LAURIER'S TOUR OF WEST IS ENDED

Valedictory Honors to Premier At Medicine Hat

SUMS UP RESULTS

Sir Wilfrid Joined by Lady Laurier and Return Trip to Ottawa is Begun—Hon. Mr. Graham Arranges for G.T.P. to Handle Wheat

Medicine Hat, Alta., Sept. 3.—(Special)—The tour of Sir Wilfrid Laurier which opened with mammoth meetings in Port Arthur and Fort William two months ago was brought to a conclusion with another great gathering here yesterday afternoon. It was the last big assembly scheduled on the itinerary. Last night the premier's train left for Winnipeg, where on Monday he will entrain for Ottawa.

Provinces United in His Honor The two prairie provinces, by the presence and speeches of the premier and Hon. Messrs. Sifton and Scott united in doing valedictory honors to the first Canadian who has spent his summer in studying their needs and requirements. The premier of Saskatchewan conveyed a message to Premier McBride of British Columbia to Canada's most illustrious statesman, Hon. G. R. Mitchell, attorney-general and minister of education, occupied the chair and addresses were delivered by Hon. Geo. P. Graham, Hon. Frank Oliver, Messrs. Macdonald and Barlow. Lady Laurier attended the meeting, and was accorded a reception in an eloquent address.

Premier Sums Up Tour Sir Wilfrid summed up the experience of his tour as follows: "I left home, Canadian to the core, I return ten times more Canadian, I have imbibed the air, spirit, and enthusiasm of the west. I am now a true westerner henceforth, I should say Canadian, for we must not forget that we are one people in each other. So I am returning home now. I have learned a great deal in the last two months. I have learned to know my country. On July 7, I set my face towards the setting sun; on September 3, I am setting my face towards the rising sun. Yet, whether rising or setting, the same sun is over all Canada.

Sir Wilfrid made his farewell appeal for a united Canada. During his tour he had met multitudes of new Canadians. Thousands were United States settlers. He had asked them whether they were satisfied with conditions under institutions here and without exception the response had been "yes and proud to become Canadians."

Such experiences had been an intense satisfaction to the premier. The republic was learning that monarchical institutions here were not less democratic than those to the south. The King of England was subject to the law as the President of the American Republic, without so many anteceding powers.

The statement of Hon. C. R. Mitchell, provincial minister of education, that Alberta had started upon a policy of paying teachers materially increased salaries, drew thoroughly equipped schools and granting liberal appropriations to all educational projects drew from Sir Wilfrid words of earnest commendation coupled with a note of warning to Eastern Canada.

Significant addresses were delivered on the occasion of the opening of the large new Alexandra school by the premier here. The children, with flags, paraded the streets and presented a beautiful bouquet to Lady Laurier, who joined the party this morning from St. John's.

G.T.P. to Handle Grain This Season In an interview this morning Hon. Geo. Graham told your correspondent that arrangements had been completed by the government for handling of the grain shipments on the new Transcontinental from Winnipeg to St. Boniface over the Canadian Northern connection. This arrangement furnishes a complete through route to the elevators over the new railway for the present season. It means that the Grand Trunk Pacific will handle a lot of this season's grain crop.

RAISULI AGAIN HOLDS SWAY IN MOROCCO London, Sept. 3.—The Morning Post publishes conspicuously a statement from its Tangier correspondent as to the hopeless condition of Morocco, and calling the attention of France, Germany, Spain and Great Britain to the situation, with a view to the rearrangement of the status quo, looking to the eventual partition of Morocco among those countries.

The correspondent says the Algerian convention, so far as the progress of the country is concerned, is practically inactive. Everything is chaotic beyond the seas. The Sultan is unable to leave Fez or to collect revenues, which is absorbed by tribal chieftains. Raimond, former hand, is supreme at Alkassar and Kaid M. Anlou at the south.

THE WEATHER Fair to Saturday and probably Sunday; moderate variable winds.

MERRY CLICK OF TURNSTILES NOW, GREAT DOMINION FAIR FORMALLY OPENED TODAY

This Afternoon's Programme—People Will Find Surprises At Every Turn for Things Have Certainly Been Changed—Biggest and Best in All Departments

The Men Who Have Made The Dominion Exhibition

Never before has an exhibition in this city attracted such widespread interest as has the big Dominion Fair, which will be officially opened this afternoon at 3 o'clock, and every indication points to its being the most successful, most notable, and largest exposition ever conducted in the maritime provinces, or in fact, in eastern Canada.

Under capable management the big fair has been boomed along until queries regarding it have poured in from all quarters, while exhibitors have come from far and near, in greater profusion, richer quality, and more representative than ever before. Success seems an assured thing for the big show, but much will depend upon the treatment by the western man. Already the people are coming to the city traffic is increasing over the railway and steamship lines, and the general well-being; and the final touches are being placed to the preparing to conduct the great fair. Gangs of workmen are cleaning, building, painting, and in various other ways, completing the arrangements for the reception of thousands of sight-seers, and the elegant displays of different products, artificial and natural.

Surprises Will Be Many To many citizens and visitors who in the past have been familiar with the location of the various building which have formed the grounds, the changes which have been wrought will prove a delightful surprise, and in fact these little "surprise parties" will await their coming almost at every turn, for there are few parts of the commodious buildings and grounds which have not been renovated or altered to advantage in some way.

The exhibits this year are strikingly in advance of those of other years, and the taste with which they are displayed is deserving of praise for the general excellence, neatness and artistic merit, to say nothing of excellence of the articles exhibited. Many new exhibits are to be seen, all attractive and interesting, and each well gotten up as to appearance and general arrangement. More pains and care have apparently been taken with the decorating and arranging of the booths this year than has been the case heretofore, and the results of the endeavors of the exhibitors is highly encouraging.

Before entering the fair grounds, even the work of improvement is noticeable. A change for the better is apparent in the method of ticket-selling. The ticket company is taking opportunity of preparing to deal with requirements of their mail service. Accordingly when the new steamers start, it will be unnecessary to enlist the C. P. R. assistance in regard to mail transport.

Lord Justice Cherry sailed today on the S.S. Victorian for Canada. In their march with the Duke this morning the swinging pace of the Queen's Own Rifles was much admired. There will be a full ceremonial parade of the Scots and Irish guards for the Queen's Own benefit. There were 657 bales of Danish bacon landed today. There is good demand for the best weights. Canadian is 95 and 73 to 74; Canadian long cut hams 82 and 80 to 82; heavy weights, 70 to 80. Demand for the best averages good. Canadian cheese is steady and sold at 83 to 85. There is little Canadian butter. The quotation is 114 to 116.

South Africa Elections Johannesburg, Sept. 3.—Authentic estimate of the elections gives to Nationalists a majority of 15 to 20. Natal is the only doubtful section.

THE ELDER DEMPSTERS MAY RUN LINE FROM NEW YORK TO AFRICA Montreal, Sept. 3.—The Elder-Dempster Line has under contemplation still another service. The new branch of the commerce of the world which they are considering the advisability of entering is the freight service from New York to the west coast of Africa. The proposed ports of call are the Canary Islands and all the larger trading ports along the mainland of Africa.

The Elder-Dempsters have for years done most of the trading to African ports, and at present they have a service from Liverpool down the west coast of Africa.

Strikers Return to Work Salem, Mass., Sept. 2.—By votes passed at meetings of the United Shoe Workers and the Knights of Labor Cutters tonight the striking shoe workers will on Tuesday next return to work in three of the large factories of the city.

Breaks World's Record Providence, R. I., Sept. 3.—Amer. Col. line of Lynn broke the world's motor-paced record for five miles on a 99 geared wheel here last night. His time was 8:02 2/5.

WILL HIRE A MAN. At the next meeting of the safety board provision will be made to hire a man to run through Indian town whenever a fire occurs, and ring a bell warning the people. At present the people who live over the hill have no means of knowing when a fire breaks out on this side of the summit, unless somebody arrives from the scene of the conflagration. For example some Indian town people did not know there was a fire so near them yesterday. Of course an alarm could be installed at Indian town, but the people don't deserve it.

DEDICATION OF ALL SAINTS

Many Church of England Dignitaries in Halifax

HECTOR FABRE DEAD IN FRANCE (Times Special Cable.) London, Sept. 3.—Hector Fabre died in Versailles yesterday. M. Fabre had been Canada's commercial representative in France for some time.

BIG FINANCIAL DEAL REPORTED AFOOT IN MONTREAL Canadian Light and Power Co., it is Said, Are After Street Railway Control

Montreal, Sept. 3.—Montreal financial circles are just beginning to realize that one of the biggest financial deals in local history is nearing consummation. For some time past representatives of the Canadian Light and Power Company have been buying Montreal Street Railway shares with a view towards securing control. Once they have secured control they will be in a position to amalgamate the two companies on a new basis, and supply the power used by "Street" from their own plant at Beauport, that they have now secured such control is declared to be a fact.

Not only have shares been acquired by the members of the syndicate but it is known that prominent holders of Street Railway stock have also been joining forces with the new syndicate. Many of the most conservative of the "Street" holders have thus been induced to swim with the tide, having been impressed by the great value and potential worth of the Beauport plant.

One financier said that the syndicate had more than a hundred million dollars and were backed and numbered among its members many prominent holders of "Street" shares supporting them include a large bank, and a shipping company, and a big Parisian financier.

ALL ADVISED LOANS AND INVESTMENTS CLOSE BANK DOORS Salt Lake, Sept. 3.—The Idaho State Bank of Hasley, Idaho, is in the hands of the state bank examiner. The affairs are said to be in a tangled condition. Liabilities amount to about \$200,000. The failure is said to have been caused by ill-advised loans and investments.

WILL PUT NEW BETTING LAWS TO THE TEST New York, Sept. 3.—It is likely that the new betting law which condemns betting and bookmaking "with or without writing" and the so-called "owners and directors' liability law, both of which went into effect in this state on September 1, will be put to the test and brought before the courts in a few days.

At the Richmond county fair there has been a race. The officials have no say that they will expect them to detect and arrest any person violating the new law. By such violation and by the posting of placards on the grounds the officials hope to escape liability under the owners' and directors' liability statute.

MEN ARE BURIED UNDER TONS OF SAND Philadelphia, Sept. 3.—Two men were buried under tons of sand in the Delaware River at Greenwich Point as a result of the collapse of a warehouse belonging to a fertilizer works.

Football List Opened Early Canonsburg, Pa., Sept. 3.—The first recorded football casualty of the season is reported from this place in the injury of William Turner, left end on the high school team, who broke his collar bone and several ribs during a practice game today.

Strikers Return to Work Salem, Mass., Sept. 2.—By votes passed at meetings of the United Shoe Workers and the Knights of Labor Cutters tonight the striking shoe workers will on Tuesday next return to work in three of the large factories of the city.

Breaks World's Record Providence, R. I., Sept. 3.—Amer. Col. line of Lynn broke the world's motor-paced record for five miles on a 99 geared wheel here last night. His time was 8:02 2/5.

WILL HIRE A MAN. At the next meeting of the safety board provision will be made to hire a man to run through Indian town whenever a fire occurs, and ring a bell warning the people. At present the people who live over the hill have no means of knowing when a fire breaks out on this side of the summit, unless somebody arrives from the scene of the conflagration. For example some Indian town people did not know there was a fire so near them yesterday. Of course an alarm could be installed at Indian town, but the people don't deserve it.

KING GEORGE TO PAY VISIT TO DOMINION, SAYS TIMES

May Be Assured He Will Carry Out His Wish, As Opportunity Presents—C. P. R. and The Atlants—Nationalists Win the South Africa Elections

Times Special Cable London, Sept. 3.—The Times today says: "Though we are many sovereign peoples, our sovereignty must be one. He must hold his court not only in these islands but, as opportunity permits in all the chief dominions of the crown. His most distant peoples may feel assured that means will be found for fulfillment of his wish to visit them as king."

The News refers today to the universality of the movement against tariffs where the most significant and interesting thing is the main problem of the day. It says, Sir Wilfrid Laurier himself is invaluable and his recent speeches come upon the tariff reformers here as displays of the most convenient candor.

The Leader, after referring to "irrefragable evidence against tariff reform which continues to pour in from Canada," says: "The most significant and interesting thing is the main problem of the day. It says, Sir Wilfrid Laurier himself is invaluable and his recent speeches come upon the tariff reformers here as displays of the most convenient candor."

The Glasgow Herald says reciprocity is the main problem of the day. It says, Sir Wilfrid Laurier himself is invaluable and his recent speeches come upon the tariff reformers here as displays of the most convenient candor.

C. P. R. and the Atlants A prominent C. P. R. official says he has not heard of the reported discontinuance of the mail arrangement by the C. P. R. and the Atlants. Nothing is settled, he says, about the C. P. R.'s two fast steamers.

George Gribben says the Allan's new steamers are being constructed not only to meet improved general traffic but more especially passenger traffic, and the company is taking opportunity of preparing

THE TIMES' NEW REPORTER

HIRAM IS IMPRESSED. Mr. Hiram Hornbein spent some time last evening in contemplation of the Albert and Charlotte county exhibits of grain and vegetables in the building which also contains the live moose and beaver and the "made in St. John" exhibit. Hiram was greatly impressed with the showing of grain in sheaves, and remarked to the Times new reporter that so far as he was concerned the grain crop in New Brunswick filled the bill and he had no desire to go to the prairies.

"That's a fine show" said Hiram, indicating the exhibits. "But wait till you see ours. We'll show 'em how to grow things—By Hen!"

Calgary Crops Calgary, Alta., Sept. 3.—(Special)—The rainfall in Calgary district during August amounted to 3.07 inches. Dry farmers claim they can raise the best possible crop with five inches of rainfall during the season, so the present amount of moisture should serve them favorably.

The rainfall during August, 1909, amounted to 3.0, and the crops last year were excellent. Alberta Pacific Elevator Companies say that the threshing report while not quite complete, will show a crop far beyond expectations.

For example some Indian town people did not know there was a fire so near them yesterday. Of course an alarm could be installed at Indian town, but the people don't deserve it.

YOUNG ACTRESS BADLY HURT; HOBBLE SKIRT IS THE CAUSE

New York, Sept. 3.—Suffering with concussion of the brain as a result of a while wearing a hobble skirt, Marion Stone, a girl in her teens, is in a critical condition today in the Lincoln Hospital.

Miss Stone, who is a member of a theatrical company giving performance up-town theatre, stumbled while descending a flight of stairs leading from her dressing room in the theatre late last night. She fell nearly the entire length of the staircase, striking on her head. Her recovery is doubtful.

with that, he put down the money and went out. "What did the bank manager say, Fred?" "He didn't say anything...

THE ALBERT GATE MYSTERY

CHAPTER XVII.—(Continued.) Fairholme dropped his voice to a whisper. "Look," he said, indicating with his eyes a distant corner.

Edith followed his glance, and instantly comprehended the cause of his startled exclamation. For in that quiet spot, far removed from watchful police or inquisitive hotel servants, stood four men, whom she could not fail to recognize as Gros Jean, Hussein-ul-Malik, and the other two men she had never previously set eyes on them.

She instantly understood that they must continue to talk and act in the guise of ordinary tourists. In this respect the presence of Daubney was invaluable, for he naturally could not give the community of interest between his aristocratic friends and the motley group in the corner.

As soon as he regained his breath Edith and he commenced a lively conversation. Sir Hubert joined them, and in the course of their casual stroll round the tower they passed close to the Frenchman and his companions, attracting a casual glance from the former, who instantly set them down as English people bound for the east and whining away a few hours in Marseille prior to the departure of their steamer.

But another surprise awaited them. A small staircase led to the top of the turret which, as already described, formed part of the angle that sheltered the group of men.

When Edith and the others stopped at the door they glanced inside and caught sight of a shabby-looking Frenchman, who had passed halfway up the stairs, and was leaning against the wall, obviously intent on hearing every word uttered by the quartet.

Fortunately Edith, who was nearest to the door, was completely absorbed from Gros Jean's observation. Else that astute gentleman might have noticed her involuntary start of surprise. For the shabby-looking Frenchman, who was leaning against the wall, was none other than the man who had been seen in the courtyard of the Hotel du Louvre.

ment with me at the Grand Hotel yesterday. "It seems that he was much upset when he heard that I had left. He went straight to the consistory, and he warned him that, contrary to expectations, the Turks were acting in complete accord with Hussein-ul-Malik's naturally puzzled commissary a good deal, and the affair became still stranger when an attaché from the British Embassy called a hotel waiter and urged the police to do all in their power to discover the whereabouts of Hussein-ul-Malik, as he was particularly anxious to have a friendly talk with him.

"Close on the heels of the Turk came a confidential messenger from the British Embassy, requesting the latest details, and, when questioned by the commissary, this man admitted that he had, in the first instance called to see me at the Grand Hotel.

"In a word, Miss Talbot, I had suspected the existence of the negotiations, which your brother's smart piece of work has now confirmed.

"The two young men disappeared down the stairs, and the Turk, having apparently encountered a number of holiday makers, climbing to the top of the tower. In they came, twenty or more, and promptly spread themselves around the walls, the Marseillais amongst them indicating to their city and along the coast.

At this moment, too, the siren of the steamer leading the courtyard, as he announced she was about to make her hourly trip back to the town. Whereupon Gros Jean and the Turk, having apparently ended their consultation, crossed the roof, and disappeared down the staircase.

Instantly Jack Talbot strode after them, but no sooner had the bulky form of Gros Jean—who was the last of his party—vanished than the Turk, who had been seen by the Sultan, and there is a movement on foot to buy back the diamonds. That in all that I can tell you now, but Mr. Brett knows. When I have seen these chaps safely home I will at once come to the hotel.

Then he too, vanished. Edith felt a thrill of elation that her good judgment should have led her to read the figures before her, and to tell the common to communicate.

When Brett heard the news it seemed to him as if he had been struck by a bolt of lightning. "I had not much faith in the patriotism of the young Turk. I wonder how much the Sultan has told him to dip his hands into his money-bags, and Dubois will certainly demand a handsome fee for his services."

FAMOUS GEMS OF PROSE AT THE SUMMIT OF GORNER GRAT

NEVER shall forget the half day that I spent on Gornor Grat in Switzerland. I was just emerging from that many-formed crystal country (for Switzerland is one vast multi-formed crystal) and coming up through the valley of the Rhone and thence my way along the valley of the Visp. I arrived in the evening at Zermatt in a perfect intoxication of delight.

There stood some 15 of Europe's grandest mountains. There were Monte Rosa, Lyskamm, Breithorn, Steinbock, Weisshorn, Mischabel, and most wonderful of all, Matterhorn, that lifts itself up like a vast tower in the air, and all of it apparently from basalt to summit rising right up before you.

And life—its murmur was like the murmur of the ocean when you hear the beating of the surf against the shore 20 miles away. Life! it was like the faintest memory of a fading dream. And the influences that had subdued me or warped me—in that royal hour of coronation, I lifted them up and asked in the light of the other spheres, "What are ambition and vanity and selfishness and all other worldly passions?"

FOR SKIN DISEASES. A Treatment That Costs Nothing Unless It Provides Satisfactory Relief. I have a grayish-white ointment with a pleasant odor that is clean to use, which I believe is the best known remedy for relieving skin diseases peculiar to children.

The Times Daily Puzzle Picture. SWIMMING IN THE SWIM. When Willie has been in to swim, his sister's luck is different. He always combs his hair, when she always combs hers.

DAVIS PERFECTION CIGAR. MADE BY S. DAVID & SONS, LIMITED.

SHIPPING LESS SCOTCH WHISKEY IS BEING DRUNK. Four Distilleries Shut Down in Scotland During the Last Month or Two.

OXFORD UNIVERSITY TO ADMIT WOMEN. London, Aug. 30.—The reform of Oxford University is the subject of a long report by the Hebdomadal Council, which will be issued tomorrow.

DR. T. FELIX GOURAUD'S Oriental Ointment. A Sign of Beauty is a Joy Forever. The funny thing to me, said Talbot, was the effect of the message on the English.

FREE TO YOU—MY SISTER. I am a woman. I know women's sufferings. I will find the cure. I will tell you about it.

Woman's Power Over Man. Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man.

THE WRETCHEDNESS OF CONSTIPATION. Can quickly be overcome by CARTER'S LITTLE LIVER PILLS.

SPREAD PASTE—IT'S COMMON SENSE. If a house is over-run with roaches, bugs, ants, etc., you are sure to use COMMON SENSE Bug Paste.

TIRE DIRT. It is not the rub of dirt that tires your shoes, but the sharp edges of the dirt. Put a pair of Schober's Tire Dirts on your shoes.

No Deals
"The Shamrock, Thistle, Rose entwine
The Maple Leaf forever."

OPENS TODAY

This afternoon will witness the formal opening of the Dominion Exhibition of 1910. This is far and away the most extensive and varied exhibition ever seen in St. John, and it may be assumed that the largest crowds that have ever been attracted to the city will be seen here during the next ten days. The opening day has dawned auspiciously, and with continued fair weather the greatest success should attend the fair.

OUR VISITORS

On the eve of the opening of the Toronto fair the World of that city offered some counsel to the Toronto people that is worth reading by St. John folk on the eve of the opening here. The World said:

"There are going to be crowds of country people in the city during the next three weeks or so. There will be many ladies of all ages, all unfamiliar with our hasty ways, and our complicated street car system, and the fast-flying line of our streets and thoroughfares. There will be many elderly people among the visitors, fathers and mothers of the generation now taking a grip of Toronto's possibilities, and grandfathers and grandmothers of those who live in the houses of those who have made good. They are all our people. No city would have a generation of it was not built up certainly on the eve of the country."

"We have Y. M. C. A. Associations, and we have brotherhoods of many descriptions, all devoted to the cultivation of good feeling and refinement of character. If the young men who are attached to these organizations will just turn to, and give an exhibition of the practical application of their principles for the benefit of visitors to the city, who require little kindly offices, they will help Toronto immensely in the hearts of Ontario."

"Tell them where the cars run, and what they need to take; help them across the street; carry their grips when they are overladen; stop the car for them when they come to their corner; let them see that Toronto is not a hog-city."

"There are thousands of ways in which the visitor from the country can be made to feel that he or she is welcome and that we do not only know how to raise money for a Y. M. C. A., but that the Christianity is spread around a little outside the building."

THE MARITIME BOARD

The Maritime Board of this week gives wise counsel when it urges the re-organization of the Maritime Board of Trade on lines that will prevent sectional divisions, such as led to the withdrawal of St. John from any share in this year's deliberations. Pointing out that the Maritime Board is distinctly weaker because of the non-participation of one of the two largest cities in the provinces, the Merchant says:

"The question that must now suggest itself is whether there is anything to be gained by any party in introducing questions of a sectional nature, particularly when such questions may be exceedingly objectionable to other parties in the convention. There are enough questions of mutual concern to discuss and there are plenty of ways in which the Board can be of the highest use to the Provinces, and it

is its duty to deal with them, to the exclusion of subjects which may occasion splits without accomplishing any real good to anyone. So why not stick to the safe course? We believe that if the Board is to be kept alive there should be some understanding of this sort."

PRISON REFORM

The following is the London Spectator's summary of the bill to reform prison administration in England:—"The bill will secure to persons condemned to a fine a short interval for raising the money to pay it. Of 138 persons condemned to Wandsworth prison in a single week for non-payment of fines, the governor believes that forty or fifty could have paid if time had been allowed."

STUNG

In a cozy little attic
In the centre of the block,
Lived a somewhat aged maiden
Who was never lost for talk.

Every day throughout the year,
New gossip she could find;
And many a spotted character
Her venomous tongue charmed.

A neighbor living 'cross the street
Took in the situation
Agreed with her in every way
To save her reputation.

One day a load of furniture
Was carried in next door,
And she with scrutinizing glance
Had looked the contents o'er.

When night came on, across the street
She quickly looked her way,
To tell her confidential friend
What she had seen that day.

She thus described the furniture,
With wealth of keen detail,
The piano and the paintings,
The dustpan and the pail.

"The chairs might once be haircloth
But now they're only mat,
The bedding and the pillows
Resemble junkmen's bags."

"And, Lord! an old piano,
When they tried some simple airs,
It sounded like some tin snare
Falling down a flight of stairs."

"The stove was cracked and broken,
The stovepipe red with rust,
The curtains were in tatters
And the carpet thick with dust."

Then she stopped and asked her neighbor
If she'd seen the folks before.
"I've known them," was the answer,
"For forty years or more."

"The woman was my schoolmate
I have known her all my life,
I love her even better now,
As she's my brother's wife."

IF I WERE A VOICE

If I were a voice—a persuasive voice—
That could travel the wide world through,
I would fly on the beams of the morning light,
And speak to men with a gentle might,
And tell them to be true.

If I were a voice—a consoling voice—
I'd fly on the wings of the air;
The homes of sorrow and guilt I'd seek,
And calm and truthful words I'd speak
To save them from despair.

If I were a voice—a convincing voice—
I'd travel the kings of earth;
And whenever I saw the nations torn
By warfare, jealousy or scorn,
Or hatred of their kind,

I'd fly, I'd fly, on the thunder crash,
And into their blinded bosoms flash,
All their evil thoughts subdued,
I'd teach them Christian brotherhood.

If I were a voice—a prevailing voice—
I'd seek the kings of earth;
I'd find them alone on their beds at night,
And whisper words that should guide
Them through their right.

Lessons of priceless worth,
I'd fly more swift than the swiftest bird,
And tell them things they never heard,
Truths which the ages for aye repeat,
Unknown to the statesmen at their feet.

If I were a voice—an immortal voice—
I'd speak in the people's ear,
And whenever they shouted "Liberty"
Without deserving to be free,
I'd make their mission clear.

I'd fly, I'd fly on the wings of day,
Rebuking wrong on my world-wide way,
And making all the earth rejoice—
If I were a voice—an immortal voice—
Charles Mackay.

"The weather man has smiled on the Dominion Exhibition."

Here's hoping that St. John will get a shipbuilding plant as well as a dry dock.

The erection of the new drill hall will be one step toward cleaning up a street that is not exactly an ornament to the city.

The English press continues to devote much more attention to the question of the Canadian tariff than that question has attracted in this country. That is because the tariff question is a more lively issue in English politics than it is as yet in Canada.

AN OBJECT LESSON

Municipal Ownership of Public Utilities as Illustrated in Glasgow
(Ottawa Journal).

The recently published report of the Glasgow Corporation Tramways, also street railway, for the year ending May 31, 1910, affords another object lesson in the practicality of municipal ownership of public utilities.

During the past year the income from the municipality owned street railway system, after deducting \$302,911 for operating expenses, was \$431,254. Of this amount, \$72,288 was paid for interest on capital; \$85,088 was applied to the sinking fund account, to take up the bonded obligations on maturity; £110,888 was required to meet the depreciation fund, and £32,118 went into the permanent way reserve fund.

These allowances not only met the complete operating account, the interest on the debt, the cost of wear and tear, and the necessities of renewal and extension, but contributed a handsome amount towards the reduction of the debt. And in addition was left a surplus of \$33,027, or about \$165,000, which was turned into the city treasury as a contribution towards the general civic revenue. This in Glasgow is called the "common good" fund.

This surplus over all expenses and charges was \$2,027, more than the city has received any single year since the municipality took over the street car system. The receipts for the "common good" fund for the year ending May 31, 1909, the first year after the city had taken over the railways, were \$30,000, or about \$150,000. Ten years later it was \$35,000, or about \$175,000. For the years 1908 and 1909 the service turned into the city treasury \$20,000 per year. Thus, for the last three years the amount received by the city amounts to \$123,027, or about \$765,135. In addition to this substantial sum paid into the city treasury, it is to be emphasized, as already said, that there is annually set aside in the sinking fund an amount which will be sufficient to meet the indebtedness on the bonds at their maturity. Also that a large sum is spent annually in extending and improving the service.

"Where the good goods come from"

GOOD SCHOOL SHOES

Beware of trash!
Many stores are crying school shoes at prices wonderfully small. What of it, if the shoes are poor—coarse leather, spongy soles, carelessly made? Economy doesn't lie along that route.
Pay as much as you can for school shoes; get Goodyear welt, if possible. It is stronger, easier, holds its shape better—and is cheaper, though it costs more.
STRONGER, because only the best leather can stand the terrific pounding of the machine.
EASIER, because the welt gives flexibility, and because the stitches are side-ways, not up and down; no hard ridge inside and no tacks in the shoe.
CHEAPER, because it wears longer and can be repaired better—the new sole can be sewed on—in others it must be pegged or nailed on.
Goodyear Welt Shoes for Boys and Girls, \$1.50, \$2.00 and \$2.50, all sizes.
Other good School Shoes at \$1.50 and \$1.75.

Geodetic Survey on North Shore

(Chatham Gazette).
Charles F. Chaloner, Hugh J. Dunne, J. G. Leclerc, M. Legace and F. Belanger, of Ottawa, are in Chatham, engaged in geodetic leveling, and connecting the tidal statistics made by Mr. Dawson of the marine department, in order to establish the mean sea level, and thus have the necessary data for acquiring the altitude of any particular spot.
The party will be on the river for about two weeks and will then go to Metegedie.

TRADE WITH BAHAMAS AWAITING STEAMSHIPS

That a profitable trade could easily be done between Canada and the Bahamas is the opinion of Leon E. H. Dupuch, a former member of the Bahamas Legislative Assembly, who is now in Montreal. He thinks that the royal commission appointed to inquire into the prospects of improving trade conditions between Great Britain, Canada and the West Indies ought to have called at the Bahamas. At present, he declares, the trade is diverted to American channels, and on imperial grounds he would much rather see the fruit of the Bahamas come to Canada in return for flour, cheese and other articles of Canadian production. A better steamship service between the two countries is all that is needed, he thinks, to bring about closer trade relationships.

A COOL CHECKED MOHAIR SCHOOL SUIT FOR SEPTEMBER DAYS

The little boy who has shot up two inches during vacation days needs something new and big enough to start school in, yet September weather is almost too warm for a wool suit. Mohair makes a splendid compromise and this natty looking little suit has the manly lines of which

The Evening Chit-Chat

By RUTH CAMERON

THE cultivation of a good memory—everyone knows that's an advantage. The very suggestion of it is a brouille.

And yet I wonder if it is really any more advantageous than something else that is seldom advised, the cultivation of the opposite quality—a good "forgettery."

Have you a good "forgettery?"

Can you put out of your mind the silly parody on some solemn ceremony, the wicked suggestion of some sensual book, the muddy allusion of some ribald rhyme, or must they always come back to you whenever something happens to call them to mind?

Nor are evil things the only ones for which we need a "good forgettery." It would also be good to be able to forget some of the useless and unimportant things that take up our brain room.

Conan Doyle makes his world famous hero, Sherlock Holmes, say that the reason he is able to remember so marvelously the many things important in his profession, is that he at once expels from his mind all information that is useless to him. For instance, he can instantly recognize the ashes from almost any brand of cigar, but the fact that the ash goes around the sun, instead of vice versa was not necessary to him and, therefore, he forgot it as soon as he learned it.

I certainly do not think such complete ignorance of everything outside one's particular sphere very desirable, but I do think the ability to unload one's mind so completely of all unnecessary memories would be very fine to possess, and I wish Sherlock Holmes had explained just how he did it as glibly as he explains his other sleight-of-mind feats.

Probably he did it by examining his mind full of the things he did want to remember.

I guess that's the only principle on which a good "forgettery" can be cultivated—the exclusion of the bad and useless by the free and full admission of the good and useful.

In an article on "Mental Chemistry" Orison Swett Marden, the new thought writer, says:

"That man is truly great who can rule his mental kingdom, who at will can master his moods; who knows enough of mental chemistry to neutralize a fit of the blues, to antidote any evil, poisonous thought with the opposite thought just as a chemist neutralizes an acid which is eating into the flesh, by applying an alkaline antidote."

And then he makes the optimistic prophecy—

"The time will come when we shall find that it is just as easy to contract an unfriendly, disagreeable, vicious thought by turning on the counter thought as it is to rob the hot water of its burning power by turning on the cold water faucet. We shall be able to regulate the temperature of water. If the water is too hot we simply turn on the cold faucet. If we feel our brain heating up with hot temper we shall simply turn on the love thought, the peace thought, and the anger heat will be instantly cooled."

In the same way I suppose an evil remembrance could be counteracted by a pleasant one.

I hope his prophecy is a true one.

Why not try to make it so?

Daily Hints for the Cook

ESCALLOPED CORN.
Put layer of cracker crumbs in bottom of buttered bake dish, then a layer of fresh corn pulp or canned corn. Season with salt, pepper and bits of butter. Cover with the crumbs and repeat until dish is full. Fill dish with milk and bake three-quarters of an hour.

CREAM CARROTS.
Take young carrots, one ounce of butter, one dessertspoonful of flour, two or three tablespoonfuls of milk. Trim some carrots in the usual way, boil them and drain. Melt an ounce of butter in a saucepan, stir in a dessertspoonful of flour and the milk. Season with pepper, salt and a grate of nutmeg. Put the carrots in this, simmer gently for a few minutes and serve with a very little parsley dusted over.

GRANDMA'S PATTY CAKES.
Two cups sugar, 1 cup butter or lard (sometimes mix with beef drippings), 1 cup milk, 1 cup flour, 1/2 cup raisins, 1/2 cup nutmeg, 1/4 cup caraway seeds, 1 tablespoon lemon extract, flour enough to make light dough. Bake in patty pans. If cookies are preferred use more flour, to roll out well.

SEA FOAM ROLLS.
Scald a pint of sweet milk and add 1 tablespoon of sugar, 1 teaspoon salt and butter size of an egg. When luke warm add 1/2 yeast cake dissolved in a little warm water and cups of bread flour. Set to rise three hours, then add flour to knead. Let rise again and then shape into rolls by rolling each one oblong and brush with butter and fold over. Let rise until very light and bake 30 minutes. If wanted at 6 p.m. mix them about 10.30 a.m.

Queen Mary's Diamonds
(London Daily Graphic)
Six diamonds, cut out of the famous Cullinan stone, and mounted as ornaments were presented to Queen Mary by Sir Richard Solomon, high commissioner of the Union of South Africa, on behalf of the government and people, and in commemoration of the establishment of the union.

The largest two of the diamonds, which are considered by experts to be of matchless quality (one weighs 92 and the other 62 carats), have been mounted as a pendant; three, averaging about 10 carats each, have been mounted as a small pendant, and the sixth as a ring.

It will be remembered that in 1907 Sir Richard Solomon presented the original Cullinan diamond, weighing about 3,000 carats more than three times the size of the largest diamond previously discovered, to King Edward, as an expression of the feeling of loyalty and attachment of the people of the Transvaal. The stone was cut into two large pieces which are kept among the historic jewels forming the heirlooms of the crown, and the stones now presented to the queen are residue of the original gem.

CENSUS DATE JUNE 1

Mortality, Disability and Compensation Data to be Gathered

The date of the next census for mortality, disability and compensation is June 1 of next year, which is the same as the date for population. It is a record for one year, and gives the information concerning all persons to whom the schedule relates for the year commencing at the hour of midnight of May 31, 1911.

Personal description of every person who has died in the year, or suffered disability by accident or sickness, and has received compensation therefor, is required in the schedule, and for more complete identification reference is made to his family or household in the first schedule.

The name and sex of each person, and whether single, married, widowed, divorced or legally separated, together with the month of birth, the year of birth, the age at last birthday and the country or place of birth are required under the personal description. His or her racial or tribal origin, religion and profession, occupation or trade, will also be recorded under the usual heading of personal description, whether the reference is to persons who have died within the year or to persons who have been disabled within the year by accident or sickness, and to persons who have sustained loss of time and earnings and to allowance or compensation for loss of life or time.

Under the heading of Mortality, records will be entered showing the month of death in the census year, the disease or illness nomenclature, the place of death if it occurred away from home, and the name and address of the attending physician.

Disability and Compensation relate to accidents or sickness, and under these heads records will be entered of the nature of loss or injury caused by accident in the year, cause of the accident, weeks of disability, due to sickness or accident, and loss of salary or other earnings caused by sickness or accident.

Allowance or compensation made to employees is recorded under three heads: 1. The voluntary allowance which may be made to employ by employer for lost time through sickness or accident during the year, 2. Compensation in the year by employer under statute for (1) loss of life by accident, and (2) for injury by accident, which is required in some provinces of the Dominion, 3. Compensation by insurance for (1) loss of life, and (2) for sickness or injury.

IN CAMPBELLTON

Although it is now more than a month and a half since the disastrous fire in Campbellton, very little has been done in the matter of putting up new permanent buildings. Only about a dozen new structures have been started and the outlook for the winter is none too bright. One of the greatest needs of the present time is a first class hotel.

F. Neil Brodie, architect, of this city, returned yesterday after a business trip to the town.

No attempt has been made as yet to put up any kind of a hotel. The former hotelmen claim that as their liquor licenses have been cancelled, it would not pay them to rebuild, as a hotel would not be a paying proposition in Campbellton unless they could sell liquor. Mr. Brodie expressed the opinion that a hotel there now would be a bonanza.

There are still about 100 tents occupied in addition to a number of temporary shacks. Up to the present apparently nothing has been done to provide permanent dwellings for the people during the coming winter. Even now many of those living in the tents are suffering from the cold nights.

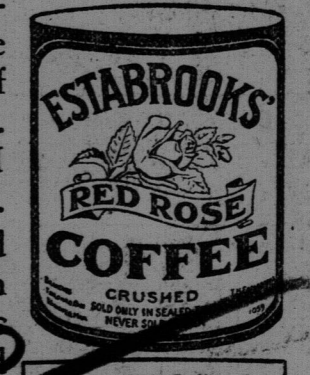

Judge McLatchy and F. E. Blackhall, of Campbellton, arrived in the city yesterday and are at the Royal Hotel. They are here by appointment to meet Premier Hazen to confer on the question of the local government extending aid to the town. Judge McLatchy, who is president of the relief fund, says that up to date they have received about \$38,000 and expect that it will reach \$100,000. He added that they could put \$150,000 to excellent use.

Did you ever hear any one say they could not get good coffee except in the States?

I have heard it, scores of times, and it's one of the reasons that made me decide to go into the Coffee business.

Of the Americans who visit us in summer, hundreds take home a supply of Red Rose Tea because they have never tasted such good tea before. I determined to put up a coffee that would make for itself just as good a reputation. It has not been easy, but I am sure I have succeeded.

Estabrooks' Red Rose Coffee, put up in sealed tins, is well known as good coffee. You and your American friend will say so.

Synopsis of Canadian Northwest Land Regulations.

ANY Person who is the sole head of a family or any made over 18 years old may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan, or Alberta. The applicant must appear in person at the Dominion Lands Agency or sub-Agency for the district. Entry by proxy may be made in any agency, on certain conditions, by Range, mother, son, daughter, brother or sister. Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 50 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister. In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price \$3.00 per acre. Duties—Must reside upon the homestead or pre-empted six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra. A homesteader who has exhausted his homestead right cannot obtain a pre-emption in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

WANTED At Main Street

25 LABORERS Hassam Paving Coy. 2477-4-1.

What Paper is Made Of

Linen is often used in making paper, but there are other things that answer the purpose. Patents have been issued in this country and Europe for the manufacture of paper from barley, oats, rice, Indian corn, peas, beans, alfalfa, pine needles, sugarcane, jute, moss, seaweed, tobacco, lichens, leaves and bark of trees, beets and potatoes. In the greater number of cases the price of manufacture is excessive when the quality of paper is considered. The great quantity of paper made in this country is manufactured from different woods. Paper can be made from almost anything, and almost anything can be made from paper. Compressed paper is made into car wheels, cannons, rails, horsehoes, rollers for gems and asphalted tubes for gas or electric wires. In Berlin there has been an attempt made to make artificial bricks with paper pulp and zinc sulphate. They are subjected to a great pressure and then baked in a very hot fire for 48 hours. These bricks have been used for paving streets. Clothing, window frames, lanterns, umbrellas, handkerchiefs, and artificial leather are made from paper in Japan. In the United States and Germany are made paper barrels, vases, drinking cups and milk bottles. And straw hats can be purchased that contain not one atom of straw. An inventor has taken out a patent on a paper thread to be used in the sewing of shoes. If rich enough you can afford to do the things you don't want to do.

HELP WANTED—FEMALE

WANTED—Competent girl for general housework, family of two. Apply Miss Baird, 23 Wellington Row. 2675-4-1.

WANTED—Two girls to work for confectionery store. E. Chiofo's, 8 - 10 Dock street. 2887-9-5.

TWO BOYS and ten girls wanted. Apply

1911 Announcement of the E-M-F Company

Production in Large Quantities Enables Us to Build Better Cars for Less Money

The 1911 E-M-F "30"

Thirty horsepower, sliding gear transmission, four-cylinder motor.

STANDARD E-M-F "30" TOURING CAR—Price, \$1500. Seating five passengers. Magneto, five lamps, horn and generator included. Top and wind shield extra.

NEW E-M-F "30" DEMI-TONNEAU—Price, \$1500. Magneto, five lamps, horn and generator included. Deliveries on this model will begin in January, 1911.

NEW E-M-F "30" ROADSTER—Price \$1450. Magneto, five lamps horn and generator included. Deliveries on this model will begin in January, 1911.

NEW E-M-F "30" COUPE—Price \$1950. Magneto, five lamps, horn and generator included. Deliveries on this model will begin in October, 1910.

THE SPECIFICATIONS

Our E-M-F "30" and Flanders "20" chassis remains unchanged for 1911 and the same standard specifications which have proven so successful, practical and economical in operation will be the rule during the coming season. There will be the same powerful motor, simple carburetor, practical rear axle transmission, automatic oiling system, safe steering apparatus and other practical features constructed by the same superior workmen from the highest class of materials. No necessity for changes appears in the case of a product which has stamped itself as standard and absolutely successful.

One Year's Guarantee With Every Car

The E-M-F Company believes that a stage has been reached in the automobile industry which makes it the duty of every responsible manufacturer to protect dealers and public by an absolute guarantee of his product.

We accordingly announce that, beginning August 1, 1910, every car manufactured at our plants WILL BE GUARANTEED FOR ONE YEAR as absolutely free from defects in material or workmanship, and will replace, free of charge, any part of the car OR ITS EQUIPMENT which proves defective in any such respect, except tires, which are guaranteed by maker.

E-M-F COMPANY OF CANADA.

W. E. FLANDERS, President and General Manager

A STARTLING DEVELOPMENT in manufacturing, is it not? Yet it is one which comes appropriately from the factory which was the first to give the public a satisfactory car at a reasonable price, and the company whose policies have always been pre-eminently original and progressive.

HOW CAN WE AFFORD TO DO IT? That is the question which is naturally first on the lips of the man unfamiliar with the E-M-F Company's progress and the merits of its output. There are several reasons, and here they are. The E-M-F Company will furnish absolute protection to its dealers and purchasers—the first time any such promise has been made in the history of the industry—because—

WE MAKE ALL OF OUR OWN CAR. The E-M-F Company alone can say—and prove the statement—that every part which is assembled to build an automobile is manufactured in its own mammoth plants—plants conceded the most efficient in the industry, with machinery more specialized and organization better systematized than any firm of its character.

WE KNOW OUR PRODUCT and we have confidence in the confidence born of years of successful manufacture and nurtured by the severest tests to which motor cars can be put.

WE WILL BUILD 36,000 CARS FOR 1911 SEASON in United States and Canada and are enlarging our capacity as rapidly as our contractors are able. Unlike some automobile manufacturers who say they aim to produce only a few cars of high quality and profess to believe that, the more they output, the better is each car, we maintain that the more cars we build according to our standard, the better is each individual car and the less is its cost both to us and the purchaser.

PRODUCTION IN LARGE QUANTITIES ASSURES QUALITY. Each item of manufacture, according to E-M-F Company methods, it gives us the opportunity of providing, at a minimum price to each purchaser of E-M-F "30" and Flanders "20" cars, the most skillful engineers, the most efficient mechanical force and the most versatile array of automatic machinery ever gathered for one purpose in a manufacturing enterprise. It enables us to add to our equipment a laboratory where we test every carload of raw steel which enters into the manufacture of our cars. The purchaser of a car made at a smaller factory must pay more for every department of manufacture or else—far more likely—pays for a product designed and manufactured by second-class men provided with second-class facilities.

PROVE IT? WHY, OF COURSE! Does the housewife who wants a sewing machine go rambling about the retail district, looking for a product made by hand in some small factory and therefore supposedly superior to a Singer that comes from a factory where they make a million machines a year and sell them through their own branches? Does the hunter who wishes a good rifle search something superior to the product of the Winchester Company which, by quantitative production, has made rifle-manufacture a science? Does the man who wants an adding machine ask for something better than the Burroughs and believe it possible for another company to make a better machine because it manufactures only a few score where the Burroughs manufactures by the thousand? Does the man who wants to buy a watch shun the counter where he would find the Waltham, Elgin or South Bend, and seek the little corner occupied by an obscure brand of timekeeper, manufactured by a company, compelled to sell at a higher price, though providing an article unproven and comparatively unknown? Is the Steinway piano an unwelcome piece of furniture in the home of a musician because, forsooth, the manufacturers build them in large quantities which find a ready market at a reasonable and therefore popular price? Does the farmer who needs a wagon waste his time looking for something better than the Studebaker, merely because, by the systematic manufacture of 200,000 vehicles annually, that firm has made its product the standard article of the world? The answers are, of course, obvious. And the same course of reasoning is logical for the man in the market for a watch, a piano or an automobile. There is a standard in each realm of manufacture and "Standard" is synonymous with "Excellence."

A STANDARD ARTICLE; THAT'S IT! It has been the ambition of the E-M-F Company to build that very thing. And why not a standard for automobiles? The industry is surely old enough; the universal manner in which the E-M-F "30" and Flanders "20" cars are running in every city and almost every hamlet of the United States and Canada makes the claim logical. We are the one company that is building automobiles as the Singer builds sewing machines, as the Winchester builds rifles, as the Burroughs builds adding machines, as the Waltham, Elgin and South Bend build watches, as the Steinway builds pianos, as the Studebaker builds wagons and carriages—in large quantities and by expensive machinery which makes every part of every individual entirety of the product available for use in every other one. Standard? Why, of course, and therefore the most desirable.

THE SAME SQUARE DEAL we have always given our distributors throughout the world will remain in force in the future and we are now making contracts for the season of 1911. The work of distribution we believe will be facilitated by the establishment of a system of branch houses where dealers and owners may obtain supplies and extra parts.

ANOTHER NEW POLICY which we are announcing today concerns particularly the relations between the E-M-F Company and our agents. Several manufacturers are at present engaged in an endeavor to persuade their distributors to handle the one line exclusively in 1911. In many cases such overtures have been made to E-M-F Company dealers who have handled other cars in combination, during 1910. As a result we have received hundreds of letters during the past month from dealers anxious to renew their contracts, asking if, for the coming year, we are expecting to ally ourselves with the exclusive-representation movement. To such inquiries we are replying emphatically "No!" E-M-F Company distributors are free to handle all the lines they believe consistent with their policies, whatever they may be.

WE WELCOME SUCH AN ARRANGEMENT. The E-M-F Company does not ask nor expect exclusive representation. We are not dictating the business arrangements of our agents. We believe that they should have the power to represent what companies they may elect. We certainly do not fear the competition of any other line of cars and will genuinely appreciate the opportunity to show our cars on the same floor with any others of their type. We shall stand by this policy and are ready to complete our arrangements for 1911 on this basis.

The 1911 Flanders "20"

Twenty horsepower, sliding gear transmission, four-cylinder motor.

STANDARD FLANDERS "20" RUNABOUT—Price, \$950. Magneto, five lamps, horn and generator included. This model seats two passengers and has open rear deck for ample baggage.

FLANDERS "20" SUBURBAN—Price, \$1000. Magneto, five lamps, horn and generator included. This is the popular four-passenger car.

FLANDERS "20" RACY ROADSTER—Price \$1000. Magneto, five lamps, horn and generator included.

NEW FLANDERS "20" COUPE—Price \$1200. Magneto, five lamps, horn and generator included. Deliveries will begin on this model November, 1910.

THE EQUIPMENT

Although the price of tires, raw material and the cost of labor has materially advanced during the past year, the E-M-F Company will continue to furnish its cars complete for the list prices noted. Bear in mind that every E-M-F "30" and Flanders "20" is equipped at the list price with a magneto, five lamps, tube horn and generator, all of which are usually listed as extras by other manufacturers.

We make our own parts and equipment and are able to eliminate a considerable source of expense to the purchaser. Otherwise it would be necessary for us to increase the prices of all our models or else to reduce the amount of equipment provided as standard.

E-M-F COMPANY of Canada, Limited

Automobile Manufacturers

WALKERVILLE, CANADA

THE FORMULA OF "FRUIT-A-TIVES" Is On the Outside of Every Box For All the World to See

Every user of "Fruit-a-tives" knows exactly what is being taken. The formula of this famous fruit medicine is printed plainly on the outside of every box. We have stated many times—and now, far more clearly—that "Fruit-a-tives" is made of the juices of apples, oranges, figs and prunes, with valuable heart and nerve tonics and antiseptics.

BY LAWS CARRIED AT OWEN SOUND

Shipbuilding and Drydock Bonus and Loan to Furniture Factory

Owen Sound, Sept. 3.—Voting took place yesterday on two by-laws for industrial purposes, and both were carried. One by-law was to grant \$100,000 toward a shipbuilding and drydock plant, which is being floated in Great Britain, and which will involve an expenditure of \$1,000,000.

neering projects in Great Britain. The Government has given its assurance of the subsidy at 3 per cent. interest on the investment, the location in Owen Sound Harbor being favored owing to the short season during which navigation is closed here, the average of the past ten years not being over ten weeks.

Two-thirds of the native population of Uganda has been wiped out by the sleeping sickness in seven years.

ST. JOHN TO SEE BISHOP OF LONDON

"The People's Bishop" is Title Fondly Applied to Him

IN PRIME OF LIFE

Sketch of Life of Dr. Winnington Ingram—Has Magnificent Training for the High Place He Occupies in Church

No man has ever more genuinely merited the title of "The People's Bishop" fondly applied to him in all parts of his great see, than does Rt. Rev. Arthur Foley Winnington Ingram, Bishop of London. This remarkably popular prelate is exclusively, notwithstanding that he is eminently—through parentage on both sides—a son of the manse; son of a clergyman and grandson of a bishop.

Born on Jan. 26, 1858, the Bishop of London is still in the prime of life, and it is generally agreed that he looks no more than forty. Being one of the very few bachelors prelates, it might be imagined that immunity from family cares sufficiently accounts for his youthfulness and vivacity of age and demeanor.

Dr. Ingram has been the object of a magnificent training for the high place he occupies in the Anglican church. When he was appointed Bishop of London in 1901, it was the universal verdict of the clergy and laity that the choice was a most happy one, and his work has justified the selection.

SHOOTING MYSTERY CLEARED

Victim at Young's Hotel, Boston Was Despondent Roxbury Woman

Boston, Sept. 3.—The young woman who registered at Young's Hotel at Clara Hill location, and shot herself through the heart, has been identified as Miss Clara E. Cavanaugh of 22 Savin street, Roxbury. She was 23 years old and had been in ill-health more than two years. This brought on despondency, which caused her to end her life.

RING BATTLE IN MILWAUKEE TONIGHT

Milwaukee, Wis., Sept. 3.—Charlie White, the Chicago pugilist, who assured the fans that he would beat and knock out Kenney, will box tonight with the champion of the room in Milwaukee, Mike Moran, at the Milwaukee Athletic Club. White will be the favorite to see the contest and at its conclusion will have a number of admirers who will be disappointed.

Good, Better or Best? A VITAL DIFFERENCE IN BREADS

QUALITY you know is comparative. Just as much so in bread, as in woollens or linens. If you make bread at all, you naturally want it to be good—as good as, or better than, your neighbor's. But is your bread as good as it ought to be? Does it furnish its full quantum of health and strength? Is it nutritious as well as delicious?

unqualified success for every household purpose. And its absolute uniformity guarantees you against failure. ROYAL HOUSEHOLD FLOUR isn't just ordinary wheat sent to an ordinary mill and ground by the ordinary process. It is Manitoba Red Fife Wheat which is especially rich in high quality gluten, scientifically milled and subjected to scientific chemical tests as well as baking tests before it comes to you in sack or barrel, etc.

FARMERS' BOYS TO AID CONSERVATION OF THE FORESTS

Plan to Band Boys Together—Organization Outline—National Order of Tree Planters

A widespread movement which has reached Bagdad, Iraq, has been organized to enlist patriotic young Americans in the work of establishing the American forests. It is felt by those who are interested in the scheme here, that Maine is particularly well adapted for the subject.

or both, should confer medals, badges, or other tokens of recognition for meritorious work.

The organization of the farmer boys into the Tree Planters of America is one of the things which is expected to be set in motion at the second conservation congress at St. Paul, the second week in September. It is not at all surprising that such a plan should have the hearty support of President Taft, former President Roosevelt, Gifford Pinchot and others who have been earnestly endeavoring to conserve the natural resources of this country.

ADVERTISEMENTS

of both, should confer medals, badges, or other tokens of recognition for meritorious work. This will strengthen the ambition of the boys and increase their interest and activity in the task of tree planting.

SIX MAGNIFICENT PICTURES FREE

During the Dominion Exhibition, The Telegraph and The Times will give to subscribers, with new cash subscriptions, selections from large photogravures (22x28 inches) of the following world-famous paintings:

- CHRIST BEFORE PILATE. "LA CIGALE." THE DOCTOR. THE PRAIRIE FIRE.**
IN THE HANDS OF THE ENEMY. THE HORSE FAIR.

These are six of the most famous and attractive pictures in existence all by artists of world-wide celebrity.

Subscribers will see these pictures at The Telegraph-Times booth, on the main floor of the Exhibition building, and may make their own selections, on the following terms:

IN THE HANDS OF THE ENEMY—(Thomas Hovenden, N. A.)

This great picture, representing the interior of a Pennsylvania farmhouse after the battle of Gettysburg, shows the spirit of American brotherhood. The farmer is loyal, as are all the characters save the wounded guest of honor. The picture was painted in 1889, and is now in the Stockel private gallery at Norwalk, Conn. Thomas Hovenden, adopted American and Pennsylvanian, born in Ireland in 1840, became the greatest painter of American life. His picture, "Breaking Home Ties," was the sensation of the art exhibit at the Chicago World's Fair. His "Bringing Home the Bride" met with almost as much favor. "John Brown Being Led to His Execution" is in the Metropolitan Museum of Art, in New York. "Elinore" is a part of the Peabody Institute collection in Baltimore. Hovenden sought and found the real spirit of American life as it is so eloquently shown in "In the Hands of the Enemy," which is among The Telegraph's series of photogravures of the world's great pictures.

Three Pictures free with each new subscription to The Daily Telegraph.

Two pictures free with each new subscription to The Evening Times.

One picture free with each new subscription to The Semi-Weekly Telegraph.

Ask for further particulars at the Telegraph-Times booth in the Exhibition building, or at this office, where samples may be seen and examined after Monday.

CHRIST BEFORE PILATE—(Munkacsy)

This painting, the most marvelous picture of Christian history, was made by Michael Munkacsy, a Hungarian by birth, a painter who received his first tuition in the homely school of furniture finishing, and became one of the greatest masters of our time. The picture was finished in 1881. It was not exhibited in the Paris Salon of that year, but was shown separately at the same time. The effect was to carry crowds from the salon to the galleries of Mr. Sedelmeyer, where the picture was exhibited. It was brought to this country, and 150,000 persons saw it in New York within five months. It was later purchased by John Wanamaker, of Philadelphia, and remains a part of his collection. It has been indorsed by ministers and laymen the world over, and is as greatly appreciated by all lovers of art as by the devotees of the faith of which it is so striking an artistic representation.

"LA CIGALE," ("The Grasshopper")—By Edouard Bissan

"La Cigale" ("The Grasshopper"), by Edouard Bissan, was honorably placed in the Salon exhibition at Paris. It is a beautiful painting, one of the best of its kind. "La Cigale" is a story picture. Nearly everybody remembers La Fontaine's fable of "The Grasshopper and the Ant." Done into American rhyme, it runs this way:
 A grasshopper gay
 Sang the summer away
 And found herself poor
 By the winter's first roar
 Of meat or of bread,
 Not a morsel she had;
 So begging she went,
 To her neighbor the ant,
 For the loan of some wheat,
 Which would serve her to eat
 Till the season came round.
 I will pay you, she saith,
 On an animal's faith,
 Double weight in the pound
 Ere the harvest be bound.
 The ant is a friend
 (And here she might mend)
 Little given to lend.
 How spent you the summer?
 Quoth she, looking shame
 At the borrowing done,
 Night and day to each corner
 I sang, if you please.
 You sang! I'm at ease;
 For 'tis plain at a glance,
 Now, madam, you must dance.
 "La Cigale" is Bissan's idealization of the human counterpart of the grasshopper of the fable. The summery figure shivering in the wind of winter impresses the story of the nobility and necessity of labor.

THE DOCTOR—The Most Human Picture Ever Painted.

The original of this great painting, by Luke Fildes, hangs in the Tate Gallery, in London, placed there by popular subscription of the pounds, shillings and pence of the British people. Never has brush depicted more powerfully the expressions of professional amity, unselfishness, and the sense of duty and selflessness. It is really as well as figuratively the most human of the world's great works of art.

Rosa Bonheur's **"THE HORSE FAIR"**
 Is known the world over as the greatest of the great works of this greatest of animal painters. The original hangs in the Metropolitan Museum in New York; a replica in the National Gallery in London.

"The Prairie Fire" by Zygmunt Adjukwicz, is the most realistic painting of human terror in impending danger that has been made in the past century. The master has been almost crude in his devotion to realistic incident and powerful expression, but through all his work he has borne in mind that his mission was "to hold the mirror up to nature"—to show what he saw as he saw it. Just these qualities made the picture a masterpiece. It is a reputation as a master of a canvas by an unknown painter.

THE PRAIRIE FIRE—By Zygmunt Adjukwicz.

Use it for Dish-washing

Go to your grocer, buy a package of Asepto—it will cost you five cents—take it home and dissolve a single teaspoonful in a pan of dish-water.

That's what you do—then see the result. Note how it cuts the grease—how it leaves your china and glassware bright and shining—how clean and wholesome it leaves your pots—your pans—your cooking utensils.

It does all that—and more. It destroys every trace of the germ life that exists where there is sustenance for these microscopic little breeders to feed upon—it sterilizes and renders everything antiseptically—surgically—clean. If you will clean your dishes with Asepto, you will always wash glass, china, or cutlery—any article used in the eating or drinking with Asepto. It is the most reliable.

It is the very quickest way for you to realize how it cleanses it for you to see the way it sweetens your dish-cloths.

Call your grocer to send you a package of Asepto. All good grocers sell it at five cents.

sweetens the home

HON. MR. PUGSLEY AND SIR ROBERT PERKS IN CONFERENCE

The dry dock proposition for St. John was advanced another stage at a meeting held last evening between Hon. William Pugsley, minister of public works, and Sir Robert Perks, one of the members of the company which was incorporated to build a dry dock here.

Hon. Mr. Pugsley arrived in the city last evening on the Ocean Limited, and the conference with Sir Robert was held during the evening in the Royal hotel.

At the conclusion of the conference the minister said that the matter had been discussed at length and another meeting would be held today. The company was prepared to go ahead with the work and two sites were considered suitable, one at the old mill pond in Carleton, and the other on the eastern side of Courtney Bay. The latter site was favored by Sir Robert because it offered more room for the establishment of a shipbuilding plant.

Considerable dredging would be necessary at this location, and Sir Robert would have to consult his company before making a definite announcement, but the minister thought that matters would be satisfactorily arranged so that work would be commenced on the project within a short time.

SCOURING YOUR SCALP

Will Remove the Loose Dandruff Scales But it Won't Cure Dandruff

If your hair is brittle and thinning, you have dandruff. The mere scouring of the scalp of the loose scales, or dandruff, because dandruff is a thing but scales of scalp being the only way to get rid of the hair which is the vitality, causing falling hair and, in the baldness. Now you can't stop dandruff nor falling hair, nor prevent baldness unless you destroy that germ, and the only preparation that can do it is the scientific discovery, Newbro's Herpicide. In fact no other hair preparation claims to kill the dandruff germ—all of them will clean the scalp, soap and water will do that, but only Newbro's Herpicide gets at the root of the trouble and kills the dandruff germ. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

One Dollar Bottles Guaranteed.
E. Clinton Brown, Special Agent.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be honorable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure it with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and that the only scientific discovery of treatment, Newbro's Herpicide, manufactured by F. J. Newbro, Co., Toledo, Ohio, is the only scientific cure on the market. It is a scientific cure in 10 drops to 100 drops. It acts directly on the blood and purifies the surface of the system. One or two hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. Newbro & Co., Toledo, Ohio.

Sold by Druggists, 70c.
Take Hall's Family Pills for constipation.

The women of Russia and the men of Japan are considered to be the most expert needle workers in the world.

THEY'RE BOUND TO RESCUE GIRL

Former Friend of Sandford Will Furnish Bond to Get Syrian Maiden Away

Boston, Sept. 2.—(Special)—N. H. Harrison, a Boston business man who was proposed to "Elijah" Sandford, his former friend, will furnish a bond as guarantee that Sarah Joseph, the Syrian girl rescued from the backstreet Kingdom at Yarmouth will not become a public charge when she arrives in Boston.

The girl is now detained in Yarmouth by immigration officials. Her brother arrived from Yarmouth today and consulted Commissioner Van Ness, who said a bond is approved at Washington the girl will come. Should members of the sect attempt to kidnap her, they will be arrested.

WEALTH OF VESTMENTS AT EUCHARISTIC CONGRESS

(Montreal Witness)

The vestments to be worn by the Papal Legate will depend upon the position he may occupy at the particular time.

Should Cardinal Vanuetti be celebrating mass he will wear gold and blue and damask and tunic. If assisting at the throne, he will be robed in scarlet.

All these vestments have been specially made in Canada for the occasion, and are of gold cloth, costing, when prepared, \$6,000. The chasubles—of gold cloth, decorated with maple leaves, as a painting at the back representing the union of the church and the state of this world—Quod Deus conjunxit homo non separet (man should not separate what God has united). At the bottom are the arms of the Pope and the Archbishop of Montreal.

During the procession on Sunday, September 4th, the chasuble to be worn by the papal legate bears a bas relief of St. Peter surrounded by the words: "Pace Agros Mœcesque Oves Mœces." Around the cope are entwined maple leaves, the coat of arms of the Pope, and of the Archbishop, and has relief of the coat of arms of Montreal, and the motto: "Concoria Subiugis."

The cardinals will be clad in their scarlet robes.

The Archbishops—including Archbishop Brochu, the Metropolitan—will wear gold-embroidered chasubles, if celebrating mass. The Metropolitan will wear a crimson cope, and the cardinals will wear choir costume, that is, rochet and violet mantelletta.

The religious societies will be in choir habit, cassock and surplice.

The Greek rite clergy will wear their own distinctive vestments.

Archbishop Howley, of St. John's, Nfld., will arrive in the city tonight by the morning express, accompanied by his secretary, Mr. Heardon. Both gentlemen will be guests at St. Patrick's during their stay in Montreal.

The Sunday morning mass at St. Patrick's will be at 10.15. Cardinal Logue will preside, and the Rev. Father Bernard Vaughan will preach.

Cardinal Logue will also preside in the evening, and will probably preach the sermon. The Labor societies will be at the evening service.

The heavy downpour of rain this morning has caused considerable damage, but it does not appear to have done any serious damage to the city.

Of the ten large towers placed at the front of Notre Dame Church, four now have their spires and are entwined with which hands of green leaves are entwined to the top, where the flagstaff runs up from which flutter the half-yellow and half-white flags.

The Duke of York Hussars will furnish a travelling escort to the Cardinal Legate consisting of Lieut. I. R. Reed in command, one sergeant and two privates. On Saturday afternoon they will escort Cardinal Vanuetti from the wharf to the Archbishop's palace.

Captain Quercy of the 17th Duke of York's has been appointed A. D. C. to the Papal Legate during Cardinal Vanuetti's stay in the city.

ACCIDENT ON THE TRANSCONTINENTAL AT NAPADOGAK LAKE

Fredricton, Sept. 2.—(Special)—A light engine on the Transcontinental railway which was running on the track near Napadogak Lake and rushed down an embankment.

Three men, including Driver Bailey, who formerly worked on the Washington County railway, and Edward Logan, of Gibson, were injured, but how seriously could not be ascertained.

The locomotive suffered considerable damage.

DRUNKENNESS CAN BE CURED

Old Falsity That Drunkenness Cannot be Cured Exploded

Many men drink who desire to stop the habit. Whiskey, however, has undermined the constitution and created a craving that is not to be denied, and the man must have whiskey or something that will remove the craving and build up the system and restore the nerves.

Samaria Prescription stops the craving, steadies the nerves, builds up the general health and makes drink actually distasteful and nauseous. It is tasteless and odorless, and can be given with or without the patient's knowledge, in tea, coffee or food. It is used regularly by Physicians and Hospitals. It has cured thousands in Canada and restored happiness to hundreds of homes.

Read what Mrs. G. of Hull, Que. says of it and what it did for her.

"It is four months today since I started to use your Remedy. I followed the directions and had a glass of wine. One week after I stopped drinking and had no more of the habit since. I hope you will accept my heartfelt thanks. Hoping God will bless your name whenever tried, I remain, Mrs. G. Hull, Que. (Name withheld on request.)"

Now, if there is anyone in your town who needs this Remedy, send them of it. Practical philanthropy can make no better gift. If you have a husband, father, brother, or friend who drifts, help them help themselves. Write today.

A FREE TRIAL PACKAGE of Samaria, with Booklet giving full particulars, directions, testimonials, price, etc., will be sent in a plain sealed package to anyone mentioning this paper. Correspondence strictly confidential. The trial package alone has often cured. Write today. The Samaria Remedy Company, 39 Jordan Chambers, Jordan street, Toronto. Also for sale at Chas. R. Watson's Drug Store, 100 King street.

Six carloads of sea growth were scraped from the hull of the prison ship Soudan, which has just come out of dry dock at the Kittery navy yard. This is said to be the largest amount of sea growth ever taken from the bottom of a naval vessel. Two-thirds of it was starfish and muschell, aggregating about 30 tons in weight. The sea growth was previously cleaned about a year ago.

Japanese children are taught to write with both hands.

EDISON'S NEW INVENTION

Machine Which Produces Moving Pictures and Human Voice at Once

Orange, N. J., Sept. 2.—An interesting experiment was performed last week at Edison's laboratories, when the inventor showed that he had accomplished the production of an instrument which should give simultaneously the movements of the human being and sound of the same being's voice. His new invention, he calls the Edison Kinetophone, and he hopes to have it perfected within a year.

Many attempts have been made to render the human voice in natural accompaniment with the moving pictures which have become popular all over the world, but there has never been that actual and precise agreement between these two instruments which is necessary to give the desired illusion.

The real test of the evening came when the image of a man appeared on the screen before the audience and began to speak. As soon as he opened his mouth the sounds came as naturally as they would from an actor on the stage.

HEIRESS TO \$5,000,000 THROUGH ECCENTRICITY

A secret "too good to keep," escaped from its guardians recently, and it was disclosed that Miss Alice Moran, a member of the younger society set of Kewwood, Chicago, has known for three years that she is heiress to a fortune of \$5,000,000.

From an eccentric godfather, Thomas Gray now living the life of a hermit in Australia she is to receive all the wealth that came to him from a series of "lucky strikes" during the Australian gold fever. After losing all track of his family for years, upon the approach of old age, he began making enquiries for them and his naming of Miss Moran as his heiress was the result.

It was the result of an eccentricity, for the message he sent to his relatives was that if any of them had a son or daughter who was a godfather to the child of the first one of them that they should name the child. That in Miss Moran's case he was godfather by proxy, Robert Lennon, the girl's cousin, taking his place at the baptism was entirely satisfactory to the old man. Miss Moran is 24 years of age.

There are six voters in the village of Soudan, France, and their votes are collected in a soap tureen.

Epilepsy, Spasms, St. Vitus' Dance

"I suffered for many years from what some people call epilepsy. Dr. Miles' Restorative Nervine cured me, and you can imagine how thankful I am."

M. COFFMAN, Coldwater, Mich.

"My daughter was cured with Dr. Miles' Restorative Nervine, after having been afflicted with fits for five years."

PEIER McAULEY, Springfield, Mass.

"For a year my little boy had spasms every time he got a little cold. Since taking Dr. Miles' Nervine he has never had one of these attacks."

MRS. M. WHITE DADGE, Seven Oaks, Ind.

"My daughter could not talk or walk from St. Vitus' dance. Seven bottles of Dr. Miles' Nervine entirely cured her."

MRS. M. LAND, Edinburg, Ind.

"Until my son was 30 years old he had fits right along. We gave him seven bottles of Dr. Miles' Restorative Nervine. He has not had a fit since he began on the fifth bottle."

MRS. R. DUNTLEY, Watrous, Wis.

Price \$1.00 at your druggist. He should give it. If it does not, send price to Dr. Miles' Medical Co., Toronto.

Speaker Interrupted by Rush to Platform—Uses Fists and Resumes Talk

Laurens, S. C., Sept. 3.—Atty. Gen. Fraser Lyons, candidate for re-election, was assaulted here at a democratic campaign meeting while addressing the voters. The assault grew out of an incident which was led by editor Crews of a Laurens paper, who was supported by a number of persons. As Crews intended to speak on the platform Lyons, who is a powerful man, began to fight.

He knocked down Crews and two of his friends and threw three others off the platform. By this time Lyons' friends rallied to him and pistols were drawn, and a blood fight was only averted by Lyons' coolness. He told his friends not to shoot—that he could defend himself.

A revolver was handed to Lyons, which he placed on the table on the platform, and resumed his speech, finishing it without further interruption from the Crews faction. Henry Wright, one of the men thrown from the platform by Lyons, is seriously injured.

"NO OCCUPATION"

(Suggested by the census blanks, which place nonvoters under the classification of "No Occupation.")

From the census blanks we learn, that the one who runs the churn, And catches up our stitches, In our shirts takes a few stitches, And the one who bakes the bread, And once a day makes up the bed, Milks the cows, feeds the hens, Skims the milk and feeds the calves, Makes soup and good salves; Does the washing, mends the clocks, Spans the children, rocks the baby, (Snuffing at the same time, maybe) Laying time will help at mowing. And at county fairs is showing. Just as proud as you can please, Samples of his homemade-cheese, Who will gather up the eggs, Brace the wobbly table legs, Sweep and dust and scrub the floors, Nail the hinges on the doors, Dig and hoe and weed the garden, And the party act as garden, Work the mottos on the wall, Put the fruit up for us all, Plant and water all the flowers, Tie up vines in shady bowers, See that nothing pipes and wits, Carpets makes and crays quilts, Puts the noteballs in our clothes, Dresses up some new scarecrows, From the store keeps all the tags, Secures lettuce, mends the bags, Carries soap down to the pig, And makes laprobes for our rig, Propping up the fence posts leaning, Never misses spring housecleaning, Cuts the grass from off the lawn, Keeps it green, puts water on, Washes windows, fills the lamps, Cures us of our colds and cramps, Sets the traps to catch the mouse, Whitewashes the chicken-house, Kills the bugs by poison-vapor, Catches flies on "stick-up" papers, In the mornings builds the fire, Ties the rake up with a wire, Carries water from the well, (Half the things I cannot tell) And delights in thrifty shopping, When in town awhile she's stopping, Where she surely will not fail, Attends every bargain sale, When she tries to get a vote (From census blanks I quote) All the housewives of our nation, Simply have—"No occupation."

Gustave Edlund.

HOUSE FLIES

These hatched in fifth. Scientists have discovered that they are largely responsible for the spread of typhoid, diphtheria, cholera, dysentery, and other diseases.

MOVING PICTURES OF THE BRAIN AT WORK

Remarkable Experiments are Being Made in Buenos Ayres—Would Determine Sanity

Boston, Sept. 3.—Dr. Max Bafl, physiologist of Clark University, Worcester, asserts that the experiments of Dr. Kastle, Dr. Rider and Engineer Rosenthal, which proved that the organs of the body can be photographed by means of the Roentgen rays, with the assistance of the cinematograph, will fade into oblivion when the results of the experiments now being made by a friend in Buenos Ayres are made public.

The cinematograph, a new machine being experimented on with the assistance of the X-ray and the cinematograph, will enable the scientist in taking motion pictures of the human mind in action. Dr. Bafl says:

"The experiments now being made in Buenos Ayres will soon be given to the world. We will then be able to take moving pictures of the mind in action; it is thus possible to determine the sanity of an individual in a scientific way, and it will mean mercy and proper treatment for so-called criminals, justice for the sane."

"To be normal it will bring more than any prophesy, for it will determine his capacity for education and will show him the boundary which he should stop. Soon we will be able to know the history of the brain and codify it by a standard which may be easily established."

"Then we need have no more fool-hardy or super-educated persons. By such pictures, taken at certain established intervals, we need no longer make the matter of higher education mere guesswork. We shall be able to know to a nicety whether or not the child is fitted for the studies he is taking. But more important than this we shall know the capacity of the brain, and thereby decide whether or not the individual may profit appreciably by a college training."

Will Determine Sanity

In the case of criminals the moving pictures of the brain will, as I have said, render the process of administering justice much easier than it is today. For example a person may simulate insanity so well that the keenest observer may be deceived. But the rush of blood to the brain in real cases of insanity is altogether different from the rush of blood occasioned by the mental and physical strain of acting the part of an insane man.

Thus with these magnified X-ray moving pictures the man or woman who has a real case of insanity is altogether different from the mental and physical strain of acting the part of an insane man.

THEY TAKE POLITICS VERY SERIOUSLY THERE

Speaker Interrupted by Rush to Platform—Uses Fists and Resumes Talk

Laurens, S. C., Sept. 3.—Atty. Gen. Fraser Lyons, candidate for re-election, was assaulted here at a democratic campaign meeting while addressing the voters. The assault grew out of an incident which was led by editor Crews of a Laurens paper, who was supported by a number of persons. As Crews intended to speak on the platform Lyons, who is a powerful man, began to fight.

He knocked down Crews and two of his friends and threw three others off the platform. By this time Lyons' friends rallied to him and pistols were drawn, and a blood fight was only averted by Lyons' coolness. He told his friends not to shoot—that he could defend himself.

A revolver was handed to Lyons, which he placed on the table on the platform, and resumed his speech, finishing it without further interruption from the Crews faction. Henry Wright, one of the men thrown from the platform by Lyons, is seriously injured.

"NO OCCUPATION"

(Suggested by the census blanks, which place nonvoters under the classification of "No Occupation.")

From the census blanks we learn, that the one who runs the churn, And catches up our stitches, In our shirts takes a few stitches, And the one who bakes the bread, And once a day makes up the bed, Milks the cows, feeds the hens, Skims the milk and feeds the calves, Makes soup and good salves; Does the washing, mends the clocks, Spans the children, rocks the baby, (Snuffing at the same time, maybe) Laying time will help at mowing. WINDSOR TABLET SALT

"Is this the kind, Grandma?"
"Yes, this is Windsor Salt."
"Well, I forgot the name so I asked the grocer for the best table salt he had, and he said Windsor Salt was what everybody used, so I took it."
"Well, he is right about everybody using it, and it certainly is the best!"

COL. JONES PRESIDENT OF THE NEW SOCIETY

OF THE NEW SOCIETY

At a meeting in the board of trade rooms yesterday afternoon, an arboriculture society for the city and county of St. John was organized, and it was decided to apply for a charter.

Col. G. West Jones in addressing the meeting mentioned that he had already 20 names enrolled as members and he expressed his satisfaction at the manner in which people were interesting themselves in the movement. He thought it would be difficult to obtain 400 or 500 names along these lines. He thought there would be no difficulty in growing trees in St. John, and thought that both city and citizens would very materially benefit by such a procedure.

The following officers were elected: President—G. West Jones. Vice-president—Dr. J. H. Frink. Director—G. S. Fisher, E. T. Sturdee, W. E. Foster, Dr. Wm. Christie. Secretary-treasurer to be appointed by the directors.

The funds of the society will be deposited in a chartered bank.

"POLITICAL DRUMMER"

This is Title Accorded Col. Roosevelt at Socialist Congress

Copenhagen, Sept. 2.—Former President Roosevelt came in for criticism incidental to the discussion of anti-militarism at the International Socialist Congress. Several speakers turned their guns on him, the most bitter attack being made by George Ledebour, Socialist member of the German Reichstag, who described him as a "political drummer."

Among other things Herr Ledebour said: "He has forgotten that he represents a democratic nation, whose existence was due to a revolution. Shame on him for joining the British against Egyptian patriots."

In the general subject of anti-militarism, so many conflicting opinions developed that the committee was in a constant turmoil. Members of the committee on international disarmament were unable to agree among themselves.

Father Morrissey's Lung Tonic Really Cures

Treating a cough with most "cough cures" is like repairing a leaky kettle with a piece of rag or a dab of putty. Though you succeed in stopping the leak for a little while, you never know when it may break out again, for the hole is still there.

So ordinary "cough cures" relieve, temporarily, the irritation which makes you cough, but that is all they do not cure the cough.

Father Morrissey's No. 10, commonly called "Lung Tonic", relieves the irritation by loosening and removing the mucus from the lungs, but that is not all. No. 10 tones up the whole system, especially the affected parts, restores the inflamed parts to a healthy condition, and so strengthens them that they will not easily fall a prey to the same trouble again.

Helping the Small Men in New Zealand

The Motive Back of Legislation Dealing with Taxation

(P. Kennedy in the Outlook.)

State control of land tenure and settlement has overshadowed in importance the New Zealand problem.

It has been the desire to help the small man rather than any definite purpose to cripple the big man.

There has been the motive of gradual land taxes, and advance to settlers, and "closer settlement" acts.

These are the New Zealand measures of government estimates, 28 million acres of land fit, or eventually capable of being settled.

There are 138 million acres of land in New Zealand. It has been the desire to help the small man rather than any definite purpose to cripple the big man.

NATIVE OF ST. GEORGE IS ASPHYXIATED IN BOSTON LODGINGS

Robert A. Sutherland Found Dead With Gas Turned On; Thought to Be Accidental

Boston, Sept. 2.—(Special)—Robert A. Sutherland, uncle of Edmund Billings, a prominent Boston reformer, died of gas poisoning at his lodging house today.

The medical examiner said death was accidental, the aged man probably turning on the gas and falling in a fit before he could light it.

Mr. Sutherland was born in St. George, N. B., seventy-five years ago, but had lived here many years.

KING EARNED SOVEREIGN

Great Britain's Ruler Owes Pleasant Memory to Recollection of Boyish Trick

Great Britain's King owes some of his pleasant memories to the days he spent abroad. Those were the days of high spirits and mischievous pranks.

On leaving that was so, he asked if it were not true that the princes were on board.

"Quite true," answered the future King. "The stranger, with an air of great importance, informed the prince."

"Where's the sovereign?" whispered Prince George as the duke's side of the vessel.

The stranger distributed his bounty and followed the prince up the companion ladder.

Keep the boat in readiness to take this gentleman ashore," Prince George shouted back.

"On deck they were met by a midshipman who pointed them out to him."

The midshipman immediately identified the identity of the "J. P. and C. C."

"Of course," gasped the open-eyed prince.

"Will you point them out to him?"

The midshipman immediately identified the identity of the "J. P. and C. C."

AMUSEMENTS FOR OURSELVES AND OTHERS

THE ALASKAN. "The Alaskan" possesses a plot and a heart story that rings true, while the opportunities for local color are unlimited.

Combining these, this comic opera, well devised, serves the purpose that has come to it.

Peter Harrison goes to Alaska prospecting. He discovers rich ground near the Tanana river.

He takes a contract to transport Richard Attwater, who has been grubstaked by a Boston capitalist, into the interior.

He learns that he is skilled as a surveyor and is asked to show him his rich ground and offers him the water right if he will build the ditch.

He makes his camp while Attwater begins prospecting, discovers gold and insists on working the find.

Totem is forced to accept the position as foreman of this find rather than build his own.

The play opens on a clean-up day at Attwater's claim. The miners have been driven out of a great discovery in the Tanana country and are about to leave Attwater.

Attwater has died. His daughter has inherited the grubstake contract. Receiving no reply to her letters to Attwater, she determines to visit Alaska, because of an old dream of her father's, that some day she and Attwater should make a match.

She is accompanied by Mrs. Good Better, Beat, and she goes to Alaska under the protection of Prof. Knickerbocker in search of a lost ingredient for his laughing powder.

Struggling players reach the Attwater mine to give a performance, but Tom goes there to do miner's clothes and to work.

Wallington Watt, the managerial comedian, learns of the arrival of Miss Eastman and represents himself as being Attwater. Arise, disgusted with the man, presents her chapters as herself. Attwater discovers the plot and is about to straighten it out, when he learns that his mine is a failure. Thereupon he allows the mistake to stand and introduces himself as the prospector. After the failure of the mine, Totem makes a long-cherished secret known to Attwater and the two leave for Tanana as partners.

Miss Eastman has taken a home and decided to remain in Nome throughout the winter; Attwater and Totem come there to spend New Year's and that did not think Vice President Sherman would withdraw as a candidate for the chairmanship, adding that it would be foolish of him if he did.

SEVERAL HUNDRED HAD CLOSE CALL IN TRAIN WRECK

Newton, Mass., Sept. 2.—Several hundred passengers on the noon express from Boston to New York on the Boston & Albany division of the New York Central road, together with the train crew and the railway mail clerks, had a miraculous escape with their lives today when the two locomotives and four cars of the train were derailed by an open switch on the edge of the bridge beyond the Riverside station, tipping almost into the Charles river.

Not more than half a dozen persons were injured beyond bruises, and but one of these, Charles P. Turner, of Malden, a mail clerk, was hurt seriously. His fracture will soon mend, it is believed.

That no life was lost and that the number of injured was not far greater are matters of surprise to railroad men. The wreck is the worst which has occurred on the Boston & Albany railroad.

Three of the four cars derailed were nearly demolished, the smoking car, in which were more than fifty persons, telescoping at right angles the railway mail coach, in which the four mail clerks were penned.

Hon. Mr. McBride's Future

A unique interest attaches to the September number of Busy Man's Magazine because it is to be found a striking prophecy about the future of the Hon. Richard McBride, premier of British Columbia, and three great political leaders.

These three men are Benjamin Disraeli, Sir John A. Macdonald and Sir Wilfrid Laurier. This striking likeness is brought out clearly in the portraits of the four men which illustrate the article and which are placed together for purposes of comparison.

Richard McBride is still a young man but even today he bears a marked resemblance to all three men referred to and in his mannerisms he is astonishingly like Sir John A. Macdonald. All interested in the political situation in Canada, Conservative and Liberal alike, will be interested in the article and portraiture.

ASHBURY COLLEGE ROCKCLIFFE, OTTAWA. RESIDENTIAL SCHOOL FOR BOYS. Annual fee for board and tuition \$100.00. The college is situated on a beautiful hillside overlooking the city of Ottawa.

BURDETT COLLEGE of Business and Shorthand 18 BOYLSTON STREET, BOSTON, MASS. IS LARGER THAN ALL THE OTHER COMMERCIAL SCHOOLS AND SHORTHAND SCHOOLS IN BOSTON COMBINED

Yesterday's Fire

The loss in yesterday's fire in the North End was in the vicinity of \$180,000. The buildings destroyed were the Price & Shaw factory, which included three buildings; the building formerly known as the Mabee Woodworking factory, and occupied by Mr. Seely for his stable, and a three story tenement house owned by N. S. Scott.

In the Price & Shaw buildings, which was owned by the estate of the late Henry Hilyard, were the Maritime Rug Works, and William A. Kearns who carried on a carriage business. There was no insurance on the Hilyard buildings and the loss is about \$2,000. The loss in the Mabee factory, used as the stable, which was owned by J. Fraser Gregory, is said to be about \$150,000, fully covered by insurance. Mr. Seely's loss was estimated at \$40,000 with \$10,000 insurance. The Maritime Rug Works estimated their loss at \$2,000 with about \$1,000 insurance. David Watson had some carriages stored with Mr. Kearns and he estimated his loss at about \$700 with about \$600 covered by insurance. Mr. Kearns lost about \$2,000, which was not covered by insurance. The loss to the Scott house was \$1,000, about half insured.

Canadian Municipalities

Toronto, Sept. 2.—The sessions of the Union of Canadian Municipalities were closed today, with the election of officers. It was decided to hold the next convention in Quebec.

Major Chisholm of Halifax was elected president; Mayor Geary, of Toronto, first vice; Mayor Beau, of St. Boniface, second vice; and Mayor Mills of Medicine Hat, third vice. A. D. Lightball, K. C., of Montreal, is secretary-treasurer, and Mayor Hopewell, of Ottawa, honorary past president.

The following vice-presidents for the provinces were chosen: New Brunswick—J. W. McCready, secretary of New Brunswick Union; N.S.—Frank, mayor of St. John; E. A. Reilly, mayor of Moncton; D. Murray, M. D., mayor of Campbellton.

Nova Scotia—F. W. W. Dene, city engineer of Halifax; W. M. Kelley, mayor of Yarmouth; Geo. W. Stuart, mayor of Truro; A. D. Gunn, mayor of Sydney; Alfred Whitman, alderman of Halifax.

Ferry Matters

At yesterday's meeting of the ferry committee Superintendent Waring came in for praise for excellent service and especial reference was made to the quick work in repairing the east side ferry.

The matter of a new ferry boat was also brought up. Ald. Wignome said that as the Pennsylvania Railroad in New York was doing away with ferry boats the chairman might communicate with them. A communication from R. P. & W. P. Starr asking for a lease of a piece of land on the west side was referred to the superintendent.

Hay's Hair Health

The Twelve Londons

No man living has ever yet seen London as it really is.

There are, in fact, twelve Londons, one of which the county is controlled by 4,300 popularly elected men and women, who sit on 14 public bodies.

The biggest London of all is the police London, covering 692 square miles; the smallest is the City of London, extending to one square mile.

When one speaks of London one must put an adjective in to describe what London is referred to. Here are the Londons, with their areas as known to the law:

City of London, one square mile. County of London, 15 square miles. Water London, 57 square miles. Postal London, 221 square miles. Telephone London, 690 square miles. Parliamentary London, 117 square miles. Ecclesiastical London, 129 square miles. Greater London, 692 square miles. Police London, 692 square miles. Central Criminal Court London, 40 square miles. County Court London, 205 square miles. The smallest population of one London is 28,000—in the city—while the largest population, 6,550,000—in Greater London.

LOCAL NEWS

The Artillery Band is requested to meet at the depot on Monday evening at 6.45 o'clock sharp.

The fire alarm for box 125 early this morning was because of a blaze breaking out in a pile of sawdust in Clarendon street.

The wheel of a sloven laden with bricks became caught in the car track in Main street, this morning and was completely demolished.

Rev. Mr. McOutcheon will speak at the Every Day Club tomorrow evening at 8.30 o'clock.

A large pane of glass was broken last night in the factory of Wm. Rowley.

Miss Mabel Thomson, who won the maritime Golf championship in the play at Moncton yesterday, will go to Toronto for the Canadian championship.

The members of the A.O.E. will observe tomorrow afternoon as decoration day, and will lay flowers on the graves of their deceased fellow members in the cemeteries.

The extra policemen who will do duty during the exhibition were sworn in yesterday afternoon.

At a well attended meeting of the laymen of the city churches held last evening in the rooms of the Y.M.C.A., it was decided to try to secure Evangelist Perry to conduct a series of meetings in this city in November.

J. W. Merkel, who was teller in the Bank of Montreal branch at Grand Falls for several years, has lately been transferred to Toronto.

Hon. Dr. Pugsley, minister of public works, speaking to the Times-Star this morning in connection with reports that action was to be taken to provide new facilities for handling cargoes on the west side, said there were under consideration the building of a powerful crane but the matter had not been fully worked out yet.

John K. Storey has just returned from Toronto, after having had what he describes as the time of his life. He is most enthusiastic over the beauty of the Queen City, and the great fair, which he says will surpass anything he has ever seen.

Mrs. E. A. Smith, Miss Robinson, and Miss Mabel Thomson, returned last night from Moncton, where they represented this city at the maritime ladies' golf matches.

John K. Storey has just returned from Toronto, after having had what he describes as the time of his life.

Archbishop Quigley, of Chicago, a prominent delegate to the Eucharistic Congress in Montreal.

NEVER SUCH POULTRY SHOW IN PROVINCES

Dr. Hetherington is an expert and well known among poultry fanciers in the maritime provinces, and is a veteran in the poultry department of exhibitions in St. John, having had to do with the poultry show in every exhibition ever held here.
