OTTAWA, 21st November, 1906.

Sm,—I have the honour to inform you that His Excellency the Governor General will proceed to the Senate Chamber to open the Third Session of the Tenth Parliament of the Dominion of Canada on Thursday, the 22nd instant, at 3 o'clock, p.m.

I have the honour to be, Sir, Your obedient servant, J. HANBURY-WILLIAMS, Colonel, Governor General's Secretary.

The Honourable

The Speaker of the Senate, &c., &c.

The Senate was adjourned during pleasure.

His Excellency the Right Honourable Sir Albert Henry George, Earl Grey, Viscount Howick, Baron Grey of Howick, in the County of Northumberland, in the Peerage of the United Kingdom, and a Baronet; Knight Grand Cross of the Most Distinguished Order of St. Michael and St. George, &c., &c., Governor General of Canada, being seated on the Throne,

The Honourable the Speaker commanded the Gentleman Usher of the Black Rod to proceed to the House of Commons and acquaint that House that,—" It is His Excellency's pleasure that they attend him immediately in the Senate."

Who being come, with their Speaker,

His Excellency the Governor General was then pleased to open the Session by a Gracious Speech to both Houses:—

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In opening the third session of the Tenth Parliament of Canada, I avail myself of the opportunity to offer you my congratulations on the unparalleled prosperity prevailing in all parts of the Dominion. The harvest has been abundant, and the trade with both British and foreign nations continues to expand in annually increasing volume, with every prospect of continued growth for many years to come.

The number of immigrants seeking homes in Canada continues yearly to increase, and it is very satisfactory to observe that a larger proportion than in any former year has in the past season come from the British Isles.

During the recess following the last session, I visited the four western provinces, and was much gratified to note the great advance that is being made in the development of the vast resources of those highly favoured sections of the Dominion. I found the people of the West rejoicing in their prosperity, and full of hope and confidence in the future growth of its agricultural and industrial wealth.

The quinquennial census recently taken in the Provinces of Alberta and Saskatchewan shows that those provinces are now entitled to an increase in their representation in the House of Commons. A Bill giving effect to that provision will be submitted for your approval.

In accordance with the announcement made in a previous session, you will be asked to consider a Bill for the revision of the Customs tariff.

The sanction of Parliament will be required to give legal effect to the treaty made with the Empire of Japan. A Bill for that purpose will be submitted for your approval. The products and manufactures of Canada shown at the recent International Exhibition held in the City of Milan proved a great attraction, and as a result it is confidently believed our trade with central and southern Europe can be materially increased.

The Naval authorities having relinquished the use of the Dockyard at Halifax, a proposal was made to transfer it to the Government of Canada. The offer has been accepted and the Dockyard will now be used by the Department of Marine and Fisheries as a base for its operations in connection with aids to navigation.

Many immigrants having in recent years been induced to come to Canada by faise representations made in the United Kingdom, at the request of the Minister of Labour a clause has been added to the Merchants Shipping Bill, now before the Imperial Parliament, for the punishment of any person who may be found guilty of that offence.

Gentlemen of the House of Commons:

The accounts of the past year will be laid before you. I am glad to say that the revenue has shown a large expansion, and has not only provided for ordinary expenditure, but has also, to a great extent, provided for the outlay on capital account.

The estimates for the coming year will be laid before you at an early date.

Honourable Gentlemen of the Senate: Gentlemen of the House of Commons:

A united application having been received by my ministers from the Governments of the several provinces asking for an increase in the provincial subsidies, a conference was recently held when the reasons for granting additional aid were fully set forth and discussed. Resolutions, based on the conclusions reached by my Government, will be submitted for your consideration.

Bills will be laid before you amending the Election Acts, the Post Office Act, the Dominion Lands Act, a Bill for the more effective supervision and inspection of Canadian canned food products, meats and fish, a Bill relating to the sale and manufacture of patent medicines; and also a Bill to make better provision for dealing with iuvenile delinguents.

It is hoped that the report of the Commission appointed to enquire into the working of Insurance Companies will shortly be completed, when it will be laid on the Table.

The subjects I have mentioned will, I hope, receive your best consideration, and the measures to be submitted for your approval will, I trust, tend to the well-being and good government of our fair Dominion.

His Excellency the Governor General was pleased to retire, and the House of Commons withdrew.

After some time the Senate was resumed.

PRAYERS.

The following Petitions were severally brought up, and laid on the Table:-

By the Honourable Mr. Coffey,—Of Thomas F. Johnson and others, of the City of London.

By the Honourable Mr. Mitchell,-Of the Orford Mountain Railway Company, and of Edward Eugene Gleason and others.

By the Honourable Mr. Mitchell, for the Honourable Mr. Frost,—Of the Dominion Central Railway Company.

By the Honourable Mr. Davis,-Of the Dominion Fire Insurance Company.

By the Honourable Mr. Shehyn,—Of the Quebec Bridge and Railway Company. By the Honourable Mr. Watson,—Of the Brockville, Westport and Northwestern Railway Company; and

By the Honourable Mr. Kerr,-Of Mary E. Dignam and others, of the City of Toronto; and of the Canada Central Railway Company.

The Honourable Mr. Scott, Secretary of State, presented to the Senate,—The Report of the Joint Librarians on the state of the Library of Parliament for the year 1906.

The same was then read by the Clerk, and it is as follows :--

To the Honourable Speaker of the Senate:

The shortness of the recess necessarily prevented any accumulation of business.

The various departments of the Library have been supplied as far as possible with books and pamphlets issued since the close of the last session.

Efforts have been made to find convenient shelf-space for some overcrowded sections; and the need for the expected improvements has become more than ever obvious.

Considerable expenditure was called for to supply the Revised Statutes of the various States of the American Union. When the new edition of the Revised Statutes of Canada is issued, the Librarians will no doubt be in a position to exchange the volumes for similar publications. Application has been made to the Printing Committee for an order for a sufficient number of copies to supply the Library exchanges.

The catalogue of French works on politics, political economy, social science, having become obsolete with time, a new one was begun during the last session and completed during recess. It is now in the press. This part of the catalogue has been made, according to the most recent methods and in its numerous sections will be found works on political science, social economy, sociology, finance, social science and kindred subjects.

As Members of Parliament are well aware, people in foreign countries, especially in Europe, take more and more interest in the discussions raised years ago and kept up ever since, on the relations of capital and labour, on socialism, on the dangers of trusts, cartells, &c. The most recent remarkable works on those subjects have been secured and are to be found in the Library.

During September last, a very important congress, that of the Américanistes, was held in Quebec. Among their transactions, important papers were read on the manners, customs, and folklore of the aborigines of our continent. Arrangements have been made to add those valuable contributions to the Library.

Owing to the pressure of business and the preoccupation of Members, it has not been found convenient for several sessions to get more than one meeting of the Joint Committee; and the Sub-Committee of Audit have been for the same reasons irregular. As the duties of the Sub-Committee of Audit are minute and troublesome, and are in any case superfluous in view of constant supervision of the Auditor General, the Librarians will hereafter, unless otherwise ordered, report direct to the Committee, in detail, as to the expenditure for the purchase of books, in the form hitherto followed. In the meantime they submit herewith, for the information of the House, a tabulated and classified statement of the purchases made during the past three seasons.

5TH DECEMBER.

The annual catalogue of the books purchased during the year will be begun at the usual time and presented during the session.

The list of donations is appended as usual.

All of which is respectfully submitted.

And the following reply of His Honour Justice Mabee :--

"His Lordship also referred to the fact that the grand jury had made a very timely suggestion in regard to the above matter, arising out of the failure of the Ontario Bank, and that undoubtedly the Government would step in and enact a law for the stricter inspection of banking institutions."

For Friday, February 8, 1907.

No. 1.

By the Honourable Mr. Landry:-

February 6—Will call the attention of the Government to the following declaration made on December 4th, 1906, by the Honourable the Secretary of State in relation to the French version of the Revised Statutes, 1906:—

"Hon. Mr. Scott—I understand they are making rapid progress with it (the French version). Additional translators are employed, and it is hoped it will be ready on the 1st January."

And will ask:-

The 1st January being now passed, is the French version of the Revised Statutes, 1906, ready?

If not, when will it be ready?

How many additional employees have been working at that French version?

What are their names, and how many days have they been employed to that work? When will the French version of the Revised Statutes, 1906, be ready?

No. 2.

By the Honourable Mr. Landry:-

February 6-That he will inquire of the Government-

What is the name of the train despatcher of the Intercolonial Railway who, in consequence of a misunderstanding, according to the statement of the Superintendent of that railway, took upon himself without any authority to have run, on the night of the 26th-27th December last, a special passenger train between St. Léonard Junction and Nicolet on the Intercolonial Railway?

What are the explanations which this despatcher gave or can offer to the Superintendent for having so acted in violation of the regulations of the Intercolonial Rail way?

At what hour did this special passenger train—to which the answer given to this House on the 30th January last by the Government relates—leave Nicolet?

At what hour did it arrive at St. Léonard?

At what hour did it leave St Léonard again and at what hour did it arrive at Nicolet?

Did another special passenger train run between Nicolet and St. Léonard and vice versa on the 27th of December, 1906, the day of the election in the County of Nicolet?

If this train did run, who asked for it, who authorized it, what was the number of trips that it made between these two localities and what were the hours of departure and arrival for each of these trips?

What was the amount received for this special train?

No. 1.

February 6—That he will call the attention of the House to the following extract from the presentment of the grand jury at the Assize Court in its recent sitting at Toronto:—

"We are of the opinion that it is the duty of the Dominion Government to at once establish some system of inspection of our banking and other monetary institutions that will safeguard the investing public from deceitful and fraudulent statements issued by boards of directors, who apparently, in this institution, have been grossly negligent of their duty as trustees for the shareholders of the bank."

And the following reply of His Honour Justice Mabee :----

"His Lordship also referred to the fact that the grand jury had made a very timely suggestion in regard to the above matter, arising out of the failure of the Ontario Bank, and that undoubtedly the Government would step in and enact a law for the stricter inspection of banking institutions."

And will inquire if it is the intention of the Government to introduce a measure during the present Session of Parliament providing for an inspection of Canadian banking institutions?

No. 2.

By the Honourable Mr. Landry:-

February 7-That he will inquire of the Government-

Has the steamer *Montcalm* this year prevented the formation of an ice bridge on the River St. Lawrence, near Cap Rouge, and does the Government know that its ves-

sel has twice already just escaped being shut up in the ice, the accumulation of which, blocking the river in that locality, has thrown across a natural bridge between the two banks of the St. Lawrence?

Does the Minister of Marine and Fisheries intend to renew, next year, experiences which up to this day have only resulted in the most complete failure?

No. 3.

By the Honourable Mr. Landry:-

February 7—That he will move that an humble Address be presented to His Excellency the Governor General; praying that His Excellency will be pleased to cause to be laid before this House, a statement showing the names, christian names, age, and country of origin of all the persons who, coming from the British Isles, from English colonies or from other foreign lands, as strangers to Canada, have been placed, whether by Order in Council, by decision of the Militia Council, or otherwise, in any branch whatsoever of the military service of Canada, in the permanent force or in the volunteer force, together with the date of each of these appointments, the nature of the employment, the rank of the holder (before and after his appointment), and the yearly amount which he receives for his services.

"Hon. Mr. Scott—I understand they are making rapid progress with it (the French version). Additional translators are employed, and it is hoped it will be ready on the 1st January."

And will ask :---

The 1st January being now passed, is the French version of the Revised Statutes, 1906, ready?

If not, when will it be ready?

How many additional employees have been working at that French version?

What are their names, and how many days have they been employed to that work? When will the French version of the Revised Statutes, 1906, be ready?

No. 3.

By the Honourable Mr. Ferguson :---

February 6—That he will call the attention of the House to the following extract from the presentment of the grand jury at the Assize Court in its recent sitting at Toronto:—

"We are of the opinion that it is the duty of the Dominion Government to at once establish some system of inspection of our banking and other monetary institutions that will safeguard the investing public from deceitful and fraudulent statements issued by boards of directors, who apparently, in this institution, have been grossly negligent of their duty as trustees for the shareholders of the bank."

And the following reply of His Honour Justice Mabee :---

"His Lordship also referred to the fact that the grand jury had made a very timely suggestion in regard to the above matter, arising out of the failure of the Ontario Bank, and that undoubtedly the Government would step in and enact a law for the stricter inspection of banking institutions."

And will inquire if it is the intention of the Government to introduce a measure during the present Session of Parliament providing for an inspection of Canadian banking institutions?

No. 4.

Has the steamer *Montcalm* this year prevented the formation of an ice bridge on the River St. Lawrence, near Cap Rouge, and does the Government know that its vessel has twice already just escaped being shut up in the ice, the accumulation of which, blocking the river in that locality, has thrown across a natural bridge between the two banks of the St. Lawrence?

No. 5.

By the Honourable Mr. Landry:-

When was the dredge Galveston bought? From whom and at what price? When and where was it delivered to the Canadian Government?

Was it employed at once in the deepening of the River St. Lawrence, or was it necessary to cause it to undergo repairs or improvements that were thought necessary?

Where and when did these repairs take place?

Of what nature were they?

How long did they last, and how much did they cost?

Who is in command of this dredge, and how many persons compose the crew, properly so-called, and the staff on board?

How much did the keep of this dredge cost, as a daily average, during the last season, distinguishing from the ordinary cost of the work of this machine, and from its expenditure of coal, what the salaries of the crew has absorbed?

No. 8.

By the Honourable Mr. Landry:-

February 8-That he will inquire of the Government-

When did the dredge Galvesten commence to clean out and deepen the River St. Lawrence at the locality known under the name of the Beaujeu bank channel, opposite Crane Island?

What is the depth of the river at this place at ordinary low tide?

Is there another channel to the south of the Beaujeu bank?

What are its width, length and depth at ordinary low tide?

For how many days during last summer and last autumn did the dredge Galveston work?

For what extent and to what depth has the Beaujeu bank channel been deepened, and how many cubic feet of earth have been taken away?

Is the bottom of the river at this locality sandy, argillaceous, calcareous, with or without boulders, and of what nature are the sedimentary deposits and shingle, if there are any?

"We are of the opinion that it is the duty of the Dominion Government to at once establish some system of inspection of our banking and other monetary institutions that will safeguard the investing public from deceitful and fraudulent statements issued by boards of directors, who apparently, in this institution, have been grossly negligent of their duty as trustees for the shareholders of the bank."

And the following reply of His Honour Justice Mabee :---

"His Lordship also referred to the fact that the grand jury had made a very timely suggestion in regard to the above matter, arising out of the failure of the Ontario Bank, and that undoubtedly the Government would step in and enact a law for the stricter inspection of banking institutions."

And will inquire if it is the intention of the Government to introduce a measure during the present Session of Parliament providing for an inspection of Canadian banking institutions?

No. 1.

By the Honourable Mr. Ferguson :---

February 6—That he will call the attention of the House to the following extract from the presentment of the grand jury at the Assize Court in its recent sitting at Toronto:—

"We are of the opinion that it is the duty of the Dominion Government to at once establish some system of inspection of our banking and other monetary institutions that will safeguard the investing public from deceitful and fraudulent statements issued by boards of directors, who apparently, in this institution, have been grossly negligent of their duty as trustees for the shareholders of the bank."

And the following reply of His Honour Justice Mabee :--

"His Lordship also referred to the fact that the grand jury had made a very timely suggestion in regard to the above matter, arising out of the failure of the Ontario Bank, and that undoubtedly the Government would step in and enact a law for the stricter inspection of banking institutions."

And will inquire if it is the intention of the Government to introduce a measure during the present Session of Parliament providing for an inspection of Canadian banking institutions?

No. 2.

By the Honourable Mr. Landry:-

February 22-That he will inquire of the Government-

(b) the Bellechasse Islands lighthouse?

How much did the guns intended for the Beaumont batteries cost?

When did they arrive at Quebec?

Were they unloaded directly from the ship at Quebec, or was it necessary to take them to Montreal, and then bring them back again by railway to Quebec?

Why this roundabout way?

Where are they at present? At Beaumont or at Quebec?

If at Quebec, are they still on the wharfs or have they been unloaded?

Are they exposed to the air, or are they under shelter from its inclemencies, and what sort of building protects them against damp, rain or snow?

Your Committee have examined the following Petition:-

Of Donald McGillivray and others, of Port Colborne and elsewhere, incorporators of the Erie, Ontario Power Company; praying for the passing of an Act amending their Act of Incorporation, and find that the notices of publication of application to Parliament required by Rule 107, have only been published in the *Canada Gazette* twice; in the local newspapers they are also short. Your Committee, however, recommend that inasmuch as by the time the Bill can be considered by the Committee to whom it may be referred, the notices required by Rule 107 may be completed, and as it will be competent for the Committee to whom the Bill may be referred to provide that no injury to any party shall arise therefrom, the suspension of Rule 107 in so far as it relates to this Petition.

The Order of the Day being read for the consideration of the Message from the House of Commons, informing the Senate that they have passed an Address to His Most Excellent Majesty the King, humbly representing that it is expedient to amend the scale of payments authorized under Section 118 of the Act of the Parliament of the United Kingdom of Great Britain and Ireland, commonly called the British North America Act, 1867, to be made by Canada to the several Provinces of the Dominion for the support of their Governments and Legislatures; and requesting the Senate to unite with the House of Commons in the said Address, by filling up the blank therein with the words "Senate and."

On motion of the Honourable Mr. Scott, seconded by the Right Honourable Sir Richard Cartwright, it was

Ordered, That the same be postponed until Thursday next, and that it be the first Order of that day after the third readings.

The Order of the Day being read for the second reading of the Bill (127) intituled: "An Act to amend the Adulteration Act."

On motion of the Honourable Mr. Scott, seconded by the Right Honourable Sir Richard Cartwright, it was

Ordered That the same be postponed until to-morrow.

Pursuant to the Order of the Day, the Senate resumed the adjourned Debate on the motion of the Honourable Mr. David:—

That he will move that it is expedient to resolve that-

1. The Senate will insist upon the application of Section 92 of the British North America Act, 1867, in accordance with the spirit and true intent of that section, to the end that the exclusive powers of the Legislatures of the Provinces of Canada may be protected and preserved.

2. The Senate will not consider the mere insertion in a Bill of a declaration that a work is for the general advantage of Canada to be in itself sufficient foundation for the exercise of the legislative authority of the Parliament of Canada.

3. The Senate will not pass any Bill containing a declaration that a local work or undertaking is for the general advantage of Canada or for the advantage of two or more of the Previnces, unless the truth of that declaration has been proved.

4. The Senate will not consider the presence in a Bill of clauses relating to subjects within the legislative authority of the Parliament of Canada to be in itself sufficient reason for the enactment of other clauses relating to subjects not within that authority.

After Debate,

The question of concurrence being put on the said motion.

PRAYERS.

The Honourable Mr. Davis, from the Select Committee appointed to inquire and report from time to time as to the value of that part of the Dominion lying north of the Saskatchewan watershed, east of the Rocky Mountains, west and east of the Hudson's Bay, comprising the north parts of the Provinces of Alberta and Saskatchewan and the Mackenzie Territory, its extent of navigable waters, rivers, lakes and sea coast, and Ungava and Keewatin Territories, presented their Third Report.

Ordered, That it be received, and

The same was then read by the Clerk, and it is as follows :--

THE SENATE,

COMMITTEE ROOM No. 8, TUESDAY, 16th April, 1907.

The Select Committee appointed to inquire and report from time to time as to the value of that portion of the Dominion lying north of the Saskatchewan watershed and east of the Rocky Mountains, comprising the northern parts of the Provinces of Alberta and Saskatchewan, and the Mackenzie Territory, and the extent of navigable waters, rivers, lakes and sea coast contained therein; and also to similarly inquire and report from time to time as to the value of the portions of the Dominion west and east of Hudson Bay, including the Territories of Keewatin and Ungava, and the extent of navigable waters, rivers, lakes and sea coast contained therein, have the honour to submit their Third Report, as follows:—

Your Committee, in accordance with the authority delegated to it, sent for persons, papers and records bearing upon the subjects submitted for its consideration, and examined a number of gentlemen possessing special knowledge, through personal experience or otherwise, of the regions named as the special subject of inquiry.

It was decided before proceeding to the hearing of evidence, to, as far as possible, conduct the examination of witnesses according to a uniform system, and a schedule of subjects, in the following order, was decided upon :---

1. Agriculture.

2. Forestry.

3. Fisheries.

4. Minerals.

5. Climate.

6. Settlements.

7. Means of Communication.

The inquiry was not entirely confined to these subjects, much important information being obtained as to the geographical and physical features of the regions in question, the game to be found therein, the fur trade, &c.; but the preceding schedule served its purpose, broadly, as a guide in the conduct of the inquiry.

The shorthand report of the evidence thus obtained is submitted herewith, and your Committee has the honour to recommend that after the said Report of the evidence has been carefully edited, and to some extent condensed, the evidence being transposed from the form of questions and answers into that of direct narration, it be printed.

Your Committee desires to acknowledge the courtesy of all those gentlemen who have given oral evidence or in any other way assisted in the work of this inquiry.

Your Committee has the honour to very briefly draw attention to some of the important information regarding the resources of the Dominion's vast reserves of territory in the northeast and northwest obtained as a result of their investigations.

As to the Territory of Ungava, in the far northeast of the Dominion, the evidence given before your Committee tends to show that although there is some fairly good soil in the middle of the Labrador peninsula, and although vegetables are successfully grown at East Main River, Hamilton Inlet and other places, the climate is considered too cold for successful agriculture. The principal forest areas of the Labrador peninsula, and they appear to be extensive and very valuable, are in the Province of Quebec, but in Ungava the forest wealth, apart from large quantities of pulpwood, is confined almost wholly to the river valleys and the edges of the lakes. There are numerous magnificent water-powers, while the fisheries both inland and coast, but particularly the former, are susceptible of extensive development. Attention was particularly drawn in the evidence to the necessity of providing for the protection of the walrus in the Hudson Bay and Straits, as owing to the present wasteful method of conducting the walrus fishing industry three out of every four walruses killed are lost.

The mineral wealth of Ungava was shown to include lead, copper, mica, asbestos and iron. Southeast of Ungava Bay a belt of iron-bearing rock, probably 100 miles long and 200 to 300 miles wide was described, and the opinion expressed that in the future Labrador will furnish a large supply of our iron.

The fur-bearing animals of Ungava would appear to constitute a valuable asset of the Dominion, the evidence taken by your Committee tending to show that the best skins in the world, including marten, foxes, oters, mink, black bear and white bear, are obtained in Labrador.

Attention was drawn in the evidence to the deterrent effect upon the development of the country, particularly in connection with the great forest areas in the vicinity of Hamilton Inlet, of the uncertainty as to the exact extent of the jurisdiction of the Colony of Newfoundland from the Atlantic coast inland. Your Committee would respectfully draw the attention of the Members of the Government in this House to this subject.

As to the vast region west of Hudson Bay and James Bay, it tappears most natural to consider it in two divisions, one comprising the Territory of Keewatin, immediately bordering upon the great sheets of water just named; the second division extending from the western boundary of Keewatin to the Rocky Mountains, and including the northern portions of the Provinces of Alberta and Saskatchewan, the triangular portion of British Columbia east of the Rocky Mountains, and the great northern Territory of Mackenzie.

TERRITORY OF KEEWATIN.

The evidence goes to show that there are some considerable sections in the southern and western portions of Keewatin that promise to be of agricultural value, the climate there being fairly good for settlement, and summer frosts rare.

According to the evidence given before your Committee, there is north of Lake Winnipeg an area of from 5,000 to 10,000 square miles of country adapted to agriculture. Wheat has been grown successfully as far north as Norway House.

The inland fisheries of Keewatin are exceedingly valuable, while the mineral deposits are very promising. The Huronian rocks which occur at intervals carry good indications of minerals—copper, pyrites and different sulphides of that kind. Between Chesterfield and Fullerton there are deposits of iron pyrites, and some of these contain small deposits of gold. Those rocks have not been properly prospected, neither has a large area, near Front Lake, of norite rock, similar to those formations in which the nickel deposits of Sudbury occur.

THE GREAT MACKENZIE BASIN.

As to the vast region north of the Saskatchewan Valley and west of Keewatin, which may be broadly described as the Great Mackenzie Basin, thoroughly authentic and well substantiated evidence shows that that country is very much more valuable than was at one time supposed, and is capable of sustaining a very large and prosperous population. The settlements in this distant region, while, in comparison with its vast area, insignificant in number and extent, are important, as demonstrating practically and unquestionably the great possibilities of this territory as an agricultural and industrial country, and also as emphasizing the importance of exploring and surveying such areas as are likely to first attract the stream of settlement which is bound to set in before long.

According to one witness, who has had exceptional opportunities for familiarizing himself with the country and its resources, there is in the Peace River section of this country as much good agricultural land fit for settlement, and yet unsettled, as there is settled in Manitoba, Saskatchewan and Alberta to-day.

Mr. W. F. Bredin, Member of the Alberta Legislative Assembly, who resides at Lesser Slave Lake, and was examined before your Committee, after a careful computation, estimates the area of agricultural lands available in the unorganized territory of Mackenzie and in northern Alberta, say north of the 55th parallel of latitude, at not less than one hundred million acres.

At Fort Providence, latitude 62.30, about 400 miles north of Edmonton, splendid crops of excellent wheat, barley, oats, peas, and other vegetables are raised, while as far north as Fort Good Hope, within fourteen miles of the Arctic Circle, or latitude 66.16, some 970 miles farther north than the City of Edmonton, cabbages, onions, and other garden vegetables are raised.

The evidence goes to show that the comparative shortness of the summers in the northern regions is compensated for by the extreme summer heat and the length of the period of sunshine in the summer days.

The basin of the Athabasca River is declared to include much good soil, but being of higher altitude than the more northern region, the climate is somewhat precarious, and this particular district is believed to be better suited for ranching than for grainraising. The ranching industry, in a comparatively small way, has already been inaugurated.

The various sections of the Mackenzie Basin possess great forest wealth, the spruce areas in the north extending to the Arctic Sea.

The rivers and lakes of this region teem with fish of various kinds, and doubtless the inauguration of an important fishing industry depends upon the provision of a market by the opening up of communications or the influx of population.

There is an abundance of game, including an uncertain number of herds, of equally uncertain numerical strength, of the wood buffalo. These useful animals, being protected by law from injury by man, would probably increase in number but for the depredations of the timber wolves, which are declared by all having any experience of the matter, to kill off the buffalo calves as fast as the animals breed. The witnesses examined before your Committee, without exception, suggest a considerable increase of the bounty offered for the destruction of wolves, and your Committee strongly endorses the suggestion.

The mineral wealth of this region is undoubtedly considerable, including deposits of coal, oil, copper, silver, gold, native salt, sulphur, ochre, sand suitable for glass making, tar sands, &c., &c. The large area of oil sands, oil gum, or "asphaltum," as it is sometimes called, along the Athabasca, promises to be of great commercial value, and prospectors are now engaged, with costly equipments, exploring that neighbourhood for oil. It would appear that in view of the uncertainty as to the exact character of these deposits they demand the attention of the officers of the Government for the purpose of devising regulations for the security and proper exploitation of what appears to be a valuable national asset.

Although in the north the thermometer in the winter season registers low temperatures, the cold is much more bearable than far higher temperatures in countries where there is humidity in the atmosphere. There is said to be little or no difference between the climate at Lesser Slave Lake and that at Edmonton, 250 miles to the south. The Chinook winds blow as far north as Fort Providence, and for twenty-one days during last January it was not necessary to wear overcoats there. West of Peace River Crossing stockmen require to feed their cattle about seven weeks in the winter. East of that the snow is deeper, and cattle have to be fed a little longer. At Fort St. John, on the Peace River, they often sow wheat in March, and invariably in April. Last year at the same place they began cutting the wheat on the last day of July. Although, on account of the lack of means of communication, and the existence of considerable areas of unsettled land in the organized provinces to the south and east there is as yet no great influx of immigration, settlers have been going into the Mackenzie Basin country every year, particularly to the Athabasca district, and the few widely-scattered and small settlements are steadily, if slowly, increasing, while new settlements are being gradually established.

As to means of communication with the outside world, those living in this part of the Dominion look forward hopefully to the extension of railway facilities to give their products a route of exportation to the markets of the world. And the construction of railways northwards from the Saskatchewan Valley is being anticipated. The evidence also shows that the pioneer settlers consider that it would be of vast advantage to this region if direct rail communication with Hudson Bay could be provided and the practicability of the Hudson Bay water route to Europe established. In view of the importance attached by the people of this far western country to the subject of the proposed Hudson Bay route, your Committee devoted considerable time to its investigation, and heard much very important evidence bearing thereon, details of which will be found in the evidence submitted herewith. There is an admirable natural harbour, susceptible of improvement, at Churchill, at the mouth of the Churchill River.

The evidence taken before your Committee demonstrated forcibly the great extent and possibilities of the inland waterways of the Mackenzie Basin. There have been a few steamboats plying successfully for years on the longer stretches of the Mackenzie, the Peace, the Liard and the Athabasca rivers, and also on Lake Athabasca and Great Slave Lake. The striking fact was elicited that by the construction of two tramways of an aggregate length of about 20 miles, a continuous water and rail route of 3,000 miles of uninterrupted communication, the longest inland water route in the world, can be provided. The matter might well be made the subject of official examination.

RECOMMENDATIONS.

Your Committee has the honour to submit the following conclusions for the consideration of the Government:---

(1) That an effort should be made to settle as early as practicable the disputed boundary between Canada and Newfoundland on the eastern coast of Labrador.

(2) The the construction of a railway connecting existing railways with Fort Churchill, on Hudson Bay, would open up a large tract of land well fitted for settlement, as well as afford an additional outlet for the products of the west, and where settlements are now being made.

(3) That, in order the more thoroughly to determine the resources of the cultivable land of this district, and its forest and mineral wealth, exploring parties be appointed composed of men qualified to report as to the geological formations, the quality of the soil and its natural productiveness, the extent and value of the timber lands, and the navigability of the various watercourses which intersect this district.

Your Committee has the honour to draw attention to the fact that it appears that wheat and other cereals ripen as far north as Fort Providence, latitude 61.30, some 600 miles north of Edmonton. But, as travel in this region is confined to the main waterways, and settlement also clings to the main lakes and rivers, knowledge of the country is limited to comparatively narrow strips of territory, and consequently the information furnished your Committee is incomplete as to the exact extent of the wheat-bearing belt in the Peace River and Mackenzie River Basins. Moreover, it was not clearly established whether the arable quality of the lands throughout the whole extent of these two river-basins was uniform, as the evidence, for the reasons given, covered but a small part of the territory in question.

All which is respectfully submitted.

THOMAS OSBORNE DAVIS, Chairman. On motion of the Honourable Mr. Davis, seconded by the Honourable Mr. Wilson, it was

Ordered, That the said Report be taken into consideration by the Senate on Monday next.

PRAYERS.

The Honourable Mr. Scott, Secretary of State, presented to the Senate,—The following Extracts from Reports of the Committee of the Privy Council, approved by the Governor General on the 26th May, and 5th July, 1906, in pursuance of Section 8 of "The Yukon Territory Act."

Ordered, That the same do lie on the Table, and it is as follows :--

(Vide Sessional Papers, No. ..

The Order of the Day being read for the consideration of the Message of the House of Commons, informing the Senate that they have passed an Address to His Most Excellent Majesty the King, humbly representing that it is expedient to amend the scale of payments authorized under Section 118 of the Act of the Parliament of the United Kingdom of Great Britain and Ireland, commonly called the British North America Act, 1867, to be made by Canada to the several Provinces of the Dominion for the support of their Governments and Legislatures; and requesting the Senate to unite with the House of Commons in the said Address, by filling up the blank therein with the words "Senate and."

That the request sent up from the House of Commons for the return to that House of the Address to His Majesty the King, on the subject of the increased subsidies to the Provinces, be forthwith agreed to and returned to the House of Commons.

After Debate,

The Honourable Mr. Ferguson raised the point of order: That this motion is an unusual one and contrary to all known Parliamentary proceedure inasmuch as it does not state that any error has been made in the Address in question nor give any reason for the request.

His Honour the Speaker ruled, That as there is no particular formula laid down in the Rules of the Senate or in practice, for the drafting of a Message to be sent by one House to the other for the return of an Address such as the one in question, the point of order is not well taken.

The Honourable Mr. Ferguson raised a second point of order: That under Rule 70 no proceeding can be taken, this Message involving a public burden in the absence of a declaration by the Government that the Address referred to in said motion, had been recommended by a Message from His Excellency the Governor General.

His Honour the Speaker ruled that this point of order is not well taken because the motion has not for its object the taking into consideration of the Address referred to in said Message.

Then the question of concurrence being put on the motion, the same was resolved in the affirmative, and

Ordered, That a Message be carried to the House of Commons by one of the Masters in Chancery, returning to that House for further consideration the Address to His Most Excellent Majesty the King, which was adopted by that House on the 25th March last, and which was transmitted to the Senate on the 4th April instant.

Pursuant to the Order of the Day, the Senate proceeded to the consideration of the third reading of the Select Committee appointed to inquire on the value of that part of the Dominion lying north of the Saskatchewan Watershed, east of the Rocky Mountains, west and east of the Hudson's Bay, comprising the north parts of the Pro-

By the Honourable Mr. Landry:-

April 23—That he will inquire of the Government—

Does the Government know that the dry dock at St. Joseph de Lévis is of dimensions too narrow to permit the entering therein, in case of need, of vessels such as the Empresses of the Canadian Pacific Railway Company, or of the new turbine vessels of the Allan Company?

Is it the intention of the Government to obviate the inconveniences for the necessities of navigation which may result from the existence of a dry dock which is too small and useless, by the enlargement of the existing dock, or by the construction of a new dock of such dimensions that the largest vessels may enter it?

If a new dock is built will it be built in the suburbs of Quebec or of Lévis, at a place which is accessible to the largest vessels, even to those whose draught of water does not permit them to ascend the river above Quebec?

When does the Government propose to commence these works? Will it be this year? Next year?

Does the Government know that the dry dock at St. Joseph de Lévis is of dimensions too narrow to permit the entering therein, in case of need, of vessels such as the Empresses of the Canadian Pacific Railway Company, or of the new turbine vessels of the Allan Company?

Is it the intention of the Government to obviate the inconveniences for the necessities of navigation which may result from the existence of a dry dock which is too small and useless, by the enlargement of the existing dock, or by the construction of a new dock of such dimensions that the largest vessels may enter it? If a new dock is built will it be built in the suburbs of Quebec or of Lévis, at a place which is accessible to the largest vessels, even to those whose draught of water does not permit them to ascend the river above Quebec?

When does the Government propose to commence these works? Will it be this year? Next year?

No. 4.

By the Honourable Mr. Landry:-

April 25-That he will inquire of the Government-

Is it the intention of the military authorities to cause to be translated into French, and to distribute in opportune time before the next annual training, for the use of volunteers of French origin, the two pamphlets which are given every year in English to the volunteers of the country, and which embrace, one of them, the syllabus of the daily routine of the troops in camp (Camp Instructions), and, the other, the programme of military exercises varying every day, but settled in advance, through which those who take the training of the Canadian militia must pass?

No. 5.

By the Honourable Mr. Landry:-

April 25-Will inquire-

1. What number of qualified instructors can the different corps of the permanent force furnish at present to the volunteer militia?

2. Out of this number, how many instructors are there qualified to give the required instructions to volunteers enrolled—

(a) In the cavalry and mounted infantry.

(b) In the garrison artillery.

(c) In the horse and field artillery.

(d) In the infantry.

(e) In the school of musketry.

(f) In the engineers.

(g) In the army service corps.

(h) In the corps of guides and the corps of signallers.

(i) In the army medical corps?

3. Amongst all these qualified instructors, how many are there-

(a) Of French origin.

(b) Of other origin, but capable of giving military instructions in the French language?

No. 6.

By the Honourable Mr. Landry:-

April 25—Will call the attention of the Acting Minister of Militia to the following facts—

I.

On the 24th day of April, 1906, one year ago, Hon. Mr. Landry rose to direct the attention of the Government to the following clause of the Militia Act:---

74. The Army Act for the time being in force in the United Kingdom, the King's Regulations, and all other laws applicable to His Majesty's troops in Canada and not inconsistent with this Act or the regulations made thereunder, shall have force and effect as if they had been enacted by the Parliament of Canada for the government of the militia, and every officer and man of the militia shall be subjected thereto from the time of being called out for active service, and also during the period of annual drill or training under the provisions of this Act, and also at any other time while

upon military duty or in the uniform of his corps upon or within any rifle range or any armoury, or other place where arms, guns, ammunition or other military stores are kept, or any drill shed or other building or place used for militia purposes, or during any drill or parade of his corps at which he is present in the ranks, when going to or from the place of drill or parade, and also whether in uniform or not at any drill or parade of his corps at which he is present as a spectator.

2. Officers and men of the permanent force and members of the permanent staff of the militia shall at all times be subject to military law.

97. The regulations for the composition of courts of inquiry and courts martial, and the modes of procedure and powers thereof, shall be the same as the regulations which are at the time in force for the composition, modes of procedure and powers of courts of inquiry and courts martial for His Majesty's regular army, and which are not inconsistent with this Act, or the regulations made thereunder.

And inquired of the Government—

As the Army Act and the King's Regulations of the United Kingdom become, by these legislative enactments, laws and regulations having force and effect in Canada, does the Government intend, in the interest of the militia and for its better government, to provide each commanding officer of a division, of a brigade, of a regiment, of a squadron, of a battery, of a company, or of any corps whatsoever, with a copy, in the English version or in the French version, as the case may be, of these imperial laws and regulations?

If such is the intention of the Government, can the distribution of these books, which are indispensible since they are made imperative, be made before the date of the next training of the volunteer forces?

Can the French translation of these books be begun at once so that the officers of French origin may have the benefit of these laws and of these regulations at the same time s their English comrades?

Hon. Mr. SCOTT-The matter is receiving the consideration of the department.

II.

The Militia Act contains the following enactments:-

"126. The Governor in Council may make regulations for carrying this Act into effect for the organization, discipline, efficiency and good government generally of the militia, and for anything requiring to be done in connection with the military defence of Canada.

"127. Such regulations shall be published in *The Canada Gazette*, and, upon being so published, they shall have the same force in law as if they formed part of this Act."

III.

Chapter 2 of the Revised Statutes of Canada, which were in force from 1886 to 1907, enacts as follows:—

"9. The Acts of the Parliament of Canada shall be printed in two separate volumes, the first of which shall contain such of the said Acts and such Orders in Council and proclamations or other documents, and such Acts of the Parliament of the United Kingdom, as the Governor in Council deems to be of a public and general nature or interest in Canada, and directs to be inserted in the said volume, and the second volume shall contain the remaining Acts of the session, and shall be printed after the first volume; and copies of the said volumes shall be printed in the English and French languages respectively, by the Queen's Printer."

And that he will inquire-

Has ever the Governor in Council deemed it to be of a public and general nature and in the interest of Canada to have inserted in the volume containing our own laws that Act of the Parliament of the United Kingdom known as *The Army Act*, and which by our own Militia Act is declared to have force and effect in Canada? If so, when was such an Order in Council passed, and in what volume of our statutes is *The Army Act* to be found?

Has ever the King's Regulations in force in the United Kingdom been published in *The Canada Gazette*, as the obligation is imposed upon us for our own Canadian King's Regulations prior to their having any force in law?

If so, when did such publication take place, and in what number of *The Canada Gazette* is it to be found?

Is the Government now prepared after one whole year of consideration, to take the proper steps to have *The Army Act* and the *King's Regulations* in force in the United Kingdom, published in our country either in the Statutes or in *The Canada Gazette*, as the case may be, and to have them distributed to the officers commanding the different units of the Canadian militia, and will such a distribution be made before the date of the next training of the volunteer forces?

April 25-That he will inquire of the Government-

Is it the intention of the military authorities to cause to be translated into French, and to distribute in opportune time before the next annual training, for the use of volunteers of French origin, the two pamphlets which are given every year in English to the volunteers of the country, and which embrace, one of them, the syllabus of the daily routine of the troops in camp (Camp Instructions), and, the other, the programme of military exercises varying every day, but settled in advance, through which those who take the training of the Canadian militia must pass?

6-7 EDWARD VII,

No. 3.

By the Honourable Mr. Landry:-

April 25-Will inquire-

1. What number of qualified instructors can the different corps of the permanent force furnish at present to the volunteer militia?

2. Out of this number, how many instructors are there qualified to give the required instructions to volunteers enrolled—

(b) In the garrison artillery.

(i) In the army medical corps?

3. Amongst all these qualified instructors, how many are there-

(b) Of other origin, but capable of giving military instructions in the French language?

No. 4.

By the Honourable Mr. Landry :---

April 25-Will call the attention of the Acting Minister of Militia to the following facts-

I.

On the 24th day of April, 1906, one year ago, Hon. Mr. Landry rose to direct the attention of the Government to the following clause of the Militia Act:---

74. The Army Act for the time being in force in the United Kingdom, the King's Regulations, and all other laws applicable to His Majesty's troops in Canada and not inconsistent with this Act or the regulations made thereunder, shall have force and effect as if they had been enacted by the Parliament of Canada for the government of the militia, and every officer and man of the militia shall be subjected thereto from the time of being called out for active service, and also during the period of annual drill or training under the provisions of this Act, and also at any other time while upon military duty or in the uniform of his corps upon or within any rifle range or any armoury, or other place where arms, guns, ammunition or other military stores are kept. or any drill shed or other building or place used for militia purposes, or during any drill or parade of his corps at which he is present in the ranks, when going to or from the place of drill or parade, and also whether in uniform or not at any drill or parade of his corps at which he is present as a spectator.

2. Officers and men of the permanent force and members of the permanent staff of the militia shall at all times be subject to military law.

97. The regulations for the composition of courts of inquiry and courts martial, and the modes of procedure and powers thereof, shall be the same as the regulations which are at the time in force for the composition, modes of procedure and powers of courts of inquiry and courts martial for His Majesty's regular army, and which are not inconsistent with this Act, or the regulations made thereunder.

And inquired of the Government-

As the Army Act and the King's Regulations of the United Kingdom become, by these legislative enactments, laws and regulations having force and effect in Canada, does the Government intend, in the interest of the militia and for its better government, to provide each commanding officer of a division, of a brigade, of a regiment, of a squadron, of a battery, of a company, or of any corps whatsoever, with a copy, in the English version or in the French version, as the case may be, of these imperial laws and regulations?

If such is the intention of the Government, can the distribution of these books, which are indispensible since they are made imperative, be made before the date of the next training of the volunteer forces?

Can the French translation of these books be begun at once so that the officers of French origin may have the benefit of these laws and of these regulations at the same time as their English comrades?

Hon. Mr. SCOTT-The matter is receiving the consideration of the department.

II.

The Militia Act contains the following enactments:-

"126. The Governor in Council may make regulations for carrying this Act into effect for the organization, discipline, efficiency and good government generally of the militia, and for anything requiring to be done in connection with the military defence of Canada.

"127. Such regulations shall be published in *The Canada Gazette*, and, upon being so published, they shall have the same force in law as if they formed part of this Act."

III.

Chapter 2 of the Revised Statutes of Canada, which were in force from 1886 to 1907, enacts as follows:--

"9. The Acts of the Parliament of Canada shall be printed in two separate volumes, the first of which shall contain such of the said Acts and such Orders in Council and proclamations or other documents, and such Acts of the Parliament of the United Kingdom, as the Governor in Council deems to be of a public and general nature or interest in Canada, and directs to be inserted in the said volume, and the second volume shall contain the remaining Acts of the session, and shall be printed after the first volume; and copies of the said volumes shall be printed in the English and French languages respectively, by the Queen's Printer."

And that he will inquire-

Has ever the Governor in Council deemed it to be of a public and general nature and in the interest of Canada to have inserted in the volume containing our own laws that Act of the Parliament of the United Kingdom known as *The Army Act*, and which by our own Militia Act is declared to have force and effect in Canada?

If so, when was such an Order in Council passed, and in what volume of our statutes is *The Army Act* to be found?

Has ever the King's Regulations in force in the United Kingdom been published in *The Canada Gazette*, as the obligation is imposed upon us for our own Canadian King's Regulations prior to their having any force in law?

If so, when did such publication take place, and in what number of *The Canada* Gazette is it to be found?

Is the Government now prepared after one whole year of consideration, to take the proper steps to have *The Army Act* and the *King's Regulations* in force in the United Kingdom, published in our country either in the Statutes or in *The Canada Gazette*, as the case may be, and to have them distributed to the officers commanding the different units of the Canadian militia, and will such a distribution be made before the date of the next training of the volunteer forces?

After which His Excellency the Governor General was pleased to close the Third Session of the Tenth Parliament of the Dominion with the following Speech:—

Honourable Gentlemen of the Senate:

Gentlemen if the House of Commons:

In bringing to a close the Third Session of the Tenth Parliament of Canada, I desire to express to you my thanks for the care and assiduity you have shown in the discharge of your important duties, the results of which are apparent in many important Acts which must prove of great benefit to the country.

I am glad to observe that the fiscal period terminating on the last day of March was, in proportion to its length, the most prosperous in the history of the Dominion, and that the present indications are that the expansion of the country's trade and revenue will continue during the year that we are now entering upon; a fact that is particularly gratifying in view of the important undertakings to which Canada is committed.

The stream of immigrants entering the Dominion continues yearly to expand, and it is very gratifying to note that a larger number is coming from the British Isles than in former years.

The recent revision of the tariff will, it is believed, meet with the general approval of the trade, removing as it does many inequalities heretofore existing.

One of the most important of the subjects which have engaged your attention is that of the subsidies and allowances to be paid out of the Dominion treasury to the several provinces. I trust that the proposed changes in the Imperial legislation respecting which you have adopted an Address to His Majesty will, if enacted, go far towards removing the grievances of which the Provincial Governments have complained as to the insufficiency of their revenues.

The substantial aid now offered towards the establishment of cold storage should stimulate the erection of those necessary adjuncts for the preservation of perishable foods.

I have observed with gratification the passage of an Act having for its object the maintenance of industrial peace in all public utilities. This legislation has already been applied with success. It is confidently expected that when the provisions of the Act for the settlement of industrial disputes are fully understood, both employees and employers will be ready to refer their difficulties to Boards of Investigation and Conciliation and thus avoid the evils following strikes and lockouts.

The arrangements lately made between the Imperial and Canadian postal departments, providing for a substantial reduction on newspapers and periodicals coming from the United Kingdom, have, I am glad to know, been received with much satis-

faction as a measure likely to promote a freer communication between the Mother Country and Canada.

Gentlemen of the House of Commons:

I thank you in His Majesty's name for the liberal supplies you have granted for the public service.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In now relieving you from your duties let me express the fervent hope that when we meet again at the next session, an equally prosperous condition will prevail throughout Canada and in the meantime let us not forget to express gratitude to a kind Providence for the many blessings conferred upon our country.

THE SPEAKER of the Senate then said :--

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

It is HIS EXCELLENCY THE GOVERNOR GENERAL'S will and pleasure, that this Parliament be prorogued until Saturday, the first day of June next, to be here holden, and this Parliament is accordingly prorogued until the first day of June next.
