## ALLIED OFFENSIVE NOW ON BALKAN FRONT

French Take Trenches on Two Mile Front and Bulgars Driven Back

London, Sept. 12.—The Bulgarian right wing has been rolled back under heavy Anglo-French attacks in the first big pitched battle since the Allies began their offensive in the Balkans. The French War Office this afternoon announces the capture of Bulgarian trenches on a two-mile front to a depth of half a mile in the region north of Majdan.

An official statement from Salonika announces the capture of Yenimah by the French and British.

Press despatches from Athens leave little doubt that the great northward drive of the Allies from Salonika has begun. After thirty-six hours of heavy fighting the Bulgarians are retreating, with the Allies in pursuit, Athens reports.

One unconfirmed report declares that the Bulgarians are also retreating from Eastern Macedonia and have evacuated the forts of Kavala.

Serbian, Albanian, French and British troops are now attacking the German-Bulgarian front in Greece, with Italian and Russian contingents ready to join in the offensive.

## BULGARIAN LOSSES HEAVY

The Bulgars attempted to stem the Serbian advance southwest of Ostrovo Lake by a counter-attack, but were checked and thrown back, suffering enormous losses, it was officially announced at Paris.

While the Bulgarian wings are being pressed back, French artillery has opened a big artillery duel in the centre around Lake Doiran, as if presaging a French advance up the Vardar.

The Bulgarian and the German War Offices thus far have had little to say about the new Allied offensive. The German official statement reports heavy fighting along the Struma, but declares the Bulgars have been successful.

On the southeastern Rumanian frontier and on the western and eastern battle fronts no events of great importance have occurred in the last twenty-four hours. The Turkish War Office made known the presence of Turkish troops with the German-Bulgarian armies invading Rumania and the German War Office claimed further progress for the invaders.

The loss of the village of Ginchy to the French in the Somme operations was admitted officially at Berlin this afternoon. The French report the capture of more German trenches south of the Somme and the repulse of German attacks.

## BRITISH SEIZE BUL-GAR TRENCHES

London, Sept. 12.—French troops, co-operating with the British in the new offensive on the Struma front, in Greek Macedonia, have captured a village from the Bulgarians, it was announced officially today. The British forces which crossed the river have seized Bulgarian trenches on the east bank.

The official announcement follows: "The detachments mentioned yesterday as crossing the Struma at Neopore seized trenches on the eastern bank."

"A French detachment co-operating with the British, captured the village of Yenimah and took thirty prisoners. "In these operations the enemy suffered heavily from rifle and artillery fire during his retirement, and also in his counter-attacks. Many ambulances were seen on the Demir-Hissar road."

"On the Doiran front our artillery carried out systematic bombardments of the enemy trenches north of Makovo."

## PRESBYTERY MEETING

A meeting of the Presbytery of Miramichi was held here Tuesday evening. The principal item of business was the considering of the call recently extended to St. Andrew's church, Chatham to Rev. E. B. ## RESTIGOUCHE MEN HAVE COLD FEET

Recruiting Tour of a Week Results in Only Three Men for 132nd Battalion

During the past week, Major McKay has covered a large portion of Restigouche county, and much of Bonaventure, in an endeavor to raise a part of the hundred men needed to fill the ranks of the 132nd Battalion. He has succeeded in procuring three men. Not thirty but THREE.

What has come over the young men? Have they all got cold feet?

Major McKay interviewed many young men without a tie to keep them, and in many cases were told that they were afraid, others had various excuses.

Tuesday evening the 132nd Battalion band went to the Boom House and held an open air meeting. The band played a number of selections.

Judge McLatchey, Col. Mersereau, Private Manderson and Major McKay addressed the men gathered there, and one came forward.

Later, in front of Alexander's hardware store here, the band played a number of selections and addresses were again delivered by the same speakers, but without any direct results.

Private Manderson made a very strong appeal to the young men. It is too bad that the required number of men cannot be obtained to fill up this battalion. If any of our readers would like to join they can apply to Mr. A. McG. McDonald, and he will arrange the matter for them.

## BARBERS NEXT TO BOOST PRICES

Notices Issued that Prices Will Advance Sept. 15th.—Increased Costs the Reason

At a recent meeting of Campbellton barbers, it was decided that commencing Friday, Sept. 15th, the following prices would rule:

Shave, .15c  
Hair Cut, .25c  
Shampoo, .25c

Hair cut after 5 o'clock Saturday's, 35 cents. And boys will be charged the same price on Saturday.

The barbers in presenting their reasons for the increase state that all shop expenses have greatly increased. Labor costs more, rent is about doubled, supplies are one hundred per cent dearer, so that it is necessary, if they are to keep shop, that higher prices be charged.

The barbers in this increase are only following the road of others in the towns and cities throughout New Brunswick.

## FRENCH AND SERBS TAKE THE OFFENSIVE

They Have Captured the Town of Sorovitz, Overcoming Violent Resistance of Teutons

Athens, Sept. 12.—(via London, Sept. 13.)—French and Serbian troops have taken the offensive on the western end of the Macedonian front. They have captured the town of Sorovitz, near Florina.

Paris, Sept. 13.—Notwithstanding the stout resistance of the Teutonic Allies, the Serbian troops on the Macedonian front have made important progress at various points, it is announced by the war office.

Violent fighting is in progress in the vicinity of Lake Ostrovo, where the Serbians have gained considerable ground.

## TO ERECT TRESTLES HERE

Sergt. Paul Kuhring, of the 236th Battalion—the New Brunswick Kilties—left last evening with a party of men for Campbellton, where they will be engaged in erecting the trestles to be used for the Kilties' beacon lights on the North Shore on the opening night of the recruiting campaign.—Gleaner.

## ENTHUSIASTIC MEETING AT BALMORAL

Opposition Candidates and Organizers Meet With Good Reception

One of the largest and most enthusiastic public meetings yet held by the local opposition party, was that at Balmoral on Thursday evening last. When we consider that during the last local election this parish would not even listen to the opposition speakers and meetings were broken up, the change is significant.

Electors from the entire parish were present, some driving five miles.

The meeting was held in the Balmoral school house, Upper Balmoral, which was entirely too small to hold the men gathered, so the windows and doors were thrown open that those who could not get in might hear.

Mr. Alex. Maltais was chosen chairman, and introduced the speakers. His duties were light as the best of order prevailed.

Wm. Currie was the first speaker, and Messrs. F. M. Anderson and John Harquail also addressed the electors in English.

The principal address was delivered by A. T. LeBlanc, who spoke in French for an hour and a half, and was given a very attentive hearing. His remarks were frequently applauded.

On all sides were heard expressions of the opinion that the opposition party would take a large vote in Balmoral. The best thinking and independent electors are tired of the reign of boodle and graft at Fredericton, and will do their part to vote it out.

The parish has been well organized by the opposition and the organization is doing good work.

## EIGHT HUNDRED CANADIAN CASUALTIES

During Friday's Battle on Somme Front—Thirty-five Fatalities Recorded in Tuesday's List

Ottawa, Ont., Sept. 13.—The overnight casualties lists furnish some of the details which have been lacking of the big battle on Friday last, in which Canadians took an active part and sustained casualties in the neighborhood of 800.

In yesterday's rolls 35 are reported dead, either killed in action or dying as a result of wounds.

It is apparent from the lists that all branches—mounted rifles, infantry and artillery—took part in the fighting which, presumably was in the Somme district, and in the nature of an offensive.

## WATER AND SEWERAGE MATTERS DISCUSSED

Meeting of Council Monday Spent in Reviewing Clark Contract. Wednesday Meeting

A meeting of the Town Council was held in the Town offices, Monday evening, His Worship Mayor Andrew presiding. There were present Couns. Harquail, Patterson, Miller, Alexander, Pichette and Goss.

A bill of \$12.00, from N. & A. Audet for damages to auto caused by going into trench near the school, was read and referred to Water and Sewerage Committee.

Departmental accounts were passed. Coun. Miller moved the usual resolution authorizing overdraft at the bank.

The Council spent the remainder of the evening discussing the Clark water and sewerage contract, and the advisability of laying an 18 inch sewer along Gerrard street.

Council adjourned until Wednesday night to go further into this matter.

## Wednesday Evening

At a meeting of the Town Council held last evening, Mayor Andrew presiding, it was decided to proceed with the laying of an 18 inch sanitary sewer on Gerrard street. The work will cost about four thousand dollars and will be proceeded with at once.

London, Sept. 14.—The French have isolated Comblès in a strong day of battle. New and important system of trenches taken with 2300 prisoners. New premier of Greece M. Dimetropoulos, says his country should follow Rumania into war.

On British front in France, Germans were repulsed. Russians firm before counter-attacks.

## THE AUSTRIAN FORCES CONTINUE TO RETREAT

Bucharest, Sept. 12.—(Via London)—The continued retreat of the Austrians in Transylvania is reported in an official announcement issued by the war office to-day. The text of the statement follows:

"On the north and northwest front, the enemy continues to retreat westward in the valleys of Upper Maros and Aluta rivers.

"On the south front the navigation of enemy merchant ships on the Danube has been stopped. On the Dobruja front operations are progressing. "Enemy aeroplanes bombarded the town of Piatra and Neamtzu killing an old man and seriously wounding two infants."

## AFTER SIX YEARS OF SUFFERING

Woman Made Well by Lydia E. Pinkham's Vegetable Compound.

Columbus, Ohio.—"I had almost given up. I had been sick for six years with female troubles and nervousness. I had a pain in my right side and could not eat anything without hurting my stomach. I could not drink cold water at all nor eat any kind of raw fruit, nor fresh meat nor chicken. From 178 pounds I went to 118 and would get so weak at times that I fell over. I began to take Lydia E. Pinkham's Vegetable Compound, and ten days later I could eat and it did not hurt my stomach. I have taken the medicine ever since and I feel like a new woman. I now weigh 127 pounds so you can see what it has done for me already. My husband says he knows your medicine has saved my life."

Mrs. J. S. BARLOW, 1824 South 4th St., Columbus, Ohio.

Lydia E. Pinkham's Vegetable Compound contains just the virtues of roots and herbs needed to restore health and strength to the weakened organs of the body. That is why Mrs. Barlow, a chronic invalid, recovered so completely. It pays for women suffering from any female ailments to insist upon having Lydia E. Pinkham's Vegetable Compound.

"Paw, what's the longest period of time?" "From one pay-day to the next."

## BRITISH AND FRENCH MINISTERS HOLD CONFERENCE

Consider the Most Effective Method of Employing Joint Military Resources

London, Sept. 9.—Satisfactory conclusions were reached at a series of conferences held this week between the French and British ministers of war and ministers of munitions, says a British official statement issued this afternoon, regarding the most effective employment of the joint military resources of France and Great Britain.

The officials statement says:—A series of conferences has been held this week in Paris between the French and British ministers for war and munitions. David Lloyd George (British war secretary) and Edwin Samuel Montagu (minister of munitions) were accompanied by representatives of the war office and the ministry of munitions and by the officers from the staff of General Douglas Haig (commander in chief of the British forces in France).

An interchange of views took place as to conclusions to be drawn from the recent military operations. Measures were discussed for the most effective employment of the joint military resources of France and Great Britain and satisfactory conclusions were reached. The minister of munitions has returned to England.

Dean Hole, who was the pioneer of horse shows in England, was fond of telling this story:

At Cambridge a horticultural show was suddenly invaded by a host of sweet girl graduates. "Madam!" said an executive to the lady in whose charge they came, "may I point out that this is a school for horticulture, not a school for husbandry?"

"The pen is mightier than the sword," remarked the earnest citizen. "That used to be the case," replied Mr. Chuggins, as he wiped his hands on his hip pockets; "but what counts now is a monkey-wrench or a pair of pliers."

Chaufeur—I can't get this 'ere tail-light to burn, sir. Country Doctor—Oh, never mind, we're only going home, and I've got the constable safe in bed with lumbago!

## QUEBEC BRIDGE CENTRAL SPAN MEETS WITH A SECOND DISASTER

It Falls at the Very Moment of Seeming Success is Being Hoisted. Hurled Ninety Men into St. Lawrence River, of Whom 11 Are Missing.

A report given out by the St. Lawrence Bridge Company on Monday evening placed the number of men killed or drowned at eleven.

Quebec, Que., Sept. 11.—The central span of the Quebec bridge which was being hoisted 150 feet from the St. Lawrence into position this morning, collapsed at 10:30.

Quebec, Sept. 11.—The central span of the Quebec bridge, which was being raised 150 feet from the river St. Lawrence this morning, collapsed when it was about 15 feet in the air and dashed into the river. The span weighs 5,000 tons. The loss of life will be heavy.

The span was towed out from Silvery Cove, where it had been constructed, to the bridge site this morning. It was safely lifted from the pontoons amidst great excitement and much whistling by the hundreds of river craft gathered to see the raising, the greatest effort in bridge building history. The pontoons were removed from under the span, which was proceeding upwards on its journey.

Everything pointed to a most successful enterprise, right suddenly, with a ripping noise from one of the girders holding the span at its northern corner, the span dropped into the stream at one end. The remaining jacks held the mass of steel for a few seconds, while frantic efforts were made to get a chain rope around the tottering beam. With reports like shells exploding the remaining supports snapped and the span fell with a mighty splash in the river and disappeared in the two hundred feet of the channel.

Men working on the span itself were seen to jump into the stream. Boats were at once rushed to the spot and several were picked up.

It was estimated there were 90 men on the span. The two arms of the bridge which was to be connected by the span were not disturbed by the collapse. Arrangements were at once made to send down divers to see if the ships' channel had been blocked, and to see if it would be possible to raise the span.

Engineers who saw the collapse expressed doubts as to whether it would be practical to get the span up again. Quebec, Sept. 11.—The collapse of the bridge happened just at a moment when steamers were hooting loudly, acclaiming the progress being made. Several men on the extreme height of the bridge, pinnacles compared with the giant structure, were seen to be bowing acknowledgment. Some onlookers claimed two of these men overbalanced when the break occurred and fell into the river.

Dozens of women on ships and on shore shrieked and a number fainted when the break came. Since the adventure began this morning the onlookers were kept up to the highest pitch of excitement by the obvious danger of the enterprise.

First reports of survivors gave the number of dead at 36 to 20.

The St. Lawrence Bridge Company, which was constructing the bridge, promised a statement of the number killed as soon as it could obtain one by a roll call of the men on the span.

A first estimate given by the bridge company at noon placed the number of dead at 25.

The engineers in charge of the elevation thought that once the span was lifted from the pontoons the jacks would have held it until it reached the roof of the bridge above. An onlooking engineer said that apparently one corner gave way and the strain on the span itself was too great, because it appeared to break in the centre as well.

L. S. O'Dell, Montreal, who was in a launch, near the bridge, said the span buckled near the centre. He thought the wreckage dropped on a small launch passing underneath at the time.

H. P. Borden, a member of the Quebec Bridge Commission, gave it as his belief that the loss of life would not be more than three.

Among those who were in the immediate vicinity of the bridge when the centre span collapsed was M. L. Oumet, Montreal, who was taking moving pictures of the work when the accident happened. He says:

"We were in a tug, close to the central span, when I heard something like the snapping of a huge cord. I looked above and saw the south end of the span bend, then totter towards the south shore. Men were falling off the works like coal out of a van and I also saw a group of men who were on the anchor span and who were knocked off by the flying debris.

"Some of these were picked up, while a score of small vessels and other craft rushing to the scene, succeeded in securing the men we saw struggling in the water."

Only five or six survivors were picked up after the span fell.

The fleet of launches and tugs gathered below the bridge site came swiftly to the rescue, but only a few rescuers could be effected.

The cause of the accident has not been officially stated. Of scores of spectators who described the terrible scene, the stories agree that the failure of one of the hydraulic jacks was responsible, the sideways strain brought too great stress on the span, and the steel gave way.

The Hon. G. P. Graham, Minister of Railways When the Work Was Undertaken, Chats About This Greatest Enterprise.

(Montreal Herald)

Yes, I am very much interested in the success of the completion of the Quebec Bridge," said Hon. Mr. Graham, this morning, when seen by The Herald at his office in the New Birk Building. "I deeply regret that an engagement made some weeks ago, will prevent me being present on Monday morning next when the centre span is to be floated into position. It must not be forgotten that this is the most gigantic project of its kind ever undertaken in the world, and the responsibility of all concerned with it has been very great."

"After the accident which destroyed the first bridge being constructed, the Government of Sir Wilfrid Laurier decided to undertake reconstruction, and the task was allotted to the Railway Department, of which I had become the head but a few days previous. M. J. Butler, C.E., was deputy minister and chief engineer, and a most capable man he was. The department first appointed a commission thoroughly to examine the fallen structure and to make a report thereon. The gentlemen comprising this body were very eminent men: Henry Holgate, Prof. J. G. G. Kerry, of McGill, and Dr. Galbraith, of Toronto University. Their report was so instructive that a copy of it was asked for by practically every prominent seat of learning on the continent."

"After a good deal of thought and discussion, and with the advice of Mr. Butler, I recommended to council that a commission be appointed, in whose hands would be placed this mammoth undertaking, the Railway Department and the Government, of course, to be wholly responsible. The commission named was composed of H. E. Vautelet, chairman, of Montreal; Ralph Modjeski, Chicago, and Maurice Fitzmaurice, chief engineer of the County Council of London, England. Each of these was a very strong man, both in his personality and in his profession.

After studies lasting about a year, Mr. Fitzmaurice resigned, for reasons given in a letter. Under the conditions existing, it was not easy to secure a successor as it had become evident that it was almost impossible for the members of the board to agree. Mr. Charles McDonald, formerly of Ganouque, Ontario, but for many years one of America's leading bridge engineers, was induced to go on the board until such time as a contract had been signed. It had been agreed by the commission that tenders would be asked not only on the design prepared by the chairman, but that any company tendering could present a design of its own, which, if thought wise, would be adopted."

"Tenders were received, if my memory serves, from one company in Germany, one in England, two in the United States and from the St. Lawrence Bridge Company, the last named being a union of two strong Canadian companies. The latter presented several alternative designs, as well as tendering on the design of the Board's chairman. It was no easy task to decide what ought to be done under the circumstances, but, in order that no mistake might be made, several prominent engineers were consulted. In addition to Messrs. Vautelet, Modjeski and McDonald, Messrs. Hodge of New York and M. to undertake reconstruction of the Dominion Steel Works, were called in for consultation as to what tender ought to be accepted and what design approved. As a result, four out of five of these prominent engineers advised that the design of the St. Lawrence that gives perfect shooting results."

## Local Items of Interest

Notes of Town and Country Happenings Gathered by Graphic Reporters.

### WOUNDED SOLDIERS

Two trains of wounded soldiers passed through here Tuesday night.

### FEVER CASES REPORTED

A number of cases of typhoid fever have been reported during the past two weeks.

### ONE TODAY

Frank Brown, of Dalhousie, was the only new recruit here this morning. He signed with the 9th Siege Battery.—St. John Times.

### KILLED IN ACTION

In Saturday's casualties there appeared the name of W. C. Riddell of Toronto. It is thought this is a former Campbellton boy, son of Mrs. Wm. Riddell.

### REPORTED WOUNDED

Major Rev. Geo. Wood, formerly minister of St. Andrew's Church, Chatham, now Brigadier Chaplain at the front, who had just left hospital after serious illness, has been wounded in the leg and is again in hospital.

### RED CROSS SUPPER

The young ladies of the LaTouquet Club will hold a supper in the Red Cross Rooms, Friday evening, Sept. 15th, from 4.30 to 8. Tickets 25c. Ice cream and candy will also be sold.—Adv.

### FULL OF FRANKS

A train of soldiers passing through here Sunday morning made things lively about the upper end of the town. One crowd commandeered a milk dealer's supply and enjoyed a good drink of milk. Eleven gallons were consumed. Others commandeered autos and carriages and went sightseeing.

### WOMEN'S INSTITUTE NOTES

The regular monthly meeting of the Campbellton Women's Institute, will be held in their rooms, Monday, September 18th, at 8 o'clock p. m. As important business, and the planning of the year's work is to be taken up, all members are urgently requested to be present.

### AGAIN CHANGES HANDS

As announced in a previous issue, the Robertson Hotel was sold by Messrs. Baird & Tabor a short time ago to W. G. Fenwick, who has since disposed of the property to Geo. Robertson. Andrew Gorman, formerly of the Waverly Hotel at Campbellton, and one of the most popular and capable of Maritime hotel men has leased the hotel and is now in charge.—Bathurst Light.

### GAME LICENSES

Wm. Gremley has received the government big game licenses and parties requiring same can procure them by applying to him. The regulations state that none must be sold before the 15th, but for the convenience of those wishing to get out by the early trains, Mr. Gremley will issue licenses at his house during Thursday night. We are glad to note some activity among the game wardens and sincerely trust that the illegal slaughter of game, such as took place last fall and winter, will not be repeated this year.

### BORN

At Tide Head, on August 21st, to Mr. and Mrs. Lawrence Dickson, a son.

### KILTIE RECRUITING SOON

The date on which the recruiting campaign for the 238th Overseas Battalion, the N. B. Kilties, will be commenced will be formally announced the first of next week.

### REPORTED DIED OF WOUNDS

A report has been received here that Fred McKenzie, son of the late John McKenzie, has died of wounds in England. Pte. McKenzie was wounded in June.

### WILL REBUILD

Pulp Magazine: It is understood that English capitalists under Sir Robert Perks have taken over the plant of New Brunswick Pulp and Paper Company, at Millerton, N. B., and will rebuild on a larger scale.

### PROFESSIONAL

Dr. A. Pierce Crockett, eye, ear, nose and throat specialist of St. John, will be at the St. Louis Hotel, Campbellton, FRIDAY, SEPT. 22ND, where he may be consulted professionally. Sept. 14-2-pd.

### HAVE QUALIFIED

Certificates of qualification have been issued by the general officer, No. 6 Military District, Halifax, to the following provisional lieutenants: 73rd Regiment: For infantry, Lieutenants D. E. McMillan, J. S. McLean, W. L. Bonnell, J. P. Doucet, E. A. Mullin, H. F. Marr, L. H. Cookson, C. P. McCully.

### ENJOYABLE PICNIC

The Mission Band of the Methodist church enjoyed a delightful day at Head Tide Saturday. About thirty boys and girls, chaperoned by Mrs. A. H. Ingram and Mrs. H. B. Anslow were present. Lunches were served at 12 and 4.30. The party was taken up and returned in autos, and those in charge of the Band wish to thank the gentlemen who so kindly assisted in this way.

### SIR MAX AITKEN

A report has been current on the North Shore for some time that Sir Max Aitken would be a candidate for Parliament if he could get the Conservative nomination in Northumberland County. The report was not believed in this part of the Province. Now comes a report from London, said to be on good authority, that he intends to come to Canada to engage in politics. Will he run in Northumberland, his native county?

### THANKS

The Institute have received several letters of appreciation from the men of the 132nd Battalion, for the presents of socks.

The Institute wishes to again thank all those who by donations of cash or socks or by their help in knitting, have in any way helped on the work for our brave soldier lads.

Donation of cash: \$5.00, Mr. David Miller. Donation of socks: 1 pr., Miss E. J. McNair, New Mills.

"I don't see why mothers can't see the faults in their children," Mrs. Benny—I should in a minute if my children had any!

### SUGAR GOES DOWN

A big break in the sugar market has resulted in a decrease of 75 cents a barrel in the United States and 40 cents a barrel in Canada. This falling off, some of the dealers think, is only the beginning of a gradual and more pronounced decline to come later.

### PAPER AND LEATHER

The price of paper, on an average on different grades, has gone up about one hundred per cent, since the outbreak of the war.

The price of harness leather recently took another advance of a cent a pound, making the advance thirteen cents per pound since the war began. There are signs of sole leather taking an advance of three cents per pound the first of October.

### NO DROP IN PRICE HERE

A reduction of one cent a gallon in the price of gasoline, making the wholesale price now 22 cents, was announced at New York Wednesday by the Standard Oil Company. This is the second cut in the price of gasoline this year. The reason given is the heavy increase in the production of crude oil. At the Imperial Oil Company's office, it was said this morning that nothing was known about the drop in price and that gasoline was selling here wholesale at 30½ cents per gallon.—St. John Globe.

### THANKS FOR SOCKS, ETC.

Valcartier, Sept. 9th, 1916. On behalf of the officers and men of A Co., I wish to extend thanks to the ladies of the Women's Institute of Campbellton, who so thoughtfully provided the three hundred pairs of fine warm woolen socks.

These came to hand during the week. On Saturday the entire company was paraded and the pair designated for each man handed to him. Men transferred to other companies were also on hand. This will no doubt add greatly to the comfort of the men now that cold weather is at hand.

On all sides were heard expressions of pleasure by the men, and all join in thanking the ladies of Campbellton for their thoughtful gifts.

Also, as the time for leaving draws near, wish to again thank the ladies who provided weekly entertainment, as well as others who helped to make things pleasant for us during our stay here last winter.

N. C. McKay, Major.

O. C. "A" Co., 132nd Battalion.

Aug. 28th, 1916.

Dear Mrs. Dickson:

It gives me great pleasure to acknowledge the receipt of the socks you sent me for distribution and for which, on behalf of my men, I heartily thank you and all your kind ladies, who have so kindly given their time for our comfort. I too have asked the boys to answer or acknowledge any notes found in the socks.

Again thanking you. Kindest regards. LIEUT. R. L. EATON.

### OBITUARY

#### OPAL ALLAIN.

Newcastle, Sept. 8.—Little Opal, the one-year-old daughter of Mr. and Mrs. John Allain, died on Wednesday after a fortnight's illness of cholera infantum. The funeral was held this afternoon, interment in St. Mary's cemetery. Mr. and Mrs. Allain formerly lived here and have the sympathy of their Campbellton friends.

#### ARCHIBALD HENDERSON

Dalhousie, N. B., Sept. 7.—The death of Archibald Henderson, aged eighty-four years, occurred yesterday at his home, Charlo, (N. B.), after an illness of over two years. Mr. Henderson was born in Scotland and came to New Brunswick when he was a boy and resided in Restigouche county ever since. He practiced farming and for several years was a faithful official of the I. C. R., doing carpenter work, etc. He was very highly respected.

He is survived by four daughters—Mrs. Peter McKinnon, Vancouver; Mrs. G. H. Watt, New Hampshire; Mrs. John K. Hamilton and Mrs. Peter Doucet, River Charlo; and three sons—John, of Bel River Crossing; Alexander, Truro, (N. S.), and Archibald A., at home.

### KEEL LAID FOR

NEW STEEL STEAMSHIP  
New Glasgow, Sept. 9.—The keel has been laid for the 2,000-ton steel steamship which the Nova Scotia Steel and Coal Company is building at New Glasgow. All the steel for the steamer has been fabricated and the riveters are at work fitting the bottom. Whether the steamer will be ready for launching this year is problematical, but she will certainly be afloat and ready for sea by April. The steamer is to be fitted with turbine engines. This will be the first steel steamer to be built in Nova Scotia.

### BOMB NEAR HISTORIC

CHURCH IN VENICE  
In a new raid on Venice an Austrian aeroplane dropped a bomb which fell directly in front of historic St. Mark's cathedral. Another narrowly missed the Britannia Hospital. This is the second time that St. Mark's has narrowly escaped destruction.

The statement says that no one was killed or injured and no damage of moment done by the bombs.

**OBITUARY**

**MRS. JAMES MCNAIR.**

Dalhousie, Sept. 11.—The death of Mrs. James McNair, aged 69 years, occurred on Friday at her home in Point LaNim, Restigouche county. Mrs. McNair was a Miss Anderson, of New Richmond (P. Q.), and she was very highly respected in the community. Besides her husband she is survived by four daughters, Mrs. Donald King, Mrs. Frank Tucker, Mrs. Cenett, Portland (Me.); Mrs. Allan Hicks, Dalhousie Junction; and five sons, Donald Alexander, Robert Hilson, John A. William Maxwell, Washington Territory, and Archie, of East Dover (Me.). Her funeral was held on Sunday afternoon at St. John's Presbyterian cemetery, Dalhousie, and was very largely attended. The services at the house and grave were conducted by Rev. Mr. Miller, of Campbellton.

Friends of Mrs. William G. Fair of Pointe a la Garde, will be sorry to learn of her death at Oak Bay, Thursday, Sept. 7th, aged 75 years. Mrs. Fair had completely recovered from wounds received from a horse last winter and was in the best of health and spirits until she took seriously ill and passed away after a few days illness. The interment was last Saturday in the Presbyterian cemetery at Escuminac.

Mrs. Fair had a large circle of friends in Campbellton and along the Quebec coast. She was a leader in church work in the Presbyterian congregation of Escuminac and Oak Bay, and despite her age, entered into every worthy enterprise with all the freshness and enthusiasm of a girl.

Mrs. Fair is survived by her husband and six children, Harry of Pointe a la Garde; Gray of Seattle; Mrs. Ada Sowerby and Miss Margaret Fair of Oak Bay; Mrs. Clifton Fair of Black Cape and Mrs. W. J. Fowler of Westmount. Mr. Dougal C. Firth of Campbellton and Mr. Magnus Firth of Wisconsin are brothers, and Mrs. Robert Mair of Tide Head is a sister of the deceased.

**MacMILLAN-WILLIAMSON WEDDINGS**

A very pretty wedding took place Monday night at the residence of Mr. and Mrs. John Williamson, Newcastle, when their daughter, Miss Lillian Forsythe, was married to Dr. J. D. MacMillan, one of Newcastle's successful dental surgeons.

The ceremony was performed at 9 o'clock, Rev. S. J. MacArthur the officiating clergyman. The bridal pair stood under an arch of evergreen and golden glow in the parlor, all of which was similarly decorated. The dining room was decorated with autumn leaves, sweet peas and asters.

The bride, who was unattended, wore a gown of white crepe de chine with sleeves of Georgette crepe and satin trimmings, and veil with Juliette cap and orange blossoms.

Only the immediate relatives of the contracting parties were present.

After the wedding supper, the bride and groom took the midnight train for a honeymoon in Northern towns. They will reside here.

The gifts received by the young couple showed the great popularity of both. There were: a cheque from the bride's parents, a purse of gold from the groom's family and gold from others, also much cut glass, silverware, china, linen, etc.

The bride's going away dress was of blue broadcloth with hat to match.

**McKENDY-HAYWARD**

John A. McKendy, Manager of the Royal Bank at Inverness, C. B., a native of Douglastown, and as one time assistant manager in Newcastle, was married to Miss Dora Hayward, at nuptial High Mass by Rev. W. J. Conway at Edmundston, last Thursday morning. The bride was attired in a travelling suit of navy blue gaberdine and black velvet hat. Mr. and Mrs. McKendy left for a trip through the Maritime Provinces and returning will reside at Inverness, N. S. Among the guests at the wedding were Mr. and Mrs. Howard McKendy of Chatham, Mrs. C. E. Hayward and Miss Mabel Hayward, mother and sister of the bride, of Harland.

**FOR BELGIANS**

Four little girls, Misses Norine and Edith Harquail and Helen and Marion Lunan held a successful Bazaar on the lawn at the residence of Mr. D. A. Harquail on Saturday last, in aid of the Belgian Relief Fund. Dolls, clothes, candy and ice cream were sold and a pleasant afternoon was spent by the many little girls and boys present. The sum of eighteen (\$18.00) dollars was realized.

Zam-Buk is a powerful germ-destroyer, as well as a powerful healer, and many a case of blood-poisoning could have been avoided had the victim only taken the precaution to use Zam-Buk at first.

Mr. J. F. Warren, of Renfrew, Ont., writes: "I cut the palm of my hand badly with a rusty knife, and as I was some distance from home I could not get it properly attended to, and my hand quickly became stiff and swollen. Immediately I reached home I washed the wound with hot water and Zam-Buk Soap, and then applied Zam-Buk. This soothing balm soon ended the pain, gradually the swelling disappeared, and soon the cut was quite healed."

**DOMINION OF CANADA**

Issue of \$100,000,000 5% Bonds Maturing 1st October, 1931.

PAYABLE AT PAR AT

OTTAWA, HALIFAX, ST. JOHN, CHARLOTTETOWN, MONTREAL, TORONTO, WINNIPEG, REGINA, CALGARY, VICTORIA.

INTEREST PAYABLE HALF-YEARLY, 1st APRIL, 1st OCTOBER.

PRINCIPAL AND INTEREST PAYABLE IN GOLD.

**ISSUE PRICE 97½**

A FULL HALF-YEAR'S INTEREST WILL BE PAID ON 1st APRIL, 1917.

THE PROCEEDS OF THE LOAN WILL BE USED FOR WAR PURPOSES ONLY.

THE MINISTER OF FINANCE offers herewith, on behalf of the Government, the above named Bonds for subscription at 97½, payable as follows:

- 10 per cent on application;
- 30 " " 16th October, 1916;
- 30 " " 15th November, 1916;
- 27½ " " 15th December, 1916.

The total allotment of bonds of this issue will be limited to one hundred million dollars exclusive of the amount (if any) paid for by the surrender of bonds as the equivalent of cash under the terms of the War Loan prospectus of 22nd November, 1915.

The instalments may be paid in full on the 16th day of October, 1916, or on any instalment due date thereafter, under discount at the rate of four per cent per annum. All payments are to be made to a chartered bank for the credit of the Minister of Finance. Failure to pay any instalment when due will render previous payments liable to forfeiture and the allotment to cancellation.

Subscriptions, accompanied by a deposit of ten per cent of the amount subscribed, must be forwarded through the medium of a chartered bank. Any branch in Canada of any chartered bank will receive subscriptions and issue provisional receipts.

This loan is authorized under Act of the Parliament of Canada, and both principal and interest will be a charge upon the Consolidated Revenue Fund.

Forms of application may be obtained from any branch in Canada of any chartered bank and at the office of any Assistant Receiver General in Canada.

Subscriptions must be for even hundreds of dollars.

In case of partial allotments the surplus deposit will be applied towards payment of the amount due on the October instalment.

Scrip certificates, non-negotiable or payable to bearer in accordance with the choice of the applicant for registered or bearer bonds, will be issued, after allotment, in exchange for the provisional receipts.

When the scrip certificates have been paid in full and payment endorsed thereon by the bank receiving the money, they may be exchanged for bonds, when prepared, with coupons attached, payable to bearer or registered as

to principal, or for fully registered bonds, when prepared, without coupons, in accordance with the application.

Delivery of scrip certificates and of bonds will be made through the chartered banks.

The issue will be exempt from taxes—including any income tax—imposed in pursuance of legislation enacted by the Parliament of Canada.

The bonds with coupons will be issued in denominations of \$100, \$500, \$1,000. Fully registered bonds without coupons will be issued in denominations of \$1,000, \$5,000 or any authorized multiple of \$5,000.

The bonds will be paid at maturity at par at the office of the Minister of Finance and Receiver General at Ottawa, or at the office of the Assistant Receiver General at Halifax, St. John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary, or Victoria.

The interest on the fully registered bonds will be paid by cheque, which will be remitted by post. Interest on bonds with coupons will be paid on surrender of coupons. Both cheques and coupons will be payable free of exchange at any branch in Canada of any chartered bank.

Subject to the payment of twenty-five cents for each new bond issued, holders of fully registered bonds without coupons will have the right to convert into bonds of the denomination of \$1,000 with coupons, and holders of bonds with coupons will have the right to convert into fully registered bonds of authorized denominations without coupons at any time on application to the Minister of Finance.

The books of the loan will be kept at the Department of Finance, Ottawa.

Application will be made in due course for the listing of the issue on the Montreal and Toronto Stock Exchanges.

Recognized bond and stock brokers will be allowed a commission of one-quarter of one per cent on allotments made in respect of applications bearing their stamp, provided, however, that no commission will be allowed in respect of the amount of any allotment paid for by the surrender of bonds issued under the War Loan prospectus of 22nd November, 1915. No commission will be allowed in respect of applications on forms which have not been printed by the King's Printer.

Subscription Lists will close on or before 23rd September, 1916.

### 20 MILLIONS INCREASE IN DOMINION REVENUE

Five Months' Returns Show Large Advance in Customs

Ottawa, Sept. 8.—Dominion revenue figures for the first five months of the fiscal year show a comparative increase of \$20,000,000. The chief advance was in customs returns, which advanced from \$35,220,000 to \$55,022,000. Excise returns were \$9,770,000, as against \$8,417,000. Railway and canal returns increased by \$4,000,000, but there was a twenty per cent. decline in postal revenue.

Revenue receipts in August were \$15,506,000, against \$14,240,000 in August of last year. August saw expenditures totalling \$24,986,000, and for the five months \$76,310,000.

The national debt increased in August by \$23,000,000 to \$658,621,000.

### BLAST CLOTHES

OFF Foe DEAD

Incredible Havoc Wrought by Allied Artillery in the Somme Sector

London, Sept. 8.—Describing the effects of the British bombardment of the German positions at Guillemont the correspondent of Reuter's Telegraph Company at the British Headquarters in France says:

"The ground to the east of the village was strewn with German dead. The corpses in many cases were stark naked, every stitch of clothing having been blasted off them. A very large proportion of these bodies showed no signs of wounds, and there is little doubt that the men were killed by the intense concussion. Even in the dug-outs with which the place was warren, few men escaped the bombardment, and those who did said their nerves were destroyed by the terrific poundings of the British guns."

The correspondent considers it significant that the ground was not bombarded by German field guns, which indicates, he says, that the Germans withdrew their field artillery out of range. Whether this is from apprehension that the guns might fall into British hands or whether it is preliminary to a general withdrawal, the writer adds, can, of course, be only a matter of speculation.

### Unprecedented Activity.

Paris, Sept. 8.—The ever-increasing violence of the bombardment now in progress along more than thirty miles of fighting front in the Somme sector is thus described in a despatch to-day from the authorized correspondent of La Liberté with the French army:

"From one end to the other of the attacking front the cannonade raged yesterday evening, reaching a degree of intensity hitherto without precedent. Each day it seems as if the extreme limit possible has been reached, and each day the bombardment still grows in violence and fury. The French and British batteries along the whole front never cease to pour out a deluge of thousands and thousands of shells of every calibre. 'Never before have I witnessed such a spectacle,' said an officer who had just arrived at the front near Verdunvillers.

"The German positions at the close of yesterday evening were surrounded with clouds of dust and smoke, through which objects could be distinguished faintly. One frightful explosion followed another. From time to time one saw enormous masses of earth and material thrown up, and among it all the bodies of the dead, torn to fragments."

"When night came the sky stretched out like one vast furnace, so that as far as one could see there was nothing but an horizon of fire."

BY COMPRESSED AIR

Russian Fellow-Workman is Held Pending Outcome of His Injuries

Stratford, Sept. 8.—Harry Farmer, fourteen years old, residing at 323 Queen street, is lying at the General Hospital, and Alex. Eulich, a Russian laborer, is held by the police pending the outcome of the boy's awful injuries. Both were employed on an air compressor in the Grand Trunk repair shops, and in some manner the hose, carrying up to 200 pounds pressure, was applied to young Farmer, who was literally blown up, his body being terribly distended and hemorrhages produced. The attention of other employees having been attracted, the Russian was seized and first aid methods were applied to the boy. Dr. Lorne Robertson rushed Farmer to the hospital, where an operation was performed. It was found that the boy's intestines had been ruptured considerably, and other internal injuries were such that the attending physician gave practically no hope of saving his life. Eulich escaped rough handling by the timely arrival of C. J. of Police Lannin, who arrested him. No charge has yet been preferred against the Russian, who protested that the boy applied the pressure nozzle himself. On the other hand, Farmer was able to speak enough to accuse the Russian of having committed the deed.

### PART OF 132ND BATTALION

ARE IN QUARANTINE

Measles Brought From Chatham the Cause, Says Report.

Valcartier Camp, Sept. 9.—Owing to some cases of measles having developed in the ranks of the Overseas Battalion, a large part of the battalion is in quarantine. Men who have been in contact with those men who have developed the disease have been placed in tents in an area away from the other troops and are under guard. It has been found that the disease is being brought into camp by men returning after leave from Chatham, where the disease would appear to be prevalent at present. It is rumored that this outbreak may delay the date of sailing of the battalion a week or so.

### QUEBEC BRIDGE

MEETS WITH DISASTER

(Continued from page 2)

Bridge Company, on which the bridge has been constructed, should be accepted. It might be added that, in addition to these, such prominent men as Messrs Henry Holgate, Montreal, Wolf of Pittsburgh, and Noble of New York, were consulted at various times. The contract was finally let to the St. Lawrence Bridge Company for the superstructure on April 4th, 1911; that for the substructure having been let to M. P. Davis on January 10th, 1910.

"The Chairman of the Board resigned and was succeeded by Mr. C. N. Monsarrat, as chairman and chief engineer. Mr. McDonald having only agreed to act until such time as the contract was signed, also wished to be relieved of his duties and he was succeeded by C. C. Schneider, of New York. Then began the real construction work. New shops had to be erected for the manufacture of these immense members but the Bridge Company, with such men as Phelps Johnston and George H. Duggan in charge, seemed fully competent to grapple with the great problem. Before leaving the personnel of the Commission, I might add that on its formation, H. P. Burden, C.E., a most capable man, was appointed secretary and assistant engineer. On the death of C. C. Schneider, he was made a member of the Board and assistant to the chief engineer. Thus is the bridge being completed with Mr. Modjeski as the only man left who was on the original Board.

"There was a great deal of discussion and fault-finding by the press of Great Britain because the tender of the English company was not accepted, and you can imagine that some very unparliamentary things were said to me and about me, and pressure of a kind that has never been made public, was brought to bear to prevent the contract going to the St. Lawrence Bridge Company. However, it was of no avail and the Canadian company got the job. I think the only time that a few words of mine were considered worth citing to London by the conservative correspondents at Ottawa was when, on re-entering the House after the by-election in Renfrew, with the consent of the Prime Minister, I gave the details to Parliament and the country of the letting of the contract of the Quebec bridge, and they were so simple and so unassailable that when the British press understood that there was never another word of complaint, because at every step the contract going to the Government was backed up by the best engineering skill that could be consulted on this continent and in Europe as well.

"In an interview, of course, one cannot go into the details very deeply, but to substantiate the statement that this is the greatest undertaking of its kind in the world, let me give you a few comparisons between the Forth Bridge, which is the next greatest structure of its kind, and the Quebec bridge.

	Quebec Forth Bridge.
Total length of cantilever, feet.....	2,830 5,349
Length of channel span, feet.....	1,800 1,710
Load per lineal foot bridge is designed to carry exclusive of its own weight, lbs.....	14,000 4,480
Total weight of bridge, tons.....	66,000 57,000
Weight per lineal foot for cantilevers, lbs.....	48,300 21,860
Greatest depth of piers below high water, ft.....	101 87
Weight of steel per lineal foot of the Quebec Bridge is 2.5 times that of the Forth Bridge.	

The prescribed test load for the Quebec is 4 1-2 times heavier than that of the Forth Bridge.

The total length of the Quebec Bridge is 3,239 feet and the cost when completed will be about \$14,000,000.

"Perhaps the greatest interest at the present moment will revolve around the placing in position of the centre span, which is 640 feet long and weighs 5,200 tons. It has been erected at Sillery Cove, about three and a half miles below the Bridge, and if conditions are favorable, such as wind and tide, it will be towed from there on scows up to the Bridge site early next Monday morning. Even the towing of this will require several tugs because it has to be done carefully and accurately. This immense span will be brought to position on these scows and held there until it is connected at each end with the cantilever arms now in position. Hoisting chains come down from these arms and are connected with each end of the centre span. When the tide drops away the scows naturally will disappear under their great load, which, by that time, will have started on its upward journey of 150 feet to be placed in position. The raising will be done by means of eight powerful jacks and will take considerable time, but there seems to be no reason why the last link in this wonderful work should not be successfully forged. It will be the last word up to date in bridge building, a monument to the chief engineer and the other members of his board and the staff, to the St. Lawrence Bridge Company and the able men connected therewith, and a credit to all Canada.

"Having had this connection with the enterprise, you will readily see why it is one of the great disappointments of my life that I am not able to be present on Monday."

### MISSIONARY DESCRIBES

BLONDE ESKIMOS

Rev. H. Girling of Saskatoon, First White Man to Live Among Them

Saskatoon, Sask., Sept. 8.—The blonde Eskimos discovered by the murdered explorer, Radford, on Coronation Gulf, far in the Arctic circle, were reached by a Saskatoon man, Rev. H. Girling, of Emmanuel College, on October 10, 1915. Mr. Girling is the first white man to live among these people, who, since their discovery have constituted an ethnological mystery, and have formed the goal of several ill-fated expeditions.

In a letter received this morning by Rev. Dr. Carpenter, Principal of Emmanuel College, the missionary tells of his travels. The mission was dated last December, from "Camp Necessity," ten miles, journey from the new Eskimos. Mr. Girling says that in the direction of both grammar and dictionary a great deal has been accomplished, these people having but a dialectic difference from the Mackenzie River Eskimos.

### RELIGION

Tolstoi, one of the greatest of writers and the noblest of men, asks himself the question, "What is the purpose of my life?" He replies, "The purpose of my life is to understand, and, as far as possible, to do, the will of that Power which has sent me here, and which actuates my reason and my conscience."

There is nothing we need so much as a renewed consciousness of the presence and purpose of God in our lives. We need to realize that presence, and accept that purpose. Falling in this, our very noblest faculty is starved and enfeebled.

We are confronted by the vision of a dwarfed and unfinished manhood. Multitudes of our fellowmen are without religion.

This means that there are faculties in their nature, and those the very highest, which are not exercised; capabilities of their being, and those the most godlike, which are not used. They miss celestial beauty as well as the fullest and most satisfying life.

We need the controlling faith which rests in God—which takes hold on the unseen and the eternal. This alone furnishes the true philosophy of human existence.

It holds the key to the baffling mysteries of life, to the solution of its problems, and the harmony of its discords. Art and literature cry out for it. Our sense of dependence and incompleteness throws us back upon it. Nameless longings and voiceless aspirations find in it their true expression.

It satisfies an unquenchable longing in the soul—fills it with a peace and ministers to an uplifting which neither science, nor art, nor morality can bestow. It is an elevating and illuminating force for the lowly and the unlettered. It invests the humble and the poor with celestial beauty—the beauty of the Lord their God.

### KNOWLEDGE AND LOVE

We should be showing ourselves less generous than the cave-men, if, now that our turn has come, we did not strive to make life better and more secure for our children than it is for ourselves.

To achieve, this end, two things are indispensable, knowledge and love; for with knowledge and love the world is made.—Anatole France.

### NARCOTICS

Why is it Wrong To Use Tobacco? Almost every nation at some period of its history has become a slave to some poisonous herb or weed.

The coca leaf is used by the South American Indians.

The ancient Greeks and Egyptians used a narcotic called nepenthe. Of it, they said you laid but to chew its leaves and your sadness left you. It has since passed out of existence. "Hasheesh" came in its place. It is made from hemp. Laborers go through the fields, dressed in leather suits and the substance sticks to the leather. It is scraped off, mixed with other drugs, and used with terrible effects upon the system.

Opium is said to be the most deceiving of all drugs. It is made from poppies. At a certain stage of growth, men go through the fields and make incisions in the bowl of the flowers, letting the juice ooze out, which is collected to make opium. Opium first excites the nerves and then deranges and destroys the whole system. Opium users are of two classes, "eaters" and "smokers" and an opium slave is said to be the worst of all slaves although cocaine is fast becoming its rival in destructive work.

The most common narcotic is tobacco. Why is it wrong to use tobacco? 1. Because it is a poison. It contains a deadly drug called nicotine.

2. It has a tendency to lead to drinking by creating an unnatural thirst.

3. It defiles. The person who "chews" gets his lips, tongue and mouth saturated with the poisonous yellow juice.

Cigarette smoking is by far the most dangerous. They were at first made by those who smoked then; but the demand for them grew so rapidly that large factories were started. The making of them to-day is a large industry.

It is affirmed that leeches applied to the body of a constant cigarette smoker, will die very quickly. The same experiment tried on a pipe smoker does not kill the leeches.

Cigarette smokers are never found at the head of their classes in school or college. Many employers refuse work to boys known to be cigarette users.

### Had to Obey Orders

An old colored uncle was found by the preacher prowling in his barnyard late one night.

"Uncle Calhoun," said the preacher sternly, "it can't be good for your rheumatism to be prowling round here in the rain and cold."

"Doctor's orders, sah," the old man answered.

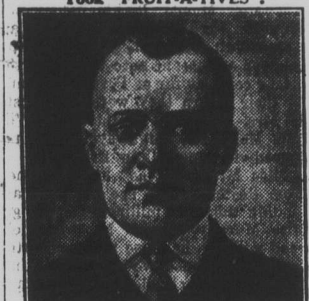

"Doctor's orders?" said the preacher. "Did he tell you to go prowling round here at night?"

"No, sah, not exactly, sah," said Uncle Cal; "but he done ordered me chicken bath."

Her Dad—So you want to marry my daughter. I like your nerve! Suiter—Well, sir, you ought to. I spent a whole lot of time working it up.

### A Wee Bit Sane

While a certain Scottish minister was conducting religious services in an asylum for the insane, one of the inmates cried out wildly:

"I say, have we got to listen to this?"

The minister, surprised and confused, turned to the keeper, and said:

"Shall I stop speaking?"

The keeper replied: "No, no; gang along, gang along; that will not happen again. That man only has one loud moment every seven years."

Lomax Did your watch stop when it dropped on the floor? Snooks—Of course! Did you think it would go through?

## WOODSTOCK OPPOSITION ROOMS BROKEN INTO

Blinds and Posters Torn Down in Woodstock, N. B.—Dirty Tory Trick Worthy of Dirty Party

Woodstock, N. B., Sept. 11—The government workers and executive committee in the county are getting desperate. Saturday night a large store in the main street of the town, rented by the Opposition for campaign purposes and in the windows of which were many posters with campaign mottoes were pasted, was broken into and the blinds and posters torn down. This was done, it is said, with the knowledge and approval of well known government workers.

### THE TRUTH HURTS

The truth must hurt. The posters were printed in two colors, a red border with bold black letters, and the plain unvarnished facts set forth. The names of those who paid back money and the amounts found a place on one poster.

The way of the transgressor is hard, and the men in Carleton county have abused the high trust reposed in them are paying the penalty. To have their errors placarded in public in the broad light of day, where the eyes of their friends and neighbors can rest upon the facts, is not pleasant, but they might have thought of the unpleasantness of posters and cartoons when they placarded the country with Carvell caricatures in the reciprocity campaign. This burglarious act will do much harm to the government candidates' cause. The reputation of Carleton county people has suffered too much from the acts of the government men whom they trusted and now the rest of the province will stand amazed at the evidence of the political passions that have been aroused because of opposition to Smith and the fight for better government.

The posters will be replaced by the opposition, and guards will be hired at night time to protect them, as well as the headquarters of the opposition. The better element of the Conservative party had no hand in and denounce the outrage of breaking into and entering the opposition quarters.

"So you spent a quiet vacation on the farm?" "I thought it would be, but dogs were barking, frogs croaking and the farmer's baby was teething."

Him—I don't know how to tell you how I love you. Her—Don't worry about that—I'll take it as it comes. What you want to get nervous about is how to tell papa about it.

**MISS CROCKET HONORED**  
Miss Marion Crocket, daughter of Dr. W. C. Crocket, who is going overseas to engage in nursing, will leave this evening for Montreal, en route for the old country. Yesterday afternoon Miss Crocket was presented by the members of the Women's Volunteer Reserve with a silver wrist watch. She was also presented by girl friends with a pearl pin showing the fleur-de-lis. They afterwards entertained her very pleasantly at the home of the Misses Beverley. Miss Crocket carries with her across the seas the heartfelt good wishes of a large circle of friends.—Fredericton Herald.

**COL. MACKENZIE MEETS KING**  
In the current number of Canada, an English illustrated weekly, is shown a splendid picture of the Canadian officers being presented to King George on the occasion of the latter's visit to the front. Heading the line is Lieut. Colonel A. E. G. McKenzie, O. C. 26th Battalion. Colonel McKenzie is a Campbellton boy of whom our citizens are justly proud.
