the strike of munition workers on May Day is being discussed in some

munition workers' circles.

& WAR SUMMARY &

THE DAY'S EVENTS REVIEWED

Thus the British have completed another section of their operations

s called for in their staff plans. They have maintained their ground

sained against the most vicious counter-attacks of the war, and they have

prevailed against the best troops at the call of Von Hindenburg. The campaign has assumed quite a different aspect from the campaign of 1915, and

even 1916, for this season the allies, having their full compliment of artil-

the enemy at the allied shipping proceeds apace. The greatest handicap

muniques, continued the manufacturing of victories yesterday. They are

The Germans, notwithstanding the British exposure of their false com-

First, because it has what a general on whose division it took place calls the Christ-like spirit, in which one is prepared to give his life to save others, is the story of a corporal in a patrol which had come under the enemy rife and machine gunfire, so heavy that to the property of remain where they were meant exter-mination, while to retire was extreme-by difficult, because of a lack of cover. This corporal exposed himself to the fire of the enemy, saying as he did so: "When they see me they will all fire on me, and you boys can then make for cover." It is gratifying to record that this hero, who was prepared to be shot at in cold blood, knowing that his chance of escape from death was extremely small in the end, with aid, extremely small in the end. made his escape and that of every sunk, according to an official an-

Surgeon's Golden Deed. of the same sort is an incident in which a surgeon was called up to a sattery position to dress a serious wound under heavy fire, and in the hell attack he found it impossible to see thru his gas mask. Well knowing that he risked his life in doing so, the

Still another example of the valor that saves, regardless of self, is that of two private soldiers who, when six of their comrades were buried alive by an explosion nearby, by a huge shell during an advance overland, subjected to heavy rifle and machine gun fire, went to work and dug out the men. to their own.

The self-sacrifice that puts other men first was the moving spirit of a lieutenant of a famous fighting bat-talion who kept the troops supplied with food and water and the materials of war day and night during the operations, and in doing so had frently to pass over ground that was subjected to heavy fire.

Took 150 Germans. Of the picturesque side of notable bravery, wherein the object was the ion of the enemy, perhaps the lost conspicuous case was that of a of a machine gun company in the attack on La Folie farm. So impetuous was the young fellow that he reached the objective with his men ahead of the infantry whom he was supposed to be supporting. With (Concluded on Page 4, Col. 6).

taken 3,029 German prisoners.

Two British Patrol Craft at Close Grips With Flotilla

off Dover-

By Stewart Lyon.

Canadian Headquarters in France, via London, April 25.—This is again a season of preparation. The guns rumble and growl all day and most of the light. In the clear sunshine that has succeeded a long spell of wet conditions has aerical observation is excellent and the aeroplanes on both sides are very busy and enterprising. Combats are frequent, and the anti-alreraft guns also take toll of the birdmen. The casualities at present on this front are chiefly the result of artillery activity.

The enemy is suffering a bit also from the action of our patrols, who are pushing up nightly near his wire to cut off his outposts.

The enemy is suffering a bit also from the action of our patrols, who are pushing up nightly near his wire to cut off his outposts.

The neares in the forward move has permitted the completion of the records of conspicuous bravery in the recent actions. These official documents show low utterly mistaken is the view which has, somehow, gained currency on this clear of the power of the siroyers on patrol duty in the English Charmel off Dover on the night of April 20 came upon a flottilla of six German destroyers, and then ensued an encounter which will live long in the history of naval engagements. German destroyers were torpedoed and rammed; every gun aboard the combatants was working, sweeping the decks and tearing saps in the sides of the opposing craft. There was the locking together of a British and German destroyer, and the men fought turiously in a hand-to-hand battle.

Paris, April 25.—Dunkirk was bom-

Swift and the Broke, and altho they had received many wounds they returned to port. The story of the engagement compiled from accounts of officers and men has been made public in the form of an official report. It is an exciting and graphic story of a boarding encounter with cutlasses and bayonets, recalling the days when wooden warships came together and the men fought on the decks. The British destroyers, on night patrol, were steaming on a westerly course. It was intensely dark, but

barded Dunkirk between 2.15 and 2.25 lm. The Swift sighted the enemy at this morning. The coast batteries re-600 yards and the Germans instantly plied and British and French patrol ed fire. There were six German destroyers, according to the German prisoners. The Swift replied and tried to ram the leading enemy destroyer. She missed ramming, but shot thru ships engaged the enemy, who retreated in the direction of Ostend at great speed. One of our torpedoboats was

GROWTH STATE

THE STORY HE STATE

TH

positions could not be field. Four hostile counter-attacks failed to recapture the mile of enemy front occupied. The reason of the failure on the mile and a half of this front was that the front penetrated was too narrow for holding, because the enemy could command it from at least one flank, and he could pour in an enfilading fire. The Germans or Bulgarians opposing the British, offered an obstinate resistance. It is probable that this attack begins an active campaign. British aviators in this field are dominating the German machines.

Str Stanley Maude telegraphed yesterday from Mesopotamia that he has driven the Turks from the west bank of the Shatt-el-Adhem River to a point about 17 miles north of its junction with the Tigris. His captures on Sunday and Monday total 687 prisoners and 15 guns, all taken about Ishtabulat, as well as 1,240 rifles and 540,000 rounds of rifle ammunition, 16 engines and other material. Sir Stanley's ability to continue the aggressive campaign at such a great distance from his base on the Persian Gulf, is due to the efficiency of his transport department. The organization of this expedition reflects great credit on that silent soldier, General Sir Charles Carmichael Monro, commander-in-chief in India.

The British admiralty's report of the sinking of 40 vessels of more than 1600 tons, in British waters, by mines or submarines, all except two in the past week, shows a renewal of the ruthless German submarine campaign on a greater scale than in the past. The enemy has evidently put out into the deep once more a great many news ubmarines. The sinking of Belgian relief and hospital ships also helped to swell the total losses to this high figure of 40. Sufficient has developed to show that the arming of Belgian relief and hospital ships also helped to swell the total losses to this high figure of 40. Sufficient has developed to show that the arming of Belgian relief and hospital ships also helped to swell the total losses to this high figure of 40. Sufficient has developed to show that

**STUDENTS OVERSEAS** 

Three Hundred Have Enlisted -Twenty-One Killed in Action.

The annual convocation of Trinity College, held yesterday afternoon in the library of the institution, was of tions having been issued except to friends of the students.

In his opening remarks Provost Macklem referred to the occasion as a "war convocation," and accounted for the small attendance at the school by the numbers who had answered numbers who had answered call of the colors, 298 having already enlisted, with a probability of the number being increased. Twenty-one have given up their lives, and 26 chaplad also been awarded to those who had gone overseas, seven or eight having received Red Cross decorations, one the Military Medal and one the Military Cross. In referring to the ing towards the elimination of vene-

of the universe was given expression under his department. of a perfect man." Rechalas follows:

Attorney-General Issues Statement as to Working of Amendments.

DRUG Co. EATON DRUG

Since there is considerable confusion regarding the amendments to the three acts necessary to give the vote to women and soldiers, Hon. I. B. Lucas yesterday issued a digest of the legislation for popular consumption. He explained that the amendments passed to the franchise voters' lists and election acts were subject to proclamation. This pro-clamation he said positively would be issued within a week before the first of May when according to the acts as they now stand commencement must be made for compilation of the

The memorandum for the guidance of clerks of local municipalities in preparing voters' lists as issued is of interest to all concerned in the preparation of voters' lists for elections. The memorandum follows: The effect of the changes made in the law as to the preparation of voters' lists by the legislation of 1917 may be summarized as follows: In townships, villages and towns other than county or district towns having a population of 9000 or over: 1. The voters lists will be prepared in two parts instead of three. The third part heretofore prepared containing the names of persons qualified to vote at elections to the assembly only will be omitted. 2. Part I. will contain the names of

every resident 21 years of age and a British subject who is assessed (a) as owner or tenant of property to the required amount;

(b) for income to the amount of \$400 or over: (c) as a farmer's son.
3. Fart I. will contain the names of all men and women appearing from the assessment roll to be qualified to vote at municipal elections only, is serving at the front, being a lieu-about thirty lecturers who are about that is to say, all non-residents who tenant in the 139th Battalion, and the to start on their summer tours of the are assessed as owners or tenants or for incomes as set out above. trict towns having a population of

> (a) as owner or tenant of property to the required amount;
> (b) for income to the amount of \$400 or over.
>
> 2. The list will not be divided into parts, but will be in the form given also, it was announced yesterday.

in the schedule to the Voters' Lists Amendment Act, on p.—

3. The list will be used for municipal elections only and not for elections to the assembly.

Women Voters.

1. The clerk should mark after the name of every woman entered on the

name of every woman entered on the list the letters "M.W." (married wo-man,) "W" (widow) or "S" (spinster) as the case may be, as a matter of convenience in the case of any ques-tion arising as to whether or not the person named is a British subject by birth or by virtue of her own naturalization, or the naturalization, of her

2. Where a married woman has given to the clerk the notice men-tioned in section 2 of the Women's Municipal Franchise Act (see p.-her husband is entitled to be ente on part I or part II of the voters' list,, and the wife's name will not appear on either part but she may be entered on the list to be prepared under the Ontario Franchise Act as en titled to vote at elections to the as-

cessary qualification on the last day for giving notice of appeal, has the for giving notice of appeal, has the same right of appeal as a man, and may be entered on the roll or list.

4. The clerk is to be governed by the assessment roll in making up his alphabetical list, and may enter on it alphabetical list, and may enter on it controlled the research of these regards and the rolled the regards of these regards are larger than the regards and sayings; Nieman and Kennedy in "The Box Car Duo," and Denny and Perri in "All in Fun." together with Chas. H. Smith, in "General Orders," complete a well-believed bill for the coming week. only the names of those persons appearing by the roll to possess the ne-

cessary qualification.

5. The rolls will have been completed by the assessors in most cases before the distribution of this pamphlet and it is probable that a great number of women voters will be omit-ted from the roll. If these are not entered on the roll by the court of revision, they must appeal to the judge on appeal from the court of revision

on appeal from the court of voters or on the revision of the voters' list.

Aliens.

1. The clerk in making up the voters' list, must not enter the name of any person marked by the assessor of any because the assessor of the assessment roll as being an all men and women appearing by the assessment roll to be qualified to alien. See 6 Geo. V. Chap. 41, Section vote at elections to the assembly and 3, which requires the assessor to set at municipal elections that is to say out in a separate column whether the

WOULD RELEASE FARMER JURORS IN SPRINGTIME

Grand Jury in the Assizes Makes Many Recommendations.

The grand jury in their presentment in the assizes before Sir William Muinck yesterday afternoon recommended that farmers should not be called upon to serve on juries during the spring and seeding time. The jurors also urged the free use of the lash in cases of criminal assaults on little girls. In this connection, however, his lordship pointed out that the criminal code left

pointed out that the criminal code left the matter in the hands of the judge at present.

Only two institutions, the Toronte hospital for insane, and the Mercer reformatory, were visited by the jurors. In regard to the former, the jury complained of dark, dismal corridors, and recommended an improvement in this respect. The Mercer institution was found in a satisfactory condition, but they recommended that instead of separate locks in the cells as at present, the whole of the doors in one corridor should be controlled by, a lever to facilitate escape in case of fire. Two new fire-proof stairs were also recommended at the east and west sides of the building.

the building. TEMPORARY VISIT. Short Period in United States Willington Not Involve Payment of Head Tax.

Canadians will be admitted free into the United States if they are on a temporary visit and not liable to the new \$8 head tax imposed by the American Government, is the opinion of the Canadian Passenger Association. But what constitutes a "temporary visit" is not stated.

The new United States immigration bill further provides for an illiteracy test for people above 16 years of ago and the admittance of Canadian skilled labor if unobtainable in the

## HOUSE TOLD OF

Tomorrow being a government day the house will resume the budget debate, and Solicitor-General Meighen is expected to speak at some length on Mr. Turriffs free wheat resolu-

managed. During the past year there had been a number of wrecks, passenger traffic was inconvenienced, and there had been a general freight conception.

Stanfield's Denial.

Mr. Stanfield (Colchester) complainted that he had been given a great deal of undestrable notoniety by the newspapers of both parties in connection with his differences with the minister of railways. He desired to most emphatically contradict the report that he had tried to dictate either to the minister or to the general manager. At the same time he believed that the people living along the line of the I. C.R. were just as brainy as any other people, and that all the big positions on the line should not be reserved for railway men imported from Ontario and the Umited States.

Mr. Carveil (Carleton, N.B.) said

and the United States.

Mr. Carvell (Carleton, N.B.) said
the Intercolonial management was
honeycombed with party patronage.
He declared that shippers as well as
employes were discriminated against
on account of their politics.

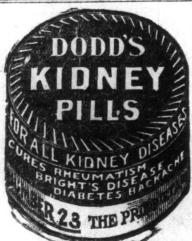

Reid Defends Methods.

Hon. J. D. Reid, who has had a great
deal to do with the government railways from time to time as acting minister of railways and canals, emphatically denied that politics or patronage
cut any figure in the management of
the Intercolonial under the present
government. There were fewer wrecks government. There were fewer wrecks on the Intercolomial than upon any other railway system of the same di-mensions on the North American contiment. Some passenger trains had been taken off during the past winter because so much motive power was required for the troop and freight trains, but the service, generally speaking, had been exceedingly good.

Messrs.Gauvreau (Temiscouatta) and Copp (Westmorland) vigorously de-mounced the management of the In-

tercolonial as inefficient. Hon. Frank Cochrane, minister of railways, said the Intercolonial during the past year had carried seven million passengers without losing a single life. There shad been some accidents, some of them due to the fact that the previous administration had allowed the bridges to get out of repair. The road had also been hampered during the past winter by the excessive snowfall, and the expenditure for snow clearing had ex-ceeded by one hundred thousand dollars the expenditure for like service in any previous year. Members of the house must remember that the Intercolonial had not only its own traffic to handle, but had to provide terminals and other facilities for all the other railways entering Halifax. He would be glad, he said, to receive advice from all members of parlia-ment living along the line, whether Liberal or Conservative. He could not, however, promise to act upon all the advice he received as to how to run the road, for if he did there would soon be no road to run.
Cochrane Answers Charges.

Mr. Cochrane said he was surprised learn that he was running the I. to learn that he was running.
C. R. on a basis of political patronage. Heretofore he had been attackage. Heretofore he nau been anyed because he would not have anything to do with politics and patronthing to do with the control of the con age. The charge of wholesale dis-missal for political reasons lacked any No employe could be discharged except after a public inves-This was provided for by the agreement of the road with the not for a moment tolerate dismissals

PROJECTED DEAL eral Manager Gutelius seemed to be singled out for attack; yet he challenged any member of the house to

\*\*Continued from Page 1).

Thad agreed to hand over the road to the Canadian Northern in the event of their being returned to power in 1911.

Mr. Graham was not in the chamber during Mr. Bennett's speech, and up to a late hour tonight could not be found by representatives of the press desiring an interview.

It was plain that much of today's debate masked a more or less preconcerted assault upon the principle of public ownership. E. M. Macdonald, Liberal member for Picton, Mr. Michaud of Madawaska and others declared that the management of the Intercolonial by ithe present government made any general nationalization of railways undesirable.

Tomorrow being a government day the boyee will resume the budget de-

If the way they ran the Intercolonial was a sample of what might be expected from public ownership and operation of railways, they would find on Mr. Turriff's free wheat resolution.

Alleges Faveritism.

Mr. Boulay (Rimouski) moved the
adoption of a resolution declaring that
adoption of a resolution declaring that
"employes on the government railway
"employes on the government railwa

Mr. Boulay (Rimouski) moved the adoption of a resolution declaring that "employes on the government railways should be promoted to official positions on that line before allowing the general manager to employ strangers."
Mr. Boulay complained that employes of the Intercolonial were not promoted as they deserved, but that the higher places on the system were filled by men brought in from other railways. He declared that the French-Canadians were discriminated against and very few employed. He laid down the general doctrine that the minister of railways should be guided in his appointments by the advice of the members of parliament thru whose ridings the government railways passed.

Hon. Wm. Pugsley said he could not agree with Mr. Boulay that the government railways should be given over to political patronages. He would, however, support the resolution before the house because he believed that every boy who entered the service of the Intercolonial should have the opportunity to rise to the highest position on the road if he had the proper qualifications. He said it destroyed the efficiency of the road to be constantly bringing in outsiders, as General Manager Gutelius had done, He declared that the LC.R. was badly managed. During the past year there had been a number of wrecks, pas-

Bennett's Complaint.

R. B. Bennett (Caigary) said the Intercolonial was a great national undertaking, and not a local enterprise. Members of the Maritime Provinces discussed the road as they would the village pump. They did not seem to realize that the people of the west were just as much interested in its successful administration as were the people of the Maritime Provinces. The only complaint he had to make of the present administration of the Intercolonial was that it maintained freight rates entirely too low. They were from 75 to 78 per cent. lower than rates in the west and he therefore, urged that the entire government railway system be placed under the board of railway commissioners.

Waste on N. T. R.

Congratulating Mr. Cochrane upon

Congratulating Mr. Cochrane upon his splendid administration of the road, Mr. Bennett said that no single track in Canada had performed such magnificent public service as the Intercolonial since the commencement of the war. He only regretted that the road could not be equipped with the forty million dollars that had been worse than thrown away in the construction of the National Transcon-tinental between Levis and Moncton. tinental between Levis and Moncton.

Mr. Carvell: "I have seen ten trains a day, with 75 cars each, moving over the National Transcontinental between Levis and Moncton."

Mr. Bennett: "The road is useless. The experts appointed by the Dominion Government say this, and recommend that the tracks be torn up and lets down somewhere else."

laid down somewhere else."

Charge Against Graham.

Mr. Bennett said that Frank

Cochrane had taken charge of the Intercolonial to make his manage-ment of the road vindicate the cause of public ownership and prevent the road itself from falling into the road itself from falling into the clutches of some private corporation.

"I hereby charge upon my responsibility as a member." Mr. Bennett continued impressively, "and I want to tell the people of Canada that the late minister of railways (Mr. Graham) agreed to turn over the Intercolonial to the Canadian Northern that Lourier Government were reif the Laurier Government were re-turned to power at the general elections of 1911. I am not giving sec-ond-hand information. It is firsthand information; it is information furnished to me by the parties themselves."

debate was continued by The Judge McKenzie (North Cape Breton), Mr. Turgeon (Gloucester) and Mr. Michaud (Victoria, N.B.) Mr. Michaud said that the management of the I.C.R. was a strong argument against the nationalization of

railways of Canada. Mr. Boulay, who opened the debate in French, closed it in English. He onsented to an amendment which rovided that appointments on the I.C.R. should be made by promoting employes when qualified, and the motion thus amended passed without

#### TELEGRAPH AND EXPRESS COMPANIES PROSPERING

Canadian Corporations Show Increases in Gross and Net Revenue.

By Staff Reporter.
Ottawa, April 25.—Telegraph and express statistics were tabled in the house today by Hon. Frank Cochrane These show that both telegraph and labor unions, and the unions would not for a moment tolerate dismissals on account of politics. He ventured to graph companies were the highest of graph companies were the highest of any year recorded. Gross receipts amounted in 1916 to \$6,255,740, as compared with \$5,536,377 in 1915. There was a large increase in receipts from cablegrams. Operating expenses were \$4,204,515 for 1916, as against \$4,129,-finished its run at the Cohan Theatre, and the compared with the compared wit say that not one tenth as many men had been dismissed since 1911 as had pared with \$5,526,877 in 1915. H. E. Prince, 342 Jones avenue, has been notified from Ottawa that his son, Pte. Trevor R. Prince, who was four months in the front line trenches, las been admitted to the Australian General Hospital at Wimereux, France, suffering from shrapnel wounds received in action on April 11. Pte. Prince suffering from shrapnel wounds received in action on April 11. Pte. Prince left Toronto last August and was sent to France in a draft to reinforce a left Toronto last August and was sent to France in a draft to reinforce a left Toronto there. He is 19 years of age and prior to enlisting was employed battalion there. He is 19 years of age and prior to enlisting was employed with the Minister-Myles Shoe Co. He was born in Victoria road, but was educated and spent the greater part of his life in Toronto.

A brother, Edgar G. Prince, is overseas with the 134th Battalion.

### DID NOT FIX PRICE OF PRESS PAPER

Government Had No Need to Promulgate Orders in Council.

By a Staff Reporter. Ottawa, Ont., April 25.—In the house of commons this afternoon Sir Wilfrid Laurier asked whether it were true that the price of newsprint paper had been fixed by order-in-council. Sir Thomas White, minister of finance, replied in the negative. He said, how ever, that there had been two ordersever, that there had been two diets-in-council passed respecting paper, neither of which had ever gone into effect because not yet gazetted. One of these required a license for export from the minister of customs. The other authorized the minister of customs to take possession of newsprint paper and to sell and distribute the However, nothing had been because the manufacturers had fixed the price of paper at \$2.50 at the

mill, which was satisfactory to the publishers.
Sir Wilfrid Laurier: "Will the minister bring down the orders-in-council and also the agreement by which the price of \$2.50 at the mill was fixed?" Sir Thomas White: "There was no agreement between the manufacturers and the government. I don't even know that there was any agreement between the paper manufacturers as an asso-ciation and the publishers. There is no document of any kind in the pos session of the government that would throw any light on the subject." Sir Wilfrid Laurier: "You have

nothing to go on but hearsay, then?"
Sir Thomas White: "I got the information from the president of the pulp and paper association, in the shape of a letter. I will bring that down, if desired." Sir Wilfrid Laurier: "By all means

The government seems to have been changing the tariff and doing a good many other things during the recess. do not say they were not well done but such proceedings should be promptly reported to parliament when it reassembles. This closed the discussion,

TO PROTECT COMMISSIONERS.

By a Staff Reporter.
Ottawa, April 25.—The special rail-way committee of parliament which has under consideration the consolidation of the railway act today approved of an amendment which provides that the railway commissioners may not be dismissed except by parliament. This places the commissioners on the same plane as judges. At present they may be dismissed by order-in-council,

#### THE ROBINS PLAYERS.

For the opening play of their regular season at the Alexandra, the Robins Players, under the management of \$4,204,515 for 1916, as against \$4,129,-165 in 1915.

The number of employes of the Canadian telegraph companies increased from 6,248 in 1915 to 6,581 in 1916.

The blue book on express companies explains that in every way the express business is an integral part of the owning railway company, tho kept separate as a matter of accounting. Gross earnings have a total of \$12,-860,629 in 1916, as compared with \$11,-811,797 in 1915. The aggregate of op-

sati, 197 in 1916. The aggregate of operating expenses in 1916 was \$5,794, 516, as against \$5,632,904 in 1915. The total paid by express companies to railway companies for transportation of express matter was \$6,146,299? After deducting operating expenses and express privileges from the gross earnings the net operating revenue was \$919,013.

LT. FREDERICK GUNDY SCOTT, killed in action "somewhere in France on April 20th.

#### LT. FREDERICK G. SCOTT IS KILLED IN FRANCE

Was Graduate of Toronto University and Had Many Friends Here.

Word has just come by wire from Otwa to Mrs. F. W. Scott, 33 Rathnally evenue, telling of the death of her elder son, Lieut. Frederick Gundy Scott, killed in action "somewhere in France" on April 20. Born November 9, 1895. His father, F. W. Scott, a partner in the firm of A. E. Ames & Co., died in Desember, 1898. A graduate of University of Toronto, Fred who has just made the supreme sacriwho has just made the supreme sacrifice, was possessed of outstanding ability, and had a genius for friendship. He promptly answered his country's call and went overseas with the Southam Bettery in February, 1916. William Pearson Scott, his younger and only brother, is training in Scotland with the Royal Flying Corps.

To the desolate mother the young To the desolate mother the young boy who died for France has left a message in these noble words: Yet sought they neither recompens

nor praise, Nor to be mentioned in another breath Than their blue - coated whose great days It was their pride to share—aye, share even to the death! Nay, rather, France, to you they ren-

dered thanks Seeing they came for Gave them that grand occasion to ex-

cel.
That chance to live the life most free from stain, And that rare privilege of dying well. The Spartan mothers are contribut-ing today to the cause of righteous-

#### FEW INCURABLES **AMONG WOUNDED**

Surprising Announcement is Made by the Medical Authorities.

HOME FOR INSANE MEN

Pickering College, Newmarket, Given by the Society of Friends.

That so far as present requirements are Wellesley and Jarvis streets, donated to the military hospitals commission by the Massey estate, will prove to have emple capacity for all incurable returned soldiers is the announcement which officials of the commission say is as surprising to them as it can be to the public. A thoro canvass for all returned wounded men who might possibly be considered as candidates for admission to a permanent home for incurable soldiers was ordered some months ago, and the medical officers' report from four provincess give a total of 26 possibilities. Those provinces are Ontario, Quebec, Alberta and British Columbia. The analysis is not complete in other provinces, but the general results will probably be similar.

The extraordinary possibilities of restoration which have been discovered and exercised in the care of this war's wounded as never before is given as the reason for the astonishingly small number of men who can be classed as incurables. Only paralysis from its various causes and chronic heart disease, with a rare case from any other cause, appear to be within classification. A great deal of consideration has been given the subject by the commission's medical advisers and this is the result of their investigations. capacity for all incurable returned sol-

of consideration has been given the subject by the commission's medical advisers and this is the result of their investigations.

Becomes Euclid Hall.

Decorators are now busy whitening the walls of the Massey-Treble home, which is to be known as Euclid Hall. The beautiful but sombre wall paper on the second floor had to be removed, and alterations will be made on a minor scale in the kitchen. Otherwise, no alterations are necessary. The kitchen and diningroom, administration office and music-room occupy the ground floor. In the music-room the Massey estate trustees with the commission of the westerns on the \$15,000 pipe organ built into the dwelling. The second floor the nurses' residence. The orderlies are being supplied with accommodation in the coach house.

The delightful grounds and conservatories will give a cheerful atmosphere for the partner, and offers for the furnishing of the building suitable to the needs of the men have been received.

Announcement is also made from the commission's offices that provision has been made for another important class of returned men—the insane. Fickering College, belonging to the Religious Society of Friends, has been generously loans for ething and an expression of the Friends, has been generously loans the work of the commission's offices that provision has been made for another important class of returned men—the insane. Fickering College, belonging to the Religious Society of Friends, has been generously loans the work of the commission's offices that provision has been made for amother important class of returned men—the insane. Fickering College, belonging to the Religious Society of Friends, has been generously loans the work of the commission in their behalf. The building and grounds at Newmarket are described as admirably suite for the purpose. They are outside the built-up section of the town. The well heated, fireproof structure, situated on 25 acres of high land, is, nevertheless, only half a mile from the heart of the town. It is estimated that 200 patien

The announcement of the closing of The announcement of the closing of Pickering College came as a great surprise to the students and friends, who were notified yesterday. Inasmuch as an entarged charter had just been obtained from the Ontario Government looking to an expansion of the curriculum, the managers wish to announce that as soon as the military necessity for the use of the building passes, it will be re-opened on the enlarged lines recently under consideration. Mr. A. S. Rogers of the Imperial Oil Company is chairman of the board which made this momentous and generous step, and he announces that all contracts of the college will be fully carried out.

contracts of the college will be fully carried out.

The west has received recent attention from the chairman of the M.H.C., Sir James Lougheed, who, returning a few days ago from a brief tour, announced that three buildings having capacity for 750 convalescent returned soldiers had been acquired. Braemar and Langara, two Presbyterian college buildings in Point Grey, adjacent to Vancouver, have accommodation for 450 men between them and are surrounded by 50 acres of arable and park land. Alberta College at Edmonton South is being negotiated for and will accommodate 300. The nearby provincial university and agriculture department's experimental station have promised assistance—in vocational training.

ing. Balfour Sanitarium, formerly the C.P. R. hotel, on Kootenay Lake, near Neison, B.C., was opened on April 20 with 50 tubercular patients and will in a few weeks have its capacity of 200 very near-

16, 1916, when these brokers sold for Good on the New York market 100 Industrial Alcohol shares at 119 at a fixed rate of commission, which the judge held was in order, Justice Lennox further held that there was next the broad decided not to proceed with party to that effect. In his statement of claim, George Deisenroth. no other agreement between the par-ties beyond the commission, and meither was there any verbal agree-ment to substantiate the claim.

ROUND TABLE PUBLIC MEETING.

On Friday evening of this week, at s o'clock, in Convocation Hall, University of Toronto, there will be a very interesting and important meeting to which the general public, both ing to which the general public, both men and women, is invited. The meeting is held under the suspices of The Round Table in Canada. Eminent speakers have been secured, in the persons of Sir William Hearst, Mr. N. W. Rowell, Mr. J. W. Flavelle and Dr. C. W. Colby, of McGill University. Their addresses will be delivered upon the subject of "Canada's Relation to the Emoire." and the chairman. Sir the Empire." and the chairman, Sir Edmund Walker, will give a brief ex-planation of the work that The Round Table is doing in encouraging the study of this question.
This is the first of a series of pub-

lic meetings to be held in the larger cities in both eastern and western Canada, and is part of a general move ment to create a popular interest in a problem that is vital to Canada, and

CHARGED WITH GAMBLING.

James H. Neilson, 787 West King street, was arrested yesterday after-noon by Morality Officers Kerr and Lawler on a charge of keeping a com-mon betting house at the above address, and Matthew Miller, 57% Grange avenue; James McCabe, 289 Spadina avenue; Albert Webb, 306 West Adelaide street; and Robt. Cahoon, no address, as frequenters. About \$100 in money and a number of betting slips were found by the police.

TRUE BILL AGAINST BAINBRIDGE.

The grand jury returned to true bill yesterday against Isaac Bainbridge.

## A sensible test

THAT do you demand from a motor car? How would you test a car—for ease of control, for motor agility, for economy, for general soundness of construction.

Wouldn't a hard run through city traffic put the car to a sensible test? The many stops, the slowing down, the jumping from low to high speed. That tries a motor. Tries it for flexibility, gives it a real fuel test. Here then is a sane test of the Chalmers, It's official from the American Automobile Association.

A Chalmers 7-passenger taken from stock ran for 24 hours on high gear through Chicago's dense traffic. The engine never stopped. Four passengers were carried. The driver was an amateur. A total mileage of 586.8 was piled up, breaking every previous test by 228 miles.

This gives some idea of the amazing flexibility of the car. Its perfect cooling. Its ease of control. But note. This run was made on 14 miles to the gallon of

gasoline. \* There is a surprise awaiting you when you step in behind the wheel of this smart car.

Come in and put this Chalmers to the test.

had been about to be floated was with-drawn. Perhaps Great Britain needed induce the Poles to enlist greely in some things differently. It was a long, necessary for this new army to be vic-cruel, waiting time for those who had torious from the start. Instead of this faith in the ultimate wisdom of democ-racy. We may rejoice that the wait is in defeat, and it looks as the disaster

Many people will go behind the obvious thought. The call of democracy from the great Slav race was one not to be ignored. No doubt, also, the gallant work appears to be a herding operation of the of the British troops on the Somme last year had its effect. America could no longer remain passive while the best blood of the nations was being shed for liberty and justice. There were many taunts born of Comments and the country and state of the purpose of weakening, if not of destroyborn of German hearts, for a long taunts, born of German hearts, for a long time in the United States, that the English were making the French do all the fighting. The bitter untruth of this is now being understood. Great Britain, who was paying for all the allied campaign, was getting her own best manhood in shape to meet the foe, and at the of the enemy. This is what

finish of war on its own account. No one many may continue to fight, she now as can sit back while the world war is afoot and say they have no interest. The United States' interest in this, as in other think they cannot last beyond the fail. matters, is gigantic, and she had begun There are symptoms which to many in to understand this. So, with the object- dicate an earlier collapse. But prudence ing minority which is always to be found insists on the completest preparation for opposed to large-hearted, large-minded whatever length of campaign may be re-

So, as a first consideration, a loan of \$200,000,000 was made to the biggest of the allies yesterday. It was a fine tribute the allies yesterday. It was a fine tribute of trust and recognition of the part the British Empire has taken in the war. And it is but a beginning. The other allies World (Hotel Needs) calls for a reply

The Toronto World authorities cannot discriminate good Germans or other alien enemies and bad, they should intern them all. They should not authorize them to live at large and then fail to support that

Critical Days of the War.

It looks as the the same method which the German managers of the Russo-Japanese war employed are now being-pursued by the same Germans in their efforts to explain to their own people wha is going on in France.

The kaiser and his crew are now

tween the devil and the deep sea-the

mutiny of his own subjects and the war-forces of his foes. He cannot tell his What Money Says When it Talks. He is hoping that something may occur to relieve his stress, but all the things If money talks, it was an important statement that the United States made to Great Britain yesterday, when \$200,000,000 a failure on the part of the entents affices was handed over to the British authorities in one sum. It indicates an immense ments. He resorted to the barbarist change of front since last year, when the himself of enslaving the people of infederal board advised against the lending vaded territory and of employing his pri-of money to England, and the loan which somets to work against their own side. help as badly then as now. Perhaps the armies, relying apparently on at least a United States was in equal danger then as now. However this may be, the United States has experienced a change of mind and heart, and has come to see

might be very near.
The ferocity of the fighting this week reason stated by President Wilson as the exceeds anything that we have any record cause of the entry of the United States of. Even Port Arthur does not appear to into the war-the persistence of the sub- have been more sangulary, and the awful marine violations of international law.

There are, probably, many secondary phases of the situation which have had their due effect upon the general decision. No doubt the revolution in Process. sion. No doubt the revolution in Russia had a strong influence upon republican been broken to pieces in the steady lines

of the British.
The strategy of the British and French cutting them off on the north should their the last two or three weeks, and the Pomtributing their best men to the slaughter. While our own losses are heavy, they

Somme the foe and the rest of the world learned of what sort of stuff Britain still was made.

The United States began to put the States alliance, and however long Ger-

policies in any body or council, the United quired. If we have one year, two States joined the other nations. The years, three years more of war we must cheapjack politicians and the tomfool be prepared for it. Our government stil pacifists joined the pro-Germans and the apparently balks at the necessary step of enemy in protest, but the nation had universal service. Perhaps the Ottawa awakened, and a nation awake tolerates people are willing to let Uncle Sam do it

it is but a beginning. The other allies are being financed by Britain, and these advances are to benefit France, Russia, Italy, Belgium, Serbia, equally with ourselves. The war has created a common interest, and the United States no longer holds back, but takes her proper place with the other democractes.

Men will follow the money. The volunteering plan is not producing results. It has not been adequate anywhere. Conscription, in the form of the selective draft, is agreed upon by all the experts as the only way to raise the army. The processary legislation will probably be

By William Henry Taylor, Author of "Canadian Seasons," etc.

With deeds of the heroes who wrought such a wonder,

And tumbled Von Hindenburg down in their play.

When Canada's hunters caught Fritz in his den; The men of the West trap such "varmints' in furrows,

All Canada's chords feel a joy that resembles

The songs of the angels the first Easter morn;

For Giant Despair of old Europe now trembles,

Since he from the crater of Vimy was torn.

From Halifax west to Vancouver the thunder

Of Vimy's volcano will echo for aye,

Away went the science of fortified burrows,

And corral wild cattle secure in a pen.

This war is a game which the Germans invented,

But Johnny Canuck is the sport who has dented

Our braves from the prairie, the forest and river,

Are all volunteers, and are game to the core;

They mixed in this tourney fair France to deliver

Our boys are not saints, they are human and jolly,

Then write the name large in our history's pages,

Inscribe the word VIMY to live thru the ages,

As Canada's tribute of blood and of deed.

The Normans of Canada chase melancholy,

For singing and cheering they charge on the foe;

(Disgrace never blotted the lines that we read),

The Keiser's brass helmet and painted it green.

From Prussia's foul Guards who will ravish no more.

These modernized cave men, these ghouls and destroyers.

Have torn up the peasants and homes by the roots; The Huns lost their souls to their Junker employers,

And Thor was the blacksmith who fashioned the brutes.

And show the fine breed that God's country can grow.

The Toronto World, April 26, 1917.

Will Not Allow Junction Between Metropolitan and the C.P.R.

Mayor Church stated yesterday that

the city would strongly oppose any application to the Dominion Railway

Board for an order permitting a con-nection between the Metropolitan Rail-way and the C. P. R. at Yonge street

to allow for the interchange of freight

traffic. If this order were granted it would affect the Canadian Northern Railway as that company has running rights on the C. P. R. tracks across the northern end of the city.

It is stated that the York County

council has a special committee at work with a view to making the ap-

plication and the object, it is believe

by civic officials, is not that the Met-ropolitan should extend down but that

the C. N. R. or the C. P. R. would extend up to the terminus of the Metro politan line at Farnham avenue on the private right-of-way of the latter road

The mayor took the stand that the

railway board has no power to gran

the order which will be sought at Ot-

tawa, and that the company mus first receive assent of the city before It can carry out its plans. The grant ing of the order, a city official said would mean a freight line along Yonge

CIGARMAKERS STRIKE. Owing to their officials being unable to come to any satisfactory solution on the wage question, 300 cigarmakers went on strike yesterday. Some weeks ago the union asked for an increase of about one dollar per thousand, which has been refused, as the employers in

Toronto think the demand is unfall

when they are in competition with

other cities in which the same rate of

> Ratepayers' Association Enters Protest Against Granting of Hotel Owners' Protest.

Ratepayers of Oakwood and Ossington district sent a protest to the board of control yesterday against the proposal to grant certain exemption from taxation to owners of hotel properties in the city. They stated that if the exemptions weer granted the small property holder would have to make up the loss in the civic revenue.

A request was received from the manager of the Queen's Hotel for relief from water rates, land and building taxes. He stated that unless the city could see its way to relieve the hotel proprietors of these taxes durhotel proprietors of these taxes during the war and for a considerable time after peace is declared many of the hotels would be forced to close their doors. He would be sorry to see the hotels forced to close down, as there were many with long and good records of public service.

records of public service. records of public service.

A report regarding the financial outlook as well as the plans for the proposed new institution for the feeble minded will be prepared for the board.

Dr. Clarke, superintendent of the General Hospital, asked that early action be taken by the city, and stated that the government was prepared to pay \$50 a year toward the cost of maintaining each child.

Commissioners Chisholm and Bradshaw, City Solicitor Johnston, Dr. Hastings, City Architect Pearse and Controllers Cameron and O'Neill have been appointed a committee to confer with the provincial government regarding the plans for the building.

RECOVERS MOTOR CAR

Judge Winchester gave judgment in favor of Henry Blain yesterday against R. F. Thomas of Lindsay, for the recovery of a car, but ruled that the costs of repairs would set off against the claim for detention. H. Blain supplied his brother, Norman, who is now overseas, with the who is now overseas, with the car to start in the jitney business, but he traded it for a horse and buggy and \$38 cash. The plaintiff held the car under chattel mortgage.

ONTARIO RIVALS ALBERTA RANCHES

Premier Encourages Representatives of British Cattle Supply Company.

He believed that the ranching posbilities of Ontario rivaled those of Alberta, said Premier Hearst yester-day. He had been interviewed earlier in the day by a deputation of the pro-moters of the British Cattle Supply moters of the British Cattle Supply Company, a five million dollar concern which anticipates securing leases to large tracts of grazing land, in northern and eastern Ontario, for ranching purposes. While the premier could not speak of the financial aspects of the case, he knew the calibre of the men who had waited on him and expressed the opinion that no project interested him more and that their success would be of great value to the province.

terested him more and that their success would be of great value to the province.

At present much valuable fodder went to waste, said Sir William. He believed that the provincial prison farm at Burwash had proved that the luscious clover and grasses of northern Ontatio were superior for feeding purposes to those of Adberta. While the winter might be a little longer this was offset by the reduction of transportation necessary and the nearness and cheapness of timber for ranch buildings. He knew personally of at least one case of a successful ranch in eastern Ontario. The delegation told the premier that the company looks towards the employment of at least 25,000 acres in Ontario on a long lease, at a practically nominal rental. The premier promised them every assistance of the government and the department of agriculture towards the selection of lands suitable for their purpose. He expressed his enthusiasm for the scheme outlined by the delegation, and heartily promised the co-operation of the government. The delegation asked for the same co-operation with this government as they are already receiving from that of Alberta, where they already have some 492, 000 acres and 1500 head of cattle.

The delegation was introducted by R. H. McElroy, M.L.A., for Carleton, and included Hon. Nelson Monteith, former minister of agriculture for Ontario; Mr. Chas. H. Maybee, president Toronto Live Stock Exchange; T. E. Good, president and treasurer British Cattle Supply Company, Ltd., head of the Toronto Fat Stock Show. A. C. Garden, Hamilton harbor commissioner; Herry Talbot, general manager British Cattle Supply Company, Ltd., head of the Toronto Fat Stock Show. A. C. Garden, Hamilton harbor commissioner; Herry Talbot, general manager British Cattle Supply Company, Ltd., Carleton, secretary of the British Cattle Supply Company; Ltd., T. A. Neely, treasurer National Live Stock Association; Samuel Hisey, president Ontario Shippers' Association; and J. H. Fussell, Fussell-McReynolds Co., Ltd.

ject, as Issue Was Advertised as Untaxable.

Following a conference with the city solicitor, Assessment Commissioner Forman yesterday announced that the city will assess the interest derived from Dominion Government war bonds. He was of the opinion that the income was assessable, and that any action taken by the Dominion Government regarding the assessment was ultra vires. was ultra vires.

This intended step of the city will

come in the nature of a disappoint ment to many of the citizens who in ment to many of the citizens who invested in the bonds, as it was advertised extensively at the flotation that the income was not assessable. According to a close estimate the amount of war bonds held in Toronto is in the neighborhood of \$75,000,000, on which the holders' income would be \$3,650,000. If the assessment commissioner is upheld in his stand the tax on the incomes will enrich the city by about incomes will enrich the city by about \$500,000, equal almost to a mill on the

SUING FOR DAMAGES. Action Against T. S. R. Will be Con-cluded Today.

The action of Warren G. Caldwell, 15 Ingham avenue, Toronto, against the Toronto Street Railway Company, before Sir William Meredih, will be completed this morning. Last evening both counsels had addressed the jury, but his lordship reserved his address until this morning. Caldwell is an aged man who went driving over Dunday street bridge, and was struck Dundas street bridge, and was struck by a street car, sustaining injuries necessitating three months in hospital and also loss of business. For this he claims \$5000 damages.

the German line unscathed and in turning, neatly torpedoed another boat in the enemy line.

Again the Swift dashed at the eader, which again eluded her and fled

with the Swift in pursuit.

Boats Locked Together. In the meantime the Broke had launched a torpedo at the second boat in the line, which hit the mark, and then opened fire with every possible sun. The remaining German boats were stoking furiously for full speed. The Broke's commander swung round to port and rammed the third boat fair and square abreast of the after funnel. Locked together thus, the two boats fought a desperate hand-to-hand

all the foremost guns in action, he himself assisting the depleted crews to load. While he was thus employed a number of frenzied Germans ned up over the Broke's forecastle out of the rammed destroyer, and, finding themselves amid the blinding flashes of the forecastle guns, swept aft in a shouting mob. The midshipman, amid the dead and wounded of his own gun crews and half blinded by blood, met the onset single-handed with an automatic revolver. He was grappled with by a German, who tried to wrest the revolver away. Cutlasses and bayonets being among the British equipment in anticipation of such an event, the German was promptly baymainder of the invaders, except two

sinking adversary and turned to ram the last of the three remaining German boats. She failed in this object, Germans Suffer Sanguinary Check but in swinging around suc-ceeded in hitting the boat's on the stem with a Hotly engaged with these two fleeing destroyers, the Broke at-tempted to follow the Swift in the direction she was last seen, but a shell struck the Broke's boiler room, dis-

abling her main engines.
The enemy then disappeared in the course headed in the direction of a destroyer who a few minutes later was seen to be heavily afire and whose crew, on sighting the British destroy-

man, regardless of the danger from a possible explosion of the magazine, and the German seamen redoubled their shouts of "save! and then unsectedly opened fire.

The Broke, being out of control, was unable to manoeuvre or extricate herself, but silenced the treachery with four rounds; then, to insure her own and the danger from a time by our fire, they renewed a little later their assaults. A vigorous counterations of the action our artillery was able to take under the for any kind of wound or sore."

Mr. W. B. Thorne, J.P., Alderside, Alta., writes: "It was twenty-eight years ago that I became acquainted with the merits of Dr. Chase's Ointment, and would not be without it on the course of the action of the purchased a small box, which very purchased a small box, which very purchased a small box, which very purchased a small box.

EVERINGHAM—On Wednesday, April 25, 1917, at her late residence, 139 Wolseley street, Toronto, Elizabeth Longhouse, widow of the late Richard E. Everingham, in her 73rd year, and mother of Mrs. W. J. Usher.

Funeral from above address Friday, at 2 p.m. Interment in Mount Pleasant Cemetery.

TILL—On Tuesday evening, April 24th. 1917, accidentally killed, Albert Edward Till, beloved husband of Jessie Crozier, and only son of Mr. and Mrs. Lewis A. Till. Funeral from his late residence, 881 Logan avenue, on Saturday, 28th, at 2 p.m. Interment in Prospect Cemetery.

conflict. The Broke swept the enemy's decks at point blank range with every gun from main armament to pompom, maxim, rifle and pistol.

As no other enemy was visible, and the action, which had lasted approximately five minutes, appeared to be Two other German destrovers at over, the Swift switched on her tacked and poured a devastating fire searchlights and lowered boats to reson the Broke, whose foremost gun cue the swimmers. Those who recrews were reduced from eighteen mained of the crews of the Swift and to six men. Midshipman Donald the Broke, after exchanging details Gries, altho wounded in the eye kept of the action, cheered each other until

they were hoarse.
Undaunted by Wounds. The British casualties are set down as comparatively slight, and the spirit of the wounded is illustrated by the conduct of the Broke's helmsman, Sea-man William Rowles, who, tho hit four times by shell fragment, remained at the wheel thruout the action and finally only betrayed the fact that he was wounded by reporting to his captain "I'm going off now, sir," and

A number of the wounded only presented themselves in the sick bay the following day, one stoker giving the surgeon the inbenious excuse: "I was too busy, sir, clearing up the rubbish on the stoker's miss deck." The destroyer Broke was under command in the naval battle of Com-mander Edward R. G. R. Evans, who second in command of Scott's Antarcthe side, the two being taken pris- tic expedition.

#### Germans' Treachery. Two minutes after ramming, the Broke wrenched herself free from her ON THE FRENCH FRONT

in Attempt Against Hurtebise Farm.

Paris, April 25.—The official com-munication issued by the war office tonight reads: There was artillery fighting thruout

he day along the whole front. North

noon by our artillery and machine "It is confirmed that the Germans crew, on sighting the British destroyer, sent up shouts for mercy. The Broke steered slowly toward the German check in their attempt against the Hurtebise Farm. Arrested the first time by our fire, they renewed a little

### ARSITY RESULTS IN APPLIED SCIENCE

Degrees and Scholarships Won by Students in Annual Examinations.

Following are the Toronto University results of annual examinations in applied science and engineering:

The degree of civil engineer (C.E.) is conferred upon the following: W. C. Smith, Thos. Taylor, C. J. Townsend.

The Boiler Inspection & Insurance Company's scholarship for general proficiency in mechanical engineering for the third year is awarded to W. D. Robertson.

Company's scholarship for general proficiency in mechanical engineering for the third year is awarded to W. D. Robertson.

The following candidates have been granted standing in their respective years on account of having enlisted for overseas service. Other students have enlisted and will be granted standing upon furnishing the necessary information on which action can be taken:

—First Year.—

J. E. Croden. W. B. Elliott, W. J. Foley, W. F. Maunder, B. H. Wright.
—Second Year.—

A. E. Hamilton, C. J. McNamara, D. G. MacLean, H. E. Purdy, J. A. Simmers, H. S. Spencer, L. M. Vardon.
—Third Year.—

H. J. McCreery, G. L. Macpherson, J. G. O'Flaherty, R. T. Park.

—Fourth Year.—

J. A. Fraser, W. K. Greatrex, G. Wood. The following candidates will be granted standing in their respective years on account of having entered national service on condition that they present certificates showing that they have rendered satisfactory service during the vacation:
—Second Year.—

A. R. Clarry, B. Coyne.
—Third Year.—

C. W. Hancock, G. P. Pearson.
—Fourth Year.—

H. S. Brown, S. W. Bumstead, J. I. Gram, A. J. Holden, G. F. Hucheson, E. W. Smithson, O. W. Titus.

The following are the results of the examinations. Candidates whose names are followed by brackets must pass supplemental examinations in the subjects indicated. In the first year, candidates who have written without full matriculation are not reported:
—First Year.—

Civil engineering: Honors—C. G. R. Armstrong, G. C. Bennett, E. W. Cockerline, A. A. Rose, Pass—G. H. Baker.

W. G. Black (trig.), A. P. Mackenzle (anal., geom., elem., chem.), W. G. Pinel, E. A. Salisbury.

Mining engineering: Pass—L. W. Fletcher, J. C. E. Skinner (trig., statics).

Mechanical engineering: Honors—J. L. Chamberg. Pass—H. P. Brumell (anal., statics).

Mechanical engineering: Honors—J. L. Chambers. Pass—H. P. Brumell (anal., geom.). E. A. Dunn (trig., anal., geom.). R. D. Keenleyside, F. R. McDonaid (elec. and mag.), L. T. McNaughton

R. D. Keenleyside, F. R. McDonald (elec. and mag.), L. T. McNaughton (anal. geom.).

Architecture: Honors—J. B. Helme. Pass—Miss M. Kentner (anal., geom.), H. P. Niece.

Applied chemistry: Honors—A. H. Fair, A. Hambleton. Pass—H. A. Knight, C. P. Sale, Chemical engineering: honors—A. H. Dingman, H. C. Kerman, H. C. Soehner. Pass—H. B. Cody (trig., anal., geom); F. H. Emery, J. Faill, B. M. McLean (trig.).

EVERINGHAM—On Wednesday, April 25, 1917, at her late residence, 139 Wolseley street, Toronto, Elizabeth Longhouse, widow of the late Richard E. Everingham, in her 73rd year, and mother of Mrs. W. J. Usher.

Funeral from above address Friday, at 2 p.m. Interment in Mount Pleasant Cemetery.

SMITH—At 19 Forest Hill Road, Toronto, on Tuesday, April 24th, 1917, Alice, beloved wife of G. Larratt Smith, Esquire, in her 45th year.

Funeral from Christ Church, Deer Park, on Thursday, April 26th, at 10 a.m. Please do not send flowers.

SCOTT—"Somewhere in France," Lieut. Fred Gundy Scott, dearly beloved son of Mrs. F. Scott, 33 Rathnally avenue, in his 22nd year.

TILL—On Tuesday evening, April 24th, 1917, accidentally killed, Albert Edward Till, beloved husband of Jessie Crozier, and only son of Mr. and Mrs. Lewis A. True.

Funeral from Christ Church, Deer Park, on Thursday, April 26th, at 10 a.m. Please do not send flowers.

SCOTT—"Somewhere in France," Lieut. Fred Gundy Scott, dearly beloved son of Mrs. F. Scott, 33 Rathnally avenue, in his 22nd year.

TILL—On Tuesday evening, April 24th, 1917, accidentally killed, Albert Edward Till, beloved husband of Jessie Crozier, and only son of Mr. and Mrs. Lewis A. True.

Mentodo, S. E. Henry, M. H. Mitchell, C. J. Murphy, E. Pullan, S. S. Smillle, A. L. Stewart, T. S. Welsman, Pass—E. F. Armstrong, T. W. Duncan, F. C. Eley (elem. chem., accts.); H. C. Graham (trig., elec. circ.); C. R. Hill, M. Landsberg, A. Lavine, J. D. McLeRan (trig., elec. circ.); C. R. Hill, M. Landsberg, A. Lavine, J. D. McLeRan (trig., elec. circ.); C. R. Hill, M. Landsberg, A. Lavine, J. D. McLeRan (trig., elec. circ.); C. R. Hill, M. Landsberg, A. L. E. Wilson (trig.)

L. Caldwell (spher, trig., bank, and fin.); E. L. Cavana (spher, trig., org. chem.); W. Harman, (prac. miner., calc.); G. H. Hopper, W. F. Irvin (org. chem.); W. Harman, (prac. miner., calc.); G. H. Electrical engineering: honors—W. A. Dancey, R. A. Durand, J. M. Harkins, J. E. Hess, C. F. Jenkins, H. Rose, A. G. Turnbull, H. G. Young. Pass—M. H. Centner, H. Illman, C. G. Manning, W. M. Reid (aegro-tat); J. R. Tansey (calc.); A. L. Tennyson. Lesperance.

L. Tennyson. Third Year. Third Year.

Civil engineering: Honors—N. Kearns,
N. G. McDonald, J. Rovsky, W. L. Sagar,
M. Samuel, C. R. Scott. Pass—W. G.
Brown, F. D. Ellis, H. W. J. Fairclough,
C. O. Maddock (Calc.), R. C. Mitchell
(field work), D. G. Scott (field work).

Mining engineering: Pass—C. E. Macdonald, C. A. Richardson.

Mechanical engineering: Honors—W.
D. Robertson. D. Robertson. Chemical engineering: Pass—J. H. Forman.
Electrical engineering: Honors—C. K.

### pre-the A Minister's **Evidence**

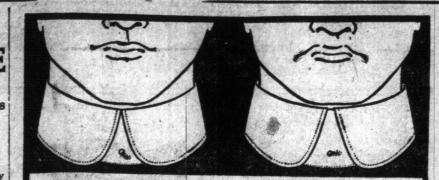

That Piles, or Hemorrhoids, Can Be Quickly Cured—A Justice of the Peace Cured Many Years Ago.

Toronto, Ont., April 25 .- There have come to us recently these two letters firom prominent men who bear un-

of Vauxaillon a German attack against one day, and sat for only a few min-our trenches was stopped this aftersome comrades to catch up to me. From sitting on the damp stump I contracted piles, and suffered so severely that it caused me great pain to walk. A friend recommended Dr. Chase's Continent, and I immediately purchased a small box, which very rapidly effected a cure. I always keep

for piles. Less than one box cured me, and I have never been troubled since. That was twenty-eight years ago, so I think the cure is permanent. It is good for sore lips and hands, chafing, and, in fact, all sorts of sores. You are at liberty to use this state-ment for the benefit of others."

You can put Dr. Chase's Ointment a sales agent. to the test in any case of piles with who the utmost assurance that you

## One shows "gap" Other fits close

You know, by experience, that the ordinary collar soon spreads and shows an unsightly "gap" at the top.

On the other hand, a W. G. & R. collar retains its close fit for the following reasons:-

1st-Because the inside buttonhole (see 1 in illustration) is a fraction of an inch higher than the outside buttonhole. This makes the collar button act as a lever and exert a steady upward pressure on the hook end (see 3) making a tight lock at the top of the collar.

2nd-Because it has our "Slip On" buttonhole (see 2) on the outside tab. Thus, when buttoning the outside tab, the collar slides easily into place, the post of the collar button coming to the top of the "Slip On" buttonhole, making it impossible for the collar to spread. It must stay close at the top.

These exclusive features of W. G. & R. collars are sure to be appreciated by you and other particular dressers.

elected first vice-president in the re-organization of that company.

THOMAS FINDLEY, yesterday elected president and gen- Reorganization of Massey-Harris eral manager of the Massey-Harris Co., Ltd., in succession to the late Sir Lyman Melvin Jones.

DEVONPORT'S WARNING.

London, April 25.—The British public was solemnly warned today by Lord Devonport, the British food controller, that the country's shipping was being depleted daily in large volume and that severe privations menaced the nation before the next harvest was reached. Lord Devonport's warning was issued in the house of lords in response to a question by Lord Learnington as to what success had attended the efforts at voluntary rationing, and whether the government intended to resort to

compulsion.

Lord Devonport recited the extensive efforts that are being made by the press, pulpit and schools and also by local committees to impress on the community the urgency of food restrictions. He said that it might be described as a general election on a grand scale with the view of soliciting the allegiance of every citizen, partic-ularly the women, to reduce their con-

sumption of bread. He continued: Fears Severe Privations. "If our shipping resources were as-sured we could undoubtedly carry on, but they are not assured. Our shipping is being depleted every day in large volume and altho our existence depends thereupon it is at the moment a wasting security. As there is no immediate prospect of our locked-up ent occupation we have to face this

"Unless we exercise sufficiency of self-denial in the consumption of bread I tell you the blunt truth, we shall not get thru to next harvest without se were privation and all that it involves.

Tells Story of First Defeat at Newark-Relief Pitcher Saved the Bears.

Newark, N.J., April 25.—Roy Wilkinson's effective relief pitching today gave Newark the opening game of the first series here with Toronto 4 to 3. The Leafs tied the score in the fourth and assumed the lead in the sixth, but Wilkinsen succeeded Smallwood on the mound in the greenth and invited three rounds.

winning counts.

With one out in the third Haas beat out a bunt. Callahan popped out. Durgin singled thru short. Eldred lifted a high fly, which Whiteman, after setting set, let bound out of his glove. Both runners tallied. Jacobson prevented further trouble by sticking out one hand, and clutching Lewis' drive while on a dead run with his back to the diamond.

ed a hit past Trout, Eldred and Lewis scoring.

The breaks were against the Leafs when men were on bases. Jacobson whaled a double to left in the first and was sacrificed to third, but he was caught on Whiteman's grounder to Mowe. A bare-hand stop choked a budding Toronto score in the eighth. Whiteman walked and stole. Lajoie soaked one down the third base line, but was robbed of a hit when Fuller speared the ball with his unprotected hand and pounced on Whiteman, who fell in trying to retreat back to second. Graham then lined a screamer straight inte Fuller's hands and Lajoie was doubled off lirst.

#### FOUR ONE-RUN WINS ON BARROW CIRCUIT

At Richmond (International).—Richmond won a slugging match from Montreal 10 to 9. Five pitchers were used by the two teams. Score: R.H.E. Montreal .... 0 0 4 2 0 0 0 3 0 — 9 11 1 Richmond ... 1 0 6 3 0 0 0 0 0 0 — 10 12 2 Batteries—Gerner, Stewart and Howley: Cooper, Hoffman, Scheneburg and

At Providence (International).— The Grays pulled a victory out of the fire in the ninth yesterday when three runs were scored on a succession of passes and hits, beating Rochester 8 to 7. All the Rochester pitchers were wild and were batted hard. Score: R.H.E. Rochester .... 2 0 0 0 0 0 4 1 0—7 8 1 2 Providence .... 9 0 1 0 0 2 1 3 1—8 13 2 Batteries—Mulrennan and Mayer; Causey, Huenke, Lohman and Wendell.

#### As Pres. Gillespie Views the Toronto Soccer Embroglio

R. J. Gillespie, president of the Quebec B.A., writes in The Montreal Herald:

"While I side with the T. and D. Association on the legal admittance of the new league by the Ontario Football Association, namely, that a quorum of eight is not ten, I think they have wilfully widened the breach by refusing to meet the new league's delegates and the D. F. A. president on Saturday last at Toronto; but what surprises me most of all is the appearance of Tom Guthrie as a leader in the new movement. A year ago he

LAWN BOWLING

A most successful stag euchre was held on Tuesday evening at Playter's Hail by the members and friends of the Withrow Park Lawn Bowling Club. The Harris School of Music furnished an orchestra of sixteen violins and played selections from eight p.m. to nine p.m., which was greadly appreciated, while Mr. G. Counter sang two songs in splendid style. At 2 p.m. euchre commenced and was played till 11 p.m. While the winners were being selected Mr. J. Wisger amused the company with two songs. The winners of the euchre were: Messrs. C. Tompkins, first; W. McCaffery, second, and W. E. Hymes, third.

the new league's delegates and the D. F.
A president on Saturday last at Toronto;
but what surprises me most of all is the
appearance of Tom Guthrie as a leader
in the new movement. A year ago he
would not have been with them.
"The latest soccer sensation in the
Queen City is that the former enemies,
Tom Watson and Tom Guthrie, are now
the best of friends, working hand in
hand, not for the interests of Toronto
soccer, but for its disruption."

Irving Trout has struck his batting
stride. He cleuted at a .500 clip yesterday. Trout's hitting was in the right
spot.

The Braves and Dodgers played tweive
immings to a tie yesterday. Thirty-two
men were used by the two clubs, six of
them being pitchers.

and W. E. Hynes, third.

SCHANG'S HOME RUN DOWNS THE YANKS

Came With Two on Bases-Four in a Row for Babe Ruth.

At New York (American)—Schang's home run, coming with McInnis and Bates on base, with one out, in the ninth innings, enabled Philadelphia to win a belated victory over New York, 4 to 2. Prior to Schang's hit. Russell had pitched sensational ball, striking out nine men. Noyes pitched a steady game. McInnis made four hits in as many times at bat. Score:

Philadelphia ... 0 0 0 0 1 0 0 3 -4 8 1
New York ... 0 0 0 1 1 0 0 0 0 -2 7 0
Batteries—Noyes and Schang; Russell and Nunamaker.

At Boston (American)—Ayers of Washington went to pieces in the seventh innings and passed four men in succession, forcing in the tying run. After that Lewis worked the squeeze play, scoring Hooper with the run which won for Boston, 5 to 4. This was Ruth's fourth straight pitching victory. Each of his two singles drove in a Boston run. Score: R.H.E. Washington ... 0 2 0 1 1 0 2 0 0 0 4 6 8. Boston ... 0 2 0 1 0 0 2 0 4 5 7 2 Batteries—Ayers and Henry: Ruth and Thomas, Agnew.

and Gowdy; Marquard, Dell, S. Smith and Meyers and Miller,

Batteries — Rudo'ph, Reulbach, Nehf and Gowdy; Marquard, Dell, S. Smith and Meyers and Miller.

At Philadelphia (National) — New York made five successive ints, including a double by Fletcher and a home run by Kilduff, off Alexander in the eighth innings and won yesterday's game, 9 to 8. Philadelphia hit Perritt and Middleton hard, but Sallee stopped the home team in the last two innings. Burns made a double, a triple and two singles in five times at bat. Score:

New York ... 0 0 3 1 0 0 1 4 0 — 9 13 2 Philadelphia. 0 1 2 2 3 0 0 0 0 — 8 11 2 Batteries — Perritt, Middleton, Sallee and McCarty; Alexander, Mayer and Killifer.

### Montreal Horses Move Fastest at Woodbine

It was cool and uninviting at the Woodbine yesterday morning, but still ome of the candidates were set to work some of the candidates were set to work. Britannia, the Thorncliffe plater, went a mile easily in 1.53 3-5, and Impress three-quarters in 1.25. The two-year-olds, Pleasure Bent and Joffre, worked out three-eighths in .38 2-5, a smart move. Graphic stepped three-quarters in 1.26. Victrola went in 1.22, King Hamburg and Easter Lily in the same time, and Fountain Fay in 1.26 2-5.

Iron Cross and Bachelor's Bliss, two Irish three-year-olds, worked a half in .52 2-5.

Irish three-year-olds, worked a half in 152.2-5.

The fastest move was made by the two Montreal-owned horses, Serf Vacant and Red Post, three-eighths in 137.2-5. Ring Dove and Smart Cat, the Beardmore platers, galloped three-quarters in 1.26.2-5.

Davenscourt, in 1.26.

The horses owned by Chas. Crew arrived at the track. The stable has one entry for the plate, Oriana. The string have wintered well. The names of the seven are: Pepper Sauce, Old Pop. Corn Broom, Miss Gayle, Eddie III. and Nellie C.

### GARDENING

#### CUCUMBERS.

The home garden is not complete unless there are cucumbers. They are a splendid addition to the table served sliced, or they can be used for pickles. t is worth noting that pulled fresh they do not cause the same stomach troubles as they sometimes do when they have lain for days after they have been taken off the vine.

cessary from the very start. When the plants are a couple of inches high, start spraying and continue it till bloswas announced tonight by Mayor Watering.-Watering is necessary if the season is a dry one, but they do not want too much. The hills or side drive, according to the mayor's committee on decoration will become a "blaze of color by day and not want too much.

#### rench should be heaped up to give good drainage. THE OLD GARDENER SAYS.

As an official badge a logs and tric sign, showing the Stars and Stripes, Union Jack and Tricolor goined together in a bow and surmounted by the cap of liberty, will be placed atop the city hall. A If you have a town garden and you cannot get stable manure, you will be wise to buy pulverized sheep medal also is being struck, bearing on one side St. Gauden's conception of liberty, now used on \$20 gold pieces, and on the other side the manure or some similar natural fertilizer at the seed store. This is beter than depending on commercial the fertilizers alone. Spread it along the design of the Franklin penny, thus rows before planting and work it well into the soil. Put all your wood symbolizing that America is determined to stand by her allies "from the first penny to the last dollar." ashes on the garden, and if you get any quantity of soot when you clean out your furance or chimney spread

The president, Mrs. Prittie, introduced the speaker. The next address will be given by Dr. C. J. Hastings.

#### FOR MARGUERITE CLARK FUND.

Yesterday a cheque for seventyeight dollars was received at The World office as a donation thru the Sir Henry Pellatt Chapter, LO.D.E. to the fund conducted thru these col-umns for the little blind girl Margueracknowledged.

#### WILLS PROBATED

Alfred Batho, a builder, who died in the General Hospital, on March 30, his will dated December 19, 1916, left all of his estate of \$11,756 to his wife, but suggested that she assist his two daughters if they should need it.

By a will dated July 2, 1915, George Simpson Baldwin, a manufacturer, who died in Aurora on March 19, bequeathed his property valued at \$38,-762, to his children. An adopted daughter, Gertrude Baldwin, is properly with a life income on \$5500 until vided with a life income on \$5500, until she marries, when, it will cease.

Boys and girls, May will soon here, the big garden month. Time for planting seeds. Have you sent for yours yet? See Sunday World.

#### Conducted by Society -- Mrs. Edmund Phillips

lunching at Government House at the week-end with Their Excellencies were Lady Borden, Mr. and Mrs. Archibald G. Parker and Miss Grace Parker.

have been taken off the vine.

For the amateur it is better to plant them in the open ground.

They are usually grown in hills, and they spread over a good deal of ground. If your garden is small grow them on trellis work or poultry netting. Or you can grow them up a wall by giving them netting or strings as support.

This is another of the vegetables

them netting or strings as support.

This is another of the vegetables which likes warmth, and the seeds should not be planted too soon. From the middle to the end of May is the proper time. Try a few seeds as soon as you think the ground is warm enough. If they do not do well you have lost no time anyway.

Soil.—This vegetable requires very rich soil to get it at its best. Use lois of half rotted manure if you can get it.

Hills—If you have ground enough to plant in hills, the hills should be at least four feet apart. Dig the earth thoroly, mixing the manure in in generous proportions. Plant half a dozen seeds half an inch deep and leave three strong plants to the hill.

On Trellis.—If you want to save space and grow them on a fence or trellis, dig a trench along the trellis at foot and a half deep. Fill this with soil and manure, half and half, well mixed. Plant the seeds half an inch deep, and six inches apart in the rows. Insects.—Cucumbers—are very susceptible to the attacks of insects and spraying with Bordeaux mixture is necessary from the very start. When the plants are a couple of inches high, start spraying and continue it till blos—

The marriage took place very

The marriage took place very quietly yesterday afternoon at 4 o'clock in the Church of the Epiphany, Parkdale, the Rev. Canon Hague officiating, of Lillian, daughter of Mr. and Mrs. A. Allardyce, to Mr. William Hewson O'Reilly. Mr. Sargent played the organ thruout the service and the pretty church was decorated with palms and pink roses. The fair and beautiful bride, who was brought in and given away by her father, wore a coat and skirt of white flannel, with a French hat of pink crepe, with crown of pale blue and tiny blue and pink flowers, and she carried an armful of Ophelia roses and wore the groom's gift, a pin of platinum and diamonds. Both bride and groom were unattended and Mr. Harold Allardyce acted as usher. Mr. and Mrs. O'Reilly drove to the station from the church (there being no reception). leaving by the brides' train on a short trip to New York and Boston, and on their return will live at the Parkview Mansions. The bride's mother wore midnight blue khaki wool and a smart black toque and a corsage bouquet of orchids and lilies. Mrs. Harold Browning, Windsor, Ont., was in taupe broadcloth and a black hat trimmed with blue, and wore violets: Mrs. Feriss, Detroit, wore a gown of navy blue flannel and a black hat and carried Richmond roses. Mrs. Roy, Palmerston boulevard, gave a dinner in the evening for the wedding party.

of Chantilly lace and tulle, with tunic and train from the shoulders of white satin The corsage was sewn-with pearls and tassels of pearls were on the shoulders. With this she were a lace cap and tulle veil, with small wreath of orange blossoms, and the groom's gift, a pearl and diamond star pendant on a gold chain, and she carried a shower bouquet of mauve orchids and illies and was attended by Miss Egrae Crawford, in a very pretty and be ming frock of canary tulle flounces bound with satin and a tunic of the same material, the tulle ary tulle flounces bound with satin and a tunic of the same material, the tulle corsage trimmed with gold and turquoise embroidery, and an osprey in her helr, and carried yellow roses. Mr. Frank Harrison attended the groom, the best man and bridesmaid receiving from the groom gold monogrammed sleeve links and a pearl har pin respectively. After the ceremony Mrs. Ferguson held a reception, when she wore a gown of plum-

the ceremony Mrs. Ferguson held a re-ception, when she were a gown of plum-colored satin and georgette crepe and gold lace and a corsage bouquet of Rich-mond roses and lilies. The bride's table was decorated with the beautiful wed-ding cake, pink roses and lilies, and a vase and lilies and white roses surmount-ed the cake. Later Mr and Mrs. Steter wearing a blue tailor-made, trimmed with whate broadcloth end gold, white fox furs and a smart black and blue hat. On their return they will live at the Anger, Bloor street. A few of the guests included: Mrs. Beand, in blue satin and crepe, trimmed with gold embrotdery. The bride's two brothers were also present; Dr. W. Ferguson and Mr. Arnold Ferguson, Mr. and Mrs. H. C. Tomlin, Mrs. Alexander Fraser, Mr, and Mrs. Loherty, Mrs. Darling, Mrs. Knox, Dr, and Mrs. Young, Mr. House, Miss Chillips, Mr. Cringan, Mr. and Mrs. Brown. Mr. and Mrs. Windeler, Mrs. Gladstone Ghent, the Hon. Thomas and Mrs. Crawford, Miss Crawford.

## Synopsis of Canadian North-

## west Land Regulations.

The sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Lands Agency (but not Sub-Agency) on certain conditions. but not suo-Agency) on certain conations.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required, except where residence is performed in the yielnity. ditions. A habitable house is required, except where residence is performed in the vicinity.

Live stock may be substituted for cultivation under certain conditions.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price, 33.00 per acre.

Duties—Six months' residence in each of three years after earning homestead patent, also 50 acres extra cultivation. Pre-emption patent may be obtained as soon as a homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre.

Duties.—Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.

#### Live Stock Market

Receipts of live stock at the Union Stock Yards yesterday consisted of 49 cars—478 cattle, 311 caives, 1674 hogs and 27 sheep and lambs.

The market was active and strong, with most cattle selling 25c higher than on Tuesday. A few choice baby beef sold at 312 and \$12.50 per cwt., and some heavy steers brought the same price.

Stockers and feeders were steady at prices the same as on Tuesday, choice selling at \$9.50 to \$10.

Milkers and springers were firm, choice cows selling at from \$90 to \$120 each, and a few extra choice cows at \$125 to \$130 each, and one at \$150, and two at \$140 each.

each.
Sheep and lambs were again strong at
Tuesday's quotations.
Calves—Choice were strong and 50c
higher, while common and medium were
steady.
Only 1674 were on the market. Hogs.—Only 1674 were on the market. Fed and watered sold at \$16.50 to \$16.65, and weighed off cars at \$16.75 to \$16.90. LIVE STOCK QUOTATIONS.

#### CONSTABLE IS CHARGED.

Special to The Toronto World.
Woodstock, April 25.—A charge of drunkenness against Constable Roddis was tried by the police commission today, and decision reserved. Friday night no less than six burgiaries occurred here. Roddis called to investigate, and today some of the witnesses declared the constable was drunk. Other witnesses, including his physical, swore that he was suffering from heart trouble. The case has aroused considerable interest in the city.

GETS WESTERN APPOINTMENT.

Woodstock, April 25.—A former local man, J. A. Younie, B.A., B.D., has been appointed to the principalship of the schools which the Dominion Government has established at Edmonton for returned soldiers. Mr. Younie is at present acting as principal of the high school at Fort Saskatchewan, Aita.

#### HIGH GRADE VEIN AT HARGRAVES

Strong Ore Body of Great Promise Close to the Kerr Lake.

#### **GOOD MANAGEMENT**

Large Amount of High-Grade Ore Ready for Shipment.

From The World's Special Commis

cobalt, April 25.—On visiting Harthe Kerr Lake property. This shaft down 400 feet, and there has been drifting and lateral work t this level. A winze now being sunk as encountered some very rich ore. is likely that development will be hward in the near future for 1000 feet, so as to more fully explore the South Hargraves lot. There is some very promising ground, and a contact between keewatin and diabase in this

In view of its large acreage and very favorable formation the Hargraves has great possibilities. In Cobalt's early being shipped, there were many erienced mining men who freely licted that the future of the camp be made by the lower grades twould seem that on the Harthere are almost unlimited des of ore which will pay hand somely in view of the great improve-ments in the metallurgy of silver within recent years. Concentration and flotation have materially changed

he aspect of things here. The Hargraves, however, is now get ting a large proportion of unusually high grade ore. But mine owners in this camp have learned that the low grade is not to be neglected. The old dumps will all be treated, and the gleaners will be put to work in the gleaners will be put to work in the opes to gather up all the low ore. This will also very likely ult in the discovery of important lies of high grade as well.

find of 3000 oz. ore was made today at the 75-foot level of No. 1 whaft on the Hargraves. The vein is three inches wide. It is 60 feet from the boundary of the Kerr Lake mine. and will be good for that distance in any event. Just where found the vein is not so strong in the other direction that is, further on to the Hargraves net of backs and 60 feet of length, and

ore, much of it showing native silver. The mine is now being carefully managed, and this is a most important fac-tor in the progress of any property.

There are now 225 sacks of high grade ore awaiting shipment in the storehouse here. A large percentage

of this is of exceptional value. at the property today returns for last month were received from the \$780. This was of low grade, from were treated by the old manent as waste dumps. It is expected that this month shipments will run up to \$1000 at least from these operations. Meantime the high grade ore is increasing rapidly mantity, and a favorable time will

#### PLANT COMPLETED BY RAND CON.

S. R. Clarke.

Cobalt, April 25 .- The Rand Conhas now completed its plant on the No. 1 copper property, which lies between Cobalt and Sudbury, and it is expected that regular shipments will be started as soon ice clears off the lakes the No. 1 vein assays show \$52 in gold, silver and copper, with occa-sional lenses running up as high as

These assay results were ob-

now at Goudreau taking charge of the Rand Consolidated properties and Consolidated properties
On these claims the large of 300 feet for its entire and one-half miles in length and in

tained from actual shipments from

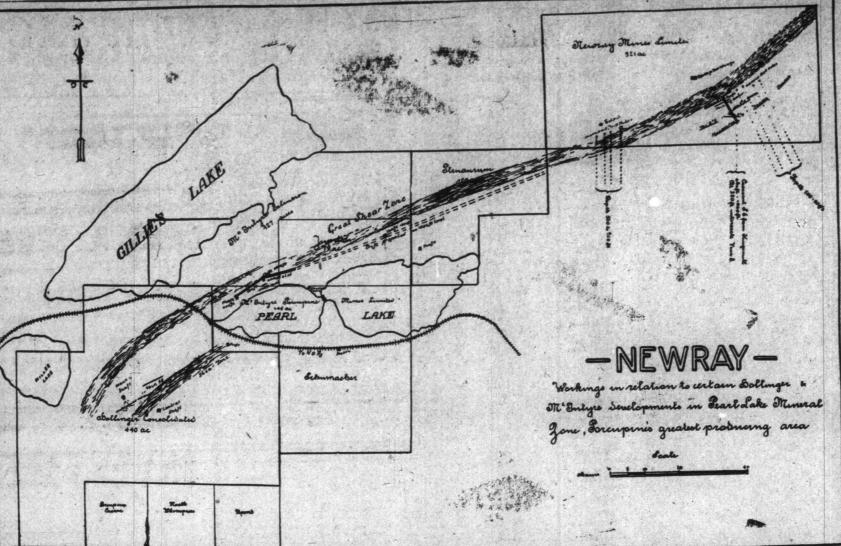

#### DEAL CONSUMMATED FOR ROGNON MINES

A Rochester group of capitalists have acquired a substantial interest in the Rognon Gold Mining Co., Limited, who have a property south of Dryden, Ontario. It is reported that some very spectacular samples have been taken from the property, and five tons of ore assayed \$29.40 per ton. It is the intention to erect a stamp mill at once, which will be increased as development work progresses.

#### WORK ON RYPAN TO RESUME

The Rypan of Deloro will resume operations, it is reported, early next The property consists of about 188 acres, and is located a short distance south of the Coniagas. The en an option on the Hennessey claims for a large sum, and active developwork is now under way. The three properties are practically grouped together, and the district has every evidence of proving up to be the next

producing section of Porcupine.
The Rypan formation shows the country rock as keewatin green-There is a large zone of schisting in which several veins have been found. The zone is very wide and can be traced, it is calmed, for near-by 2,000 feet. Quartz bodies parallel each other and the intervening schist heavily mineralized with iron and sopper pyrites. Assays have been very favorable, and if it is found that ore of commercial value is made by mixing the vein matter and intervening rock, development similar to that

crease in Present Ore

Reserves.

couraging developments in the newer depths found upon the McKinley property. Since the 1st of January especially, the work has been most encouraging. During the last month on the 300 ft. level, one of the new levels, the blind vein produced a large tonnage of mill rock of good grade. The stope also working at the same depth contains a considerable amount of wein matter. Work on what is known as the Lake vein also at the 200 at t as the Lake vein, also at the 300 ft. sion property was effected, its value level, has also opened up an ore body of good grade mill rock. At the 350 ft. level, there are also encouraging signs, but not so much work has been done on this level as on the 300 ft. The description was to secure the right of operation that the Extension main shaft for the on this level as on the 300 ft. The deeper development of the Mointyre shaft to the 400 ft. level was only property on the north side of Pearl completed last month and will enable Lake. He adds that the operations the mine to do a considerable amount of exporation work at that level. There existence of large and valuable or is, however, at the 400 ft. level, a vein which has been drifted on for some 100 feet. The values, however, but also on the property of the Expression of the property of the Ex are patchy, but the ere is payable Without any undue enthusiasm, the chances on the 400 ft. level are very

"The ore that we are taking out of the newer lower levels, is of considerably better grade than we have been the constant of the camp, passes diagonally across both these properties, and the per acre value of this part of the Experience of the camp, passes are the constant of the camp, passes diagonally across both these properties, and the per acre value of this part of the Experience of the camp, passes diagonally across both these properties, and the per acre value of this part of the Experience of the camp, passes diagonally across both these properties, and the per acre value of this part of the Experience of the camp, passes diagonally across both these properties, and the per acre value of this part of the camp, passes diagonally across both these properties, and the per acre value of this part of the camp, passes diagonally across both these properties, and the per acre value of this part of the camp, passes diagonally across both these properties, and the per acre value of this part of the camp, passes diagonally across both these properties, and the per acre value of this part of the camp, passes diagonally across both these properties, and the per acre value of this part of the camp, passes diagonally across both these properties. Are Better Grade. for the past year or two. I think I may safely say, and with the desire only to state the barest facts, that there is a possibility that at the end the advice of C. D. Kaeding, M.E., of the year 1917, the ore reserves of managing director of the Dome Mines, the mine will be considerably larger Ltd., they purchased outright both the they were on the 1st of Janu- Extension

extraction of silver.

A New Mill.

"This year the directors have authorized a new mill, sufficient to treat the tailings which had been previously going into the lake. Owing to the difficulties in, procuring machinery, this mill will not be under operation for some weeks, but when it is operating your company will be able to ing, your company will be able to depth of 1000 treat, we trust, at a profit, all the for-doubled below

and wages, increased the actual cost perty about \$5000 per month. Some of you have probably been wondering mine did not show a greater net profit in 1916 than in 1915. The answer, however, is simple. We made the profit, but it was eaten up in in-creased cost of material and wages.

Looking for Prospects. "In pursuance of the policy authorized by the shareholders to endeavor to secure other mining properties, your directors, during the most of last employed a special mining engineer for the purpose of locating and the words of R. J. Ennis, M.E., in researching for new properties. Many ference to the three companies now searching for new properties. properties were presented to the en-gineer for observation and examination these words apply with no less force and out of the many, a few were to the Plenaurum addition. This is found that were worthy of personal shown by the arrangement made on Notwithstanding. ever, the efforts of your officers, we have not yet succeeded in procuping a property that is satisfactory and in which we feel justified in investing

#### GOOD FIND MADE ON KIRKLAND MIDAS

Kirkland Lake, April 25 .- Superintendent Bruce of the Kirkland Mines property, which is situated the Labelle, Kirkland and the Teck-Hughes, reports the uncovering of a fine-looking vein seven feet wide. The Midas owns six

President Starr Predicts In- Significance of Auriferous Belt Not Properly Rumors of Strike Premature, Understood For Long Time-Interesting History.

place undue emphasis on the already long life of the mine.

The address follows: "Last year I said to the shareholders that there were some very interesting and encouraging developments in the newer late."

Authoritous best in the camp, they made adultions between its different sections, and so far as mining has proceeded thereon it cannot be said that any part of it will not make good.

The old Pearl Lake Gold Mines, Ltd., Exter the McIntyre Extension, got late.

tension Company. The fact is that the great Hollinger Newray shear zone, the high-grade tension is equal to anything in Porcu-

and the Jupiter adjoining ary, 1917.

"Recent changes in the mill have red these properties as "situated in sulted in a considerable increase in the highest grade section of the camp," it on the east. Mr. Kaeding describ and he felt so optimistic about the future of the McIntyre Consolidated that he urged the shareholders ratify the purchases without loss

The old Pearl Lake mines had put down a shaft 665 feet. The Consoli-dated Company carried this to a depth of 1000 feet. Values nearly doubled below 700 feet, and the ore bodies also increased very much mer mill tailings.

"During the year 1916 your propersize. With these favorable developties, as well as other properties in the Cobalt Camp, worked under a constantly increasing cost. The increased cost of powder and other materials, in its history took its place among the big mines of the camp. Its financial troubles and its mining problems became things of the past, and of mining operations of your pro- it was enabled to make still further advances in its great career.

Lately an option has been secured on the Plenaurum, and now there is under the control and administration of the McIntyre Consolidated a total of 471 acres on the great shear These properties are all in one block one to the other, and they lend themselves readily to and economical scheme of development and operation." We are quoting shown by the arrangement made on pawnbroking had anything in common. the acquisition of the latter that it we could understand the attitude of should be developed from the 1000- some shareholders who fail to make

The changes of ownership on Hollinger-Newray shear zone have been marked by great losses and gains The old Pearl Lake mines had an important part of this zone, and strategic position in reference to its ment. So, at one time, the McKinley-Darragh, of Cobalt, in respect of their option on the Jupiter splendid property, one of inestimable of the United States, but it is certain dividends for at least 50 warms. claims on the recognized ore-bearing from over-caution or want of apprecia-zone in the Kirkland Leke camp and tion of its possibilities they forfeited it is anticipated that several good the \$55,000 spent on development, and

The feature of the annual meeting of McKinley-Darragh Mines which was held yesterday, was the address of President J. R. L. Starr.

In spite of the ultra conservatism reflected in his remarks on the development and prosperity at the procupine, and from here, also, the perty, there was a note of optimism which will go a long way toward reassuring diffident shareholders who place undue emphasis on the already long life of the mine. more than 2500 feet on the Jupiter property. And, at the annual meeting of the McIntyre on May 26, 1916, Col. Hay stated that the combined holdings of the McIntyre in the two subsidiary companies, namely the Extension and Jupiter, had then a market value of \$1,500,000. He frankly added "our total investment to date in respect of the two companies is less than \$200,000."

in the consolidation. With the Plenare of the shear zone, and the facilities for exploiting the whole vein system therein cannot be excelled, while their only to actual wages. In case of injury

The queer feature of the whole situation is that when the old Pearl Lake Mines went into liquidation, when the Jupiter was beset with pressing finanial difficulties, when the Plenaurum and Newray were entirely neglected mining men knew that there were double lines of contact between the porphyry and basaltic schist all the way from the Hollinger to the Newray. They also knew that practically all the gold of Porcupine was coming from such formations. At the Hollinger, Dome, McIntyre, Porcupine Crown and Schumacher we have these contacts.
Porphyry means fracture, and fracture says that the more fracture the more

A tongue of porphyry projects for fully 2000 feet westerly from the mass under Pearl Lake. Along the contact between this and the carbonate schist lies the famous No. 58 vein, of the Hollinger Consolidated. Very recently an exceptional streak in this vein producbeen opened up for a length of 100 feet, and yields values of \$50 per ton or better over a width of 14 feet, and 1 vein ever found in the history of gold

Drills Locate Porphyry.

The porphyry on the Newray and Plenaurum does not come to the surmond drilling. Here, as elsewhere, it neans shearing and fracture, and the perforation of the ground for vein for-mation and the deposition of gold. A great deal of money has already been made on the shear zone from the to the latest purchase of Newray. Mark Harris & Co., who acted and it is expected that the report in the latter transaction, are now distributing a large sum as excess profit in respect of the deal.

Among individuals Barney McEneany has probably been most successful. For him Ben Hollinger staked the Porcupine Crown. All told it could not have cost more than \$1000, but Mc-Eneany received \$166,000 in cash and 333,338 shares of stock in the com-

Unfortunately there is sometimes failure to make money, even out of the best properties. If gold mining and foot shaft now going down on the a mine because they require triple se curity for every dollar expended. But a mine is not a pawnshop, and a mine requires a liberal outlay, and it rarely shows an actual return during development, but if not worked properly with adequate capital it should not be touched at all. Mismanagement in some form is the fruitful parent of all

the failures at Porcupine. Many sections of the camp, even now untouched, have enormous possi-

It may be better, so far as actual production goes, that the great shear zone should be divided as it is now in progress in the "Glory Hole" at the veins will be picked up in the exportant the great opportunity.

### **MINERS AVERSE** TO BONUS SYSTEM

Definite Yet.

From World Special Commission

Big Profits,

But the profits on the purchase of the workers for two reasons. In the mere control are not a tithe of those which will ultimately accrue to the shareholders of the three companies with the plant worth the increase with the plant worth the plant worth the increase with the plant worth worth worth worth worth the increase with the plant worth wort cannot be excelled, while their only to actual wages. In case of injury have now been abundantly or disability the 55 per cent. would not be payable on the

This bonus, however, has not here-tofore been paid by the mine owner of Porcupine, nor even by all those of Cobalt. The payment of a bonus is much preferred by employers because it is more or less voluntary, and can be discontinued readily, whereas, when wages are once established on a higher scale, they are not easily reduced. The miners are apparently disposed to adopt a conclinatory attitude, but from all appearances they will at some time in the near future ask for 60 cents additional per day as wages. Whether this will result in a strike it is now impossible to say. The large mining companies of Porcupine do not seen disposed to grant any increase at pre sent. As has been often pointed out there is no increase in the value of advanced greatly in consequence of the war. The time is certainly inopportune, so far as they are high cost of living does not apply where the charges for board have no been increased.

#### REPORT PROMISED ON LORRAIN PROPERTY

A complete report work done at Lorrain Consolidatis now being prepared and will made public in the near future. will detail the results from development work and also outline the pos-sibilities as indicated by the drifting on the five-inch smaltite veir on the lower level, where develop earliest purchase of the Hollinger at ment work is now proceeding. The results to date have been favorable. will prove very satisfactory to the stockholders.

Drifting on the vein is proceeding rapidly, and the management antipates that silver will be run into at any time. A small vein has been discovered recently in the No. 3 crosscut and a drift is also being ndications are stated to be very favorable.

gone will beget more attention in the future. The money that might have been made will inspire seekers after the money still to be made.

## MARK HARRIS&CO. MINES AND MINING

## RAILROADS AND MINING

The railroad is the greatest nation-builder in the world.

The iron horse blazes the way across the barren wastes that he beyond the frontiers of civilization and settlers follow in its path. The land is tilled and springs into blossom; cities come into being: commerce and industry are established; a new Empire is builded.

In no country has the pioneer work done by the railroads been greater than right here in Canada. From the Atlantic to the Pacific and from the southern boundary to the waters, of Hudson Bay the rails mark the path of the Empire Builders and proclaim to the world the progress of the nation.

William H. Taft, ex-President of the United States of America in an article on "Great Britain and Her Daughters," published in a technical magazine about a year ago, stated how greatly he had been impressed with the amount of railway construction in this country. It is a fact not generally known that Canada stands in a most favorable light compared with the United States in this respect.

There is in Canada—in Ontario—an affinity existing between the railroad and the mining industry of a peculiar and impressive character. The Timiskaming & Northern Ontario Railway, the Ontario Government line, which was projected as a colonization railroad to open up the large agricultural areas to the north of Lake Timiskaming, known as the "clay belt" of northern Ontario, proved to be an enterprise of great pith and moment. It also proved to be an enterprise which builded better for empire than it knew.

To this railroad we owe the credit for the discovery and opening up of the great cobalt silver deposits. This was one of the greatest instances of prospecting ever done, and it was the work of railway builders. Men employed on the construction of the Timiskaming & Northern Ontario Railroad discovered the silver outcrops which led to the opening up of Cobalt and later on to the activity which has given us Porcupine, Kirkland Lake, Boston Creek and other mining

The T. & N. O. was projected for the purpose of opening up to agriculture a great clay belt, the mineral possibilities of which were at that time entirely unsuspected.

As the rails were laid and as the steel pushed its way through the wilderness of the northland, known for a century only to India and trappers, it caused mines to open and mining areas to expand for miles on every hand, drawing them within its radius just as a magnet

When this war is over millions of eyes will be turned toward the Ontario Norseland, eyes which in the years that are past were averted. The great gold mines of Porcupine, Kirkland Lake, Boston Creek, Beatty-Munroe, Kowkash, Shiningtree and Larder Lake; the silver camps of Cobalt, South Lorrain and Gowganda, and the colossal nickel deposits of Sudbury will collect their rightful tribute from the world at large. The world will come to know that Ontario has not only the richest silver camps in the world and the most promising of the younger gold camps, but that it is blessed in more than the precious metals; for instance, that it has at Madoc the largest body of high-grade talc on the continent.

But we cannot give a comprehensive statistical article in a couple of columns. The mining industry of Canada today accounts for 47 per cent. of our total freight revenue.

Over in the States the late Edward H. Harriman, the greatest railroad man that country has ever produced, wrote a letter to the American Mining Congress stating that mining originated over 50 per cent. of the railway tonnage. We expect to see the day come when Canada, which has among the greatest coal resources in the world, will be supplying from its mines from 55 per cent. to 60 per cent. of the freight tonnage of our great transcontinental railroads.

The total mineral production of Canada now amounts to \$175,000,000 a year. It requires neither a prophet nor the son of prophet to foretell an increase in this output during the next 10 years to \$500,000,000 and perhaps to \$1,000,000,000.

This is a vast and growing subject which we are only permitted to touch upon here, but we have a comprehensive statistical bureau which covers the subject completely.

We invite inquiries upon the subject of Canada's natural resources generally, and the mining industry in particular, and are in position to lay before inquirers, who are would-be investors and traders, a group of precious metal issues which, on account of their being in a state of development, preceding maturity, present attractive run at this point. Only small values bare been indicated to date, but the growing values. These enterprises are growing up with the growth of northern Ontario and, to our minds, putting money in them and awaiting their logical development is the planting of seed ground for an abundant harvest.

Already some of the largest mining operators of the Dominion are there and the outlook is very bright.

Boston Creek has the elements of one of the big gold camps of the north, companing with Porcipine and Kirkland Lake, and the Boston Creek mines are well in the lead there as pioneers.

Boston Creek and the Boston Creek is in very satisfactory condition financially. In the construction of the company 2,000,000 shores were authorized, half of which is retained in the treasury to cover mine and mill equipment and development. Before the shares were dealt in on the Toronto Standard Stock Exchange there was in the neighborhood of a quarter of a million dollars expended on the properties, with the result that some \$0,000 tons of ore were developed underground and placed on the dump. This ore is believed to have a valuation of from \$1.500,000 to \$2,000,000.

to the dulness. Mining shares moved irregularly, but foreign bonds and colonial
stocks maintained their strength, while
offs were in good demand. Mexicans
scored further gains, but American securities declined in sympathy with Wall
street. has not. When peace returns labor will be plentiful, and severe commercial competition will force prices of mackinery and mining supplies down below the normal, whereas the price of gold will not recede. Just as the market long ago discounted the benefits of war prosperity among industrials, so it has discounted the detrimental effects of war on mining stocks. Moreover, the stock market discounts events far ahead. Labor difficulties have been a passing shadow over the market. The market with reason discerns the dawn of peace on the horizon, an event which will preve definitely favorable to mining stocks."

### WHEAT TOUCHES HIGHEST LEVELS

Bid. Signs of European Buying Send Chicago Market Skyward.

Chicago, April 25.—Signs that European governments were buying freely both for immediate and future delivery did much today to bring about by far the highest prices yet in the wheat market here. Soaring quotations at Winnipeg preceded the advance in Chicago, where just before the close the May option touched \$2.52, an extreme jump since yesterday of 11½c a bushel. The close was nervous at net gains of 7c to 10½c, with May at \$2.50% and July at \$2.15½.

Corn and oats, as well as wheat, went

close was nervous at net gains of 7c to 10½c, with May at \$2.50½ and July at \$2.15½.

Corn and oats, as well as wheat, went to new high points, finishing respectively at advances of 3½c to 5c and 1½c to 2½c. Provisions showed a rise of 17c to 57c.

Decided broad sing out of trading in the speculative pit accompanied the upward flight in wheat prices. The volume of business was still restricted in comparison with what until recent days would have caused great fluctuations. Unusual scarcity of offerings put the bears under a handicap.

Assertions that no net increase of acreage of spring wheat would be achieved in the Dakotas and Minnesota, despite the crop shortage in the domestic winter wheat region, contributed a good deal to the flurry among buyers. Heavy rains were said to be causing serious delay to seeding in the states named and also in Canada. Millers, as well as exporters, were reported as again active purchasers, and there was anxious notice taken of the fact that milling wheat at St. Louis, spot cash, had reached as high as \$3 a bushel.

Corn was dominated mainly by the strength of wheat. Wet weather that delayed planting was a bullish factor, and there were also continued reports of car shortage. Oats developed independent firmmess owing to persistent buying on the part of houses with seaboard relations. Vessel charters for 1,000,000 bushels to go to Buffalo were reported. Provisions reflected the advances in grain.

WINNIPEG GRAIN MARKET. Winnipeg. April 25.—Prices on the local exchange soared to new levels today. In the first half-hour prices were extremely active, after which a slight reaction took place. The close was %c lower. May closed 12c higher, July 10c higher and October 8c up. Qats closed 2%c up for May, 1%c up for July and %c up for October. Bariey closed 4c up. Flax closed %c higher for May and 2c up for July. It was thoroly a runaway market, about which practically nothing was known to warrant the advance.

The local cash market was dull.

HOLLY WEAKENED

ON LIQUIDATION

Touched New Low—Timisk.

Active on Strength of Dividend Declaration.

Active on Strength of Dividend Declaration.

Interest in the mine stocks yesterday was focussed chiefly on the silver group and in these issues the bulk of the moderate trading transferred.

Taken as a whole the market presented a comparatively steady tone, price changes in almost every case being confined to fractional moves. sented a comparatively steady tone, price changes in almost every case being confined to fractional moves. being confined to fractional moves.

The notable exception was Hollinger. A fairly large block of this stock ser. A fairly large block of this stock was liquidated which naturally resulted in concessions being made for its disposal, and for the first time in three years the stock sold balow par. At the recession, however, there developed a demand quite sufficient to look after the shares offering. The low point reached was \$4.95. Since low point reached was \$4.95. Si reduced to \$5.00 the market price of the stock has declined gradually from \$7.60, the highest point reached, to the present low of \$4.95. At the beginning of the present year it sold around \$7.00, and the big drop occurred when the dividend of 13 per cent. per annum was cut in two. The cut was appaired as only temporary until num was cut in two. The cut was announced as only temporary until the present abnormal conditions abated. Just as soon as conditions improve and the mine is able to resume

## INVESTMENT HINTS

THE IMPORTANCE OF CAREFUL STUDY OF THE INTRIN-SIC MERITS OF SECURITIES BEFORE MAKING PURCHASES CANNOT BE OVER-EMPHASIZED. WE FEEL CONFIDENT IN RECOMMENDING NIPISSING, HOLLINGER AND CONIAGAS AS INVESTMENTS, AND DAVIDSON AS A SPECULATIVE INVEST-MENT FOR THE FOLLOWING REASONS:

NIPISSING—Dividends declared in 1916 were 80 per cent. Ore reserves were increased to 9,158,189 ounces of silver. Surplus increased by \$198,865 to \$1,980,126. Surplus and approximate profits from ore reserves represent \$1.09 on every dollar of stock. Present price of issue \$7.40.

HOLLINGER—Pays dividends at the rate of 6½ per cent. per annum. Ore reserves recently increased to \$40,000,000, net profits from which should represent \$22,000,000, as against \$24,000,000 capital stock. Vein No. 58 proving very productive and huge Millerton ore body another "Glory Hole." Mill being enlarged from 1700 to 2800 tons per day. Company should be in position to double dividend rate before autumn.

CONIAGAS—Dividend rate 15 per cent, per annum. Surplus on October 31st, 1916, was \$1,368,480. Ore reserves and dumps worth approximately \$6,000,000 (net of offits), which with surplus represents \$1.50 for every dollar of capital, Present price of stock

DAVIDSON—Property has large ore bodies opened up and should soon reach the production stage. Diamond drilling operations should shortly cut ore body at 500-foot level; already opened up at 300-foot level. Stock offers speculative as well as investment opportunities. Present price around 80 cents.

J.P. BICKELL&co. Standard Bank Bidg., Toronto SPECIAL WHEAT LETTER

Copy Free on request -THE-TEMISKAMING Mining Company Limited

No Personal Liability) DIVIDEND NO. 21

Notice is hereby given that a dividend of three cents a share on the stock of The Temiskaming Mining Company, Limited, is declared, payable on the 19th day of May, 1917, to shareholders of record April 30th, 1917. Transfer books closed May 1st to May 19th, 1917, both days inclusive.

By Order of the Board, R. GRAHAM, Secretary

looking to the future, which may not be so distant as some people who are selling now would seem to believe.

The feature of the silver stocks was Timiskaming, a good deal of buying coming in on the strength of the dividend declaration. Over 22,000 shares of stock changed hands between 45 % and 46 %, with the last sale at 46. The liquid assets alone of this company as shown by the last this company as shown by the last annual report amount to practically 23 cents per share, without taking into consideration the ore reserves which are generally estimated to be fairly large. It would seem that around the present figure at which the stock is selling investors are not taking much

least, there did not appear to be any disposition to siquidate holdings in

the company.

Hargraves was active and comparatively steady, changing hands at 16½ to 17. Lorrain went up a point to 34, and Ophir was in demand around 10.

Developments at this latter property have reached a critical stage. erty have reached a critical stage, which supplies an incentive for speculative buying. Crown Reserve, on high trading, advanced to 37, but reprove and the mine is able to resume its former payments without piling up a deficit this course will be pursued. In the meantime special attention is being paid to the erection of the new mill and to catching up with development. Evidently those who are buying. Crown Reserve, on light trading, advanced to 37, but relapsed to 35½, a net gain of ½ a point for the day. Nipissing was stronger, gaining 10 points over night at \$7.60. In the Porcupine list Big Dome remained its advance of the previous day to \$15.50, McIntyre was firm at 167 quiet but steady at 28% to 24.

and are shown today for the first time. They are the kind of coats we ordinarily sell at \$25.00, \$27.50, \$30.00 and \$35.00, but we got these from a manufacturer who was anxious to clear out his season's overmakes—so here they are. Not many of a kind, but a host of different styles. Six are here illustrated. All the fashionable materials and all the fashionable shades. Sizes 14, 16, 18 and 20. All will be included at the two remarkable prices of
