GREAT ROUMANIAN VICTORY GERMANS AND BULGARS CRUSHED.

Mackensen's Armies in Full Retreat, Burning Villages to Retard Pursuers. A despatch from London says: The six-day battle in the Dobruja has ended in a Russo-Romanian victory. Field-Marshal von Mackensen's right wing in Rumania, consisting of Germans, Bulgars and Turks, is retreating to the south in the direction of the fortress of Dobric...

THE BUCHAREST WAR OFFICE ANNOUNCES.

The Bucharest War Office announced in an earlier report that the Russo-Romanians have repulsed the invaders 'in a sanguinary manner' on the whole front and launched several counter-attacks. The report reads: 'In Dobruja the struggle continues with obstinacy. Russo-Romanian troops repulsed in a sanguinary manner on the whole front all attacks of the enemy, and made several counter-attacks. Enemy aeroplanes dropped bombs on Constanza, where no one was injured, and on Piatra Neamt, where a child was injured. Sofia officially admits that the Russo-Romanian troops maintained themselves in their strongly-fortified positions. Rumanians, Russians and Serbians were pitted against the invaders, strong reinforcements having been hurried to Dobruja, when the operations under the noted German field-marshal threatened to overwhelm a section of Rumania. A strong line to the north was hastily fortified and powerful forces were thrown out to oppose the onslaughts of the central powers. That the six days' battle has been a sanguinary one is indicated by the various official statements, which told of the intensity of the fighting...

THE BATTLE BETWEEN THE GERMAN, BULGARIAN AND TURKISH TROOPS UNDER GEN. VON MACKENSEN.

The battle between the German, Bulgarian and Turkish troops under Gen. von Mackensen, in the Dobruja, which has been in progress since the 15th, ended on Wednesday in a complete victory for Rumania. 'The enemy is retiring southwards, burning villages.' The official communication from Bucharest confirms the Entente reports that the great battle in Dobruja, has ended in the defeat of the Central Powers after six days' fighting. The battle began Friday and gradually increased in scope and intensity until Tuesday evening, with the result that on Wednesday the Germans, Bulgars, and Turks, crushed, were forced to withdraw, burning villages in their line of retreat in an effort to retard their pursuers.

Satisfactory dealing guaranteed.

A Freak Pig.

Henry Spitzig of near Chepstow is the owner of a three weeks' old pig with no legs. It is a freak that should grow tender pork if there is anything in the practice of the Walkerton branch of the Dept. of Agriculture who used to pen chickens and feed them strong so they could stand still and grow tender meat, instead of gading about putting on muscle.

WOMAN SUFFRAGE.

Its War Time Aspect.

London, Eng. The women of England are doing their duty. They are taking care of the wounded, or if they cannot assist in work of that kind they are adding their savings to promote the good work. They are knitting and sewing for the soldiers at the front. The suffragists have given so little trouble to the government that it will undoubtedly soften the hearts of those in Parliament, since the "militants" have turned all their energies to aid the fighting men of England, and so suffrage may soon come after this terrible war is over.

Thousands of women in Canada have overcome their sufferings, and have been cured of woman's ills by Dr. Pierce's Favorite Prescription. This temperance medicine, though started nearly half a century ago, sells most widely to-day, because it is made without alcohol or narcotics. It can now be had in tablet form as well as liquid, and every woman who suffers from backache, headache, nervousness, should take this "Prescription" of Dr. Pierce. It is prepared from nature's roots and herbs and does not contain a particle of alcohol or any narcotic. It's not a secret prescription for its ingredients are printed on wrapper.

Many a woman is nervous and irritable, feels dragged down and worn out for no reason that she can think of. In ninety-nine per cent. of these cases it is the womanly organism that requires attention; the weak back, dizzy spells and black circles about the eyes, are only symptoms. Go to the source of trouble. When that is corrected the other symptoms disappear.

St. Thomas, Ont.—"I wish to say for the benefit of other women who suffer that I recommend Dr. Pierce's Favorite Prescription as a great help. I have personally recommended the same to many who in turn have been helped a great deal by its use."—Mrs. F. J. POWDEN. 19 Oliver St., St. Thomas, Ont.

Remarkable Records
that were recently made in

ELLIOTT Business College

TORONTO, ONT.

This college was asked to fill 124 positions in July and 117 in August. The thorough work of this school is well known. Write to-day for our catalogue which explains the unsurpassed advantages offered here. Students admitted at any time.

Yonge and W. J. Elliott,
Charles Sts. Principal.

Visitor from Florida.

Mr. John Connell, a former well known resident of this section, spent several days here last week with Mr. A. E. Sherrington, and while here the two old friends took a number of motor rides through the country, calling on old-time acquaintances. Since disposing of his farm near Mildmay four years ago, Mr. Connell has been making his home in Florida where he has found a climate which he considers nearly ideal. Mr. Connell states that on the higher ground in Florida, climate is exceedingly healthful. No-where is the temperature more equable and it has an advantage over California in that the wet season does not come in the winter, which is perfectly dry. Mr. Connell found the growing of grapefruit and oranges an agreeable occupation. A fruit farm which he recently disposed of, produced over three thousand dollars worth of grapefruit and oranges off seven acres. Mr. Connell comes north for a trip every summer but takes great comfort out of the Florida winter and could not be paid to winter here.—Telescope.

About the House of Refuge

The Bruce County House of Refuge has about fifty inmates at present, which is the general average. The board is provided at a weekly average cost of \$1.62 per inmate. Last year there was 40 acres of farm land cropped in connection with the institution, the inmates assisting in the work. Some of the products were:—12 tons of hay, 2,000 bushels of mangolds, 45 bushels of wheat, 200 bushels of barley, 755 bushels of oats, 150 bags of potatoes, 2 acres of corn, 12 bushels of onions, 1,187 lbs of butter, 334 doz of eggs, 1,000 lbs of pork. The institution produces its own milk, butter and pork entirely. At the barn are 7 milch cows, 2 horses, 5 hogs and 100 hens. The manager, Mr. Wiles, states that whiskey has been the cause of sending more people there than anything else during his term of office. Practically all the men there are backsliders. In religion 19 of the inmates are Presbyterians, 12 Methodist, 8 English Church, 11 Roman Catholics, 1 Disciple 2 Latter Day Saints. In nationality there are more Scotch than any other, the Irish coming second and the Germans last. The oldest inmates are Nicholas Benson from Bruce Tp, who is 96 years of age, and Mrs. Vanderburg only three years younger.

Items Of Interest.

If the rise in the price of hogs continues much longer, the possession of a pork chop will be an evidence of wealth. To display two would be, of course, mere vulgar ostentation.

A woman of twenty-six, who has been kept a virtual prisoner in the home of her father in Chatham township for the past six years, has just been found by the authorities. She crawls on her hands and knees like an animal, and when placed on her feet endeavored to crawl up the wall. She cannot talk, and is believed mentally unbalanced. Seven years ago, when her mother died, she was normal, according to neighbors. The father owns a large farm and has money in the bank, but refuses to either clothe her or send her to an institution, so the authorities are acting in the matter.

If some housewives looked as diligently through the advertising columns of their local newspapers as they do through the mail-order catalogue they would find so many merchandising opportunities that buying out of town would be no longer practiced.

Bitten by a mad dog some weeks ago, George Dynes, blacksmith, of Southwold station, was sent to Pasture Institute, Toronto, for treatment. On his return home the wounded arm showed reactionary symptoms and the limb commenced slowly ossifying in the hand and hardening of the flesh muscles have now reached the shoulder. Mr. Dynes fears that the disease may get beyond control of the physicians and touch some vital spot. The arm is a solid mass from the finger tips to the upper muscles. Mr. Dynes will consult with some prominent surgeons in London, and a serious operation may follow.

Easily rocked are the three-bar grates which smash up clinkers easily and last longer because each grate is three-sided.

Bread Making Contests At Rural School Fairs

PRIZES—Free Courses at Macdonald Institute, Guelph
Free Poultry Raising Courses at Ontario Agricultural College
Free Cook Books and Magazines

Over 1,500 prizes in all will be offered in bread-making contests which will be held this fall at over 250 rural school fairs taking place in Ontario. It will be a great event at the fairs and will stimulate interest in bread-making among young girls between the ages of 12 and 17 years.

Here is a wonderful opportunity for your daughter to win for herself a Free Course in Domestic Science at the famous Macdonald Institute, Guelph. All she has to do is to bake one double loaf of bread and enter

it in the contest at the fair according to the conditions explained below and more fully told in the folder we will send you on request. The loaf must be baked with

Cream of the West Flour

the hard wheat flour guaranteed for bread.

This is a splendid flour which makes the biggest, bulging loaves—whitest, lightest and most wholesome bread you ever baked. Is this not a splendid opportunity to interest your daughters in breadmaking?

Here are the Splendid Prizes offered for the best with Cream of the West Flour. The following are offered at each local fair:

1st Prize—1 paid-up subscription to "My Magazine" for 1 year. This magazine is full from cover to cover every month with articles suitable for young people of all ages. It is published in England. Value \$2.50 per year.

2nd Prize—6 months paid-up subscription to "My Magazine" Value \$1.25.

Extra Prizes—When entries exceed ten a 3rd prize will be awarded of 6 mos. paid-up subscription to "My Magazine." When the number of entries exceeds twenty the judges at the fair will award 4th, 5th, and 6th prizes of one year's paid-up subscription to "The Little Paper." This is a wonderful little publication issued every month in England. Its eight pages are packed with highly engaging information and stories relating to history, nature-study, animals, bird-life, etc.

Important—The winners of 1st prizes at the fairs automatically become competitors for the Provincial Prizes. The second half of the double loaf is sent to Ontario Agricultural College, Guelph, by the district representative in special container provided. The judging is done by Miss M. A. Parry of the Department of Breadmaking and Flour Testing at the College.

Provincial Prizes—The winners of first prize at each local fair compete for following Provincial prizes. The first and second prizes, or third and fourth prizes, will not be awarded in any one county.

1st Prize—Short Course (3 months) in Domestic Science at Macdonald Institute, Guelph. The Macdonald Institute does not accept students under the age of 17 years; if the winner be less than 17 we present her with a certificate entitling her to take the course when she reaches the right age. Value of course \$25.00, which pays for fees, room, board and washing. The winner lives at Macdonald Hall while taking course.

2nd Prize—Short Course (3 months) in Domestic Science at Macdonald Institute, Guelph.

3rd Prize—Short Course (4 weeks) in Poultry Raising at Ontario Agricultural College, Guelph. Girls taking this course do not live at the College, but good boarding houses will be secured for them in Guelph. Value of course \$35.00, which pays board of student in Guelph. (No fees are charged for course.)

4th to 7th Prizes—The Famous Boston Cooking-school Cook Book by Fannie Merritt Farmer, latest edition (1914). There are 217 thoroughly tested recipes and 130 photographic reproductions of dishes, etc., besides much special information.

Conditions of the Contest

Every girl may compete at the rural school fair in her district, whether or not she attends school, provided that her 12th birthday does not occur before November 1st, 1916, or her 17th birthday does not occur before Nov. 1, 1916. (One loaf of bread must be submitted baked in pan about 7 x 5 inches and 2 inches deep, and divided into two loaves so that they may be separated at the fair. The loaf must be baked with Cream of the West Flour. One loaf will be judged at the fair. The other half first prize loaf will be sent to Ontario Agricultural College, Guelph, to compete in the Provincial Contest. The local contest at the fair will be conducted under the same rules as all the other regular contests at your fair.

The standard by which bread will be judged will be as follows:

- | | |
|----------------------------|----------|
| 1. Appearance of Loaf..... | 15 marks |
| (a) Color..... | 5 marks |
| (b) Texture of crust..... | 5 marks |
| (c) Shape of loaf..... | 5 marks |
| 2. Texture of Crumb..... | 40 marks |
| (a) Evenness..... | 10 marks |
| (b) Softness..... | 10 marks |
| (c) Color..... | 10 marks |
| (d) Silkeness..... | 10 marks |
| 3. Flavor of Bread..... | 45 marks |
| (a) Taste..... | 25 marks |
| (b) Odor..... | 20 marks |

Each loaf must be accompanied by the part of the flour bag containing the face of the Old Miller (important) and an entry form must be signed by the girl and parents or guardian stating date of birth, P.O. address, and giving name of dealer from whom Cream of the West Flour was purchased. The form will state

Write for free folder giving full and complete information about every feature of this great contest.

Address Campbell Flour Mills Co., Limited, (West) Toronto

Cream of the West Flour is sold by J. South, Walkerton; Witter & Co., Mildmay; Geo. Lambert, Mildmay; R. C. McCallum, Teeswater.

MILLINERY

We are now showing a beautiful Assortment of the Most Desirable Novelties for the Fall and Winter Seasons. If you are looking for Hats that are carefully designed, good material and workmanship, do not fail to see our display. Every courtesy to all.

Miss Schurter.

An Illinois man was run over and badly hurt by a car driven by his divorced wife. He divorced her for being bad tempered and unruly, and it looks as though she were still able to run over him.

The whole community was much shocked the other day on learning that Mr. Noah Strome, of the 4th con. of Culross, was dead, having evidently come to his death by his own hand. His lifeless body was found suspended by a wire from a projecting root of a big "turnup" in the swamp on his farm. As was generally known, Mr. Strome's mind was somewhat unhinged for more than a year, a strict watch being necessary to prevent him from doing away with himself. He fared well throughout the spring and summer, but the malady appears to have returned.

Experiments show that strychnine in corn will kill crows, but will not harm chickens. The department of agriculture in Pennsylvania has made this discovery. Crows had bothered the farmers so much that it was recommended that strychnine in corn should be used. The protest was made that it would kill chickens, but experiments on a pen of brown Leghorns proved that it would not. The scientists at the college are at a loss to explain the peculiar results. One of the chief considerations would be what would happen to the people who ate the chickens?

Teeswater is to become the site of a new \$35,000 plant of the Toronto Lime & Plaster Co. Options on one hundred or more acres of land have been secured.

The four-year-old South Carolina boy who has smoked four cigars a day since being cured of infantile paralysis seems to have got rid of a lot of other infantile things at the same time.

Wiarnton Business Man in Trouble.

W. J. Holmes, a butter and egg dealer of Wiarnton, has been sent up to Walkerton to be tried at the fall assizes there on the charge of forging the name of the Wiarnton station agent on two bills of lading. He is alleged to have pretended to have shipped produce to a Toronto wholesale firm and to have signed the station agent's name to the bill of lading, which, according to the story, he sent to the Toronto firm and drew on them for the produce which they paid. Not receiving the goods, the Toronto firm made a claim on the railway company with the result that an investigation was instituted and a charge of forgery against Holmes laid. The defendant was sent up by a Wiarnton court for trial at Walkerton and is now out on trial.

Operated On.

Mr. Jos. Clancy, cattle dealer of Cargill, was operated on at the Walkerton Hospital on Monday morning by Dr. Sinclair of Walkerton and Dr. Bricker of Cargill for an abscess on the abdominal wall. Mr. Clancy felt the first attack of the trouble while in Toronto on Saturday last, and made a hurried trip to his home in Cargill, where his case was diagnosed and an operation advised. He is now well advanced towards recovery and expects to be around again shortly.

Stole a Horse and Rig.

While preparing for church on Sunday morning last Chief Ferguson was turned aside from the devotional path and put on the trail of an earthly sin by a phone message from the vicinity of Teeswater stating that Walter Howe, a farmer of that section, had been the victim of a bold robbery committed after midnight on Saturday last, when thieves entered his barn and decamped with his horse, buggy and harness. A neighboring farmer on arising Sunday found that his place had also been visited during the night and that his buggy had been wheeled out of the barn, but owing to the inability of the thieves to catch his horse, which was in the field, he missed being a victim of the raid. Suspicion points to two Indians, who set out in that direction from Teeswater about midnight Saturday, with a flask of whiskey in their pocket to hoof it over the country.—Times

New Inspector for Bruce.

Mr. Jos. M. White, who as License Inspector for South Bruce made a great hit on the job and gave proof of being one of the liveliest wires in the employ of the License Department in Ontario, has been singled out for a much wider scope of usefulness by being appointed License Inspector for the entire County of Bruce. The new job, besides carrying with it a vaster range of territory and powers, is also enhanced with about triple his former pay, he being one of the County Inspectors who will draw the maximum salary of \$1800 per annum, together with all necessary costs incurred in the performance of his duties. The appointment of Inspectors for entire counties will greatly curtail the number of Inspectors in the Province, Dr. Bradley of Centre Bruce and Mr. Reany, Inspector for the North, being the officials that will drop out in Bruce. Mr. White started on his trip Monday delivering the 41 Standard Hotel Licenses which have been issued for this County.

New Recruiting Plan.

The government has devised a new scheme for raising recruits in Canada. The new scheme is not compulsion or conscription in any degree; neither is it national registration. The plan is briefly, that a new system of recruiting is to be adopted with recruiting directors in charge of various districts, and these directors will not be so busily engaged in persuading persons to enlist as they will be finding out the reasons why eligibles have not already enlisted. Badges will be furnished those physically unfit and those whose occupations are more important to the nation's welfare than would their presence in khaki. The new scheme will no doubt result in the gathering of recruits to the colors, but is it one which will get the men from the districts such as Quebec, which have not been meeting their obligations? Rather, the men who have been appointed organizers for the various districts, will be more than likely to endeavor to obtain the men in such districts as have already been very liberal in furnishing men and money.

First Case in Province

The first case of its kind under the Succession Duty Act to be ventilated in the Province was aired before Judge Klein here on Wednesday morning last, when an investigation ordered by the Ontario Government into the estate of the late Thos. Gormley, who died in Elderslie Tp. on Sept. 16th 1915, was staged in the County Court, with Mr. O. E. Klein of Walkerton acting for the Legislature and Mr. C. J. Mickle of Chesley appearing for the defence. Gormley, who was an old bachelor and rancher from California, came to Canada some ten or twelve years ago, to reside with relatives. He was worth \$27,000, and before his death gave away about \$21,000 of his fortune to his nephews and nieces. The Government claims that the amount which he thus distributed in his life-time should form part of his estate on which a Succession Duty tax of 5 per cent would be collectable. If the Government's contention were upheld, some \$1300 would flow into the Provincial coffers from this source. After hearing part of the case on Wednesday the Judge, at the request of one of the interested parties, enlarged the hearing until Oct. 13th to permit of an important witness being present.—Times

Gored By Bull.
Mr. Peter Fischer, aged 24 years, son of Mr. Valentine Fischer of the Neustadt Road, had a very narrow escape from death last Friday afternoon. He was leading the bull into the stable after watering it when it took a vicious streak. It knocked him down in the stall and gored him considerably about the hip and legs, when he was fortunate enough to crawl away out of reach. He reached the yard in safety and called for help. Dr. Stalker was called who found upon examination that the young man was not seriously injured. Had the bull struck him in the stomach at the outset and knocked the wind out of him, no doubt he would never have got out of the stable alive.

About the House

Useful Hints and General Information for the Busy Housewife

Appetizing Cheese Dishes.

Cheese is a wholesome food that deserves at least an occasional place on the dining table. It would appear more frequently, perhaps, if the numerous attractive and unusual ways of serving it were more commonly known.

Cheddar Salad.—Slightly warm one pound of cheese, then work it until it crumbles. Add one quarter of a teaspoonful of finely minced onion, two hard-boiled eggs, finely minced, two tablespoonfuls of mayonnaise dressing. When you have thoroughly mixed all the ingredients, form the mixture into small balls, and serve them with lettuce leaves on individual plates.

Limpens Cheese (Belgian style).—Cut a small loaf of bread into slices and remove the crusts. Butter each slice, and cover it well with grated cheese, building up the slices one on another in two rounds in a deep baking dish. Boil a cupful of milk, and season it with salt, pepper and a dash of grated nutmeg; when the milk has boiled pour it over the bread; set the dish in the oven and let the mixture bake for a quarter of an hour, mixing the bread frequently with the milk in the pan.

Fried Cheese Balls.—Mix half a cupful each of grated cheese and an equal amount of bread crumbs, add one well-beaten egg and a teaspoonful of a good relish. Roll the mixture into balls; dip them into beaten egg, then into very fine bread crumbs that you have lightly seasoned with pepper and salt. Fry the balls in deep, hot fat. If you like high seasoning, add a dash of Cayenne pepper to the cheese mixture. With a lettuce salad the cheese balls make an excellent garnish for veal.

Savory Cheese Rusk.—These are particularly appetizing as a luncheon dish. Grate one and one half cupfuls of strong cheese, add one teaspoonful of olive oil, one teaspoonful of mustard, and two tablespoonfuls of mild vinegar. Season it slightly with a good relish and with salt and pepper. Add one eighth of a teaspoonful of soda and beat the mixture until it is very light and creamy. Spread it on rounds of rusks or on plain white bread and brown it in a very hot oven. If you wish, you can vary the receipt by using three tablespoonfuls of olive oil and only half a tablespoonful of the vinegar.

Cheese Rings.—Place one cupful of water, half a cupful of butter and half a teaspoonful of salt in a saucepan; when the water boils, add one cupful of pastry flour and stir the mixture until it leaves the sides of the pan. Remove it from the fire and allow it to stand until it is luke warm, then add three eggs, one at a time, and beat each one thoroughly. Add half a cupful of stale grated cheese and place the mixture in a pastry bag that has a star tube. Line a biscuit pan with paper and shape the mixture into rings upon it. Sprinkle them lightly with grated cheese and bake them in a moderate oven until they are thoroughly done.

Making Use of Stale Bread.

Of all the left-over remnants of food from the kitchen bread is the most common, perhaps, and many pieces are daily thrown away which a little thought would turn to excellent use. If the left-over pieces are not utilized the same day, an excellent plan is to wrap them in pieces of waxed paper and store them in a stone jar. They will keep well for a week in this way.

Dried crumbs for stuffing and meat frying: Put the crusts and small pieces in a baking pan and dry in the oven without burning. They may then be put through the food chopper and stored in clean jars until wanted. They may be used as a basis for meat croquettes, poultry stuffing and other things.

French toast may be made from the whole slices of left-over bread. It is an excellent luncheon pick-up dish. Beat an egg and add a little milk. Dip the slices of bread in this and fry a nice brown in hot drippings. Serve with butter, jelly or marmalade.

Bread custard pudding: Cut the bread in dainty shapes and butter liberally. Make a plain custard of eggs, milk and sugar. Put in baking dish and float the buttered bread on top. Sprinkle with grated nutmeg and bake in a quick oven until done. This is excellent.

To make croquettes for the various uses so much relished in summer, dip the bread in cubes and fry in butter dripping just before serving with the soup. Add five or six to each plate of soup. These are delicious with almost any soup.

Bread jelly for invalids: Scald the stale bread freed from crusts. Mash to a paste until of musli-like consistency. Add a little sugar and flavoring, mold, chill and serve with cream.

Sterilized bread crumbs are especially valuable for the young children in the household. A jar should be kept filled with these. They may be heated when wanted and sprinkled in soups, eggs, soups, milk, fruit juices and, indeed, anything eaten by very

young children where fresh bread is often positively dangerous. Dried bread is also valuable for mixing with various other foods for feeding the household pets.

Miscellaneous Recipes.

Green Tomato Sweet Pickles.—One peck of green tomatoes. One dozen large white onions. Six red peppers, coarsely chopped. One cup of sugar. One tablespoonful of ground all-spice. One tablespoonful of ground cinnamon. One tablespoonful of ground mustard. One tablespoonful of whole cloves. Three pints of vinegar. Slice the tomatoes the day before pickling. Sprinkle them thoroughly with salt, but not too heavily. In the morning drain off the liquor. Have ready the onions coarsely sliced. Take a kettle and put in a layer of tomatoes, then a layer of onions, and sprinkle between each layer the sugar and all the spices. Pour over them the three pints of vinegar, or enough to cover the whole well and boil gently until tender. The onions can be left out if the flavor is objectionable as the pickles are equally good without them.

Pepper Hash.—Twelve large red peppers. Twelve large green peppers. Fifteen onions. Take seeds from peppers. Chop fine in food chopper and pour over boiling water. Let stand five minutes and then drain. Make a weak solution of vinegar to two parts water (three-fourths pint vinegar to one and one-half pints water for the above amount of peppers and onions). Put in the chopped peppers and onions. Let boil, then drain again. Add one pint of vinegar, two and one-half cups sugar, three tablespoonfuls salt. Let all come to a boil, put in jars and seal.

Pickle Grapes.—Take ripe grapes, remove all imperfect and broken ones, divide large bunches. Put in earthen jar a layer of grapes leave (the tannin in leaves helps preserve the firmness of grapes). To four-quarts of vinegar take two or three pints of white sugar, or more if desired, one ounce of cinnamon, half-ounce cassia and cloves, boil vinegar, sugar and spices together a few minutes, and when cold pour over grapes. By pouring the vinegar over the grapes cold you will avoid chacking them, and they retain their natural color.

Grape and Apple Jelly.—Take half-ripe grapes, stem and wash. To one quart of stemmed fruit add two medium-sized apples, core, but do not peel apples. Cover with water and boil until mushy. Strain through jelly bag. Let juice stand overnight, as this prevents formation of tartaric acid crystals. To each cup of juice add one cup of sugar; boil; while boiling take out from time to time a small quantity of the liquid and set to cool, and repeat this process until the samples set to the desired thickness. Put in glasses, and when cold cover the top with a thin layer of melted paraffin.

Household Hints.

Every tidy housekeeper would like to keep her cooking stove clean and new looking. She can do so if she will wash the stove while it is warm with a sponge dipped in soap and water.

Charcoal on the shelf of the refrigerator will keep the refrigerator sweet and pure.

Then there is the silver that will tarnish. If the good housewife will lay a little camphor in the drawer where she keeps her silverware, she will at least help the trouble. In the event that she wishes to clean her silver, a mixture of equal parts of whiting and ammonia with a flannel cloth will do the work satisfactorily.

She will perhaps avoid falls when she goes to the cellar if she will paint the lower step white so that she can better see it.

As to sweeping, let her soak a newspaper in water, unfold it and lay it in the center of the room. Much of the dust will be absorbed. A little milk added to the water will give a polish to an oilcloth. A little turpentine in closets and drawers will prevent moths. A little sweet oil in the scratch of furniture will improve the bruiser.

When you iron, if you will place your iron on a hot brick while you are ironing it will stay hot longer. If your irons are not clean, rub them on emery paper. If you will keep a paraffin candle with a white-lawn cloth over the end and rub over the iron occasionally, you will thereby add luster to your linen.

Played "Home, Sweet Home."

A soldier who has been twice wounded on the last occasion of injury was in the trenches when suddenly a man by his side was hit in the wrist. Clipping his hand upon the wound, he exclaimed:

"Got it! I've been waiting for this since last August." Then, putting his left hand into his pocket, he pulled out a mouth organ and played "Home, Sweet Home."

Who but an English Tommy could or would do that?

THE SUNDAY LESSON

INTERNATIONAL LESSON
OCTOBER 1.

Lesson I.—A Plot That Failed—Acts 23. Golden Text. Jer. 1. 19.

Verses 14. Chief priests—More exactly, high priests, a close oligarchy including, besides the acting pontiff living, ex-high priests and priests belonging to the two or three families from whom the government selected the new one. Of course in Jewish eyes the office was for life, but they had to be content with keeping it in the families which held it since the Maccabees. Curse—Greek, anathema; the formula would be, "God do so to me, and more, also if I eat or drink before we have killed Paul."

15. With the council—The Sanhedrin, which contained many well disposed to Paul, was only to be asked to pass a resolution requesting Lysias to give them a further opportunity of examining the case. Signify—Rather too peremptory a word; it only implies putting a suggestion before the officer, who, of course, could grant it or refuse it as he pleased. Comes near—The Sanhedrin therefore would not be suspected of complicity.

16. Paul's nephew is the only relative of whom we hear. He must have been deeply interested in his uncle, and employed great shrewdness in getting this information: a relative of Paul's was the last person to pick it up casually. The case with which he secured access to Paul shows that the apostle was no longer in rigorous confinement.

17. Young man—The term used in verses 18 and 22 is slightly different. Paul speaks of his nephew to the centurion with less familiar tone.

18. Lysias's interest in Paul, and his determination to see fair play, becomes apparent.

20. As though thou wouldest—It is better to follow one of the two greatest MSS., and by altering one letter read as though it (the Sanhedrin) would, etc. This agrees with verse 15. Lysias would not take Paul down to the Sanhedrin because he wanted to get more exact knowledge; he would question him in the barracks.

21. The information of their amiable intentions no doubt cost these forty zealots some delay in getting their dinner. But there were casuists ready to extricate them from a vow so praiseworthy, when it failed of its object.

23. A very large escort for one prisoner, but Lysias was determined that a Roman citizen should not be murdered by these hated sectaries. A Roman cohort would include a contingent of all kinds of troops—regular infantry, cavalry, and miscellaneous native troops. The exact meaning of the word rendered sparsmen is not known. Caesarea, on the coast, was the seat of government.

24. Felix—Antonius Felix, procurator of Judaea from about A. D. 52. He and his powerful brother Pallas were freedmen. Tacitus says that he "wielded royal power with the spirit of a slave, with unbounded cruelty and lust."

There may be such a thing in the world as pure unselfishness, but nobody seems to be able to locate it.

Every man imagines that it would be a fine world if we were alike and he was the sample.

Beauty is said to be only skin deep, but many a woman's beauty depends upon the size of her balance in the bank.

THE FASHIONS

A Forecast of the Fall Styles.

Before very long, thin summer frocks and light suits will have to be put away for the heavier fall-garments to take their places. It often happens that the first chill winds catch us unprepared, and certainly there is nothing more upsetting than to realize that we had not given a thought to the coming of fall and were, consequently, not ready for the change in the weather.

The autumn styles are already well established, so no one need be afraid to make her selection in suits and gowns early, for there is no danger that they will not be in good style later. The suit models that have come over from Paris are as attractive as they can be. The coats are mostly three-quarter length and some of them are shorter. They reach to the hips, the fingers, tips or the knees. The skirts are quite full; just as full as they were last fall, but not so flaring. The lines are straighter, as a rule, and the skirts just a trifle longer than they have been worn in the past seasons. Strictly tailored suits, of course, do not have very wide or long skirts.

Among the coat styles there are some Russian effects seen, which most women will be happy to learn. One of the favored models is fitted above the waist and quite full below it, and there are many variations of this idea. A suit that gives promise of being very well liked on account of its generally becoming lines is illustrated here. It has deep pockets which are cut in one with the fronts of the coat,

Long Suit Coats are Fashionable.

and a narrow belt going around the sides and back, but not the front. The skirt that completes this suit has pockets corresponding in cut to those on the coat.

In the other suit shown here, there is a suggestion of the Empire style, the return of which we have been hearing so much about lately. It comes in a modified form, having a panel in the front and back, and is certainly most attractive.

A wonderfully smart suit from Paris was made of navy blue gabardine, with a very long, full coat. The skirt also was very full. It extended

up above the normal waistline, where it was attached to a blouse of brown and black checked silk with small checks. The coat was lined with this silk, and when thrown open the effect of the whole costume was very striking.

Suit Fabrics and Colors.

There are charming suit materials for fall, which will perhaps make it difficult to decide on what to get. Besides the old stand-by serge, there is its staunch companion, gabardine; then there are wool poplin, wool velours, broad-cloth, cheviot, mixtures, and many fancy twills and suitings. For dressy wear, velvet, velveteen and satin will be very much in the foreground. The checked wool velours are very stylish in two tones,

A Modified Empire Style.

For instance, black and brown, tan and brown, and gray and brown. They are most practical, too, for they wear very well. The fashionable self bones are navy blue, dark brown, green, taupe, gray, burgundy, and black.

Fur for Trimming.

Did any woman fear that the fur on her suit last winter would not be fashionable this year? If so, let her fear be turned into joy, for fur is to be used even more lavishly than it was last winter. The bands of fur on skirts are wider, the fur collars on coats just as high and the cuffs on the sleeves just as deep. Rabbit and skunks, are the furs most commonly used, and there are also Hudson seal, beaver, fox, lynx, minkskin and ermine, all of which were used last winter.

These patterns may be obtained from your local McCall Dealer, or from the McCall Company, 70 Bond Street, Toronto.

Things you can't understand are generally done of your business. Sometimes people ask you for advice just to be pleasant to you.

EXAMPLES GOOD AND BAD

Character Specifies the Sort, Substance and Condition of Life's Doings.

Follow not that which is evil, but that which is good.—III. John, 1, 2.

The great model from which specimens are drawn to illustrate the original of anything is nature and its own akin. Since existence follows the order of nature, as effect does cause, there is no product to precede it. Nothing, in fact, compares with nature. To imitate nature is to get close to it, to be natural in what we say and do. Every achievement of glory, sculpture, painting, or whatever else may be accomplished after the manner of men, new and perfect in themselves, becomes at once a sample pattern, example, the form for others to represent and reproduce. To busy ourselves with fac-simile work that accords with what nature reveals to us is to be true to nature.

Apostolic Examples.

If a touch of nature makes all the world kin, the kinship we bear each other in whatever succeeds will relatively pass to benefit mankind. It befits men in all walks of life to acquire act of faith, hope and love. Opposed to them may be observed the sad, harrowing exhibitions of folly that overshadow nearly every surrounding. Examples good and bad qualify character. We find nothing new in substance, nothing old in form; yet quantity measures both. Weighing in the balance, vice, contrary to virtue, is always found wanting. There is no rest for the weary obsessed with crime. The mission to teach and do exactly what was exemplified and taught the apostles by the Great Master infers a hearing and implies the request for the holding of that commission on the part of men and nations to whom the twelve were sent to preach and obey as commanded; that they in turn should be the specimen copies, exhibits, apostolic example, in repeating all they had heard and seen done. Nothing less

HEALTH

Bruises.

A bruise, or contusion, is caused by a blow or by strong compression of the soft tissues. It is an actual wound of the subcutaneous tissues, and is less serious than an open wound only because the unbroken skin usually prevents it from being infected. That does not mean, however, never forms in a bruise, for the blood can carry infection, and if germs lodge in the lacerated tissues they will cause inflammation.

The first result of a severe bruise is pain; next comes swelling and discoloration. That is owing to the escape of blood from the torn vessels, and it is usually more marked where the tissues are loose; that is why a "black eye" often follows a blow that would leave no mark on the chest or back.

The pain of a bruise is best relieved by sponging with very hot water or by hot fomentations; sometimes an electric-light bulb will give enough warmth to relieve moderate pain. The hemorrhage, which is the cause of the swelling and discoloration, can be reduced by applying pressure at once over the injured part. Fold a handkerchief or napkin so as to make a smooth pad and keep it firmly in place by a bandage or by a towel tightly pinned. When you cannot make a pad work well, hot water may arrest the bleeding and prevent discoloration.

Ice-cold applications have the same effect, and they are better, than hot ones for a black eye. It is a good plan also to compress a bruise under the eye by a mass of cotton or soft cloths—or by the traditional raw beefsteak.

If the pain of a bruise persists and there are signs of beginning inflammation, apply cooling lotions, such as lead and opium wash, salt and diluted vinegar, equal parts of alcohol and water or extract of witch-hazel. Arnica is often used, but it is better to try something else, for it sometimes causes a rash or even gives rise to symptoms of general poisoning. If the inflammation persists and an abscess forms, the surgeon must be called.

Health Notes.

The most important feature in giving comfort to a person burned or scalded is to keep the air from the burn.

All bacteria do not make trouble and doctors' bills. Some of them make buttermilk, and buttermilk is a friend to health. It is a cheap beverage and a good one, and is an excellent food besides. Its nutritive value is high. Two quarts of buttermilk being equal to about one pound of steak. It has a good medicinal effect. The lactic acid bacteria that help in the making of buttermilk are, therefore, man's friends and protectors.

"Can you keep a secret?" "I am silent as the tomb." "I need to borrow some money." "Don't weary, old man. It is as though I never heard it."

EXAMPLES GOOD AND BAD

Character Specifies the Sort, Substance and Condition of Life's Doings.

Follow not that which is evil, but that which is good.—III. John, 1, 2.

The great model from which specimens are drawn to illustrate the original of anything is nature and its own akin. Since existence follows the order of nature, as effect does cause, there is no product to precede it. Nothing, in fact, compares with nature. To imitate nature is to get close to it, to be natural in what we say and do. Every achievement of glory, sculpture, painting, or whatever else may be accomplished after the manner of men, new and perfect in themselves, becomes at once a sample pattern, example, the form for others to represent and reproduce. To busy ourselves with fac-simile work that accords with what nature reveals to us is to be true to nature.

Precept and Injunction

are excellent methods to adopt in teaching, but demonstration is more effective to obtain results. "Suffer little children to come unto me," is explanatory of the Saviour's mode of instruction when, lifting the little child to His arms. He declared such like innocence and simplicity must be found in men before they come to the abiding place of His Father. Good principles practised at work or play make for righteousness. Hence the good we promote will uplift and add to the betterment of all classes to higher stages of perfection, at the same time being conscious of personal errors to be always and ever considerate of the failings and misfortunes of others. Then—

Speak of a man as you find him. Censure alone what you see; If a man errs remind him, For of faults there's none of us free.

—Rev. George T. Donlin.

Liesemer & Kalbfleish

THE CORNER HARDWARE.

LIVE STOCK MARKETS TORONTO.

Receipts of live stock at the Union Stock Yards yesterday consisted of 205 cars, 4099 cattle, 231 calves, 914 hogs, and 1906.

There was a heavy run of cattle at the Union Stock Yards yesterday, 4099 being on sale. The great bulk of butchers cattle were very poor and sold at 25c lower than the close of last week. Shippers must not expect top prices for poor quality animals. The market was slow and draggy, especially on butcher cattle. Fat cows, bulls, stockers and feeders and milkers and springers were about steady with last week's prices.

Lambs, sheep and calves were steady. Lambs being, if anything, slightly higher.

Hogs took a big drop, being from 50c to 75c lower than the close of last week, and packers say they are going lower. One packer quoted as follows: E.o.b., \$11.40; fed and watered, \$11.90; weighed off cars, \$12.15.

Farms For Sale.

Two 100-acre farms in the Township of Howick, Co. Huron. Prices \$4200 and \$7200 respectively. Also a 100-acre farm in the Township of Carrick, Co. of Bruce. Town property will be accepted as part payment for this farm. For further particulars apply to Chas. Schurte Mildmay, Ont.

Fatally Injured

Roy Finley, aged 16, son of Mr. and Mrs. William Finley, living in Turnberry Township, just outside Lower Wingham, was, it is believed, fatally injured on Sunday morning. The young man had gone out to the barn to attend to a horse, and his mother found him under the animal's feet. One arm was badly crushed, and his head was also badly smashed. Dr. Hamby was called and he was taken to the hospital, where practically no hope is held out for his recovery.—Wingham Advance

Items Of Interest.

Every few days during the fall months all hairs that contain eggs of botflies should be clipped from the horses' legs. By thus reducing the number of eggs the number of bots will be reduced.

With thirty cars of fruit on Winnipeg market Saturday, pears sold at \$1 to \$2.50 per box. No. 1 Duchess apples fetched \$5 per barrel.

Skimmed milk fed with crushed oats and oil cake will make calves thrive and produce veal at half the cost where whole milk was given.

The farmer who has a good colt has, perhaps, a natural tendency to stuff the little fellow with grain until he is almost as fat as a young steer. Nothing could be more fatal to the colt's future usefulness.

Europe is slaughtering not only men, but cattle, hogs, sheep, horses at a fearful pace. Grain production can be brought back to the normal in the first year of peace, but it will take several years to restore the world's live stock industry to pre-war conditions.

For some time an odd bottle has been missing from whiskey cases coming to Kincardine. On Tuesday night E. A. Henry and Chief Leithead "lay" for the man and got him. He is now in the lock-up awaiting trial. A large quantity of the wet goods has been abstracted from consignments shipped here.—Kincardine Review.

In no former war have the animals played so large a part as they have in this now raging. Besides the horses, mules and oxen, there are dogs serving in many ways, the cats ridding the trenches of rats and mice, the carrier pigeons and even the white mice of the submarines, which are taken aboard to give warning of any escape of gas. Well did Edward Everett Hale once say: "We are all in the same boat, animals and men."

A standing joke out here is the insect community. I think every beastly insect under the sun is well represented," says a soldier in Mesopotamia. "There are spiders with bodies about the size of a large plum, with a head as large as a cherry, with a beak like a bird, which go chasing all over the place, much to our consternation. Locusts are here in thousands, and there are beetles the size of young elephants, and unfortunately scorpions, which have to be treated with great respect. As we sleep on the ground out in the open outside the tent we have thousands of different insects walking all over us at night."

Finger Injured.

John Lobsinger, blacksmith, had a finger badly injured last Friday. He was operating the drilling machine when the index finger got caught in the machinery, with the result that the point of the finger was cut off. Dr. Clapp dressed the injured member, and John is able now to do some light work about the shop.

"Meat Prices Will Not Come Down" is the cheerful news from the Department of Agriculture. Meat prices will not worry the man or woman who knows that a **Shredded Wheat Biscuit** will supply more real body-building nutriment than beefsteak or eggs and at much less cost. Shredded Wheat remains the same price, the same high quality, supplying all the nutriment a man needs for a half-day's work. Two shredded wheat biscuits with peaches and cream or other fruits make a complete, nourishing meal at a cost of not over five cents.

Made in Canada

A HORSE REFORMATORY..

Place in England Where Wicked Animals are Tamed.

A friend in England sends us this story: "One result of the war is the establishment of a reformatory for wicked(?) army horses.

One of these horses was called "Crippen" and was a saint by comparison, according to the soldiers who tried to tame him.

"Crippen had killed one soldier who had tried to saddle him, and was sentenced to be shot.

"That sentence was commuted to one of detention in a horse reformatory. In this reformatory, near Shrewsbury, the horse criminals, under the care of Lieutenant Rimington, become in time so docile that they will eat sugar out of a lady's hand.

"Crippen met his equals at the reformatory. Vicious, sullen horses, horses that looked like wild beasts and acted as such, roamed about the paddock when Lieutenant Rimington walked, like a Daniel, into the lions' den and the animals at once became quiet.

"The officer carried neither stick nor whip. He understood horses, and apparently they understood him. They owe their lives to him, and seem to be aware of the fact.

"Anyhow he is soon on Crippen's back, and Crippen is buckjumping in fine western style. Neither stick, whip, nor spur is used to tame him, but tamed he is, in very short time, like the rest of the savage Simons who have been condemned for murderous practices.

"The Shrewsbury horse reformatory, through which hundreds of vicious horses have passed, has proved such a success that the whole process of taming the animals has been filmed, under the title of 'Reforming Army Outlaws,' and will shortly be seen in Wardour Street, where the picture is sure to win the approval of all lovers of horses."

While the vast majority of vicious horses are undoubtedly made so by those who have handled them, a horse is occasionally born with a stubborn, perverse, and ugly disposition. Even in such a case we do not question heredity plays a large part, and the bad disposition may be due to a sire or dam spoiled by an owner or trainer.—F.H.R., in Our Dumb Animals.

Most men admire the nonsense of a pretty woman far more than they do the sense of a homely one.

Most men would be satisfied to do nothing if they could get paid for doing it.

BUILDING BY ELECTRICITY.

More Economical and Convenient Than Steam.

Electric power is being used more extensively each year in building operations to drive concrete mixers, air compressors, hoists, etc.

The main reason for this growing popularity is simply that electric drive is more economical and convenient than steam; provided, of course, electric current is available, as it usually is in the neighborhood of built-up communities. One man only is required to handle a motor-driven machine, and he need not be an experienced engineer, as many workmen can learn to handle a motor in a short time. A single handle controls all operations—starting, stopping, reversing and changing the speed. There are no stand-by losses, either. The motor uses power only when actually running, and when at rest involves no expense whatever. Having no boiler, the machine is lighter and more compact than a steam-driven machine, and hence is more readily moved and placed in position. On account of its compactness, a motor-driven hoist may be placed where it will not interfere with traffic. The absence of fire and sparks makes it safe even though it is crowded under the scaffolding. Cables located overhead out of the way take the place of awkward, leaking pipes, and there is nothing to freeze in cold weather.

emergence from the depths, but, of course, they were disappointed. Having overlooked the little item of air, the country millwright was destined never to rise from his self-built coffin.

DISEASES INCIDENT TO OCCUPATIONS

HOUSEMAID'S KNEE A MALADY OF MINERS

Dr. Patterson's Method of Curing Lead Poisoning by Electric Battery.

The subject is interesting and important as well as full of surprise. Housemaid's knee, for instance, which for many years has served as a subject for humorous comment, proves to be a frequent malady of miners. The statistician is abroad and he brings the information that trades carried on in the presence of much dust show a high death rate from diseases of the lungs. Then comes the biologist, who explains that dust is not only minute particles, but that the particles are usually surrounded by a watery envelop and that clinging to this filament there may be micro-organisms.

THE ROAD TO HEALTH

Lies Through Rich Blood and Strong Nerves.

Debility is a word that fairly expresses many ailments under one name. Poor blood, weak nerves, impaired digestion, loss of flesh, no energy, no ambition, listless and indifferent. This condition is perhaps the penalty of overwork or the result of neglected health. You must regain your health or succumb entirely.

There is just one absolutely sure way to new health—take Dr. Williams' Pink Pills. These pills will bring you new life, fill every vein with new, rich blood, restore elasticity to your step, the glow of health to your cheeks. They will supply you with new energy and supply the vital forces of mind and body.

There is not a corner in Canada where Dr. Williams' Pink Pills have not brought health and hope and happiness to some weak debilitated person. If you have not used this medicine yourself ask your neighbors and they will tell you of some sufferer who has been restored to health and strength through using Dr. Williams' Pink Pills. One who has always a good word to say for Dr. Williams' Pink Pills is Mrs. Luther Smith, of West Hill, Ont., who writes: "I feel it a duty as well as a pleasure to tell you what Dr. Williams' Pink Pills have done for me. I had an operation for tumors. The operation in itself was quite successful, but I was so badly run down and anemic that I did not gain strength, and the incision did not heal, and kept discharging for nearly a year, until I weighed only eighty-six pounds and could scarcely walk across the floor. I had got so sick of doctors' medicine that I would vomit when I tried to take it. A good friend urged me to try Dr. Williams' Pink Pills, so I bought a box. Before they were gone I thought I could feel a difference, and I got a further supply. By the time I had taken five boxes the wound ceased discharging and commenced to heal. I took in all thirteen boxes and am to-day enjoying the best health of my life and weigh 140 pounds. I sincerely hope anyone suffering as I did will give Dr. Williams' Pink Pills a fair trial, and I feel sure they will not be disappointed."

You can get these pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

THE EARLIEST SUBMARINE

An Englishman Devised the First "Diving Machine" in 1774.

In the development of the modern submarine the first and most important problem which demanded solution was that of supplying the occupants of the craft with sufficient quantities of air. All other problems were secondary to this, and when the means of compressing air and storing it in tanks was discovered the rest was comparatively easy.

Every schoolboy now knows that air is necessary to sustain life, but what is now a matter of common knowledge long ago was a secret to savants not so very long ago. It was the lack of this simple information which cost the life of the inventor of the first submarine, John Day, an Englishman, who went to his death 142 years ago.

Day was a wheelwright of an inventive turn of mind, and he early turned his attention to the problem of inventing a submarine in which human beings could remain under water for a considerable length of time. After a long thought he contrived what he called a "diving machine," which consisted simply of a large air-tight box, sufficiently large and strong to withstand the pressure of the water at a considerable depth.

Day's plan was to attach his water-tight box to an old vessel by means of screws. After Day entered the box it was to be carefully closed and the vessel was to be sunk to a depth of 100 feet and at the end of 24 hours he was to disengage his box from the vessel by withdrawing the screws, thus rising to the surface.

On June 22, 1774, Day's "submarine" was ready and a spot in Plymouth Sound was chosen for the test. The foolhardy inventor entered his tomb and the cover was fastened on. The vessel to which the box was attached was then sunk. At the end of 24 hours a vast crowd gathered to see Day's

Guard Your Baby's Health

Cheerful, Chubby Children Make the Home Happy

Weak, puny babies are a constant care to tired mothers and are subject to many diseases that do not affect healthy children.

Keep your children in good health. See that their bowels move regularly—especially during the teething period. This is a distressing time in the life of every child and the utmost precaution should be taken to keep them well and strong.

By the consistent use of **Mrs. Winslow's Soothing Syrup**

It is possible to avoid many childish ills now so prevalent. It is a corrective for diarrhoea, colic and other infantile ailments. It soothes the fretting baby and permits the child to sleep well and grow healthy. It brings comfort and relief to both child and mother.

Mrs. Winslow's Soothing Syrup Makes Cheerful, Chubby Children

It is absolutely non-narcotic. It contains no opium, morphine nor any of their derivatives. It is soothing, pleasant and harmless. For generations mothers in all parts of the world have used it and millions of babies have been benefited by it.

Buy a bottle today and have it handy. Relieve and Protect Your Children. Sold by all druggists in Canada and throughout the world.

To Have and to Hold.

Stranger—I will give you a nickel if you will climb over that fence and get my hat, boy.

Country Boy (climbing over quickly)—I've got your hat, mister, all right; now, how much will you give me if I bring it to you?

Minard's Liniment Relieves Neuralgia.

Taking it Literally. "Did the doctor give you much encouragement?" asked Mrs. Dumson. "Yes, indeed," answered Mr. Dumson. "He said I would be able to whip my weight in wild cats before long."

"Dear me! Where will you find the wild cats?"

This is to certify that I have used MINARD'S LINIMENT in my family for years, and consider it the best liniment on the market. I have found it excellent for horse flesh. (Signed) W. S. PINEO. "Woodlands," Middleton, N.S.

Won't Let You Forget it. "Is he a real friend?" "I don't think so." He's always willing to lend money to you if you need it but he isn't afraid to ask you to pay it back if you don't show any signs of ever going to do so."

Minard's Liniment Cures Dandruff. Russia's Railway Programme. In Russia plans are on foot for a conference regarding the railway construction programme for 1917 to 1929. Representatives of public and private business organizations from all parts of Russia will attend, besides representatives of the Imperial Government. The question of investment of private capital in railway construction will be taken up, as well as of financing both of Government and private construction.

The incapacity of men to understand each other is one of the principal causes of their ill-temper towards each other.

Some men shake hands with as little enthusiasm as some women kiss each other.

Fools butt their heads against brick walls, while wise men start out hunting for a ladder.

INVASION OF WOMEN.

Many New Occupations Are Being Opened Up to Them.

Before the war there were five million, five hundred women wage earners in Great Britain; to-day there are said to be over ten million. Five million men have enlisted for active service, and a woman has taken the place of every able-bodied man who might have been engaged in peaceful occupations. England has never been so busy a manufacturing and industrial country as she is in 1916, but this would never have been possible if women had not stepped into the breach.

In Canada there is not the same supply of surplus available women, so that in this respect Canada has not experienced so great a revolution in industrial life, but many new occupations are being opened to Canadian women, and the demand for women workers in factories and in the great industrial life of the railways is steadily on the increase. If Sir Robert Borden is to secure his 500,000 Canadian soldiers, 100,000 women must temporarily step into the shoes of men so that the latter may be released for service, as the limit of available men seems almost to be reached.

Women are already working alongside of men in sacking and hauling of grain at the Great Lakes elevators, in the Canadian Pacific yards and shops where they are cleaning cars, in the telegraph services and in many clerical positions hitherto held by men. They are acting in some places as Station Agents with satisfaction to their employers. But Canadians who visit England are surprised to find women ticket inspectors and guards, women as elevator attendants, women as chauffeurs, and train conductors, women as red caps, porters and ticket clerks, women as locomotive cleaners and track greasers.

People who are afraid to do as they please are seldom able to please anybody.

From the mother's point of view it is always the sins of the father that are visited on the children.

A man seldom speaks lightly if he stops to weigh his words.

SEED POTATOES. IRISH COLLEGE. Delaware, Carman. Order at once. Supply limited. Write for quotations. H. W. Dawson, Brampton.

Sore Eyes. Granulated Eyelids. Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by Murine Eye Remedy. No Smarting, Just Eye Comfort. At Your Druggist's 50c per Bottle. Murine Eye Salve in Tubes 25c. For Book of the Eye Freesight Rubbers of Murine Eye Remedy Co., Chicago.

Grounds for Complaint. A restaurant keeper hung out this sign: "Coffee Like Mother Used to Make." One morning a man entered the cafe, and as the waiter approached him he inquired, pointing to the sign: "Is your coffee really such as mother used to make?" "It is, sure!" replied the waiter, convincingly. "Then," said the man with a reminiscent look, "give me a cup of tea."

Two in One. Doctor (to wounded soldier who is on "low diet")—Is there anything you want, my lad? Irishman—Och, doctor, if ye'd be givin' me a nice fat goose for me dinner, now? Doctor—Ah, and I suppose you'd like it stuffed with something special, eh? Irishman—Ineed, and I would. I'd like it stuffed with another wan.

Presence of Mind. "Did you get damages for being in that street car collision?" "Sure! A hundred for me and fifty for my wife." "The missus? Was she hurt, too?" "Not in the crash, but I had the presence of mind to fetch her one on the head with my foot."

SOLVE THIS PUZZLE AND WIN A LOT

To make better known our Summer Resort in the heart of the Laurentian Mountains, North of Montreal, we will give away a building lot "FREE" to anyone solving this puzzle. Put a figure (no two alike) in each of the 16 squares above so as to make a total of 15 by adding them up and down and crossways.

Send solution with 5c in postage for copy of Prospectus to THE SHAWMUT LAND CO., W. L. Bead Bldg., Montreal, Can.

Machinery For Sale

Wheelock Engine, 150 H.P., 18 x 42, with double main driving belt 24 ins. wide, and Dynamo 30 K.W. belt driven. All in first class condition. Would be sold together or separately; also a lot of shafting at a very great bargain as room is required immediately.
