Elections for German National Convention Government Plans for Popular Vote in January

Berlin Police Will "Let Politeness and Consideration Rule"—Dr. Solf Still Worried Over Food Prospects—Another Appeal to American Republics the Fashion

Copenhagen, Nov. 17.—The German government expects to hold elections for a national convention in January, says a Berlin despatch received here.

Copenhagen, Nov. 16.—Berlin police authorities have adopted a resolution declaring that it is their intention to do everything possible to support public order and to "let politeness and consideration rule in their relations with their fellow citizens."

The resolution asks the citizens of Berlin to forget their old grievances against policemen and help them.

The Berlin Bourse re-opened yesterday. Supplies may be cut off.

London, Nov. 16.—The following wireless despatch from Dr. Solf, the German minister of foreign affairs, addressed to United States Secretary of State Lansing, was picked up here today:

"The return of the troops from the west gives rise to the fear that within a very short time Berlin and other large German towns will be cut off from supplies of food from the interior. We therefore repeat with the greatest anxiety our request of yesterday that you should not hesitate a moment in convening a conference at The Hague, as proposed by us, to which our representatives could travel in the next few days."

"Further, we wish to request that permission of the president of the United States be given so that a German commission may leave immediately for America and personally lay before the government there the conditions existing here and to assure steps being taken for the purchase of most necessary foodstuffs."

"We cherish the confident hope that the humanitarian feeling of the American people will not frustrate the possibility of saving thousands of women and children from death by starvation."

More Republics. Basel, Nov. 17.—(Havas Agency)—More of the smaller German principalities have followed the example of larger neighbors and have taken steps toward establishing republican forms of government.

Sax-Meiningen has been proclaimed a republic and all estates owned by princes are made public property.

A special despatch from Karlsruhe says that the provisional government has announced that Grand Duke Friedrich II has abdicated and that Baden is a free republic.

Demand Abdication. Geneva, Nov. 17.—(By the Associated Press)—The League of Nations and parliament of Luxembourg will demand the abdication of the Grand Duke of Luxembourg, who is considered the symbol of German intrigues.

The members of the Liberal party desire the grand duchy transformed into a republic and attached to France.

The newspaper adds that the grand duchess, learning of the general opinion of the people of the country, replied that she was ready to abdicate after a general vote had been taken on the question, but not before.

William May Returns. London, Nov. 18 (3:47 a. m.)—The Potsdam soldiers and workmen's committee learns that the German government intends to return to Germany because of disturbances in Holland, according to a Copenhagen despatch to the Exchange Telegraph Company.

Prince Eitel Frederick, son of the former emperor, the former monarch, trades of the Potsdam to place themselves at the disposal of the new government in Germany.

Empress by Airplane. Amsterdam, Nov. 18.—The former German empress has arrived in Holland making the trip by airplane, according to the Zeevaar correspondent of the Telegraf.

In Denmark. Copenhagen, Nov. 18.—Former Grand Duke Ferdinand of Mecklenburg-Schwerin, who abdicated last week, has arrived here with his English-born wife and children.

The Von Ketteler monument consists of a great marble arch, spanning Hatanen street, one of the chief thoroughfares in the inner city.

Charles Can Take a Hint. Geneva, Nov. 17.—Former Emperor Charles of Austria, who is still in Vienna, renounced the throne in an autograph letter to County Karolyi, president of the Hungarian national council, says an official despatch received here.

\$16,500,000 SUBSCRIBED BY PEOPLE OF NEW BRUNSWICK

Estimated Total of the Big Victory Loan Drive

ST. JOHN WINS CROWN

Fine Spirit of Co-operation and Patriotism Resulted in Establishing Several New Records for Subscriptions in St. John District—One in Every 4.5 a Subscriber

That the citizens of New Brunswick have subscribed approximately \$16,500,000 in the victory loan drive of 1918 was the substance of a telegram wired to Sir Thomas White, minister of finance, this morning by S. Allan Thomas, secretary of the provincial campaign.

Speaking of the great showing of the city and county of St. John, Stanley E. Elkin, M. P., chairman of the local campaign committee, made the following statement: "All the wards in the parish have gone well over the top and the sum of \$5,250,000 and possibly \$5,500,000 has been invested. On the first fine day the honor flag and crown will fly from the court house. The objective of \$5,000,000 was a large amount for our population, but we have secured at least \$1,250,000 more than that sum."

"We worked under bad conditions, influenza disorganizing our headquarters staff and canvassers; we had bad weather for the first five days and in addition it would be difficult to single out any of the shining lights among the campaigners. From the central committee down, all worked hard and enthusiastically and the result has been most gratifying. We appreciated the co-operation of the banks and newspapers and all those who directly or indirectly made the campaign such a grand success. The members of the central committee are grateful for the kindness shown our salesmen and as a result they made what looked like a hard task a great pleasure."

Regarding the flag, Mr. Elkin said that some sort of a celebration would be held when it was raised over the court house. Arrangements have not yet been made, but he hopes to have Mayor Hayes raise the flag.

FOUR KILLED AND SCORE INJURED WHEN BOB BROKE LOOSE. Winston, Salem, N. C., Nov. 18.—Order was restored here today after a night of rioting in which four persons were killed and a score injured, when a mob attempted to lynch Russell Hines, a negro held in the city jail on charges of shooting a farmer, the county sheriff, and attacking the farmer's wife. The negro, who was not positively identified, is believed to have been removed elsewhere for safety.

GRANITE QUARRIES CLOSED. The Spoon Island granite quarries, near Hampstead, on the river, have suspended operations for the winter, after a busy season. Final shipments are arriving now, chiefly to be used in the reconstruction of St. David's Presbyterian church. Some of the stones is to fill monument orders, in which branch of trade there is much activity this fall.

COURT RESUMES. The courts are resuming since the epidemic ban has been lifted, and the adjourned session of the county court will open tomorrow morning. Grand and petit jurors who have had a respite owing to the ban, will have to answer the roll-call tomorrow.

BIGGER BOTTLES NOW. Complaint is being made that extract of lemon in especially large bottles is a new branch of mercantile activity in some second-rate shops. The ordinary household size has been abandoned, it would appear. What a slew of lemon cake St. John is eating these days!

HAD LIVELY TRIP. A tug going through the falls at low tide on Saturday afternoon attracted considerable attention. The tide was quite low at the time and the small craft was considerably tossed about, although it succeeded in going through without any mishap.

SPARK THAT KINDLED GERMAN REVOLUTION

Fleet Was Ordered Out for Final Battle, to be Fought Until the Last Ship was Sunk; Meeting Followed

Copenhagen, Nov. 16.—(By the Associated Press)—Friday afternoon's edition of the Vorwaerts of Berlin declared that the report was true that the German fleet was ordered out on Oct. 26 for a final battle, which was to be fought until the last ship was sunk.

It is said that the order to the fleet merely of a manoeuvre cruise, but the report that a sacrificial battle was intended spread like wildfire. A general mutiny followed.

"This," says the Vorwaerts, "was the real spark that kindled the revolution." The number of persons killed in Berlin since the revolution broke out is said to be about 100.

REVIEW REFUSED IN MOONEY CASE. Washington, Nov. 18.—The supreme court refused today to review the case of Thomas J. Mooney, later charged with murder in connection with a bombing two years ago in San Francisco.

Bank Dynamited. London, Nov. 18.—The German Asiatic Bank at Peking was dynamited by unknown persons late last week, says an official telegraph despatch from Tientsin. The American legation guard attempted to extinguish the fire which resulted, but the water supply was low, and it is believed the building will be a total wreck.

Fatal Panic. Castellon, Spain, Nov. 18.—A fatal panic occurred in a motion picture theatre here last night when an unidentified person cried "fire." The theatre was crowded, most of the audience being children, and twenty children and one soldier were trampled to death. Twelve children were injured severely and twenty-five slightly.

Normal by Easter. Paris, Nov. 17.—(Havas Agency)—Victor Boret, minister of provisions, in an interview today, said he hoped the food conditions of France again would be normal at Easter.

Wild Enthusiasm as Belgians Greet King

Crowds Delirious With Joy--Flowers, Tobacco and Cockades Thrown to French Soldiers as They Enter Mulhasen--Alsace-Lorraine Day in Paris

Ghent, Nov. 14.—(By the Associated Press)—King Albert, Queen Elizabeth and Prince Leopold of Belgium made their official entrance into Ghent today. Huge crowds, delirious with enthusiasm, lined the street. The royal party moved through cheering throngs amid showers of roses and carysintemins. Every balcony, window and roof was covered with people, some of whom clung pestilently to chimneys and cornices.

A TRIUMPHAL ENTRY. Mulhasen, Nov. 18.—(Havas Agency)—No words can picture the triumphant entry of the French troops into this city, nor express the wild joy of the people who crowded the street to applaud their liberators. Flowers, tobacco and cockades were thrown to the soldiers as they marched along.

General Hirschauer headed his troops. Men and women rushed forward and plausibly kissed the folds of the flag borne by the 344th infantry. The cheers of the populace grew until the troops arrived at the city hall, where the city authorities welcomed General Hirschauer and his staff.

Hans Leave Brussels. Paris, Nov. 18.—The last German troops left Brussels yesterday, according to a despatch from the Havas correspondent on the Belgian front.

Extraordinary scenes were witnessed around the North station, from which most of the enemy soldiers departed. Wishing to have money to take home with them, they sold everything they owned or had stolen. Some laid out objects on the sidewalk and cried their wares in loud voices. Among the articles offered for sale were blankets, clothing and shoes, as well as wool and copper goods taken from the inhabitants of the city.

Paris Celebrates. Paris, Nov. 17.—Today was Alsace-Lorraine day in Paris. The day was celebrated not by victorious troops marching through the city, but by countless processions of civilians on parade before the 10,000 troops scattered along the route from the Arc de Triomphe to the Place de la Concorde and then past the monuments of Joan of Arc, Gambetta and Lafayette.

It is estimated that 200,000 members of societies of every social kind marched in the procession, and it seemed as if the remainder of Paris, taking advantage of the clear, cold weather, lined the route.

Congratulated President. Paris, Nov. 17.—The entire cabinet, the under-secretaries of state and government commissioners waited on Premier Clemenceau this morning at the ministry of war to congratulate the premier on his patriotism and indefatigable labor in bringing victory to France.

The Clemenceau ministry being just a year old, an artistic souvenir was presented to the premier. It was a booklet commemorative of the government's work and contained among other illustrations Daumier's pictures of Don Quixote and Sancho Panza.

To Participate. Paris, Nov. 17.—(Havas Agency)—With the evacuation of France by the Germans now complete, President Poincare and Premier Clemenceau will participate the official entrance of Alsace-Lorraine. General Mangin has been mentioned as governor of Metz.

In Algiers. Algiers, Nov. 17.—(Havas Agency)—The signing of the armistice was received throughout the whole of Algiers with the greatest of enthusiasm both by colonists and the native population.

IN WALL STREET. New York, Nov. 18.—(Wall Street)—Last week's further reduction of excess reserves, as shown by the bank statement, emphasizing the further need of credit restrictions, imparted a heavy tone to stocks at the opening of today's session. Oils, equipments, motors and several of the active specialties, declined one to three and a half points.

United States Steel reacted a point and investment funds were inclined to sag. Southern Pacific losing one and a half and Atlantic Coast Line 2 1/2 points. Marine preferred was the only prominent issue to show steadiness, rallying two points from its recent severe reaction.

HAVANA HARBOR STRIKE HAS BEEN SETTLED. Havana, Nov. 17.—The strike of the confederated harbor unions, which has tied up shipping in Havana harbor for the last fifteen days and which led to the recent general strike, has been settled and the men will return to work Monday morning.

THE RECEPTION COMMITTEE

A LONG TIME ON A SHORT TRIP

The suburbanites on the Canadian Government Railway who anticipated long and pleasant afternoon "fixing-up" was a disappointed lot on Saturday last.

The train due to leave at 1:15 p. m. made a slow and laborious journey as far as the roundhouse and there the engine positively refused to go further, the reason was that it had not sufficient "steam up" so it just junted the three cars on a siding and left them there while officials went in search of another engine that might possibly be able to take the crowd up the line, but this was no easy job and after waiting an hour some of the passengers retraced their steps to the city while others started for the street cars.

About 2:30 the Halifax express came along and was flagged, but the train crew's order was "only passengers for Hampton on this train." The Rothesay contingent did not relish this order but had to stay by the sub.

At 3 o'clock the regular suburban engine was forthcoming and all went well after that but a fine afternoon in the city was spoiled.

It is reported that the officials are trying out some engines which are to be used on the Valley Railway. If that is so it should not be at the expense or convenience of the traveling public.

MEN WE RECOGNIZE IN THE WAR MOVIES

In a war weekly moving pictorial at one of the local theatres during last week-end many spectators were surprised and pleased to notice some familiar faces in a group of Canadian press representatives being shown the sights of battle at Vimy Ridge, and other notable spots. Besides Mr. McCurdy of the Halifax Herald and Mail staff, was the unmistakable figure of our own Commodore J. L. Stewart of Chatham, whose writings on his trip have been so interesting of late. In a war weekly not yet shown here, Col. Good of the N. B. command, whose residence is in this city, is shown retreating, the scenes of the great Verdun Siege and other historical fights. In this party was Thos. Coughlan of North End, one of St. John's past national representatives sent to the front during the election polling.

OFF TO ENGLAND. New York, Nov. 18.—Judge C. J. Doherty, Canadian minister of justice, and Lloyd Harris, of Brantford, Ont., head of the Canadian trade mission, were passengers on the Olympic which sailed Saturday for England. Mr. Harris and Judge Doherty will meet Sir Robert Borden in London, and later, it was reported here, would be two of ten Canadian representatives to attend the peace conference.

"General demobilization.—As result of the cessation of hostilities and information just received from overseas, the forces in Canada will be reduced at once in accordance with instructions which will be issued from time to time.

"The first step will be a drastic reduction of all military establishments in Canada, bringing these down to absolute requirements for the operations of demobilization, the care of soldiers in hospital and aid of civil power."

"Subject to the above and to the maintenance of a moderate force in aid of the civil authorities, demobilization of troops in Canada will be carried out as rapidly as possible by reference to the following classes:—

"Returned soldiers, who can be spared and are desirous of discharge.

"Married men, who can be spared, and who are desirous of discharge.

"Men in lower categories, who have been held for various duties in Canada, and can now be spared.

"Men who can be spared, whose occupations are such as to make them urgently required in civil life for economic reasons.

"All other men whose services are not required.

"Orders have already been issued that all men serving in Canada who so desire, and who were railway employes upon enlistment or when called up for service, are to be discharged immediately."

"Our next concern must be to relax blockade measures as far as possible in order that the neutral states in Europe who are now all on short rations, should be able to take care of their people and prevent the growth of anarchy. This is another group of about 3,000,000.

"Another problem lies in the 50,000,000 people in North Russia, a large part of whom are inaccessible owing to the breakdown of transportation and through sheer anarchy. Millions of these are beyond help this winter. These groups are the ones that must enlist the sympathy of the American people and for whom we are prepared to make any necessary sacrifices.

"There is a great problem in the situation of the enemy—about 90,000,000. This problem is not one of going to the relief. It is a problem of relaxing the water-tight blockade which continues through the armistice, sufficiently so that they may secure for themselves the bare necessities that will give stable government.

**Suppress Anarchy.** Unless anarchy can be put down and stability of government can be obtained in these enemy states, there will be nobody to make peace with and no body to pay the bill to France and Belgium for the fearful destruction that has been done.

I would certainly approach this problem with mixed feelings, having been long a witness to the robbery of food from women and children and the destruction of millions of tons of food and to the misery under which the millions among the big and little allies have suffered under the German yoke.

Justice requires that government be established able to make amends for wrongs done, and it cannot be accomplished through spread of anarchy. Famine is the mother of anarchy," Mr. Hoover said that he expected to be in London only a day or two. He will then go to Paris to attend the allied conferences at Versailles. His work may

### CONVENTION OPENS TUESDAY

The United Baptist convention of the maritime provinces was to have been held in Woodstock beginning October 19, but owing to the ban on public meetings due to the epidemic this date had to be abandoned. Later it was considered wise to give up for this year the idea of a general convention and to summon boards and committees, with such pastors and delegates as found it convenient to attend, to meet at a central place for the consideration of reports and the transaction of necessary business.

THE TASK

There is nothing to justify the talk heard today about a renewal of the war. There may be civil war in Germany, and the Allies may have to do extensive police work there and in distracted Russia, where fighting still goes on. The maintenance of a great army on the German frontier for a long time is to be renewed. There is no element, even in Germany, capable of resisting the Allies or refusing to accept the conditions they propose.

There is before us is not more war but the sober and un-romantic work of "mopping up" and of giving the world the things the Allied armies fought for. It is a task in some respects not smaller than the work of carrying on and winning the war. In President Wilson's armistice speech he measured in a few sentences what is meant by "the avowed and concerted purpose of the victors to satisfy and protect the weak as well as to accord their rights to the strong."

And let it not be thought that "the longing of the whole world for disinterested justice" is confined to the re-drawing of the map of Europe, or can be satisfied by mere changes in the forms of governments, or that the task of satisfying it can be discharged by imposing peace conditions such as will give the world physical security against the Germans. In the work of making the world safe for democracy the armies have won the first victory, falling which all would have been lost. Now comes the work of garnering and safeguarding the fruits of that victory, of giving to all the countries the blessings of sane and righteous democracy, of suppressing injustice and abolishing special privilege, of making politics the business of all rather than of a few, of making governments human and quickly responsive to the best aspirations of the people. This is not to be done in a day, or in a generation, but the victory has cleared the way for it and turned into the channels of progress and brotherhood might forces which formerly were neutral or chained by custom, or openly reactionary.

The courage and intelligence which after more than four years of unparalleled fighting beat down the Hun and bound him hand and foot should be equal to the mighty task of making the whole world a much better and nobler place to live in hereafter than it was for the great mass of mankind prior to 1914.

HIS MAJESTY THE KING. It is quite in keeping with his bearing during days of peace and his attitude towards his subjects in the strenuous times of war, that His Gracious Majesty King George should desire to address words of congratulation to the peoples of the far-flung Empire now that victory has crowned the nation's efforts.

Despatches tell of his expression of the wish for opportunity so to do and of the arrangement that tomorrow the King will, through medium of a reply to an address in Parliament, give voice to the thoughts of a monarch grateful for the sturdy support of his people during four soul-testing years. And so tomorrow should find calendar place as one of the outstanding days in British history. The scene will be memorable not only for the sentiment which creates it but because of the presence of the overseas representatives to whom His Majesty will address himself as standing for the swelling millions of loyal sons and daughters in the Dominions beyond the seas. Every subject in the vast Empire, every man, woman and child who boast loyalty to the Union Jack and all it means, will have personal interest in the King's words. Each may take what he says as addressed to him and her, for all are of a family and it will be as a father speaking in the home circle and commending his own for work well done.

An American writer recently paid a marked tribute to King George because of the manner in which his duties were carried out during the Dominion days. He declared that King George would emerge from the war period a greater king than ever, not a whit of his sovereign dignity lost but his high office and himself more dear than ever to his people at home and everywhere the British flag flies. And, to repeat it is in step

with his record of all the years of his reign that, his first thought, after gratitude to the King of Kings is that of thanks to his people for their never halting support in the conflict which Britain and her Allies felt justly called upon to wage for world liberty.

The Great War Veterans will not be so foolish as to permit minor differences to mar the future of their organization. Their unity is their strength. Thousands of men from overseas will be coming back before long, and they will hope to find the association useful and influential. And it will be so. The great majority of its members are too level-headed to follow counsels of division and disorder. The veterans know the value of discipline, and they have their future very largely in their own hands. They enjoy a mighty volume of public good will. They deserve it, and will continue to deserve it.

The ex-Crown Prince is in Holland, but that does not mean that he has "escaped." He is out of reach of the German revolutionists, but there is no "escape" for him or his father. They cannot leave Holland, and if they could there is no safe hiding place on earth to which they could go. They were awaiting the fate which presently the Allied governments will choose for them.

New Brunswick's Victory loan workers are a great ginger brigade. Without them our people would never have realized how much money they had to invest and how attractive the security was. A rich stream of interest money will be pouring into every parish and ward for a long time to come.

FOUR MORE V.C.'S COME TO CANADA

London, Nov. 16—(Canadian Press Despatch from Reuters)—In its issue of today the London Gazette records the awarding of fifteen new Victoria Crosses of which four went to Canadians. The splendid exploits of the latter are thus officially described.

A Victoria Cross was awarded to Lieut. Charles Smith Rutherford, M.C., M.M., of a Quebec regiment for the most conspicuous bravery, initiative and devotion to duty. When in command of an assaulting party, Lieutenant Rutherford found himself a considerable distance ahead of his men and at the same moment observed a fully armed and strong enemy party outside a pillbox ahead of him. He beckoned them with his revolver to come to him. In return they waved to him to come to them. He boldly did this and informed them they were his prisoners.

An enemy officer disputed this fact and invited Lieutenant Rutherford to enter the pillbox, which invitation he discreetly declined. By a masterly bluff, however, he persuaded the enemy that they were surrounded and the whole party numbering forty-five including two officers and three machine guns surrendered to him. Lieut. Rutherford subsequently induced the enemy officers to stop the fire of a machine gun close by. Lieutenant Rutherford took advantage of this opportunity to hasten the advance of his men to his support.

He then observed on the right an assaulting party that was held up by heavy machine gun fire from another pillbox. Indicating an objective to the remainder of his party he attacked the pillbox with a Lewis gun section and captured a further thirty-five prisoners with machine guns, thus enabling the party to continue the advance.

This officer's bold and gallant action contributed very materially to the capture of the main objective and was a wonderful inspiration to all ranks in pressing home the attack on a very strong position.

SPECIAL CAUSE FOR THANKSGIVING THIS YEAR. Washington, Nov. 17—President Wilson, in a proclamation today, designated Thursday, Nov. 28, as Thanksgiving Day, and said this year the American people have special and moving causes to be grateful and rejoice. Complete victory, he said, had brought not only peace, but the confident promise of a new day as well, in which "justice shall replace force and jealous intrigue among nations."

As the expedition was undertaken for the Department of Naval Service of Canada, parliament last year made a supplementary vote of \$30,000 for the publication of the work.

STEFANSSON LAND FIT FOR HABITATION

Between North Pole and Alaska and Between the Pole and Siberia.

Busy Day in Toronto—Explorer Speaks for Victory Loan—His Life a Varied One of Adventure.

(Toronto Star).

Vilhjalm Stefansson, the Arctic explorer, who arrived in the city yesterday, in an interview with the Star, tells of his efforts in adding a million square miles to the size of Canada.

Stefansson recently returned from a five years' exploration tour of the north of the American continent. During the period he and his companions explored about 200,000 square miles, about one-fourth of the Arctic region of the western hemisphere, hitherto unknown.

Stefansson, who at different times in his career has been school teacher, life insurance agent, organizer of secret lodge societies, public lecturer, reporter, editor, and university lecturer, has practically revolutionized the method of carrying on explorations in the Arctic ocean. And here again necessity was the mother of invention, for it was after the loss of the Karluk, his most important ship, that Stefansson demonstrated that it was not necessary to carry great stocks of provisions, dogs, and sledges; that good food and plenty of it could be got out of the land and the sea itself.

The sturdy explorer is having a busy time in Toronto today. This morning he was tendered an official welcome by the mayor and members of council, and at noon he addressed a huge gathering of the city hall in the interest of the Victory Loan, and the men kept referring to the war. For a long time Stefansson believed them to be speaking of a Balkan war.

During his journey Stefansson discovered five islands, proved the non-existence of an island which of late years had appeared on the best admiralty maps, took ocean soundings, and made important scientific observations as to animal and ocean life, as well as the flora of the islands which he found. The summer is still being continued by Storöf, Stikensens and five men.

From a geographical point of view our trip was a success," declared Stefansson. "We took two years longer than we expected, and our scientific work had to be somewhat curtailed." There are now in preparation at Ottawa eleven volumes of about 500 pages each of the biological results alone.

The Canadian Arctic expedition which Mr. Stefansson headed was perhaps better fitted for scientific purposes than any similar venture. There were eight scientists, each a specialist in his own branch. Of these, four were Canadians (Mr. Stefansson is a Canadian, a native of Manitoba) and two Americans. Daily Fish Bulletin Issued by Canada Food Board.

Rapid transportation is one of the first essentials in supplying the inland markets with fish. Great progress has been made along this line during the past year. Express refrigerator cars run on most trains coming from the coast and fish nowadays are landed at the retail stores in excellent condition. The Sea Food Special train running from the Nova Scotia coast to Montreal this year has done much to encourage the fish dealer and stimulate the consumption of fish among the Canadian public.

EARLY RELEASE OF WAR PRISONERS IN GERMANY PROMISED

London, Nov. 16.—Prisoners of war held by the Germans will be granted opportunities for returning to their homes without delay, according to a German wireless message picked up here.

"The government is sensible of the hard life of prisoners in Germany and enemy countries and expects that everywhere they will be treated as humanely as possible," continued the message. "It will take energetic measures if excesses against them are committed by subordinate authorities or private persons."

"Nevertheless it requests prisoners, in their own interest, to continue to carry on their work until a determined period, to return in large numbers, without regard to a concerted plan for their being sent home, must result in the greatest

prejudice to themselves and the whole population."

OUR UNDERSEA BOATS DID MOST EFFECTIVE WORK

London, Nov. 16—(British wireless service)—Details can now be given of the part which British submarines played during the war. This service destroyed the following enemy warships:

Two battleships, two armed cruisers, two light cruisers, seven destroyers, five gunboats, twenty submarines and five armed auxiliary vessels.

One Zepplin, three battleships and one light cruiser were torpedoed but reached port badly damaged.

Other enemy craft destroyed were: Fourteen transports, six ammunition and supply ships, two store ships, fifty-three steamships and 197 sailing ships.

In no case was a merchant ship sunk at sight. Care was taken to see that the crews of all vessels got safely away.

In addition to carrying out their at-tacks on enemy war craft the submarines played an important part in convoy work.

In the third year of the war one of the British submarine commanders car-ried out twenty-four cruises, totalling 22,000 miles which probably constitutes a record for any submarine.

In the first and second years of the war seven British submarine commanders carried out a total of 120 cruises, extend-ing for 320 days, all of which were actually spent in the enemy theatre.

GERMAN MOVE FOR PEACE RESULT OF WRONG ESTIMATE OF CONDITIONS?

Former Chancellor Tells Reasons for Asking for Armistice—His Advice was to Make Concessions but Hold Out

Copenhagen, Nov. 17—(By the Asso-ciated Press)—The former Imperial German chancellor, Prince Maximilian, of Baden, has issued a pamphlet in which he writes:

"My peace policy was entirely upset by the proposal for an armistice, which was handed to me in complete form on my arrival in Berlin. I fought against it for practical and political reasons. It seemed to me a grave mistake to allow the first step toward peace to be ac-companied by such an amazing admis-sion of Germany's weakness.

"Neither the enemy powers nor our own people regarded our military situa-tion such as to make desperate mea-sures necessary. I proposed that the gov-ernment as a first measure should state-cially its programme of war aims and demonstrate to the world our agreement with President Wilson's principles and our readiness to undergo heavy national sacrifices to fulfill these principles.

"I was told in reply that there was no time to wait for the effect of such a statement and that the situation at the front demanded that a proposal for an armistice should be made within twenty-four hours, to be supported by the pub-lication of a new and impeccable gov-ernment.

"A week later the military authori-ties informed me that they had been mis-taken in the judgment they had formed concerning the situation at the front on October 1."

Prince Max said that he informed the emperor that it would have an impor-tant effect if the emperor decided to ab-dicate of his own free will, as by so do-ing he would probably be able to save the country from serious disturbances.

But other important circles tried to convince the emperor that his abdication would be the signal for the breaking of the German front.

GERMANS HAVE SUNK SHIPS DEMANDED BY ARMISTICE TERMS

Copenhagen, Nov. 16—A large number of ships demanded by the Allies under the naval terms of the armistice were sunk by their German crews during the revolution, according to Germanists of Berlin.

Clause 30 of the armistice provides that all merchant vessels in German hands belonging to the Allied and asso-ciated powers are to be restored in ports to be specified by the Allies and the United States.

Amsterdam, Nov. 16—The new Ger-man government, according to a despatch from Berlin, has telegraphed to the sec-etary of the navy to see that complete discipline is observed in the German fleet. The telegram concluded: "We will only get peace if we loyally fulfill the conditions of the armistice."

THE HUNGARIAN GOVERNMENT HAS ORDERED TROOPS TO RE-MOBILIZE

On Pretext that Action is Necessary for Maintenance of Order—Four Classes Called Up, Including Slovaks

Basel, Sunday, Nov. 17—The Hungar-ian government has ordered the mobiliza-tion of troops on a pretext that it is necessary for the maintenance of order, according to a Prague despatch from the Czech-Slovak press bureau, whose quotes advice from Skaltis. Four classes have been called upon and among the troops mobilized are Slovaks.

Jugo-Slavs Seek Recognition. Paris, Nov. 17—Anton Kosevich, pres-ident of the Jugo-Slav national council, the provisional government of the Jugo-Slav countries formerly ruled by Aus-tria-Hungary, is in Paris to establish re-lations with the Entente governments.

Congratulates Poles. London, Nov. 18—A. J. Balfour, sec-etary of state for foreign affairs, has sent the following letter to the Polish National Committee: "At this moment, when the armistice has set the seal on the united efforts of the Allies in the cause of freedom. His

Majesty's government is more than over-conscious of the loyal co-operation which it received from the Poles during the course of this cruel war. It is a great pleasure for me to beg you, on behalf of His Majesty's government, to convey sincere congratulations."

Repatriating Greeks. Saloniki, Nov. 17—The repatriation of Greeks deported to Eastern Macedonia by the Bulgarians has begun, in con-formity with the terms of the armistice. Most of the Greeks have been left without provisions or sufficient clothing.

Ask Union With Greece. Saloniki, Nov. 17—A monster mass meeting at Strumitza of soldiers de-mobilized by Bulgaria under the terms of the armistice signed on September 29, denounced Bulgarian domination and asked for a union with Greece.

St. Andrew's Society of Fredericton Annual Meeting. Fredericton, N. B., Nov. 16—The Fredericton Society of St. Andrew, at its annual meeting last night, awarded a scholarship given at the U. N. B. for some years past to Miss Florence Mur-ray, of Fredericton, a member of the junior class. She is a daughter of the prominent member of the society. Officers were elected as follows: Hon. O. S. Crockett, president (re-elected); Prof. Adam Cameron, vice-president; E. A. McKay, 2nd vice-president; H. S. Camp-bell, chaplain; J. F. McMurray, treas-urer; J. B. Dickson, secretary; Johnston McKenzie, marshal; William Boreland, assistant marshal; A. S. McFarlane and W. A. London, additional members of executive.

It was decided to observe St. Andrew's day, November 30, by an informal meet-ing of the members of the society that night.

Lloyd George on Home Rule in Opening of Campaign in British Elections

London, Nov. 16—(British Wireless Service)—Premier Lloyd George has sent a letter to Chancellor of the Exchequer Bonar Law, leader of the Unionist party, outlining his policy regarding the general election and the principal issues of the day.

The premier says he is convinced there should be a general election, his principal reason being that it is essential there should be a fresh parliament possessed of authority to deal with the difficult transitional period which will follow the cessation of hostilities.

London, Nov. 16—(British wireless service)—Premier Lloyd George, Chancellor of the Exchequer Bonar Law, and George N. Barnes, member of the war cabinet, the leaders of the coalition government opened the general election campaign this morning by addressing a large and enthusiastic meeting in Central Hall, Westminster. The premier presided.

Lloyd George said the new parliament would be the most important ever elected in the history of the country. Continuing, he said: "The war has revealed defects of the old system and we will be wise to take note of and remedy them. We cannot return to the old conditions."

If parliament rises to the level of the great opportunities then the empire and the throne will be firmly established on the only solid basis—that of a contented and happy people.

"The old parliament has served its use and there is no time to lose as somebody must go to the peace conference with the authority of the people behind them. There is no use taking of blank checks. That is only taking blank notes."

"The question is: 'What body of men is going to settle the problems of reconstruction?' Recruiting statistics have revealed the terrible conditions as regards the physical health of the nation. This is due, not to poverty, but to neglect."

"The health of the people must be a special concern of the state. What we have done towards feeding ourselves in the past is like feeding a hungry giant with a teaspoon."

Soldiers to the Land. The premier hoped that many of the British soldiers on their return would be settled on the land. The development of transport and electricity would have to be taken in hand, he said. All the problems of reconstruction must be faced by Britishers as patriots and not as partisans. Every party, he declared, had its good traditions and those it would not like to forget. For the next four and a half years, the premier said, he wanted to see all parties united with best traditions of all.

A voice—"What about the discharged soldiers' party?" The premier—"Surely that is not a separate party and the general election will prove it."

The premier says he desires to see this carried through on personal grounds for during the last two years he has received the wholehearted support of the Unionist party and the government has had unity both in aims and in action which has been remarkable in a coalition government.

The prime minister says he is convinced such an arrangement would be best for the country, adding: "The problems with which we shall be faced immediately on the cessation of hostilities will be hardly less pressing and will require hardly less drastic action than those of the war itself. They cannot, in my opinion, be dealt with without disaster on party lines."

"It is vital that the national unity which has made possible victory in war should be maintained until at least the main foundations of national and international reconstruction have been securely laid."

The premier said that a parliament returned to support the coalition government would fulfill this essential condition and would also be possessed both of the necessary authorities and the unity of purpose alike as to principles and methods to enable the government to deal effectively with the peace problems which will confront it.

If an election on these lines took place he recognized there must be a statement of policy which would retain the support of the Unionist and Liberal parties.

LEMON JUICE WHITENS SKIN

Girls! Make beauty lotion at home for few cents

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best bleaching and skin whitening lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how tan, redness, sallowness, sunburn and windburn disappear and how clear, soft and rosy-white the skin becomes. Yes! It is harmless.

conference to the effect that preference will be given on existing duties and on any duties which may subsequently be imposed he said:

"On the subject I think there is no definite opinion between us. I have at the same time stated that our policy does not include a tax on food, but that does not, of course, interfere with the granting of preference on any articles such as tea or coffee on which for our own purposes we have imposed a duty."

"One of the great objects which must be aimed at in the future is to maintain an improved agricultural position and for this purpose a great deal can be done in many directions, including, for instance, an improvement, and, indeed, a complete change, of the transport situation. As regards other aspects of this problem, I am prepared to say that the three industries on which the life of the nation depends must be preserved."

"I am prepared to say also that in order to keep up the present standard of production and develop to the utmost extent possible, it is necessary that security should be given against unfair competition to which our industry has

in the past been subjected by the selling of goods below the actual cost of production.

"We must face all these questions with new eyes without regard to pre-war speeches."

Home Rule. Dealing with the home rule question, Premier Lloyd George said: "I can support no settlement which would impose a forcible coercion of Ulster. Eighteen months ago the government made alternative proposals for a settlement of the Irish problem. It offered either to bring home rule into immediate effect, while excluding the six northern counties of Ulster from its operations, but setting up at the same time a joint council, which would be empowered to extend legislation of an Irish parliament to Ulster, or to set up a convention of representative Irishmen to endeavor to find a settlement for themselves."

"The second alternative was adopted, but unfortunately after nearly a year of earnest deliberations the convention found themselves unable to arrive at anything like an agreement."

"In these circumstances I claim the right to bring a settlement into effect based on the first of these alternatives. I recognize, however, that in the present condition of Ireland such an attempt could not succeed and that it must be postponed until the condition of Ireland makes it possible."

The opposition, Mr. Lloyd George continued, was organized for fault-finding and made for delay. For organized labor to withdraw from the coalition at the present moment, he declared, was the height of folly. He had not the slightest doubt that the workers of the country would condemn that action. The coalition had been in office two years and the nation could see what it had done. He only claimed for it that it had done everything possible "to help our soldiers and sailors and our Allies to win the war by finance, transport, food organization and munitions of war."

If the nation decided that a new government was to take the place of the coalition, the premier said that he and his colleagues would promise it their unflinching support even to being hoodsman in the construction of the new edifice. In conclusion he said: "Timidity is fatal to great action. Let us approach

Pimples Broke Out All Over Face, Arms and Neck

Pimples are a sure sign that the blood is not in its proper shape.

While the skin is the seat of the irritating, unsightly pimples, the real disease is in the blood.

Medicated lotions and powders may allay the itching and irritation, but never cure no matter how long and faithfully continued, and the condition is often aggravated and the skin permanently injured by their use. The disease is more than skin deep; the entire circulation is poisoned.

Burdock Blood Bitters quickly and effectively cures blood and skin troubles, because it goes direct to the root of the disease and stimulates and restores normal, healthy action to the different organs, cleanses and enriches the blood, and thus relieves the system of all poisonous secretions.

B. B. B. cures permanently because it leaves none of the original poison to ferment in the blood and cause a fresh attack.

Miss E. M. Davidson, Daysland, Alberta, writes:—"Last summer I was greatly troubled with pimples breaking out all over my face, arms and neck. I was advised to try Burdock Blood Bitters, and after taking two bottles, the pimples had almost all disappeared. I shall always recommend this remedy to anyone afflicted with skin troubles."

Support Government. London, Saturday, Nov. 16—At a meeting of Laborites held today, George N. Barnes, member of the war cabinet,

announced that he could best serve labor by remaining with the coalition. The nation, Mr. Barnes said, must have the highest standard of life and the highest standard of production. Happily, he added, the energies of men no longer would be employed in creating engines of destruction.

The meeting adopted a resolution of confidence in the government.

CHILD GETS SICK CROSS, FEVERISH IF CONSTIPATED

"California Syrup of Figs" Can't Harm Tender Stomach or Bowels

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish, stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs" then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask your druggist for a bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Look carefully and see that it is made by the "California Fig Syrup Company."

THE GOVERNMENT OF POSEN IS IN HANDS OF POL

Basel, Nov. 16—(Havas Agen) Polish officers from Warsaw have possession of the government at Posen of German Poland. They are there in an automobile and the city was surrendered to them. Polish troops are expected to enter Posen soon according to the Berliner Tageblatt, asks the German government to protective measures.

German Poland, or Posen, as the Poles call it, is the western-most part of the old kingdom of Poland and has an area of 11,184 square miles. Posen capital of the province, is on the Warta and is strongly fortified.

It was reported earlier in the through Copenhagen that Polish troops have entered upper Silesia, which borders Posen on the south. On the east by Russian Poland and on the north by west Prussia. The counts agricultural and the land is owned by German Junkers.

Very Fine Vaudeville Acts Arouse Enthusiastic Applause and Praise Greatly

The Gem has scored a decided success in its change of policy and applauding audiences on Saturday night testified their great appreciation of a very fine vaudeville act presented. Every one of the five specialties—and they are double acts except one—made a hit with the people and the performers, encouraged by the manner in which they were being received, worked with a will.

The programme was opened by a two-act episode in "The Eagle's Eye" serial, showing the Hindu conspiracy which used such a commotion in the United States. It is a very spirited screening.

The Aster Sisters present a dainty singing and dancing act, exquisitely costumed and very attractive. They are a useful pair of performers and their act is a gem.

Wise and Wisner, man and girl, combine the bill with a very smart acrobatic exhibition. The feats are difficult and well performed. The man does a bit of clown comedy.

Toronto, Nov. 17.—Occupying every inch of space, some of them climbing on a rafters, more than 1,000 members of the Socialist movement at the Labor temple on Saturday night bitterly denounced the leaders of organized labor "fakers," "parasites" and the tools of a capitalist.

Re-Opening of The Churches

The services in St. Paul's church yesterday were attended by many. Holy communion was celebrated at the morning service by Archdeacon Crowfoot and in the evening the sermon was delivered by the Bishop of Fredericton.

Special thanksgiving services were held yesterday in St. Mary's church, at both of which the pastor, Rev. R. T. McKim, preached to large congregations. The church was very nicely decorated with flags and adorned with fruits. The collections were the largest in the history of the church. Special hymns, including the Te Deum were sung. A solo, "We Meet Again" was sung by J. N. Rogers.

The services in Centenary Methodist church yesterday were in the form of a grand rally day for peace, for an open church and for the passing of the ravages of disease. Both services were attended by many, and were conducted by the pastor, Rev. H. A. Goodwin.

The evening service Mr. Goodwin spoke of the part that God had been playing in the war affairs. He said that never in the history of the world had God manifested Himself more clearly than He had in the events of the last few months. He had shown Himself in the unity of the empire and her Allies in the great struggle.

rate of mortality in our city was much lower than elsewhere. In speaking of the cessation of hostilities he pointed out that never did the people of the Dominion of Canada have greater reason for holding thanksgiving services than they did on last Monday and Tuesday. In the dark days of last June and July, King George for the first time called upon the empire to observe July 4 as a day of prayer to Almighty God for victory for our armies.

**CONTRACT FOR CURBING AWARDED**

At a meeting of the common council this morning a contract was awarded to the firm of Morrison & Newlands to supply 10,000 feet of granite curbing. Some discussion took place as to the quality of the granite and Commissioner Fisher assured the other members that the city was protected. He said that the engineer and himself considered the quality good.

Commissioner McLellan asked him how it was to be paid for, and in answer, Commissioner Fisher said that there was nothing in his resolution about that, but it would come out of the appropriations, although he felt it should be paid for by a bond issue. Commissioner McLellan said there ought to be a statement how it was going to be paid for and the public should know if there was going to be an increase of \$10,000 in the assessment for next year. Regarding the bond issue, he said he would vote against it if it came up next year. The motion to award the contract was then put and carried, Commissioner McLellan voting against it.

On motion of Commissioner Bullock, Fred R. Taylor was granted a renewal of his lease in Guy's ward, West St. John.

A discussion took place regarding the selling of one of the city wharves. George Dick, for use in connection with his fuel business. Commissioner Bullock read a letter from the minister in Ottawa saying there was no objection to disposing of the property, even if the harbor were taken over by the government. A question as to the amount the property was worth and on motion of the commissioner of wharves it was decided to call for tenders for the wharf, with the valuation fixed and no price necessarily asked. It was brought out that an estimate had been made by the city engineer as to the cost of rebuilding the wharf and shown that it would take from \$20,000 to \$24,000.

**LARGE ATTENDANCE WHEN SCHOOLS OPEN AFTER THE HOLIDAY**

In spite of the rain today the attendance at the public schools upon reopening was surprisingly large, clearly indicating the low point to which the influenza epidemic has fallen.

At the High school pupils were on hand up to strength and throughout town, wherever a report could be gleaned, the buildings seemed to have almost normal numbers of children in the rooms.

The Board of Health on Saturday supplied the secretary of the board of school trustees with the location of 109 houses so far infected with influenza. These houses represented a wide scattering throughout town. Each school principal in town was supplied with a copy of the list and in this way children from infected homes could be singled out by their teachers and sent back. However, as far as could be learned today there were no instances of this kind in the afternoon as the newspapers for several days previous to the reopening of the schools had been publishing admissions from health officials along these lines.

**The Reports.**  
Up to noon today the Board of Health office had not received any report from its inspectors concerning new cases of influenza, if any. The removal of placards is going on quickly.

Misses Munro and Adams, of the public school teaching staff, also Mrs. Archibald, have returned from Minto, Queens county, where they were engaged in nursing during the epidemic.

**STILL REQUIRE THE PASSPORTS**

No Let-up in War-time Regulations and Heavy Demands on Transportation During Demobilization May Keep Them in Force

Asked if the proposed disestablishment of many things military in Canada would soon bring about a stoppage of the examination of civilian's military service papers, etc., by men in uniform, a high local official said today that he could not answer that question definitely.

"We still have our orders to 'carry on' in that particular," he said. It is rumored that coincident with the demobilization of Canada's army the examination of M. S. A. papers will cease at the trains, on public streets, public gatherings and everywhere. However, outstanding orders and evaders of the M. S. A. will be hunted out and punished for their infraction of the law and discipline.

In connection with the passage of civilians to and from United States both the Canadian and American immigration offices, here have received instructions to relinquish their war-time demands. Passport papers with photograph affixed still are required by Mr. Latham, in the customs house office, and the American superintendent in Oddfellows Hall headquarters says the orders contained in President Wilson's proclamation of May last still hold good.

Because of impending large movements of troops in connection with demobilization and other disorganization, the governments of both countries may be expected to continue to discourage civilian travel and keep as many checks upon it as possible. In fact, transportation facilities will be sorely taxed this winter and possibly for another whole year. So even if the military necessity of passports, etc., is removed an even greater necessity may arise because of trans-Atlantic traffic both going over and coming across.

**ICE COMPANIES AMALGAMATE**

The Two Local Concerns Now in One Organization—To Reduce Expenses by Elimination of Duplication

The Union Ice Company of West St. John, doing business throughout the city generally, and the St. John Ice Company, having its offices and storage plant in Hawthorne avenue near Rockwood Park's, have been amalgamated. The merger of plants and delivery facilities was consummated on Saturday. Plans are now afoot to so combine the physical assets of the combined companies that the coming winter's harvesting and the supplying of customers will be simplified and made less costly.

Speaking with The Times relative to this amalgamation today, W. E. Scully, of the Union Ice Company, said the new partnership was the outcome of long deliberation over the excessive expense entailed in the delivery of ice. The St. John Ice Company, in particular, had been feeling the strain for a long time, and nothing short of an amalgamation would give relief.

Under the proposed new plan of joint operation a customer of one company living downstairs in a house and a customer of the other former company, living in the upstairs apartments of the same dwelling will be served out of one wagon, whereas previously two wagons have been employed. In other words, there will be no duplication in delivery routes—a much needed saving of time, wages and fuel.

Mr. Scully said until the new arrangement is fully experimented with and many details straightened out it would be too soon for him to make any further statement. He was sure the amalgamation would be welcomed by customers of both companies as it would eliminate many little troubles caused by the unfavorable conditions under which the companies have heretofore been laboring.

**SECOND BREAK IN SAME OFFICE IN THREE WEEKS**

For the second time in three weeks the office of the Imperial Optical Company in Wellington row has been broken into. The first time the robbers forced an entrance and in addition to damaging the building and the office fixtures, stole considerable cash. On their more recent visit they found that means had been taken to prevent a second break-in and after forcing three doors found another which withstood their efforts. Apparently becoming alarmed they departed without being able to secure anything of value. William Levi, the manager, said that it is time better protection was given to citizens and a stop put to these outrages.

**BROOKVILLE FOLK MAKE A REQUEST**

The news in Saturday's Times that work on the road building out the Marsh had been stopped for the winter was not welcome news to the residents of Brookville and representations are to be made to the minister of public works who, it is felt, will at once see that there is good ground for complaint. If the road is left the way it is, about all the first layer of rock is down and also earth and gravel have been rolled on the stone, the sides of the road have been built up with sods, ditch cleanings, etc., and is just one sticky mass and forms a bank on either side of the road. These mounds have thus covered the only clean places where people could walk when the roads were muddy and there is nothing left now but the middle of the road which, while not just a sea of mud, is exactly a canal of mud and water with the ridges of earth on either side forming the banks of the canal.

While there is bound to be inconvenience in the building of such a road the present conditions are unreasonable and it is suggested that a side be made of the gravel that is in Drury Cove which is going on the road anyway and could be used for that purpose next spring when operations resume.
