TOOK OFFICER AND FIFTEEN PRISONERS

Is One Day's Work of Willie Barter of Avondale on Bloody Battle Fields

Following is the intensely interesting letter promised Observer readers last week. It was received by James Barter, who at Avondale raised seven sons, five of whom are at the front:

Somehow in France Sept. 4, 1917.

Dear Father: I will write you a few lines today to let you know that I am quite well at present. I will tell you about the battle I was in August 21. I cannot mention names or places but will give you a sketch of a small part of our offensive. Half of our battalion was engaged for several days while the remainder was in support and I was with the support during the afternoon. We were to move out during the evening and take a position slightly to the rear of our post, or first line, and there wait for day light. We were then to move forward in troop formation to assault the enemy's line and take a strong enemy position which had been giving us boys a lot of trouble. This was to be our part and of course we were only a link in a long chain.

Now when this word was passed around we were given extra cartridges, bombs and wire cutters, also twenty-four hours rations. Some of the boys showed signs of nervousness. I think I did anyway. On the whole we felt quite cheerful except one man. He was worried; anyone could see it. About one hour before we were to start out he shot himself through the foot. He said it was accidental. It may have been. I could not say. The poor chap died from loss of blood and shock.

The time came and we set out. We carried besides our regular equipment a good supply of ammunition, a number of bombs, a wire cutter, shovel and pick-axe. All went well as planned. When we were in front of the position, we were to attack. When the big gun gave the signal to attack

all our guns opened fire on the German line. The Germans replied but their fire was nothing compared with ours. This lasted some time then the barrage lifted to his second line and word passed to advance. We went forward in open formation. When I got on my feet I will confess my knees felt shaky, but as we went forward I gained confidence and felt alright; only stopped to shoot when game was in sight. It was marvelous to see how our artillery, some six miles or more away, dropped shells on a line almost as straight as you would plow a furrow. We followed but only a short way until our good sergeant went down and the next in command was slightly wounded, but carried on. Poor Mills was all in. Further on the man on my right went down. He hardly moved after he fell. There were other men near me hit but I was unharmed.

Now we were at the Hun trenches and into them. I went a short way when I found one of our boys, who had met a Hun's bomb. He was in a bad way. I called for first aid. He was severely wounded. Went on a bit farther; encountered two Huns, both wounded. They threw down their guns and a bomb dropped between them and their day's work was done.

Then I turned to the right and left with other parties and our first line was won.

We reopened in a few minutes as the barrage again raised. We moved forward; our next objective was two rows of houses with deep, strong cellars connected by passageways; also connected under the streets by tunnels. We soon reached them with slight loss and immediately did our work—bombing the cellars to quiet anyone inside in hiding. Then the next objective was ours.

Canadian-like we went on and bombed out three or four rows of cellars. These advanced well into the town. They were very quiet, very few in sight, and they showed very little fight, only a few snipers and some machine guns in scattered positions.

We were now called to dig in and hold the ground taken. Our officers had laid out a trench well inside second Hun line. We commenced to dig in while our machine gunners established posts and prepared to assist us. Our stock guns also came up and were posted. They are a wonderful little gun; short range but effective as they throw a fifteen pound shell and are so light that two men can carry them; throw forty shells per minute.

I had no shovel so I went in a shell hole and acted as sentry for an hour, waiting for game, as I used to be waiting for moose, but saw nothing. I could not locate a sniper who kept up a rambling fire in the ruins of some house. After a while I stole back into the town to get a shovel I had seen there. I thought the danger no greater than stopping where I was. I kept some ruins between me and snipers and machine guns. I got the shovel O.

MUCH INTEREST IN PARISH ELECTIONS

New Council Elected on Party Lines—Several Old Members Retired

The county council will have six members new to their duties, although of the 25 comprising the old board 18 are returned again.

In the five parishes and Woodstock town where elections were held the result is as follows:

Aberdeen—	185
Lamont	142
Derrah	132
Hemphill	
Brighton—	288
Smith	247
Keith	215
Hagerman	
Kent—	
Perry*	
S. Kinney*	
J. Kinney	
Gallagher	
Simonds—	81
Shaw	80
Perry	75
Peters	70
DeLong	
Wakefield—	163
R. Bell	160
A. Bell	152
Kearney	119
Shaw	
Woodstock—	247
Gallagher	246
Stevens	244
Benn	50
Lindsay	

The influence of party politics was manifest at every polling place and the Tory machine was in full action. Perhaps the most bitter fight was at Simonds, where B. F. Smith, M. L. A., was early on the scene and opened the ceremony with machine gun fire. When it was seen that a party fight was on workers of both sides entered the fray and the result was a decisive one. Smith's candidates were defeated.

In Brighton many regret Frank Hagerman's defeat, but he could not be expected to win out against the influence of the machine, which, while its methods of operation are often open to question, produces enviable results. Such is the fact none will deny. W. D. Keith, successful business man and worthy citizen, was as strong a candidate as the parish could produce.

In Kent the fight was bitter, and two Conservatives replaced Liberals. Aberdeen returned the veteran D. H. Lamont, but C. A. Derrah is a new councillor. He is a Liberal.

Wakefield formerly sent two members who were Liberals. The new councillor is a Conservative. In Woodstock the new councillor is a Liberal.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Try It! Hair gets soft, fluffy and beautiful—Get a 25-cent bottle of Danderine.

If you care for heavy hair that glitters with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine. Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff. You can not have nice heavy, healthy hair if you have dandruff. This destructive scourge robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fallish, loosen and die; then the hair falls out fast. Surely get a 25-cent bottle of Knowlton's Danderine from any drug store and just try it.

CARVELL AND THE LEADERSHIP

The Standard is dreadfully worried about Mr. Carvell. It fears he may become leader of the Liberal party, and from the experience of some of its own directors the Standard knows what would happen. It therefore attacks him very bitterly. The Halifax Herald takes quite a different view. It says that Mr. Carvell has "loomed large on the political horizon" during the last session, "his general attitude toward measures relating to the war bringing him a large measure of political respect." The Herald further declares that he would be more acceptable to Quebec than most other Liberals, has a following in Ontario and is popular with the west. The Ottawa Citizen says: "If Sir Wilfrid retires, there appears to be a peculiar unanimity of view as to his likely successor. Frank B. Carvell, member for Carleton, is not only prominently mentioned for the position, but he is practically the only one mentioned."

Funeral of Ray Hatfield

The funeral of Ray Hatfield, who died from injuries received in an automobile accident at Caribou, was held at Mount Pleasant on Sept. 28. Rev. P. J. Quinn preached a sermon and was assisted in the last sad rites by Rev. J. M. Mallory. There was a very large attendance and a generous outpouring of sympathy for the bereft parents, brothers and sisters. The floral offerings were beautiful, coming from Caribou, Houlton, and Skowhegan. Besides the parents, Mr. and Mrs. Wentworth Hatfield, there survive Scott, Guy, Oscar, Ralph, and two younger brothers; and two sisters, Mrs. Charles Mean and Miss Hazel. Ray was a young man just past 20 who made many friends wherever he went. At Caribou he was employed as machinist in a garage.

CENTREVILLE NEWS

Rain last week somewhat dampened the ardor of the farmers. However, a lot of potatoes were dug, or rather, a lot of land was gone over with generally only a few potatoes to pick up. One farmer had 16 barrels off two acres, not enough to pay for the seed planted. Grain is about all harvested. Buckwheat shows a lot of blight. The millers are getting busy grinding feed. Pigs reached a record price in Woodstock last week, 20c per lb. dressed, for choice stock.

Was Completely Laid Up With Severe Case of Piles

Sworn Statement From a Man Who Has Unbounded Confidence in Dr. Chase's Ointment.

There is no longer any debate as to the best treatment for itching, bleeding or protruding piles. But since about one person in every four suffers more or less from this annoying ailment it is necessary to keep on telling people about Dr. Chase's Ointment.

Mr. Wm. Shaw, Island Brook, Que., writes: "I am writing this to let you know the benefit I have derived from your Ointment. I have suffered more or less for years with protruding piles and last winter I got so bad I was completely laid up with them. I went to our local druggist and asked him if he had anything that was good for piles and he recommended Dr. Chase's Ointment. I purchased a box and took it home and used it according to directions and for over one year I have not been troubled with piles. I had tried other remedies before but they only gave me temporary relief and that the box of your Ointment did more for me than all the others as I have not been troubled since last winter. For piles I have ever used and shall always carry a box with me, although I don't think I will need it for piles. We have used it for other purposes in the family, such as burns and cuts, varicose veins, and my wife says it is one of the best remedies for such purposes we have ever had in the house. Although you only charge sixty cents a box for it, it is well worth a box for anyone afflicted with piles. Now, you can use this letter if you wish or refer anyone to me who wants to know about it for piles. I might say that for my business I am known all over the English portion of Quebec, and am having this statement sworn to before a Justice of the Peace on April 11th, 1916. M. M. Holbrook, J.P., Island Brook, Que." Dr. Chase's Ointment is a best, all dealers, or Estey & Curtis Co., Ltd., Toronto.

A quiet but pretty wedding took place at the home of Mr. and Mrs. Thomas Pryor at Brookville on Wednesday, Sept. 26, when their daughter, Effie May, was given in marriage to Roy G. Carmichael of Bridgewater, Maine.

Immediately at 5 o'clock the bridal couple entered the parlor which was prettily decorated for the occasion. Rev. S. Johnson of Centerville performed the ceremony.

The bride looked charming in a gown of white silk crepe de

THE LIBERAL TASK

The Liberal party of Canada is called to the performance of a great task. While the sons of Canada at the front have forgotten politics to fight for liberty, the Borden government at home has carried on during more than three years of war a grossly partisan administration in the interests of the profiteer. While the sons of Canada have been fighting to make the world safe for democracy the Borden government at home has forced upon the people a franchise act which strikes at the very roots of democracy. While denouncing the German autocracy the Borden government has helped to entrench more securely in Canada the autocracy of privilege and graft.

The task of the Liberal party is to defeat the Borden government, in order that a really national administration may be formed, the whole weight of Canada thrown into the war, and the grip of the profiteer loosened from the throats of the people.

When the St. John Standard appeals to the loyalists of New Brunswick to support "Sir Robert Borden and the soldiers" it makes the direct charge that the Liberals with sons at the front are going to desert those sons. A more shamefully false charge was never made by the despising apologists of a discredited and beaten government. The Liberals of Canada since Sir Wilfrid Laurier in 1914 pledged the support of himself and his party, have done their part in the war, though constantly handicapped and irritated by the gross partisanship of a government which never lost an opportunity to enrich its party friends, at the expense not only of the people but of the soldiers who are now implored to save its worthless life.

"Our own boys" know who gave them the Ross rifle and the painted horses, and a generally raw deal, while the grafters flourished and favoritism was rampant in the appointments to the military service.

When the time comes the soldiers as well as their friends will give unmistakable expression to their feelings, and to their con-

EVERY HEADACHE HAS A MEANING

If there is one practice more dangerous than neglecting a headache altogether, it is taking drugs simply to numb the pain. Headaches are nature's warnings and serve a useful purpose. They tell of a function overtaxed or deranged and the wise man or woman takes steps accordingly.

When the Kidneys are not performing their natural function the blood stream becomes clogged with impurities, fruitful cause of headaches, constant headaches, and more serious complaints if nature's warning is not heeded.

The sufferer feels sluggish, unwilling to work, the back aches and there is a dizzy sensation on stooping. If the cause of the trouble is undetected, Rheumatism, Lumbago, Swollen Joints and Ankles follow, until Gin Pills are resorted to and the Kidney action restored to normal.

The beauty of the Gin Pill treatment is that first it will in all probability remove both headaches and cause, second, if there is no cure, the simple remedy can do absolutely no harm, and you have only to write the manufacturers and your money will be refunded.

Gin Pills are sold at 50c. a box or 6 boxes for \$2.50 on the money-back guarantee. If you have any difficulty in securing Gin Pills write for a free sample to the National Drug & Chemical Co. of Canada, Limited, Toronto, or to the U. S. address, Na-Dru-Co Inc., 202 Main St., Buffalo, N. Y.

GIVE "SYRUP OF FIGS" TO CONSTIPATED CHILD

Delicious "Fruit Laxative" can't harm tender little stomach, liver and bowels.

Look at the tongue, mother! If coated, your little one's stomach, liver and bowels need cleansing at once. When peevish, cross, listless, doesn't sleep, eat or act naturally, or is feverish, stomach sour, breath bad; has sore throat, diarrhoea, full of cold, give a teaspoonful of "California Syrup of Figs" and in a few hours all the foul, constipated waste, undigested food and sour bile gently moves out of its little bowels without griping, and you have a well playing child again. Ask your druggist for a 50-cent bottle of "California Syrup of Figs" which contains full directions for babies, children of all ages and for grown-ups.

STANDARD PATRIOTISM

Is it the Valley railway profiteers or some other group of the profiteering circle who are now dictating the "patriotic" editorials in the Standard newspaper?

The average man is sincerely patriotic and naturally objects to having his loyalty reformed to as doubtful. But if people must submit to being lectured on patriotism, they at least ought to know the motives, character and standing of the lecturers.

Is it the Fleming group—the crowd that whitewashed Fleming—who are preaching patriotism through the Standard?

Or is it the recently exposed group of patriots whose activities came out in evidence at the last few sessions of the Valley railway inquiry?

Or is it, perchance, some other gentlemen, of the patronage committees, or of the middlemen and near-contractors?

The public should know. A skeptical generation, having learned much during the last few years concerning the acts and motives of the gentlemen making up the Conservative machine in this city and province, may be excused if it is amused rather than otherwise impressed by the Standard's frantic flag-waving. The daily display of emotion in the Standard merely represents an effort to beguile the public into forgetting the various scandals of the last eight years in New Brunswick, not to speak of the Canadian Northern grab and the Franchise Act.

The Standard now apologizes to the Liberal rank and file, saying it never intended to question their patriotism. Well, that is a confession that the contemptible policy the Standard has pursued for years has been discovered to be dangerous to Conservative prospects, but beyond that the apology is of little moment. Everybody knows what is worrying the Standard. It is the well-founded fear of coming defeat. The country is against the Bor-

den government: and if the government is beaten the government organ cannot long survive it. Hence those tears, those pitiful appeals to all good men and true to stand by the machine this once more in order that the patronage circle may still be fed at public expense. The Standard does not speak for the Conservative party, but only for the patronage circle within the party, a limited group not particularly popular with the party at large whose reputation and prospects have been gravely compromised by the "insiders."—Telegraph.

Jake Wise Killed

Jake Wise, a well known resident of Houlton, was instantly killed last week in an automobile accident, when his automobile ran into a cow eleven miles from Houlton, on the Danforth road. The heavy Packard touring car which he was driving, turned completely over, pinning Mr. Wise beneath the wreckage, causing instant death. His companion, E. A. Currie, suffered severe injuries, but will recover.

Mr. Wise was well known in this province. He was the proprietor of the boundary line store on the Woodstock and Houlton road. He was an enthusiastic automobilist and was one of the participants in the famous Houlton to Boston contest run, when he drove a Hollier car against a Chalmers driven by A. D. Holyoke, of Woodstock. He leaves a wife, one son and one daughter.

HEALTHIEST ONE IN THE FAMILY

No Sign Of Droopy And Kidney Trouble Since Taking "FRUIT-A-LIVES"

HATTIE WARREN, Port Robinson, Ont., July 8th, 1915. "We have used 'Fruit-a-lives' in our house for over three years and have always found them a good medicine. Our little girl, Hattie, was troubled with Kidney Disease. The Doctor said she was threatened with Droopy. Her limbs and body were all swollen and we began to think she could not live. Finally, we decided to try 'Fruit-a-lives'. She began to show improvement after we had given her a few tablets. In a short time, the swelling had all gone down and her flesh began to look more natural. Now she is the healthiest one in the family and has no signs of the old ailment. I can not say too much for 'Fruit-a-lives' and would never be without them."

Could Not Sleep

Miss Gertrude Pratt, Wolsey St., Barrie, Ont., writes: "I was very much run down and could not sleep either day or night and my arms and legs ached so that life was very miserable. After using six boxes of Dr. Chase's Nerve Food I feel well and strong again."

W. N. Stevens arrived home from the west on Monday. He went out on the harvest excursion as far as Vulcan, Alta.

IT should be the pleasantest time of life and if coupled with good health it is. Many of our most remarkable men and women have won fame and prominence after reaching the sixties, and in lots of cases they have not been robust in youth.

The secret of health in old age is the prevention of bowel disorder. Constipation is the foe to be dreaded. Care in diet is necessary, also the avoidance of harsh cathartics, which only aggravate the trouble.

The ideal laxative for aged people is Chamberlain's Tablets

On account of their mild and gentle action, you hardly realize that a medicine has been taken. Yet the effect is none the less certain, and the tonic properties of these Tablets so build up and strengthen the digestive system that the health is greatly benefited. Try a bottle today.

"Pure and Uncolored"

ROOM FOR THE TRENCHES

The following facetious paragraph appears in the Halifax Herald:

"At one of the piers in Halifax, for transshipment to Europe, there are a number of hogsheads of Jamaica rum. It is understood that this is to form part of the winter ration of stimulants that is served out to the boys in the trenches. A local mathematician who visited the pier yesterday and saw the shipment, was figuring out how many gallons were in the lot and how many 'jags' a gallon would produce. He figured out that if the row of hogsheads were placed on the parade and straws provided, there would be enough in the shipment to place 68,473 men in condition for the lockup provided the police themselves did not get hold of the straws."

It will be interesting news to people who are being asked to economize and especially not to read "The Fiddlers" that hogsheads of Jamaica rum are being exported to be served to Canadian soldiers. That they do not need it is proved by the testimony of soldiers who have served in the trenches and are still there, but who have never permitted a drop of liquor to pass their lips. We have been told also that the wet canteen has proved a curse to some men who drank before they left Canada, and also to some who acquired the habit after they went to England. By whose authority is Jamaica rum shipped to our soldiers at the front? Instead of encouraging the drink habit in the army and preaching economy at home it would be far more patriotic to stop the manufacture of liquor in Canada and release for food purposes the raw materials thus wasted. The Boarden government will not even provide legislation to protect dry provinces from the liquor interests entrenched in Quebec province. And now, it appears that St. Robert and his colleagues are not averse to sending rum to the trenches, for if they refused their consent it would not be done. And yet, no doubt, this government will ask for and expect to get the support of the temperance people, and the votes of mothers whose sons are subjected to temptation even while they are fighting the Hun. If steamship space for food products is very scarce, why fill it with hogsheads of Jamaica rum?—Times.

A Necessity in The House

Most of the common ills of life arise from a torpid, sluggish condition of the Liver, Kidneys or Bowels, and, because they act on each of these organs in a direct and specific way, Dr. Chase's Kidney-Liver Pills overcome serious and painful diseases over which ordinary medicines have no control.

**SUFFERING CATS!
GIVE THIS MAN
THE GOLD MEDAL**

Let folks step on your feet hereafter: wear shoes a size smaller if you like, for corns will never again send electric sparks of pain through you, according to this Cincinnati authority.

He says that a few drops of a drug called freezeone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out.

This drug is a sticky ether compound, but dries at once and simply shrivels up the corn without inflaming or even irritating the surrounding tissue.

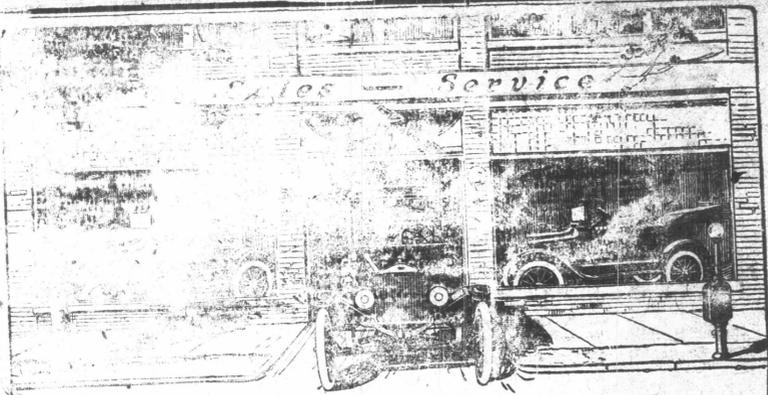

It is claimed that a quarter of an ounce of freezeone obtained at any drug store will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. Cut this out, especially if you are a woman reader who wears high heels.

Pay Will Be The Same

Men selected under the Military Service Act will receive the same pay as those now on active service receive. Pay will start from the time a man reports for duty. Money from the Patriotic Fund and Separation Allowance will also be available for selected men.

Canadian soldiers are well paid. The fact that wages in Canada are generally higher than those paid in Europe is recognized in the system of remuneration for men on active service. Clothing and all equipment in addition to food is also supplied to the Canadian soldier, leaving him with no expense except personal incidentals.

The rate of pay for men in the Canadian Expeditionary Force, other than commissioned officers, is as follows:

	Pay	Field Allowance
	\$2.00	30 cts.
Warrant Officers		
Regimental Sgt.-Major, if not	1.85	20 "
Warrant Officer	1.50	20 "
Quartermaster-Sergeants	1.50	20 "
Orderly Room Clerks	1.50	20 "
Orderly Room Sergeants	1.50	20 "
Pay Sergeants	1.50	20 "
Squad, Batt., or Co. Sgt.-Major	1.60	20 "
Colour-Sergeant or Staff-Sergeant	1.50	20 "
Squad, Batt., or Co. Q.M.S.	1.35	15 "
Sergeants	1.15	15 "
Lance-Sergeants	1.10	10 "
Corporals	1.05	10 "
Lance-Corporals	1.05	10 "
Bombardiers, or Second Corporals	1.00	10 "
Trumpeters, Buglers, and Drummers	1.00	10 "
Privates, Gunners, Drivers	1.00	10 "
Sappers, Batmen, etc.	1.00	10 "

As in the case of those already gone overseas, Separation Allowances will be available for those dependent for livelihood upon selected men. The Separation Allowance is \$20.00 per month for the rank and file, \$25.00 for sergeants and staff-sergeants and \$30.00 for warrant officers. The experience is that many men can afford to assign half their pay to dependents, in addition.

A considerable number of men who have enlisted in the Canadian forces have found themselves better off under the army rate of pay, which is granted in addition to board, lodging, clothing, equipment, transportation, etc., than they were while in civilian positions. Their wants are provided for, and they receive a steady addition to the bank account each month.

Issued by
The Military Service Council.

Beautiful 1918 Maxwell Now On Exhibition

Without altering the world champion motor, the famous perfected clutch and transmission or the mighty axles, the Maxwell builders have produced a new wonder car, far superior in construction and in appearance to anything yet turned out by the Maxwell factories—we have this new and beautiful car—come and see it.

The car is larger and roomier, for one thing—the wheelbase has been increased six inches. It is also a stronger and more rigid machine for the road. The frame is now six inches, instead of three inches deep. And the body rests directly on this powerful frame, instead of on brackets extending from the chassis, as in the past. Do you know what that means? It means this: The firmness with which the wheels grip the road and the steadiness of the car at high speed give you a sense of security such as you have been able to enjoy before only in cars shodded with a battery of shock absorbers.

This New Car is 50 Pounds Lighter

There's a marvel of engineering for you, friends! The car is made bigger and stronger—and yet actually lighter. This means greater ease and comfort on the road. More than that—it means greater economy.

Touring Car \$1045; Roadster \$1045; Coupe \$1540; Berline \$1540; Sedan \$1540

All prices f. o. b. Windsor
I. M. TOMPKINS
East Florenceville

And the Maxwell before was the most economical 5-passenger car in the world. Compensating underslung rear springs—the last word in spring suspension—mark this wonderful Maxwell of 1918. They mean greater comfort—greater economy, by lessening wear and tear on the car.

Maxwell Now Has the Style of the Costliest Cars

The new Maxwell is a car of great beauty. It has a sloped windshield and rakish lines never before produced in any car costing less than \$2000. Its good looks now equal its proved mechanical efficiency. The new upholstery is richer and gives a new comfort. Inside and out the new 1918 Maxwell is a perfected car. We're proud to sell it. You'll be proud to own one.

K. A corporal asked me where I got it and asked me to get him one if I did not think it to dangerous. I went and got one for him and was returning when I heard a noise below ground and looking saw the entrance to a dugout or tunnel. I went to the mouth of

the tunnel, keeping from view, called down a threat and a Hun that could talk some English came to the foot of the stairs. He called up: "Mercy! Don't blow us up and we will be your prisoners!" I asked "How many are you?" "I and sixteen." It

now seemed to me I was in a fix for they would be very tame indeed if they did not do something to me if they all got out on top and found me alone 100 yards from our line. As I had the trumps I made up my mind to keep them and play bluff, so when

he asked if they would come up I said, "No; tell all the others to get back in the dugout and stay there until they are called up. Tell them that there is a bomb waiting for the first man that shows his head before he is called; then you come up and see my officers." This was done. He came up and looked around and said "Where are the men?" I said, "Never mind; quick march!" pointing the way with my bayonet. But he turned and made as if to call to the others below, but a threat and movement with the bayonet changed his mind and he stopped with his mouth open and went the way I pointed. I delivered him to the officer and he sent two men with me and then another came, so I had three. We soon got back and called but they would not come out. I asked for one of the men to go down with me but could not get a volunteer to go so I went down and brought up a lieutenant and fifteen men and took them back to our officers. That night we got dug in. Now I will close with love and best wishes. Your loving son,

10 CENT "CASCARETS" IF BILIOUS OR COSTIVE

For Stak, Headache, Sour Stomach, Sluggish Liver and Bowels—They work while you sleep.

Furred Tongue, Bad Taste, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and clogged bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a mill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, mental fears, everything that is horrible and nauseating. A Cascaret tonight will give your constipated bowels a thorough cleansing and straighten you out by morning. They work while you sleep—a 10-cent box from your druggist will keep you feeling good for months.

Why Army is Like A Circus

Ottawa, Oct.—An army in the field has been compared with a circus travelling about the country. The comparison is a rough and ready one but, according to military officers back from the front, it suffices to show certain essential features of the fighting force.

One is that a large number of men are needed to look after the transportation and care of equipment, to cook the meals and put up the tents, etc., while the number of actual performers is comparatively few. Many more work outside the ring than in it.

The army has many disadvantages, however, from which the circus does not suffer. It has to build its own railroads, as a rule, run them and keep them in repair, while it must also bring in with it nearly all the food and other supplies that it needs. It must be braced up also for a constantly increasing burden of casualties, requiring special care and comfort, and in modern war the big guns consume vast quantities of shells daily which must be replaced immediately.

Ever noticed the number of men who are engaged to keep the circus in running order? If you have, you may be able better to understand why an army needs thousands of men behind the lines. A-7.
