TRUE BILLS WERE FOUND IN BOTH CRIMINAL CASES

Circuit Court Opened Today With a Small Docket—Several Grand Jurors Were Absent—Statement of the Cases to be Heard This Term.

The Circuit Court opened this morning with His Honor Justice McLeod presiding. His Honor commented on the absence of so many of the grand jury as well as a public duty and was imperative that the gentlemen should attend.

CRIMINAL King vs. Martin Downes. King vs. D. C. Clinch. Dunroak vs. Robinson. Margaret C. Trenholm vs. Chester Trenholm.

NON-JURY CASES. Day vs. Mooney. Sayre vs. Rhodes Curry Co. Dunroak vs. Robinson. The grand jury are—Joseph H. Noble, Rupert G. Halsey, Douglas McArthur, Gordon Haveron, George M. Murphy, Charles S. Philips, George F. Barnes, William G. Dunlop, Henry Meher, Charles S. Everett, John H. Bond, Robert Reid, Geo. A. Chamberlain, John A. Davidson, John T. McGowan, Charles H. O'Brien, Joseph F. Fitz, Ernest Fitz, Fred French, S. I. Aids, Gas Hopkins, Francis Ritchie, R. R. Patchell, William H. Duke, Patrick Fitzpatrick.

THE grand jury returned after two o'clock and reported having found true bills in both criminal cases. The case against Mr. Clinch is for misappropriation of funds. The complainant is Capt. Charles Morrisey of Liverpool. He claims that some time ago he sent nine thousand dollars to Mr. Clinch to be invested in the United States. Mr. Clinch, however, has been brought before the grand jury, and a true bill was today found against him. Mr. Clinch is charged with having received the money from Mr. Morrisey, and having used it for his own purposes. The case against Mr. Clinch is for misappropriation of funds. The complainant is Capt. Charles Morrisey of Liverpool. He claims that some time ago he sent nine thousand dollars to Mr. Clinch to be invested in the United States. OTTAWA, Sept. 1.—Henry Roy, of Ottawa, died yesterday. He was a well known railway man, and had been in the service of the Canadian Pacific Railway for many years. He was a member of the National Transcontinental here.

SHOT HER HUSBAND BECAUSE HE WAS MEAN

JONESBORO, Ark., Sept. 1.—Mrs. Arch Pickett yesterday shot and killed her husband, a well known resident of Jonesboro because she alleges he was "mean to her and abused her." Mrs. Pickett escaped with her stepfather, a prominent farmer. Both were arrested later. Mrs. Pickett confessed.

PROBATE COURT

Estate of Catherine E. Allan, late of Charlottetown, St. John, widow. Last will proved, whereby deceased gives her estate to her children, Walter H., since deceased, and W. C. Rudman Allan, and to her daughters, Annie Adams and Emma Caldwell. Advances and payments made to be charged against them so that each child shall share alike. In case any child predeceases her leaving issue, the share to go to the issue. W. C. Rudman Allan sworn in as executor. No real estate. Personal property \$244, besides some other property not at present capable of valuation. W. Watson Allan, K. C., proctor.

BONFIRE THREATENS TO RESULT IN SUIT

Yachting Party Asked to Pay for Driftwood They Were Having a Jolly Time at Brow's Flats When St. John Merchant Interfered and Demanded Money.

As the result of building a little bonfire on the beach near Brow's Flats, a yachting party have been served with letters from a law's office calling for a settlement. The party of ladies and gentlemen have been cruising along the river for about a week, and it was the custom each evening to go on shore and all around a bonfire which was made from drift wood picked up on the beach. On the night in question the yacht was lying at anchor near Brow's Flats and some hundred yards farther along the beach was a party enjoying a bonfire. So the young men of the yachting party picked up some wood and started a fire. They were in the midst of a jolly time when a Dock street merchant who owns the land, and who, it is said, had been enjoying furs along the beach called on the yachtsmen and ordered them away. He said the wood they picked up on the beach belonged to him and he asked that he be paid the sum of two dollars for what they had burned.

CARRIE NATION CALLED DOWN BY DETROIT AUTHORITIES

Open a Tirade on Police Commissioner, and Was Forcibly Ejected From Office—Is Not Appreciated.

DETROIT, Aug. 31.—"If you are not slanders, you're the biggest villain in Detroit," screeched Carrie Nation at Police Commissioner Smith this morning. With her Mrs. Annie L. Andrus, president of the local W. C. T. U., and Mrs. Ella Bailey, temperance singer, "How did you get your job?" is the way she opened up on the commissioner. "I was appointed by the mayor as the city charter provides," courteously replied the commissioner. "You are responsible for the saloons, then," snapped Carrie. "I hear you allow them to open on Sundays."

NO EASIER MARK THAN DR. MACRAE

Conservatives Sore Over Convention Result. Dr. Daniel in the Blues, But the Candidate is Cheerful—It's Done and it Can't be Helped.

Street comment today is to the effect that last evening's Conservative convention was the most satisfactory Liberal campaign meeting held for some time. It is felt that Dr. Daniel's appointment is justifiable and there is general sorrow. Many have expressed the belief that Dr. Macrae obtained the party but by his own energetic canvassing and the result is that hundreds of staunch Conservatives are, to put it bluntly, annoyed at the idea that one man could pull a whole convention. But what are they going to do about it? The question now bothering the party leaders. And they admit that nothing is possible. Dr. Macrae has been nominated, and will have to stay nominated but too bad, too bad, when there were stronger men available.

EMPLOYERS FOIL NEW ARMY SCHEME IN GREAT BRITAIN

Will Not Give Employees Sufficient Leave to Acquire Drill. LONDON, Aug. 31.—While all the Press praise the scheme made by the new Territorial Army, which has been announced by the Government, critics of military affairs deplore the fact that it is practically unworkable through the parsimony and unpatriotism of the civil employers of the soldier—speaking selfishness, some papers call it. And it is definitely stated in the military circles, where officers, both active and retired, congregate that unless the Government finds a way to circumvent this state of affairs, it will wreck the territorial army and with it the volunteer system.

BRITISH STEAMER AEON IS LONG OVERDUE

Left San Francisco for Sydney on July 6th and Has Not Since Been Reported.

SAN FRANCISCO, Sept. 1.—Grave fears are entertained for the safety of the British steamer Aeon which cleared from this port for Sydney via Apia and Auckland July 6, and has not arrived there. The steamer Lord Selkirk of the same line, arrived at Auckland on Sunday and reports no sign of the Aeon. Reinsurance on the vessel is quoted at 50 per cent, but it is believed in shipping circles that the ship has not been lost but has sustained injuries that has detained her.

SHOT BY CARELESSLY HANDLING A GUN

LOCHAVEN, Pa., Sept. 1.—Mrs. Charles Chubb, 24 years old, wife of an employee on the farm of George W. Good, near here, dropped a loaded shotgun butt downward through a stovepipe hole in the ceiling of a room to her husband yesterday when the latter striking a production exploded the gun, instantly killing Mrs. Chubb. Employees of the farm say when Chubb saw a chicken hawk fly past the dining room window, he told his wife to get a shot gun that he kept in his room. She feared the hawk would escape, and to save time dropped the gun through the pipe hole.

CROWN PRINCE OF GERMANY IN AN AUTO ACCIDENT

BERLIN, Sept. 1.—Particulars of an automobile accident to Crown Prince Friedrich Wilhelm and the Crown Princess during their recent visit to Metz have just leaked out, because a hay cart forced the Prince's motor into a ditch where it turned over. The occupants of the car suffered no injury but were unable to get from under the machine until peasants came to their assistance. The Crown Prince handed over a sum of money for the benefit of the poor of that section.

GERMANY IS STEALING A MARCH ON EUROPE

LONDON, Sept. 1.—A despatch from Tangier to the Times complains that Germany is stealing a march on the other powers by secretly sending her consuls to Fez, evidently the correspondent thing with the intention of being considered by Mulai Hafid as the first power to recognize him, and to have a confidential advisor at the new Sultan's side.

NEW WHITE STAR LINERS TO BE GREATEST SHIPS AFLOAT

Considerably Longer, Though Not Faster, Than the Giant Cunarders—How Such Immense Steamers are Built.

LONDON, Sept. 1.—The Times says that the new White Star line steamships just laid down on the Thames, will be bigger, but not speedier than the Lusitania. LONDON, Aug. 31.—The Daily Mail publishes the following: The Olympic will probably be the name of the new White Star liner to be on the Thames. As already stated in the Daily Mail, the vessel is likely to be 80 feet long, as against the 70 feet of the Lusitania and Mauretania. How will this mammoth undertaking, far exceeding as it does, in multiplicity of detail the building of the greatest of New York's gigantic skyscrapers, be carried out?

NEW YORK, Aug. 31.—A despatch to The Herald from Geddes, N. D., says: "Tell papa I've got the nerve, too," said the ten-year-old daughter of Mr. and Mrs. John Stots as she leaned over the muzzle of a shotgun and released the charge with a stick. Following the report the wounded child ran out of the house and with a pitiful little flutter fell dead in the dust of the road. "I didn't think he had the nerve to do a thing like that," was the remark of John Stots, when a neighbor blew off the top of his head a few weeks before. The daughter had taken the remark as a badge of bravery. Yesterday the casual opinion came back with cruel and crushing realization. The farmer may lose his mind. Firearms on the morning of the tragedy had twice been taken from the girl. Her insatiable curiosity how to hold a gun were ignored as childish pranks. At length the bird man, taking the gun from her, playfully showed her how to shoot as he leveled the gun and said: "Bang!" Unobserved, with a younger sister and the baby, she slipped into a bedroom and found another gun behind the closet door. Loading with calm deliberation, she cocked the gun with considerable difficulty, and with a smile and the childish words she committed the act by which, as she thought, she was to gain favor in her father's eyes.

THE GREAT OIL WELL FIRE HAS BEEN EXTINGUISHED

Estimated That Three Million Dollars Worth of Damage Has Been Done.

CITY OF MEXICO, Sept. 1.—Word reached the firm of S. Pearson and Sons last night that the great oil well fire, which has raged at Desbocas, near Tampico, for two months, was extinguished last Sunday. Six giant centrifugal pumps poured gravel and mud into the mouth of the boring well for ten days and this coupled with persistent dynamite blasting choked the orifice and smothered the flames. The oil has again worked its way to the surface and the well is flowing at the rate of 2,000 barrels a day. Owing to the remoteness of the well, the oil is being banded in a great reservoir. It is estimated that 3,000,000 barrels valued here at \$3,000,000 were consumed by fire.

On Thursday evening, September 2nd, 1908, at the Hall, Woodfield, the prize won in the sailing and motor boat races and illuminated parade will be presented to the winners, all of whom are asked to be present, or represented. After the presentation an informal dance will be held and refreshments served by the ladies of the association. All members of the association and their friends are invited to attend.

In the police court yesterday afternoon Charles W. Stoddard, a water-works foreman, was charged with trespassing on the I. C. R. property. Recorder Skinner was in the chair. Interests of the defendant and claimed that as the defendant was at work trying to locate a leak in the water pipe he had a right to whatever there was a leak. The magistrate was of a different opinion, however. The case was adjourned until tomorrow. It appears that the I. C. R. authorities were not notified of any repairs being made, and had such notification being made the work could have been proceeded with without any report being made.

It is altogether likely that St. John's sports will witness another sparkling match during the exhibition week at Victoria Park. John T. Power is endeavoring to arrange affairs so that McLeod and Stoddard will meet in a six round encounter. Rogers and Ramsey will likely come together in the same number of rounds as one previous. Mr. Power is successful in securing the necessary permit, will again referee and this alone assures a clean exhibition. Mr. Power is of the opinion that six rounds will be the test of a man's ability. Littlejohn may go to Halifax in the near future to meet Polty.

THE HEANS INQUEST.
Last night the enquiry was resumed into the death of Murray Heans, the boy who died from injuries received while watching a wrecking crew attempt to replace a derailed engine on the track at Mill street, crossing on Aug. 11th. Fred Heans, L. R. Ross, Cyrus McFarlane, D. Tremblay, Walter K. Bigger, J. H. Bradley and Dr. W. Warwick gave evidence. It was the general opinion that the accident was caused by too much strain being put on a bolt used as a coupling pin. The boy died as a result of a fractured skull and a laceration of the brain. The enquiry was adjourned until next Tuesday at 7.30 o'clock.

SHEEP MUTILATED BY SARDINIANS

Wanton Acts by Organized Groups of Marauders.

The Island Still Holds the Italian Record for Brutality, Crime and Outrage.

ROME, Aug. 31.—Under the title of "Savage Sardinia," *Il Messaggero*, the principal Roman morning newspaper, directed attention to the astonishing prevalence of lawless crimes in that island by organized groups of marauders and avengers, who often times turn out to consist of some of the most prominent and highly respected farmers in the province.

Two nights ago eight masked individuals, armed with guns and daggers, invaded a farm belonging to a benevolent proprietor named Calvisi, on the mountain side near Sassari. There they carried out a series of heinous crimes, beat him senseless, robbed him of the small cash he had on his person, and left him bound hand and foot, and gagged.

They then drove 500 sheep delivered to his custody a distance of a couple of miles to a lonely valley, where they ripped open 300 of these animals, and thrust their daggers into every one of the rest.

Sardinia continues, as from time immemorial, to hold the record in all Italy for brutality, homicides, cattle-wounding, incendiary fires and allied forms of damage to property. The criminal convictions for the latter crime are 4.32 in every 100,000 of the population.

In the single commune of Bitti, wherein the above vendetta has just taken place, no fewer than 1,600 sheep and 400 bullocks have been maliciously hamstringed since the beginning of this year.

This extraordinary state of things is attributed largely to the notable deficiency of police and a rooted unbelief in the official administration of justice.

A TIP FOR FAT WOMEN.
In a few years that excess fat of years will become a bad habit—impossible to break. Better take time by the forelock and reduce now in a natural way if you would keep intact the youthful symmetry of 20 through the trying years of middle age. Go to the druggist and ask him for 4 ounces Marmola, 1/2 ounce Fluid Extract Cascara, Aromatic, and 4 ounces Syrup Simplex. Take a teaspoonful after meals and at bedtime. Mix them at home if you wish, but see that the Marmola comes to you in a sealed package.

This mixture makes firm fleshed, well-formed women out of flabby, shapeless ones. It animates their stomachs to burn up the food fats instead of allowing them to gather at the waist line. Without disturbing the diet or requiring exercise to help it out it dissolves the fat away just where needed the most. It has been known to melt away harmlessly as much as 15 ounces a day without causing a single wrinkle.

DR. A. W. MACRAE BEATS W. F. HATHWAY BY TWO VOTES IN RACE FOR THE NOMINATION

Dr. A. W. Macrae is the nominee of the Conservative party to contest the constituency of the City and County of St. John in the next general election.

Dr. J. W. Daniel, M. P., will be the Conservative candidate in St. John City. This was decided at the convention held in Keith's Assembly Rooms. Dr. Daniel's nomination was expected and was unopposed, that of Dr. Macrae was certainly unexpected by a section of the convention, which supported W. F. Hathway, M. P., whom Dr. Macrae defeated by only two votes, the result of the balloting being 94-92.

The opponent to Dr. Macrae's candidature was exhibited in the form of hissing when he began to address the delegates, although this gentleman did not interrupt the speaker, Hon. Robert Maxwell, M. P., who was considered a possibility, was not mentioned.

The trouble over the choice of a candidate for the city and county was undoubtedly increased by the fact that Dr. McInerney, M. P., placed the name of H. A. Powell, K. C., before the convention, although this gentleman declined to become a candidate for the nomination. On the first vote of the convention being taken 194 ballots were cast. Of these 84 were for Hathway, 83 for Macrae and 27 for Powell. J. B. M. Baxter called attention to the fact that none of the candidates had secured the support of a majority of the convention. A second vote was taken, the chairman, Hon. Robert Maxwell, M. P., explaining that Mr. Powell's name was not before the convention. The result of the second vote was Macrae, 94; Hathway, 92; the total number of ballots being 186, eight less than at the previous vote.

WERE HATHWAY MEN.
Mr. Hathway's friends claim that the delegates who left the convention after the first vote were Hathway men. Five of the number are said to have been from the West Side. The supporters of Mr. Hathway claim that the entire convention had been taken their candidate would have been nominated.

After Dr. Macrae had been declared the candidate of the convention he addressed the gathering, thanking the delegates for their nomination, criticizing Edward Hannenberg, Frank Corr, Currie, Roy Baskin, D. A. Duffy, Carleton, Stanley Taylor, Stanley Sealey, P. L. Gleason, Algonquin, B. McLaughlin, Tom Barry, St. Peter's, James Speight, president of the league, was in the chair.

Frank Corr stated that Currie's University would put a team in the league. Although it was not decided when the league will be opened, the first games will be played between the Victorias and Miomas and Currie's and Carleton. The other games will take place on the following Saturdays and will be as follows: Currie and Miomas, Carleton and Victorias, Currie's and Victorias, Currie and Carleton, Miomas and Victorias, Carleton and Victorias, Currie and Miomas, Carleton and Victorias, Currie and Miomas, Carleton and Victorias.

One of the arguments used against equal rights for women is that the papers published exclusively for women show them to be unfit for the ballot.

DR. FOWLER'S EXTRACT OF WILD STRAWBERRY
Is a perfect specific for all bowel complaints. It has been in use in thousands of families for the past sixty-three years and we have yet to hear a complaint of it not giving perfect satisfaction.

Do not let an unscrupulous druggist talk you into buying a cheap substitute. Insist on getting Dr. Fowler's. Price 35 cents. Manufactured by The T. Milburn Co., Limited, Toronto, Ont.

Mr. C. W. Brown, Grand Harbinger, N.B. writes: "I consider Dr. Fowler's Extract of Wild Strawberry to be the best remedy for Summer Complaint, as it cured me of a very bad case. I can recommend it highly to any one."

TOLEDO CROWDED WITH GRAND ARMY MEN

City a Blaze of Light and a Riot of Color to Great Veterans.

TOLEDO, Ohio, Aug. 31—A swelling, crushed and irritated person who had struggled through the horrors of encampment visitors tonight estimated the strangers within the city gates at a round billion. This was an exaggeration, however, for Adjutant-General Scott, of Illinois, who is a judge of crowds, declared that there was not more than half that number seemingly. Inquiry at the various headquarters of new-comers report for assignment to quarters, indicated the presence of a sufficient number of out-of-town people to swell Toledo's 200,000 to 300,000.

What with the marvelous illumination of the downtown streets, the "Venetian night" on the river and the public reception by the local committee and commanders-in-chief Burton and numerous attractions marking the formal opening of the forty-seventh encampment of the Grand Army of the Republic, the downtown streets were well lighted. Street cars, with their windows full of protruding shoulders of neat-updressed, moved at small pace within a few feet of each other, and the sidewalks were hampered for the streets were alive with them.

But the sight was worth the battle for foot-room. Riot of color is a cold and full phrase when asked to serve as descriptive of the illuminations and decorations. Sunday it seemed that the use of electricity and bunting could go no further, but Toledo citizens were merely experimenting. Tonight, with the formal opening of the reunion, all these matters of automobils, color, capes and uniforms were turned loose, and as Captain J. B. Meekin, who came all the way from Mexico City and is in a post by himself said: "It was worth the money."

Anty Drudge Advises the Fireman.

Fireman—"Morning, Anty Drudge! You had better go over to Mrs. Slims; she's terribly burned."
Anty Drudge—"How did it happen?"
Fireman—"Over-heated stove. Trying to get the fire hot enough to boil her clothes. My wife was badly burned last week doing the same thing."
Anty Drudge—"Yes, I'll go right over. But look here, young man! Get your wife Fels-Naptha. Then she won't have to boil the clothes. Just use lukewarm or cool water; let the clothes soak for half an hour; that's all there is to it."

Friendship begins with acquaintance. All Fels-Naptha wants is an introduction and it will become your boon companion in laundry and kitchen.

We are advertising to get Fels-Naptha that introduction into new homes. Then we depend on the soap itself to keep it there.

If Fels-Naptha wouldn't do what we claim; if it wouldn't wash clothes quicker and better in cool or lukewarm water without hard labor or boiling; if it wouldn't save time, work, fuel and health—would ever a million women use it every washday?

Not much. But Fels-Naptha will do these things and more; has done them and is doing them for more and more progressive women every year. Follow the easy directions on the back of the red and green wrapper.

SCIENTISTS SAY THAT THE BODY IS IMMORTAL

"The last enemy that shall be destroyed is death," says the Scriptures, yet if some man attempted seriously to re-assert this ancient truth today we would look upon him as a mad prophet indeed. Yet the time will come when men will be able to see this promise of the Bible, although they may never be able to see it literally fulfilled.

Death some day will be acknowledged to be as unnatural in the economy of the creative plan as are sin and suffering. But whether or not in some millennium period mortal man will be able to forego the gross process of decay is a purely metaphysical question that does not enter here. What does interest us in the question, occupying the greatest scientific minds today, whether the body as such can be retained in perfect condition indefinitely.

ENTIRELY NEW BODIES. William A. Hammond, one of the great authorities in medical science and formerly Surgeon-General in the United States Army, answers it by saying: "There is no physiological reason why man should die."

Thomas J. Allen, M. A., LL. D., writing in a similar strain, says: "The human body is not like a machine which must wear out by constant disintegration, for it is self-renewing. It is a simple scientific fact that we get an entirely new body every few years, estimated at from three to seven. Every day is a process for the process of waste and renewal never ceases. Perfect balance between elimination and renewal would avoid permanent waste."

There is no doubt that when we become more enlightened and understand perfectly the laws that govern and determine our physical lives, and when we conform ourselves to those religiously, life will be immeasurably prolonged.

DECAY IS UNNATURAL. The decay of the body, as evidenced in old age, is unnatural. The aesthetic within us recoils in mere contemplation of its approach. We feel that there must be something self-perpetrative in the change when the strong color in a healthy man and the fresh beauty in a pure woman take their departure, when the bloom of the cheeks fades, when the brilliant light within the eyes grows dim and the full, red lips become pale and fallen.

Medical science has pointed out the physiological cause of these conditions. Probably the time will come when it will be able to point out the manner of avoiding them. We know that the body grows old because of the existence of an imperfect balance between the waste which the body accumulates and the amount it is able to throw off. During youth the balance is perfect, because the body has more than its normal vitality and strength to throw off the waste matter. But as we grow older this perfect balance becomes destroyed from one cause or another.

EFFECT OF THE MIND. The strength that should go to eliminating impurities from the body is misused but rather squandered in different ways. Then, too, we eat and drink those things that cause excessive waste. An impure diet composed of foods containing uric acid, such as meat, or of drinks containing poisons, such as tea and coffee, takes away the normal vitality and strength to throw off the waste matter. But as we grow older this perfect balance becomes destroyed from one cause or another.

THE BASIS OF BORNED. Kina Bala, the highest mountain in Borneo, rises nearly 14,000 feet above the sea level. Among the tribes to be found on the mountain are a very strange race of people called the Bujes. They trade in camphor wax, gutta-percha and India-rubber. The great source of their wealth is, however, the edible birds' nests beloved by Chinese gourmets. One of the most peculiar of the customs is the christening of a child. A feather is inserted in the baby's nostril to tickle it; if it sneezes it is a good sign, but if not the ceremony is put off until another day. One of their most inhuman customs is that when their women are dying they are taken to the woods, and left in a hastily built hut, where only the meanness of their slaves may wait on them.

SERVIA'S KING IS ACCUSED OF PLOT TO SLAY DYNASTY

One of the Conspirators Confesses That Peter Organized Scheme to Ouil-erate Royal Family.

BUDAPEST, Aug. 31.—An amazing book, the confessions of a conspirator, was published here last night. It contains details of a widespread southern Slav conspiracy for the assassination of King Peter of Serbia and the most direct accusation against King Peter of being the organizer of the bomb plot for the extinction of the Montenegro dynasty.

The volume is entitled "Finales" and the author is George Nasitch, the young revolutionary, whose revelations at the trial in Cetinje of those concerned in the plot against Prince Nicholas brought the proceedings to a close, and caused sentence to be passed on most of the fifty odd prisoners. Nasitch declares himself appalled by the conspirators' aims, and says he must free his conscience, even at the cost of his life. He declares that the aim of the conspiracy is to incorporate Montenegro and the Slav provinces of Austria-Hungary under the Serbian power. Slav officers and men in the Austrian army have been won over and the work is steadily proceeding, directed Nasitch declares by King Peter and his son, and the dignitaries of the Serbian court.

He gives a list of the heads of the Revolutionary organization and the draft of its statutes. The names include those of the President of the Serbian parliament, of Captain Nenadovic, a near relative and intimate friend of King Peter, and of a score of well known men in Serbia—merchants, army officers and civil servants. Among them is the director of the Serbian State ammunition factory at Kragjevat, who made the bombs destined to kill the Prince of Montenegro.

The Serbian Crown Prince, according to Nasitch, supervised the manufacture of the bombs and gave \$1,000 toward the cost. The author gives to the conspirators by the Serbian Foreign Office is not denied. All their expenses were defrayed from State funds.

And the inspirer of the whole movement? "It will not name that adventurer," says Nasitch, "who imposed upon Captain Nenadovic, Lieutenant Srb, and the other dark-intentioned South Slav conspirators of Belgrade the task of hurling bombs at the first and greatest Southern Slav of the present day, his royal Highness Prince Nicholas of Montenegro. My readers will guess who this abandoned wretch it, and the whole world will be amazed that it is the same criminal who assassinated King Alexander and Queen Draga, thereby branding the forehead of the Serbian nation forever with the brand of shame!"

In consequence of Nasitch's disclosures, the brothers Valerian and Milan Pribitchewitch, a professor and an army lieutenant respectively, have been arrested on a charge of high treason. Adam Pribitchewitch, a Croatian deputy of the Hungarian Parliament has attempted suicide in prison by opening an artery in his left arm.

So far there have been twenty-two arrests in Croatia, and more are expected. M. Budisavljevitch, another member of the Hungarian Parliament is reported to have escaped to Roumania.

Nasitch arrived in Vienna yesterday to confer with his friends. His movements were watched by the police who finally took him back under escort to Agrin, in Croatia. "Compromising correspondence implicating the Belgrade court has been seized."

PLAN MANY REFORMS FOR BANKING SYSTEM

CLEVELAND, Ohio, Aug. 31.—Congressman Theodore E. Burton, who has attended the session of the sub-committee of the National Monetary Commission, of which he is a member, said today that the work of the commission is sure to assume very great importance. It is the disposition of the members, Mr. Burton said, to take no step hastily, to ignore as far as possible partisan considerations, and seek to secure needed reforms in the national banks and in the issuance of bank notes.

Another sub-committee has been considering proposed reforms in the administrative management of banks, especially in their relation to the treasury department. Among the proposals under consideration, is one to change the present law so that bank examiners should be paid regular salaries, instead of fees payable by the banks, as at present.

SPANISH WAR VETERANS GATHER IN BOSTON

BOSTON, Mass., Aug. 31.—Over three thousand veterans of the Spanish war were gathered in this city tonight for the formal opening tomorrow of the fifth annual encampment of the United Spanish War Veterans. By boat and train the young veterans poured into the city during the day until by night nearly every state in the union was represented. The Philippines were represented by a delegation that arrived by train from New York.

The chief event preliminary to the opening of the encampment tomorrow was the banquet tendered by the state branch tonight to Walter S. Hale, of this city, the commander-in-chief. Willard—Papa, may I go swimming? Papa—Why, Willard, only an hour ago you complained of a pain in your stomach. Willard—That's all right, papa, I can swim on my back.

THE NEW CANDIDATES.

In nominating Dr. A. W. Macrae last evening as their standard bearer for the City and County the Conservative party made a gift of the two St. John seals to the Liberals. One of these seals in any case has remained with the government, for the candidate who opposes Dr. Fugleby merely offers himself as a sacrifice to party prestige. But until last evening there was a chance that Dr. Daniel might be able to put nomination of Dr. Macrae, however, makes this impossible. The convention, or one-half of it at least, had forced on it by a very slight majority an undesirable candidate who will not secure anything like united support, who cannot count on even the smallest measure of success and who will, undoubtedly drag Dr. Daniel along with him to defeat. The new candidate is supported by a large number of personal friends, men who have a fitting appreciation of his worth and his capabilities, but he will not give the cold shoulder by all those who supported Mr. Hatway as well as by the Baxter party which is of no inconsiderable strength. He will in addition fail to hold the Burden Club, the young men, who have already pledged themselves in favor of either Messrs. Hatway or Baxter. These voters never for one moment anticipated the nomination of Dr. Macrae, nor in fact did the self-chosen leaders of the party who have been endeavoring to direct the work according to their own ideas. There has been a feeling that if Dr. Macrae did not receive the nomination he would cause trouble, and fear of this impending evil—though there has been no very good ground for such a belief—has embittered a large number against the chosen candidate. Dr. Daniel, with a running mate accepted by the whole party, might have put up a good fight. He will now be dragged to sure defeat by the weakness of his colleague.

Charlotte County Liberals could have chosen no better man than Mr. William F. Todd to carry the party banner in opposition to Mr. Ganong. Mr. Todd is popular everywhere, but more than this he is splendidly qualified through his life training and by previous political experience, for the position which he now holds to attain. He led the successful ticket in Charlotte in 1899 and served for a term in the provincial legislature, retiring in 1902. Mr. Ganong, the sitting member, has had some experience, but he has not the same confidence in the eyes of his constituents as Mr. Todd has. Mr. Todd's nomination was heartily unanimous, and his campaign with all chances in his favor.

THE COST OF LIVING.

We are all fond of talking these days about the high cost of living, and a popular topic of conversation is the steady increase in prices of groceries and provisions. As a matter of fact we scarcely realize what high prices are. Take sugar, for example, which has been used for the last thousand years. We are now paying at retail something like five cents a pound. The manufacturer receives about three and a half cents. Fifty years ago there was a slump in sugar when it went down to about three cents a pound retail, and for two hundred years before that it hung around double what it costs us today. But in the year 1800, for instance, sugar was worth almost \$200 per pound to the people. In 1400 it had come down considerably and retailed at 20 cents less. In 1500 it was only 7 cents a pound. This was in England. But over in France, where sugar did not command such a ready sale, prices were even steeper. In 1572 the manufacturer's price to Paris dealers was \$1.11 per pound. Sugar was a luxury in those days as automobiles are now, and the cost of living in the 20th century is not due, so much to the very high prices on any particular commodities, but rather to the number of articles formerly regarded as luxuries which are now looked upon as every day necessities.

A prominent United States surgeon has discovered that the human body is immortal. "There is no physiological reason why men should die," says Dr. T. J. Allen. Perhaps not, but men have been in the way of doing it for the past six or eight thousand years, and it is hard to break a habit which has become fixed through such a long time.

The Conservatives last evening passed a resolution in favor of a cloture. There should be no choice tom-toms on the bill of fare.

ASK OF THE ROSE.

Ask of the rose, and mayhap she will tell thee, Whence are her secrets of fragrance and bloom; Ask if the rose hath not power to spell these Charms to insure against sorrow and gloom. Old as the flowers that Nineveh cherished, News of the bud that at dawn may unfold, Kingdoms have tottered and dynasties perished, Life ever lives in the heart of the rose.

Ask of the rose, if mayhap she remember Aught of the mysteries Solomon knew; Ask what is sweetest from June to December, Ask why life's honey is tempered with rue. Surely the rose has the lore of the ages, Smiling alike for the bride and the bier; Waiting its perfume on myriads of pages, Thrilling at once to the smile and the tear.

Ask of the rose if she sighs when she leaves us, Ask if she longs for the Summer's return, Ask if it hurts when with briars she grieves us, Or, if, when withered, she droops in an urn. Ask, though the rose shall but laugh in thy face, dear, She is of Summer, of morn and of June, Born to shed light for a while in her place, here. Born to be lovely, yet fade away soon.

Pluck the sweet rose when the dew-drops are shining, Give it to some one who calls thee a rose. Linger with him when the day is declining, Stroll where the brook with its lullaby flows. Ask of the rose, and mayhap she will tell thee, What is her secret of youth and delight; Ask of the rose, if perchance she will spell the Charms she has heard from the winds in their flight. —Margaret E. Sangster, in Everywhere.

Mamma—Marcus, why don't you fish saying that wood? Little Marcus—I just couldn't, mamma; the poor saw had the toothache.

THE CROPS ARE FAIR IN ONTARIO.

Provincial Government's Report Indicates Yield Will be Up to the Average.

TORONTO, Aug. 31.—The following is a summary of the statement as to the condition of crops in this province, issued by the Department of Agriculture, based on returns from correspondents. Fall wheat has yielded well, but owing to wet, warm weather when harvesting much sprouting occurred, where grain was reported to be so good generally as the fall variety, being short in straw, thin and uneven in quality and yield. Barley in Western Ontario has been good in yield, but in Eastern Ontario light and uneven, Oats, except in St. Lawrence and Ottawa counties, and northern district, will be fully up to the average in yield and generally plumper than last year. Some of the largest yields of oats ever reported to the department have been received this year from Bruce county. Rye varies from ten to twenty bushels per acre and good in quality. Peas promise an average crop. Beans are expected to show an average yield. Hay and clover both as to yield and quality, the province show well in bulk and quality but in the eastern are somewhat below average. Corn is reported to be fair, but ever yielder. Should frost hold back till cutting, it will be the best crop for many years. Flax is classed as good in quality, but the acreage is less than in former years. Tobacco promises at best only a medium quality. Potatoes promise much, but the acreage is less than in former years. In some districts abundantly. Plums have given a fair yield, but both these kinds have suffered from pests. Cherries yielded well. Grapes, promise an immense yield. Small fruits generally were a good average crop. As to labor and wages, there has been a sufficient of ordinary farm help, but first class agricultural hands are scarce as ever. Harvest wages range from \$1 to \$2 a day, with board, \$1.25 and \$1.50 being most frequently given. Monthly rates varied from \$15 to \$25, with board, according to experience.

During the past week three fatal burning accidents occurred in Halifax, the victims being Dollie Hill, aged three years, Annie Skerry, fifteen years, and Stephen White, aged ninety-two years. The latter two passed away on Saturday after suffering terribly from their injuries, which were received through lamps exploding. Miss Skerry only came here a short time ago, on a visit to her uncle, J. J. Skerry, on Pleasant street. The body was sent to Boston for interment by the Plant Line Halifax on Saturday night. Stephen White was a well known citizen, he having been in the Customs Department at Halifax for many years. He leaves one son who resides at Woodside, and a daughter, Mrs. Thos. Cochran, 50 West Young street, from whose residence the funeral will take place.

BODY REVEALED BY AN EXPLOSION.

Man Turned on Gas and Hid Himself in Trunk.

At Sight of the Remains Children Collapse and Wife Loses Her Reason.

PARIS, Aug. 31.—A woman lost her reason last night after finding the dead body of her husband in a trunk, the lid of which was blown off by a gas explosion. M. WILLIAM F. TODD THE CHARLOTTE CO. CANDIDATE

Unanimously Nominated at an Enthusiastic Convention Held Yesterday.

There was a large gathering of Charlotte County Liberals at the convention held in St. Stephen, yesterday afternoon. The gathering was addressed by Hon. Wm. Pugsley, who said he felt sure that the candidate of the convention would receive the hearty support of the party and be elected. He spoke of the present and enlightened legislation enacted by the present government. He also spoke for some length on the strength of Sir Wilfrid Laurier as a leader. He briefly contrasted the conditions in Canada in 1886 under the old government and those now found under the present government. He told of the appropriations already secured for public works in Charlotte county and outlined larger plans for the future.

At the conclusion of the address the organization of the Charlotte County Liberal Association was proceeded with Frank Todd was chosen president; J. G. Gaskill, of Grand Manan; E. E. Armstrong, St. Andrews; Mayor Lawrence, of St. George, vice-presidents; and F. B. Hill, secretary-treasurer.

The nomination of Wm. F. Todd, as candidate was received with hearty cheers and Mr. Todd spoke briefly in accepting the nomination.

In the evening Dr. Pugsley, Hon. Geo. F. Hill, Geo. M. Byron, N. Marks Mills and R. E. Armstrong gave addresses.

After the meeting a banquet was held in the Windsor Hotel.

WOULD BE A FEARFUL BLOW TO CONGRESS

Prohibition Candidate Would Close all the Gambling and Other Bans in Washington.

SPOKANE, Wash., Aug. 31.—Eugene Chaffin, prohibition candidate for the Presidency, in a speech delivered here tonight, said that one of the first things he would do after inauguration, should he be elected, would be to "clean up" the District of Columbia.

"They are few worse cities in the world than Washington," he said. "There are few with a 'vice' problem as bad as this. It is the 'vice' problem of the nation. The last one of the different species of dens will have to close even the one patronized almost exclusively by members of Congress. All are in violation of the law and the president has ample power to act."

FIRE DOES \$60,000 DAMAGE

MONTREAL, Aug. 31.—A fire which broke out at 6 o'clock, just as the employees were leaving the building, did \$60,000 damage to the big produce storage warehouse of Gunn Langlois and Co., which at the time contained over half a million dollars' worth of butter, cheese and eggs.

Good work by the firemen, assisted by the employees of the company, kept the blaze confined to the compartment in which it started, though for a time there was danger of the fire reaching the ammonia tank in connection with the freezing plant.

The loss is fully covered by insurance.

WHAT THE INDOMITABLE DOES IN WARFARE

(By W. T. Stead.)

In the following article by Mr. W. T. Stead, editor of the Review of Reviews, the famous journalist gives a strikingly vivid picture of the revolution in naval warfare conditions illustrated by the voyage of the "Indomitable" from Wales home from Canada. She sped across the Atlantic from Quebec to Coves in 5 days, 18 hours 40 minutes, the distance covered being 2,880 miles. Though weighted with heavy guns and armor she raced along at an average speed from land to land of 23.13 knots. What this wonderful combination of strength and swiftness could do in the day of battle is set forth by Mr. Stead.

When Waite crossed the Atlantic to Canada for his mission in 1888 he took three months to make the voyage from Portsmouth to Halifax. When the "Indomitable" returned from her mission, she was in the harbor of Coves in five days. The actual run from land to land was made in five hours less than three days—so great has been the shrinkage of the world since the days of the "Indomitable" that the Admiral in command could obtain an answer from London to his most urgent dispatches. When the "Indomitable" crossed the Atlantic message from the Prince of Wales to his mother were transmitted by her in four hours from the New World to the Old nor was there a delay of a minute even when the ship was in mid-ocean. For the shrinkage of the world under the spell of electricity has been even greater than the contraction under the influence of steam.

The record run of the "Indomitable" has attracted the attention of the long story of the triumphs of man over the elements of the trip of the "ship of mystery" will always hold a prominent place in the annals of the world. The Arabians pale before the hurrying of that ponderous mass of complicated machinery weighing 17,000 tons at the rate of nearly 30 miles an hour across 1,200 miles of ocean in sixty-seven hours. The marvels of the lamp have been outdone by the swarthy gnomes of the stevedores. It must not be forgotten that the "Indomitable" has been made a voyage in peace was yet fully equipped for war. If the need had arisen she could have fought her way through a fleet without abating her speed. The fabled thunderbolts of Jove would have been less deadly than the shells which she could have hurled from her twelve-inch guns. She carried a complement of 70 men, 50 of whom were in the engine-room or the stokehold, and she burnt less than 3,000 tons of coal in her run. In strong seas she burned 17,000 tons of iron and steel were hurled at a mile every two minutes by the consumption of less than 40 tons of fuel. When full steam ahead is signalled from the bridge to the engineer it is as if a jet of steam were sprang at once into a gallop. And when the signal is given to stop the ship is brought to a halt in less than a minute. And with that accuracy these thunderbolts are flung. At a distance of five miles, while the "Indomitable" is steaming at full speed, she can plant shot after shot into a target hardly visible to the naked eye.

Her mammoth guns, can be best realized by quoting Sir Percy Scott's famous saying that the twelve-inch gun on Trafalgar Square, but at such a range the gun must have so great an elevation that its projectile would rise higher than the summit of Mount Blanc.

The "Indomitable" is the latest, I do not by any means say the latest, word in the application of concentration and speed in naval warfare. Alas for her splendid engines and her smashing armament she is a magnificent embodiment of concentrated power she is the epitome of the accumulated labor and the associated brain of innumerable men. The 780 mannikins who seem to lie as they swarm and down her tortuous stairways how insignificant they seem, how impotent, countless as they are, in the part of the engine force in muscles and brawn than any thousand naked savages paddling their primitive dug-out canoes. It is this concentration of force combined with the maximum of speed that constitutes the distinctive characteristic of the "Indomitable." She is a greyhound crossed not with a bulldog, for the trains are too far apart, but with the boarhound, possessing the swiftness of one and the strength of the other. If the "Dreadnought" and the "Agamemnon" and their heavily armed consorts may be compared to the knights whose massive armor made them invulnerable to the missiles of the foe, the "Indomitable" and her sisters are like the light-footed, agile skirmishers which fight in the van, but with this difference, the "Indomitable" carries as heavy guns as the "Dreadnought," and can hit as hard and at as great a distance. Only one respect is she inferior. Every ship represents a distribution of its capacity between guns, boilers, engines and armor. You cannot eat your cake and have it. What you put into guns cannot be put into engines, and if you speed much in guns you must economize on armor.

In the "Indomitable" speed and hitting power were given preference over armor. Hence, in close action, the "Indomitable" could not stand up against her slower and more heavily armored rivals. But she has been given a pair of sea legs so swift that she ought never to be compelled to fight at close quarters. Like Perseus with the winged sandals of Mercury she ought al-

CLUNG TO BALLOON

FOUR MILES IN AIR

Woman Was Unable to Liberate Her Parachute.

Miss Viola Spencer Was Almost Frozen to Death in Ascent Near Nottingham.

Nottingham.

LONDON, Aug. 31.—Miss Viola Spencer, the famous parachutist, has had a thrilling adventure and a most remarkable escape from death.

Thursday Miss Spencer was engaged to make a parachute descent at a sports meeting near Nottingham, but when the balloon rose to a height of about 2,000 feet she found herself unable to liberate the parachute. The result was that she was carried helplessly by the balloon for a distance of thirty miles. She managed to keep her fall soft until the balloon descended, by which time she was almost perishing from the cold.

At one time the balloon rose to a height of about 20,000 feet, which is about four miles.

"I had a horrible feeling," said Miss Spencer yesterday, "that I should be frozen. How I wished I had brought my wrap or coat, I had only a muslin blouse and a blue serge coat. I felt the cold keenly when I was up in the air a height of 10,000 feet, but at 20,000 it was unbearable. My hands were quite numb, and I had to knock them against the wooden ring of the parachute to restore the circulation.

"And next," Miss Spencer continued, "I had an awful fear that the balloon would be blown out to sea, but happily I escaped that fate, but, where, of all places in the world, do you think we did come down? It was actually a clover field. Could it have been better? Talk about landing in clover!" and the fair parachutist laughed merrily.

"But I felt contented after a time," Miss Spencer declared, "that if I could not manage to keep my seat in the parachute the balloon would come down all right. What alarmed me most was the possibility of being blown out to sea and falling out. At one time, before I had gone up very far, I tried to console myself by humming a snatch of a comic song, and a queer idea struck me to sing 'Up in a Balloon, Boys.' But I stopped short. I thought it was improper and imprudent. Unfortunately, I could not recall any hymns," she added.

"I remember being impressed with a sense of awful stillness around," she remarked, "as the finding of the wife in the snow, but I was not in a position to dance on its placid surface. A pretty scene of a different character. The view of Nottingham as the balloon bordered upon it. It was all so strange, with the large buildings looking more and more like a model town below."

Miss Spencer then explained how the mishap which led to her remarkable feat occurred. The parachute was attached to the bottom part of the balloon, and her seat was a little webbing loop that should have been in with. On either side she clasped the ropes for support. In appearance the loop would be like a garden swing.

The parachute is detached by pulling a piece of cord which releases the strings of the parachute. "I tugged and tugged," said Miss Spencer, "but I could not release it, and I am convinced that the crowd must have trodden on the apparatus when it was on the ground. I shall never admit to it if the crowd comes into the enclosure.

"Of course I had no control over the balloon, which was forty feet above me. The joy and relief I experienced when my little pocket anemometer showed me that the balloon was coming down was great.

"It dropped near a little village called Thrushington, and I immediately jumped off, and scarcely had I done so before the balloon started off again. I released it across two fields. I was in a sad state of mind, and I stayed at an adjacent house for the night.

"The balloon was a 128 knot to the surface and 8.3 knots below the surface. The submarine Eusemunde has petrol motors of 30 horse-power each. Her radius of action is 1,500 miles. At her trials she developed a speed of 12 knots on the surface and 21 knots under water.

During the entire voyage the submarine will be escorted by the Admiralty tug Mouton, with number of high naval officers from Cherbourg on board. Another match has been arranged for the end of the month between three submarines and three submarines.

Teacher—And what do you suppose all the animals did during those forty days in the ark?

"Smarty" Williams: They just loafed around and scratched themselves.

"Sandy" Toole (disdainfully)—Chuck it,Smarty! What'd they scratch for, when there was only two fleas?

A liberal minded woman isn't always giving her husband a piece of it.

AMUSEMENTS.

LARGE CROWDS AT THE PRINCESS.

There were immense crowds of people at the Princess Theatre yesterday, and the performance was voted about the best to be seen in the city. The picture entitled *The Cross Roads of Life* proved to be a most touching drama, true to life and excellently acted. It is a true lesson of a young girl's willfulness and was watched with the utmost interest by the hundreds of spectators. This excellent film is only one of the many excellent picture plays supplied by the world renowned Klein Optical Company, whose provincial head office is in this city. The *Cross Roads of Life* is a very recent production and is one of the best seen in the city for some time. Another excellent drama that is distinctly progressive is entitled *The Reckonance*. A rare bit of comedy is shown from a film entitled *The Fails Alarm*. Harry Newcombe and Madame Demby are singing very pretty songs, and the entertainment is well worth attending.

NICKEL'S ARTISTIC TREAT.

The production of "Friede Reminiscences" by the Humanov Company at the Nickel last evening was certainly an artistic triumph and has done much to increase the already favorable impression these New York playboys have made upon patrons of the big picture house. The story of the piece is a pathetic one—a grave misadventure standing between a social leader and his beautiful wife, followed by separation. The husband in a reverie before the open fireplace lives his life over again and the finding of the wife in the snow under a tree, but one of the most beautiful sights I saw was the reflection of the moon on the water in the pond. The scene is a pretty scene of a different character. The view of Nottingham as the balloon bordered upon it. It was all so strange, with the large buildings looking more and more like a model town below."

GOOD MUSIC AND GOOD PICTURES AT BIJOU.

An agreeable surprise greeted Bijou patrons last night in the unannounced re-appearance of Miss Ada Smith, the beautiful English soprano, who having been slightly indisposed was unable to last night. Miss Smith picked for her song last night that ever delightful "Always," which she rendered with the most pleasing effect. Among the pleasing pictures shown the last night were "Ireland and Its People," "The Romance of a Singer," and "An Indian Love Story," are, pictorially, clever and meritorious. "The mysterious picture," "A Workman's Paradise," puzzled the people greatly. In this picture the workman don't work, only stand around and watch the work done. Mr. Dave Higgins touched a soft spot in many a heart last night with his pretty and sympathetic songs. "A Little Child Shall Lead Them."

THE LUCKY GIRL OF ST. JOHN.

Miss Florestine Tobin, of 79 Brussels St., this city, was the holder of the lucky seat coupon that entitled her to a life-size portrait done in oils by the brilliant young artist Don Carlos Du Bois. Much interest was manifested when the coupon was drawn from the lot by Mr. Andrews, of St. John. The drawing took place after the great climax of the third act of "The Girl I Left Behind Me." The German Company appears to splendid advantage in this magnificent drama.

AN EXCELLENT PROGRAMME AT THE UNIQUE TODAY.

Although the weather last evening was exceptionally fine and the out-door attractions were many, the Unique Theatre was packed to the doors from the opening until the closing hour. The pictures now being shown there are admitted to be the best ever shown in this city by all who have seen them. The feature film is over 1,000 feet in length and is extremely interesting. It is called "Outwitted by His Wife," and is a production of the famous Lubin studio. A young wife finds out that her husband has deceived her by pretending to be a successful business man, while in reality he is a gambler. On discovering this fact she casts him in spite of his pleading. Some time later he rescues her from death at the risk of his own life. She takes him home and on his promise to lead a better life he is forgiven. "The New Maid," this is an excellent comedy. This young woman gives everyone in the house a lesson in kissing, not excepting the parson. The last picture is a dramatic picture called "The Mirror," and is exceptionally interesting. It is Mae Power, the pleasing soprano now singing at the Unique, will be heard in that charming little song "Please Come and Play in My Yard." Miss Outous is singing "Roll Around." Beginning Tuesday evening Miss Power will sing "Sylvester," Victor's great song hit, "Poor John," at the evening shows.

FRENCH SUBMARINES TO RACE IN TEST OF SEAGOING QUALITIES

800 Miles Match Arranged Between Different Types of Craft by the Minister of Marine.

PARIS, Aug. 31.—Considerable interest has been aroused in French naval circles by the news that the Minister of Marine has decided on a match between two submarine types, the object of testing the comparative seagoing qualities of these respective types.

The submarine travels chiefly on the surface diving only when about to proceed to its submarine. The submarine will travel almost entirely under water. The race is designed to test the advantages of the two types in regard to safety and seaworthiness as well as speed.

The race which is to take place over a distance of about 800 miles, will commence and end at Cherbourg, the two vessels after leaving that port proceeding to Brest and Dunkirk, and returning to the starting point.

The submarine *Floveste*, of the *Joubert* type has two steam engines, each of 30 horse-power. Her speed at her trials was 12.8 knots on the surface and 8.3 knots below the surface. The submarine *Eusemunde* has petrol motors of 30 horse-power each. Her radius of action is 1,500 miles. At her trials she developed a speed of 12 knots on the surface and 21 knots under water.

During the entire voyage the submarine will be escorted by the Admiralty tug Mouton, with number of high naval officers from Cherbourg on board. Another match has been arranged for the end of the month between three submarines and three submarines.

Six drunks were all fined the usual amount in the police court this morning. All paid and obtained their liberty, with the exception of one old man who went to jail. Wong Tving, the Chinese, who pointed a revolver at Harry McDonald in a Mill street restaurant was convicted this morning and a sentence was allowed to stand over him.

Three young women employed in the restaurant gave evidence of seeing the Chinese pointing the revolver. The chinik admitted using the gun but said it was not loaded.

One of the heavy horses owned by the Fleming Foundry Co. broke through the sidewalk on Pond street this morning and it was with some difficulty that the animal was extricated. There is a water metre under the sidewalk and it was into this big hole that the animal crashed. With the aid of ropes and planks the foundry workmen got the animal out. The horse is a little stiff from its experience, but is otherwise uninjured and is working this afternoon.

Hon. Wm. Pugsley Returns to Town—Expecting Word From the Railway About When They Will Start

Hon. Wm. Pugsley, Minister of Public Works, reached the city on the Atlantic express this morning. Speaking of the Charlotte County convention at which he was present yesterday Mr. Pugsley said it was one of the finest conventions he had ever attended.

With regard to the nomination of A. W. MacRae to oppose him in the coming election, the minister said: "Well I see that Alex. did not seem to be able to find anything good to say about himself, and had to take up his time abusing me. Hard lines, is it not?"

Mr. Pugsley announced that he was expecting word from Mr. McNeil of the C. P. R. regarding when they would be able to start work on the grain conveyors for the new berths at West St. John.

Mr. Pugsley will be the chief speaker at the Kings County political picnic at Rousesay tomorrow.

SORANTON, Pa., Sept. 1.—The trouble between the Delaware, Lackawanna and Western R. R. and its switchmen will probably be disposed of finally Thursday. The grievance committee in session here had a conference with Supt. T. E. Clark yesterday. The possibility of a strike continues to be very remote. The principal business done at the meeting, it is said, was to discuss the idea of withdrawing the demands.

SOME STATISTICS OF THE METHODISTS

Rev. Samuel Howard Married Largest Number of Couples

Bideford, P. E. I., Had Most Infant Baptisms—Other Facts of Interest in This Conference.

The minutes of the New Brunswick and Prince Edward Island Methodist Conference have been published. Some interesting figures are given in the table of statistics.

It is shown that in the St. John District, Rev. Samuel Howard, of Exmouth street, was the most popular clergyman among young persons intending marriage. He has no less than nineteen marriages to his credit during the year covered by the report.

Neil McLaughlan, of Portland Street comes second with fifteen and Rev. Jacob Heaney, of Carleton, third, with a good second with six. The other were:

Rev. H. D. Marr, 7.
Rev. Howard Spence, 4.
Rev. C. W. Squires, 3.
Rev. Jas. Crisp, 2.
Rev. T. J. Donnell, 1.
Rev. J. A. Roberts, Sussex, 5.
Rev. W. H. Spargo, Apohaqui, 4.
Rev. H. Penna, Springfield, 2.
Rev. G. A. Ross, Hampton, 5.
Rev. L. J. Leard, Jerusalem, 1.
Rev. H. S. Young, Kingston, 1.

In the two Provinces the clergyman who had the most marriages was Rev. R. G. Fulton, of Woodstock with 23 while Rev. G. M. Young, of St. Stephen was a close second with 22.

There were only three infant baptisms in the two Provinces during the year. In Carleton and one in Sussex, while Exmouth street church boasted of thirty-nine and Portland street headed the list in St. John District with fifty-three.

In the two Provinces the circuit having the largest number of infant baptisms was Bideford, P. E. I., where there were sixty-four. Kewick, N. B. had a good second for fifty-six. The total number of marriages in the Provinces was four hundred and twenty-nine and the total of infant baptisms nine hundred and sixty-six.

There were in all 731 deaths. The heaviest losses in the St. John District were from Portland street, thirty-three; Exmouth street, twenty-six and Carleton, nineteen.

In the Fredericton District eighteen deaths occurred in the Grand Lake Circuit. In the Chatham District there were twelve deaths at the court. There were twenty at Sackville, twenty-four at St. Stephen, forty-two in the two Charlottetown churches, and twelve in Bideford, P. E. I.

The strongest church in the whole conference is Centenary with 288 members, Portland Street has 268 and Exmouth Street, 372. Fredericton has 345; Nashua, 256; Sackville, 332; Moncton Central, 377; First Church, Charlottetown, 355. The total membership of the conference is 13,827. During the year there was an increase of 29 in Kewick, 61 in Gaspe, 108 in Cape Oz, 46 in Salisbury, 22 in St. Stephen and 20 in Summerside.

THAT DRIFTING MOTOR BOAT

The motor launch Francis is once more in the hands of her owners and left the Market slip about one o'clock for Eastport. The Francis was picked up by Commodore Thomson last Sunday. It was thought at first that thieves had stolen the craft and abandoned her but no reason could be given for such an act. Scott P. Bradish, M. S. Bradish and Seth Jute, a pilot, arrived in the city yesterday to take charge of the boat. It is the opinion of these gentlemen who own the launch, that the boat was blown away from her moorings during Saturday night and drifted out to sea, where she was picked up by the Schooners. They say that the Francis was moored outside another craft and her mooring line which was old, chafed on the bow of the other enough to cause the line to break and allow the boat to drift away. The owners and pilot will go in one of the harbors along the coast tonight providing there is any sea running, as the Francis is not a good sea boat.
