by a full report from the president and the directors on the condition of the properties and the state of the mine, which will be the end of the fiscal year. They have accordingly deferred action thereon until they shall be put in possession of the said reports.

FIRE DEPARTMENT PROMOTIONS. Two Lieutenants Get Captaincies. Two More District Chiefs Needed. Fire Chief Thompson declared at the meeting of the civic fire and light committee yesterday that two additional chiefs were "absolutely imperative," so the committee again sent his recommendation on to the board of control. The chief said that there had been no chiefs appointed since considerable territory had been annexed by the city. The chief also reported to the committee the following promotions in his department: Lieut. A. J. Everett, to captain, Main-street fire hall; Lieut. Charles Gordon, to captain, Main-street fire hall; William Shannon, to lieutenant, Bay-street fire hall; Frank Milligan, to lieutenant, Main-street fire hall; D. Ferguson, to lieutenant, Richmond-street fire hall. The following transfers were made: G. Wilson, from Adelaide to Main; O. Beavals, from Richmond to Main; O. Brodie, from Lombard to Main; A. McNaughton, from Lombard to Main. The following new appointments were made to the fire halls specified: Wm. Phillips, to Rose-avenue; Thomas Bell, to York; G. W. Boyd, to York; J. G. Wilson, to York; J. G. Wilson, to York; J. G. Wilson, to York.

UNCONSCIOUS MAN A TURK. The man picked up unconscious at the Union Station and sent to St. Michael's Hospital is now found to be a Turk, all in all the man has been learned of his identity. He is believed to belong to some railway construction gang. The name V. Sanator was found upon a card in his pocket. He will recover.

THUNDER BAY GOLD DISTRICT LOOKS GOOD. Revival of Interest in Jackfish Bay Properties Predicted by Mining Man.

That there is an excellent gold mining field immediately to the north of Jackfish Bay station on the C.P.R. main line to the west, about 146 miles east of Port Arthur, and that it shows indications of wealth not surpassed by the new Porcupine gold camp—this is the opinion of competent mining men who have recently made an inspection into the district to verify the reports of mining interests who have acquired property there.

Mr. C. West, the well-known Porcupine mining man, who has had experience in mining through Cobalt, Gowganda, Porcupine and the west, is now watching the Jackfish Bay district closely, and has some reason to believe that there are some rich veins in the district. He has some reason to believe that there are some rich veins in the district.

LA ROSE MEETING. Directors Decided to Defer Distribution of Cash Surplus. Wall Street Hide-bound By Continued Apathetic Trading

No Impelling Motive to Trade Market Ends Where It Began

Outside Participation in New York Dealings of Decidedly Restricted Nature—Toronto Market Comparatively Steady.

NEW YORK, Oct. 24.—In the absence of an impelling motive for trading on either side of the stock market to-day, movements were of the narrow and fitful character of recent sessions. Trading, in fact, fell to even smaller proportions with a total of 185,000 shares for the day's business.

The standard stocks ended the day as just about where they began. Changes were so small that they could be said to indicate no trend in either direction. Reading, Missouri Pacific and Norfolk and Western were the only railroad stocks to manifest decided strength.

Industrials Show Weakness.

Among the less active stocks movements were wider, and some of the industrials exhibited marked weakness. New York Air Brake fell five points to 46, its lowest price in many months. In an official statement it was said that the business of the company was improving, but no mention was made of the declaration of the dividend on the stock. American Cotton Oil fell more than two points on expectations of a poor annual report.

Strength of Norfolk and Western resulted from a continuation of the buying of this stock. In this connection, there was a renewal of the report that the dividend is to be increased.

Railroad Reports.

The first of the September railroad reports were available to-day. Lehigh Valley showing a \$400,000 increase in operating revenue, which was balanced by an increase in expenses of almost the same amount. The annual report of the Norfolk and Western showed a heavy gain in expenses, although it was more than balanced by the increase in gross earnings. The uniformity with which the railroads of the country, up to a few months ago at least, increased their expenses, was shown by the combined figures of 73 roads for their fiscal year. While operating revenue gained less than 1 per cent, the increase in expenses was more than four per cent. Only eleven roads revealed a reduction in expenses.

Andrew Carnegie.

Who has just returned to New York after his annual vacation at the Catskills in Scotland, Mr. Carnegie has made in all 124 trips abroad.

Carnegie Returns.

Great Ironmaster Will Testify Before Steel Investigating Committee.

NEW YORK, Oct. 24.—Andrew Carnegie returned on the Celtic, looking decidedly better than when he sailed in June for his annual vacation in Scotland. In company with Martin W. Littleton, Mr. Carnegie held a half-hour session with the newspaper men. One of his early ambitions was to become a reporter. "Had you been a reporter," said Mr. Littleton, "you probably would have formed a strong opinion as to whether Carnegie was a scoundrel and that he would have formed a combination."

Mr. Carnegie said that he would give the steel investigating committee some much needed information when he appears before it in Washington. Mr. Littleton said he had many talks with Mr. Carnegie on the voyage over and that he believed the tonnage was of the opinion that the "possible" abrogation of the Great Northern Ore lands' lease by the steel corporation would take away the most monopolistic feature of the company's business. "That is one of the points on which the Stanley Steel Committee lays great stress," said Mr. Littleton.

"I have paid no attention to business whatsoever," said Mr. Carnegie, "and I am not in a position to comment on it. In all the 124 trips I have made abroad I have never visited any better than the present visit."

Conditions Promising.

With Wall-street on the downgrade, and prices tumbling rapidly in that broader plane in the Toronto stock exchange, to-day, larger dealings being evolved than during any session during the past week. The market showed a more optimistic change, however, prices in the majority of instances doing nothing beyond holding firm around the previous day's levels.

The outstanding characteristic of the market of late has been the remarkable steadiness with which securities have held around their present levels. Outside of a few of the specialties, practically no alteration in values has been made, neither the buying nor the selling of their present levels. Nothing sufficient to affect prices.

Tractions Lead in Interest.

The traction issues led in the trading to-day, the interest in these particular securities did not amount to very much. The Pacific held firm during the morning session around 17 3/4, but suffered from some profit-taking later on, and declined to 17 1/4. Rio held firm in a two-point rally here, the shares rising to 24 1/2.

The Maple Leaf continued strong, on responsible buying founded on the fact that the opening of the Port Colborne mill would prove highly favorable to the company's earnings from now on. The common shares rose a full point to 83 1/2, and closed bid right at the top figure.

Railway Earnings Fall Off.

NEW YORK, Oct. 24.—Railway gross earnings declined 1.22 per cent. in August and not after taxes and expenses decreased 4.5 per cent.

Prices Still Going Down.

NEW YORK, Oct. 26.—Keen competition in the wire trade has resulted in another reduction of 1/10 in all products, bringing wire nails and barbed wire down to \$1.60, and plain wire down to \$1.40. The American Steel & Wire Co. is meeting competition on this basis.

European Fours.

PARIS, Oct. 24.—The Bourse opened slightly better to-day. Prices reacted later, and the closing was weak.

Slow Monetary Conditions.

NEW YORK, Oct. 26.—Prussia borrows \$20,000,000 on 4 1/4 per cent. less from New York banks. The offering of Prussian treasury bills in this country was \$2,200,000.

C. P. R. Traffic.

MONTREAL, Oct. 24.—C.P.R. traffic for the week ended Oct. 21, 1911, was \$2,202,000. For the same week last year it was \$2,202,000.

IMPERIAL BANK OF CANADA

(ESTABLISHED 1875)
HEAD OFFICE, TORONTO
DIVIDEND NO. 55.
Notice is hereby given that the Dividend at the rate of Twelve Per Cent. (12 Per Cent.), per annum upon the Paid-up Capital Stock of this Institution has been declared for the three months ending 31st October, 1911, and that the same will be payable at the Head Office and Branches on and after Wednesday, the 1st day of November next. The Transfer Books will be closed from the 16th to 31st October, 1911, both days inclusive. By order of the Board,
D. R. WILKIE, General Manager.
Toronto, 26th September, 1911.

LONDON MARKET QUIET.

LONDON, Oct. 24.—Money was in increased demand to-day. Discount rates were quiet.

Traders in the stock exchange were principally occupied with the mining carry over, and the markets were quiet. Consols gained 3/16, but Kaim's were weak on Paris selling, and the rails and Chinese bonds declined on realizing.

American securities opened quiet and steady and during the forenoon advanced on light covering. The trading was dull and featureless in the afternoon. Prices reacted a small fraction.

This Page Tells the Secret of Successful Thanksgiving Shopping

In the New Fur Section

Thanksgiving Week is the week for your visit to our new Fur Section. The stock is at its best, and new models will be shown for the first time. Many styles are exclusive, and cannot be duplicated. Even when this is not the case, "a first choice" is best. Particulars of some of the magnificent Simpson furs follow:—

New Models in Hudson Seal Coats, guaranteed Chapell's best French dye, from 36 to 54 in. long; some are full sacque back, with large cape collar; others are semi-fitting, with cape collar, or the long roll collar, extending below the waist line, handsomely lined with best French satin. Priced from... **80.00 to 250.00**

New Designs in Persian Lamb Coats, from the smart 30-inch to the full length garment of 54 inches. Every coat is made from the best selected No. 1 skins; small, medium and large curls to select from; lined with French brocade satin, and handsomely finished. 30-inch, **\$200.00**; 36-inch, **\$225.00**; 50-inch, **\$365.00**; 54-inch... **400.00**

Natural Canada Muskrat Coats, suitable for motor or street wear; dark, full-furred skins; 48 to 50 inches long; lined throughout with good brown satin; deep storm collar and large revers; sleeves have cuffs; a splendid wearing coat. For this week's selling only reduced from **\$75.00 to 62.50**

Fur-lined Coats, in the new fall and winter shapes, made from imported French broadcloth, semi-fitting, nicely tailored with self-strapping, lined with best prime Canada muskrat, stylish, well fitting, serviceable garments, 50 inches long, in black only, with western sable collar and revers... **44.50**
With Alaska Sable Collar and Revers... **50.00**

Our Black Fox Furs are acknowledged to be the best and most stylish shown in Toronto. We guarantee every article we sell in this fur to be genuine Leipzig dye. We have dozens of styles to select from—they are the equal, and in many cases superior both in style and finish to the best Paris and New York models. Neck pieces from **\$17.00 to \$125.00**; Muffs, from **\$17.50 to \$75.00**.

Our fat friend here is ready; he bulges with the fat of the land; he has been carefully filled with good things in order that he may be served up in fitting style.
The Simpson Store is ready; it bulges with the best of the world produces; it has been carefully filled with the best in order that customers may be fittingly and satisfactorily served.

Read About These Magnificent Furs, Laces, Clothes, Housefurnishings, etc.

The Simpson Store is the Home of Beautiful Laces

Dame Fashion is a fickle jade, and carries us far and wide in search of something new wherewith to adorn our dresses. Again she takes us back to old times and old styles, and we are bound to admit that they are very beautiful.

It has lately been decreed that we seek inspiration from the peasants, and we have done so.

France, England, Austria, Belgium and numbers of other "lace countries" are constantly contributing their quota of the newest novelties to The Simpson Lace Department, and to-day our laces represent all that is

new and fashionable, as shown by leading manufacturers and used by Parisian dressmakers.

- French Chantilly Laces**, in beautiful shadow effects, in ivory or Paris ecru. Per yard... **.75 to 3.00**
- Flat Venice or Italian Filet Laces**, exquisite in designs, in ivory or Paris ecru. Per yard... **2.00 to 6.00**
- Irish Guipure and Point de Gaze**, in white, ivory or ecru. Per yard... **.25 to 3.00**
- Real Rose Point and Duchesse Laces** (with insertions to match). Per yard... **15.00 to 90.00**
- All-over Laces**, in beautiful patterns, 18 inches wide, ivory, white or Paris ecru. Per yard... **1.25 to 7.50**
