# THE BIGGEST PARADE EVER SEEN IN

Conservative Estimates Allow for 12,000 Men in Line and 150,000 Sightseers - Every State and Every Province Represented and Variety of Dress and Color is Dazzling.

### TORONTO THE GOOD.

Hon. Alvin Curtis Cable, ex-legislative member of the State of Ohio. Past Grand Sire of the order, made the following statement to The World last night, touching the parade in general and the city in particular:

"Considering the fact that Ontario is at one side of the population of the Sovereign Grand Lodge, and all its intensity, this was one of the finest parades that the order has ever held.

"We of Akron were wonderfully and agreeably impressed with the splendid and patriotic display of respect for law and order, in that no ropes were necessary to hold the people back—even the little child knew its place—and the great respect and admiration for the government of the province was splendidly exemplified on every hand, in holding their respective positions in the line.

"Among the representatives from the States, composing the greater part of the Sovereign Grand Lodge jurisdiction, there is but one expression, and that is in admiration and fullest appreciation of the fact that those who advocated the selection of of the Sovereign Grand Lodge for its \$200 annual communi-Hon. Alvin Curtis Cable,

of the Sovereign Grand Lodge-for its 82nd annual communi-cation, had made no mis-take.

The wonderful outpouring of people to witness the parade was a testimonial of their appreciation of the presence of the body, and those who honor it by their presence, beyond expression."

Now the dust has blown away the verdict must be that it was all an immensely encouraging boost for Friendship, Love and Truth. The endorsation of the wise old sun in the day time and the pleasant expression upon the moon and her little friends a part of the welcome Toronto accorded to the Independent Order of ering cart was sent to the tall tim-Oddfellows, most of them from somewhere else, but here to extend their best wishes and partake of hospitality from the local Oddfellows and the branded on the breasts of many of the onlookers the sincerity which must be behind such a pageant and the con-clusion that if objects of the Odd-fellows order were not good it could

not obtain such strength.

The Toronto has become famed as a convention city, and many beautiful and beneficial laws have been framed by outside bodies within its midst, it has never before seen such a gorgeous, gigantic and glorious parade of visitors and local affiliated bodies as that of yesterday.fi Truly it was a great procession. It took up one and a quarter hours of time and tired nobody, except the man holding the heavy baby. The route was laid on a basis which made room both for the sightseers and the processionists There were bands galore. It was a most decidedly international affair. Sometimes the American flag, which was much in evidence, was hissed, but more often it was cheered as a compliment and a courtesy to the thou-sands of American citizens who marched behind it in the parade. Of course the Union Jack and the Canadian flag, as well as two mounted policemen, led the parade, so our country was safe enough no matter how many ornamental flags came behind.

Recommendations Made by Insurance Department Concerning the Order—Dr. Montague's Australian Experiences Explained.

The visit to Australia in the interests of the I. O. F. made by Hon. Dr. Montague and the incident of his "contribution" of \$250 to a political party there were reviewed before the Royal Insurance commission yesterday. It also developed that as a result of Supt. Fitzgerald's constant objections as to the way funds of the order were borrowed and loaned changes by which expenditure was decreased were made.

Connected With the Order.

Mr. Shepley noted that the article went on to say that the organizers and agents in Australia to say that the organizers and agents in Australia to say that the organizers and agents in Australia to say that the organizers and agents in Australia to say that the organizers and agents in Australia to say that the organizers and agents in Australia to say that the organizers and agents in Australia to say that the organizers and agents in Australia to say that the organizers and agents in Australia to say that the organizers and agents in Australia the organizers and agents in Australia to say that the organizers and agents in Australia the organizers and agents in Australia the torganizers and agents in Australia the organizers and agents in Australia to say that the organizers and agents in Australia had been saying that the organizers and agents in Australia the organizers and agents in Australia the organizers and agents in Australia had been saying that the organizers and agents in Australia had been saying that the organizers and agents in Australia had been saying that the organizers and agents in Australia had been saying the two or the footer.

The visit to Australia had been saying that the organizers and agents in Australia had bee

gerald's constant objections as to the way funds of the order were borrowed and loaned changes by which expenditure was decreased were made.

The first item taken up when the examination resumed in the morning was the receipts in foreign countries. For five years in France and Beigium the mortuary receipts were \$7230, sick and funeral benefit \$182 and general receipts \$389. In all about \$6800, while the expenses were \$26,553. In Australia will was something I had to do my be better if you did?

"It might have been a better policy, began to fall off and when asked the reason Dr. Oronhyatekha told the commission that the check on the work in Australia was due chiefly to the Montague informed me of it, that he had subscribed £50 to the government party represented by Sir Alexander's medical selection?"

Wild prophecy to say that the order in Australia will never recover," said the counsel.

"Yes, that would be wild."

"The rest of the article I will not read." remarked Mr. Shepley, "because certainly it is very bitter. If you wish me to read it to show the animus I will do so."

"Oh, no. We don't pay much attention to such articles."

Commissioner Kent: Would it not be better if you did?

"It might have been a better policy, but it was something I had to do my but it was s

not go to Australia?" Witness: "No."

"Affidavits were sent from here to Australia. I think." "Was it owing to your advice that he stayed away?"

"Well, you know, that it costs some-thing to go to Australia." "Yes, but a man's character is worth

"Well, as far as I can remember, I tried to impress upon him that the charge that he had paid money to any party with bribery as the end in view couldn't possibly amount to anything."

"Dr. Montague intended to benefit the I.O.F. by any action he took?"

"Yes, that was his ulterior purpose."

I.O.F. by any action he took?"
"Yes, that was his ulterior purpose." "No, direct. Being a stranger in the colony he couldn't possibly be familiar with the different parties. The report found that Dr. Montague did offer money to Mr. Mitchell and also to Sir Alexander Peacock with the intent of

general agent, and at the head of af-tairs there. Dr. Montague was appointed to get a commission to help the I.O. F. to secure a foothold in Australia,"

said Mr. Shepley.
Mr. Shepley asked that the copies of all affidavits that were sent from here to Australia on Dr. Montague's behalf and other correspondence be produced, and the witness acquiesced.

Contract Under Scrutiny.

The contract between Dr. Montague and the I.O.F. was dissected. "He was made deputy supreme chie? ranger—your deputy—and organizing officer of the L.O. F.?" asked Mr. Shepley. "The contract was dated in February, 1901, and Dr. Montague's salary was fixed at \$3000 for the first three years and \$4000 for the succeeding two years, with expenses added? When did you make your second visit to Australie?"

"September, 1901."
"You found Dr. Montague in charge "Yes; he had been there only a few

months. My impression." commented the witness, "is that this was a general contract made with Dr. Montague when he entered our service-not the one sending him to Australia."

"And then you supplemented that by issuing a royal commission," smilingly said the lawyer, "and it was signed

It would not have been a far cry to show that Dr. Montague was acting for the order in Australia?" "There is no denying that he repre-sented us there. Nobody disputes that, but we do deny that he acted for the do what it likes with the fund indeorder in regard to the paying of that 150. If he stole sheep in Australia, sure-

The doctor differed with that.

Wiping Out Deficits.

Mr. Shepley: "Dr. Montague, then did out go to Australia."

The attitude of the department was outlined by Mr. Shepley from the blue book of 1904. The total receipts ("He didn't approve the allegations, hen?"

"Affidavits were sent from here to "Affidavits were sent from here to customic and the didn't approve the allegations, hen?"

"Affidavits were sent from here to "attitude of the department was outlined by Mr. Shepley from the blue book of 1904. The total receipts officers' salaries amounted to \$300,222; wages of office employes, \$600,504; organization expenses, \$771,496. ceipts \$58,684. The deficit in 1903 was \$348,947, making a total deficit of \$407,582. The mortuary fund income was \$8,315,612 and \$218,514 was derived from the sick benefit and funeral fund, which after the \$407,582 was taken left a net balance on hand of \$8,126,504. The \$407,582 was treated as a least from the mortuary and sick

mething."

"Well, as far as I can remember, 1 a loan funeral funds.

Summer is passing; Friendly above us the cloud-sifted as a special committee to provide for the deficit before Dec. 31. 1901. A month after Mr. Stevenson made a report as follows that one half should be borrowed from the sick and funeral fund at a certain rate of interest, and the remainder from the con-"Yes, but he didn't have a tittle of evidence to show that the I.O.F. was in any way connected with that."

"Except that Montague was their remainder from the contingency fund (which was made up of all interests) to be paid back into this fund at the rate of \$10,000 per month. "The contingent fund was to be held for the herefit of the members of the

Repealing the policy laid down by the supreme court that the executive could borrow from the profits on lapses to meet a general expense fund was a mistake," was the comment of the witness on Mr. Stevenson's re-port on his conference with Mr. Fitz-gerald, which Mr. Shepley reads Mr. Fitzgerald had disapproved of these loans and was emphatic that they should be discontinued. He suggested that three different bank accounts be

that three different bank accounts be kept.

"There was no uncertain sound from the department," said Mr. Shepley.

"There was no uncertain sound from the department," said Mr. Shepley.

Dreams for the morrow, but love for Clear Cut Opinions. "Mr. Fitzgerald always expresses his opinion, like myself, clearly and concisely, and I like him for it," said the witness.

Dr. Oronhyatekha said that as a

matter of fact, altho there was an sverdraft of \$35,000 in 1905, it had been up, this soft, exquisitely toned material which has had such vogue in Paris for the last few months.

Surely, there are few fabrics that can better stand popular favor. There the tone of the lining. This quality is utilized with delightful results, espectively deligated with the stand wonderful cally for evening gaves where white carried forward from 1904. The transactions of that year would, otherwise, have shown a balance. The executive resolved to curtail ex-

penses, in accordance with the wish of the superintendent. Mr. Stevenson, therefore, went to Egypt to confer with the witness on the curtailment of expenses, and it was resolved to pay less for advertising and other expenditures.

Oronohyatekha said here in reference to Mr. Fitzgerald's opinion,that

He thinks this superiority is due to the Bible, and in order to make the Chinese not only equal but superior to their western competitors, he orders the New Testament taught alongside the Confucian classics, among the 58 million people over whom he rules. Perhaps the most striking indication of the Chinese' desire for western progress is found in the recent imperial decree attempting to establish the Christian Salbath. The decree makes the coupling with which it is secured to the upper section, and an alarm belt is sounded on the deck of the endangered vessel. Precautions can at once be taken to secure its safety. Nearly all of the horses that are rache at the Woodbine will be shipped to Hamilton Sunday or Monday, and as there are already many horses stabled there the fields should be as large and the rainz as good foot Hamilton as it is at Toronto. The Hamilton meeting will open next Tuesday, and swill continue for eight days, Indications are that it will be the greatest racing meet ever held in the city under the mountain. The track is in good shape, considerable money having been spent on it since the money having been spent on it since the more horses there than ever before, in fact, the chief werry of the officers on the club is to did room for all the horses. There are about 40, stalls, at the track, and an of the stables in the vicinity have been secured, but even with these the club will not be able to fill all of the applications for stalls.

The Hamilton Club has issued an attractive of the officers of the High Fling. 116 12 12-10 1 Hamilton Races.

fine and warm and track fast. The attendance was almost up to Saturday's proportions. The music, being supplied by the 13th of Hamilton, was probably almost up to the standard of the former days when our own bands performed on the lawn.

Inferno at prohibitive odds won the Durham Cup in a romp. Cliften Forge in the last race was the other favorite to land. Reticent at 10 to 1 beat Scarfell driving in the first, Ellicott, second choice, just ruffled Main Chance in the 2-year-old handicap. Pretension, also second in public favor, took the Doncaster Stake easily from Lieber. Berry Waddell at 6 to 1 wcn the steeple-chase, Rising Sun turning a somersault over the last hurdle. The beaten favorites all rather extraordinarily finished second.

The race for the Earl of Durham's Gold Cup had the five entries accept the condition with the Seagram pair installed as 1 to 6 favorites in the opening betting. It was announced that the President declared to win with Inferno and even money against Slaughter for the place was eagerly accepted. Will King and Moonraker well backed second and third. Inferno went out early and Koerner had just to rate him. Loupania and Moonraker well closest to the leader the first mile. Will King ran a mile race and was a good second, Loupnia dropping away back with Slaughter, the last named being never prominent.

Scarfell killed himself subduing Caper Sauce, and at that might have beaten Reticent, with Koerner siding as good a brush as Schilling. The defeat of Scarfell was a sore blow to the public. The Belle and Dr. Coffey, both having having considerable support, were last of the Michaelmas Handicap. He was out in front, with Ellicott always ready to stake. The New York trick horse drove past at the wire for a head win, De Oro beating Charlie Gilliert for the show. The Hendrie pair were backed three ways.

THE NATIONAL GAME.

Closing C.L.A. Game of the Season Was Played in Newmarket Before One of the Largest Crowds of the Year,

the closing C.L.A. game of the season n Newmarket yesterday. Bracebridge teams, the former winning by 5-2, thus entitling them to the first junior cham-

cial, about 300 going up. This made one thousand alone from the two towns and the crowd from the surrounding towns helped to swell the gathering to over 5000 people.

President Miller, who was there, wore a happy smile after the game was over. Says Jack: "Now I can rest in peace, my troubles are over," and Secretary and Hamilton respectively.

Manager Knott of the Young Torontos requests all members of the team to be out to practice to-night at 5 o'clock, or as soon after as possible, to give the seniors a good workout. There will be an important meeting after practice.

It is said that Harry Cameron of Beaverton is in the field for the presidency of the C. L. A. for 1907.

J. D. Bailey of Toronto is also mentioned as a possible candidate for the presidency.

Bracebridge jumped into the lead, scoring the first goal in five minutes.

T. Jacque doing the trick. On a combination up the field Bastedo passed to Cooper, the second tally resulting in 1-2 minutes.

The minutes of them is possible candidate for the presidency.

You remember last Good Friday, when three men were tied for a place on the executive, Bert Krausman of Elora being one of them. He was not lucky enough to draw the right number, so did not get on. Bert was at the game in Newmarket yesterday, so it looks as if he was in the field early.

This was all the scoring in the first quarter and about indicated the play. Junction home were passing bad and seemed unable to get going.

Bracebridge increased their lead by two before half-time, Gimson doing the trick in 3 1-2 minutes, and Arnott in 1-2 minute. The latter goal was the prettiest of the day, Bastedo and Arnott going up the field together, the latter tallying.

In the third quarter the Junction home woke up and in the last five minutes fairly peppered the Bracebridge goal, but only one score resulted, Joe Irwin tallying in 16 minutes. The whistle blew when it looked as if Bracebridge goal, but only one score resulted, Joe Irwin tallying in 16 minutes. ENGLISH AMATEUR OARSMEN

London, England, Sept. 19.—11. having been stated in a London newspaper that a return match between the winners of the Oxford-Cambridge and Harvard-Yale post races would take place next year in America, a correspondent sought interviews with Rudolf Lehman and Messrs, Muttlebury and Kent, all members of the Cambridge University Boat Club, and received authority from them to say that no such race is even contemplated here.

What they said was that if either marvard or Yale sends a crew to England they will be met, but in order that an English university crew might visit America the association's rule on amateurism would have to be altered.

If an American crew comes nere next year and wins, then, the English association is open to discuss either an attention of relaxation of the rule, so that the losers of an English winning varsity crew may row in America.

But, as far as the discussion has gone, the winners of the American university boat race are to be invited to meet the English winners on the Thames again, rules in that has been decided upon.

The reason why English amateur crews have never visited the United States is the expense rule governing aminteur rowing in England. No club, college, university or organization can pay the expenses of the men. Each man must pay his own way, and until the rule is relaxed at is uninkely that, representative oursinen from Cambridge, Oxford or say of the important boat clubs could be found with sufficient means and time at their disposal to make the trip.

The reason for this hard and fast rule arose when, some years since, factories employing a number of workmen estatonsaled rowing clubs and for advertising purposes entered crews at amateur regattas.

The German Army.

Mr. Haldane, the secretary for war, before leaving Germany for England, informed a representative of The Morgenpost that in his visits to the great military institutions he had been chiefly impressed by the scientific thoroness of the officers' training. What he saw exceeded all his expectations. The German army, he said, had succeeded in making all branches of science subservient to it, and it was to this work, which from an art of war had produced a science of war. s. of war had produced a science of war had produced a science of war based on logical rules, that German; owed an army occupying a position which compelled the respect of the world.

CHEAP POWER NOT POLITICAL at the bottom of it it's pizen. TRICKERY.

Toronto's leading organ of the elecial issue to-day is cheap power, not cheap politics. Quite right-but neither is it political trickery. That issue was cessary in the day of the late provincial government. There was a time when Niagara power, so far as Ontario is concerned, was untouched, and people. when its disposal meant either cheap power for the people or great profits for a few capitalists. It was the late one summer the lake in which two government that gave away the price frogs lived was completely dried up, less heritage, that provided the oppor and that they were obliged to set off and saddled the province with a bur- ing to a deep and deliciously cool well den from which only with great diffi- one of the frogs proposed that they culty and at vast expense can it be should jump in at once. Our new steamer, the S.S. "Sokoto," will sail from Montreal Sept. 20th, on her initial trip to the Bahamas, Cuba and Mexico. This vessel is specially adapted for the Mexican trade, owing to the large airy rooms, broad promenade deck, etc. Of 7000 tons register, 14 knot speed; fitted throughout with Electricity, and in fact every known modern device to ensure the comfort and safety of passengers, she is sure to be a great favorife with the traveling public.

Write for our illustrated booklet, entitled, "A Tour to the Bahamas, Cuba and Mexico," giving fuji particulars of the several different countries visited on our special excursion tour. Think of it, a thirty-five day trip, for less than 3.00 per day, which includes berths, meals, etc., and on the voyage visiting some of the most beautiful of the tropical islands. As this will be the last sailing on which our special Summer Excursion rates will apply, don't miss the opportunity, but book early to secure choice of location.

in years to be able to do it so well, as it would take that long to learn.

The uniformed corps from many states of the union were most numerous, and they must have been costly. Chasing Friendship, Love and Truth to the limit evidently means a lot of gold braid, warm frock coats with cliff the state. a lot of gold braid, warm frock coats with glittering cross belts, cocked hats with all kinds of plumes from a goose's tail to a peacock's feather, all protected by a sword and an ardent spirit, which can make a true brother drill conscientiously and gracefully, altho he might have some minor notion that pro tem he is a freight car loaded with regalia. The precision of the intricate drill of the various cantons was most noticeable, and it left the spectators wondering how they could do it so well.

Movements were executed beautifully on crowded streets regardless of the street car, the policeman or the peanut man. Crosses and wreaths were formed. Circles, semi-circles and other kinds of circles, close formations and rapid extensions and all so neat that the populace wondered. If these members of the order have attained the same success in their objects as they have in their drill they are truly as great as Jack Macdonald claims.

It was particularly pleasing to Canadians to see the enthusiasm of the American visitors when the music struck a national note, either British or An erican, and at the conclusion of a medicy when the band softly rendered the Star Spalagled Banner, the crowds in the hotel raised their hats and echoed—both Canadians and Americans—a manimous approval. Likewise did they respond when the "Maple Leaf" was played and the pulse of the whole audience was turned to a reciprocal chord which can not help but make for an increased fealty between the covisins of the North American Continent.

the Oxford New English Dictionary, is president, and admidst laughter that he came especially to hear Dr. Murray's opinion of President Roosevelt and was disappointed that not a word had been uttered on the subject.

Lord Rosebery then humorously referred to Mr. Roosevelt's spelling reform, saying a blow struck at the recognized rules of spelling of the English race was a blow at morality itself.

Conscientious and virtuous people, he said, were hampered by spelling, but the unscrupulous and vicious spelled ahead according to phonetic rules of their own. producing results fully acceptable to themselves and sometimes understood by others. He was not at all sure that the archaic rules of spelling laid down by tradition and stereotyped by the dictionaries had not filled half the lunatic asylums of the country.

Ordinary Court Procedure

World Office, Wednesday, Sept. 19.

Another sharp movement was registered this morning in Nipissing Mines and North Star, and, with the relaxation in Wallstreet specialties, traders to-day gave more attention to the lighter mining shares. A lapse of several years has occurred since the wild debauch in Canadian mining securities, and remnants of these past days are scattered in every direction of the province in the shape of scrip for one or more of the many properties then floated. Since the reorganization of the Centre Star-War Eagle proposition, and the uncovering of the mineral wealth of New Ontario, a much better opinion has developed for this class of speculation. Interest in Cobalt has been of slow growth in Ontario, and the sharpest impetus since the first discovery there has come from the sweeping advance in the shares of Nipissing Mines. This stock sold at New York to-day as high as 18 5-8, and therefore measures the property at a valuation of \$22,350,000, against the original flotation at \$6,000,000. North Star jumped over ten points on to-day's market, and at the Standard Mining Exchange, business in general was busier than hitherto. The buying of Nipissing to-day was occasioned by the report of another silver vein discovery. Herbert H. Ball.

## HORSE RAGING MISSED AT NEWMARKET'S FAIR

Lacrosse Match Partly Made Up for It-Bad Fireat Bracondale.

Newmarket, Sept. 19.—(Special.)-North York County Fair, which opene here yesterday, had a record attendance to-day, when between 5000 and 6000 persons were present. It was school children's day. Children from the town and neighboring school sections were admitted free, and prizes were awarded them. In the procession Sharon School took first prize for the largest load, and Vivian second. chool coming the greatest distance was Franklin. Vivian scholars won the tug-of-war and prizes for the best marching and military drill. In the caces these were the prize-winners: First race, boys under 15-B Leppard , F Doan 2.

Boot race—David Stuffler 1, J Doan 2.
Three-legged race—Black and Doan 1.
This is the first fair under the new
Agricultural Fairs Act, in which the
legislative grant is withdrawn should
there be any horse racing. It cannot
be denied that there is a tameness
about a fall fair at which the local
sport is relegated to the background.
There is something far more interesting in a local horse race, in which the
farmers of a wide circle vie with each
other, than is ever evinced at the
Woodbine. This healthy rivalry has
apparently been relegated to the past,
and may, in a generation to come, be
as unique as a tilting match. Just
what is going to keep the fall fairs
from becoming dreadfully monotonous
it is difficult to say; but the directors
of the Newmarket Fair struck a popular keynote when they arranged to have
the lacrosse match for the junior championship of Ontario played in the afternoon. Over 900 tickets were sold at
Bracebridge, and a big crowd accompanied the lads from the northern town.
A special train carried 450 people from
Toronto Junction, and many others
took the York Radial cars northward.
The lacrosse match took the place of
the horse racing, and kept a continued
interest in the fair all the afternoon,
for the potatoes and cabbages, the big
pumpkin, and even the ladies' work
lost interest after half an hour's perusall and study.

Another attraction to keep life in the
crowd and prevent monotony was a

Simpson Rennie returned last night from a three or four days' trip thru the townships of Markham. Scarboro and a portion of Whitchurch. He reports the outlook for the root crop as of the brightest. The dry weather, which it was thought would result seriously, has had no bad effect, owing largely to the fact that there have been no high winds accompanying it. Sugar beets promise well, as do mangold wurtzel, but the turnip crop is badly affected with lice. A cold rain would help to remove this difficulty. Pasture is not suffering more than in other years, and the farmers who made provision by sowing corn have nothing to complain of. Altogether, the outlook is very favorable. In some places plowing is going on well.

## The Particular Virtues of Our Friday Bargains

THIS STORE is, in the highest sense of the word, a PEOPLE'S store. The term is often abused and used as an excuse for selling merchandise that is not up to the honest standard. But we do not believe that the PEOPLE are satisfied with such merchandise. The store that the PEO-PLE want to be identified with is a store that in every department gives them desirable and reliable goods at prices close to the cost of preduction-and that is

the principle upon which this business is conducted. Anything that is sold over our counters has virtue in it apart from the price. With this in mind look over these items and see what remarkable value they represent for Friday's shopping.
