SOVIETS IN CAPE BRETON CONTINUE

SEVERAL MINOR DEPREDAATIONS OVER WEEK-END

Attempt Made to Burn Old Fan House at Colliery

PLANS REJECTED

Unions Vote Against Proposition For Settlement as Submitted by Company

GLACE BAY, N. S., June 22.—Minor depredations were reported from some of the colliery districts over the week-end.

An attempt was made to burn the old fan house at the old Hub colliery, New Aberdeen, and at an early hour this morning the New Aberdeen banking station was afire, but was extinguished before much damage had been done.

At New Waterford the first aid house at No. 14 colliery was broken into, and practically all the first aid dressings and drugs were stolen. At No. 18 colliery, the stable was broken into and feed stolen. Windows were broken in the hoisting engine house, at No. 16 colliery Sunday night.

The situation today at collieries No. 1A and 1B was unchanged. These pits are completely down.

At collieries numbers 2 and 9 the fans were operating, and the No. 2 power plant was working under normal conditions.

FANS OPERATING

At No. 4 colliery the fans were operating and the boilers were under steam. Last evening a large searchlight was placed on top of one of the buildings there and was pressed into service during the hours of darkness. A large searchlight was also operating from the top of the Glace Bay warehouse. Two heavy powered lights were operating from the No. 2 colliery yard. No. 6 colliery was completely down.

PUMPS AT WORK

At No. 10 mine the fan was running and three pumps were operating, but so great was the inflow of water into this mine that the pumps were unable to make any impression on it. At No. 11 colliery fans and pumps were going.

At No. 22 colliery, Birch Grove, the fans and electric pumps were in operation. At No. 24 colliery fans were going and compressors and pumps operating.

REJECT PROPOSALS

SYDNEY, N. S., June 22.—Local unions which held meetings over the week-end and rejected the proposition for settlement of the Nova Scotia coal tie-up, proposed by the British Empire Steel Corporation through Hon. James Murdoch, Minister of Labor, were mechanics, Birch Grove and Number 11 in the Cape Breton area, and Springhill on the mainland. There are upwards of twenty local unions of the United Mine Workers in Nova Scotia, comprising District 26.

BRITISH SITUATION

LONDON, June 22.—A possible general strike in the coal mining industry in Great Britain is being considered. Unless some compromise is reached in the next few weeks, a strike or a lockout is almost certain, with resultant peril to the trade of the country.

The Miners' Federation will hold a final conference of delegates from all Britain in London on July 3, to consider action. The owners will submit their proposals, and a new wage agreement tomorrow, and the miners' executive committee will debate it next day.

MACMILLAN AWAY ON VOYAGE NORTH

Explorer Hopes to Discover Great Areas of Land Near North Pole.

Canadian Press Despatch. MONTEGALAN ISLAND, Me. June 22.—Commander Donald B. MacMillan today was well started on the first leg of his ninth expedition to the Arctic. Sailing yesterday from this port on board the 116 ton auxiliary schooner Bowdoin, MacMillan hoped to reach Sydney, N. S., where fuel oil will be obtained for the voyage north, on Thursday.

The expedition includes, in addition to the Bowdoin, the steamer Peary, which will act as tender, and three amphibian naval planes, by means of which the explorer hopes to discover great areas of land in the vicinity of the North Pole.

Before leaving here Commander MacMillan said he looked forward to flying from Cape Thomas Hubbard, Axel Heiberg Island, out over the polar sea in search of land he believes to exist there. With a flying radius of 250 miles, he said, the planes will be able to cover a vast territory and to settle the question whether the areas about the pole are land or water.

Public Opinion Appears Unfriendly Toward Baldwin Government

MYSTERIOUS DEATHS BAFLE N. Y. POLICE

U. S. Bishop, in Westminster Sermon, Pictures Defeat in Victory of Allied Forces

LONDON, June 22.—"The tomb of the unknown warrior is at present a memorial to defeated men," declared Bishop Oldham of Albany, N. Y., in a remarkable sermon at Westminster Abbey last evening. The Bishop's thesis was that the world had disgraced the ordered life of the world, that no victory was won. "Victors and vanquished alike," he said, "were plunged into an abyss of physical privation and mental and spiritual anguish, that from any standpoint of real values, it is difficult to distinguish between the conquered and the conqueror."

PROVINCIAL BANK IN SUSSEX LIKELY

Opening of Branch Contemplated—Would Make Three Banks Operating.

It is understood that the Provincial Bank of Canada has in mind the opening of a branch at Sussex, N. B. With the amalgamation of the Royal and Union Bank branch at Sussex has been closed, and the business is being handled by the Sussex branch of the Royal Bank. Some time ago the Provincial Bank of Canada contemplated the establishment of a branch at Hampton, N. B., but this proposal was dropped.

The Provincial Bank has been negotiating for bank premises in the dairy center and a definite announcement is expected this week. The establishment of a branch of the Provincial Bank would mean that three banks would again be operating in Sussex.

ARRESTS FOLLOW CHINESE AFFAIR

French Minister Says Prosecutions Will Result From Demonstrations in Paris.

PARIS, June 22.—Minister of the Interior Schrameck today gave instructions that all of the young Chinese involved in yesterday's affair at the Chinese legation here should be arrested and prosecuted with the utmost vigor. He declared the French government intended to extirpate all Communist activities, no matter from what quarter they came.

"At the moment our government is engaged in a bitter fight against French Communists," he said, "it is no time for foreigners enjoying France's hospitality to abuse it by intrigue, propaganda and strong arm work."

About 100 Chinese youths invaded the legation here yesterday, and forced the Chinese minister to sign various documents, among them one expressing sympathy with the anti-foreign movement.

Wilhelm and Wife Separate Is Report

Berlin, June 22.—The former Kaiser and Princess Hermine, his wife, have parted temporarily, according to The Montaigne. The paper intimates that Wilhelm's present melancholy is due to domestic disagreements regarding the tactics followed by the family after the election of President Von Hindenburg. At the last moment Wilhelm cancelled his holiday at the seaside, but Hermine did not alter her plans to visit a German health resort.

CONVICT FOUND MURDERED IN BATHING SUIT

Body Dumped Into The Sea; Seven Men Arrested

SUSPECT HUSBAND

Brooklyn Contractor Is Found Dead in Automobile—Money and Jewelry Intact

Canadian Press Despatch. NEW YORK, June 22.—Three new death mysteries confront the police of the metropolitan area today. In two cases dogs found the bodies.

Two men in bathing suits "washed" the body of a murdered escaped convict 1,500 feet along Rockaway Beach, allied suspicions of late bathers, by saying that they were taking a drink and out for the sea air, and dumped the body into the ocean.

A dog later discovered the body. It was that of Joseph Mooney, a man with a long record of crimes, who escaped from Sing Sing prison last July. He had been shot twice through the head. A trail of blood led police to a cottage in which seven men in bathing suits were arrested. They said Mooney was shot in a row with four other men, at the cottage.

A woman told police she asked the two men on the beach what the trouble was. "He's drunk," the man replied, "and we're going to walk him until he sobers."

HUSBAND SUSPECTED. Police of Rutherford, N. J., believe that Frank Lind, whose body was found early Saturday in his room, was stabbed to death by a jealous husband, who accused Lind of breaking up his home. A New York woman told police that her husband, from whom she is separated, had accused Lind, she said her husband came to her home three hours after the crime was committed, and boasted that he had left Lind lying on the floor.

CONTRACTOR DEAD. The body of Thomas Fucelli, a Brooklyn cement contractor, was discovered jammed between the divided front seat of his automobile, parked at a favorite trysting place on Queens Island, Long Island. The body also was found by a dog which gave the alarm.

Fucelli was battered about the head. Blood splattered the mudguard and running-board of the car. The medical examiner's office returned a temporary verdict of suicide. Mrs. Fucelli, the mother of three children, said domestic trouble had been caused by her husband's attention to another woman, but this had been patched up. Police believe he was murdered. Money and jewelry on his person were left untouched.

COLOGNE, June 21.—At the close of a fervid speech Saturday as part of the celebration in commemoration of Germany's possession of the Rhineland for one thousand years, Burgomaster Adenauer announced that Germany would soon have an unknown soldier shrine. He said the unknown soldier would be buried in the Cologne Cathedral, the tomb to serve as a German national war memorial.

As the sweeping folds of the patriotic bunting flounced over the parapet and hoisted into the stiff breeze aloft the eight stories of the little group of official watchers saluted with cheers and then followed a round of congratulatory handshaking. Some impromptu speaking marked the occasion as well.

C. N. R. Cancels Freight Rate Pact on Alberta Coal

Canadian Press Despatch. MONTREAL, June 22.—Because freight rates have now fallen within the province of the Board of Railway Commissioners, the Canadian National Railway has withdrawn from the verbal agreement made with the Alberta government to move 25,000 tons of coal from Drumheller, Alberta, to Ontario points at an experimental figure of \$7 per ton.

Announcing yesterday that he had received notification to this effect from Sir Henry Thornton, President of the Canadian National Railways, Hon. H. Greenfield, Premier of Alberta, who has been negotiating with Sir Henry here, gave it as his opinion that the railroad's move was dictated by the fact that, if the experiment proved that coal could be moved at between \$3 and \$4 less than the existing tariff of \$11.40 the entire position of the National Railways in regard to western freights might be in jeopardy.

There is little doubt that by giving the necessary assurances the Government will be able to secure a majority for the pact, but it is likely to suffer damage in prestige in so doing.

Conservative majority is so large that there is a tendency of the party to split up into groups, and for members to display a considerable amount of independence of thought although so far this has not been translated into independence of action.

Conservative Party Likely to Split Into Groups During Discussion

By HERBERT BAILEY. LONDON, June 22.—The Baldwin government is facing a critical week with public opinion showing the first signs of unfriendliness under the severe denunciation of certain newspapers for its inability in the matter of unemployment and in finding some way to lift industry out of its present depression as well as for its action in regard to the security pact.

Behind all looms the mining crisis, for it is now accepted as almost certain that employers will lock out the miners at the end of the present month, and Baldwin's policy of reconciliation and a truce in industry which received the highest praise a few weeks ago, seems to be futile.

There is little doubt that by giving the necessary assurances the Government will be able to secure a majority for the pact, but it is likely to suffer damage in prestige in so doing.

Rossley Kiddies Again a Big Hit

The Rossley Kiddies opened their summer scamper of fun and fancy at the Imperial Theatre Saturday afternoon and evening to overflow crowds. As usual the children spring more surprise, and in a bewildering color scheme of gorgeous costumes, a whirl of latest Broadway dancing, tuneful songs and graceful ensembles put over a perfectly lovely hour of novel entertainment. "Cinderella" is the theme this time, with variations and adaptations. The shows are being given at 3:45 o'clock in the afternoon and at 8:30 at night.

WAS LOOKED AFTER. The detective department was notified last evening that a man was noticed lurking around a store at Kane's Corner. Two of the officers went out and brought the man into the Central Police station where he was given protection for the night. He was allowed to go this morning.

PRESBYTERIANS! IF YOU VOTE FOR UNION: You are voting for the Death and Burial of the Presbyterian Church in New Brunswick. The other Provinces are keeping Presbyterianism alive. Can our Province kill it? You are deserting a Democratic Church in which the People are the Church, and are putting yourselves under the unbending officialdom in which the United Church was born, and which will rule you to the end. You are throwing away a self-respecting Creed for a "statement of doctrine" which is so loose that it means nothing definite, and so loosely held that it holds nobody to it; and you are bartering a sound and proved form of government for a hotch-potch compromise whose best recommendation is that it tries to please everybody and offend nobody. You are showing indifference as to whether the pulpit proclaims a Christ Who was only a man, and a Cross which was only a martyrdom. The United Church cannot deny that its pulpit offers an open door to these and many other heresies. You are exposing yourselves to being refused the minister you choose and call, and to be obliged to accept anybody who is foisted upon you by the "settlement committee." You are choosing an Organization amongst whose professed aims are Size, Political influence and intensive ecclesiastical Machinery instead of a Church which has a sense of religious proportion and an honest recognition of Him Whose kingdom is not of this world. You are boasting that the Church of your fathers, the Kirk of the Covenant is barren, outworn and obsolete, and has no more work to do for God and humanity. Presbyterians, Vote to Keep Your Church! "Faith of our fathers, holy faith! We will be true to thee till death."

W. M. Townsend announced that the vote on church union would take place on Monday evening June 29, at 7.30. He said he had never spoken against continuing Presbyterian church were not animated by animosity or resentment towards the United Church. He had a great respect for the Methodist clergy, men and people. To those of his congregation who wished to unite with the Methodists he wished God speed. The attitude of the continuing Presbyterian church is interference with no one—they wanted only to be left alone. Children from the N. B. Protestant Orphanage were present at the service and there was special music.

TOURIST MONEY.

The beauties of New Brunswick, the tempting attractions of its scenery, its climate, its fish and its game, its really tremendous possibilities in the way of tourist traffic, are strikingly presented in the comprehensive tourist number issued by The Telegraph-Journal.

FLY THE FLAG.

The movement to promote a more general observation of Dominion Day throughout Canada should command hearty and general support. In these days there is some discussion as to the flag the Dominion should use and whether it requires a distinctive national flag of its own.

The meaning of the flag goes deep into the hearts of the people. It represents all that which binds the British Empire together, which created the Empire, and which will perpetuate it. It stands for all the wonderful traditions of the race, for justice, for real liberty, and for British unity.

THE MARITIMES AND FREIGHT RATES.

In the course of the debate on freight rates in the House of Commons one of the Western members said that Hon. Mr. Graham had referred with noticeable tenderness to the Maritime Provinces.

These provinces he avoided any declaration as to the justice of their case. "The Maritime Provinces," said Mr. Graham, "consider themselves in a unique position, and they are." These provinces, he went on to say, contend that under the terms of Confederation they were to be given, in compensation for sacrificing the market to the south, access to the central markets of Canada, and that the Intercolonial was built for that purpose and not with any idea of profit in view.

"In 1919 certain rates were raised very materially, and to this increase the Maritime Provinces seriously objected. The Governor in Council, very wisely as I think, understanding something of the situation, calls the attention of the Board of Railway Commissioners to the feeling in that part of the country and asks that it be given consideration when the board comes to make its rate structure. I will not dilate further on this matter, but what the government has in view, and all that it has in view, is to bring about in Canada a better feeling among the different sections of the country in relation to this question of transportation."

PLAIN SIGNATURES.

Notwithstanding the general use of the typewriter for business communications and for many others, the pen signature is still necessary, but a great deal of trouble, annoyance and loss of time results from the fact that a considerable proportion of the pen signatures are illegible. The New York Times says that the man who first suggested that the written signature on typed letters and documents should be accompanied by the same name, typed near the written one, was a benefactor to a considerable fraction of the human race.

"All the people who write illegibly write their names still more illegibly than they do anything else, and many whose writing as a rule is decently legible make mere hen-tracks when they come to the one part of their communication for the reading of which the context gives no help. They seem actually to be proud of illegibility, as if it showed how many and how large are the checks they constantly are signing."

Odds and Ends

"You never know what you'll find among the odds and ends."—From "Notes by a Wayfarer"

Amundsen having escaped from the perils of the Arctic may soon have to go looking for MacMillan, who is now going into them.

Wanted

God give us men. The time demands strong minds, great hearts, true faith and willing hands. Men whom the lust of office does not kill; Men whom the spoils of office cannot buy; Men who possess opinions and a will; Men who can stand before a demagogue and damn his treacherous flatteries without winking; Tall men, sun-crowned, who live above the fog; Men who are in public duty and in private thinking.

Millions of Dead Letters

Because of the failure of writers to place a return address on envelopes, almost 20,000,000 missives are annually sent to the Post Office Department's Dead Letter Office, according to an announcement by Charles Lubin, Assistant Postmaster here. This neglect filled New York city's dead letter branch with 5,000,000 letters, he said.

King of the Bill of Fare.

An idea of humor may be prompted in the voters who in overwhelming strength exalt corned beef and cabbage as the favorite New York dish in the referendum conducted by the United Restaurant Owners' Association. This solid combination is a main reliance, along with prunes, of the comic strip. The conceit that anybody should be such a vulgarian as to crave it is supposed to be uproariously funny.

expensive calories and the beneficial vitamins known to be resident in the cabbage. The choice accords with the gospel of thrift. Evidently the average diner, although on pleasure bent, has a frugal mind; he is desirous of coming at a "square meal" at the lowest price compatible with that object.

At the end of a certain Sunday school treat the children were singing the verse which includes the words, "weak and sinful though we be." One youngster with a weak theological background sang with all his heart and voice: "We can sing full though we be."

BUSY PLACE TODAY.

Everything is hustle and bustle throughout the eight floors of the Admiral Beatty today. Perhaps the greatest activity is in the kitchen and banquet quarters, where Chief Calame and his white-capped staff are busy roasting, stewing, baking and freezing the delicious viands to be spread before the banqueters at the Shareholders' Party of 200 covers on this opening night.

PRESIDENT PLEASED.

Hon. Frank A. Dudley, president of the United Hotels Company, Limited, told The Times-Star today that he is very much pleased with the spirit exhibited by Saint John people toward the Admiral Beatty as an added link with the larger cities and with all American interests.

MEANS MILLIONS.

A live campaign to advertise the remarkable physical attractions of New Brunswick would mean a tourist business increase of from \$2,000,000 to \$5,000,000 a year is what the president of the United Hotels said was most needed just now.

Funerals

The funeral of Mrs. Sarah J. wife of William Sprout, 139 Dunham, was held from her late residence to St. Mary's church yesterday afternoon, with service at the house and at the church. Rev. R. Taylor McKim was the officiating clergyman.

The funeral of Mrs. Jennie Piercy, wife of Harry Piercy, was held from her late residence in Brookville to Fernhill, with service conducted by Rev. Hugh Miller of Silver Falls. Many friends attended, and the flowers were numerous and beautiful.

The funeral of William Leonard Clinton Betts was held from the residence of his parents, Mr. and Mrs. Arthur W. Betts, 36 Woodville road, West Saint John, with service there and later at St. Jude's church, conducted by Rev. J. H. A. Holmes, rector.

Two leaks were reported to the water department over the weekend. The first was on Saturday in the 36 inch concrete main from Spruce Lake, at Dow's. The water was turned off about 3 o'clock Saturday afternoon and repairs had been completed and the water turned on again about 6 o'clock. Yesterday a break was reported in Douglas Avenue main.

Late last night at the conclusion of a radio organ recital from Boston the programme announcer was requested to report the disappearance of a 19-year-old lad named M. J. Pugh, whose home is in Wells River, Vermont. The lad left the town driving a Dodge sedan bearing a number 10 the 4800's. He wore a grey felt hat, sporting suit, blue silk shirt with white stripes, light tan shoes with crepe soles and has light hair. The parents of the boy give no reason for his absence and it is feared that he had been foully dealt with. Trace of the missing youth or his car may be reported to station WBZ, Springfield, Mass., or Hotel Brunswick, Boston.

Lawrence H. Cullinan of the C. P. R. Telegraph Co., has returned home after a two months' trip to California where he was visiting his parents. He said he had a most delightful trip but was surprised to find conditions on the coast dull. The weather had been backward and crops later than usual. In conversation with business men he learned that there was a marked depression in business. He considers that Saint John is well off and citizens have no reason to complain. He said that more liberality about this part of the country should be circulated throughout the States and he was confident it would attract thousands of tourists. Mr. Cullinan was accompanied by his wife who remained in Montreal for a few days.

### No irritation for baby's skin

Do this and keep his clothing soft, pure and comfortable

Nothing is so sensitive as baby's skin! Even the slightest roughness in his diapers, shirts and bands will inflame and irritate it.

Much trouble is directly due to washing diapers with harsh soap—soap containing free alkali. The alkali clings to the little garments in the form of a fine, white powder—almost impossible to rinse out. This causes "diaper rash."

To save baby's skin, use Lux for washing all his clothes. It is the mildest, purest, gentlest cleanser in the world. Lux contains no free alkali, and the pure suds rinse out completely. Lux keeps baby's garments soft, clean, comfortable and safe!

How to wash diapers: Remove solid matter at once and soak diapers in cold water. Whisk two table-spoonsfuls of Lux into thick suds in a tub of very hot water. Let diapers soak a few moments, then dip up and down, pressing suds repeatedly through them. Rinse thoroughly in three waters.

### The Premium on Physical and Mental Vigor is at its Highest in Business Today

By your daily foods you build success or failure

BUSINESS today offers unlimited opportunities to the men who have the physical and mental vigor to get results—the "go-getters". Isn't it of vast importance then, that you accept the word of health experts who say that your physical and mental ability depend almost entirely upon the foods you eat? Isn't it worth while to know that foods which contain a large proportion of nourishment do not necessarily convey that nourishment to your body—that in fact the nourishment of many of them remains in your system to do you harm—to form as poisons and harmful acids. The difference depends on whether or not they come to you in a form your body can handle quickly and easily.

The elements in your daily foods which are most essential to the body are the energy-giving carbohydrates. Three-fourths of the delicious food, Grape-Nuts, is these precious carbohydrates in the form of dextrins—available for instant assimilation. Made from whole wheat and malted barley, Grape-Nuts also contains a large percentage of phosphorus, iron and laxative bran.

Grape-Nuts is a wonderfully appetizing food. Its crisp, crunchy granules have a rich, full flavor that you're sure to like. Serve it at breakfast or lunch just as it comes from the package. Four teaspoonfuls is sufficient for each person. Such a helping costs less than one cent. Sold by grocers everywhere in wax-wrapped packages.

An Added Value to Your Health

Doctors and dentists are today constantly warning us that we must eat some hard foods that require chewing. The crisp kernels of Grape-Nuts must be chewed—and their pleasant "crunchiness" and delightful flavor tempt you to chewing. This starts digestion in the mouth—where it should start—and gives to the teeth and gums the exercise which alone can keep them in healthy condition.

LEADERS SPEAK AT CONVENTIONS

Premier Veniot at Hampton; Hon. Mr. Baxter at Fredericton.

Candidates are Selected For the Government in Kings, for Opposition in York.

The Government candidates to contest Kings county in the provincial election were selected on Saturday afternoon at Hampton as follows—Sterling I. Keith, of Havelock, Liberal Organizer; Dr. L. S. Murray, Mayor of Sussex; and Edward S. Carter, of Fair Vale. Dr. Frank E. Smith presided. The names of J. D. McKenna and O. W. Wetmore were placed before the convention but each are to be allowed to retire.

PREMIER SPEAKS. Hon. Dr. Veniot said he was appealing to the people on the record of the government about which there was not the slightest shadow of scandal. He said that since the war the province had been going behind industrially and the way out of this was the development of the water power resources and it had been decided to go ahead with Grand Falls work. The Legislature had decided that the work go ahead. He criticized the leader of the Opposition for his attitude in reference to Grand Falls. So far as markets were concerned there were requests for more power than could be developed at present at Grand Falls. There was absolutely no fear of a market, he said.

SAINT JOHN seems to be holding its own in the sporting line. At present there is every likelihood of two stellar single scull races, one to decide a representative for this city in the Canadian National regatta at St. Catharines and the other for the Ross trophy.

AN ITEM appearing in the St. Croix Courier under "Thirty Years Ago Today," tells of the appearance there of John L. Sullivan, heavyweight champion of the world for 12 years, against Paddy Ryan, who held the championship for 11 years.

BASEBALL FANS in Saint John will be interested in an announcement that Moncton is to have a professional team under the management of Joe Ford.

SAM GRAY is back in harness with Connie Mack and when he hits his stride he should help the Athletics maintain their lead in the American League pennant race.

THE ACQUISITION of Everett Scott to the Washington Senators is a master move on the part of Manager Bucky Harris. Scott was sent to the champions at the water price, \$40,000.

Driving and putting—he's no bogey—Grandpa simply laughs at "bogey."

The Force Behind the Drive

Whew!—there's a mighty swipe! Six inches from the "pin" in one! Grandpa's too good for "Bogey" every time. They try to handicap him, but it's no use—he's always a winner. Bankers and stylists don't disconcert Grandpa, but add zest to his game. His bounding vitality conquers them like it conquers all difficulties. And when the day's work is over, you find him on the links, as fresh and keen and vigorous as he was when the day began—beating the best of them.

It is the healthy Kruschen habit which he acquired years ago and has always kept up—"the little daily diminal" that he drops into his breakfast cup of tea or coffee. This tiny, inexpensive dose every morning keeps him in the pink of condition, strong, vigorous and healthy, able to do 36 holes and enjoy them.

What about yourself? How often do you get up in the morning with that glorious feeling that you are ready to tackle anything and anybody?

Good Health for Half a Cent a Day A 7c bottle of Kruschen Salts contains 100 doses—sufficient for six months—which means bounding health for less than half a cent a day. The dose prescribed for daily use for adults is "as much as will lie on a 10 cent piece, taken in your breakfast cup of coffee or tea. Every drugstore sells Kruschen. Get the bottle today."

FIRST POLO GAME

United States Team Captured First of Series For Military Championship.

LONDON, June 22.—Accurate wielding of polo sticks and aggressive horsemanship during the first chukker of Saturday's match between the British and the United States army polo teams at Hurlingham Club for the International Military Championship gave the visitors a lead that they carried to a final victory of eight goals to four. The result brought cheers from the 80,000 spectators who sat in stands surrounding the royal box from which King George and Queen Mary, the Duke and Duchess of York and Ambassador and Mrs. Alanson Houghton keenly followed the swift moving picture of ponies and players streaking up and down the field of green turf. The series of three games in which the United States players are defending the title won at Meadow Brook last year, will be continued on June 24 and June 27.

Former Boy Emperor Is Great Movie Fan

PEKING, June 22.—Henry Pu Yi, former Emperor of China, has become a "movie fan."

In the secluded garden of the house he has taken in Tientsin, 80 miles from Peking, the former "Boy Emperor" and his two wives are now enjoying private showings of all the latest Chinese and American films.

When Henry still retained the formal title of Emperor and the name of Hsuan Tung, he greatly enjoyed riding a bicycle about the great courtyards of the Peking Forbidden City, where he lived a virtual prisoner. Now, a private citizen of the Republic of China, he has added the high privilege of movie viewing and it is said that he likes this even better than his erstwhile cycling.

The marvelous possibilities of the play were seen for screen production. Historic personages that loomed large at the time were drafted into the picture as vital elements in the unfolding of the big human story. Great historic events like the spectacular duel between the Monitor and the Merrimack at Hampton Roads were blended in to form a perfect picture.

The heroic Barbara Frietchie, young, beautiful, charming, perverse, timid, courageous, with a heart of gold—a bundle of contradictions and paradoxes, everything by turns and nothing long—this delightful creation is wonderfully interpreted by the beautiful and ever popular screen star, Florence Vidor.

\$3,000 DISCOVERED IN MISER'S HOVEL

Small Fortune Found Buried in Tin Can Underneath Cabin Floor.

SAN BERNARDINO, Cal., June 22.—In a tin can buried in the earthen floor of the cabin of the late David M. Bowman, a miner killed in an accident four years ago, \$3,000 in British war bonds were found by Miss Anna Jackson, of Pasadena, one of the heirs of Bowman's estate, and Coroner Hanna. Bowman, 54 years old, and a native of Scotland, was the placer miner who twelve years ago gained distinction by his discovery of the largest gold nugget ever taken in Southern California. He cashed the nugget for \$2,000. Bowman was killed in a cave-in accident in the Coolgardie mining district.

Miss Jackson and a sister in Scotland were named as heirs. At the inquest nothing of value was listed in Bowman's estate. Learning that Bowman was an odd character, doubtful of the honesty of others, Miss Jackson began a search for treasure. She searched the cabin in vain. Convinced that Bowman's life savings were in or near the cabin, she returned with the Coroner and in digging in the earthen floor she found the tin can with its wealth.

UNTWISTS OWN HEAD

Twisted Neck While Diving—Came Back to Place With "Snap."

LONDON, June 22.—The newspapers report that Sir Herbert Barker, noted specialist in manipulative surgery, recently operated on himself under peculiar circumstances. While swimming at Alasie, on the Gulf of Genoa, he struck his head on the bottom during a dive. Regaining the surface with difficulty, he found himself unable to turn his head, and in great pain.

Utilizing his knowledge of bloodless surgery, he manipulated his head back in the position with, the report states, "an audible crack." He is now recovered.

Traffic Buttons Replace Silent Policemen as Traffic Guides

The latest thing of interest in Saint John is traffic buttons. What is a traffic button? you ask. It is a cast-iron convex plate about three feet in diameter and possibly four inches high at its mounting rests on the grounds at the traffic corners where the upstanding silent policemen used to hold dumb sway.

So hereafter motorists and other drivers must be wary to notice these buttons. They are red for daylight and painted with a luminous white circle for night-time. It is true they are not as conspicuous as the old-fashioned silent policemen, but the public would doubtless agree, an official said today, they were not so unsightly or parochial with their blinking lantern attachment.

Traffic buttons are being installed in many cities. The idea is western, originating in Seattle and Los Angeles. It is claimed they require no attention whatever and become as permanent a utility as the pavement itself.

So, after today, motorists and others will have to keep their eyes open for the new traffic regulator. In order to keep out of the clutches of the Brass Buttons it will be necessary to follow the directions of the Red Buttons.

As Hiram Sees It

"Hiram," said the Times reporter to Mr. Hiram Hornbeam, "I have never seen the country look more beautiful. This should be a great crop year."

"It's all right so far," said Hiram. "I'm looking for frost, though."

"The fields," said the reporter, "are simply glorious in their beauty."

"We're just as like as not to get a long wet spell," said Hiram. "Why I saw potatoes that had got their growth and the growth of the tops was wonderful," said the reporter.

"We're liable to get a drought in July," said Hiram. "I callate this'll be a bad year for potato bugs."

"Ears, beetles, carrots—everything is growing," said the reporter. "Looks as if they'd be more cut-worms than ever," said Hiram.

"Why—you old crane-hanger," said the reporter. "What's wrong with you today? Can't you cheer up?"

"If we do get a crop," said Hiram, "we won't get no price for it in the fall."

"What," asked the reporter, "did you have for breakfast?"

"I can't eat," said Hiram. "When I think of John what happen I haint got no appetite at all."

"Why worry about what may never happen?" queried the reporter.

"Aint everybody doin' it?" said Hiram. "I'll quit if the rest will."

"Why not set them an example?" asked the reporter.

"I guess I'll go an' git to work," said Hiram. "then I wont hev no time to complain. Yes, sir—that's what I'll do." —By Hen 17

CADETS IN PARADE

Attend Services in St. Andrew's and St. John The Baptist Churches.

The Saint John cadets paraded to St. Andrew's and Saint John the Baptist churches yesterday. In St. Andrew's Rev. J. Sutherland Bonnell, chaplain of the cadets preached a bright sermon, that appealed greatly to the boys. Although only 115 of the 600 boys belonging attended the parade, they made a fine showing and Captain D. V. Palin spoke with pleasure of the success of the event.

The boys for Saint John the Baptist Church left the armories at 9:45 o'clock and listened to a fine sermon from Rev. Arthur W. Kinella. The other boys left the armories at 10:30 o'clock and were headed by the Saint John Fusiliers Band. After they returned to the armories to disband, the boys met informally and extended thanks to Bonnell and Perkins, for his help in making the parade such a success.

The cadets are to have their annual inspections of officers and non-commissioned officers on Tuesday evening at 7 o'clock. This will be the preliminary for the awarding of the Mooney and Magee cups.

On Saturday morning there was a fine exhibition of shooting at the city ranges, with several boys participating for the first time with excellent results. Captain Palin was eager about getting as many cadets as possible to their camp this season. The last night for regular training will be Tuesday at the armories, he said this morning. He is anxiously hoping that generously disposed citizens will help the boys who have no fathers to provide the means for going to camp.

FINE OF \$2 IMPOSED

Thomas Stephen Gives Evidence in Matter of Report by Policeman Covay.

A fine of \$2 was the sentence imposed on Thomas Stephen by Magistrate Henderson in the police court this morning on a report by Policeman Covay for not moving on when ordered to do so last Thursday evening. The defendant was represented by C. S. Hamilton. He said it was raining hard at the time and that he was merely giving some orders to his employees. He swore that the policeman said he would "get" him again and he had replied that he could only "get" him if he broke the law.

Witnesses for the defence were Louis Stephen, Thomas Red and James Crowe. Policeman Covay was the only one giving evidence for the prosecution.

His Honor said, in giving his decision, that there was no offence in people meeting and gathering in the street. It became an offence, however, when they blocked traffic or when they failed to comply promptly with requests to move on by the authorities.

LIVES IN DANGER

Complaint of Reckless Auto Driving Made—Family Car Forced into Ditch.

The Times-Star was asked today again to urge automobile drivers to have thought for others than themselves. A city lady reports that she and her family, including a two-months old baby, were returning home after an outing last evening and their lives were endangered when a few miles west of Norton. They were on the right side of the road she said when a Frederickson car shot by without any warning and from the horn and with the driver shouting for them to get out of the way. The Saint John car was forced into a ditch, fortunately at a place where there is no embankment. All luckily escaped injury.

Only a week or so before, she added, another car shot right in front of them and they could see the driver using one hand to control the auto while his other arm was about a girl companion. The lady appeals for a little regard for the safety of others on the roads and a chance for all to enjoy the pleasures of an outing without lives being placed in peril.

PROPERTY PURCHASES

Mr. and Mrs. William McCavour of Manawagonish Road have sold their residence there to John Warnock of West Saint John. He will not occupy it until next May. Mr. and Mrs. McCavour have taken up residence farther out the road in the former home of Mr. and Mrs. Fred G. Goodspeed, who have gone to Winnipeg to reside. Mr. McCavour has purchased the Goodspeed property.

THANKS EXPRESSED

The Board of Trade this morning received a letter from F. C. T. O'Hara, deputy minister of trade and commerce, thanking the Board and the citizens of Saint John for the very kind reception tendered the delegates from the West Indies during their stay in this city.
