Senate Reading Room
January 18, 1918
SENATE POOTAWA

SATURDAY MORNING JANUARY 19 1918—SIXTEEN PAGES.

VOL. XXXVIII.—No. 13,583 TWO CENTS

NEED FOR BIG REINFORCEMENTS IS URGED BY LLOYD GEORGE

WILL DEMAND A RECKONING IN FUEL ORDER

Ominous Talk in United States of Recovering Power Liberally Bestowed.
SENATE'S WILL DEFIED
Held That if Movement to Help Railroads, Partial Closing Would Have Done.

BY DAVID LAWRENCE.
Copyright, 1918, by Evening Post Co.
Washington, Jan. 18.—Grim and bear. That's the only thing the nation can do, for the congress is impotent and the executive is immovable. Fuel Administrator Garfield's order stands, and the force of law is behind it. In disregard of a vote of 10 to 19 by the senate, solemnly requesting a suspension of the drastic fuel order, Dr. Garfield promulgated his decree, the fortunately with several modifications from the original, and indications that state fuel administrators will have some latitude of interpretation that will lighten the burden.

But if the American people are disposed to make the great sacrifice that the order entails, their telegrams of protest which overwhelmed senators and representatives today are proof that they are in a temper which will soon demand a reckoning, an explanation more explicit than Dr. Garfield has yet given, and an accounting later on of what the radical measure really accomplishes in coal conservation.

'COLONEL' MACKLEM FURTHER INVOLVED

Cable From General Robertson, Says He Knows Nothing of Him.
RESPONSE TO INQUIRY
Secretary Turley Has Excerpt From Telegram to Ottawa.

The case of "Colonel" Macklem of now international fame has become more involved than ever, and yesterday Provincial Secretary Turley of the G.W.V.A. received from Dominion Secretary Knight the following excerpt from a cablegram to the minister of militia and defence from General Sir William Robertson, London, Eng:
"I have never at any time had any communication, verbal or written, with Macklem or with any person on his behalf, neither do I know anything concerning this individual."
The cable is in response to inquiries made by the Canadian military authorities as to the authenticity of "Colonel" Macklem's right to the rank he has assumed and which he claims to have been recognized in a cablegram he received some time ago from Sir William Robertson.

COON SKIN COATS.
The largest and best assorted display of Coon Skin Coats in Toronto—regular \$150 value for \$120. And so the reductions run, growing more attractive as the prices advance in the more expensive coats—Dinsens, 140 Yonge street.

FUEL ORDER NECESSARY PRES. WILSON DECLARES

The Best Local Paper
The Toronto World is acknowledged to be the best local newspaper in the Toronto morning paper field. People buying newspapers want to get their own news—that is, the local news—first. The World gives it to them.
Yesterday The Globe had 43 local items.
The Mail & Empire had 33 local items.
The World published 85 local items.
The World thus contained four more local items than The Globe and The Mail & Empire combined.

HON. A. B. MORINE GOING BACK EAST

Former Public Service Commissioner Returning to Newfoundland.
BELIEVES IT HIS DUTY
Holds Seat as Independent, But is Intimate With Fisherman's Party.

Hon. A. B. Morine, of Morine & Morine, Kent building, a member of the Newfoundland House of Assembly, and formerly public service commissioner for Canada, is returning to Newfoundland. "I came here to act as consulting editor of the Dominion newspaper, and at that time did not resign my seat in the assembly, as it was not considered advisable to hold by-elections during the war," he explained last night. "A few months ago a coalition took place between the parties in the house. At the beginning of this year Premier Sir Edward Morris resigned, whereupon several members of the government also resigned. Then came the Reid charges involving members of the present government, and I think it is my duty to attend the house." Mr. Morine explained that in 1914 he was elected as an independent, and has no connection with either of the parties in the present house.

HAS NO POWER TO CLOSE POOL ROOMS

Authority Must Come From Provincial Government, Says Mayor Church.
DOUBT OVER SHORTAGE
Chief of Police Hears Conflicting Stories Concerning Coal Situation.

The fuel situation is such that steps may be taken to better conserve the supply of coal now being received in Toronto. Mayor Church gave his personal opinion to the effect that a number of the pool rooms at least could be eliminated with benefit to the community. However, from a more public standpoint he wished it to be understood that the city council had little option in the matter of closing down pool rooms. "Our province," said the chief magistrate, "is that of administration of laws already in force. We have no power or authority to close down pool rooms. That rests with Queen's Park. What we can do is to see to it that the pool rooms are conducted with due cognizance of the health laws."

Should Cut Unnecessary Work.
Provincial Secretary W. E. Turley of the G.W.V.A. expressed his opinion that all unnecessary appurtenances of existence in Toronto and other cities should give way to the intensive demands of the public interest.

Chief Grasset of the Toronto police was of the opinion that if the tenacity of the coal situation could be proven extreme measures should be taken in the matter. "I have heard so many different tales about the coal situation," said Chief Grasset, "that really I do not know what is which or which is what. A day or so ago a man asked me if coal really was scarce. It appears he was getting to the end of the coal in his bin, and asked a dealer if he could let him have any. Certainly, said the dealer. And he let him have three tons.

In one of the rooms comprising the mayor's office a reporter remarked that a cluster light of six large bulbs was on full while he was in the room. The time of the day was 3 o'clock.

U. S. CONGRESS TO ESTABLISH WAR COUNCIL

New Board to Have Membership of Three, Named by President.
MUNITIONS DIRECTOR
Officer Will Control Production, Distribution and Transportation.

Washington, Jan. 18.—Radical changes in the government's war-making machinery are proposed in bills to establish a war council of three members, all powerful, under the president and to create a director of war munitions, approved today by the senate military committee. A bill for a director of munitions was placed before the senate today and that for the war council will be introduced by Chairman Chamberlain Monday when the senate reconvenes.

Approval of the administration is being sought for both measures, which have virtually the unanimous support of the committee. So far there has been no limitation of what may be the attitude of President Wilson. Proposals to have the secretaries of war and navy as ex-officio members of the war council were rejected today by the committee before the measure was put in final form.

The director of munitions, also a presidential appointment, will control production, distribution and transportation of war supplies, under the policies of the president, and the board will have authority to control the sale of munitions, and the substitute for that originally drawn by Senator Chamberlain for a department of munitions with a cabinet member at its head.

MILLION DOLLARS IS COUNCIL GRANT

But City Aldermen Say This Must Be the Last Appeal.
PATRIOTIC PURPOSES
Financing Will Be Left Entirely in Hands of Commissioner Bradshaw.

As was expected, the city council, at a special meeting held yesterday, voted \$1,000,000 as the city's contribution to the \$3,000,000 campaign of the local patriotic fund. The grant was made on condition that it would be the last appeal made to the city by the patriotic fund. The financing will be left entirely in the hands of Mr. Bradshaw, but he was instructed not to include more than \$500,000 in this year's estimates.

A large deputation of citizens interested in the fund were present in the council chamber. H. H. Williams, Sir Edmund Walker, Sir William Mulock, Archbishop McNeil, Senator Nicholas, Jos. E. Atkinson and R. J. Stevenson addressed the council, pointing out the needs of the fund. Clarence A. Bogert, president of the board of trade, assured the aldermen that a grant of \$1,000,000 would receive the full endorsement of that body.

Others in the council chamber were Sir John Eaton, John Pirairbrook, James Ryrie, Col. W. S. Dinick, Col. Noel Marshall, C. V. C. N. Cadee, Robert Copeland, ex-controller Shaw, Bishop Reeve, Col. Cecil G. Williams, ex-Mayor Jos. Oliver, R. L. Baker, E. T. Stanley, Arthur Hewitt, Major G. A. Sampson, Mrs. Plumtree, Lady Eaton, George Bridgen, Thomas Roden, George Wright and Hamilton B. W.

AMERICANS PERFECTING PLANS FOR AERIAL SUPERDREADNOTHS

Washington, Jan. 18.—Experts under the aircraft production board are already at work, it was learned today, upon an engine that is expected to surpass the Liberty motor in power, while retaining all the qualities for quantity production.
American experts have worked on the theory that a good big airplane is better than a good little aeroplane. They believe superdreadnoths of the air will be masters of the air, and consequently the new engine being developed to run planes of increased size and fighting power. Months ago Gen. Pershing urged that American designers design a craft armed with six machine guns each, three heavy and three light. At that time no serious attempt was being made in Europe to get more than four guns aboard the plane. The navy department also is at work on designs for advanced types of seaplanes.

BOLSHEVIKI REPUDIATE RUSSIAN FOREIGN LOANS

Decree is Effective From Beginning of Last December—Holdings of All Interior Loans in Excess of 10,000 Rubles to Be Canceled.

Petrograd, Thursday, Jan. 17.—The executive committee of the workmen's and soldiers' congress determined today to put before the constituent assembly the decree passed by the council of commissioners calling for the liquidation of all state loans made by the governments of Russian land owners and of the Russian bourgeoisie. The decree is effective from December 1 last.

The executive committee of the workmen's and soldiers' delegates, which was expected to promulgate the decree, determined that it was better to permit the constituent assembly to pass on it. The decree provides:
1. For the annulment of all state loans, on which it is declared the December coupons shall not be paid.
2. For the annulment of all guarantees given by the government for the payment of open loans advanced by institutions and companies.
3. For the annulment, without exception of all foreign loans.
4. That short term bond issues of the state treasury are valid, but that no interest on them shall be paid after they may remain in circulation for a period of 180 days.
5. That persons in moderate circumstances who possess interior loans to a value not exceeding 10,000 rubles face value, shall receive from the state a lifelong annuity equal to the interest on the securities.

BRITISH SHELLED MOVING COLUMNS

Replied to Enemy's Batteries on Southern Slopes of Montello.
RUMANIANS GET AN ULTIMATUM
Bolsheviki Demand Free Passage for Russ Troops Thru Jassy.
TWO HOURS' NOTICE
Rumanian Army Prepared to Make Stand Against Russ Forces.

Rome, Jan. 18.—The following communication was issued by the war office today:
Along the whole of the front there have been brief artillery actions and limited patrol activity. Our artillery made concentrations of fire on the reverses of Colcapirle and Col-Della-Beretta. The enemy's fire, which was more lively against the southeastern slopes of Montello, was answered by British batteries, which shelled moving troops between Mina and Canareggio.
On the southern slopes of Sasso Rosso and on the northern slopes of Monte Solarolo, enemy patrols were driven back with hand grenades.

PEACE DISCUSSION STILL MAINTAINED

Sessions Were Resumed at Brest-Litovsk Wednesday, Berlin Says.
DOWN TO BUSINESS
Settlement Reached of Problem of Relations of Ukraine Republic.

Berlin, Jan. 18.—(Via London).—On the resumption of the peace negotiations at Brest-Litovsk on Wednesday, it was officially stated today, a settlement in principle of the questions concerning the future political relations of the central powers and the Ukrainians was reached during a private meeting with the Ukrainian delegates.
After an address to the peace delegates at Brest-Litovsk on Wednesday by Leon Trotsky, Bolsheviki foreign minister, the Russians agreed to a continuation of the discussions.
The German foreign secretary, Dr. von Kuehlmann, addressed the delegates after Mr. Trotsky, and the delegates that they should begin discussing in a business-like manner four points proposed by the usian delegation. To this Mr. Trotsky agreed. The next sitting was fixed for the following day.

PROTECTED BY ALLIES
King of Rumania Evades Arrest Under Bolsheviki Order.
London, Jan. 18.—King Ferdinand of Rumania, whose arrest had been ordered by the Bolsheviki government, is now under the protection of the allies, according to a Petrograd despatch to The Daily Express.

Lloyd George Tells British Trades Unionists Reinforcements Must Be Found if German Militarism is to Be Crushed Decisively.

London, Jan. 18.—Addressing the final conference of the representatives of the trades unions affected by the man power bill, which passed the house of commons last night, David Lloyd George, the British prime minister, today gave the government's reason for the necessity of raising more men for the army, and also referred to length to his own and the recent speech of President Wilson regarding the war aims of the entente allies and the United States.

After thanking the representatives for the spirit in which they had met the government the premier said there was no other alternative for raising men, except either by raising the military age or of sending wounded men back and back again to the firing line.

As to the urgency of raising more men Mr. Lloyd George said that he and his colleagues, who are on the watch tower, could not deny it, and that unless the need had been urgent they would not have brought forward the demand now.

"There are men who thought it should have been done before," said Mr. Lloyd George. "There are men who believe we ought to do it on a much more sweeping scale. There are a few who say we ought not to do it at all, and there are some who say both things simultaneously.

"The government's view is this: It would be folly to withdraw men from the industries one pour sooner than the need arose. On the other hand it would be treason to the state, treason to our country, to democracy and to the cause of freedom if, when the need did arise, we had not made the demand."

"I assure that all of you here in your hearts believe that the war aims declared by that great labor conference represent the minimum of justice which you can possibly accept as a settlement of this terrible dispute. If we are not able to defeat the German forces, if we are not able to resist the military power of Prussia, is there any man here in the possession of his wits who believes that one of your terms—the least of them—would be enforced?"

"I am not talking about the demands of the impudens; I am not talking about the demands of the extreme war men who want to grab everything and amox the earth and all of the heavens; I am not talking about the moderate demands of the most pacifist souls in this assembly. Try to catch that cheque at the Hindenburg bank, returned dishonored. Whatever terms are set forward by any pacifist orator in these lands, you will not get them cashed by the President. I am the Kaiser or any of these great magnates unless you have got the power to enforce them.

At The End Of The Yarn

Stopping to consider for a moment what will happen when the woolen market is at its yarns end. No all-wool garments and that's "no yarn" believe us. Of course it hasn't got to that yet, and there is a good supply of woolen fabrics on hand in many parts of the world, and we are among the very fortunate ones, because our big manufacturing plant at Hamilton has been able to secure sufficient wools to supply our needs for some little time to come, but unless there is an end to this great war soon, there is going to be an end to the yarn so far as the civilians are concerned, and those of us who have been prone to think that there is no cause for alarm will also find that it's no "idle yarn" that has been spun for the benefit of boosters, but an actual situation that we must all face. Our object in thus yarning to you is to impress upon you the fact that your best time to buy clothing with good yarn in it is now and let the future take care of itself. In this way you protect your clothing needs for some time to come. Several of our customers came in last week and bought their overcoats for next winter. You see there are so many standard models now that you can do this with perfect safety in both overcoats and suits. Price range for Top Coat, \$18.00 to \$60.00; for Suits, \$15.00 to \$45.00. Price has nothing to do with bargain unless quality backs it up. We combine all three and this by the way is a "true yarn."

Values—
That are like
Finding Money

For a Few Days
In the Furnishing
Department the
following lines will
be on sale:

- SHIRTS**
Every shirt in the store will go on sale, mostly "Arrow" brand and a few other good makes for **\$1.69**. Values up to \$3.50.
- GLOVES**
All lined gloves of every make up to \$3.50 for **\$1.98**

CANADIAN INDUSTRIES UNDER BIG HANDICAPS

Partial Embargo on Exports by U. S. Gives Rise to Difficulties.

The monthly letter issued by the Canadian Bank of Commerce says: Very serious difficulties confront a number of industrial enterprises as a result of the embargo placed by the United States upon certain classes of exports which they require in large quantities. With a view to removing some of these difficulties, a representative delegation of Canadian manufacturers has urged the government to establish a war industries board, for the purpose of facilitating as far as possible the importation of essential raw materials. With this proposed body, committees representing various industries will co-operate by supplying the necessary technical information. It is hoped that it would be possible thru such a board to reach the authorities at Washington directly and thus to eliminate official delays. The difficulties are very real, and affect the entire fabric of Canadian industry.

Transportation Troubles. Another difficulty, not less grave, is the delay incident to the inefficiency of transportation facilities. Not only does this apply to the distribution of factory products, but also to the movement of the raw materials required to keep industrial plants in operation. During the past month lack of fuel—one of the immediate consequences of inefficient transportation—caused many factories to close down. A special committee has been constituted to study the situation and to recommend the diversion to domestic use of fuel intended for industrial purposes. To grapple with the situation the Canadian Railway Board is asking the government to permit drastic measures to be taken, one of which is to tear-up the rails on non-essential lines, so that they may be used on lines upon which traffic might be concentrated with advantage. It is estimated that in this way from 1500 to 2000 miles of rails may be made available.

There does not appear to be any lack of demand for factory products. The high prices of the past year are still maintained and in some cases have resulted in a smaller scale of buying, but in the face of steadily pressing demands for higher wages, the difficulties incident to obtaining material, and of the uncertainty of the future, industrial producers see no immediate hope of any recession in prices. Military demands, both from our government and from that of the United States, must become larger as a result of the steady increase in the number of men on active service. Under such circumstances, stocks, whether in the hands of factories, jobbers or distributors, are not increasing, and generally speaking there is a very slender reserve above the average day to day requirements.

PERMISSION IS DENIED.

Hop Company May Not Proceed Against Brewery Company.

Permission to proceed with their suit against the Berlin Lion Brewery Company has been denied the British Columbia Hop Company by the Ontario License Board, according to a statement issued yesterday. The hop company had sought the privilege of continuing an action to recover on a contract which it was alleged the brewery company ignored when the Ontario Temperance Act came into force. Under the provisions of the act a law suit such as that one in question cannot be undertaken.

This decision, however, only holds good as long as the war lasts, and it is understood that action may be gone on with when the war is over.

ASK GOVERNMENT AID.

Listowel Wants Assistance to Pay for Street Improvements.

H. B. Morphy, M.P. North Perth, and Reeve J. A. Hacking Listowel, interviewed Hon. Finlay Macdonald, minister of public works, and Hon. E. B. Lucas, attorney-general, at the parliament buildings yesterday, and asked for a government grant of 40 per cent on street improvements in the town of Listowel. Forty thousand dollars was spent in improvements and construction last year, and while the government is not legally bound to consider the case or to give assistance, it was claimed that there was a moral obligation.

It is understood consideration was promised and the matter will be gone into.

Files Cured in 6 to 14 Days

Druggists refund money if OINTMENT fails to cure Itching, Blind, Bleeding or Pruritus. Files. First application gives relief. 50c.

LEGISLATION REQUIRED.

City to Apply for Many Improvements to Municipal Laws.

Almost a score of small items of legislation were approved by the board of control yesterday. It was decided to raise the penalty for selling short-weight bread to \$500. Mayor Church's suggestion to give soldiers overseas the right to vote by proxy in the municipal elections was also approved.

A motion to have the finance commissioner supervise the estimates of the board of education, the board of health and the Exhibition board was approved.

STRENGTHENING ORGANIZATION

Provincial Secretary Turley, G.W.V.A., Goes on Tour of Province.

Provincial Secretary Turley of the G.W.V.A. is about to engage in a number of meetings at various centres in eastern and central Ontario, and during the course of next week will visit Kitchener, Hamilton, Welland, St. Catharines, Port Hope and Cobourg, commencing with Kitchener on Sunday evening and visiting the other cities in the order named.

Assistant Provincial Secretary Pratt will go to Pickering Friday next.

Keeping the Quality Up

LAXATIVE BROMO QUININE, the World-Famous Cure for Colds and Grippe, is now 75c per box. On account of the advance in the price of the six different medicinal concentrated Extracts and Chemicals contained in LAXATIVE BROMO QUININE, it was necessary to increase the price to the Drugist. It has stood the test for a Quarter of a Century. It is used by every Civilized Nation.

WAGES RAPIDLY SOARING.

Wages in the United States, according to a report issued by the bureau of labor statistics, continue to mount, those among men engaged in the iron and steel industries having increased 49 per cent during the past twelve months, while those of workers in the woolen industries increased by 30 per cent during the same time.

WANT WAGE INCREASE.

It is understood that a movement is on foot among members of the civic employees' union to have the minimum civic wage raised from \$18 to \$22 a week.

Save time—Shop with a Transfer Card. Ask for a Transfer Card when you make your first purchase; each purchase is then added. You pay total at Pay-in-Station, Basement.

EATON'S DAILY STORE NEWS

A splendid collection of these dainty blouses are to be seen in the Blouse Department, and they are exquisitely trimmed with beads, silk embroidery, etc., in very smart designs. One particularly pretty style has Tuxedo shaped collar, and front daintily adorned with beaded and silk embroidered design. Another style has convertible collar and front prettily trimmed with silk embroidery in square effect, in contrasting color. Also neat styles with fronts trimmed with silk embroidery and fine tucks. The color range, too, is exceptionally good, including maize, flesh, ecru, ivory, black, rose and grey. Sizes 34 to 46. Moderately priced at, each

Pretty Silk Crepe de Chine Blouses, in attractive style, have fronts trimmed with clusters of small tucks and hemstitching, large collar finished with points, forming "V" front, long sleeves with turn-back cuffs to match collar. Sizes 34 to 46. Available in flesh, maize, peach, navy, white or black. Price

—Third Floor.

TEACHERS PRESENT SALARY REQUESTS

Financial Committee Board of Education Hear-Deputations From Various Associations.

SYMPATHETIC HEARING

Claims Will Have to Come Before Board of Education Meeting.

At a special meeting of the finance committee of the board of education, held yesterday, deputations from the school teachers' and principals' associations were heard in regard to the question of the recent raise in salary asked by the school teachers throughout the city.

TO AMEND TRUANCY ACT

Deputation Waits Upon Minister of Education and Want More Officers Appointed.

With the purpose in view of having the truancy act amended, giving the power to appoint officers to the board of education, a deputation waited upon Hon. Dr. Eves, minister of education, at the parliament buildings yesterday.

H. L. HOWARD BURIED.

The funeral of the late Henry Lillie Howard took place yesterday from 627 Parliament street to Norway Cemetery, Rev. Mr. Harrington, of St. Aidan's, and Rev. Mr. Taylor, assistant minister of St. Paul's American Church, officiating. The funeral, which was by motor, was largely attended, and among the floral testimonials were noticed sprays from the Toronto Lacrosse and Athletic Association, Diamond L. O. L., and the audit department of the city hall, where the late Mr. Howard was last employed.

COMPANY WANTS WORK.

A representative of the Godson Contracting Company appeared before the committee of works yesterday afternoon, complaining that the company had been hard hit by the policy of the city in not going ahead with public improvements. They suggested that some of the work being done by labor be turned over to them. The works commissioner was instructed to confer with the company on the matter.

SEEK HYDRO SENATOR.

Feeling Thruout Province That Interests Would Be Better Looked After.

There is a feeling thruout the province, which is said to be very pronounced in all hydro centres, that there should be a "hydro senator" in the Dominion cabinet. It is thought that this sentiment is perhaps due to setbacks, which it is claimed hydro has suffered because of there not being at least one in the cabinet who was a representative of the hydro interests.

M. O. H. TO INVESTIGATE.

Dr. C. J. O. Hastings, medical officer of health for the city, has been instructed by the mayor to probe conditions at the base hospital on Gerrard street, where it is said 800 soldiers are crowded into a space which could accommodate only 300 soldiers with comfort. He will ask Dr. McCullough of the provincial health department to co-operate.

CONGRATULATES PRESIDENT.

The executive of the Toronto Railwaymen's Union, division No. 113, at a meeting yesterday congratulated President A. Conn upon his election to the presidency of the District Trades and Labor Council.

FARM CONDITIONS THRUOUT ONTARIO

Ontario Department of Agriculture Summarizes Reports of Provincial Agents.

The following is a summary of reports made by district representatives to the Ontario Department of Agriculture:

ANOTHER BUSY WEEK.

This has been a busy week for the new board of control, and next week promises to be the same. On Monday the board will meet in the morning to discuss soldiers' insurance. They will also confer with department heads to discuss a report on means of raising additional revenue. On Tuesday they will meet a committee of firemen to settle the policy regarding the firemen's pension fund, while on Wednesday and Thursday they will have their regular mid-week meetings.

ELECTRICIANS PROTEST.

The Electrical Workers' Union are opposed to the importation of Asiatics, and expressed themselves very strongly in the matter at their meeting in the Labor Temple on Thursday.

THEATRE OWNERS OBJECT.

Woman Refuses \$500 to Remove News-stand From Corner.

At the works committee meeting yesterday afternoon the Allen Theatre Company asked that Miss Brenner, who operates the news-stand at the corner of Richmond and Victoria streets, be requested to move to another position. The theatre's counsel stated that they had offered the woman, who is a cripple, \$500 to move to a less conspicuous position, as she was injuring the theatre trade, but she refused their offer. The board deferred action two weeks in order that the commissioner might confer with the street railway to find a more suitable place for the stand.

CALIFORNIA OR FLORIDA THIS WINTER.

If you contemplate spending a part of the coming winter in California, Florida, Georgia, North Carolina, South Carolina, Louisiana, Bermuda, the West Indies, Cuba, Panama, Central or South America or any of the many beautiful Gulf resorts, call City-Ticket Office, northwest corner King and Yonge streets, phone Main 4208, or Union Station Ticket Office, phone Main 4871, for full information, tickets, reservations, etc. The Grand Trunk affords various routes. Round trip tickets to California and Pacific coast points are on sale daily.

WOMEN WILL BE APPOINTED.

Special to The Toronto World. Saint Ste. Marie, Ont., Jan. 18.—In all probability women will be appointed to the directorate of the Central Algoma Agricultural Society. Resolutions were passed at the annual meeting favoring the move. The past year of the society was the most successful in history. William Marshall was re-elected president for a third term.

MILK SUPPLY NORMAL.

The supply of milk is about normal notwithstanding the severity of the weather. Prices run from \$2.50 to \$2.75 a cwt. Butter has the wide range of from 35 cents to 50 cents a pound. Eggs have reached top-notch prices, 60 cents a dozen being commonly paid for new laid.

THE EARLY HOUSING OF LIVE STOCK MADE CONSIDERABLE DRAIN UPON ALL KINDS OF FEEDS, BUT ON MOST FARMS THERE IS A SUFFICIENT SUPPLY OF COARSE FEEDS TO CARRY OVER UNTIL THE GRASS COMES.

The good supply of straw for both feeding and bedding is being especially prized this winter. The scarcity of mill feeds and other concentrates, however, may render home-grown grains scarce by spring. Hogs are being expressed regarding the quality of seed corn and beans.

THE SCARCITY OF LABOR ON MOST FARMS FOR WINTER WORK, BUT SOME REPRESENTATIVES ARE NOT HOPEFUL AS TO THE SPRING AND SUMMER SUPPLY.

More enquiries are being made for married men to work on farms.

Waterloo: "We have the promise of 619 extra sows in this county for the coming year."

Dundas: "670 farms were visited during December and on these was promised an increase of 576 sows."

Lincoln: "This county promises to produce over 650 tons extra pork in 1918."

PRODUCE OVER 650 TONS EXTRA PORK IN 1918.

The supply of milk is about normal notwithstanding the severity of the weather. Prices run from \$2.50 to \$2.75 a cwt. Butter has the wide range of from 35 cents to 50 cents a pound. Eggs have reached top-notch prices, 60 cents a dozen being commonly paid for new laid.

LETTER CARRIERS NEEDING UNIFORMS

Toronto Association Members Badly Off for Tunics Since Factory Burned.

DELEGATES APPOINTED

Annual Reports Read and Much Business Transacted at Meeting.

Nominations were in order at last evening's session of the Toronto Letter Carriers' Association... The auditor's report showed a credit balance of \$295.18 and a membership of 387 men up to December 31, 1917.

BOTH ARE ARRESTED.

Woman Charges Man With Theft and Faces Vagrancy Charge.

Charged with the theft of a sum of money from Agnes Sheen, Nick Coronschuk, 734 Richmond street, was taken into custody yesterday by Police Constable Thompson.

EARLSCOURT RESIDENT DEAD.

J. Chamberlain Was Well Known in Northwest District.

The death occurred yesterday afternoon of J. Chamberlain at his residence, Ascot avenue, a well known resident of the Earlscourt district, in his 74th year.

ARRESTED FOR THEFT.

Elizabeth McCann, no address, was arrested yesterday afternoon by Detective Croome on a charge of theft of two silk waistcoats from the E. Eaton Company.

BE PRETTY! TURN GRAY HAIR DARK

Try Grandmother's Old Favorite Recipe of Sage Tea and Sulphur. Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray.

MONTREAL WOMEN AIM AT FOOD CONSERVATION

Card Distribution Among Household-ers to Seek Economy in Consumption.

Montreal, Jan. 18.—Food conservation was discussed at a mass meeting held in Windsor Hall this afternoon under the auspices of the Canadian Women's Club, presided over by Mrs. Arthur Drummond.

MEN OF THE NORTH ARE BEING CALLED

Military Service Act Draft is Again in Operation After Holiday.

Calling up men under the draft act to begin active service training was resumed at Exhibition Camp yesterday after a lull of about a week. The men reporting were all from New Ontario. They will train in B Company of the 2nd Battalion, 1st Central Ontario Regiment.

LORD STANLEY LODGE

The annual audit and installation of officers of the Lord Stanley Lodge, M. U. 858, L.O.F.F., was held in the S. O. E. Hall.

PAULIST CHORISTS SUPPLY RARE TREAT

Organization Known to Two Continents Pleases Audience at Massey Hall Last Night.

Worthy of place with the finest musical organizations which Toronto has been privileged to hear are the famous Paulist Chorists, who appeared at Massey Hall last night under the direction of their talented director, Rev. Wm. J. Finn.

"TIZ" FOR TIRED AND SORE FEET

Use "Tiz" for Puffed-Up, Burning, Aching, Calloused Feet and Corns. Why go limping around with aching, puffed-up feet—feet so tired, chafed, sore and swollen you can hardly get your shoes on or off? Why don't you get a 25-cent box of "Tiz" from the drug store now and gladden your tortured feet?

MONTHLY WORKERS ARE THE INFANTRY

Fifty Thousand Club Hold Annual Meeting and Hear Reports.

PLEDGES ARE KEPT

Life in France Changes a Boy to a Man by Thought.

"I would rather take part in this campaign than go to Florida," said Col. Dimick at the annual meeting of the 50,000 Club last night. "I would be fed up doing nothing in the south, out here this work spells 'service'."

FORESEES DEADLY WAR WITH ORIENT

Commercializing of Eastern Nations May Bring on Another Struggle.

The relation of Christianity to the great war was the theme of an address delivered before the 1200 members of the Methodist conference operating committee last night, by J. Campbell White of Worcester, Mass.

THIRTEEN TIMES ELECTED.

Prof. J. Cusin, President Toronto Swiss Society, Again the Choice.

FELL BENEATH TRAIN.

Kitchener, Jan. 18.—William Ella, 32, of Stratford, who fell beneath the wheels of a freight train at Petersburg last night, died at the Kitchener Waterloo Hospital here this morning.

WALMER ROAD CHURCH.

Baptists Have Encouraging Year's Work, as Reports Show.

ST. THOMAS WOMAN DEAD.

St. Thomas, Jan. 18.—Mrs. Brickenden, wife of F. S. Brickenden, real estate dealer in this city, died today after a brief illness. The deceased lady was a resident of Toronto until she came to St. Thomas with her family five years ago.

FRIENDLESS SOLDIERS ARE GIVEN GOOD HOME

Mrs. Isabella Miller Gives Over Furnishings to House at Perth to Soldiers' Aid Commission.

At the meeting of the soldiers' aid commission yesterday the chairman, the Hon. W. D. McPherson, K.C., M.L.A., announced that a house with 25 rooms, furnished completely in the very best of style, had been left to the commission to be used for the benefit of soldiers and their dependents.

WOMEN ARE READY FOR BIG CAMPAIGN

Organization Completed and Workers Are Optimistic of Result.

Twenty Districts All Trains Will Be Boarded as They Enter Toronto Stations.

Further advance was made in matters pertaining to the part women are to take in the coming Patriotic and Red Cross campaign, when a conference between Mrs. Plumpré, the president of the women's committee, and Miss Geprude Brock, the secretary, and the women of the press was held yesterday afternoon.

DOCTOR'S CONDITION CRITICAL.

At an early hour this morning the condition of Dr. R. McP. Turner, who is in St. Michael's Hospital suffering from blood poisoning contracted through cutting his thumb on a bottle, was reported as critical.

CHURCH MILITARY COMMITTEE

Will Keep in Touch With Boys on Active Service.

CHARGE OF THEFT.

Charged with the theft of a fur stole from Rose Macaulay, 114 Yonge street, Marjory Gurnt, 29 Robinson street, was arrested last night by Detective Stewart at her home.

ACCEPTS HAMILTON CALL.

Rev. Henry Roche Goes to Church of Ascension as Assistant.

PEEL OFF THE OLD SKIN; BRING OUT THE NEW

You know that beneath that muddy, over-red or blotchy complexion you have so that's clear, soft and white. If you could only have this more beautiful skin exposed to view instead of the horrid old skin you now behold in your mirror!

ST. THOMAS WOMAN DEAD.

St. Thomas, Jan. 18.—Mrs. Brickenden, wife of F. S. Brickenden, real estate dealer in this city, died today after a brief illness. The deceased lady was a resident of Toronto until she came to St. Thomas with her family five years ago.

ASK YOUR NOSE

whether the cigar you smoke has been thoroughly cured and matured.

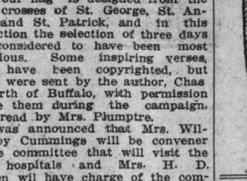

Let the smoke come through your nostrils: does it irritate, is it raw, harsh, peppery or scratchy?

If it is, the tobacco is not properly cured.

Ask your nose about any Davis cigar: you will find it mild, mellow, smooth, free from any of the faults mentioned.

Why not try a Davis "Perfection"?

10 Cents.

Galli-Curci

The brilliant star among opera singers is revealed in all her matchless artistry whether she sings for you the quaint old familiar songs or the more dramatic selections. Below are just three of the Galli-Curci Victor Records. Hear them, and this wonderful singer will readily become one of your favorites.

RAILROADS NOW OPEN

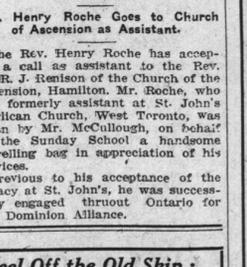

Inferior Quality of Coal Gives Trouble in Bad Weather. The railway lines are now open, and there is a general improvement in both freight and passenger traffic.

CHARGE OF THEFT.

Charged with the theft of a fur stole from Rose Macaulay, 114 Yonge street, Marjory Gurnt, 29 Robinson street, was arrested last night by Detective Stewart at her home.

THE KEWPIE KORNER

By ROSE O'NEILL

Consider how the Milkman teases Himself from his home group At dawn, and with the Baker Man, Provisions your front stoop— Says Kewpie Cook, on bended knees Let's thank our stars for men like these!

SATURDAY MORNING, JAN. 19.

A Million—Just a Start.

A million dollars is only a drop in the bucket in this war. It is a big thing for Toronto. But let no Toronto man think because he is going to pay two mills on the dollar for Red Cross work and Patriotic Fund relief that he has done his duty or begun to do his duty in the war. If every man gave a day's pay it would be a small thing in comparison to the need.

A word to the man who gives nothing—not even in the taxes. The man who side-steps his income tax while all the efforts pay up on their little pittance because the assessment commissioner copies the pay roll. The man who has more money coming in than those who pay taxes. He should put the tax he does not pay into the Patriotic Fund. He owes it to himself, and he will never have a decent day till he pays up.

One Good Trick

More stress appears to have been laid, as we expected, upon the proposal to have an attempt made to fine the Street Railway Company for not having cars on the tracks than upon measures which might be effective.

The citizens do not want \$500 a day. They want service; they want their contract observed. We commend the table of the cat and the fox to his worship. The fox had all sorts of tricks, but none of them was effective. The cat had only one trick, but it did what was needed. Mayor Church may try all sorts of tricks, but the one trick that will give the citizens proper street car service is municipalization.

The Closing-Down Order.

Modification of the order closing United States factories to save coal has allayed a good deal of the criticism. All factories engaged in the preparation of food or war supplies are exempted. This includes shell and gun plants and other munition factories, powder plants, steel mills, clothing factories engaged in government contracts. This looks like something else besides coal saving; and it is not unlikely that the United States, nine months in the war, and not yet able to equip its troops in France, had a shake-up on its prescription. The agitation is visible, and may do good.

The great bulk of the people all over America do not know anything about the war yet, and do not care. Anything that will wake them up will do good. Canada needs it as badly as any. Since last April we have been shouting about the fuel situation, but could attract no attention, and nothing was done. The one thing now imperatively necessary is to nationalize the railways and their attendant utilities.

Maintaining the Quality.

A wise step has been taken by the Ontario Government in requiring a declaration from alien and other settlers on provincial lands, under oath, of their willingness to obey all the laws and regulations of the province under penalty of forfeiture. To those who may think this is too strict it may be pointed out that Ontario has sovereign rights over her own, and no one is compelled to settle here who does not acquiesce in the conditions. To those who may fear that population may be driven away it may be suggested that Ontario can get along very well without the people who object to the laws that the present residents make.

Ontario has been progressive and British. We have given of our best to build up the west. We are not so populous therefore as we might be. With nationalized railways and other public utilities, as well as Hydro power, Ontario would be the healthiest and most desirable place to live in on the continent. If we do not get numbers we shall get quality. The best wood grows most slowly. But there will be some rapid development after the war.

DEATH OF NONOGENARIAN.

Harwood, Jan. 18.—About three weeks after Mr. George Farr, an esteemed resident, and his wife celebrated the 66th anniversary of their marriage. Mr. Farr passed away, having reached the age of 90 years.

Other People's Opinions

The Coal Scarcity.

Editor World: Billed down this great howl about the scarcity of coal seems to be lack of motive power on the part of the railways. These days when mechanics who could put this motive power in shape are offered from 34c to 36c per hour by the railways when they can get from 60c to 75c per hour in munition and other like works with the demand not half-filled is it to be wondered at that the railways have fallen down in motive power to move the coal, of which hundreds of cars are waiting transportation? I believe one of the railways has now from 15 to 17 men in its shops on repairs to motive power when they formerly had the 20th century scale of wages they could probably get by mechanics to put their plant in shape and give us the coal. Is there a colored gent in the fence? Sufferer.

A Rule for Switches.

Editor World: Now that a motorman has been convicted of criminal negligence in running into an open switch and injuring three people it would seem the proper time to compel the Street Railway Co. to adopt a simple rule, similar to that used by steam roads which would be almost certain to correct future accidents of this kind. At all switches (except interlocking where more than one line uses the switch), the crew when the switch must close it after their car has left the main line and not depend upon the next car to discover the switch open.

Had this rule been in force people would not have been killed at the King street crossing a few years ago, nor would the three people injured at the Dundas street crossing recently and employees convicted of criminal negligence all for the want of a same rule. Not a Motorman.

FUEL ORDER NECESSARY

(Continued from Page One.)

hundreds of plants turning out materials which enter directly into the manufacture of army and navy supplies.

Most of the big steel plants and a large number of the country's automobile factories are included in the list.

Among the collateral industries which will be affected are not coming within provisions of the order are virtually all mines producing ores.

Dr. Garfield's assurance of the closing order, President Wilson says he was consulted and fully agreed with the fuel administrator as to its necessity. If the action had not been taken, he declares, immediate relief could not have been found for the fuel and transportation shortages.

"This war," he said, "calls for many sacrifices, and sacrifices of the sort called for by his order are infinitely less than sacrifices of life which otherwise might be involved."

President's Statement.

The president's statement follows: "I was informed by Mr. Garfield before the fuel order was issued and fully agreed with him that it was necessary, much as I regretted the necessity. This war calls for many sacrifices. The sacrifices of the sort called for by this order are infinitely less than sacrifices of life which otherwise might be involved. It is absolutely necessary to get the ships away; it is absolutely necessary to relieve the congestion at the ports and upon the railways; it is absolutely necessary to move great quantities of food, and it is absolutely necessary that our people should be warmed in their homes if nowhere else, and half-way measures would not have accomplished their ends.

"If action such as this had not been taken, we should have limped along day to day with a slowly improving condition of affairs with regard to the shipment of food and coal, but without such immediate relief as had become absolutely necessary because of the congestion of traffic which has been piling up for the last few months.

"The evidence that the result of action of this sort will justify it, and that the people of the country will loyally and patriotically respond to necessities of this kind as they have to every other sacrifice involved in the war. We are upon a war footing, and I am confident that the people of the United States are willing to observe the same discipline that might be involved in the actual conflict itself."

Deferring Order.

Dr. Garfield's statement emphasizes the railroad congestion which he declares is threatening the food supply, points to the necessity for moving ships to Europe and carries appeal to capital to bear its share of the burden brought by the closing order by paying employees for the time they are idle.

The situation in Atlantic ports drew most of Dr. Garfield's attention today, while his assistants struggled with the great volume of requests for interpretations of the general terms of the order. Fuel administration representatives were despatched to the principal Atlantic ports, there to remain until every ship held up for lack of fuel has its bunkers filled. Reports tonight to the administration said that the situation would begin to improve immediately and that the more than a million tons of shipping detained would be on its way within a short time.

Suggestions that a railroad embargo be declared on the shipments of goods from factories shut down and on the movement of materials to the Atlantic seaboard were dismissed today by Secretary McAdoo, director-general of the railroads, who said that the railroad fuel administration cleared in a few weeks. Fuel administration officials favor an embargo, and believe it would materially aid in improving not only transportation conditions, but the fuel situation as well.

Was Well Observed.

Reports to the fuel administration said that observance of the order in the territory to which it applies was general. Some few violations were noted, and the department of justice will be asked to investigate thru its local representatives.

Officials who have contended for months that the best way of handling the coal situation was by denying fuel to non-essential industries viewed the closing order with more favor tonight when they learned of the exemption of war industries. The order as it stands cuts off all of the so-called non-essentials, and while it denies fuel also to many industries producing necessities, it was evident tonight that its application would be far less drastic than at first believed.

WILL DEMAND A RECKONING IN U. S.

(Continued from Page One.)

that it is more likely that the nation will make a better use of the situation now and have its little say on election day next November.

An Unprecedented Situation.

And speaking of the voice of the people, the national capital appreciated today that it had just entered an unprecedented situation, a conspicuous defiance of the senate by an officer created by that body itself.

No Member of a British or French Cabinet.

No member of a British or French cabinet would have issued such an order without fully advising the people, or at least without consulting the entire executive branch of the government. Responsibility would have been taken by the cabinet. The situation in Washington today is that only a minority of President Wilson's cabinet approves what has happened. He says nothing publicly, of course, but he is not a member of a British or French cabinet. The many who were not consulted in the first place feel very deeply that the whole business might have been better handled.

White House Optimistic.

The White House, of course, was optimistic. Telegram business concerns which said they would sacrifice everything if need be in the interest of patriotism, were given out. The president's statement, however, but of his many friends, the great majority believe that he has fully appreciated that a mistake had been made. The great error would be to rescind the order. It would be difficult to send out another order without a period of protest and arranging which would not mean coal being sent to the front.

Secretary's Friends.

Secretary's friends were pointing to the way Secretary Baker blocked the original coal agreement, entered into by the Democrats last summer. Had Mr. Lane's proposal been accepted it is argued that production would have been stimulated, and the people would have been advised to buy coal in the expected emergency. Neither the secretary of war nor the secretary of the interior said anything tonight, but the cabinet council as a whole is about it, pointing to this original rift in the cabinet council as the cause of the present lack of coal.

Congress Was Mad.

While the cabinet stood by his college friend, Dr. Garfield, and by the decree to which he had given his approval, congress was mad clear thru and the political consequences of the act were widely discussed. It may have been indignation or it may have been excessive confidence in the future, but Republicans were predicting the election of a Republican senate as well as a direct consequence of administration blunders in the conduct of the war, the Democrats who did not vote with the president in the senate last night indicated that they too were not going to be held responsible for the action of the executive. Altogether, patriotism, politics, incompetency and popular dissatisfaction over the management of the war have become curiously mixed in what Lloyd George calls "the most critical period of the war."

Compromise Hoped For IN IRELAND'S AFFAIRS

Adjustment of Irish Conference Gives Expectation of Settlement.

London, Jan. 18.—The fact that the Irish convention has adjourned until next Tuesday, instead of closing this week as reported, is understood to mean, according to The Daily News, that the government in the meantime will suggest either a compromise is possible on the point at issue, or is reported from Dublin that Premier Lloyd George has taken steps to inform himself personally of the attitude of the Ulster counties towards settlement. In connection with this matter the name of the Marquis of Londonderry is mentioned.

GOVERNMENT BOOTS FOR BRITAIN

By Gilbert Seldes.

When Mr. H. G. Wells wrote "The Misery of Boots" as a socialistic pamphlet many years ago he did not suspect that before three years of war had passed over England British Government would have settled the whole misery by going into the boot trade itself.

Yet that is exactly what has happened and behind the official announcement of "standard boots" is hidden a complex war machinery of which the average Englishman is profoundly unconscious, yet one which is beginning to affect every item in his daily life.

First, the facts. As soon as the British army began tramping with its ten million feet thru the ditches of France and the deserts of Arab and along the backdrops of several other theatres of war, the civilian began to feel the shoe pinching. Leather prices went up and leather quality went down until a variety of substitutes became quite a puzzle. In the course of time the government took over control of leather, parceling out the available supply to the army, to allied armies, and to manufacturers for civilian supply.

Whatever control existed, until a few months ago, was control of the raw material. No effort was made to control the product, except when the product was contracted for by the army or another branch of the service. The boots and shoes offered to civilians could be anything the maker chose, and the price anything the consumer could be made to pay. The boots and shoes visible in the first half of 1917 were strange and the prices far behind the front.

By September, 1917, the situation had become hard on the people who could not afford to walk on \$25 bills. The main objection to war-boots was that they were not always leather; you paid famine prices and even then got no wear out of your shoes. At that point the government stepped in.

Hereafter if you are willing to trust the government you will be able to buy shoes which are leather. Unless you have a very peculiarly shaped foot you will find a shoe to fit you; if you do not go in for extra high heels, you can have all the style you want. (The government appears to be hygienic in the matter of shoes.) You will pay a fair price, that is, a price which pays for leather, workmanship, and selling, and nothing else. At present, reckoning the price for women's footwear will run up from \$3.75 to about \$4.50; men's will be higher and children's lower. The manufacture of more expensive shoes out of France, but it consists entirely of wood-cutters, railwaymen and doctors, except two or three dentists, whose precious lives are being spared in France. Can the United States spare a large number of men? The answer is no, because a large part of the army must remain behind for the protection of the frontiers, the colonies and for other duties of a political nature. The political situation compels the United States to keep at home the greater proportion of its army, and the country can, at the most, put only 400,000 or 500,000 men in the European battlefields. For the transfer of even this number, 2,000,000 tons of shipping will be required, necessitating 650 journeys of steamers of 3000 to 5000 tons. Thus an army of even this size cannot possibly be made available before the summer of 1918.

BIGGEST DETACHMENT YET.

Special to The Toronto World. Guelph, Jan. 18.—The largest number of patients for the Guelph Military Hospital that has come at one time since the institution was opened, arrived this afternoon, when 250 returned soldiers from the Whitty hospital reached Guelph. There are about 500 men at the hospital now.

ROBERT DE BRUCE, S. O. S.

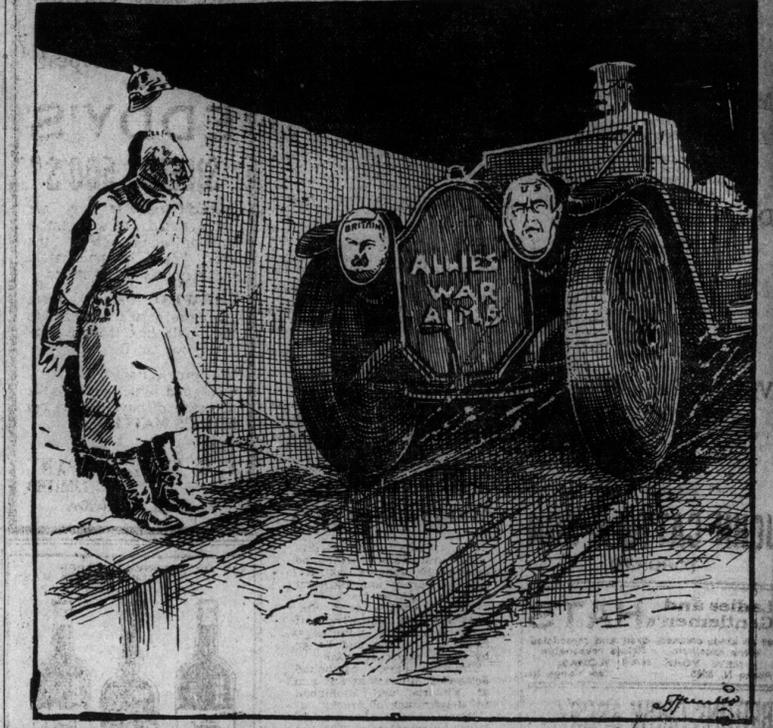

Bro. Roxborough, D. D. G. C. Sons of Scotland, conducted the ceremony of installing the officers of Robert de Bruce Camp, No. 2, last night in the Foresters' Hall, Colborne street. The retiring chief, Bro. Alexander Brown, was presented with a beautiful past chief's jewel, and he made a suitable reply.

Standard Bread.

Whether standard bread is to come is a question; undoubtedly it is a possibility; standard bread has long been in evidence. In the near future tobacco may follow and be "governmentalized," although the experiment in "government ale" has not been a success. With the government in control of railways, shipping, tea shops, grocery stores, and the like the average Englishman will be walking in an official paradise, which he may describe, with the name of the seat of government in Westminster, as a "Whitehall Wilderness."

But even if the war does not compel the government of Great Britain to go so far it is important to note that the issue of a standard boot the government has made the circle of government control complete. There is very little loophole for the private capitalist to "cut through" to safety; in time his raw materials even for shoes may be stopped. And from the cow's back to the weaver's foot, the modern shoe is a government product—of the time in history.

PUTTING HIM UP AGAINST THE WALL

ENEMY BELITTLES U. S. WAR EFFORT

American Forces Limited to Half Million, Germans Told.

London, Jan. 18.—Commenting upon the statement made by Secretary of War Baker before a congressional committee regarding war preparations, the semi-official Nord Deutsche Allgemeine Zeitung of Berlin, says: "The American secretary who war speaks of an American army in France. There is an American army in France, but it consists entirely of wood-cutters, railwaymen and doctors, except two or three dentists, whose precious lives are being spared in France. Can the United States spare a large number of men? The answer is no, because a large part of the army must remain behind for the protection of the frontiers, the colonies and for other duties of a political nature. The political situation compels the United States to keep at home the greater proportion of its army, and the country can, at the most, put only 400,000 or 500,000 men in the European battlefields. For the transfer of even this number, 2,000,000 tons of shipping will be required, necessitating 650 journeys of steamers of 3000 to 5000 tons. Thus an army of even this size cannot possibly be made available before the summer of 1918."

FRED W. FIELD BECOMES TRADE COMMISSIONER

Toronto Man Appointed by British Board to Act as Representative in Ontario.

London, Jan. 18.—(Via Reuter's Ottawa Agency).—F. W. Field will be appointed British trade commissioner in Canada with headquarters in Toronto.

FLOCK TO THE MOVIES

Only Way Many of St. Thomas Residents Can Get Warm.

Special to The Toronto World. St. Thomas, Jan. 18.—Notwithstanding that 43 carloads of coal passed thru here today for London the supply of the heating material in this city is about exhausted. The city is faced with the most serious fuel famine ever known, as the country roads are almost impassable in account of the recent storm. It is very difficult to get any wood from the surrounding country. The extremely cold weather has added to the distress of the shivering people who flock to the local picture houses.

Special to The Toronto World.

Guelph, Jan. 18.—The largest number of patients for the Guelph Military Hospital that has come at one time since the institution was opened, arrived this afternoon, when 250 returned soldiers from the Whitty hospital reached Guelph. There are about 500 men at the hospital now.

ROBERT DE BRUCE, S. O. S.

Bro. Roxborough, D. D. G. C. Sons of Scotland, conducted the ceremony of installing the officers of Robert de Bruce Camp, No. 2, last night in the Foresters' Hall, Colborne street. The retiring chief, Bro. Alexander Brown, was presented with a beautiful past chief's jewel, and he made a suitable reply.

Standard Bread.

Whether standard bread is to come is a question; undoubtedly it is a possibility; standard bread has long been in evidence. In the near future tobacco may follow and be "governmentalized," although the experiment in "government ale" has not been a success. With the government in control of railways, shipping, tea shops, grocery stores, and the like the average Englishman will be walking in an official paradise, which he may describe, with the name of the seat of government in Westminster, as a "Whitehall Wilderness."

But even if the war does not compel the government of Great Britain to go so far it is important to note that the issue of a standard boot the government has made the circle of government control complete. There is very little loophole for the private capitalist to "cut through" to safety; in time his raw materials even for shoes may be stopped. And from the cow's back to the weaver's foot, the modern shoe is a government product—of the time in history.

GUELPH DESPERATE AT FUEL SHORTAGE

Fuel Controller to Be Backed Up in Closing Any Institution He Sees Fit.

Special to The Toronto World. Guelph, Jan. 18.—The coal situation here is so acute in Guelph today that Fuel Controller Foster called a meeting of representatives of the various churches, board of education, board of trade, city council, etc., with the object of securing their opinion and of getting their backing in any action which he might see fit to take.

Proposition to Close the Public Schools met with some opposition from the members of the board of education present, who claimed that there was only about 100 tons in all the schools, and that this would only be a two days' supply at the most, but it was pointed out that if lives could be saved by taking the coal from the schools then it should be done.

There are only about 50 tons of anthracite coal in the churches of the city, and about 50 tons of soft coal, but the churches are willing to do all in their power to relieve the situation.

Fuel Controller Foster, who is also manager of the water works department of the city, announced that there were about 200 cords of wood in the water works property, and that the work of getting it out would be started on Monday.

A resolution was passed at the meeting backing up the fuel controller in any action which he saw fit to take towards relieving the coal situation by closing up any public institution or business in the city. It is probable that a special meeting of the board of education will be held on Saturday to deal with the matter of the closing of the schools. In any event the collegiate institute will be kept open.

Automobile Rugs

Immense collection of fine Wool Reversible Motor Rugs is now being shown...

Millinery

Great pre-inventory sale of all our Winter stock of High-class Trimmed Millinery...

Dressmaking

Owing to many of our customers being disappointed in not being able to avail themselves of our special prices...

The Safest Matches in the World

Also the Cheapest are

EDDY'S "SILENT 500'S"

SAFEST because they are impregnated with a chemical solution which renders the stick "dead" immediately the match is extinguished.

CHEAPEST because there are more perfect matches to the single box than in any other box on the market.

War time economy and your own good sense will urge the necessity of buying none but EDDY'S MATCHES.

CHICAGO'S REPLY TO FUEL ORDER

Ten Thousand Plants Close and Army of Workmen Are Idle.

COAL MOVES FREELY

Only a Score of Violations Were Reported, Mostly Due to Ignorance.

Chicago, Jan. 18.—Ten thousand manufacturing plants closed, and an industrial army of 400,000 workers idle, was Chicago's response today to the sweeping order of the federal fuel administration for the conservation of coal.

With the stilling of the activities of the greatest industrial centre in the middle west, and the consequent lifting of the burden of commerce from the storm-harassed railroads, great streams of coal began moving through the traffic jams.

Altho captains of industry fought until the last minute against Dr. Garfield's order, at the stroke of midnight all opposition turned to loyal compliance.

Only a score of violations of the order were reported during the day. Most of these were due to ignorance and resulted only in a warning.

The railways concentrated their efforts on clearing up of traffic jams and the movement of coal. Every road entering the city has given the right of way to fuel.

Chicago is short 300,000 tons of coal, it was announced, but with the speeding up of production at the mines, and the priority given fuel by the roads, it is expected that this shortage soon will be wiped out.

OUTBREAK OF BIGAMY OCCURS IN GERMANY

Authorities Deal Over-leniently With Offenders—Light Sentences Imposed.

Geneva, Switzerland, Jan. 18.—Several south German newspapers which have been received here raise a cry of alarm over the increase of bigamy in Germany during 1917. They say the many acquittals and the lenient sentences imposed indicate that the authorities are condoning the crime.

Among the excuses pleaded by the men accused are loss of memory because of shell shock; departure of the wife without leaving an address and infidelity on the part of a wife. Some have gone so far as to declare boldly that plural marriages are good for the nation's future.

A corporal told a Munich court that he got married every time he obtained leave from the trenches and believed the had five wives.

Eleven cases were tried in Berlin, seven in Cologne and five in Munich last December. The deceived women usually are not willing to prosecute.

RAILWAYS IN POWER OF PLUNDERING MOB

Russian Workmen's Councils Urged to Restore Order by Special Guards.

Petrograd, Jan. 18.—(Via London, British Admiralty, per wireless press.)—A Russian official communication issued today announces that the commissions for food and communication have urged the workmen's councils to stop at nothing to establish order on the railways, by organizing special detachments of the red guard and other organizations.

The communication says the railways now are in the power of a plundering mob and that the transport services are entirely paralyzed, a fact which is having the worst possible effect upon the starving regions and the army.

BIG PRINT PAPER SUPPLY

Washington, Jan. 18.—Print paper supply were shown in figures issued today by the Federal Reserve Commission to be approximately 32 days ahead of demand. Publishing houses have on hand 338,000 tons, manufacturers 41,000 tons, and there are 200,000 tons at terminals. The monthly consumption is estimated roughly at 170,000 tons.

FATAL "SHIPPING FEVER"

Washington, Jan. 18.—"Shipping fever" and its complications, for which no satisfactory preventive has been found, has caused the loss of 4777 horses and mules in the army remount service. An announcement today said the loss amounted to \$325,975.

TO REPORT AT TORONTO.

Special to The Toronto World. Saint Ste. Marie, Ont., Jan. 18.—Orders to report for military service at Toronto on Jan. 25 came to 128 men here today. This is the first draft to leave the 800 under the Military Service Act. It is estimated that there are 350 available.

Special to The Toronto World. Chatham, Jan. 18.—Lt. Robert Cowan, son of ex-Mayor and Mrs. Cowan, a Chatham aviator, who has been reported missing since Dec. 18, is believed to be a prisoner of war, according to a letter from the officer's parents from the commander of his flying squadron. The officer states that Lt. Cowan took an offensive patrol on that date. The squadron encountered a number of German scouts, and it was necessary to return to base. His failure to return is believed to be due to the fact that the gasoline tank of his machine engine had that he had to descend in enemy territory.

WANTED CZARINA IN GERMANY. Petrograd, Jan. 18.—Maxim Gorky's newspaper, Novaya Zhizn, asserts that the German delegates in Petrograd asked the representatives of the government commissioners to permit the former empress and some other members of the late imperial household related to Emperor William to travel to Germany. The request was not only categorically refused, but was the immediate cause of a decision to try the former imperial personages.

"I FEEL LIKE A NEW BEING"

"Fruit-a-tives" Brought the Joy of Health After Two Years' Suffering.

55 St. Rose st., Montreal, April 4. "For over two years I was sick and miserable. I suffered from constant headaches, and had palpitation of the heart so badly that I feared I would die. There seemed to be a lump in my stomach and the constipation was dreadful. I suffered from pain in the back and kidney disease.

"I was treated by a physician for a year and a half, and he did me no good at all. I tried 'Fruit-a-tives' as a last resort. After using three boxes I was greatly improved, and twelve boxes made me well. Now I can work all day and there are no headaches, no palpitation, no heart trouble, no constipation, no pain or kidney trouble, and I feel like a new being—and it was 'Fruit-a-tives' that gave me back my health."

MADAM LAPLANTE. At all dealers, or sent post paid by Fruit-a-tives Limited, Ottawa.

SERIOUS STRIKERS AGITATE VIENNA

Rioting Terrifies Austrian Cities—Peace Demonstrations End in Fighting.

London, Jan. 18.—Serious strikes accompanied by rioting, have taken place at Vienna and in other cities through Austria, according to news agency telegrams to Zurich and other points in Switzerland.

The troubles, it is asserted, are due to the prolongation of the peace negotiations at Brest-Litovsk, the continuation of the reduced bread rations—one-half the former allowance—and police measures against meetings of the workers.

A peace demonstration at Vienna on Tuesday night ended in a riot during which, according to an exchange telegraph despatch, food shops were looted.

A wireless press despatch says strikes broke out on Monday morning in factories in Vienna, Graz, (Great Britain) and Wiener-Neustadt, the walkouts resulting in rioting which necessitated vigorous police action.

On Tuesday the number of strikers increased and there were numerous conflicts with the police. Since Wednesday, the despatch states, no Austrian papers have reached Switzerland.

It appears that the Austrian authorities are anxious regarding the situation at Prague, Bohemia, as the civil governor has been replaced by a military governor.

The Vienna correspondent of The Munich Neueste Nachrichten says that reports of an Austrian cabinet crisis are well founded. Dr. von Seydler, the premier, opposed not only by the Czechs and the South Slavs, it is asserted, but also by the socialists who, like the rest, are chafing under the food difficulties, while the German deputies are hostile owing to the premier's alleged weak attitude towards the Czechs and South Slavs.

BARRED ZONE EXTENDED FOR ATTACKS ON U. S.

Germany Aims to Use Submarines Against American Transports.

Amsterdam, Jan. 18.—The recent extension by Germany of the barred zone to the waters around the Azores and Cape Verde Islands is presumed by the possibility that they may serve as assembling points for American troop transports and supplies, which good harbors and useful cable stations on the coast of the African mainland were also included in the zone.

The newspaper expresses the expectation that the new extension of the zone will come a weakening of the effort of Germany's enemies because of the necessity of spreading the anti-U-boat defence measures over a much larger area.

Aeroplane Tank Pierced And Aviator Had to Descend

Special to The Toronto World. Chatham, Jan. 18.—Lt. Robert Cowan, son of ex-Mayor and Mrs. Cowan, a Chatham aviator, who has been reported missing since Dec. 18, is believed to be a prisoner of war, according to a letter from the officer's parents from the commander of his flying squadron.

The officer states that Lt. Cowan took an offensive patrol on that date. The squadron encountered a number of German scouts, and it was necessary to return to base. His failure to return is believed to be due to the fact that the gasoline tank of his machine engine had that he had to descend in enemy territory.

Special to The Toronto World. Guelph, Jan. 18.—Word reached the city this morning of the winning of the Military Medal by Gunner Harvey Harland, who went overseas with the first draft of the 29th Battery. He was a student at the collegiate at the time of his enlistment.

U. S. POLICE ROUND UP BRITONS. Springfield, Mass., Jan. 18.—The police department today began a round-up of more than 400 British subjects resident in this city who are not to be drafted into the British recruiting mission here. The local authority to arrest, but will investigate and turn over the information obtained to the recruiters.

NO OTHER CASES REPORTED. Special to The Toronto World. Chatham, Jan. 18.—No further cases of amebic dysentery reported to the city authorities, and every precaution has been taken against any further outbreak. The two cases have been placed in the Isolation Hospital.

LESS FISH CAUGHT PRICES ADVANCED

Stormy Weather on Atlantic in December Reduced Amount Landed.

Ottawa, Jan. 18.—The total value of all sea fish at the point of landing in Canada during December was \$981,306, as compared with \$803,506 a year ago, says the monthly report on sea fishing issued by the marine department. The report goes on to say that with diminished landings and an ever-increasing demand the price per cwt. paid to fishermen is much greater than that of a year ago. For example, the price of cod is higher by 17 per cent, haddock by 30 per cent, hake and pollock by 60 per cent, herring by 130 per cent, and salmon by 25 per cent.

Unusually cold and stormy weather on the Atlantic coast during the month of December resulted in small landings of some of the chief kinds of sea fish. The total quantity of cod, haddock, hake and pollock landed in eastern Canada was 71,800 cwt., as against 86,924 cwt. in Dec., 1916. Only 290 cwt. of herring were landed on the Atlantic coast, while in British Columbia 89,000 cwt. were landed. The total for both coasts was 54,493 cwt. less than in Dec. a year ago.

The smelt fishery resulted in a catch of 21,247 cwt., being an increase of 6,276 cwt. over the previous year. The total pack of lobsters to date of Dec. was 1,983 cases, while 2,723 cwt. were shipped to market. During the corresponding period last year the pack was 1,192 cases, while 3,456 cwt. were shipped in shell. While fluctuations in the catch from year to year are due, in great measure to weather conditions, certain waters fish are not so abundant as formerly.

CANADIAN SITUATION WORSE THAN GERMAN

Le Journal de Waterloo Protests Against Search for Conscription Defectors.

Montreal, Jan. 18.—Le Journal de Waterloo says the situation in Canada is worse than in Germany. Le Journal says: "The Borden government permits in our country by the military caste acts more revolting than in the land of the Huns. The soldiers are permitted to break into the homes of the conscripts, as if we were in a German-occupied house, as if we were in a German-occupied house, as if we were in a German-occupied house. We say 'worse than Germany' because the German soldiers respect their own people and never permit abuses like those taking place here. If the law were enforced, the conscripts would go and seek out conscription, and the military authorities must not respond to the appeal, there must be another law forbidding the ill-treatment of conscripts, and the entering into of houses by breaking open the doors. It is a revolution which is taking place, the responsibility will fall upon those who have pushed the people to revolt."

MISCHIEVOUS RESOLUTION.

Vancouver, Jan. 18.—The Province has been ruled out by the speaker. The hypothetical motion should have been ruled out by the speaker. It is an attempt to bring about a reasonable opinion by voting either for or against the motion in any other provincial legislative assembly. The members refusing to vote either way. But this resolution is intended to be misleading and to provoke an unpatriotic controversy by making a directly disloyal declaration.

CHARGES INCONSISTENT.

Edmonton, Jan. 18.—The Journal notes that Mr. Sauve's suggestion to appeal to the King has been made in Quebec, but adds: "But almost all the conscripts who protest against the malign influence of London on Canadian policy and the efforts of the imperialists to destroy Canadian autonomy. What so-called imperialists would pay so little regard to our own interests as to support a resolution which is a direct insult to the Canadian electorate?"

Makes a Person Feel Young

Mrs. Brown of Kingston, Ont., Tells How Differently She Felt When Her Nerves Were Restored to Health and Vigor.

Mrs. G. Brown, 14 Clerge street west, Kingston, Ont., writes: "A year ago last summer I was in poor health, and so nervous that I could not sleep at night, but would have to get up and walk around. I had no appetite, had pains in my back and back. I sent for a box of Dr. Chase's Nerve Food, and found it gave such good results that I kept up the treatment until I had taken five boxes. I have gained in flesh, my nerves are strong, and I can eat as much in one day as I used to in a week. I sleep well, and have not had a sick headache for a long time. "Dr. Chase's Nerve Food is worth a lot of money to any person who is suffering like I did; it makes a person feel young and full of life, not down-hearted and dull. I am glad to recommend it to all sufferers from nervousness, sick headaches and run-down conditions."

It feeds the nerves. That is the great secret of the success of Dr. Chase's Nerve Food. That is why cures effected by this treatment are both thorough and lasting. The great difficulty when the nerves become exhausted is to get enough nourishment from the food you eat to restore the nerves. By supplying the elements from which Nerve Food is created in condensed and easily digested form, Dr. Chase's Nerve Food feeds the wasted and depleted nerve cells back to health and vigor.

You feel the benefit obtained by renewed energy and strength, and weakness disappear, digestion improves, the complexion takes on new color, and the request was not only categorically refused, but was the immediate cause of a decision to try the former imperial personages.

When you have decided to use Dr. Chase's Nerve Food, make up your mind to give it a fair chance to cure you, and then insist on getting the genuine article, bearing the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author. Price 50 cents a box, a full treatment of 6 boxes for \$2.75. All dealers, or Edmondson, Bates & Co., Limited, Toronto.

SALTS FINE FOR ACIDIC BLOODS

We Eat Too Much Meat Which Clogs Kidneys, Then the Back Hurts.

Most folks forget that the kidneys, like bowels, get sluggish and clogged and need a flushing occasionally, else we have backaches and dull misery in the kidney region, severe headaches, rheumatism twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders. You simply must keep your kidneys active and clean and the moment you feel an ache or pain in the kidney region, get about four ounces of Dr. Sals from any good drug store here, take a spoonful in a glass of water before breakfast for a few days and your kidneys will be set to work. The famous salts are made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and set them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Dr. Sals is harmless, inexpensive, makes a delightful effervescent lithia-water drink which everybody should take every day and then keep their kidneys clean, thus avoiding serious complications. A well-known local druggist says: "Dr. Sals from any good drug store here, take a spoonful in a glass of water before breakfast for a few days and your kidneys will be set to work. The famous salts are made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and set them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders."

PUTS HUMAN LIFE BEFORE PROFITS

Railway Board Chairman Would Cut Off Natural Gas From Factories.

Special to The Toronto World. Chatham, Jan. 18.—"I am not going to put human life in one scale with manufacturers' profits. If the situation is acute and the sufferings of the people in this district are such as the evidence would indicate, relief must be given at once, and I would not hesitate one moment to make an order cutting off natural gas from the great financial concerns which the industrial heads would suffer by an order cutting off their gas supply."

At the conclusion of this afternoon's session, following considerable cross-fire among the contending counsel with regard to the contractual rights of the owners of the gas, and the rights of the board to make an order cutting off all manufacturers from the gas supply during the cold weather, the board probably make a primary report to the chairman stating that they would determine the rights of the owners with regard to the prior right for gas over all the other municipalities at a later date. The chairman, Mr. McIntyre, of the Ontario Municipal Association, who presided today at the gas enquiry, when certain of the counsel endeavored to put in protracted evidence with regard to the great financial concerns which the industrial heads would suffer by an order cutting off their gas supply.

The chairman, Mr. McIntyre, of the Ontario Municipal Association, who presided today at the gas enquiry, when certain of the counsel endeavored to put in protracted evidence with regard to the great financial concerns which the industrial heads would suffer by an order cutting off their gas supply.

LICENSE CHANGES MADE.

Ottawa, Jan. 18.—The deputy minister of trade and commerce has received the following telegram from the Canadian high commissioner in London: "The department of import restrictions advises the revocation of general licenses in respect to hardware, taking effect on Feb. 1. From that date special licenses will be issued on a non-transferable basis. Goods covered by general licenses will be admitted on proof of despatch to consignees on or before Jan. 31."

SUNK BY SUBMARINE.

New York, Jan. 18.—The British steamship Boston City, a new vessel of 2711 tons gross registered, and owned by the Boston City Line, is reported to have been sunk by a submarine. The ship was last seen in an American Atlantic port Nov. 13. J. Arkel and Company, agents of the line here, say they had received a report of the loss of the vessel, but not from an official source.

CHANGES CATEGORY OF SHORT-LEGGED MAN

Montreal Judge Alters Classification Made By Military Medical Examiner.

Montreal, Jan. 18.—Mr. Justice Marchal asked the military representative in his exemption appeal whether the man was any specified length required for legs in the army. "Will an inch short be satisfactory," his lordship asked. "No, they must be the same length," was the reply. This was in connection with the case of a man who, besides having certificates from two physicians to the effect that he was in poor health, stated that one of his legs was shorter than the other, and that the only result of the short leg having been literally "mutilated" by doctors at the medical triage, and so on. It is his understanding that the required inch was that he was "pretty sore." He had been placed in category A2, but the judge held that the man was not a deserter's proper classification.

ADVERTISE ALLIES TO ENEMY.

Montreal, Jan. 18.—Producing a certain line of advertising matter and distributing it in Germany by airplanes with a view to bringing the war to a successful close for the allies was suggested by Edward Dreier in a luncheon of the Montreal Publicity Association today. The proposal was received with enthusiasm, and will be considered.

AWARDED MILITARY MEDAL.

Special to The Toronto World. Guelph, Jan. 18.—Word reached the city this morning of the winning of the Military Medal by Gunner Harvey Harland, who went overseas with the first draft of the 29th Battery. He was a student at the collegiate at the time of his enlistment.

U. S. POLICE ROUND UP BRITONS.

Springfield, Mass., Jan. 18.—The police department today began a round-up of more than 400 British subjects resident in this city who are not to be drafted into the British recruiting mission here. The local authority to arrest, but will investigate and turn over the information obtained to the recruiters.

NO OTHER CASES REPORTED. Special to The Toronto World. Chatham, Jan. 18.—No further cases of amebic dysentery reported to the city authorities, and every precaution has been taken against any further outbreak. The two cases have been placed in the Isolation Hospital.

FUEL ORDER GIVES IMMEDIATE RELIEF

Garfield's Measure Results in Freer Movement of Fuel Supplies.

STEAMERS ARE COOLED

Shipping Congestion at American Ports Being Remedied Quickly.

New York, Jan. 18.—Determination to observe the instructions of the government in carrying out its war orders is steadily relieving congestion in the New York territory, according to encouraging reports received today at the office of A. H. Smith, assistant director-general of the railroads. Efforts are being concentrated upon the movement of coal, especially fuel, for the great fleet of merchant ships tied up in this and other ports.

The coal supply at the West Virginia coal mines was said to be about 50 per cent of normal and a better proportion was reported today than has been recently. From these fields are obtained the greater portion of bunker coal for northern Atlantic ports. There were 566 empty cars available there today while 438 were loaded yesterday. A full supply of cars is at the anthracite mines and the supply at New Jersey tidewater terminals has increased.

Harbor traffic here is still handicapped by ice packs, many steam lighters and tugs used for towing barges having been crippled by the heavy fogs. Despite these unfavorable conditions, however, many more steamships waiting for bunker coal to begin their voyages were supplied today than on any day in the last week. More than 100 vessels were said to be still waiting for fuel.

Coaling of these ships was considered of first importance and all efforts were directed to that end. It was pointed out that the daily arrivals exceeded the number of craft on which fuel has been loaded. To speed up to the highest degree possible the loading and dispatching of steamers and supplementing the action of the fuel administration to provide bunker coal, the United States shipping board now has at New York, Boston, Portland, Norfolk and other Atlantic and gulf ports a well organized force of special despatch agents.

"Conditions are improving," was the statement of Reeve Smith, when railroads showed there were more than 800,000 tons of anthracite and bituminous at tidewater this morning, and in the last 24-hours more than 30,000 tons had been brought into the city. Improvement in the unloading of cars at tidewater also was shown in Mr. Smith's report.

ONCE THIS BEAUTY HAD PIMPLES

Stuart's Calcium Wafers Proved That Beauty Comes From the Blood and From Nowhere Else.

Plaster your skin all over, and you'll stop breathing in an hour. There is only one way to remove pimples, blackheads, eruptions and eczema, with its rash and itching, and that is by the blood. In Stuart's Calcium Wafers, the wonderful calcium sulphate acts as a cleanser for the skin, and is the most remarkable activity in keeping firm the tiny fibres of the skin, and so on. It is this substance which pervades the entire skin, keeps it healthy and drives away impurities. Get a 50-cent box of Stuart's Calcium Wafers at any drug store and learn the great secret of facial beauty.

A free trial package will be mailed if you will send the coupon.

IMPOSE BIG PENALTY OR CANCEL FRANCHISE WITH MINISTER TROTZKY

Board of Control Asks Legislature to Do One of Two Things to Force Action.

Stockholm, Jan. 18.—Relations between Premier Lenine and Foreign Minister Trotzky are growing more strained daily. The Petrograd correspondent of the Helsingfors Huvudstadstidnads reports: Lenine is said to be displeased both at the way Trotzky continuously occupies the public eye and at his foreign policy. Lenine believes it contrary to the best interests of the Russian revolution. Trotzky formulates his own foreign policies without regard to what Lenine advises, and often without submitting questions to the premier.

Friends of Lenine, the correspondent adds, declare that he intends to submit his resignation to the Congress of Workers' and Soldiers' Delegates in order to force a vote of confidence or lack of confidence.

WAGE INVESTIGATIONS.

Washington, Jan. 18.—Our men named tonight by Director Geary McCulloch to investigate railroad wage questions are: Franklin L. Lane, secretary of interior; J. H. Covington, chief justice of the District of Columbia supreme court; C. C. McChord, interstate commerce commissioner, and William R. Wilcox, chairman of the Republican national commission.

NORFOLK COUNTY FAIR BOARD.

Special to The Toronto World. Simcoe, Jan. 18.—The annual meeting of the Norfolk County Fair Board was held this afternoon at 2 o'clock. The financial statement showed a net gain for the year of \$133,113. It was decided to hold the fair for 1918 on Monday, Tuesday and Wednesday, Oct. 7, 8 and 9. The officers for 1918 are: Hon. president, H. H. Groff, Simcoe; president, W. C. Everett, Simcoe; vice-president, A. H. Smith, Charlotteville; second vice-president, W. A. Bowyer, Simcoe; secretary-treasurer, Hal B. Donly, Simcoe; general superintendent, Archie E. Culver, Windham; directors, R. W. McCall, Chas. Dunkin, Charlotteville; William H. Halden, Simcoe; Wm. Thorn, Walsingham; Herbert Downing, Horace Kellam, G. K. Boughner, Windham; Geo. Erwin, S. N. Culver, G. Witham, H. Halden, Simcoe; R. G. Bowley, J. J. Gilbertson, E. A. Atkins, C. Quabry, Woodhouse; auditors, M. M. Smith, H. A. Carter, Simcoe.

Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert—vigorous and vivacious—a good clear skin; natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with starchy or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons before putting more food into the stomach.

Those subject to sick headaches, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter-pound of limestone phosphate at the drug store, which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation.

Winged heel Patch Cases

EMERSON SAID "It is impossible for a man to be cheated by anyone but himself."

Wise men know the value of a reliable shoe. The shoe backed by the reputation of a successful manufacturer. You cannot get yourself when you buy a Watch Case bearing the "Winged Heel" quality mark.

THE AMERICAN WATCH CASE CO. OF TORONTO.

The largest manufacturers of Watch Cases in the British Empire

No MAN can vision the "Thing" in Flanders and remain insensible to the fact that ALL he can give, and ALL he can do—at home—is little to put in the scales against that which every man gives who goes through the HELL there, even though he comes out unwounded.

When the story is written and told

What will it say of you? It will certainly say something, for you have a part in it, and your acts will be as surely engraved on your conscience as will Deeds of Valor be written on the Empire's Roll of Honor.

The record will be inescapable. It will be something more than "Daddy, what did you do in the Great War?"

It will be the MAN in you, then, probing in calm perspective, the actions of the MAN in you, now.

And conscience—sternest of judges—will write the verdict.

It is admitted that not all are capable of going to the trenches, but it is not conceded that any should be unwilling to give.

And if ever there was a Cause to draw out every spark of patriotic generosity in one's nature, surely it is the need of the Canadian Red Cross and the Patriotic Fund.

It isn't as though we cannot afford to give.

The grim struggle which has brought sacrifice to so many has still made most of us, financially, more prosperous than ever.

Consequently we as a community can better afford to give now than we could in 1914—and the promise and obligation, made then, is still binding.

Over in Flanders the spirit of sacrifice does not cavil at its lot, but it looks longingly—oh! so longingly, towards "Home," and thinks kindly of us, and is grateful for what we are doing for its dependents. Surely we cannot, in honor, fail in the set purpose of raising this money.

Think this thing over. Pause awhile now, or at your work. It will do you good. Contrast what you are doing with what some soldier, in the trenches, is doing. Or think of it to-night, and ask yourself how you would like to change places with that man who

has just crawled over the parapet to repair some wire, and whose presence has been revealed to the enemy by a "starlight."

Think it over, and then picture what it would be like to be wounded and lack attention because of a shortage of Red Cross supplies.

Or think of some woman and her children, who, maybe, live on the same street as you. Picture the children praying that God in His mercy may spare their Daddy. Vision the loneliness of the woman and the long-drawn agony of separation. Vision the spectre of want creeping in to that home if we fail in our duty to them.

Think of all these things as you never thought of them before.

If you will do this—your conscience will tell you how much you should give, and we shall be proud of your subscription.

We want you to be proud of your part in it!

The Campaign Committee, PATRIOTIC FUND AND CANADIAN RED CROSS.

Record of Yesterday's Markets

Table with columns: TORONTO STOCKS, STANDARD STOCK EXCHANGE, and UNLISTED STOCKS. Lists various stocks and their prices.

NEW YORK STOCKS

Start on Fuel Conservation Program Checks Speculative Tendencies.

New York, Jan. 18.—Inauguration of the government's conservation regulations caused a pronounced diminution in the volume of business on the stock exchange today.

There was some apprehension before the opening of heavy liquidation by speculative interests at industrial points, but commission houses reported few offerings from such sources.

Public interest was at lowest ebb and observers of the market expressed the opinion that this condition would continue pending a definite adjustment of existing complexities.

Call Loans Rise. The money market hardened, call loans again rising to 10 per cent. Foreign exchange rates reflected the stabilizing process now under way, rates on cables again favoring the dollar.

Exchange rates showed practically no change yesterday. Sterling exchange on New York was 1-16 cent easier at 47.67 1/2 for demand, while cables were unchanged at 47.65 1/2.

Money and Exchange. London, Jan. 18.—Money, 3 1/2 per cent. Discount rates, short bills, 3 1/2-3 3/4 per cent.; three months bills, 4-4 1/2 per cent.

GET FEDERAL CHARTERS. Ottawa, Jan. 18.—Joint stock companies incorporated during the past week include Green Economy, Limited, Toronto, capital stock \$50,000; the Page White Fence Company of Canada, Limited, Montreal, \$100,000; the Wood Molybdenite Co., Limited, Ottawa, \$1,000,000; Macleod Electric Supplies, Limited, Toronto, \$150,000; Engineers and Chemists Works of Canada, Limited, St. Catharines, Ontario, \$100,000; C. J. Bodley, Limited, Toronto, \$10,000.

PER CAPITA CIRCULATION. Montreal, Jan. 18.—Canada's per capita circulation at the end of November was estimated today by a well-known banker at \$32, against \$23 a year ago. It is the highest on record, but considerably below the United States figures.

TO CLOSE COTTON EXCHANGE. New York, Jan. 18.—Closing of the New York Cotton Exchange next Monday (Jan. 21) in co-operation with the spirit of the fuel conservation order is being observed today by the board of managers of the exchange.

ACUTE DEVELOPMENT

Vigorous Methods Pursued in Group of Properties Produce Excellent Results.

Kiely, Smith & Amos say in a news bulletin: "Additions to the mining plant on the Elliott Kirkland property have been completed, and the work of sinking to deeper levels has commenced. We understand it is the intention of the company to carry the shaft to the 500-foot level before beginning to open up the ore bodies."

Work at the Wright-Hargraves property in the Kirkland camp continues to be of a satisfactory nature. The installation of new machinery consisting of a 200 hp motor and 12 drill compressors, now ready for use, will serve to carry on operations at advanced speed.

Harry Cecil, manager of the Kirkland Porphyry property, was in town this week and expressed himself as more than satisfied with the excellent development of the Kirkland Porphyry property. At the 170-foot level, a cross-cut was run to cut the ore body and the results show that 11 feet of the vein which is reported to be between 30 and 40 feet wide, remains in place.

CROSS-CUT ON GIFFORD YIELDS GOOD RESULTS

Vein With a Width of 10 Inches Carries Fair Values.

The cross-cut in the Gifford-Cobalt mine at the 350-foot level, towards the Beaver, has resulted in cutting one vein having a width of 10 inches, Royal King fair values says President Moore.

R. L. MONTYRE SHOWS CHANGE OF ALLEGIANCE

In July Last He Took Decided Stand Against Kirkland Lake Deal.

R. L. McIntyre of Toronto, who is now chairman of the President's committee on the Kirkland Lake deal, has been reported to have changed his allegiance to the Kirkland Lake deal.

KIRKLAND LAKE OUTPUT TO INCREASE GREATLY

Area Not So Large as Porcupine But Superior in Richness.

Hamilton B. Wills in his weekly letter says: "In point of richness of ore, it is said the Kirkland Lake district is superior to Porcupine, but its proven mineralized zone does not cover as great an area as that of the latter."

PRICE OF SILVER

London, Jan. 18.—Bar silver closed at 44 1/4 per ounce, New York, Jan. 18.—Bar silver closed at 89 1/2 per ounce.

Would you Ask a Man to Neglect his Business for yours?

IT means that to ask your friend to assume the Executorship of your estate. To properly administer an estate requires more time, experience and exertion than it is fair to ask of a business friend in addition to his regular occupation.

All handsome suits in the very smartest styles. Made of strong English and Scotch tweeds in neat pattern greys and browns. Sizes 7 to 17 years. Come at 8.30 a.m. for best choice.

Men's Fur Gauntlets

\$10.00 Australian Coon Gauntlets, \$6.75.
\$3.50 Black Dogskin Gauntlets, \$2.45.

Regular \$25.00, \$28.00 and \$30.00 Values in
Men's Handsome Suits at \$20.00
Up-to-Date Styles!

Your special attention is directed to the high-class quality of the materials and to the desirability of the styles shown.

Of course the big factor of the sale is the big saving afforded. Seldom, indeed, are we able to offer such all-round good value at such a low price consideration.

The lot comprises broken size ranges and remaining lines from stocks that pleased quickly and sold quickly.

Built of soft, closely-woven tweeds, cheviots, worsteds and vicunas in a weight and weave which lends a solid, man-tailored appearance.

The patterns are neatness personified—with hairline stripes on plain grey and blue cloths. Also check, overcheck and other designs.

Neat single-breasted; semi-fitting, hand-tailored styles, with or without vent back. Sizes 36 to 44. Special, \$20.00.

MEN!

\$4.00
Sweater Coats
\$2.49

Men's Fancy Knit Warm Sweater Coats, having close-fitting high storm collar.

They are in navy, brown, tan, Oxford. Sizes 36 to 44. Regular price \$4.00. They are broken lines. On sale today at \$2.49.

MEN!

\$6.00
Mufflers
\$1.48

Men's and Boys' Knitted Silk Mufflers, in all the newest patterns and colors—Roman stripes, mottled patterns and plain, in a large variety of colorings.

The regular values range from \$4.00 to \$6.00 each. On sale today at \$1.48.

Arrow
Shirts
4 for
\$5.00

Our \$1.50, \$2.00 and \$2.50 Regular Stock.

We carry the largest assortment of Arrow Shirts in Canada, and from such a large stock there are always small odd lots and broken sizes remaining; also many become counter-soiled. For today we have 500 such shirts.

They are our regular \$1.50, \$2.00 and \$2.50 grades, about the same quantity of each grade. Sizes 14 to 17. Soft and stiff cuffs, and a host of patterns. Sale price, 4 for \$5.00, or, each,

\$1.29

VICTOR
The Supreme in Men's Boots
Reduced to
\$5.45

This is a good time to buy boots. The approach of stock-taking makes it imperative that we clear out all broken lines, therefore this sale today. Victor Boots and Astoria Boots, in dongola kid, gunmetal, patent colt and mahogany calf leathers.

Made in straight lace and in blucher styles, with military and flat heels. Heavy and medium weight soles. Sizes 5 to 11 in the lot. Our regular \$7.00, \$8.00 and \$9.00 boots. At \$5.45.

Men's Fur and Fur-Lined Coats
Everyone in Stock Reduced

No reservations—the tags on every coat in the store show a big reduction from the regular price. Most of these coats are fresh and new, having arrived but a few days ago, making the opportunity one of the rarest in many seasons.

The perfect matching of the pelts and the smooth making of each coat is the result of careful, experienced workmanship. Here is the scale of prices:

- \$200.00 Mink Lined Coats, \$169.00
- \$150.00 Russian Muskrat Lined Coats, \$115.00
- \$100.00 Canadian Muskrat Lined Coats, \$85.00
- \$95.00 Mink Lined Coats, \$65.00
