On Sunday evening of Pine Ridge, N. B., also to visit last many were turned away, the public having learned that a temperance sermon was to be preached. It was an exceptionally able effort. There was no ranting, just sound, convincing logic, with scant attempt at eloquence. In the course of this sermon Mr. Dobson stated that after nearly three months' residence here he was prepared to say that during an observation of thirty years in Canada, the United States and Great Britain, he had never and Ella J. Charlottetown is the most successful ever held in this province. The attendance during Wednesday and Thursday is the largest ever known here. Perfect weather prevails. The exhibits, too, are the best this province has ever shown. Every department is crowded, and each seems to excel. Of shorthorn cattle alone there are seventy entries. Mr. Archibald of Truro is here with 21 head, mostly Ayrshires, and all the other classes are well filled. Of swine there are upwards of one hundred entries, and of sheep about one hundred and fifty. The exhibit of horses is an excellent one, doing high est credit to our Island breeders. The vegetable, grain and fruit exhibits are the best ever seen here, there being 750 exhibits of apples alone. The hogs in their live state weight hundred and fifty pounds, and onethird is usually deducted for waste in dressing. The animals delivered this week at the factory have all been in prime condition. They were shipped in cars holding about ninety hogs apiece, so the factory has the excellent record f handling about four hundred and fifty hogs during its first week of operations. The capacity of the Fairville establishment is about three hundred animals a day, and as the season advances the number dealt with will increase as the supply throughout the province becomes more plentiful. The factory is fully equipped in every detail and is the first establishment of its kind in St. John to adopt the modern method of slaughtering and dressing by machinery.

Divorce Laws. BOSTON, Sept. 29.-Arrangements have been practically perfected for the opening here next week of the international peace congress and triennia general convention of the Episcopal church. The former will be in session about one week and the church conclave three weeks. Secretary of State John Hay is expected to welcome the peace delegates on behalf of the national government, and action will be taken looking towards a movement to end the Russo-Japanese war. Rt. Rev. Dr. Boyd-Carpenter, Bishop of Ripon,

and the Lord Bishop of Hereford are here to attend the peace conference, and they will be present with the Archbishop of Canterbury at the Episcopal convention. Dr. Boyd-Carpenter will preach next Sunday in Trinity church, and the other English bishop in Emmanuel church. The Bishop of Fond du Lac, Wis., Rt. Rev. Charles C. Grafton, the dean of the high church forces in the United States, will preach Church of the Advent. Grace of Canterbury is expected to deweek from Sunday. After the second round, however, and until the middle of the contest, Walcott employed his right almost exclusively to Gans' body and kidneys, gaining a decided lead. The 19th round nearly saw Walcott's finish. Gans started the round with a tremendous smash to Walcott's jaw and soon had him in apparent distress.

EPISCOPAL CONVENTION.

Number of Preliminary Services Snnday.

The Pulpits of Boston Churches Occupied by Many Prominent

BOSTON, Oct. 2.-A' number of services preliminary to the general convention of the Episcopal church were held here today, and among the preachers were bishops and other clergy who have already arrived to participate in the formal opening proceedings on Wednesday. Bishop J. S. Johnson of Western Texas preached in the forenoon in St. Paul's church, Brookline, and in the evening at St. Stephen's church, Boston. The service at St. Stephen's was conducted in the interest of the Actors' Church Alliance, of which Bishop Potter of

New York is national president. Rt. Rev. Charles Chapman Grafton, S. T. D., Bishop of Fond du Lac, Wis., one of the leaders of the High Church party, delivered a sermon on Church Principles and Church Parties at the Church of the Advent, of which he was once rector. Bishop Grafton traced the history of the Anglican church, stating that the golden chain at the time of the reformation no new church was formed, nor was there a change in church government, save in the rejection of papacy.

Dr. Grafton said there was much to praise in the Roman Catholic church and in the various Protestant denominations. He did not look for reunior at this time, especially with the Roman Catholic church, as under present conditions it was "impracticable, impossible and unthinkable."

Referring to the existence of three parties in the Episcopal body, the Bishop said that parties did not exist within the church as in national life. 'First and last," he said, "we are churchmen. In the coming convenstrong convictions may be expressed, but our endeavor will be to find what is the mind of God, not what is the will of the majority. We seem to be of the sea, but in dogmas we are as one as the ocean."

Evidence was taken at the Magdalen Islands, St. Mary's Boy, Long Island Brier Island, Campobeilo, Deer Island, Grand Manan, and also at several points in Charlotte county. In answer to the query of the Sun last evening as to whether any definite

conclusion had been reached regarding the matters under investigation, Col. Tucker replied in the negative. The evidence taken is very volumin-

Tucker stated that owing to the early date off the elections, in which both Mr. Copp and himself were very much interested, it was not probable that the final report of the commission would be made very soon. JUDGE RUSSELL

The appointment of Benjamin Russell, K. C., D. C. L., late member of parliament for Hants, to the bench of his province will be well received. Dr. Russell is one of the leaders of the Nova Scotia bar, and outside of his professional learning is a man of wide culture, and varied attainments. All his life he has been a hard worker and he brings to his new position a body of useful experience. The political career of Dr. Russell covers two parliamentary terms. He has been less successful in politics than elsewhere, for he seemed to have left at home some of the fine scruples which he exhibited in other activities Friends of his in both parties were rather surprised at the course which he pursued in the investigation of the West Huron and Brockville election scandal, and in the emergency food case. CHE FOO, Oct. 3, 2 p. m.—An official report from General Stoessel, dated Sept. 23rd, reached Che Foo to-day, confirming a previous report of the repulse of the Japanese attack on Port Arthur. It began Sept. 19 and ended Sept. 22. The fighting was of an extremely severe character. The Japanese having retired General Stoessel issued the following proclamation:

"Glory! Thanks to God! Glory to our heroic garrison! Glory to Illman, Sychaff and Poggorsky-Heroes all! Thanks to our valiant volunteers who routed the enemy from the trenches. destroying them. God has permitted us to repulse the enemy. Praise to God!" The volunteers referred to by General stoessel were made up of regulars called upon to take a high hill which had been captured by the Japanese.

From semi-official sources it is learned that the attack began on the 19th along the whole line and lasted four many times.

CANADA EASTERN TRANSFERRED.

Was Handed Over to the I. G. R. Saturday.

New Time Table to Ge Into Effect Today—All the Old Employes Have Been Retained.

FREDERICTON, Oct. 2.-The Canada Eastern was transferred yesterday morning to the Intercolonial and is now running as part of the government road. All the old employes are retained under the new management and Mr. Hoben has become assistant super intendent of what was known as the Peculiar Accident that Happened at Canada Eastern. The prophecy of those that the road would not be transferred until after the date of election had been announced has in every way been fulfilled. The proceedings over the whole business have not aided the government party in this constituency. Tomorrow the new time table will go into effect. Running under this, the express will leave Fredericton daily at 16.30 o'clock and will arrive at Loggieville at 22.15, or 10.15 p. m. This time will be about an hour faster than the present, and will thus make sharper connection with the I. C. R. express north at Chatham Junction. An express will also leave Logieville daily at 6.30, arriving at Fredericton at 12.15,

instead of at 1.15 as at present. The mixed trains will run daily each way, one leaving Fredericton at 6.30, arriving at Loggieville at 15.20, or 3.20 p. m., the other leaves Loggieville at 7.40, arriving at Fredericton at 16.55,

or five minutes to five. When people were told on the streets today that the Canada Eastern had been transferred no one would believe it. The public had come to regard the whole matter as so much humbug that they couldn't believe that the transaction could possibly be a reality.

ERE.

Edgerton, Wis tells how she was cured of irregularities and uterine trouble, terrible pains and backache, by the use of Lydia E. Pinkham's Vegetabie Compound.

DEAR MRS, PINKHAN:—A while ago my health began to fail because of female troubles. The doctor did not help me. I remembered that my mother had used Lydia E. Pinkham's Vegetable Compound on many occasions for irregularities and uterine troubles and I felt sure that it could not harm me at any rate to give it a trial. "I was certainly glad to find that within a week I felt much better, the terrible pains in the back and side were beginning to cease, and at the time of menstruation I did not have nearly as serious a time as heretofore, so I continued its use for two months, and at the end of that time I was like a new woman. I really have never felt better in my life, have not had a sick headache since, and weigh 20 pounds more than I ever did, so I unhesitatingly recommend your medicine."—Mrs. May Haule, Edgerton, Wis., Pres. FREE MEDICAL ADVICE TO WOMEN.

Don't hesitate to write to Mrs. Pinkham. She will understand your case perfectly, and will treat you with kindness. Her advice is free, and the address is Lynn, Mass. No woman ever regretted having written her, and she has helped thousands.

When women are troubled with irregularities, suppressed or painful menstruation, weakness, indigestion, leucorrhea, displacement or ulceration of the womb, inflammation of the ovaries, general debility, and nervous prostration, or are

beset with such symptoms as dizziness faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all-gone" and "wantto-be-left-alone" feelings, blues, and hopelessness, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Frances Cook, Box 670, Kane, Pa., says: "DEAR MRS. PINKHAM:-I suffered for ten years with leucorrhoea, but am glad to say that through the use of Lydia E. Pinkham's Vegetable Compound and her Sanative Wash I am cured, for which I am very thankful."

Hundred and Ninety Pounder at Chatham

But the Exhibition of Manufactured Goods is Not Up to the Standard.

CHATHAM, Sept. 28 .- The exhibition has been favored with exceptionally fine weather, and people from far and near have come to see the show. Taken on the whole the show as a show of what our own people can do is rather disappointing. The firms which contribute most largely to such manufactures as this locality can produce are conspicuous by their nonrepresentation. A. & R. Loggie, one of the largest fish curing concerns in the dominion, has no display. W. S. Loggie, another large handler of fish and other lines of merchandise, is also a non-exhibitor. Not a piece of manufactured wood, if we except one or two small exhibits from Newcastle and Chatham, is shown; not a boot or shoe of domestic make, not an article from any machine shop; hardly any line of industry is represented her e except

that of agriculture. It may not be fair to say that the fault lies with the management, it may rather be that our industrial concerns are as yet so undeveloped that those who are engaged in them feel too weak to put up such a show as the age demands. It is to be hoped that this disability may be removed in some way before the next annual display. The agricultural exhibit, though small, is of exceptionally good quality; the ponderous squash and pumpkins are almost abnormal in their proportions, one squash being marked 190 lbs., while a second is ticketed 94 lbs., both grown by Mr. Sutherland of Blissfield without any artificial aid. Beets and carrots of huge proportions,

The International Schools of Correspondence have a stand at the extreme end of the south promenade, while on the last walk there can be found the refreshment table, where drinks can be procured.

The absence of the tea dispensaries of Mr. McGaffigan and the Union Blend people was deplored by many of the ladies, and a table where a good cup of that beverage could be procured would have met with a generous patronage. Immediately in front of the refreshment booth may be seen bags of beautiful grain, while to one side are sheaves of the fullest ladened

wheat. Ascending the eastern stairs one comes upon the poultry exhibit, and it is really a first class one, including hens, geese, ducks and pigeons, some of which would evidently be in the Dr. Chase's Offitment running at any show. Passing along

the north side we come to the dictionary and lamp display of Mr. Benn. Our local photographer, J. Y. Mer-sereau, has a most creditable display, and has shown considerable enterprise in his endeavors not only to make a good display but also in his desire to perpetuate the show and its surroundings by the aid of his camera.

Mr. Williston of Newcastle has a fine display of phonographs and goods connected therewith, and the ever-pleased sight-seer always makes a lengthy pause before his allotment listening to the latest song.

Upon moving along the western corridor we come to a very fine display of Eastern curiosities and other bric-abrack which have been loaned by E John Vanderbeck exhibits a nice col-

This includes patch-work quilts, crazy quilts, and quilts not quite crazy but nearly so. rugs of all kinds, shawls, wraps, collars, centre pieces, bead work, wax flowers, hand-painted china and works of art which would require one of the artists to describe.

Next in order and about last in the building is the display by the Ogilvie milling concern, and the very latest and best of the products of this universally known concern are here exhibited, and the visitor is informed of the verious details by an attendant.

Outside the building the stock attracts attention. Some very fine sheep are shown from the farm of the Snowball firm; pigs of various kinds, many with litters of young, are exhibited by Messrs. Fisher, G. W. Dickson, Stothart, Traer, Keating, Baldwin, Murdock, Irving, Johnston, Dick, Flett, A. G. Dickson and McDougall.

Among the exhibitors of horned stock were noticed Kennedy Burr, Fisher and Snowball, the two latter having a very fine display; one calf of Snowpall's, only three weeks old. was held against an offer of \$80 at the St. John fair.

The horse show, while good in quality, was rather meagre in quantity, and was in marked contract to that of last year; indeed, the same can be said of the whole show. Two or three booths on the ground

gave prominence to the envelope-lottery cheap jewelry concerns, while another with a display of cheap knives and walking canes catered to the skill (or want of it) of the cheerful idiot of the ring-throwing order. A sideshow of some buffalo freak completed the outside attractions.

The attendance has been fairly good, great many people are in town, and every hostelry is doing a rushing business. The races which are on today are drawing large numbers of people, and everyone appears to be in a happy frame of mind.

DR. DANIEL M. P.

speaker. After the applause with which he was received had subsided, he discussed in general terms the issues before the electorate.

So far as this port was concerned, Dr. Daniel said, he could not see how the people of St. John could give any answer except one of condemnation of the Grand Trunk Pacific scheme. Why should we be taxed one million dollars and over, merely to aid the Grand Frunk Railway to make the shortest haul to American ports, in order to allow them to carry on their business at the greatest profit? If the people of St. John had their interests at heart he could not see how the liberal party could get a single vote from this constituency in favor of their policy. (Applause.)

Dr. Daniel said that he wished to refer to a very important matter and one which should have a great bearing on the results of the coming contest. This was the manner in which elections had been carried on in certain parts of the dominion under the guidance and approval of the liberal leaders. Canada had always been a free country: every man always had a perfect right to his own ideas and ould place his ballot in the box with the feeling that it would be counted for the candidate for whom it was intended. (Hear, hear.) But what had we found to be the condition of affairs in Ontario? We had learned that the liberals had committed robbery and the candidate for whom the ballots were not intended got the benefit of them. Dr. Daniel said he was well aware that in the liberal party of this city there were men just as honest as any in the conservative party, and men who he did not think would under any consideration commit or be a party to a scheme so nefarious as the one recently carried out in Ontario. But so long as these men, with the liberal party in general, excuse such actions, so long must this work of crime and fraudulence

go on. (Hear, hear.) Speaking further of the received. The future of St. John was at stake, and he expected that on the third of No-vember the ballot boxes would register in an unmistakable manner the people's disapproval of the govern-ment's Grand Trunk Pacific bill and elect as their representative the Liberal Conservative candidates, whoever they might be, in order that the interests of St. John might be properly safeguarded. Mr. Agar was cheered as he resumed his seat.

J. M. B. BAXTER.

Mr. Baxter was the last speaker, and innounced that as the general issues had been ably discussed by the speakers who had preceded him he would ontent himself with a few observations as to the position of St. John in this contest. A citizen of St. John had recently said to him that he had decided to remove to another part of the dominion, where the chances for his family would be greater. He felt that St. John was not progressing as she should. Now what was the remedy for this condition of affairs. Owing to the distance from the great centres St. John could not hope to lead as a manufacturing city, but she could handle the goods of other places. The winter port was the answer. (Applause). What party can the people of St. John look to to develop that enterprise. The liberals often say, what has the conhad to do was to keep Laurier in, for servative party done to help St. John? get that it was owing to the subsidy given by the conservative government telegram which had been sent to that the short line was built. What have the liberals done?" A voice replied, "They have built the elevator." "Yes, and used it as a car warmer," said Mr. Baxter. Mr. Baxter said that he had a good deal of respect for the political memory of Andrew G. Blair, but Blair was throttled. He was not allowed to extend the I. C. R., and bound to ship through maritime province ports. Among the people who ment purchase the Canada Atlantic, had also been vetoed. RAG-PICKER'S RACE FOR A PLACE

Among the rag-pickers of Paris exists a hierarchy. Those of the first degree, the aristocrats, are inside the city, and have the first pickings of the household dustbin. Then the rubbish the water in surface wells and in tubs is carried away in carts to works in and barrels of water out doors. Overthe suburbs, near the city of the "biffins," or rag-pickers, where it under- fort by those about in the early hours goes a second sorting. In the works it is pitchforked on to a couple of endless bands, which carry it to the breaking machine. Now comes a curious custom (says the Manchester Guardian). There are only sixteen places along side the endless bands where the secondary experts can filch out sardine tins, broken bottles, rags, and other things, as the rubbish passes along. But there are fifty applicants. In the old days these used to lie and sleep all care a rap what turns up. night round the doors of the works, in all weathers, sleet, snow, or frost, providing ample material for the hospitals. To put an end to this a hundred yards' scratch race is organised every morning, the distance between a couple of lamp-posts, and the first sixteen choose their places in the order of their arrival.

HALIFAX, N. S., Oct. 2 .- The campaign opens in Prince Edward Island by a liberal conservative meeting in Charlottetown on Monday evening The conservatives are all in the field ready for battle, while the liberals, especially in Queens, are demoralized. Today Horace Haszard, late M. P. for Quens West, announced his retirement from politics. D. A. McKinnon. M. ONLY A QUESTION OF MAJORITY. ST. STEPHEN, Oct. 2.-The call for an election has found Charlotte county conservatives all prepared with a candidate nominated a year ago and the party fairly well organized in all sections. In St. Stephen, headquarters have been established in the store recently vacated by F. N. Carter & Son and the first rally will be held on Wednesday evening next. On the same evening the liberals will meet at F. H. Todd & Sons' office to elect delegates to a county convention to be held here on Thursday. With them the selection of a candidate is surrounded with difficulties. R. E. Armstrong, who was their last candidate, has enjoyed to the full the patronage of the county, with a commissionership to himself, and is reluctant to see such crumbs of comfort go to another. In his paper he has strongly resented the intrusion of the "man with a barrel," who is Daniel Gillmor of Montreal, who seeks the representation of this county as a side line and is reported to be the choice of the government at Ottawa. Mr. Gilltnor's candidature is also assailed by an element in St. Stephen that has hitherto been able to dominate the party and which now declares that W F. Todd, ex-M. P. P., would receive the party's nomination. This plan carries with it a permanent reward for Mr. Armstrong in the collectorship of customs at St. Stephen, a plan not altogether acceptable to some members of the party here who have been looking for this plum to fall into their laps. The most that the liberal leaders hope for is the patronage of the county should the government be sustained in the elections, and the strife is for the possession of this coveted prize, which has proved so valuable under the libgovernment. Mr. Ganong's election by an increased majority is as-

Death Announced of John Foster Kirk.

Was a Celebrated Historian and Author of the Life of Charles the Bold. Duke of Normandy.

BOSTON, Oct. 1.-The death is announced in Chestnut Hill, Pa., of John Foster Kirk, a celebrated historian and author of the life of Charles the Bold, Duke of Normandy. Mr. Kirk was born in Fredericton, March 22, 1824, and having received a careful education from private tutors in his youth, he came to Boston and entered upon literary work. In 1847 he became secretary and assistant of William Hickling Prescott, and remained with him for 12 years, or antil Mr. Prescott's death. He was a master of several languages of Europe and of the history of the European world, and his service to Prescott was inestimable in the preparation and editing of QUEENSTOWN, Sept. 29 .- Sld, str all that series of histories which made Prescott famous. Before securing Kirk's assistance, the historian of the Conquest of Mexico, the Conquest of Peru, Philip II., and Ferdinand and Isabella, had been dependent upon the reading of Spanish books by a secretary who knew no language but English. Mr. Kirk thus contributed in an important way to the accuracy and thoroughness of several of these still standard histories, and Mr. Prescott recognized this in one of the most cordial tributes ever paid by a literary master to his fraternal helper. The reader of the history of Philip II. will not have failed to notice in the preface his acknowledgment of indebtedness. Mr. Prescott chose him as his companion in his visit to Europe in 1850-51, when he was received at all the great European capitals with the finest social honors from scholars and the literary circles generally, and as well with especial distinction in Spain. After Prescott's death. Kirk entered

eriously on the task he had set himself-the story of that extraordinary personage, Charles of Burgundy, the rival and the ally by turns of Louis XI. of France. This work was pronounced by Edward A. Freman, one of the richest of historical biographies. Meantime, he contributed to the Atlantic Monthly, then in its vigorous vouth a series of keen critical articles on the writers who had impugned Prescott's veracity and accused him of out-of-door exercise." credulous trust in the early Spanish authors in respect to his histories of Mexico and Peru. Nothing in the rets of long life." way of extinction of these critics and he rival historians was left to be done, and probably no one today

could name one of the squelched subjects of his excoriating exposition. Mr. Kirk wrote much for the North American Review, and afterward for the Atlantic Monthly, besides other periodicals. In 1870 he left Boston for Philadelphia, where he made his home for a long time. There, until 1886, he purpose, and you will live." W-s editor of Lippincott's magazine, and there he finished the final edition of Prescott's works; and completed his history of Charles the Bold, the first volume of which he had published in 1863. When he gave up the editorship of Lippincott's, it was to accept the lectureship of European history at the University of Pennsylvania. Also he devoted years of labor to the two supplementary volumes of Allistone's Critical Dictionary of English Literature and British and American Authors, thus forming a continuance of the literary history of the English tongue on a plan which has been in small neasure since copied by others. Mr. Kirk's second wife, who survives him, became known as an author under her maiden name of Ellen Warner Olney, daughter of Olney the geographer, and author of many novels which Ways, A Lesson in Love, Sons and

Recently, I worked out a plan the rules of which, if followed carefully, will result in the increased longevity of one's life. My first word of advice to those who would live long is to avoid disease, especially such diseases as one is disposed to contract through inherited weakness.
