

COMBLES CAPTURED BY BRITISH

Widespread German Retreat Rapidly Becoming a Rout British Continue Progress Along Whole Front

COMBLES, BETWEEN BAPAUME AND SOMME RIVER, FALLS TO HAIG'S ADVANCING FORCES; WIDE AREAS OF TERRITORY ARE REGAINED

Entire British Line North of Somme Has Been Carried Forward; Advance of Several Kilometres Has Been Recorded; Germans Make Supreme Effort to Retain Their Positions North of Soissons

By Courier Leased Wire.

LONDON, Aug. 30.—(Bulletin).—British troops have captured Combles, between Bapaume and the River Somme, it was officially announced today by the British War Office.

Advancing British troops have crossed the River Somme, south and west of Peronne.

Between Hedicourt and the Arras-Cambrai road the Canadians attacked the German line and made favorable progress.

East of the Sensee the forces of Field Marshal Haig made progress, capturing Bullecourt and Hedicourt-les-Cagnicourt.

The British also captured Clery-sur-Somme, on the Somme River, between Combles and Peronne.

DRIVE RESUMED

British forces east of Arras resumed their advance this morning, and at an early hour had penetrated another 2,000 yards on a front of seven miles, between Bullecourt and the Scarpe, according to advices received here.

The British forces have reached within a mile of

the Brocourt-Queant switch line, and have captured Reincourt.

FRENCH OFFICIAL

PARIS, Aug. 30.—(Bulletin).—German counter-attacks between the Ailette and the Aisne were repulsed last night by the French, says the War Office statement today. The French maintained their gains east of Pasly, north of Soissons.

South of the Somme, and along the Canal Du Nord, there was no change in the situation during the night.

German raids along the Vesle, where American troops are stationed, and in Champagne, failed. The statement reads:

"Along the Somme and in the region of the Canal Du Nord there was no change during the night.

"Between the Ailette and the Aisne, French troops repulsed several German counter-attacks. East of Pasly we maintained our gains.

"Along the Vesle and in Champagne, German raids were without result. The night was quiet on the remainder of the front."

Still Advancing.

With the British Army in France, Aug. 30.—(Noon).—(By The Associated Press).—Blaches on the south bank of the Somme and about a mile from Peronne, has been captured by Field Marshal Haig's forces. British troops have entered Les Bouffis and patrols have passed through Morval to the southeast.

British troops this morning pushed forward in an easterly direction from Bapaume.

The British have made further advances to the north of Lens. At one place they pushed forward for a distance of a thousand yards.

Le Transloy, on the Bapaume-Peronne high road, was reported to have been captured this morning.

Official Statement.

The text of the War Office statement reads:

"In spite of the destruction of river bridges our advancing troops crossed the Somme both south and west of Peronne.

"We have taken Clery-sur-Somme and Combles. In this area alone we took over 200 prisoners and a few guns yesterday.

"London and West Lancashire troops made important progress yesterday afternoon east of the Sensee River, capturing Bullecourt and Hedicourt-les-Cagnicourt after hard fighting, together with the powerful German trench systems protecting these villages.

"Between Hedicourt and the Arras-Cambrai road, an attack delivered by Canadian troops early this morning is reported to be developing favorably.

WEATHER BULLETIN

Toronto, Aug. 30.—Pressure is high on the Atlantic coast and over the northwestern portion of the continent, while a trough of low extends from Lake Superior to the southwest states. The weather has been fine in western Ontario and showers from the Ottawa valley eastward. It has been cool in the west with light showers in a few places.

Forecast: Moderate east to south winds today. Showers or thunderstorms in many localities to-night and on Saturday.

Astride the River Scarpe, English and Scottish troops continued their advance yesterday and gained valuable ground in the direction of Eterpigny, Hamblain-les-Prez and Plouvain. The village of Remy is held by us. A number of prisoners were captured in these operations.

"In the valleys of the Lawe and Lys Rivers we continued to push forward."

SUPREME EFFORT.

With the French Army in France, Aug. 29.—(By The Associated Press).—The Germans are making a supreme effort to maintain their positions on the plateau north of Soissons. They are throwing fresh troops against both the French and Americans and are disputing the ground foot by foot.

"After the unsuccessful enemy attempts a few days ago to retake the

heights west of the Soissons-Coucy-Le Chateau road, known as the Odeve de Monts Couve, prisoners taken by one French division included men from three different divisions of infantry and two battalions of crack mountain troops.

The loss of this height and a further advance made it all the more necessary for the Germans to prevent the Allies from gaining ground on the plateau in the region of Juvigny where the last heights defending the valley of the Ailette, where it runs eastward before turning southward again toward the Chemin des Dames. The enemy has reinforced his line there with some of his best divisions of shock troops.

The French third army met with great resistance to-day along the line of the Somme and the canal Du Nord. The German opposition was

SHORTEN DEFENSE AND USE FEWER RESERVES

By Courier Leased Wire. Amsterdam, Aug. 30.—Commenting on the German withdrawal The Frankfort Zeitung finds comfort in the assurance that a shortened defense line will require fewer reserves, but it acknowledges that the retirement "means a painful setback."

It declares that the surrender of Roye, which is a mere heap of ruins, was unimportant from a military point of view and concludes:

"Marshal Foch may again let the British and French, possibly also the American divisions knock their heads against a

brick wall. He will not however, break through the German wall of defense on French soil. Neither will he throw it back over the Rhine. Our front holds firm."

The Cologne Volks Zeitung says:

"The mobility of German tactics quickly found fresh means of countering the enemy's perfected battering weapon 'the tank.' It then pays tribute to the German skill by which retreats are managed 'so adroitly that they are unobserved by the enemy.'"

GERMANY NOT FORCING DISJUNCTION OF RUSSIA

Copenhagen Aug. 30.—The principle laid down by Germany in the supplementary agreements to the Brest-Litovsk treaty signed in Berlin Tuesday will not cause or support the forcible disjunction of the former Russian territory, explains the semi-official North German Gazette.

The independence of the Baltic provinces is assured, it says, and Russia has consented to recognition of the independence of Georgia, is

the Caucasus. The newspaper adds that Russia has agreed to pay Germany six billion marks for German losses due to Russian revolutionary confiscatory legislation. Of this sum the Ukraine and Finland jointly will pay one billion marks.

Germany has obtained concessions in the old fields around Baku. Forces opposed to the Central powers, including British troops, are in control of Baku.

particularly stout in the region of Nesles, where it was necessary to have artillery to reduce some positions. To-night the villages of Roule-Grand and Roule-Petit, east of Nesles, are in the hands of the French, while south along the canal they have Breuil, Moyencourt and La Panterotte. North of Nesles, where General Humbert's troops also are approaching the Somme the Germans launched a counter-attack against Morchain without success. The Germans appear to be strongly reinforced by artillery along the canal Du Nord, where their resistance is stiffening.

After the capture of Noyon French troops advanced eastward to the southern slopes of Mont St. Simon.

EAST OF COMBLES. Bulletin, Paris, Aug. 30.—The British line north of the Somme has been carried beyond the points indicated in last night's statement from Field Marshal Haig and the British are now several kilometers east of Combles, according to reports to the newspapers here. The advance continues and the fall of Peronne is predicted.

Correspondents of Paris newspapers at the front agree that the Allied losses in the present operations have been comparatively light. They say that the Allies have never taken so many prisoners and guns and so much material and territory at so slight a cost.

WOMEN STRIKERS WIN. By Courier Leased Wire. London, Aug. 30.—The departmental committee to which was referred the question of wages for women workers on the buses, trams and underground railways, after the women has refused to work, has awarded the women virtually what they demanded. Their new rate of pay will be equivalent to 25 shillings a week above what it was before the war. Some claims, however, it is declared, can only be decided on a national basis after a full inquiry. The government, therefore, has appointed a committee to investigate and report as to the scales that should be maintained between the wages of women and men having regard to the value of both as well as to the value of their work.

One woman on the committee is Mrs. Sidney Webb.

NEW DUTCH PREMIER. By Courier Leased Wire. The Hague, Aug. 30.—Queen Wilhelmina has asked Jonkheer G. L. M. H. Ruijs De Beerenbrouck to form a cabinet. He is considering the proposal.

HARD PRESSED GERMAN ARMIES ARE STILL WAVERING BEFORE UNREMITTING ATTACKS

The Big 'Un': "One thing about this war—We're more like bruvvers now than ever we was. Nah, suppose you turn out yer pockets, bruvver, an' see what you get."

Foe Retreating in Central Picardy ALLIES GAIN

Moving Ahead on All Parts of the Line

By Courier Leased Wire. New York, Aug. 30.—The Associated Press this morning issued the following:

Germany's hard pressed armies still waver before the attacks of the Allies. In central Picardy from the Somme north to Bapaume, the enemy is retreating eastward toward St. Quentin. Large numbers of prisoners, many guns and much material are falling into the hands of the British.

Elsewhere the apparently unretreating British, French and American forces are maintaining their pressure against the enemy, who now has lost all his important bases west of the Hindenburg line, except Peronne, Ham and Tergnier. The British now are within two miles of Peronne on the south-east, and the French are five miles west of Ham. The important railroad junction of Tergnier is not threatened very seriously, but the French crossing of the Ailette bodes ill.

On the extremities of the battle line the Allies are moving ahead slowly against desperate German resistance. North of the Scarpe the British have retaken Greenland Hill and maintain their other positions east of the Hindenburg line against counter-attacks. The Germans here evidently hope to prevent the British from over-running the Queant-Drocourt line as they have the one to the west. South of the Scarpe heavy fighting is in progress in the region of Bullecourt.

North of Soissons the Germans have thrown in fresh troops to stop the advance of the French and Americans toward the heights dominating the Chemin des Dames, allied possession of which would compel the enemy to withdraw from the Vesle. The Allies have the more favorable positions and have but one more plateau to overcome to reach their objective.

As the fall of Roye compelled the Germans to retire to the line of the Somme, south of Peronne, the capture of Bapaume by the British made it necessary for the enemy to retreat north of the Somme. Whether the enemy will attempt to make a stand here is problematical, but his best line would seem to be that of the Canal De Nord, which runs north-east from Peronne. The canal crosses east five miles east of Bapaume and crosses the old Hindenburg line near Harrincourt, 7 miles east of Hepsuame.

May Stand At Canal. The Canal De Nord extends across the Hearty Battlefield in a general north and south direction and the fact that the Germans are offering stout resistance to the French south of Peronne, where the canal parallels the Somme, would indicate the probability that they may attempt to stand on the line of the canal. Noyon, the southern outlet of the canal was carried after heavy fighting and the Germans are contesting bitterly the possession of the heights north and east of Noyon. The French are on the southern slopes of Mount St. Simon, an important height east of Noyon.

Coles "Hard-Knock" shoes for the boys and girls at school—get them now at 123 Colborne street.

SEMENOFF CONTINUES HIS ADVANCE ON CHITA

By Courier Leased Wire. Harbin, via Peking, Aug. 27.—(By The Associated Press).—General Semenov, the anti-Bolshevik leader, continues his advance toward Chita and has captured Dawus station and Karanor siding. The Bolsheviki have retired to Sekatui siding.

General Semenov's cavalry is engaged with the Bolsheviki rearguard five versts west of Karanor. The enemy main force is concentrating at Borsa station.

ANOTHER REVOLUTION. Amsterdam, Aug. 30.—Nizhni-Nov-

gored has been chosen as a temporary headquarters by the military revolutionary committee, the town being cleared of counter-revolutionary elements, according to a Moscow telegram to The North German Gazette. Eleven of the counter-revolutionaries have been executed.

LEAVE MOSCOW. Amsterdam, Aug. 30.—The Japanese consul-general and the embassy staff the last Entente representatives at Moscow, have left for home under a special safe conduct provided by the Bolsheviki Government, according to a Moscow dispatch to The Lokal Anzeiger of Berlin.

GOMPERS AND PARTY WELCOME IN ENGLAND

Declaration of American Labor Leader in Favor of War to Finish Without Compromise Received With Marked Approval

By Courier Leased Wire. London, England, Aug. 30.—The newspapers all print editorials welcoming Samuel Gompers and his party, and give marked prominence to the declaration of Mr. Gompers that the labor men of the United States are in favor of a war to a finish without compromise, and will have no part in unofficial negotiations with Socialists of enemy countries.

The Gompers party confronts a situation in the British labor world which on its face appears to be a delicate one. Spokesmen for British workmen are sharply divided on the question of peace terms, and particularly on the question which has arisen several times in the past year as to whether British labor representatives should meet representatives of the German majority Socialists at some neutral capital to discuss war questions. There is no doubt that a large majority of British workmen are with the Americans on the main issues.

The annual Trades Union Congress which represents a great majority of union men will be held in Derby next week. Mr. Gompers and some of his colleagues are accredited to it as fraternal delegates. Mr. Gompers also will make a speech at the Inter-Allied Labor Conference, which meets in Paris in September. The conference was called by the secretary of the French Labor Confederation to consider international problems, especially war questions.

Another meeting in which the Americans will participate will be the Inter-Allied Labor and Socialist conference to be held in September, principally to consider replies of enemy Socialists to the Allied Socialist war memorandum.

POLICE COURT. In the Police Court this morning May Flaherty on a charge of using insulting language was fined \$1 and costs, amounting to \$3.85. Four foreigners were fined \$2 each for the privilege of riding on the sidewalk and \$2.85 each for not carrying their registration cards with them. A case of bigamy, adjourned twice before, was laid over till tomorrow and the defendant was let out on bail.

HELD CORN ROAST. A very enjoyable time was spent last evening at the home of Mrs. W. R. Patterson, North Park Road, when a number of young friends gathered to bid farewell to Miss Edith MacDonald of Stratford, who

discuss war questions. There is no doubt that a large majority of British workmen are with the Americans on the main issues.

Last Portion of Original Canning Plant at Simcoe Removed

### OTHER SIMCOE NEWS

(From our own Correspondent) Simcoe, Aug. 29.—The last remnant of the original Simcoe canning factory has been hauled down. It was at the south end of the Metcalf St. canning plant, and was objectionable to the fire underwriters. A small portion with a street frontage of only twelve or fourteen feet, it will hardly be missed from the plant.

Beans are wanted, and pears, plums and tomatoes are now in evidence in the process room. Cob corn canning will be under

### COLLEGIATE TO RE-OPEN TUESDAY

Arrangements for Reception of Both New and Old Pupils

The Collegiate Institute re-opens Tuesday, Sept. 3rd. Pupils of the second, third and fourth years of the teachers' and matriculation courses will meet in the assembly hall at 9.30 on Tuesday for the opening exercises and re-organization.

Pupils of the first year in the teachers' and matriculation courses, pupils in all years of the commercial course, and pupils for the 12 day industrial classes, will meet in the assembly hall at 2 o'clock on Tuesday for re-organization.

A meeting of the staff will be held at 9 o'clock.

A day industrial class will be organized in connection with the work of the school. Classes in mechanical, freehand and geometrical drawing, wood work, iron work, and lathe work, elementary electricity and mechanics and the English branches including history, literature, composition, grammar and spelling will be offered for pupils taking this course.

Boys desirous of entering mechanical or industrial vocations should take advantage of this course. The High School Entrance certificate is not a necessary qualification for entering this course, though highly desirable in order to get the most out of the course.

## To The Editor of The Courier

THE CITY MILK PROBLEM  
To the Editor of the Courier:

Sir—Some test of the importance of milk as human food may be gained from the fact that about one-sixth of the total food of the average family is furnished by it and its products. Its solids furnish the necessary ingredients in good proportion of a perfect food. Unless exceptionally high prices are paid for it, milk is fully as economical a source of nutrition as other animal food; it requires no preparation, has no waste, and is more thoroughly digested than most vegetable foods. The great desideratum, therefore, is clean, wholesome milk of standard value in food elements. Better no milk than dangerous milk.

Disease germs may get into milk either directly from a diseased cow, or indirectly from a diseased person, from polluted water, or some other way. Under insanitary conditions in food and stables, cows contract such diseases as tuberculosis, glanders, and diphtheria. The germs of these diseases are inactive at a temperature below 50 degrees. Freezing does not kill them, and even extreme heat (212 degrees F.) does not kill the spores. Eternal vigilance is the only safeguard for conserving public health.

For the citizens to demand "certified milk," such as will come up to the requirements of the Provincial sanitary code, and the municipality must provide sufficient and efficient officials to inspect and control dairy farms, city cow dairies, city milk plants and stores, and the necessary ordinances must be drawn up by the Board of Health to assure the citizens of such a clean wholesome supply of this more necessary food.

Yours respectfully,  
DR. KEANE.

### VOLUNTEERS TAKE NOVOROSSKY

Amsterdam, Aug. 30.—A Russian volunteer army has captured the Black Sea port of Novorossysk, according to a despatch from Kiev.

When the Germans captured Sebastopol, the base of the Russian Black Sea fleet, a part of the Russian fleet escaped to Novorossysk, on the eastern coast of the Black Sea. In May the Germans threatened the port with submarines and airplanes, but it apparently remained under control of the trans-Caucasian Government.

## KING INSPECTED MYSTERY SHIP

"Airplane Carrier" Which Always P EnEMY

With the Grand Fleet (Correspondence of the Press.)—King George "mystery" ship which is the enemy. Reference is made in an official statement that "she is carrier."

This carrier was not recent attack on the Tondern. She reached point off the German coast a number of airplanes with the object of pelting hangers at 700 feet on a farm cart on the early hours and came so low in hangers that at one within 50 feet of the ground.

He found Tondern sleep and flew over unmolested, seeing being on a farm cart on a farm cart.

Observing what he a hanger, Captain Dixon one bomb from a height and received a shock which caused a dump explosion. He immediately made out the Zeppelin sheds and unloaded his remaining bombs which caused a fierce fire.

A heavy barrage was then put up by the enemy but Captain Dixon flew off and reached home after three hours in the air.

The barrage indicated to other attacking planes where to operate and another machine piloted by Captain Smart, who was decorated by the King later attacked and accounted for the second Zeppelin shed.

### PASSING MAN-POWER BILL

By Courier Leased Wire  
Washington, Aug. 30.—That the Man-Power Bill extending age draft limits to include all men between 18 and 45, will be a law before night appeared probable early to-day.

The Senate planned to approve the conference draft of the bill soon after convening at noon and arrangements had been made to have the bill signed immediately by the presiding officers of the two Houses. The bill then was to be transmitted to President Wilson, who, on account of the urgency of the measure, was expected to lose no time in affixing his signature. Approximately 13,000,000 men will be affected by the law.

Plans for final congressional action on the bill yesterday were blocked by adjournment of the Senate at about the same time the House was approving the conference report.

McPhail, D. Adam, J. P. Temple, J. R. Inksater, J. C. McPhail, O. Morris, Dr. Wiley, D. Spence, J. Ogilvie, D. McTavish, D. Husband, D. Thorburn, E. C. Tench, W. H. Biggar, R. E. Haire. Preliminaries and first round will start at 9 a.m. sharp.

MOB SCENES WILL BE ALMOST IMPOSSIBLE IN NEAR FUTURE

Los Angeles, Aug. 29.—Few, if any, motion picture plays containing "mob or crowd" scenes will be produced in Los Angeles studios, according to producers, if a policy recently inaugurated by the police department of Los Angeles is carried out. The police department recently announced its decision that appearing in Roman mobs, modern riots or wheat pit panics was not work essential to the winning of the war and that participation in a sham battle for the films was not fighting in the sense intended by Provost Marshal General Crowder in his "work or fight" order.

Police order was directed at what the profession termed "extras" who were hired by the day, first by one company and then by another to provide atmosphere. Most of the men thus employed were of the age and class included in the police order. When the first warning was not generally observed it was repeated and by way of emphasis about a hundred men waiting for employment at several studios within the city were arrested. Some of these were taken before their draft boards, others allowed to look for more useful employment while a number were held on vagrancy charges.

KORNILOFF STILL LIVING? By Courier Leased Wire. Paris, Aug. 29.—Vladimir Bourzoff, the Russian revolutionist, says he has received advices from Russia that General Korniloff, who often has been reported dead, is living, according to Temps.

TENDERS

Tenders will be received up till 12 o'clock noon on Saturday, Aug. 31, 1918, for installing a new furnace at the City Hall. Furnace to have a 24 inch fire pot. For further particulars apply to W. J. Bragg, Chairman Buildings and Grounds Committee. Tenders to be addressed to W. J. Bragg, in care of the City Clerk. H. F. LEONARD, City Clerk. Brantford, Aug. 28, 1918.

CANADIAN CASUALTIES

By Courier Leased Wire. Ottawa, Aug. 30.—There were 471 casualties in the list issued today, of which 88 were killed in action, 22 died of wounds, eight died, 25 presumed to have died, four wounded and missing, one missing, believed killed, 29 missing, 15 ill, 227 wounded, 51 gassed, two prisoners of war. The list follows: Infantry. Killed in action—66342 W. J. King, Georgetown; 22255 J. M. Blissett, Bridgeport; 407114 H. S. Fen-ton, Port McNicoll; 651946 H. S. Hickland, Carlsruhe; 928082 H. Wallond, Guelph; 739120 A. Ingalls, Bridgeburg; 727568 J. S. Danbrook, Atwood. Deceased—472893 C. Hummel, Chesterville; 651484 J. W. Shields, Chippewa Hill; 3317663 D. MacKenzie, Uperivoie. Presumed to have died—772029 W. R. Mitchell, Windsor. Missing—690207 R. R. Bremner, Hamilton; 757624 B. Rolfe, Hamilton; 225373 A. D. Foster, Jordan; 794215 H. C. Peterson, not stated. Gassed—802198 G. E. E. London; 61755 D. A. Cole, Chesley; 189887 L. G. Brown, Thamesville; 675524 J. W. Holmes, Ingersoll; 663287 A. Watson, Acton; 158511 A. C. Gander, St. Catharines; 844355 E. S. Elliott, Thedford; 663078 E. G. Bailey, Milton; 754191 G. B. Cockburn, Hamilton; 928609 W. Healy, Elora; 727682 M. E. Hamilton, Listowel; 727271 G. N. Parkinson, London; 1093041 G. H. Pollard, Frankford. Prisoner in Germany—Lieut. G. M. Shaw, Hamilton. Mounted Rifles. Killed in action—R. White, Embro. Presumed to have died—338606 G. Webber, Durham. Machine Guns. Ill—3110188 J. L. Wood, Freeman.

LENNOX ELECTS M.P.P. BY ACCLAMATION

Liberals Decide Not to Oppose the Conservative Nominee, R. A. Fowler Napanee, Aug. 29.—Mr. Reginald A. Fowler, the Conservative candidate for the riding of Lennox, was today elected by acclamation to fill the place made vacant by the death of T. G. Carscallen. The reformers, after some talk of contesting the seat, decided to carry out the agreement made between the Premier and Mr. Brownlee, that no contests in bye-elections should take place during the war, and accordingly did not put a candidate in the field. Mr. R. A. Fowler, the newly elected candidate, is a farmer, residing on Amherst Island on a farm purchased by his father about 75 years ago and upon which Mr. Fowler was born and has resided all his life. He is a man of high social and intellectual attainments, and will be a credit to his native county in the Legislative Assembly, having the full confidence and respect of the whole community. Mr. Fowler after his election thanked the electors for the honor of making him the first farmer M.P.P. to be elected by acclamation in Lennox, which has been noted for political strife ever since Confederation. It spoke well for the loyalty of the people to so bury their differences in this crisis of the world's history.

LETTER CARRIERS LIKELY TO AGREE

Expected That the Government's Decision Will Prove Satisfactory. By Courier Leased Wire. Ottawa, Ont., Aug. 29.—It is confidently expected here that the Letter Carriers will at their convention in Hamilton next week accept as satisfactory the decision of the government respecting increased compensation. A bonus of \$100 per year was granted and paid in 1917 and \$250 more granted from April 1, 1918, or an increase of \$350 per year and a half ago. The view in government circles is that this increase will be recognized by the public as generously meeting the postal employees needs by reason of increased cost of living. The fact that the civil service commission is conducting an extensive inquiry with a view to re-organizing and re-adjusting rates for all the outside civil service and that their recommendations will be presented to parliament at the next session strengthens the expectation here that the relief granted will be regarded as being at least temporarily satisfactory.

Coles Shoe Co. have a special line of school footwear for real active boys and girls. Mothers, bring the children, if not, send them—they'll receive the utmost satisfaction either way at 122 Colborne street.

FRIDAY, AUG. 30, 1918

THE SITUATION
It's just one good thing after another these days. Following close on the fall of Bapaume and the evacuation of Peronne by the enemy comes the word over The Courier's leased wire this morning, that the British have taken Comblès, the main point of defense in the Bapaume-Peronne-Comblès line.

Word from Russia is to the effect that General Semenov, the anti-Bolshevik leader, has made further progress in his advance on Chita. The last of the allied diplomatic representatives have left Moscow, where the iron hand of the Hun appears to hold supreme sway.

LIFE SAVING IN THE WAR
The opinion has often been heard in connection with the present war that, with the greatly improved death-dealing instruments, the wastage of human life would be on so large a scale, in comparison with other big struggles, as to lead to an exhaustion of man power, and yet, after four years, the belligerent hosts are still mighty forces.

NOTES AND COMMENTS
British newspapers are commencing to admit that there are dark days ahead for the Fatherland. Dark won't describe matters pretty soon. The only adequate term will be a deep abyssmal black.

TORPEDOES PERISHABLE
An Irish Port, Aug. 30.—It requires frequent over-hauling by highly skilled mechanics and a plant especially equipped for the work to maintain torpedoes in a state of efficiency to insure effectiveness.

COMPERS IN THE OLD LAND
By common consent, Samuel Gompers is the grand old man of labor. President of the American Federation, he has been a tower of strength to the Washington Administration in the prosecution of the war, and his recent arrival in Great Britain is also regarded by the authorities there with very great favor.

COLES SHOE CO.
Coles Shoe Co. have a special line of school footwear for real active boys and girls. Mothers, bring the children, if not, send them—they'll receive the utmost satisfaction either way at 122 Colborne street.

Soon after his arrival across the herring pond, Mr. Ben Tillett, Labor M.P., took occasion to address him a letter of welcome, in which he stated that 98 per cent. of organized labor in Great Britain is absolutely anti-German and loyal to the great cause in hand.

A very small but malignantly active number, mostly of the middle class, parasitic type of political and social adventurers are engaged in what he stigmatizes as this "most sinister and treacherous work." They were contemptible enough not to admit themselves pro-German but did their work under the cloak of pacifism.

British relations with the German industrial organizations at the present time, Mr. Tillett declares, are so estranged, that nothing much could be expected from the clapping and make-believe efforts of an international conference.

On all hands, Mr. Gompers has been made most heartily welcome, and there can be no doubt that his visit will result in much of a beneficial and permanent nature.

German newspapers are commencing to admit that there are dark days ahead for the Fatherland. Dark won't describe matters pretty soon. The only adequate term will be a deep abyssmal black.

Philadelphia Public Ledger: "We must be patient with Russia. This does not mean that we must be patient with men who misled Russia. The paucity of news, its prejudiced coloring, the wide differences of race and mental methods, have prevented us from judging prematurely the good faith and honest purpose of men whom the turbid side of the revolution has from time to time thrown upon the surface.

Lack of facilities and men who understood torpedoes, brought by officers of the American Destroyer Base a rather perplexing problem some months ago, but it has been successfully met, and work is now progressing on a scale that rivals a torpedo station in the United States.

Mrs. Mary Elmer of Zion City, who has been visiting at the home of Mrs. B. T. Leggett during the past two weeks left to-day on a trip to Walkerton.

HORTICULTURAL SOCIETY'S SHOW
Annual Exhibit of Flowers, Fruits and Vegetables Held at Paris

THE PRIZE WINNERS

(From our own Correspondent)
Paris, Aug. 30.—The annual flower fruit and vegetable show, under the auspices of the Paris Horticultural Society, was held in the auditorium of the Y. M. C. A. yesterday afternoon and evening.

Apples—Mrs. R. Kempthorne, Mrs. A. Deans, Mrs. W. T. Thompson, W. N. Bell.
Raspberries—Mrs. W. Wowart, Miss E. Kay, Mrs. A. Deans, Mrs. R. Kempthorne, Mrs. W. Richardson, Mrs. W. T. Thompson, A. G. H. McCormick.

Class D—Vegetables
Beans (wax)—Mrs. W. W. Patterson, Mrs. Robson, Miss L. Howie.
Beans—Mrs. G. M. Clark, Mrs. W. Patterson, A. W. Cox, Mrs. W. W. Patterson, Gooseberry Jelly (special)—Miss L. Howie.

Class E—Canned Fruit and Vegetables
Pears—Miss Ahrens, Mrs. W. Howard, Mrs. A. W. Cox.
Peaches—Mrs. W. Howard, Samuel Foulds, Mrs. W. Howard, Mrs. R. Kempthorne, Samuel Foulds, Raspberries—Mrs. W. Wowart, Miss E. Kay, Mrs. A. Deans, Mrs. R. Kempthorne, Mrs. W. Richardson, Mrs. W. T. Thompson, A. G. H. McCormick.

Class F—Vegetables
Beans (wax)—Mrs. W. W. Patterson, Mrs. Robson, Miss L. Howie.
Beans—Mrs. G. M. Clark, Mrs. W. Patterson, A. W. Cox, Mrs. W. W. Patterson, Gooseberry Jelly (special)—Miss L. Howie.

Class G—Vegetables
Beans (wax)—Mrs. W. W. Patterson, Mrs. Robson, Miss L. Howie.
Beans—Mrs. G. M. Clark, Mrs. W. Patterson, A. W. Cox, Mrs. W. W. Patterson, Gooseberry Jelly (special)—Miss L. Howie.

Apparagus—Mrs. W. W. Patterson, Mrs. Robson, Miss L. Howie.
Beans (wax)—Mrs. W. W. Patterson, Mrs. Robson, Miss L. Howie.
Beans—Mrs. G. M. Clark, Mrs. W. Patterson, A. W. Cox, Mrs. W. W. Patterson, Gooseberry Jelly (special)—Miss L. Howie.

Class H—Vegetables
Beans (wax)—Mrs. W. W. Patterson, Mrs. Robson, Miss L. Howie.
Beans—Mrs. G. M. Clark, Mrs. W. Patterson, A. W. Cox, Mrs. W. W. Patterson, Gooseberry Jelly (special)—Miss L. Howie.

Class I—Vegetables
Beans (wax)—Mrs. W. W. Patterson, Mrs. Robson, Miss L. Howie.
Beans—Mrs. G. M. Clark, Mrs. W. Patterson, A. W. Cox, Mrs. W. W. Patterson, Gooseberry Jelly (special)—Miss L. Howie.

Class J—Vegetables
Beans (wax)—Mrs. W. W. Patterson, Mrs. Robson, Miss L. Howie.
Beans—Mrs. G. M. Clark, Mrs. W. Patterson, A. W. Cox, Mrs. W. W. Patterson, Gooseberry Jelly (special)—Miss L. Howie.

Class K—Vegetables
Beans (wax)—Mrs. W. W. Patterson, Mrs. Robson, Miss L. Howie.
Beans—Mrs. G. M. Clark, Mrs. W. Patterson, A. W. Cox, Mrs. W. W. Patterson, Gooseberry Jelly (special)—Miss L. Howie.

Class L—Vegetables
Beans (wax)—Mrs. W. W. Patterson, Mrs. Robson, Miss L. Howie.
Beans—Mrs. G. M. Clark, Mrs. W. Patterson, A. W. Cox, Mrs. W. W. Patterson, Gooseberry Jelly (special)—Miss L. Howie.

Class M—Vegetables
Beans (wax)—Mrs. W. W. Patterson, Mrs. Robson, Miss L. Howie.
Beans—Mrs. G. M. Clark, Mrs. W. Patterson, A. W. Cox, Mrs. W. W. Patterson, Gooseberry Jelly (special)—Miss L. Howie.

Class N—Vegetables
Beans (wax)—Mrs. W. W. Patterson, Mrs. Robson, Miss L. Howie.
Beans—Mrs. G. M. Clark, Mrs. W. Patterson, A. W. Cox, Mrs. W. W. Patterson, Gooseberry Jelly (special)—Miss L. Howie.

Class O—Vegetables
Beans (wax)—Mrs. W. W. Patterson, Mrs. Robson, Miss L. Howie.
Beans—Mrs. G. M. Clark, Mrs. W. Patterson, A. W. Cox, Mrs. W. W. Patterson, Gooseberry Jelly (special)—Miss L. Howie.

THE WIFE
BY JANE PHELPS, AUTHOR OF "MARGARET GARRETT'S HUSBAND," AND OTHER NOTABLE STORIES.

MRS. CLAYBORNE SENDS FOR RUTH.
CHAPTER XII.
Brian really tried harder than usual to increase his clientele, and so his income. But a young lawyer without broad acquaintance or influence never has an easy time.

"Yes, dear! and that's all one poor devil deserves."
"Brian," she returned to the subject, "you know how interested in decorating I was, rather you do not know much about it. I read and studied for years. It was a perfect delight for me to work out new designs, new schemes of color. I should think it would be the same with you—only that it would mean still more, because with you there is added the necessity of making it a success, because it is our living. I am sure it would mean a great deal in the end."

Ruth answered her aunt's letters faithfully, and wrote brightly. Her pride would not allow her to mention the careful way in which she had to live, so that Mrs. Clayborne only imagined how things were going because of what Ruth omitted to say. Now she failed to mention Rachael's coming to her, or any of the little plans she had made before her wedding. And never had she asked her aunt to visit her. When she thought of the elegant Mrs. Clayborne in her little flat, she flushed with shame—not because of the flat, but it would be such a proof of Brian's incompetency. It was so exactly as her aunt had pictured it would be.

WE INVITE YOU TO COME AND VISIT OUR NEW STORE AT 44 Market Street. NATIONAL PROHIBITION.
By Courier Leased Wire.
Washington, Aug. 30.—With its amendment providing for national prohibition beginning July 1, 1919, and continuing during the period of the war and during demobilization, the emergency agricultural appropriation bill was taken up by the Senate to-day with prospects of a final vote before adjournment. The bill with his prohibition "rider" then will go to the House, where it is believed, favorable action on the "bone dry" provision is assured.
AUSTRALIANS GAINING.
By Courier Leased Wire.
London, Aug. 30.—Australian troops are now about two miles from the outskirts of Peronne, the Australian representative at the British front reports. The Australians captured Feuillères, Henbecourt, Elencourt, Ashevillers, Barleux and Bellay yesterday. In the present drive they have recovered 125 square miles of territory and nearly forty villages most of which are in ruins.

DISCUSS EDUCATION.  
By Courier Leased Wire.  
Quebec, Aug. 29.—A meeting of the Federal Council of Trades and Labor yesterday a lengthy discussion arose out of a motion introduced in favor of compulsory and free education. The speakers were many and all approved of the idea, but some doubts were expressed at the danger of the control that would exist over such a method. All the delegates said compulsory and gratuitous education would be a great boon, but they wanted to beyond the immediate surveillance of the clergy.

# "New Fall Merchandise Arriving Daily" Ogilvie, Lochead & Co "New Fall Merchandise Arriving Daily" Saturday--Economy Day

Final Clearance of All Summer Goods and Advance Offering of New Fall Merchandise---A Real Money Saving Opportunity!

## NEW FALL SUITS!

Offering unusually attractive values for the early buyer. Imagine a good wool suit for \$25.00. It does not seem possible at this time, and they are lovely, well tailored Suits in the smartest of the new Fall Styles. All sizes for Misses and Women. Other Suits ranging from

**\$35 to \$45**

BUY YOUR  
**New Fall Coat Now**  
**\$16.75 - \$65**

and save the price of a new blouse or skirt

Our Big Winter Coat Offerings mean savings of at least \$5.00 to \$10.00. All authorities agree that coats will rise much higher in price with the next few weeks. The coats are of fine quality velour plush and also tweeds. Some lined throughout. Others partly lined. All made in the season's smartest models. There's a full range of sizes.

It is needless to say a word about present conditions. They are too well known to need repetition, except that we might say that they are not improving, but gradually getting worse. Prices are higher than even expected. Our advice to you is to buy Fall Merchandise now, whether at reduced prices, or not, because there will be no lower priced clothing.

## Fall Dress Goods

**KITH AND KIN HELD OUTING**

Terrace Hill Kith and Kin held a most enjoyable picnic to Burlington on the 28th. The picnic was held at the hotel and was very successful. Many good things were enjoyed. The afternoon was spent in bathing and

sports, supper being served at 6 o'clock. The prize list follows:—  
Boys under 5 years: 1st, J. Thompson, 2nd, D. Earthy.  
Boys under 10: 1st, W. Thompson, 2nd, W. Bershwick.  
Boys under 12 years: 1st, Jack Botchell, 2nd, L. Dunsdon.  
Girls under 5 years, 1st, I. Murrell, 2nd, K. Brock.  
Girls under 10 years: 1st, Nadine Gregg, 2nd, Rosie Cleaves.

Girls under 12 years: 1st, Lois Brock, 2nd, Annie Kotehell.  
Ladies' race; 1st, Mrs. Burswick, 2nd, Mrs. Earthy.  
At the close of the programme the President, Mrs. Earthy passed round a party which was much enjoyed.  
Little change is reported to-day in the condition of Mr. George Rodlake who is seriously ill. He will undergo Get children's school footwear at Cotes Shoe Co., 122 Colborne street, another operation shortly.

**PERSONAL**

Mrs. E. H. Welch, of 188 Marlboro street, left yesterday afternoon for her home in Sarnia, having been called there by the serious illness of her father, Mr. Elder, Collector of Customs at that port.  
R. Nimmo, J.P., of Toronto, Deputy Supreme Chief Ranger of the Independent Order of Foresters, is staying at the New American Hotel for a few days and will be pleased to meet with any Companion or brother.  
Miss Edith MacDonald of Stratford who has been visiting her aunt, Mrs. W. E. Patterson, North Park Road, has returned home.

**SEVERE FIGHTING**  
By Courier Leased Wire  
Tokyo, Monday Aug. 30.—There has been severe fighting between entente allied forces and Bolshevik Red Guards on the Ussuri River front along the Manchurian border. The Japanese casualties in the last few days numbered 170, including 48 gers.

**CLUB CAMPING**  
The "Big 16" boys' club of Wesley Sunday school are camping at Tutela Heights. The location is an ideal one for the purpose.

**SOME PARADE**  
Director Mosley reports that he has received fifty-three entries of floats and decorated rigs for to take part in the Labor Day parade.

**BOWLING.**  
The Pastimes and the Heathers played their final game on Heathers greens last night. There were seven rinks. Score, Pastimes 137, Heathers 116.

**QUIET WEEK.**  
The motor ambulance has had a very quiet week during the past seven days. There have been only two trips made by it during that period.

**WORK ROUND MEMORIAL.**  
The work on the roads around the Bell Memorial will be completed, it is expected by the middle of next week. The men are now laying the last curbs and all that remains is the cleaning up of the grounds.

**ENGLISH MAIL.**  
A small English mail was received yesterday by the post-office. The fact that it was so small is significant that it was probably held back from some former lot.

**FALSE ALARM.**  
Many a passer-by jumped a foot in the air and ran to cover as he passed the store of Mr. Fred Gott this morning. But there was really no need to be alarmed, as the supposed gatling gun was nothing but the motorcycle that Taylor is to ride here on Saturday and Labor Day. The machine is so powerful that when it was started the vibrations shattered a glass that was some distance away.

**KITH AND KIN.**  
The regular meeting of the North Ward Kith and Kin was held at the home of Mrs. Underwood on Thursday evening, the president in the chair. The time was spent in knitting and sewing for the Red Cross. It was also decided to hold a talent tea in October. The meeting closed by singing "God Save Our Splendid Men," followed by the Kith and Kin prayer.

**REGISTER WITHIN TEN DAYS.**  
An order-in-council, dated July 27, 1918, changes, under the Military Service Act, the status of men not having been ordinarily resident in Canada and who returned to Canada to reside. Formerly these men automatically fell into class two, but by this order-in-council they are to register within ten days after their return to Canada and if coming within the provisions of any class affected by the proclamation then they come under that proclamation.

When a car is approaching you need both hands to steer your car. You can't do it if you have to use one hand to shade your eyes. To protect your eyes and avoid accidents, wear our individually made auto glasses.

**JARVIS OPTICAL CO., Ltd.**  
CONSULTING OPTOMETRISTS  
Eye Examined Glasses Fitted  
128 Colborne Street  
Phone 1293 for appointments

**GOLF NOTES**  
To-morrow afternoon the qualifying round for the Watrous cup will be played on the golf links. On Monday afternoon a general sweep stake match will be played.

**ON HOLIDAYS**  
Chief Oscar, of the East End fire department, is on his holidays at present. Fireman Dan O'Hanley, also of the East End fire department, returned from his holidays yesterday.

**FIREMAN SICK**  
Fireman Reg. Calbeck of the Central fire department, is away from the fire hall on account of illness. He is suffering from quinsy, and is in a very critical condition, and has had to have his throat lanced.

**LOCAL CASUALTIES.**  
Gunner R. G. Tucker, of 23 Port street, is reported wounded in the official casualty list this morning. B. Hammond, of Simcoe, a member of the C.M.R., has died of wounds.

**ATTENDED MEETING.**  
"Bob" Mitchell, Fred Gott and E. T. McCubbin have returned from Toronto, where they attended a meeting of the bicycle dealers of Ontario.

**WORKING ON TRACK.**  
City Overseer Fred Unger has three teams and two graders busy to-day on the track at the Agricultural Park preparing it in saucer shape for the motorcycle races to-morrow.

**DEBRIS CLEARED.**  
All the debris in the Waddell Preserving Co.'s plant that was caused by the fire on the night of August 17th, has been removed and work on the repairing will be commenced immediately.

**REPAIRING STREETS.**  
The outfit of the Bitulthic Pavement Co. is in town to-day repairing holes in their pavement laid here some time ago to fulfill their agreement to keep them in repair. They expect to be here until Monday, when all the work will be completed.

**TOURIST SUMMONED.**  
Mr. R. Greenwood of Toronto has received a summons from the Brantford police for not turning a corner in this city according to the traffic rules. He was touring Western Ontario and while passing through the city was spotted by Special Constable Hays.

**SITTING ACCOMMODATION.**  
The bleachers at the Agricultural Park along the race track for the accommodation of those who are unable to stand up on Labor Day, six hundred chairs have been engaged for additional seating room and it is probable that there will be reservations made.

**WAGON BREAKS DOWN.**  
A heavy wagon loaded with sand broke down on Darling street, opposite the Y.M.C.A., this morning at about nine o'clock. The wagon had a big load of sand on and there was a pile left in the road. A weak spoke is thought to be responsible for the accident.

**LONDON W.O.R. HERE.**  
With Finlayson of Hamilton on third and Thomas of Cincinnati in the box, the local semi-pros will try conclusions with the W.O.R. team from London again to-night, and will endeavor to wipe out the defeat administered them by the military nine on the occasion of their last meeting.

**Sporting Comment**

**Collapse Due.**  
War or no war, professional baseball was due for an early collapse unless reorganized and new principles put to the fore. Even if there had been no European war, professional baseball could not have survived many years without going to pieces of its own weakness. Commercialism typified by the growth of the dollar sign, was supporting the sporting foundations so that there would have been some of them left in another year or two at most.

The war began to affect the pastime beneficially last year, and would have produced a big improvement in it this season if the club owners had not been too blind to see beyond the walls of their own parks. The sport prospered rather too much in a financial sense for its own good, and a bunch of adversity was needed to bring it back to a sounder sporting basis by bringing the promoters to their senses and teaching them the proper perspective.

**Some Magnates Must Go.**  
Out of what survives the war, or out of its wreckage it is possible to build a new structure that will be better than the old one if it is erected wisely. It may not be possible for some of the men now identified with baseball's promotion to build that way, but it is to be hoped that enough good sportsmen will be found in the game or will come into it to insure placing the sporting side of baseball ahead of the commercial.

One of the principal things to be guarded against is the retention of a sport so highly specialized that it requires a small army of players to perform successfully. Only a dozen years ago 15 or 16 men were sufficient to win a world's championship, if properly handled. Back of that, "in the days of real sport," 11 or 12 players were thought to be enough. But back there the performers were better all round players than now.

Pitchers were not taught to believe they could not learn to bat, but were expected to take their turns every time and drive in runs if any were in sight. Left-handed batsmen were not made to understand they couldn't touch southpaw pitching with a broom. Right-handed batsmen were not encouraged to turn around and hit the other way against northpaw hurling.

The introduction of managerial strategy has been largely responsible for the increased number of specialists and the decreasing quantity of real ball players.

One of the first rules that ought to be changed is the one permitting the removal of a player from a game without cause.

**Nine Men Should Make Team.**  
Baseball is supposed to be played by nine men on a side, not by 19 or 25, as was possible in the days of frontier strategy. The ending rule he always wants to know which is the best team of nine men, and the promoters should come as near to determining that as possible.

Of course more than nine men are recruited by a team twice every day, and sometimes twice per day, because there are no pitchers like Redbourne or Ruelo in these days, and they chattered their careers by pitching too often. But it is not good to permit carrying a long string of pitchers or a lot of excess bases on the bench to make up for the shortcomings of regular performers.

If a player has a weakness he should be made to correct it or his team should suffer for that weakness instead of being permitted to carry some one to throw into a game in an emergency to offset that weakness.

Probably no rule can be framed that the managers and players will not find a way to beat, but perhaps after the war the standard of sportsmanship will be high enough so that the public will frown on attempts to beat the rules, even by the home team. That will be close to the millennium, but you never can tell what this war will produce.

Only enough players to avoid working a pitcher over, than every third day and to provide sufficient substitutes for ordinary accidents should be allowed each manager. And the number of substitutes permitted in a game should be restricted so low that he would not make changes unless necessary. In that way a premium would be placed on all-around ability and the specialists would have to develop themselves or find other means of livelihood.

There will be a lot of all-around players when the war is over, for it is developing them every day in the army camps and even right up to the trenches. And the ball player who wears a service stripe on his regiment will be a lot bigger hero to baseball fans than the diamond idols of this decade have been.

MENNONITES BUY LAND.			
By Courier Leased Wire			
Lethbridge, Alta., Aug. 29.—The Mennonite colony, which has invaded Southern Alberta, has just purchased, among other holdings, one-fourth of the famous McIntyre ranch, south of the city, a block comprising more than 17,000 acres, for \$68,000.			

**LEAFS KEEP PAGE BY WINNING TWO**

**Skeeters Were Blanked in Both Ends of Double Bill**

Toronto, Aug. 30.—By unearthing a game that had not been played in another series and by winning apparently two well-contested games the Binges retained their margin of a double header and thus kept pace with the leaders. The Howleyites corralled the first game by the tune of 8 to 0, and won the second by the score of 1 to 0. A fairly good crowd saw both games, and the dyed-in-the-wool fans were delighted with the double victory of the local clan, although they were rather disappointed that Arthur Irwin and his Colts did not stop the Binges in one of the tussles, but have hopes for better luck to-day.

Herbie and Bader were the winning pitchers, and there was very little difference in the hitting in either fixture. In the first game the Leafs got two more bingles than the Skeeters, and in the second one. However, the local pitchers had sufficient margin on their opponents to win, and when it came to scoring runs the Leafs proved the best, as the score show. From a spectator's point of view there was nothing of very much interest in either struggle with the possible exception of a batting bee in the eighth inning of the first game, some sensational plays and Bader's strike-out achievement.

**MALLEABLES ARE AGAIN IN LEAD**

**Have Half Game Margin as Result of Victory Over Motor Trucks**

Pratt and Letchworth's forged half a game into the lead in the city league by defeating the Motor Trucks 12-8 last night, and the see-saw struggle is no nearer an end than before. While their defeat last night puts them out of the running for the championship, the Motor Trucks are the team which will decide the contest, for by beating Verity's next week they will give the Malleables the pennant, while if the Howlers win out, the gonfalon is theirs. The Malleables have no further say in the outcome, but must remain passive spectators.

The hopes of the Motor Truck supporters were dashed before last night's game, for by taking it and also winning next week, the munitio men would have tied up with Verity's. But such an order of things was nipped as the first couple of innings showed. Pratt and Letchworth were out in full strength and piled up an early lead. They scored in every inning, sometimes one run but more often two or three in the fourth frame, when the Motor Trucks donned their full batting regalia, and hammered Cooper's from the box, netting a first of five runs. They added two more of Symons in the fifth, and one in the sixth, but the Malleables just kept kidding 'em along, so to speak, and finished with a comfortable four run margin. At that, the game was well balanced and closely fought throughout. Cancellia and Bob Lyle, who umpired, gave better satisfaction than usual. The scores:

A Continent Totters and Still Nobody Bothers

Guatemala Destroyed by Earthquake, and Rehabilitated Through Agency of American Red Cross, But Because There is a World War on Nobody Seems to Know Anything About it

(By John Ritchie, Jr.) One of the most interesting of American achievements and one whose details remain hidden in official records, is the rescue of the earthquake levelled city of Guatemala from the famine and pestilence which would a short half-century ago have followed infallibly in the wake of the disaster. The splendid results redound to the credit of the Red Cross which was instantly active, but four Americans in its service, gathered at the spot as soon as it was humanly possible, were the mainstay that set in motion the local forces that have saved the stricken city from impending doom. Stuart of Boston, O'Connor of Chicago, Struse of New York and Tolman of West Virginia, are names that Guatemala has inscribed on its roll of highest honor.

Picture to yourself a country where the ground rose and fell like a great wave of the sea, with a crest a foot high and was width of those city blocks. As this ran across the city observers saw the houses in rows tumbling down, one after another, like the child's blocks, "dobbies" substantial brick structures, stone schools, churches, aid hospitals and public edifices. There were smaller shocks that completed the ruin, with little tremblings running through the intervening months, and this is an important city. Everything in the way of public works was ruined, water mains were broken, and sewers disarranged. Then not least in the problem, there was lack of leadership in co-ordinated effort at relief.

The loss of life was not great, a couple of hundred in all, but the people of the city were rendered homeless and were driven away from those places that were familiar to them. They huddled hastily in spots outside the city where there was room and waited for whatever help might be sent their way. Guatemala had had no real census and vital statistics are an unknown quantity. The population of the state is approximately five millions and in the city there are about one hundred and twenty thousand with three-fifths of them Indians. The population is composite: Indians, natives who are a mixture of Spanish, Indian and negro; the upper classes, who are generally Spanish, and there are several thousand Germans. It is interesting in the light of the commercial ubiquity of this people to know that the electric and telephone systems are German-owned.

The big shock that levelled the city of Guatemala came on Christmas, there was a second one of importance on Jan. 3 and a third eleven days later. The party from the United States was assembled, collected its material and landed in Guatemala on Jan. 23, which was quick work that took every advantage of existing circumstances. Meanwhile the United States Government had sent to the scene a fast naval vessel carrying 400 tents, while the Red Cross ordered in Panama a beautiful supply of provisions, more if proved that were really needed, but it was an error on the safe side, and readily to be converted into cash for the construction of some new hospitals. There was also on the spot a committee of citizens, with an extraordinary long list of honorary officials, committee heads and sub-committee men, but till the arrival of the Americans it was in doubt as to the precise direction in which to bend its efforts.

The conditions that Stuart describes make it a marvel that there were not serious outbreaks of disease. The houses were destroyed and the people were living in camps hastily constructed out of whatever of the debris could be put to this use. Shacks were set up in whatever spaces seemed to be safe from further disturbances, and here the modern corrugated iron and the gutters ran a close race for temporary roof covering. The houses were all one, whether of the adobe type or the imposing structures of masonry. Even churches and public buildings were utterly destroyed, a few of the ruins being brought down by the remains of the Church of St. Sebastian and the new Normal Art School. Here it is interesting to note that wood and reinforced concrete stand the strain of the earthquake, facts of value to those building districts subject to earthquake shocks.

At its best the old water supply of Guatemala City was far calculated to awaken the enthusiasm of the sanitary engineer. There were picturesque features in the great arched canals extending across the country, built after the Roman models by the old Spaniards and replaced by the musical appellations Pinote and Misco. Great sections of the masonry of the arches were thrown to the ground and the supplies in consequence no longer flowed to the city. Another spring, the Acatan, which collected the waters of half a dozen small streams, led across a deep valley, where it was broken, while the fourth, the Misca, although diked into the city, was much disturbed by the quake.

It was therefore a city of one hundred thousand practically without water. When the relief party arrived there was no opportunity for the people to bathe, or to wash clothes, and domestic water was scarce. Mr. Stuart tells of seeing an old woman fill the cover of a power as it ran along the street and dip the water from it for a drink. Naturally this was one of the first

duties of the new-comers, to attend to the water supply. Wooden flumes were constructed to repair the aqueduct and the reversed siphon in the Acatan supply was mended. Meanwhile Stuart recommended the President Manuel Estrada Cabrera, that pipe be ordered from New York, and on the next steamer there came five miles of spiral steel water pipe, the joints which can be quickly bolted together. This was laid on the ground through the streets and furnished at frequent intervals with outlets for the public supply.

The Reservoirs a swimming Tank. But there remained one other drawback to the supply of domestic water the difficulty in preventing pollution. The aqueduct forming an open ditch being place for the natives, and on any evening they could be found refreshing themselves in its cooling flow, while about the Acatan reservoir there were favorite laundry spots, and it was impossible in the time to undertake to re-educate the people. The Red Cross therefore furnished two chlorination plants, and the sterilizing material now on hand will serve to keep these waters free of pathogenic bacteria for a full year to come.

One of the important things was the establishment of camps with the tents that were sent by the United States Government. The erection of such a camp, with the work laid out that it is within the capabilities of the laborer to be secured in Guatemala, was indeed quite a trick. It is thus described by Mr. Stuart in one of his letters before returning: "This morning I undertook a humongous job—the erection of four hundred tents on the Campo del Marte for the Guatemalan Government. It is no little task to erect even one, and I have to lay out the whole camp with the transit and latrines and police tents, and then trench the whole thing. I hope to set it done in two weeks, as I have the gangs pretty well organized. First I go ahead with the transit and gang and set the corner stakes for every tent; then a second gang comes along with a long rope in which I have tied properly spaced small holes, four inches deep and five in diameter for the centre pole. Following are the men to open and set the tents." In this same order of simplicity was arranged the trenching of the latrines to avoid surface flow into them in case of storms, the building of the latrines, bath-houses and washhouses and garbage boxes, following which was the installation of the water system for the camp.

At its best the old water supply of Guatemala City was far calculated to awaken the enthusiasm of the sanitary engineer. There were picturesque features in the great arched canals extending across the country, built after the Roman models by the old Spaniards and replaced by the musical appellations Pinote and Misco. Great sections of the masonry of the arches were thrown to the ground and the supplies in consequence no longer flowed to the city. Another spring, the Acatan, which collected the waters of half a dozen small streams, led across a deep valley, where it was broken, while the fourth, the Misca, although diked into the city, was much disturbed by the quake.

It was therefore a city of one hundred thousand practically without water. When the relief party arrived there was no opportunity for the people to bathe, or to wash clothes, and domestic water was scarce. Mr. Stuart tells of seeing an old woman fill the cover of a power as it ran along the street and dip the water from it for a drink. Naturally this was one of the first

SAYS ONTARIO AND QUEBEC ARE LOSING RURAL POPULATION

Drastic Measures Needed, Declares Engineer at Municipal Convention

RAILWAY SITUATION Speaker Suggests That Conference of Cities be Called

(By Courier Leased Wire) Toronto, Aug. 28.—Warning that Ontario and Quebec are losing their rural populations, and some drastic measures must be taken by these provinces, was given this morning by Noulan Cachon, consulting engineer of Ottawa, in an address before the Ontario Municipal convention this morning.

Mr. Cachon said: "Ontario has been losing rural population for years. Quebec has lost a million or so of its population to the English and French who? Because life was apparently more profitable or more attractive elsewhere—yet severe economic loss for Canada.

"We have to compete for people the same as in any other harbor. We must provide attractive alternatives to 'free homes' in the wilderness, if we would not lose much that we might get and wish to retain what we have."

Dealing with the radical railway situation in the city of Hamilton, Mr. Cachon said: "At the last session of the Dominion Parliament, Senator Lynch-Staunton endeavored on behalf of the city of Hamilton to introduce an amendment to the Railway Act enabling the board to deal equitably with such cases—but it was 'gassed'."

The discussion was not long; can be found fully in Hansard of April 19, full of interest to municipalities. "It is apparently to call a conference of railways with the city to work out a solution, but power will have to be obtained to pick up an infantry officer who is walking into Poperinghe in the city of Hamilton, Mr. Cachon said."

FIRE PREVENTION UNDER DISCUSSION

Fire Chiefs of Dominion are in Conference at Toronto

Toronto, Aug. 29.—Fire prevention and inspection was the subject dealt with this morning by the Dominion fire chiefs in session at the Exhibition grounds. A full attendance was noted and the subject discussed in details from various angles by various members who had prepared papers on the subject after which an open discussion took place.

If a well prepared paper Chief Teneyck of Hamilton dealt with the subject from a general standpoint. Had many suggestions which would, in the opinion reduce the waste. He advocated compulsory inspection of risks by insurance companies before accepting business and that insurance companies pay their agents salaries instead of commissions and that a risk be insured for but two-thirds of its value. He also thought it would be beneficial that all companies carry insurance be obliged to notify insurance companies when their stocks were reduced.

Restrictions regarding smoking around garages legislation regarding the thawing of frozen pipes, electric and steam fitting were other subjects he dealt with.

Chief Smart of Calgary dealt with the subject of prevention from a standpoint of co-operation with the business public summing up in six pertinent suggestions.

REMOVE GERMAN PAINTINGS Associated Press. Honolulu, T. H. Aug. 29.—Large oil painting of Marshall Blicher and Frederick Wilton, 111 of Prussia, presented to King Kamehameha III of Hawaii nearly a century ago by the Pruslar government, have been removed from the wall of the capital building here.

SHOPPING

Afternoon in Town, Behind the Lines

By Capt. Alured F. Ozanne.

The duties of the Mess Secretary of a British unit in France or Flanders may be onerous, but they have their compensations, and among them not the least pleasant is the excuse which they provide for an occasional afternoon off, in order to get into Poperinghe to "get things for the mess." On these occasions the life of the Secretary is really quite worth living.

See him standing under the arch at the entrance to the barn, waiting for the car! All the morning the Huns have been shelling the road between his battery and the village, and now the sixty pounders and the long 6-inch naval guns along that road are busy "getting their own back." Now and again the big 12-inch howitzer, which lives behind the barn, adds its quota to the deafening din.

The car comes along, and the mess butler, formerly head-waiter in one of the chief hotels in Manchester, is seated in front with the driver. "All ready, Sir," says that worthy. Field Cashier first," says the secretary as he steps in, and off they go.

The car negotiates the shell road to the village and comes to the Ypres-Poperinghe road. Soon it is clear of the gun-lines, and passes through the camp areas where once it stops in comparative luxury. Once it stops to pick up an infantry officer who is walking into Poperinghe, and soon it is making its way through the narrow Ypresstraat towards the Grande Place. There it stops to let down the grateful infantry officer, and then it makes for the Proven road.

There are several commissions to be executed in this direction. There is money to be obtained from the Field Cashier, pay for the battery and advances for the officers. This done the Seige Park has to be visited, for here live the Army Service Corps officers who are attached to our battery for Mechanical Transport duties. Last our friend the secretary should feel unduly anxious of their lot, they hasten to inform him that they had a "hell of a time" bringing ammunition into Ypres "the night before last." Two lorries done in and a third one "ditched."

LIVER ILLS

Are Cured by HOOD'S PILLS

Now for Poperinghe! The car runs along the broad Proven road, the roadside covered with little huts called "Villas," although they do not look a bit like villas. It passes Estaminets, which bear the legend "Drink Hujs," where they sell thin Flemish beer "that comes finally to the Rue D'Abbele." Here progress is of necessarily slow, and the car shakes unpleasantly as it crawls at

Economy!

"SALADA" TEA

is not only the most economical on account of its great strength but you have the refreshing and delicious qualities as well.

Ask your Grocer. In Sealed Metal Packets.

WESTERN CROP DAMAGE REPORTS GREATLY MAGNIFIED—WANT 10,000 HARVESTERS AT ONCE.

Reports previously published regarding the damage by frost to the crops in Saskatchewan were unduly pessimistic. Frequent showers and favorable weather have changed the outlook and it is apparent that the great Province of Saskatchewan will have a normal crop. This is evidenced by Western demands for harvest laborers as not less than 10,000 are required immediately for harvesting.

Every young man and those more mature, in every community in Ontario, including our own, should get away and can make this a great opportunity to serve the country in a practical way, and at the same time be of invaluable benefit to himself. It means an interesting, long distance journey at low fares, and a chance to see and study the immense new country served by the Canadian Northern—the People's Road.

Final excursions, by Canadian Northern trains leaving Toronto 10 p.m., August 28th, 30th, September 4th and 11th. Harvesters from outside points to use connecting trains to Toronto.

LENIENTLY DEALT WITH

St. Thomas, Aug. 29.—Bert Nealon was fined \$10 and costs by Magistrate Maxwell this morning on conviction of obstructing a Dominion Policeman in the discharge of his duty. Nealon was warned by his Worship that he was being dealt with very lightly and a further charge of this kind would mean a much heavier sentence. Frank Lorian, another young man, who was in company with Nealon when the offence occurred, is summoned to appear on a similar charge next Tuesday.

FRENCH PROFESSOR AT R.M.C.

Kingston, Aug. 28.—M. C. Baudier, of the staff of the college at Caen, France, has been appointed successor to the late Major J. M. Lanos, as professor of French in the Royal Military College. Prof. Baudier arrived with his family yesterday.

See to the Children's FOOTWEAR

Don't wait until the last bell rings to get the children's school footwear—Bestir yourself now. Stocks are larger and more complete and prices are lower than they will be later on.

Our Hard Knock Shoes for Boys and Girls have established a reputation for themselves and for us, and wise mothers in ever-increasing numbers are coming here for their children's footwear needs.

Again we say—get the youngsters fixed up—DO IT NOW.

PERONICA

Enemy is Striving Men and Victo

London, Aug. 29.—Hunt reports that front from Bapaume Germans have been with great loss and material. Reached the west opposite Brie and taken Ham.

The occupation Bapaume was at night in the enemy's hands. It is in their official states that "the race in front of the Bapaume and Other Place

Field Marshal reported to have Guilleumont and western outskirts. British patrols. Les Breaux and places are all so. Immediately the British have named Beaulencourt (some are moving).

The British the high ground court and have Transloy. In the Lys sector also gained ground. Since August, the British 29,000 prisoners. Hold Crossing.

The text of the report reads: Successful attack August 25 by the First British Army the enemy's position Somme battlefield. On the whole pannes southward were forced to retreat as well as killed, ground are gained in last March and reached the west opposite Brie and taken them.

"North of Ham on the general line, Beaulencourt, Sharp fighting of front-to-day, and have been inflicted German infantry delay our progress. This morning the enemy took possession of the enemy's positions on the east."

"Victorious at the enemy still maintain his position after hard fighting. Ecourt St. Mien, les-Cagnoulart, in hood the Canadian, made progress many prisoners."

"North of the operations to-day to re-establish on Gre which they were enemy's counter-attack the day on Lawe River, north also east of Nijep. Fought during the text of the reads: "South of the tained our position and are advancing."

"North of the the neighborhood the British the strong counter-attack night east and Artois, east of and in the vicinity we were withdrawn the enemy after."

"During the night posts west of the were withdrawn of repeated hostilities. A B "The number turned back August 000. In the same guns have been to south of the taken an active occasions and valuable and gall operation to the arms."

How Hu Berlin, Aug. 29 communication headquarters says: "Southeast of ments developed. Porefield fighting of our new line and Peronne and fantry fighting t Albetts. "Between the Aime especially French and Amuletty, which very es. So far more reported shot to. The Earlier "The main tr attack was directed Wurttemberg re sides of the A Seven times the rain. Tanks are again on and now by infantry in de attack was arrested our machine gun which drove up. Where the enemy position our con

# PERONNE AND BAPAUME CAPTURED BY BRITISH

### Enemy is Smashed on a Great Front, Losing Heavily in Men and Guns—Haig Official Reports Amazing Victories on the Old Battlefield—Foe Admits His Line is Now East of Peronne and Bapaume

London, Aug. 29.—Field Marshal Haig reports that along the whole front from Bapaume southward the Germans have been forced to retreat with great loss in prisoners, guns and material. The British have reached the west bank of the Somme, opposite Brie and Peronne, and have taken Ham.

The occupation by the British of Bapaume was officially announced tonight in the report. The Germans admit the evacuation of Peronne in their official report, which states that "forefield fighting took place in front of our new lines east of Bapaume and Peronne."

Other Places Are Taken. Field Marshal Haig's men are reported to have taken Ginchy and Gallonnet and to have reached the west bank of the Somme. British patrols are said to be in the Brie and Morval. These places are all south of Bapaume.

Immediately south of Bapaume, the British have reached the Bapaume-Beaulencourt road. Advanced troops are moving on Beaulencourt.

The British also have reached the high ground northeast of Gueudecourt and have nearly reached Le Transloy.

In the Lys sector the British have also gained ground. Since August 21 and up to yesterday the British had taken over 25,000 prisoners and many guns.

Hold Crossings of the Somme. The text of the British night report reads:

Successful attacks delivered since August 8 by the Fourth, Third, and First British Armies, have rendered the enemy's positions on the old Somme battlefield untenable.

"On the whole front from Bapaume southward the enemy has been forced to abandon, with great loss in prisoners, guns and material, as well as killed and wounded, the ground he gained at such heavy cost in last March and April. We have reached the west bank of the Somme opposite Brie and Peronne, and have taken them."

"North of Ham we are advancing on the general line of Comblis, Morval, Beaulencourt and Fremicourt. Sharp fighting occurred on this front to-day, and many casualties have been inflicted on bodies of German infantry who attempted to delay our progress."

"This morning the New Zealanders took possession of Bapaume driving out the enemy's rearguard. Victorious at Every Point.

"In the sector north of Bapaume the enemy is still endeavoring to maintain his positions. Our troops, after hard fighting about Vraucourt, Ecoust St. Mien, and Hendecourt-les-Cagnicourt in which neighborhood the Canadians were last recorded, made progress and have taken many prisoners."

"North of the Scarpe successful operations to-day enabled our troops to re-establish themselves in the positions on Greenhill Hill, from which they were forced back by the enemy's counter-attack on Tuesday. We gained further ground during the day on both sides of the Lawe River, north of Beune, and also east of Nieppe Forest."

Fought During the Night. The text of the day statement reads:

"South of the Somme we maintained our pressure during the night and are advancing eastward."

"North of the Somme, as far as the neighborhood of Fontaine-les-Croisilles, the night passed quietly on the battle front."

"In the British sector astride the Scarpe River the enemy delivered strong counter-attacks during the night east and southeast of Vis-en-Artois, east of Bolry-Notre Dame, and in the vicinity of Garrelle. These attacks were repulsed with loss to the enemy after heavy fighting."

"During the night our advanced posts west of the village of Oppy were withdrawn slightly as a result of repeated hostile attacks."

A Big Bag. "The number of prisoners captured since August 21 exceeds 25,000. In the same period over 100 guns have been taken."

"In the recent fighting north and south of the Somme tanks have taken an active part on all possible occasions and have rendered very valuable and gallant service and co-operation to the infantry and other arms."

How Huns Admit It. Berlin, Aug. 30.—The evening communication from General Headquarters says:

"Southeast of Arras fresh engagements developed in the afternoon. Forefield fighting took place in front of our new lines east of Bapaume and Peronne and east of Noyon. Infantry fighting took place on the Ailette."

"Between the Ailette and the Aisne especially strong attacks by French and Americans failed completely, with very heavy enemy losses. So far more than 50 tanks are reported shot to pieces."

The Earlier German Report. The communication from General Headquarters to-day says:

"The main thrust of the British attack was directed against the Wurtemberg regiment on both sides of the Arras-Cambrai road. Seven times the enemy stormed in vain. Tanks advanced again and again on and near the road followed by infantry in deep formation. The attack was arrested by the fire of our machine guns and our guns which drove up to the front lines. Where the enemy penetrated into our position our counter attack drove

ported by the flanking fire of their artillery they threw back the enemy every time. "Bolry-Notre Dame was the focus of bitter fighting. Three times were the ruins of this place recaptured from the enemy by counter attacks. After a fresh enemy attack in the evening the place remained in his hands."

## PENETRATE MAIN ARTERIES OF THE HINDENBURG LINE

### British and Canadian Troops Advance to Record Depth on the Scarpe

Canadian Press Dispatch from Reuter's.

At British Headquarters, Aug. 29.—Reuter's correspondent cables:

The British yesterday morning began fighting in the wet weather advanced eastwards towards Arras, thus carrying the line a mile further east along the Scarpe than had been hitherto penetrated. The Canadians began pushing beyond Vis-en-Artois soon after daylight, after which the second Canadian attack was delivered on a five mile fairly evenly outflanking the Arras-Cambrai road.

The significance of the present fighting is that it is carrying us right into the main arteries of the Hindenburg line.

HOW CANADIANS TRAINED. New York, Aug. 29.—How the Canadians were quietly training for the recent offensives at Amiens and Arras, while the Germans were attacking.

They were rehearsing their crack troops back of the lines, while the enemy were still advancing. From the beginning of June until early in July the Canadian generals were training their best regiments at the rear for the counter-attacks.

Famous fighting units were taken from the front while the Huns were still attacking. By the middle of July these soldiers had been trained to the top notch in the latest war tactics and were held back like hounds on a leash, grumbling and wondering why the word to go for the enemy did not come.

When General Currie gave the order the Canadians went for the Huns with a dash and fighting spirit that swept the enemy aside like chaff before the wind."

## FONCK HAS BAGGED 50 PLANES THIS YEAR

### Premier French Ace Sets a Notable Record in Aerial Daring

By Courier Leased Wire.

With the French Army in France, Aug. 30.—Lieut. Rene Fonck, the leading French ace, has brought down since January 1st, fifty of the more than three score German aircraft he has destroyed. Of the fifty enemy machines vanquished this year, thirty-two have fallen before him in the same airplane, which is a Spad-Hispane biplane with two machine guns. This constitutes a record for one machine. Between July 16 and July 22 he felled eleven enemy machines, nine of which have already been officially accounted for. On July 16, while stationed in the Somme he was ordered to report to the Champagne. He left for Paris that day at 10 o'clock. He lunched there and set back for the Somme, arriving there shortly before five. At five o'clock he had become the conqueror of two Boche machines. He left that evening for his new assignment. The following day in the Champagne he felled a German machine and on the next two. On July 19 he brought down three; on July 21, two; and on July 22, one.

SPANISH STEAMER SUNK. By Courier Leased Wire.

Paris, Aug. 29.—The Spanish steamer Creza has been sunk by a German submarine. It is reported here. Newspapers consider that this event will bring to a crisis the relation between Spain and Germany.

Available maritime records fail to show a Spanish ship by the name of the Creza. The steamer Carasa. This ship was built in 1911, was 200 feet in length and measured 2,039 gross tons.

# FRENCH SWEEPING FORWARD AFTER CAPTURE OF NOYON

### Bitter Fighting Waged for the Town Now Held by Our Allies—Ailette River is Crossed and Report Says French Forces Threaten to Cut Off Large Numbers of the Germans

Paris, Aug. 29.—The French, after capturing Noyon in heavy fighting to-day, continued their advance, and now have a foothold on the southern slopes of Mont St. Simeon, more than a mile to the east, according to the War Office announcement to-night. They also have taken Landrimont and Morlincourt and have crossed the Ailette River at several points. French troops are at the gates of Ham, a most important supply and road centre, according to despatches from the front. The Germans lost three complete munitions trains at Breuil, five miles west of Ham, in their precipitate retreat.

News of the French approach to Ham was rather unexpected, and is an indication of the rapidity of the French progress. If the French have reached Ham, then they have outflanked the German line to the north across the Somme and have created another pocket from which Hun forces can only retreat with heavy loss. It is probable that heavy capture of men and material were made in Noyon.

#### A Deep Advance.

Some units of the armée of General Debeney and General Humbert north of the Oise River yesterday advanced for more than twelve miles, according to The Intransigent. The newspaper confirms the report that French troops have reached the region of Ham, and adds that it does not seem possible that the Germans will be able to hold Guiseard for any length of time. Guiseard is on the high road midway between Noyon and Ham.

#### American Striking Also.

Farther south, north of Soissons,

American and French forces combined are attacking and have made some progress in an operation which has in view the driving of a wedge between Laon and La Ferre. These movements would also link up the allied forces from near Rheims to the northern extension of the allied line.

The text of the day statement reads: "During the course of the day our progress continued in the region of the Canal du Nord, which we reached along its entire length, except near Catigny and Sermazie. We have occupied Quesson Wood, north-east of Beuvilly, and Beaumont."

Farther south we captured Noyon in a bitter struggle and advanced as far as the southern outskirts of Haplincourt. To the east of Noyon we gained a footing on the southern slopes of Mont St. Simeon and took Landrimont and Morlincourt. We captured several hundred prisoners.

"Between the Oise and the Aisne our troops crossed the Ailette River at several points north and south of Champs, in spite of the resistance offered by the enemy. Gun and Pont St. Maré are in our hands."

#### Surprise Attacks Beaten.

The day report says: "There were violent bombardments during the night along the Somme front."

"German forces made many surprise attacks in the Lorraine sector without obtaining any results. The French, for their part, made two incursions into the enemy lines in the Champagne and took 15 prisoners. "The night was calm on the rest of the front."

# CONEY ISLAND KISSLESS NOW

### Fair Sex Must Also Wear Stockings With Bathing Costumes

#### REFORMING ISLAND

New York, Aug. 30.—The death knell to spooning on the sands of Coney Island has been rung by Captain Byron S. Sackett, commander of the Coney Island police station, vigilant guardian of the public morals and bathing censor extraordinary. Gratified at his success in practically ridding the beach of stockingless women and in raising the height of socks to within speaking distance of dimpled knees, Captain Sackett undertook to bring to an end the exhibitions of spooning on warm days and have on occasion been so vigorous as to draw circles of amused on-lookers.

Four arrests and twenty-five warnings were the result of the first day's crusade. And the crusade is to continue until Coney Island beach is as kissless as No Man's Land.

The momentous decision was reached by the Captain when his own family, in strolling along the sands with him, were surprised and shocked by some sights they witnessed. Accordingly, as the eight o'clock platoon was preparing to leave the station the captain outlined his campaign and asked for volunteers. Knowing from experience in chas-

ing the bare legged damsels how hard it is to make a woman behave, none of the men jumped at the chance. Then Captain Sackett chose Policemen James Grady and Thomas Craddock, both bachelors.

They were ordered to look up on charges of disorderly conduct any couples found hugging and kissing. Being unwise to the ways of women and not understanding clearly the relative degree of affection signified between osculation and mere holding hands, the bachelors timidly asked if the gentle pressure of the digits was to be penalized. After lengthy thought Captain Sackett decided that hand holders should be warned not to grow too affectionate—indeed not even to continue their outdoor sport of the moment.

Captain Sackett himself went to Brighton Beach to do his own slouching, sending the policemen in plain clothes to more pebbly parts of the island. At West Twenty-fifth street they discovered a couple, in bathing suits, hugging and kissing. Farther along, at West Thirty-seventh street, another couple was locked in a clinch or an embrace. At the station house both couples asserted they were engaged to be married and saw no impropriety in their acts.

#### MAY PROTEST SERIES

Toronto, Aug. 30.—The Toronto club may protest the series played here with Binghamton on the grounds that Shortstop O'Rourke was not a regularly signed player. It is alleged that he joined the team at Toronto, and has been playing in the Steel League, only being pressed into service for the occasion. President Farrell will be asked to institute an investigation.

# URGES GOVT. TO GRANT HOME RULE

### Average Englishman Wants Question Settled, Says Sir Horace Plunkett

London, Aug. 30.—(Correspondence of The Associated Press)—Urging the British government to fulfill its promise of Home Rule for Ireland, Sir Horace Plunkett, who was chairman of the Irish convention, asserts in a statement that "the average Englishman still wants the political question settled—firstly, as an obligation of honor; secondly, because he is convinced that her admitted political grievance stands in the way of Ireland's co-operation in the war."

"There are two further compelling reasons widely felt, especially in Liberal and Labor circles, for a just and a generous settlement," continued Sir Horace. "First, it is felt that the influence of England at the Peace Conference will be seriously impaired if our small nationality is knocking at the door demanding the application to itself of the principles for which the Allies profess to be fighting."

"Secondly, even those who are not converted to any of the big schemes of evolution now coming to be recognized as an essential part of reconstruction after the war, are deterred from an unhesitant Irish question obstructing the course of democratic legislation."

"I have not the slightest doubt that a complete analysis of British opinion upon the present Irish situation would reveal an infinite variety of views upon details, but an almost unanimous determination that this blot on British statesmanship shall be immediately removed."

"Coming to outside opinion upon the Irish question, I shall speak only of that which I know—the opinion of the United States. It is not true that, since the only chance I can discover in their opinion about Ireland is that they now condemn utterly those Irish extremists who have ever since 1911, been made the tools of Prussian intrigue. "I know also that a large body

of American opinion holds it to be Ireland's duty, and, incidentally, the best way to ensure the concession of what Americans regard as her democratic rights—to fight wholeheartedly on the side of the Allies no matter what grievances against Britain may have or may remember. "But neither the war nor Ireland's attitude thereto is held to justify the postponement of Home Rule. As a most competent American authority, in a letter just received, says: "The average man, who knows very little about details, thinks some reform of Home Rule the only solution, and cannot see why it is not applied immediately."

#### REPORTED SUNK, IS SAFE

By Courier Leased Wire  
A Canadian Atlantic Port, Aug. 30.—The Newfoundland three masted schooner, Bianca, before reported captured and sunk by a German submarine off this coast, was towed into port this morning. The Bianca, which was abandoned by her crew by order of the U-boat commander, was picked up adrift three days ago by a Boston fishing schooner fitted with an auxiliary engine. This vessel took the Bianca in tow and arrived off the harbor last night. The Germans evidently set off a bomb in her hold, as a portion of the deck is raised and the vessel is leaking considerably, but the ship's frame held together and her cargo of tobacco kept her afloat. The Bianca was bound to this port. Her crew landed safely on this coast two days ago.

A Cow Will Help

The profitable dairy cow helps to feed our armed forces and will help us win the war, but the low producing, unprofitable scrub is little better than a slacker. The unprofitable cow may enjoy perfect health and have a large appetite; she may even belong to one of the best cow families, but if she is not an economic producer she should be converted into meat.

PERSHING'S COMMUNIQUE

By Courier Leased Wire. Washington, Aug. 29. - General Pershing's communique for Wednesday says the retirement of American troops from Bazoehes and Fiamette was a result of local hostile attacks which forced back outlying detachments. North of the Aisne our troops in co-operation with the French advanced to the railroad west of Juvisy and captured two hundred prisoners. Along the Vesle local hostile attacks forced our outlying detachments in Bazoehes and Fiamette to retire.
