New Type of Gun For Allies' Offensive

French Advance When Enough of Them Ready—Throw Shell Which Dives Into Enemy's Trenches

Paris, Nov. 10.—The great French advance which is to clear the German invaders out of Belgium and France will be pressed home just as soon as the army is sufficiently equipped with a new gun about which there has been so much talk of late in military circles.

Special interest in the character of these new guns, which has not yet been officially disclosed, was aroused by the announcement made here regarding a diving projectile, which is said to have done so much towards clearing the sea, of the German submarine. It is understood that a similar apparatus has been adopted, attached to the projectiles used by the new large guns. They will be used against the German trenches and, instead of the difficult task of turning the soldiers out of these retreats, it is expected that the French will dispose of the invaders by burying large bodies of them in their own trenches.

One They Did Not Kill

Amsterdam, Nov. 10.—The Telegram says: "Baron De Hemphine, sentenced to death by a German court martial in Belgium on a charge of espionage, has been sent to Germany under a commuted sentence."

Have Saved French Submarine. London, Nov. 10.—A Reuter telegram from Constantinople says that the French submarine Turquoise, which was damaged by Turkish artillery fire, has been hauled off the point where she went ashore, and is being taken to Constantinople and renamed.

GERMANS AGAIN REPULSED IN WEST

Paris, Nov. 10.—A German attack near the forest of Givenchy was easily repulsed by French troops, according to an announcement by the French war office, while at the same time French batteries in the Champagne district, near Tahure, responded with energy to a German artillery attack.

More Italian Successes

Rome, Nov. 10.—The following official statement was issued today at the headquarters of the Italian general staff: "Continually increasing activity of artillery and aeroplanes in the Trentino frontier."

"On the night of the 9th in the Upper Cordevole the enemy, with strong forces, to recapture the summit of Coldana. After repulsing a violent attack, our men assumed the offensive and, driving the flying enemy, reached and stormed the summit of Monte Seta, which rises 7,000 feet to the north of Coldana."

"In Carina there was an intense artillery attack. Our guns answered every group in the Argonne (Gail), Valley, and on Monte Lodi and bombarded the Saffirio railway station at the head of the Fella valley. There were no important actions on the other fronts."

MORE FAMILIES HAVE GIVEN THREE SONS TO THE WAR

Another St. John family is well represented in the ranks of Lord Kitchener's army, sons of E. N. Knox of Montreal. There have been several instances of St. John families thus contributing two, three and four of their boys and this is another added to the list. Hazen Knox is with the 55th, Robert is with the Royal Canadian Artillery and William is with the 104th. All are well known about St. John and best wishes for their success with the colors will follow.

Another With Three. Mrs. C. Edgar Rees, of Fairville, has now all her sons in the king's service. C. P. Lloyd and Harold E. Rees enlisted with the A. S. C. second contingent a year ago and are now in France, and Robert M. has now enlisted in Winnipeg with the 90th Winnipeg Rifles. In a letter to his mother he says he hopes to meet his brothers in Berlin.

POLICE COURT

In the police court this morning, Charles London was fined \$8 or two months in jail for drunkenness, \$8 or ten months in jail for resisting the police, and remained on a charge of escaping from lawful custody. Yesterday morning he escaped from court while the sergeant was absent. Last evening he was re-arrested.

John C. Berry is becoming a familiar figure in the court. During the last month he has been arrested four times on vagrancy charges, but each time was ordered out of court. This morning Policeman McLeese testified about him stopping people in Charlotte street last night and begging money. Magistrate Ritchie again ordered him out.

Two prisoners were dealt with on drunkenness charges. Four men taken into custody last night after the police had obtained information from two young girls. The men were remanded in the police court this morning. The case was heard by Magistrate Ritchie. Those under arrest are: Clough Lee, aged 20; James Devlin, aged 24; James Johnston, aged 28; John Johnston, aged about 22.

MOSTLY WOMEN AND CHILDREN WERE DROWNED ON THE ANCONA

Austrians Follow Lead of Their German Friends

HUNDREDS SHELLS ALSO FIRED AT STEAMSHIP

Some Americans Said to Have Been Aboard and if Any Are Lost United States is Expected to Act—Estimates of Number of Lives Lost Varies

London, Nov. 10.—A despatch to Lloyds from Biseria says that 800 persons on the Italian liner Ancona were sunk by an Austrian submarine, which was believed to have been an immigrant ship. One hundred and thirty survivors have thus far reached Biseria.

A despatch from the Italian News Agency of Rome says that 100 shells were fired into the Ancona before she was torpedoed. A despatch to Lloyds from Biseria states that some Americans are said to have been on board the Ancona.

Cape Bon Duns, Nov. 10.—Two of the Ancona's boats with 54 of the crew have reached here. It is now believed there were 462 passengers and 60 crew aboard the Ancona. It is believed that 277 have been accounted for as safe.

Washington, Nov. 10.—Definite information concerning the sinking of the Italian liner Ancona by a submarine flying the Austrian flag, was anxiously awaited today by officials of the United States government.

Despatches containing little information about the sinking of the Ancona were received today. It is believed that 277 of the 462 persons aboard had been saved, received here early today.

—Should not develop that "American about lost lives, and that the liner was torpedoed without warning, the American government would probably demand of the Austrian government disavowal of the act, reparation and assurance that there will be no repetition of the incident."

Malta, Nov. 10.—Forty-one members of the crew and four passengers of the Ancona, picked up at sea, have been landed here.

British Steamer Sunk. London, Nov. 10.—The British steamer Clan Macaulay, 4638 tons gross, has been sunk. She was owned in Glasgow, was built in 1903.

ISRAEL L. LONGLEY PASSED AWAY TODAY

Former Well Known Contractor Identified With Prominent Building Work. A former well known contractor and builder in this city, Israel L. Longley, died today at the home of his son-in-law, A. W. McKinnon, in Rothesay, with whom he had lived for the last three years.

Mr. Longley was a son of the late John D. and Mary A. Fellows Longley of Granville, N. S., but had lived practically all of his life in St. John. He was the builder of the first car sheds in the north end and of other well known buildings, and was much respected by his fellow citizens.

Mr. Longley is survived by his wife and one daughter and by one sister, Miss Alice A. Longley of this city. He is well remembered by the older generation of citizens, who will learn with regret of his death. The funeral will take place on Friday afternoon at two o'clock from the residence of A. W. McKinnon, Rothesay.

PART OF STEEL PLANT AND GUNS VALUED AT MILLIONS BURNED

South Bethlehem, Pa., Nov. 10.—Fire early today almost completely destroyed No. 4 machine shop of the Bethlehem Steel Co. Machinery and war material was said to be worth millions of dollars. The value of the guns alone in the shop is said to be several million dollars.

Personal. Capt. L. P. D. Tilley, recruiting officer, returned this morning from Moncton.

British Cruiser Sinks Two Submarines In Straits of Gibraltar

"The British torpedo boat destroyer Louis, Lieut-Commander Morocco, by way of Madrid, report that a British cruiser has sunk two German submarines in the Straits of Gibraltar."

BRITISH DESTROYER WRECKED

London, Nov. 10.—The following official statement was given out here today: London, Nov. 10.—Telegrams received here from Algiers, Harbord D. A. Hall, has been stranded in the Eastern Mediterranean, and has become a total wreck. All of the officers and crew are safe.

The Louis was one of the L class of destroyers, built in 1913. She was 260 feet long and displaced 965 tons. She was armed with three 4-inch guns and four torpedo tubes. Her normal complement was 100 men.

Britain To Hold Sway In Air If She Already Does Not Do So

Newspaper Men, For First Time Since War Broke Out, See Great New Aviation Centres

London, Nov. 10.—For the first time since the beginning of the war, newspaper correspondents have been allowed to inspect the great new aviation centres of the British army. Yesterday representatives of two prominent Parisian newspapers, one Australian and two New York papers were escorted by officials of the War Office, and visited several of the principal bases in England where every facility possible for obtaining information was placed at their disposal.

The only possible conclusion after the trip is that Britain has determined upon the mastery of the air, the same as the sea. Further, she is in a fair way to accomplish her end, if, indeed, that is not already the situation.

CAPT. PETER CAMERON DEAD

Sudden Passing Away of Marine Well Remembered in St. John

The death of Captain Peter Cameron of Masarene, Charlotte county, N. B., occurred this morning at his late home in St. John, following an attack of apoplexy. He was about the home and apparently in good health until yesterday, so that the news received today by relatives and friends here came as a severe shock and it caused deep regret among those who knew him.

Since he had formerly resided in this city, and called many ships from this city, it is recalled that he was particularly well known in St. John. Captain Cameron was about sixty-six years of age and was born in Charlotte county. He moved to this city when just a boy and lived here for many years ago, went to his old home in Masarene, where he had since made his career.

His last command was a brigantine the E. W. Gale, which he owned. He had been master of many ships and had entered the sea he had not sailed. His wife survives with one sister, Mrs. Margaret Dick, of New York, and three brothers, Nevil, of Masarene, Angus and Wallace of St. John.

GERMANS HAD GREAT LOT OF MOUNTAINS STORED IN HOPE FOR REBELLION IN AFRICA

London, Nov. 10.—A despatch to the Times from Capetown, says that Henry Burton, minister of railways of the Union of South Africa, declared in a speech at Natal that huge quantities of ammunition had been found hidden in the Damaraland, Southwest Africa. He said there was sufficient to equip 600,000 men, and that the Germans had hoped to overthrow the government of the Union of South Africa, with the aid of a rebellion.

SUGAR ADVANCES

All sugars went up twenty-five cents a hundred weight.

WEATHER BULLETIN

Issued by the Department of Marine and Fisheries, R. F. Stupart, director of meteorological service. Synopsis.—The cool wave is now centered over the Great Lakes, while an energetic depression covers the west and northwest states. The weather is stormy in the Gulf of St. Lawrence, and the maritime provinces. The outlook is also stormy for the Great Lakes. Snow is falling in the west.

British Take Up New Position In Balkans; Allies Make Gains

Khaki Troops Reinforced and French Are Extending Their Lines—Town of Velez Recaptured—Greek Army May be Demobilized

Paris, Nov. 10.—An official statement issued by the Franco-British staff, at Saloniki yesterday, and transmitted to the Havas Agency, says: "British troops, reinforced by a new division, occupy solidly the region north of Doiran and are operating in the direction of Strumitsa, where encounters between British and Bulgarian patrols have been reported."

"The Bulgarian attack on Kirovack testifies to the anxiety caused by the progress of French troops beyond the Creza River, and the occupation by them of the regions of Monastir, Camandoli and Dobrota, protecting the routes to Babouna Pass."

"Supply trains are circulating freely between Guerguil and Gredsko. Lt. General Sir Chas Munro is expected to arrive at once from Flanders to take command of the British forces."

London, Nov. 10.—French forces have recaptured the town of Velez in Southern Serbia from the Bulgarians according to advices received by the Serbian legation in Athens.

CHERRYPUR REPORT

London, Nov. 10.—Serbians operating in the defiles of Kurtchank against the Bulgarians advancing from Utkub to Pribrenod report an important success, according to advices from Saloniki, says an Athens despatch to the Exchange Telegraph Company.

In the region of Strumitsa, British troops have received reinforcements and replaced the French north of Doiran with the object of harassing the flank of the Bulgarians who are attempting to reach Doiran and Guerguil in order to compel the allies to retreat.

The French are extending their lines towards Velez. A Bulgarian attack upon Kirovack yesterday was completely repulsed.

SEVERAL NEW LOCAL ATTORNEYS

Young Men to be Admitted in Supreme Court in Fredericton Tomorrow

In the Supreme Court at Fredericton this morning at an o'clock several young men will be admitted as attorneys, together with others from other parts of the province. The positions of the candidates were submitted at a meeting of the Council of the Bar, which was held in Fredericton last evening and approved. The list follows:—Earle R. MacNutt, B. A., Fredericton; Charles E. Baker, Fairville; Louis F. A. Robichaux, B. A., Cocagne; George J. Cockburn, B. A., St. Andrews; Robert L. Simms, B. A., Knowledgeville; and W. H. Elmer McLaughlin, James B. Dever, William R. Scott and James J. Stothart, all of St. John. The last six named are graduates of the King's College Law School.

The council recommended that the following attorneys be admitted as barristers:—Joseph L. Ryan and William A. Ross, Campbellton; John A. Creighton, Newcastle; M. Alonzo Kelly, Campbellton, and Ralph F. Hartley, Woodstock. They will also be sworn in tomorrow.

MARKET PAINTING TENDERS

Tenders for painting the interior of the city market were opened at a meeting of the common council in committee this morning but, as there was not a quorum present no action was taken. The tenders received were—James Huey, \$2,988; William F. Demmling, \$2,800; James H. Pullen, \$1,630. A meeting of the council has been called for noon tomorrow to deal with the matter. It is five years since the interior was redecorated and at that time it was done with kalsomine at a cost of about \$500.

GOVERNOR OF SHANGHAI IS ASSASSINATED

Shanghai, Nov. 10.—Admiral Tseng Yu Cheng, governor of the Shanghai district, was assassinated today. His secretary, who was with him at the time, was seriously wounded.

Tseng Yu Cheng, who was a member of the Monarchist party, with his private secretary, was motoring to the Japanese consulate to attend the coronation reception when two revolutionaries fired eighteen shots.

CORSICAN ARRIVES WITH THE 55TH AND NEWFOUNDLAND MEN

Ottawa, Nov. 10.—It is officially announced through the press censor's office that the S. S. Corsican has arrived safely in England. She had on board the 50th New Brunswick Battalion, forty-two officers and 1,099 men, and the Newfoundland contingent—six officers and 260 men.

It was known in St. John yesterday by private cables that the Corsican had arrived but the censor did not release the news for publication until today.

"NEED THEM ALL" WRITES WM. A. RAMSAY OF 26TH

RELATIVE TO RECRUITS

In a recent letter from the front to his sister, Mrs. John Silliphant, William A. Ramsay of the 26th remarks: "We are out of the trenches now and as we write, there is a battalion passing with brass band playing and it reminds me of the battalion marching down King street in St. John. I am cooking for my platoon and yesterday, while I was getting my money, the officer told me that the cook house had been blown up by the Germans and the other cook killed."

"You will have seen by the papers what we have been doing. Some people in St. John called us the moving picture battalion; well, we made the Germans move anyway. I hear the St. John boys are getting into it well. We need them all out here. I am going on Sunday to see Bob Galbraith's grave."

"There are no shops out here to buy anything but all I want is tobacco and socks and a pair of woolen gloves."

MEMBER OF 6TH C.M.R. DEAD IN ENGLAND

Mrs. J. Vernon writes to the Times from 212 Canklaw road, Bothham, Yorkshire, England, announcing the death of her husband who was a member of the 6th Central Postal Directory, evidently occurred in England.

The family lived at 21 St. Patrick street, St. John, and Mr. Vernon was employed by T. McAvilly & Sons at the time of his enlistment. Friends here will sympathize with Mrs. Vernon in her great sorrow.

BRITAIN'S WAR BILLS \$8,310,000,000

London, Nov. 10.—Premier Asquith will ask the house of commons today for a vote of credit of \$2,000,000,000. This will make the total amount voted for war purposes in the current year \$6,500,000,000.

With the amount voted in the financial year of 1914-15, the sum allotted for the war will reach the aggregate of \$8,310,000,000.

RECRUITING MUCH BETTER

The 104th Over Strength But Still Signing on Men

SOME RUMORS OF TODAY

Suggestion That Part of 104th be Quartered in Carleton—The 52nd on Route March—Several Cuts to Soldiers

Reports from Sussex today are that the 104th battalion has been filled and is now 200 above strength. Such being the case this is one of the most remarkable recruiting records in the eastern provinces. It does not mean that there will be an end to recruiting for the unit—men are still offering and are still being taken on in encouraging numbers here and elsewhere, and this will be continued. There may be a double battalion, or the surplus may go to form the nucleus of a new infantry battalion.

The men are coming forward in a manner most inspiring, for the necessity of men and more men is now being fully realized. Ten more went out noon from St. John, and between 12 and 1 o'clock five more signed the roll of honor:—Joseph Miller, Antoine Gomez, James O'Dell, William Daley, all of St. John, and Fred Lambert, transferred from the 92nd Detaching Force.

Route March. Orders were given this morning for the men of the 92nd for another route march this afternoon. The parade was to be sounded at 2 o'clock, and the route march was to be about the outskirts of the city, returning to barracks late this afternoon.

Wintering Troops. Reports today were that some unit would be quartered in West St. John this winter, in the drill shed occupied last season by the Army Service Corps, No. 5 Co. The suggestion was made that if the 104th is to be enlarged to a double battalion, at least one company should be quartered here. Arrangements are about completed for the transfer of the 104th into winter quarters from the 104th in Sussex.

WILL MAKE PEOPLE TALK

"The Island of Regeneration" is the chief attraction of the Imperial tonight and tomorrow. That theme so dear to the heart of the novelist (the man and woman thrown together on an uninhabitable island), re-inspired with its pristine glamour of romance, imbued with the spirit of an adventure with Robinson Crusoe, is always pleasing.

Edith Story takes the principal role with her usual artistic reserve, while little Bobby Connelly and Antonio Moreno lease little to be desired in their parts. So beautiful and atmospheric is the South Sea Island scenery that it comes as a genuine shock when the door is thrown open at the end of the performance and a very real wet King Square draught takes the place of the imaginary southern zephyrs.

An Italian steamer, believed to be the Liffida, from Port Arthur for Buenos Ayres with ore and gasoline, is afloat in the gulf off Sabine Bar, Texas.

FATHER McMURRAY'S DEPARTURE (Woodstock Press) Rev. F. J. McMurray will leave Tuesday for his new pastorate in St. John. The reverend gentleman preached his farewell sermons at both masses in St. Gertrude's church on Sunday and also addressed the Sunday school, presenting the scholars each with a handsome prayer book.

The members of the congregation were deeply affected at his farewell words as he told them of the warm feelings he held for them. To his non-Catholic friends, many of whom were present at the late mass, he said that during his thirteen years' stay in this town he had met nothing but kindness at their hands and he would always remain their friend.

On Monday evening the congregation

LAST NIGHT'S WAR CABLES

London, Nov. 9.—Every day, every hour, adds to the peril of the Serbian armies, which are fighting desperately to hold back the Austro-Germans, pressing them from the north, and the Bulgarians, invading their country from the east, until the assistance their allies are sending can reach them.

The Bulgarians have extended their grip on the Belgrade-Saloniki railway north and south of Nis, and have occupied Leskovac, south of the captured capital, and Aleksandria, to the north. At the latter point they are in close touch with the German army, which, after occupying Krusevac, extended its left wing as far as Djunis, on the left bank of the Bulgarian Morava.

The Austro-Germans, advancing southward, are making progress except in the west, where they are being held by the Montenegrins. The invading forces are now reaching the most difficult part of Serbia, the mountainous region where the natives, knowing every hill and gully, can offer the strongest resistance. The Austrians and Germans, however, are plentifully supplied with mountain guns, with which they expect to drive the defenders from their fastnesses.

In the south the ever-growing strength of the French and British forces is beginning to tell. They are carrying on an energetic offensive against the Bulgarians, who have managed to keep the railway clear as far as Velez and are barring the Bulgarians' route to Monastir.

While it would be some time before the Germans can sufficiently repair the northern end of the railway for the transport of troops and munitions, their successes have enabled them to send supplies to the Bulgarians in the Balkans by the Danube as far as Nikopolis, from which point they can be sent by rail to Sofia and Constantinople.

The campaigns on the other fronts continue without any important changes. The Russians are still attacking in the north and south, and are commencing to feel Germany in the center, which, it is believed, has been weakened for the purpose of strengthening the two wings. No big movement is expected, however, until the condition of the ground improves.

In both the west and on the Italian front there has been considerable fighting.

CANADA HAS BEEN KICKED INTO PROSPERITY, IS JUST FINDING OUT WHERE SHE HAS LANDED

Extraordinary Strength of the Economic Position Not Yet Generally Realized—Enormous Volume of Water Squeezed Out of Securities—Large Part of Imports Will be Promptly Re-exported After Further Manufacture

(By T. Kelly Dickinson, in Montreal Financial Times)

Canada has been kicked into prosperity," said a banker friend to me the other day. And it is a fact Canada has indeed been shoved, jostled, taken by the scruff of the neck and landed into a position of strength the extent of which will not be realized for years to come.

The stock market boom is only an incident in the general condition of financial improvement, though it must be admitted that before the inflation of the moment, much of the market appreciation has been a reflection of that very state of prosperity.

The real pivotal point of the situation is the accumulation of untold wealth through the sale of, in the first place, our agricultural products at high prices; in the second, of industrial products previously made in Canada and in the third place, of war munitions such as ships, small arms and shells.

Canada today is not only capitalizing her future industry and agricultural growth but is rapidly wiping out past indebtedness and at the same time squeezing out an enormous volume of water from her industrial securities.

In other words she is putting \$100 cash behind securities which in many cases, were worth little more than the paper they were inscribed on.

Strong Working Capital

By the end of the present calendar year Canada will have a national balance sheet annually strong in working capital—something sadly deficient even in the so-called prosperous days of greatly extended credit.

We were told this week by the Hon. W. T. White, how Canada's balance of trade has been running in her favor, but the mere figures of the Finance Minister do not really represent the true value of the material which is being produced in millions of dollars of imports which will very shortly go into exports, being largely on manufactured account. In past years a considerable part of our imports went into construction, but this particular form of imports really is raw material, to be manufactured by Canadian plants and by Canadian labor. This raw material might be regarded as "work in progress," which an accountant would tell us, is strictly an asset and as such is on the right side of the foreign trade balance.

Mr. White also told us that our agricultural output this crop year would approximate a valuation fully \$800,000,000 in excess of last year's crops, which excess in itself represents the return from two normal wheat crops of the entire western provinces.

D. A. Thomas has assured us that Canada would get some \$800,000,000 orders from Great Britain and assuming that \$150,000,000 has already been received on that account, there is obviously a further active spell for our industries for the next twelve months at least. And during it all the farmer will continue his good work and still further increase the area under seed.

The labor situation for the time being will be all that we may hope. High

GERMANS ESCAPE FROM SIBERIA

Returning to Germany via China and United States—Remarkable System of Fraudulent Passports Discovered

Providence, R. I., Nov. 10.—The Providence Journal says:—The steamer Rotterdam, which left New York on Saturday, carried with her four German officers, who will be apprehended and taken off the vessel by British authorities the moment she reaches Falmouth. The German officers were captured by Russian troops more than six months ago and sent as prisoners to northern Siberia.

Their presence on a Hamburg-American liner sailing from the port of New York on last Saturday reveals a system of wholesale prisoner delivery, as clever in conception and as romantic in execution as anything of the character that has ever been attempted in history.

"In the last six months, it is declared, more than 200 German army officers, some of them still suffering from wounds, and all of them at various times captured by the Russians, have passed through New York on their way back to Germany, armed with fraudulent American passports.

"These men have come from Siberia down through Manchuria to northern China by caravan transportation routes, owned and operated by Germans. It has taken many of them from eight to ten weeks to make the trip from southwestern Siberia to the first point where they could reach more main travel routes down to Tientsin.

"Caravans have been organized for this purpose and have been operated by the press and in the patriotic circles.

WHEN IS A SARDINE?

Ottawa, Nov. 10.—Only a sardine will be a sardine hereafter, according to a warning sent to the Trade and Commerce Department by Harrison Watson, Canadian Agent in London, who refers to French and English decisions on the sardine question. A sardine is the young or immature pilchard, according to the verdict of a sardine congress at Nantes and legal proceedings are proceeding if there is any masquerading in the future.

An imperial pass for a year is now in the press and in the patriotic circles.

THE MOTHERS OF MEN.

A mother who had just learned of the death of one of her sons in battle said to the Times yesterday:
'My boy is dead, but he died the death of a hero. I would sooner have one dead hero in my family than a dozen cowards. Of course grief has entered our home upon the loss of our boy, but it is sorrow tinged with joy because the knowledge that he was not a slacker. His father tried to go—he has tried three times, but he would not be accepted; he has two other brothers doing their bit; myself an only child, I was a man, and I'd most gladly die.'

This is the heroic and self-sacrificing spirit which in the end will save civilization from the menace of German aggression. It is the spirit of the British Empire today, and shames every man of the hour of their country's greatest peril. All honor to the wives and mothers and sisters whose patriotism is in this hour the one great sentiment that dominates their thoughts and actions. Upon them falls the great burden of suffering and sorrow, and their example is such an inspiration as no man worthy of the name can fail to receive into his own soul.

THE GUILDHALL SPEECHES.

The Lord Mayor's banquet at the Guildhall, London, is one of the great events of the year, because significant statements are usually made by the prime minister and other men who are national figures. The banquet last night was of especial interest, because the speakers included not only the prime minister, but Mr. Balfour and the French ambassador. The war was the topic they discussed, and there was no note of uncertainty or of doubt in the utterances of the men who spoke for Britain and France. M. Cambon, the French ambassador, set forth in striking contrast the ideals of the Allies and those of the Germans, and expressed the utmost faith that in the end the German schemes for world domination would be broken down. Mr. Balfour declared that there has never been a moment when the calculations of the Central Powers were near realization, and that now their tide of successes had reached its limits and the ebb is at hand. Mr. Asquith told his hearers that there never was a moment of doubt about the righteousness of the British cause nor was there ever a doubt of final victory. In ringing words he gave expression once more to the resolve of the people of the Empire:
'Be the journey long or short, we shall not falter, nor pause until we have secured for the smaller states of Europe their charter of independence, and for Europe itself its final emancipation from a reign of force.'

The reference made by Mr. Asquith to Lord Kitchener puts a quietus upon rumors that the latter had resigned or that conditions were so threatening in India that he had been hurriedly sent on a mission to that portion of the Empire. The prime minister emphatically declared that there was no friction in the cabinet, that Kitchener enjoyed the full confidence of his colleagues, and that he had gone with his hearty approval on an important mission to the near east, in which he had also the warm approval and sympathy of Britain's Allies.

Not much was said about the United States, but the remark some time ago of Mr. Choate that of a hundred million people in his country at least ninety millions were for the Allies heart and soul was quoted, and Sir Frederick E. Smith expressed the view that British lawyers could make good their objections to the legal contentions of the American note.

TRADE AND FAIRIES.

Occasionally the citizens of St. John are told of the large winter business to be handled at this port, and are almost led to infer that the traffic was specially created for their benefit by a good political fairy who ever presides over their fortunes and makes the sun of prosperity shine upon them. It must be noted, however, that Halifax also has a good fairy, amazingly active and generous, and it will be observed, from the following paragraphs in a letter from Portland, Me., that the tribe is not wholly unknown to the people of the American city. The Portland letter says:
'Few horses have thus far been sent

from here for the use of the allies, but a very large amount of grain left this week, and a very active month is now looked for. The Grand Trunk people acting on orders received from Montreal are not talking now even to the newspaper men, but still it is known that the receipts of wheat and mixed grain are holding up well, and that the elevators are still filled. The indications now point to the sending from here before the regular steamship service opens of wheat enough to have made a fairly good export season not very many years back. Unless the German sub-marines are remarkably busy and unexpectedly successful there will be a great steamship season and record breaking exports. While we rejoice, therefore, that St. John is to enjoy a large winter business, it is entirely due to the fact that the trade is seeking ports, and that we will owe our share of the trade to our advantageous position as a seaport. We could get more if we had more facilities for handling it. Why have we not more facilities, including the terminals of the National Transcontinental and St. John Valley Railway?

WANT IN GERMANY.

The food shortage in Germany is real. Of the condition of the very poor in Berlin a newspaper published in that city some time ago said:
'Can nothing be done to end the pitiful spectacle of which the Berlin military depots and barracks are constantly the scene? Toward noon, day after day, a motley crowd assembles at the door of these buildings. It is composed, not of soldiers in field-grey, but of shamed men and women, ancient, wrinkled, shriveled little grandmothers, old men, young women, and children armed with the most grotesque receptacles. They take their stand there and wait patiently for an hour and a half, sometimes in a pelting rain, until the cook-house sweeper appears carrying a huge tin sauceman containing an impossible medley, the leavings of the soldiers' dinner, pieces of fat meat and bone, bread, potatoes, and table-scraps of all kinds, an unappealing mess. At his appearance a momentary sparkle of anticipation lights up the faded eyes, and gives new energy to the poor old bodies as they hobble forward to present their pots and panskins. The younger and more robust among the waiting crowd, however, soon elbow and push them aside, with the result that the older ones go, as they come, with their hands as empty as their stomachs. Then they try again the next day until they collapse.'
If this was the condition many weeks ago, what will it be in mid-winter, or next spring?

Twenty-four recruits in Moncton yesterday show a marked revival of interest in the campaign for that 4,000 from New Brunswick.

Sir Sam Hughes says he plans to lead the Canadian forces on the final march to Berlin. If the war minister will see that uniforms and equipment are provided for the soldiers as fast as required, and proper winter quarters found for all of them, the Canadian people will gladly accept it as a guarantee of good faith and let the march to Berlin take care of itself for the present.

Fourth of July orators have been credited in times past with boasting that Uncle Sam could 'kick all creation.' Has the time arrived? Right on the heels of the note to Britain comes the news that an Austrian submarine has sunk an Italian steamer, which appears likely to have had some American passengers on board. Britain has not murdered American citizens, but as far as possible has ensured for them the safety of the seas. The Central Powers are the real enemies of the United States.

Today's cables tell of a French gun that promises to make havoc of German trenches. They also tell us that Britain is completing preparations for supremacy in the air as well as at sea. On the whole, despite the still critical situation in the Balkans, the outlook is a good deal more encouraging. The food shortage continues to be a topic of troubled discussion in Germany. The news from Greece sets at rest any fear that the Greeks will join forces with the Germans and Austrians, even if they continue to refuse to join the Allies.

Blood The Seat of Disease

An eminent authority on nervous diseases has announced that the blood is the seat of all disease. How important, therefore, that it be kept in a pure, healthy condition. For this purpose our local druggists, The Ross Drug Co., and Watson's Drug Store guarantee Vinol because it is a combination of the three most successful tonics known, iron in its most soluble form, the medicinal extractives of fresh cod livers, without oil, and the nourishing properties of beef peptone. Can you imagine anything better?

USE THE WANT AD WAY

LIGHTER VEIN.

What He Wanted.
'That man wants his photographs to look as natural as possible,' whispered the assistant to the proprietor of the studio.

'Then make it as handsome as you can,' came the quick reply.
'But—but he's awfully ugly, and insists he doesn't want the portrait to flatter him at all.'
'He won't think it flatters him,' said the proprietor, knowingly. 'He'll only feel sure that at last some one has managed to catch him looking just right.'

Corroborated.

'Tell me now, Jamie, what was the most wonderful thing you saw when at sea?'
'That man wants his photographs to look as natural as possible,' whispered the assistant to the proprietor of the studio.
'No, laddie, dinna mak' a fule o' yer neither. Wha ever heard o' a fish fledge?'
'Another strange thing I saw when crossing the Red Sea. We dropped anchor and when we raised it again there was one of the wheels of Pharaoh's chariot entangled on it.'
'Ah, laddie, I believe that. We've Scripture for that.'

A Matter of Conscience.

While instructing his class regarding the early days of the New England States a school teacher asked:
'Do you know that the house of Burgesses in those days was so powerful that it controlled the clothes worn by the men? A man who earned \$18 a week and one whose salary was \$30 were compelled to have a distinction in the clothes they were wearing and not go beyond their means.'
A bright scholar in the rear of the room piped up: 'Teacher, what would a man do if he were out of work?'

The Proper Place.

Grace—I've been trying for years to get my mother to take a vacation.
Harry—And he won't do it, eh?
Grace—No; says he'll be lonesome away from his work. He's a chiropractor, you know.
Harry—A chiropractor? Why don't you suggest his spending a few days at the foot of a mountain?

NEW TRAFFIC RULES FOR BOSTON STREETS Pedestrians are warned by the board of street commissioners of Boston that they will be in danger of arrest if they persist in the present habits of crossing streets regardless of vehicle traffic. The street commissioners have framed an amendment to the traffic regulations, and it is violation of this amendment which may get hustling business men and hurrying shoppers into trouble. Under the rules promulgated by Police Commissioner O'Meara, which went into effect last week, the traffic officers will have their troubles in measuring up to a standard that calls for waving of arms, the twitching of fingers and other "scientific signals." But the street commissioners plan to add to these duties by placing on the

Charles F. White, who came from England to install the new Trinity chimes gave an address on bells and

SOLDIERS' CLUB

The handsome and commodious Cavalry Hall was thrown open to the men to uniform about the city last night, as a Soldiers' Club, and they took advantage of it at once thronging the building all through the evening, and enjoying themselves with reading, smoking, games, and music.

Last night and during the first week the women of the Canadian Club will take charge of the canteen and the club. An arrangement has been made among the various organizations of the city to have a committee from each take a period in charge. The committee from the Canadian Club taking charge now includes, Mrs. H. A. Powell, Mrs. John Keefer, Mrs. Charles Coster, Mrs. D. B. Pidgeon, Mrs. A. M. Bouillon, Mrs. G. A. Kuhnig, Miss Frances Travers and Miss Mary Robinson.

The fine mansion has been furnished, not elaborately, but comfortably. The soldiers have a library and reading room, pool and billiard room, smoking rooms and various other rooms at their disposal. They have a piano, a phonograph, lots of popular music; in fact, everything that they could desire. The residence, itself, has been known as one of the costliest in the city.

The club will be open every day from 5 p.m. until 9.30 p.m. All soldiers are invited to take advantage of the splendid club.

Fifty grand prizes in the patriotic drawing.

OUR YOUNG WOMEN

are so often subject to headache—are languid, pale and nervous—because their blood is thin or insufficient. They are not really sick and hesitate to complain, but they lack that ambition and vivacity which is their birthright. They do not need drugs—but do need the tonic and nourishment in Scott's Emulsion that makes richer blood, fills hollow cheeks, suppresses nervousness and establishes strength. Nourishment alone makes blood and Scott's Emulsion makes blood and Scott's Emulsion is the essence of concentrated nourishment, free from wines or opiates.

If mother or daughter is frail, pale or nervous, give her Scott's for one month and see the betterment. It is a wholesome, "nutty" flavor. Avoid substitutes. At any drug store.

Private A. Stephens of the 26th Battalion has been invalided home because of severe injuries received during manoeuvres at the camp at East Sandling, England. He had been transferred from the 26th to the 12th. He has given the Times, at the request of the boys themselves, the following copy of the roster of the officers and No. 11 platoon, C. Company, 26th Battalion, showing the regimental number of each. Some members of this platoon were in the now famous fight for the crater—

DEVOTE HER LIFE TO NURSING OF LEPROS

A young and beautiful New York girl has decided to devote the rest of her life to nursing lepers in Hawaii. She is Mary Chmelciewska—of fine Russian stock, with glorious hair and deep-set eyes.

Soon she will see her family for the last time before entering upon what has been called the "living death" service in the leper colony maintained by the United States government on the island of Molokai.

A few days ago Miss Chmelciewska entered the Franciscan convent in Syracuse, N. Y., for preliminary instruction in nursing. After probationary service here she will visit her friends and relatives for the last time, then set out on her journey westward to the Hawaiian Islands.

Immediately on her arrival she will be given work with the various other self-sacrificing men and women who have devoted their lives to helping those afflicted with what has for centuries been considered the most terrible of the "dread diseases."

The Molokai settlement is the one in which the saintly Father Damien spent his life of heroic work and sacrifice. A recognition came to him through the efforts of Robert Louis Stevenson, novelist, whose little essay called simply "Father Damien," is now a classic of English prose.

The conditions of medical and nursing work in a leper colony have changed greatly since Father Damien's day. There is no longer any real danger of contracting the disease, if proper precautions are taken, and the immolation for life that was once thought necessary is no longer strictly insisted upon.

In addition to this, it is believed by physicians that real permanent cures of leprosy have been achieved by the use of an oil discovered in the Philippines. However, it is a grim enough life for a beautiful young woman to face.

10,000 WAR HORSES ON WAY EAST FROM PITTSBURGH

Pittsburg, Pa., Nov. 10.—Ten thousand war horses, assembled here during last week, were on Saturday night and Sunday forwarded to Elizabeth, N. J., where it was said they would be allowed to recuperate before being shipped to Europe. Haulers who accompanied the trains, declared that reported attempts to poison horses at stock yards in some western cities had prompted contractors to assemble the horses in Pittsburgh.

The New Waltham Convertible Bracelet Watch For Ladies

By a new and very ingenious device at the bottom of the case (called the disappearing eye) this watch becomes either a wrist watch or an ordinary watch at the wearer's will.

It is the very best purchase obtainable in a dependable watch at a low price. In its reliability and in its appearance it seems to be an expensive watch, but the price in 7 Jewel grade is only \$18.00 and in 15 Jewel grade \$23.00.

It is supplied in full open face or skylight with a choice of white enamel, gilt or silver metal dials. The case and bracelet are gold filled, and the illustrations shown above are actual size.

We can think of no other Christmas gift at a similar price that will give so much and lasting pleasure.

WHERE CZAR DIRECTS DEFENCE OF RUSSIA

Petrograd, Nov. 10.—In a white two-story building in a town of perhaps 40,000, but resembling more nearly an overgrown village than a city, is stationed the staff which directs the defence of Russia against her enemies.

The director-in-chief is Emperor Nicholas, and to this forlorn town from the imperial palace of Tsarskoye-Selo he for the time being has banished himself in order that he may live in daily touch with the affairs of his armies in the field, advise with the officers and supervise the conduct of the war.

Although many hours' journey by train from the nearest battle line, the Emperor and his staff are in almost instant communication by telegraph with all points along the 1,000 mile front, and nothing of importance occurs that is not immediately flashed to his controlling centre. It is in this building which was formerly used for local government purposes, that the daily official communications to the world are written. The chief-of-staff, General Michael Alexeeff, is a modest man, about sixty years of age.

A casual visitor to the town in question finds little to induce him to prolong his stay. The hotels, of which there are several—the best leaving much to be desired—are pre-empted by the military, and one may canvass all without finding lodging unless he comes recommended by someone in military authority. The town is crowded with strangers who have come from the territory overrun by the Germans. The streets until late at night are filled with streams of promenaders, civil and military.

It is only at night that the place wakes up. Until nearly mid-day the many little shops that crowd each other along the two main thoroughfares keep their doors locked and their windows shuttered. Antiquated "trotschkes," as the public hacks are called, shamble out of the way of screeching high power automobiles carrying officers, the cars appearing incongruous in the century-old setting of cobble streets and high windowed and dingy stores.

Around the white staff building there is a solemn stillness. Sentries guard the entrances and open space in front.

315 Heats Trotted or Paced in 230 or Better This Year

FIVE RECORDS BROKEN

Twenty Seven Horses Enter 230 List, and Nine the 220 List, While Others Lower Their Own Records

Here's Why
PRESIDENT SUSPENDER
NONE SO EASY
MADE IN CANADA

Oz, driven by Paris, lowered the record of 2:15 1/4 for a provincial bred pacer on a provincial track to 2:13 1/4 in the third heat of his winning race at Halifax, September 13. This horse also shares the honor with Mudlake, by Winfield Stratton, in making the fastest mile of the year by a provincial bred pacer on the turf this season in 2:13 3/4. Bob Mac's record was made on a half mile track, and Mudlake's on a mile track.

Barty's Comet, owned by W. H. Monaghan, Halifax, trotted the fastest mile by a provincial bred stallion in 2:13 3/4 at Halifax, and Alverton Boy, owned by P. Doherty, Sydney, trotted the fastest mile by a provincial bred gelding in 2:13 3/4, Halifax.

Develish Dorothy, owned by the veteran, Dr. J. T. Jenkins, trotted the fastest mile by a mare in 2:13 3/4 at Halifax.

Lella Burns, owned by T. V. Monaghan, Fredericton, and driven by Sharon, was the fastest pacing mare owned in the provinces, with her win-race mile at Gorham, Me., in 2:13 1/4. James K. Newbro, owned by T. C. Edgett, Charlotte-town, paced the fastest mile by a mare on provincial track, in 2:13 1/4 at Halifax.

The fastest mile of the year by a horse owned in the provinces was by Frank Patch, owned by J. B. Mitchell, Halifax, when he won the third heat of the 200 pace at Lexington in 2:08.

The following horses owned or bred in the provinces entered the 230 list this year:—

BASEBALL.

Baseball Peace Soon?

San Francisco, Nov. 9.—Peace soon will be declared with the Federal League on terms "highly satisfactory" to organized baseball, said Charles Ebbets, president of the Brooklyn National League Club on his arrival here on Tuesday to attend the convention of the National Association of Professional Baseball Leagues.

Fed. Magnates Meet.

Indianapolis, Nov. 9.—Federal League baseball owners met in Indianapolis on Monday for the annual meeting of the league.

St. Andrew's Officers.

The annual meeting of St. Andrew's Curling Club was held last evening with a large attendance of members. Officers for the ensuing year are: President, F. C. Beatty; vice-president, F. C. Smith; secretary-treasurer, C. H. Ferguson; managing committee, R. G. Halsey, W. J. Wetmore, S. P. McCavour, W. B. Tennant, F. S. White, F. A. Clarke, John White.

THE WHEEL.

Boston Bicycle Race

Boston, Nov. 10.—The list of contestants in the six day bicycle race remained intact Tuesday after the first night of riding. The second ten-hour stretch was started late Tuesday afternoon, with ten of the teams on even terms and Sullivan and Holbrook one lap behind.

TURF.

Peter Scott Won \$40,700

San Francisco, Nov. 8.—Tommy Murphy of Poughkeepsie, N. Y., piloted Major Onz and Peter Scott to straight victories at the Panama-Pacific Exposition harness meet on Saturday despite the fact that he is still under a doctor's care as the result of an operation performed Thursday.

Geers' Prediction Came True

When "Pop" Geers drove Napoleon Direct to victory in two straight heats at Lexington in 2:00 3/4 and 2:00 3/4 it recalled what the veteran driver said about Napoleon three weeks before the southern meeting. At that time Napoleon Direct was just bounding to after injuries suffered while being shipped from Cleveland to Detroit and Geers re-

marked that he thought that Napoleon the Great was one of the greatest pacers he had ever seen. "I think he can come back more times closer to the time he makes in the first heat than any other horse I have ever had anything to do with," the veteran said. The fact that Napoleon paced two winning heats in 2:00 3/4 at Lexington bears out in a way the prediction made by Geers.

Will Meet Coffey for \$10,000

New York, Nov. 7.—"If Jim Coffey keeps demanding a return match," said Dorhan, manager for Frank Moran, the other day, "I put the price up to \$10,000 here to have Toronto and Buffalo interested. Coffey admits that he has heard the proposition discussed and he has heard that he will find somebody to make the offer and I wouldn't be surprised if Moran and Coffey repeat their act in December or January.

Wash vs. O'Leary.

Winning Man, Nov. 9.—Articles have been signed for a contest for the world's lightweight championship between Freddie Welsh, present titleholder, and Johnny O'Leary of Seattle, lightweight champion of Canada, to take place here on November 15.

ST. MARY'S MOTHERS' MEETING.

At a mothers' meeting in St. Mary's church last evening plans were made for the winter's activities. The following were elected officers for the coming year: Honorary presidents, Mrs. W. O. Raymond and Rev. R. T. McKim; president, Miss N. G. Brown; vice-presidents, Mrs. Coleman and Miss Patten; secretary, Mrs. A. Chamberlain; treasurer, Miss Brown. Refreshments were served during a programme of vocal and instrumental selections.

A SUFFERER FROM KIDNEY TROUBLE FOR TWO YEARS.

When the kidneys get ill the back gives out. But the back is not to blame. The ache comes from the kidneys, which lie under the small of the back.

Therefore, dull pain in the back, or sharp, quick twinges, are warnings of sick kidneys—warnings of kidney trouble.

Plasters and liniments will not cure the bad back, for they cannot reach the kidneys which cause it.

Doan's Kidney Pills reach the kidneys themselves. They are a special kidney and bladder medicine. They heal the diseased surface of the kidneys and bladder, and help them to act freely and naturally.

Miss Mary A. Northrop, Cole's Island, N.B., writes: "I have been suffering from kidney trouble for two years. I tried quite a number of remedies, but they did me no good. My mother got me a box of Doan's Kidney Pills, and they did me so much good that I got the second one, and when I had taken that I was completely cured."

Doan's Kidney Pills are the original kidney pills. See that our trade mark, "The Maple Leaf," is on every box. Price, 50c per box, 3 boxes for \$1.25; at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering direct specify "Doan's."

BETTER FOOTWEAR - 519 MAIN STREET

OPEN LETTER TO OUR TRADE

St. John, N. B., Nov. 10, '15 To Our Trade:

For some months past I have been thinking I should join the colors and prepare to do my share in the defense of the Empire, but many things have held me back.

It takes some time to build up a business like we enjoy, for the reputation we have of selling only high-grade footwear is not built up in a short time, and I was very reluctant to cease to serve the many customers who have dealt with me during all the years we have served them.

However, I have decided to leave for training the first of the New Year, and have now less than two months in which to settle up my affairs. I have always carried a large stock of the better lines of footwear, but everything in our store is to be placed on sale at greatly reduced prices, commencing tomorrow (Thursday) morning, at 10 a.m.

I want to thank my customers for their business during all the years we have tried to serve them, and hope that during this sale they will get their full share of the reduced prices we have made.

Persons or firms having accounts against us, whether of a personal or business nature, will confer a favor by rendering them at once.

Now we have to move rapidly. Our prices will be cut very deeply and we would like you to go out of your way and come to this store of your footwear. You will be in money if you do so. A few items are mentioned in the announcement.

Yours faithfully, PERCY J. STEEL

Patent Colt bottom with dull calf ankles, easy orthopedic last; sizes 11 to 2. Regular \$3.00. Now \$2.30 a pair.

The Same Boot; sizes 8 to 10-12. Regular \$2.25. Now Only \$1.65 a pair.

These two lines cannot be matched for big value.

It is hard for a man to break away from the store he usually patronizes. But men are going to do it now, and we are going to pay them well for doing it.

We have put out \$6.00. On sale at \$4.85.

Black, Calf-lined, Tan Calf, Kid-lined, Velour Calf, Button. Now, gentlemen, if you have been paying \$6.50 or \$8.00 for your winter footwear, I want you to see this \$4.85 line. It is better value than you ever got before.

We have the broad, easy shapes, as well as the longer, narrow shapes.

He reads in the Times this evening.

Embalmers Vital Organs.

The coffins were ready on the Monday morning at one o'clock, and were taken to the room where the body lay. Much time was lost in waiting for the large crowd of spectators to assemble, and then a bust was again taken. French people present did not seem to be inclined to have Napoleon put into the coffin.

Other accounts, official included, of the disinterment when the body was removed to Paris are that the second coffin was mahogany like the outer, and Norwood Young says that the tin coffin was enclosed in a shell of mahogany made by Metcalfe, a cabinet-maker.

Much of Interest Revealed Relative to Death and Burial of Napoleon

The discovery of the lost diary of Andrew Darling, the upholsterer who made the arrangements for the funeral of Napoleon at Longwood, St. Helena, has aroused intense interest in Europe. It settles many points of controversy regarding the death of Napoleon, and gives exact measurements of the dead body, thus throwing authoritative light on what has been much debated, the height and stoutness of the great Emperor. The diary of Andrew Darling gives a plain, unvarnished tale of what he did in arranging for the funeral, and how the exact measurements were taken. It does not accord in this respect with what Lord Rosebery declared in his monograph, "The Last Place," viz., "There seems to have been something in the air of St. Helena that night that exact measurements were taken. The Darling story is as emotionless as if it were the account of a poor-house indigent's funeral, and is scrupulously circumstantial."

On May 5, 1821, Napoleon died a few minutes after sunset. Darling had known for some days that the end was near, and daily went to Longwood. He had received orders to make arrangements for draping the room in black, and on the morning of the end received through a messenger an order to get some plaster of Paris for making a death mask. There was none to be had on the island, but Darling, who was the representative of a London upholsterer, had his eye on certain images that could be ground down. Hesitating to incur the expense without authority, he applied for and received the same, and bought 150 of the images, before evening sending two Chinamen to Longwood with the powder. Darling tells us that the death-mask was taken on May 11, some forty days after Napoleon's death, by Drs. Burton and Antonmarci, and afterwards a cast was taken of the mask. The Darling in Darling's opinion, very good considering the time it was taken and the rough material in the hands of a British artist, and Helena, 1815-1821." Mr. Norwood Young says that Burton, desiring to make himself known to the Emperor, sent a fleet of fishing ships to get eggs, the best of plaster of Paris. Burton then took his preparation to the death chamber, but Dr. Antonmarci had tried the Darling material, and failed, and Burton's gypsum succeeded. Darling says Burton and Antonmarci made the cast from his plaster under his own eyes.

Many Coffins Used. Taking instructions for the lying-in-state, he got a cartful of materials and a posse of men and arrived at "The Wood" at midnight. They worked until half-past three in the morning, and by daylight were at work again. Early in the forenoon General Montholon allowed Darling to have a look at the body. The upholsterer was astonished to see him so much wasted in the body, but at the same time looking so well, so young, and with such a pleasing countenance. Then came the order for the coffin, and the measurements given by Montholon were: Net size of body—length five feet seven inches, only eight inches across the shoulders, and scarcely ten inches deep. Darling says of the coffin "The description of the coffin was, first, tin, lined with satin, which was to be stuffed with cotton, a small mattress and pillow of the same material on the bottom; then, third, a lead coffin; and then one of mahogany, covered with crimson velvet. If it had been provided, had I had them there was not any on the island I could get, as I had been in search of some few days before. It was then settled that the outer coffin should be of the best mahogany that was on the island, and was accordingly done. Other accounts, official included, of the disinterment when the body was removed to Paris are that the second coffin was mahogany like the outer, and Norwood Young says that the tin coffin was enclosed in a shell of mahogany made by Metcalfe, a cabinet-maker."

GILBERT'S GROCERY

The Man In The Street

Every citizen welcomes the 22nd Battalion to St. John.

And we try to believe that is not because they do not like our looks that they are so anxious to get to the front.

St. John people are even quite willing to extend as hearty a welcome to another battalion if the powers that be want to take advantage of the accommodations that are lying idle here.

Have you noticed the peculiar sequence of the battalion numbers—the 29th, the 22nd, the 104th—each double the preceding one. Looks like a safe bet that the next battalion will be the 208th.

Service and the Street Cars.
Thanks for restoring the car service to Indiantown!

People who were on the first car to run through on Monday felt just as joyful as if they were kids at a Sunday school picnic.

But they haven't forgotten the inconveniences they suffered so long unnecessarily, and furthermore they're not likely to for some time.

And it might be just as well, now that winter is approaching, to place a few extra cars on the road during the rush hours.

A workman going home at noon or between 5 and 6 p. m., usually has to stand after paying his nickel, but it's like rubbing it in for him almost to have to fight his way on for the privilege of doing so.

Too much crowd and too few cars may mean business for the public, but certainly not comfort for the public.

The common council objects to erecting more school buildings. Perhaps, in these straining times, they think the proper place to "teach the young idea how to shoot" is on the rifle-range.

City commissioner says the city is paying twice for school expenditures because the council has to meet some debates when they come due. Must have the same idea of finance as Mickey, who would sign a promissory note with a sigh of relief as he murmured "Thank Heaven, there's another bill paid."

The Ride To Berlin.
Sir Sam says he wants to lead the Canadians to Berlin. As a souvenir from the home-land he might ride a Nova Scotia remount to know how any horse from that province can stand the strain of war—one which had gone through the Boer campaign period.

Auto-Polks.
Judging by the efforts being exercised from central stations at present to put an end to gambling about the city, we may expect soon to see an automobile or two in some street east for evidence. Some owners of cars may not know that their machines have become gambling devices, even without their knowledge, such is the case. If you see a crowd of young fellows on a street corner with license numbers "auto-polks," the winner is he who has the highest number, thus—one boy takes as his first car to happen along, if the number say is 87, he is beaten by the other boy who has taken the second car to come, with the license number 98, for he can show a "pair," and so on. The owners of cars may have wondered why a certain "auto-polk" ran out after their machines, but the insanity of youth has devised a way to practice a game of chance without the risk of being "caught with the goods."

I. O. G. T. ANNIVERSARY.
The city lodges of the I. O. G. T. were well represented last night at a celebration of the second anniversary of Dominion Lodge. The grand officers, consisting of E. N. Stockford, Miss B. Campbell, C. Fisher, L. deWolfe and Harry Coleman, visited the lodge officially. A fitting programme was carried out, consisting of addresses by C. T. W. Spencer, L. deWolfe, D. C. Fisher and E. N. Stockford. Solos were given by Miss Vincent, Miss Campbell and Harry Coleman. A trio consisting of Miss Campbell and Mr. and Mrs. E. I. Kirkpatrick rendered a very pleasing selection. Dr. W. F. Roberts addressed the meeting in a congratulatory vein and also read a very interesting and instructive paper on medical inspection in public schools. This was followed with close attention and from comment made it was seen that those present were in hearty sympathy with the object of the paper. The thanks of the meeting were expressed to Dr. Roberts.

LETTERS FROM NOBLE BROTHERS

Charles and Donald Write From Front In France

Matters That Should Bring Even More St. John Men to the Colors—Incidents of the Battlefields

The following are interesting extracts of letters received from sons of W. F. Noble. They may serve to influence some hesitating former companion to do his part in the great war.

Chas. A. Noble of the Divisional Ammunition Column writes from France under date of Oct. 24th—

Dear Mother:

I received a letter from you two days ago and one from Eva yesterday. I had to get up to our camp yesterday and spent the morning and afternoon with us. He has had the misfortune to break two of the metacarpal bones in his right hand and is relieved from all duties for about six weeks.

Was down to the trenches a few days ago; sat up all night and saw several of the boys from home in the battalion that came over in the boat with us. One of them told me I had better stay awhile and hear some of the music. (I was within 400 yards of the German lines then and a few bullets were whistling around.) It was curious to see the boys "duck" when one came close. I don't know what we ducked for, because when they are heard they are past, but we ducked just the same.

If you could see the trenches at night without knowing that there was a scrap on, one would think they were celebrating some holiday or something. Both sides shoot up star shells (something like a sky-rocket only more powerful) and the other night they were using searchlights, searching the sky for aeroplanes, and all this coupled with the rattle of machine-gun and rifle fire would beat any fourth of July celebration all to pieces.

We have built another shack to sleep in, larger than the other and have built the frame-work over and around the old shack so we did not have to shift our quarters.

I think this war will be longer than we expected. Personally I do not think it will be over before 1918. Our work is hard, but is not so dangerous as infantry work is, and so far we have had but one casualty, one of our boys being shot in the leg by a sniper and is now in an hospital in England.

We call these men "suicide squad" and it is a very appropriate name for them.

There is an epitaph on a grave of a Canadian near here that reads:

Poor Old Bill, he left his place
With smoking gun and smiling face,
But Bill won't mind if some good chap
Will come along and fill the gap.

That little was my stern, very crude when you first read it, but as we see it, it is very impressive.

I wish some of the boys at home who have not called could come over here and visit the bring line. Perhaps then they would get the seriousness of the fracas and get up nerve enough to do their "bit."

I saw some of the graves of the boys from home who were killed recently. I can't describe what a felt like, but it brings it close to home when boys like Jim Stevens, Reg. Peacock and Cotter are killed. Art Meyers was seriously wounded in the hand. All the boys that were in that encounter had "sand," as it was voluntary, not compulsory.

Oct. 24, 15—We have completed our new shack, "The Chateau de Flop," and it is great. We have only one fault to find with it and that is that the stove we built of bricks, mud and biscuit tin, throws out too much heat. The shack is very roomy for three, being eight feet high at the peak and five and a half at the sides, besides 12 x 16 in size. We have constructed a double bed, a single bed, table, three chairs, wash-stand and several shelves and have lots of room to move around.

If I ever get this letter finished without going crazy I shall be lucky, as Doc. Peckers and Ken Christie are in the shack singing "Oh Love Sublime, Sweet Evening Star," from Thunbouser and it's rotten. I told them so and they are at it harder than ever.

Donald is well and he comes up to see me quite often.

Received your parcel and papers O. K., but don't see too many stamps on the papers. Misses come from England postage free, and they do the same from Canada. I hope to hear from you soon and will write again in a few days.

Your loving son,
DONALD.

Note—The Donald and Millard mentioned are brothers. The former is in the same unit, Divisional Ammunition Column, 2nd Can. Contingent, Millard of No. 1 Can. Field Ambulance, first contingent. They met in France.

Driver Donald M. Noble writes:—

Things are fairly quiet here and we have not much to do. We took some bombs up to the trenches the other night. Had to go to a village near the trenches and wait for some one to take over the load. About twenty yards ahead of us was a street corner, open to a clear view of the trenches—the boys call it Suicide corner for it is peppered pretty regularly. While we were waiting one bullet struck a few feet from our leading driver and we could hear others hit the walls farther up the street. Finally we went to the communication trench with our load—my Regent street, as the boys call it. That is the closest I have been to the line, but I hope soon to be able to write something worth while.

I can certainly sympathize with the infantry, for they have a hard time, but I have seen them coming along the road at night after a day in the trenches looking tired and muddy, but all singing and clearing or whistling a tune to march by and it makes a chap think that it is no wonder they are hard to beat.

DONALD.

WINTER PORT STEAMERS
The Furness liner Rappahannock arrived in port this morning and docked at the Pettigill wharf. She brought a large cargo of tea.

The steamer Lamore Head of the Head Line, under charter of the Donaldson Line, will be the first of their winter sailings to this port.

SOLDIERS AT SUSSEX

Sussex, N. B., Nov. 10, 1915.

Editor Times-Star:

Sir,—I read in last night's "Times" an inspired letter by a member of the 104th, in which he deprecates the lack of amusements in Sussex and wants to get into St. John. Now, sir, as a fact, the only amusements which St. John possesses and Sussex lacks are the bar-rooms, and, no doubt, it is to these that he refers, as everything else is fully equal.

What he says about lack of accommodation is utter rot, and if he expects to spend the winter hugging his kitchen stove, he is a mighty poor man for the 104th or any other regiment.

Will you be good enough to publish this in fair play.

SUSSEX.
