MONDAY MORNING NOVEMBER 10 1919

39TH YEAR—ISSUE NO. 14,243

TWO CENTS

A. F. L. STANDS WITH MINERS AGAINST U. S. GOVERNMENT

Bill Enabling Provinces to Pass Bone-Dry Laws Goes to Senate

PROHIBITION BILLS PASS IN COMMONS ON SUNDAY MORNING

Give Provinces Power to Be- come "Bone-Dry"—Allow for Manufacture.

Special to The Toronto World.
Ottawa, Nov. 9.—Any province can
have what Hon. C. J. Doherty terms
"conditional prohibition" if the sen-
ate does not again take an opposite
view to the commons on this issue.
This last prohibition measure was
confirmed in the commons on Sunday
morning after the protests of Ernest
Lapointe and D. A. Lafortune against
the unconditional prohibition of the
day. These protests were unheeded
by Sir George Foster, especially as
both the Canadian and British com-
mons have encroached several times
on Sunday on less moral legislation.
The new legislation is embodied in
two acts. The first permits the man-
ufacture of intoxicating liquors in a
prohibition province but only for ex-
port or sale for legal purposes within
the Dominion. The second act extends
the scope of the Canada temperance
act to a province. On a plebiscite the
electors of any province which has
previously enacted provincial prohibi-
tion may secure by federal order-in-
council the prohibition of the impor-
tation of intoxicating liquor. The
plebiscite is secured by the legislature
of a province petitioning for such
election. Not more than three months
afterwards the governor-general, by
order-in-council, will hold a poll in
the province desiring it and a major-
ity of the electors voting in favour
into effect the Canada temperance
act. Severe penalties are provided
for violation of either act. The
act of violating the law by manu-
facture of liquor for illegal sale the
violatee may be tried for the offence
either in the province into which the
liquor was sent or in the province
where the offence was committed.

May Be Bone-Dry.

Under the new legislation, it is pos-
sible for any province to become
bone-dry if a majority of the
voting electors desire. But even bone-
dry prohibition does not abolish the
manufacture of intoxicating liquor for
export or legal sale at home. When
plebiscite is proclaimed, a matter of
a few days, liquor for personal use
can be legally imported into dry pro-
vinces, and until a province, taking ad-
vantage of the present act by a
plebiscite asks that the Canada tem-

The New Cabinet

May Include W. F. Nickle, George Locke and Seven Farmers.

(From The Toronto Sunday World.)
It is assumed on all sides that E. C. Drury has completed his cabinet. The premier-elect is his own guard against premature disclosure of the alo-meat of his portfolios, but the persons of the cabinet in accordance with knowledge that he must share with others.

A Kingston despatch credits William Folger Nickle, K.C., with the following answer to the question whether he had accepted the attorney-generalship of Ontario: "That it was impossible to discuss the matter at the present time." Lawyers can be depended upon to discover perfectly safe ways of making admissions, and Mr. Nickle's answer seems a carefully phrased admission of the fact.

Without portfolio: Lieut.-Col. Carmichael.
Peter Smith of South Perth has had ample experience in municipal finance to qualify him, and has a personality that is in itself an efficiency bond. Mr. Higgs also has satisfactory qualifications and experience to conduct the public works department, and Mr. Grant of Carleton Place is a well-known figure in the education department or another. Should education be offered to Mr. Locke, interchange of two other portfolios might follow.

Latest Cabinet Talk

Some Predictions May Not Be Realized—The New Premier Warned Against "The Intellectuals" and "The Interests."

Mr. Drury is still making his cabinet, as set out above in The Sunday World. But a well-informed authority said that it was not likely that Mr. Locke would be minister of education.

An Ottawa M.P., going thru Toronto on Sunday morning, said he had heard of the offer of the attorney-generalship to W. F. Nickle, but he was not sure that that gentleman would take the place. And another man in the city, when spoken to about this position, said it was just as likely to be Mr. Raney, the Toronto lawyer, that gentleman had been in touch with the cabinet makers. Even if Nickle comes down to Mr. Roebuck of the Liberal-Labor combination.

A member was asked about the item in The Sunday World that there might be an emergency meeting of the new legislature called in order to facilitate the vacation of seats in order to make room for Mr. Drury and any of his colleagues who were out of the house. He did not think it was necessary. Probably the way out would be for any new member who wished to vacate to accept some petty office under the crown, and this would immediately disqualify him. Then the law as it stood would allow writs to be issued immediately thereafter, and the elections all be over before the first of December.

A Minister of Mines Coming

Special to The Toronto World.
Fort William, Oct. 8.—The World's report purporting to forecast the creation of a separate department of mines in connection with the formation of Sir Bruce's cabinet has been met here with great satisfaction. This is the "most important question of the moment for the whole of the north country. The mineral-bearing belt from Lake Winipeg to Lake Timiskaming is interested in seeing it advanced at once to a solution. Mr. Drury will be well-advised to keep clear of entangling alliances, and to make it one of his earliest proofs of forward policy for New Ontario. The advantage that would follow upon the "armistice" autonomy of the mines branch of the crown lands of Ontario is thoroughly understood by all classes in the

RED REBELLION AND MURDER URGED BY U. S. ANARCHISTS

Manifesto Seized in Nation-
Wide Raids Shows Plans
of Russian Workers.

Washington, Nov. 9.—Plans of the
unions of Russian workers to bring
about an overthrow of the government
thru a general strike is revealed in
documents seized in the nation-wide
raids of federal authorities Friday and
Saturday night and made public to-
night by Assistant Attorney-General
Garvan.

The government overthrown
and everything "wiped from the earth
that is a reminder of the right of
private ownership of property," the
Russian works according to their
manifesto, looked forward to the mag-
nificent best form of man without
a God, without a master, and free of
authority.

HUN JOURNALISTS MAKE OVERTURES

Want American Capital to Build \$7,000,900 Press Palace.

There is an old saying if you dig a hole sufficiently far into the earth you will come to Australia. If you try to dig into the German mind, no matter how deep you may go, you will never get to the bottom of it. It is clever, constructive and cunning, and its every thought has some latent point behind it that ultimately will be to the benefit of the German nation.

The latest scheme for fostering and advertising the fatherland is so subtle in its conception, and so naive in its appeal that it almost deserves to prosper if only for the boldness of its inception.

Adversity sometimes makes us wondrous kind. The letter goes on to request The World to publish without delay an enclosed article. The German journalists believe, they say, that their press palace will be a better factor for peace than the general, but sheer platonic, conception of Carnegie's peace palace at the Hague. The press, the Germans think, has proved itself during the late war to be a mightier factor than the biggest armies. They do not mention the British navy or the submarines. Dusseldorf, with its 500,000 inhabitants, according to these gentlemen, is to become a journalistic and literary centre, where all threads of the world's intelligence will converge. This will prove a hard blow to Toronto editors as naturally all the stars of the daily papers will, after such an invitation, be heading Dusseldorf-wards. In this "palace of the press" every newspaper in the world will have a home, to say nothing of cable companies, tourist organizations, navigation companies and big trading companies, who will be accommodated with space at so much per cent. The peace our German friends, by "our journalistic and commercial news-centre palace."

A big hotel, industrial and trading offices, a theatre and a club are to be included in the building, which is to be 820 feet wide, six storeys high, and in the middle of the building will be a tower 500 feet high and consisting of 20 storeys. Merchants and manufacturers will here get a service of information from the whole world. Our German "colleagues" forget to mention that the Wolff News Agency, which at present is only sleeping, not dead, was at all times part of the German intelligence department, and it looks very much as if our old friend, the German spy agency and the Wolff News Bureau are again joining hands in the guise of German journalists, with a press palace. At best, the palace has nothing new in ideas. The Bush terminals and the Bush terminal-

al building in New York have been doing exactly the same class of business as proposed in the press palace, minus, of course, the spy system.

The Secret Out. The cat comes out of the bag, however, in one of the concluding paragraphs. An appeal is made for American capital to build this press palace, and to do it at once, as if put off for two years it will cost \$30,000,000, whereas if built now a mere paltry \$7,000,000 is all that is required. Before the war an American dollar was worth \$4.20; today it fetches 25 marks. The Germans themselves do not propose to find any capital—they find the brains and the cheek. Just now seven million American dollars would be useful in Germany, and the U.S.A. financiers are asked "not to put it off."

From a purely German standpoint, the scheme, apart from the spy system, is good commercially. The creation of such a press palace would not only allow them to obtain commercial news of the world and its wants at first hand, but would enable them to circulate practically free of charge from one centre, German commercial and other propaganda to the disadvantage of the rest of Europe. In addition it would give beautiful Dusseldorf a \$7,000,000 building contract, just to help her over the after-war period.

The whole scheme is so pro-Germanic that it could only have been conceived by a German mind—and probably that mind belonged to the man "higher up" than our journalistic friends of Dusseldorf.

DR. RIBOURG PREACHES

Conventional Religion and Lip Service Only a Living Paganism—Christian Beliefs Needed.

Rev. Dr. Ribourg, preaching at St. Alban's Cathedral, Sunday evening on "A Christian in Word and a Christian in Deed," said in part: "Conventional religion and lip service is only a living paganism, and it will never make an impression upon the unbelieving world, which judges religion by its fruits, rather than by its profession." "After the last five years of agony and crucifixion, we have a right to expect the resurrection of a nobler life. The travail of national soul which is going on in every nation ought to bring into birth a better day. That day has not yet come, because humanity has failed so far to see the day of its visitation. Instead of a deeper piety, we see a greater tendency to forsake God and despise religion. The masses of the people in every country have been scandalized by the unrighteous deeds of those who have been professing Christianity from the houseposts. The wilful and deliberate deceitfulness of the world's diplomats who, with professing a strong allegiance to the Christian religion, have brought upon mankind the most disastrous of all wars, has disconcerted many souls.

"The profiteering on life's necessities on an unprecedented scale, practised by men who have been posing as paragons of piety, while millions of men and women were sacrificing their all on the battlefields and at home, has shaken the faith of many in the ability of Christianity to change the hearts of men and to influence their lives. The inequalities, the injustices, the lack of honesty, of fair play, of brotherhood, the self-indulgence, the mammon worship, which disgrace our civilization, have caused many to despair of mankind, and to lose faith in God and in man. As we once more thank God publicly for the victory achieved a year ago over the

foes of democracy, let us resolve that as a people we shall not rest until democracy is implanted in our midst and until we have influenced that same democracy with Christian ideals, so to enable it to safely rule the world.

"What we most deeply need today as a people is reality in our religion, a piety that will permeate all phases of life, and a greater feeling of brotherhood. Much of the religion of today is too conventional to be true. It only provides flashes of power, rather than acting as a permanent force. Spasms of goodness and right endeavor simply emphasize the tragedy of wrong. Persistence is one of the best signs of reality. Spasmodic piety that lives only during wars and plagues and evaporates in days of peace and comfort is most disastrous, and one of the things we need to guard against if we want to endure as a strong and a healthy nation."

PERPETUAL CALENDAR DEvised BY ITALIAN

Rome, Nov. 8.—Rev. Francesco Scatigna, of the town of Locorotondo, in the province of Bari, claims to have discovered the "calendar" which has baffled scientists for centuries. His calendar consists of two discs, one superimposed upon the other, by the turning of which the correct day, week and month may be obtained. If his statement prove correct it will disprove the prediction of the great Hereshel that a perpetual calendar never could be devised.

LIBERTY LEAGUE WANTS RECOUNT

Telegraphic Request Made to Premier-Elect Drury in Interest of "Fairplay."

Cobalt, Nov. 8.—Expressing sentiments similar to those contained in the message to Sir Robert Borden earlier in the week, the Liberty League has telegraphed to Premier-elect Drury of Ontario: "If you are an upright and just man you will give instructions that the referendum ballot be recounted and counted to express the people's true will." The league repeats its charge that the referendum ballot was tricky and states that the citizens of the province overwhelmingly voted down prohibition. The message takes a few slams at the Methodist Church, and concludes with the statement that the Anglo-Saxon race is "the finest on God's earth and has been drinking strong drink for centuries."

Chairman, E. O. Johnston. Vice-chairman, D. W. Watson. E. J. Cane. That interest is by no means subsidizing for the Victory Loan was shown by the thousands who assembled in support of Canada's big loan.

The weather was not too inviting, being somewhat colder than that usually chosen for outdoor services, and at times the clouds looked as if they might portend rain or even snow, but Torontonians were not to be deterred by weather forebodings, especially when they had a banner in hand as important as the call of patriotism.

The open-air service was planned and carried out with military precision and environment. Every pulpit was swathed in folds of "red, white and blue" and from a staff flew the flag that for the first time in this country had the battle and the breeze.

Bands of men in khaki were stationed at intervals along the route, and they not only played the national anthem but gave the signal for simultaneous singing of the different numbers, the blast of a bugle coming floating to the ears of those assembled in the open air.

Again the call of a bugle announcing the singing of "Onward Christian Soldiers," and then the closing strains of the national anthem, during the playing of which hats were lifted and the people stood quietly at rest, the often-repeated air seeming to have a special significance on this occasion.

Weeks' effort reaching a climax in a spectacular program arranged for each day. Tonight a great mass meeting will be held in Massey Hall to be addressed by E. C. Drury, the new premier of Ontario, Hon. Arthur Meighen, solicitor-general for Canada, and Rev. W. A. Cameron.

At 9 o'clock Col. Barker, V.C., and associates will give Toronto an exhibition of the first night flying ever witnessed in Canada. Illuminated German Fokkers and Canadian built machines will be used by Col. Barker, who contends that night flying will be an important factor in commercial aerial transportation in the future.

The machines will land at sea-side where great electrical flares will illuminate the field and reduce the danger of landing to a minimum. Anti-aircraft guns have been located on several buildings on Yonge street, the route to be followed by the well-known members of the community.

MONDAY, NOVEMBER THE 10th A Presentation and Revealment OF New Millinery Modes FOR THE Winter of 1919

At the upper right is pictured a wonderful "metal" hat, in glowing electric blue, with conventional flowers in contrasting pastel tints.

Fur Hats In moleskin, Hudson seal and grey squirrel—mostly fascinatingly coquettishly little round turbans...

As marvelous in their diversity as in their beauty are these wonderful hats, which mark the epoch of individuality in millinery.

Dance Hats Close little toques, quite simple, as befits their purpose, but developed in wonderful silver braids or glistening metal brocade...

The etiquette of the Art Gallery prevails. Come and view these masterpieces at your leisure.

L. L. P. SLOGAN IS FIFTY THOUSAND

Walter Rollo Sends out a Call For Fifty Thousand Members.

Fifty thousand members by spring. This is the slogan of the Independent Labor Party, and one which has been messaged abroad by the leader of the group in the Ontario Legislature, Harry Rollo.

Mr. Rollo ventured the opinion that a doctor who prescribed an operation for appendicitis when the patient had fever was nothing less than a criminal at large.

Hon. C. J. Doherty said there was opposition to the clause because it was too wide in its character.

Pass Prohibition Bill.

Hon. C. J. Doherty's amendment to the act in aid of provincial legislation prohibiting the sale or intoxicating liquors, was then given the second reading.

On a vote of \$20,000,000 for soldiers' and sailors' clothing, the bill was carried by a majority of 17,000 such persons.

On the vote of \$40,000,000 to carry out the recommendations of the report of the committee on soldiers' civil re-establishment, Hon. A. Callaghan stated that the committee estimated the sum of \$9,000,000 would be required for increased payments of gratuities to soldiers who served in the imperial army.

Mr. McKenzie declared that while he had not wished to say anything while the bill was in committee, he did not regard the investigation by the committee as a fair one.

ALLEN ENTERPRISE BIRTH ANNIVERSARY

Thirteenth Year of Wholesome Picture Entertainment by Noted Firm.

Today the Allen Theatre enterprises celebrate the thirteenth anniversary of their birth, and also the second anniversary of the opening of the first Allen Theatre in Toronto.

Thirteen years ago today Mr. Allen and his two sons, Jule and Jay J. Allen, became interested in motion pictures. At that time movies were being shown regularly only in Toronto and Montreal, but Mr. Allen and his sons decided that Brantford offered an opening for the new amusement, and they rented a store and the Theatreium was born.

Invaded States. The Allens have now invaded the United States. Two houses, representing an investment of four million dollars, are under construction in Cleveland and Detroit. Still other evidence of their activities is shown by the presence of Jay J. Allen in England, where he has gone to arrange to have the best English pictures brought direct to Canada instead of through American exchanges as is the case at present.

Like all the great singers of the world, Melba, the beloved of three continents, an Australian by birth, makes records for the Victor Victrola only. Among the long list of productions of this great diva obtainable in the Victrola Parlors of York Street, 145-147, Yonge Street, Toronto, are the following: "Annie Laurie," "Believe Me If All Those Endear'd Young Charms," "Boheme" and "Lo, Hear the Gentle Lark."

HOME-MADE BREAD

Home bread-making reduces the high cost of living by lessening the amount of expensive meats required to supply the necessary nourishment to the body. The increased nutritious value of bread made in the home with ROYAL YEAST CAKES should be sufficient incentive to the thoughtful housewife to give this important food item the attention to which it is justly entitled. Bread made with Royal Yeast will keep fresh and moist longer than that made with any other. Made in Canada.

EASTERN STAR ENTERTAIN.

Fair members of the Order of the Eastern Star are arranging a midnight performance in the Allen Theatre on armistice night, November 11. The entire proceeds will be in aid of the Florence Nightingale Home Fund and every effort is being put forth to have this home for widows and orphans in connection with this order established in the near future. The Allen orchestra, assisted by some of the best talent in the city are giving their services to make this affair a huge success. A number of Grand Chapter officers from out of town have signified their intention of being here for the event.

PLAYS, PICTURES AND MUSIC

Gallo English Opera Company. After more than thirty years the tripping melodies and sparkling satire of "The Mikado" remain as fresh as ever. No doubt of this will remain if one looks in on the opening performance of the week's engagement of the Gallo English Opera Company at the Royal Alexandra Theatre this evening. "The Mikado" has held its place as a real masterpiece among comic operas for thirty years, and today is fully as popular as when it was first produced.

A decided novelty will be introduced tonight in the petite person of Hana Shimozumi, a real Japanese flesh and blood prima donna. Miss Shimozumi is unique on the comic opera stage, for her only other countrywoman heard in opera in this country, Tamaka Miura, confines her attention exclusively to grand opera. Jefferson De Angeli, beloved by a generation of theatregoers, who has been the Ko-Ko, while the balance of the cast will be up to the usual high Gallo standard.

"Mutt and Jeff's Dream." No comic cartoons of recent times have made such a hit with the public as the creations of Bud Fisher, "Mutt and Jeff," and for that matter their popularity is not confined to this country alone. The "long and short of it," as they are familiarly called, are known all over the world, even in those sections of the globe where English is not spoken. As real comedians the twain probably have no equals. Their very names seem to be the signal for uncontrollable mirth. "Mutt and Jeff's Dream" is the title of their latest hit, said to be the best and funniest of all their "outs ups," being one big laugh from start to finish. They will be seen at the Grand all this week.

Charles Robinson and his big Parisian Flirt will start a week's engagement at the Star Theatre today. Those who have followed burlesque in the past will gladly welcome the coming of this well-known attraction. For many seasons this comedian and his company have played at the Star, and at no time has the public been fooled. Some of the greatest stars in musical comedy have been secured to add to the big scenic and musical production to keep things on the go from beginning to the end of the show. The two-act book is filled with novel situations that are bound to make you laugh, while the music is the kind that will set you humming all the time. Ask dad, he knows; he hasn't missed one yet, so don't you. Matinee every day.

Alice Brady in her latest picture, "Marie Ltd.," a fascinating story of metropolitan life, and Roscoe (Fatty) Arbuckle in "Back Stage," a scream-burlesque, presenting "Fatty" in the role of the stage carpenter in a small town. "Opry House" there is a strain of love running thru this travesty. The humor is of that sort for which "Fatty" Arbuckle is famous. McConnell and Simpson, of the "Back Stage," a scream-burlesque, presenting "Fatty" in the role of the stage carpenter in a small town. "Opry House" there is a strain of love running thru this travesty. The humor is of that sort for which "Fatty" Arbuckle is famous.

"Fio-Flo" Coming Next Week. "Fio-Flo," John Cort's bright musical comedy of bride shop locals and lingerie display, comes to the Princess Theatre next week. All the dash, vivacity and color which marked its original production last season are promised. Thomas Sanders and Arthur Mills, who again head the fun-makers of the cast, are clever exponents of eccentric dancing and trick hat manipulators. The book is by Fred de Cresac and music by Silvio Heith. The cast contains Katherine Stout, Al Shean, Venita Pomret, Rosita Mantella, Harry Short, Henry Sherwood, Bert Gardner, Adelyn Wesley and a chorus in which Manager Cort claims each girl is a "perfect 25."

Applied After Shaving. Keeps the Skin Soft and Smooth. MANY men suffer from irritation of the skin as a result of shaving. With some it assumes a form of eczema and becomes most annoying and unsightly. By applying a little of Dr. Chase's Ointment after shaving the irritation is overcome and such ailments as Barber's Itch and Eczema are cured. 50 cents a box, all dealers, or Edmondson, Bates & Co., Ltd., Toronto. Dr. Chase's Ointment

"The Rainbow Girl." "The Rainbow Girl" comes again to the Princess Theatre, starting tonight. It has played long engagements in New York, Chicago, Boston and Philadelphia and has visited the principal cities of the country, and is one of the most popular musical comedies before the public today. Tho now in its third season, there has never been but one company to introduce this attraction. The important people who have created the leading roles will visit here. They include Bill B. Van, Sidney Greenstreet, Grace Walsh, Harry Dell, Lohora Novasio, William Clifton, Harry Benham, Gladys Foushee, Fred Solomon, Marquita Dwight, Mabel Hoese and Edna Hettler.

Great Fagant Presentation "Broken Blossoms." D. W. Griffith's latest and most sensational motion picture production, will have its premier presentation in Toronto at the Regent Theatre today, beginning at 11.15 a.m. With Lillian Gish as the girl, Donald Crisp as "Fattling" Burrows, Richard Barthelmess as the Chinaman, and with the assistance of Edward Peil, Norman Selby and George Beranger this is a masterful picture story. A wonderful musical accompaniment has been arranged and will be played by the famous Regent orchestra. Farnum Barton and co-players appear in a pantomimic epilogue and enact certain scenes eliminated from the pictures. This is the creation of Will M. Elliott, Bert Thomas, Chinese tenor, is the soloist this week. Of all the pictures this season, it is thought that "Broken Blossoms" will remain in memory the longest.

"White Heather" at Strand. Everyone knows and freely admits that Maurice Tourneur is in a class by himself as a producer of thrilling melodramas. His enormous features, "The Whip" and "Sporting Life," are the giant pictures of their kind, standing out far above all others. The Strand Theatre recently concluded a most important arrangement by which it will show a remarkable succession of Paramount-Artcraft special pictures. Every one of them is a masterpiece, but now and then there will be a picture of superlative interest—some extraordinary achievement. One of these—the greatest in sight—is Maurice Tourneur's great new Drury Lane melodrama, "The White Heather." The Strand has secured it, and beginning today, it will be shown there for the entirety of this week.

"The White Heather" is a massive production, astonishing in sensational and unusual action, in thrilling adventure, and in the scope of its throbbing romance. The story is adapted from the melodrama written by Cecil Raleigh and Henry Hamilton which had enormous success at the Drury Lane Theatre in London. The action centres around the recovery of a marriage record from the bank of a sunk yacht, "The White Heather." The big scene of the melodrama takes place at the bottom of the sea, where the hero and villain fight to the death on the ocean floor. And it is the real thing, being photographed with the Williamson submarine device. "The White Heather" is shown from noon, till 11 p.m.

Hayakawa At Madison. Always a prime favorite with patrons of the Madison Theatre is that unique Japanese screen star, Sessue Hayakawa, who will be seen at that popular playhouse today, tomorrow and Wednesday in his latest, heart-rending production, "The Illustrious Prince." The photoplay is an exceptionally powerful one of romance, adventure and Oriental intrigue.

Hefetz on Thursday. Next Thursday evening will without doubt see a tremendous audience in Massey Hall to hear the wondrous violinist, Jascha Hefetz. He is acclaimed by New York critics to be "the first of living violinists," and his name is continually being linked with that of the wonderful Paganini of the past. The sale of seats begins this morning at the box office. The recital will be under the direction of Mr. E. Sackling.

"The Woman in Room 13." Unusual interest is manifested in the coming production of "The Woman in Room 13," the sensational New York success, which A. H. Woods will present at the Royal Alexandra a week from next Monday, with what is unquestionably one of the most distinguished organizations seen in any one play of recent years. It includes among others, Robert Edeson, Catherine Tower, Kenneth Hill, Charles Waldron, Mary Newcomb, DeWitt C. Jennings, and the others of the original company that played for over eight months in New York. Seats will be placed on sale Thursday morning.

Barney Gilmore Coming. The talented Irish actor, Barney Gilmore, will present his popular comedy Irish classic, "The Rocky Road to Dublin," at the Grand Opera House next week. The play is by Daniel L. Hart, author of "The Irish Priest." Mr. Gilmore is supported by Mrs. Helen Evely and associate Irish players. The sale of seats opened this morning.

Two Girls, Age Six and Seven, Burn to Death Near Port Arthur.

Port Arthur, Ont., Nov. 9.—Two girls, aged six and seven years, daughters of Otto A. Strey, farmer, were burned to death in their home at Dorion Township, when fire destroyed it Friday night. The father escaped from downstairs taking a 3-year-old boy with him. The mother threw a year-and-a-half-old boy out of an upstairs window and followed it herself, while a 14-year-old boy escaped unaided. The father, on finding the two girls had not got out, tried to get in to save them, but was severely burned. The father walked more than a mile thru the snow with nothing on but his night clothes and his feet bleeding from the burns and bruises to get help.

JOINS PRINCE'S TRAIN. Montreal, Nov. 9.—H. R. Charlton left Montreal tonight to join the Prince of Wales' special train en route to Washington on which train he will represent the president of the Grand Trunk.

ASSASSIN DECLARED INSANE. Berlin, Nov. 9.—The Austrian, Johann Voss, who shot Hugo Haas, president of the independent socialist party, has been declared insane, according to The Mittag am Zeitung, and will be sent to an asylum without trial.

Come on Everybody! Shove the Indicator Forward!

YOU dare not let Canada's Prosperity Indicator slip back; you must keep shoving it forward. Every dollar added shoves it over that much nearer to Continued Prosperity.

Great Britain is prepared to place large orders in Canada, but she is temporarily unable to pay cash for them.

Canada can get these orders if she gives Great Britain credit. Canada can give this credit if you provide the money to pay the workers on these orders.

You will provide the money through your purchase of Victory Bonds.

Therefore the more Victory Bonds you buy the more orders Canada will get—the more money there will be to distribute among our workers—the more money there will be put in circulation for the benefit of all.

Canada's Prosperity will be in proportion to Canada's purchase of Victory Bonds.

There are only five more days.

Shove the indicator over into Continued Prosperity.

KEEP TORONTO HUMMING

Canada is running a great National Store.

Great Britain and other lands come here to buy our surplus agricultural and industrial products. These are the orders that are keeping Canadians busy and prosperous. That is where the money comes from that is paying our farmers for their surplus products and providing full pay envelopes for our workers.

But Great Britain and our allies are temporarily short of "cash." So Canada must extend them "credit"—just as any storekeeper extends credit to any customer whose financial standing is good.

The success of the Victory Loans 1917 and 1918 made possible the giving of these credits.

A continuation of these credits and the maintenance of our valuable overseas markets—depend upon the success of the Victory Loan 1919.

You will therefore plainly see how closely bound up with the Victory Loan 1919 is the prosperity of everyone in Canada, without exception.

Do not think your individual co-operation "does not matter."

It does matter.

Unless Canadians to the last man support the Victory Loan, it will not be the success that our continuous prosperity demands.

Let Toronto do its share to keep things humming.

SESSION OF MARKET BRIEF, BUT VIVIDLY

Movement Prompted by News That Coal Strike Injunction Would Be Pressed.

New York, Nov. 8.—Selling of stocks was resumed during today's brief but lively session, the movement being prompted by the news that the federal administration would press its injunction proceedings against the striking coal miners.

The same shares which suffered great depreciation in the week's reactions were singled out again for pressure. Steels, equipments, motors and oils recorded extreme declines of 3 to 7 points.

In a number of cases lower quotations of the week were met, and in some the more speculative issues, recent advances of 5 to 20 points were altogether effaced.

Rails and shipping were carried down by the reversal, but the former showed recuperative power that any other part of the active list.

Pools made tentative efforts to elevate some of the more speculative issues, but to no avail, as the market was less susceptible to pressure, but these operations were abandoned later in the week (five days) share prices. Sales amounted to 75,000 shares.

Conditions in the bond market were mixed. Liberty issues easing again with most domestic issues. An irregular trend was shown by leading foreign issues of various issues (par value) aggregate \$9,550,000. Old U. S. bonds were unaltered on call during the week.

The effect of these federal reserve bank's admissions against speculation was seen in the bank statement, actual reserves decreasing by \$38,668,000, and reserves increasing almost \$50,000,000, total reserves being expanding to approximately \$100,000,000.

BETTER DEMAND FOR BANK SHARES

Steels Are Slightly Easier—Some Interest Shown in Pacific Burt.

The Saturday session of the Toronto Exchange was an interesting one, dealings consisting largely of odd lots with 24 issues constituting to a total of slightly less than 1000 shares. The movement in stocks locally has been leading driving force for some days, partly owing to the victory loan campaign and partly to the development of bearish sentiment in the New York market since the coal strike became an actuality.

Dominion Iron eased 1/4 to 70, while Steel of Canada at 74 1/2 was also off 1/4. Cement, in which there has been persistent day to day buying, was 1/4 up at 72 1/2. Pacific Burt was unaltered, active, and after a strong opening at 4, the lowest point on record, and the preferred was a point off at 25, the average point above the recent low mark.

One feature was the improved inquiry for bank stocks, imperial being in particular favor on Saturday and advance in price to 189. The price of bank shares scored a notable advance, warranted expectations that annual reports would show the general banking industry to have been strengthened, and the present buying is evidently upon like grounds.

The morning's transactions: Shares, \$94; bonds, \$110,150.

MINING MARKET REMAINS STRONG

Prominent Gold and Silver Stocks Are Given Good Buying Support.

The tone of the mining market continued strong on Saturday, and the trading, amounting to about 102,000 shares, was large for the two-hour session. A number of the New York and Montreal newspapers are giving considerable attention to the speculative possibilities of silver stocks, and brokers count upon the interest awakened to result in increased orders for the Cobalt stocks, particularly if outside markets turn weak, as they are showing signs of doing. Many traders who have been speculating in motor and oil stocks will probably return to mining issues before long.

Hollinger repeated his high record price of \$7.80, yielding later to \$7.58, and showing no net change. Teck-Hughes held \$22.85, the maximum price of the current movement. The bid for Wasapika rose three points to \$11.6, a high record level. The bid for Wasapika rose three points to \$11.6, a high record level. The bid for Wasapika rose three points to \$11.6, a high record level.

EMBARGO ON SILVER

London, Nov. 8.—Export of silver bullion specie has been prohibited.

New York, Nov. 8.—Local dealers in silver today attributed the British embargo to several causes.

London, Nov. 8.—It was stated, is very scarce in England, domestic consumption having increased greatly in the past few months. Another reason advanced by metal dealers here is that the present high price of silver in England might tempt holders to melt coin into bullion for export. Such an operation, it was said, would be profitable with the high price of the metal now prevailing in London.

MILLER'S NEW VEIN

Boston Creek, Nov. 8.—While sinking the main shaft of the Miller-Edwards property, a new vein carrying high values was encountered at a depth of 300 feet. The ore body is thought to be a new one. No details of the discovery have been given.

DEARISH MOVEMENT ON CORN MARKET

Chicago, Nov. 8.—Prospects that an accelerated movement of the corn crop would take place next week had a decided bearish effect today on the corn market. Quotations closed 1/2 to 1 1/2c to 3 1/2c net lower, with December \$1.32 1/2 to \$1.32 1/2, and May \$1.26 1/2 to \$1.26 1/2. Oats finished unchanged to 1/4c to 3/4c down, and provisions off 1/4c to 1/2c.

GRAIN PRICES DIP

Chicago, Nov. 8.—Suspension of the railway permit system led to general selling of corn today, and to material breaks in prices. Increased receipts were reported, especially as a cold wave was predicted. Weakness in sterling exchange report this afternoon was government crop report issued after the close, also to weigh down values. The wheat market was active, with the close lower, with December \$1.25 to \$1.25 1/2, and May \$1.17 1/2 to \$1.17 1/2, was followed by something of a rally, but then declined lower than before.
