Danger of Complications Decreasing Every Hour—Alleged Confessions—Emma Goldman Wanted.

Rev. Dr. Talmage Wishes Police Had Brained the President's Assaultant—Lord Rothschild Speaks on the Financial Situation.

(Special to the Star.)
BUFFALO, N. Y., Sept. 9.—An official bulletin at 9.20 a. m. says:—"All symptoms satisfactory and danger of complications decreasing every hour. Pulse 122. Temperature 100.5. Respiration 28. Mind clear; temper cheerful."
PRESIDENT WILL LIVE. (Special to the Star.)
BUFFALO, N. Y., Sept. 9.—Dr. Roosevelt under whose direction the operation upon the president was performed, and who has not until today expressed his opinion upon the subject of recovery, says now positively that Mr. McKinley will recover. No official bulletin since this morning has been deemed necessary, as conditions remain favorable. Secretary Wilson says it would be an impertinence to hold a cabinet meeting while the president is not at his head, and that all members are here only to be at the call of McKinley if he desires their presence. The next cabinet meeting, he said this noon, will be held when the president presiding, because the president is going to live.

(Associated Press.)
MILBURN HOUSE, Sept. 9.—Aside from the pathological conditions of the case, circumstances today were peculiarly favorable for the patient. It was an ideal September day, with bracing air, moderate temperature and a light breeze blowing from the south just sufficient to stir the flag draped over the entrance to the Milburn house. The sun shone brightly most of the time. The physicians were quick to note these external conditions, for they contributed greatly to the comfort of the patient and gave assurance against the depression of extreme heat or inclement weather. The doctors began scribbling about 8 o'clock, and it was before any of them came away from the Milburn house. Pending their conferences there was an anxious wait. Several visitors, including ex-Postmaster General Bissell and Charles H. Sawyer, Mr. Bissell was one of the first to emerge from the house, after the doctors had completed their consultation, and he said that the conditions were favorable, although he had no details. A few moments later Dr. Roosevelt and Secretary Wilson came out together. Dr. Park answered the many inquiries with a cheerful and very positive assurance of confidence. "The situation is entirely satisfactory," said he, "and there are no symptoms to cause alarm."

NEWS SUMMARY.
In all the churches of the city yesterday reference was made to the attempt on the life of President McKinley, and at both services the C. P. R. bulletins were read, giving the latest news of his condition. Throughout the United States, reference was made to the churches, and special prayers were offered; and the like was also true of churches in the British Isles, notably in St. Paul's Cathedral, Westminster Abbey and Canterbury Cathedral. Telegrams of sympathy have poured in to Buffalo from all parts of the world, and everywhere the latest bulletins were waited and watched for with intense interest. Last night's despatches stated that no attempt would be made to locate the bullet which is imbedded in the muscles of the president's back, unless inflammation sets in. In which case the x-ray would be employed, and the bullet extracted. One of Edison's x-ray machines and the most skillful and trusted operator, Dr. H. A. Knolls, are in Buffalo, and the battery is charged, ready for instant use. Yesterday's reports were on the whole hopeful, and caused great relief to the people. In some American churches very strong denunciations of anarchy marked the sermons. In the Metropolitan Methodist-Episcopal church in Washington, which President McKinley attends, Rev. Dr. Naylor declared that the crime had almost converted him into an advocate of lynch law. All the members of the cabinet, except Secretary Long, have arrived in Buffalo, and he is now en route. Mrs. McKinley continues to bear up bravely. Secretary Cortelyou announced last night that the public would be fully advised of the actual condition of the president. The people,

he said, are entitled to the facts and should have them.

TO CRUSH ANARCHY.
NEW YORK, Sept. 7.—The World tomorrow will print a statement from Governor Voorhees of New Jersey, in which he says:—"A law is being prepared, and will be enacted by the legislature, that will allow us to prosecute participants in any conspiracy which is intended to result directly or indirectly in the assassination of any ruler of the world over, or the murder of any person in or out of New Jersey. If convicted they will suffer just the same punishment as if they were convicted of aiding or abetting in any ordinary case of murder."
WATERBURY, Mass., Sept. 8.—At the Church of the Good Shepherd, Episcopal, today, a petition was circulated among the congregation and will be placed in public circulation tomorrow, asking Samuel L. Powers, representative in congress from the eleventh Massachusetts district to advocate in congress a bill to declare as treason, and to prohibit under extreme penalties, the holding of meetings by persons known or proved to be anarchists; or the teaching of the doctrine of anarchy or the circulation of its literature.
CHICAGO, Sept. 8.—There will be no more revolutionary speeches in public in Chicago if the police can prevent them. The edict has gone forth from Mayor Harrison and Superintendent of Police O'Neill that such utterances must be stopped and the latter has sent special orders to the commanding officers of the various districts to detail men to attend all meetings that are supposed to be of an anarchistic origin or the circulation of its literature.

ANARCHISTS REJOICE.
MCKEESSPORT, P. A., Sept. 8.—300 Italian anarchists celebrated the assassination of President McKinley today at Guffey Hollow, a mining hamlet across Voughogheny from Duquesne Vista. This is one of the largest anarchist groups in the country. It was started and led for years by Garold Mancuso, who now lives at Spring Valley, Ill., and edits the "Firebrand," the anarchist organ of Chicago. When Bresol assassinated King Humbert, Ciancaville declared that McKinley would be the next victim of the anarchists. He also drew up resolutions praising Bresol. Since moving away the Italians say he has still been an active spirit in the Guffey Hollow group.
CINCINNATI, Sept. 8.—The ratification of the band of anarchists, supposed to be responsible for the tragedy, at Buffalo, is believed to extend to this city. The local police authorities have received a telegram from Chief Wikkie of the Federal Secret Service, requesting the arrest of R. Laux, No. 1439 Monroe St. Beyond this statement, no information was furnished. It is thought that Emma Goldman visited here incognito not long ago.

PATERSON, N. J., Sept. 8.—As a whole, the anarchist group here express no regret at the shooting of President McKinley. On the contrary, there was a great gathering of the members in Bartholdi hall in this city, and Czolgosz, who shot the president, was toasted in beer time and time again. All of the talkative members of the group say Czolgosz is unknown to them. One of them said: "We do not know him, but he is one of us. He did what it was his duty to do, and we honor him, while personally thinking his effort might better have been across the ocean upon some crowned head."
POLES REPUDIATE CZALGASZ.

PHILADELPHIA, Sept. 8.—400 Polish-Americans gathered in Saint Levasentus Roman Catholic church today and passed resolutions deploring the shooting of President McKinley and protesting against the statements that the would-be assassin was connected with the Polish people in this country. The resolutions say:—"The would-be assassin is a Hebrew by birth, but professes to be an agnostic or an atheist. The Polish nation can boast of never having produced a man who would stain its reputation by attacking lawful authority, because imbued by Christian principles." Seventeen Polish-American societies, it is claimed, were represented at the meeting.

ALLEGED CONFESSIONS.
The assault of President McKinley is said to have come from the years ago. His parents were Russian Poles, and came to Detroit 25 years ago. He was educated there, and afterwards worked in Cleveland, where he became an active socialist. During the last five years, he became an anarchist, with friends in Chicago, Cleveland, Detroit and other western states. He says he was unfortunate and became embittered and envious, but that the craze to kill was not aroused in him until he heard Emma Goldman speak in Cleveland. He says:—"She set me on fire. When I left the lecture I had made up my mind that I would have to do something for the cause I loved. Miss Goldman's doctrine was that all rulers should be exterminated. He said that ten days ago in Chicago he read that President McKinley was to visit Buffalo, and he left for there that day. Czolgosz describes at length how he went to the fair day after day seeking an opportunity to kill the president, and how, finally, he succeeded in getting near enough to shoot. He says he meant to kill the president, and denies that he had any accomplices or is in any way connected with the Patterson group, those anarchists who sent Bresol to Italy to kill King Humbert.

The above is summarized from an alleged confession published in the Telegraph this morning. But Sunday's New York Herald publishes another, in which he is alleged to have said that he was not alone in the work, that it was in New York he heard Emma Goldman speak, and that he had since been in correspondence with her; that he was one of the great body of anarchists bound together under solemn oath to accomplish a work and to bring about the results that must surely come. "Exactly somebody is lying. Either the Telegraph's report of the confession, got from a Chicago paper, is a bogus, or that of the New York Herald is of that class. The probability is that both are the product of a lively journalistic imagination."

SEEKING EMMA GOLDMAN.
BUFFALO, N. Y., Sept. 9.—It is reported here that Emma Goldman, an anarchist leader, was here last Monday and that she occupied a house a few doors from where Czolgosz lived. She is said to have asked the New York police to arrest her. The New York police are said to be investigating the case at the request of Governor Odell.

TODAY'S REPORTS.
BUFFALO, N. Y., Sept. 9.—President McKinley has gone through the early part of the crisis in his case without material sacrifice of strength or the appearance of dangerous symptoms. There was an unsatisfactory note in the first bulletin of the morning, in reference to the restless night passed by the president. It was one of the few unfavorable things said by the official bulletins, and several disturbing rumors were put in circulation. The general state of the sufferer remained unchanged, however. A slight decline in temperature and inclination of the pulse and the respiration to return toward normality were favorable conditions, and the official statement gave an assurance that no unfavorable symptoms had shown themselves. The doctors still inclined to a very hopeful view of the case, and insisted that, at present it did not present a single unsatisfactory feature. They said that several complications might develop, but they did not anticipate that any of them would appear. The president was holding his own, so far in the crucial hours. The morning hours at the Milburn house were very quiet; few of the occupants of the house were astir early, and save for sentries, police, newspaper correspondents and telegraphers, the street was deserted. A few workmen as they passed to their daily toil passed near the house to ask how the president was. Shortly after daylight a small crowd gathered on West Ferry street half a block away. The police and military restrictions have been somewhat relaxed, but the Milburn house is still carefully guarded, and no one is permitted to approach it without a challenge and explanation.

PHYSICIANS HOPEFUL.
MILBURN RESIDENCE, Buffalo, Sept. 9 (9.30 a. m.)—Secretary Wilson, who came out of the Milburn house with Dr. Park, was very cheerful. "The president will get well," said he. "The doctors believe it. The symptoms are all favorable."
NEW YORK, Sept. 9.—Mr. McBurney, who has joined the other physicians in attendance on President McKinley, is quoted in specials from Buffalo as saying: "The president is nourished by injecting a proper amount of whiskey, hot water and raw eggs. He talks to us as we attend him and is clear-headed all the time." The doctor says that the crisis probably will be reached by Tuesday. Peritonitis will have developed, he says, by Tuesday, if it develops at all. The bullet has neither been seen nor felt since it entered the president's body. No operations have been used since Saturday, and the doctors hope there will be no necessity to use them again.

DR. TALMAGE'S STRONG WORDS.
NEW YORK, Sept. 9.—In the course of his sermon at Ocean Grove, N. J., Dr. T. Dewitt Talmage of Washington said: "I wish that policeman in Buffalo who seized the pistol of the scoundrel who shot our adored president had taken the butt of the weapon and dashed the man's brains out on the spot." The ten thousand people in the auditorium applauded the sentiment.

THE TORRYBURN CASE. In the county court this morning the Torryburn case was again taken. A new panel of jurymen had been summoned in order to obtain the necessary number to try the case. Mr. Kerr took objection to the summoning of the jury panel on the ground that section 676 of the criminal code, which states that the counsel for the crown must request the court to issue a new venire, had not been complied with. Mr. Mullin formally took the same ground. Hon. H. A. McKeown said that he had asked Judge Forbes to issue the venire. His honor concurred in the statement.

The work of obtaining a jury was very slow. F. H. Toppet, Frank Fales, W. Hendershott and S. C. Porter were challenged by the defendants' counsel for cause, as not being different in the matter. Mr. Tippet, Mr. Hendershott and Mr. Porter being found competent, were challenged on behalf of Daley, O'Neill and Connolly. J. W. Morrison was challenged for Doherty, J. W. Clayton for O'Neill, W. R. Anderson for Robertson, John Branscomb for Doherty, E. V. Wetmore for Doherty, Arthur E. Clark for O'Neill, H. Heins for Daley, G. S. Sprague for Doherty, Thomas A. Linton for O'Neill, C. B. Robertson for Connolly, J. O. Morrell for O'Neill, S. C. Cody for Connolly, J. G. Keator for Daley and A. J. Rolston for O'Neill.

The whole panel was used before a jury could be obtained. It is composed as follows:—G. H. Chamberlain, M. D. Austin, R. B. Gilmour, John Hamilton, James Daiseil, Francis Walker, Thomas W. Robinson, Richard Sullivan, H. Gallagher, James Doody, M. J. Driscoll, Josh Ward. The evidence of Dr. Berryman and Sergt. Campbell was taken this morning. LOVE AND WAR. An interesting story comes from Parroboro. It appears that Arthur Johnson, about 20 years old, enlisted in the Strathcona Horse in Algona, and after obtaining honorable discharge, enlisted in the Royal Canadian regiment at Halifax. A quarrel with a corporal concerning a girl led him to desert, and he went to Abou, Me. Hearing that officers were after him, he borrowed a horse belonging to W. O. Webb, and started for Parroboro. He left the horse when he was within two miles of the town and entered on foot. He was captured that night and is now in jail at Amherst, charged with horse stealing. Sympathizing friends have made up a purse to enable him to retain counsel.
