was a large attendance of members that Hon. Wm. Pugsley would develop at length his indictment of shell nittee and there was much spection as to the line of defence which would be adopted by the government. Mr. Pugsley spoke at considerable length but added little to the sensational charges which he preferred last night. He did make the new point, however, that parliament could inrestigate the shell committee even that committee was acting for the British Government. > cial Cable to The Toronto World. LONDON, Jan. 19-Late official advices received from Petrograd tonight convey intelligence of the winning of a big victory over the Turks by the Russians in the Caucasus. Turkish official reports of the past few days were indicating that everything was not going well with the Moslem troops in the fighting here, and the public has been expect-

ing good news. The Russian victory was won by the piercing of the Turkish centre in a furious and unsuspected attack which disorganized the resistance of the Turks and forced them to beat a hasty retreat closely pursued by the Russians, who drove them ahead in panic flight in many places. The few prisoners taken, five officers and 208 men, is believed to point to the desperate nature of the fighting. Much war material was captured by the victors, including machine guns, caissons and an ammunition depot.

British aeroplanes did considerable damage to a German supply depoat Le Sars, northeast of Albert, in a raid, and they fought 19 air encount ers with German machines, driving down five of the hostile craft, and suffering a loss of two flyers. A German aeroplane was also brought down near Frelinghien. Hostile trenches were bombed at several points and a party of British troops raided German trenches north of the Lys and brought back several prisoners. The Germans exploded four mines, two at a point south of Fricourt, one near the Hohenzollern redoubt, and another in front of the British trenches southeast of Cuinchy, near La

The French communique of last night records progress in artillery operations against the Germans. In the Lihons sector, south of the Somme, a German blockhouse was destroyed by gun fire; enemy works in the Ailles region, west of Craonne, were seriously damaged; moving German troops were cannonaded in the region north of Les Courtes Chaussees in the Argonne; fire directed against a group of houses occupied by the Germans near Alincourt, west of Chateau Salins, gave the best results: twenty-two shells were dropped on the railway stations of Metz and Arnaville by French aeroplanes in reprisal for the dropping of bombs on Nancy by two German machines.

The Italian official communique indicates the presence of greatly increased artillery forces on the front for Italy. Strada was bombarded in reprisal for an Austrian bombardment of Cimego and the Austrian railway station of Caldonazzo was shelled. Austrian attacks were beaten off at other places.

Sweden, which has been making a great deal of money by smuggling cotton and foodstuffs into Germany, is becoming irascible over the tightening of the British blockade of Germany which cuts off a big source of profit for her. The port of Malmo has been a big clearing house for the Swedes and Germans. It has also been handy for communication in winter between the allies and Russia and it was probably owing to this that the allies delayed declaration of cotton as contraband, for action in this respect last winter might have resulted in the shutting off of Russian supplies. But a British engineer has just completed a railway to Alexandroff and he has thus given Russia the use of a port that will be open the year round. thereby making her independent of Malmo. As a result the blockade can be more strictly applied and it can also be declared a formal one to counter the protests of Washington.

Owing to the strong pro-German proclivities of the Swedish royal family, nobility, and military and mercantile classes, Sweden may even be dragged into the war on the side of Germany after swallowing all the German mining and submarine outrages. She could put ultimately 600,000 men into the field, and could furnish an expeditionary force of probably a quarter of a million after allowing a sufficient garrison for home defence She would probably strike at Finland, but a blow there could be countered by landing a force at Malmo, which would threaten the flank of her advance. Owing to the risk of complications with the Scandinavian peoples. Britain must always keep a sufficient force at home for action in the northeast in case matters went to extremity.

Totals of German casualties are like the ages of many spinsters, they never get beyond a certain limit. They have stuck at a little over 2.500.000 since the end of July. The statement of Mr. Tennant, under secretary for war in the British House of Commons, yesterday, that the total to date was 2,536,768, is similar to his statements at other times, and they are not the British and French estimates, which are kept secret, but the totals as given in the German official lists which are from six weeks to three months late. Reports come from many sources, which all corroborate each other, that the Germans had called out all their physically fit and were making inroads on the unfit before the first year of war was over. Francis Gribble. a British civilian, long resident of Germany and widely acquainted, who was interned in a German camp, relates in The Nineteenth Century some of the information gained by him. The enemy had been forced before last autumn to call out even the one-eyed, the consumptives, the flat-footed, and the excessively fat men who never dreamed that they would have to serve. In Berlin there are 10,000 men totally blinded by the war. Prof. Ashley, in an article on cotton as contraband, in giving statistics of the German textile industries in July, mentions a union that had 37,000 of its \$1,000 male members called to the colors and that had of its male members controlled. The effect to increase her enlistment this week, a very enthusiastic rally being hid at Laskay last night. Members Think It Time District Was in Possession of Good Water Supply.

A meeting of the North Wychwood Ratepayers' Association was held last evening in Humewood School, Wych-wood. President W. J. Hughes occu-pied the chair. In his opening re-marks the chairman deplored the lack of interest taken by the members in matters vitally affecting the better-ment of the district. "It is only fair to state that a large number of our members have enlisted for overseas," said the speaker, "and others are work-ing nights on munitions of war; practically all our executive members can be accounted for in this manner. How ver, we can take up the questions of rarbage disposal, extra postal deliver ies for North Wychwood, increased supply for the township immediately,"

said Mr. Hughes.

Geo Forsey complained of the erratic manner in which garbage is being collected in his vicinity. "The garbage cart comes around about twice month in our district, whereas it i collected regularly once a week in Oakwood," said Mr. Forsey. "It is a menace to health lying around for this length of time, and in this weather is frozen solid and cannot be emptied from the receptacles," he said. W. Lister suggested that a committee be appointed to wait upon Health Inspector W. McMullen, and if no sat-

sfaction is given to take the matter before the meeting of the York Township Council.

It was decided to appoint a committee consisting of the following: President W. J. Hughes, Geo. Forsey W. Lister and J. Nelson, who will wait upon the medical health officer regard-

ing the matter. Sewer Rental.

The increased cost of sewer rental was next discussed. Geo. I sey said: The cost of 17% cents a root is ex-cessive and it was originally stated that the cost should not be more than 10 cents, and in the case of one sewer he rate was stated to be only 5 cents toot rental."

He suggested that the committee ap-pointed be instructed to look into the matter and report at next meeting.

PLAYS, PICTURES AND MUSIC

With his vaudeville company of international artists and his real Highland band, Harry Lauder, the inimitable Scotch comedian will inaugurate his special three-day engagement at the Alexandra Theatre tonight. Mr. Lauder has the best repertoire of songs he has had in some time, which include some of his old favorites, which he will no doubt sing if called upon to do so. In his new collection he has many songs which promise to become as popular as "She's My Daisy" and "I Love n Lassle." Notable among his new re-Lassle." Notable among his new re pertoire is "The British Bulldog Watching at the Door," a song that caused a sensation in England, and which caused many Scottish regi-ments going to the front to forsake the world-famed "Tipperary." Since the commencement of the seat sale on Thursday morning there has been a continual demand for seats, and it is doubtful whether any attraction playing in Toronto has ever caused so much interest and enthusiasm Altho the sent sale has been tre mendously large, there are still a few good seats left for every performance.

ELMAN AND NEW YORK SYM-

By wire yesterday W. Spencer Jones, managar of the New York Symphony Orchestra, notified Manager Withrow of Massey Hall that today would be Mischa Elman's birthday. In view of the fact that Elman is to be soloist with the Damrosch organization at Massey Hall tonight and if public acclaim will be any satisfaction to him, his twentytonight and if public acclaim will be any satisfaction to him, his twenty-fifth anniversary should be one of the happiest of his life. Mr. Withrow's telegram in reply to Mr. Jones was as follows: "House all but sold out at noon today. Many happy returns for Mr. Fiman. Mr. Damrosch and New York Symphony Orchestra." With the exception of a limited number of rush seats, which will be placed on sale at 7.15 tonight, and an odd seat here and there in the reserved sections, there are no seats left. The stage and every available foot of seating space will be utilized to accommodate the audience, which will be the largest that has ever attended a similar event in this city. ended a similar event in this city.

AL. H. WILSON COMING.

Al. H. Wilson, the singing comedian, who has attained success on the stage by his interpretations of quaint characters, will appear at the Grand Opera House next week as the central acter in his new periodic song play,
"As Years Roll On." Diversified is probably the word which best de-scribes the role assumed by Mr. Wilson, for it calls for three different characterizations of the same individual, who, at the opening of the play, is a young man of 25. In the second act he has reached the age of 38, and the third and last act depicts him on the threshold of old age. Several quaint types of characters are introduced for he proper interpretation of the story. entimental in theme, the story contains much humor, and the spec-tator will shed genuine tears of laughter at the many comedy situations created by Mr. Wilson and his associates. A pleasant feature of the per-formance will be the new songs ren-

"QUINNEYS" NEXT WEEK.

A new light in the literary world during the last three or four years is Mr. Horace Annesley Vachell, the British author. One of his books is 'Quinneys," which has been put into drama form and was presented at the Haymaket Theatre, London, with great success. It was produced there in May, 1915, and is still running. New York saw the play for eight weeks at the Maxine Elliott Theatre, and it will now be seen in Toronto at the Alexandra Theatre, next week. Joe Quina strong appeal for recruits.

SHEA'S.

Phyflis Neilson-Terry, England's distinguished young artist, who made her last appearance in Toronto in the all-star cast presenting "Trilby," will headline a splendid variety bill at Shea's next week: Miss Terry will be seen in the bed-chamber and the cell scene from "Romeo and Juliet," besides singing several songs especially written for her. Charles Howard, assisted by Kernan Cripps and Marwritten for her. Charles Howard, as-sisted by Kerman Cripps and Mar-guerite Taylor, will be featured in "A Happy Combination." a medley of merry melody and song; Una Clayton, always a favorite here, will present her latest playlet "Collusion," a de-lightful sketch in which she appears as the butterfly wife seeking a divorce from her husband. The Saxo Sexted have a splendid repertoire of popular and classical selections, while Charles Olcott is always welcome in his tra-Olcott is always welcome in his tra-vesty "A Cornic Opera in 20 Minutes"; Donald Weston and Effic Kerr are newcomers in "Nifty Songs and Ec-centric Dances"; the Three Floods have an unusual aerial offering, and with the kinctograph in the feature film comedies, complete a bright, film cornedies, complete a clever bill.

LOEW'S THEATRE.

Two headliners will be presented on the bill at Loew's Yonge Street Theatre the coming week, when The Ber-rens, in their celebrated musical nov-elty, and Hal Stephens and Company in his revue of character studies will be shown on the same bill. This will be the first appearance of The Berrens in Toronto at popular prices They are well known as the violinist and planis. Hal Stephens, very well known is Hal Stephens, very well known in character productions, who scored a big hit in vandeville, is offering a revue of the parts he once played. Mr. and Mrs. Harry LaCoste will offer a clever doniesttic comedy drema, "The Tamer," about a young wife who tires of keeping house and wants to go out and be a woman of the world. Others on the program will be Mel-ba and Ricardo, Hilda Schnee, doublevoiced singer; Monolo, known as the drunk on the wire; Downs and Gomez, Hawaiian singer in a revue of tropical airs. 'The Wallingford series, "Lord South Paugh," and other selected photo-plays will complete the bill.

THE HIPPODROME.

f mier vaudeville fun-maker, comes to the Hippodrome as the headline attraction of a bright bill next week. The comedy is full of action and snap, cleand and wholesome and with many miath-provoking situations. McCabe, Levee and Pond, in a hodge-podge of mirth and melody, have a clever song and dance offering, in which they employ the latest melodies and the newest steps. Adele, the gymnastic marvel, is a model of grace and beauty. Ben and Dolly Ryan sing a little, talk a little and dance considerably. "Ye Olde Southern Trio" feature the songs that made the Southern States famous, while their dancing is an added feature. The latest Metrorelease, a photo-play brinuming over release, a photo-play bringing over with stirring scenes and dramatic cl maxes, and Billy Tcbasco with his monolog of sneppy stories and songs, complete a spleudid bill.

"THE JUGGERNAUT" AT STRAND

Today and for the balance of this week, "The Juggernaut," a superi V.L.S.E. production, with Anita Stowart and Earle Williams in the two leading roles, will form the headliner at the Strand Theatre. This play, in five immense acts, is known as the Colossus of railway drama and any verbal description of it pales into insignificance in comparison with the tremendous and thrilling, realism of the large treat. the play itself. In addition to "The Juggernaut," the bill will also include splendid motion pictures of the French victory in the Champagne district, showing the devastating effects of the French artillery on the German transfer.

value of \$265.000,000. If Canada was to pay her share of the war she would have to pay a part of the cost of munitions. Having about one-thirteenth as many soldiers in the field as Great Britain. Canada would be called upon to pay one-thirteenth of the cost of guns, shrapnel and high explosives. Therefore Canada was liable to the extent of at least \$20,000,000 for munitions aready manufactured in this country. It had been suggested that the government might tax excessive war pro-It had been suggested that the government might tax excessive war profits. Such a policy would recoup the Canadian treasury, but it would allow the imperial treasury to be looted without recourse of payment. The manufacturers, after all, were not to blame, in Mr. Pugsley's opinion. The prices were set for them by the shell committee, and they would have been less than human if they had declined the big profits thrust upon them. High prices were fixed by the committee because members of that comwere interested to get high prices and make big profits. Members of the committee, Mr. Pugsley continued, like Gen. Bertram and Mr. Carnegle, occupied an equivocal position. They

Mr. Wilcox (North Essex) described Mr. Pugsley's speech as a tirade of unwarranted accusation which showed that he was more anxious to destroy the Borden government than he was to destroy the kaiser. (Applause.) It was a speech that was unbecoming and out of place. It was in striking contrast with the patriotic speech delivered the other night by Dr. Clark,

the Liberal member for Red Deer,
whose son was at the front.

Mr. Wilcox declared 'that Dr. Pugsley had meandered from submarines
at Vancouver to elevators at Halifax and had finally wound up in a she factory at Montreal. Possibly his efforts were not so against the Borden Government as against his own leader, Sir Wilfrid against his own leader, Sir Wilfrid Laurier. In the opinion of Mr. Wilcox the Liberal party now stood at the parting of the ways. They must choose between Sir Wilfrid Laurier on the one hand and Dr. Pugsley with his "measly politics" on the other. Sir Wilfrid had declared in August, 1914 that the opposition would make no objection nor offer any criticism of anything done by the government until the war was over. This was patriotism.

Oliver's Heavy Sarcasm.

Hon. Frank Oliver sarcastically congratulated the government upon its champion. He took it for granted that Mr. Wilcox spoke or expressed the views of the government. Mr. Oliver said that loyalty seemed to consist in helping friends of the government to get their hands into the treasury, while disloyalty consisted in objecting to graft. Many Families Receiving Moneys Who Are Not Properly Beneficiaries.

A large number of firms and companies patriotically continue to pay whole or part of the wages to enlisted employes. These payments, plus the separation allowance granted by the government and the assigned pay, place the soldier's family in its accustimed comfort and well above need.

Need is the principal condition governing the distribution of patriotic moneys, consequently wage-receiving moneys, consequently wage-receiving families are not properly beneficiaries and should not find their way into the fund at all.

But they do and this chiefly because of the lack of information, the every precaution is taken and effort made by the officials of the association to obtain it.

the fund.

Some companies have been in the habit of regularly sending in complete lists of employes to whom wages are being continued. These lists have been of the greatest possible assistance.

The advantages are abvious. The annoyance connected with the recovery of overpaid amounts would be prevented; as would also the criticism that some families are receiving amounts not due them and much in excess of the amount received by others. In a word, many forms of wasteful overlapping would be avoided if individual employers, firms and corporations who pay wages to enlisted men would offer to the association facilities for ascertaining to whom wages were being raid. were being paid.

WAR TAX REVENUE WILL EXCEED TWO MILLIONS

Provincial Treasurer McGarry says that all but \$400,000 of the special provincial war tax has been paid by the various municipalities. The amount received up to date from the tax is \$1.585,000. It was estimated that the tax would raise two millions, whereas as a matter of fact the revenue will slightly exceed that amount. The province has borrowed the two millions on account of the tax at good interest rates, and when CIVIL TO DRY WORKERS tax at good interest rates, and when all the money is in it will be paid off some time in February.

Capt. Granville Fortesque Says Allies Should Have Used Asiatic Shore.

OBSTACLES TOO GREAT

Dispersal of Force in Theatres Apart From Main Operations Condemned.

Captain Granville Fortesque, who erved in the Spanish-American war tribution to the war literature in the on, Toronto. Capt. Fortesque is fa-May of 1915. His conclusion is that after the Turks had been given warning by the naval attack in March, The ground is most difficult for military make it impregnable with machine guns and battories. He says that if three divisions had been landed at the time the ships first attacked the forts the soldiers could have swept the peninsula from one end to the other. When Sir Ian Hamilton first landed When Sir Ian Hamilton first landed his forces were insufficient in number for the operation, and the costly delay involved in securing reinforcements enabled the Turks further to strengtonen their positions. The forts at the narrows were made unapproachable by mine fields and it was by mines that the three old battleships were destroyed.

that the three old battleships were destroyed

Great Promise on Asiatic Shore.

He believes that greater promise for an advance existed on the Asiatic shore and he wonders why advantage was not taken of it. He says that the Turks at first were short of ammunition but that thousands of skilled mechanics were sent from Germany to manufacture the necessary supplies for the Turks.

His opinion of the Turkish soldier is not high, but the Dardanelles was a theatre exactly suited to him. He was not good in a charge. He also said that the Turks and Germans have developed a poor opinion of the capacities of the British staff owing to its selecting of such a point for attacking Turkey. He is also against the venture as being a dispersal of force and he conderms the undertaking of any operation of the French and British in Serbia or the Balkans as being a diversion from the main theatre of war.

Camt. Forcesque writes in a spirit

Capt. Fortesque writes in a spirit entirely friendly to the British and he extols the valor of the troops engaged

in these operations.

Alternative Outlook.

But there is still a wider outlook as to the reason of undertaking the fight against Turkey in this theatre that he does not touch. It was quite a limited field and so the offensive action of the company. could be maintained by a compara-tively small number of troops. It was not the British admiralty or Bri-ish war office that designed and ish war office that designed and planned the expedition, but Winston Churchill, when first lord of the admiralty, and he had frequent rows with Lord Fisher over it as a result. It appears that Mr. Churchill came to some understanding with French and Russian members of the allied high command and the result was the undertaking of the operation. The undertaking of the operation. The British ambassador at Petrograd issued a statement some time ago in which he said that the need for prompt operations against Turkey was urgent at the time, because the Turks and Germans were about to undertake serious operations in the Caucasus, where Russia has big oil fields, and that she then required every available man on the main on the main that the company investion. In every available man on the main front to resist a coming invasion. In order to release important Russian forces for use in the critical theatre of the war the gateway of the capital of Turkey was attacked to force the Turks to weaken their forces in the Caucasus. Thus the strategy of the allies was reflected on the Russian battlefields and the invasion was stopped after Germany had passed thru the door of Russia.

In discussing the German attack on Serbia, Mr. Fortesque sees in it only

Serbia, Mr. Fortesque sees in it only an attempt to effect a further dispersal of allied forces. This may be so and then it may not. The transference of the Grand Duke Nicholas and his chief of staff to the Caucator command was not lost on the sian command was not lost on the German general staff. Their haste in undertaking a subsidiary operation

German general staff. Their haste in undertaking a subsidiary operation against Serbia was perhaps owing to their fears of a bdg invasion of Turkey by way of the Caucasus.

Defended Egypt.

It was also preferable to defend Egypt by attacking Turkey. Another feature which had not escaped the allied high command is that if they had pushed the attack home and reached Constantinople prematurely they would have been forced to tie up a garrison of half a million men in that city to defend it from the Turks, who would have no doubt attempted to recapture it. It may have been quite possible that Bulgaria would have joined the enemy and made an attack on the city from the west.

In any event the small force of British and French troops despatched to this theatre held up the Turkish plans for an attack on India. Egypt and the Caucasus for a year.

THURSDAY MORNING, JAN. 20.

Getting Cheap Power for Ontario Buffalo is once more moving in connection with Niagara power, and it is the scene of some excellent work in the scene of some excellent interest in what so nearly concerns ther. Representative Smith of the garded as setting a new standard and Bison City fears that the increasing much is hoped from the effort. A consumption of power in Ontario may exhaust the supply now going to New York State, and he has been in favor of a general investigation to see where- evenings for class and other work. abouts the United States stands in the No demands for money and no begmatter. He declares that under treaty ging has been done for the settlement Canada has the greater part of the house work, and all it needs and all water of Niagara Falls. The surplus it asks is a little encouragement and power has been exported to Buffalo, a little help of a kind that costs but as consumption increases on this side, a time is arriving when, with present resources, there is not going and it carries on its labors among to be any surplus.

This does not trouble Ontario so by all other movements. Hence it is much as New York, and it will trouble us less, inasmuch as the government has adopted Sir Adam Beck's proposals for the development of the Chippawa Creek power, which will account to anxious to be done good to or im-600,000 horsepower. This may give prove, but do not mind meeting felsome relief to Buffalo, for with 600,000 low humans on their own level, even horsepower there would be a surpls for at the risk of catching some of the some time to come.

In this connection it is of interest to note the wail of a Sarnia paper about the policy of exporting power to Port Huron or to Detroit. This whole phase of the hydro-electric impress the financiers of neutral policy has been misunderstood by many states by the simple and striking way people, and we are not sure whether in which he has set out the financial wilfully or not, it has been complicat- resources of the empire. One point ed in Detroit by the establishment of that has caught the attention of a company which is to take the power from the Ontario Hydro-Eelectric ciable extent to which the gigantic Commission and sell it again at a considerable profit across the border. Some think that the Hydro Commission should sell the power or distribute it on its own behalf. This, it appears, following figures, which are not difficannot be done, and there is no option but to sell to a company.

Why sell at all? This question is on a par with the complaints made by some people that the hydro is being undersold by the private corporations, after the hydro competition to cut the rates in two, To this have to be added government and in two once again. They forget stores bought abroad to the extent of that the corporations had sworn by 120 millions, making a total excess of all their gods that hydro competition would ruin them and put them out of business, and that they could not take bluff, for under the lower rates they ronize them. We fear the object is to bankrupt the original benefactor, and measured against Great Britain's in-

The question of cost brings us to the Port Huron and Detroit problem. Cost is determined by the number of people who carry the overhead charges, especially the cost of transmission over long and costly lines. This applies especially to the long distance transmission of the western Ontario towns. If they cannot share their cost with someone else they will have to submit to high rates, and high rates are the joy of the private corporation. Consequently we suspect it is from the corporations that most of the objection to long distance export of Niagara power to Detroit and Port Huron emanate.

If the Hydro-Electric System can get customers in Detroit and Port Huron to bear all the cost of the transmission lines to those points then it is clear the cost of power to the customers in Windsor and Sarnia will only be the actual cost of the power itself. It is strange that Great Britain has had to take care of, Sarnia people do not see the matter in this light, but if they turn it over in comparison with her trade, but in their minds they will see that with since the war began she has also unlimited power on the Niagara peninsula and the cost of transmission borne by citizens of the United States, But this is merely a reinvestment of the last people to object to this policy should be the good folks in Sarnia and Windsor. Surely they are not so short-sighted as to prefer no power at all rather than carry out the business-like principle which the Hydro-Electric Commission has in view?

Settlement House Success

Remarkable work continues to be side of the border, but such workers on the period of time over which those

The Toronto World as Mr. Burnett. Miss Clarke and others are firmly established in the affections of the young people of the district, and with many of the older people also. One of the young ladies has had great success among the Italian mothers, a class which has hitherto been difficult to reach. Speaking the language she has been able to approach them and convince them that nothing but helpfulness was intended.

Something for nothing usually ex cites suspicion in the shrewd minds of the people among whom the work of the settlement house usually lies, and not unnaturally. However, the true practice of brotherhood inevitably wins its way, and after the years of experience which the settlement has had the workers are now received without suspicion.

The Gerrard street house is entirely unsectarian, and even noneligious in any dogmatic or sectarian ense. The sole idea is to make better citizens of those who scarcely understand what British citizenship means. All the foreign nationalities are dealt with without distinction, and the civilizing power of the work done, the direction towards co-operation, and the inculcation of regular and conomic habits has worked wonders n many homes, while the younger people take freely to the new and better standards.

The artistic sense is not at all lacking in the people of the neighborhood. and the Orde street school has been the scene of some excellent work in "Bluebird" this month has been regreat deal could be done if the school board could be induced to grant the use of more of the schools in the gothing.

It is distinctly an uplift movement, people who are generally neglected graces of a new way of life.

Great Britain's Gigantic Credit Sir George Paish has been able to York men of affairs is the inappre purchases of Great Britain in foreign markets for the last twelve months has affected British capital. This has been condensed into the cult to compare. For simplicity's sake we will take them in round millions of pounds sterling. Great Britain's general imports were 855 millions, of which 99 millions were re-exported, while her other exports were 386 millions, leaving an excess has compelled the corporations by its of imports amounting to 369 millions.

physical imports of 489 millions. From this adverse balance there were deductable dividends, freight, a cent off old rates without incurring insurance, commissions, etc., calbankruptcy. This was evidently all culated by Sir George at 425 millions. This left to be settled in gold or with boast of increasing business, and offer floating capital withdrawn from cofabulous cuts to anyone who will pat- lonial and foreign countries 64 millions, or \$320,000,000. This has to be we think the citizens will be wise to vestments abroad as figured in 1913 stick to the publicly-owned system at 3715 millions of pounds sterling, which will always supply power at or roundly \$18,500.000,000, and cash and credits abroad brought this up to \$20.000,000,000. The 320 millions looks rather small beside these 20,000 mil-

> lions! Another source of strength British credit is the immense distribution of British capital in counlike North and South America, where all told it foots up to three and three-quarter billions (that is, thousands of millions) of dollars. South American countries, China and Japan sell hundreds of millions of their products to the United States and place part of the proceeds

to the credit of Great Britain in Stanley Edwards, a Youth, United States markets. Against these credits Great Britain can buy Billions of supplies and pay for them with the goods shipped to the United States from countries all over the world in settlement of Great Britain's accounts against them.

There is no complaining among the interned prisoners, said Col Clarke. Within the last six months there have been about 50 releases, and a great percentage of the prisoners feel that they should be allowed their liberty again, on account of the scarcity of laborers. Fifty per cent. of them would jump at the chance to serve with the

Canadian forces. Col. Clarke reported that his battalion has already reached half strength. Major B. Brown has been in charge of the battalion during the absence of the commanding officer. Col. Clarke leaves today for Ottawa, and on his return wil complete the organiza-

Asked to Aid Fund.

It is being urged on employers that they can aid the Toronto and York Patriotic Fund by sending in names of soldier employes who are being paid a whole or part of their wages. It is stated that such employes' dependents are in addition receiving the government separation allowance and the soldiers' assigned pay and are, therefore, well above needing any aid from the Patriotic Fund.

SCOTCHMEN TURN IN WIN OVER DE LA SALLE

St. Andrew's Had No Trouble in Capturing Junior O. H. A. Fixture.

Failing to use their bodies the De La Salle team fell before St. Andrews 5 to 1 in a junior O.H.A. fixture at the Arena yesterday afternoon. Both clubs neglected the back-checking in the first two rounds, but St. Andrews had the gray matter when in close to the nets, and Watson was responsible for three goals. Playing six a side in the third period after Wagner was forced to resire with a had leg. De La Salle checked well and held the Scotchmen without a score. Wallace and Watson went in nicely and this won the game for St. Andrews. Ingoldsby was best for the losers.

St. Andrews scored one in the first period. De La Salle's only goal came in the second period, when St. Andrews were scoring four, and the last twenty minutes was a scoreless period.

C Company of the 92nd Battalion de-feated a 48th Highlander team, 2 to 1, in an exhibition game at the Arena yester-day afternoon.

In the Pacific Coast League, Victoria and the Seattle team furnished an interesting contest before one of the largest or which was a season. Seattle started out with their usual burst of speed, and assumed the lead in the early stages of the first period. They ran in three goals in quick succession, while Victoria only scored once. The second session was productive of a more even contest, Victoria scoring the only goal of the twenty minutes play. In the final period Seattle scored twice and Victoria once, Seattle winning by a score of 5 to 3.

At Vancouver, the meeting between Vancouver and Portland in a scheduled Coast League fixture was one of the most interesting witnessed this season. Only one goal was scored in the opening period, that being taken by the American team, while, in the second period, both failed to find the nets. In the final twenty minutes Vancouver outplayed their opponents and won by a score of 4 to 1.

LESUEUR OFF COLOR WANDERERS WINNERS

Montreal Team Ran in Four Goals in First Period-Cleghorn Injured.

MONTREAL, Jan. 19.—It was a costly victory by which Wanderers tonight increased their lead in the race for the National Hockey Association title at the National Hockey Association title at the expense of the tail-enders, Torontos, by a score of 7 to 4. The victory cost Wanderers the services of Sprague Cleghorn, the most brilliant defence player in the association; for two weeks at least. Clegtorn and Randall, a stocky Toronto defence player, met in a head-on colision in the second period, and crashed into the fence near the Toronto nets in a flying tangle of arms and legs. One of Randall's skates raked Cleghorn's face, opening a long gash, but that was the least of his injuries, for when he tried to get up, he fell back on the tee with a badly sprained ankle giving way beneath him. Cleghorn was carried off, and it will be two weeks at least before a play again. With a long series of hard games facing them, the loss is a formal and the least of his regregates. The game, the less to the third period.

Michael's team. Two or three long shots work all evening, and he had plenty to do in the first two rounds.

The solders were again slow at work when in close to the nets, and Riversides had more polish when at close of the rargedest and scrapnies to the McDowell full that the second period and lifted it at Bricker. The Riverside and lifted beneath him. Cleghorn was carried off, and it will be two weeks at least before he can play again. With a long series of hard games facing them, the loss is a serious one for Wanderers. The game, one of the raggedest and scrappiest staged here this winter, was not such an asy win for the league leaders as the core might indicate. Wanderers made a thow of the Blue Shirts in the opening rame, scoring four times and blanking he Toronto youngsters.

Getting the jump on the Toronto defence, and owing to the fact that in the first period Lesueur was badly off form, tells the story.

Nearly all of the Wanderers' shots at Toronto's nets in the first period went ast Lesueur, the period ending 4 to 0 in avor of the locals. In the second period lay was even, tho not over-fast, each club tallying three goals. In the last period the visitors outplayed the Wanderers and scored another tally.

Play was rough. Twenty-one penalties were given, for a total of 75 minutes.

ONE GOAL WIN FOR SOLDIERS LONG SHOTS WON FIXTURE

Back Checking of Jupp and Bricker's Weakness on Long Shots Beat Riversides in Senior Fixture.

It gets more interesting every day in that Toronto senior O.H.A. group. Riversides and 40th Battery staged a heart-breaking game at the Arena last night, and the soldiers drew up on even terms with the east end club by pulling out a 5 to 4 victory. It was just about the tightest squeeze of the season.

Hats off to Lovering Jupp. He won the game for the soldiers. Not only did he net the winning goal but he checked the whole Riverside forward line from bell to bell. Jupp was easily the best man on the ice. A word about that winning goal. It was a tough one for Bricker to loce. Jupp closed in at the side and lifted it at Bricker. The Riverside goaler just reached it with the toe

ing. McDonald was going nicely until he was hurt.

Riversides opened with a goal in the first half-minute when Dopp rushed it down, shot from the side and closed to bat in the rebound from a scramble. Pethick tied it 12 minutes later by breaking up a Riverside rush and carrying it down the side and beating Bricker with a smart one with two men checking him. Three minutes later Crane got the only other tally of the period. Crane and Dopp went down together and the Riverside centre was given a pass when thru the defence. He carried it to dose quarters and shoved it into the corner of the net. It was 2 to 1 for Riversides at the first rest.

The Battery tied it up in the second The Battery tied it up in the second period after some hair-raising stunts. The soldiers netted three goals to Riversides' two in this round and it was just about as exciting as anybody could ask for. McDonald was laid out early and Smith went off to even up. Crane and Dopp worked the first goal when the latter was given a pass with only the goaler to beat, Dopp was forced to bat in the rebound to count. Butterfield worked his way down alone at the side and beat Bricker. Merrick broke up a 40th press and was away sailing with and beat Bricker. Merrick broke up a 40th press and was away sailing with two partners and the Battery defence up. Merrick went right up to the net and scored. Butterfield gave Pethick a pass and a goal resulted. BOXING FANS TO SIZE UP WILLARD'S CHALLENGER

The Big Pro Show is on Tomorrow Night in Riverdale Rink.

No sportsman within reach should miss the professional boxing tourney at Riverdale Rink tomorrow night, which the Toronto Bowling Club is staging for the 110th Irish Regiment. The leading boxers in Canada and the United States will perform and the finest night's sport ever staged in Canada is promised. Besides, everybody that books a seat for the show tomorrow hight is putting a little into the recruiting fund of the Irish Regimen; and helping the general cause along. Frank Moran, the champion heavy, is coming free to exhibit his wares and Torontonians should show that they appreciate his grand action by turning out in big numbers to give him a cheer. Moran will box Bartley Madden, and local fans will be given an opportunity of seeing what the challenger of Jess Willard is like.

A great contest is promised between Hilliard Lang, the Canadian champion, and Jack Britton, the classy welter from Chicago. The latter has been beating down all opposition during the past year and Lang is naturally eager to stop his victorious career. Britton is boxing Kid Lewis ten rounds as Buffalo on Thursday night, the night before he meets Lang. Frankie Mack, the Boston lightweight, who meet Pete Scott of Hamilton, is one of the best of his weight on the other side of the line. During the past year he has beaten Willie Beecher and Joe Shugrue and stood up to Kid Lewis for 20 rounds. Scott is some battler, too, and the meeting should result in some brilliant boxing. Frankie Fleming, Canadian feather-

weight champion, than whom a better boxer was never bred in this country, clashes with Jimmy O'Keefe, an old opponent, who thinks he can beat the sorrelhead. That remains to be seen-Fleming has beaten everything and states that he is confident of hanging O'Keefe's scalp up with his large col-lection. Harry Westerby will be in for a real trial when he clashes with

Soldiers Stage Some Lively Boxing Bouts

Eight lively bouts were staged by the Military Athletic Association at the Exhibition camp last night. Soldiers turned out in large numbers to cheer the members of their different battalions as they entered the ring. All the bouts were decided in three rounds. In the 125-lb. class Gunner Williams of the Brigade Ammunition Column was given the decision over Gunner Draper of the Divisional Ammunition Column after three lively rounds. Pte. Humphreys of the 75th won on points after a close bout for a real trial when he clashes with Young O'Neill, a fast Buffalonian, who has been making the best featherweights round the Bison City hustled lately. A bout which is causing lots of interest locally is that between Alf Palmer and Scotty McRae.

The seat plan is on view at the Torograp Bowling Club, Temperance st, and Ryan's Hotel, 36 Church street. The seats are being scooped up at a remarkable rate and it behooves those who would attend to book without delay and escape disappointment.

QUEBEC, Jan. 19.—Quebec and Canadiens, the two teams whose gruelling overtime contest last year was responsible for the new overtime rule, were by a coincidence the two clubs which were the first to put the new regulation into practice this year. The result, however, was unsatisfactory, as the game ended in a draw, each side scoring two goals.

Quebec scored both its goals in the first period, Malone and Crawford being the men to find the net, but they never beat Vezina again, and at that they were lucky to get away with a draw, tho they missed chances galore. MacNamara scored Canadiens' first in the second period and Pitre tallied the equalizing goal in the third.

In the overtime both teams appeared to be playing too much on the "safty principle. Joe Hall seemed to have a fine chance of proving the decisive factor once if he had passed over to the wing, but he did not.

ALL DIRECT SHOWED

Four Heat Winners in Classified Pace on Closing Day at Delorimier.

MONTREAL, Jan. 19.—(Staff Special.)

The final day of the Montreal Driving Club at Delorimter Park had beautiful weather and good fields. The contest, with the exception of the unfinished event, were most exciting. The horses now move over to the Mount Royal course, where the Back River Jockey Club will give their inaugural harness meeting. Naturally considerable interest is manifested in this meet, as the track is a regulation mile, and should weather conditions be favorable no doubt records will be broken.

The unfinished 2.14 pace was won handily by Paddy R., bs., by Crosaldore, cwned by R. Trench, Teeswater, and driven by Wm. McPherson. In his first mile today just after they got the word the tire blew out and he went the mile and finished full of race several lengths in front in 2.30½, with Hedger second and Red Norton third. The final heat was won by Paddy R., with Red Norton secend and Hedger third in 2.19½.

The second was a classified pace, for a purse of \$300. Eight horses scored for the word. This being the final day the races were paid according to the summary. The first heat was won by Nancy Nan, with All Direct second, Prince Rupert third. Time, 2.21½. The second heat was a battle all the way between Nancy Nan, All Direct and Don McKinney right in behind. Nancy on the poid drew away when the drive thru the stretch was made to win with Major Hunter coming on the outside like a wild horse, finishing second with Nancy third. Time, 2.21½. In the third heat Nat Ray was up behind All Direct, and what a drive he gave him, landing him first at the wire after a desperate fight all thru the stretch, with Nancy Nan second, Don McKinney third. Time, 2.21½. All Direct got first money, Nancy Nan second, Major Hunter just by inches, All Direct fighting it out all the way, just to be nipped at the wire. Time, 2.21½. All Direct got first money, Nancy Nan second, Major Hunter third.

The classified irot, for a purse of \$300, had five starters. Sarah Douglas was the favorite in the auctions, selling for \$10; Lena Pe

for the season at Delorimier Park track.

ACTIVE DEVELOPMENT ON MINING PROPERTIES

Equipment of All Kinds Being Brought Into Gold Camps of North.

NEW MINERAL FOUND

Kerr Lake Company to Develop Sesekinika District-First Real Test.

Munro—Several tons of equipment for the big air compressing plant to be installed at the Croesus Mine are now on the way from Matheson. The plant was bought from the Badger Mine in the Cobalt district and will have a capacity of nine drills. It is unders ood that when the new plant is installed the plant at the American Bagle Mine, the present scurce of compressed air, will be abandoned.

The department of mines is investigating the platinum discovery near here. It is likely that a geologist will be appointed to decide if the proposition will be as profitable as the first assays intimated. It is learned on good authority that the discovery of a new mineral has been made. It is a combination of silver, gold and platinum and other minerals, and its outward appearance is not unlike galena. J. A. Hough, the mining recorder for the Larder Lake district, has been asked by the department of mines for a preliminary report.

rict, has been asked by the department of mines for a preliminary report.

Matheson—The interests with which Morgan Cartwright of Toronto is associated are purchasing equipment, including a holst for the development of their claims in Bowman Township. Bowman Township is well known to prospectors for l.s sarge veins, carrying small values in gold, but little development work has been done so far.

values in gold, but little development work has been done so far.

Sesekimika—The Canadian Mining Corporation has sampled the Malouf property in Marsonville Township. This property was held under an extended option basis by Buffalo interests, but owing to some dispute work was stopped.

Another gold camp, the Sesekinika district, is to be given a trial. The Kerr Lake Mining Company expects to have steam up on the Smith Labine properdes some time next week. The chief difficulty at present is to get sufficient water for the boiler. Several wells have been sunk in low places, but they could not produce an adequate supply. The company is considering pumping water from a lake a short distance away. Sesekinika has been well known as a gold camp. The district includes parts of Marsonville and Grenfell Townships, and is about ten miles from Swastika on the T. & N. O. Railway. The district was partially staked some years ago, but for some time no discovery of importance was made. The first free gold find was made on the Malouf claims, a half mille north of Sesekinika Lake. A little later gold was found on the Smith Labine property about a mile east of Maloufs. Since then several tellurides carrying percentages of gold have been recognized from Smith Labine vein matter. Outside of the test pits of various properties thruout the district, the extensive development work to be under aken by the Kerr Lake Mining Company, will be the first real test-of the Sesekinika Camp. The veins in the district, tho narrow, carry considerable free gold. There are twenty-one veins on the Smith Labine properties through the Kerr Lake Company intends to follow one of the cast veins and crosscu both ways. A shaft is now down about fifteen feet, and it is hoped good progress will be made when sinking by steam is started. There is still some

Market Has Better Tone With Some Stocks a Little Stronger.

Trade for mining stocks was more active generally at the Standard Stock Exchange yesterday and the volume of business showed a decided increase over the day before, amounting to 113,629 shares. There seemed to be a latter demand for stocks turuout the list and New York is de-clared to be a persistent buyer, especially in the silver stocks, on every eaction. Members of the New York curb who have been in town lately are reported to be very optimistic for the silver stocks and predict a big market for the leading Cobalts on the

McIntyre sold between 991-2 100, closing at the latter price. The statement which was issued by this ompany is thought to be very good in that it shows earnings of approximately \$25,000 per month. and this is supposed to include development expenses. The company has expended considerable money in the development of new ore reserves and this, no doubt, will show later when the increased milling facilities are installed. It is thought that the earnings in the next three months will show a big increase as they will have Juniter ore to mill as well as their

NEW YORK. Jan. 19.—Trading during the day was marked by a disposition to take profits on shares and declines in some of the more familiar specialties, while standard or seasoned stocks maintained all of their recent heaviness. Affairs in Europe and Mexico furnished the aggressive short interest with fresh ammunition, shares of some of the companies operating in the southern republic being again the object of severe attacks. Trading was only moderate, except during the first and last hours. New high records were made by U. S. Industrial Alcohol. American Coal Products the first and last hours. New high records were made by U. S. Industrial Alcohol, American Coal Products and Cuban-American Sugar, the latter scoring a gain of seven on its extreme advance to 185. Texas Co. was strongest of the oil group, rising 71-4 to 229.3-4, but falling back to 212 in the final hour, on announcement of a new stock issue.

United States Steel was the centre of persistent bearish selling, declining to 34.3-4, but later rose to 85. There it closed. Bethlehem Steel gyrated in sensational fashion, at one time showing a gain of 12.7-8 at 492, but closing at 485, a net gain of points.

 The continued strength of SenecaSuperior on the Standard Stock Exchange has given rise to the rumor that another dividend is to be declared in the near future. Seneca made a shipment of high-grade ore about two weeks ago, and the returns from this at the present price of silver should not a good profit.

The last dividend paid by this company was on Dec. 15. It was 10 per cent. with a bonus of 10 per cent. No official confirmation of the rumor could be obtained, however.

Word was received here yesterday to the effect that a large shipment of equipment, with which the cyanide annex will be installed at Dome Lake, has been made. The installation of this plant will, it is understood, increase the efficiency and capacity of the mill considerably.

Messrs. Plummer & Co., with offices at 108 Bay street, have adopted a form of circular unique as compared with that issued by other brokers, especially those who restrict their business to mining stocks. Messrs. Plummer & Co. take the stand that mining stocks offer just as good an opportunity, if not a better, than investment in many industrial comparaties. In discussion with The World Mr. Plummer stated that it was a purely mathematical problem to decide the value of the shares of any producing mine. His firm. he said, make it a business to get accurate information of the ore reserves of all nines in which clients were or might be interested. With this an investment site of mining issues is a new thought with the firm intend to prosecute, at their circular for the current week with several suggestions on this The circular can be had free on site of the stances of any producing mine. QUIET TRADING AT MONTREAL EXCHANGE

MONTREAL, Jan. 19.—Stock mar-ket conditions here showed no im-portant changes today, the general het conditions hele and portant changes today, the general tone remaining quiet as a result of the uncertainty displayed by Wall street, but prices holding steady to firm. Special issues developed a moderate degree of activity, with varying results, but an improving tendency. Iron opened weak at 45, closing at 45½ bid. The other steel issues were dull, Scotia improving fractionally to 98 and Steel of Canada falling back fractionally to 36½.

Cement showed some early hesitation, railying later to 50, and closing at the highest.
