Counsel for G. A. Payne Drops Case—Tilley Ready to Withdraw Petition.

JUDGMENT IS RESERVED

Prescott, Ont., Sept. 15.—(By Canadian Press.)—The South Grenville election protest came to an abrupt conclusion a few minutes after court met this afternoon.

Mr. Walcott announced this morning that he had decided to withdraw his claim to the seat, and the action was not taken until after the court met in the afternoon that he would call no further witnesses, as Mr. Ferguson was anxious that there should be a decision on the original petition with as little delay as possible.

FRENCH PRESIDENT TO RESIGN OFFICE

Millerand to See Deschanel Today

Ill-Health Prevents His Continuation of Duties—Council of Ministers to Discuss Matter Tomorrow—Semi-Official Announcement—Millerand Named to Succeed Him.

Paris, Sept. 15.—President Deschanel will undoubtedly be obliged to resign because of his ill-health, and the question of the presidency will be taken up by the cabinet Friday, according to a semi-official communique issued this evening.

The statements published in the press this morning are correct as to the state of the president's health, which is becoming more and more precarious. The president doubtless will be obliged to resign. It is also correct that the council of ministers on Friday will take up the question from a constitutional viewpoint.

President Deschanel would tender his resignation immediately upon the return of Premier Millerand to Paris from his conference with Premier Giolitti at Aix-les-Bains, which is expected tomorrow, and that the national assembly would meet at Versailles to elect a successor within 48 hours after the resignation was received.

BRANTFORD VEERS TO JOINT NOMINEE

Now Expect U.F.O. and Labor to Decide Between MacBride and Burt.

Brantford, Ont., Sept. 15.—(Special).—U.F.O. and Independent Labor conferees passed a resolution here tonight that a public meeting should be held this month for the nomination of a joint candidate for the federal house in South Brant. The U.F.O. delegates asked, however, to go back to their executive for confirmation of the arrangements. They claimed that they came to agree on a policy and not on a candidate, and the I.L.P. chairman intimated that the plans for reduction of tariff would not be pressed in any campaign in Brantford, which information was declared by Delegate Mott of the U.F.O. as a distinct cleavage between the two parties.

LABOR WILL PRESS FOR FEDERAL ACTION

(Continued From Page 1). 2612, United Brotherhood of Carpenters and Joiners of America, and planned the cutting down of the representation of local unions and trades and labor councils. It suggested trades unions and federal labor unions be allowed one delegate for each 500 members and another one delegate for each 300 members or an additional fraction thereof, and two delegates from each trades council and national trade union. In presenting the resolution and announcing the committee's recommendation that it be concurred in, Chairman Acheson said that the committee had been impelled to its action by the fact that at Hamilton last year many unions in that city and adjacent places had rushed in their full quota of delegates for the day, the elections were held, also they had not been in attendance for the other business of the session, and delegates from the Hamilton local denied that this had influenced their action. Two amendments looking to an increase of the representation were allowed in the resolution were under consideration when the adjournment was made.

Non-Political Motion Carries.—Several items in the report of the executive council presented in the morning, which had been looked forward to as presenting a possibility of prolonged debate, and the discussion on political action carried over from the previous day was of short duration. The decision to keep the committee a non-political body was recommended by the committee and carried with but few dissenting voices. The section of the report of the executive committee dealing with the action of the executive in connection with the trial of the Winnipeg strikers was adopted without comment.

Eight-Hour Day.—The eight-hour day and 44-hour week were discussed at length, the opinion being expressed that in referring the question to the provinces they had been "passing the buck," and on the recommendation of the executive it was decided to try and obtain an amendment to the act of British North America to legalize the placing of an eight-hour day law on the statutes of the Dominion by the federal government. Unauthorized strikes and trade agreements were condemned and affiliated members were required to pursue a policy of strict adherence to agreements. During the afternoon session President Tom Moore set at rest a rumor that the west was not represented, stating that there were twenty-four delegates from west of the Great Lakes and that every section of the west was represented.

174 KILLED IN EARTHQUAKE.—Rome, Sept. 15.—It is officially announced that the total number of persons killed in the recent earthquake was 174. The houses destroyed are being replaced by huts, the building of which is being carried on under the direction of troops and relief workers.

FAVOR FLAT RATE FOR HYDRO POWER

Ontario Electric Association, Meeting at Hamilton, Wants Explanation. Hamilton, Sept. 15.—(Special).—A resolution calling for an explanation as to why a flat rate for Hydro power was not feasible was endorsed this afternoon at a meeting of the Ontario Municipal Electric Association, held in the city council chamber. E. I. Sifton, chief engineer of the local department, warned the delegates that they were playing with fire. It would not be possible to sell power at the same rate to consumers in Bruce and Wentworth counties, he declared. "We did not hear of flat rate until we got in some people who wanted something for nothing," declared Gordon Nelson, chairman of the local committee. Another resolution favoring detailed reports from the provincial commission regarding shutdowns and interruptions was approved. Speaking in support of a single association, province-wide, R. F. Elliott, Kingston, said the present government had handcuffed the Hydro. "The people of the province do not fully realize the great ability displayed by Sir Adam Beck in developing Hydro power," he said. "It is too bad that a man of such ability should have to put up with such piecemeal politics."

Beck's Ability Not Realized.—Another resolution favoring detailed reports from the provincial commission regarding shutdowns and interruptions was approved. Speaking in support of a single association, province-wide, R. F. Elliott, Kingston, said the present government had handcuffed the Hydro. "The people of the province do not fully realize the great ability displayed by Sir Adam Beck in developing Hydro power," he said. "It is too bad that a man of such ability should have to put up with such piecemeal politics."

Debate Elliott's resolution in favor of a single organization was approved, he being instructed to communicate in their full quota of delegates for the day, the elections were held, also they had not been in attendance for the other business of the session, and delegates from the Hamilton local denied that this had influenced their action. Two amendments looking to an increase of the representation were allowed in the resolution were under consideration when the adjournment was made.

The application for the license was refused. Six constables who absented themselves from duty without permission from the inspector were dismissed. The resignations of three others were accepted. Acting Detective Tuft, Constable Gerrick and Plastrothman Allen and Hutchinson were granted merit marks.

Clemenceau Says He Feels Too Young Now to Accept Presidency. Paris, Sept. 15.—A French newspaper correspondent tonight called upon former Premier Clemenceau and asked "the Tiger" whether he would permit his name to be used as a candidate for the presidency. "I was too old to be elected last January," replied M. Clemenceau, "and I feel too young to accept now in case I was chosen. Am I going to be in the roadway, later firing five shots which is much less dangerous than French politics."

RIGA IS WEARY OF PEACE PARLEYS Pays Little Attention to Coming Negotiations Between Poles and Reds.

Riga, Sept. 15.—(By Associated Press).—Weary of war and endless peace parleys, Riga is paying little attention to the coming negotiations between Poland and the Russian Bolsheviks. The only indication of the presence here of the Bolshevik delegation is a red flag on a single house on the bank of the Dvina river, near the city. The rain soaked streets are practically deserted. The flourishing industrial shipping centre of formerly nearly 400,000 inhabitants, has under the occupation of the Germans, the Bolsheviks and various warring factions, been reduced to 150,000.

WHEAT OF ALBERTA WORTH QUARTER BILLION

Calgary, Sept. 15.—The Calgary Herald today says: "Alberta's wheat crop in 1915 was sixty million bushels, valued at \$50,000,000. In 1919 the yield was valued at \$63,345,000, being 54 per cent above the 1915 crop. The official estimate of this year's crop is 23,872,000, which, taken at \$2.60 a bushel, will bring Alberta farmers the huge sum of \$215,727,200. This means, in other words, that the bumper yield of 1919 will be increased over fourfold in monetary value, assuming that approximately the present price of wheat holds."

Deschanel Took Initiative.—The initiative for the resignation came from M. Deschanel himself. Several times during the last few days he informed Premier Millerand that he has his intention to relinquish office. "If within a reasonable time I have not received a resignation, I shall resign," he declared in his letter to the president, and when the premier called on him recently before leaving on his tour of the devastated regions and of retrieved Alsace-Lorraine.

Buchanan, representing the Single Tax League of Western Canada, advocated before the second session of the tariff commission, a reduction of the tariff along the lines proposed by the Canadian council of agriculture. In the memorandum setting forth the views of the single tax league, it is stated: "The tariff as a means of raising public revenue is inequitable, burdensome and wasteful, and it would be wise and expedient for the Dominion government to make a substantial reduction in the tariff and to replace the revenues which are thereby lost by direct tax of two per cent, upon all unimproved land values in the Dominion."

TO KEEP CANADA'S CARS TO MOVE WEST'S WHEAT

Ottawa, Sept. 15.—(Canadian Press).—In view of the particularly heavy crop movement from the western provinces during the next few months, extra precautions are being taken by the management of the government-owned systems of railways to keep Canadian freight cars on this side of the border. At the present time there is a car shortage in the United States of 600,000 cars, and what a Canadian car is permitted to cross the line it is practically impossible to have it returned.

JUSTIFIES WAR PROFITS

Continuing his defence of protective tariff R. A. Fringle, K.C., of Ottawa, representing the textile industry of Canada, said: "The Dominion textile companies have been criticized for our profits. I am prepared to justify these. The industries were called upon to take great war risks fortunately, tho, they managed to emerge with a fair profit. In comparison he dealt with the profits made by British textile industries and presented a table showing the profits made by Canadian industries as examples of the great encouragement given by protection. He remarked that this might well be used as an argument for protection. "If," he said, "free trade England can make greater profits, why do free traders claim that protection results in abnormal gains." "Protection," he said, "should not be condemned because one textile company kept its agreement with United States, Britain and Europe, and made profits."

NEW FEATURES AT TORONTO THEATRES

"Take It From Me" at the Royal—"Don't Tell" Stays at Princess.

Seats will be placed on sale tomorrow for the melodic pageant of youth, with more laughs, song hits and pretty girls than any musical show in years, "Take It From Me," coming to the Royal Alexandra for an engagement of one week, commencing Monday evening. It is not typical, far from it. This fact probably accounts in a measure, at least, for its extreme popularity. It is a marvel of stage craft constructed upon original lines. The play is not limited to the background; it appears with equal weight in the superb chorus of singers, the nimble dancers and clever principals who furnish the action. And the action is swift, the situations ludicrous, the dialogue luminous with wit, the interpretation admirable. The original New York company of seventy will be seen here, which includes John Hennings, as the principal comedian, assisted by Richard Mack, Edgar Gardner, Alice Hill, Harry Burnham, William Balfour, Beatrice Brindley, Marjorie Sweet and the Gardner Trio.

"Don't Tell" at Princess
"Don't Tell," the new Scottish comedy, in which Mr. and Mrs. Moffat, Miss Winifred Moffat and the original Scottish cast have been delighting large audiences at the Princess Theatre will remain another week at the local playhouse and seats are now on sale for next week's performances. "Don't Tell" was written by Mr. Moffat, who is also the author of "Bunty Pulls the Strings," and is purely Scottish in its theme, atmosphere and characterization, but it is unlike anything Mr. Moffat has heretofore written. It is concerned chiefly with a local plumber who is unexpectedly elected to the position of magistrate. He consents to the demands of his family for a private rehearsal of the public duties of his office, and during a mock trial it develops that his daughter is involved in a matter that concerns the entire family. The complications that arise from these premises provide comedy of a high order. From Toronto the company goes to New York, continuing its first annual tour of America under the management of Mr. William Morris, so well-known as the director of Sir Harry Lauder's tours.

well-known burlesque favorites, head the cast, which also includes Jean DeLisle, Lou Berry, Walter LeFoy, E. Barringer, Mickey Feeley and Arthur Bernard. There will also be the usual chorus of a score of singing and dancing girls.

Gus Hill's Minstrels
Gus Hill's Minstrels will be the attraction at the Grand next week. This splendid organization, embodying the features of advanced minstrelsy and at the same time clinging to the charm of past traditions, numbers fifty people, all white, capable burnt cork artists, who excel in singing, dancing and funmaking. What more delightful enjoyment is

found than to hear one of those old-time ballads rendered by a sweet-throated singer, when Bert Errol, known as the antics of a real minstrel comedian who seems to have a special gift for making the very air. You are sure to find this and many other charms as outstanding features of Gus Hill's Minstrels.

At Pantages Next Week
That dainty film star, Blanche Sweet, will be the feature attraction at Pantages next week when she will be presented in her newest release, "The Girl in the Web." It is an exciting mystery story with an interesting love theme running through it. Surrounding the picture production are six vaudeville acts, which include the best comedy and musical sketches that the entertainment world affords. A Pathe-Pollard comedy is also an entertaining feature of the bill.

At Loew's Next Week
The Love Flower, the latest production of the eminent screen master, David Ward Griffith, will be shown next week at Loew's Yonge Street Theatre and Winter Garden. The production is a creation of Griffith perfection. The story is filled with an endless amount of action and suspense, and is conceded to be one of the most dramatic stories that have ever been produced by Mr. Griffith. The vaudeville, which will be headed by a brilliant one-act musical comedy playlet, "Till Saw So," comprises a combination of acts that are of a most entertaining character. They embrace: The University Trio, in "Bits of Harmony"; Wilbur and Lyke, real vaudevillians; Sheppard and Dunn, presenting "Oh, What a Pal Was Mary"; Grace Leonard and Thompson and Belsaigne.

at Loew's Next Week
There is no doubt of the position that Hawaiian music has attained in the world of harmony. The sense of the beautiful in sound that centuries of association with nature has bred in the Hawaiians is truly remarkable. If any of the people of the western world have failed to acknowledge the supremacy of the musical character of the people of the Pacific Islands, it must be because they have failed to hear it in its native simplicity and charm. That no person in Canada might lose the opportunity of gaining a knowledge of the genius of the Hawaiian, Miss Mildred Leo Clemens went to Hawaii last spring and brought back with her the musicians that were chosen to charm the Prince of Wales, and her Hawaiians, have charmed Toronto people all this week. They will appear tonight, and on Saturday night, at Massey Hall, but not on Friday night.

"Up to Date" at the Oakwood.
The joyous modernism of that permanent tonic, "Up to Date," which has won the hearts of every one of the four hundred people who may find parking space for their motors at the Oakwood Theatre, The Oakwood Orchestra will smooth away the cares and wrinkles of a busy day, a comedy bringing back the light-hearted laughter of youth.

MANAGER FOR LOEW'S NEW UPTOWN THEATRE
Recently associated with Loew's Brevoort and Circle theatres in New York City, William K. Mitchell arrived in Toronto several days ago to assume the management of Loew's Uptown Theatre, Yonge at Bloor street, which opens Monday evening, Sept. 20. Mr. Mitchell has experienced numerous phases of the theatrical business, taking up the work first with the Fox organization in studio work. From that position he was assigned to duties in a department dispos-

ing of films. He represented the Fox organization at Denver for a short time and later became assistant to the general manager, whose chief duties were to stage the largest picture productions made by that company. When the Academy of Music, 14th street, New York City, assumed a picture policy, Mr. Mitchell was placed in charge. His appointment as resident manager of Loew's Uptown will undoubtedly result in expert arrangement of each program to be presented.

Pope is commanding the company which will remain in Toronto, and Major E. K. Eaton the other unit.

JAPAN RECOVERING FROM PRICES SLUMP
"Japan is just reviving from the effects of a tremendous slump in prices," said Seizaburo Shimizu, consular-general for Japan in Canada, who is on a visit to Toronto. "Beginning on March 15, stocks in silks, cottons, spinning mills, shipping companies began to drop, and within two months to quote one example, the price of silk had dropped from 4,600 yens (\$2,250) a bale to a little less than 1,300 yens. (A yen is 60 cents). Speculation had been rampant for months and had gone on thru the war. Many large merchants were completely ruined when the banks stopped the credits and the collapse came."

RAILWAYMAN KILLED WHEN COUPLING CARS
Herbert S. Kerr, an employe of the Grand Trunk Railway, was killed yesterday afternoon in the yards at the foot of John street, when his head was crushed between the vestibules of two cars, as he was coupling them. Kerr was a married man, 29 years of age and lived at the corner of Palmerston avenue and Queen street. The deceased was the son of Mr. and Mrs. George A. Kerr, of Uxbridge. A service will be held at A. W. Miles' chapel, 224 College street, at 3 o'clock tomorrow evening. The body will be taken to Uxbridge on Saturday morning.

The Tariff Inquiry.

The tariff commission opened its sittings at Winnipeg on Tuesday, and The Winnipeg Free Press believes that the hearings before the commission will remove many misunderstandings and clarify the fiscal situation.

Thru Norman Lambert, secretary of the National Council of Agriculture, the organized farmers of western Canada presented their argument on Tuesday to the tariff commission.

France and the United States shipped into England from duty can be shipped from England into Canada duty free.

These are not high duties and surely there is not a man in the country unwilling to pay a trifle more for goods made in Canada.

Winnipeg Grain Growers' Guide: The municipal electric light and power plant, owned and operated by Winnipeg, has produced a record in the past demonstration of the value of public ownership efficiently administered.

Within the tariff wall which keeps out foreign importations the Canadian manufacturers should compete.

The suspicion that they combine instead of compete is the irritant which causes some popular dissatisfaction.

CHAPTER III. (Continued.)

"Then I must point out that the one cottage in Elmdale, whose inmates will be deaf and dumb at this moment, is Mrs. Jackson's. Both mother and daughter are quaking because of the possible consequences of an attempt to enter this house at an hour which no person could choose for a legitimate purpose."

"Don't trouble. Lend me that electric lamp—how useful it is!—and I'll bring one in a minute." By this time Armthwaite saw that his captive was a remarkably pretty girl. Male attire supplies the severest test of feminine beauty, since form and feature are deprived of adventitious aids; but a small oval face, two pointed lips, a finely-modeled nose, brilliant brown eyes, swept by long curving lashes, and a smooth forehead, rising above arched and well-marked eyebrows, needed no art of milliner or dressmaker to enhance their charms.

The man listened to her quick, confident steps as she passed in the house which could not fall of acceptance, and did not scruple, therefore, to display a close acquaintance with its arrangements during the time of her stay. Rumor again has it that Princess Mary may open the Exhibition of 1921. We feel sure that the directors are so proud of Canadian women that they will wish the princess to see them at their very best.

Without more ado she tackled a slice of bread, breaking it into small pieces, and buttering each piece separately before munching it. "Some wise person said in a newspaper the other day that one ought to give every mouthful of bread three hundred bites," she went on. "I wonder if he ever fasted eighteen hours before practicing his own precept. I'm afraid I wouldn't believe him if he said he did."

"People who study their digestion generally die young," said Armthwaite dryly. "Oh, I don't agree with you in that," she retorted. "My dad is great on food theories. He knows all about protein and carbohydrates; he can tell you to a fourth decimal the caloric value of an egg; and he's a phenomenally healthy person. By the way, how are those eggs coming on?"

"Try this one. I think the water has been boiling three minutes!" Armthwaite spoke calmly enough, but a stoutly-built edifice of circum-

stantial evidence had just crumbled in ruins about his ears. He was persuaded that, for some reason best known to herself, Miss Marguerite Garth had adopted this freakish method of revisiting her old home. Such a theory made all things plausible. It explained her singularly self-contained pose, her knowledge of the house's contents, her wish to remain hidden from prying eyes, and last but not least, it brought the peculiar conduct of the Jackson family into a commonplace category. For the two women would be governed by a clannish feeling which is almost as powerful in rural Yorkshire as in Scotland.

But this girl's father was alive, and Marguerite Garth's father had been in a suicide's grave two years. Who, then, was the audacious young woman, and how could she be so bold as to enter this house at an hour which no person could choose for a legitimate purpose?

"Don't trouble. Lend me that electric lamp—how useful it is!—and I'll bring one in a minute." By this time Armthwaite saw that his captive was a remarkably pretty girl. CORNER

He had just crumbled in tears. He was persuaed some reason best known to Marguerite Garth had a weakish method of treating her home. Such a thesis is plausible. It is exasperatingly self-contained wisdom of the housewife, and last but not least, the peculiar conduct of family into a commonwealth, for the two women, and by a clanish feel-almost as powerful in as in Scotland. A girl nearly all her life in the world looked on as a native, and confidently for their advance in such a mat-

REFUSE THE ISSUE WITH GREAT HORSE

A well-posted correspondent in yesterday's World says that 'Man o' War' yet to beat the four-year-olds before his admirers can claim that he is the best horse of the day. He added that the four-year-olds go after him in the Jockey Club stake at Belmont last week. They didn't meet him. Mr. Open offered to hang up a \$40,000 sweepstake at Windsor this fall if the best of them would enter against him. Sir Barton's owner respectfully declined because of engagements. 'Man o' War' isn't make them enter, but he is ready to race them. It is a pretty fair inference that they are not anxious to. On his form of this year 'Man o' War' ought to tackle the English classics for all ages next year. It's a big risk, but that's where his owner ought to take him, and that's where the best horses of any age will be, at distance and at weight.

In the meantime, as our correspondent says, if 'Man o' War' can't beat them (because they won't meet him) he is breaking all the records of the American turf up to the mile and a half.

P.S.—Exterminator (a five-year-old gelding) seems to be the boy to go after 'Man o' War'. He ran two miles at Belmont yesterday in 3:24.5, say 3:22 or 202 seconds for two miles, or 26.1 seconds for the rate of a mile. The record hitherto was 3:25.3, or at the rate of 1.43 a mile. What 'Man o' War' and Exterminator ought to do is that they are both speed and distance horses. On the showing of dependences so far Exterminator ought to beat 'Man o' War' at two miles, though he couldn't do it at a mile and a half.

Sid Hodgins, Lucan, who was driving Alto Lynn, was seriously injured in the second heat of the race. This marred the afternoon's sport. This horse was the fastest on the track, taking three of the four heats and finishing third in the other. Lady Clay (Mrs. G. Sifton) was also entered in the second heat, but she was injured in the first heat of the race, and was withdrawn. In the third heat of the race, the 230 trot, C. Sifton fell to the ground and was injured. Sifton continued the race in a remarkable manner. Sifton continued the race in a remarkable manner. Sifton continued the race in a remarkable manner.
