KEY TO STREET GUIDE.

The Guide radiates from the intersection of Hastings and Carrall Streets. All directions and locations are given from that point. First is given the walking or driving direction, next the street car to take.

To illustrate, we will take Granville Street, which extends from Cordova Street south-west to False Creek. Hastings west 7. Go west on Hastings to the seventh street from Carrall, which is Granville. For numbers 300 to 800 any car west, 900 to 1,400 either Kitsilano car green and white, L. & S., or Fairview car white L. & S., west.

Walking or Driving necessitates counting the streets as you come to them so that in the absence of street signs one can make no mistake.

IMPORTANT REMARK.

There is only ONE abbreviation used in this entire Street Guide. The Lights and Signs on the Street Cars are abbreviated thus: L. & S.

The radiating point for the south side is the intersection of Ninth Ave. and Ontario St., Hastings west 7, Granville south-west 11, to Bridge, South 7, from southern end of Bridge. Ninth east 15. Fairview car White L. & S., west, south and east, to Ontario. Or Hastings east 2, Westminster south 6, to Bridge, south 9, from southern end of Bridge, Ninth west 2. Fairview car White L. & S., east and south or Robson car Red L. & S., east and south. West 2, from car line.
