TORNADO CUT WIDE SWATH ACROSS MAINE

Waterville Scene of Greatest Destruction When Buildings Are Wrecked.

WIRES DOWN AND SERVICE BROKEN

Steeple Collapses, Sleeping Porch Blown Away and Much Ruin Caused.

Waterville, Me., May 22—A tornado which cut a wide swath through this city and vicinity today caused damage estimated at several thousand dollars. Many telegraph and telephone poles were snapped off and communication with outside points was cut for several hours. The electric lighting and trolley car services were put out of commission.

Huge trees were uprooted or broken off near the ground, blocking several streets, and in numerous instances smashing the roofs of buildings against which they fell.

Buildings Blown Down

Two or three small buildings were blown down, as well as many fences, several chimneys and two steeple points of the First Baptist church. A sleeping porch was lifted from a dwelling, blown over the house and landed on a lawn on the opposite side of the street.

Awings were stripped and many of their iron frames broken in two and a number of plate glass windows on Main street in the business district were broken. So far as could be learned no one was seriously injured.

Blown Into Water

Portland, Me., May 22—The freight and passenger shed of the Casco Bay Steamship Company at Doughty's landing, Long Island, was lifted from the pier into the water by a severe wind storm today. Four persons were thrown into the water and Earl LeMoine, 17 years old, was drowned. The others were saved.

The storm did much damage to fruit trees and buildings in this vicinity. The false brick front of a hotel was blown over and broke in the tops of three automobiles, but the persons hit by the debris was not seriously hurt. Big elm trees were blown over in all parts of the city.

The piazza of a hotel on Peak's island was taken off and obelisks and trees were blown down there. At Scarborough a barn was torn to pieces.

STILLMANS MAY SETTLE TROUBLE

New York, May 21—Settlement of the divorce suit brought by Jas. A. Stillman, millionaire banker, against Mrs. Anne U. Stillman, involving recognition of the legitimacy of the infant, Guy Stillman, has been sought by Mr. Stillman's attorneys, the New York Times announces in its Sunday morning edition.

The terms of the settlement are still under negotiation, the newspaper states. They provide for a separation agreement between Mr. and Mrs. Stillman, whereby she is granted a yearly allowance of \$30,000, the abandonment of the divorce proceedings and recognition of the child's legitimacy.

JOHNNY RAY GOT PAPER DECISION

Pittsburgh, May 21—Johnny Ray, Pittsburgh lightweight, was given the newspaper decision over Johnny Dundee, New York, in a ten round bout this afternoon at Forbes Field. Ray was the aggressor throughout and in the last round he had the faster on the ropes most of the time.

Plan For War

Vancouver, B. C., May 22—The Vancouver Province carries the following from Sydney, N. S. W.: "It is officially stated that at a British naval conference at Singapore plans were formulated for combined action by the East Indian, China, and Australian squadrons in the event of war."

COMMONS MEETS EARLIER

Ottawa, May 22—From now on until the end of the session the House of Commons will meet at two o'clock in the afternoon instead of three. At the opening of the house yesterday Right Hon. Arthur Meighen, prime minister, moved a motion to this effect which was carried. A motion providing for adjournment over Victoria Day was also carried.

TO OPPOSE GUTHRIE

Guelph, Ont., May 22—South Wellington Liberals, at a convention here on Saturday unanimously chose Sam Carter of this city as the party nominee for the Federal Parliament in the next Dominion general election.

Hon. Hugh Guthrie, Minister of Militia and Defence, is the present member for the riding. Samuel Carter was a member of the Ontario legislature for a number of years.

TURGEON EXPLAINS VENIOT INCIDENTS

Ottawa, May 22—A statement in regard to the Veniot incident was made in the House of Commons yesterday afternoon by O. Turgeon, (Gloucester), N. B. Rising on a question of privilege, he quoted the reference to him in the correspondence produced in the House Friday in which it was stated that Mr. Veniot would have to have a portfolio, and that he made an opening Mr. Turgeon would have to be provided for. "Mr. Turgeon," continued the member for Gloucester, "is well provided for the electors of Gloucester. The writer of that letter, I am sure, was not well acquainted with the mentality of the electors of Gloucester or he would not have written that letter."

BURNS TO DEATH ON POWER WIRES NEAR BATHURST

William McAulay Slipped While Painting to Terrible Death Below.

WIRES WERE CARRYING 2200 VOLTS AT TIME

Special to The Standard. Bathurst, N. B., May 22—A shocking fatality occurred yesterday morning at the Nepisiquit bridge at the eastern approach to this town when William McAulay, an employee of the Provincial Public Works Department, was electrocuted by coming in contact with high tension wires of the Bathurst Electric and Water Power Co. He was engaged, together with a number of other workmen, under Superintendent James Shields in painting the iron bridge which crosses the Nepisiquit River near the pulp mill.

At the time of the accident Mr. McAulay was working about forty feet above the floor of the bridge and a few feet above the transmission lines of the electric company.

He lost his footing in some way and fell directly upon the wires which were carrying a current of 2200 volts. His body was terribly burned. It was about fifteen minutes before the body could be removed from his position as word had to be sent to the lower station at Tétouche, ten miles away, before the current could be turned off. McAulay went through the war with great credit having enlisted in the 132nd Battalion and served at the front for nearly three years, being wounded twice. Since his return from overseas he has resided in Bathurst where he leaves a widow and two children.

Similar Accident Before

A peculiar feature of the fatality today was that another young man who was injured on the same bridge while engaged at the same work two years ago and who got off with a severe shock and the breaking of several bones when he fell clear of the wires to the floor of the bridge was working again near the victim of the accident. An inquest was opened this evening by Coroner Duncan who empaneled a jury which after viewing the body at the undertaking room of Elhaston Brothers, adjourned their inquiry until Monday.

HOUSE STRUCK AT FREDERICTON

Week-End Marked by Terrific Electrical Storms and Wind.

Special to The Standard. Fredericton, N. B., May 22—There has been a succession of heavy electrical storms here during the week-end, the most severe being that which occurred about 6:30 o'clock on Saturday night. The lightning was most intense and struck several places in and about the city but did no serious damage here. The residence of the Misses McLean, 280 George Street, was the only house that was hit and it escaped with some bricks being shattered off the chimney and a window broken. Several trees were struck.

No Extradition of Wife Deserters

Hon. Mr. Doherty Says U. S. Amendments Have Altered Situation.

Ottawa, May 22—There will be no legislation at the present session of the Dominion Parliament in regard to the extradition of wife deserters who have taken refuge in the United States.

Right Hon. C. J. Doherty, Minister of Justice, yesterday afternoon explained to the House of Commons that the message sent by the British Embassy was erroneous and that it had been learned the ratification of the extradition treaty upon this subject by the United States Senate was subject to an amendment which substantially altered it. Consequently it was not proposed to proceed with legislation this year. Mr. Doherty accordingly withdrew two bills relating to the treaty which were on the order paper.

BEER BILL'S CHANCES

Halifax, N. S., May 22—"It is not the intention of the government to keep the House in session to enable second reading to be given the 'beer bill,'" said Hon. E. H. Armstrong, government leader discussing the bill proposing to permit sale of beer in Nova Scotia in the provincial House on Saturday. It is in the hands of the members of the House as to when the House shall open and close, he declared. Hon. E. E. Finn, introducer of the bill, "I am not to be driven into a corner."

FARM LEADERS WITH MEIGHEN ON N. B. VISIT

British Columbia and Ontario Will be Represented by Member.

MILITIA MINISTER TOO ILL TO ATTEND

Civic Reception to be Given Premier When He Reaches Capital.

Special to The Standard. Fredericton, N. B., May 22—Plans were completed tonight for the civic reception to be tendered Rt. Hon. Arthur Meighen, prime minister of Canada, when he arrives here tomorrow morning on his first visit to the capital city of New Brunswick since his elevation to the position of prime minister. It will be the first time a prime minister has visited Fredericton since Sir John Macdonald's visit in 1887.

Met At Station.

Mr. Meighen will be met at the C. P. R. station by the city council and escorted to the City Hall where he will be presented with an address expressing the city's welcome and congratulations.

Hon. Hugh Guthrie, Minister of Militia, who was to have accompanied the prime minister here, is ill at Ottawa, according to telegrams received here today, and thus unable to come. F. B. Stacey, M. P. for Chilliwack, B. C. and J. E. Seasmith, M. P. for East Peterboro, Ont. two farmers members supporting the Meighen government in parliament, will accompany the prime minister and Mrs. Meighen will also be with him.

The Plans.

In the afternoon the prime minister is to address a meeting for women electors at the Opera House at three o'clock and in the evening there will be a mass meeting at the Arctic Rink which has made into an auditorium with seats for several thousand people. This meeting will start at 8:30 o'clock, being preceded by a patriotic band concert. All meetings are on daylight saving time which is now officially in operation in Fredericton.

CHAUFFEUR OF RUM AUTO GOT ACROSS BORDER

Driver of Auto That Killed Devon Man Believed to be Badly Injured.

COMPANION WAS BADLY CUT UP

Alleged He Says He Did Not Know Victim Was Under the Car.

Special to The Standard. Fredericton, N. B., May 22—While looking for the third occupant of the liquor laden automobile which was wrecked Friday afternoon, the police came upon forty-five kegs of beer said to be over strength. Because it was addressed to the third occupant of the car, it is said that the legality of a seizure from a private residence will be the subject of a legal battle. The kegs and their contents are said to be worth \$500.

Got Into Maine.

No further word of the missing chauffeur has been received here, except that he got into the State of Maine safely in a car which met the one in which he started from here half way between here and Woodville, N. B. He is said to have been badly cut up, having been thrown through the windshield when the car struck the telephone pole and being rammed against the steering wheel and his chest injured when the car brought up against the tree. His companion, Joseph Toner, was also badly cut and bruised about the head but has since been removed to his own home from Anderson Place on the Woodstock road.

Toner is Injured.

Toner is said to be injured internally so that he cannot eat. Toner has told the police, it is alleged, that he was so badly stunned in the crash that he had to be carried bodily away by his friend and didn't know that Fred Hazlett of Devon who they were giving a ride from Peterboro, Queens County, to this city, was pinned under the car.

The funeral of Fred Hazlett, who was killed in the wreck of the automobile, will take place tomorrow afternoon, having been delayed pending the arrival from Lynn, Mass., of his aged mother.

Wounded Soldier Sinn Fein Victim

Took Him from Hospital Bed and Killed Him in the Yard.

Dublin, May 22—Unknown men entered the Jasovic street Hospital here today and dragged away a former soldier, who was being treated for a bullet wound, and shot him dead in the hospital grounds. The man's wife and children were at his bedside when he was taken away.

Sinn Fein men commandeered a motor car today and raided optical establishments, taking telescopes and flashlights.

ARREST THREE FOR HALIFAX ARSON CHARGE

Action Taken by Police, it is Alleged, on Statement of One of the Trio.

CLAIMS HE SAW OIL SPRINKLED

Part of the Insurance on Burned Property Said to be Paid.

Halifax, N. S., May 22—Representations made to the police by Allen Roache that he had been hired to assist Alfred Muir to set fire to the garage of C. L. Dauphinee, owner of a transfer company here, resulted in the arrest of all three men on Saturday. Dauphinee's garage was burned some weeks ago, and he is said to have already received some insurance on it.

What is Alleged

Roache claims, according to the police that Muir promised him \$500 for his assistance. He accompanied Muir to the garage, he says, and saw him sprinkle the floor with oil and set it on fire. Muir received \$1,500 from Dauphinee on this account, he alleges, but Muir only paid him \$150.

NEW ASSISTANT IS ORDAINED TO ST. MARY CHURCH

Rev. J. Haslam Will be Assistant Here to the Rev. R. P. McKim.

SIX ARE ORDAINED AT FREDERICTON

Rev. C. J. Markman of This City Will be Assistant at Chatham.

Special to The Standard. Fredericton, N. B., May 22—Six deacons were ordained at Christ's Church Cathedral this morning by His Lordship the Bishop of Fredericton and all have been assigned to various parishes in the Diocese of Fredericton. A large congregation attended the ordination service, which was of a most impressive character. The candidates were presented by Very Rev. Scott Noles, Dean of Fredericton, and Bishop Richardson preached the ordination sermon. One of the candidates, Rev. C. J. Markman of St. John, read the Gospel for the day.

Where They Work.

Those who were ordained and the parishes to which they have been assigned follow:

Rev. C. J. Markman of St. John, to become rector of Hartwood, taking charge of the Parishes of Aulden and Brighton.

Rev. William E. Waddington of England, who recently arrived in this province, to be rector of Hammonds River, Kings County.

Rev. Robert A. Miller, M. A. of King's College, to be assistant to Rev. Canon Sissam at Moncton.

Comes To St. John.

Rev. J. Haslam, a Native of Prince Edward Island, and graduate of Wycliffe, Toronto, to be assistant to Rev. R. P. McKim, rector of St. Mary's Church, St. John.

Rev. Norman P. Fairweather of Norton, Kings County, a graduate of King's College, to be in charge of the Mission of Musquash and Lepreau, St. John County.

Islington Lodge Sons of England held their annual church parade in observation of Empire Day and Victoria Day this evening. Headed by the Fredericton Brass Band upwards of forty members of the Lodge marched to St. Anne's Parish Church, where Rev. A. F. Bate, their chaplain, preached a patriotic sermon.

JAGUAR TAKES OFFENCE AT A RAILWAY TRAIN

Tried to Slap Off the Track But Failed in Effort.

CUB CAUGHT BY BOAT PASSENGER

Invaded Room of Young Lady and Scared Her Badly When She Entered Cabin.

New York, May 22—A big and fierce Colombian jaguar, with the same disposition that characterized the bull that thought it could but a locomotive of the track, tackled a similar job in jungle land near Santa Maria, when she was on the boat.

The jaguar, according to passengers of the United Fruit steamship Tivives, in yesterday from Colombia, Canal Zone and Jamaica ports. When the Tivives arrived at Santa Maria many passengers went ashore for a ride through the wilds, accompanied by two native guides, who agreed to catch monkeys for \$1 each for the women.

Attacked Engine.

While chasing the monkeys the jaguar, a female, appeared with her cub and all the party fled except one guide, who sought refuge in a tree. The bear in pursuit. They crossed the railroad tracks and the cub was approaching and were pleasantly surprised to note that the jaguar apparently decided to knock out the noisy locomotive before attacking the party. A few snarls and an aggressive paw did not count much in the one-sided duel. There was not enough fat of the jaguar to identify her as that of a jungle creature.

Frightened Passenger.

The party went back, called the guide down from the tree, and John Terstenjak, a barber of Shohola Glen, Pa., who has a menagerie at his farm, caught the cub and held it in a net, not enough to prevent him from invading the cabin of Miss Evelyn Smith, a cruise passenger, eight days ago. When she saw the cub's eyes glaring as he lay curled like a kitten at the foot of her bed, she screamed. The cub was more frightened than she was and jumped through the port-hole, ran along the deck and hid in his own bed in the barber's stateroom.

Must Find Oil Before Trains Come

C. P. R. Will Not Rush a Service to the Fort Norman Area.

Winnipeg, Man., May 22—Until it has been shown conclusively that oil does not exist in paying quantities nearer to present transportation lines, railway transportation to the Fort Norman oil district will not be provided, declared D. C. Coleman, vice-president in charge of Western lines of the Canadian Pacific Railway, yesterday. Mr. Coleman returned today after a trip through Western Canada and Alaska. He stated that geologists had declared that there is no reason why oil cannot be found in paying quantities in other portions of Alberta and that this has been borne out by the fact that oil has been discovered recently near the Montana boundary.

THIRTY FIRES BY SINN FEIN NEAR LONDON

Farm Buildings, Hay Stacks and Garages Chief Object of Attack.

GAS MAINS ARE CUT AND BOMBED

Engineering Plant and Saw Mill Burned—Some Assaults Are Shot at.

London, May 22—Another arson campaign, supposedly of Sinn Fein origin, occurred Saturday night between ten o'clock and midnight when about thirty fires were started, mostly in farm buildings and hay stacks, but in some instances motor garages and timber yards in the neighborhood of Jarrow, Wallsend, Stockton and Middlesbrough.

Gas Mains Exploded.

Gas mains over the bridge between Jarrow and South Shields exploded, temporarily depriving the towns of light. Some of the suspected incendiaries were fired at by farmers and three arrests were made. The Valley water board's main outside Stockton was blown up, causing serious floods. In most cases the fire damage was comparatively small, but an engineering plant and saw mill at Stockton were destroyed.

CASHIER FOUGHT OFF TWO THUGS

Valise Contained \$30,000 to Pay Employees at Cameron Falls.

Port Arthur, Ont., May 22—An unsuccessful attempt was made at noon Saturday to hold up Charles May, paymaster at the Hydro-Electric Company at Cameron Falls, 70 miles east of Port Arthur. May had just stepped off a Canadian National train carrying two suit cases, one containing between \$20,000 and \$30,000, the other a few personal belongings, when two men confronted him with a gun.

Put Up a Fight

May put up a fight, whereupon the robbers fired two shots, none of which took effect in the mix-up one of the men grabbed the suit case containing personal articles.

Constable Eady of the Hydro-Electric police, intervened and was shot twice, but not seriously injured, wounding one of his assistants who was later captured.

Would You Advise Me to Take Nuxated Iron? — I Am Weak

NERVOUS, and "ALL PLAYED OUT" after my day's work, but times are "hard" and money scarce and I do not want to spend a cent that is not absolutely necessary.

In "hard times" it is more difficult to make MONEY and "GET AHEAD" than it is in good times, you, therefore, require MORE PHYSICAL AND MENTAL VIGOR, STRENGTH, and endurance in "hard times" to help you overcome the numerous difficulties, obstacles and stumbling blocks you are bound to meet.

Now as to taking Nuxated Iron, what would YOU SAY a man should do if he had WEAK LEGS or no legs but had to get his food by running after it—would you advise him to get a pair of good strong legs if he could do so? The case is not exactly parallel but IF YOU REQUIRE MORE BODILY AND MENTAL VIGOR, to get ahead in "hard times" then isn't it good economy to purchase anything you can which helps make you stronger?

Many a man is struggling, trying hard to get ahead, but just as he gets a start something always seems to go wrong that sets him back, while another man with apparently less ability seems to get along famously and comparatively little effort.

Indoor life, overeating, household drudgery, gripping, galling worry and nervous strain are sapping the iron and thereby the very life, from the blood of thousands of men and women.

We do not advise what to do in individual cases as this is the province of the physician, but we do say that if you lack sufficient iron in your blood to give you the strength, energy

and endurance you need to get ahead and overcome obstacles, by all means try NUXATED IRON.

NUXATED IRON often increases the bodily and mental vigor of weak, tired, worn-out, nervous people in two weeks' time.

In addition to organic iron, Nuxated Iron also contains a product which represents the principal chemical constituent of ACTIVE LIVING FORCE for feeding the nerves.

Beware of substitutes. Look for the word "NUXATED" on every package and the letters M. I. on every label.

J. W. V. LAWLOR WROTE PREMIER ABOUT VENIOT

Correspondence is Produced by St. John Man Who Initiated Matter.

ACTION TAKEN WAS PURELY PERSONAL

Saw Mr. Veniot After He Had Received Reply to Letter to the Premier.

J. W. V. Lawlor, of this city, was the author of the letters sent to Premier Meighen last winter, suggesting the Hon. P. J. Veniot of New Brunswick for a seat in the Federal Cabinet.

On Saturday the St. John Globe published the following letter from Mr. Lawlor admitting the authorship of the letter and giving his part in the controversy. The letter published is as follows:

Ottawa, Ontario, Dec. 1st, 1920. Dear Mr. Lawlor—I have just received your letter of the 29th November. I will discuss the subject to which you call attention with Mr. Wignmore. I have had no intimation whatever from the party to whom you refer as to his attitude towards the government or toward the paramount federal issues of the day.

Faithfully yours, J. W. V. Lawlor, Esq., P. O. Box, 655 "St. John, N. B."

That is the letter which Honorable Mr. Veniot is trying to make the public believe is an invitation to him to become Premier Meighen's successor.

After receipt of that letter I had a conversation with a gentleman well known to Acadians and who takes a keen interest in their welfare, and we discussed "Acadian representation" and Mr. Veniot quite fully, and in parting he urged me to see Mr. Veniot at once.

As he was a supporter and close friend of Honorable Mr. Veniot, I followed his advice and wrote Honorable Mr. Veniot, asking whether day he would be in St. John or Fredericton as I wished to speak of a personal matter. Before his reply reached me at St. John a business matter called me to Bathurst, N. B. where I work about three months a year.

Meeting Honorable Mr. Veniot there we went to my room at the hotel and I explained my conversation with our mutual friend in St. John and his request to see Mr. Veniot at once. I made my position perfectly clear to him. I had no authority from anyone to even discuss with him or anyone else Acadian cabinet representation, but that, on my own behalf and because our mutual friend had so requested me to see him at once, I wanted to know if Acadian representation in the federal cabinet became a live issue and if he got the chance to accept it would he accept? I warned him that the conversation was strictly private and confidential, and he agreed to so treat anything that passed between us.

Now that Honorable Mr. Veniot has seen fit to attempt to make political capital out of that "private and confidential conversation," and as Honorable Mr. Meighen is being wrongly accused, I feel bound to give my views.

J. W. V. LAWLOR WROTE PREMIER ABOUT VENIOT

Saw Mr. Veniot After He Had Received Reply to Letter to the Premier.

J. W. V. Lawlor, of this city, was the author of the letters sent to Premier Meighen last winter, suggesting the Hon. P. J. Veniot of New Brunswick for a seat in the Federal Cabinet. On Saturday the St. John Globe published the following letter from Mr. Lawlor admitting the authorship of the letter and giving his part in the controversy. The letter published is as follows:

"On November 23rd last I wrote Honorable Premier Meighen and suggested wisdom of giving French-Acadians of the Maritime Provinces recognition in the federal cabinet. As a citizen I had a perfect right to do so and neither told any person nor showed my letter, nor its contents to any one. It was a purely personal matter. In reply I received the following perfectly harmless letter:

"Ottawa, Ontario, Dec. 1st, 1920
Dear Mr. Lawlor—I have just received your letter of the 23rd November. I will discuss the subject to which you call attention with Mr. Wignmore. I have had no intimation whatever from the party to whom you refer as to his attitude towards the government or toward the paramount federal issues of the day.

(Signed), ARTHUR MEIGHEN
"J. W. V. Lawlor, Esq., P. O. Box 656, St. John, N. B."

"That is the letter which Honorable Mr. Veniot is trying to make the public believe is an invitation to him from Premier Meighen to become a member of his cabinet. "After receipt of that letter I had conversation with a gentleman well known to Acadians and who takes a keen interest in their welfare, and we discussed 'Acadian representation' and Mr. Veniot quite rilly, and in parting he urged me to see Mr. Veniot at once. As he was a supporter and close friend of Honorable Mr. Veniot I followed his advice and wrote Honorable Mr. Veniot, asking what day he would be in St. John or Fredericton as I wished to speak of a personal matter. Before his reply reached me at St. John a business matter called me to Bathurst, N. B., where I worked about three months a year.

"Meeting Honorable Mr. Veniot there we went to my room at the hotel and I explained my conversation with our mutual friend in St. John and his request to see Mr. Veniot at once. I made my position perfectly clear that I had no authority from anyone to even discuss with him or anyone else Acadian cabinet representation, but that, on my own behalf and because our mutual friend had so requested me to see him at once, I wanted to know if Acadian representation in federal cabinet became a live issue, and if he got the chance to accept, would he accept? I warned him that I was Conservative and he Liberal, but that the conversation was strictly private and confidential, and he agreed to so treat anything that passed between us.

"Now that Honorable Mr. Veniot has seen fit to attempt to make political capital out of that private and confidential conversation, and as Honorable Mr. Meighen is being wrongly accused, I feel bound to give my views.

"Honorable Mr. Veniot discussed

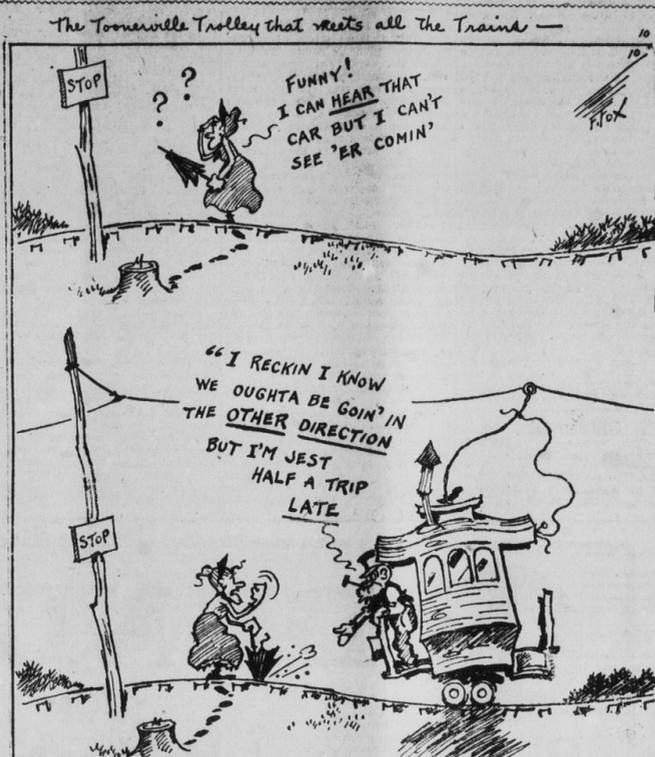

the matter with me for about an hour. He did not resent the suggestion of joining Mr. Meighen's Government if he got the chance, on the contrary he seemed quite pleased and discussed possibility of being re-elected in Gloucester, mentioned that Turgeon would have to have Senatorship to make the vacancy, to which I replied that the custom of all political parties was to provide for interests of any private member who vacated his seat to make safe riding for a cabinet minister. I explained that I mentioned his name in my letter to the Premier as one of the prominent Acadians of the Maritime Provinces, and it was regarding his attitude towards the Government or towards the paramount federal issues of the day that the Premier had no intimation. So that he might know that I had actually written the Premier suggesting Cabinet representation for Acadians, I showed him letter from Premier Meighen as quoted above. We discussed fact that during Laurier's eighteen years in Government the Acadians had not received that recognition to which they were entitled also their great increase in numbers and advancement in every way. We also discussed the formation of the Union Government and he went into details, particularly regarding Mr. Carville's entry, and correspondence between them and I said the entry of those gentlemen made it easier than should opportunity offer. We discussed the advantages of a larger political arena, the greater salary, greater patronage, greater possibilities in every way. He certainly seemed to be pleased with the idea and in conclusion said he would think it over, and as I was going to be in Bathurst some days, he would give me an answer after a few days.

"There was no resentment about that. "Eight days later I called at his house and we had a chat of about twenty or thirty minutes, he saying it would be a serious matter to be away from friends and party with whom he had been associated a life time, and I said he could bring his friends along with him, Hon. Mr. Veniot then named four gentlemen with whom he wished to discuss the matter and said one of them, with whom he frequently conferred, was likely to be in Bathurst in a few days and he would see me before I left for home. Up to that time there was no indication of a refusal on his part. He seemed as favorable as at first interview.

"I returned to St. John December 23rd and before leaving Bathurst saw Hon. Mr. Veniot who reported he would have to have more time to decide, as his friend had not yet come to Bathurst, and he had not been able to see the other gentlemen. Again, mind you, no refusal, but simply was giving matter consideration, and would advise me later. About 8th January I wrote him, asking if he had decided re matter we had discussed and in reply received a lengthy political harangue written evidently with the intention of some day publishing it for effect.

"With these facts before you you can readily see why Mr. Lemieux made his inquiry, why Hon. Mr. Veniot on May 5th said to reporter, 'I will not deny that such an offer was made.' He might also have added 'he would not deny' that he was asked to be King of England or President of the United States. "This above is the result of 'strictly private and confidential' conversations and you and the public can form your opinion as to how Hon. Mr. Lemieux came to mark that 'inquiry' in the House at Ottawa, evidently with the intention of turning a certain vote in York-Sunbury from the Government candidate.

"I would call attention to the fact that it took Hon. Mr. Veniot a month to make up his mind that he would decline a certain thing if it ever happened, which surely is good proof that acceptance appeared very strongly to him and one might almost infer that it was those friends whom he expected to see after Christmas who decided on the answer he wrote January 11th."

ARREST WOULD FOLLOW AMONG THE JAPANESE

CALLS ON CANADA TO LEAD REFORMS

Scores Present Dances and Lack of Dress—Says We Are Immoral.

London, Ont., May 22—Social evils are countenanced in Christian countries like Canada which would not be tolerated for one moment by non-Christian countries like Japan. This was one of the points brought out by Mrs. (Dr.) D. R. McKenzie in an address on "Christianity vs. Buddhism," before an open meeting of the London Methodist District Council, held in Colborne Street Church last night. The ministerial session of the annual district meeting was held in the afternoon when eight candidates for the ministry were examined as to their qualifications.

Mrs. McKenzie attacked in a fearless manner dancing, the liquor traffic, immodest dress, gambling and the social evil in order to awaken the Christian people to the necessity of living better moral lives if they were to Christianize the heathen nations. The eyes of the world were on Canada, she declared, and just as long as she permitted social evils to continue, so long would it be difficult to convert the Japanese, Chinese and other nationalities.

Would Be Arrested. It was intimated that if women in Japan wore dress as immodest as is to be seen in the streets of America that they would forthwith be arrested. To support her statement, Mrs. McKenzie cited the case of an American woman who was arrested on the streets of Tokyo while going to a theatre in evening dress, and was made to put on more wraps until she was allowed to proceed.

A plea was made that Canada should act as the leaders to the other Christian nations in abolishing those evils which result in depraved and loose conditions. This young nation which had attracted so much favorable attention during the war should have backbone enough to rid herself of the evils, which cling to it and retard its progress. Canada was the best country in the world but it was by no means perfect.

"Trees, Use And Value To Nation"

Rev. Dr. Morison Preached Eloquent Sermon on This Subject Last Evening.

Rev. Dr. Morison at the First Presbyterian church, West St. John, last evening, preached an eloquent sermon on the subject of "Trees, their use and value to the Nation." In this connection he brought before the people the necessity of guarding our forests. He pointed out the tremendous damage done by forest fires in the past, referring to the half million dollar damage done last year. He said two million acres of land had been made unproductive in the past because of these fires. The revenues from the forests he said contributed about one-half of the revenues from public utilities. Their protection should be a paramount consideration.

Negligence, he said, was largely the cause of this waste which could be prevented. He argued that every person should feel he had a share in these forests and should do what he could to prevent the useless waste.

FOREST FIRES THREATEN

Halifax, N. S., May 22—At midnight after an all-day fight against a forest fire which threatened to destroy their homes, the exhausted villagers of Bristol, a suburb of Liverpool, were able to snatch a brief rest tonight while rescuers from Liverpool and Milton kept watchful eyes on the still unconquered flames.

Designer of Bluenose Says He Is Satisfied

Believes She Can More Than Hold Her Own With Any Boat Now Afloat.

Halifax, N. S., May 21—"I am confident that the Bluenose can hold her own with the Mayflower or any other vessel on the North Atlantic," said W. J. Rowe, designer of the Nova Scotia challenger and a member of the committee which inspected the Boston challenger on the stocks, in a statement issued today. "She has been designed for two purposes—fishing and speed—but neither to be sacrificed for the other. According to reports it is amply fulfilling her purpose. She has already reported a big catch with her spring bait, and fishermen coming in from the banks since she is speedy."

New Glasgow Has A Hospital Fire

New Glasgow, N. S., May 22—Patients in the New Aberdeen Hospital here, whose quarters were endangered by fire early this morning, were rapidly and carefully removed to the annex and the adjoining nurses' home by Miss M. E. Grant, matron, and the resourceful medical and nursing staff of the institution. An hour and a half after the flames were discovered and after they had done about \$10,000 damage, the firemen were able to report that there was no further danger.

WIFE PARALYSED FROM HIPS DOWNWARD

House is Burned to Ground in Fire That Followed Bolt.

Tracey Settlement, N. B., May 22—Arthur Reynox was instantly killed, his wife paralyzed from the hips downward and his child injured, by a bolt of lightning which destroyed his home here, during a violent electrical storm at about 7 o'clock Saturday evening. Fire burst out in the house when it was struck and when Mr. Reynox's brother, who lived some distance away, hastened to the scene, he found Mrs. Reynox paralyzed as she was endeavoring to drag her husband's body from the burning house.

Don't Want Them To Hold Convention There

Halifax Organizations Place Themselves on Record as Opposed to Irish League.

Halifax, N. S., May 21—A meeting of the British Empire Alliance, held here last night, put itself on record as strongly opposed to permission being given the Self-Determination League of Ireland to hold a convention in Halifax in June. A committee was appointed to take action against the holding of the convention. Representatives of St. George Society, Royal British Veterans, British Empire League, Loyal True Blues, Orange Lodge and other bodies spoke in opposition to the proposed convention.

ST. JOHN, N. B. MONDAY, MAY 23, 1921.

EMPIRE DAY

Tomorrow, the 24th, will be celebrated throughout all parts of the British Empire, except Canada— which for some reason best known to herself chooses to be different from the other countries over which the Union Jack floats—as Empire Day. With the death of Queen Victoria the 24th of May ceased to be the Sovereign's birthday, but it was thought fitting that in view of the enormous strides which the Empire had made during the sixty odd years of her reign, it should be commemorated under the style of Empire Day. As a result Britshers the world over on this day are brought to a remembrance and appreciation of the Empire to which it is their privilege to belong. A remembrance which has been brightened and revived by the great and glorious achievements of its sons during the past few years. The spirit which has made the British Empire what it is will never die; and its sons, no matter from what quarter of the globe they come, will ever be ready to come forward to maintain its honor unflinching and inviolate.

THE SECRET OUT

To promptly own up to the fact that he was the writer of the letter to Premier Meighen advocating the inclusion of Mr. Veniot in the Dominion Government, was about the least Mr. Lawlor could do. The fact would have been far from sooner or later, but in the meanwhile every prominent member of the Conservative party in the city would have lain under the suspicion of having been the author of this unparliamentary foolish act. The Conservative party is indebted to Mr. Veniot for the information that Mr. Lawlor is "a strong and influential Conservative." Few of them know it. Just why Mr. Lawlor should feel it necessary to champion the cause of the Acadians, is not quite clear. They are perfectly well able to look after their own interests—and are doing it very efficiently. They have three of the ten New Brunswick seats in the House of Commons as it is, and two in the Senate, which is all they are entitled to. Through Mr. Veniot they control the Legislature. What more can Mr. Lawlor want for them? The publication of Premier Meighen's letter to Mr. Lawlor makes Mr. Veniot look very foolish, and those who know him will marvel at the childlike simplicity he showed. How in the world he could ever read into that letter any inclination on the Premier's part to invite him to join the Cabinet passes all comprehension. Moreover, Mr. Lawlor says in his letter that he distinctly told Mr. Veniot that he had no authority to discuss the matter with him, but was doing so on his own responsibility. Having been told this, it is not Mr. Veniot's credit that he should publicly state that "he had had offers made to him by Premier Meighen and his friends." He says he did this in self defence, because the Conservative press was making it appear that "he sought the position instead of the position seeking him." No responsible Conservative journal ever threw out such an utterly absurd suggestion. Even his political opponents were willing enough to concede him more common sense than to be seeking a position he could never by any possibility attain. Whenever Mr. Meighen is so sorely put to find supporters, that it becomes necessary for him to go to the ranks of his opponents to find them, it will be time for him to get out of office.

JOHN BULL AND SONS. Lord Forster, the Governor General of the Commonwealth of Australia,

has in a happy phrase depicted the relation of the Overseas Dominions to the Mother Country. At a time when the various parts of the Empire much is being heard of a "new status," a "new nationhood," it is pleasing to find a man who has such a correct understanding of the situation and can describe it so well. "The general management" says Lord Forster, of the firm of John Bull & Sons, "must remain in the hands of the senior partner, who, however, should call freely into council the partner sons who manage the respective branches of the Empire." In their enthusiasm over an alleged new status some of our public men have been talking in a way that is not likely to be endorsed by the sanest friends of a wholesome Imperialism. In our Parliament a grave statesman has actually declared that Canada's position is now one of equality with the United Kingdom. This view has been put forth in face of the fact that the Parliament of Canada derives all its power and authority from an Act of the British Parliament, that is the Parliament of the United Kingdom, an Act which that Parliament could repeal as readily as pass.

Canada has made great advances in wealth and population, and with these advances she has naturally won a higher position in the eyes of the world. Long ago, when there was only a Province of Canada, Lord Macaulay wrote:

"No sensible parent deals with a son of twenty in the same way as with a son of ten. Nor will any Government not infrequently treat such a Province as Canada in the way in which it might be proper to treat a little band of emigrants who have just begun to build their huts on a barbarous shore, and to whom the protection of the flag of a great nation is indispensably necessary. Nevertheless there cannot really be more than one supreme power in a society." If that was true in the time of Macaulay, if the Canada of that day had by her development won the right to receive more consideration than would be given to a small and undeveloped community, how much more true is it today, when the word Canada no longer means an inland Province but a vast continent stretching from ocean to ocean, with nine Provinces, all well organized and exercising all the functions of self-government in their respective capitals, and all working in harmony with the central Parliament at Ottawa.

Even if there had been only the progress that is indicated by increased population and wealth, Canada's status in the eyes of the Empire and of the world would have been far in advance of that of earlier days. But besides the growth in these respects there have been several events which have given Canada a position of influence that is recognized throughout the Empire. The granting of the British Trade Preference in 1897 was the first of these. That step made a profound impression in the Mother Country and in the self-governing Dominions, and has exercised a powerful influence on the commercial policy of the whole Empire. The second event was Canada's participation in the South African war, in which her readiness to share the burdens of the Empire was shown in a manner that gave a new light to the dominion of her imperial affairs and to foreign countries also.

Then, surpassing all other things, came the great war that has but lately ended. The manner in which Canada sprang to the aid of the Empire, the promptness of her action, the discipline and valor of her soldiers, the sacrifice of blood and treasure that she willingly made, won for her the respect and admiration of the world. Canada's part and the part of several other Dominions gave an effective answer to the fussy few in England who for years had been proclaiming that unless Imperial Federation or some other scheme of closer union were adopted the Empire would go to pieces. The Dominions had been able to manage their internal affairs comfortably without the aid of any such scheme, and now, in the supreme hour of peril, the tie which, as it seemed, between them and the Mother Country was found to be of the utmost strength. Neither under Imperial Federation nor under any of the various schemes could the Canadian people have responded to the Empire's call with more zeal and enthusiasm than were manifested on the outbreak of the war.

All these things, as we have said, have greatly increased the prestige and the influence of Canada in the Empire. Nevertheless the fact remains that, as a matter of law, there has been no change in our position. Canada was and still is a dependency of Great Britain. She is one of the partners in the firm of John Bull & Sons, a partner whose counsel will ever have increasing weight. But she is still a junior partner. One John

Bull is still the head of the firm. It is not easy to see how he can remain in the business in any other way. The boys are not prepared to take over the whole business. They could not if they would. Nor are they prepared to undertake the responsibility equally in the partnership. So the firm will have to remain John Bull & Sons, with old John as the senior and principal director. And there does not seem to be any reason why the business cannot continue to be carried on successfully at the old stand in the old way.

Monoton Transcript: "The newly appointed Receiver of Revenue is a young lady, who already was engaged in the Provincial Treasurer's Department." Oh, Abner dear girl, how could you? Fancy masquerading around in male attire all these years! How did you ever manage to pass the doctor when you enlisted? He must have been very short-sighted. And how dreadfully embarrassing it must have been for you in the dug-outs with all those horrid men around! It's shocking, shocking!

The Evening Times: "This Conservative testified to the ability of Mr. Veniot and his excellent record as Minister of Public Works." He didn't; he said he was "a practical parliamentarian, a clever political organizer and knew the political game," none of which are any particular commendation from the standpoint of political morality.

WHAT OTHERS SAY

The Manchester Guardian thinks Canada is biting off more than it can chew. Canada showed in the great war that it can chew a fair sized bite. —Calgary Herald.

Reconstruction Due. Our economic machine is like the Irishman's roof. When it rains we can't fix it, and when it isn't raining we don't need to. —New York Globe.

A Social Debacle. The municipal elections in Milwaukee have swept the state clean of Socialists with one insignificant exception, and a year ago the city government was almost solid Socialist. How are the knights fallen? Evidently Milwaukee "knows how." With so satisfactory a result it would be ungracious to change the assertion that it was due to the vote of the women. —Chicago News.

Canada's Fine Record. The Canadian Government has a record in dealing with its soldiers of which it has good reason to be proud. Canada paid the largest bonus to its men at demobilization of any country, its pensions are the highest of any belligerent, its policy of vocational training was adopted by the United States, and its successful settlement of the war invalids is a model for other nations, and its system of hospitals for the invalids is modern and efficient.

The war has been over three years and yet the United States, with few more disabled and invalided soldiers than Canada, has still inadequate accommodations. The New York Times is authority for the statement that 30,000 men are without treatment at the present time and a thousand men a month are breaking down through lack of adequate hospital facilities. If recent statements made in the American Congress are to be believed, the hospitals in Massachusetts are nothing but a mass of insanitary buildings, crowded in jails and barns through lack of money. Senator Walsh, who has been making an investigation into conditions in Massachusetts, states that some of the hospitals were a greater menace to the soldiers than their disability.

Individual cases of hardship are bound to arise in Canada, but taken as a whole the Government has nothing to be ashamed of in the treatment of its returned veterans as compared with any other belligerent nation.—Exchange.

A BIT OF VERSE

THE DAISY.

(As Our Imperial Emblem.) (An Empire Song.) The Daisy is a "cheerful flower," it tells of many a happy hour in British fields and British lanes, Where children make their daisy chains; And while it ever speaks of Home, If often welcomes those who roam. The Daisy is a lowly flower, But emblem of a mighty power. Where'er the Daisy seeds are cast It lives and thrives—its root is fast; In various climes of heat and cold— Pink-tipped or only white and gold— It grows open to the sun. One head uniting them in one. The Daisy is a lowly flower, But emblem of a mighty power.

In golden deeds may we unite, Our British name keep pure and white. So in the world to fill our place In calm content with cheerful face, And joyful dwell in homely life, Or else as heroes in the strife. The Daisy is a lowly flower, But emblem of a mighty power.

And if our life be tinged with rose, Or cold and starved 'mid winter snows, May we our Empire's call obey To serve—to walk in duty's way— As free—but sympathy and love By our self-sacrifice to prove. The Daisy is a lowly flower, But emblem of a mighty power.

May God our King and Empire bless, And may we all our faith confess, That so all subjects of our King Where'er they dwell may blessing bring. May love and peace be spread around Where'er the British name is found. Our Daisy Star—Imperial Flower— Will then mean Union, Peace and Power. S. L. Ewhank.

WIDOW CURSES
A GIRL RIVAL
IN THE COURT

Husband Had Bequeathed All
His Property to 20
Year Old Blonde.

WAS BE-DEVILED BY
WOMEN HE SAID

Pastor of Dead Man So Testi-
fies—Girl in the Case Un-
moved.

Atlantic City, N. J., May 6.—"May
God strike you dead for what you have
done to me," shouted Mrs. Louise L.
Hess, widow of the late Harry L.
Hess, of Philadelphia and Atlantic
City, a paint manufacturer, today, as
she shook her finger under the nose
of the girl who had been named as
co-respondent in a divorce suit insti-
tuted by Mrs. Hess prior to her hus-
band's death.

The widow, hysterical under the
strain of the testimony that had
linked the girl and Hess in affairs in
Philadelphia and this city, then leaped
to her feet and grabbed for Miss
Paula. She was restrained by court
attaches after a struggle, during
which she attacked the character of
the young woman, and it was neces-
sary to lead her from the court room
to permit continuance of the case.

Hess died in the Pennsylvania Hos-
pital, Philadelphia, and Mrs. Hess al-
leges he was mentally incapable of
making a will. Letters were sub-
mitted by the defence in an effort to
show there had been a legal separa-
tion between the pair eight years
before Hess died.

The Rev. Newton W. Caldwell, pas-
tor of the Olivet Presbyterian Church,
this city, called to the witness stand,
declared: "Hess told me he was be-
deviled by the women. He said that
each one of them was trying to get
his money. He termed them vampires
and said they were trying to get all
he had, and he predicted his own
death. One of the women he men-
tioned was Miss Paula."

Homesteader Jno.
Black Now Happy

Says He is in Such Fine Shape
Now Hard Work is a Pleas-
ure.

"Since Tanlac has helped me so
much, I just want to be praising it
all the time," said J. W. Black, well
known homesteader, residing at Elk-
horns, Man.

"I had 'ta' three years ago and
never did get back to myself until
I got Tanlac. At times I could hard-
ly eat anything, and many days it
was all I could do to stay on the job
until quitting time. I finally gave up
the indoor work I was doing, and took
up homesteading, thinking the open
air exercise would help me. But I soon
found myself in even worse fix than
before. I got so I couldn't eat any-
thing without suffering, and my ap-
petite got so poor I just had to force
down what little I did eat. I was
weak as a kitten, could scarcely walk
around, and nights I hardly got a wink
of sleep.

"My wife kept after me to try Tan-
lac, and as I was in such bad shape,
I got a bottle. After taking two bot-
tles I was much stronger, for my ap-
petite had come back and my food
was agreeing with me. I've taken five
bottles now, am eating three good
meals every day, and am in such fine
shape work is really a pleasure to
me. Tanlac certainly beats any medi-
cine I ever saw or heard of, and I'm
glad to say a good word for it."

BIRD'S TEETH
MILLIONS YEARS
OLD ARE FOUND

Gives a Clear Idea of Semi-
Plumaceous Covering Posses-
sed By Birds of Period.

Lawrence, Kan., May 22.—One of
the two specimens in the world of
birds' teeth was found in the chalk
beds of Western Kansas and has been
preserved at the University of Kansas
museum, according to Prof. H. T. Mar-
tin, curator at the museum, who
found the specimen. The other speci-
men is at the Yale University muse-
um. The Kansas fossil was of the
Cretaceous period, about 50 million
years ago. Ten teeth are included
with the fossil.

This is the second oldest known
type of bird life, according to Pro-
fessor Martin. It is the most com-
plete specimen that has been preserv-
ed. The bird was of the Hesperornithi-
da family. It was five feet long, had
a short vertebral tail and possessed
no wings. It was a marine bird and
resembled the modern penguin.
"The earliest specimen of bird that
has been discovered had teeth," says
Professor Martin. "The earliest type
lived in the Jurassic period, some 30
million years ago, and specimens have
been found in the lithographic lime-
stone beds of Germany. This type
of bird was about the size of a crow
and had sharp, pointed teeth and a
vertebral tail longer than the body,
like the Dinosaur."
The specimen preserved at the Un-
iversity of Kansas is more valuable
than any other, according to Profes-
sor Martin, because it gives a clear
idea of the semi-plumaceous feathery
covering which the bird possessed.
No other known specimen gives this
evidence.

Feet Aren't Aching
Or Tired Now—"Tiz"

Use "Tiz" for tender, puffed-
up, burning, calloused
feet and corns.

People who are forced to stand on
their feet all day know what sore, ten-
der, sweaty, burning feet mean. They
use "Tiz," and "Tiz" cures their feet
right up. It keeps feet in perfect con-
dition. "Tiz" is the only remedy in
the world that draws out all the poi-
sonous exudations which puff up the
feet and cause tender, sore, tired, ach-
ing feet. It instantly stops the pain
in corns, callouses and bunions. It's
simply glorious. Ah! how comfortable
your feet feel after using "Tiz." You'll
never limp or draw up your face in
pain. Your shoes won't tighten and
hurt your feet.
Get a box of "Tiz" now from any
druggist. Just think! A whole year's
foot comfort for only a few cents.

NEW STUNT IS
SPRUNG BY A
SMART FEMALE

On Plea of Winning Bet Gets
Men on Bus to Kiss
Her.

WANTED SEND ORPHAN
TO THE COUNTRY

They Fall for It and Find
Themselves Minus Their
Gold Watches.

"Will you give me a kiss?"
I have heard that sentence in many
strange places, but never before had I
heard it on the top of an omnibus. I
don't pretend that people never kiss
on omnibuses. They certainly do kiss;
but they don't talk about it. The top
of the omnibus was empty, except for
myself and two people who were sit-
ting on the seat behind me. I scented
a beautiful romance, and I must ad-
mit, looked round, fully expecting to
see a tall dark man with a sulky
moustache and a winsome girl of nine-
teen. "I was wrong. The hero was a
portly gentleman of about sixty-five
and the heroine was what is described
in magazines as an angular spinster
of fifty summers. It was the lady
who had spoken. At once the whole
story seemed clear to me. Here were
a husband and wife who had quar-
relled and were about to make it up.

Wanted to Help Orphans.
I waited for the husband to reply.
Instead, he gave an awkward little
cough. There was a pause of two
minutes. Then the following dialogue
took place:—
"Will you give me a kiss?"
"Madam, I am a married man."
"Don't married men kiss?"
"Only their wives."
"Do you know why I want you to
kiss me?"
"I have no idea."
"Then I will tell you. I am a poor
woman, but I have a brother who is
very rich. I have had a bet with him
that before I get off the omnibus I
shall have been kissed by a man. If
I win my bet I shall be able to send
a little orphan child in whom I am
interested to the country for a
month."

"I am afraid I can't help you."
"I think it is very unkind of you."
(She began to cry.)
This was too much for the poor old
gentleman. He imparted a kiss on the
lady's cheek and hurried off the om-
nibus.

No sooner had he gone than the
lady moved forward and sat down
next to me. She opened the conversa-
tion. "You heard all that passed be-
tween that old gentleman and my-
self?" I admitted that I had. She
then hoped that I did not consider
her a forward woman. I assured her
that I was full of admiration for her
efforts on behalf of the orphan child.

Another One Falls.
"Thank you," she said. "He's such
a dear little fellow, and a month will
do him so much good. The doctor says
that what he really wants is two
months. If I am kissed twice, I shall
win twice the amount!"
Without a moment's delay I shut my
eyes—sent the child away for two
months and got off the omnibus.
A few minutes later I wanted to
know the time.

The problems which now lie before
me are these: orphan child exist?
1. If he does, has he got my watch?
2. If he has got my watch, has he
also got the old gentleman's watch?
3. If he has them both, which keeps
the best time?

Bluenose Takes Up
Defi of Mayflower

Capt. Walters Agrees to Race
Boston Craft — Will Let
Latter Set Distance.

Halifax, N. S., May 21.—The chal-
lenger of Roy W. Pidgeon, of the
schooner Mayflower Corporation, of
Boston for an ocean race with the Nova
Scotia schooner Bluenose, issued some
days ago, when the Mayflower was
changed with heading along the coast,
and the Bluenose was on the banks,
has been accepted by Captain Angus
Walters of the Lemenburg schooner
in a letter in which he expressed re-
newed confidence in his charge and
the following wire has been despatched
to Mr. Pidgeon:—
"Roy W. Pidgeon, Boston.
"We have message from Captain
Angus Walters of Nova Scotia, builder
of schooner Bluenose, requesting us
on his behalf to accept your chal-
lenge for an ocean race next winter
from a port in Newfoundland to Bra-
zil, on the understanding that you and
your associates, will put up a purse
sufficiently attractive and that such
vessel will carry back to Newfound-
land or Nova Scotia port a cargo of
salt. Please let the undersigned know
at your earliest convenience amount
of purse and if same is satisfactory,
details will be promptly arranged.
(Signed)
"W. H. DENNIS,
"The Halifax Herald."

In the letter accepting the challenge
Capt. Walters says:—
"I will certainly accept the chal-
lenge—all that is needed is for Mr.
Pidgeon to make the purse worth
while. He can make the port as far
south as he likes and back to Nova
Scotia or Newfoundland with a cargo
of salt."
"I am certain the owners of the
Bluenose will profit by the trip for
the purse will certainly come to Nova
Scotia. I am delighted with the Blue-
nose; she is not only a good fishing
vessel, but entirely satisfactory as
regards sailing qualities and charac-

The End of Our Search
For An Ideal Car

The PAIGE Car

"The Most Beautiful Car in America"

The announcement of our securing
the "PAIGE CAR" Franchise for the
Province of New Brunswick, Prince
Edward Island and Nova Scotia is to
us much more than an ordinary an-
nouncement of interest and impor-
tance.

We regard it as rather a personal
achievement of which we may feel
justly proud—the end of a search for
what we believe to be the masterpiece
of American Motor Car Manufacture.

Ours will not be just a commercial
organization for the mere buying and
selling of motor cars at a profit. We
take, rather, the long viewpoint that
we can only entrench ourselves in the
good will and confidence of the public
by rendering to the motor car buyer
the same dependable guidance and
service a responsible diamond mer-
chant renders to those who have
learned to have confidence in him.

In our search for a car we have
sought a car of mechanical excellence
and consistent—not "stunt"—perfor-
mance, which embodied those elements
of exclusive design and appointment
usually found in only the most costly
made-to-order jobs.

We could not, of course, consider
associating with such a car except it
came from an old established man-
ufacturer, with ample facilities and
capital to build—not assemble—the
car.

We looked for this car only in that
price class which takes in a type of
substantial buyer, who is critical, who
knows car values and who seeks to
exhibit in his motor car that same
fine taste which marks his home, his
personal grooming and his selection of
associates.

We found that car in the PAIGE,
the combination of mechanical effi-
ciency and proven performance, with
a degree of smartness and refinement
that will establish the pace in motor
car design for years to come

We are counting upon your availing
yourself of the privilege of looking the
cars over and of driving them in your
favorite test.

Our service department is in the
hands of experts in the business. Our
service station will be at The Great
Eastern Garage, Charlotte Street, on
the main thoroughfare of the city.

All parts of the Paige Car will be
kept in stock at Halifax and St. John
and we guarantee a service to all
PAIGE owners, second to none. We
will not carry parts of old PAIGE Cars
but will be pleased to procure any
part required upon request.

Dealers throughout the Maritime
Provinces who, like ourselves have
been searching for a motor car of un-
usual appearance and performance
and exclusive design at a moderate
price, will be interested in our ter-
ritorial programme.

People wanting something DIFFER-
ENT will buy the PAIGE car.

Within a week PAIGE cars will be
on exhibit at our St. John Show
Rooms, 123-126 Charlotte Street.
Beautifully illustrated catalogues sent
to any address upon request.

Children Cry for Fletcher's
CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children.
Foods are specially prepared for babies. A baby's medicine
is even more essential for Baby. Remedies primarily prepared
for grown-ups are not interchangeable. It was the need of
a remedy for the common ailments of Infants and Children
that brought Castoria before the public after years of research,
and no claim has been made for it that its use for over 30
years has not proven.

What is CASTORIA?
Castoria is a harmless substitute for Castor Oil, Paregoric,
Drops and Soothing Syrup. It is pleasant. It contains
neither Opium, Morphine nor other narcotic substance. Its
age is its guarantee. For more than thirty years it has
been in constant use for the relief of Constipation, Flatulency,
Wind Colic and Diarrhoea; allaying Feverishness arising
therefrom, and by regulating the Stomach and Bowels, aids
the assimilation of Food; giving healthy and natural sleep.

MANY of the masterpieces of literature were born in the Victorian Era. Poets, novelists, essayists, historians received their just recognition during the reign of Victoria, of glorious memory. And we, with our modern conveniences, must admire these writers the more for the difficulties they had to overcome.

Think what it would have meant to such a prolific writer as Dickens, for instance, to have possessed a

Waterman's Ideal Fountain Pen

How he would have revelled in the steady flow of ink—the smoothness of the golden pen-point—the easy freedom of writing—instead of the rough scratching of quill, and the constant distraction of dipping in the ink-bottle.

A pen cannot make one a writer—but a Waterman's Ideal Fountain Pen can and does make writing easy, convenient, smooth and free of the slavery of the ink-well.

CHILDHOOD AND AGE

Under a leafy canopy
We walk'd, at summer's height—
He was a five-years' child, and I
A gray, a world-worn wight.

With life's first wonder in his eyes,
First smiles upon his lips,
His warm, soft hand in trustful wise
Into my hand he slips.

And for a moment, if so long,
We dwelt in fond delight—
My heart grows weak, as his grew
strong.

By love's all-mastering might,
Put soon the homing schoolboy pass—
The little fingers wind
And twitch to be released, alas!
Lest he be left behind.

So struggling, in the gardener's net,
A captive bird is found;
A troutlet so will pant and fret,
Having o'erleapt his bound.

But I held fast, and faster still,
The time being all too short,
Or wise discourse to take our fill,
Our fill of fair dispar.

In vain! for from my grasp he breaks,
And to his kind is flown;
Nor reck he of the blank it makes
When his bright glance is gone!

Yet wherefore pause, my winsome one,
Upon your golden way?
Your gracious errand, duly done,
Demands no longer stay;

A fair dream on a wakeful night,
Or, on a tollsome road,
A draught of pure and cool delight,
Most homesteadly bestowed.

—George Douglas, in Chamber's Journal.

Milk toast, cream soups, creamed vegetables, creamed fish and scalloped dishes are all good ways of putting more milk into the daily food of the family, say home economics specialists in the U. S. Department of Agriculture. The milk for all of these is thickened into a sauce, thick or thin.

To make the sauce, melt the fat, stir in the flour, add the milk gradually and cook until thickened, stirring constantly unless a double boiler is used. All measurements are level in these recipes.

Thin White Sauce
Milk, 1 cup.
Flour, 1 tablespoon.
Fat, 1 tablespoon.
Salt, 1/2 teaspoon.
Pepper, 1-8 teaspoon.
Medium White Sauce
Milk, 1 cup.
Flour, 2 tablespoons.
Fat, 2 tablespoons.
Salt, 1/2 teaspoon.
Pepper, 1-8 teaspoon.
Thick White Sauce
Milk, 1 cup.
Flour, 3 tablespoons.
Fat, 3 tablespoons.
Salt, 1/2 teaspoon.
Pepper, 1-8 teaspoon.

MILK PUDDINGS CAN BE ATTRACTIVE

Are Wholesome for Children and Not Unpalatable to Adults.

A list of good milk puddings is given which may be of interest to mothers of growing children.

- Junket.**
1 qt. milk. 1 junket tablet.
1-2 cup sugar. 1 teaspoon vanilla.
1. Heat milk to blood heat.
2. Add sugar and junket tablet dissolved in 1 tablespoon of warm water.
3. Add vanilla. Pour into greased serving cups or into pudding dish and let stand in warm place until set.
4. Chill. Serve with raspberry or black currant jam.
- Bread Pudding.**
1 qt. milk; 2 eggs.
2 cups bread crumbs.
1-2 teaspoon salt.
1-2 cup melted butter.
Grated rind of lemon.
1. Soak bread crumbs in boiling water.
2. Drain water off.
3. Add sugar, butter, egg yolks, salt, flavoring and milk to buttered crumbs.
4. Bake one hour in a buttered pudding dish in a slow oven.
5. Spread with jam and cover with meringue made from egg whites.
Milk Sherbet.
4 cups milk.
Juice three lemons.
1-2 cups sugar.
1. Mix juice and sugar stirring constantly, while slowly adding milk.
2. If added too quickly mixture will have a curdled appearance.
3. Freeze and serve.
- Sage Pudding.**
1 qt. scalded milk. 3 eggs.
2-3 cup sage. 1 teaspoon salt.
1-2 cup sugar. 1 teaspoon vanilla.
1. Cook sage in scalded milk until clear.
2. Separate eggs, beat yolks with sugar and salt.
3. Pour scalded milk and sage over yolks and sugar, return to double boiler and stir constantly until mixture thickens.
4. Pour at once into a cold bowl, let cool slightly, add vanilla.
5. Beat egg whites until stiff, but

not dry, add 2 tablespoons white sugar, beat until sugar is dissolved.
6. Fold into pudding and pile lightly in a serving dish.

Lemon Rice Pudding.
4 cups milk. 1-2 cup rice.
Grated rind of lemon.
1-2 teaspoon salt.
1-3 cup sugar.
1-4 cup melted butter.
1. Wash rice, mix ingredients, pour into buttered pudding dish.
2. Bake two hours in a very slow oven, stirring occasionally.
3. Serve with cream.

How Do They Know?
It has always been a puzzle to us to imagine where and how those who accuse the press of withholding the truth about Russia get their own professed knowledge about conditions there. Editors are mostly reading men who range through everything in the way of reading that they can get their hands on, and yet they come across no evidence anywhere that there is a "truth about Russia" that is being suppressed by some sort of world-wide capitalistic conspiracy.—Toronto Star.

ACHES AND PAINS—SLOAN'S GETS 'EM!

Famous pain and ache Liniment—kept handy, brings warming, gratifying relief.

RHEUMATIC twinges ease up soon. So do stiff joints, lame back, neuralgia, overtaxed muscles, and those pains from weather exposure, too—they don't fight long against the counter-irritation that Sloan's Liniment produces.

Always keep this old family friend handy for instant use—a little penetrates without rubbing, leaving no skin stains, mias, or clogged pores. Its very odor—healthy and stimulating—suggests the good it will do.

All druggists. Three sizes—35c, 70c, \$1.40. Largest size is most economical.

Halifax Witnessed Football Game

Scottish International Eleven Defeated Halifax Soccer Team by 7 to 1 Score.

Halifax, May 21.—Defeating representative Halifax soccer by a score of seven to one, Scottish International eleven of the first game of its Canadian base on Saturday afternoon demonstrated the art and science of football with an ability simply astounding to a crowd of two hundred who for the first time witnessed an international football match.

Halifax Played Well.

The Halifaxians played excellent ball, Captain Campbell and Wilson distinguishing themselves particularly, but their attack was itself against beautifully combed defense of the Scotmen. Airy and head work, carried the ball through territory again and again, and most swift passing opened way for shots accurate as rifle bolts from the boots of Wilson and Hankin. Once Wilson allowed ball to cannon off his head into Halifax goal. On only a few occasions were the Halifaxians able to bring the sphere within striking distance of the famous goalie Brodie. He had little to do in the way of fense, but his elegant boot frequently sent the ball sailing half way up field.

Two forty-five minute halves the crowd an idea of the way the game was played in the Old Country.

Souvenir Medals.

After the game was over Governor McCallum Grant presented both teams with souvenir medals. Colonel J. D. Wilson, president of International, made a brief speech of thanks.

The Scottish team left early morning for Montreal where they were to play on May 24.

The day was quite warm and heat told on the internationalists were obviously not exerting themselves. Wilson scored again immediately in front of the Halifax goal, and toward the end of the repeated after a brilliant piece of individual work. The whistle called further scoring.

The gross receipts of the game were \$1,750, the guarantee to Dominion Football Association amounting to \$1,500.

Halifax Witnessed Football Game

Scottish International Eleven Defeated Halifax Soccer Team by 7 to 1 Score.

Halifax, May 21.—Defeating the representative Halifax soccer team by a score of seven to one, the Scottish international eleven during the first game of its Canadian tour here on Saturday afternoon demonstrated the art and science of playing football with an ability simply astounding to a crowd of twenty-five hundred who for the first time saw a team of international football players in action.

Halifax Played Well.
The Haligonians played excellent ball, Captain Campbell and Goalie Wilson distinguishing themselves in particular, but their attack wasted itself against beautifully combined defense of the Scotsmen. Airy foot and head work carried the ball into the Scottish territory again and again and neat swift passing opened the way for shots accurate as rifle bullets from the boots of Wilson and Rankin. Once Wilson allowed the ball to cannon off his head into the Halifax goal. On only a few occasions were the Haligonians able to bring the sphere within striking distance of the famous goalie Brownie. He had little to do in the way of defense, but his elegant foot frequently sent the ball sailing half way up the field.

Two forty-five minute halves gave the crowd an idea of the way soccer is played in the Old Country.

Souvenir Medals.
After the game was over Lieut. Governor McCallum Grant presented both teams with souvenir medals and Colonel J. D. Wilson, president of the International, made a brief speech of thanks.

The Scottish team left early this morning for Moncton where they are to play on May 24.
The day was quite warm and the heat told on the internationals who were obviously not exerting themselves. Wilson scored again from immediately in front of the Halifax goal, and toward the end of the half repeated after a brilliant piece of individual work. The whistle stopped further scoring.

The gross receipts of the game were \$1,750, the guarantee to the Dominion Football Association amounting to \$1,500.

Y. M. C. A. Athletic Meet On Saturday

High School and Business Boys Turned Out In Force—Events Keenly Contested

A good entry of High School and Business Boys turned out for the Track meet held under the auspices of the Y. M. C. A. in front of the Y. building Saturday afternoon. There was an interested group of spectators in attendance, and some very creditable work was displayed by the young track enthusiasts. The records of last year's inter-scholastic meet at Rethsay were beaten in several events, and the High School boys are eagerly looking forward to this year's meet when they plan on breaking inter-scholastic records, which have stood for a number of years. The boys are very keen on this and working hard, and judging by their present performances in training, may see their hopes realized.

The results of the meet were as follows:
100 yards dash—1st, Louis Nice, 11.25 seconds; 2nd, Joseph Tanman; 3rd, Donald Davidson. Last year's record, 11 seconds.

Shot put—1st, James McInerney, 34 ft., 8 in.; 2nd, Davidson, 34 ft.; 3rd, Williams, 30 ft.

Running Broad Jump—1st, Wilson, 17 ft., 8 in.; 2nd, Tanman, 16 ft., 1 in.; 3rd, Nice, 15 ft., 8 in.

Pole Vault—1st, Wilson, 5 ft., 3 in.; 2nd, Morton, 6 ft., 8 in.; 3rd, Robertson, 6 ft., 4 in. Wilson broke last year's scholastic record of 8 ft., 1 1/2 in.

Running High Jump—1st, Wilson and Yeomans of the Business Boys, 5 ft., 2 in.; 3rd, Nice, 4 ft., 11 in. Wilson and Yeomans both beat last year's scholastic record made by Wilson of 5 ft., 1/2 in. They also came near the scholastic record of 5 ft., 3 in., made by Finley in '10.

Mile Run—1st, Davidson, 5 min., 26 sec.; 2nd, Yeomans; 3rd, Gilbert.
The Public Library block was used as a running track for the mile run, and very good time was made considering. Last year's record was 6 min., 9 1/2 sec., but was made on a much faster track. The record made by Walsh of St. John High of 4 min., 41 sec., in '10, still stands unbroken.

The High School Boys' track team this year are strongest in the pole vault, running high, and mile run. They are working hard, however, to gain strength in hammer throw and 440.

Quite Correct.
Excited Fisherman (to country hotelkeeper)—There isn't a bit of fishing about here! Every brook has a sign warning people off. What do you mean by luring anglers here with a promise of fine fishing?

Hotel Keeper—I didn't say anything about fine fishing. If you read my advertisement carefully you will see that what I said was: "Fishing unapproachable."

Looking For a Bite.
Tramp—Can you assist me along the road, mum?
Lady—Personally I cannot, but I can unchain my dog and I know he will be pleased to do so.

Extend Time On Closing Entries

All Meets in Maine-New Brunswick Circuit Now in on Early Closing Extension.

Special to The Standard
Frederickton, N. B., May 23.—The Maine and New Brunswick Circuit now has a complete list of early closing events for each one of the eight meetings on the fall section of the circuit.

The Fort Fairfield Driving Club, who will sponsor the meeting at Fort Fairfield, which opens the fall section of the circuit, have finally decided to give three early closing events, having decided upon a 2:12 trot and pace, a 2:20 trot and pace and a 2:24 trot, each for \$500. With the extension of time for closing the entries for the Northern Maine fair's early closing events to be raced at Presque Isle September 6th to 9th, and the apparent indication that there will be few if any invaders from Western New England in this territory this year, there is very good reason to believe that there will be a tremendous entry when the early closing events for the new circuit close on June 1st.

The purses for early closing events on the circuit now total almost \$25,000.

Sensational Offer on TIRES
Smashing Reductions
Good Tires
Don't Wait For Lower Prices
Your Car Can't Ride on Faith and Hope

Before you buy a tire, ask these questions about its maker.

Is he still in business? Has he been in business ten years? Or even five years?

Why don't the manufacturers of "cheap" tires stay in business longer?

Because their market is soon exhausted. The maker of cheap tires soon covers the entire list—and then he must quit.

But another similar maker springs up in his place—and the merry game goes on. Faith and Hope are beautiful things in this dull world—but the faith and hope of some men in "cheap" tires is really pathetic.

Goodyear is the world's largest maker of tires. Goodyear owns rubber plantations, cotton plantations and fabric mills. Goodyear enjoys the economies of years and years in tremendous production and sales. And a tire good enough to carry our name is at all times the economical tire for you to use.

The car manufacturer who uses thousands of tires a year knows. And Canadian automobile makers over a period of ten years have sold half their cars with Goodyear tires.

The tire dealer knows. And the best 4000 of them in Canada sell Goodyears.

This is a year to put your motoring on a careful basis. It is a year to watch your gasoline consumption, to take care of your car—and to use Goodyear Tires.

BONE SLICED OFF HIS HEAD TO FIX SKULL

Hit by Bullet When a Lead Hole Left in Top of Head.

DELICATE OPERATION PROVED SUCCESSFUL

Pieces of Bullet Removed and Hole in Skull Closed Up.

Philadelphia, May 22.—Ten years ago when a boy of 14, Charles Neiman, of Latrobe, Pa., was accidentally shot in the head while on a hunting trip. The bullet, of .33 calibre, broke into pieces against his skull and three fragments lodged deeply in different parts of the brain.

In an operation that was performed soon afterward in Pittsburgh a piece of Neiman's skull as large as the palm of a man's hand was removed and never replaced. The surgeons were unable to extract the pieces of lead without killing the patient.

For nearly ten years Mr. Neiman, in a manner of speaking, lived "without a roof over his head." The scalp grew together over the large wound and hair over the scalp. But he suffered constantly from fainting spells and the left side of his body was partly paralyzed.

Operation Successful. Last week Dr. Charles H. Frazier, noted brain surgeon of this city, operated upon Mr. Neiman at his clinic in the University Hospital.

Dr. Frazier removed the three pieces of bullet. What is more remarkable, he also gave Mr. Neiman a new top piece for his skull. That the surgeon did by chiseling a layer of bone from the side of the patient's head and inserting it in the centre. The scalp was then sewed up over the bone cover.

Mr. Neiman was interviewed at the University Hospital. The patient said he felt better than he had in ten years. He was as happy and cheerful as it is possible to be for a healthy young man who has to stay in bed with a bandaged head.

Surgeons and physicians declared the operation was one of the most successful ever performed in the hospital. They said similar operations, though not quite the same, had been among the feats of famous surgeons in the war. But they added that nothing like the Frazier operation had ever been done in Philadelphia.

Mr. Neiman, who is a salesman of electrical appliances, talked of his plans for the future. He expects to leave the hospital in two weeks, when, according to Dr. Frazier, he will be "a well young man."

"I am just asking for the day now I will be able to go back home," said the patient. "You know, it is no fun to be in bed, just waiting for a wound in your head to heal while you are perfectly healthy in every other way."

"I am going right back to work as soon as I leave here. Why, I expect to sell more goods than I ever did in my life. This bullet in my brain was a terrible handicap. Fortunately, it never impaired my mentality. But it gave me fainting spells, and as a result, I was often unable to work for days at a time."

"Then there was the paralyzed condition of my left side. Most of the time, I was unable to move my left arm or use my left hand. And now look," he added, stroking his arm and moving his hand in all directions. "Yes, sir, I am a new man. Pain? Well, just a little; but what do you expect? It was quite an operation. I was under ether three and a half hours. But, of course, I don't mind what little pain I have in the least. I think it is well worth it, don't you?"

"I tell you it is a wonderful feeling to know that you have a head like everybody else and not one with a large hole in the centre!"

MAKE IT DIGBY Get up and cross the Bay tomorrow. The Empress—fresh as new—will provide a most delightful trip going and returning, while the several hours between times at Digby are well worth while. Really, a charming outing at this pleasant season of the year.

City Visited By Severe Storm

Considerable Damage Caused by Sixty Mile Wind and Lightning With Rain.

Roots were torn off houses, windows blown in, signs and garbage cans scattered about promiscuously by the severe wind squalls which accompanied an electrical storm three separate times yesterday afternoon and evening.

First Appearance

The storm made its first appearance at 2:30 in the afternoon. It was preceded by a few minutes by a wind storm, which springing up suddenly, blew the dust in clouds through the streets.

Second Storm

The second storm lasted from five o'clock to five-thirty. The thunder was heavier and the wind also attained a velocity of sixty miles for a short time. The rain fell during this storm amounted to .07 of an inch.

Roof Blown Off

The greatest sufferer from the storm was Fred S. Heans, who had the roof blown off his brick dwelling under course of construction at 124 Douglas Avenue. The loss is estimated at from \$1,200 to \$1,500.

Other Damage

Over in the central portion of the city the storm did considerable damage, too, several windows in the American Laundry were blown in, the sign of the store mounted on a large lamp pedestal in front of Waterbury & Rising's store on King street was carried over to one side.
