ON THE TRAIL OF BASSOFF

Bandit Murderer Said to Be Frank in Alberta Hills.

Leithbridge, Alta., Aug. 10.—The third day of the active chase for the bandit Bassoff murderer of Police Officers Usher and Bailey, is underway, and though the big squad of police has fairly definitely established that Bassoff is still lying close to the district where Saturday's killings took place, every clue they have run down in the forty-eight hours has been in vain.

BOY DROWNED IN DARLING'S LAKE

Claude Vaughan Had Gone Into Hole While Bathing—Body Found by His Brothers.

A gloom was cast over the little community of Nauwigewau yesterday afternoon by the tragic drowning of Claude Vaughan, the seven-year-old son of Charles H. Vaughan, section foreman of the C. N. R.

Expect an Attempt Will Be Made to Go to Ireland.

Only Few at Station to Greet Him—Liverpool Irishmen Thank Government for Helping Ireland's Cause—Government Action Called "Silly."

London, Aug. 10.—Archbishop Daniel Mannix of Australia, who was landed yesterday at Penzance by a British destroyer, which had taken him from aboard the White Star liner Baltic off the Irish coast, arrived here at six o'clock today.

There were only a few reporters and a handful of priests present to greet the archbishop, but a heavy police guard was maintained about the station. There were no untoward incidents.

A less impressive welcome could hardly have been staged than that which greeted him when he arrived at Paddington Station. Only the late edition of last night's newspapers published the fact that he had landed at Penzance and was coming to this city.

Therefore only a few knew that he was to arrive at an early hour today. Even the priests were not allowed to greet the archbishop until he had passed the barriers into the station proper. Here the police had some difficulty in handling such a small crowd, as nearly everyone insisted on kneeling before the archbishop and kissing his hand.

Efforts of those who took Archbishop Mannix from the station to evade the public seemed to lead straight to statements of Irishmen that the Australian priest will attempt to go to Ireland notwithstanding the government demand that he shall not.

WHEAT TAKES A SHARP ADVANCE

Chicago, Aug. 10.—Wheat advanced sharply today after a hesitating start. The action of the market appeared to be based to a considerable extent on reports that the government crop report was bullish on wheat although bearish on corn and oats.

UNFILLED STEEL ORDERS

New York, Aug. 10.—It was announced today that unfilled orders of the U. S. Steel Corporation for the month ended July 31 were 11,118,468 tons. This is an increase of 129,651 tons over the previous month.

Decide To Send No Troops To Poland's Aid

French and British Premiers Decide, However, To Re-impose Blockade of Russia

Will Also Supply Munitions and Advice—Ciechanow, 85 Miles from Warsaw, Captured by Bolsheviki—Contradictory Reports of the Fighting.

Paris, Aug. 10.—While nothing will be made public relative to the conclusions reached at the Hythe conference on Sunday and Monday until Premier Lloyd George speaks in the House of Commons, it is understood that he and Premier Millerand agreed upon steps to be taken in the event that the Bolsheviki seek to impose crushing terms on Poland at Minsk on Wednesday, says a despatch from Hythe.

Another plan considered consisted of forming a defensive front against Russia by appealing to Latvia, Lithuania, Caucasus and Azerbaijan as well as other states formerly parts of the Russian empire.

General Wrangel, the anti-Bolsheviki leader in southern Russia, will be supported by both England and France, and Poland would naturally receive every material and moral aid.

The material for filling is to be taken from the borrow pit on the Courtenay Bay works and transported by the Bedford Construction Company over the trolley rails to the bridge. So soon as the fill is finished the line will be completed in such a way as not to impede traffic across the bridge.

The work will be started next week.

Yesterday's Bolsheviki communication stated up at Eifel tower, reads: "After a week of fighting for a week and a half, the armies of Wrangel, which have taken the offensive, have been repelled."

CANON COWIE'S RETIREMENT.
Of the retirement of Rev. Canon Cowie, the Fredericton Gleamer says: "Rev. J. DeWolfe Cowie, canon of Christ Church Cathedral and rector of Fredericton, has intimated to the vestry of St. Ann's parish church that he will soon resign from the rectoryship. This morning it was learned that Canon Cowie's resignation will be presented to the vestry at an early date to take effect on September 24. It is understood that Canon Cowie's resignation involves his retirement from active ministry in the Church of England and, it is said, he has purchased a small farm a few miles out of Woodstock, near the home of Mrs. Cowie's family. He has been a close student of botany and will carry on special agricultural work, including the raising of herbs and roots of various kinds. Canon Cowie recently returned from a lengthy visit to Bermuda, where he and Mrs. Cowie spent the winter."

GOING ON HOLIDAY.
Fredericton Gleamer—Rev. (Major) E. B. Hooper, who was in the city yesterday conducting services at the D. S. C. R. Hospital, will not be in Fredericton again for some weeks, as he is leaving in a few days for a well earned vacation on the Kennebec.

IMPOSSIBLE TO LIVE IN SOVIET RUSSIA

Swedes Return to Native Land — Food at Incredible Prices — Ill as Result of Experiences.

Stockholm, July 26.—(Associated Press Correspondence)—One hundred and forty-eight Swedes, including thirty women and children, have arrived here by steamship from Russia.

Workers in the party were unanimous in saying that it is impossible to exist in Soviet Russia. Despite the extraordinarily high wages paid, they said they were insufficient to purchase necessary food and clothing. The arrivals included a number of Swedish bolshevik metal workers who some months ago set out for Russia amidst the cheers of their friends. Some of their countrymen, they said, had been detained in Russia against their will.

The only food ration now distributed, the men said, is a half a pound of bread, fish, horse-meat, sugar, butter, tea and other food can only be obtained, they said, through illegitimate trading at incredible prices. A daily income of a thousand rubles, one returned worker declared, would not be sufficient to avert hunger. Most industries have practically ceased, it was said, the great Petrov works having closed months ago after vain attempts to keep it going.

Chancellor Oscar Lundberg, semi-official representative of Sweden, said all foreign legations have been raided and looted and looked like "stables" after having been in possession of Bolshevik soldiers or sailors. All of the members of the party said they were ill as a result of the privations they had experienced.

The figures show that there were 3,078,158 tons of merchant shipping under construction in the yards of the United Kingdom at the end of June 1920. The total number of vessels building was 941 and of these 51 are between 12,000 and 20,000 tons, 69 between 8,000 and 12,000 tons, 100 between 6,000 and 8,000 tons, while three are between 20,000 and 25,000 tons.

The total merchant tonnage building abroad is given as 4,427,751 tons on June 30 or 408,000 tons lower than at the end of March which is accounted for by a decrease in the United States.

Attention is drawn in the returns to an enormous decrease which has taken place in tonnage under construction in the United States during the last fifteen months. At the end of March 1919, 4,184,928 tons were actually building in that country, which total by the end of June 1920 has been practically reduced by half, while in the United Kingdom during the same period, the figures have increased from 2,848,424 tons to the present record total of 3,078,158 tons.

The world's total is given as 2,195 vessels of 7,720,904 tons of which America contributes 414 of 2,405,896 tons, United Kingdom 941 of 3,078,158 tons, British dominions 113 of 268,729 tons, France 95 of 265,202, Japan 55 of 254,432, and other countries 178 of 1,255,999 tons.

MISTAKEN FOR DESERTER, HE IS KEPT ON SHIP

Fireman Said He Was Arrested in Mistake for Another of Same Name — Unable to Prove His Citizenship.

(By Associated Press.)
Sydney, Australia, Aug. 10.—Unless Reginald Harkins, ship's fireman, who described himself as an American citizen, was allowed to land from the Canadian-Australian liner "Makura" when that vessel reached Vancouver upon her last voyage from here to that port, or he managed to land somewhere en route, he runs the risk of being carted up and down the Pacific indefinitely.

Harkins' account of himself, given in Sydney just before the Makura sailed from here early in June with him on board, was as follows:

"Back in January a man with the same name as I reached Vancouver on this boat. He asked for a day off but the chief engineer refused him. He went ashore without leave, got into a street fight, had his leg broken and was taken to a hospital. The chief engineer reported him a deserter. The Canadian authorities arrested me as being the Reginald Harkins who had deserted.

"They put me on board the liner Niagara bound for Sydney. I didn't want to go, so when the steamer reached Honolulu I left her. At the investigation of the Union Steamship Company, agents for the Canadian-Australian boats, the immigration authorities at Honolulu arrested me and forced me to go on board the Makura. Not wanting to be idle I worked as a stoker from Honolulu. I signed on at fourteen pounds sterling a month. When I reached here I couldn't get my money and the Canadian authorities wouldn't let me off the ship.

"I was born in Omaha, Nebraska, 42 years ago. I left America when I was seven years old. I came to Australia and stayed here until I was 23. Since then I have traveled about the world in ships. When I was brought on board this boat (the Makura) at Honolulu, the chief engineer and the purser admitted that I was not the man who went off the boat at Vancouver, but in spite of all that the captain took me out to sea." Harkins complained further that on the strength of promises by the customs authorities at Sydney that he would be released from detention on the Makura if he signed a certificate that he was an alien, he signed the paper but the promise was not kept. The American consul here, E. J. Norton took up Harkins' case, but was unable to do anything on the man's behalf because of lack of proper proof of American citizenship.

"The whole thing," he said, "goes back to the action of the Canadian authorities."

WOMAN INVADES ANOTHER SPHERE

First Woman Theatrical Manager Appointed by Constock and Gest.

New York, Aug. 10.—Woman has invaded another sphere which man had called his own.

They will be theatrical managers. Constock and Gest, in announcing that Miss May Dowling will be their first woman manager, went further and declared their intention of placing many of their companies under a woman's direction. Miss Dowling will have charge of "Adam and Eve," the comedy success of last season.

"Women don't smoke, don't gamble, and attend strictly to business," the producers said in explaining their idea of the innovation.

ARE BUILDING MORE SHIPS
Great Britain Has Fifteen Times as Many Under Way as a Year Ago — U. S. Shows Decrease.

London, Aug. 10.—(Associated Press)—While merchant shipbuilding in the United States has been reduced by one-half since March 1919, British shipyards are constructing nearly fifteen times as much tonnage today as they did a year ago, according to figures just made public by Lloyd's Register.

The figures show that there were 3,078,158 tons of merchant shipping under construction in the yards of the United Kingdom at the end of June 1920. The total number of vessels building was 941 and of these 51 are between 12,000 and 20,000 tons, 69 between 8,000 and 12,000 tons, 100 between 6,000 and 8,000 tons, while three are between 20,000 and 25,000 tons.

Attention is drawn in the returns to an enormous decrease which has taken place in tonnage under construction in the United States during the last fifteen months. At the end of March 1919, 4,184,928 tons were actually building in that country, which total by the end of June 1920 has been practically reduced by half, while in the United Kingdom during the same period, the figures have increased from 2,848,424 tons to the present record total of 3,078,158 tons.

The world's total is given as 2,195 vessels of 7,720,904 tons of which America contributes 414 of 2,405,896 tons, United Kingdom 941 of 3,078,158 tons, British dominions 113 of 268,729 tons, France 95 of 265,202, Japan 55 of 254,432, and other countries 178 of 1,255,999 tons.

A "FRAUD PROOF" WILL
Mr. Mantz Dictates Terms to Phonograph and Files Record — Not Legal However.

(By Associated Press.)
Des Moines, Ia., Aug. 10.—What he believes to be a "fraud proof" will has been made and filed in the office of the clerk of Polk county, Iowa, by Theodore Mantz, a Des Moines lawyer.

Mr. Mantz dictated his will into a talking machine and had it recorded in wax.

At the end of the dictation C. H. Miller, a lawyer, and H. W. Brandt, a court reporter, testified into the machine they were witnesses to the "making" of the will, and spelled their names out in full as the witnesses. The record then was put on a machine and reproduced the voices. Being pronounced correct by Mr. Mantz he took it to the clerk's office, had the box containing it sealed in wax and filed.

Mr. Mantz has instructed Mrs. Mantz to take the case to the highest court of the country if the validity of the will should be questioned.

The will on a record is believed by its maker to be the first of its kind in the country. Lawyers say a possible objection to wills on talking machine records

Come, Girls! TALK!

Are you getting wise as to what the Y. W. C. A. appeal means?
A little bit of pep is all that is needed to get the helpful spirit that is looked for.

Are you talking together about it at home, in the store, on the street? Collect from everybody. Home folks will help, busy folks and brothers and sisters love to help. Everyone thinking sister will enjoy gymnasium next winter, little sister hoping she can go, too. Soon all kinds of ideas develop just by talking. Picnics, sales, and dances help out to raise part and friends give what they can—and \$25.00 doesn't look so big. Try it. 1,000 girls doing it must make some noise for

THE Y. W. C. A. BUILDING FUND

SUCH A POLICY WOULD BE FATAL SAYS NEWSPAPER
(Associated Press Dispatch.)
London, Aug. 9.—The Westminster Gazette discussing the report that Sir George E. Foster, Canadian minister of Trade and Commerce, asked the Imperial Conference delegates to put themselves unitedly behind the idea of imperial preference in trade, says it is certainly not in accordance with its own ideas of public policy that the press should do anything of the kind. When the press allow themselves to be manoeuvred into united support of a particular policy which affects the buying of their raw material, the press will have lost the particular policy which gives them their power. A union that bound all papers to say the same thing would be fatal to the press, in the opinion of the Westminster Gazette.

Y. W. C. A. OFFICIALS COMING

BAD FIRE IN CHATHAM.
Several buildings burned in Chatham yesterday when a fire started in the Northumberland Garage and rapidly spread. Some men were working on a car when it caught fire and before they could have it to a place of safety, the building caught and was soon a mass of flames. The neighboring buildings soon were in flames. The blacksmith's shop of A. K. Cole was consumed as well as the house and barn of the Kerr property. The firemen made a good fight, but could not stay the progress of the flames. In the garage were several cars two of which were not insured by their owners and are a total loss. The total damage is estimated at \$25,000.

TWO POINTS OF VIEW.

In recent speeches by Gov. Harding, the Republican candidate for the presidency of the United States, and Mr. Roosevelt, the Democratic nominee for the vice-presidency, the point of view of the two parties regarding the American attitude toward the rest of the world is well set forth. Gov. Harding's work declared that it had to choose between "either have industrial and social peace at home and command the international peace of all the world." In the same speech he denounced the League of Nations covenant.

Contrast this with the speech of Mr. Roosevelt yesterday when he said: "Today we are offered a seat at the table of the family of nations to which the smaller peoples may be truly said to work out their own destiny. We shall take that place. I say so because I have faith, faith that this nation has no selfish destiny, faith that our people are looking into the years beyond for better things, and that they are not afraid to do their part."

Mr. Roosevelt does not contend that the League of Nations covenant is a perfect instrument, but he reminds the people that the American constitution has been amended eighteen times and will doubtless be further amended. The important thing is that the United States join the League and in good faith endeavor to make it a perfect instrument to ensure world peace.

THE REVIVAL OF SPORT.

The day when there will be four improvement Leagues in the city, each giving attention to aquatic as well as field sports, which has been the dream of many citizens, was brought appreciably nearer last evening by the rowing races in Courtney Bay. It was an ideal evening, the water was smooth, and the races well contested, but the significant thing was the great fleet of motor boats along the course, each filled with people, and the thousands of people along more than half a mile of shore, remaining until the last race was finished.

Mayor Schödlé very appropriately congratulated the Commercial Club and Mr. Frank White, chairman of the aquatic committee, on the success of the effort to revive water sports in St. John. The winning of the four-oared race by the Rowing Club gives new zest to the sport this season. There were men on the judge's boat last evening who could recall the old time boat races, or had taken part in them, and they rejoiced at the bright outlook for the revival of the sport. By next season the East, South West and North End Improvement Leagues should be so thoroughly organized that each would have boats and young men ready to use them. There must be organization to ensure success, and these improvement Leagues provide the medium. The great trouble this year and last has been that two of the Leagues are practically dormant, a third is kept going by a mere handful of the older men, and the two whose grounds are most in use have permitted baseball to absorb attention to the exclusion of athletic training for field sports. One result of this is that there are far too few local entries for the Commercial Club's field sports next Saturday. The Leagues should have been training young athletes all summer, but failed to do so. The time has come for a general strengthening of the Leagues and a recognition of athletic and aquatic sports as well as baseball.

LET US BE FAIR

The Moncton Transcript says:—"The consistency with which election promises revolve around the harbor question at St. John argues a singleness of purpose and simplicity of outlook on the part of the people of that city probably unequalled anywhere. If St. John could only have a Federal election every year it would be the happiest city under the sun. But as it is, the city goes so devotedly upon the crystal waters of its harbor, that it misses many an opportunity of increasing its importance in the affairs of the province."

If there is one thing about the city of Moncton that St. John people especially admire it is the whole-hearted way in which the citizens stand up for their own city. Whenever anything affecting the railway service which has been the making of Moncton, is involved the people are heard from. Nor is their attitude purely selfish. In like manner St. John realizes that the development of its harbor is in the national interest as well as for the good of St. John. The trouble has been that the country has gone on building and acquiring railways without developing the ports of Canada, and a great deal of Canadian traffic goes through foreign ports. What benefits St. John this respect benefits the province and the Dominion. As to the importance of St. John in the affairs of the province, it is just such little things as that of the Transcript which tend to create an unfair and unfounded prejudice. There should be unity of purpose and action where the rights of this province or any portion of it are concerned. We can readily picture what the Transcript would say if St. John harbor were at the head of the Petrolia, and the trade that should come to it were going through foreign ports.

NEW YORK PLAYGROUNDS.

The city of New York, we learn from the Evening Post, in 1914 maintained ninety-four playgrounds under the park department, in which an average of 64,481 children played daily. The Mitchell administration was especially zealous in its efforts to expand such facilities and boasted that in the year 1919 it had doubled the number of playgrounds. Today there are seventy under the park department in Manhattan alone, including two recreation piers, and others under the education department. But the need is by no means fully met, and sections of eighty-nine additional streets in the three most populous boroughs have been closed against traffic at certain hours and restricted to play. It is hard, the Post observes, for children to have no better place for recreation than the use of vacant lots, but most of the owners refused. Some such lots have been used this year, and the Post points out that modern equipment and scientific instruction can double and quadruple the usefulness of small playgrounds. It adds that such an admirable playground as that called Betsy Head, in a congested part of Brooklyn, cares for incredible numbers at once, with its wading and swimming pools, sand pits, slides, athletic fields, and grandstand. It is not easy for those living in a cool climate to realize what the children in a city like New York suffer during the heat of summer, but whether the climate be cool or hot there is need of ample provision in every city for play under proper supervision.

The British and French premiers have agreed that the Russian blockade shall be re-imposed, and that supplies will be sent to Poland, but no troops. Last night's cables said that the battle which will decide the fate of Warsaw has not yet begun, and if the danger along the Prussian frontier can be met successfully the Poles may be able to hold the city. British labor has declared against war on Soviet Russia. Each day brings interesting developments in a situation that is fraught with great danger not only to Poland but to Europe at large. Much depends on the Minsk conference between the Poles and Russians.

Bangor Commercial:—"People who incline toward using the terms socialist and Bolshevik rather indiscriminately are referred to the action just taken at the international meeting of socialists at Geneva, Switzerland, when Bolshevism and its principles as practical in Russia were emphatically repudiated. The Bolsheviks of Russia may claim to be socialists or socialistic in principle, but the socialists of the world do not admit that they are Bolshevik and predominant to the world by resolution that they are not. They have their theories and their principles, but they would carry them through by argument and legislative action and not by force."

It is now estimated that Canada's yield of wheat this year will be from 20,000,000 to 26,000,000 bushels, more than that of last year. This will greatly tax the transportation facilities of the country and bring much traffic to its ports of shipment.

The Board of Railway Commissioners is not disposed to be too lenient with coal shippers who tried to beat the embargo by chartering all kinds of craft and then appealing for permission to load them. These shippers will not get very much public sympathy, either.

The United States expects to harvest a wheat crop of 795,000,000 bushels, and 3,000,000,000 bushels of corn. With a railroad service short of rolling stock the movement of this crop will be an enormous task.

Denmark, Norway and Sweden are beginning to be interested in developments in Russia. The Soviet menace concerns every country in Europe—and America.

The announcement that a very heavy investment of British capital in the Canadian pulp and paper industry is likely suggests that some of this capital should come to New Brunswick.

The western provinces are launching a great colonization scheme. It is time the maritime provinces gave serious and united consideration to such a policy.

OF INTEREST TO AIRMEN

Toronto, Ont., Aug. 9.—The Secretary of the Air Ministry announces the medals of those who have qualified for the British war and victory medals are in course of preparation. Demobilized and invalided officers of the Royal Air Force are asked to write to the Secretary of the Air Ministry, Kingsway, W. C. 2, as soon as possible for the necessary form of application in order that their class may be considered. Medal rolls in the case of airmen are being prepared from their documents at the Royal Air Force record office.

SUPERFLUITIES.
I am always making payment on the things I do not need, furbelows and gorgeous raiment, rubber tires, on which to speed; to the village shops I'm going, every day, with eager tread, useful, shining kopecks blowing for all kinds of gingerbread. And as round the town I'm driving, throwing money to the birds, I denounce the cost of living in exhorting words. Nothing cheap in price will suit me, costly things I must demand, or I fear my friends would hoot me, as they praise in garments grand. For all kinds of gems and rubies they have blown the minted hoards, and they look on folk as boobies who don't clank with precious stones. We are all blamed fools together, buying junk whose price is high, heedless of the rainy weather that will ruin things, and by and by, and hourly give, need, simple, durable and picket fences, hay and bread and nutmeg seed, cutting out the pomp and splendor and the streets where "bargains" bloom, sailing down the legal tender—H. C. L. will see it do. Labor's busy making money when it should be making plows; let us, soon, oh, men and voters, brush the cobwebs from our brows.

CANADA—EAST AND WEST

Domestic Happenings of Other Days

GENERAL AMHERST ADVANCES.

On the 10th of August, 1760, General Amherst, who had been gathering an army at Oswego, to go to the assistance of General Murray, who was advancing from Quebec to the capture of Montreal, was ready to place his army aboard the transports on Lake Ontario. At that time he had 10,000 men in addition to about 700 Indians who were serving under Sir William Johnson. Before the fifteenth the whole force had reached La Présentation, otherwise called Oswego, or La Gaitie, where was the seat of French armed brig, the "Ottawa," with a ten cannon and one hundred men on board, which was endangering the fleet Amherst had gathered. Five English ships were instructed to attack the French ship, so successful were they that in a short time they were joined by two more came from the north, and the French were craft of the Thousand Islands.

When Amherst reached a point a little below La Gaitie he found on an island in mid river a fort called Fort Lewis, well armed and equipped for a siege. He could have passed the place with trifling loss and continued on his way to Montreal, but he did not. This was what the French feared he would do, and so meet them at Montreal before they were ready to fight. When he did this John's Indians were highly delighted, but their joy soon disappeared when Amherst strictly forbade them to kill the prisoners. So angry were they that they withdrew from the expedition at once and went home in a rage.

WAVE AND TIDE.

(Friedrich Leonard.)
Recall in shattered foam,
Yet still the sea behind them
Urges its forward hoar,
Its chant of triumph surges
Through all the thunderous din—
The waves may break in failure,
But the tide is sure to win!
The reef is strong and cruel;
Upon its jagged wall
One wave—a score—
Broken and beaten fall;
Yet in defeat they come,
The sea comes flooding in—
Wave upon wave is routed,
But the tide is sure to win!
O mighty sea Thy message
In clanging spray is cast;
Within God's plan of progress
It matters not at last,
How wide the shores of evil,
How strong the reefs of sin—
The wave may be defeated,
But the tide is sure to win!

MORE PORK

"It is in our chief object to-day to raise two hogs where we raised one before, but, rather, to produce two pounds where we produced only one."—H. C. Carr of the First National Bank of Porterville hit the nail squarely on the head when he made this remark at the meeting of the Fresno District Duroc-Jersey Swine Breeders' Association. He told of a boy who started with a 225 sow and who sold his best sow later for \$300. This boy has since sold \$100 worth of hogs and so the movement for better stock grows. We hope the day will soon come when pure-breds will be found on every farm.

How the \$15-a-Week Stenog. Pays a \$4 Luncheon Check

(New York Paper.)

"How do they do it?" She held up two fingers, signifying that she had seats for two; she deftly led two girls pass through the roped-off entrance with one hand, patting the marcelled wave with the fourth finger gave the signal that she had one seat vacant.

After a hungry-looking girl had passed through the roped-off entrance, she sat down at her table. But only for an instant. She had espied a table whose four occupants were including the color on their lips, which had been dimmed by the havoc of eating. "Up went four fingers, and before the waiter had completed their toilets there were standing behind their chairs four young women who were eating. "Some job," she thought. "I have a hundred strong some days, and all have to be fed between 11.30 and 2. If a seat is vacant a half second I hear a complaint from some of these girls. They must think I'm a mind reader, able to tell when a seat is vacant. How many many seconds it will be before she gets out her lip stick.

"But what was it you asked? How do they do it? How do they do it? Oh, I know what you mean. How do any of these girls get their lunches on the salaries they get? There!—I said three! I didn't say four, did I? Think this is a Sunday school picnic and this is the last boat?"

SEIZURE OF BIRD OF PARADISE FEATHERS

Revenue Men Get \$80,000 From Italian Ship.

New York, Aug. 10.—With the seizure of bird of paradise feathers said to be worth \$80,000 as they were being landed from the Italian ship Duca D'Abuzzi last week revenue officials believe they have uncovered a ring of smugglers who have brought a million dollars worth of prohibited plumage into the country. Two of the vessel's crew were arrested. When the vessel itself was searched, pillows and mattresses in the firemen's quarters were found stuffed with the costly feathers. Letters in Italian also were found which, officials believe, will reveal the workings of the smugglers' ring.

RECENT WEDDINGS

A quiet wedding took place on Saturday in the Zion Methodist church when Miss Madeline Edith Page, daughter of Mr. and Mrs. Arthur L. Page, was united in marriage to Harold L. MacKenzie, local manager of Stone and Wellington. Mr. and Mrs. MacKenzie will leave on a tour of upper Canadian cities, after which they will proceed to Boston where they will make their future home as Mr. MacKenzie has been transferred to the Boston branch of his company.

RECENT DEATHS

George Sinclair Taylor, for nearly fifty years one of Yarmouth's leading merchants, died on Saturday. Mr. Taylor was born in Orphir, Orkney, Scotland, in 1842. In his young days he was in business in St. John with his brother, the late John K. Taylor. He was a cutter of much ability.

The death occurred at the home of his parents, Mr. and Mrs. John Steele, 34 Harrison street, North End, yesterday, of their second son, J. Harry Steele, who had been ill for some time. He was in the nineteenth year of his age. The family formerly lived in Chatham. The young man is survived by his parents, two brothers, John and Arthur, at home, and four sisters, Grace, of Boston, Elizabeth, Veronica and Geraldine, all at home. Funeral arrangements have not been perfected.

PROHIBITION NOT POPULAR

Stockholm, Aug. 10.—Prohibition is not making great headway in Sweden, which shows that the organizations and societies lost last year over ten per cent. of their members.

New Serge School Dresses

For Girls

They'll all need some heavier frocks to begin the fall school term. You will find these late arrivals in our Children's Shop will be exactly right for either school or more dressy wear. Among the very smartest models are:

Bolero Effects with black braid trimmings and Fancy Silk Girdles. These have accordion pleated skirts.

Regulation Dresses with deep yokes and loose fitting belts. The wide sailor collars are trimmed with white braid, and the sleeve has wide white band.

Alpaca Dresses with becoming over-blouse effect and pleated skirts. Wool stitching is one of the newest style features in the fall frocks. This is used in blocked patterns or rows to make striped effects. Some of the necks are finished with wool cord and tassels.

There are many more attractive styles here that a visit will reveal. Sizes are from 3 to 13 years.

GIRLS SHIPPED WITH CREW OF A SCHOONER

Were Unable to Get Passage Home From Porto Rico and Persuaded a Skipper to Sign Them On.

(Associated Press Correspondence.)
Dan Juan, P. R., Aug. 10.—When the schooner Cornell P. White arrives at Baltimore, Md., it will lose two women members of its crew, Miss Georgiella Musser, of Denver, Colo., and Miss Jane Waters of Bonner Springs, Kansas, purser and assistant purser, respectively, who, until recently, were school teachers in Porto Rico.

The difficulty of obtaining passage on any of the passenger ships, together with desire by friends of Miss Musser and Miss Waters for their signing up as part of the crew of the Cornell P. White, they believed they would arrive home safely, sooner or later, if they went on a schooner while there seemed to be no end of uncertainty when they could get away if they waited for a regular passenger ship. So, after much persuasion,

the skipper of the Cornell P. White, who has a daughter of his own in Baltimore, agreed to take them.

SHOT WHILE HAVING HIS PICTURE TAKEN

(Canadian Press Despatch.)
Montreal, Aug. 9.—While having his picture taken with some friends at

Abnatis yesterday, John Hubert Palbant was accidentally shot by a little boy nine years of age, named Willie Denis. Palbant was taken to the Hotel Dieu, where he died at 8 o'clock this morning. The boy was playing with an automatic rifle which he pointed at the party. He pulled the trigger and the bullet lodged in Palbant's stomach.

Millions of Germs Breed in Tooth Film—Keep It Off

All Statements Approved by High Dental Authorities

Film Wrecks the Teeth

THAT slimy film which you feel with your tongue causes most tooth troubles. The tooth brush does not end it. The ordinary tooth paste does not dissolve it. In crevices and elsewhere that film clings. That is why your brushing fails to keep teeth white, free from tartar, clean and safe.

That film is what discolors—not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. So all these troubles have been increasing despite the wide use of the tooth brush.

Dental science, after years of search, has found a film combatant. Able authorities have amply proved this by careful clinical tests. Leading dentists everywhere now urge its daily use.

The method is embodied in a dentifrice called Pepsodent. And we offer a 10-Day Tube free now to everyone for home tests.

See the Results, Then Decide

The results of Pepsodent are quickly apparent. Some are instant. We ask you to see them—watch them ten days—then decide for yourself about them.

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to constantly combat it.

Pepsin long seemed impossible. It must be activated, and the usual agent is an acid harmful to the teeth. But science has discovered a harmless, activating method. The inventor has been granted patents by five governments already. It is that invention which makes possible this efficient film combatant.

FIVE TRAGEDIES OVER WEEK-END IN MONTREAL

Montreal, Aug. 9.—Five persons met violent deaths over the week-end. Two were drowned, two killed by automobiles and one dead from heat prostration. The victims were: Victor Richard, aged twelve, drowned in the Riviere des Prairies, while Florent Depocas, aged twenty-two, was drowned when he was seized with cramps in the water.

On Land, Sea and Air

"Allow me to thank you for a wonderful cure of nervous breakdown. The use of Phosferine for a month made a new man of me. I was in the subject of a new nervous breakdown for four years. One of my nerves was paralyzed and I was unable to walk for some time. I am now mine weakling and we are setting up home in the city of Montreal. Many of my friends have seen me for your Phosferine, as they have found out since taking Phosferine Tablets they can enjoy their life and sleep well, although they have been shaken up through many misadventures."

Men of action, in every walk of life, have declared by written statements that in all the various cases of nerve shock and breakdown they have encountered the only unfailing relief, the only reliable cure, has been derived from PHOSFERINE

PHOSFERINE

The curative effect of Phosferine is quicker, more pronounced, more lasting than all other treatments within their wide experience—it is Phosferine alone that has caused the stunned nerve functions to resume the generating of that vital force which ensures recovery.

CANADA'S DEBT. HAS AN APPARENT DECREASE IN JULY

Ottawa, Aug. 9.—An apparent decrease of no less than \$65,022,114 in the debt of the dominion which at the end of July stood at \$2,300,119,090 is shown in the financial statement for the month of July, issued today by the department of finance.

"I was at my worst when I started taking Tanlac a few weeks ago. I was surprised to see it even help me at all, but just think, it has completely cured me of all my troubles. Why, it hardly seems possible! I want to be eating all the time and the good part of it is that everything digests properly. My nerves are as steady as can be and I enjoy sound, restful sleep every night. I have gained eight pounds and feel so much stronger and better than my household and I got out of bed I didn't seem to be able to regain my strength. My appetite had become very poor and I ate so little that I began to fall off in weight. My stomach was badly disordered and nearly every time I did eat anything it caused indigestion. My nerves were in a wretched condition and kept me from sleeping and eating. I wouldn't be able to sleep and eat so restful I couldn't stay in bed and had to get up and walk the floor."

TREASURE ISLAND PACKED THE IMPERIAL

Famous Pirate Yarn With Its Boy Hero and Buried Gold — Delightful Picturization and Appropriate Music.

To a melody of "H. M. S. Pinafore" airs, familiar set choruses and the good old Nelsonian songs of British naval lore the Imperial presented a story in its programme yesterday afternoon and evening that elicited honest applause and when the boys and girls had it to themselves at the matinee they almost brought the house down, as the saying is. It was a gala occasion for everybody, a happy relief from modern picture plays and a bright, breezy bit from the storied days of youth.

Maurice Tourneur has succeeded admirably in putting Robert Louis Stevenson on the screen in his remarkable film version of "Treasure Island." Mr. Tourneur has done the wise thing. He has followed the story of the Stevenson classic faithfully in its details and thus has not only produced a picture that is packed with red-blooded adventure, but which is rich in the spirit and lore of the pirate days.

Shirley Mason has the role of Jim and takes a most charming youth indeed on Chancy is Merry and Pew, Charles Jogle gives an excellent portrayal of Long John Silver, and other members of the cast also enter into the story with sympathy and spirit. It is a picture well worth the attention of everybody, whether they be a regular screen fan or not.

"Treasure Island" confirms Maurice Tourneur's right to be called a master at producing great sea stories on the screen. He gave this impression in his admirable screen version of "The Romany Rye," produced under the name of "The Lie Line," and of Joseph Conrad's striking novel, "Victory."

In addition to this well-known family-library story the Imperial had a Burton Holmes travelogue on "Martyred Cities" and the amusing "Tuplet of the Day." It was a truly delightful programme and the large summer crowds—many of whom were vacationists from outside places—enjoyed it to the fullest. The same bill is being exhibited today.

Tomorrow the programme changes. Winsome Constance Talmadge will be seen in another of her comely costumed "A Temperamental Wife." The Imperial is proving an especially attractive centre these fine nights.

THE THUNDERBOLT AT THE LYRIC

Very Novel and Strong Photoplay.

Charged by a dying father with the duty of avenging the family honor of the Corbins by "getting the last of the Fomeyros," Bruce Corbin engineers a hate marriage in "The Thunderbolt" starring Katherine MacDonald, the mercurial beauty, which was seen at the Lyric Theatre yesterday.

In the full bloom of manhood, Corbin ruthlessly sacrifices the happiness that comes with wealth, popularity and position in order to carry out the wishes of his father. With Allan Pomeroy, the only living male member of the hated family, entirely in his power as a result of a flagrant bond forgery, Corbin realizes that his cherished vow to "get the last of the Fomeyros" rests in his hands. He is determined to prevent the beautiful and much sought Ruth Fomeyros from bearing children.

"With You Your Family Dies!" Threatening Allan Pomeroy with disinheritance unless he agrees to sanction the "rape" of his daughter to Corbin, the "compel" Ruth to marry him. The "rape" kills Allan Pomeroy, and Corbin avenges the girl that he only married her to avenge his family and insure the fact that the Pomeroy stock would die out with her; that she is the last of the Fomeyros.

With an iron will, the girl refuses to let a Corbin win. She determines to establish the continuation of the Pomeroy family. How Ruth Pomeroy wins a

wonderful victory makes "The Thunderbolt" one of the most absorbing pictures yet seen on the Lyric Theatre's screen. The storm scenes are truly remarkable today and tomorrow only.

For Better For Worse

Cecil B. DeMille's gorgeous screen masterpiece "For Better For Worse," opened at the Unique yesterday. It proved to be a revelation. It is a question if a better picture has ever been shown at this popular playhouse. It is a powerful story built around a theme of tremendous importance, which will interest every man and woman. The story deals with the status of the man who stayed at home while others went to France to fight. It demonstrates in a sympathetic and powerful way that the man who stayed at home may not have been the slacker his neighbor believed him to be, but that he may have been as patriotic and of as great an aid to his country as the man who fought in the trenches. Produced with lavishness with the aid of a typical DeMille cast, including such famous names as Elliott Dexter, "Gloria Swanson," Tom Forman, "Wanda Hawley," Theodore Roberts, Sylvia Ashton and others. A great picture that should be seen to be appreciated. It will be shown all this week.

BARS POLICE "DRY" RAIDS

Maryland Attorney General Calls Arrests in Baltimore Illegal.

Baltimore, Aug. 10.—Attorney General Armstrong has ruled that the police of Baltimore City do not possess the power to make arrests for violations of the Volstead act.

Some weeks ago, in response to an inquiry from the Police Commission, Mr. Armstrong had ruled that the police were "under no compulsion" to assist in enforcement of prohibition. Now he has gone further, having informed Commissioner Gaither today that they "cannot legally make arrests" for liquor violations.

The Attorney General holds that "the police of Baltimore City do not at this time, by virtue of their official position, possess the power to make legal arrests for violation of the Volstead act, or validly to execute Federal processes issued by virtue of its provisions."

offered to this nation a treaty of peace which to make it a real treaty for a real peace must include a League of Nations. "Today," he continued, "we are offered a seat at the table of the family of nations to the end that the smaller people may be truly safe to work out their own destiny."

"We shall take that place, I say so because I have faith, faith that this nation has no selfish destiny, faith that our people are looking into the years beyond for better things, and that they are not afraid to do their part."

"The League of Nations is a practical solution of a practical situation. It is no more perfect than the original compact which has been amended eight-

GREAT INCREASE IN THE WHEAT PRODUCTION

(Canadian Press Despatch) Winnipeg, Aug. 9.—Canada's wheat production will exceed 225,000,000 bushels, according to a report issued by W. A. Black, vice-president and managing director of the Ogilvie Milling Company and its based upon crop reports received from its agents. Compared with last year's yield this is an increase of 50,000,000 to 75,000,000 bushels.

HELD UP TRAIN IN SUBURBS OF CHICAGO

Steward Shot By Bandits Who Relieved Passengers of Valuables—All Escaped. Chicago, Aug. 10.—Four armed men last night held up the New York-Chicago day express train on the Pennsylvania Railroad near Englewood station in the Chicago suburbs. A dining car steward who resisted one of the bandits was shot and wounded in the leg. The train, which was due to arrive in Chicago at 10.30 last night, was delayed about thirty minutes. The robbers jumped from the train between the Englewood and downtown stations and escaped.

BRITISH CAPITAL FOR CANADIAN PULP INDUSTRY

Ottawa, Aug. 10.—That a very heavy investment of British capital is likely to be put into the development of Canadian pulp and paper industry is practically assured as soon as the exchange conditions improve. This idea was strongly broached at the Imperial Press Conference here last week particularly in view of the great proportion of Canadian paper that is now going to the states, and acute shortage in Australia and New Zealand and the high prices in Great Britain.

A FRIEND AT COURT

An advertisement addressed to farmers' wives is published by a Michigan bank. They are urged to bring their husbands to the bank to talk over the equipment that the farm home needs. This is a most encouraging sign that the farm woman is going to have the friend at court that she has needed for such a long time.

AIRPLANE AS AN AMBULANCE

Doctor Pilots Machine With Patient From Camp Borden to Toronto in 40 Minutes. Ottawa, Aug. 10.—(Canadian Press)—The value of the airplane as an ambulance was demonstrated at Camp Borden, when Lieutenant Townley, a member of the instructional staff and a former overseas flyer, was conveyed from the camp to a Toronto hospital, in forty minutes. Lieutenant Townley, while engaged in some work at the camp, started an old wound necessitating medical attention. The camp doctor, himself an experienced pilot in a machine which he then piloted to Toronto.

CAPTURED GERMAN WARSHIPS ARRIVE AT NEW YORK

After Being Exhibited for a Year Will Be Spunk. New York, Aug. 10.—Five captive German warships came into New York harbor yesterday. Their arrival marked the beginning of their last twelve months in existence, for as soon as they have served their purpose as exhibits, they are to be sunk. They were the dreadnaught Ost Friesland, the Cruiser Frankfurt, and three destroyers, the V-43, G-102 and S-182. They were allocated to the United States in the division of captured vessels.

OLD N. B. COMPANY HOLDS A MEETING

The annual meeting of the New Brunswick Electric Telegraph Company was held yesterday at the Kennedy House, Rothesay, with the president, A. F. Bunnell, C. in the chair. Reports of the different officers were read and the election of officers resulted in the reelection of Mr. Bunnell to the presidency while D. C. Dawson was elected secretary. This is one of the oldest chartered companies in the province, the charter having been received in the early days of the telegraph era in the sixties when the telegraph was in its infancy and when the first lines of communication by telegraph were stretched over the sparsely settled province by the pioneers who formed the original New Brunswick Electric Telegraph Company.

TAKE PHOSPHATE WITH MEALS IN SUMMER TIME

Your Nerves Demand It, Your Blood Needs It, Say Physicians. There's not enough phosphorus in modern foods to benefit nearly one-half of the men and women of America, scientists declare. It is necessary to your body that it is necessary to your blood, your most perfect health. Success in life, weak, anemic, nervous, run-down people are advised to take Bitro-Phosphate as dispensed in leading drug stores in the original package. Speaking of people who are easily fatigued, who lack ambition, nerve and are oftentimes thin, weak and sadly lacking in firm, healthy flesh, Joseph D. Higgins, formerly Visiting Specialist, St. Eastern Dispensary, N. Y., says: "Patients who were apparently physical wrecks, who foolishly thought they needed only a blood tonic to enrich the blood, have come for treatment trembling and shaking, their nerve force almost exhausted and in many such cases the administering of Bitro-Phosphate has produced seemingly magical results." People who feel the heat of summer, the easily and often become irritable and depressed, will find Bitro-Phosphate an expensive and helpful friend. Druggists report a wonderful increase in the demand from men and women who are anxious to renew old-time ambition and who are making an honest effort to become vigorous and keener with a power of endurance that defies the most perfect health.

FERTILIZERS HELP CONTROL INSECT PESTS.

Anything which will give the plant best growing conditions—a well prepared seed bed, properly fertilized, good seed and a suitable rotation, will enable it to survive a greater amount of unfavorable weather, to be sown reasonably late and yet survive more or less severe winters, and above all to overcome an amount of infestation which would damage or even destroy a crop less well handled. A fertilizer which will hasten maturity is recommended for all southern Indiana soils and the use of lime on most farms is also much needed. Since the growth and vigor of a plant are directly related to Hessian fly, joint-worm and wheat-midge injuries, it is important that the soil be not only properly manured but it should be so handled as to give a good seed bed and where the ground is to be plowed, this can best be done by plowing before the middle of August and subsequently harrowing as is necessary. Later plowing, even when thoroughly packed, is never as satisfactory as earlier plowing and subsequent harrowing. —Indiana Experiment Station.

Mid-Season Sale

Season after season this sale has been an event of real advantage to men who know and appreciate values. This summer the sale is more important than ever, for prices are higher for the fall. The way to save money on clothes is to buy during the period when we are forced to lower our prices in order to clean up our stock of all broken lines.

Reduced prices on Ready-Tailored Clothes will end this week. The savings are \$10 a suit and more. Raincoats and Fall Overcoats are included at 20 p. c. discount—Gable-Railcoats Reserved.

CROPS IN DANGER FROM BUSH FIRES

(Canadian Press Despatch) Winnipeg, Aug. 9.—Crops and farm buildings north of Balmoral, about thirty-five miles from this city are endangered by a bush fire which today assumed alarming proportions. All cutting has been stopped and a cobined attempt is being made by every available man in the district to check the progress of the fire, which is fanned by a twenty-five mile an hour breeze. Staked hay, estimated at 800 tons, has already been destroyed.

A STUDY IN PRICES.

Anchorage, Alaska, Aug. 10.—Veteran "sourdoughs" who used to pay \$2.50 a plate for pork and beans without a murmur and to whom ham and eggs were as sure-enough luxury, take keen comfort in the buffet car recently placed on one of the trains operating between Seward and Anchorage. Tourists who have dined on Uncle Sam's rolling kitchen talk about the menu for a long time thereafter. For an elaborate dinner of fresh mountain trout with a ruber of bacon the modest sum of \$1.25 is asked. Billed or fried Matanuska potatoes are sold for fifteen cents an order, grape fruit, oranges and other fresh fruits are served for twenty-five cents and coffee costs ten cents a cup. Meats are naturally a trifle higher than they are on the "outside," on account of the high cost of transportation, but, Alaska railroad officials believe, it will soon be possible to obtain home grown meat in abundance.

a hand somewhere in the distance. But why not, for with such musical experts as Frederic Smetak, Antonin Dvorak, Zdenek Fibic, Novak, Suk and Poutler...

The rank and file, even, gave many evidences of a fine "national" sense. Wherever they had the opportunity it was not the casual enjoyment that claimed their attention first...

These were ten thousand troops that had been fighting on foreign soil for more than six years and who sailed from Vladivostok last May arriving at Vancouver on the steamship Lion...

LOCAL NEWS

NEW POLICEMAN.
A new policeman was sworn in yesterday—Charles Roland Lewis, a former member of the 29th battalion, who saw three years' service overseas. He is a native of Blaster Rock, and at present resides at 219 City Road. He is twenty-two years of age, is five feet ten and three-quarter inches in height and weighs 175 pounds.

TWO DAUGHTERS HERE
Friends of Benjamin Hugman will regret to hear of his death, which occurred in Montreal on Monday, August 9, after a brief illness. An Englishman by birth, Mr. Hugman came to Montreal when a young man and ever since has made that city his home. Beside his widow he is survived by two sons, Charles and Arthur of Montreal, and four daughters, Mrs. Arthur F. Bell and Mrs. J. Fred Fetherston of Montreal, and Mrs. Geo. Ewing and Mrs. Fred P. Elkin of this city.

MOTORED FROM GLACE BAY.
An automobile party of six, consisting of Mr. and Mrs. Charles Peach, Mr. Martell and Miss Martell, Mr. MacSweeney and adopted son, arrived in the city on Friday from Glace Bay after a three days' automobile trip without mishap. They spent the night at the New Brunswick and Nova Scotia roads over which they passed. They were accompanied by Mr. J. T. Wilcox, 193 City Line, West St. John.

BASEBALL
Tonight the Y. M. H. A. will endeavor to clear up its name as a ball outfit by playing the "Telegraph" Times nine on the East End diamond with the eye to conquest. Twice these two contestants have crossed bats and twice have the newsmen walked away with the bacon. After much practice on various vacant open spaces during the last two weeks the Y. M. H. A. are quite confident of the outcome. A fast game will be the order of the evening.

THE MACHINISTS.
A delegation from the Trades and Labor Council waited on His Worship Mayor Schofield this morning and said that the machinists would like to meet with their employers before any trouble might arise through the machinists working on vessels during the winter season was opened. It was pointed out by the delegation that if the machinists were to work at the winter port other unions might be implicated and trouble might arise. An effort will be made to bring the employers and the machinists together and effect an amicable settlement.

DEATH OF MISS ANNIE McRAY.
Many friends in this city will regret to hear of the death of Mrs. Annie McRay, which occurred suddenly in the city this morning. She was the widow of Joseph McRay and was formerly of Greenwich Hill, Kings county. Mrs. McRay was seventy-one years of age and was for some time an active member of the Main street Baptist church. She is survived by one son, J. McRay, of this city, and three grand-daughters, Mrs. A. E. Straight of Chatham, and Misses Marie and Maud McRay, of St. John. Funeral service will be held on Wednesday evening at 8 o'clock at the residence of her son, 21 Adelaide street. The body will be taken to Brown's Flat by the steamer Majestic on Thursday.

TRAFFIC CASES
In the police court this morning a traffic by-law case against L. V. Simms was taken up. He was charged with exceeding the speed limit in Mill street on the evening of August 6. Police Constable Storey testified that at 6:30 on that evening he saw a car bearing the number 106 come over the Mill street crossing at thirty miles an hour. A street car was ahead of it and pedestrians were waiting to board it. The car kept on going up the Mill street grade toward Dock, though the driver did not attempt to pass the standing street car. Mr. Simms denied flatly that he was going thirty miles an hour and said he did not believe he was going twenty. The policeman agreed to bring witnesses. Mr. Simms objected to losing any more time over the matter and agreed to plead guilty to going over the twelve miles an hour allowed by law, as he was hurrying to catch a train, but would not admit driving thirty miles an hour. He was fined \$10.

F. E. Williams had been notified to appear in answer to the charge of driving his car on the wrong side of Main street and stopping with the right wheel to the curb. Through some misunderstanding his chauffeur appeared instead of Mr. Williams himself. The case was stood over until tomorrow morning.

WAS CHAMPION ATHLETE WITH CANADIAN CORPS
Sidney Laird, of Amherst, Dead in Massachusetts — Was on Harvard Track Team.

(Canadian Press)
Amherst, N. S., Aug. 10.—In the death of Sidney Laird, of Amherst, which occurred at Marble Head, Mass., on Sunday, Eastern Canada has lost one of its most promising athletes. Laird was champion high-jumper of the Canadian Corps while overseas, and held a position on the Harvard Inter-collegiate track team during the past year. Overstrain while on active service and at Harvard was the probable cause of death. He was son of D. Dennis Laird, former manager of the Bank of Nova Scotia here. He is a nephew of Mrs. Matheson, wife of Chief Justice Matheson of Charlottetown. The body will be taken to Charlottetown for burial.

Death of Famous Actor
New London, Conn., Aug. 10.—James O'Neill, the actor, died at the Lawrence Memorial Associated Hospital early today. He had been ill for two months at the hospital, suffering from an internal disease. His wife and sons were at the bedside. He was seventy years of age. New-London, Conn., Aug. 10.—Mr. O'Neill had been in a state of coma for a month. He was left in a weakened condition nearly two years ago after he was struck by an automobile in New York. When his health began to fail last spring he was sent to St. Vincent's Hospital, New York. After leaving that institution he suffered a relapse and was brought here.

JOY DAY FOR CHILDREN OF THE CATHEDRAL

Annual Picnic at Torryburn — Kiddies Parade to the Station Watched by Many.

Today is the one big day of the year for the children of the Cathedral parish and many happy youngsters went out today to attend the annual Sunday school picnic which is being held at Torryburn. Special trains conveyed the large throng of picnickers to the grounds where an energetic committee were on hand with games and amusements of all kinds. One of the features of this picnic is the parade of the children from the church to the train. They left the vicinity of the Cathedral about 9:30 o'clock this morning and proceeded along Waterloo street, up Sydney to King Square, along Charlotte to King, thence up Dock and down Mill street to the station. The City Cornet Band led the parade, after which came Rev. A. P. Allen and the little girls dressed in gala holiday names. The Juvenile City Cornet Band led the boys, who were accompanied by Rev. Pathe's Duke, Orant and McCann. The catchy airs played by the two bands were tuneful and were enjoyed not only by the children but by hundreds of citizens, who lined the route of march. The first train left Union station at 10 o'clock, a second at 12:30 p.m., and a third at 2:30 p.m.

103 YEARS OLD; STILL ACTIVE

Aged Indian at Rothesay, With Wife, Who is 78, Turn Out Fine Work.

One of the oldest Micmac Indians of Nova Scotia, who has passed the century mark by three years, and his spouse, who has passed her seventy-eighth birthday, are at Rothesay, visitors at the camp of Dominick Bradford. The aged Indian is still making bows and arrows with all the old-time skill of his tribe. His wife herself makes baskets, and their report is that they view with intense interest particularly by visitors to the summer colony.

SAPPIER SENT TO HIGHER COURT

Ferns Cases in Police Court—Other Matters Taken Up This Morning.

An adjourned case of Joseph Sappier was taken up in the police court this morning. He was arrested on a double charge of stealing a pocketbook from the summer residence of D. E. Ferguson on the Ferns, and of stealing a flashlight, the property of Miss Margaret Wall, on the Ferns. The magistrate committed him for trial. James Levine, charged with wandering about in the police court this morning, was fined \$100 or nine months in jail under the dominion statute and ten months under the police act. He had been examined by Dr. Anglin as to his mental condition, but the report showed that he appeared to be normal.

John Sharkey, who was arrested by Sergeant Hanning yesterday charged with wandering about and not being able to give a satisfactory account of himself. He gave his home as Quebec at first, but finally said that he was from New Haven. He was advised by the magistrate to seek a new haven. He will be sent back to the United States. Joseph O'Brien of Charlottetown was charged with wandering about the C. N. R. yards and not being able to give a satisfactory account of himself. He was ordered sent back to Prince Edward Island.

MILLIDGEVILLE HAS NEW CLUB

Summer Organization Formed Last Evening with Fifty Members—J. Fraser Gregory President — Plan Formation of Four-Oared Crew
The Millidgeville Summer Club was the name adopted for a new organization which had its beginning at a well attended and enthusiastic meeting held last evening at the residence of J. Fraser Gregory, Millidgeville. Included in the plans of the new club is the holding of weekly dances, the first of which will be given this week in the R. K. Y. C. clubhouse. Later it is the intention to take up tennis, water sports and other activities and the formation of a four-oared crew is being considered. Officers for the present season were elected as follows: President, J. Fraser Gregory; vice-president, Miss Elizabeth Ritchie; treasurer, Miss Gladys Martin; secretary, A. I. Macburn, with Miss Olivia Gregory, Miss Winnifred Green and L. McC. Ritchie as members of the executive. More than fifty members were enrolled last evening and each one feels that the club is starting on a busy and enjoyable season.

Simplicity Should Be the Keynote in Home Furnishing

If you were to ask us, we'd say, let simplicity be the keynote in home furnishing. Too many objects in a room is not good. Many a picture is spoiled in the painting because the artist keeps adding touches after the job is done. Frequently pretty interiors are knocked all askew by the addition of two or three inappropriate articles of furniture, or an unfortunate selection in floor covering, or something else. Furniture designed on approved lines costs no more at Everett's than the nondescript kinds. It has long been the aim of this growing business to popularize beauty in home furnishing—to bring it within reach of the many. We do not seek to oversell patrons, but take personal interest in enabling them to work out all the little angles in home beautifying successfully. Just the NECESSARY things, fittingly selected—art and utility combined. Homes furnished on this plan look a great deal better and cost a great deal less—and that's what's wanted these days. DRESSERS, BUFFETS, BEDS, DAVENPORTS, PORCH FURNITURE, FLOOR LAMPS, SHADES, DINING SUITES, BEDROOM SUITES, RUGS, anything and everything needful for mansion, cottage or flat.

Betty Wales Offers Three Chances to Save Money on Dresses

Betty Wales has divided her dresses into three classifications for the women of St. John in order that each taste may be indulged and opportunity afforded for money saving. For example the Voiles are priced at \$18, the Gingham at \$16 and the Muslins at \$19. To arrive at the regular price prior to this sale you'd multiply by two.

See Our Windows One of each is showing in our window. See them. You will find it an education in practical economy to make it a practise to "look into Magee's windows" at all times.
