We accept the first sentences, relating to the general principles on which the Constitution of the United States has been formed, because they seem to be a collection of stereotyped phrases, with which every President seems to think it necessary to commence his Message, and which we should think would be so well anderstood all over the world by this time, as to render their annual enunciation just the least in the world of a bore.

Passing over these paragraphs, we come to one which we cannot help but point out to our Canadias rulers, and we should like to ask James Butes, Earl of Elgin, whether he can lay his hand on his heart, and say, as President Fillmore does, that he regards " the appointing power as " one of the most delicate with which the Executive is invested; that it is a sacred brust, to be exercised with the sole view of advancing the prosperity and impoints of the people; that it will be his effort to slevate the standard of official simpleyment, by selecting for places of importance, individuals fitted for the posts to which the Revenues of the Department. FIRE AT-PORT S. MAIA.—We regret to learn that a S. M. Uclive fire broke out on Saturday, at Port Satnia. It commenced in the fine fluuring mill of Mr. Archibald Young, and spread rapidly to Mr. Young's a one, to Hauston & McK. nxie's store, and to the large warelouse of Mr. Malcoim Cameron. At the time our despatch was written the times were still unsubdued, and it was feared that the store of Mr. W. B. Clark would be destroyed. We are happy to learn that the parties are all insured. Great exertions were made by the town sfolk to stay the progress of the flames, and aid was largely and heartily lent by persons from Port Haron on the opposite side of the siver.—Toronto Globe.

Late advices from Sen Juan Nicaragua give accounts of the trouble between the Commander of the British Brig of war Persion, and the American Steamer Director. While the latter vessel was preparing to account the river, her Officers were officially informed by the Captain of the Persion, that if they attempted to move without first obtaining permission from the town authorities, he should fire upon them; and, in conformity with this threat, he removed his vessel to within 100 yards of the Director; so as to bring her effectively moder his guns, without any protection. The Officers of the Director were compelled to submit. Such an high-handed and outrageous act as this will, without doubt, be speedily investigated.

Bosron, December 4.

The Insune Hospital at Augusta, Maine, was destroyed by fire this morning; and it is supposed that 200 of the unfortunate innatics pershed. Some of the lunatics gave the alarm as soon as the fire was discovered, but their keepers supposing their cries of "fire" to be nothing more than their accustomed ravings, paid no attention to them. Soon after, the building was discovered to be on fire, and was shortly consumed.

Paron's Personation of Lucrezia Bonesta—The Baller of Pagutta—Last night Parodi made another triumphant impression by her person tion of Lucrezia Borgia, but created a more marked enthusiasm than has before been exhibited, excited as have been the audience by her inimitable vocalization and artistical qualities, on every occasion. Earning her triumpha againt the fouliest prejudices which ignoreance can every der, or malice suggest, she proclaims here's as the great queen of lyric song, and draws con every sudience an amount of enthusiase such as hear never been known in this motropolis. Unapproached as she is in the exteet, quality, and power of her voice, she uses it with such consummate skill that she is entitled to she highest rank as a vocalist, while the last of the highest rank as a vocalist, while the last of the finale was summined in the last of the grand efforts of the first two acts. Though she had been called out three or four times, such was the delight of the audience, that at the fall of the curtain, she was again summoned twice to receive such vocaferous acclarations as never before were heard in the Opera House. Many of the audience started to their test, and many minutes clapsed before the extraordinary scene of euthusiasm subaided. Patti, Lorini, and Beneventano sang with much energy and skill, and were very deservedly applanded. Indeed, the Opera was admirably performed. The Ballet of Paquita" was also well received, having heen much improved since the first night, by justicious alterations. Nathalie Fatajunes was received with much applause, and danced in a highly artistical and finished style—N. Y. Herald.

Dr. HALSEY: —A bottle of your Forest Wine and box of Pills, which I procured of Mr. James Corr, (your Agent for this place,) has done wond re for me. I had been in a state of deeline for more than a year, efficied with a dr. addul cough, pain in the breast, general d. bility, and loss of appetite. I became almost a skeleton, and had been unable to leave my room for more than two months; my friends told me I had the Concumption, and despaired of my recovery. I could not obtain any permanent relief from any medicine I had taken, or my phrasician, until your Wine and Pills were procured. The first dose of the Pills brought up from my atomach much phlegm and greenish matter, and my atomach much phlegm and greenish matter, and my stoole were perfectly black. I then commenced taking the Forest Wine three times a day, my appetite began to return immediately, my cough left me, and in less than two weeks I was almost well. I now enjoy better health than I ever did before, having increased twenty first pounds in accentance. Your Forest Wine and Pills are highly school in this vicinity, and I owe my recovery antirely to their virtues. Yours, respectfully.
