BORDEN TOURS WATERLOO IN TRIUMPH

Gives Addresses in Berlin, Waterloo and Galt—A Big Meeting at Guelph in the Evening.

GUELPH, Sept. 29.—(Special).—This was to have been a day of rest for Mr. Borden, but it turned out to be one of the busiest of his Ontario campaign.

It included two impromptu meetings and a round of visits, which kept him on the move thru the group of Waterloo County manufacturing towns, and concluded with a big meeting in the opera house here to-night.

Early in the afternoon the touring Conservatives were taken from Galt to Berlin by trolley. There a reception was held in the Berlin Club and a visit made to St. Jerome's Catholic College. Afterwards the chief places of interest in the town were inspected, with the exception of the birthplace of William Lyon Mackenzie King.

By auto the trip was made to Waterloo, and also there had been a notice of a meeting, at which the council chamber and Mr. Borden and Mr. Hanna made brief speeches.

Mr. Seagram, the former member, introduced Mr. Borden. Every member of the Conservative leader, from Halifax to Waterloo, had justified the prediction that the government would be defeated on Oct. 26. The group of towns visited during the day, Galt, Berlin, Preston, Hespeler and Waterloo, were object lessons of the benefit of the national policy.

Mr. Borden declared that the Liberals had not abolished the principle of protection, but there was the difficulty that they practised it they did not believe in it, except for the extension, and they could not be expected to give the full benefit that should be derived from it.

Hespeler's object lesson was a telephone message was sent to Hespeler that Mr. Borden would speak there in an hour's time, and when the party arrived they found the hall crowded.

Hespeler is an example of the inadequacy of the protection afforded industries by the Laurier government, the largest wool mill in the place, which two years ago employed 600 hands, being now unproductive.

Z. A. Hall, who presided, struck the note that "Hespeler wants more adequate protection," and Mr. Borden, in his ten-minute speech took this for a text. He said the Conservatives in the house of commons had been preaching adequate protection. For some years, when everything was going on swimmingly, perhaps, they imagined that the people did not pay sufficient attention, but they were wrong in preaching the same doctrine in every part of the country. On the other hand the Liberals were protectionists in one place and free traders in another.

The basis, Mr. Borden said, of Sir John Macdonald's idea was not to help the manufacturer, but to promulgate a policy which would give the people work to all the people of this country, and the Halifax platform was only an adaptation of the policy of Sir John Macdonald.

Hon. Mr. Hanna also spoke briefly. A big meeting.

Mr. Borden addressed a great meeting in the opera house to-night. Long before his arrival the auditorium was filled to the dome and hundreds could not get within the doors. An overflow meeting was announced, but the overflow being thrown open it was found that the chairs had all been removed and the second meeting was abandoned.

Mr. Borden was escorted from the depot by the Guelph Musical Society Band and hundreds of citizens, many carrying torches to light the way. He was chairman of the main meeting, and among those with him on the platform were J. P. Downey, Hugh Clark, Major Gray, member of the legislature, and Mayor Newstead, the Conservative candidate. In a fifteen minute address, announced his opposition to bounties on immigration and his adherence to the principles of the party, but at the same time he said if elected he must be free to ensure his friends if they should be wrong.

After Dorothy Drew had presented a large bouquet to Mr. Borden he began his address. Touching on Mayor Newstead's declaration of independence, he said if the Conservatives succeeded to power and violated the promises made in opposition, but he was not so sure that he would not have ratified the contract with the G.T.P. It was an absurd proposition to build the non-productive portion of the railway and not also to own the paying portion.

Passing on to a discussion of the financial condition of the country he declared that if every industry in this country were destroyed the government would claim credit for the consequent increase in the revenue.

System Can't Beat Monte Carlo Bank

Lord Rosslyn Matches Skill Against Sir Hiram Maxim at Roulette and Loses \$50,000 Dummy Cash.

LONDON, Sept. 29.—A unique gambling contest between Sir Hiram Maxim and Lord Rosslyn came to an end this afternoon and shows defeat for the system advanced by the latter.

Lord Rosslyn claimed that by his system of play it was possible to win at roulette against the Monte Carlo bank. Sir Hiram said this was impossible, and in order to settle the controversy the two men began playing roulette in a Piccadilly Club ten days ago, Sir Hiram collecting the bets in the same way it is played at Monte Carlo. Lord Rosslyn started to play with \$50,000 in dummy money, and the bank had an equal amount. Lord Rosslyn's system has been proved to be utterly fallacious. At one period of the contest he was about \$16,000 to the good, but for the past three days the bank has been a steady winner, and his lordship's capital in "dummy" money became exhausted this afternoon.

ONE CANDIDATE QUILTS MADE MONEY TOO EASY

A. W. Fraser, K. C., of Ottawa is Outrun by Premier to Step Out From Ottawa Contest.

OTTAWA, Sept. 29.—(Special).—Under orders from Sir Wilfrid Laurier, which he conveyed to him personally this morning, A. W. Fraser, K. C., the English-speaking Liberal candidate for Ottawa, to-night stepped down for H. B. McGeorge.

Mr. Fraser's operations among timber limits in the Northwest, whereby he secured very valuable concessions for next to nothing from the interior department, have furnished the Conservatives with a campaign weapon which they have been using to advantage.

One limit which Mr. Fraser got for \$50,000, under conditions which practically prevented competition, is now being advertised for sale at half a million dollars.

NUMBER OF IMMIGRANTS IS OUT TO NEARLY HALF FOR 8 MONTHS Various Ports Show Almost 100,000 Reduction—Influx From U. S. Unchanged.

OTTAWA, Sept. 29.—(Special).—The total immigration into Canada from January to August was 117,533, as compared with 216,772 for the same period last year, a decrease of 46 per cent. Immigration at ocean ports was 74,569, as compared with 175,816, showing a decrease of 57.4 per cent. for the eight months.

G. T. R. EARNINGS. Half Yearly Report is Issued—Big Decreases Shown.

(Canadian Associated Press Cable.) LONDON, Sept. 29.—(C.A.P. Cable.) The G. T. R. half-yearly report shows that while weekly returns showed a falling off of \$63,000 sterling. In gross earnings the actual decline was \$462,000. There was a total reduction of expenditure of \$484,200, the main saving occurring in expenditures on maintenance of way and equipment, viz., \$306,300. The ratio of working charges, amounting to \$2,098,953; the earnings fell from 72.33 to 71.8 per cent. Appropriations for pensions were \$7150, instead of \$40,000. The total train mileage was 9,460,756, or 211,067 decrease. Gross receipts were \$2,213,192, and the total net revenue receipts \$905,671, prior charges absorbing \$725,177, and deficiency on Canada Atlantic, \$28,891. After meeting the deficiency on the Detroit-Grand Haven Milwaukee of \$46,573, a total of \$187,248 is left for dividends.

FATAL FALL Laborer Slips Down Hoist and Dies in Short Time.

Thomas Plummer, a laborer, who lived at 145 Hamilton-street, died in the General Hospital at 7.30 last night as the result of a fracture of the skull and other injuries sustained in a fall of one storey to the ground floor in Wicksteed & Craig's millery at the corner of Front-street and Eastern-avenue at 5.45 last night.

PROF. COLEMAN'S WORK. Has Been in Unexplored Parts of the Rockies.

EDMONTON, Alta., Sept. 2.—(Special).—Prof. Coleman, professor of geology at the University of Toronto, passed thru here for Toronto after spending two months exploring sections of the Rocky Mountains west of J. P. Fraleigh, 290 Broadview-avenue, and removed in the police ambulance to the hospital. He never regained consciousness. The chief coroner was notified of the death. An inquest will be held.

COL. LESLIE FREED BY THE GRAND JURORS

"No Bill" Returned on Charge of Theft—Crown, However, is Open to Continue the Prosecution if Desirable.

The sessions grand jury yesterday brought in "no bill" in the indictment charging Col. J. Knox Leslie with the theft of \$18,946.53 from the Industrial Exposition Association.

The jurors were: Jacob J. Copeland, foreman, 160 Spadina-road, Toronto, estate broker; James Dimmo, lot 9 of con. 2, East Markham, farmer; Ed. Irvine, 68 Dundas-street, West Toronto, shoe merchant; Dugal MacDonald, lot 19 of con. 4, Vaughan, farmer; George MacFarlane, lot 7, con. 7, of East Gwillimbury, farmer; D. H. Sprague, lot 15, con. 4, North Gwillimbury, farmer; Abraham Stickey, lot 7, con. 5, West Whitchurch, farmer; Michael Umfrey, lot 19, con. 20, Georgina, farmer; James Dicken, Aurora, moulder; J. George M. Arnold, lot 25, con. 3, Vaughan, farmer; Henry B. Beaver, 66 Amelia-street, Toronto, contractor; Alexander Macdonald, Toronto, broker.

The witnesses examined by the jury were: Mayor Oliver, Messrs. Vigeon, Hutchens and Anderson, auditors; Dr. Orr, W. K. George, Sergt. Verney, Detectives Twigg, City Solicitor Chisholm, and Mr. Morgan.

When at the end of a list of minor true bills the clerk read out "John Knox Leslie, charged with the theft of \$18,946.53 from the Industrial Exposition Association." Judge Winchester looked surprised, County Crown Attorney H. L. Drayton looked surprised, and even H. H. Dewar, K.C., counsel for Leslie, who was in court at the time, conducting the defence of Dr. Cook, looked as if somebody had moved up Christmas several spaces on the calendar.

This does not, however, of necessity, close the Leslie case. Should Crown Attorney Drayton seek it, Judge Winchester may grant his fiat allowing the presentation of another bill to the grand jury. This bill may be presented either to that sitting or to the grand jury at the next sessions. It may be presented upon the evidence as it now stands or upon that together with any further evidence, while the county crown attorney may gather.

One matter which should hasten the action of Mr. Drayton, if any is contemplated, is the near approach of the investigation by Judge Winchester to the accounts and affairs of the Exhibition Association.

Col. Leslie looks like an important witness at this investigation, and should be so called by the crown, it is doubtful if he could be properly prosecuted without giving his right to protection as a crown witness.

AUSTRALIA'S ARMY. An Increase of 32,000 Men is Recommended by the Government.

(London Associated Press Cable.) LONDON, Sept. 29.—In the Melbourne house of representatives the minister of defence moved the second reading of the bill the commonwealth would grant instead of 20,000 men, enlisted under the voluntary system, \$2,000, costing only \$100,000, serving more than they are now paying.

BOY'S FEET CRUSHED. Willie Hutchins in Hospital—One Foot Amputated.

While William Hutchins, 29 Delaware-street, was playing in the G.P.R. Railway yards at the foot of Bloor-street, just above the subway on Line-down-avenue, at 3 o'clock yesterday afternoon, he was run over by a freight car and both feet were severely injured. He was taken to the Western Hospital. There it was found necessary to amputate his left foot above the ankle and the right foot will probably be taken off. Just how the accident occurred is not known, but the lad was found lying by the tracks by men working in the yards.

INSANITY TO BE PLEA

Expert Physicians From Toronto to Testify on Behalf of Murderer Creighton.

OWEN SOUND, Sept. 29.—(Special).—What may prove one of the most notable criminal cases in Canadian records opened here this afternoon, when James Creighton, self-confessed murderer of his wife, Lillie Eliza Creighton, and her two daughters, Katherine Belle Chapman and Clair Belle Chapman, by a previous marriage, on May 26 last, at their home on Union-street hill, came up for trial.

The assizes opened with every seat in the court room filled, while the aisles and corridors were packed with humanity eager to get a glimpse of the prisoner and listen to any evidence which might be offered. The case is the only criminal case to be heard.

Justice Riddell opened the court promptly at 2 and after a few explicit instructions to the grand jury, left the case with them.

It was only a short time before the grand jurors returned a true bill in each of the three separate charges of murdering the mother and her two daughters.

Creighton was then brought up from the cells, and as he was led between two constables a more dejected spectacle could scarcely be found. Trembling, he was led to the prisoner's dock where, when the indictments were read he entered the plea of not guilty. He wore a bandage over the eye where the self-inflicted wound was made after he despatched his three victims.

The evident intention of the defence is to plead insanity and several experts will be called, among them being Dr. Boomer of Mimico Asylum, Dr. Bruce Smith, Inspector of prisons and asylums; Dr. J. M. Cotton and Dr. Clark of Toronto Asylum. Several local doctors have also been summoned, the not as expert witnesses.

George Tate Blackstock, K.C., is conducting the case for the crown, and A. G. MacKay, K.C., M.L.A., is for the prisoner.

NEW CANADIAN LOAN. \$25,000,000 is Wanted From the English Market.

(Canadian Associated Press Cable.) LONDON, Sept. 29.—It is understood that the Canadian Government is on the point of issuing \$25,000,000 sterling 3-1-2 Dominion loan at par. The Financial News points out that in the first eight months of 1908 \$1,984,500 have been supplied for development in Canada, almost all from England.

PROUD OF OIL TRUST ALLIES

Sees No Reason Why "Standard" Funds Shouldn't Help South—Hearst's Letters.

NEW YORK, Sept. 29.—John D. Archibald, vice-president of the Standard Oil Co., to-night issued a statement that the letters which Mr. Hearst has been producing showing intimate relations between the company and politicians were stale three years ago by a trusted employe from the correspondence files and letter books, and offered for sale to the New York newspapers. Some of the theives offered to return for a consideration.

Former U. S. Senator John L. McLaurin (South Carolina) in an announcement replying to the statement that \$1000 was sought for him from the Standard Oil Co., says:

"For that correspondence I have no apologies to make. At the time the letters were written I had the honor to enjoy, and am proud still to possess, the friendship of Mr. Archibald, for whom I have the highest regard."

"At the time the letters were written I was engaged in a bitter struggle in which was involved, not only my own political future, but the economic and political principles for which I stood, and which, stated briefly, meant the emancipation of the south from the tyrannical grip of Bourbonism and the 'bloody shirt' into the freedom of an enlightened self-interest and the progress of an intelligent industrialism."

"The support of these principles and the hope of this progress, I saw then no impropriety in enlisting, if practicable, the assistance of the most progressively administered and the most intelligently officered corporation that human intelligence has yet produced."

"The constituencies that they represent do not hesitate to take Mr. Carnegie's trust-produced and tariff-protected money for their churches and libraries, or to accept Mr. Rockefeller's largesse for the education of the negro whom they have disfranchised."

"It is the fashion of present day political hypocrites to decry the corporation in public life to prescribe the influence of wealth; but in this country and in this age, wealth is, and must be, the reward of intelligence. I am not willing to be considered amongst those cowardly enough to deny it, the influence which intelligence has always exercised under every form of government thus far advised. Of a government of ignorance I have had enough in my native state. I hope for and shall continue to work for a government of intelligence."

HANDBOOKS ARE RAIDED BY POLICE

Dozen Places Are Entered as Whistle Blows Noon, and Score of Men and Two Women Taken Into Custody.

HANDBOOK.—A system of betting upon races very similar to that conducted at race tracks, and the bettor has only the excitement of his bet and does not see the race. The odds are not displayed upon a board, but are taken as printed next day. The bets are recorded and payment is made the next day. The cigar stores and saloon books are the commonest.

Precisely at noon yesterday 10 squads of police swooped down on as many alleged handbook keepers. In every case a "keeper" was got and in many instances they were landed with the goods. The police, who have been gathering information by making bets in the suspected places, believe that even without any information gathered in the raid, they have secured sufficient information. They had arranged the time of the raid for later in the day, but the fact that many of the men would have left for the Hamilton track brought the action on earlier than was originally intended. The keepers are charged with keeping common betting houses and the frequenters in kind.

Those arrested as keepers were: Russell B. Leach, Brook-avenue, with John Dashwood ("The Major"), both as keepers of 15 James Building. John Allison, as keeper of 12 East Queen-street, with Allan Pardo, 44 Irwin-avenue, as frequenter.

W. W. Worthington and Mrs. Worthington, 6 Ashport-avenue, as keepers of 23 Yonge-street Arcade, with J. L. Gilmour, a frequenter.

Walker H. ("Hooker") Dixon, as keeper of 304 East King-street, with Albert Bagley, 304 East King-street; Louis Zaffee, 371 East King-street, and Geo. Layden, 146 Sherbourne-street, as frequenters.

George Mcweeney, 38 Kensington-avenue, and Joseph Glass, 55 1-2 King-street, as keepers of 39 Colborne-street. William Murphy, 99 Victoria-street, and John Hare, keepers of 11 1-2 East King-street, with Douglas Gadoway, as frequenter.

Michael Horan, aka keeper of 656 West Queen-street, with Joseph Warner, 139 Gorvale-avenue, as a frequenter. Henry Strong, as keeper of 602 West King-street, with Phillip Abbott, Peter-street, and Eddie Kidd, 602 West King-street, frequenters.

James Hickey, as keeper of 10 Yonge-street, and Bernard Shea, as a frequenter. Sarah Michael, as keeper of 1026 West Queen-street, with Alexander Michael, Robert Kirkwood and William Michael, as frequenters.

Phone Gave Him Away. Detectives Wallace, Kennedy and Dickinson, with a recruit, descended upon room 15 in the James Building at King and Yonge-streets. One man entered a bare room in which were only an old man, John Dashwood, known as "The Major," a desk, a telephone and several racing forms. One man entered and was asked his business. He looked about, declared it was in connection with a mining deal and then departed. "The Major" intimated that the business he conducted was no business of the police.

Then the phone rang and Detective Wallace answered. "This is No. 34," he was told. "Place 34 on Dolly Perkins and if she's scratched put two on Royal Onyx." These horses were on the Hamilton card. Dolly Perkins did not run. Royal Onyx, also known as "The Pantrack" was speaking and that King Gobalt, a daily Montrose were the good things of the day.

Others called asking for "Leach," but he was not there. Later he went to the detective office with his motor and gave himself up. He is a young man, said to be a clergyman's son. He was later bailed by his brother on a \$1000 bond.

One Man Is Ill. When Detectives Mackie and McKinney, with three recruits, entered John Allison's cigar store at 12 East Queen-street, they closed the door. Several men came to the door with money or tickets in their hands. They were told to get out. The phone rang and one George Hall asked Detective Mackie if the police had got Jack as he lived next door to Bill and would tell him. Allison, who was fine in the prosecution following the raid of 1907, was not present, being ill in bed at his home, where he will be watched.

In W. W. Worthington's cigar store in the Yonge-street Arcade, Mrs. Worthington was taken as keeper by Detective Archibald and two recruits, J. L. Gilmour was taken as a frequenter and Mr. Worthington later gave himself up. He also figured in the raid of 1906.

Walker (Hooker) Dixon, now before the police court for theft of several hundred dollars, was taken as the keeper of a cigar store at 304 East King-street, where there were about three boxes of cigars and a number of racing forms. Here three frequenters were taken. Geo. Layden came in to pay a bill, he said. He could not say for whom, nor how much, nor for what. Dixon came in later. He said a man named Cuff, and not himself, ran the place, but he was taken along.

French Fads.

A very new button being used on expensive new models of motor is large and round and its cover is a tiny mirror rimmed with gold. The gown on which these buttons were seen was not for the stage, writes the Paris correspondent of Dry Goods, therefore we may possibly see them on the clothing of ultra-fashionables before the season is very far advanced.

Boas of natural roses or orchids or any other flower of goodly size and general popularity are now a fad in Paris and this is probably the carry-over of what will later become a full-fledged fashion in artificial flowers, helped out as a softener by crushed rosettes or inter-twined of malines of shades matching the blossom.

Ever and anon someone asks a conundrum. Only Friday evening an absent-minded gentleman nearly stamped a small circle by asking, "What is beauty?" As if it were not quite impossible to give a satisfactory definition of beauty. No two men agree on the subject, and the general views prevailing in different lands differ widely. In some countries the stouter the lady is the more she fascinates.

Countless old withered, dried-up philosophers have written treatises on the subject of beauty. Plato, of whom one wishes to speak with all possible respect, maintained that the beautiful could not be separated from the good—a contention which, one fears, indicates that while Plato knew a good deal, he did not know everything. Another old friend, Immanuel Kant, seems to founder hopelessly.

We Americans are a practical rather than a speculative people. Average persons are content to know what they like without knowing why. In our case the beautiful (as we see it) and Heaven knows our taste is often shocking rather than trying to discover the idea of the beautiful.

Yesterday in the sessions, Dr. Wm. Russell Cook, with an office at 1088 West Bloor-st., was placed on trial on a charge of administering drugs and using an instrument to procure an abortion on Mabel Arnold.

He was not placed in the dock, and throughout the day, when he was not giving evidence, sat beside his counsel, H. H. Dewart, K.C., and Mr. Earnsley, Crown Attorney Drayton prosecuted and Mr. Arnold, father of the girl, and his wife, Trop Pennville, Ontario, were in the court room all day. The public were not admitted.

When placed in the witness box Mabel Arnold repeated the evidence she had given in previous examinations. She broke down under Mr. Drayton's questions, and he desisted, but Mr. Dewart secured the admission that it was the doctor who had advised her to inform her father as to her condition.

He then told of his efforts in trying to find a proper home for her, as her mother-in-law would not take her in. Mr. Drayton put the doctor thru a stiff cross-examination, and at times had him rather excited. Going on to talk of the operation he asked: "So your wife refused to tackle the operation yourself, but were quite willing to allow another doctor to take that chance. I can't for the life of me see how it is you were so interested in the girl when you had met her for the first time in June."

Dr. Cook answered: "Had I not a wife and child myself, I believe I would have taken the chance and performed the operation; but, as I have said, I knew of other doctors who did that kind of work and I wouldn't do it myself."

Mr. Lalonde, the local representative of the Park, Davis Drug Company, was then called to the box to explain to the jury the materials making up the pill the prisoner had given the girl. The session ended for the day by medical evidence given by Dr. W. C. Eggleson and Dr. T. B. Webster. Their evidence went to show that the doctor had been treating the girl for a disease. Dr. Webster's medical authorities show that the medicine administered was often used to prevent an abortion.

NOTE AND COMMENT

The popularity of racing was evinced at Hamilton yesterday when a splendid crowd of about 3000 attended, including 1000 from Toronto.

Four of the races yesterday were at 6 furlongs and less, while an improvement is shown in the two mile events.

It is conceded that two-year-olds can easily negotiate the 6 furlong route in time of the year.

With commendable consideration the authorities swooped down on the local track on Monday night at Hamilton.

Several of the thousand of the horse followers who milled at Hamilton yesterday congratulated themselves on hearing that happened to some one who were not to get up any money.

Tuesday saw a lightening up in the two mile races, Chicago taking the lead in the National by a single point over the Ontario.

The latest despatch would indicate that Joe Kelley may repeat. After signing two years with Toronto he jumped to Boston, and with a two-year Bostonian contract in his pocket it is stated he will come back again.

Giants Relinquish Lead to Cubs Leaders in American Win Two

Detroit Win Two From Washington—Cleveland Make a Grand Rally That Results in a Win in First Game—Second Game Was Easy.

DETROIT, Sept. 29.—In wintry weather, Detroit and Washington Clubs played a double-header to-day, the home team taking both games.

At New York.—By splitting a double-header with Philadelphia to-day, while Chicago and Pittsburgh were winning in the west, New York relinquished first place in the pennant race.

At Cleveland.—Sept. 29.—Cleveland won this morning's game from Philadelphia by the score of 5 to 4. In consequence of the cold there were many errors by the players.

At Pittsburgh.—Pittsburgh won both games of a double-header to-day by scores of 7 to 0 and 6 to 5. The visitors had little chance to score in the first game.

At St. Louis.—St. Louis won both games from New York to-day. New York gave Pittsburgh a hard-fought battle in the first game, but was overpowered by four hits, netting St. Louis six runs.

At Chicago.—Chicago won both games from New York to-day. New York gave Pittsburgh a hard-fought battle in the first game, but was overpowered by four hits, netting St. Louis six runs.

At Cincinnati.—Cincinnati to-day failed to bunt hits off Brown, while Chicago coupled hits with two wing passes. Pinker's home run stood out as the only feature of the game.

Favorites to Worse than Second in Opening Day at Hamilton

Five of Them in Front Including Bouquet—Black Hawk is the Long Shot to Land.

Favorites made a somewhat remarkable record on opening day at Hamilton, as not one of them finished worse than second. King Cobalt, Prince of Pilsen and Bouquet won Sir Alveot's second choice, Black Hawk, a trick, took the lead in the stretch, but was overtaken by Pretension. Black Hawk, another good thing, romped in ahead of Gibson, while Miss Catesby drove home ahead of Redmore.

The racing was first-class, the last was the only driving finish. A cool wind blew from the west, and the runners showed up some in the stretch. On account of the long dry spell, the effect of Monday's rain was not noticeable, and the track was fast.

The club offerings amounted to \$300, in \$100, \$50 and \$20 purses, of which the Prince of Water Handicap, 1 1/4 miles, was the feature. Bouquet started favorite, at 1 to 2, and her running indicated the odds were ample. Musgrave had only one chance, a round moving up on rounding the turn. Col. Jack was second and Red Gauntlet third, just as they were played.

J. W. Colt's Prince of Pilsen showed clever form thru the field, winning the stepphase without a mistake. On the Hamilton good thing, went out at flag fall, but the Prince kept up without effort, taking the lead on the last mile. Bannell challenged at the last jump, but it was a vain effort. Awaugang beat Redmore, but he was not in the race.

King Cobalt scored his first win in Canada in the first race without effort. In the second and Aronack third. In the second race, 2-year-olds, Sir Alveot again beat Simcoe, Alice third. Gold Heart, a well-supported second choice, won the fifth. Pretension also ran second, and Almee C. third.

Black Hawk was the real good thing in the sixth, winning from barrier to wire and landing a lot of wise money. Gibson, favorite, second, and Garrett Wilson third, a procession all round. They burst up and a lot of money on Little Minnie and Herman Johnson.

Miss Catesby came from behind and won the last race of the day from Redmore, Gambrius third. There was a plunge on Chief Hayes at post time.

Power's Riding the Feature. LOUISVILLE, Sept. 29. (Special.)—Jockey V. Powers' riding was a feature of the day, the second of all earned at Douglas Park, and the first in the fast. Four favorites out of six placed brackets. The feature race of the day was won by Lady Martha. Tom Mc-

ST. SIMON'S THE SIRE

Eleven Grandsons Earned Breeders \$77,250 on English Tracks This Year.

There are various ways in which the results obtained at the Doncaster sales may be analyzed and made to yield serviceable information. What class of stock it is that gives the best results to the breeder? London Sporting Life's special commission? We can all answer that question off-hand in a general sort of way, but there is nothing like getting at concrete facts. To this end I have been sifting the wheat from the chaff. I find that of the 25 yearlings that were last week sold under the hammer, 55 made 500gs or over; that is to say, 22 per cent. This proportion is fractionally less than that attained last year, when 64 out of 247 made 500gs or over. If these figures rather tend to disprove my contention that buyers this year evinced a strong tendency to concentrate their attention on the highest class of yearlings. But if we analyze still closer, that tendency is clearly revealed, for we find that no fewer than 27 of the yearlings sold last week ran four figures, while last year only 14 made 1000gs or over. The 27 that made 1000gs or over brought in 40,250gs, which is 49 per cent. of the total of 82,000gs produced by the sale. There is much food for thought in these statistics. Deducing the 82,000gs realized from the total sold for 500gs or over, there is a balance of 24,000gs, obtained from the remaining 160 lots, or an average of only 150gs per lot.

I have gone to the trouble of making out a list of the 57 yearlings that sold for 1000gs or over, and I am afraid I would consume too much of my space if I reproduced it in extenso. I shall, therefore, only set forth the names of the four figures. Here they are, arranged in order of value: Guinness, B.c. by Perimmon—Simplify, by Arklow (brother to Ormonds), 2200; Daring, by Arklow—Dorami, by Ben D'O'R (brother to Lonsdale), 2500; Ch.c. by Arklow—Lonsdale, by Gai-lor (brother to Lonsdale), 2200; Hauie (Mr. S. Darling), 2000; Ch.f. by Gallinule—Orbit, by St. Simon, 2000; B.c. by Rook Sand—Stolen Love, by Buccanear (brother to Opera Dance), 1800; Ch.c. by Carbine—Goldseeking Gal by Goldseeker (Capt. Dewhurst), 1800; or by Mr. F. Cobbe, by Alveot, by Sterling (Capt. Bewicke), 1800; b.c. by Gallinule—Hacker's Pride, by Hacker (Lord Lytton), 1700; B.c. by Perimmon—Lady Linton, by Ladus (Mr. Casale), 1650; B.c. by Flying Fox—Blossom, by Gallinule (Mr. Casale), 1650; c.c. by Ajax—Mary Stanton, by Isom (Mr. H. Lytham), 1600; Ch.f. by Perimmon—Kestrel Cherry, by Kendal (Mr. Casale), 1450; 10 counts of Desmond, by St. Simon—Favora, by Hymar (Mr. R. Sherwood), 1400; or by Mr. F. Cobbe, by Alveot, by Hampton (Capt. Bewicke), 1400; Ch.c. by Desmond—Savannah, by Galeazzo (Mr. F. Cobbe), 1250; Ch.f. by Grey Legs—Elizabeth M, by Watercourse (Mr. F. Cobbe), 1250; B.c. by St. Frusquin—Orpha by Orme (Mr. A. Day), 1200; B.c. by Speedy—Dorami, by St. Simon (Mr. S. Darling), 1150; B.c. by St. Serf—Verdina, by Prim (Mr. S. Darling), 1150; B.c. by Ayralthe—Lady Alwyne, by Camballo (Mr. Lyvock), 1100; B.c. by Linsdale—Stagodon, by St. Frusquin (Sir R. Jardine), 1100; Ch.f. by Gallinule—Vortex, by St. Angelo (Capt. Dewhurst), 1050; B.c. by St. Frusquin—Maid of the Mint, by Minting (Mr. H. Lytham), 1050; B.c. by John O'Grady—Opera Dance, by Maceath (Mr. C. Archer), 1050; B.c. by Eager—St. Albion, by St. Simon (Mr. W. Clark), 1000; B.c. by St. Serf—Crocus, by Martagon (Mr. S. Darling), 1000; Ch.c. by St. Frusquin—Lady Sevington, by Gallinule (Mr. F. Lambton), 1000; B.c. by Linsdale—Stagodon, by St. Frusquin (Sir R. Jardine), 1000.

Beyond all doubt the most striking feature of the above list is the preponderance of the sons of St. Simon. The 30 yearlings by Perimmon made 60,000gs, the three by Desmond realized 40,000gs, St. Frusquin for three sold for 22,000gs, by St. Serf yielded 25,000gs. That is to say, these eleven grandchildren of St. Simon have put 127,000gs (about 17,500 in the pockets of their breeders. In the corresponding list last year there were only six youngsters by sons of St. Simon, and they made 78,000gs.

It is what I deal in. My stuff comes direct from the stable and is the kind of info that gets the money as my record amply proves. I have 'delivered the goods' ever since my advent into the game. The truth of the matter is, I'VE GOT AN ACE IN THE HOLE, and I'm the boy who knows how to nurse a good thing.

MR. BORDEN AND THE STRIKE

Mr. Borden has grown into the affections of the people of Ontario by his campaign of argument and reasonableness of statement. He has declared for civil service reform, for economy, and for efficiency in the administration of departments in a way that convinces the electors of his high-mindedness and honesty of purpose.

MAINE AND THE INITIATIVE AND REFERENDUM

Among the matters upon which the State of Maine voted at the recent election was the proposal that the initiative and referendum be made part of its constitution. It carried by a considerable majority and in Maine as in the State of Oregon, ninety days will in future elapse between the date of the passing of an act of the legislature and its actual coming into effect. The object of this provision is to afford time for consideration of the measure by the electorate and for the formation of public opinion regarding its advisability and acceptability.

PROFITS UNDER MUNICIPAL MANAGEMENT

People on this side of the Atlantic are constantly told that municipal enterprises in the United Kingdom involve a loss to the ratepayers. People here are also told that British cities are getting tired of running their own public services and that what is plausibly called a wave of antagonism to public ownership and operation of franchises is passing over the face of the land. These are the kind of paragraphs inspired by the office and agencies established for the purpose of helping along the efforts of private company promoters to exploit civic services and they are readily accepted and republished in order to scare United States and Canadian municipalities from following the example set by British communities.

Earlier in the month the inland revenue commissioners for the United Kingdom issued their report for 1907-8 and in the section devoted to income tax it contains the particulars of taxable profits made by individuals, companies and others liable to assessment, and among them are the public service undertakings of local authorities. For revenue purposes, income tax is levied on the net profits left after deduction of working expenses, but without deduction of interest on the capital invested in the business and the report therefore does not show the absolute free profit made by British municipalities. But the returns have their value because they show not only the extent and earning capacity of the enterprises carried on by British municipalities and local authorities, but their steady and considerable increase. As the profits from public services were not distinguished in the income tax reports until the fiscal year 1900-1 a comparison is only possible from that date and the figures down to 1906-7 stand roughly as follows:

	No. of Assessments	Profits
1900-1	4180	\$37,700,000
1901-2	4225	37,200,000
1902-3	4453	40,000,000
1903-4	4749	47,500,000
1904-5	4822	53,000,000
1905-6	5028	68,500,000
1906-7	5422	76,800,000

In these amounts are included for 1906-7 gas works with an amount taxable of \$12,000,000; waterworks, \$22,000,000; canals, \$10,000,000, and "business not otherwise detailed," embracing chiefly street railway and electricity supply, close on \$22,000,000. For that year, the last available, the number of assessments advanced over 7-8 per cent, and the amount of taxable profits by close on 9 per cent over those of the previous twelve months, which in turn showed a large increase over the immediately preceding year. The official figures show British municipalities to be more than ever favorable to public ownership and operation of their franchises, and provide effective and reliable answer to the erroneous notions derived from interested and biased sources.

BIG FREIGHTER AGROUND

DETROIT, Mich., Sept. 29.—The steamer Arthur Orr is aground and in bad shape on Bois Blanc Island above Cheboygan and has been temporarily abandoned. The Orr is a 334-foot steel freighter of the Canada Atlantic Fleet of Duluth.

Accident at Soo

SAULT STE. MARIE, Ont., Sept. 29.—The steamer Lyman C. Smith of the United States Transportation Company, struck the south pier at the Canadian canal this morning and stove a hole in her starboard bow 14 feet long. Canal traffic is impeded. The steamer was down bound, laden with ore. The Lyman C. Smith is 625 feet long and 52 feet beam.

For an enjoyable trip, go out to Scarborough Fair this afternoon. Carry every 15 minutes from the Woodbine.

IN THE LAW COURTS

High Court—Justice Latchford.

Plaint v. Western, appeal from report. Plaintiff v. Western, strike out statement of claim. Re Youart, Estate, to discharge executors. Toronto v. Laing, to continue injunction. Re Solicitor (John MacGregor), appeal from taxation. Saskatchewan v. Leadley, appeal from master in ordinary. Martin v. Hopkins, to continue injunction. Divisional Court. Ross v. Chandler. Stringer v. Hay. Mercer v. C.P.R. Barton v. Lash. Lothhouse v. Lothhouse. Driwell v. Hamilton St. Railway.

Claiming that the Hydro-Electric Commission are not constructing such a line as was authorized by the statute, O. D. Cameron of Toronto, on behalf of Wm. Death of Brampton, has issued a writ to have his agreement with them set aside, which permits their crossing his farm. The applicants want a declaration from the court that the line intended to be built and operated by defendants will, according to the draft plans, be dangerous to the life and property of the plaintiff, and a nuisance.

Master-in-Chambers Cartwright instructed the Chosen Friends Society to pay into court \$143.00, the share due Francis Elliott under will of his mother, Hanna Oler. Elliott has been missing and the money will be in court till he has been away long enough to be considered dead.

A winding up order of the Ontario Bank was granted by Justice Latchford yesterday with the Royal Trust Co. as provisional liquidator.

Justice Latchford granted an order winding up the Red Rock Mining Co., directing a reference to Official Referee Kappeler, and appointing H. W. Edgar provisional liquidator. R. Parmenter appeared for the petitioner yesterday.

MODERN JUSTICE.

Christian Guardian: "From one of our western exchanges we glean the following facts: 'A boy of sixteen, working for his living, was engaged in delivering mail and collecting from customers, his employer being a woman in a small way of business in whose house he lived. In some way, how we are not informed, he found himself short \$145 in his accounts, and being afraid to face the consequences he foolishly ran away, leaving a note behind acknowledging that the amount was due from him, and undertaking to make it up. That he was not a criminal in the making was shown by the fact that he took only his own belongings from him. A charge of theft was laid, and he was arrested and sentenced to six months' imprisonment for this. So far as is known, the first offence against the criminal code of which he had been guilty.' A short time before a number of boys who had been systematically robbing neighbors' houses were dismissed by the same magistrate without even a fine, and a prisoner who had been convicted of a series of fraudulent falsifications received a sentence which amounted, in all, to a month less than what the boy received. Of course, it is admittedly difficult to dispense perfect justice in any case, and we always hesitate to criticize a case without possessing full particulars, but if the facts are as given by our contemporary, then surely it is time that a more equitable and wise method of administering justice were adopted in the locality referred to. If all the facts are given above, then it seems little short of an outrage to send a lad to jail for six months for such an offence. Surely humane methods ought to prevail in our courts to-day!'"

AND IN TORONTO THE JAIL SENTENCE OF THE magistrate is considered unjust by the county judge and a fine is imposed. It would seem that sentences nowadays are not a matter of justice, but of individual opinion.

COBALT --- Chinese Bankers Are Trading in Stocks of Silver Mines --- COBALT

TRADERS TAKE ADVANTAGE OF SMALL OUTSIDE REALIZING

Gobalt Securities Are Easier, But Offerings Are Well Taken and Stocks Are Scarce.

World Office, Tuesday Evening, Sept. 29. Profit-taking has overtaken the buying powers in many of the Cobalt stocks and temporarily caused a decline in the price of most of the listed issues. Floor traders on the exchange have not been slow to observe this position and commenced to put out short lines of stock this morning on the belief that further realizing will be done. The Cobalt stocks, however, have not been slow to observe this position and commenced to put out short lines of stock this morning on the belief that further realizing will be done. The Cobalt stocks, however, have not been slow to observe this position and commenced to put out short lines of stock this morning on the belief that further realizing will be done.

Regular Dividend. The Nipissing Mines Co. has declared the regular quarterly dividend of seven per cent, payable Oct. 20. Books close Oct. 2 to 21.

The offer of \$1000 has been made for a seat on the Standard Exchange. Five years ago these accounts went a-begging at \$50 each, but the mining exchange business has undergone a change since then.

LOCATED ONE HUNDRED VEINS.

COBALT, Sept. 29.—The Nipissing people have had a gang of over 100 men trenching all thru the summer, with a view to the discovery of veins. When they locate them they are reported, marked, and left to be worked at a more convenient season. Nip has over 100 veins thus located, and isn't working half of them, but their location is all down on the company's map, and when the company's plans for the thorough underground development of its vast holdings are put in operation these veins will be tapped and worked, as well as probably many another vein which falls to show on the surface.

GOOD AS COBALT.

Montreal River Said to Be a Second Cobalt.

COBALT, Sept. 29.—John Redington, mine captain of the Conisago, returned last night from the Montreal River. He visited the Otisse and Downie properties at Silver Lake, and the Otisse, Evans and Blackburn properties at Miller Lake.

Speakers of the district generally, Mr. Redington said the prospects there are as good as they were in Cobalt in its early stages of development.

Arthur Cox, engineer to the government Railway Commission, will probably leave for the new district tomorrow.

ORIENT NEEDS SILVER.

Many Millions of Ounces Will Be Required From North America.

NEW YORK, Sept. 29.—A banker from Hongkong, who is in town for the purpose of getting first hand facts about the condition of silver mines and the prospects for the development of that industry, states that the day is not far away when for account of the Orient many millions of ounces of silver from North America must be purchased. It is known around Wall-street that this banker and a number of other bankers and merchants at Hongkong, Shanghai, Canton, Peking, Osaka, Yokohama, Tokio, Singapore and other ports thereabouts are quietly buying shares in sound North American silver mines.

NOW GETTING CLOSE.

Beaver Expects to Get Temiskaming Vein in a Short Time.

The latest news from Beaver is that a drift from the 200 foot level is now being made and that the Temiskaming vein should be encountered within a few days. On the Shamrock north of the Beaver, a diamond drill has been working recently and one equal to that on the Temiskaming has been found on about the same level of the present rich workings at the latter property. These workings at the Temiskaming have been continuous buyers of Beaver stock for several days.

BOTH IN SAME BOAT.

Editor World: Where is the amalgamation between Red Rock and Green Mehan? It was stated by a large shareholder who knew the mine that an honest movement was being put thru for the benefit of the shareholders. It looks like it. He states that the gentleman who wrote the last letter must be in on a good thing to put the mine into liquidation. Well, I guess they succeeded. Now all they have to do is to buy it for a song. Looks as if Red Rock and Green Mehan are in the same boat.

THE ELKHART PROPRIETARY SILVER MINES, LIMITED

BALLOON FALLS 2000 FT. AERONAUTS' CLOSE CALL

Two Men Mile High in Air Have Desperate Adventure With Fortunate Ending.

DUSSELDORF, Rhenish Prussia, Germany, Sept. 29.—Captain von Aberon and Lieutenant von Boltzheim, two well known aeronauts, had a miraculous escape from death yesterday during the course of an ascent in a spherical balloon. Thousands of spectators had gathered to witness the ascent and they were horror-stricken at the accident which occurred high in the air. On being released from its fastenings the balloon soared almost directly upwards to an altitude of 6000 feet, when the envelope suddenly ripped open and the gas escaped in streams and the balloon shot downwards. The aeronauts swiftly clambered into the network in the desperate hope of avoiding the shock of contact with the ground. After the fall of 2000 feet, however, the envelope spread out, seemingly in a purely accidental manner, forming a sort of parachute, which checked the descent. The balloon then gradually came down, taking an hour and a half to reach the earth, the two men clinging to the ropes and the latter suffered no injury except a few scratches.

SIMPSON HAD A CLOSE CALL.

The topic of conversation around the Labor Temple now that the delegates to the Halifax meeting return, is the close call James Simpson had for the vice-presidency. He was only two votes to the good, and labor men are wondering whether it is his socialistic or temperance views which have "queered" him with labor men.

His opponent in the congress was Charles Hahn of Berlin, an "unknown" member of the district council, who had been invited to contest, but the latter had his eye out for election as fraternal delegate, while the latter was afraid that if he happened to be defeated it might affect his running as Labor candidate for East Hamilton in the federal election.

SUED FOR PENSION.

Retired by Bank of Commerce, He Engaged With a Nurse.

In the non-jury assizes before Justice Clute, the action brought by Mr. Holmstead against the Bank of Commerce was settled between the lawyers after a little evidence had been taken. The conditions of the arrangement were not given out.

Fire Destroys Dredge.

AMHERSTBURG, Sept. 29.—The dredge Gladiator, one of the largest dredges working on the river here, owned by M. Sullivan, was destroyed by fire about midnight last night.
