Established 1889. Newcastle, N. B.

THE ELECTION ACT DEBATE

What Causes the Trouble Between Liberals and Conservatives.

CONTRA ARGUMENTS

The Whole Question Clearly Stated so That all May Understand

Ottawa, May 13. The Liberals of Manitoba say to the Conservatives: We will not have lists prepared by the partisan officials of your friends, the Conservative Government of the province.

The Conservatives of Manitoba reply: We will not have the lists prepared by the partisan officials of your friends, the Liberal Government of the Dominion.

If lists prepared by the province are used, the Liberals of Manitoba will be dissatisfied. If lists prepared by Dominion officials are used, the Conservatives of Manitoba will be dissatisfied.

The remedy for the situation, said Sir Wilfrid Laurier, is to take the matter entirely out of the hands of either party, and let the lists be wholly prepared by the judiciary. This the Government proposes to do, and we invite the Opposition to help us to amend the Dominion Elections Bill so as to enable us to satisfy both parties.

W. J. Roche (Conservative member for Marquette, Manitoba): What we object to is the singling out of Manitoba for special treatment. You accept the lists of Quebec, Ontario, and other Provinces. Why not ours?

Sir Wilfrid Laurier: Because yours are prepared on an entirely different basis. The basis of the Provincial lists in Ontario and Quebec are the municipal voters lists, made up from the assessment roll; and the assessor certainly would not omit from the roll anyone liable to taxation, and anyone placed on the roll through error, would have an interest in having his name taken off. The municipal voters lists, therefore, are prepared independent of any party influence, and they form the most reliable basis upon which to base the electoral lists of a Provincial or Dominion Government.

But the basis of the Provincial lists in Manitoba, as well as British Columbia, which is similarly dealt with by this bill—is, is not the municipal assessment roll, but personal registration. The lists are made up by registration clerks, appointed by the Provincial governments, and are subsequently revised by county court judges, each of whom has the time and place of his sittings fixed for him and may not extend the appointed time, even if the revision is not complete, and may not change the place of sitting, even though he may find it necessary to do so, in order to enable qualified voters in distant parts of his jurisdiction to get their names put on the lists. It has been stated that on one occasion an agent, representing one of the political parties, occupied the whole time for revision by his opening address to the judge. On another occasion a judge, appointed to sit at Beauséjour, adjourned his court to sit at Lac du Bonnet, in the same registration district, to enable a number of qualified voters to get on the lists. He there registered 38 duly qualified electors; but, when the lists were taken to the Attorney-General's office, those names were contemptuously torn out of the lists. It is true, their registration was illegal, according to the law of Manitoba, but it was only in accord with natural justice that they should have been allowed to remain on the lists. Should such a law be upheld, when it is within the power of the Dominion Government to prevent such injustices? I propose an independent preparation of the lists in Manitoba, British Columbia, and the unorganized districts of Ontario and Quebec and that basis of independence which is to be found in the municipal origin of the lists in the organized districts of those Provinces and in Nova Scotia, New Brunswick, Prince Edward Island, Alberta, and Saskatchewan, will then become common to the lists in Manitoba and British Columbia.

2 part from these considerations, the Government was obliged to bring in a bill to provide the machinery to distribute the voters on the Provincial lists among the Dominion constituencies. In Manitoba there are 41 Provincial and 10 Dominion constituencies. The boundaries of the Dominion constituencies cut through provincial polling divisions. The voters on the provincial lists for such

(Continued on page 5.)

Sub-sections 2, 3, 4, 6, and 7 were passed and section 8, providing for the amount of tax to be imposed, provoked a lengthy discussion.

Section 5, stating that each school district should be a highway district, was replaced by the following section: "The board shall divide the parish into as many highway districts as it may consider necessary for the proper carrying out of the purposes of this act, and shall appoint a commissioner for each district. It may also, if it deem it desirable so to do, divide each district into as many sub-districts as it may find desirable for the proper carrying out of this act and appoint a surveyor for each sub-district. Such sub-districts shall be designated by numbers. In any district where labor is not permitted the appointment of surveyors shall be in the discretion of the board."

Mr. Hazen moved that the rate of poll tax be \$2 and that the property tax be 20 cents upon \$100.

FREDERICTON, May 14.—The estimates were submitted to the legislature this afternoon. The estimated provincial income and expenditure for the year 1908 are as follows:

ESTIMATED EXPENDITURE.
Administration of justice \$21,730 00
Agriculture 35,465 00
Auditor-general and department 2,200 00
Agent-general, London 1,000 00
Boys Industrial Home 1,000 00
Contingencies 17,000 00
Education 251,444 48
Election 11,400 00
Emmerson vs. Maddison 500 00
Executive government 33,797 49
Factory inspector 1,000 00
Fisheries protection 1,500 00

Staple Lines.
These we have not been saying much about, but just to remind you we quote a few.
Note Paper and Envelope, in all the new makes, Pens, Inks, Pencils, Pencils Holders, Erasers, Sealing Wax, Initial Seals, Note Books, Order Books and the thousand and one articles space will not allow us to mention.

Public Square, Newcastle.

The Provincial Legislature at Work.

New Highway Act Does not Completely Hand Roads Over to County Councils.

FREDERICTON, May 13.—Today in the Legislature the Highway Act came up for discussion. When session four was read Mr. Robinson opened the debate by pointing out that the proposed law was not in accord with either the letter or the spirit of the platform laid down by the leader of the government when appealing to the people. Instead of turning the money for roads over to the municipal council highway boards are created, the chairman of which is to be appointed by the government and given greater authority than any other member of the board.

Mr. Lowell made a strong case against the government when he read the platform upon which Mr. Hazen ran the last election, in which it is set out "the repeal of the present Highway Act and the enactment of a law which, while not diminishing the amount of provincial money given to the roads, shall vest the management of the roads and the appointment of all officials in the county councils."

The worst break in the debate was made by Mr. Sheridan, Government supporter from Kent, who said that the government would have trouble with the expenditure unless they had a man on the board to control them. This Mr. McKeown pointed out was a direct charge of incompetence on the part of the municipal councillors and not in line with what had previously been claimed by the present government when in opposition. The present law was a direct violation of every pledge made by Mr. Hazen in and out of the legislature, but quite in line with his right about face on the question of appointing a solicitor general.

The discussions which followed showed that the act would increase taxation for highway purposes. Mr. Hazen said that the intention was to increase the poll tax to \$2 and the property tax by 25 cents on each one thousand dollars of value. Mr. Leeger protested against this increase and Mr. Lablanc showed most clearly that the large taxpayers would take advantage of the statute labor clause and escape taxation.

During the debate the admission was made by Mr. Fleming that last season was a bad one for roads and that enough money was not raised by the late government to maintain good roads.

On the question being put to the committee, the yeas and nays were called, resulting in 28 yeas and 12 nays.

Sub-sections 2, 3, 4, 6, and 7 were passed and section 8, providing for the amount of tax to be imposed, provoked a lengthy discussion.

Section 5, stating that each school district should be a highway district, was replaced by the following section: "The board shall divide the parish into as many highway districts as it may consider necessary for the proper carrying out of the purposes of this act, and shall appoint a commissioner for each district. It may also, if it deem it desirable so to do, divide each district into as many sub-districts as it may find desirable for the proper carrying out of this act and appoint a surveyor for each sub-district. Such sub-districts shall be designated by numbers. In any district where labor is not permitted the appointment of surveyors shall be in the discretion of the board."

Mr. Hazen moved that the rate of poll tax be \$2 and that the property tax be 20 cents upon \$100.

FREDERICTON, May 14.—The estimates were submitted to the legislature this afternoon. The estimated provincial income and expenditure for the year 1908 are as follows:

ESTIMATED EXPENDITURE.
Administration of justice \$21,730 00
Agriculture 35,465 00
Auditor-general and department 2,200 00
Agent-general, London 1,000 00
Boys Industrial Home 1,000 00
Contingencies 17,000 00
Education 251,444 48
Election 11,400 00
Emmerson vs. Maddison 500 00
Executive government 33,797 49
Factory inspector 1,000 00
Fisheries protection 1,500 00

ESTIMATED INCOME.
Dominion subsidies \$ 621,360 96
Territorial revenue 300,000 00
Fees—Provincial Secretary's office 16,000 00
Private and local bills 1,000 00
Taxes—Incorporated companies 30,000 00
Succession duties 35,000 00
King's printer 1,300 00
Liquor licenses, provincial share 20,000 00
Miscellaneous 2,500 00
Surplus probate court 10,000 00
Public wharves—On half cost Dominion government 5,741 28
Refund fishery leases 13,980 52
Quatawankedgwick River, Dominion government 3,000 00
International Railway, forest protection 3,000 00
\$1,059,882 76

PROVINCIAL LIABILITIES.
The following statement of liabilities up to Oct. 31, 1908, was also presented with budget speech by Hon. J. K. Fleming:

Liability at October 31st, as per Auditor's Report for 1907
Public Works Department.
Expenditure due Oct. 31 and paid since 49,202 22
Expenditure due at Oct. 31, superintendents of roads 26,758 55
Crown Land Department.
Expenditure due at Oct. 31 and paid since 4,337 41
Receiver General.
Expenditure due at Oct. 31 and paid since 11,830 01

BARTIBOGUE WOMAN SUICIDES

Was Fifty Years Old and in Poor Health for Last Four Years.

WAS A WIDOW

And Had Been Melancholy Ever Since Her Husband Died.

Chatham, N. B., May 18.—Word reached here Saturday of the death of Mrs. Thomas Hayes, of Bartibogue, who was found hanging to a beam in her barn Saturday morning. The deceased was a woman 48 or 50 years old and since the death of her husband four years ago has been in poor health and inclined to be melancholy. A son who was away in the woods at the time, and a daughter survive, Michael and a brother, lives here. Mr. Sheehan went to Bartibogue on Saturday on receipt of intelligence of the tragedy. The funeral was held yesterday morning at Bartibogue.

Guarantee and
\$676,000 00
\$1,097,174 46
\$7,248,192 32

Estimated balance required to construct bridges as provided by VII, El. 7, Cap. 18
500,000 00

St. John Valley Railway
any guaranteed, say 167 miles at \$15,000
2,505,000 00
\$10,253,192 32

FREDERICTON, May 15.—The House met at 3 p. m.

Hon. Mr. Fleming resumed the debate on the budget announcing that since yesterday no claims had been received against the Province in regard to the New Brunswick Coal & Railway or other matters. He then took up the assets of the province which included a balance to its credit at Ottawa of \$329,299.39, and sinking fund amounting to \$166,161.21. The sum of \$495,460.60 due the provincial hospital from the municipalities was another uncertain asset. The money paid for lands in Victoria county was probably well spent. As to the New Brunswick Coal & Railway property it was an error to value that at the sum of \$1,150,000 but the present government would try to increase the value of the road. The figures of the expert accountant, he said, would be submitted to the House.

When the incoming bills had ceased to appear and the government had found out the true floating debt of the province they intended to ask for authority to be unfair for the province to begin another fiscal year thus hampered. For this the present government had in the action of government of 1883 a precedent. Government proposed to see in future ordinary expenditure was kept within bounds of ordinary revenue. He stated the estimated income for the year was placed at \$1,059,882.76. Estimated expenditures were next dealt with in all its different items and in some cases it would be larger than last year's while in others it would be smaller. Forest protection for instance called for more than last year by \$19,000. Game protection would be less. The interest item was not pleasant to consider on account of borrowings of late government. Less money was asked on account of mining as the government intended to this year follow a different policy in regard to the diamond and calyx drills.

The system of accounts had been for years unsatisfactory and he wished to inflict no discredit on anyone in the civil service. He must say the system was hopelessly bad. The present government hoped to correct this by bringing daily income and expenditure of province into one office and through one book. The fact alone that the auditor-general had previously never audited one cent of expenditure of permanent bridge fund was enough to show necessity for new audit act. In conclusion he thought the future of the province was full of hope having as it did such great resources. He was firmly for the principle that our ordinary expenditure should be kept inside our ordinary revenue and the present government were resolved to in very many cases serve the resources and protect the interests of the people.

SCHOOL STANDING FOR APRIL.

The following are the names of the pupils who made the highest general standing in the town schools for the month of April.

HARKINS ACADEMY.

Grade XI—Lyle Lingley 1st, Clyde Rundle 2nd, Evelyn Williamson 3rd.
Grade X—Rennie McKeough 1st, Gordon Atkinson 2nd, James McKeough 3rd.
Grade IX—Howard Allison 1st, Sadie Smallwood 2nd, Jean Morrison and Hazel Crabbe 3rd.
Grade VIII—Herbert Connell 1st, Winfield Williamson 2nd, Willard Allison 3rd.
Grade VII—Ethel Allison 1st, Hazel Sweetey 2nd, Lyle McKeough 3rd.
Grade VI—Sarah Hill 1st, Florence Price 2nd, Charlie Morris 3rd.
Grade V—Gordon Brander 1st, Marion Rundle 2nd, Lester Jeffrey 3rd.
Grade IV—Jean Russell 1st, Lizzie Adair 2nd, Everett Black 3rd.
Grade III—Jennie Fleiger 1st, Nan Nicholson 2nd, Ida Dutcher 3rd.

REGENT STREET SCHOOL.

Grade II—Ella McCurdy 1st, Mona Lindon 2nd, Willie Hall 3rd.
Grade I—Jeanette Copp 1st, Bernetta Keating 2nd, Charlie Donovan 3rd.

MISSION HALL SCHOOL.

Grade II—Evelyn Price 1st, Mark Ranals 2nd, Annie McCallum 3rd.
Grade I—Hazel McFarlane 1st, Gladys McKernan 2nd, Bertha Johnston and Sadie Cassidy 3rd.

ADAMS SCHOOL.

Grade IV—1st, Ruth Benson; 2nd, Cecil McWilliam; 3rd, Queenie Nevin.
Grade III—1st, Charles Sargeant; 2nd, Charles McLean; 3rd, Wilber MacArthur.
Grade II—1st, Randall McLean; 2nd, Thomas O'Brien; 3rd, Clifford Malloy.
Grade I—1st, Marian MacArthur; 2nd, James Fallon; 3rd, Jack Nicholson.

BULE SCHOOL.

Grade IV—1st, Frank Morell; 2nd, James Boyle; 3rd, Lily McLean.
Grade III—1st, John Curtiss; 2nd, Irene Clancey; 3rd, Jennie Crocker.
Grade II—1st, Nellie Greenier; 2nd, Roy Creamer; 3rd, Bella Aiton.
Grade I—1st, Wilfred Russell; 2nd, Ethel Astles; 3rd, Susie Tardy.

Blackville School Standing

The following are the names of the pupils making the highest general standing for April in the school in District No. 4, Blackville:

Grade VIII—Mamie McDonald 1st, Walter McDonald 2nd.
Grade VII—Charles McDonald 1st, Howard Jewett 2nd.
Grade IV—Julia Jewett 1st, Richie Mountain 2nd, Charles Coughlan 3rd.
Grade III—Mamie Urquhart 1st, Grace Jewett 2nd, Inez McDonald 3rd.
Grade II—Hazel McDonald 1st, Hazel Currie 2nd, Thomas Harris 3rd.

Miss Muriel Baldwin who so successfully conducted the large school at Chatham Head was forced to resign on account of throat trouble, about a month ago. Now she has so far recovered as to be able to take a school of ten pupils at Park's Siding.

Indigestion

Stomach trouble is but a symptom of, and not in itself a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, yet they are symptoms only of a certain specific nerve sickness—nothing else.

It was this fact that first correctly led Dr. Shoop in the creation of this now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success to Dr. Shoop and his Restorative. With out that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, bad breath and yellow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.

Dr. Shoop's Restorative
Laxative 5 C Sweet in Taste
A Candy Based Laxative.
"ALL DEALERS"

Wedding Bells.

McKEOUGH-GORMAN

A very pretty wedding took place Tuesday morning at the church of the Sacred Heart, Portland, Maine, the Rev. and Father O'Dowd officiating when Duncan M. McKeough of Portland Maine and Mary A. Gorman of South Nelson, N. B. were united in the holy bonds of wedlock. They were attended by Michael J. McKeough brother of the groom and Katherine Gorman sister of the bride. The bride was beautifully attired in white silk, with large picture hat and carried a shower bouquet of bride roses. The maid of honor carried a bouquet of pink lilies. Breakfast was served at the home of the groom 18 Sheridan St. to the family and immediate friends, after which a reception was held, which they received the congratulations of their many friends. Among the beautiful presents were a Morris chair, sideboards, set of dinner and breakfast dishes, couch, pictures and silverware in abundance and a cut glass punch-bowl.

They who presided at the table were the Misses McKeough, Logue and White, while the Misses Laura and Lena Eagan served at the punch-bowl. Among the out of town guests attending the wedding were Mr. and Mrs. Parker Coleman of Vailtham, Mass., cousin of the groom, and Mr. John McKinnon and Miss Gertrude Nelson of Berlin, N. H.

The happy couple departed at a late hour for a honeymoon trip through Boston New York and Philadelphia. On their return they will reside at the Western part of Portland.

The manure-spreader is not only a great labor saver, but does the work much better than can be done by hand. It is a machine that should be found on every farm. A good manure spreader will handle all kinds of manure found on the farm, such as wet straw manure, corn stalks, old straw stalks, sheep manure, manure tramped in the feed by cattle, light straw manure, and fresh stable manure.

Canada's prosperity depends very largely upon the prosperity of the farmer. His trade is the greatest factor in the business of the great majority of merchants in the Dominion. It is plain, therefore, that any measures which produce increased wealth for those engaged in the agricultural industry will benefit the business of the whole country.

GOODS OF QUALITY

You can always make a good meal with Clark's canned Meats. Ready to eat when the tin is opened.

WHITNEYVILLE.

Whitneyville.—The people in this section are glad to see the Dorothy N. once more.

Mr. Ben. Dunnet sprained his ankle quite badly recently. Ernest Mutch has returned home after spending the winter in Uncle Sam's country. Miss Nellie Moran of Boston is visiting her uncle Mr. Addington McLean. Mr. Samuel Sheard cut his leg quite badly a few days ago while working in the employ of Mr. John Kingston on the Millstream drive. Frank DeVinny and J. McKay have returned to Whitneyville after spending a few weeks in Millerton.

Mr. Geo. McCosh, who has the contract for building Ald. Ferguson's floating boat house had a rather exciting time yesterday morning. When Mr. McCosh was in the act of anchoring the house it went down the harbor for an hour with Mr. McCosh as captain, and Mr. George Keith as mate. The young men claim they were prepared for tonsorial work, but their provisions ran short, and after displaying their signal of distress for some time they were rescued by parties who brought them ashore and had the boat house securely fastened.

HIGH COURT I. O. F.

MEET IN ST. JOHN

Vote Almost Unanimously Against Raise of Rates of Old Members.

ST. JOHN, Thursday. — At the meeting of the High Court, I. O. F. held here yesterday afternoon the members spoke strongly against the proposed new rate. High Secretary F. W. Emmerson explained the plan at length, but when asked to give his opinion on it declined to do so. He was reminded by several members that they joined the order on his assurance that the present rate would be adequate for all time to come.

A resolution opposing the new rate will be dealt with tomorrow morning. Supreme Chief Ranger Stevenson addressed a mass meeting of Foresters in the Calvin church this evening. His subject was the proposed new rate.

ST. JOHN, Friday. — The High Court of the I. O. F. of the province of New Brunswick wants no increase in the rates of old members. It said so this morning by an almost unanimous vote after a whole forenoon's discussion.

D. D. Lingley's motion that the High Court declare it expedient that any change in rates be made for at least five years was adopted by a practically unanimous vote.

At the afternoon session the following officers were elected:—G. W. Merseray, M. A. Doaktown, H. C. R.; Columbus Craig, Perth Centre, H. V. C.; R. F. W. Emmerson, Moncton, secretary; J. V. Russell St. John, High Treasurer; Dr. W. H. Welling, Antigonish, High Forester; J. H. Borden, Moncton, High Deputy Forester; J. H. Flew, St. John, and Thos. Murray, High Auditors. Fredericton was selected as the next place of meeting. The following representatives to the Supreme Court were elected:—McLachlan, Lingley, L. J. on, Jonah and W. C. S.

SIR WILFRED LAURIER AND FOSTER

Have Lively Tilt in House of Commons Over Cassels Inquiry.

OTTAWA, Thursday. — Sir Wilfred Laurier announced the committee of enquiry in reference to the Quebec Bridge Company contract. The contract for the construction of the new ice breaker for the Northumberland straits has been awarded to Vickers, Son & Maxion. The contract price is 180,000 pounds sterling.

Hon. Mr. Fielding said bonds to amount of 3,000,000 pounds, at par had been guaranteed by the government and issued to date in respect of the Western division of the G. T. P. Foster moved the adjournment of the House for the purpose of discussing the marine and fisheries departments especially the slow operations of the commission appointed to examine matters in connection therewith.

He made argument, a live speech. Knowing the circumstances as to judicial duties which would make it impossible for Judge Cassels to get to work promptly, the government had made him commissioner. The government pretended they wanted the cloud hanging over the department removed. The investigation was now postponed indefinitely and during the interval honest and efficient men in the department were at work under a shadow of suspicion. All the time two partisan lawyers appointed to defend the government were going through the records and all time, some who might beguile, they had access to the documents. Some cabinet ministers were not entirely out of the shadow.

Foster and Sir Wilfred Laurier debated the question at some length, the latter saying that the government had gone further than Judge Cassels suggested and if Mr. Foster would look at the order paper he would find a bill providing for an assistant judge to be appointed when circumstances required.

Mr. Foster asked why this bill was not taken before the House. Sir Wilfred said it was due to the fact that the opposition blocked the business, but Mr. Borden pointed out that the delay of the inquiry was due to the action of the government.

Mr. Jackson (Selkirk) started to read a letter from Mr. Cyr, the member for Provenccher, making certain references about Mr. Foster.

The letter proceeded: "Foester has offered to make statements in the House which he knows are untrue." "Foester—I made no statements which I know to be untrue and ask the member from Selkirk to take that expression back."

Mr. Jackson read: "And which brands him as a falsifier." Cries of order.

Foster—I demand the Hon. member for Selkirk to withdraw that. Speaker—It must be withdrawn. Mr. Jackson tried to hedge by, he had to withdraw amid opposition cheers.

FISH AND GAME

UNDER COMMISSION

FREDERICTON, Friday. — Hon. L. T. Carleton, chairman of the Maine Fish and Game Commission, entertained the members of the Legislature to a very interesting address this morning. He told of the good work that had been accomplished in Maine in the way of fish and game protection and in making known the State's attractions for tourists.

Fifteen years ago only a few stragglers came to the State, while last year four hundred thousand spent their vacation there and left fifteen million dollars with the people. He advocated placing fish and game under a commission.

Keep Minard's Liniment in the house

CAMPBELLTON NEWS

A number of men were engaged from early morning till dark yesterday in grappling with the victims of the drowning accident. One body, that of Simon Tennier, was found about two o'clock in the afternoon, but none of the others were recovered. Mr. Tennier's remains were taken to Graham's undertaking establishment and prepared for burial before being taken to his home.

W. F. Napier, manager of the Shives Lumber Co., is sparing no expense to recover the bodies, and the work will be continued.

Dr. Doherty after making enquiries as to the accident and procuring necessary information did not deem it necessary to hold an inquest and issued burial permits.

The Maritime express from Montreal was wrecked near Millstream yesterday morning and fireman John Colombe was slightly injured.

No. 34, Maritime express, ran off the track at Begot. The up express No. 33, ran through the accident, where mails, passengers and baggage were transferred and this train returned as No. 34. On account of this transfer the sleepers and diners were next the engine.

This train was running at her usual speed when about three and a half miles west of Millstream she left the rails, the engine and two sleepers and diner going into the water.

Ask for Minard's and take no other.

The first fatality of the present season occurred at the Rossing mill, Morrison's Cove Wednesday morning when Thomas Cribbs, aged 17 years was killed. Just how the accident occurred is not known as the first intimation of the accident came when the body was found beneath the mill. Cribbs worked upstairs but it is supposed he went below for some purpose and became entangled in the swiftly running belt. He shot head first to the wheel. His neck and arm were broken and death was instantaneous. Young Cribbs was a son of Wm. Cribbs of Chatham, and is survived by four brothers.

Absolutely all packet teas and most bulk teas show the grocer a larger profit than "Salada" but few of them show as much satisfaction to the consumer.

The first game of base ball was played on the Farrel field Wednesday evening between the Hobos and Tailtwisters. In the first innings the Tailtwisters made eleven runs and shut out the Hobos, but remaining five innings the Hobos scored three baggers and home runs for the Hobos. The official scorer places the score at 33 to 11 in favor of the Hobos. Mr. James Bailey was umpire.

Weak women should read my "Book No. 4 For Women." It was written expressly for women who are not well. The Book No. 4 tells of Dr. Shoop's "Night Cure" and just how these soothing, healing, antiseptic properties can be speedily applied. The book, and strictly confidential medical advice, is entirely free. Write Dr. Shoop, Racine, Wis. The Night Cure is sold by All Dealers.

TEMPERANCE IN IRELAND.

A remarkable wave of temperance is said to be passing over Ireland in connection with the Roman Catholic church. Nearly all the bishops referred to the subject in their Lenten pastoral letters, and several of them even directed the clergy under their jurisdiction to refuse to attend funerals at which drink was given. The priests have for years advocated an "Anti-Treating League." The system of public treating is especially pernicious to the Irishman whose overflowing sociability embraces every opportunity to treat and be treated. The preaching friars are said to have brought about temperance reformation in many districts; but they assert that the work will not prove lasting until the government lessen the facilities for drinking that exist at present.

Cure for Weak Lungs

"I have used your *Psychine* for about six months, and have found it an excellent remedy for pneumonia and weak lungs." Ronald Johnson, Farewell, Ont., April 15, 1907.

"*Psychine* is one of the best medicines on the market, and for all throat and lung troubles is unequalled." A word from a man who has tested it. Pneumonia, Bronchitis, Coughs, Colds and all throat, lung and stomach troubles yield to *Psychine*. At all druggists, 50c and \$1.00, or Dr. W. A. Stearns, Limited, Toronto.

Heading off a Risk

Gas is liable to puff out of the front door of any furnace unprovided for gas escape.

"Sunshine" Furnace has Automatic Gas Damper directly connected with smoke-pipe. Gas pressure always damper sufficiently for it to escape up chimney (see illustration), but heat doesn't escape.

What does "Sunshine" Gas Damper mean to "Sunshine" Furnace? Means protection to the furnace parts against evil effects of gas.

What does "Sunshine" Gas Damper mean to "Sunshine" coal account? Means furnace can be operated without fear as to "puffing" gas; furnace can be left without doubt as to whereabouts of gas.

What does "Sunshine" Gas Damper mean to "Sunshine" coal account? It means, instead of owner with "ordinary furnace" fear having to keep check-draft indefinitely closed to "let off" gas—when there's two-thirds parts of heat-energy to one part of gas passing up chimney—draft gas with all safety be opened, and coal saved for another day's duty.

CARTER'S LIVER PILLS

CURE SICK HEAD ACHE

Stick Headache and relieve all the troubles fact-
tured to a bilious state of the system, such as
Dizziness, Nausea, Br. & Stomach, Distress after
eating, Pain in the Liver, etc. While their most
remarkable success has been shown in curing
headache, yet Carter's Little Liver Pills are
equally valuable in constipation, curing out pro-
pensity to indigestion, and while they also
correct the bile of the stomach, stimulate the
liver and regulate the bowels. Even if they only
cure the headache, they are worth the price.
Acho they would be almost priceless to those who
suffer from this distressing complaint, but for-
tunately their goodness is so well known, and those
who once try them will find that the little pills val-
uable in so many ways that they will not be w-
ling to do without them. But after all sick head
aches are cured.

CARTER'S LITTLE LIVER PILLS are very small and
very easy to take. One or two pills make a dose.
They are strictly vegetable and do not grip or
purge, but by their gentle action please all who
use them.

TERRIBLE MURDER IN P. E. ISLAND

Result of Sudden Uncontrollable
Impulse Rather Than
Jealousy

GAVE HIMSELF UP

Had He Not Had Revolver, the
Slayer Might Not Have
Thought of Killing

CHARLOTTETOWN, P. E. I., Tues-
day.—One of the most sensational
murders that has ever occurred this
almost crime-free province occurred
on Sunday night at Miscouche, a small
village about five miles from Sum-
merside. The victim is Joseph Mc-
Millan, aged 25, a prominent young
farmer, and his slayer is Alonzo Doch-
erty, aged 21.

On Sunday afternoon McMillan ac-
companied by Stella MacDonald and
her sister walked from Miscouche to
Summerside. In the evening McMil-
lan and Stella left on return to Mis-
couche, walking along the railway
track. When about one and one half
miles from their destination, they met
Docherty coming towards them. It
was a bright moonlight night. He
had a revolver in his hand.

"Hold on," he said.

"Is that a revolver you have," asked
McMillan.

"Yes," replied Docherty, and pulled
the trigger. A 22 calibre bullet
crashed into McMillan's heart.

"My God, I am shot," he said, and
staggered and fell.

As he lay on the ground Docherty
fired two more bullets into the head
of his victim, whose struggles ceased
for ever.

Mid Body in Bushes.

The railway track was bordered
with thick bushes. Docherty dragged
the body into the woods and accom-
panied the horror stricken girl to her
home.

He stayed there several hours and
at daylight went with the girl to
Father Monaghan's, the priest's, and
told him the whole story and where
to find the body. The body was
found at the spot indicated.

Told His Father.

Docherty went to the house of his
father and informed him of the ter-
rible deed.

The old man, a respectable farmer,
fell in a faint when he heard the aw-
ful news. The murderer then drove
to Miscouche and waited the arrival
of the police officer from Summerside
and gave himself up. He is now
lodged in the Summerside jail.

His Own Statement.

To a representative of the press he
said, "I did the deed and I know I
shall suffer for it. It means either the
gallows or penitentiary for life. I
would not like the latter for I would
have to stay there for ever. I had
no quarrel with McMillan. He was
one of the best fellows in Miscouche.
My deed was not prompted by jeal-
ousy. I was in the habit of carrying
a revolver through the woods and
had placed that one in my pocket on
Sunday. Some uncontrollable im-
pulse seized me when I met McMillan
and Stella. I had kept company with
her for three years.

Was Not Jealous.

Docherty then told how he dragged
the body into the woods so that no
one would see it.

Docherty is a fine strapping, good-
looking fellow about six feet in height.
McMillan is also a splendid specimen
of physical manhood.

The Inquest.

An inquest was held by Coroner
Bowman today and the jury returned
a verdict that he, McMillan, came to
his death from shots fired from a re-
volver in the hands of and fired by
the prisoner.

Docherty has been remanded till
Thursday when he will appear before
Stipendiary Wright.

Tired nerves, with that "no ambition"
feeling that is commonly felt in spring or
early summer, can be easily and quickly
altered by taking what is known to drug-
gists everywhere as Dr. Shoop's Restor-
ative. One will absolutely see a changed
feeling within 48 hours after beginning to
take the Restorative. The bowels get
regula in the meantime, the circulation
improves, the kidneys are inactive, and
even the heart in many cases grows
decidedly weaker. Dr. Shoop's Restor-
ative is recognized everywhere as a genu-
ine tonic to these vital organs. It builds up
and strengthens the worn-out weak-
ness; it sharpens the failing appetite,
and universally aids digestion. It always
quickly brings renewed strength, life
vigor, and ambition. Try it and be con-
vinced. Sold by All Dealers.

Is Australia Loyal?

LONDON, Friday.—Replying to a
question in the Commonwealth House
of representatives today about the
statement that Cardinal Logue is re-
ported to have made in America to
the effect that there is evidence of
absolute rebellion in Australia, the
minister Deakin said that the statement
was incorrect. On the contrary self-
government was drawing Australia
and the Motherland closer together.
The attitude of Australia was thor-
oughly understood in Great Britain.

ORANGE JUICE AND HEALTH For Stomach and Skin.

Few of us realize what an important
part the skin plays in keeping us well
or making us ill.

The millions of tiny glands, or
pores, are intended to rid the system
of waste matter, which the blood
brings to the skin. It is a well-known
medical fact that the healthy skin
carries off more Urea or waste matter
than the kidneys. Just think how
much poison remains in the system
when there is any skin trouble.

The skin and stomach are intima-
tely associated. Find a person with a
dry, harsh skin and you will find one
who suffers with indigestion or con-
stipation, and both, usually.

Both may be relieved by a judicious
use of orange juice. Both can be
cured by taking the juice of an
orange every morning before break-
fast and taking "Fruit-a-tives" at
night.

"Fruit-a-tives" are fruit juices
in tablet form. The fresh juices of
oranges, apples, figs and prunes are
separated from the pulp, and then
combined in such a way that the me-
dicinal action is intensified.

Orange juice alone will not cure
Skin, Stomach or Bowel troubles. But
when taken in connection with "Fruit-
a-tives," a positive cure results.

"Fruit-a-tives" may be obtained at
all dealers or will be sent on receipt
of price—50c a box—6 for \$2.50.

"Fruit-a-tives" Limited, Ottawa.

Child Burned to Death

PARSBORO, N. S., Friday.—The
six-year-old daughter of Audrey E.
Clarendon McAllee of Green Hill, a-
bout 2 miles from here was so badly
burned this afternoon by her dress
catching fire from brush pile that she
lived only a few hours. Doctors
worked hard to save her life.

Piles are easily and quickly checked with
Dr. Shoop's Magic Ointment. To prove it
I will mail a small trial box as a con-
vincing test. Simply address Dr. Shoop,
Kauai, Wis. I surely would not send it
free unless I was certain that Dr. Shoop's
Magic Ointment would stand the test.

Remember it is made expressly and alone
for swollen, painful, bleeding or itching
piles, either external or internal. Large
jar 50c. Sold by All Dealers.

SUGGESTIONS FOR THE HOUSEWIFE.

Hot milk is even better than boiling
water for removing most stains.

Books keep better when exposed to
the air than when shut up in a book-
case.

Pearl knife handles should be clean-
ed with a rag dipped in fine salt, then
polished with leather.

To clean a spice mill grind two
tablespoons of rice through the mill
and all traces of the spice will be re-
moved.

Sprinkle salt or cloves on the shel-
ves of pantries where ants are trouble-
some, for both are objectionable to
these insects.

Paint stains on floors may be scour-
ed off by soaking them for a little
while in turpentine or benzine and
then rubbing them with pumice stone
or glass paper.

To remove feathers from one pillow
to another, take a tin can with both
ends melted out (or, better still, make
a large pasteboard tube), tie or sew
firmly an end in each pillow and shake
feathers through.

Steep some tea leaves in water for
an hour, then strain them out, and
use the liquid for varnished wood.

This decoction gives the woodwork a
cleaner, fresher look than when wash-
ed with only soap and water.

For whitening boards or cleaning
marble take half a pound each of soda,
powdered chalk and powdered pumice
stone, stir together in a small quan-
tity of water and then add half a
pound of soft soap. Mix together in
a paste and use as soap with a
scrubbing brush.

Put a little powdered pumice stone
between the layers of a folded piece
of soft muslin and stitch round the
edges to prevent the powder from
falling out. Rub lamp glasses or win-
dow panes with this dry cloth and
they are clean and sparkling almost
immediately. Enough powder will
remain in the cloth for use many
times.

IMPORTS FALLING OFF

OTTAWA, Thursday.—The Cana-
dian Trade figures for April show a
continued falling off in imports, the
total being \$20,201,409, a decrease of
\$3,123.87 compared with April, 1907.
Exports of domestic products, on the
other hand, show a slight increase,
totaling \$10,294,828, as compared
with \$9,751,849 for April last year.

The grand total of Canadian trade
for the month was \$30,976,337, as
compared with \$40,725,969 for April,
1907.

Psychine Missionaries

A friend of Dr. Slocum Remedies
writes: "Send a bottle of Psychine to
Mrs. W. . . They have a daughter
in decline, and I believe it would
help her. I have mentioned your
remedies to the family, and also cited
some of the miraculous cures accom-
plished inside the last 18 years, of
which I have knowledge."

ach or other constitutional trouble cured
by Psychine. At all druggists, 50c and
\$1.00, or Dr. T. A. Slocum, Ltd., Toronto

SUMMER HOTELS HIGHLANDS OF ONTARIO.

The Grand Trunk Railway System
announces that arrangements have
been completed for two handsome
additions to the chain of hotels
throughout the Highlands of Ontario.

The Wawa Hotel on Lake of Bays,
one of the finest summer hotels in the
Northern Resorts of Canada, is near-
ing completion and work is under-
way on the new Highland Inn situat-
ed overlooking Cache Lake at
Algonquin Park station. The High-
land Inn will be of the cottage type,
cosy conveniences colonial fireplaces
in the dining and living rooms,
spacious piazza and most charming
outlook over lake, mountain and
virgin forests; in fact all the comforts
of civilization are transported into
this virgin wilderness. Double daily
mail service, telegraph and express
facilities at this point with excellent
train service will make this hotel
unique and attractive for a restful
sojourn so remote from the turmoil of
the cities, but yet with all necessary
facilities for communication with the
outside world. The Highland Inn is
situated about 1500 ft. above sea
level giving it by far the highest
elevation any summer hotel in
Eastern Canada. A good boat livery
and corps of guides will be maintained
and tourists who desire to make
extended trips through the Park will
be outfitted and provided for in every
respect without rendering it neces-
sary to bring any baggage excepting
wearing apparel according to length
of sojourn. These new hotels will
provide every comfort and facility for
the enjoyment of guests and the cost
of accommodation will be so reason-
able that it will not deter anyone of
travelers from coming and enjoying
this. In addition to this they will
enter to the tourist trade from Great
Britain where the Grand Trunk is
organizing trips of parties and
individuals for a lump sum of expense
including hotels from the time tour-
ists leave home until they return.
Such trips need not occupy more than
the average holiday, say one month,
and will embrace the ocean trip, an
opportunity of becoming acquainted
with Canadians and Canadian affairs
and the entire cost will not exceed
that of the usual summer holiday in
Switzerland or other European Res-
orts.

Mine's Liniment used by physicians

ARE YOU READY FOR YOUR CHILDREN?

"Are the great majority of men and
women ready for their children when
they come to them?" asks Mrs. Chris-
terhouse Herdick in the May Woman's
Home Companion. "Would you com-
mit to the care of the average parents
an important enterprise in which you
are especially interested, and to which
they have given no more study than
they have to parenthood, secure that
right feeling and good will would in-
sure an ultimate happy result?"

"In spite of the apparent light-heart-
edness with which the responsibility
is usually assumed, it is not an easy
thing to be a parent, to fill the pos-
session into which men and women rush
without a title of the thought and
preparation they would bestow upon
a calling of infinitely less importance."

To take charge of the healthy welfare
of a little child is no such trifling mat-
ter that a heedless girl with no knowl-
edge of life forces, of hygiene, of dietet-
ics or of ordinary sanitation should
assume it as lightly as she would the
care of a new doll. More perilous
even than this are the issues involved
in the drill of a child in habits of obedi-
ence by a woman of untrained self-con-
line, in self-control by a woman who
does not know herself, in knowledge
by one who is herself an infant in her
perception of all that underlies life
and death, mortality and immortality

Whenever Ramsay's Paints are
applied to any surface in a room, that
room immediately comes into promi-
nence for style and beauty. These
paints are sold by THE STOKHART
MERCANTILE CO. and the price is
just right for good honest paint. Ask
to see color card.

GRANTED CHARTERS

Minard's Liniment lumberman's friend

To save moisture in the spring har-
row the ground after plowing before
clouds become hard and difficult to
crush. Spring plowed soil is soon
benefitted by immediate rolling fol-
lowed by a harrow to give a good
soil mulch. Use the roller with
caution on clayey soils. Best results
are obtained on light soils.

New Police Regulations

FREDERICTON, Thursday.—The
police of the capital will be placed
under the control of a commission if
the act now before the legislature is
passed. The commission will take
effect on July 2nd.

IN MEMORIAM.

Lines written by Jennie Black to
her sister Pearl.

O sister, darling sister,
I long for you to-day;
I want you when I'm sitting still,
I want you when I play.

The boys are kind and gentle,
The baby fair to see;
But there's none like you, dear
sister.

There's none like you to me.
You went away so quickly,
You never said good-bye
I want to kiss your cheek again,
And look into your eye.

Are you in heaven, sister?
Is it very far away?
O sister, don't you want to stay?
They tell me Jesus loves you
In your new, glorious home;
O sister won't he love me too,
And won't he let me come?

JOINED R. C. CHURCH.

Nine or more Episcopal clergymen
of Philadelphia have, within the last
three weeks, joined the church of
Rome; also a number of laymen.

P. W. A. Want Conciliation.

OTTAWA, Friday.—The depart-
ment of Labor has received an applica-
tion from J. W. Moffat, presi-
dent of the Nova Scotia Provincial
Workmen's Association making applica-
tion for a board of conciliation and
investigation under the Lemieux act
to adjust matters at issue between the
1750 employees of the Nova Scotia
Steel Company and the management.
The wages question is the principal
point in dispute. The men have ap-
pointed J. W. Maddis, of Sydney, as
their representative on the board.

REVENUE RETURNS ARE LARGE

News of Earthquake Expected
From Columbia, South
America.

OTTAWA, Friday.—The Total re-
venue for the fiscal year ending Mar-
ch 31st last as entered so far is \$95-
907,070. The total expenditure \$93-
069,058, on consolidated total account
and \$21,531,892 on capital account.

News of a serious earthquake un-
doubtedly from some place in Columbia,
South America, is hourly expected at
the Dominion Observatory here. Ser-
ious disturbances were recorded on
the seismograph at observatory about
3.30 a. m. today. It is estimated
that the disturbance area is about 2900
miles here. Quake lasted two and a
half hours.

WILL NOT USE PEAT AS FUEL

MONTREAL, Thursday.—Grand
Trunk officials deny the report from
Toronto that they have contracted to
use peat as fuel instead of coal.

DAMAGE NOT AS BAD AS REPORTED

QUEBEC, Thursday.—The govern-
ment steamer and ice breaker Mont-
calm was floated by the aid of divers
and steam pumps yesterday and is
now ready for dockage. The damage
is not as great as anticipated, and it
is said the repairs necessary can be
perfected in fifteen days.

Waylaid and Robbed

CHARLOTTETOWN, Thursday.—
S. F. Tabush, a well-known picture
dealer, formerly of Toronto, but now
of Charlottetown, was waylaid about
nine o'clock Wednesday night when
driving from Murray Harbor to Mur-
ray River, and robbed of \$80 cash
and his watch and chain. Two men
dragged him out of the carriage and
rolled him in the mud.

SCOTCH FARMERS COMING TO LOOK CANADA OVER

OTTAWA, Wednesday.—Twenty-two
Scottish farmers will arrive in Cana-
da during August and September on
the invitation of the government to
make a tour of the country.

They will be selected by Capt. Sin-
clair, secretary of the state for Scot-
land, who is well-known in the capital.

To-day is a part of the future we
worried about yesterday.

THE COME AND SEE SIGN

This sign is permanently attached
to the front of the main building of
the Lydia E. Pinkham Medicine
Company, Lynn, Mass.

It means that public inspection of
the Laboratory and methods of doing
business is honestly desired. It means
that there is nothing about the busi-
ness which is not "open and above-
board."

It means that a permanent invita-
tion is extended to anyone to come
and verify any and all statements
made in the advertisements of Lydia
E. Pinkham's Vegetable Compound.

Is it a purely vegetable compound
made from roots and herbs—without
drugs?

Come and See.

Do the women of America contin-
ually use as much of it as we are told?

Come and See.

Was there ever such a person as
Lydia E. Pinkham, and is there any
Mrs. Pinkham now to whom sick
women are asked to write?

Come and See.

Is the vast private correspondence
with sick women conducted by
women only, and are the letters kept
strictly confidential?

Come and See.

Have they really got letters from
over one million, one hundred
thousand women correspondents?

Come and See.

Have they proof that Lydia E.
Pinkham's Vegetable Compound has
cured thousands of these women?

Come and See.

This advertisement is only for
doubters. The great army of women
who know from their own personal
experience that no medicine in the
world equals Lydia E. Pinkham's
Vegetable Compound for female ills
will still go on using and being
benefited by it; but the poor doubting,
suffering woman must, for her own
sake, be taught confidence, for she also
might just as well regain her health.

NOT A SUCCESS

On a southern plantation the dairy
hands were accustomed to do the mil-
king, squatting down in a primitive
fashion, until the owner introduced the
milking stool.

But the first experience with the in-
novation was not a success. The ne-
gro who sallied forth with the stool
returned bruised and battered, and
with an empty pail.

"I done my best, sah," he explained.
"Dat stool looked all right to me, but
the cow, she won't sit on it!"

NEWCASTLE, MAY 20th, 1908

CONSERVATIVE OBSTRUCTION

For many days the Liberal-Conservative Opposition at Ottawa have purposely prevented the voting of supply, because of certain clauses of the proposed Amendments to the Election Act.

The dispute is over the making up of the federal voters' lists in Manitoba, British Columbia, and municipally unorganized portions of other provinces.

One of the first acts of the Liberals, after attaining to power in 1896, was to accept for federal purposes the electoral lists as prepared by the provinces, thus doing away with the preparation of special lists by the Dominion authorities. As the provincial electoral laws were generally more democratic than the national had been, this was a distinct step forward, and one much appreciated by the average citizen.

In New Brunswick and most of the other provinces the making up of provincial lists is a simple matter, as the municipal assessment rolls are used, and these are admittedly as complete and non-partisan as it is possible to have them. Had Manitoba and British Columbia as fair a system of registry, their provincial lists would not, in all probability, be interfered with. But in those two provinces, it seems that the lists are prepared by provincial officials, who are guided not by municipal lists but merely their own knowledge and the voluntary applications for registry made by the would-be voters. Further complication arises from the fact that in those two provinces the provincial ridings bear little or no geographical relation to the federal constituencies.

The Government's amendments to the election law at first proposed that in the aforesaid districts the necessary revision of the voters' lists should be done before each federal election by Dominion officials acting under the supervision of the County Court judges who, by the way, are provincial appointees. Later, the Government offered to insert a clause that these judges should themselves be the revisors of the lists and adjusters of boundaries.

This last offer seems to be fair and reasonable. If the provincially appointed judges should act unfairly to the Conservative party who appointed them, it would then be time to have the law still further amended. But the Conservatives at Ottawa did not welcome this concession on the part of the Government but contended that the present system should not be interfered with. To enforce their demand, they refused to allow a vote taken on supply, thus tying up the salaries of the civil service, etc.

It rather looks as if the Conservatives, having in the past made unfair use of their power over the lists, are determined at all hazards to maintain their advantage. They do not offer to guarantee that their party in provincial control will, if the amendments are withdrawn, rearrange the boundaries of local ridings so as not to overlap those of the federal constituencies and provide for a fair system of provincial registry. But without giving such guarantees they insist on objecting to the changes proposed by the Government.

In both Dominion and Provincial legislatures, the cities of Canada are as a rule allowed much less representation than by population they are entitled to while the rural sections have too much representation. Both Government and Conservative parties seem unwilling to give the masses in the cities the voice in parliament to which they have a natural right. If the Opposition would confer a lasting favor upon their country they could do it more effectively by agitating the question of equal representation than by wasting time in seeking to maintain their

For the Children

To succeed these days you must have plenty of grit, courage, strength. How is it with the children? Are they thin, pale, delicate? Do not forget Ayer's Sarsaparilla. You know it makes the blood pure and rich, and builds up the general health in every way.

The children cannot possibly have good health unless the blood is in proper condition. For rect any constipation by giving small laxative doses of Ayer's Pills. All vegetable, sugar coated.

Made by J. C. Ayer & Co., Lowell, Mass. Sole Importers for Canada, J. H. P. & Co., Montreal, Quebec, and all the Provinces.

unfair electoral advantages in the West. It may be smart to hold up the Parliament day after day and prevent the voting of necessary appropriations, but at the end of such obstruction always results to the loss of the party employing it.

PUBLIC OWNERSHIP PAYS.

In public ownership of the telegraph and telephone services, says an exchange, Switzerland takes the record. There are 10,548 miles of telegraph and telephone lines, and the combined wires extend to all railway stations, and nearly every town and village in the country. The government is now going into the business of manufacturing the instruments. The yearly charge for a telephone in office or residence is \$12.45 and the rates for long distance calls are far below similar calls in Canada. An average of three long distance calls a day and the yearly charge of \$12.45 would not bring the total for both services for a year above \$24. The Swiss are showing the rest of the world how to combine low charges with profits, their net earnings last year being \$864,000 on gross receipts amounting to three million dollars.—St. John Telegraph

NEW PARTY IN THE FIELD.

Said to Have support of Liberals in Fernie, British Columbia

Berlin, Ont., May 13.—After two years of quiet work, the Socialists of North Waterloo decided to place a candidate in the field for the provincial campaign at a well-attended meeting in Brinkley's Hall, to-night, when they chose Ald. H. Martin, of the City Council, as their standard-bearer. The event marks a new era in politics in this riding.

Lethbridge, Alta., May 13.—William Davidson, of Sinton, B. C., ex-M. P. for Skeena, in the British Columbia Legislature, was nominated by the Socialists of the Fernie district to contest the riding against W. R. Ross, M. P. P. There was a large delegation from Michel, Hosmer, Coal Creek and other towns. The Socialist candidate will have the support of the Labor men and the Liberals, who will not put a man in the field.

RESOLINE ANTISEPTIC

A simple and effective remedy for SORE THROATS AND COUGHS. They combine the germicidal value of Cresol with the soothing properties of slippery elm and licorice. Your druggist or send 5c. to J. H. P. & Co., Montreal, Agents, Montreal.

WILL SAIL JUNE 19th.

OTTAWA, Friday.—The Brierley Rite team will sail from Quebec for England on June 19th.

The Kind You Have Always Bought

Bears the Signature of J. H. P. & Co.

Sir Hibbert Tupper has definitely refused to accept the Conservative nomination in Vancouver. The day of the Tupper has evidently vanished.

A New Orleans woman was thin. Because she did not extract sufficient nourishment from her food. She took Scott's Emulsion. Result: She gained a pound a day in weight.

ALL DRUGGISTS: 50c. AND \$1.00

KIT CARSON.

Feet of Which the Hardy Frontiersman Had No Recollection.

One of the most noted of the hardy western frontiersmen was Kit Carson, to whom, with Daniel Boone, belongs the credit of having always dealt fairly with the various Indian tribes, as they themselves acknowledged. The withdrawal of Carson by the government was the cause of a great war. Captain Henry Inman in his book, "The Old Santa Fe Trail," relates an amusing incident of the gallant pioneer.

My own conception of Kit Carson as a child was that he was ten feet high, that it would have required the strength of two men to lift his rifle, that he usually drank a river dry and picked the carcass of a whole buffalo clean as easily as a lady does the wing of a quail. Years after, when I made the acquaintance of the foremost frontiersman, I found him a delicate, reticent, under-sized, wiry man, the very opposite type of what my childish brain had created.

One day while Kit was at the fort I came across a periodical that had a full page illustration of a scene in a forest. In the foreground stood a gigantic figure dressed in the traditional buckskin.

On one arm rested an immense rifle. His other arm was round the waist of the conventional female of such sensational journals, while in front half a dozen Indians lay prone, evidently slain by the hero in the impossible attire in defense of the posterous female. The legend stated how all this had been effected by Kit Carson.

I handed it to Kit. He wiped his spectacles, studied the picture intently for a few seconds and then said: "Gentlemen, that that may be true, but I haven't got no recollection of it."

A JOURNALISTIC HOAX.

Trick the Harvard Lampoon Played on the Crimson.

Speaking of the Crimson, Harvard's daily newspaper, reminds every Harvard man of the Lampoon's master stroke—or joke—played on that dignified and unsuspecting sheet on Memorial day, 1901. The Crimson had announced that it would not appear on that holiday, but inconspicuously, so few were surprised to find their Crimson at their door that morning as usual. Their surprise began, however, when they scanned its contents. This always serious sheet seemed to have become most frivolous and irresponsible during the night, for in its columns all sorts of weird and fantastic statements appeared.

The news, though clothed in the usual heavy, dignified Crimson style, was wildly revolutionary in character. Among the items that appeared were: "Plot to Blow Up Memorial Hall," "Strong Men to Get the Yarns," "Wellesley Crew to Be Guests of the University" and most important of all a notice, "Lampoon Celebration at 7 Tonight." Then the joke came out. The Lampoon had published the famous "fake Crimson," the joke was known throughout the country, and that night Lampy's sanctum was the scene of bacchanalian revelry. When the following year the Crimson editors sat up all night with injunctions against a repetition of the fake the joke was again on them, for Lampy differs from history in that he never repeats himself.—K. B. Townsend in Bohemian.

Mississippi Oratory.

Jasper county has been noted for the high grade of eloquence produced by the public men of that part of Mississippi. An appeal to the "mighty men of Jasper" made by one of that county's great men when a candidate to the voters who elected him is as follows:

"Mighty men of Jasper, if I can be instrumental in the hands of my people in adding a few jewels to those that now shine in imperishable luster on the golden brow of our proud commonwealth, whose associated radiance like the lambent beauty of the star, is to guide the footsteps of her children along the paths of peace and prosperity, security and happiness, I shall then have accomplished the ambition of my life."

Superlative Beauty. A Swedish newspaper recently invited its readers to state in a few words what they considered the most beautiful thing in the world. The first prize was carried off by an anonymous answer, "The eyes of my mother." More imaginative was the reader who won the next prize by suggesting, "The dream of that which we know to be impossible."

The most amusing answer was that which read, "The most beautiful thing in the world is to see a man carrying his mother-in-law across a dangerous river without making any attempt to drop her in."

Proved Useless. "When you was little, was you spanked like I am to make you good, papa?" "I was, my son, and spanked hard too." "Then you can't fool me no more, 'cause if it didn't make you good it won't make me good."

An Escape. Maid—No, mum; Mrs. Dodge is out. Visitor—How fortunate! When I saw her peeping through the curtain as I came up the path I was so afraid she would be in.—London Opinion.

Every one ought to measure himself by his own proper foot and standard.—Horace.

EVERY WORD TRUE.

If you send us the size of your head, we will hat you. Give us the size of your neck, and we will collar you, and shirt you. Give us the size of your hand, and we will glove you with kids. Give us the color you prefer and we will tie you, and suit you, and give you more and take less than anybody you ever dealt with. If you are broken down, we will brace you up for 50c. After being booted you'll be the happiest and best dressed man in town.

Brotherhood Railway Employees

Many Maritime Province Men Elected Officers—Next Meeting Will be in Moncton.

At the convention of the International Brotherhood of Railroad Employees in Boston last week, Jas. W. Clarke, of Moncton, was appointed vice-president for Canada; W. A. Hope, of Halifax, 4th vice-president; W. J. McPherson, of Sydney, 5th vice-president; Geo. A. W. Robertson, of Charlottetown, deputy; S. C. Alward, of Moncton, chairman of the board, and Wm. Perry, of Moncton, a member of the board of directors. M. McLeod, of P. E. Island, W. J. McPherson, of Sydney, and J. A. Stevens, of Campbellton, were placed on a committee to revise bye laws for divisions. W. N. Collins, of St. John and A. R. Mosher, of Halifax, were members of the credentials committee. S. C. Alward, of Moncton, was appointed press committee. Mr. Alward was made chairman and, M. McLeod, of Charlottetown, a member of the committee on constitutions; J. W. Clark, of Moncton, chairman, A. R. Mosher, of Halifax, and W. N. Collins, of St. John, members of the committee on salary; J. A. Stevens, of Campbellton, chairman, and G. A. W. Robertson, a member of the committee on resolutions; Chas. Cole, of Moncton, chairman, and J. McEcheran, of Pictou, a member of the grievance committee. Other maritime province delegates present, besides those named, were J. J. Eestham, of Halifax; J. A. Wright, of Truro; H. H. Ingram, of Newcastle; W. N. Riggs and John Williams, of Charlottetown.

TWO LITTLE FELLOWS WANDER.

Drift Across River and Found Twenty-One Miles From Starting Point.

Two little boys, Rob McKenzie, aged six, and Godfrey Taylor, aged 3; who were visiting their grandfather Luther Williston, at Bay Du Vin, wandered away from home on Friday, got into a scow which drifted off from the shore, and carried them across the river. The scow was leaking badly and if a man had not appeared to take them off when near the shore they probably would have been drowned. After getting on shore they continued wandering until on Saturday noon they arrived at Ferryville, 21 miles from their starting point. People there questioned them and found out their identity. The Taylor boy belongs to Brockton, Mass., and the little McKenzie boy lives at Douglastown with his mother. They were put on board the Miramichi at 2 o'clock in charge of Capt. Bullock, who took them as far as Douglastown where Mrs. McKenzie looked after them.

A lazy man is an awful joke on his wife.

SHOES THAT PLEASE.

Our women's shoes never fail to please the most critical eye. They have a gracefulness and dash of style that all women like. The shoe is a very important item of a woman's dress for it enhances or detracts from her entire costume. We've every shape and model needed for every foot requirement.

FOR 5 YEARS EACH SPRING

FACE AND SCALP ERUPTIONS

TROUBLED THIS LADY TILL ZAM-BUK CURED.

Miss Mary Levesque, 313 St. Jacques St., Montreal, writes:—"I have found Zam-Buk an excellent remedy for skin eruptions. Up to this Spring I was bothered for almost five years with a red rash, small pimples and sores on my face and on the scalp thro' the hair. Nothing I used would clear this rash from my face until I began using Zam-Buk. This salve has effectually and I believe permanently taken off those unsightly pimples and sores from both scalp and face. I shall recommend Zam-Buk to all my friends."

For itching eczema and all skin diseases Zam-Buk is without equal. It is good for rheumatism when well rubbed in. Piles also yield to Zam-Buk. All stores and druggists, or Zam-Buk Co., Toronto.

Quebec Elections

According to the Montreal Star the present stage of the developments there will be contests in the following constituencies in the coming Provincial election.

Beauce—J. A. Godbout, Lib.; Dr. Cloutier, Cons.

Champlain—A. Bergevin, Lib.; J. G. Laurendeau, Cons.

Boisbrousseau—J. H. Kelly, Lib.; A. Mousseau, Cons.

Brome—W. F. Vilas, Lib.; E. Fleury, Cons.

Chambly—P. C. Nault, Lib.; A. Beillevue, Ind. Lib.

ON THE ROUTE AGAIN.

MONTREAL, Thursday.—The damaged Dominion liner Ottawa, passed Three Rivers at 4 o'clock this morning on her way to Montreal.

TENDERS FOR DREDGING.

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Dredging," will be received until Tuesday, May 26, 1908, at 4:30 P. M. for dredging required at the following places in the Province of New Brunswick:

Buctouche Beach, Buctouche Harbour, Caraquet, Cape Tormentine, Dalhousie, Loggieville, Miramichi Bay, Maguapit Lake, Oromocto Shoals, Pointe du Chêne and Quaco. Tenders will not be considered unless made on the form supplied, and signed with the actual signatures of the tenderers.

Continued specification and form of tender can be obtained at the Department of Public Works, Ottawa. Tenders must include the towing of the plant to and from the works. Only dredges can be employed which are registered in Canada at the time of the filing of tenders. Contractors must be ready to begin work within twenty days after the date they have been notified of the acceptance of their tender.

An accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, for six thousand dollars (\$6,000.00), must be deposited as security for the dredging which the tenderer offers to perform in the Province of New Brunswick. The cheque will be returned in case of non-acceptance of tender.

The Department does not bind itself to accept the lowest or any tender.

By order, **FRED GELINAS**, Secretary.

Department of Public Works, Ottawa, May 6, 1908.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

Honors for Old Legislator

FREDERICTON, Friday.—Urban Johnson, ex-M. P. for Kent County, is here on a visit. The members of both sides of politics profited by his presence to present him with an address and a well filled purse.

The ceremony took place in the Assembly rooms immediately after the adjournment of the House today.

The address referred to Mr. Johnson's having served Kent County as a representative during twenty-three years, having served under nine premiers. Mr. Johnson was a captain and major in the Kent County militia in 1865. He was first elected to the Assembly in 1869. He is now 84 years of age and is still a very active man. Mr. Johnson made a very suitable reply to the address.

About Canada

Did you know?

That Canada has thirty religious denominations and something like twenty-four thousand churches.

That Canada has an Asiatic population estimated at about thirty thousand.

That the immigration of 1907 averaged 760 a day?

That between 1901 and 1911, according to the estimate of Sir Wilfrid Laurier 2,300,000 people will have come to Canada?

That Canada's lobster plants are valued at \$1,426,309 with 700 lobster canneries?

That Canada has over \$8,000 men employed in the fishing industry?

That Canada contains one third of the area of the British Empire?

That the value of the grain and grain products exported in 1906-7 was over \$35,000,000?

That eighty per cent. of Canada's area lies to the north of Lake Superior?

That Canada is larger than the United States, including Alaska, by more than 125,000 square miles?

That Canada has the largest forest area of any country in the world?

That Canada has 120 species of native trees?

That, at the end of 1906, the life insurance in force in Canada was \$656,000,000?

That Canada ranks tenth in the list of ship owning countries?

That in 1900, Canada's shipping totalled \$1,000,000 tons?

That Canada sent over 8,000 men to South Africa during the Boer war?

That Canada has the greatest nickel deposits in the world?

That Canada produced over \$19,000,000 worth of coal in 1906?

That Sir Charles Tupper and Hon. A. McDonald alone of the Fathers of Confederation survive?

That in 1904 the British flag was raised on Ellesmere Land, 12,000 miles north of the United States boundary?

That Canada has over 11,000 post offices?

That Canada was the first colony of the Empire to establish the penny post?

That Canada's postal surplus for 1907 was over \$1,000,000?

Action Against Cornwall Mayor

MONTREAL, Friday.—S. F. Callaghan, Inspector of the Montreal Travelers' Insurance Company, has taken an action for five thousand dollars against W. J. Desrosier, Mayor of Cornwall, for libel. Callaghan claims that he has an argument with the Mayor of Cornwall over some financial matter and that the latter afterwards went to the office of the Travelers Company and made false statements about him to the officials.

Celebration of Arbor Day

Directions About Cultivation of Soil and Planting of Trees

In growing trees, shrubs or flowers successfully, there are four things necessary: first, that the land shall be properly prepared; second, that the plant shall be a good one; third, that it is properly planted; and fourth, that it shall be cared for in the right way afterwards.

We will look first of all to the ground. On the farm, where there is generally plenty of room, and where there is horse power to do the work, the problem of getting the land into good condition is easily solved. The best preparation of the land is summer following the previous season or the growing of some cultivated crop that leaves the ground mellow with a good much of loose soil on top. To grow potatoes on ground intended for planting trees the season following, is a plan that works well. But on the school ground, where much more Arbor Day planting, should take place, the question of soil preparation becomes a more difficult one. About the worst state in which soil can be put for the reception of trees is to have it in sod, tramped hard. But this is the very state of the average school ground.

Under such conditions it would probably pay in the long run not to do too much permanent planting the first year, but to put most of the attention upon the preparation of the ground for trees to be set out the next year.

It would be well, first of all, to lay the ground out somewhat deliberately so as to be sure that the general effect done, then do only such parts of the work as would be possible this year. It takes no more energy to plant half a dozen trees in such localities than other things may be fitted in among them with a good effect later on than it does to set out at random in such a way that half of them will require to be dug up in years to come.

As a general rule small trees are much more easily transplanted than the large ones, but for the school ground it will mostly be best to set out trees at least four, five or six feet high, small trees being so easily broken and destroyed. If trees that had previous been transplanted can be had for a nursery or farmer's lot, these would be the best to get hold of, because the root system would be compact, and thus a large number of roots could be dug up; but in some instances trees will be taken from spots where nature has planted them. In such cases, the trees growing in open places; apart from other trees, will always be better than those found in the midst of a clump. The trees in the open will be more sturdy and much better rooted.

Take up all the roots that may be had, carrying as much earth as possible with the roots.

In setting out, have deep wide holes. Flower pot holes in the sod are of no use for tree growing. The sod should be thoroughly dug up and kept well cultivated three or four feet back from the hole.

The first mellowed soil procurable should be sifted in about the roots, and when they are well covered with earth should be well firmed down with the foot so as to make the tree quite steady and secure. Then throw some loose earth on top, and see that it is kept loose throughout the season.

Plant the tree about two or three inches lower than it was growing before and set it in a depression rather than have the earth banked about it. Thus the water will run toward the tree and soak in about the roots. Many a tree dies simply because the rains all run away from it as fast as they fall.

Trim the top back so as to balance it with the root system. If half the rootlets have been lost, half the top should be trimmed off. Generally, it will pay to take off considerably more than half the top and this should be done by shortening each limb, rather than by cutting out half of them completely. If there is more top left on than the roots can support, the tree is sure to die. Some of the ground that is not planted this spring could be plowed or dug up, worked down finely and sown to annual flowers. They may not do well this season but if they are set in rows, and the surface kept hoed throughout the summer, the land will be in nice shape for planting with something permanent next year if not too much exposed to the wind.

Plant the tree about two or three inches lower than it was growing before and set it in a depression rather than have the earth banked about it. Thus the water will run toward the tree and soak in about the roots. Many a tree dies simply because the rains all run away from it as fast as they fall.

the outside, so that finally there will be large trees, big shrubs and climbers against, the side and rear fences, and smaller shrubs, such as spiraea, barberry and Ginnalian maple inside, and flowers inside of these. A hedge of Caragana right across the front of the school ground, just inside the fence, would be splendid, and it is as hardy as the poplar. A few clumps of shrubs scattered about the lawn also appear to good advantage.

In addition to planting trees, much work may be done on Arbor Day in the grounds generally. It is said that some places in Nebraska the boys have even fenced the school grounds.

Then too one mission of Arbor Day should be to make every child know more about our trees and plants, how they grow, when their seeds ripen and how the trees are reproduced.

Besides this the economic value of the forest might well be impressed upon the minds of the children, so that the next generation will be more ready than the present one to use economically this gift of Providence. A circular on Arbor Day issued by the United States Forest Service says:

"What child has not seen a muddy brook? Yet this sight, so common in the spring, is full of suggestion for a forest lesson. The stream is discolored by the earth that it has gathered from the soil. This carries us back to the streams source, in the forest springs. Again, it shows us with what force the water has rushed over the exposed ground where there was no forest to shield and bind it. In just this way the Mississippi tears down and flings into its bed, each summer, more soil than will be degraded with years of costly labor to make the Panama Canal. An experiment with fine and coarse sills, stirred quickly in a tumbler of water, and then allowed to settle, explains how the stream continues muddy while it runs swiftly, and how it clears again as it slackens on more level stretches, dropping the soil to the bottom."

"On any steep, plowed hillside, or on any railroad or trolley embankment exposed soil may be seen washing with the rain. A forest on a mountain slope may be pictured by a cloth upon a tilted table; then if water be poured on the higher edge, it will creep downward through the cloth and drip slowly from the lower edge, as would rain falling upon the forest. If now the cloth be plucked off, and water still poured, we may observe at once what happens when such a forest is destroyed."

This is an admirable illustration of the difference in run-off between the spongy soil of a forest and the bare soil or bed rock from which the forest litter has been removed.

In many cases the trees planted by school children on Arbor Day are neglected afterward and allowed to die. In many other cases, however, they are carefully looked after by the children, and in Idaho, South Dakota, and Utah the law requires the school boards to care for them during the vacation. It would be well for school boards in this country to do the same thing.

The All-Red Line

LONDON, Friday.—The Canadian Associated Press learns that Sir Thomas Shaughnessy will on Tuesday give evidence before the Board of Trade about the all-red route.

Hamar Greenwood is arranging to take a large party to Canada in August.

JAPANESE ELECTIONS.

TOKIO, Thursday.—Throughout all Japan there is much interest in the general election, which will take place Friday. The Liberal party expects to poll a large majority of the votes, against the opposition, which has appealed to the anti-military sentiment of the voters, urging a revision of the budget and financial methods.

Some women even condescend to help their husbands with the housework.

Women Suffer Agonies from Kidney Trouble

GIN PILLS CURE THEM

There is Mrs. Ripley, for instance. She suffered terribly with her back. It ached, ached, ached—all the time. Even in bed, it seemed as if she could not get easy. It finally became so bad that housework was impossible.

She certainly was a discouraged woman when she began to take GIN PILLS. And there isn't a happier, healthier woman in the Dominion than this same Mrs. Ripley to-day.

I cannot refrain from writing you the benefits I have received from GIN PILLS. Before I had taken GIN PILLS I suffered dreadfully with my back, and had suffered for twenty years. I had given almost everything but got no relief until I got GIN PILLS.

I have taken six boxes and now I have not the sign of a pain or an ache in my back. I am now 48 and feel as well as I ever did in my life. There is nothing on hold a place GIN PILLS for pains in the back to which women are subject. Yours truly,

Mrs. WILLIAM P. RIPLEY.

Mrs. Ripley had serious Kidney Trouble. And the sick kidneys were making her back ache—were giving her those splitting headaches—were sapping her strength—and dragging her down. GIN PILLS really saved her life. GIN PILLS cured her kidneys. She has been well ever since. GIN PILLS are a grand medicine for women.

Try them at our expense. Mention this paper when writing and we will send you a free sample so you can see for yourself just what GIN PILLS will do for you. The Bole Drug Co., Winnipeg, Man.

Box, a box—6 for \$2.50. At all dealers.

The W. O. T. U. will meet on Tuesday, May 20th, in the Mission Hall at 3.30 p.m. All are cordially invited.

On Friday evening the base ball game between the Hobbs and Sallors resulted in a victory for the former. Score 8 to 4.

The water has started falling on the small streams on the Miramichi but conditions for driving are still good. The drive on the sisters is expected to be out this week while the drive on the Dunganron is coming along well.

The Sailor Base Ball Team will play the Loggieville Team on Monday, May 25th, in Loggieville, a good crowd should attend this game.
A. S. Greenley, Man.
James Miller, Sec.
Frank McNeil, Capt.

The Ladies Aid of St. James church intend holding a 7 Cent Menu Tea in the Sunday School Hall on Friday, May 20th. Tea served from 5 to 7. Admission seven cents.
No. 33-2wks.

Rev. I. N. Thorne left last week for Pennfield, Charlotte Co., where he will take charge of the Pennfield-Beaver Harbor Baptist circuit. He will be much missed in this country.
Rev. H. D. Worden is now supplying the Whitneyville-Lyttleton circuit.

On Saturday, at Newcastle, the Heavy Hitters of Newcastle defeated the Chatham Nightingales at base ball, 18 to 7. The Newcastle team were Percy McCormick, capt. and J. Mitchell, c.; C. Curry, fb; W. Allison, sb; H. Condon, lb; S. Mitchell, s.p.; B. McLean, rf; W. McGrath, cf; H. Morrissey, lf.

DREAMLAND.
This week, at Dreamland, the pictures are better than ever; and Frank Brown delights the audience with his illustrated solos, which bring repeated and insistent encores. There is no abatement of interest, the attendance keeping up to the usual high mark. The entertainment is varied and well worth the money.

LOBSTER FISHING.
Good catches of lobsters are being made by skimmers, but they have so far been hampered by lack of bait. The first run of herring was small, both in quantity caught and in the size of "the fish." Better catches have been made lately, but the weather has generally been unfavorable for overhauling the nets.—Richibucto Review.

Thomas A. Clarke, who has been the manager of the business of Clarke & Co. for a number of years, has decided to retire from active work in the company and devote his time to insurance. H. R. Moody of Bridgetown, N. S., has been engaged as manager and will take charge this week. Mr. Clarke will still retain his interest in the business, which will continue under the name of Clarke & Co.

An example of what ability and perseverance can accomplish against heavy odds is furnished by the case of Mr. Grover C. Livingstone, son of the late Gordon Livingstone, of Harcourt, who, though totally blind almost from infancy, is now pursuing the regular course, leading to the degree of B. A. at Dalhousie College, Halifax, having first completed a course at the Halifax School for the Blind. Mr. Livingstone has just completed his second year at college, and at the examinations just held passed in all subjects, winning first-class honors in French and Latin and second honors in English, a record excelled by few of his fellow students, none of whom are handicapped as he is.

A GRAND ENTERTAINMENT.
Miss E. Pauline Johnson and Walter McRae had a good audience at the Opera House on the 14th. Their program was nearly all new, and much longer than on their previous visit. Miss Johnson recited "How Red Men Die," a tale of her ancestor's death in preference to dishonorable captivity; "His Sister's Son," a tale of an Indian girl who was unfortunate in her dealings with the white missionary and his family; and the celebrated poem, "Canadian Born." All these are of her own composition. The poetry is excellent, and the elocution of the author is of a very high order.
Mr. McRae recited with wonderful realism and profound effect, many poems of Mr. Drummond, in the Habitant dialect.

Both the entertainers took part in the comical drama, "Fashionable Intelligence," a play in which the enigmatical young widow Fitzdams is brought to terms and agrees to marry Harry Edgerton, a man about town. The talent of Miss Johnson and Mr. McRae is recognized all over Canada, and Newcastle will welcome them should they return here. They were to Loggieville on Friday night, and will appear in Millerton, under the auspices of the Baptist church, about the first of this month. No one should fail to hear them.

John Gould, Jr., has started a new general store in Nelson.

Thomas Foley's new auto stage has arrived, and went on the road between Nelson and Loggieville on Monday.

George Nowlan of Nelson, while working at the slab cutter in Lyncha's mill, Tuesday afternoon, last week, nearly severed a finger of his right hand.

Scott Act Inspector John H. Ashford has brought from Fulton Gjerdt the latter's double tenement house on Jane Street between High and Pleasant Streets, transfer to take place June 1st.

Frank Masson who went to Caranquet on Friday to investigate the rumor that the Gypsies there had a strange child with them, returned on Saturday, having found no trace of his missing child, who has been absent since Monday forenoon, May 4th.

The Sailor Base Ball team will play with the Scorchers on Friday, 22nd. The Sailor line up is W. O'Donnell, c; P. MacLean, p; F. McNeil, fb; F. Greenley, sb; W. Gifford, lb; H. MacLean, ss; W. Ingram, lf; C. Stothart, rf; R. Falconer, cf.

A change in the regulation for the Canadian militia provides for the promotion of lieutenant-colonels to the rank of colonel after 25 years commissioned service and not less than three years as lieutenant-colonel in command of a regiment of cavalry, garrison artillery or infantry, or of a brigade of field battery. It will be necessary to pass a qualifying examination of a practical nature.

LOCAL LEGISLATURE

Continued From Page 1
Mr. Robinson then moved an adjournment, of debate after which the House in committee took up consideration of bills to transfer \$10,000 from the Public Works account to Consolidated fund and to amend act providing for stipendiary magistrates in the Parish of Addington which were both agreed to.
House adjourned till Monday at 3 p. m.

MILLERTON.
Millerton, May 19.—Mr. James Crocker, who has been ill with a gripe, is slowly recovering.
Mr. and Mrs. Dr. Wilson returned on Monday from a visit to St. John.
Preparations for the new pulp mill are being earnestly carried forward. The frame is nearing completion.
Mr. C. C. Crocker spent Sunday in Newcastle.

The fruit tree agent Mr. F. Siddall, of Ellenton, is supplying Millerton and vicinity with nursery stock.

The Bishop of London has disclosed the fact that he composes sermons while shaving. Some day a thin red line may show on the cheek where he unduly emphasized one of the stronger passages.

OBITUARY

JAS. F. MAHER.
The death of Ex-Ald. James F. Maher occurred at his home in Chatham Thursday evening about 10 o'clock of paralysis. The deceased was stricken five weeks ago and never fully regained consciousness. Mr. Maher was an Alderman of Chatham for several years, was one of the Assessors last year, and was appointed again this year. He was in business several years. He was well and favorably known.

JOHN McEACHERN.
The death of John McEachern took place at his home in Millerton on Sunday. Deceased was 37 years old. He leaves a widow (formerly Miss Margaret Sutton of Nelson) and two young sons. The funeral was held at Upper Derby Presbyterian church on Tuesday, a very large number attending, a very large number liked and formally known.

Mrs. ELIZABETH MACLEAN.
Mrs. Elizabeth MacLean, aged 81 years, died on the 14th at her home in Douglastown. Deceased was twice married, her first husband being Alexander Taylor, and her second, George MacLean. She is survived by one brother and one sister—John and Miss Ann Morrison, both of Douglastown. The funeral took place at St. James church Newcastle. Rev. F. C. Simpson officiating.

Although the reichstag meddles with his management of internal affairs to some extent, Emperor William lets outsiders know that he is the power to whom ambassadors are sent.
Dr. Roche did not mean it, but when he declared that the Roblin Government had erased 5,546 names from the voters' lists in Manitoba at one "purging" he gave a pretty strong argument in favor of a Federal system of lists for that province.

BORN.

At Newcastle, May 18, to Mr. and Mrs. W. J. Black, a daughter.

Social Personal.

Mayor Miller was in Moncton last week.

Fulton Gjerdt of New York is home for a days.

Mrs. John Morrissey has returned from her visit to Fredericton.
Mrs. Elizabeth Anslow of Campbellton is visiting friends here.

Rev. and H. A. Brown have a young daughter, born on the 15th. Mr. and Mrs. Allan Wheeler of Fredericton are at the Miramichi.
Major Lawlor of Redbank returned from Bermuda a few days ago.

Mr. D. T. Robichaud of Upper Pokemouche spent yesterday in town.

Miss Jane Mitchell spent several days last week with friends in Loggieville.

John Robinson, Jr., returned on Thursday from a three weeks trip to Madawaska.

Miss Carrie Ross of Chatham spent yesterday afternoon with Mrs. J. D. MacNutt.

Mrs. Donald Morrison and Miss Jean Morrison are spending this week in Fredericton.

L. N. Perry who has been visiting his sister, Mrs. Masson, returned to Wisconsin, Thursday.

Miss Florence Crocker has arrived in New York from Germany and will come home in about two weeks.

Hon. D. Morrison and John Morrissey returned to Fredericton Monday morning, after spending Sunday here.

Mr. and Mrs. George Burnet of Dorchester spent Wednesday and Thursday with Principal and Mrs. B. P. Steeves.

H. Havelock Ingram returned on Saturday from Boston where he was a delegate to the Railway Employees Convention.

Mathew McCarron and Chas. McCabe assisted at the organization of Moncton Lodge Knight of Columbus last night.

S. Carruthers of Bedouque, P. E. I., medical student at McGill, is visiting his sister, Mrs. S. J. MacArthur, at the Manse.

Chas. Crammond, Jr., who a few days ago had a very narrow escape from death on Tomogonops, where he fell with a bro of logs about a hundred feet into the river and sustained a comminuted fracture of the leg just above the ankle is progressing favorably toward recovery. At the time of the accident he was far from home, and was badly chilled from being long in the water before help came.
