Alex. Duckham Thinks the Armistice Came Too Soon—Miss Maion Francis Who Discovered Mary Pickford, Came Across on the Steamship

Halifax, Feb. 6—The White Star liner Baltic, which arrived today en route to New York, brought a number of distinguished civilians in addition to the 2,000 odd returning Canadian soldiers which were disembarked here.

Alex. Duckham of the Associated Press, returned after several months spent in visiting the battlefields and in England. He went over with the presidential party on board the George Washington and says that the outstanding conviction he brings from the war zone is that there should be no soft peace.

There are no eggs, no milk and only half a pound of best sugar for each person a month, he says, in giving details of the situation. "Shop girls have lost from ten to forty-five pounds in weight, while everyone shows a lack of vitality. I found children going to school, shod with paper sandals or with cloth shoes, with wooden soles had been attached."

"No one knows the composition of the black, gritty bread that is being issued in limited quantities by tickets. Tuberculosis is increasing and skin diseases, due to lack of nourishment and lack of soap, are prevalent."

There are no eggs, no milk and only half a pound of best sugar for each person a month, he says, in giving details of the situation.

Conditions which he had found in Germany have led Lieut-Colonel Harris to the opinion that many women and children will die or become defective if not supplied with food.

"The German who overran France," he says, "should be punished and permitted to starve, but not the women and children. Hungry men and women do not make good neighbors."

Other passengers included the Earl of Dunmore, V. C., D. S. O., who is to visit the United States in connection with his business enterprises.

Miss Marcella Burns, head of the book department of Marshall & Fields, returned after an eventful experience as a nurse with the Canadian troops.

CAPT. WITHERS OF ABERDEEN DEAD

Prominent in Marine Life of St. John—Ill but Brief Time With Influenza and Pneumonia

Captain Nelson A. Withers died this morning in the Pasteur Emergency Hospital from influenza and pneumonia. By his death St. John has lost a worthy citizen.

Not only in social circles will Captain Withers be mourned, but also in marine circles, as he was held in high esteem by both officials and by the men who sailed under him.

Captain Withers since boyhood had spoken of the sea, and being of bright intellect and studious he soon worked himself up the ladder to success and finally received his deep-sea captain's papers.

The next annual convention of the Canadian Lumbermen's Association will be held in Quebec city. This decision was reached at the closing meeting of the convention this morning, after St. John had extended a cordial invitation for a return visit.

The members of the Eastern Spruce Association were asked to meet for the transaction of important business in the Royal Hotel at 2:30 o'clock this afternoon.

Members from Quebec said that they would have some difficulty in measuring up to the high standard shown by St. John in entertaining the convention.

MRS. DENNIS HUGHES. The death of Mrs. Dennis Hughes occurred this morning at her residence, corner of Mill and North streets. Her death will be mourned with regret. Besides her husband she leaves one daughter, Anna and one son, Jeremiah.

EDWARD McGERAGLE. The death of Edward McGeragle of West End occurred this morning and will be mourned with regret by many friends. Mr. McGeragle is survived by two sons, George of the 26th battalion, now home from the war, and Edward of West End; and by one daughter, Mrs. B. J. Kelly. They will have the sympathy of many friends in their bereavement. The funeral will be held on Saturday morning from his late residence, 275 St. George street, West End, at half past eight to the Church of the Assumption for high mass of requiem.

At his residence, 117 Sydney street, last evening, Rev. W. R. Robinson united in marriage Willard E. Cawley, son of Harvey Cawley, of St. George, and Eva M. Hamel, youngest daughter of Mr. and Mrs. John Hamel of West St. John. The newly married pair will make their home in West St. John.

MILLION FOR HOUSING IN NEW BRUNSWICK

Fredericton, Feb. 6.—Hon. Walter E. Foster, premier of New Brunswick, announced here today that one million dollars had been apportioned to the Province of New Brunswick for better housing in 1919. The premier a short time ago communicated with the federal minister of finance relative to this matter, asking what sum would be available for this province and received the reply as given.

The regulations under which the money or any part of it can be obtained are not yet arranged and until they are the legislation which would be necessary to make the grant available cannot be enacted. The amounts to be apportioned for use by municipalities in other ways will be determined under that legislation.

No French Speaker.

Ottawa, Feb. 6.—An unusual feature of the opening of the parliamentary session will be the elimination of the use of the French language in connection with the moving and seconding of the address in reply to the speech from the throne.

This unusual situation is due to the fact that Dr. Chabot, junior member for Ottawa, was the only French-Canadian speaker of the Unionist government elected, and he seconded the address last session.

At his residence, 117 Sydney street, last evening, Rev. W. R. Robinson united in marriage Willard E. Cawley, son of Harvey Cawley, of St. George, and Eva M. Hamel, youngest daughter of Mr. and Mrs. John Hamel of West St. John. The newly married pair will make their home in West St. John.

THE PEACE CONFERENCE

Differences With Smaller Nations Are Being Reconciled

Paris, Feb. 6.—(By the Associated Press)—Positive steps for reconciling differences between the greater and lesser nations at the peace conference are being continued today. In addition to winning four additional places on the commission of the Society of Nations, it seems probable that the lesser powers will also be granted adequate representation in the executive body of the society as well as the legislative sections. The smaller powers are insisting on being given a greater voice in the society, and plans under consideration are being revised to meet this situation.

The American delegation has received numerous petitions from committees, municipalities and representatives of territories under Ottoman rule, asking to be put under the protection of the United States, or at least that America should be the mandatory country entrusted with their government. More significant still is pressure brought to bear to bring about a decision by which the United States should be entrusted with the duty of looking after Constantinople, the Bosphorus and the Buxandales, which, it is believed, will be internationalized by the peace conference.

INTERNATIONAL LABOR

Paris, Feb. 6.—(By the Associated Press)—The peace conference committee on international labor legislation yesterday considered discussion of the British plan of an international labor bureau. It will be taken up today.

A commission of two members to be elected each for France, Great Britain and the United States will be appointed to untangle the technical aspects of the Czech-Slovak question.

DECIDES HOW MANY TROOPS TO KEEP THERE

Paris, Feb. 6.—A meeting of the supreme council will be held on Friday to decide as to the strength of the forces to be maintained in the service by the Entente armies. Conditions for a renewal of the armistice with Germany will also be considered.

TEN YEAR SENTENCE GIVEN FOR DESERTION

Toronto, Feb. 5.—E. N. Webber, of Newstadt, Grey county, Ontario, was today paraded before his regiment, at exhibition camp, when sentence of ten years in Kingston penitentiary against him, was formally promulgated on the charge of desertion. The sentence of the court martial was fifteen years, but it was reduced to ten years by order-in-council.

Webber's father, who is reeve of Newstadt was to have appeared before a magistrate at Owen Sound this morning on charges of sedition, but an adjournment was taken till the 11th, owing to the fact that the accused had pneumonia.

SMALLPOX IN HALIFAX (Halifax Echo)

There seems to be signs of a light type of smallpox becoming prevalent in the city and the Board of Health are taking steps to segregate the existing cases so as to stamp it out. It is difficult to trace the origin, but a man from a country district who the chairman of the board, Dr. N. E. Mackay, happened to come across in the course of his practice and who showed faint signs of having been affected, intimated there were a number of cases in a district near his own, and that people from there were frequently in and out of the city.

But this does not perhaps explain the sole origin as there have been isolated cases developing in parts of the city far apart from each other and in houses which are notably well cared for, every precaution being taken against contagious disease. There are at present but fifty-three cases of smallpox—thirty-two of them in the smallpox hospital—in Halifax city altogether and not one of them is of a serious type, all being able to move about, but the widely separated and isolated houses in which single cases have developed among the twenty-one outside the hospital have prompted the city health authorities to take steps in order to stamp out the disease, light of type as it is.

At yesterday's board of health meeting Dr. Mackay explained that the whole fifty-three cases could not be handled at the present smallpox hospital, its accommodation being too limited, and there being at present a shortage of help there. He suggested the transfer of the patients there to the influenza hospital building, the six flu patients at that building having been transferred to the isolation hospital in Morris street with a view of closing up the hospital at Willow Park in the interests of economy. His idea was that one-third, or one-quarter of the smallpox cases in the city came from outside and the rest developed from contact. He thought also that the other twenty-one patients in the city should likewise be removed and treated there.

OUR VISITORS

The visiting lumbermen are clean-cut, alert and clever men, with something of the atmosphere of the big out-of-doors about them. Their business is conducted with commendable despatch, they enjoy a song and a joke, and there is no formality or stiffness about them.

IN IRELAND.

Rev. Father Minehan of Toronto is a stout advocate of home rule for Ireland, but a vigorous opponent of the Sinn Fein movement. In reply to the plea that the Sinn Fein policy is a "policy of despair," Father Minehan says, in a recent letter to the Toronto Globe:

"Are conditions in Ireland such as to justify a policy of despair? I spent weeks in Ireland ten years ago, and I found as much civil and religious liberty there as in any country I visited—much more than in places where liberty, fraternity and equality were prominent on the walls but nowhere else. I found Ireland's scenic beauties advertised in Rome. The great majority of the farmers were acquiring their farms purchased with money loaned by the British government. The improvement which had been brought about in a few years was wonderful. And what had been done was only an earnest of the better things to come. Much yet remained to be done, industrially and politically, but the way was clear and the goal in sight."

"The situation in Ireland today is grave because of the activity of the irreconcilable element which demands separation from the rest of the British Empire. Such separation is impossible, and when the agitators have learned the futility of their course the situation will improve. Unhappily the people of Ireland today are themselves standing in the way of home rule."

FOR BETTER ROADS.

Hon. J. D. Reid announces that the federal government will pay forty per cent of the cost of making ten thousand miles of better roads in Canada. This will stimulate provinces and municipalities to take action. In New Brunswick this year a great deal of valuable work should be done, following out the policy already adopted by the Foster government. Federal aid will be of great value, and the work carried on will help to solve the labor problem during the entire summer season. There is great need of the construction of permanent trunk roads from Maine to the Nova Scotia border, from St. John up river, and from Moncton north. Such roads would bring great numbers of tourists this way, but it would also be of immense benefit to the farmers, affording a great saving in wear and tear of vehicles and enabling them to carry heavier loads. Given a first class road, the whole countryside begins to show signs of improvement. The provinces and municipalities will no doubt avail themselves promptly of the proffered federal aid. There is need of public works to provide employment. There is need of better roads. The opportunity to provide both is now offered on advantageous terms.

If the question of prohibition were presented to the people of Canada tomorrow it would be sustained by an overwhelming majority. In every province where it has been in force there is abundant evidence of its benefit to the people. This is freely admitted by all except the few who think their individual rights in such a matter should not be interfered with, and those who desire to continue the drinking habit. The federal government, while continuing prohibition until next year at least, should also resist every attempt to put more "kick" into the beer that is legally sold. There should be absolutely no concession to the brewing and distilling interests in this matter. More, not less prohibition would benefit Canada.

You Can Be Cured of CATARRH

The Pure Balsamic Essences of Catarrh-ozone Afford Surest and Quickest Cure.

Catarrh-ozone is certain to cure because its healing vapor is carried with the breath direct to the seat of the disease, nose or throat trouble. Being composed of the purest balsams and pine essences, it immediately allays irritations, facilitates the ejection of mucus, soothes and stimulates the lungs and bronchial tubes. The marvel of the age in curing nose, throat and bronchial troubles, that's what thousands say about Catarrh-ozone. There is nothing so sure to cure, and to those in fear of changeable weather—those who easily catch cold—those who work among lung-chilling surroundings, or where dust, impure air, fog, or damp can affect them—let them get Catarrh-ozone and use it several times daily—it will cure every time.

LIGHTER VEIN.

"I hear that De Smart is going to marry his divorced wife."

"Yes, her lawyer presented her in such an attractive light at the divorce trial that he fell in love with her."—Judge.

Of Some Use.

The flappers were taken out to tea by two staff officers resident in scarlet and khaki. Being "on the staff" caused the two young men to be very popular with themselves and to treat the flappers rather patronizingly. The younger of the two girls was lost in admiration. Looking up to her escort adoringly, she cooed:

"O, what lovely boots. And spurs, too! Why do you wear spurs?"

"O," chimed in the other girl, who objected to being regarded as an infant, "the spurs are to keep the feet from slipping off their office stools."

A Harder Thing.

Grey—"How are you getting along in the stock market?"

Green—"Well, I'll tell you. I traded a lot of money for experience and now I'm trying to reverse the process."

Warned.

It was in a street car. The woman wore a long wisp of artificial grain, which, protruding horizontally, tickled the ear of the roughly dressed man who occupied the seat beside her. At last he could stand it no longer. He took out his jack-knife and opened it.

"Lady," he said, "if them oats gets into my ear again there's goin' to be a harvest."

Mrs. G. A. Kuhring gave an interesting lecture in Ludlow street Baptist church on Tuesday evening on "A War Time Trip Overseas." Rev. W. R. Robinson, B. D., presided. Miss M. E. Mullin led the choir in special hymns. David Allen was heard in pleasing vocal solos, and Miss Allingham gave nice readings.

EVERY WINTER FOR 20 YEARS

writes Mr. I. Whittemuth, of Manilla, Ont. "I suffered agonies with chapped and cracked hands. My thumbs were so badly cracked that they actually never healed up from one winter to the next. As I am a watchmaker, I found it very awkward to do fine work with my hands in such a state. "Of course, I tried remedy after remedy, but nothing was capable of effecting a permanent cure until I used Zam-Buk. This wonderful ointment, in conjunction with Zam-Buk Soap, cured me completely and permanently—even to the healing of the cracks in my thumbs—cracks of twenty years' standing!"

INTEREST IN DEMAND FOR FIVE PER CENT BEER

Ottawa Comment on Prohibition and Labor Men's Request

Ottawa, Feb. 6.—The plea made by labor men for a stronger beer is arousing the keenest interest. But apart from the official resolutions presented, letters and telegrams are coming in by the score every day, both for and against the continuance of prohibition. The members of the labor delegation who interviewed the cabinet, while they have received no definite assurance from the government to this effect, apparently feel that they will carry their point. A detailed account of the proceedings has not been made available, but it is understood that the delegates urged the sanction of a beer of five per cent proof spirit instead of the present maximum of two and a half. They presented that they would be a temperance beer and considerably lighter than pre-war beer. It is felt, however, that action here will be largely influenced by the attitude of the United States.

Advertisement for PYRO ROOFING, UNAFFECTED BY HEAT, COLD, SUN OR RAIN. Not made with a Coal Tar Composition. Nothing but Felt and Trinidad Lake Asphalt. PYRO is a first-class roofing in every respect, and its advantages over other prepared or "Ready" roofings is due to the fact that there is no coal-tar used in PYRO. This means that it does not dry up and become brittle under exposure to the heat of the sun. For this reason it retains its strength and pliability almost indefinitely, instead of becoming hard and cracking, as do roofings made of substitutes for natural asphalt. Put up in rolls containing 108 square feet, with cement and tacks—all ready to put on the roof. Price, f. o. b. St. John, \$3.00 per roll Complete. AMERICAN SENATORS CRITICIZE THE EMBARGO

Say Britain is Doing a Great Violence to the United States

New York, Feb. 5—An Associated Press despatch from Washington today says: Democrats and Republicans in the senate today joined in criticizing the new British embargo on imports...

During the discussion that followed, Senator Reed, of Missouri, Democrat, attacked the Carnegie peace foundation's activities abroad, questioned its loyalty and declared it should be dissolved.

Senator Weeks, of Massachusetts, Republican, and Senator Lewis, of Illinois, Smith, of Georgia, and Reed, of Missouri, Democrats, led in protests against the British embargo.

Approving the view expressed in a pending resolution by senator Weeks, asking the state department whether any steps have been taken looking to securing a modification that the embargo violates the third of President Wilson's peace points...

"Britain does this country a great violence at this time in pressing this embargo. It will awaken sentiment that will make it difficult for the president to succeed in his efforts and awaken hostility, create a war of protest and lead to retaliatory legislation by the United States. And before we know it we will have trade hostility."

"I pray the British official set to be aware and not unnecessarily re-awaken the old spirit of 1812." Senator Weeks said that the embargo's purpose was to build up British industry to its pre-war normal condition.

"This building up, however," said Mr. Weeks, "has directly the reverse effect on our own industry. The time has come when we must give attention to our own domestic affairs and protect our own commerce."

WEST INDIA TRADE

Halifax Writer Declares Development Should be Pushed With the Greatest Vigor and Opportunities Grasped

To the Editor of the Halifax Herald:—An anomaly exists in Canada's trade with the West Indies. Whilst we are yearly becoming increasing consumers of West Indian products, both tropical and semi-tropical, our trade returns still indicate that, except in the case of sugar and molasses, our merchants do not, as a rule, import these products direct, but prefer to purchase them in the markets of New York and Boston. The price they pay there would include all the local charges, the duty if any, and the importers profit. The ocean freight charges on these products would also be earned by United States steamships, whose return cargoes to the West Indies would, in this way, include American goods, part of which should, rightfully, come from Canadian factories. The reason for this anomaly lies in the great delays, under past systems, in the transport of West Indian products by way of Halifax and St. John, to Montreal, Toronto and other markets, and the corresponding delays in the same route, in the transit of goods ordered by merchants in these tropical colonies from Ontario and Quebec manufacturers. Now that the war is over, there should be a prompt change arranged through the auspices of the department of trade and commerce. The West Indian trade is becoming yearly more valuable, and is capable of great development in the future. What we presently want are:

POSSIBLY STRIKE THAT WILL TIE UP BUILDING IN STATES AND CANADA

Labour Leader Hints at This as Result of Lock-out in New York New York, Feb. 6.—"Virtually all building operations here were tied up yesterday by a lockout declared by members of the Building Trades Employees' Association, according to an announcement by Wm. Bowen of Indianapolis, president of the International Union of Bricklayers, Masons and Plasterers. He said his purpose in coming here was to prevent the lockout becoming nationwide. According to Bowen, more than 25,000 workers in this city are affected. Unless the difficulty is adjusted immediately, he said, it will be followed by a strike throughout the United States and Canada which will eventually affect 2,000,000 men employed in the building trades. Bowen asserted that the lockout followed unsuccessful attempts by the union to arbitrate differences with employers which he said had existed since November, when carpenters went on strike for higher wages."

CONFERENCES ON MATTER OF BRITISH EMBARGO

Importers of American Goods and British Manufacturers Get Together London, Feb. 6.—The American Chamber of Commerce in London is arranging a series of conferences between importers of American goods and British manufacturers in the hope of reaching agreements which will influence the import restrictions of the British government. In view of the unavoidable delays of dealing with trade subjects through any government department, the manufacturers and importers, on the proposal of the American Chamber of Commerce, have decided to work out their own problems and submit the results to the British government. In the case of rubber goods, the conference representative of the British government is reported to have said that the government would act according to the agreement reached. Therefore, should the conferees agree that some American rubber goods are needed at this time, it is entirely likely that the restrictions will be modified. Conferences on the much discussed boot and shoe restrictions will be taken up today. It is proposed to have conferences of representatives of each trade affected. Thus far eleven such have been arranged.

MORE OCEAN RATES CUT

New York, Feb. 6.—The Tribune says: "Shipping rates on commercial cargoes from United States Pacific coast ports to China, Japan, the Philippines and other points in the Far East are to be cut approximately 40 per cent by the United States Shipping Board if accordance with its policy of restoring ocean carrying tariffs to a more normal basis. The rate on shipments from New York to Vladivostok, via the Panama canal, has been reduced from \$55 to \$40 a ton by the shipping board."

The closing of the Scotia steel plant has thrown the employees of Florence collieries out of work.

RESOLUTIONS OF THE LUMBERMEN

Fair Share of Reconstruction Trade For Canada

IMPORTANT BUSINESS

Evening Devoted to Banquet in Union Club With Addresses by Lieut. Gov. Pugsley, Premier Foster, Hon. E. A. Smith and Others

A number of important resolutions were adopted by the Canadian Lumbermen's Association, which opened its eleventh annual convention at the board of trade rooms in this city yesterday.

Among the resolutions was one placing the association on record as recognizing the importance of using every effort to obtain part of the world reconstruction trade for Canada, it having been stated that the Allies would require 2,000,000,000 feet of lumber.

A resolution was adopted calling for the survey of all standing lumber in Canada, cut-over lands and facilities for transportation. The association favored government aid in the conservation of forests.

The afternoon session was opened at 3.15. A letter was read from Horace F. Taylor, president of the National Wholesale Lumber Association regretting his inability to attend.

A circular letter from the Great War Veterans relating to the treatment of returned soldiers by employers was read and heartily applauded.

On motion of W. E. Gidding, seconded by B. Foy, the association concurred in the recommendation of the executive committee that the export trade with Great Britain could best be conserved by a return to pre-war conditions.

The executive committee, president and secretary, were instructed to appear before a parliamentary committee at Ottawa and support certain amendments to the bankruptcy act.

test against the adoption of such a tariff. On motion of James G. Kane, seconded by W. C. Laidlaw, a resolution was adopted urging the government to introduce legislation to place freight tariffs and traffic regulations in the hands of the railway commission.

Another resolution called upon the railways to furnish copies of all tariffs at the expense of the lumbermen to the trade. Secretary Hawkins said that at present the railways were under no obligation to do so at the present time, and that it was necessary for the lumbermen to be advised when tariff changes were made.

The association concurred in the appointment of A. C. Manhurst as Ontario government representative in England. Mr. Manhurst is a lumberman.

E. D. Hardy of the Lumbermen's Insurance Exchange, Ottawa, addressed the convention on the insurance problem. He told of the advantages of ma-

lial insurance companies, how deliberate losses were avoided under the mutual system and how a personal inspection by exchange agents reduced the possibility of fires at a plant to a minimum.

Mr. Hardy asked for the co-operation of the association members. Upwards of ninety men prominent in business life of Canada attended the eleventh annual banquet of the Canadian Lumbermen's Association which was given at the Union Club last evening.

There was not a dull moment throughout and all present had no hesitation in admitting that they had been well entertained.

The visitors incidentally learned considerable concerning port development at St. John, the resources of the province, and particularly of its lumber industry. The speakers were His Honor Lieutenant-Governor Pugsley, Premier Foster, Hon. Dr. E. A. Smith, minister of lands and mines; Hon. Clifford W. Robinson, of Moncton and Mayor Hayes.

Lieutenant-Governor Pugsley told the lumbermen of the rapid development of the port, and predicted much greater accomplishments in the future, particularly with regard to Courtenay Bay.

He presented a concise group of figures showing how much nearer St. John is to Montreal by three rail routes than other Canadian ports. He showed how the distance would be further shortened by way of McGivney Junction when the Valley railway is completed to Westfield.

Premier Foster spoke of the new, progressive forestry and crown lands policy which, he said, the people would in time have the opportunity of passing on.

Legislation, he said, would be introduced at the coming session of the legislature with the view of developing the water power of the province, and thus encouraging more industries to locate within its borders. He outlined the important natural resources of the province, and predicted a greater prosperity for New Brunswick in the future than the province has ever enjoyed.

Hon. Dr. Smith told of important reforms which had been introduced into the forestry system, including increased protection against the fire hazard. He also outlined the plan of his department to make a survey of all the lumber lands

in the province and of those which might be available for settlers. The closing speaker, Mayor Hayes, said that the maritime provinces were proud of the sacrifices that the men had made and the work the women had done in the war.

He referred to the many men which these provinces had sent out to colleges in the upper provinces and the United States, and to those from the east who figured in the politics of Great Britain and Canada.

The banquet came to an end by the singing of Auld Lang Syne and the national anthem.

Sign Armistice Based, Feb. 5—An armistice between the Polish and Czech-Slovak forces which have been fighting on the Silesian front was signed on February 3, according to advices received here.

Land and Loans—to Help Soldiers Become Farmers

IT is anticipated that a great many soldiers who have served with the Canadian, British or Allied forces may want to become farmers in Canada. The vital need to-day is to increase production and the acreage under cultivation. It is thus in Canada's best interests to give these soldiers every assistance. The Government has therefore been developing a programme that includes the providing of land, the granting of loans and the training and supervision of those inexperienced in farming.

The Present Plan. Under the Soldier Settlement Act, 1917, an eligible returned soldier is entitled, in addition to his ordinary homestead right, to a free grant of one quarter-section of Dominion Lands on homestead conditions. For this purpose the Government has suspended homestead entry by others than soldiers on all remaining homestead lands in the Western provinces within fifteen miles of railway transportation, pending enquiry into their suitability.

As soon as a soldier goes on the land, the Board has power to grant him a loan up to the maximum of \$2,500. This loan is granted to settlers to help them acquire land for farming, discharge incumbrances, undertake improvements, erect buildings and secure necessary livestock, machinery and equipment. It is not given as an actual advance of cash, but in the form of payment for expenditures. In this way the settlers' transactions are carefully supervised.

The loan is made at the low interest rate of five per cent. It is to be repaid in twenty annual instalments. The first two payments may be deferred by the Board when desirable.

The Government have found it necessary to broaden these original plans for the following reasons: (a) It has been found that only a limited amount of suitable homestead land is available for soldier settlement. (b) Some Crown lands are held by the Provinces. (c) Homesteading may not suit all the returned soldiers.

It is now proposed that the Provincial Governments co-operate with the Soldier Settlement Board in acquiring suitable lands at present held uncultivated by private owners. The Dominion Government has announced its intention of introducing necessary legislation along these lines at the opening of the next Session.

The lands so bought will be re-sold to the soldier at cost price. It is suggested that the purchaser be required to make a cash payment of one-tenth of the purchase price. The balance will be payable in equal annual instalments extended over twenty years or longer.

The amount of the land purchased by this plan, if it is approved by Parliament, will be limited in value to \$5,000. Interest will be charged at a low rate of five per cent.

Officers of the Soldier Settlement Board are located as follows: Post Office Bldg., EDMONTON, Alta.; Post Office Bldg., WINNIPEG, Man.; Pemberton Bldg., VICTORIA, B.C.; McCallum Hill Bldg., REGINA, Sas.; 32 Adelaide St. E., TORONTO, Ont.; Drummond Bldg., MONTREAL, Que. In New Brunswick the Board is temporarily represented by the Secretary of the Provincial Farm Settlement Board, St. John, N.S. Nova Scotia, by the Secretary of the Soldiers' Aid Commission, Halifax, N.S.; and in Prince Edward Island by the Minister of Agriculture, Charlottetown.

TICKET TO CHICAGO BY AIR ROUTE \$520

That is Possible Fare From New York

Association is Planning a Dirigible Service for Passengers—Trip Can Be Made Comfortably in Less Than 12 Hours

(New York Times) The Manufacturers' Aircraft Association announced yesterday that one of its members was investigating the feasibility of establishing passenger service by dirigible between this city and Chicago...

Mr. McElroy believes that the greatest difficulty to be overcome in establishing these air liners will be in landing them, but he asserts that problem can be solved. Passengers could be lowered in a cage, he thinks, or heavy windlasses could ease the craft into a dock...

Final plans for the aircraft to be used include carrying capacity for twenty-five passengers and ten members of a crew, and it is pointed out in the announcement that development of this type of airship is entirely feasible...

"Cabin accommodations, under the plan, would be in the interior of the main structure and in the centre of the ship, connected to the top of the structure, which would be a house-in-ervation deck, by a spiral tubular airshaft. The cars would be swung from the hull to give clearance for propellers."

This ship would be approximately 5 feet long and 48 feet in diameter. Engines would total 1,200 horse power. The bag would have 650,000 cubic feet capacity, providing a gross lift of tons at sea level, which would mean approximately 10 tons useful lift. It could be capable of flying 70 miles an hour, and a trip to Chicago could be made comfortably in less than twelve hours.

In the air he devised so that the changes of the wind would not hamper a landing. This dock would be anchored only at one end. As proof of their ideas that the use of the type of airships is feasible the promoters point to the successful flight of a German ship to East Africa, a journey of more than 7,000 miles, without provisioning. The last successful flight cited is that of the United States navy dirigible C-1 from Long Island to Key West. From this preliminary type larger ships for oceanic flights probably could be developed, the announcement says, in pointing out that it is more desirable to carry out the preliminary experiments over land.

WORK FOR UNEMPLOYED. Ontario Government Willing to Provide \$12,000,000 to Aid in Finding Work for Building Trade. Dr. W. A. Riddell, superintendent of the Trades and Labor Branch of Ontario, representing the minister of public works, told over 800 unemployed men of the building trades at a mass meeting in the Labor Temple in Toronto last week that the minister of education had been authorized to build additional buildings to the University of Toronto, and the work would go ahead immediately. He stated that the government was to build a new court house at Saint Ste. Marie, and that tenders had been called for the building of the Ottawa to Prescott highway. Dr. Riddell also stated that there was \$12,000,000 at 5 per cent awaiting the action of the municipalities to provide better homes for working men, and provide work for men of the building trades. He called upon the assembly to work with a punch and create a public opinion which would compel the municipalities to take advantage of the money awaiting their use. Dr. Riddell told the men that he had been conducting an investigation into the housing conditions in Toronto. Out of 500 homes where the wage-earner was receiving from \$60 to \$100 per month in salary, 67 per cent paid one-fifth of the wage in rent. In the great proportion of homes there were roomers and lodgers. The sanctity of the home was destroyed by such conditions. He appealed to the men to create a public opinion to compel the municipalities to take advantage of the money awaiting their use.

PHONES FROM SHIP TO SHIP. First Wireless Talk to Police Patrol from Transport Mongolia. Patrolman William J. Ferrick, radio operator on the New York police boat Patrol, had the distinction of receiving the first radio 'phone message on board the official welcoming boat of the mayor's committee the other afternoon. The message was directed to Colonel Charles F. Earright, Jefferson City, Mo., state commissioner of banking, who had gone to meet his son, Lieut. William Fairleigh Earright, Battery E of the 75th Coast Artillery, who was returning after service aboard on the transport Mongolia. "Try to get me off tonight if you can," said the clear voice of the man speaking on the transport. "I may be able to get off and I may not be able. Casual officers generally get off, but there seems to be some hitch this time, Lieutenant Earright."

Try This If You Have Dandruff. There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This dissolves it entirely. To do this, just get about four ounces of plain, ordinary liquid arvon apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have. You will find, too, that all itching and flinging of the scalp will stop instantly, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.

Be Careful What You Wash Your Hair With. Don't use prepared shampoos or any thing else, that contains too much alkali, for this is very injurious, as it dries the scalp and makes the hair brittle. The best thing to use is just plain mulsified coconut oil, for this is pure and entirely greaseless. It's very cheap, and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months. Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily. The hair dries quickly and evenly, and is soft, fresh-looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

Just Try This When Hairy Growths Appear. A smooth, hairless skin always follows the use of a paste made by mixing some water with plain powdered delatone. This paste is applied to the hairy surface 2 or 3 minutes, then rubbed off and the skin washed, when every trace of hair will have vanished. No pain or discomfort attends the use of the delatone paste, but caution should be exercised to be sure that you get real delatone.

DAILY HEALTH TALKS. A Simple Remedy Often Cures Many Diseases. BY VALENTINE MOTT, M. D. It is almost impossible to give a list of the endless diseases that follow indigestion. Perhaps a whole column in this newspaper would be required to print them all. You eat to keep alive—to supply blood and flesh and bone and muscle and brain. It is easy to see that if your food is not digested and taken up by the delicate organs and distributed where it is needed, a disease of some sort is sure to come. Dyspepsia is a common symptom, and so are liver complaint, loss of flesh, nervousness, bad memory, dizziness, sleeplessness, no appetite. Many times, when neglected, indigestion results in coughs, throat diseases, catarrh, bronchitis and even more dangerous things. And all these disorders arise because the food is not properly digested in the stomach. It is plain even to a child that relief and cure are to be had only by setting up a healthy condition in the stomach. Dr. Pierce, of Buffalo, N. Y., many years ago combined a number of vegetable growths into a temperance remedy for indigestion, and called it Golden Medical Discovery. It is probably the most efficacious discovery ever made in medicine, for the list of people all over the world who have had their countless ills overcome by Dr. Pierce's Golden Medical Discovery makes an amazing total of thousands.

Hall Acquitted

Saco, Maine, Feb. 5.—A verdict of not guilty was the finding of the jury in the trial of Henry H. Hall, the preacher accused of the murder of his wife, Minnie, at Wells Depot in June of last year. The verdict was returned last tonight after the jury had spent more than ten hours in deliberation.

ANNUAL MEETING OF DEMONTS CHAPTER

The annual meeting of the DeMons Chapter, I. O. O. E., held yesterday morning was a most enthusiastic one. At it the first returns from the Victory Ball were received and the chapter was much gratified to learn that more than \$400 will be added to the funds from the proceeds of the ball. It was regretted that the returns were not in time to be included in the financial statement for the year. Had they been the year's total receipts would have been more than \$4,104.55. Mrs. G. K. McLeod, the regent, presided at the meeting and at the election of officers was re-appointed by acclamation. Three donations of money were voted at the meeting, twenty-five dollars for the Princess Patricia wedding gift fund and twenty-five dollars to Captain Mary Plummer for soldiers' comforts and \$100 for French relief. It was decided to supply refreshments and to assist at a smoker for the Great War Veterans. The election of officers resulted as follows: regent, Mrs. George K. McLeod; 1st vice, Mrs. W. E. Foster; 2nd vice, Mrs. Busby; secretary, Mrs. A. W. Adams; assistant secretary, Mrs. H. B. Robinson; treasurer, Miss Helen Sydney Smith; educational secretary, Mrs. Teed; echoes secretary, Miss M. L. Harrison; standard bearer, Mrs. J. O. Thomas. Mrs. Simeon Jones in her secretary's report gave account of a most successful year. The treasurer's report showed that \$1,168.94 had been realized by the sale of the De Monts calendars.

LABOR MEN'S REQUEST FOR STRONGER BEER PRESENTED

Ottawa, Feb. 5.—A plea for stronger beer was presented to the government this morning by representatives of the labor movement in Canada among whom were: Tom Moore, president of the Trades and Labor Congress of Canada; J. T. Foster, president of the Montreal Trades and Labor Council; J. T. Gunn, vice-president of the labor party, and a member of the electrical workers' union. M. J. Walsh and E. Dion, of the Quebec Trades Council; and A. Garpey, Montreal, Canadian board member of the Cigar-makers' International Union. The government was represented by Sir Thomas White, acting premier, Hon. F. B. Carvell, minister of public works; Hon. J. A. Calder, minister of immigration; Hon. G. D. Robertson, minister of labor. The deputation presented resolutions from close on to 1,500 out of the 1,900 existing labor unions of the Dominion of Canada. This of itself is proof, the delegation urged, "that the active minority who are preaching total prohibition do not represent the thoughts and desires of the great masses of workers of this country." The request to the government was for the removal of the present unnecessary restrictions relative to the manufacture and sale of beer. This order-in-council, it is claimed, was placed on the statute books as a measure, and not on its merits as social legislation. The war is now over, claim the labor men, and there is no further need of this measure of restriction if ever such need existed. Other features specially emphasized were the throwing out of work of thousands engaged in the brewing and allied industries in the dominion at the present time and in view of the impossibility of the employers assimilating those at present unemployed that care should be taken before the labor market is further dislocated.

TELEPHONE MEN HAVE BANQUET

The annual banquet of the Telephone Workers' Association of New Brunswick was held in Bond's last evening. J. W. Duncan presided and about fifty members were present in addition to a number of guests. After a few remarks by the president the toast to the king was proposed and all joined in singing the National Anthem. An extensive programme was then carried out and consisted of toasts, songs, choruses, musical selections and choruses. The next toast was to the association and was proposed by H. H. McLeod and replied to by Charles W. Colwell, and received the hearty applause of the members. The next toast was to the New Brunswick Telephone Company and was proposed by F. Carrey and responded to by G. J. Fraser. The toast to New Brunswick was proposed by H. G. Black and was replied to by C. A. Kee, who spoke in glowing words of the possibilities and natural resources of the province. This was followed by the toast to "Our Soldier Boys," which was proposed by H. B. Duke and responded to by Lieutenant Nisbet. Needless to say this toast met with the heartiest applause, which went to prove that those present realized to a small degree what the soldier boys had done for them "over there." The last toast of the evening was to the ladies and was proposed by B. Edwards and replied to by S. Ebbett. The guests of the association included the managers and officials and were as follows: G. J. Fraser, F. J. Nisbet, J. E. Marshall, H. G. Black, S. Hoyt, N. E. Moore, S. B. Ebbett, L. D. Morse, J.

Weak, Sickly Folks Regain Health Quickly By New Remedy!

A BLOOD-FOOD NOW MANUFACTURED THAT ACCOMPLISHES MARVELS.

Lots of people that were thin and miserable for years have recently been restored by this simple treatment. All you have to do is take two little chocolate-coated tablets with a sip of water at the close of each meal. The tablets which, by the way, are called "Ferrozone," are in reality a perfect food of the blood. They contain exactly those elements your blood lacks when it becomes thin, weak, and unhealthy. This is just the time to use Ferrozone; it excites splendid appetite, gives digestion splendid aid, supplies nourishment of all weak organs. At once you feel buoyant and strong. Nutritious blood courses through your veins, supplies strength, makes you tingle with animation and ambition. No more headaches. None of that tired languor. You feel like doing things because Ferrozone completely renews and strengthens your whole system. No medicine on earth gives such quick, lasting benefits as Ferrozone. It has raised thousands from downright weakness, brings robust health simply because it contains the fortifying elements that run-down systems require. One week after using Ferrozone you'll feel like new, you'll appreciate what real robust health means. In a month you'll scarcely credit the push your vigor and spirits have received. Ferrozone is more than a tonic because its work lasts, its benefits remain and are not temporary. It restores health where other treatments fail, and should be used by every man, woman and child. Try it, 60c. per box or six boxes for \$2.50. Sold by all dealers or by mail from The Catarthozone Co., Kingston, Ontario. A recuperative diet in influenza. Horlick's Malted Milk, very digestible.

Merritt, F. Lewis and A. W. McMackin. The programme for the evening was as follows:

Chorus, Pack All Your Troubles; toast to the association, H. H. McLeod, Chas. W. Colwell; reading, G. Stinson; toast to the company, F. Carrey, O. J. Fraser; chorus, Smiles; reading, J. L. Smith; solo, E. Tull; toast to New Brunswick, H. G. Black, C. A. Kee; story, W. Smith; song, (Casey Jones); reading, W. Duncan; chorus, When You Wore a Tulp; reading, D. McAllister; toast to Our Soldier Boys, H. B. Duke, Lieut. Nisbet; solo, E. Tull; story, W. Colwell; piano selection, Watson; banjo selection, Bagnell; toast to the Ladies, B. Edwards, S. Ebbett; chorus, Where Do We Go From Here.

SMALL NATIONS SHOW A DISPOSITION TO REVOLT

The smaller nations are beginning to show a disposition to revolt against any plan that does not recognize their full equality in a society of nations with greater powers. Thus, a situation similar to that at the second peace conference at the Hague at which the plan of Ellihu Root, an American delegate for a supreme court of nations was frustrated, threatens to develop. The great powers, it is supposed, would not consent to the admission to the court of a member for each state regardless of its size and importance, fearing that they might be found in the minority, notwithstanding their greater interest in every great issue. It is hoped that the experts, profiting from the experience at the Hague conference, will find a way to secure the admission of the small states to the plan which is being perfected rapidly.

G.W.V.A. POSITION ON TAXATION EXEMPTION

The G. W. V. A. have sent the following resolution to Mayor Hayes, relative to taxation: At a meeting of this association held on December 2, 1918, a resolution was unanimously passed asking the City of St. John to exempt income of all men who have served overseas up to and including \$2,500 for a period of ten years...

Whereas, the said resolution was duly forwarded to His Worship the Mayor and Common Council of St. John; and Whereas, through reports appearing in the press of the City of St. John this meeting is led to believe that the said common council of the City of St. John have not favorably considered the resolution quoted, but have intimated that they are prepared to exempt names of returned men up to \$1,000 for a period of five years; and Whereas, the said common council and certain newspapers published in this City of St. John fail to realize that the pay of the men (who answered the call) while on active service received the sum of \$1.10 per day plus certain allowances for named soldiers, and the pay of officers and non-commissioned officers was proportionally small; and Whereas, those who remained at home earned a greater income and wages during the period that these soldiers were overseas and were thus able to save money which the soldier could not by reason of their small pay; and Whereas, during the same period...

The funeral will be held on Saturday afternoon from her late residence at two o'clock. Mrs. Baker was a woman of excellent qualities who numbered many friends and there will be deep sympathy for those bereaved.

**ORGANIZING EASTERN SPRUCE ASSOCIATION**

The organization meeting of the Eastern Spruce Association is being held this afternoon in the Royal Hotel. This is a new organization intended to include those interested in the spruce industry in Eastern Quebec, New Brunswick and Nova Scotia and to promote their mutual interests. The formation of such a body is in line with action taken on various parts of the continent where the lumbermen and manufacturers interested in the same kind of lumber have found co-operation through similar associations of great value to them. Angus McLellan of Athurst is the leader of the movement.

**IN WALL STREET.**

New York, Feb. 6—Coppers and related metals were the only prominent exceptions to an otherwise strong opening of the stock market today, adding substantially to their general reversal of the previous session. These losses were balanced by advances of one to two points in peace specialties and other speculative issues, notably Mexican Petroleum, Pan-American Petroleum and Sumatra Tobacco. General Motors also extended yesterday's belated rise, and American Sugar was bid up at the expense of the great interest. Changes among rails were nominal.

**Noon Report.**  
American Smelting was the most active feature of the morning, sales of that stock exceeding those of any other leader, even United States Steel. Smelting broke 1/4, Utah Copper, 1/2, and others of the metal division one to two and a half. The reverse side of the market continued to be presented by oils, tobacco, leather and paper shares and General Motors, at gains of one to three and a half points.

Foreign bonds, particularly Paris sixes and French government 5 1/2's, were again strong, while the Liberty group recorded further recessions.

**CORN AND OATS.**

Chicago, Feb. 6—Reports that a big advance in the minimum export price of corn had been made by the Argentine government had a decided bullish effect today on the corn market here. Strength was also imparted by assertions that the United States food administration would resume purchasing flour next week for European relief. In addition, gossip was current that packers had received large orders from the food administration.

Opening prices, which ranged from 1/4 cent off to 1 cent advance with May \$1.33 1/2 to \$1.15 and July \$1.10 1/2 to \$1.11 1/2, were followed by a slight reaction and then by sharp upturns all around.

Oats paralleled the action of corn. After opening unchanged to 1/4 cent higher, with May 55 1/2 to 56 1/2 cents, the market sagged a little, but soon hardened again.

Packers' buying presumably against government allotments carried provisions up grade. Revival of eastern shipping demand for live hogs tended further to lift values.

**FOR AN INTERNATIONAL COMMITTEE ON HYGIENE**

New York, Feb. 6—The national committee of mental hygiene announced last night that funds have been provided to send to England, and possibly France and Italy, a committee of the medical directors and secretaries of the American and Canadian national committees to organize similar agencies in those countries in furtherance of a plan to form an international committee of hygiene. The project was made possible by a gift from Mrs. Elizabeth Milbank Anderson of New York.

**ELECTRICAL WORK IN CITY**

Proposed By-Laws Under Discussion

Safety Commission to Appoint Committee of Interests to Look Into Matter and Bring in Report

At a meeting of the common council this morning there was a discussion on the proposed by-laws compiled by the City Electrician, Barry Wilson; Chief Clerk of the fire department, Peter Clench, secretary of the fire underwriters; S. C. Webb, F. P. Vaughan, W. H. Lykeman and John T. Conroy were present. It was decided to appoint a committee representing the various interests to go into the matter and report back to the council.

Chief Blake said he would be glad to have as few wires as possible entering buildings, and everything possible done to prevent fires. He said he had looked over the by-laws and had nothing to suggest to improve them. He contended that the law codes are too strong and that every precaution should be taken in the business districts.

Mr. Clench said he had not much opportunity to go over the report, but he was very much in favor of the local conditions as suggested. He felt that wiring should be in conduits in all hotels, theatres, garages, etc. He said he had been an inspector for the underwriters for the last forty years and had found some terrible work done by private individuals. He said that all men in the business should be qualified and have to pass an examination before receiving a license. He did not think it was justifiable to tear out all old installations unless they were dangerous.

F. Neil Brodie was asked by Mayor Hayes if he had anything to suggest. He explained that he had only glanced at the by-laws, and therefore was not in a position to go into the subject at any length. He took exception to some of the clauses, contending that they were too drastic, especially regarding small repair work or temporary work which a handy man could do in his own house.

Mr. Vaughan said that no work should be done except by qualified men, and quoted incidents of work done by incompetent men.

Mayor Hayes said that he thought it would be advisable to give all an opportunity of going into the report more thoroughly, and suggested that the commission of public safety appoint a sub-committee from all those interested, and after they had gone into the various sections, they could report their findings or recommendations to the council.

**CORPORATION IN STATES TAKES HALF THE ISSUE**

N. B. Bonds Bought by Ames & Co. to be Disposed of Without Public Offering

Toronto, Feb. 6—It is likely that the block of \$400,000 of province of New Brunswick bonds bought on last Saturday by A. E. Ames & Co. will be disposed of privately and without any public offering. It is understood that one corporation alone in the United States is taking over half of them. Ames paid 109.35 and as the bonds bear 6 1/2 per cent, the yield will fractionally be under that amount.

**E. O. JONES IS RE-ELECTED**

Officers of Cedar Hill Cemetery Company Are Chosen

A meeting of interest to a great many took place last evening when the newly elected directors of the Cedar Hill Cemetery Co. met in the company's office to elect officers for the ensuing year. By a unanimous vote E. O. Jones was re-elected president and new duties and responsibilities were added to his previous ones as managing director. The latter is a new office created this year. Mr. Jones very acceptably handled the affairs of the company to the satisfaction of the shareholders last year and his re-appointment will be popular.

The other officers for 1919 will be: F. O. Marvin, vice president, W. H. Allingham, who led the poll at the annual meeting, secretary, and the treasurer-ship was vested in George Gray, shoe merchant of the north end. Caretaker Hayne was re-appointed. The executive are already planning further improvements to the cemetery and harmonious co-operation is looked for.

**It Seems Early in the Season to Advertise Window Curtains**

But we think when special low prices are quoted in this sale, that the time is none too soon. A great advantage to housekeepers will be found, as our purchases made over a year ago place us in command of a very select stock of Curtains in the popular Marquisette and Lace Combination Borders and Edges Trimmed Curtains; Scrim Curtains with Inset Insertion Borders and Lace Edges. All are the regulation sizes, 2 1/2 and 3 yards long. So adapted for all modern House Windows.

See these prices they are Money Savers.

The MARQUISETTE CURTAINS are \$3.50 a pair up.

The SCRIM CURTAINS are \$4.50 a pair up.

The SCOTCH LACE NET CURTAINS are \$5.75 a pair up.

**The Cabinet Glenwood Won Two Gold Medals at San Francisco**

The Cabinet Glenwood here illustrated is a Range that quickly appeals to those wanting a Range that occupies small space and yet one with heavy capacity for work.

Large roomy oven; and it has both upper and lower hot closet. The Cabinet Glenwood is simple, plain, efficient—and has two gold medals from the Panama Pacific Exposition to its credit.

Comes with or without the patented ash chute (as illustrated), a feature we'd be glad to explain to you.

When may we deliver yours?
