And when we sell you, we know we will bring you back again for another garment of the same make.

EXTEND THE CITY LIMITS IS PROJECT

The extension of the city limits is a proposition which is being discussed by those keenly interested in the development of the city. It is urged on the grounds that there is a large area just beyond the limits in which there is a large population which really belongs to the city and which should be included. The change, they say, would enable these residents of the county to benefit by the city services which would be worth more to them than the additional taxes might be. This, it was said today, would probably be the only way to win some of the new subdivisions could acquire modern improvements and there would be a demand from the owners of lots for these conveniences in a short time.

SHOULD HAVE REMAINED EAST

With the coming of spring the work of the local government immigration office at 4 Church street, is much like that of an employment bureau and the incoming steamers are bringing in both male and female laborers who are looking for places in New Brunswick. Mr. Wilcox, the superintendent, will be glad to receive any applications from those who are looking for work in New Brunswick.

A striking incident which emphasizes the necessity for a still more complete system of immigration work here, occurred a couple of days ago in this city.

A family consisting of husband and wife and family of three had arrived from the old country. The man was a farmer with a small amount of capital and they had left their home in England to try their luck in the new country.

They had no friends in Canada, and perhaps because of this and of a kindly escape from the wiles of western immigration agents, had no settled idea of their destination.

While in one of the financial institutions of the city a gentleman who is strongly imbued with the patriotic spirit of the province, St. John, endeavored to persuade the man to settle in New Brunswick.

After a lengthy conversation the man appeared to be convinced of the advisability of remaining here and went off to secure his baggage.

He returned in an hour but no longer a possible New Brunswicker. In the meantime he had fallen into the hands of a railway ticket agent and was now the proud possessor of a ticket for Winnipeg.

BE KIND.

Be kind to thy father, for when thou wert young.

Who loved thee so fondly as he, He caught the first accents that fell from thy tongue.

And framed in thy innocent gaze, He kind to thy father, for now he is old, His locks intermingled with gray, His footsteps are feeble, once fleet and bold, Thy father is passing away.

Be kind to thy mother, for lo, on her brow, Whate'er traces of sorrow be seen, Ah, well she may stoop and comfort her now.

For loving and kind has she been, Be kind to thy mother, for there will she pray.

As long as God giveth her breath, In accents of kindness to cheer her lone way, E'en the dark valley of death.

Be kind to thy brother, his heart will have scars, If the smile of thy love be withdrawn, The flowers of feeling shall fade at their birth.

If the dew of affection be gone, Be kind to thy brother, wherever you are, The love of a brother shall be An ornament purer and richer by far Than pearls from the depths of the sea.

Be kind to thy sister, not many may know, The wealth of true sisterly love, The wealth of the ocean lies fathoms below.

The surface that sparkles above, Be kind to thy father, for now he is old, Be kind to thy mother, for now she is old, Be kind to thy brother, nor show thy heart cold, Be kind to thy sister, so dear.

CANNOT GO TO SWEDEN

Toronto, Ont., March 14—A flurry was caused in athletic circles this morning when it was discovered that four champion athletes, who are sure to make a place on the Canadian Olympic team, are not going to Sweden because they are unable to get away from business. They are Frank Halbur, quarter mile champion; Jack Tate, Canada's best mile; Archibald Knapp, champion half miler and Harry Tressider, five mile champion.

The boys are recognized as the logical champions at their distances, although they are not title holders. With these athletes absent from the stadium in Stockholm this summer, Canada's chances to land the championship are down to the winds.

STILL A GROWTH

The St. John bank clearings for the week ending today were \$3,490,244, corresponding week last year, \$1,314,539.

The Evening Times and Star

ST. JOHN, N. B., MARCH 14, 1912.

The St. John Evening Times is printed at 27 and 29 Cambridge Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the Joint Stock Companies Act.

ST. JOHN'S SHAME

The Times referred the other day to the case of a young lady who is suffering from tuberculosis, and for whom there is no shelter in this city or province. Her friends have made enquiry in Kentville, and found that the sanitarium there is filled. An enquiry sent to Montreal brought no comforting reply, but an expression of amazement that such a condition of affairs was permitted to exist in New Brunswick. This young lady has no home, and is staying for the present in a boarding house. What is she to do? Her friends are still trying to find an institution where she may be given proper care, but cannot find it in the eastern provinces.

ber of the legislature for upwards of four years and the legislation which he has promoted in the interests of labor could hardly be written on a postage stamp."

New Brunswick is said by those best able to pronounce an opinion to be in need of a new inspiration in regard to the development of the dairy industry. The fact is commended to the earnest consideration of Premier Fleming and his colleagues.

The King of Italy has had a very narrow escape from assassination. Such an announcement does not come as a great surprise in this age of great social unrest. Despite the spread of education there are still persons so foolish as to imagine that by killing a man they can overthrow a system.

Arrangements have just been completed by the British Columbia Department of Agriculture for the allotment of five demonstration orchards which will fully determine the best varieties for planting and the most successful processes to adopt in the growth of fruits in the different sections of the Kootenay district.

A bill has been introduced in the Ontario legislature and is backed by the Ontario Association of Municipalities, authorizing municipal authorities to order the demolition or do the work themselves at the owners' expense, of all structures that may be considered dangerous in any way.

The St. Andrew's Beacon says:—"A St. John paper reprimands the men who, at the immigration conference, dared open their mouths in praise of the romantic Miramichi, the fair valley of Woodstock, the beautiful region of Quoddy, and other parts of the province, outside of St. John."

The Beacon entirely misrepresents the attitude of the Times, to which it refers. If any St. John delegate went to that conference to boast of St. John, instead of the province as a whole, he utterly misunderstood the aim and purpose of the conference. The people did not meet there to learn what advantages any locality possessed. They already knew.

In a sermon recently at Toronto University Rev. Dr. Eakin said in effect that the Christianity of the churches had degenerated into a system of transcendental selfishness. They insist upon saving one's soul instead of preaching the altruism of Jesus, who said:—"Whoever shall seek to save his life (or soul) shall lose it; and whoever shall lose his life for my sake shall preserve it."

Commenting on the sermon, the Toronto World says:—"As Dr. Eakin said, too much stress has been placed on salvation from the penalty of sin, to the detriment of the bigger thing, the boon of salvation for service. Christianity is a religion of service, Dr. Eakin affirmed, salvation was the liberator of one's soul from the thralldom of sin for the freedom of service. All that is necessary beyond this is to find out what one does understand in Christ's message, be that much or little, and act upon it. To do even that much will keep any man busy."

LOOKING AFTER IMMIGRANTS

In bidding for immigrants from the mother country, Canada has a formidable rival in Australia and New Zealand, where special arrangements are made to take care of immigrants on their arrival. An exchange says:—"Arrangements are in progress for the establishment of an immigrant reception depot at Sydney, where families can be boarded pending settlement. This is apparently easier to secure in Australia, as immigrants are reported to be able to settle down at once and earn good wages. The New South Wales Government has provided a training farm at Windsor, where young men are registered and after a period of training where they learn all branches of agricultural work, are placed in situations upon farms. The British Immigration League, with branches at Sydney, Adelaide and Perth, is also active in looking after immigrants and finding them openings. With the active propaganda now carried on in Britain by the Australasian states and the assistance rendered immigrants, it will not be surprising if in the near future the current of British emigration set strongly towards the commonwealth and the lesser dominions."

There is here a lesson for New Brunswick, which is about to enter upon a vigorous campaign to secure new settlers. Some questions asked in the legislature the other day indicate that a number of settlers who came to one section of this province have grown tired of their experience and gone away. Had they been welcomed and properly looked after in the early stages of their efforts to become established they would doubtless have remained.

St. John is becoming the most talked about of Canadian cities, and the people are all saying nice things about it.

The rumor that connected the name of Mr. W. Frank Hathaway with a department of labor to be created for the province has proved to be without foundation. Commenting on what has really been done, the Fredericton Mail says:—"The Fleming government has by an order in council brought into force an act passed by the former administration creating a bureau of labor. Col. the Hon. Harry F. McLeod has been named as commissioner, which may be taken as an indication that there will be very little labor attached to the job. Col. McLeod has been a mem-

MORNING LOCALS

The Peipetot Lumber Co. have succeeded in yarding their entire cut of 500,000 feet and are ready to commence stream driving. They will build a new mill at Martin's Head next month. They have also cut between 9,000 and 10,000 cords of pulp-wood.

The committee of the board of trade which has been watching legislation regarding hydro-electric proposals on the river met yesterday to consider the plans of the St. John River Electric Company, which is planning operations at Fossil. Mr. Max McCarty, who is promoting the matter, contends that the rights of lumbermen have been safeguarded and that proper highways will be constructed. The Builders' Exchange last night discussed the decay of the apprentice system and methods which might be adopted to train skilled workmen. It was said that very few boys or men would serve long enough to learn the trade before setting up for themselves and the public suffered from inferior work in consequence. The matter will be further discussed at a banquet to be given by the exchange.

INFLUENCE OF ROYALTY ON SOCIETY

Important News of a Week in Social Circles in London

RICH BRIDE'S HOME

Seaford House Being Garnished For Its New Occupant, Lady Howard de Walden—Canadians on Visit to England and Continent

(Times' Special Correspondence)

London, March 2.—There is a lull in our gaities just at present, attributable to various causes. Several hostesses refrain from entertaining in Lent, but their number is quite small. The majority are waiting to "see which way the cat jumps," in other words, to try to catch an inkling of the social atmosphere of the year.

You have heard before that that things are expected to be different, and in a few weeks' time, their Majesties' children, which have a strong moral influence on the inner circle of society, will be known definitely. So far, everything points to the fact that social functions will be carried out on more formal lines than before.

It seems curious that the doings of a large number of people should depend upon the hour that two of them dine! Yet this is so. The dinner hour of King George and Queen Mary is an hour earlier than was that of the late King Edward, and so society dines an hour earlier, starting dancing an hour earlier and so forth.

The lord chamberlain's regulations about the conduct of dress in the presence of the royal family are being strictly enforced. It is not unusual to see a young man in a frock coat and top hat, but it is not unusual to see a young man in a frock coat and top hat, but it is not unusual to see a young man in a frock coat and top hat.

All these regulations are only what most people expected, but there are persistent rumors going the rounds of the drawing-rooms which have set people wondering just what rules will be laid down for the admission of people whose names are not on the list.

The Countess of Selkirk, who intended to give a ball in town during the season, has been staying at the Russell Hotel. She has now gone to Egypt and will spend some time in Cairo; afterwards going for a trip to the Nile.

Robert Simpson, the only daughter of Sir Philip Grey-Gerton, possesses a house in Berkeley Square, as well as a house in the West End of London.

The splendid rooms were lined with the loveliest of spring flowers, notably the pink tulip which is all the rage just now; everything was well done, and the guests voted it the most successful ball of the little season.

Wonderful Presents of Jewels. Much sweeping and garnishing is going on at Seaford House, the town residence of Lord Howard de Walden, who sprang such a surprise on us all last week by getting married the day before the date fixed.

It is also means, which is of more consequence to us, that Seaford House will once more become a center of hospitality. Its future chateau is a most interesting personality and we are all agog to see how she "pans out." She has everything to help her to be most successful; beauty, wealth, originality and brains, so we expect much of her.

I hear that the value of the jewels among her wedding gifts, most of which were presented to her by her husband, runs well into six figures, and required the undivided attention of two detectives day and night while they were on show at her mother's house before the wedding.

CURIOSITY Prompted Many Women To Try PURITY FLOUR

THEY were curious to see exactly what results would be produced by flour consisting entirely of the high-grade portions of the best Western hard wheat.

They were curious to know more about a flour that contained none of the low-grade portions, which are found in every wheat berry, but which are separated and excluded from the high-grade in the process of milling PURITY FLOUR.

THEY were curious to know whether an ALL HIGH-GRADE hard wheat flour was really superior to a mixed hard and soft wheat flour. They were curious to see and taste the kind of bread, buns, biscuits, cakes and pies PURITY FLOUR would make.

Curiosity prompts you to seek the knowledge they discovered. It's urging you to try PURITY FLOUR.

REMINDER: On account of the extra strength and extra quality of PURITY FLOUR it is necessary, for best pastry-results, to add more shortening than you are accustomed to use with an ordinary flour. Add more water when making bread.

Health and Beauty Advice

By Mrs. Mae Martyn

Ada T.: Avoid all complexion creams which contain oil, as they make the skin shiny and cause hair to grow on the face. By stirring two teaspoonfuls glycerine and one ounce alcohol into half-pint cold water you have a matchless cream-jelly for clearing, softening and whitening the skin. It is unsurpassed for cleaning the complexion and making it smooth and youthful looking. Use this morning and night and you need have no worry about the way your face will look.

Mrs. F. B.: Weight reduction is a very old matter. These old-fashioned theories of violent exercises and starvation are all nonsense, and at the best furnish only temporary relief. To take off fat, use this remedy. Dissolve four ounces of quinine in 1 1/2 pints hot water and take a tablespoonful before meals. This simple, harmless remedy works wonders where many of the "cure cures" fail. It leaves the skin smooth and firm.

W. A. B.: Only healthy scalp produces beautiful, abundant hair. You must keep your scalp clean by shampooing as often as necessary. The following for dandruff, itching scalp and falling hair: Stir one ounce of quinine into half-pint alcohol, then add half-pint cold water. Rub this tonic into the scalp about twice a week. It will do wonders for your diseased scalp and make your thin, straggly hair thick, long and beautiful.

Mrs. S.: That sickly look you have, besides your loss of energy and run-down condition, are due to a sluggish, impure blood, incident to the winter months. This is very common, but is easily overcome by taking before meals a tablespoonful of this simple system tonic: In half-pint alcohol dissolve one ounce karoine, adding half-cup sugar and hot water to make a quart. This is a wonderful blood purifier and strength-restoring tonic. There is nothing like it for giving one rich, red blood, energy and good health.

Belle: The reason your hair looks so dull and faded and is so hard to arrange is that you have made the usual mistake of shampooing with soap. Any woman who uses soap shampoos cannot expect to have beautiful hair. It may clean the

THE BRIDGE The announcement that the St. John Railway Co. and the provincial government have reached an agreement for the construction of a bridge across the falls to carry the street car tracks as well as ordinary traffic was made in Fredericton yesterday. Negotiations have been in progress for some time. The new bridge will enable the company to have a direct service from the city through Lancaster.

With Judge McKeown presiding in Edmonton yesterday, at the opening of the March term of the circuit court, Baptiste Albert, charged with setting fire to a barn, was given a five year sentence in Dorchester, after having incriminated himself in giving evidence in his own defence.

Phillip J. Britt of Perth, N. B., told the Boston police yesterday that he had been bunched out of \$47 on the Boston Common. In company with two strangers he started matching coppers and lost all his money.

J. M. S.: Cutting the hair only makes them come in heavier. Get an original package of delatone and with a little of the powder mix enough water to form a paste. Put this on the hairy surface and after two or three minutes rub off, wash the skin and every trace of hair will have vanished. Druggists charge a dollar an ounce for delatone, but it never fails to do the work.

Mrs. V. G.: The woman who uses face powder not only is behind the times, but does herself a personal injury. Face powder is only a mockery to beauty, as it clogs the skin pores, causing wrinkles and other complexion ills. To have a perfect complexion, use a good lotion such as the following: Dissolve four ounces of apraxim in half-pint witch hazel (or hot water), adding two teaspoonfuls glycerine. This lotion gives the skin a delicately refined look of velvety smoothness. It removes the shine, immediately corrects sallowness, freckled complexions and does not come off in the wind like powder. Does or rub off easily when a veil is worn. This lotion is a splendid beautifier and skin whitener.

S. D.: Yes, no factor is more important in a beautiful face than bright, clear, youthful eyes. You should use a good eye tonic. Get an ounce of crystals, dissolve it in a pint of water and use two or three drops in each eye daily. It will clear and strengthen your eyes, remove all signs of weakness and inflammation and make them bright and sparkling. For weak, dull, expressionless eyes I think this tonic simply wonderful. It is very soothing, and is fine for those who wear glasses.

Nova Scotia Promoting Population of Rural Communities—Fund of \$200,000 (Halifax Chronicle)

Following out the policy long adopted by his administration to advance the interests of Nova Scotia along the most progressive lines, Premier Murray in the House of Assembly yesterday afternoon introduced a bill to encourage the settlement of farm lands in Nova Scotia. The bill, as introduced by the premier, is one of the most advanced pieces of legislation ever presented to any legislature in the Dominion of Canada. It provides for the establishment of a fund of \$200,000 to be used for the purpose of purchasing farms, machinery, etc., which must be provided.

The government is also authorized to borrow on the credit of the province, the sum of \$200,000 to carry out this legislation. The government is further authorized to buy real estate, which may be subdivided into farms or lots, on which buildings and fences may be erected, the government to resell such farms or lots as made. The bill further provides for the appointment of appraisers and inspectors or other officials necessary for the carrying out of the act.

THE TORY GUILLOTINE

Great Slaughter of Dominion Government Officials in Nova Scotia (New Glasgow Chronicle) The tory axe is falling day by day on the necks of the government officials in Guysborough county. The usual method followed as shown by the papers that have been produced at Ottawa, is as follows: Some tory heeler who wants the job for himself makes a written statement that the official is an offensive partisan. The defeated candidate, G. A. R. Bowring certifies that the office seeking heeler is a reliable man. This appears to be all that is required. These letters are forwarded to Ottawa and the head falls into the basket. The victims that we have heard of so far are: W. A. Garrison, customs officer, Larry's River; Stephen C. Richard, light keeper, Charles Cove; G. W. Jollett, fishery officer, Saona; Murdoch Whitman, fishing guardian, Sherbrooke; Patrick Conway, light keeper, White Head; Miles Whidden, fishery guardian, Stillwater; John A. Kirk, fishery guardian, Glenisig; Robert A. McKean, fishery guardian, Newton; D. S. Hendabee, fishery guardian, reduction works, Canoe; John Smith, fishery guardian, Smithfield; Ed. Cunningham, fishery guardian, L. Caledonia; David Mitchell,

fishery guardian, Pictou Road; John M. Rogers, postmaster, Roman Valley; John A. Hudson, fishery officer, Country Harbour; Henry Mason, fishery officer, same place; Leander Mason, fishery officer, Cross Roads, C. H.; John P. Mesghe, deck foreman S. S. Scotia; S. M. Ferguson, customs officer, Oyster Ponds; John Mitchell, fishery officer, Liscombe; John Cross, fishery officer, Indian River; Hector McLellan, fishery officer, Goldboro; W. D. Gillis, fishery officer, New Harbour; Elisha Williams, fishery officer, Cole Harbour; Frank Cook, fishery officer, Cook's Cove; Stephen Grant, fishery officer, Roschvale; Joseph Lavelle, fishery officer, Erville; Roderick Sutherland, caretaker, Canoe; Patrick McKinnon, fishery officer, Erville; Wm. McKay, fishery officer, Intervale; Patrick Keay, fishery officer, Oyster Ponds; Allan Tate, fishery officer, Grosvenor; P. Clancy, inspector public wharf, Mulgrave; James Snow, fishery officer, White Head River.

In addition to the above there are about twenty-five others against whom complaints have been entered. The methods adopted are the methods of Robespierre. Every accusation ends in an execution.

C. P. R. TO OPERATE CENTRAL RAILWAY

Get Nice Terms from the Flemming Government—School Law Amendment

Fredericton, N. B., March 13—New Brunswick will not be in the railway business after next fall, if everything turns out as Premier Flemming indicated today in his remarks upon the bill authorizing the guarantee of bonds to the Gibson-Minto Railway, and the leasing of this line and the Central Railway to the Canadian Pacific.

The estimate of cost of the Gibson-Minto line is \$8,000 per mile, and the government guarantee of \$15,000 with \$5,000 per mile federal subsidy will only leave \$2,000 to be supplied by the company.

There was some criticism from the opposition members, particularly upon this section that provides if oil or electricity came into use generally as a motive power that the same output of coal would not be insisted upon after a certain time.

This Premier Flemming argued was a remote possibility and expressed much confidence that the shipment of coal would greatly exceed 50,000 tons per annum.

Other points brought out were that the lease for operation by the Canadian Pacific had been drafted and agreed upon; that forty per cent. of the gross proceeds from

Gibson to Minto would come to the province and fifty per cent. of the net proceeds from the operation of the Minto-Norton portion of the road.

Premier Flemming contended that it was an excellent business proposition for the province to get clear of the Central Railway and the annual deficits that accompanied its operation.

C.P.R. Drives Good Bargain.

In a short time the bridges would have to be rebuilt and these would cost a million. It then transpired that one feature of the agreement for leasing with the Canadian Pacific stipulated that the interest upon the amount spent upon betterments would be charged against the net proceeds coming to the province, and it was admitted by the leader of the government that it would probably be many years before a cent was received from the operation of the Central but the lease was for 99 years, and who could tell but in the future the road might become a paying proposition. The annual loss was averaging about \$200,000 and this would be got rid of.

The premier said that the Canadian Pacific was bound by the terms of the lease to operate the road not only from Gibson to Minto but to Norton as well. He had the assurance of Mr. McNeil of the C. P. R. that Queens county coal was only slightly inferior to that furnished from Springhill and was splendidly adapted for burning and steaming purposes.

Amending School Law.

There was an interesting discussion respecting a proposed amendment to the school law making the establishment of school saving banks permissive and also the medical inspection of pupils. Messrs. Currie, Tweeddale and Legere spoke strongly in favor of the benefit of medical inspection, and Mr. Swenney pointed out that the school teachers were being burdened with regulations and that the board of education might wisely eliminate much of their present duties. There was much in the present curriculum that was unnecessary and ornamental than useful. What was required was a course of instruction that would ensure a sound, sensible education.

Notice of Enquiry.

Hon. Mr. Grimmer introduced a bill to confer certain privileges on the Maine Central Railway Company.

Mr. Robinson gave notice of motion for Saturday regarding bridge accounts.

Mr. Hasbany gave notice of his amended motion regarding assistance to technical and agricultural education for Monday next.

Mr. Upham gave notice of enquiry regarding the Hartland bridge.

Mr. Upham rose to question of privilege and asked why details regarding men employed and sale of pay on Woodstock bridge had not been stated in reply to his enquiry yesterday.

Mr. Speaker said that hon. gentlemen would have to accept answers as given to enquiries as usual.

LOST CONTROL OF HIS TEMPER

Once there was a man whose liver was not working right. When dressing in the morning he had trouble with his collar. Then he lost the collar button. Then he lost something.

By the time he got to breakfast he was so irritated that he had no appetite and quarrelled with his wife. He went to the office with a headache and when he had some important business to transact he bungled it.

When you find yourself easily irritated and lose control of yourself and your temper, look to the condition of the liver and take one of Dr. Chase's Kidney-Liver Pills at bed-time.

The dark-brown taste will not bother you in the morning, the tongue will clean up, digestion will improve and you will lose the tired, worn-out feeling which accompany a sluggish condition of the liver.

BUDGET SHOWS THE GOOD LIBERAL MANAGEMENT

Likely \$40,000,000 Surplus This Year—No Changes in Tariff; No Bounties—Valley Railway

Ottawa, March 13—The budget speech was delivered today. The finance minister had a good story to tell. It had been framed and written for him by his predecessor, Hon. W. S. Fielding.

Hon. Mr. White made the speech without getting a cheer, though he announced an expected surplus of \$38,000,000 for the current year. That, he admitted, had been planned by Hon. Mr. Fielding. It was notable that when Mr. White made the announcement there were only a few men on either side who cheered.

The Liberals cheered the surplus they had created. The Conservatives, who will have the surplus to spend, also cheered.

Mr. White said that he hoped to reduce the debt this year by \$1,150,000. For that, as well as for many other things, he gave due credit to Hon. W. S. Fielding, his predecessor. He praised the development of Canada's commerce and immigration, and said that the foundation had been securely laid.

He stated that there would be no tariff changes or bounties on iron and steel, but that the recommendation of the tariff commission would be looked for. He said that Canada had done well to reject reciprocity. That statement was not generally cheered. He spoke for two hours and sat down. It was generally agreed that he had done fairly well but that with the same amount of goods to deliver Hon. W. S. Fielding would have finished in half an hour with the house cheering.

The consensus of opinion was that it was a lean budget and that it took a long time in the telling. Hon. Mr. White, in conclusion, said that he hoped to do as well

CAUGHT A BAD COLD.

DEVELOPED BRONCHITIS. SHE COULD HARDLY SPEAK.

Bronchitis begins with a tightness across the chest, difficulty of breathing, hoarseness, and there is a dry, harsh, croupy cough.

After a few days mucous begins to be raised. This is at first white, but later of a green or yellow color and is occasionally streaked with blood.

Care the first symptoms of bronchitis by the use of Dr. Wood's Norway Pine Syrup and this prevent it becoming chronic and perhaps turning to consumption.

Mrs. Edward Travers, Campbellton, N.B., writes:—"I thought it my duty to write and let you know what your wonderful medicine has done for me. I caught a very bad cold which developed into bronchitis. I was so choked up I could hardly breathe. I tried many medicines but they did me no good, and I had almost given up in despair. A friend advised me to try Dr. Wood's Norway Pine Syrup, so I got a bottle and felt much better, and by the time I had taken four I was completely cured, and I can assure you I cannot say too much in its praise. It is all you claim for it, and more."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper; the pink print is the trade mark; price 25 cents. Manufactured only by The T. M. Linn Co., Limited, Toronto, Ont.

There is no time to send for a doctor no time to go to the drug store, eyeglasses had must be obtained at once. If you are not so fortunate as to have Dr. Chase's Syrup of Limes and Turpentine in the house, cause the child to vomit with a spoonful of warm lard or by tickling the throat with the finger.

Then get Dr. Chase's Syrup of Limes and Turpentine so as to prevent the most serious attack which usually comes in the second night. This treatment is wonder fully effective for croup, bronchitis and colds in the throat or chest. MAXIMS FROM THE WRITINGS OF NAPOLEON

Paris, March 2-The collection of maxims gathered by the industrialist M. J. Sartant from the literary works of Napoleon I, give an excellent idea of the emperor's mastery of incisive phrase and his keen intuition.

Warfare is a natural state. In war there is only one favorable motto; general knowledge, how to seize it.

A good tragedy gains in value every day. High tragedy is the school of great men, and it is the duty of sovereigns to encourage it.

What I admire is the "Amusement" of Aeschylus is the extreme force united to great simplicity.

Eva Morrell Says She Bought in Singer's House and it Knocked Her Out

In the police court this morning six prisoners charged with drunkenness were dealt with. Two were fined \$4 or ten days in jail, two \$8 or two months in jail, and the other two were remanded. Leslie and Alice Singer, charged with keeping a bawdy house in Sheffield street were remanded. The case will probably come up for hearing tomorrow morning. BIG TRAVEL TIME

J. B. Lambkin Talks of I. C. R. Business—Visiting Railway Men

That within the next few days between 5,000 and 6,000 new settlers would be brought to Canada, most of them having as their destination the city of St. John, was the statement made last evening in the Union depot by J. B. Lambkin, C. P. R. assistant passenger agent for the I. C. R., who said he had been called here unexpectedly to meet some passengers on the steamer Saturnia, who were routed over the government road to western points. Travel, this year, he said, had been decidedly encouraging and well above the average with the I. C. R., and he looked forward to the records showing at the close of the season, a greatly increased passenger business.

There are four or five steamers coming within the next few days. A Russian steamer is bringing out 1,500 passengers, the Teutonic is carrying 1,700, and there are others on the way which will bring the number well over the 5,000 mark.

Other railway men in the city yesterday were: R. M. Duff, assistant manager of the C. P. R. steamships; A. E. Marquette, travelling passenger agent for the Grand Trunk; and Fred Struble, of the passenger department in Winnipeg. The latter is a former St. John boy who has been about fifteen years in the west and who now holds a responsible position with the Canadian Pacific in Winnipeg. Dr. W. L. Ellis, of the immigration department accompanied them, and W. B. Howard, D.P.A., to Halifax last night to meet the Empress due today. J. J. Hallisey, superintendent for the I. C. R., was also in the city yesterday, and returned to Moncton last night.
