WILLIAM BODD.

THE Tenants on Townships Numbers Sixteen and Fwenty-two, in this Island, the property of The Right Honourable, Lacence Salivain, are hereby required to make immediate payment of all arrears of rout due by them, otherwise proceedings will be instituted for the recovery. WILLIAM FORGAN.

LAND ASSESSMENT.

LAND ASSESSMENT.

Treasurer's Office, Charlottetown, P. E. Island,
January 14, 1854.

IN pursuance of the Act of the General Assembly
of this Island, made and passed in the Eleventh
year of the reign of Her present Majesty, initialed
"An Act for levying further an Assessment on all
Lands in this Colony, and for the encouragement of
Education," and of an Act made in amendment
thereto, and passed in the Twelfth year of Her said
Majesty's Reign, initialed An Act to explain and
amend the present Act for the Assessment of Land,
and the encouragement of Education, and also of
an Act made and passed in the Fifteenth year of Her
said Majesty's Reign, initialed An Act for the
encouragement of Education, and to raise Funds
for that purpose by imposing an additional Assessment on Land in the said Island and on Real
Edute in Charlottetown and Common, and Gorgetown and Common:

ment on Lead in the said Island and on Real Edute in Charlettetown and Common, and George-teem and Common:

I do hereby give Public Notice that I have made Preclamation, according to the terms of the said Acts, of the undermentioned Town Lots, Common Lots, Water Lots, Pasture Lots, Islands, and parts of Townships in this Island, in arrears for the non-payment of the several sums due and owing thereon to Her Majesty, under and by virtue of the first mentioned Act, viz:

HOUSE OF ASSEMBLY, MONDAY, February 13.

HOUSE in COMMITTEE on the ADDRESS in reply to His Excellency's Speech at the opening of the Session:—Mr. Wichtman in the Chair.

(Debate concluded.)

Here in Congrerre on the Assessa in splight Silling Conference of the Stelling Conference of the Stell

sought to be here at all, had there not been good reasons for supposeing that Mr. Thornton was about to turn his coat. It was believed that he was preparing to abandon his old political principles, and to ally himself to the party which he had formerly stood opposed. The fear of such political apostacy, on the part of Mr. Thornton, should he be re-elected, converted many of his old supporters into decided opponents; and I was induced to become a candidate, in opposition to him, only because I knew that I could keep him out of the Assembly, if I did so.

Docron Counov.—The presamble to the amendment submitted by the hon, and learned member for Charlottetown (the Hon. Mr. Palmer), states all that we mean; and, in substance, all that I said on the hustings. It explains our sentiments, and sets forth our intention, with sufficient clearness and distinctness. We will not allow ourselves to be goaded prematurely into action. We will not submit to be dictated to, or to be taught, in any way, by our enemies; unless in so far as we may allow the selfish infatuation which has hurried them on to destruction, to serve us as a beacon to warn us against the dauger of pursuing a similiar course. Let the paragraph, submitted in amendment by the hon, and learned member for Charlottetown, go forth as it now stands. It had my approbation before it was brought into the House; and I have since seen no reason to be in the least disastisfied with it. At a proper time, we shall willingly give further explanation.

Mr. Davus.—I was present at a public meeting, held previous to the late elections, at which Mr. Gof, as a candidate, was also present; and I can testify that his conduct, on that occasion, was quite in a accordance with the statement which he has just made. He gave no pledge of any kind. I will support the amendment submitted by the hon, manuber for the Scoond District of Ling's County (the Hon. Mr. Whelan). We, therein, put becore time their own words; and it will now be seen with what atnority that he was a submitted by th

Mr. Macaulay,—I believe the hon. member has alluded to me. I beg leave plainly to tell him that the intention, by which we in the majority are firmly bound together, is to take office from those who now hold it. We have been sent to this House for that purpose; and we will fulfil it to-night.

Mr. Montourent.—The amendment submitted by the hon. member for the Second District of Queen's County, is a mere dodge. \* \* \* \* The Government party are as well aware as we are, that the term of their power has expired: and, if they were men of spirit, they would, at once, in pursuance of the parliamentary principle professed by themselves, submit to the majority. But it seems as if they were afraid that some secret doings of theirs would, to theff disgrace, be brough tto light the moment they resigned; and that, therefore, they are determined to put off the evil hour as long as possible. They seem afraid that the deeds of the present majority will be so appreciated in four years, that, to themselves, will never again be entrusted the direction of public affairs. They have had a fair trial for three years; and the result is, that the people, completely disgusted with their selfishness, and incensed by their bad Government, have sent us to the Assembly to turn them out of office.

Hon. Mr. Whelan.—\* \* \* \* \* Hon. members in the majority ask if we are sincere in supporting the amendment which I have just submitted. I answer that my object in submitting it, is a just and fair one. It is to test their sincerity, with respect to the professions which they have made concerning the evils which, they say, arise from the allowing of office-holders to have seats in the Assembly. The hon. member for Princo County (Afr. Montgomery) has said that my amendment is a mere dodge; but I can tell him what he seems not to know, that any hon. member is privileged to move, as an amendment, that of which he may not approve, merely that, hy so dong, he may not approve which I have a goved; but, so far am I from admitting the profest of the princip

with one exception, received the sanction of the Crown."
Hon Mr. Whelan moved, in amendment to Mr. Haviland's amendment, "And all which have been passed since the establishment of Responsible Government, with the exception of one, which is still under consideration."
Mr. Haviland moved "That the hon. member have leave to withdraw his amendment." This motion was carried, on a division of 12 to 10.

5th PARAGRAPH. Schools.

The original paragraph of the Draft Address having been read and submitted by the Chairman.

Mr. Bezz moved in amendment a paragraph which,—differing very little from the original paragraph,—was agreed to without a division.

County.

The original paragraph of the Draft Address, having been read and submitted by the Chairman,—
Hon. Mr. Whenan observed that His Excellency had expressed no opinion concerning the Return, further than by calling it "an extraordinary one," and saying it was for the House to decide as to its legality. He had merely drawn the attention of the House to the fact, leaving them to deal with it as they should think fit.

Hon. Mr. Parami. If one passage of the Speech, more than another, was forced upon the Excellency's attention, it appears to me that its must have been that in which reference is made to the Raturn to the Writ for the let District of Queen's County. His Excellency's corn payling from the passage.

Throne. I have no amendment prepared to the paragraph of the Draft Address, now submitted, in reply to His Excellency's notice of that Return. I confess I know not how to frame one. If I went as far as my contstituents would wish, my doing so would carry me further than, when addressing His Excellecy, courtesy to him would warrant. Our wisest way, I think, will be to pass it over in solemn silence. Our doing so will shew that we consider any interference, on the part of the Crown, with respect to disputed elections, to be a breach of our privileges. I move that the paragraph just submitted be struck out of the Address.

Mr. Franker opposed the motion. The law said the hon. member, directs that no Candidate shall be returned duly elected, unless he have a majority of votes; and it was certainly the duty of the Government to direct the attention of the House to a Return of a Candidate having a minority of votes, in direct violation of the Hon. Mr. Palmer, That the paragraph be struck out, it was agreed to on a division of 13 to9.

The Paragraph.—State of the Colony.

7th PARAGRAPH.—STATE OF THE COLONY.

The original paragraph of the Draft Address having been read and submitted by the Chair-

The original paragraph of the Draft Address having been read and submitted by the Chairman,—

Mr. LONGWORTH moved, in amendment, a paragraph which was afterwards agreed, to on a division of 13 to 9.

The original paragraph of the Draft Address, after giving a summary statement of the financial detail contained in the Speech, concluded thus: "These facts clearly indicate the prosperity of the Colony, and we cannot be too thankful to Providence for the bountiful harvests which have so largely contributed to that result."

Mr. LONGWORTH, in submitting his amendment atributed the prosperity of the country to the general improvement of trade throughout all Her Majesty's dominions, to the late abundant crops, and the new markets opened up for our agricultural produce; and, particularly, to the increased demand for shipping, which, he said, has, at a rise in the prices of 100 percent, been nearly doubled since 1850. The hon. member also particularly adverted to the relief hillorded to the Colony, from its no longer being furthened with liabilities created by the erection of public buildings; for which purpose, he said, £20,000 had been granted within a few years.

8th Paragraph —Supplies for the Public Service.

8th PARAGRAPH —Supplies for the Public Service.
This paragraph, as it originally stood in the Draft Address, was agreed to, nem. con., without any discussion.

9th Paragraph, as it originally atood in the Draft Address, was also agreed to, nem. con., without

10th PARAGRAPH.-Fishery Reserves.

This paragraph, as it originally stood in the Draft Address, was expressive of gratitude for the attention given to the unsettled question of the Fishery Reserves, and for the information which has been furnished to Her Majes; y's Colonial Minister in reference to it. It concluded thos: "We are satisfied that, in endeavouring to bring this question to a satisfactory conclusion, it has been the anxious wish of the Government to deal with it in a just and equitable manner." The original paragraph having been submitted by the Chairman,

Mr. Maccowan rose and proposed an amendment, to the effect, that when His Excellency shall be in a condition to afferd the House any additional information on the subject, it should receive their best attention.

The amendment was, afterwards, agreed to without any opposition.

Mr. McGowan, after having submitted his amendment, spoke as follows:

Mr. Chairman; I will not sit down, although the hour is late, without saying a few words about my return to this House; concerning which, however. I should not, at present, have felt disposed to say one word,—notwithstanding the base calumnies which have been circulated, with a view to my prejudice, by means of a certain portion of the public press, as to declarations, of an ultra-liberal character, falsely stated to have been made, and given, by me, for the purpose of obtaining the votes of those electors, who would have been opposed to my return, had I candidly avowed to them my real political sentiments,—were it not that the hon. member for the Second District of King's County (Hon. Mr. Whelan), has just thought proper to repeat those calumnies, and, to my face, to prefer charges against me, based upon them. Those calumnies, I hestitate not to say, in the most unqualified manner, are altogether false and groundless; and have had their origin, I believe, in nothing but the disappointment and vexation, which my having thought proper to decline the wages of political subserviency, have occasioned to those who had deceived themselves in pre

Legislature, I was easily persuaded, on the dissolution of the late House, to present myself once more amongst them, as a endidate for the bonor of representing them in the Assembly. The first step 1 then took, was to see Mr. Maceachen, who, I had been given to understand, would also be a candidate, and consult with him about the propriety of commending a cancas of the district. The result of our consultation was, that we agreed to start, not aware that there would be any other candidate. As we went our rounds, we occasionally heard Mr. John Macintosh named, as an individual not unlikely to offer himself, as a candidate. They who spoke of him did not, however, appear to think it very probable that he would come forward; as they thought he could have no reasonable expectations of success. I made a very agreeable tour. I was well received by my old friends. They expressed great pleasure at seeing me again as a candidate for their elective suffrages: and easid, they hoped I would not resign, as I did before; but allow them an opportunity to meet me at the Poll, to express and record their estimation of my character. A public meeting of the electors was afterwards called, and beid, at Souris; and the words which I then used, in addressing the electors, I will never retract, or be ashamed of. I than told them that I was truly liberal in my political scnitments, and that I would support Responsible Government in its purity. To Mr. Maccachen, I afterwards said, that the mode, in which the principles of Responsible Government ould be best carried out and established, for the protection and promotion of the general interests of the people, was a great and important question, and one which we ought to make a subject of future grave consideration. After this meeting I returned to Charlottetown; and such was the hearty welcome and encouragement which I, as a candidate, had received from the elections, my colleague, and myself have been the targets, against which nearly every shaft, which has been maliciously discharged, by

people; and I hope my conduct will entitle me to a continuance of the respect and confidence of those who have sont me hither.

Hon. Mr. Waslan rejoined in a strain of sarcasia ridicule. He represented the honmember (Mr. Macgowan) as having been as far overcome by the effort which it cust him to relinquish the Treasury and his east at the Council Board, that, after having done so, he was scarcely able, on reaching the dior of one of his friends, to raise the knocker; and, on gaining admittance, seemed to be so completely exhausted, that it was thought necessary to have recourse to salts, to prevent his fainting. "I know not, indeed," said he, "what particular discoveries of corruption in the Government, the hon. member could possibly have made, during the twenty four hours, he was in office, even admitting its unsoundness; and, although he has, in general terms, accused the Government of corrupt and unconstitutional practices, he has not found it convenient to give even one solitary instance of any such practice. The corruption, by which the hon member pretends to have been so much slarmed, must, I think, have been wholly imaginary, on his part; or else, it must have been that, when he entered the Treasury, and cast his eyes upon the rolls of notes and piles of gold and aliver, he saw reason, on looking into his own heart, to dread the corruption which might there arise, in consequence of the temptation to which he would be expected, in having so much wealth entrusted to his keeping. It is remarked, by Solomon, that a who man easys little; and, in the false position, in which the bon, member has placed himself, it would certainly have been was in him had he been a little more sparing of his speech, At all events had be assisted as the reported agreed to with amendments.

The House was then resumed, and the Adams reported agreed to with amendments.

dired by cony why collect parts of the fallend has year, from | domed out

In presenting this Report, your Committee regret to state, that in one branch of its operations, viz., the importation of Stock, the Society has this year experienced much disappointment and sustained very heavy loss. Immediately on the vote of £1000 for the importation of Horses being passed by the Legislatire, your Committee dispatched Mr. John Thorn to Great Britain, to procure them; and as it was most important that they should arrive in time for service in the ensuing season. Mr. Thorn's time for executing his task was limited; but, by energy and diligence, he succeeded in procuring six most valuable animals of heavy breed, and a Blood Horse; but in consequence of the scarcity of vessels, great difficulty was experienced in procuring transport for them. The Naggel, with four of these horses, arrived in safety; but owing to an unusually long passage, the season was nearly over before they arrived. But three very fine Clydesdale Horses, shipped in the Atsood, died at sea; and being only insured against wreck, about £600 of the money so voted was thereby sunk. Nor did your Society's ill luck stop here. Your Committee ordered nine Rama, of the improved Leicester breed; they were shipped in the Sir Alexander, with the exception of two (which are since dead) they all died at sea.

Another disappointment, though not immediately affecting the Society's funds, has been experienced in the loss of the Durham Cow (owned by Judge Peters), imported by the Society for the purpose of breeding pure Stock, without the great expence attending their frequent importation, which died in calving. Your Committee are informed, that two large calves having been extracted from her, after death a third calf, equally large, was found remaining. Your Committee allude to this, as an extraordinary circumstance; also to show the necessity, where valuable animals experience difficulty in parturition, of the most careful examination to ascertain that complete delivery has taken place.

It is, at the same time, satisfactory to be able to sec

place.

It is, at the same time, satisfactory to be able to mention, that the Cow had previously given birth to, and reared, two fine animals,—one, a Heifer, now rising three years old, owned by Mr. John Beer; the other a Bull, rising two, in the possession of the Hon. E. C. Haythorne.

E. C. Haythorne.

Your Committee now gladly turn from this catalogue of disasters, to other matters which are not clouded with disappointments, and which do not require to be introduced with regrets.

Although the Wheat Crop in the vicinity of Characters are much injured by out and midge the

Although the Wheat Crop in the vicinity of Charlottetown was much injured by rust and midge, the general crop in other parts of the Island has been good.

The Turnip Crop, although something under the average of last year, is good. Your Committee learn, that many remained unpulled at the setting in of the unusually early frost in November. The experience of 1851, and of last year, should convince our farmers of the necessity of having this crop secured by the 1st November. It should, however, be generally known, that Turnips, completely frozen, if placed in a roothouse where the light is excluded, but all air allowed to escape, will thaw without injury, and keep as well nouse where the light is excluded, but all air allowed to escape, will thaw without injury, and keep as well as if they had escaped the frost. The Report of the Jadges of the Crop will be found in the Appendix.

Xour Committee rejoice to see the steady manner in which the cultivation of this crop is extending itself;

which the cultivation of this crop is extending itself; its importance this year is more apparent than ever. Many hundreds will now winter their Stock well, who must have sacrificed them, had they, as formerly, depended solely on hay and straw for their subsistence. Had the Society succeeded in nothing else than the general introduction of Turnip Husbandry, the benefit it has conferred on the country would have repaid all the exertions your Society has made for the improvement of our Agricultural system.

Owing to the great drowth in the early part of last summer, the Straw of the Oat Crop was extremely short.

summer, the Straw of the Oat Crop was extremely short, and the yield of grain considerably under that of former seasons. This staple crop has hitherto been exempt seasons. This staple crop has hitherto been exempt from rust; but your Committee regret to observe, that many fields of this grain were, last season, attacked, and some quite destroyed by it. The Tartarian Oathas for some years been found to give the largest yield; while, from the strength of its straw, it is not apt to be laid by storms; in common, however, with other varieties, it last year suffered from rust. Any general failure in the Oat Crop would be a serious calamity to this Island; but, while your Committee look with considerable anxiety to the next season's crop, they feel that it would be absurd to attempt to point out any means of would be absurd to attempt to point out any means of avoiding a disease, whose causes are so obscure, and which science and experience have hitherto been unable to prevent. The only suggestion they would make is, that each farmer should sow as many different sorte. is, that each farmer should sow as many different sorts of Oats as he can procure,—the probability being, that (should the disease continue) some kinds may, time, be less affected by it than others. The ease and certainty with which a fair crop of this grain has here-tofore been obtained, has, your Committee believe, rendered us remiss in attending to its cultivation. It seems to be a well ascertained fact, that grain grown and resown in the same locality, deteriorates; and there and resown in the same locality, deteriorates; and there can be little doubt, that the same causes which affect the yield, must also render the plant more liable to disease; whereas change of seed, or the importation of seed from other countries, not only keeps up the standard, but frequently improves it,—the samples for a few years raised from imported seed being generally superior to that first imported. Your Committee would therefore recommend, that, for the future, no year should be allowed to pass without a small importation of three or four varieties of Oats from Great Britain, and also from some of the neighbouring Colonies; which last, your Committee have no doubt, can be done at small expense, by exchanging with some of their Agricultural Societies. With this view, your Committee have ordered Twenty Bushels of Seed Oats from Great Britain; which they trust will arrive in time for sowing in the ensuing spring.

Britain; which they in the case of demand and more remu-in the ensuing spring.

Barley, from the increased demand and more remu-nerating price obtained for it, has become an important errop. The two-rowed, or Checolier, requires richer soil than the four-rowed variety. The farmer should, however, remember, that it is by far the most valuable soil than the four-rowed variety. The farmer should, however, remember, that it is by far the most valuable to the brewer. It is doubtful, however, whether he now obtains the difference in price for this variety which its superior malting properties entitle him to receive. Mr. Stephens remarks, that lands intended to be sown with Barley, should receive two ploughings; and that the last ploughing should be given immediately before the seed is intended sown,—it being, as he discrete, "essential to the success of the crop, that the seed be sown upon the soil fresh turned up, or on a hot furrow." Your Committee, are of opinion, that general attention to this advice would be found to be beneficial. With respect to the Potato, the great loss which has been suffered by many who cultivated this root to a large extent in many parts of the Island last year, from

propitious; but nevertheless, the attendance was good, and the quality of the Stock exhibited of a superior description to any shown in former years; a circumstance to be attributed to the recent introduction into the Country of pure bred animals, by several spirited

individuals.

The Ploughing Match in this County, came off on the 30th September; the work was well performed, and superior to what has been witnessed on former

Mr. Youatt says,
"The farmer should prefer a mare to a gelding, both for riding and driving; he will get a great deal more work out of her. There can be no doubt, that taken bulk for bulk, a mare is stronger and more last-

Before quitting the subject of Stock, your Committee wish to call attention to one of the provisions of the Act incorporating the Society, which they think requires amendment. The expense attending the importation of Stock from Great Britain is such, that should the Society persevere in importing considerable numbers for distribution through the country, its finances will be so seriously affected, as to cripple its operations in other branches of equal importance. As an example of this, they would refer to the case of the nine Rams ordered last summer, previously alluded to, the loss on which was £146. Had they all arrived in safety, the three sold in Queen's County would The Ploughing Match in this County, came off ne 30th Soptember; the work was well performed, and superior to what has been witnessed on former occasions.

The Queen's County Cattle Show was held on the University of the County Cattle Show was held on the loss on white was £146. Had they all arrived rewithited, the number was smaller than that of the preceding year. The Lambs were decidedly inferior; but two causes may be assigned for their being so; first, from the great drought of last summer, the lambs in general, were smaller in September than usual; and accondity, the flocks of the best breeders, had, as, on the previous year, been culled by parchasers front the majority of the Society the sincering a loss of upwards of like number of the Southdown and Cotswold breeds, and algority of the Society and placing each distanct breed the summer of the Southdown and Cotswold breeds, and acting the importation of a Ram of each breed in the latter of the Southdown and Cotswold breeds, and acting the summer of the Southdown and Cotswold breeds, and acting the summer of the Southdown and Cotswold breeds, and acting the importance of the best having been, as slready stated, secured by foreign purchasers. A Lamb should more to should be each of the Society in distributing young animals through the country is frequently defeated by the treatment they receive from their purchasers. A Lamb should never be allowed to serve they fort the society wing the summer of Tups, equal in all frest winter than at any ubsequent period; but both these principles and acting the summer of the society in the summer of the society being the summer of the s

and St. Peter's, naving round it difficult to state and selves, have been converted into Depots. Those at Cascumpaque, St. Eleanor's and Tryon are still in operation. The two former are working well, and disscore where the constraints of the There can be used outlet, that taken bulk for bulk, a mare is stronger and more last more was tout of her. There can be used outlet, that taken bulk for bulk, a mare is stronger and more last that again the self-line of the position of the her has her to breed from. She need not be idle with she is breed, the contract of the cont

the ravages of the disease, induces your Committee to recommend their brother farmers to bedaw more attention upon the cultivation or it the Turnip and other valuable roots, neerely planting a sufficient breadth of land with the potate is supply their over immediate wants.

The Show of Fat Cuttle in Charlottetown on the 23d of March last, was highly gratifying.—The number and candition of the animals exhibited, suewed the great improvement in the feeding which the Turnip culturals as enabled the Farners to adopt, and the early muturity of some marked the vant improvement which has taken place in the breed of our Stock.

The Cuttle Shows in Prince and King's Counties, took place, respectively on the 22d and 28th Septembers.

children.

Two other topics remain to be noticed: the state of our Market House, and the establishment of a Model

our Market House, and the establishment of a Model Farm.

A stranger on entering the Square, and comparing our costly Colonial Building with the Market House, must feel surprised that the representatives of a purely agricultural people should provide such splendid accomdation for themselves, and leave the sledges of their constituents to be preyed upon by hungry cows, and themselves, their wives and daughters, to market their produce without accommodation or shelter, exposed to drenching rains and inclement blasts. In short, our Market House is a diagrace both to the Island and its capital, and seems likely to continue so, unless some move is made in the matter; and as the attention of your Committee is frequently called to the subject, they deem apology unnecessary in venturing to suggest the outline of a plan for a new one:

The present Post Office might be made the north wing of a building to extend towards Stamper's corner, where another building of similar architecture, forming the south wing, would make an excellent agricultural Warehouse for the Society. The space between would afford ample market accommodation. The rear of the building should, like Market Houses in other places.

vv are nouse for the Society. The space between would afford ample market accommodation. The rear of the building should, like Market Houses in other places, have a colonade, under which carts could be backed against a platform; thus not only would the market people be comfortably sheltered, but the contents of their carts also be protected from the weather. A against a platform; thus not only would the market people be comfortably sheltered, but the contents of their carts also be protected from the weather. A space further back of sufficient size should be enclosed within which carts or sleds might be drawn up. A large cellar, extending under the whole of the building would form an excellent Bonded Warehouse for the Excise department, while the whole space above the market could be converted into a Town Hall, offording ample room for Public Meetings, Agricultural Shows, and Industrial Exhibitions, &c., which is much required. Such is a short but imperfect outline of what your Committee consider the market accommodations for the farming population of this Island should be. The whole country is equally interested in it; for though persons at a distance resort to it less frequently than those in the vicinity of the town, they would be equally sensible of its comforts, and facilitated in the disposal of their produce, by having their sleds secured against pilfering cattle, in a place of such resort as would ensure purchasers, without their hawking the town in search of them. Your Committee trust the Government and Legislature will take this matter in hand, and not allow the present Session to pass without providing means for erecting a Market House, useful to the farmers and creditable to the country; but should they decline to do so, your Committee are of opinion that a Joint Stock Company could be formed, who, if the ground were conceded, would carry some such plan as that above stated into execution.

In alluding to the establishment of a Model Farm, your Committee do not deeire immediate action respecting it, deeming it more advisable to foreshadow a proposition involving a considerable outlay of public money, so that its importance being generally understood, it may, when brought forward, meet the accep-

pecting it, deeming it more advisable to foreshadow a proposition involving a considerable outlay of public money, so that its importance being generally understood, it may, when brought forward, meet the acceptance which its too hasty proposol might prevent. Their suggestion is this: that a farm of two hundred acres of land in the vicinity of Charlottetown should be purchased by Government, as a Model Farm; that a suitable building be creeted thereon for accomodating the manager and his family, and servants, and, at least, twelve nuoils, as boarders, with laboratory and lecture

JOHN M'NEILL, Clerk H. A.

RAFFLE In aid of Saint Michael's Church and Parochial House. £10 for a LADY'S BOX.

TO BE RAFFLED for at 1 o'clock on St. Patrick's Day, at the Temperance Hall, a Lady's Work Box; Tickets 1s. 6d. each. The history of this Box is worthy of remark. This is the third time It has been instrumental in promoting religious and benevolent purposes. Its first appearance was on the occasion of a Buzara in Halifax, under the asspices of his Grace the Archbishop, when £700 were realized. On that occasion the Box was greatly admired, and got into possession of the Nuns of Halifax. Its next appearance was at a Raffle, got up for the purpose of relieving the orphase of Halifax, when several tickets were purchased by Merchants of this Island to aid the lundable understaing. It was won at this time by a sister of one of the Nuns, who was offered any amount she wished to ask for it; but when the learned the object for which it was intended, namily, to raise fands in aid of St. Michael's Church and Farochial House in this Island, she generously presented it for that purpose.

A great number of Tickets have been already is-

and Farochial House in this Island, she generously presented it for that purpose.

A great number of Tickets have been already issued, and the sale must be brought to a close in a very few days.

The winner of the Box will be entitled to receive £10 cash in lies of it, if so inclined.

The following gentlemen have politely consented for as a Committee to make all the necessary artingioments for the Raffle, and to receive the Tickets of the Raffle, and the Raffle

herefor.

Rev. Thomas Phelan, P. P.

Hon. D. Brenan,
F. P. Norton, Eq.,
P. Walker, Eq.,
R. Gill, Eq.,
Mr. Charles M'Donald,
Ovenil.

The Box is now in charge of F. P. Norton Esq. ictoria Hotel. Victoria Hotel.

Box to be exhibited at the Store of C. Dempsy Esq.
on Thursday the 9th inst. on Saturday the 11th inst.
to be removed to the Rev. T. Phelan, in whose care
it will remain until he deliver it to the fortunate

Winner.
This extraordinary Box appears to be destined for Charitable and Benevolent purposes both in the West Indies and the Colonies.

March 4th 1854. All papers 2w

Windsor, C. W., June 26, 1852. J. C. Aven. Sir; This may certify that I have used your CHERRY PROTORAL for upwards of one year; and it is my sincere belief that I should have been in my grave ere this time. If I had not. It has cured me of a dangerous affection of the lungs, and I do not overstate my convictions when I tell you it is a priceless remedy.

Yours very respectfully, D. A. McCULLIN, Attorney at Law D. A. McCULLIN, Attorney at Law.
Wilksharre, Fa., September 28, 1850.
Dz. J. C. Avzz., My dear Sir,—Your medicine
is much approved of by those who have used it here,
and its composition is such as to insure and maintain
its reputation. Invariably recommend it for pulmonary affections, as do many of our principal physicians.

requirements and the prevailing diseases of this
climate, and specially suitable for families who live
distant from Medical assistance.

HOLLOWAY'S OINTMENT.

ULCERS-A CASE CERTIFIED BY THE MAYOR OF BOSTON.

Copy of a Letter from J. Noble, Esq., Muyor of Boston, Lincolnshire.

To Professor HOLLOWAY.

To Professor Holloway,
Dear Sir,—Mrs. Samb Dixon, of Liquerpond street,
Boston, has this day deposed before me that for a
considerable period she was severely afflicted with
Scrollous Sotes and Ulcers in her arms, feet, legs,
and other parts of her body; and although the first of
medical advice was obtained, at the cost of a large
sum of monay, she obtained no abatement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment, she procured a small pot, and a box of the
Pills, and before that was all used, symptoms of
aniendment appeared. By persevering with the medicines for a short time longer, according to the directions, and strictly albering to your rules, as to diet,
&c., she was perfectly cared, and now enjoys the
best of health.

t remain, Debr Sir, yours truly,
(Signed) J. NOBLE.

AN EXTRAORDINARY AND RAPID CURE OF ERYSIPELAS IN THE LEG, AFTER MEDICAL AID HAD FAILED.

Copy of a Letter from Mrs. Elizabeth Yeates, of the Post Office, Aldwick-Road, near Bognor, Sussex, dated January 12th, 1868.

Sussex, dated January 12th, 1853.

To Professor Hollowar,
Sir,—I suffered for a considerable period from a severe attack of Eysipelas, which at length settled in my leg, and resisted all medical treatment. By sufferings were very great, and I quite despaired of any permanent amendment, when I was advised to have recourse to your Olarment and Pills. I did so without delay, and am happy to say the result was eminently euccessful, for they effected a radical care of my leg and restored me to the enjoyment of health. I shall ever speak with the utmost confidence of your medicines, and have recommended them to others in this neighborhood similarly afflicted, who derived equal benefit.

I am, Sir, your obliged and faithful Servant,

AT MALTA AND PORTSMOUTH HOSPITALS.

The following important communication has been forwarded to Professor Holloway for publication, by Mr. B. Dixon, Chemist, King-st., Norwich.

Copy of a Letter from Captain Smith, of Great Yarmoulh, dated January 19th, 1853.

To Mr. Dixon,

Dear Sir,—I send you the particulars of a cure effected by Professor Holloway's invaluable medicings;—Mr. John Walton, late in Her Majesty's Service, in the British Fleet at Malta, had a very bad alcerated ancle, and after having been in the Malta Hospital for six months, was sent to England as an invalid to Portsmouth Hospital, where he remained an inmate four months, there, as at Malta, refusing to have, the limb amputated, he was turned out incurable. He then came to Yarmouth, and was under a medical gentleman for about three months, but his anche became so much worse that all hope was lost. At this period, by my advice, he tried Holloway's Omment and Fills, which, by unremitted application, healed all the closes, and restored him to perfect health and strength.

(Signed) JOHN SMITH.

SURPRISING CURE OF A BAD BREAST, NER-

YOUS DEBILITY, AND GENERAL ILL HEALTH.

Copy of a Letter from Mr. T. F. Ker, Chemist, &c., Louver Moss-lame, Manchester, dated February 12th, 1883.

To Professor Holloway.

Dear Sir,—I have great pleasure in forwarding to you the particulars of a very extraordinary cure of a bad, breast, effected solely by the use of your celebrated Ointment and Pills. Mr. Martha Sell, of Pitterest, in this town, had been for a considerable time laboring under nervous debility, loss of appetite, and general ill health, occasioned by ulcernted wounde in the breast. She had had much experience in the use of all the known remedies for the cure of ulcers, but without any beneficial result; in fact she had nearly lost all faith and hope of a cure being effected. In this distressing and painful condition of body and mind, she was persuaded to have recourse to your invaluable Ointment and Pills, which she immediately did, and in the course of a very short time the effect produced was most astonishing; her appetite was speedily improved, and the acres and ulcers in the breast gradually healed, and the nervous excitement of her system was wholly removed.

I remain dear Sir, yours faithfully.

(Signed)

T. FORSTER KER.
