The State Guards the Gold of the Banks.

The World's articles on banking are instructive. First of all, because they bring out the facts. Nobody for years has made a popular exposition of the banking situation in Canada, and once the facts are presented changes are suggested. The interest is widening; newspapers are getting into the discussion.

A few days ago we told the story of our Dominion notes, how that out of an issue of \$113,000,000, not \$20,000,000 were in actual public circulation; that under the law creating such notes, the banks had taken advantage of it to compel the Dominion Government to take charge of their gold reserve, to guard it, to take the risk of it, and to be ready on a moment's notice to hand it back to them when the public called for bullion payments.

Taking care of gold is a risk and a cost; the banks have unloaded the task and the risk, as well as the cost, on the government. They simply take advantage of the law authorising the issue of Dominion notes, and say: give us of such notes for our gold and be ready to hand the gold back to us the moment we ask you. Instead of the bank treasuries with their big double doors of polished steel, and the lime locks, and one clerk checking another clerk, and two men shutting the door as a religious and solemn ceremony, containing big stores of bullion, there is mostly paper enclosed—the gold is ever the way in the appointed federal treasuries. Of course, the government makes nothing out of this transaction—there's in it is that the banks have turned over their gold to the Dominion, taken the Dominion's notes (as receipts therefor), and then looked up these Dominion notes in their treasury, where they are "dead and buried and embalmed" less a portion goes as counters in the clearing house. That is not a circulation of national notes by a considerable amount.

If ever a law was made inoperative, this is one. The banks do not like to see the state circulating its own notes, and they have a holy horror of the state having a postoffice savings bank, as for postal notes and postal money orders, these are works of Satan to the bankers. And yet, it is in this same state that creates and circulates the bank notes and gives them the enormous privileges they have. And Canada never had a minister of finance that had the courage to call the studied, persistent and unyielding for arrogances of the banks toward the state. All that must end: the day has arrived when the state proposes to be a partner, and a senior partner, perhaps, in the nation's banking business. This is a dreadful heresy, but we propose to preach it. The lecture bureau of the Bankers' Association needs to be reorganized.

Let us, however, come back to the Dominion notes legislation recently sponsored by The World. The Globe, an uncertain factor, has seemingly endorsed most of what The World said, and it now wants the law changed so that the state will make some money out of its notes, and that these notes be used to help meet the need of more currency. The Globe's article is good as far as it goes, but it looks a little like an effort to cripple the full effect of The World's proposals.

We are for a national note issue of \$100,000,000 in place of the \$100,000,000 of bank notes and \$20,000,000 of national notes now in use, having a gold reserve behind it of 25 per cent. The Globe wants \$50,000,000 of national notes with a 50 per cent gold reserve—an increase of \$20,000,000 in available currency. This is sea-breeze legislation, and would do little good. But it is a confession that the Globe, even in the estimation of that oracle, is moving on sound lines.

Our American contemporaries have heard from, and we may reproduce some of their opinions later.

WRECK DELAYS 'AD' CLUB TRAIN
ST. LOUIS, May 17.—(Special.)—The Toronto Ad. Club special train en route to Dallas, Texas, where the big convention will be held, was delayed here for five hours on account of a wreck at Fort Wayne, Ind. The delegates from New York, Minneapolis and Boston joined the Toronto crowd here. The rest of the trip will be taken up in elegant rehearsals preparatory to the convention, and also with 3 o'clock teas.

A PLAY THAT IS APPROPRIATE
The most exciting horse race scene ever woven into an Irish play is in the third act of Chauncey Olcott's new play, "Mauchua," which he will shortly present in this city. All the humor there of an Irish race track of nearly a century ago is depicted with rare fidelity by the author.

The Toronto Daily and Sunday World are now delivered to any address on the island. Residents or transient visitors can receive a copy of their favorite morning or week-end paper by telephoning Main 5308. Subscribers moving to the island for the summer or for a short stay can have their regular copy transferred without trouble.

WHAT THE MUTUELS WILL PROBABLY PAY

Seagram Stable Will Be Favorite at About \$5 for \$2, and Prices Will Range Down to Porcupine, Whose Odds Will Figure at \$500 to \$2.

One day before the race the Waterloo candidates forged their way to the front as favorites for to-day's race for the King's Plate, and whether the first choice will make good this afternoon remains to be seen. True, neither Rustling nor Havrook have shown the trials of Heresy, Trophoeum, Gold Bud or Amberite, but they have been seen doing 2.13 and finishing full of running. The Dymont pair will likely start second choice, with Gold Bud third in demand by the public. The races start at 2.30, with the barrier to rise at 4.30 for the King's Plate, the fifth on the card. An even dozen are left of the original thirty-five to go after the King's 50 guineas and the \$500 added money. The following is a table of owners, horses, weights, jockeys and what the mutuels will probably pay to win:

Owner	Horse	Weight	Jockey	\$2 mutuels will pay

DENSE CROWD MUTE AS ROYAL CORTEGE PASSED

Body of Danish King Borne to Church at Christiansborg Thru Streets Lined With Hundreds of Thousands of Loyal Subjects — Sons Walked Behind Hearse.

COPENHAGEN, May 17.—(Can. Press.)—The body of the late King Frederick VIII of Denmark reached the Danish capital to-day, and is now lying before the altar of the old Castle Church at Christiansborg. There it will remain until May 24, when it will be taken on its final journey to Roskilde, 19 miles from this city, and interred in the tomb containing the bodies of most of the former Danish kings in the spired church of that picturesque little town.

From Tolboen wharf, in the inner harbor of Copenhagen, where the royal yacht, Dampsbrog landed the body of the dead sovereign at noon to-day, on its arrival from Travemunde, the coffin was borne by 12 officers to a hearse which was in waiting. It was then conveyed thru the streets, lined with troops and filled with silent crowds, to the Church of Christiansborg Castle, King Christian X. of Denmark and King Haakon of Norway, with other male members of the royal family, walked behind. The queen mother, the new queen, and other women of the family, followed in state carriages.

Despite the military escort and the splendor of the guns the ceremonial was marked with extreme simplicity. The spectators appeared to be witnessing the grief of a private family rather than the obsequies of a monarch.

WALL BROKE WHERE OLD AND NEW WORK JOINED

First Crack Was Near Centre and Ran in Both Directions, Said One Witness — Candy Makers Testify to Vibration of Machinery — The Girls Complained of Dropping of Beams.

Another long session of the enquiry into the collapse of the south wall of the Nelson factory was held last night at the morgue, when a large number of witnesses gave evidence in regard to the cause of the accident. Examined by Mr. Greer, Charles Ferguson, an apprentice carpenter, who was injured when the wall collapsed, said that he was working around the boom of the derrick and was sitting on the wall when the disaster occurred. He could not remember any vibration, and in fact his only recollection was of being pulled out of the wreckage. The cause of the trouble was unknown to him.

Floors as Binders.
Ralph Platt, carpenter foreman for the Frank Armstrong Company, stated that he had used the hangers specified in the plans and he had fitted other buildings with them. In answer to a question witness admitted that if a number of joists had slipped out of a space binding them to the beams 14 feet north of the south wall it would cause the wall to bulge. The hardwood floor was to have acted as the final binding of the whole structure. While the first floors were being laid it rained on several occasions, and it was not unlikely that the lumber would swell, resulting in more pressure on the south wall. There were several tons of lumber piled on the different floors.

TO GET A PLAN OF OUTLYING DISTRICTS

All Property Within Five Miles of City Limits Will Be Contained in Map Which Will Take Three Years to Prepare—Diagonal Streets to Be Laid Out.

In order that the city might deal more intelligently with subdivisions outside the city limits and to facilitate the laying out of streets, and more especially diagonal streets, the works committee yesterday afternoon unanimously endorsed Ald. Chisholm's motion to get a plan made of all that district within five miles of the city limits. This work will be undertaken by the assessment department, and will take a large staff about three years to complete. The idea is to insure that the districts, which in time will probably be annexed to the city, are properly laid out. The works committee took no definite action yesterday, but decided to hold a special meeting next week when the diagonal streets proposition will be taken up.

Under a recent provincial act requiring all sub-divisions within five miles of the city to be submitted to the Ontario Railway Board for approval, the city can oppose any sub-divisions which have any objectionable features. It is for the purpose of getting more definite information so that a general policy might be outlined, that Assessment Commissioner Forman recommends that a survey be made.

Regarding the necessity of such a plan, Mr. Forman wrote to the committee as follows: "Almost every day plans are submitted of sub-divisions of land contiguous to the city, and it is necessary, if we are to avail ourselves of the authority granted under the City and Suburbs Planning Act to first decide upon the general lay out of the diagonal and other streets within our present city limits, and which are to be extended into the township. It would appear absolutely necessary that a survey outside the city limits be at once started and completed at the earliest possible date, in order that any future layout of a property may fit in with any proposed projected lines."

Mr. Forman recommends an interim appropriation of \$5000 to be expended upon a topographical survey for the purpose of locating the main arteries and diagonal streets. It was also suggested that some expert advice be obtained on the subject.

Debs a Presidential Candidate

LIQUOR FINES REACH \$3050

Twenty-seven Convictions Yesterday Against Keepers of Blind Pigs in Northern Ontario.

Twenty-seven convictions against "blind-piggers" in South Porcupine and Cochrane were registered yesterday. A cleanup campaign against the illicit liquor traffic carried on by Provincial Inspector George Morrison and a squad of constables brought about the above mentioned result. In the first ten convictions, which took place in a court in Porcupine, the fines imposed amounted to \$1850. In the other seventeen convictions in Cochrane the fines amounted to \$1200 in each case.

MANAGER GIVEN MANY PRESENTS

William J. Richardson, for the past twenty-one years manager of the Queen's Hotel, last night was made the recipient of several tokens of esteem on his severing his connection with the hotel on account of ill-health. He leaves to take the position of managing director of a large hotel at Penitence, B.C.

A testimonial and purse of \$1000 in gold was presented to Mr. Richardson by Wm. Gray of London, on behalf of the patrons of the house, many of whom were present. In addition, silver card cases were presented to be given to Mrs. Richardson and Miss Richardson.

A number of letters of regret from Sir Wm Meredith, Chairman Englehart of the T. & N. O. R. and many other well known Canadians from all over the Dominion were read.

HINDU PROFESSOR ORDERED TO LEAVE

Declares He is a "Scientific Reader," and Not a Fortune-Teller — Will Appeal Decision — Attributes His Arrest to the Jealousy of Rivals.

Prof. Calvin Braganza, M.A. of 682 Brock-avenue, a well-known scientific reader, was ordered to leave the country within a week's time or go to prison by Magistrate Kingsford in the police court yesterday afternoon. The professor was charged with fortune telling. As a result of the magistrate's decision he has placed his case in the hands of T. C. Robinette, K.C., and it will likely be appealed.

Prof. Braganza came to Toronto last January from Hamilton, Ont., where he had practised his profession for three years. He declared to The World that the complaint against him was made by jealous rivals, who were not properly qualified readers, but had taken objection to him because he was a Hindu.

Had Elle Clientele.
For a short time the professor practised at 27 Carlton-street, and only a few weeks ago he removed to the Brock-avenue house. On Monday Detective Bloodworth and W. A. Smith entered his house and presented the professor with a subpoena. To The World last night the professor said that he was a capable scientific reader, and was not a fortune teller. He said that he did not tell the fate or destiny of any of his customers. He had among his string of visitors some of Toronto's elite, including prominent society women of Rosedale. He said that in court he had in his possession his diploma, text books, charts and other literature of the science of psychology, and logical and other scientific, arts and sciences that he had mastered, but was unable to voice a plea or reference to the same.

Not Fortune Teller.
"At the time the officers who summoned me had their readings of their characteristics, disposition, temperament, hereditary tendencies, temperance, I also went as far as to define the difference between fortune telling and the science of psychology," said he. "I am not a fortune teller. I know that that is an offence, and besides has been nullified by 'repeal' in Toronto who took objection to him because he was a 'black' and had taken away a great portion of their trade."

Police Begin Campaign.
It is understood that the arrest of Prof. Braganza is the beginning of a campaign to be carried on by the moral department against fortune tellers, phrenologists, scientific readers and all others of the class. There are about 20 readers who advertise their trade, but there are many others who do not use the newspapers, but whose chief means of getting publicity is the spreading of cards in hotels, restaurants and the like.

CANADA IS READY IN IMPERIAL DEFENCE

Hon. W. T. White Says Five Nations in British Empire Are Getting Together, Not for Aggression, But for Defence, and Canada Will Do Her Full Share.

A successful house dinner to the Hon. W. T. White, minister of finance, and Mr. N. W. Rowell, K.C., leader of the opposition in the Ontario Legislature, was given by the National Club last night. The president, W. E. P. Gundy, presided.

Hon. Mr. White dealt with the position of Ontario in the empire, and especially the position that Canada would bear in the future, not merely as the half-way house of the empire, but as a binding force holding together the portions of the empire to the eastward and in Asia. In his closing remarks Hon. Mr. White said: "At present the world is at peace. Let us hope it will remain so. In order to maintain peace it is necessary to be strong, and that is the reason the five nations are getting together, not for aggression, but for defence. That the parliament and people of Canada will be prepared to do its full share in the matter of imperial defence, I entertain no manner of doubt."

What of the Future?
What will be the further future, under what federal system shall the empire be federated, I shall not attempt to forecast, but it seems to me to present no insuperable difficulty. It will be a matter of growth, of development, as is always the case with the British race. Distance is fast becoming annihilated. Halifax is nearer to London than to Vancouver. What more ultimate difficulty in federating the empire than in federating Canada or the United States? The statesmanship of the empire will, I believe, be always equal to the empire's needs. What place in that later and greater empire will Canada hold? We are the eldest son to-day. We have the territory, the resources, the situation. Look at the globe. Canada is the centre of the empire. Will she not in numbers, wealth, power and influence, be the very heart of the empire in days that are to come?"

Mr. Rowell's Speech.
Mr. Rowell, taking his theme from the Canada First party, to provide a local habitation for which the National Club was formed, raised a laugh by pointing out that one of the planks was the representation of minorities. He called upon the members of the club to rally for that plank, which would be a source of strength to the opposition leader. A plank that his friend, Mr. White, would appreciate, whatever he had been his attitude toward it before last October, was that which proposed reconstruction of the senate.

Mr. Rowell then turned to his subject which was the development during the past two decades of the organization of the empire.

In eloquent words he portrayed the historic meeting of Lord Kitchener and General Botha as members of the Council of Imperial Defence. Both were there to plan for the defence of the empire, the they had met last as foes in the field in South Africa.

Unity of Empire.
Mr. Rowell showed how the Imperial conference and imperial council of defence and the improvement of imperial means of communication and the creation of imperial citizenship, and an imperial court of appeal were gradually making for the unity of the empire. One flag and one king were the centre of that organization. Autonomy of the dominions and co-operation in the concerns of the empire was the way of progress. Mr. Rowell, in closing, expressed very great satisfaction over Mr. White's announcement regarding imperial defence.

MAY ASK PEOPLE TO VOTE ON BUS BYLAW

Mayor Geary Thinks Three-Motor Route for Rosedale is Poor Beginning, and Wants More Extensive System — Repairs to Neilson Building — Titanic Relief Fund Closed

Instead of the proposed Rosedale bus line of three motors, Mayor Geary advocated at the meeting of the board of control yesterday morning that the city should go into the matter on a larger scale and that the people should be asked to vote a substantial sum for this purpose next January. His worship was of the opinion that a three-bus line would not even serve as an experiment, and he moved that the city engineer be asked to report as to the number of motors and routes necessary to give a fairly good service. The motion was passed.

The idea of a 20-minute service exclusively to Rosedale did not appeal to the mayor at all. He did not see why other sections of the city should be discriminated against in this way. Again, he argued that either the success or failure of such a small service would not justify the city either abandoning or enlarging their policy. It was desirable, he said, to go into the matter on a large enough scale to furnish some real competition to the street railway.

The matter was brought up by W. C. Chisholm, who is acting for the English firm which will place 76 motor buses on the city's streets in the near future. Mr. Chisholm asked for a conference with the board before anything was decided regarding the Rosedale bus line, and the board agreed.

The Neilson Building. S. G. Beckett, the architect, appeared before the board with five building experts who, he said, were ready to certify that the remaining portion of the Neilson building was not defective. They were desirous of going ahead with the repair work at once, but the city architect would not permit this, altho the inspectors had claimed that there was no reasonable objection. City Architect McCallum was called and he said that the board had given him instructions not to permit the repair work to go on until he could guarantee that the building was safe. He objected to the word "guarantee." Mayor Geary, however, said that the board only wanted the architect to be satisfied that the building was substantial, and if this were the case he saw no reason for any delay. It was finally decided that Mr. McCallum should hear the expert advice which had been provided.

For City Engineer. Controller Foster moved "that advertisements be forthwith inserted in the daily newspapers and engineering journals for applications for the position of city engineer, who will be head of and have entire supervision over the present department of works and waterworks." The motion does not provide for any general manager of the department, but it was carried by the board.

Titanic Relief Fund. The board agreed that it was time the contributions to the Titanic fund had been sent to the Lord Mayor's Mansion House Fund in London. His worship was not pleased with the criticism emanating from the Toronto Street Railway to the effect that the city's contribution of \$500 was too little. Toronto had given as much as the City of London, he said, but he had yet to be informed of any contribution coming from the Street Railway Co.

A letter was read from acting City Engineer Powell denying Aid. Yeoman's statement that 7,000,000 gallons of water a day was entering the concrete pipe between the pure water reservoir and the intake pipe. He admitted, however, that some sand had leaked into the pipe, but this was only a very small quantity. In discussing the waterworks plant controller decided to ask the engineer to have everything ready to empty the pure water reservoir for the examination by the experts. It was also decided that the board should make an independent examination.

FOR CONVENIENCE OF MUSKOKA COTTAGERS. Special Boat Service May 24th From Lake Joseph. Cottagers going up to Muskoka over the holiday should take advantage of the special boat service arranged by the Canadian Northern from Lake Joseph on May 24, enabling them to reach all points in Lakes Joseph and Rosseau early in the afternoon. This will give them plenty of daylight to open up cottages in comfort.

SALE OF PLAYER-PIANOS. Any one with a thought of buying a player-piano should see the special line of slightly used instruments that Heintzman & Co. Best Field on Record for To-day's King's Plate

POP CALLS 'EM ONE-TWO-THREE

Heresy, Rustling and Gold Bud, With Amberite, Tropaeolum and Havrock the Dangerous Contenders.

There probably never was a King's Plate run about which there was so much doubt as there is in regards the race to be decided to-day. In former years there have been one or two, perhaps two or three, one of which was virtually a certainty. This year any one of half a dozen may catch the judges' eye first at the finish. At that the greatest surprise of all may happen, and a colt or a filly at the end run away from the others. There has really been no opportunity to estimate the closeness of the principal entries, performed with a good deal of weight up in 212 or thereabouts. Then, when somebody has shown a trial, the weather has proved decidedly adverse. Within the recollection of the under-studied, and it extends over 40 years, there never has been so irregular and so unpromising a season as the present. While all this is true, it is a fact that the horses that are to compete for the King's Plate this afternoon are the best-looking lot on the average that ever faced the flag of the barrier. This is not to say that among them is the speediest on record, but so many good ones, so many that look like going on, have never been lined up at the start for this province-bred maiden race.

Next year, when winning 2-year-olds will be allowed to compete, there will be some line between which to draw. So far as the present likelihoods are concerned there is no definite line whatever to go upon. The situation has been woefully aggravated by the irregularity and general severity of the weather. An Uncertain Race. Hardly on one day have the conditions been favorable for an absolute trial as to the real merits of any of the candidates. However, it seems certain that the race has narrowed itself down to a contest between the Brookdale pair, Heresy and Tropaeolum, Amberite, the Seagram pair, Rustling and Havrock; Mr. Davies' Gold Bud and the German pair, Calumny and Mary Bud, both the latter being the product of Mrs. Livingston's stable. The weight of performance in work is in favor of the Brookdale Stable. Amberite has shown speed, and on a straight course would probably excel all the others, for she has a big open stride that carries her over the ground with much ease and accomplishment. Unless Sweezy yet rides with the greatest judgment she will have the head of the stretch in a straight going in front of her. If she doesn't win outright she will come in second to do so, but the fear of this result is in her ability to safely round the turn. Mr. Seagram has what, in King's Plate affairs, might be termed a veteran in Havrock, seeing that he has strength in the race before. He has strength and a certain amount of ability, and may prove advantageous on the account especially if the weather be bad. Mr. Seagram's Rustling has both speed and looks, with a pedigree that has big open expectations. She is the granddaughter of Doncaster and other famous horses have come, and she has the additional advantage of the sire's side in connection with the famous Agnes family. On the dam side she carries the best blood in America, with that of England. Her granddam is imported death of his nominator, was believed to have an exceptional chance of winning the Epsom Derby by the other classic races of Great Britain. She also possesses in direct line the blood of the short, if blood and pedigree could force Rustling to be there. Still, the pedigree-essentially is an index to the probability of thorough horses could be proven a marvel in blood.

Gold Bud and Heresy. Mr. Davies' Gold Bud is not lacking in any of the parts that justifies expectation. She, on the strength of her own merits, is a stoutly built mare and has done everything that has been asked of her without effort or apparent sign of dis-

It is consistent work warranted success, Gold Bud would achieve it. Heresy's pedigree justifies the expectations that will continue to the end. The Sains are all good performers, in mud especially, combining the very best blood of modern day, namely that of St. Simon and Galopin, to a marked degree. On the dam side he comprises beyond a doubt to an exceptional extent the best blood that America has ever known, including that of Ham-burg, Hanover, Lady Reel (once owned in Canada), Luke Blackburn and imported Great Tom. Between Heresy and Rustling it would be difficult to say which has the best right to recognition. The other Brookdale representative, Tropaeolum, can hardly claim so favorable an ancestry, but he has been faithful in his work and warrants the expectation that if not a winner himself, he will be useful in the race to his stable companion.

The German pair, Calumny and Mary Bud, can be spoken of with almost equal emphasis as regards pedigree to those preceding. Imported from Great Britain, both of them, has in his veins the best blood in the English stud book. On the dam side Calumny is more intimately related to America than Mary Bud, the latter having for almost immediate forebears such famous English sires as Isomby, son of Sterling, Windlock, a Legor winner, Hermit, the magnificent Derby winner in 50 years, and others of almost equal renown.

The Outsiders. Of the other likely competitors, Jane Shore, Le Dix and Gaiety, it does not appear necessary to take serious account. Summing up the situation, I am disposed to regard the final result as between Heresy, Rustling and Gold Bud, with Amberite, Tropaeolum and Havrock will be in close attendance with Calumny and Mary Bud not far off. Briefly, it appears to me that never were in the history of Canada eight horses of such nearness in ability to be so likely to compete in the King's Plate this afternoon. After what has been said, it is hardly necessary to state that the octet referred to is Heresy, Rustling, Gold Bud, Tropaeolum, Amberite, Calumny and Mary Bud, and Havrock. It has happened that the wisest have chosen prior to the event all but the actual winner. He has strength and a certain amount of ability, and may prove advantageous on the account especially if the weather be bad. Mr. Seagram's Rustling has both speed and looks, with a pedigree that has big open expectations. She is the granddaughter of Doncaster and other famous horses have come, and she has the additional advantage of the sire's side in connection with the famous Agnes family. On the dam side she carries the best blood in America, with that of England. Her granddam is imported death of his nominator, was believed to have an exceptional chance of winning the Epsom Derby by the other classic races of Great Britain. She also possesses in direct line the blood of the short, if blood and pedigree could force Rustling to be there. Still, the pedigree-essentially is an index to the probability of thorough horses could be proven a marvel in blood.

Gold Bud and Heresy. Mr. Davies' Gold Bud is not lacking in any of the parts that justifies expectation. She, on the strength of her own merits, is a stoutly built mare and has done everything that has been asked of her without effort or apparent sign of dis-

Johnson Waits For Jennings' Statement

Detroit Players Threaten to Strike if Cobb is Not Reinstated, But Ban Refuses to Talk.
PHILADELPHIA, May 17.—Eighteen of the Detroit players met in secret conference and signed an agreement to stand together and refuse to play after to-day unless Cobb is reinstated. The telegram to President Johnson followed at 10:30. Manager Jennings this afternoon, just as the game started, said:
"The suspension was not warranted. I am in the hands of my friends. If they refuse to play I will finish away down in the league race. I expect Mr. Johnson to reconsider the matter, (the Cobb of announce definitely the length of Cobb's suspension).
ALBANY, N.Y., May 15.—Ban Johnson, president of the American League, had not received the telegram of the Detroit players relative to 77 Cobb's suspension up to the time he arrived here at 6:40 tonight from Boston on his way to Cincinnati. He evinced much interest when informed of the action of the players.
"This is the first intimation that I have had of the action of the Detroit players," said Mr. Johnson. "I wired Mr. Jennings, manager of the Detroit team at Philadelphia to-day to send me his version of the New York episode. This, I expect to receive in Cincinnati tomorrow morning. He evinced much interest when informed of the action of the players.
"There may be some justification for Cobb's complaint against his suspension, but until I receive Jennings' statement I cannot say what action I will take. However, the action of the Detroit players will have no influence on my decision as the American League has from its inception been strongly against rovingism on the ball field.
"When I receive Jennings' statement I shall go over the entire matter and may have something to say at that time. I was a spectator at the game and witnessed the affair for which Cobb was suspended."

For Eaton Field Day
A. A.
The annual meeting of the Lake Shore Lawn Bowling Association took place at Cobourg on Wednesday afternoon in Todd's parlors.
It was decided to change the system of competing for the Eaton Trophy, and to adopt the challenge system. The season will open with a bowling tournament, to be held at Cobourg as soon as the green is ready to use. Each club will send two rinks. The winners at the tournament will hold the trophy, and they must defend it on their own green whenever they are challenged. The clubs in the league will have the right to challenge the holders once a week, and to do so in order, such order to be decided by a draw. Through the season the winners hold the trophy until they are beaten, and at the end of the season the club which has won it the greatest number of times will hold it until the next season. The Cobourg Club wish it to be known that they need a larger membership.

Scoring Five Goals Eatons Beat Barracks

Eatons beat Stanley Barracks at the Eaton grounds in the eighth section of the T. & D. League by a goal to 5. S. Banks had charge of the team. Eatons had rather a rough opening in the exchanges and, after severe pressure, threw in three goals. The initial goal was scored by Ed. Gaspard, and a shot from the same player carried a ball off a back and went into the net for Eatons' third. In the second half play was more even, the visitors making determined efforts to score but with a solid defence. Eatons came again and Ed. Gaspard scored with an unsaveable shot. Worral added a fourth from a corner. The game was closer than the score indicates, but the Eaton store team was the cleverer combination throughout.

National League Scores.
At Cincinnati--Boston took the final game of the series here, 6 to 4. Dickson was effective until the ninth, when Marston's single, Baker's triple and Hohl's sacrifice fly tied the score. In the tenth, however, with two men on bases, Sweetney tripled and scored a runner. Atter of Miller's single. Gaspard was hit repeatedly when his team ran. Score: R. H. E. Cincinnati..... 0 2 0 0 0 1 0 2--4 Boston..... 0 2 0 0 0 1 0 5--9 Batteries--Dickson and Kling, Giaman and McLean.

At Pittsburgh v. New York, postponed; rain.

At Chicago--Philadelphia hit the ball when this meant runs and won the final game of the series from Chicago, 7 to 1. Score: R. H. E. Philadelphia..... 0 0 2 0 0 2 0 7--7 Chicago..... 0 0 2 0 0 2 0 1--4 Batteries--Brown, McIntyre, Riethe, Cole and Archer. Alexander, Boston and Donovan.

At St. Louis--In a game featured by heavy hitting and erratic fielding and pitching, Brooklyn won from St. Louis, 13 to 5. Catcher Murphy made his debut with the locals. Erwin and Konechky secured home runs. Score: R. H. E. St. Louis..... 11 0 1 1 0 0 3--11 Brooklyn..... 12 1 1 9 0 1 2--13 2 Batteries--Erwin, Dole, Woodburn, Harmon and Wingo and Murphy; Yinsling and Erwin.

T. R. H. the Duke and Duchess of Connaught give a dinner at Benvenuto this evening.

Private cars for the Woodbine will leave Front-st. at 1.20, 1.25, and 1.30 to-day, calling at the King Edward five minutes later.

T. R. H. the Duke and Duchess of Connaught entertained the Rt. Hon. R. L. Borden, Mrs. Borden, his excellency the Lieut.-Governor of Newfoundland, and Mr. Fitzherbert at dinner last night, the two latter having arrived in town for the ball last night and the races to-day. At luncheon the guests invited to Benvenuto were: Hon. Alan and Mrs. Aylesworth, Hon. J. K. and Mrs. Kerr, Mr. and Mrs. David W. Alexander, Mr. and Mrs. J. S. Williamson and Mr. and Mrs. J. Ross Robertson.

The luncheon given at the Ottawa Hunt Club by Lt.-Col. J. W. Woods, vice-president of the Ottawa Horse Show, and president of the Hunt Club, for the judges and exhibitors of the horse show, was a very great success. The guests included: The royal party, Gen. Loeward, Hon. Clifford and Mrs. Sifton, Miss Mollie Maclean, Toronto; Hon. Adam and Mrs. Beck, Mr. and Mrs. McElroy, Capt. Walker Bell, Miss Wilkes of Galt, and others.

At the ball given by the York Club last night in honor of T. R. H. the Duke and Duchess of Connaught, the decorations were artistically carried out on a most elaborate scale, every room being done with different colored tulips, and the ball room with quantities of pink roses and carnations in hanging baskets mingled with ferns and palms. Eighty-five tables were arranged in a marquee for supper, the table of honor done with Richmond roses in silver and cut glass, and the smaller tables with baskets of spring flowers. A splendid orchestra played the latest music, and in addition a program was rendered upstairs by the Hamburg Trio. The following danced in the set of honor: H. R. H. the Duke of Connaught, H. R. H. the Duchess of Connaught, H. R. H. the Princess Patricia of Connaught, Sir Edmund Osier, Sir Edmund Walker, Lady Walker, Colonel Lowther, Miss

Pelly, His honor the Lieutenant-Governor of Ontario, Lady Gibson, Sir Wm. Meredith, Mrs. J. K. Kerr, Mr. and Mrs. R. L. Borden, Mr. and Mrs. W. D. Matthews, H. R. H. the Duchess of Connaught was wearing a graceful gown of jetted net with pearls and diamond ornaments and a number of orders; H. R. H. Princess Patricia wore white crepe de Chine with real lace and pearls; Miss Pelly was in white tulle brocade with a pattern in velvet, and Miss Adam wore white charmeuse; Mrs. R. L. Borden was in a delicate shade of blue brocade with diamonds and pearls, and carried a sheaf of sweet peas and mignonette; Lady Gibson in pale grey satin gown veiled with black chiffon diamonds, and carried the bouquet presented by the U. C. C. boys; Miss Eugenia Gibson looked pretty in white satin with pearls, and Miss Meta Gibson in rose satin embroidered in platinum; Mrs. Geary looked very handsome in white and black striped tulle over white satin with a bouquet of lavender orchids.

Miss Virginia Von Hugel is visiting Mr. and Mrs. Walter Beardmore at their present home in Rosedale.

The annual luncheon of the United Empire Loyalists was held at McConkey's yesterday, when the guest of honor was the Rt. Hon. R. L. Borden, who made a delightful speech, other speakers being Col. Sterling Ryerson and Col. George T. Denison. The tables were set in the artistically decorated rose room and the flowers were daisies and red tulips, small Union Jacks being used for place cards.

The president and members of the Canadian Military Institute have issued invitations for 1.30 this afternoon on the occasion of H. R. H. the Duke of Connaught laying a corner stone for an addition to the present building.

Owing to the rain the sports at Upper Canada College were postponed from yesterday afternoon to the first fine day next week, but during the afternoon a number of the boys called at government house, College-street, and presented Lady Gibson with the beautiful bouquet of pink roses, which had been prepared for her.

Mr. and Mrs. Northrup of Belleville are in town for the races.

There will be a concert after dinner at Benvenuto next Tuesday evening, at which the following artists have been commanded to appear: Mr. Dan and Mr. Boris Hämberg, Mme. Innes Taylor, Miss Grace Smith, Mr. Russell McLean, and Mrs. Gerald Barton.

The trustees and officers of the Toronto General Hospital have issued invitations to the closing exercises of the thirtieth graduating class of the School for Nurses, to be held in the amphitheatre of the hospital on Friday afternoon, May 21, at half past 4 o'clock. HOW TO FIGHT WHITE SLAVE TRAFFIC

W. A. Coote Says Two Great Agencies of Philanthropy and Officialdom Could Accomplish Great Things--All Societies Interested Will Meet Wednesday Afternoon.

Methods of fighting the white slave traffic were discussed by W. A. Coote, secretary of the British Vigilance Committee, at a special meeting of the Local Council of Women in the city hall yesterday afternoon. The speaker wished it distinctly understood that his visit here was not because Canada was behind the times in the fight against this evil, but that there was anything wrong with the morals of this country. On the contrary he had been much impressed with the appearance of the cities here, but Europe needed Canada's co-operation in combating a great social evil which exists everywhere.

The best method of prevention was the best method of attacking the traffic. This could be accomplished best by the co-operation of two great agencies: philanthropy and officialdom. The police were a great force against this evil, but they needed the aid of organized charitable institutions. These forces, united with concentrated action, were in the experience of European countries most successful in fighting this evil. The greatest asset to any country was pure womanhood and holy motherhood, and it was to conserve this that the world-wide war against the white slave traffic was being waged.

Local Organizations. The speaker suggested that local organizations throughout Canada united into one great federal body was the best way to deal with this problem. The people in the United States were slow to realize the necessity of such a campaign, he said, but when they did they carried on the conflict with such spirit that they were eclipsing the European countries in their zeal.

At the conclusion of the address it was decided to hold a conference with other societies interested in the matter at Eaton School next Wednesday afternoon at three. At four Mr. Coote will give an address to the gathering. Before closing Rev. Dr. Eakin moved a vote of thanks to the speaker. Mayor Geary occupied the chair.

CLEARING OF HIGH-GRADE UP-RIGHT PIANOS.

This is the season of the year when a big concern like the old firm of Heintzman & Co., Limited, 150-152-154 Yonge-street, call in pianos from rental and others that are in the hands of colleges, conservatories and music teachers. The firm have to-day about one hundred and fifty upright pianos, that have come into their hands in this way. They have all been thoroughly overhauled by their own workmen and are guaranteed in first-class condition. One has the choice of some of the best known makers of upright pianos at prices about half the regular price, and any piano will be sold on payment of a small sum down and a trifle each month. The opportunity is a rare one to buy a high-class piano at a nominal price and in a way that makes it possible for anyone to own a piano.

Miss Haswell's Season Opens Monday. On Monday evening, Miss Percy Haswell will make her third season's initial bow at the Alexandra Theatre to Toronto audience. The outlook for next week's business is exceedingly satisfactory to Miss Haswell, as well as her many friends. This favorite actress will be seen to advantage in the title role of "Lady Frederick," a three-act comedy by W. Somerset Maughan, author of "Mrs. Dot," "Jack Straw," and other successes. "Lady Frederick" was the first of Mr. Maughan's comedies to receive production in London, where it enjoyed a most remarkable success. Its action is of the present time, and it might be described as a comedy of manners and "advantage" in the title role of "Lady Frederick." Next week matinees will be given on Wednesday, Friday (Victoria Day) and Saturday. The prices during Miss Haswell's summer engagement, will be: Evening, 25c, 50c and 75c. Saturday matinee, 25c and 50c. Wednesday matinee, all seats 25c.

AWFUL NERVOUSNESS AND PARALYSIS CURED BY "FRUIT-A-TIVES"

The Miracle Worker, That Cures When Doctors Fail—Now Used In Thousands Of Homes In Every Section Of Our Great Country.

Two Men, From Widely Different Parts Of Canada, Tell How They Found Health and Happiness By Taking Those Wonderful Fruit Juice Tablets.

MR. ALEX. McCARTER.

Walkerton, Ont., May 9th, 1911. "I have been in Walkerton in business for a good many years and many of my townsmen know that my health, for long periods, was precarious. My trouble was extremely nervous, brought on by indigestion or dyspepsia, from which I suffered in its most severe form. It was so bad that I could not sleep before about four in the morning. I noticed in The Toronto World one of your published testimonials of how someone had used "Fruit-a-tives" for similar trouble, and asked Mr. Hunter, my druggist, his opinion on the matter and he advised their use. I immediately procured several boxes and I am pleased to say that I now enjoy splendid health and could not possibly feel better. I can deal with every degree of satisfaction, and sleep without an effort, which pleasure I was denied before I was fortunate enough to use "Fruit-a-tives." I strongly advise anyone suffering from like complaints to commence using "Fruit-a-tives" immediately. Don't stop at a few doses—but continue using "Fruit-a-tives" until a cure is accomplished."

Walkerton, Ont., May 9th, 1911. "I am unable to say enough in favor of "Fruit-a-tives," as it saved my life and restored me to health when I had given up all hope and when the doctors had failed to do anything more for me. I had a stroke of Paralysis in March, 1910, and this left me unable to walk or help myself, and the consumption of the bowels was terrible. Nothing did me any good and I was wretched in every way. Finally, I took "Fruit-a-tives" for the constipation, and it not only cured me of that trouble but gradually this fruit medicine toned up the nerves and actually cured the paralysis. Under the use of "Fruit-a-tives" I grew stronger and stronger until all the palsy and weakness left me. "I am now well again and attend my store every day and all day. I frequently say "Thank God" for "Fruit-a-tives."

Bristol, N.B., July 26th, 1911. "These two cases show the wonderful powers of "Fruit-a-tives" in restoring a shattered nervous system to health and vigor—in entirely curing obstinate constipation—in completely relieving indigestion and dyspepsia. What other one medicine in the whole world has ever done so much? "Fruit-a-tives" cures. It is the only medicine in the world actually made from fruit with the addition of valuable tonics. It is pleasant to take and will always give the most gratifying results when taken regularly. 50c. a box, or \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives, Limited, Ottawa.

ALVA PHILLIPS. "I am now well again and attend my store every day and all day. I frequently say "Thank God" for "Fruit-a-tives."

5 YEARS' THROAT TROUBLE AND INFLUENZA CURED

EMINENT DOCTORS FAILED TO CURE—HAD GIVEN UP HOPE.

This Case Does Prove That When Catarrh is Breathed Every Trace of Catarrh Disappears.

MILFORD HAYEN, Da., May 17.—Everyone in this neighborhood knows of the long suffering from influenza and catarrh endured by Mrs. D. Gurney. To-day she is well. Her recovery is due entirely to Catarrhose. This is her own statement: "I was a great sufferer from catarrh in the head, throat and nose, and endured the manifold tortures of influenza for five years. My life was despaired of. Catarrh was undermining my strength very fast. I used treatments from eminent doctors, but all failed to cure me. I had given up hope of ever being well. Then I read of a wonderful cure made by Catarrhose. Immediately I sent for Catarrhose and before I had used one bottle I was greatly relieved. To-day I am cured. "We would not be without Catarrhose in our home—it's so sure in colds, coughs, bronchial and throat trouble. I feel it is my duty to publicly recommend Catarrhose."

Get the large dollar size of Catarrhose. It contains a beautiful hard rubber inhaler, and medicine that acts two months. Smaller sizes, 25c and 50c each. Beware of imitations and buy only Catarrhose, sold by all reliable dealers or by mail from The Catarrhose Company, Kingston, Ont., and Buffalo, N.Y.

AGAIN ABANDON VICTORIA ST. EXTENSION

Works Committee Finally Decide That Project Must Be Dropped—All Downtown Roadways Will Be Widened to Sidewalks—Herrick and Dewson Under Discussion.

For the second time this year the proposed Victoria-st. extension was brought up at the meeting of the committee of works yesterday afternoon, and after a keen debate it was again decided, by a substantial majority, to abandon the project. Unlike the proposal yesterday that all the property affected should be expropriated and held by the city until the street was completed, where it should be at the increased values. This idea was not approved of by Assessment Commissioner Forman, and met with little support by the committee.

Mr. Forman, however, claimed that he did disapprove of the expropriation method. In the case of streets where the buildings were of little value or where there was considerable vacant land, he thought the idea was feasible, but as regards Victoria-st., he thought it could never be carried out successfully. He could never recommend the scheme there, he said, because of the inflated values placed on the properties, and because of the expense which would have to be incurred by holding these two or three years until the work was completed. Ald. Maguire, who advocated the scheme, claimed that if it were delayed for one year, the cost would be increased 25 per cent. He argued that since the experiment had proved a success in Montreal, it would be equally successful in Toronto. Ald. McBride, however, contended that only the real estate men advocated the scheme. It was a waste of money to project this street in view of the fact that Church-st. was a thru thoroughfare. The city had enough big projects in hand, he said, and if any more were undertaken, there was danger of them all falling thru.

Herrick-street Closing. A deputation from the board of education, headed by W. O. McTaggart, waited upon the committee regarding their request that Herick-st. be closed from Lippincott to Borden-st. so not to interfere with the proposed site for the new technical high school. After a few caustic remarks regarding the board's alleged disposition to antagonize the council, Ald. Maguire's motion was passed to the effect that if the board would convey back to the city the site they had previously obtained for this purpose on Order-st., the committee would agree to the closing of Herick-st.

To Extend Dewson. A similar request was made regarding the proposed extension of Dewson-st. If the city's plans were carried out, it would mean, they said, that the site for the proposed new high school of commerce would be injured. The committee, however, decided to project the street at a slightly different angle to avoid cutting thru the property.

Ald. Chisholm moved that all the roadways in the downtown district be widened right to the sidewalks. This motion met with favor and was sent to council.

W. H. Hunter, K.C., representing Hobbler Bros., protested against the order demanding a fire escape at the front of their building at the southeast corner of Richmond and Yonge streets. It was decided that a subcommittee would take the matter up with the provincial inspector.

Dr. Hastings stated yesterday that a

GOLFDALE

"THE BEAUTY SUBURB OF NORTH TORONTO"

It derives its name from its close proximity to the Rosedale Golf Club, and for beauty, scenic outlook, and abundance of nature's favors, Golfdale stands alone on a pedestal of superiority.

GOLFDALE is a well planned, restricted suburban home site, already surrounded by a community of artistic homes with well kept landscaped gardens and lawns.

GOLFDALE is within easy access of the business section of the city, and is the ideal location for the business and professional man who wants something more than the mere monotonous rows of stereotyped houses in straight lines of closely-built city streets.

GOLFDALE is an exclusive community, and will be known as one of our most exclusive suburbs. It excels in convenience, beauty, healthfulness, and attractiveness. It will be one of the best residential districts in Canada. Take Metropolitan cars to the Rose dale Golf Club, Stop 26, and see Golfdale to-day.

The City demands such a suburb and we have it—Golfdale is the best buying in North Toronto to-day

The City Council must immediately decide on annexation—or the double-tracking of Yonge Street, when cheap transportation will send Golfdale prices much higher. We will motor you to Golfdale to-day.

FORESIGHT is all that is necessary to demonstrate that Golfdale at present prices is the best investment of to-day. Golfdale is nearer to the centre of the city than the solid built-up district of Parkdale.

YOU are absolutely safe in buying in Golfdale, the coming Rosedale of North Toronto. If you build in Golfdale you will immediately add a prestige to your home address. You can bank on Golfdale.

BUY your lot now in Golfdale—build when you can, or hold for investment, but if you will build you will find many ready purchasers. Investors in Golfdale will reap handsome profits.

Prices are 30% to 40% below the market price of adjoining properties. The number of lots is limited. The demand is very active.

Buy in Golfdale and you leave behind the bustling city for the quiet, artistic, rustic suburb—and all city conveniences of gas, electricity, sewage, telephone, pure water, street cars are at the purchaser's disposal.

May we motor you to Golfdale—the beauty suburb of North Toronto! The early buyer has the greatest choice. To-day is the Opening Day.

Temporary Lull in Stock Markets -- C.P.R. Reacts 5 Points

STEEL STOCKS IN LEAD HERE

General List Pauses to Catch Breath, and Changes Are Small--Trading Continues Very Active.

Speculative interest in the Toronto stock market on Friday shifted from the usual industrial issues to the steel stocks. In fact, the only material changes in price level were recorded by the Steel Corporation and Steel Co. of Canada, since outside of these the list maintained much the same appearance as characterized its existence the previous day.

The movement in Steel Corporation was as usual inspired from Montreal. Sir Henry Pellatt, who recently returned from the east, announced that the stock of the company would be listed in London, Paris and Amsterdam, and the belief that Europe would take hold of the Canadian issue was puffed out by local brokers as a winner for some days and is now maturing into a steady decline.

Such stocks as Rio and Sao Paulo, which provided the whole feature a week or so ago, have drifted back into semi-dullness during the last few days. The range of Rio, for instance, on Friday was 131 to 131 3/8, with the close a shade lower than the previous day. Sao Paulo regained its record at 220, but failed to surpass that.

The market on the whole was in a period of waiting and stocks paused to catch their breath. Recent strenuous efforts have resulted in some startling advances, and a tentative lull in the enthusiasm was of course to be anticipated. In the meantime interest has spread from one or two of the specialties into practically the whole list, and while reactions are to be expected in the natural course of events, a trend towards higher levels has undoubtedly been established.

ANOTHER BROKER CAUGHT IN CRAZY MARCONI BOOM

LONDON, May 17.—Money and discount rates were steady to-day. The stock market was easier in the forenoon in profit-taking, and another failure in connection with the recent speculation in Marconi shares, and a temporary rally on covering operations occurred in the British section, but the market generally sagged at the close. Berlin offered stock freely, and the reduction of the French bank rate had no effect.

WILD TRADING IN STEEL CORP. IN MONTREAL

MONTREAL, May 17.—Heavy trading in Dominion Steel, on which the stock rose over three points to a new high level of 68 for the year, brought business on the local stock exchange to-day to record proportions. The turn-over amounted to 25,161 shares. Dominion Steel contributed 17,790 shares, a record day for the stock. The excitement spread to other steel stocks and the turnover in all steel issues was 49,494 shares. Nova Scotia rose to 27 3/4 in the morning, but the price fell to 27, Steel Co. of Canada was fairly active and touched 25.

Liverpool Cotton

LIVERPOOL, May 17.—Cotton futures closed steady. May 4, 20 1/2; June, 20 1/2; July, 20 1/2; Aug. and Sept., 20 1/2; Oct., 20 1/2; Nov. and Dec., 20 1/2; Jan., 20 1/2; Feb., 20 1/2; March, 20 1/2; April, 20 1/2; May, 20 1/2.

OLIVER REMANDED

The case of R. M. Oliver, who was sentenced to jail on a charge of obtaining \$7 by false pretences while supposed to be insane, and who was later released after a declaration of the jail doctors to the effect that he had recovered sanity, was adjourned until May 21 by Magistrate Denison yesterday.

MONTREAL IS SUSPICIOUS OF C.P.R. RUMOR

MONTREAL, May 17.—C. P. R. officials are characteristically alert on the report that the big road is on the eve of slicing a melon by doubling its stock. On the local street the report is regarded with a good deal of interest, not to say suspicion.

There are no leakages in the C. P. R. information bureau, and if there is going to be a doubling of the railway's capital, or any financial movement, big or small, nothing will be definitely and officially communicated to the world in general until such time as the railway is prepared to make the announcement. The street is not inclined to treat the reports too seriously. The fact that they have emanated, for the most part, from Berlin, inclines business men to remark that any official information on the matter is likely to be current here as well as in Berlin, and probably more so.

STEEL TRUST SHIPMENTS ARE LARGE

NEW YORK, May 17.—Shipments of the United States Steel Corporation are running heavier than at any time in the last decade, and it is because of this that many manufacturers familiar with the situation have revised their estimates of steel earnings for the current quarter.

One manufacturer is inclined to the belief that net earnings will be in the neighborhood of \$25,000,000. If this forecast proves accurate there will be no deficit in the second quarter unless the corporation charges off more liberally for depreciation than expected.

United States Steel in the current quarter will ship at least 3,200,000 tons of steel, and in view of the fact that deliveries will be made for at least 1 1/2 ton higher than in the first quarter, the ratio of net earnings per ton of steel sold should be in the neighborhood of \$7.75, including additional profit, estimated at \$2,000,000, from transportation. On deliveries of 3,200,000 tons, a ratio of \$7.75 a ton would enable the corporation to show earnings of \$24,800,000.

The largest earnings for a single quarter ever reported by United States Steel were \$45,500,000, or at the rate of more than \$180,000,000 a year. The largest earnings for a single month reported by Steel were in October, 1907, when they exceeded \$17,000,000, which was at a rate in excess of more than \$200,000,000 a year.

VITAL NOTES OF CANADA'S PROSPERITY

If bank deposits be one of the vital statistics of a nation, then Canada is indeed enjoying marked prosperity. The latest statement available, that dated March 30, shows that demand deposits of the 29 chartered banks totaled \$1,840,000,000, and \$2,000,000,000 for the month of January last. Compared with the record of a year ago, that is, for the month of March, 1911, deposits show a gain of \$105,000,000, a remarkable record. In the same time, the total deposits of the banks have increased from \$770,000,000 to \$1,840,000,000, and circulation from \$31,200,000 to \$66,215,000.

LIQUIDATION OF OLD CROWN HAD ADVERSE INFLUENCE ON WALL ST.—IRREGULARITY IN STOCK MARKET.

NEW YORK, May 17.—Heavy selling of American securities in London, producing uneasiness at the opening of another advance, foreign and domestic, in the price of copper metal and further uncertainty respecting the outcome of the anthracite miners' contract, were some of the important factors connected with today's stock market. The unloading of our stocks in London seemed to result primarily from a lack of support, which was ascribed to the greater interest shown in other branches of that market, including wireless shares, which caused their financial embarrassment.

Canadian Pacific, which fell two points in London, opened here at a decline of 1 1/2 points, with concurrent weakness in International Harvester and St. Paul, the movement later spreading to the Wabash issues on publication of adverse earnings. St. Paul's reaction, which was probably due to the same cause, coupled with recent depression in Chicago and Northwestern. The coal stocks, while not all prominent in the initial dealings, soon moved upward, and other leaders, including Union Pacific and United States Steel, also improved.

Narrow Price Ranges. The average level of prices at midday was slightly better than at yesterday's close, but the markets after that became exceedingly dull and narrow, manifesting an absence of initiative for either side of the account. For the balance of the session business was light, with practically no important price changes.

Minor incidents of the day included a voluntary wage increase to New England cotton operatives, a report from Washington that the department of justice purposes to acquire into the so-called leather trust, and a commission of the interest rate, which justifies an increase of cotton rates from Texas ports to New Orleans.

Wall Street Comment

Erickson Perkins & Co. (J. G. Beatty) were the following: A good undertone, but this failed to stimulate any public buying. Even most of the specialists were neglected. Big stocks were neglected, but held well under evident manipulation. We do not expect much activity until people can get a line on the preliminary, and very confident talk on both sides. The strength of business situation and better crop news are the best features. The most important news of the day is that it will be impossible to get rid of the political influence. It hangs like a pall over the situation, and the banks gained heavily in cash during the week from the interior, and appear to have received all told \$5,000,000 cash more than they lost. But the situation has little to do with things now.

Chas. Heard & Co. to J. E. Osborne: Market started off this morning with small losses in quotations, following the lead of London, but immediately began to improve. C. P. R. was 2 1/2 points lower in London, and set off a like amount here on selling by Bear. It was claimed, due to continuation of wire money rates. In the afternoon the market improved, and the changes were small. Closing was firm at gains generally for the day. The outlook is still uncertain, as the market is too professional to judge decisively. It is hoped the trading will turn to some of the better class of stocks and that the leadership situation, as taken from the manipulated pool shares, will be a case more confidence would be felt.

WHEAT MARKET SHOWS A NERVOUS UNDERTONE

Prices Fall to Record Any Material Improvement Over Heavy Slump—Erratic Swings Through List—Cereals and Oats Unsteady.

CHICAGO, May 17.—Strain in the wheat trade, although unmistakably evident to-day, diminished somewhat because of the fact that no person or firm would be obliged to suspend. Signs of a revival of cash business and of demand for cash wheat cut a figure in the market had fallen more than 2 cents below last night's level.

Chicago May 17.—Business in wheat markets over the cable continues dull, owing to the very low prices being bid for shipment in all positions. The foreign demand for oats was fair, but cables were again weaker and the prices bid showed a further decline of 1/4 cent per quarter.

Chicago Gossip. J. F. Beckell & Co. from Logan & Ryan.
Wheat—Everything considered the near-by market is at the current month, in all positions made unacceptably going to-day, following the terrific drive at prices the last few minutes yesterday.
