eceived the following dispatch from Sir Redvers Buller:

"Headquarters in Natal, June 10 .-With reference to my telegram of June We halted yesterday to get our trains up the pass, which is very steep. I find the enemy were about 2,000 strong in a very carefully prepared position which they must have been very disheartened not to have held longer than they did. They have all retired about 26 miles to the northwest.

"I find our casualties were more than I first thought. They were: One officer wounded and two men killed and thirteen wounded."

IN BOER TERRITORY.

London, Monday, June 11, 3:30 a.m.-Gen. Buller is in Boer territory. Dispatches of correspondents with him filed yesterday at sunset, describe the corps as camping at Gansolei, close to the point where the frontiers of the Free State, the Transvaal and Natal

The defensive power of modern weapons seems less effective in rough country than upon levels, where wide spaces can be covered with flat trajectories.'

A DOUBTFUL DISPATCH. A belated dispatch from Mount Prospect, via Newcastle, Natal, dated Thursday, June 7, throws light on the armistice agreed upon between the British and Boers recently. It toppears that Gen. Buller met Gen. Christian Botha on June 2 at O'Neil's farm, between Umgueta and Majuba, and summoned Botha to surrender, Gen. Botha said he was not empowered to accede to the demand. Gen. Buller replied, "Very well,"

and turned to go away, when Gen. Botha pressed him to make a pro-Gen. Buller said he had no proposal to make, but pointed out the Boers were surrounded, and re-ferred to the uselessness of shedding

unnecessary blood. What do you want us to do " asked Gen. Botha beseechingly.
"Return to your farms, leave your big guns, and await Lord Roberts' decision," replied Gen. Buller. The federal commander said

would refer the question to the burghers. Gen. Buller then acceded to Gen Botha's appeal for an armistice until daybreak on June 6, showing that the Boer reports of Gen. Buller hav-ing requested an armistice to have been

[Note.—Gen Buller's dispatch makes no mention of the incident detailed above.] RUNDLE AND BRABANT.

Gen. Rundle's and Gen. Brabant's divisions are still at Hammonia, in the Ficksburg district. The latest intel-ligence from their headquarters is that the Boers are determined to fight to the bitter end. They are concentrating 4,000 men around Bethlehem. The country between them and Gen. Rundle is mountainous, and resembles Northern Natal in being exceedingly difficult for military operations. Gen. Rundle's present care is to prevent the Boers getting past him southward. Major Wood, of Rundle's staff rode to a Boer outpost on June 6 and an-nounced that Pretoria had been occupied by the British. How the Boers received this news is not recorded. Although 600 Boers have surrendered to Gen. Rundle.

The last information received here shows that President Steyn is at Bethlehem. He has a small band of desperate men with him, and the great body of the burghers in the northeast of the Orange River Colony appear to be heartily sick of the war.

AT VENTERSDORP. Gen. Hunter's advance has occupied

London, June 10 .- The war office has I Ventersdorp, one hundred miles southwest of Pretoria. This took place on June 7. Gen. Plumer's column is on the Elands River, northwest of Pre-Gen. Mahon's column has rejoined Hunter. The British are sending detachments right and left to accept the surrender of commandos, horses, cattle and forage, and to overawe the sparsely settled country. Thus far only one small commando has been heard of, a commando at Tail Basch. Gen. Hunter's immediate objective is Potchofostroom. This town and rustenburg are the largest towns west of Johannesburg. It is reported Potchofstroom is ready to submit. Gen. Hunter has warned all burghers that if the telegraph is cut behind him, he will send back and burn the houses

> DUTCH SPLIT. The Dutch in Cape Colony appear to have split, a majority of the Afrikanderbund being displeased by the unwillingness of Mr. Schreiner, the Cape Premier, to go the full length of the proposed opposition to the Brit-

NEAR ROODEVAL. London, June 10 .- Gen. Sir Forestier-Walker wires to the war office from Cape Town, under today's date, as

"Information received from natives early yesterday (Saturday) reported the enemy in three columns near Honing Spruit. "The railway has been almost completely destroyed between America and Roodeval."

London, June 10 .- It is reported in London this morning that Lord Roberts has imprisoned on the racecourse all male residents at Pretoria. KOMATIPOORT HELD BY THE

BRITISH. Lorenzo Marquez, June 9 .- It is reported that the British have occupied Komatipoort after fighting. President Kruger is said to have a large quantity of personal valuables with him. BRITISH PRISONERS. London, June 9 .- The mystery en-

veloping the fate of the British prisoners at Waterval had not been ex-plained officially. Gen. French ought to have reached Waterval Tuesday or Wednesday, and to have released at least 3,000 prisoners, if only 1,000 were carried east by the Boers. But Gen. Roberts has remained silent respecting this important detail. The tive of the Boers in taking off the prisoners is obvious. While the prisoners are with them there will be risk of starving out the Boers them-selves by the seizure of Komatispoort or the investment of Lydenburg. They are hostages for the protection of the burghers against starvation, and crease their resources for drawing the British Government into negotiations of some kind. Rundle's and Methuen's operations against President Steyn at Bethlehem remain unexplained. reconnoissance in force occurred on Tuesday, and there was some skirm-

ishing. Cape Town, June 10.—The British high commissioner, Sir Alfred Milner, has telegraphed United States sul Hay at Pretoria thanking him for his services in connection with the British prisoners at Waterval. widespread feeling of gratitude exists for the good work done by Mr. Hay, and also by United States Consul-General Stowe here.

The Situation. BOERS BUSY.

London, Monday, June 11-3:30 a.m. The Boers have torn up 21 miles of Lord Roberts' vital line of railway, between America siding and Roodeval. It is a bold raid and vexatious, but it does not disquiet the military authorities as yet, for they expect Gen. Kelly-Kenny to drive off the ma-rauders and to reopen the line. The The rapidity of the advance of Lord Roberts cannot have permitted him to they wish to surrender it must be un-conditional, and an artitlery duel is accumulate large reserves of stores. Therefore, an interruption of the railway, even for a week, must embarrass the army and may bring the forward operations to a standstill. Nothing has been heard from Lord Roberts for three days owing to his communication being cut at Roodval station. This raid on the railway, the serenuous op-position to Gen. Rundle and the mobile escape of Commandant-General Botha's division forced the war office observers to the reluctant conclusion that the war is not yet over, although even the occasional civilian Boer sympathizer cannot see how the Boers will be able to do anything to change the result.

Toronto, June 11.-In a letter from Red Cross Commissioner Ryerson, at Bloemfontein, under date May 4, the doctor says there were then 1,100 enteric fever cases in the hospital there, and 2,500 of all sorts. He adds: "It may be of interest to you to know that Lady Roberts, Lady Airlle and the Missses Roberts are moking bandages with the beautiful little machine given by the nurses of the general hospital, Toronto. Warm coverlets, towels, shirts, etc., are also most welcome. The coverlets were picked up at once, they were so light and warm. I am reserving some of them for the Canadian sick, of whom we

have nearly 100 at present. We have a large depot here, with quantities of food, handkerchiefs, wine, brandy, whisky, shirts, pyjamas, mineral waters, books, magazines, etc. British contributions come the Canadian, and then the International Red Cross Society. I am supplying the hospitals here with 600 eggs daily from Cape Town, at a daily expense eight pounds ten shillings."

NO CAUSE TO COMPLAIN. The Toronto Evening Telegram had the following special on Saturday: London, June 9.-The Canadians invalided here have no just cause of complaint. It is all nonsense about their being ill-fed and unhealthily over-crowded at Shorncliffe camp. Those who can afford the expense to enjoy a furlough have been granted permission

Are the Restorative and Re vitalizing Effects of Dr.

Chase's Nerve Food.

In no regard has the progress of the nineteenth century been so marked as in the method of treating diseases of the nervous system. "To kill the disease" was the old theory, and strong, poisonous drugs were used, which deadened the nerves and killed the delicate linings of the

stomach. "To build up the system" is the new theory, and the restorative elements of nature are used to fill the body with nerve force or vital energy to overcome disease.

The outcome of this great stride forward in the treatment of nervous diseases was the discovery of Dr. Chase's Nerve Food, the greatest restorative the world has ever known.

The very elements of nature which go to form nerve force are combined in pill form in Dr. Chase's Nerve Food. These elements cannot fail to create new nerve cells and new red corpuscles in the blood any more than nature herself can fail in fulfilling the

laws which govern the universe. But there are no miracles in nature. and Dr. Chase's Nerve Food cannot work miracles. It cures by building up the system, and this process of re-construction takes time. The certainty of beneficial results warrants the persevering use of this great treatment until the body is filled with new life and new vitality. The rounding of the form and the return of color to the cheeks will prove to you the presence of new vigor in the body-vigor which will overcome disease and pain; 50 cents a box at all dealers, or Edmanson, Bates & Co., Toronto. BASEBALL. LOST THE FIRST.

In the double-header here on Saturday, the home team and Grand Rapids broke even. About 600 enthusiasts were in attendance. The first game was lost to the locals through costly errors. Cooper, who did the slab work in this game, issued no less than seven passes, and made a wild throw to second, which cost two runs. It was the first game lost by the home team in which he has pitched this selason, and the fielders who was in the box for the visitors, was hit hard and often, but they generally landed near the outfielders, and were easily gobbled up. The visitors' outfield had no less than twelve put-

In the third inning, Holmes made a wild throw to second to catch Cope and the ball rolled out to center, and

Cope crossed the plate.
In the fifth inning, Pickard, in returning the ball to the pitcher, threw It low, and struck Hagerman, who was at bat, on the head. The runner at first made second, and Hagerman was credited with a sacrifice hit. "Hag" didn't take kindly to the rap on the head and wanted to go after Pickard.

CANCER CURED PERMANENTLY

Not Relieved Simply-But Thoroughly

and Permanently Eradicated. To make such a statement, that cancer, the one disease above all others that is considered incurable, could be permanently cured, would seem too absurd to be considered even for a moment, only that there is plenty of proof from cured persons in Canada, to show that this is a simple and indisputable fact. The remedy that makes these permanent cures is of a constitutional character. searches out the cancer poison, neutralizes it and destroys it, and re-stores the wasted vitality of the body.

There is no need of operation or suf-fering of any kind. Stott & Jury, Bowmanville, Ont., on receipt of two stamps, will supply interested persons with full particulars of this treatment, and names of some of who have been permanently cured by it.

Even in cases too far gone to be perfectly cured great comfort and satisfaction has been given by building up the vital forces, staying the progress of the disease, and thus prolonging life.

Review of the Situation in South Africa-France Satisfied Now the Mines Are Safe-The Future of the Transvaal-Deep Interest in the "Boxer" Movement-Speculations Re Prospect of an Eastern War.

the late news from South Africa, discusses events in an interesting manner, as follows: Gen. Buller's operations against Laing's Nek are described by a correspondent as brilliant. One version credits the Boer commander with offering to surrender on Thursday upon certain conditions, and states that Gen. Buller declined to treat with him. As Buller himself neglected to this detail, the information is probably untrustworthy.

Nearly all the dispatches yesterday such as the occupation of Senekal by Gen. Rundle and a sacrifice of life by the Middlesex Yeomanry, and details of French's operations against Johan-nesburg. A fresher detail was the fact that the arrival of Gen. Baden-Powell is expected at Cape Town, and an interesting bit of statistics was an official return that 36 peers and 27 members of the commons are serving the Queen in South Africa. The war office closed at midnight without reporting the restoration of communications with Gen. Roberts. On Wednesday the wires were cut at Roodeval station, north of Kroonstad, by Orange River Colony raiders, estimated to be 2,000 strong, with six guns. This force must have run in between Gen. Methuen at Lindley and Gen. Colville at Heilbron, and reached the railway near the Rhe-

DEWET'S WORK.

This stroke must be set down to the credit of Dewet, who has shown himself to be a daring commander during the campaign. He contrived to capture the yeomanry in spite of Gen. Rundle's advance from Senekal, and Gen. Methuen's forced marches for the relief of the garrison, and immediately disposed of his prisoners and struck across the country for the railway, whence the relief column had come. Strong reinforcements have been sent to Kroonstad, and a speedy re-

storation of communications is prom- sporting novels. ised. The utility of this counter-stroke on the part of Dewet is less apparent than the annoyance which is caused on the British side by the lack of unity in the direction of the scattered diviin the direction of the scattered divisions. They cannot receive orders from Gen. Roberts, and much confusion must result. The Orange River first amateur orchestra composed of Colomy burghers are making a much people of position. better fight than the Transvaal Boers, but they can hardly expect to hold out long against the superior forces which will be massed against them.

FUTURE MOVEMENTS.

The lack of news from Lord Roberts is fully explained today by the admission that the wires have been cut near Roodeval. Communication will probably be restored without serious delay, but the incident has set military men gossiping about the order of precedence and seniority in the Orange Unity of direction 13 River Colony. in operations against Steyn's burgher's, who are making a good deal of trouble, and this cannot had when Lord Roberts is in Pretoria with the wires cut behind him. Lord Methuen, who was left in a corner after opening Lord Roberts' campaign, is now at Lindley, and by virtue seniority ought to be in command of all the British forces in the Orange River Colony. Either Kelly-Kenny or Rundle would be a better general for commanding the British forces in the final encircling movement around Bethlehem, and it is not likely that Lord Methuen will be placed over them. Buller's friends assert that the only division dommander of the original army corps whose fortunes have been safe is Clery, and that is because one serves under the Both Gatacre and Methuen, they add, were ordered to ride across infantry in place of mounted troops, but Methuen certainly covered the ground as rapidly as anyone could have got over it. The fate of the yeomanry captured at Lindley has keen-ly interested the west end. If these troopers are sent to Lydenburg and kept there as hostages, there will be an opportunity for President Kruger to squeeze more millions out of them than out of the reform leaders imprisoned and bled after the Jameson PARLIAMENT.

The reassembling of parliament on Thursday will be the signal for the revival of political activity. The min-1sters have been silent for ten days, and the Unionist press is without cues on the China question and domestic The prolongation of the campaign in the Lydenburg district and anxieties in the far East will predispose the ministers to defer a general election until October, and possibly to a later period.

FRENCH OPINION. Interest in France in the Transvaal war has subsided very considerably since Lord Roberts began his victorious march, and especially since he announced that the Johannesburg gold mines were uninjured. Fear of damage to the mines in which an immense amount of French money is invested, has been the leading cause anxiety for the Frenchman, in no wise shared the advice freely given the Boers by a portion of the French press to destroy the mines as a latter day emulation of the burn-ing of Moscow by the Russians. French shareholders failed to see the heroic side of this act, through which they would be the greatest sufferers, and the news of the safety of the mines brought a sigh of relief. The subsequent occupation of Pretoria by the British received scant attention, and most of the journals are of the opinion that it does not mean an end of the war, but the contrary it will be succeeded by the now much-talked-of guerilla warfare, which they predict will tire the British out, and cost them more blood and treasure than even yet has been

AFRICA AFTER PEACE. On account of China, German inter-

est in South African news has flagged this week. The semi-official Post has however, published a remarkable article: "Is the annexation of the re-

It adds that a certain number of Boers will be welcomed in German colonies if they drop all preten-sions to separate political existence. The task of civilizing and opening up the dark continent for trade may well be divided between the three leading related to events at least a week old, European nations without causing strife."

"THE MILLIONAIRES." There is searcely an old family in England without a relative or connection among the members of the battalion of yeomanry captured by the Boers near Lindley. One section of the force, the Duke of Cambridge's troop, was known as "The Millionaires." One of their tents had an aggregate of £80,000 a year. They supplied their own horses and kit. Yet. judging from the reports, they did drudging, and underwent hardships with as good grace as any uncuttured "Tommy." While on the way to the Cape on a transport, and officer, seeing one of these millionaires swabbing the decks in a gale said: "You seem to have good sea legs, my man." The man replied: "I have kept a yacht for the last ten years, sir."

title. THE EASTERN WAR CLOUD.

London, June 11.-The Chinese situation, which at the beginning of the week was merely a small cloud on the international horizon, now overshadows main care now is to re-establish order-ly conditions in China. Nobody seems every other topic. England, according to care whether the Chinese governto most authorities, save those who control her foreign policy, is face to face with a crisis in far eastern affairs which, though it may not result in any immediate partition of China, must determine the part that England shall play when the partition eventually occurs: That such an emergency should have arisen at a moment when England is least able to utilize it, when almost all her land forces are 6,000 miles from home, and when there is a paramount necessity for keeping an extra strong fleet in European waters, is deplored by all shades of statesmen and politicians. Lord Salisbury stands almost alone amid his own party lieving that the results of the Boxer outbreak will be neither serious nor permanent. The attitude he adopts towards the unanimous agitation for more strenuous action is voiced by an intimate friend, who says:

SALISBURY NOT ALARMED. "Lord Salisbury believes we should be thankful for small mercies. The cocountry to rescue an isolated garrison, and each failed to arrive in time. Gatauthorities on the spot seems perfect acre was subject to censure for taking and unusually harmonious. So long as that satisfactory state of affairs continues he will be eminently satisfied, and will take no other steps unless one or several of the powers ask Great Britain's assent to a scheme which appears feasible, or, unless Russian ag-gression becomes much more patent than it is today. When these contingencies occur or representatives of the various nations at Pekin fail to agree, then will Lord Salisbury assume the initiative. At present he is agreeably surprised at the smooth progress of the negotiations at the seat of disturbance and implicitly trusts in Sir Claude MacDonald, the British minister to China.'

It may be added that Great Britain's premier is not particularly optimistic regarding the length of time the var-ious ministers and admirals in the far east will co-operate so admirably. But Lord Salisbury is far too philosophic to borrow trouble. Or, as he is irre-vocably committed to the opportunist policy pure and simple in the far east, of not crossing bridges before he comes

PROSPECTS OF WAR. In the meanwhile the members of every embassy in London, and every club,

to say nothing of the stock market, are discussing eagerly the prospects of war between two of the powers arising from the Pekin troubles. It is the old cry of "wolf," and this time many well-informed people are greatly inclined to believe the "wolf" will materialize in the shape of Russia, with Japan as her opponent. Admiral Freemantle's reported statement that war between these countries is inevitable creates no surprise, though such plain speaking is severely discountenanced officially. A government official said:

"I quite believe Admiral Freemantle said what is credited to him. He is a splendid officer, but a rash talker. It is not the first time he has said things which had better have been left unsaid."

SILVER AS CHINESE CURRENCY. A curious feature is the opinion held by many financiers that if the present disturbance portends opening up China, it also portends an inestimable increase in the circulation of silver with the accompanying tendency to put that metal on a parity with gold. A well-known American financier in London points out the fact that copper is now the general medium of exchange in China. With the ingress of Europeans cumbersome tokens would naturally be done away with and silver in-troduced in the most populous country in the world. On this basis there has been a strong undertone in the silver

market with interesting discussions on the political and economical changes incident upon the possibilities of the in-

creased uses of silver. IMPORTATION OF DEAD MEAT. Returns just issued by the board of agriculture show that the ever-increasing importation of dead meat to the United Kingdom has reached the daily average of 2,300 tons, while wheat, butter, eggs, rabbits and game have all enor-mously increased in the extent of their importation. The foreign products being almost invariably cheaper, the farmers are confronted with the prospect of eventually having no home market.

THE FEELING IN PARIS. A Paris correspondent says: The grave situation in China monopolizes the attention of the political world, and has thrown a shadow over questions of minor interest, even including the Transvaal. Paris and its politicians admit the seriousness of the condition of affairs around Pekin, and apprehensions are expressed lest it lead to international complications. The greatest element of danger in the situation is generally felt to be the double duel for supremacy between Russia and England and Russia and Japan. The sympathies of French-men are naturally with their ally, Russia. It is not thought that England is likely at the present moment, when her hands are fully occupied with South Africa, to take any step to produce an Anglo-Russian collision: but she is firmly believed here to be behind Japan, and her support may encourage the latter to adopt such a policy as will eventuate in hostilities with Russia, for which, apparently, the Japanese are itching. LOOKING TO THE UNITED STATES

The action of the United States is acknowledged to be the most important factor in the situation. Her friendly relations with both Russia and England favor the impression that she will endeavor to steer an independent course; but will, at the same time, if compelled by the force of events, re-luctantly join Japan and England. At the foreign office no attempt is made to conceal the anxiety which prevails.

IN BERLIN. The situation in China is regarded in Berlin as of the utmost importance. Though the foreign office has been rather uncommunicative towards all foreign correspondents, enough reliable information has leaked out to show that the whole government, with the emperor and minister of foreign affairs, Count von Buelow, leading, consider the suppression of the anti-foreign movement in China as pre-requisite for a possible rejuvenation of China, and certainly for the establishment of healthy commercial conditions there. Germany is, therefore, in favor of harmonious joint action by all the powers interested in China, without permitting any single power to reap selfish advantages from the situation, nor the group of powers doing so. CO-OPERATION WITH THE POW-ERS.

His majesty's instructions are that while Germany will in no way put herself unduly forward, and is willing to loyally co-operate with the rest of the powers, she will under no circumstances permit the present conditions to go on, even if thereby suspicion should be aroused that Germany is seeking separate aims. The Cologne Gazette points out inspiredly that the ment thereby comes to grief, or how the relations between the powers are thereby altered. It seems relatively unimportant whether the conservative or reform party in China be in power.

GENERAL ROBERTS

How He Gains the Affections of Those Fighting Under Him.

Windsor, June 11.—In a recent letter to his parents, John Northwood, one of the Windsor boys in South Africa, makes the following reference to Lord Roberts:

"Now you see what good old 'Bobs' has done. He is a prince of generals to fight under; you should have seen the way he cornered Old Whiskers Cronje. 'Dear Old Bobs,' as he is called, is a very small man (in stature), and looks like a boy when he gets on his pony. He wears no decorations whatever on the field, but on his right arm he wears, instead, a simple band of sorrow, a piece of crape. When we see this man, who lost his only beloved son such a short time ago, and such a son, and with what prospects, when we see that he has just put aside his own sorrow, has brushed his own tears away, and has once again offered his life for his country's service, we cannot but admire and love him.

"After the surrender of Cronje, when our regiment was drawn up in the laager so lately occupied by the Boers, 'Bobs' made us a little speech. In his own quiet and simple way he commended us for our conduct throughout the engagement, and thanked us in the name of the country, and when he was through every one of us felt proud of himself. Then and there 'Bobs' took us all prisoners, and we would all follow that little, quiet, un-assuming man through all the Boers

SUPERIOR MERIT.

Remarkable Curative Properties of a Remedy for Indigestion and Stomach Weakness.

Stuart's Dyspepsia Tablets, a preparation for the cure of dyspepsia and the various forms of indigestion and stomach trouble, owes its great success as a cure for these troubles to the fact that it is prepared for disease and weakness of the stomach and digestive organs only, and is not recommended

or advised for any other disease.

It is not a cure-all, but for any stomach trouble it is undoubtedly the safest, most sensible remedy that can be advised with the prospect of a permanent cure. It is prepared in tablet form, pleasant to taste, composed of vegetable and fruit essences, pure pepsin and Golden Seal, every one of which act effectively in digesting the food eaten, thereby resting and invigorating the weak stomach; rest is nature's cure for any disease, but you cannot rest the stomach unless you put into it something that will do its work or assist in the digestion of food.

That is exactly what Stuart's Dyspepsia Tablets do. One grain of the digestive principle contained in them will digest 3,000 grains of meat, eggs or similar wholesome foods; they will digest the food whether the stomach is in working order or not, thereby nourishing the body and resting the stomach at the same time, and rest and nourishment is nature's cure for any weakness.

In persons run down in flesh and appetite, these tablets build up the strength and increase flesh, which the weak stomach cannot do; they increase the flow of gastric juice and prevent fermentation, acidity and sour, watery

Stuart's Dyspepsia Tobiets can be found at all drug store, at 50 cents per package.

Chicago Labor Troubles May Soon Ee Adjusted-Printers' Strike Off-Railway Company Recognizes the

Chicago, June 11.-Arrangements were completed Saturday for the joint conference next Tuesday between a committee from the building contractors council and representatives of every building and material trades union in Chicago now on strike. Both sides are now confident that a settlement of the strike, which has involved 50,000 union men and paralyzed building operations,

s at last in sight. Pittsburg, June 11.-The strike of the printers, inaugurated last December in all the English dailies except one, was officially declared off Saturday night by the executive board of the I. T. U. Members of Local, No. 7, are angry at the action of the board, and a sympathizer of the strikers attacked President Donnelly at the entrance to the Grand Hotel, beating him pretty badly before the police succeeded in arrest-

Detroit, June 10 .- At a general meeting of the employes the modified counter proposition submitted by President Hawks, of the Detroit, Ypsilanti and Ann Arbor Railroad, was finally accepted. A full recognition of union has been obtained.

Hamilton, June 11.-Mr. Keogh, of Troy, N. Y., organizer of the International Moulders' Union, and a deputation from the local Moulders' Union, met the foundrymen at the Gurney-Tilden Company's office this morning, and an effort was made to settle the difference between the men and the bosses regarding wages. It was an-nounced that the bosses would not agree to any further advance in wages. It is not thought likely that there will be a strike.

FOUR MEN SHOT.

St. Louis, Mo., June 10.-Four men in a party of 100 or more striking employes of the Transit Company, who were returning from a labor parade in East St. Louis, were shot shortly after 6 o'clock this evening by members of the sheriff's posse. Three are dead and the fourth will lose a hand. dead are C. E. Thomas, striking conductor; George Rene, striking motor-man; Fred Boehm, an aged citizen. Just in front of the barracks occupied by the posse the paraders attempted to assault the crew of a passing street car. A brick was thrown and several shots were fired by the street car men, when members of the posse appeared on the street with their shotguns and attempted to rescue the street car men. In the melee at least ten shots were fired by the posse men, who surrounded the mob, and there were four casualties as far as now known. Twentyone prisoners were captured.

FLIGHT OF THE DOWAGER EM-PRESS.

London, June 11 .- A special dispatch from Tien Tsin says it is reported the dawager empress has fled to the Russian legation at Pekin.

A missionary who has returned from ulace are asserting that they must have a new emperor.

A special dispatch from Pekin under date of June 9, says: "The situation is growing steadily more alarming. The missionary compounds were all abandoned yesterday evening. Forty American and English missionaries are gathered at the American Methodist Mission, surrounded by 300 native pupils, whom it was impossible to send to their homes. They are waiting with a few revolvers, and guarded American marines, for reinforcements

to take them to the coast." BRITISH USE THE BAYONET.

Tien Tsin, June 10 .- Telegraphic communication between here and Pekin was interrupted this morning. A special train left at 5 o'clock this evening, with 30 British troops, to guard Tong Shan. Owing to difficulty in securing the viceroy's permission for a forty Boxens, armed with knives, have third special train to start for Pekin, the foreign troops occupied the cars, wherepon the Chinese engine driver ran away with his locomotive. The crowd tried to pull up the track, but the troops cleared the rabble away at the point of the bayonet and seized the On learning of this the roy granted permission, and the train left at 5:15 p.m. with about 500 men. The force was made up of 350 Germans, 80 British, and the rest French troops.

MASSACRED BY BOXERS.

London, June 11.-Details have been received from Shanghai regarding the recent murders of railway engineers by Boxers. It seems that a party of 30, including six ladies and one child, left Pao Ting Fu in twelve boats under military escort. After traversing 50 miles in safety they missed their way. The boats grounded, and the Boxers open-The engineers retured the fire effective-

The survivors formed a square with those able to bear arms outside, and the women inside, and made off towards Tien Tsin. They traveled three and a half days, fighting all the way. They esti-mated that they killed at least a hundred rebels. The men behaved like heroes, carrying the women and children. Twelve miles from Tien Tsin three men disappeared and were murdered. dered. The survivors eventually reached the rescue party, and, much exhausted, they were escorted to Tien

MESSAGE FROM BRITISH MINIS-TER. Sir Claude McDonald, the British

minister in Pekin, sent the following telegram to Shanghai on June 7: "The movement against the foreigners, which has been allowed to grow to such an extent, has resulted in the burning of railway stations, and in the interruption of railway communication for five days. Two British missionaries and several foreign missionaries have been murdered in the district near Pekin. In the country round numbers of converts have been murdered, and chapels have been pillaged, and destroyed, while in the capital itself the British mission aries have been obliged to leave their homes and take refuge at the legation, work, night and day, curing Indigestion, Biliousness, Constitution, Sick Head-ache and all Stomach, Liver and levents so far as to send high officials Bowel troubles. power to do so; but the throne is still strongly influenced by sympathy with the movement and the spirit of the troops is doubtful. All is well up to the

HOPEFUL SIGN.

London, June 11.-The return of the Emperor of China and the Dowager Empress to Pekin from the summer palace is regarded as a hopeful sign; but otherwise there is no favorable news from China, with the exception that there is evidence of a continued perfect understanding between the var-ious powers, and the announcement that the international guards will probably arrive at Pekin today. Should these prove insufficient to restore order Russia is apparently preparing to deal with the crisis.

According to a dispatch from Shanghal dated today, four thousand Russians, with twenty guns, have already been landed at Tien Tsin and are marching in the direction of Pekin. The Shanghai rumors must be accepted with caution. MARINES GUARD THE MISSION-

ARIES. United States Minister Conger has sent twenty marines and British Minis-ter McDonald twelve marines to guard the country to the east says the pop- the Methodist Mission Compound, where numbers of all denominations of the Protestants are gathered. The Roman Catholics assembled in the north catholics assembled in the north cathedral, West Pekin, have a small guard of French marines, but the converts also have been well armed by Bishop Favier and will desper-

ately resist attack. Business is practically at a standstill. Constantly increasing streams of Boxers parade the streets at their pleasure, much to the alarm of the merchants, although thus far there has been no looting of native shops.

THE MISSIONARIES. The London Missionary Society re-ceived a telegram from Tien Tsin yesterday saying that all the society's misionaries in North China were safe, but those stationed west of the city of Pekin had been obliged to seek refuge at the British legation.

A dispatch from Pekin dated Saturday evening, June 9, says: "A body of looted and burned the Pekin Club, race track and grand stand buildings. "Another edict issued this morning orders the military governor to police the streets with cavalry and infantry.'

FROM THE UNITED STATES AD-MIRAL. Washington, June 11.-The following undated dispatch has been received at

the navy department: "Secretary of the Navy .- Forces landed by different nations. Opening com-munications to Pekin. Americans joined. (Signed) Kempff." Admiral Kempff also reports the ar rival at Taku of the Monacsy.

London, June 11.-With reference to the St. Petersburg dispatch, the Associated Press is officially informed that Great Britain is no party to any such understanding, nor has she been con-sulted as to the advisability of landing a large number of Russian troops.

A CONTRADICTION.

MASSACRE OF CHRISTIANS. New York, June 11 .- Rev. Adna B. Leonard, missionary secretary of the Methodist Church, whose offices are at the Methodist Episcopal Book Room, Fifth avenue, today dispatched the following message to the president:
"Hon. McKinley, Washington: The following cable just received from Pekin: 'Massacre native Christians; situation critical; press Washington.' This means our people are in great peril and greatly need such protection as our govern-ment can afford. (Signed) A. B. Leon-ard." Dr. Leonard, to a reporter, said: "There are in all forty missionaries in the northern section of China. The Me-thodist Episcopal Church has one-third of all missions in China, there being 26,,000 communicants in two provinces alone. The Congregationalists are next in importance as affected by this uprising. The Baptists take in Central and South China."

MARTIN BEATEN

Has Only Eight Supporters Out of Thirty-eight Members.

Victoria, B. C., June 10.-Although returns in the election contest are not yet complete, sufficient are available to indicate that the Martin Government has met with a crushing defeat. Out of 38 seats only 7 have gone for the government, although Mr. W. W. B. McInnes may reasonably be classed as a government man, swelling the number to eight. The government also claim Wells, independent, in N. E. Kootenay, and Munro, the provincial party candidate in Chilliwack, both of whom, however, were opposed by straight government men. Giving the government all these, however, they could not have a dozen members. On the other hand, the opposition will have seventeen and the straight conservatives seven, with two or three

independents and labor men. Following is a reasonable classification of the 38 seats: Government-Oliver, Delta, Smith, E. Kootenay; Curtis, Rossland;

Brown, Westminster; Rowan, Richmond; Martin and Gilmour, Vancouver; McInnes, N. Nanaimo-8. Opposition-Mounce, Comox: Irving, Sassiar; Dickie, Cowichan; Pooley and Hayward, Esquimalt; Prentice, E. ton, Yale N.—17. Conservatives — Clifford, Cassiar; Rogers and Hunter, Cariboo; Mc-Bride, Dewdney; Taylor, Revelstoke; Garden and Tatlow, Vanvouver.—7.
Provincial party—Neill, Alberni;
Munro, Chilliwack; Green, Slocan; Houstan, Nelson.-4. Independent-Willis, N. E. Koote-

Labor-Smith, Nanaimo-1. Altogether the full returns are not in from all of the above, and in the case of Cassiar will not arrive for two weeks, the above will be the 38 members of the new house.

JOSEPH WILL HOLD ON. [Special to Advertiser per C. P. R.] Ottawa, Ont., June 11.-The latest information received today from Joseph Martin is that he intends carrying on the affairs of the government of the Province of British Columbia until the meeting of the legislature on July 26. He says that he has a following of 13 out of 38 and that the opposition is hopelessly divided. Of course, this will depend upon whether the lieutenantgovernor will permit him doing so or There is, however, every likelihood that he will. No solution short of another election can be found here to solve the difficulties that are ahead.

GOES TO EXTREMES.

The present Czarina of Russia goes to extremes in the simplicity of her court apparel, and in this respect forms a great contrast to the famous Elizabeth Petrowna, daughter of Peter the Great, says the New York Herald. The latter, while empress had earned the title of "Elizabeth the Good," because she never approved of any executions in her empire. On the other hand she was much criticised for her extravagance and eccentricity in dress. After her death the fact became known that she had 15,000 costly gowns in her wardrobe, none of which had ever adorned her royal Now, when the dress of court is a

more serious matter with the royal and noble women, Russia has a Czaring who observes the strictest simplicity in her gowns, and requires the same from her guests and attendants. This has caused endless dissatisfaction. The ultra fashionable lady must bear the chagrin of appearing at

Rifle League Matches.

The second Canadian Military Rifle League match was shot off on Saturday. The day was beautiful, but flitting clouds made the light so variable as to render it next to impossible to make good scores at the long range. The first team did better shooting by 80 points than on June 2, and the sec-

ond team by 84 points. Capt. Smith gave a fine exhibition of quick shooting at 200 yards, and headed the score at that range with 32 points. Charley Wilson led the second team with a score of 81 points, and Pte. Allen, of A company, headed the field with a score of 92. Lieut. Murphy scored a possible at 500 yards. James D. GERMAN STREET CAR FARES. [Chicago Record.]

The magistrates of Frankfort-on-Main have resolved to make a con-siderable reduction in the passenger rates on the city's electric railroad In future the rates will be 10 pfennigs for four kilometers (21/2 miles.) transfers will be allowed for this fare. For distances above four kilometers 15 pfennigs will be charged. The old horse-car prices of 20 and 25 pfennigs will be abolished. (Twenty pfennigs is about 5 cents.)

A SCOTSMAN'S VIEW OF ADAM. Curious specimens of Scottish humour are brought out at the examinations by ministers of the flock before the administration of the Communion. Thus, with reference to human nature before the fall, a man was asked,"What kind of man was Adam?" "Ou, just like ither folk." The minister insisted on having a more special description of the first man, and pressed for more explanation. "Weel," said the catechu-men, "he was just like Joe Simpson, the horse couper." "How so?" asked the

court functions in a very plain toilet, for otherwise the scrutinizing eyes minister. "Weel, naebody got onything by him, and mony lost.

The popularity of the military tattoo as given last year on the camp grounds was attested by the immense throngs of people that attended it. The divisional staff, brigade staff and officers of the various corps now in camp intend to give a repetition of last year's entertainment, only on a much larger scale. The only drawback to the success of that of last year was the inability to accommodate and control the crowds. In order to do so on Wednesday night, the committee that has the arrangements in hand, consisting of the various paymasters in camp, with Capt. Cook, of the 27th, as chairman, has set a section apart and will endeavor to provide seating capacity as far as possible. For purposes of control a charge of 10 cents will be made for this accommodation, and the proceeds will be given to the Local total area of cotton planted, 25,558,000 Council of Women for distribution acres; increase of 2,036,000, or 8.7 per among the various city charities. This action has been decided upon as the most business-like, and so as to avoid as far as possible the dissatisfaction that existed in certain quarters last dicipate in the ceremony of veneration year. The officers hope that by this in the case of two Italian saints replan everyone will be pleased. The various portions of the programme, especially the music and fireworks,

will be on a grand scale.

HARRISON'S CASE

Arrested in London Camp on a Charge of Counterfeiting.

Stratford June 11 -A F Harri alias Harris, a member of the 28th Regiment, arrested at the London camp, was brought here, and, after a preliminary hearing, remanded till Monday. The circumstances leoding up to the arrest of Harris date back to August 22 last, on which date he mysteriously disappeared. Harris, as he was then known, had been employed with Mr. Nichols, a Mornington farmer, as a thresher for about thirteen months, in the course of which time certain family difficulties resulted over money matters, it is alleged, causing unfriendlibetween Mr. Nichols and his

mother-in-law and brother-in-law. Subsequently Harris disappeared, and no trace of him was found until Tues-day, when the volunteers left Stratford for camp. On that day Mr. Nicholls recognized his former hired man, Harris. He immediately had a warrant sworn out for Harris' orrest, charging him with having in his possession dies making counterfeit coins, making use of the same, and subsequently uttering counterefelt coins. Constable Mc-Carthy went to London, but could find no person in camp by the name of Harris. Subsequently, however, it was found that he traveled under different aliases, one being Harrison. The counterfeit coins in question are said to be quarters. The prisoner states that came from New York and is an elec-

INDUSTRY IN

Remarkable Progress Made in the Past Fifteen Years.

[Bradstreet's.] Much has been said, and no doubt

justly, regarding the immense progress made in industry in Germany during the past quarter of a century. Within the past fifteen years, for instance, the number of industrial employes in the empire has increased from 7,340,000 to 10,900,000, or over 28 per cent. This would certainly argue an increase in the earn-ing ability of the people, which would seem to indicate the existence of prosperity in most lines, but, according to recent consular reports, the prosperity is more apparent than real, because, owing to the increased cost of living, the situation of the workers is really worse than it formerly was. This is explained partly by the extremely high prices paid for many staple food products. Coal costs nearly as much as it does here, and petroleum costs 50 per cent more. Household furnishing are very expensive; clothing is cheap, but food is considerably more expen sive, and, since 1893 particularly, the advance in food products has been enormous. The following table, nished by Consul Kehl, of Stettin, shows the advance in retail food prices at that great industrial center in the past seven years:

Articles. Beef, per pound.....\$0 23 Mutton, per pound...... 20 Pork, per pound..... Veal, per pound..... Chickens, large, each..... Eggs (winter price) per 16 Ham, raw or cooked, per pound
Milk, per liter.
Butter, per pound. Freshwater fish, per pound 28 Tea, per pound....... 1 65 Coffee, per pound........ 23 Sugar, per pound.....

Flour, per pound...... 05 In explanation of the above it might be said that the tea quoted at \$1 65 per that which Americans pay 60 cents a pound for. The consul's conclusion, borne out apparently by tables of wages of different classes of workers paid, is that American labor is paid three times the wages paid German labor in the same calling, while the cost of food is from 10 to 50 per cent less in the United States than in Germany. Some interesting comparisons of in-

dustrial workers' wages are furnished which show weekly returns of \$3 for laborers, up to as high as \$528 for campenters and \$6 for molders. view of the scarcity and high price of household labor in this country, it will interest American housekeepers learn that ordinary housemaids in Germany get less than \$3 per month. first-class cooks less than \$6, and housekeepers about the same. There have been, it is true, great advances in the wages paid in this and nearly all other kinds of German labor, but if the rates of wages given by the consul are correct, it needs no expert to show that household labor in this country is easily three times, perhaps four times, as expensive as it is in Germany.

TAKES YOUR TALK

An Automatic Telephone Has Been Invented at Last-Like a Phonograph.

A new phonograph has been perfected in Denmark by Valdemar Paulson. The instrument is called the telegraphone. The new and important feature embodied in this phonograph is that instead of the Edison wax cyanger for receiving and producing speech. Mr. Paulson substitutes a steel band or steel wire. Moreover, this type of phonograph is intended to be used only in connection

with a telephone. The steel pand referred to passes between the poles of a small electromagnet, the con of which is connected with a telephone. The pulsation of the current caused by speaking into the telephone varies the strength of the electromagnet, which in turn affects the magnetism of the steel band. The band is thus variably magnetized at different portions of its length, corresponding to the variations of the speech curpound is reported equal in quality to rent, and will keep in this state for a long period. When again passed between the poles of the same or similar electromagnet it reproduces the invariations of current, and the speech is again heard through the telephone. In this way the steel band can be used to reproduce the message a

great number of times. When it is desired to use the telegraphone to receive a new message, all that is necessary is to pass the band between the poles of a strong electromagnet or to send an electric current Then all the magnetism of the steel band will disappear and it will be again ready for use.

A difficulty which at first mitigated against the practical use of the inven-tion was that in order to receive a speech of any considerable length it was necessary to use a very long steel band. This drawback, however, was overcome by Mr. Paulson's assistant engineer, Mr. Peterson, who added to the apparatus another invention, which makes it possible to record several messages on the same steel band without causing any confusion in the re-production of the same. The experiments thus far made have shown that the new telegraphone reproduces speech and singing very distinctly and exactly in the same tone as given.

It is proposed to use the instrument in connection with telephone central stations, and it is already thus used in several places in Denmark. As an example of this application, the case will be considered of a telephone subscriber, A, who leaves his office, after having adjusted his instrument to receive messages during his absence, and also answer any inquiries concerning the time he will be back, B, another subscriber, rings him up. The telegraphone is put into action by the ringing up, and tells that A is not in, but that it will be pleased to receive the mes-sage for him. When this is received, B rings off and the telegraphone goes out of action. This can be repeated a number of times, and the messages then read by A when he returns. Such am arrangement has been introduced at Copenhagen, and is said to work satis-

All the time, esting irregularly, sleeping irregularly, exposed to every disease latent in bad cooking or poor food; that's a summary of the traveling man's life. The result is "stomach trouble"; that general term which covers various forms and stages of disease of the organs of digestion and nutrition. The traveling man can't avoid the troubles which spring from his business obligations. But he can avoid "stomach trouble." If Dr. Pierce's Golden Medical Discovery is used when the early symptoms of de-rangement of the stomach manifest themselves, the cure will be quick and radical. But even if the disease has become chronic the "Discovery" will cure ninety - eight times out of every hun-dred if tried fairly and faithfully.

Mr. Ned Nelson, the celebrated Irish comedian and mimic, of 577 Royden St., Camden, N. J., writes: "We fulfilled an engagement of twelve weeks and the constant traveling gave me a bad touch of that dreaded disease called dyspepsia. I had tried everything possible to cure it till last week, while playing at B. F. Keith's Bijou theater, Philadelphia, in the Nelson trio, a professional friend of mine advised me to try Dr. Pierce's Golden Medical Discovery. I tried it, and, thank God, with good results."

CHAPTER XXIV.

After that night at the theater little Vixen bore a troubled heart through all the scenes of pleasure that fell to her lot. Although she had declared her loyal faith in Tracy Tempest's she was haunted by the scene of that night—Lettie so elegantly dressed, so insolently happy with

Prince Charming by her side.
"What is Lettie Jarvis doing here in Washington, and where did she obtain her jewels and finery?" she asked herself, bewilderedly, and Lettie was asking herself the same question about Vixen, with a faint suspicion of the truth which made her guilty heart

quake with fear.
The evil thing she had boldly hinted to Tracy Tempest had no real place in her imagination, for she knew Vixen's purity of heart too well, and, remembering the story of her father's absence, she could almost account for the distinguished looking stranger who accompanied Vixen at the theater.

"Good Lord, what if Vixen's father has returned to Sunnyside and brought her away!" she thought, in terror, her florid color paling with anxiety. must get Mrs. Douglas away from here tomorrow, for if she should meet Vixen and that man I should be lost!

the very next morning she brought up the subject. 'Mother, dear, I am quite 'tired of Washington. When shall we abroad?

Mrs. Douglass looked up in languid 'As soon as you like, dear. But I thought you were averse to the plan. "I have changed my mind since Tracy Tempest has been telling me

about his travels. Can we not go to New York this evening and make arrangements for going on the Two weeks of Lettie's socied had told her that her will was despotic, and

that yielding at once to her wishes was more profitable than opposition. In this case, however, she was more than pleased. Her desire had heretofore been sulkily combatted by the girl, who wished to remain and force Tempest into an immediate marriage if possible. But the suspicion of a new danger made her as anxious to get her mother away from Washington as she had before been anxious to have her remain.

So Mrs. Douglas smiled indulgently now at her suddenly developed eager-

"You will have to curb your impatient desires until tomorrow, my dear Aurora," she said kindly. "Today I must see my lawyer, and have our trunks packed, which will fill up the day, so that we cannot possibly be able to start until tomorrow. able to start until tomorrow morning. "Weil!" impatiently.

Mrs. Douglass sighed and answered: "Mr. Tempest is as anxious for the marriage as you are, Aurora, but an unforeseen difficulty has arisen." She Gen. Mrs. Douglas listened, appalled, to her coarse ravings, and thought, with a shudder:

'Were it not almost better not to have found her at all than to find her like this, with a seeming inherent coarseness to which she gives free Pain and disgust forced her at last

to reminstrate: "Aurora, Aurora! such words, such threats, are most unbecoming in a young lady. Have you never learned that a man must be won, not driven into marriage?"

Lettie stopped short with a confused gasp, realizing, as she had done several times before, that her vile temper had led her into exhibitions of coarseness that disgusted the gentle lady.
"Mother, I beg your pardon!" she

exclaimed, sinking theatrically down upon her knees by the lady's couch. feelings overcame my judgment. But it is shameful, is it not, for a man to refuse a woman?" Truth and justice forced Mrs. Doug-

loved him so dearly."
Touched by her humility and grief,
Mrs. Douglas smoothed the dark, bowed head with her delicate white hand, and said, gently:

"It is most unwise, dear, for a woman to love unsought, although many a tender heart has suffered from that weakness. In this case I trust that the course of true love may yet run smooth. You were so hasty, my child, in your resentment, that you did not wait until I had finished speaking to you. Mr. Tempest did not say that Tracy quite refused your hand; he only asked for time to make up his mind."
"How much time?" Lettie asked, eagerly.
"A year."

The dark, passionate face dropped again into the hands, and Lettie

"That is a long time, and it seems insolent in him to demand it when he knows that you can cover his father with disgrace tomorrow, only that you are willing to give Tracy a chance to

save him. Sighing, Mrs. Douglas answered: "It does not seem like insolence to me, dear, although it is a little mortisordid fying to sell himself in the fashion his father desires, but I trust that a year spent in improving your mind and manners will make you so

charming that it will be easy to win his love Lettie had small hope of that. She hold Lindley knew what her mother did not—that and supplies. Tracy Tempest despised her in secret for her cruelty to Vixen, and that he loved the noble girl who, for his own sake, had rejected the hand he had offered her with such manly chivalry in the little church at Sunnyside. THE ROODEVAL DISASTER.

London, June 11.-Lieut. Gen. Sir Frederick Forestier-Walker, in command of the lines of communication in South Africa, reports that in the disaster to the British troops on June 7, at Roodeval, where the Boers cut Lord Roberts' line of communications, the fourth battalion of the Derbyshire Regiment were all killed, wounded or made prisoners, except six enlisted men. Two officers and 15 men were killed and 5 officers and 72 men were wounded, many of them severely. The Boers returned the wounded to the British.

The officers killed were Lieut.-Col. Baird-Douglas and Lieut. Hawley. The wounded include Col. Wilkinson, and Lieut. Blanchard, of the Canadian In-Gen. Forestier-Walker's dispatch in full is as follows:

THE CASUALTIES. Cape Town, June 10 (Sunday) .- The following telegram has been received

from Charles Knox:
"Kroonstad.—The following causalties, reported from Roodevai, June 7, received from Stoneham, commanding the Imperial Yeomanny Hospital, dat-

shire Regiment (the Sherwood Foresters)—Killed, Lieut.-Col. Baird-Douglas and Lieut. Hawley, and 15 of the rank and file. Wounded, Col. Wil-kinson, Capt. Bailey, Lieuts. Hall, Lawder and Blanchard, and 59 of the rank and file.

The Shropshire Light Infantry, 1. Cape Pioneer Railway Regiment, 7. Ammunition Park, Royal Marines and Imperial Telegraphs, 1 each. Postoffice Corps, 1.

"Stoneham reports that many were severely wounded, and the remainder of the 4th Derbyshire and details of prisoners, except six of the rank and file are in his camp. All the wounded are in his camp, lately occupied by the 4th Derbyshire. Inquiries are being made as to the names." BOERS CAPTURE OVER 500 MEN.

It is inferred that the Boers captured over 500 men, and as late as June 10 held positions cutting off the British forces north of Kroonstad from reinforcements.

Another dispatch from Gen. Forestier-Walker, says Gen. Methune was fighting within ten miles of Heilbron on June 8. It follows:

"Cape Town, June 10 (Sunday)-Kelly-Kenny reports from Bloemfontein this morning that Methuen, with guaranteed. Only 25c a box. Sold by W. the greater part of his division, was fighting early in the morning of June 8. ten miles south of Heilbron, where Colville was reported to be with the Highland Brigade. Methuen left Lind-ley June 5 with ample supplies for himself and Colville, leaving Paget to hold Lindley with a sufficient force

"Kelly-Kenny has ordered Knox to press in the enemy's outpost, believing the enemy's strength to be exag-

"All is quiet, and there is no anxiety as regards the district to the south. Communications north of Kroonstad have been cut since June 6." A SURPRISE.

The news that the shutting off of Lord Roberts' communication with the outer world was accompanied by such a serious loss, came like a bolt from a comparatively clear sky. In London, until the news came, it had been thought that the destruction of the railway was accomplished by Free Staters, who were avoiding rather than annhilating the British detachments stationed at the point attacked; nor are Gen. Forestier-Walker's vague statements regarding Methuen and the situation at Heilbron looked upon as reassuring. The Boers appear to be in sufficient strength to separate all the British forces north and south of a line stretching some 50 miles between Roodeval and Heilbron. Methuen's march upon the latter place seems somewhat in the nature of a movement for the relief of Colville. The only British officer left at Roodeval appears to be the doctor in charge of the hospital, which is full of wounded.

IN THE DARK. What has happened to the troops immediately north of Roodeval is still a subject for conjecture. All in all, dispatches reveal that situation is far more serious than anyone imagined.

UNFAVORABLE TO SCHREINER. The ministerial caucus at Cape Town has resulted unfavorably to Premier Schreiner, only ten supporting him, and Mr. Schreiner has given notice of his intention to resign. The question at issue is Mr. Schreiner's desire to introduce immediately punishing the colonial rebels, and in-demnifying the government for acts

committed under martial law. There is no further word of Gen. Buller's progress. Reports from Maseru, Basutoland, June 9, says the Boers around Ficksburg refuse to surrender, and severe fighting is expected, though a dispatch of June 8 from Hammonia, which is

only a few miles from Ficksburg, says the situation in the southeast corner the Orange River Colony is unchanged; that Gen. Rundle has received the Boer delegates sent to negotiate peace terms, and that the result of the negotiations is not known.

Buller DOING WELL.

London, June 11-10:30 a.m.-The folowing report from Gen. Buller has been issued from the war office:

"Headquarters in Natal, June 11 .-The force concentrated on the Klip River, at its junction with the Gansvlei, last night. We anticipated at that defile a force of the enemy, about 3,000 strong, who had, I think, intended to occupy it, and who retired as soon as our heavy guns opened, which were very smartly brought into action by Major May, of the Royal Artillery, and Capt. Jones, of the Royal Navy.

"The South African Light Horse and

the Second Cavalry Brigade were smartly engaged while covering our

left front. "Our casualties are about six killed and seven wounded."

Condition of Trade in the Dominion-Bradstreet's Review.

Toronto, June 9.-Bradstreet's trade review weekly summary: Trade in Montreal the past week has been interrupted by the war jubilations, but conditions continue satisfactory, and the amount of orders for fall goods booked so far this season is considerably larger than they were a year ago.

The most important feature of the trade situation at Toronto was the improved condition of the crops in the Northwest and in Ontario. The recent rains have had a good effect on the crops. The promise now of large crops of wheat has caused a more buoyant feeling among business men. Country remittances are improving. There is an improved feeling in trade circles in London. Current sales of retailers in the country are large, and

than it was a week ago. Remittances are fairly satisfactory.

Rains have improved wheat prospects in Manitoba. At Hamilton the movement in trade

circles has been satisfactory for this

HAMILTON MAN KILLED.

Hamilton, June 10.-Mr. James Green, 332 Victoria avenue north, was fatally injured yesterday morning at the East End Incline Railway, of which he was second engineer. He was getting into the pump-house, about half-way down the incline, when the engineer at the top started the car from which Mr. Green had alighted, not knowing that the latter had not got out of the way of the car. The unfortunate man was jammed between the car and the retaining wall, being terribly crushed.

MEMORIAL DAY.

New York, May 30.-With almost perfect weather conditions Memorial Day was generally observed in this Thousands of flags fluttered from the tops of buildings and the various statues throughout the city were dressed in bunting. The parade this year was unusually large.

Memorial Day was observed in Manila as a general holiday. Military ceremonies were held at the various stations, and salutes were fired from the forts at Santiago and Manila, and the graves of United States soldiers were decorated.

ASTHMA CAN BE CURED.

And Is Being Permanently Cured Daily by Clarke's Kola Compound-Here

What a Hamilton Lady Says: Mrs.Gilbert, 105 Rebecca street, Ham-Slton, writes: "I suffered from a bad form of asthma for over nine years, and, notwithstanding all the doctors could do for me, got worse and worse, so that my neighbors looked for my death at any time. I spent money lavishly in the efforts to get relief, but all to no purposse. For six weeks at a time I could not get up or down stairs, and was in a miserable condition. My daughter, who clerks in a drug store. had heard a good deal of Clarke's Kola Compound, and urged me to try it as a last resort. I paid \$2 for a bottle, but that is nothing, for it is worth more than that for every teaspoonful. Two doses gave me splendid relief, and after using but one bottle I am a marvel to all who know me. I am doing my own work, can get around as well as ever, and feel like a new creature. Clarke's Kola Compound has been a godsend to me, and I look upon it as a marvelous remedy. You may this testimony as you see fit, and I shall be glad to give further particu-

largs to anyone inquiring. I gratefully indorse Clarke's Kola Compound." Sold by Anderson & Nelles, druggists, A free sample will be sent to any person troubled with this disease. Inclose 6 cents in stamps. Address The Griffiths & Macpherson Company, Limited, 121 Church street, Toronto, Ont.

Of the A. O. U. W. Attend Divine Service -Eloquent Sermon Preached by Rev. Archdeacon Davis - Grand Lodge Officers in Attendance.

ed the annual divine service in the ed her was equally ignorant of the English Church there. Nearly 50 work of the box. A few minutes later members of local lodges, who went to Lambeth in busses, accompanied them. and the interest in the service was still further enhanced by the presence of several grand lodge officers. Among these were Grand Organizer A. C. Graham, District Deputy Grand Master Wm. Nicholls and P. M. W. Stephen Grant. Master Workman Marr marched at the head of the Lambeth Lodge. The sermon, which was preached by Ven. Archdeacon Davis, of St. James Church, South London, was of exceeding interest. The preacher, being a Workman himself, spoke with a personal knowledge of the order's affairs and the grand work that is being accomplished. The sermon was appropriate for this reason also, that the preacher spoke with enthusiasm of the glories of the British arms in South Africa. He outlined the early history of Cape Colony, prevous to the evacu ation of the Dutch, who afterwards settled north of the Vaal. In doing so, he gave an inkling of the antipathy that existed between them and the English, an antipathy that became more intense when the latter forced the abolition of slavery, and which was not destroyed by the kindly services of the British at the time when the extermination of the Boers was threatened by native invasions. He traced the history of the two races until a more recent date, showing how the continued wrong-doing and insults of the Boers had made the present war inevitable. In speaking of the course of events since its outbreak, he in-stanced the British belief in the power When their arms were in danger of repeated disaster, earnest prayer had been offered in their behalf, and Lord Roberts, as did all Christian people, attributed to this their subsequent successes. On account of the large number of Workmen taking part in the war, the members took a greater interest in it. Continuing, he gave a brief statement of the beneficiaries paid out since the formation of the order, and told of its fraternal benefits, urg ing these facts as arguments in favor of a large increased membership.

Rev. S. E. G. Edelstein, of Lambeth, assisted in the services. The musical portion of the service, which was conducted by Miss Edith Vandermade, were of a particularly pleasing nature.

RUN OVER BY A YARD ENGINE

Switchman William Galbraith Meets With a Terrible Accident.

Wm. Galbraith, the 19-year-old son of ex-Yardmaster Galbraith, was run over by an engine in the G. T. R. yards here, on Saturday night, and as a result he lost one leg, and the big toe of his other foot. Young Galbraith is a switchman, but for some time recently he has been assisting on the shunting engine. About 9:30 o'clock he was endeavoring to uncouple the engine from a car. The pin was too tight. He pulled more strongly. As the pin came out he tripped on a rail and fell. Before the driver knew rail and fell. Before the driver knew that anything was wrong the wheels had mangled his right leg above the knee and the left great toe. He was carried to the Lake Eric freight sheds and was removed afterwards to St. Joseph's Hospital in the ambulance. The limb was amputated near the thigh. Galibralth remained conscious throughout and exhibited great pluck. In all probability, he will secover.

FATAL FIRE.

Little Two-Year-Old Son of James Ward Burned to Death.

Entire Members of the Family Have Close Calls.

Exploding of a Lamp the Supposed Cause of the Conflagration - Three Other Inmates of the House Injured -Damage Will Total \$1,200.

As a result of a fire at 1 o'clock Sunday morning, in the frame structure at 471 Simcoe street, southwest corner of Maitland street, occupied as a grocery, liquor store and dwelling by James Ward, John Robert Ward, aged 2 years and 10 months, lies dead at the residence of Joseph Pevler, William street, while Mr. Ward himself, his 7year-old daughter, Selina, and the domestic, Miss Jennie McPhie, are in Vicupstairs window. Miss McPhie, who also jumped, has a broken ankle, and the little girl is badly burned about the face, arms and hands. Of the other members of the family, Mrs., Ward is prostrated with grief, while a five-

The origin of the fire is not known to a certainty, but it is believed to be of a kerosene lamp. The inmates of the house had ail retired, with the exception of Mrs. Ward, who was downstairs in the katchen reading. She was overcome by drowsiness, and was sleeping with her hands on the table, and her head resting upon them, when she was aroused by the crackling of flames. Sne was horrified to find the table and cover in flames, with the tragments of the lamp lying upon it. She endeavored to throw the burning lamp out of doors, but the door was locked. Mrs. Ward hastily ran upstairs and aroused her husband. The upper rooms were by this time filled with smoke from the rapidly spreading flames downstairs. Mrs. Ward descended and ran across the street to the fire alarm box. She Yesterday afternoon the members of Lambeth Lodge, A. O. U. W., attended the annual divine service in the

He took the little boy Josie and dropped him from a window to the ground, the child escaping un-hurt. Mr. Ward then returned for hurt. little Johnny, but the child was not in the bed. The father called and searched for the child, but could find no trace of him. He then concluded that Mrs. Ward had taken the child when she came upstairs. As by this time the heat and smoke in the room were unbearable, Mr. Ward jumped from window, alighting heavily and causing the injury to his hip. He hurried to the window, where Miss McPhie stood, with the little girl Selina. He caught the child safely, and then managed to break Miss McPhie's fall,

though she sustained a broken ankle. The fire brigade made a quick run to the scene, but so rapid had been the spread of the fire that it was impossible to enter the building. Heavy streams of water were at once thrown in, and in about fifteen minutes the flames

were under control. As soon as the fire in the upper rooms was sufficiently subdued, an effort was made to secure the body of the child. Several volunteers at once entered the rooms, and proceeded to search for the body, while the hose was played upon them to protect them from the heat and smoke. Driver Aitken, of No. 1 station, found the little boy lying beside the bed, from which he had evidentily crawled or fallen. The only evidences of injury were slight burns on the face. Aitken handed the body through the window to P. C. Birrell, who had ascended the ladder.

The contents of the grocery and liquor stores escaped practically without damage, as did the parlor of the house. The kitchen, where the fire started, the dining-rooms and the four upstairs rooms were those that suffered. From the street there is little evidence of the fire's work. The loss will amount to between \$1,200 and \$1,500

On no other occasion is the number who are in camp brought more strikingly to the mind; and it may be truthfully said that the church service affords a most splendiddue to the explosion or knocking over by attractive spectacle. It is for this of a kerosene lamp. The inmates of reason most probably that it is attended by so many city people. They began to assemble as early as 8 o'clock, and before the service commenced several thousand were present. All the soldiers in camp, with the exception of nearly 300 or the Roman Catholic denomination, who attended service in St. Peter's Cathedral, were formed in a hollow square on the inclined space south of the camp ground. The north side was occupied by the 22nd, 27th, 32nd and 33rd Regiments; to the west were the Hussars, the 21st and 26th; on the eastern side were the 28th and 29th, and the 30th, while on the southern side stood the 7th Fusiliers, the Collegiate Institute Cadets and the massed bands of the camp, under the leadership of Bandmaster Philp, of the 26th. In the hollow of the square a pulpit was formed of a drum covered by a large Union Jack. The chaplains day morning, so as to allow the comof the regiments in camp and Lieut. Col. Holmes and the staff officers occu pied positions in the center. The soildiers had been provided with printed copies of the service, so that all might join in, and one of its most pleasing features was the sound of thousands of male voices singing. Quite appropriately the hymns that were sung were, "Stand up, stand up for Jesus," Almighty God of Battles," and "On-ward, Christian Soldiers," The service closed with the singing of "God Save

The sermon of Rev. J. C. Farthing chaplain of the Oxford Rifles, was an exhortation to those present for the development of an ideal man. By this he did not mean ideal physically, because the tendency in development in this way, was to neglect the mind, and thus cause a monstrosity; nor should all attention be given to the intellect, for there was a still higher pant, the spiritual side of a man's na ture, and if this were strengthened and trained, then in his ideal stage, man would be able to comprehend the spiritual things of God, to enter into communion with his God through his spiritual life, and to control all that was of the animal creation. He urged that the Christ be men's model. They should be temperate in their actions and desires; they should love, and fear and serve God, and thus be fol-

lowers of the perfect man. When the service was concluded, the regiments marched in brigades to the camp grounds again, and were missed for the day. The collection that was taken, amounting to \$45, will be devoted to the work of the Soldiers' Wives' League.

HEART DISEASE.

A Toronto Physician Says It Never Exists Without the Presence of Some Kidney Disease.

Toronto, June 11.-The number of sudden deaths due to heart disease is appalling. The medical profession is levoting more attention to the heart and its ailments at the present time than ever before, and many physicians are making a specialty of diseases of this organ. A Toronto doctor, who devotes much of his attention to this branch of his practice, said to your reporter today, "I have yet to learn of a single case where heart disease caused death, in which a post mortem examination did not show the existence of Bright's Disease, Diabetes, or some other kidney disease." Dodd's Kidney Pills will cure all disease of the kidneys and thus ward off the danger of heart diseases.

CONFERENCE

Doings at Saturday's Session-Meeting Will Conclude Tomorrow-The Sunday Services.

The conference reopened at 10 o'clock on Saturday. The first hour was taken up by a Pentecostal service. Considerable time was taken up discussing the method of conducting the Christian Guardian, to which Dr. Courtice replied. The conference passed a resolution of appreciation of the splendid place taken by the Christian Guardian among the literary contributions of the times, and pledging continued loyal support to the much-beloved paper and

editor. Rev. Dr. Dyer, of Albert College, Belleville, gave an outline of the work of the college, showing an enrollment of 258 students, and a year of much general success. Rev. J. Philp introduced a resolution expressing gratifi-

cation of the work of the college.

The secretary of the examining board presented the report of the board, ten probationers and one candidate passing the examination.

Professor Greenway presented the report of Whitby Ladies' College.
The sustentation fund committee reported through Rev. J. R. Gundy that the amount rased was \$77,200. Claims of \$2,300 were presented and adjusted. Conference adjourned at noon till Mon-

Conference will not close before President Henderson attends well to business. Revs. Dr. Potts, Courtice, Toronto, and Dyer, Belleville, and Professor Greenway, Whitby, have been visitors

at the conference. Standal groom was at a premium long before the hour of service on Sunday morning. Rev. J. R. Gundy took charge of the usual conference love feast from 9 to 10:30. At the appointed time the president announced hymn 678. Rev. George Jackson led in prayer. Rev. Dr. Philip read as a Scripture lesson Revelation, third chapter. Rev. Dr. J. V. Smith preached the ordination sermon. His subject was "The Preacher and His Work," Timothy ii., 4, 5: "Do the work of an evangelist. Make full proof of the ministry." He prefaced his remarks by saying some predicted that the pulpit was dying out, and being supplanted by the press, but he said no book bound or unbound can take the place of the voice of the living preacher. After the sermon the secretary presented the following young men to the president to be ordained: W. E. Dever, A. E. Jones, H. E. Kellington, A. C. Lloyd, J. E. Millyard, V. E. Millson, J. C. Reid, T. E. Sawyer and S. L. Toll. A number of the senior ministers took part in the service, throughout was one of great interest and impressiveness.

In the afternoon the Sunday school and Epworth League anniversary was held. Rev. B. D. Hamilton, of London, one of the brightest and most interesting speakers, took charge of the former part, and Dr. Thornton, of Chatham, spoke upon the Epworth League topic for the week, "Lives that Lift," and at 4 o'clock Rev. Messrs. Crossley and Hunter held a meeting in the opera house, which was crowded with men only. Mr. Hunter spoke on three points: (1) Get converted, (2) insure your lives, (3) make your will, and Mr. Crossley spoke on "Social Purity, in a manly way, presenting the matter in a strong, helpful way. In the evening the church was filled to overflowing long before the hour, and an overflow meeting was held in the lecture room, which was also filled to overflowing. Rev. Messrs. Crossley and Hunter took charge of the services in the Auditorium, and Rev. J. Livingston led a song service in the lecture room.
