## THE NEW RECORDER SWORN IN TODAY

**Alderman Baxter Tenders Resignation at Special Meeting**

### ELECTION NOV. 10

**The Report of the Committee on Germain Street Paving Presented and Council Decide on Boulevard Plan—Ald. Hayes Head of Treasury Board**

At a special meeting of the common council this morning Ald. Baxter tendered his resignation as a member of the board, which was accepted, and he was sworn in as recorder of the city. The report of the special committee on the Germain street paving was presented and adopted and it was decided to carry out the boulevard idea as called for in the petition of the residents of that section of the street. The first business was the receiving of the committee's report and the document which was presented by Ald. McDougal, the chairman, was in effect that they had closed a contract with the Hassan Paving Company at \$10,770 for the Germain street paving with the understanding that necessary changes could be made in the event of the council deciding on the boulevard idea. The committee also presented the report of the petition of the Germain street residents with a long list of signatures.

### MEMORIAL TO THE LATE BISHOP KINGDON

#### To Take the Form of a "Stipend Augmentation Fund"—Lengthy Discussion in the Synod on the Matter

The Church of England synod this morning and after prayer and the reading of the minutes a number of notices of motions were read and the debate of last night on the Bishop Kingdon Memorial was resumed and occupied the entire day.

### ST. JOHN MAN HAD NARROW ESCAPE

#### Bullet From Someone in Woods Grazed the Ear of C. T. Nesbit Who Was Driving Near Sackville With H. J. Power, of This City

Sackville, N. B., Oct. 6.—(Special)—C. T. Nesbit, an employe of the N. B. Telephone Co., Ltd., had a narrow escape from instant death yesterday, being struck on the left ear by a bullet, Nesbit was driving through West Sackville, when a bullet passed through the men striking Nesbit on the ear, bringing blood. Nesbit was stunned and fell from the wagon. Several reports were heard in the woods about the car, bringing blood. Nesbit was swollen today but naturally he is glad to be alive.

### QUEEN ALEXANDRA LEAVES SCOTLAND

London, Oct. 5.—Queen Alexandra has left Scotland for Copenhagen. Her majesty was accompanied to Craigdarroch and Albert at Dundee, whence the start was made for Copenhagen. Her majesty was accompanied by the King as far as Ballater station, and at Taybridge station the royal party was met by the lord provost, and accompanied to Craigdarroch, where a pinnace conveyed the party to the yacht. A royal salute of 21 guns was fired by H. M. S. Vulcan as soon as the Queen had reached the Victoria and Albert.

### CAPTAIN KENDALL OF MONTROSE, GETS CRIPPEN REWARD

London, Oct. 6.—Captain Kendall of the steamer Montrose, has been paid the reward in the Crispin case.

### SULTAN BUYS 20 AEROPLANES

Paris, Oct. 6.—An Englishman named Wilkinson, representing the Sultan of Morocco, has been in Paris buying aeroplanes for the Sultan, who expects to use them for mail transportation between Fez and Tangier. The Sultan ordered 20 machines.

### CENSOR ST. PAUL THEATRES

St. Paul, Oct. 6.—Alderman C. P. Montgomery has introduced an ordinance in the city council to bar out of St. Paul theatres all undesirable plays. The resolution places the power of censorship in the hands of the council license committee.

### THE WEATHER

Winds increasing to strong easterly, with gusts to 20 m.p.h. in the afternoon. Light rain, with gusty south easterly shifting to westerly, rain.

### LOCH LOMOND WATER TONIGHT OR TOMORROW

**Report Work Going Ahead Rapidly and May Be Completed Tonight—Many Complaints**

The water situation was practically unchanged today. With the exception of a very few, the greater number of homes in the city were without a supply of that seemingly precious liquid, which it is said is "never missed until the works run dry." or "to words to that effect. The water-works were again in evidence today, and it must have been encouraging to temperance advocates to witness how much their presence was desired. The office employes in the water works office in Carnarvon street received a splendid assortment of compliments of a doubtful nature over the wire at intervals of from three to five minutes, and one irate female was shut off by the girl at the central exchange because she had not a penny to pay for the water. Engineer Murdoch said today that the work was going ahead rapidly and that the water would be turned on tonight or tomorrow. He said that the work would be completed on No. 2 conduit to permit of the water being sent through to the city tonight and that the work on No. 1 conduit had been made rapid progress. That houses on the same street had no water while others had a good supply, he said, was due to local causes, old pipes being responsible for much of the inconvenience, many of them having been erected on the inside through age, and this he pointed out as a matter of fact. Mr. Murdoch said he would not definitely promise just when the water would be turned on, but from another source it was said that the work of No. 2 conduit would be finished today about 5 o'clock, and if this were so, the water would be turned on this evening. When told of this the engineer said that he wanted to see the work done as well and rapidly as possible, so as to cause no further inconvenience, but it was better not to advance too quickly, for fear of its not being done in the best interests of all.

### BALFOUR AT EDINBURGH

A verbatim report of Balfour's speech at Edinburgh shows that the leader of the opposition said he would not dispute the fact that the Conservative Government was exactly where it was when he spoke in the house of commons about eight weeks ago.

### GOLD OF ALASKA SHOWS DECREASE

Seattle, Wash., Oct. 6.—The first estimate of the season's gold output from Alaska, made by the Alaska Yukon Magazine, is that there will be a reduction of more than \$5,000,000 from last year's output of \$30,500,000. The estimate is \$25,000,000.

### POISON IN THE FLOUR

Chatham, Oct. 6.—Mr. and Mrs. Thos. Stegmann of this city and their daughter, Mrs. Percy Papps of Toronto, who, with her little daughter, is visiting here, narrowly escaped death through poisoning. In some manner poison was mixed in flour for some purpose around the house, and the servant, not knowing of it, accidentally used the mixture in preparing the midday meal, thinking it was pure flour. The result was that they were all poisoned, and are still very ill. Mr. Stegmann is confined to his bed, and Mrs. Papps is also in a serious condition.

### DUE PROVISION MADE

Anxious Enquirer: It has been decided that the chairman of the ferry committee and the superintendent are away looking for a new ferry boat, a trained nurse will be given charge of the Ludlow, and a room in the Redden Home for incurables kept in readiness.

### HEMLOCK EXTEST

The residents of Carleton offer to put the head of Rodney wharf against the King square fountain as a producer of odors that make an ordinary garbage dump seem like a distiller of the rarest perfumes. They nominate the members of the Board of Health as the judges.

### THE TIMES' NEW REPORTER

THE WATER SUPPLY. Times New Reporter. Sit—Are we to blame the present state of the water supply to the last tail of Halley's comet or to the valves? Yours, DRY SPELL.

It is not easy to answer this question. There seems no doubt that if the water pipe to Loch Lomond had been laid by Hassan met with high jinks; but whether this has any relation to the tail of Halley's comet is a question that might fairly be referred to the members of the city council. As to the question of valves the city engineer is the greatest living authority on the subject. Mr. Dry Spell should ask him about it.

## HOW THE REVOLUTION STARTED IN LISBON

**A Detailed Account of Uprising and Rioting in the Streets**

### OVER 100 DEAD

**Eye-Witnesses Tell of Stinging Scenes During the Outbreak—Mob Violence Followed by Action on the Part of Troops and Palace Was Stormed**

Vigo, Spain, Oct. 6.—The number of casualties as a result of the fighting in Lisbon is very large. The dead exceeded 100 in the early stages of the outbreak according to authoritative advice brought here by the steamer Cap Blanco. The steamer was lying off Lisbon when the rioting within the city began and the first authoritative news of the outbreak reached the outside world in a wireless message from her captain. The steamer has just returned to this city after failing to land her passengers in Lisbon.

### SUIT AGAINST THE DUKE OF MANCHESTER

**Doctor Demands \$680 of Duke and Duchess for Experimenting in Consumptive Cure**

London, Oct. 6.—There is great interest in the case of Dr. O. E. Miller, who has sued the Duke and Duchess of Manchester for \$680 for professional services.

### CORONATION PARADE SEATS SOLD FOR \$50

**Though Royal Ceremony is Not Held Until Next June, the Bookings Are in Full Swing**

London, Oct. 6.—Although no announcement has been made of the official route of next June's coronation procession, from reliable sources comes the information that the parade will take the following course: from Buckingham Palace, by way of the Mall and the new Trafalgar Arch, through the Strand and Fleet street to Ludgate Circus; thence to Blackfriars Bridge, returning by the Victoria embankment to Westminster Abbey, where the ceremony will be held. South London is making a strong claim for a share in the parade, and the route is not likely to be altered, as the King, it is understood, desires it to be as brief as possible.

### ELECTRIC LINE PROPOSED FROM MINING CAMPS

Vancouver, B. C., Oct. 6.—It is proposed to build an electric railway from Blacksville, in the northern interior of British Columbia, down the Willow river to connect with the Grand Trunk Pacific at or near Ft. George, the route for which is now being surveyed. The objective point of the new road is to provide better transportation facilities to and from some of the Cariboo mining camps.

The Evening Times and Star

ST. JOHN, N. B., OCTOBER 6, 1910.

The St. John Evening Times is printed at 27 and 29 Canterbury street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

THE EVENING TIMES THE DAILY TELEGRAPH

New Brunswick's Independent Newspapers.

These papers advocate: British Connection, Honesty in Public Life, Measures for the Material Progress and Moral Advancement of our Great Dominion.

OUR LONDON CABLE

Readers of the Times-Star will be particularly interested today in its special cables from London. The report of Mr. Balfour's address in Edinburgh and the comments thereon by the London press show that there is a marked division in the Unionist party in regard to the preference.

A LEARNED CRAFTSMAN

The Standard quotes Mr. R. N. Appleby, of Hampton, bridge-builder under the Haazen government, as follows: "I worked under the old government," continued Mr. Appleby, "but I must say it left the bridges of Kings county in a desperate condition. That was not the bridge builder's fault; it was the natural result of the policy under which the work was carried on."

ST. JOHN'S PROSPECTS

Referring to the transfer of the west side lots at St. John to the C. P. R. the Montreal Star says: "Mr. D. McNeill stated that the company had big plans which would take years to carry out, for the development of St. John as a winter port, particularly as a port for overseas freight business."

very strong position in connection with the transportation system of Canada. We are assured that two transcontinental railways will have very extensive terminals here, and it seems as good as settled that the Canadian Northern will also find its way to the shores of Courtenay Bay.

MR. LOWE'S TIRADE

Mr. R. S. Lowe, of the Haazen company, makes in the Standard some observations on the exposure in the Times-Star last evening of the real Haazen method of rolling the stones in the street foundation, this rolling enabling the company to make a great saving in cement.

The article in the Times is as absurd as other articles appearing in the same sheet. The process mentioned is correctly described as the Haazen Pavement, but the editor of the Times in his zeal does not seem to realize that there is a difference between the Haazen pavement and the Haazen foundation and that it was the foundation which was used on Main street.

In the first place, to be exact, the process described is not called the Haazen pavement, but "an artificial structure capable of use for foundations, walls, abutments, columns, floors, etc., but especially adapted for pavements for roads, sidewalks, and the like."

Mr. Lowe now boldly declares that this foundation is never rolled hard before applying the grout, when the surface is to be of granite, as in Main street. "All the rolling done is light work," he says, "to level the stone." Presumably if the man in charge of the roller should forget and roll the stone hard, so that less cement would be required, and the cost would be reduced, Mr. Lowe would discharge him at once.

REPORT THAT KHEDIVÉ WILL RESIGN HIS THRONE

Roosevelt Said to Have Stirred Up Trouble By His Speech in Egypt

Constantinople, Oct. 6.—Col. Theodore Roosevelt is responsible for the determination of Abbas Fakis, Khedive of Egypt, to resign his throne, according to a Cairo current here.

By his speeches in Khartoum and Cairo, in which he pleaded for the strengthening of English rule in Egypt, and urged the Egyptians to submit peacefully to such rule, Mr. Roosevelt is declared to have stirred up such activity on the part of the Young Turks, who constitute the Nationalist party, that the Khedive has found his continued rule beset by too many perplexities and has decided to abdicate.

The American's speeches brought the issue of Egyptian freedom plainly to the front and has had the reverse effect from that intended by Mr. Roosevelt.

REPUBLIC PROCLAIMED

Portugal has been proclaimed a republic. According to the latest Lisbon advices Theophilus Bragada, a noted Republican leader, is the new president. The Portuguese Republic is the new national anthem and the emblem of monarchy on the palace has been replaced by the flag of red and green, the colors of the Republican party.

That there was fierce fighting in the streets of Lisbon, is evidenced by dispatches from all quarters. Disorders at Oporto have been repressed by the troops, many regiments of which are said to be still loyal to the king.

King Manuel, the queen mother and the queen dowager are reported to have taken refuge in the palace at Mafra, a short distance out of Lisbon. They may now be on a British warship bound for Gibraltar. At least they are considered to have reached a place of safety.

London advices say that by a treaty of alliance Great Britain is bound to afford protection to the King of Portugal, if this is "duly applied for."

## The Evening Chit-Chat

By **RUTH CAMERON**  
"HALF the unhappiness in the world comes from thinking other people are happy." That epigram, which I read in Life the other day, appealed to me as one of the best things I have ever run across in that delightful esdxybox medicine chest of humor-coated truths. But I think it's converse, or is it "opposite"—I'll have to leave that to the geometry students. I guess—is even truer: That is, half the happiness in the world is caused by thinking other people are unhappy.

Perhaps you think that's a very wild statement. I don't, and maybe you won't when I tell you just how I mean it. Whether they admit it to themselves, or not, I thoroughly believe that a very great part of many people's enjoyment of valuable opportunities and possessions is in thinking that not everybody can have them. In other words, a great deal of the pleasure they receive is founded on other people's envy, which is certainly a very poignant kind of unhappiness. Why else is it that a pretty model or an attractive style, which the rich madame is delighted with and regards as very beautiful as long as it is hers exclusively, is relegated to the same level as soon as it becomes sufficiently inexpensive for a few other people to have it? What else is it that makes the possession of a diamond seem infinitely more desirable than the possession of its paste imitation, even in the eyes of those who could not probably tell the difference between the two? How few values are determined by beauty and utility, and not at all by rarity—that is the possibility of general ownership. Did you ever see any lace half so beautiful as the dew-sparkling cobwebs that you find on the grass of an early morning, and that look as if the fairies had left them there when they fled from their revels at dawn? Well, just suppose for a moment that these cobwebs could be some process made indestructible and used on gowns. If that process did not cost much, and this beautiful lace were as free as air, how many rich ladies do you think would wear it? Why, none at all, of course. They'd all prefer their infinitely less beautiful Mechlin and old Duchesse laces, just because these were out of reach of most people. Myself, I confess with shame that when I first obtained a long-cherished desire, and rode horseback, a not inconsiderable part of my pleasure consisted in having the envious glances cast at me that I had so long cast at other people. Can't we rise above it and learn to like and admire and strive for things just because we get pleasure out of them, and not because other people can't have them?

## Daily Hints for the Cook

**LEMON AND APPLE PIE.**  
Chop finely one large sour apple which has been peeled and cored. Add the pulp of a lemon, the grated lemon peel and the juice. Beat in one egg, a tablespoonful of butter, and half a cupful of sugar. Beat until thoroughly mixed and bake between crusts of puff paste for three-quarters of an hour.

**RUSSIAN PRUNE PUDDING.**  
Pick over and wash through several waters one pound of large prunes and let soak over night. Next day turn them into a double boiler and simmer slowly until tender. Sweeten to taste and when cool enough to handle carefully remove the pits. To the syrup add one third of a box of gelatine which has been soaked in one-half of a cupful of cold water and heated gently until dissolved. Have ready some almonds which have been blanched and split. When the jelly begins to thicken dip into it the almonds and decorate the surface of a cylinder mold with them, then carefully fill with layers of the fruit and jelly, setting aside several times, if necessary, to allow the layers to stiffen. Bind the edges with a strip of buttered paper and pack in ice and melt for three hours. Serve with cream, which is sweetened to taste, and flavored with a few drops of extract of almonds.

**VEAL CUTLETS.**  
Cut a number of small, thin slices of a tender piece of veal. Break an egg into a soup plate, salt and pepper it and beat well. In another plate mix an equal quantity of fine bread crumbs and grated cheese. Salt and pepper the slices of veal and dip them into the egg, then into the bread crumbs and cheese. Fry to a good brown in butter, and serve on bed of flaky well-soaked rice covered with a thick tomato sauce. Arrange the veal bits in a circle, one resting upon the other. These may also be served about a mound of spinach puree or surrounding a pyramid of French beans.

A soft answer may turn away wrath, but it won't turn a look agent down.  
A man isn't necessarily charitable because he gives his friends away.

## LIBERAL MEETING IN ALBERT COUNTY LARGELY ATTENDED

**Hon. Mr. Robinson Announces County Convention Soon to Select Candidates—Glouce Bay Seized for Debt**

St. John, N. B., Oct. 5.—The annual fair at Edgemoor today was one of the most successful ever held, there being more than 2,000 people present, and was followed by a political meeting in the agricultural hall this evening, which was presided over by Councillor Hopper and addressed by Dr. McAlister, M. P., Hon. C. W. Robinson, John T. Hawke, C. J. Osman and S. S. Ryan.

The hall was never so crowded and the speakers were given a most enthusiastic greeting.

Mr. Robinson announced that in the near future he proposed calling upon the supporters in Albert county to meet in convention and name two candidates to run at the next election in support of the opposition.

The speeches were of a vigorous character, and met with great favor by those present.

The proceedings were varied and enlivened by several selections by the Sunnyside musical quartette. The meeting broke up with cheers for Sir Wilfrid Laurier, Dr. McAlister, Hon. Mr. Robinson and the national anthem.

Sydney, N. S., Oct. 5.—The property of the town of Glouce Bay was levied upon tonight by G. B. Ingraham, high sheriff of the county at the instance of the municipality of Cape Breton.

The warrant issued claims an amount of \$10,000 due the county for the town's share of joint expenditure. The county, when the case was heard before County Court Judge Finlayson in June last, got judgment against the town of Glouce Bay in the amount of \$10,000. This amount has been three months overdue, and today the sheriff served the warrant on the town clerk.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and restoring the system to its normal condition. It is a simple, safe, and reliable cure. Send for testimonials.

A meeting of the St. John County branch of the N. B. Temperance Federation will be held this evening in the W. C. T. U. rooms, Germain street. Important business will be discussed.

Several complaints have been made lately to the Times-Star with reference to the reckless driving of automobiles about the city. One of the fathers has the name of a chauffeur, who evidently takes special delight in turning corners at a high rate of speed, without looting the horns.

One of the finest specimens of moose shot this season was brought to the city yesterday and is being much admired by north end sportsmen. It is the property of Con. Rogan, of the north end, and was shot in the woods around the Vrepps. The antlers measure 64 inches from tip to tip.

Thomas Foley was arrested this morning in Pond street by Policeman Marshall on a charge of drunkenness, but it may be that another charge may be entered against him, as he was found with a bag containing about 20 pounds of copper, which the police believe to have been stolen.

The lobby of the Opera House has improved considerably in appearance of late, and among other new features in the work of renovation, is the broadening of the stage entrance, which has been a long-felt want. A new coat of paint as well has been applied, the whole work being a credit to Joseph Stachhouse, the stage manager, by whom it was done.

Albert Gillant, Samuel Arsenault, and Edward Murphy, were fined \$4 each, this morning, in the police court. John Nairn was remanded on a charge of stealing a coat and vest from Carl Peters, in Peter's tannery on Sept. 21. The articles were found on him, and it is possible that other charges will be made against him, as the police have been informed of more clothing having been taken.

Many will regret to learn of the serious illness of Miss Blanch Dabell, of 8 Castle street, who was taken a few days ago with appendicitis. Yesterday her condition became so serious that the attending physician, deeming it inadvisable to have her removed to the General Public Hospital, where an operation was performed last night. Today she is resting quite comfortably.

During the heavy wind storm on Sunday last, schooner *Harvey Queen*, with a cargo of hardwood, dragged her anchor and went ashore in the cove near F. A. Dykeman's Summer residence, at Renforth on the Kennebecasis. It was thought for a time that the vessel would break up, and the cook, who was alone on board, at the time, gathered up his possessions and went ashore. It is now stated that the schooner is not damaged and the cargo has been taken off and an attempt will be made to float her.

**ABRUPT ENDING TO SECOND TRIAL OF ANDY ROSSI**

Mr. Baxter Senior Counsel For The Defense Raises Technical Point and Trial Goes Over to Next Court

The second trial of Andy or Giovanni Rossi charged with the murder of a com-patriot named Diego Saracusa, came to an abrupt ending this morning when J. B. M. Baxter, K. C., senior counsel for the defence took a technical objection to the additional panel of jurors summoned.

When the court opened this morning at ten o'clock, His Honor Mr. Justice Landry presiding, fifteen of the thirty-five jurors summoned were present. Attorney General Hazen appeared for the crown, Mr. Baxter and G. Earle Logan for Rossi.

Mr. Baxter objected to the accused being tried by this additional panel on the ground the old panel had been discharged. He argued that the accused had the right to exhaust the old panel before an additional one was summoned.

The attorney general agreed with Mr. Baxter.

His honor then, on the motion of Mr. Baxter, with the consent of the attorney general, adjourned the case until the next circuit which opens here on November 22 with His Honor Mr. Justice Barry, presiding.

The court then arose until tomorrow morning at ten o'clock at the equity court chambers where the non-jury civil cases of McIntyre and Comensau Ltd., v. Comensau will be tried. Hon. J. D. Hazen, K. C., and H. O. McInerney will appear for the plaintiff and M. G. Todd, K. C., and L. P. D. Tilley for the defendant.

**OUTLOOK FOR FISH NONE TOO BRIGHT**

Prices High and Stocks Light—Worst Year on Record

Tomorrow is Friday, a day when a great many people of this city look to the fish markets to supply them with their chief source of diet, but at present it cannot be said that the stock is very encouraging to choose from as the waters have not yielded a plentiful abundance of the members of the finny tribe this season. In fact a well-to-do dealer said this morning that it was about the worst year on record in his experience.

The past three weeks have been particularly hard on the fish-dealers, as the fishermen from whom they have been receiving their supply, have deserted the haunts of the cod and haddock, and gone in search of the small sardine, which brings them better results financially. How long this will continue is hard to say, but while the sardine catch holds encouraging prospects for the men, they will not attempt to capture the larger fish. Dogfish, too, have made great inroads on the store of haddock and codfish, and have driven numerous shoals of herring far into the recesses of the bay.

Prices asked for tomorrow in the fish markets are as follows: Halibut, 10c. a pound; codfish, 5 1/2 haddock, 5 to 6c. a pound; pickerel, 10c. a dozen; kipper, 10c. a dozen; mackerel, 20 to 25 cents each.

J. E. Smith, of Sydney street, received word a couple of days ago that he had been awarded the contract for supplying the Canadian navy with fish at this port. He has also been granted the contract for the supply of the C. P. R. steamers here.

**LAST CHARTER MEMBER OF BRUSSELS ST. CHURCH**

Miss Spiller Died Today in Her 87 Year—Was Blind 25 Years But a Faithful Church Goer

Death this morning removed one of the oldest and most respected of St. John's citizens in the person of Miss Julia Elvira Spiller, who passed away at her home in 241 Union street after an illness of several months. She was in her 87th year, having been born in this city on Sept. 6, 1823.

Miss Spiller had a great many friends in various sections of the city who will regret to hear of her death.

She is the last of the charter members of Brussels street Baptist church, and until a short time ago, was a prominent member popular with all the congregation who knew her. She is survived by one brother, Manford, who is at present in the States, and several nieces. Miss Spiller has been ill since last spring when she dislocated a limb in falling. She had been blind, through illness for 25 years.

The time of the funeral has not yet been decided upon.

**SOCIALIST TALKS ABOUT ARMIES**

Roscoe Fillmore delivered the final lecture last night to a good audience at 141 Mill street. His subject was "Armies and their Uses in Modern Society." The speaker traced the origin and growth of governments and governmental instruments, militia armies and navies. He claimed that government originated with chattel slavery and in answer to a question explained that it would cease to exist when the workers had inaugurated the cooperative commonwealth, the socialist's ideal. Under Socialism administration of affairs would take the place of the present class owned government.

The speaker told of his recent visits to Cape Breton and Sprinhill, where he had seen the Canadian troops called out, and that there had been several wars within disturbance to warrant the calling in of even a special policeman. He pointed out that there had been several wars within the past few years and said that all of them had been waged for the possession of markets for the surplus value created by the workers of the industrial nations. Had there been no rich gold and diamond mines in South Africa Christian Great Britain wouldn't have stepped in and taken the country. The workers did all the fighting, took all the risks and when peace was declared Chinese coolies (virtual slaves) were imported under contract and compelled to work for a greatly reduced wage. Such, he said, was capitalism. Let the workers vote themselves into power, thus abolishing classes, and the need for instruments of repression would disappear. Much discussion was aroused among those present.
