**MAIL ORDERS**  
We solicit out of town orders which receive our personal attention. The length of time taken to fill orders is governed very largely by how busy we are in the department of our factory in which the particular goods are made. While we have exceptional facilities for promptly turning out goods, it is important to place orders as far ahead as possible. Orders are filled by us in the rotation in which they are received, and customers can always depend on our doing everything in reason to give prompt dispatch.

**TOWN COUNCIL MEETING TUESDAY**  
More Annual Reports Received—  
Offer For Water and Light Bonds Received

A meeting of the Town Council was held Tuesday evening, His Worship Mayor Andrew presiding.  
There were present Councillors Alexander, Evans, Ellsworth, McLean and Patterson.  
A communication was read from Oliver Martin asking for a refund of income taxes as he was over 60 years of age. Referred to Assessment and Appeals committee.  
Town Clerk submitted a list of voters qualified to vote on the question as to whether or not licenses shall be granted in Ward II.  
This list was approved by the Council.  
An agreement between the Town and T. Carter in reference to removal of shack from Water Street was read and approved.  
An agreement between the McLennan Foundry and Machine works, re water for Sprinkler System was also read and approved.  
S. W. Dimock wrote asking for a rebate on yearly license fee for Empire Theatre.  
Request not entertained.  
A number of ratepayers of Ward II. have petitioned, asking for a list of ratepayers qualified to vote on the question as to whether or not licenses shall be granted in Ward II.  
The prayer of the petitioners was granted and clerk instructed to prepare the necessary list.  
Coun. Patterson from the Public Property and Streets committee submitted the following accounts which were ordered paid:

Canadian Oil Co., Oil 2.90  
Drummond McCall & Co., supplies 145.20  
Coun. Alexander read the annual report of the Electric Light Department, which was received and ordered printed in the blue book.  
His Worship stated that an offer of \$90 had been received for the \$30,000 water and light bonds remaining unsold.  
Council then adjourned.

**WEST TRAIN SERVICE HAS BEEN REINSTATED**  
Suburban Leaving Here at 9.30 Put on Route Again—Promise of Better Service

When the new train schedule went into effect Jan. 16th, the train known as the West Suburban was discontinued. This was a mixed train, scheduled to leave at 9.30 Atlantic Standard time, and while frequently off its schedule, was of great convenience to people living along the Restigouche and Matapedia valleys, as it enabled them to come to town to transact business and return the same day.  
With the loss of the Suburban it was necessary to drive to and from Campbellton or to and from Matapedia, where the Limited stopped. By this means people could come to Campbellton and return the same day.  
At a recent meeting of the Campbellton Board of Trade the matter was discussed and a committee composed of B. A. Stewart, M. P., F. E. Blackhall and John Harquail was appointed to take up the matter with the proper authorities.  
On Tuesday of last week it was arranged to meet, but it was found that Mr. Devensish, the District Supt. was in Moncton, so the matter was allowed to stand.  
However, Mr. Stewart was in Moncton Wednesday and had an interview with the General Superintendent, Mr. McNelly. He strongly urged the necessity for the train and convinced the management that a hardship was being done the residents along the line, a hardship which could be readily remedied at very little expense.  
When Mr. Stewart left the General Superintendent's office he had his assurance that the train would be reinstated within twenty four hours if at all possible, and we are glad to state that orders were issued Friday to have necessary arrangements made for the running of the train, which is now serving the people as in years past.  
It has been suggested to the management, and promised careful consideration, that this suburban train should run from Mont Joli to Campbellton, stopping here about 1 or 2 o'clock p. m., so that people along the line could get here in time to transact business at the banks.

**RECRUITING VERY QUIET IN RESTIGOUCHE**  
Cold Weather and Lack of Effort Responsible.—Dr. Parks Here Again

Things have been very quiet in militia circles, so far as recruiting is concerned, but in other matters not so quiet.  
Only eleven recruits signed on here last week. The report for the province being as follows:  
Westmorland county leads with 72; St. John is second with 60; and York County third with 27. Carleton had 20; Northumberland 16; Restigouche 12; Kings 11; Victoria 8; Charlotte 7; Gloucester 5; Madawaska 4; Queens-Sunbury 3; Albert 1; Kent 0. Total 246.  
Dr. Parks is here again and is inculcating the Company for fever.  
The general health of the Company is now much improved.  
The following Sergeants have gone to Chatham to take a non commissioned officers course under Regimental Sergt. Major Palmer, a veteran who saw service with the Duke of Cornwall's Light Infantry:—  
Sgt. R. R. Dickie, Sgt. H. W. Sullivan, Sgt. F. J. Rupert, Sgt. F. Watson, Sgt. Geo. Matthews.  
Privates J. P. Joudry and Geo. Metzger have also gone to Chatham to take course in Orderly Clerk work.  
The following men have recently signed on here:  
D. M. Hamilton, Eel River Crossing, Fred Eslinger, Nash's Creek, John Rowan, Dublin, Ireland, B. W. Campbell, Cullen's Brook Que., Peter Senlack, Russia, F. J. B. Martin, St. Alexis, Que., Faren Thomas, Upsalquitch, C. E. Corrier, Lorne Settlement.

**IMPORTANT CASE BEFORE QUEBEC COURT**  
Matter of Direction of Line in Crossing River Means Much in Suit

Quebec, Feb. 7, 1916.—The case of the Restigouche Salmon Club vs. Jack Wyers, of Campbellton, was proceeded with last week in Quebec, when Judge Tessier came here expressly to hear the evidence and argument of both parties.  
The Restigouche Salmon Club was represented by Honorable Mr. Kelly and Mr. F. E. Meredith, of Montreal, and Mr. Wyers was represented by the firm of Pentland, Stuart, Gravel & Thomson of Quebec.  
The question at stake is to know whether the line of a lot on water should be continued in the same direction as on land, in order to divide the fishing rights.  
Honorable Mr. Kelly took the stand that the line on the river should be run at right angle to the thread of the stream from the division point of the two properties on land, whereas Mr. Stuart claimed that the line should be continued in the same direction on water as on land.  
The jurisprudence of England, France and the United States was quoted by both sides, and the case is now before the judge who will very likely render judgment in the near future.  
The case is a most important one, as this point of law has never yet been decided in the Province of Quebec.

**LOCAL INDUSTRY HAD GOOD YEAR**  
Annual Meeting of McLennan Foundry & Machine Works Ltd., Held Last Week

The annual meeting of the McLennan Foundry & Machine Works, Limited was held in the office of the company last week.  
The following officers were elected: President—Alex. McLennan, Vice-Pres.—H. M. McLennan, Sec.—Treas.—E. Miller.  
Board of Directors—Alex. McLennan, H. M. McLennan, E. H. Anderson, D. E. Richards, A. A. Andrew.  
Reports for last year showed a gratifying increase in the volume of business, and the outlook for the present year looks exceedingly bright.  
The works are very busy on mill repair work.  
The machine shop is being rearranged, a lot of new machinery installed and a sprinkler system has been installed throughout the entire works.  
The Rev. J. A. Cooper has returned from attending the Anglican Synod at Fredericton.  
Miss Barbara Matthews of Chatham, is visiting her brother the Rev. W. McN. Matthews.  
The many friends of Mr. James Brown will be sorry to hear that he is ill with double pneumonia.

**KITCHENER TO LEAVE WAR OFFICE?**  
Important Changes Said to be Planned in Direction of War

London, Feb. 7.—Changes of great importance in the direction of the war are contemplated, says the Daily Sketch. It expects Earl Kitchener probably will leave the War Office.  
The paper says in the event that Earl Kitchener leaves the War Office, he will undertake work of an important character elsewhere.

**PARLIAMENT'S NEW LEASE OF LIFE**  
Sir Wilfred Laurier has once more given evidence of his ability to rise above the smoke of party strife and has sacrificed mere party advantage for the higher things of life. The Prime Minister said in the House yesterday afternoon that, if the Opposition demurred at the suggestion of extending the life of Parliament for one year, the Bill would be withdrawn. The alternative, of course, would be a general election within the next few months.  
The Opposition had left the matter unreservedly in the hands of Sir Wilfred Laurier, who thus became the sole arbiter of the question of whether an election should or should not be held until the autumn of 1917.

**WOMEN'S INSTITUTE NOTES**  
The Campbellton Women's Institute are exceedingly grateful for the following donations:  
Mrs. A. F. Chamberlain, 50 wash cloths.  
W. C. T. U., Escuminac, 20 pairs socks.  
Mrs. W. A. Trueman, 1 pr. khaki socks.  
Mrs. N. McDougal, 1 pr. socks.  
Mrs. James Morton, 1 pr. socks.  
Miss Clara Kerr, 1 pr. socks.  
Miss Violet Blackie, 2 pr. socks.  
55th Battalion, Bramsott Camp, Liphook, Hants, Feb. 20, 1916.  
To the Ladies of the Women's Institute of Campbellton.  
On behalf of the Campbellton men of the 55th Battalion and myself, we wish to thank you for the box you so kindly sent us and I wish to assure you everything was very greatly appreciated.  
I am so sorry I was unable to write you before, but there has been so much to attend to and we are training very hard at present.  
All our town boys are well and in excellent spirits.  
Thanking you once again, and if you send more another time we assure you they will be equally appreciated, as the demand for socks is always great. Tobacco is also very scarce, I mean Canadian tobacco, and the men are always grateful for it in any form.  
I remain,  
Yours very sincerely,  
O. J. LARZEN, Lieut.

No mail has reached here from Gaspé and intermediate points since Monday night. The road between Gaspé and New Carlisle are badly blocked and the road between New Carlisle and Matapedia is also blocked. The long cutting below Maria has drifted full and a large crew of men were engaged shoveling it out. It is expected the train will get through today or Friday.

**TWO ZEPPELINS LOST NEAR APH IS REPORT**  
Amsterdam, via London, February 9.—The Echo Belge publishes a report that two Zeppelins have been lost near Aph, in Hainault. The first collided with a tree-top while returning from a raid on Paris, on January 30. The second was brought down by a French airman within a few miles of the same place.

**H. M. S. DRAKE CAPTURES RAIDER ROON WITH TWO MERCHANTMEN**  
After Three-Hour Running Fight One-third of Roon's Complement were Hors de Combat and Ship Badly Knocked About by Drake's 9.2 in. Guns—Cradock Avenged

New York, Feb. 9.—Advice received here today tell of the capture of the German man-of-war Roon, alleged to be the now famous commerce raider, by the British cruiser Drake, after a three hour fight 200 miles east northeast of Bermuda.  
Captured with the Roon, according to the report, were two merchantmen, one of which was armed.  
The message reached the Globe from Bermuda through a source that cannot be made public, in code, and reads as follows:

**POLICE COURT DEALS WITH LIQUOR SELLERS**  
Heavy Sentence for Bathurst Man for Selling to Soldier.— Other Matters

There was an unusual amount of drunkenness among the soldiers last week, and the police and officers are making an effort to bring the parties supplying the intoxicants to justice.  
On complaint of Capt. McKay, a young man named Roy of Bathurst was arrested for selling liquor to a soldier. He appeared before Judge Matheson and was fined \$100.00, or three months in jail. He went to jail.  
Another local young man employed in a livery stable was up before His Honor for supplying liquor to a soldier. He was fined \$40.00 and costs. He paid up at once.  
John Doucet was up for alleged illegal smoking of liquor. It appears that Doucet is barkeeper for the Arsenau Hotel, and that after hours he supplied customers from a convenient stock kept in the basement. Judgment was reserved in this case.  
Officer Mann arrested a drunk Thursday, who was fined \$2.00 and costs.  
Saturday—Chief Hughes, Arrested three men at the depot for being drunk and creating a disturbance. They were up before His Honor and gave up \$5.00 and costs each.

**BATHURST**  
Bathurst, Feb. 9.—Mr. and Mrs. Geo. Rogers of West Bathurst, are visiting their son Ernest, who is married in Pointe, N. Y.  
Mrs. T. P. Byrne returned from Halifax, where she accompanied her sister, Mrs. J. G. Byrne, who called on her husband to help nurse the wounded soldiers at the front.  
Mrs. Geo. Galt is visiting in the city by their son, Jack, are visiting in Montreal.  
George Chalmers, accompanied by his friend, Mrs. Miller of Fredericton, are visiting relatives here.  
St. Luke's congregation held a social in their hall Wednesday evening, Feb. 9. A very enjoyable evening was spent in games and music, the citizens' band being in attendance, after which refreshments were served.  
Mr. and Mrs. Hingle and family, also Mr. and Mrs. J. G. Mayo and family will leave on Monday for Toronto where they will reside.  
Mrs. James Chalmers of Bathurst, is visiting her sister, Mrs. J. Woodside here.  
The many friends of Mrs. J. H. Chalmers will be glad to hear she has recovered from her recent illness.  
Miss Ward has returned to her duties at the J. H. Dunn hospital.

**KILLED IN ACTION**  
Word has been received here that Private Edmund Arsenau of St. Jean Evangelist, a member of the 54th Battalion, Winnipeg, had been killed in action. Mrs. Chas. Roy of this town is a sister.

**DRAKE HERE TODAY TOWING ROON.**  
Took her 200 knots east-northeast Bermuda, three hours running fight. Lost Danforth, eighteen men. Her losses about one-third. Struck as we came abeam. Two merchantmen with her, one armed. Took both. Brought here.  
"Seagrave on sighting Roon said: 'Please God, today I will avenge Cradock' (Admiral Cradock, whose squadron was destroyed by the Germans.) Roon badly knocked about by 9.2-in. Thirty-two officers and 719 men taken in three prizes."

HEAT FLASHES, DIZZY, NERVOUS

Mrs. Wynn Tells How Lydia E. Pinkham's Vegetable Compound Helped Her During Change of Life.

Richmond, Va.—"After taking seven bottles of Lydia E. Pinkham's Vegetable Compound I feel like a new woman. I always had a headache during the Change of Life and was also troubled with other bad feelings common at that time—dizzy spells, nervous feelings and heat flashes. Now I am in better health than I ever was and recommend your remedies to all my friends."

Such warning symptoms are a sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and inquietude, and dizziness.

For these abnormal conditions do not fail to take Lydia E. Pinkham's Vegetable Compound.

Despite their long list of failures, Germans at home and abroad seem never to lose confidence in their ability to deceive. They have everlasting faith in the gullibility of others.

His Wife—Oh, dear! I wonder if there is any perfect happiness in this world. The Cheerful Pessimist—Not likely. Silver linings are surrounded by clouds.

Jones—I say, Kimber! You remember you said you had hunted tigers in West Africa? Well, Captain Wiggins tells me there are none there. Kimber—Quite right, quite right! I killed them all!

PARLIAMENT BUILDINGS MASS OF SMOULDERING RUINS

Library Remains Intact—Col. Sherwood Does Not Think Fire Was of Incendiary Origin—Buildings Cost Four Million Dollars

Ottawa, Feb. 4.—The Parliament Buildings of Canada are a mass of ruins. Irregular columns of smouldering debris are all that remain today of that imposing pile which for half a century has been the home of Senate and Commons. A fire almost unexampled in its fury, broke out at nine o'clock last night and laid waste the great central structure. The front and side walls remain, but the roofs are down, while the interior is absolutely gutted. The upper portion of that majestic tower which surmounted the whole, has toppled to the ground, a crumpled mass of iron and masonry. Only one thing was saved, but that is a thing of inestimable value. The magnificent library, with its hundreds of thousands of richly bound volumes and priceless, irreplaceable records, is fortunately intact. This circumstance is due to a persistent and heroic fight by firemen and more particularly to the fact that the library, though adjoining, was in the rear of the main structure, with a narrow corridor connecting it.

Canada's Parliament, in the midst of session of great importance, is today on the streets, but arrangements are in progress for a meeting place in the Victoria stadium, or if that proves inadequate, in the Russell Theatre. The Parliament buildings cost four millions. To replace them will cost more than double that amount.

FIRE STARTED IN THE READING ROOM AT NINE O'CLOCK LAST NIGHT.

It was just a few minutes after nine o'clock last night when the fire broke out. It started in the reading room, a long and narrow place, which is a connecting link between the Senate and the Commons, and the usual passage for members from those chambers. What caused it may never be known. There are rumors of incendiaryism, and suspicions of the malicious hand of an alien enemy. The fire may well have been free from such a cause. The fact, however, that the building at all hours are closely guarded, and no strangers admitted, with the additional fact that policemen were at both doors of the room, lend some color to the belief of some that the initial blaze was due either to spontaneous combustion, or to that it started from the smouldering cigar or cigarette of some reader. Few were in the room at the time. One who is known to have been Mrs. Verville, wife of the Masseveuve M. P., says she heard a puff and saw flames sweep across one of the newspaper racks. "In an instant the room was ablaze. A policeman at the outer door seized a fire extinguisher, but if it worked at all it was as a drop of water in a fiery furnace. The stands

and racks were in flames in the space of a few moments. The mass of burning paper set forth volumes of opaque smoke, so dense as to obscure the lights, and loudly in asphyxiating effect. E. N. Rhodes, the New Deputy Speaker, was Presiding Over House For the First Time

In the House of Commons all was quiet, probably not more than fifty members were in the chamber and the newly installed Deputy Speaker, Mr. Rhodes, was in the chair for the first time. It was a private member's night, and Maritime Province men were talking about fish and how to develop the industry. Mr. Loxie of Northumberland was speaking. Suddenly the door flew open and in a piping voice Mederic Martin, M. P., Mayor of Montreal, shouted: "Mr. Speaker, there is a fire, and a big one." Close on his heels, with a similar excited warning, came Frank Class, M. P. of Middlesex. The warning came none too soon. The Commons building was a network of sweeping corridors, running in every direction, the intensity of the fire itself created a terrible draught. It was accentuated by draughts from the corridors. There are no fire doors, no fire proofing, wooden doors and lockers everywhere. Not a thing, in fact, to arrest the relentless fury of the devouring element.

Immediately the warning was given, members left their seats and some of them made for their lockers. They could not be distinguished in the impenetrable smoke and flames. Sir Robert Borden started for his room to get his coat and hat. He was counselled not to go and fortunately took the advice. The Prime Minister escaped halts with a borrowed coat.

Sir Wilfrid Laurier was not in the House. Victims of Fire Number Six, Including Four Men, and Two Ladies From Quebec

The fire was under control about five o'clock, although at ten this morning streams still were being played on the interior. Morning has not revealed any casualties other than those reported last night. Madame Bray and Madame Morin, of Quebec, who were the guests of the Speaker and who were caught and suffocated in a room, and the three men who are thought to be buried under fifteen feet of debris, comprise the list. They were caught when a turret at the north side of the building fell. The men are Alphonse Desjardine, a Dominion policeman; Alphonse Desjardine, his uncle, an employe in the building, and Robert Fanning, a waiter. As yet the debris has not been removed off where they are thought to be.

AGRICULTURAL SOCIETY MEETING SATURDAY

Endeavoring to Straighten Out Business of Past Years.—A Tangle

A meeting of the Agricultural Society, Dist. No. 1, Restigouche, was held in D. A. Stewart's office Saturday afternoon, President A. G. Adams presiding.

The meeting was called for the purpose of having the business of the Society put into proper shape, as under the unfortunate circumstances of having a secretary who resided out of town and out of touch with the various enterprises of the Society, the business had been allowed to get into a muddle which needed more patience to clear. The former secretary was not in attendance, which increased the difficulty.

However, matters were put into proper shape and the good work of the Society will be carried on under a better business system.

The work of the Society during the past year was an important one. Nearly a thousand bushels of seed oats were imported, as well as over one hundred bushels seed wheat, which were planted and brought forth good crops, an average of 20 bushels to the acre being reported.

The Society is also interested in improvement of live stock and to that and several fine animals have been imported into the county. Let the good work continue.

Little Nicholas, reading from his history book: "William the Conqueror landed in England in 1066 A.D. Teacher: "What does A.D. stand for?" Nicholas: "I don't exactly know. After dark, I suppose!"

"He is a rising pugilist, isn't he?" "Indeed he is, but he doesn't deserve any special credit for being such a fighter." "Why not?" "His mother named him Obadiah, and kept his hair shaved until he was 14, so he had to fight!"

Charlie Chaplin is a young Jew who received his schooling at the Manchester Jews School.

It is reported that the German colleges in Rome are now vacant of pupils.

The U. S. Presidential nominations will be made in four months. It looks as if the great European war will be a big issue in an American election.

SUCCESSFUL CARNIVAL FRIDAY-EVENING

Large Number of Costumed Skaters on Ice and Many Spectators Present

A very successful carnival was held in the Skating Rink on Friday evening by the Soldiers' Comfort Association. The affair was exceptionally well patronized and many pretty and interesting costumes were worn by the skaters. Worthy of special note was Mrs. Arthur McKenzie's costume as Pocahontas, capturing the ladies prize, while the gentleman's prize was won by Mr. Thos. Matheson as a Valentine. Master James McNichol representing the well-known Mr. Jiggs took the child's prize.

During the evening the ladies of the Soldiers' Comfort Association served refreshments, of which a large number partook. The net proceeds of the carnival for the Association amounted to over \$30.00.

The ladies on the committee in charge were Mrs. W. H. Miller, Mrs. H. Mann and Mrs. G. G. Glennie, while the judges of prize winners were Mrs. Thos. Wran, Judge McLatchy and Mr. H. R. Humphrey.

The committee wish to thank the judges, the managers of the rink and all others who contributed to the success of the carnival.

Among the costumes worn by the skaters were the following:

"So that my executors may have ready money."

The following extract is from the will, recently probated, of a keen, successful, and, as the will proves, thoughtful business man. Among the business policies on my life which are now payable to my children in equal shares, I am endeavoring to arrange that these policies shall be made payable to my estate so that my executors may have in hand ready money for immediate requirements. If this shall not have been accomplished at my death I desire my children to release their interest in the policies and file a direct

The \$27,547 life insurance prevented the sale of property which would otherwise have had to be disposed of at a great sacrifice. The moral is plain. There is no estate, be it large or small, but should be covered by life insurance. A policy would prevent losses to your widow or your children that could not otherwise be averted, because it spells "ready money," especially if placed with

The I. N. R. train did not make her regular trip to St. Leonards Tuesday. The road was badly blocked. The snow plow came through from St. Leonards and trains are now moving as usual.

**SMALL TURNOUT**  
A Company of the 132nd is not up to strength these days, many casualties being reported. Even the bugle band has been hard hit, only one bugler being on duty. Colds, (not feet) seem to be the chief cause.

**REPORTED WOUNDED**  
Mr. Frank Dechaine received a telegram Tuesday morning announcing that his son Wilfred J. of the 26th Battalion had been wounded in the left arm on Feb. 1st and that he was then in No. 2 Canadian Stationary Hospital at Bologne.

**MORE NAMES ADDED**  
At the last meeting of the Patriotic Fund Committee five applications were made for grants from the funds. Of these three, which call for an additional expenditure of \$58.50 per month, were granted, while two were refused. The total amount paid out last month was \$2419.00.

**CAPT. ALFRED ELLIS DEAD AT HALIFAX**  
Halifax, N. S., Feb. 5.—Captain Alfred Ellis, one of the best known master mariners of this port, died this morning, aged 32 years. He was born at Bathurst, N. B., and has been in the employ of the Plant Line for 25 years, last year as captain of steamers. He has been ill since the wreck of the Perry, of which he was in command at the time. He leaves a daughter, Mrs. J. B. Phillips, of Halifax, at whose residence he died.

**AN OLD TIMER**  
It commenced to snow Monday morning and continued to fall all day, the wind being from the east, and the temperature just below freezing. It cleared off during the evening, the wind veered to the north west and blew strongly all night and Tuesday, piling up huge drifts. Train service was greatly interfered with.

**LETTER OF SYMPATHY**  
The following letter of sympathy has been forwarded to Mrs. O'Keefe, Campbellton, Feb. 5th, 1916.  
Mrs. Bridget O'Keefe,  
Campbellton, N. B.  
Dear Madam:  
At a meeting of the Restigouche Branch of the Canadian Patriotic Fund held last evening I was instructed to convey to you the sympathy the members of the Committee feel in the loss you have sustained by the death of your son, J. Arthur O'Keefe, of the Princess Patricia Light Infantry, as a result of wounds received in the service of his country. While your sorrow must indeed be great by reason of this, double sacrifice you have been called upon to bear, there is comfort and consolation in the fact that your son has laid down his life in defence of the principles of righteousness, and that a just and all-wise Providence will see to it that it has not been in vain.

Again assuring you and yours of our heartfelt sympathy, I am,  
Yours sincerely,  
JOHN T. REID,  
Secretary Patriotic Fund  
Restigouche County Branch.

**LETTER FROM THE FRONT**  
Bramshott, Jan 22, 1916.  
Mr. Editor:  
It affords me great pleasure to tell you that it is quite a treat to us Campbellton boys to receive the Graphic over here in England as it gives all the news of our home town and the surrounding country. When one of us get a Graphic we hurry to get it read and pass it over to some other Campbellton boy.

Today on looking over one of your issues of Dec. 23rd, 1915, I notice an item that conveyed the impression to me that it has been rumoured around that I had deserted my Battalion, and I wish to say to whoever it might be that started that story that it is a downright lie. I never had any idea of deserting; had I wanted to quit soldiering I could have procured my discharge before we sailed for England. More than that I could have got my discharge over here had I not consented to undergo a serious operation on my leg, but consented rather than be a quitter; and for which I am now living in Bramshott Military Hospital recovering from said operation. Hoping Mr. Editor you will publish this letter and thanking you in advance,  
I remain one who is trying to do his bit

THE CALL OF THE EMPIRE.

Throughout our land, the farmers in their country homes, the business men in their places of business in the towns and cities, are all and each intent on the business of the day—to increase their store. Planning and working so hard in hand to this end. To preserve this end, safety and protection are necessary. When those farms were taken and that business begun, there was an assurance given and accepted that safety and protection would be supplied. It is the assurance of the State that counts, and back of the State are the people. Are some today shirking that responsibility? How can the proud name of our Empire remain firm and true if the backing of the people is withdrawn? Are the people of the British Empire of today, willing to exchange the proud position that she has held, of honour and integrity for that of German "Kultur" which shelters itself behind expediency—whose teaching is that the end justifies the means. Let men call unto men throughout all our land to unite hands to go to the help of the Motherland, which today is the foremost opponent of wrong and oppression—who stands for fair-play and protection to all classes.

VIGILANCE NEEDED

The burning of the Parliament Buildings at Ottawa on the night of the 3rd inst., as also the burning of an Ottawa clothing factory working on soldiers uniforms, etc., and the attempted attack on the Victoria Bridge at Montreal, are events of importance happening since our last issue. Are Canadians perpetrating these outrages? Such a presumption needs no denial. Evidently there are amongst us—perhaps in our very midst—men under German pay. Doubtless close watch is maintained in our large cities upon all strangers and their every movement known.

What about strangers and aliens in smaller towns for whom no one is willing to vouch? Men of German "Kultur" and Austrian birth are in many parts of the Province and it would be only wisdom on the part of our authorities to maintain close watch on all such and to guard important positions. And further in these days of easy communication by mail and otherwise, information may be gathered and distributed, which information may make for good or ill to Canada according to the party from whom it comes. This is not the day for taking chances on German Kultur and let our first concern be Canada.

HONOURED NAMES

Our business men have done much by way of industry and courage to open up and develop our country. Farmers have cleared the land and established the homes from which have gone men and women to positions of trust in the world, and, all together, thus honoured the Country and made a name for it. But to our soldier boys, who have laid down their lives in defence of their friends is due the greatest honour. Their sacrifice was not for wealth or domain, it was the spontaneous answer to the call for help—the call of the weak and oppressed—a call that never is unheeded by brave and true men. The names of those brave fellows who have in honour maintained our honour, who promptly answered to the inquiry—who came to the help of

the oppressed,—who will avenge outraged women and murdered children,—these are the men whom we should honour.

IS IT ECONOMY?

Since the fire of 1910 the Town of Campbellton has had no town building or Town Hall in which to house its offices and hold its Council meetings. For the time the shacks on the old site were used. These became untenable and the Murray block on Water Street was leased. While these offices are convenient as to location, the building is not suited for the purpose. The rent and heating last year cost the town, after deducting all rents received, over \$1500.00 or the interest on \$30,000.00 at 5 per cent. It is felt that \$30,000.00 would be sufficient to erect and equip a very nice Town Hall, one which would house the town officials and fire department with all the necessary offices, lock-up, etc.

A SERIOUS OFFENCE

Last Wednesday the soldiers received their pay. As is the case when there are a large number of men assembled, there were a number who at the first opportunity, proceeded to indulge too freely in intoxicating liquor, with the result that considerable disturbance was created about town and at the Barracks, and at one time there were more than twenty men in the guard house.

The selling of liquor to soldiers has been made an offence, punishable by a heavy fine, and the law should be carried out to the letter. We understand that a number of pocket peddlars have been supplying the soldiers and in one case at least an arrest has been made. An example should be made of any and all convicted of this breach of the law, so that our boys in khaki will not be disgraced by others of baser habits. We trust the police are alive to the importance of putting a stop to this traffic.

Near to the close of the sittings of the County Council,—and by the way, the members of this Council at \$3.00 per day do not unduly hurry themselves—a resolution was passed asking that better and more increased railway service be supplied to the Town of Dalhousie, a very praiseworthy resolution,—but was there a word said in the way of a request to the Provincial or Dominion government asking for a bridge across the Restigouche at Campbellton. Perhaps this is an embarrassing question. Anyway the Governments do not talk about it now at all. If the Opposition were out after votes in this neighborhood, we would commend the consideration of this important need to them.

If the using of intoxicating liquor interferes with the best training of our soldier-boys, let the intoxicating liquor be banished. It is only tolerated to enable some men to make money. There will be a day of reckoning for all who are using the war and our soldiers to accumulate wealth. There are money-making of several kinds, but there is a curse attached to some of the kinds and they should be prohibited.

The Provincial Legislature will meet in session on February 24th. Its function is to make laws. One law promised to the people of this Province is a Prohibition law. This expected law may be the very thing we need and to that end we should be alert and interested in its framing. A keen and tentative public-opinion should follow the making of this law so that it will do the work which it is expected to do.

SAWDUST.

"Is Canada at war with Germany, or playing marbles?"

Well, the "biggest storm" has arrived.

How are you? Getting around slowly thank you.

The Town Clock still looks dark and drear. Oh, for a light.

Conscript or volunteer, which? The results perhaps will be all the same, but your family will judge differently.

Mr. Stewart and Mr. Pratt should get together and see if an amicable division of the honours can not be arrived at, as to who did get the Western Suburban put back.

What about the burning of the Parliament Buildings at Ottawa? Is Canada as safe as some of our young men think it is?

Saturday night, a Toronto publication says that "the moving picture theatre exists chiefly for the amusement of people under twenty-one of both sexes"—that is "train up a child in the way it should go" etc.

Falls of unsavoury horse-selling fame in Ontario has the impudence to ask to be re-elected to Parliament. It remains to be seen if there are any germs of German "Kultur" in that country.

The German airman on the sinking Zeppelin got a splendid object lesson on the rating of German "Kultur". "The mills of God grind slowly, but they grind exceeding small."

Canadians usually do things rather than play with them. The Government has offered 250,000 more soldiers. Where are they coming from is the query. "I am too busy to go", and "my boss don't want me to go". Couldn't we get some of the women to go?

THE CHURCH AND THE SALOON.

Never since the world began was there a time when, as every loyal British subject believes, the forces of evil were so clearly defined and lined up in deadly conflict as in the present world war. While there are some which are called "neutral" nations, for want of a better word, yet outside of the twelve or more actually fighting, there is not one that has not its sympathies on one side or the other. Every one of them knows on which side it would prefer to engage were it to join the combat. So, in the fight against the saloon, considered from the standpoint of the Church, the line of demarcation is becoming increasingly sharp and distinct. It begins to come down to the simple basis of "right" and "wrong." If a thing is right, it should be upheld. If it is wrong, it must go. The church is supposed to uphold what is right. It cannot do this and tolerate what is wrong. The saloon is the enemy of the church and all it stands for. Too often in the past the church has made terms and held out the white flag to the saloon. We still have among us church members who trench themselves behind what they term neutrality, taking arms on neither side, as they believe. If the devil ever quotes Scripture in this connection, no doubt a favorite passage would be: "He that is not against us is on our part," and for once he would not be the liar he is usually credited with being. When Christians get to the place where they realize that not to fight the saloon is to shake hands with it, that to tolerate it is to condone it, that not to vote against it is to shoulder a share of responsibility for the harm it does, that to receive of its gains makes them partners in its guilt, then the church will have no more use for the liquor traffic than society has now for a mad dog or a rattlesnake.

It follows then, that the Christian Church is responsible for the continuation of the saloon; that if it only would, it could oust the saloon, root and branch. Why does it not then arise in its might and strike at the foul thing that fattens on its means? Because so many of its members fancy themselves neutral, are in reality on the side of the saloon, because a great many more are so mixed up with the saloon that the very money they bring to the altar is part of what has been wrung from the hands of want and poverty and toil—blood money, every cent of it, and because another percentage have a "sneaking affinity" for the social glass.

Verily, if this now be Armageddon, as it may be, the trumpet which calls our sons to the line of defence is also calling to the Church to awake, and arise from the dead, in order that it may fight that inside enemy, the legalized liquor traffic, which is more to be dreaded than our outside enemy, the militarism of Germany, with all its legions.—M. E. McCurdy, in Sherbrooke, Que., Daily Record.

AFTER MEALS

When digestion fails, whether from loss of tone, climatic changes, overwork, or errors of diet, nothing so soon restores tone and healthy activity to the digestive system as the root and herb extract—Mother Seigel's Syrup. It tones and regulates the liver and bowels, and cleans the system of the decayed products of indigestion—the fruitful cause of headaches.

TAKE THE DIGESTIVE TONIC

languor, acidity, heartburn, flatulence, brain fog, and biliousness. It makes food nourish you, and thus builds health on good digestion.

SHOCKING DEATH

Urial, the seven-year-old son of Mr. and Mrs. Wm. McLean, Howard St., met death in a shocking manner on Tuesday. It appears that the little fellow had been sent down stairs to close the draughts in the dining room stove, and in doing so his clothing caught fire. The boy became so terribly frightened, when he realized what had happened, that instead of calling to his mother, he ran upstairs into another room. Before his mother could get to him and extinguish the fire, he was so badly burned that medical aid failed to relieve his sufferings, and he died in the hospital that afternoon. Much sympathy is felt for Mr. and Mrs. McLean, especially as the former was away from home at the time. The funeral will be held at 2 o'clock Thursday afternoon.—Chatham World.

CANADIAN WAR PICTURES

The Canadian War Pictures were shown at the Opera House last night to full houses, and were well worth the price. The pictures show the Canadian boys in realistic work. The large map of the battle of Ypres was very interesting and showed the position of the Canadians, and explained the reason of their heavy losses. These films are being repeated tonight.

MANY ILL

Principal Carr and a number of the Grammar school teachers and a large number of pupils have been sick with a gripe. On account of the storm, only one session was taught on Monday and Tuesday. It has been suggested that the school be dismissed for a day or two and the whole building thoroughly fumigated in the hope that better health of the pupils would result.

1. What amount was expended in 1915 by the Department of Public Works on the beach protection works at Carleton, Quebec, and has the work been completed?

GASPE DOCTOR IN SERBIAN RETREAT

Would Not Believe That the Enemy Was Advancing Until Latter Was in Sight

London, Feb. 8.—Dr. Raoul Brault, of Gaspé, has returned to England, after a month's holiday in Egypt, having had a most trying experience in Serbia.

He tells a graphic tale of the Serbian retreat and the plight of the population under invasion. He joined the Serbian medical service at Istip, which was one of the first places the Bulgarians invaded, and there all his instruments, books and clothes had to be abandoned. He says:

"The Serbians were so brave and optimistic that they never believed that the enemy was advancing on them until they were in sight. Consequently not sufficient time was given to the civilian population to leave. "We had a wretched time tramping along in the terrible mud and pouring rain, in a great crowd. "At Pripek wounded men and soldiers without boots, in the rain and snow, with feet frozen, began to arrive, and I was kept very busy. How some of them walked, I don't know."

SERBIANS' PLIGHT TERRIBLE.

"There were terrible cases of gangrene, and their wounds were in an awful state. I had to keep amputating hands and feet. The Serbians were scattered in the mountains, and their plight must have been terrible. "I went to Kavadas, ten miles away, where the French commander told me to get my ambulance away as quickly as possible, as the Bulgarians were not far off. We did this successfully and went over to the French, having been protected by a French company from the treacherous population. You may tell how hard the Serbians were pressed when I say that the seat of Government was moved six times in one month. "The Serbian Government has treated me well and has paid me regularly. I have just been appointed Captain in the C. A. M. C. and joined at Shorncliffe."

NEW RICHMOND

In the New Richmond Skating Rink on Friday evening, the 18th inst., a friendly game of hockey will take place between the New Richmond hockey team and the New Carlisle team. 2. If not, how much more money is required, and is it intended to go on with the work this year?

Mr. ROGERS: 1. (a) \$688.31. (b) No. 2. (a) The district engineer reports that \$1,000 will be required for the coming fiscal year; this will be considered in discussing Estimates. (b) Information will be given when the Estimates are laid down before Parliament.

CAMPBELLTON GASPE STEAM SHIP SERVICE.

Mr. MARCIL: 1. Have any arrangements been made for the subsidized steamship service between Campbellton, N. B., and Gaspé, Quebec, for 1916, and what are they? 2. How much was paid for this service in 1915, and to whom? Mr. GEORGE FOSTER:

1. No. 2. \$20,000 paid to the Gaspé and Baie des Chaleurs Steamship Company Limited. GASPE-ANTICOSTI MAIL SERVICE. Mr. MARCIL:

1. Was a mail service subsidized in 1915 between Gaspé, Anticosti and the North Shore of the St. Lawrence? 2. If so, who was the contractor, what was the service, how much was paid, and during what time was the service maintained? Mr. CASGRAIN:

1. Yes. 2. Robin, Jones and Whitman; frequency, fortnightly; rate, \$2,000 per season; 1st May to 27th October, 1915.

Cure Sick Headache, Constipation, Biliousness, Sour Stomach, Bad Breath—Candy Cathartic.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable you are from constipation, indigestion, biliousness and sluggish bowels—you always get relief with Cascarets. They immediately cleanse and regulate the stomach, remove the sour, fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the intestines and bowels. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet and head clear for months. They work while you sleep.

A Lesson From The Clock
A CLOCK that strikes is better than a non-striking clock. It tells us the time through our ears as well as through our eyes. It saves our steps. It signals, spurs us on, rouses us, speaks to us in the dark and from far away. It is useful far beyond the usefulness of the silent clock.
So with a business that advertises. A shop or store that sends out its message to us in the form of advertisements in our newspaper serves us far beyond the shop or store that is silent—that must be visited before its service or merchandise can be known.
The shop or store that advertises saves our time and money, etc. Speaks to us at the right time, rouses us to attention, and stirs us to action. We buy more as the result of advertising, and we buy from advertisers.
To the Merchants of Campbellton
Put a striker—an attention-getter, an arouser, an stimulator—on your business. In other words—advertise. Strike often and regularly by weekly advertisements in THE GRAPHIC. It reaches over 3000 homes weekly.

NEW CARLISLE

On Thursday evening of last week the members of the L. O. G. T. Lodge gave a dinner in the parish hall to the officers and volunteers at that time in town. Seated at the tables were over forty volunteers, two officers, Capt. Rev. Buckland, Rev. Heron, Rev. Sutherland and the Lodge representative, Mr. J. O. Sherar. The tables were very neatly and appropriately decorated for the occasion. During the evening several addresses were given. Mr. Sherar, chairman, first spoke on behalf of the lodge and welcomed all present.

Rev. Capt. Buckland, who has lately returned from the seat of war, spoke of his experience while at the front. He congratulated the boys on their courage and the stand they had taken, advising them that if they wished to give their best to King and Country, they were to overcome temptations, and the greatest temptation they would have to contend with was among themselves. He urged them strongly to have nothing whatever to do with it. The Capt. referred to the boys who had left town over a year ago; how well they were acquiring themselves. He also said he hoped when these boys were across the sea, if they knew he was in the same place that they would make themselves known to him. He wanted to be a friend to them all. The Capt. ended his address with a Toast to the King.

Lieut. Murphy responded to the Toast to the King in a loyal manner, and thanked the members of the lodge for their kind hospitality.

Rev. Mr. Heron in his address made an earnest appeal to the soldiers on religion, urging them strongly to accept of it.

Rev. Mr. Sutherland also referred to the boys who had been a year ago and still further back to Francis Maguire, who left with the first contingent, then a private but by his own merits now a Commissioned Officer. He said he hoped some day all the soldiers present would come back in time with commissions and with honors.

During the evening a few choruses were given by the Lodge members, recitations given by Miss Sutherland, Shennan and a solo by Miss Sutherland. Also Lieut. Murphy kindly favored the audience with a squad drill. During this time the Lieut. took the opportunity of appealing to the young men to enlist, saying that if they would not be too many, he would call a company, 250 men, not only a platoon. Altogether the evening was considered a success. Cheers were given for the ladies, for the home boys at the front, for the volunteers, Capt. Buckland, the clergy and Lieut. Murphy. End—God Save the King.

On Sunday the soldiers marched to the Presbyterian church to attend morning service and to St. Andrew's church in the evening, where very appropriate addresses were given by both able ministers. The occasion was made rather sad by the news that many of the boys were leaving on the following Tuesday to join another battalion.

Mrs. A. Arnold of Chandler is visiting her mother. She has her two boys with her.

Mrs. H. Grier and daughter Katherine of Montreal, are visiting Mr. and Mrs. Scoles.

Guy Mersereau of Campbellton is in town at present.

A Red Cross concert is arranged for Friday evening, Capt. Buckland will tell some of his experience at the front.

The girls hockey team have arranged a game with the soldiers for next week.

RICHARDSVILLE

What is the matter with the correspondent of this place. I guess he must have gone to the front, as it is quite a long while since we saw any notes from here.

We are still living, although many of the folks are enjoying the company of Mr. Grippe, but we are pleased to say that some of them are on the mend again.

Lance Corporal L. N. Targett of the 64th Battalion, Halifax, is spending a few days at his home here. He expects to sail shortly with his battalion for England.

Mr. Linton Worrall, who was so seriously ill with the fever early in the fall, has not yet fully recovered. We all join in wishing him a speedy recovery.

Times are a little dull around here this winter. The Richards Mfg. Co. are not loading much lumber just at present, although we notice a few men having a joy ride up to the L. N. R. some of these mornings.

CORNER OF BEACH

It is with deep regret that we must record the death of one of our oldest and most respected citizens in the person of George Vibert, who died suddenly on Thursday, Feb. 3rd at 10.30 a. m., at the age of 74 years. Mr. Vibert had been ailing for some time, but his death had not been expected so suddenly. He was around and about and had been out of doors shortly before his death. Mrs. Vibert had been away from the house for a short time, and during her absence Mr. Vibert fell from his chair and on her return found him in an unconscious state. Medical aid was summoned, but before the physician arrived he had expired. Mr. Vibert was the last survivor but two, Mrs. Packwood of Point St. Peter and Mr. James Vibert of Corner of Beach, of a family of ten. The passing away one by one of his brothers and sisters had saddened his life, but had not impaired his essentially, kindly and hospitable nature and usefulness to the community. He was a devoted and loyal member of the Church of England and ever delighted in the services of the church. Mr. Vibert carried on a successful business career in the town for a number of years, and will be greatly missed by his large number of relatives and friends. His good and generous acts will long live in the memories of all who knew him. The funeral was held at St. Luke's church on Sunday at 10 a. m., conducted by the Rev. Sydney Waters, and was largely attended. The hymns sung were "Art thou weary," "Nearer My God to Thee" and "Rock of Ages". The body was laid beside his late brothers and sisters, Mrs. Vibert and his brother-in-law, Mr. Linton, having the sympathy of the entire community in this their sad bereavement.

NEW RICHMOND, PRO. QUE.

The hearts of the people of New Richmond and vicinity have been stirred with emotion and sympathy by the death on the evening of Feb. 2nd of Martha Lima, only and dearly loved daughter of Mr. and Mrs. Andrew McCall in her 20th year. She was the joy of her parents' hearts, the sunshine of their lives, and her early death is particularly sad as she was the only child, and in her declining years they will miss her loving presence and ministrations.

Her pure and blameless life is over on earth, and she went down to the land of the living, with a trusting in her Saviour. Peacefully she fell asleep.

About sixty horses, each sleigh carrying two and three persons, followed the remains to the cemetery.

After a short service at the home, the service was continued in St. Andrew's Church by Rev. E. J. Rattee, who spoke from the text: "In my Father's house are many mansions." He reminded the audience that "God is our Father; Heaven is our home, and death is sleep." Very earnestly and tenderly he spoke of the dead, and the bereaved parents, and urged the young to heed the warning conveyed by the death of this young girl.

A large connection of relatives and sympathetic neighbours and friends sympathize with the bereaved parents. Miss McCall was a faithful and conscientious member of the Sunday School and the W. F. and H. M. Society of New Richmond Centre, and her presence will be greatly missed among us. But we rejoice to know that our loss is her great gain.

MATAPEDIA

The people at Moffats, Flatlands, Champion, St. Alexis, Dawson and Millstream and other small stations along the line will be pleased to see that the Atlantic, which has been Campbellton at 8.30 p. m. is again in commission and making its regular trips. At the change of time table, through some misunderstanding, this train was struck off the list of passenger trains, which resulted in a great inconvenience to the people west of Campbellton, especially at the small stations above mentioned, as there was no train running west whereby people at these stations could get to town except by the local express in the morning. The result was that persons coming to town on business had to remain in town over night.

On Friday the 4th inst. Alexander Pratt of this place went to Moncton and interviewed Mr. Gutelius and Mr. McNeilly, with the result that the train was started on its regular run on Friday at 8.30 p. m. and will continue to run in this way until the next change of time table when, if conditions warrant, the management contemplates having this train made a return run from Mont Joli, arriving in Campbellton about one or two o'clock p. m., so that persons desiring to go to Campbellton for banking or other business will be able to go in on this train and return home the same evening by the suburban.

Senator John Sharpe Williams of Mississippi who makes a ringing vindication of the aim of the Allies in this war, received part of his education at Heidelberg, but his was a case where the "Kultur" inoculation did not take.

PARLIAMENT BUILDINGS WILL BE PROTECTED

Guard All Day and All Night at Fredericton—Extra Precautions During Session

Fredericton, Feb. 7.—An armed guard has been ordered placed on duty at the provincial Parliament buildings here.

The guard is being organized and will probably consist of six fully armed men at night, with about four men on duty during the day. Soldiers who have been on the firing line and have been invalided home are being given the preference in the selection of the guard and strictest discipline. Orders will be issued which will make it necessary for anybody to be identified before they will be allowed to enter the buildings, and guard will be maintained all day and all night, the first guards going on duty to-night. While the Legislature is in session the guard will probably be increased and additional precautions taken.

KING GEORGE EXPRESSES

SORROW AT CANADA'S LOSS

Ottawa, February 5.—The message which His Majesty the King sent to His Royal Highness the Duke of Connaught, and which was read by Sir Robert Borden in the Commons this afternoon, was as follows:

"I am grieved to learn of the deplorable destruction of the noble pile of buildings which has been for many years the House of the Dominion Parliament, and which I know so well. Please convey to your Ministers and the people of Canada my sincere sympathy for them in their great loss."

(Signed), GEORGE R. I.

The letter which the Premier received from His Royal Highness the Duke of Connaught was as follows:—"I desire to express through you my warm sympathy to both Houses of Parliament on the terrible calamity of last night by which those historical buildings were almost destroyed by fire."

"I know how universal will be the regret felt, not only in the Dominion itself but throughout the Empire. I feel the loss of life which has, I fear, occurred, and desire to express my deep sympathy with the families of those who have so unfortunately perished."

(Signed), "ARTHUR."

THREE RAIDS FOR

EVERY ZEPP. ATTACK

BERESFORD'S PROPOSAL

London, February 5.—Admiral Lord Beresford, retired, in an interview this morning, is quoted as having said: "For every air raid here I would have three in Germany. We have arrived at a moment when Zeppelins become the most serious menace to our population, though their activities will have no effect whatever on the war."

Hardly What He Expected.

A noted miser, who felt obliged to make a present to a lady, entered a crockery shop for the purpose of making a purchase. Seeing a statuette broken into a dozen pieces he asked the price. The salesman said it was worthless, but he could have it for the cost of packing it in a box. The miser directed it to be sent with his card to the lady, congratulating himself that she would imagine it was broken while on its way to her. He was at her house when the box arrived, but the effect remained what he expected. The tradesman had carefully wrapped each piece in a separate scrap of paper!

It is claimed by one of the largest Canadian rubber companies that its chemists have invented a method of producing synthetically a new substance that should prove of great economic value. This new substance has been given the name of Neolin by its inventors. It is claimed that it will displace leather in some extensive fields. The inventors emphatically state that the new compound is not leather and not rubber. Though the invention of this new substance is only recently announced to the public, the product has been manufactured in a quiet manner, and submitted for criticism to many prominent men dealing in the various lines in which it is likely to take the place of leather.

TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a 25 cent bottle of Danderine right now—Also stops itching scalp.

This, brittle, colorless and scraggy hair is mute evidence of a real scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not removed causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair!

Get a 25 cent bottle of Knewton's Danderine from any drug store. You surely can have beautiful hair and lots of it if you will just try a little Danderine. Save your hair! Try it.

SHORT PARAGRAPHS OF INTEREST TO FARMERS

It costs money to feed vermin on the stock or poultry. Kill them quick.

Regularity in feeding and milking goes a long way toward big milk checks.

NEW FREEMAN ON F. B. CARVELL, K. C., M. P. (New Freeman)

A great deal that is untrue as well as coarse and vulgar is being said and written these days about a man called F. B. Carvell because of his timely criticisms regarding war contracts, etc. The government has answered these specific charges with a general denial. This will not satisfy the people nor will it do justice to the government. We remember that when the Dugal charges were made at Fredericton a flat denial was given them by the Hon. Mr. Clarke on behalf of the premier. The public today knows which statement was correct. The charges at Ottawa must be met by something better than a general denial. The distinguished and fearless representative for Carleton county (N. B.), need pay no heed to the criticisms that are being levelled against him by a certain element of the government party. The great services that he has rendered his native province and the Dominion generally in exposing political mountebanks and grafters within the last few years should not soon be forgotten.

Mr. Carvell has done more for the government than it has done for itself inasmuch as he has lopped off some of the deceased branches of the government tree. Keep right on Mr. Carvell, with full steam ahead. You have deserved well of your fellow-Canadian citizens for what you have already done. We believe there is yet much for you to do in public life along the lines you have been working and every Canadian whose opinion counts for anything regardless of party affiliations will agree that there is dire need for just such a man as Frank Broadstreet Carvell in our present-day public life.

The only return from a farm is the crop. The system that partly deprives the farmer of this return, even when it compensates him by the selling price of his land, which is really an attachment on the crops of the future, induces half-titled holding instead of promoting the best cultivation.

PATHETIC REMARKS OF SIR WILFRID LAURIER

Reminded of the Ruins of Louvain.—A Faithful Servant Gone

Sir Wilfrid Laurier declared that he had been so long associated with the historic chamber that its loss was a personal one to him. "The people of Canada," he said, "have become attached to the historic structure, whence the Union Jack was wont to fly throughout the days of the session. But great as the loss of the building," said Sir Wilfrid, "it is not to be compared with the loss of human life. A nobler building will rise again from its ashes, but human life we cannot recall."

Sir Wilfrid paid a tribute to those who had died. "And," he said; "with loving voice, 'what can we say of the loss of those two young happy wives and mothers who, bright as the lark in the morning sky, came here to visit old friends, and now they are no more? What can we say of them? I agree with my right honorable friend," he declared with emphasis. "We should go on with our business at once. We look upon the ashes of that noble building which was destroyed by accident, and they remind us of the ruins of Dinant, of the ashes of Louvain, whose destruction was not caused by accident, but was perpetrated at once to the business before us, which has for its object the defeat of those who wrought their destruction."

Continuing, Sir Wilfrid said: "We had at the table an officer who had been for very nearly twenty years a faithful servant of the House of Commons, a man whom every member had learned to appreciate. How he disappeared we do not know, but unfortunately there is no hope that we will be able to see him again in life, and what have we to say of the loss of those two young ladies, young, happy mothers and wives, visiting old friends in their present high station, and now no more."

"I have nothing more to say than to endorse what has been said by the Prime Minister; that we should go on at once with the business of the country, and when we look at the mass of ruin there on the hill, and when we know that it is not the result of an accident, we are reminded of the ruins of Louvain and the ruins of Rheims, caused not by accident, but by the wickedness of a cruel foe. If there is anything which the present calamity should impress on us it is the desirability of going on with our work and doing everything to bring the murderers to justice."

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Cure fails to cure. Send for circulars and testimonials.

A FISH DAY. February 29th. (Canadian Fisherman.)

This is a leap year. One more day is added to the calendar, one more working day means a lot in economic value. It means more wealth for distribution, more savings for the thrifty, more knowledge for the student, more ideas for the intellectual, more value all around added to the year. It is our duty to make the most of this extra day.

In our particular sphere of action, could not something be done to enhance and promote the interests of our industry? It strikes me that this particular day of this leap year, February 29th, should be a fitting occasion to inaugurate a day, which would be known in the years to come as, the Fish Day of the Dominion. It is said "Every dog has his day," and why should not the fish have its day? To that effect I propose most earnestly that after this year, our Association, at its general meeting, should decide the date of an annual Fish Day. I believe, however, that it should take place during the month of February. Firstly, because in the abstract the month of February in the calendar year is under the sign of the Fishes—this appeals to the imagination.

Secondly, it is during this month that as a rule the Lenten season commences, and we all know the concrete influence of this season on the fish trade.

Thirdly, at this particular period of the year, stocks of all kinds of fish have accumulated in great variety and it affords a greater choice to select from. It is also the period of cold weather when fish can be conveniently and more safely carried and distributed.

The fish day that we wish to inaugurate should do his share of advertising in this connection. It is also the duty of each one of the Executive not to share efforts but to co-operative fully with the press and give all attention to the movement.

I say also that our Provincial and Federal Governments, our Transportation and Public Utilities Commission, should throw all their influence to bear upon a subject which is interesting and concerns every citizen of Canada. After all the Fish Day will be a stimulant and a means to develop one of this country's best assets. It is also a patriotic effort in every sense of the word.

Our Fish industry is not less precious than our Mines, our Forests, or our Agricultural Lands, and really a good deal less has been done to develop the Fish industry.

For many reasons our fish industry should receive more encouragement, as it is a better asset for our country than any of our other industries. All that is necessary is to exploit the fish—nature without any cost or effort to the exploiter.

In the case of our mines, after the ore is taken out, nothing of any value is left. It takes one hundred years to replace the growth of a forest that has been cut, and if farming could be done without tilling the soil, planting the seed and fertilizing it, it would then be on the same footing as our fisheries.

And as regards food products, crops will fail, disease will spread and annihilate cattle, and no famine is possible with our fisheries, and the more we develop them the more valuable they will become. So a Fish Day every year is imperative. We must at all costs get the public interested in the development of our fisheries.

Let everyone be ready, then, for the next 29th February, the first Fish Day to be celebrated in this country.

Major George W. Tiedeman of Savannah, Georgia, tells the following about the old time Georgia editor who was usually Mayor, Justice of the Peace, and real estate agent as well. Upon one occasion one of these editors was busy writing an editorial on the tariff when a Georgia couple came in to be married. Without looking up, without once slackening his pen, the editor said: "Tim's money; want her?" "Yes," said the youth. "Want him?" the editor nodded to ward the girl. "Yes," she replied. "Man and wife," pronounced the editor, "his pen still writing steadily. Upon one occasion a head was cut for the next day's headline."

JOHN MYLES WINS IMPORTANT SUIT

Chandler Property Involved in Line Dispute.—Case is Settled

New Carlisle, February 3, 1916.—The case of Gabriel Myles of Chandler, vs. John Myles, which has been before the Courts for some time was finally disposed of last week.

The facts are as follows:—John Myles, of Chandler, owns a lot of land and his neighbor is Gabriel Myles. The latter wished to have the line determined between his property and that of John Myles, and as they could not come to a mutual understanding, Gabriel Myles retained the services of Messrs. Bugeaud & Cote, and they sued John Myles for a line.

John Myles, before the Superior Court at Percé, did not engage any Attorney to defend him, and the case went by default against him, and judgment was rendered deciding where the line should be, and condemning John Myles to pay all the costs of action, including the costs of survey.

As he had allowed the case to go by default, the first news he had after judgment was rendered, was when the sheriff appeared on the scene, and seized his property for the costs amounting to some \$400.00. After his property was seized and was about to be sold, he then retained the services of the Honorable John Hall Kelly, and the latter after examining the record, came to the conclusion that the judgment was wrong, because, as he claimed, the Court could not condemn John Myles to pay the whole costs of survey and that only one-half of the costs could be charged up against him, and as a result, the whole judgment was wrong.

He advised his client to appeal from the judgment of the Superior Court at Percé, to the Court of Appeal, at Quebec, which his client decided to do. As the law obliges any one appealing from a judgment to give security for the costs, John Myles tried to obtain security, but could not do so. When his client was unable to obtain the security, Honorable Mr. Kelly made a cash deposit himself of \$600.00 to meet the cost of appeal, and the case was then proceeded with in the ordinary way.

The Court of Appeal sat in Quebec last week and just before the Court sat, Messrs. Bugeaud & Cote, abandoned their judgment and Mr. Gabriel Myles signed a withdrawal of the judgment that had been obtained in his favor.

This practically decides the stand taken by Mr. Kelly that even on an action at law, the costs of survey must be divided between the parties, and that one of the parties alone cannot be condemned to pay the whole costs thereon.

GERMANS HAVE EQUIPPED NINE-SEA RAIDERS

New York, February 5.—Nine sea-raiders of the type of the Moewe have been fitted out by the Germans, and one of them which escaped from the Kiel Canal on New Year's Day with the Moewe, has since been preying on British commerce with as much success as the Appam's captor, according to a story told here to-night by Mrs. Francis Fuller, wife of the British Governor-General of Ashanti.

Mrs. Fuller was one of the 97 passengers of the Appam, who arrived here from Norfolk, Va., on board the Old Dominion steamer Jefferson. Forty officers and ninety-three members of the crews of the British vessels captured by the Moewe and later taken in charge by the German prize crew, which brought the Appam to American waters, also were on the Jefferson. They were transferred to a tug and taken to the Seaman's Institute, where they will be cared for until arrangements can be made to send them back to England.

Mrs. Fuller declared one of the German officers who came aboard the Appam was authority for the statement that the Germans had equipped the nine raiders at Kiel. She said he told her the Moewe and the other which captured the British patrol based at most within a few hours of three British cruisers within a few hours after they left the Kiel Canal.

Mr. Lamarche, Nationalist member for Nicolet, says that if Bourassa and Lavergne are shot as traitors, twenty Nationalist supporters of the Borden Government will have to be treated in the same way. It is an odd situation.

Let Santa Claus suggest a Suitable Gift that daily service will prove of practical values.

1916 STUDEBAKER SIX FIFTY H.P. \$1395. Illustration of a Studebaker Six Fifty H.P. car.

---the FIRST 50 h. p. SIX at less than \$2000

And the best value in 6-cylinder cars on the market today at ANY price. We bar none. And we are thoroughly content if you will simply let us stand this new Studebaker Fifty H. P. SIX side by side with any car you like and compare it detail by detail. For never before has a car of such POWER, size and HIGH quality been priced so low. It has Greatly Increased Power. The new motor, enlarged to 3 1/2 inch bore (5-inch stroke) develops 50 H. P. The carburetor has been hung high on the left side of the motor. The pistons are longer with 4 rings. The bearings are all larger. The crank shaft has been made larger, with larger bearing areas, and balanced better so that there isn't the slightest trace of vibration or loss of efficiency. And with its irresistible, unbroken flow of power, its flexibility, its silence, is a wonder to drive. It throttles down to walking speed on high. You touch the accelerator and--well, all of a sudden, you are going faster. There is no jolt; it just glides from one speed to another. It's a handsomer car than ever. "It looks like a million dollars" said a man who was in recently. And it's the truth. It is one of the handsomest, one of the most stylish cars that you ever laid eyes on. Marvelously graceful--BIG, low hung and massive--but in the best of taste. The lines of the car flow in unbroken curves from the radiator back to the tail-lamp. And this year's bodies are done in a rich, distinctive Blue--a color mixed exclusively for Studebaker. A Bigger Car Than Ever. This new Six is a BIGGER Car than ever--carries 7 passengers--carries them in COMFORT. The car is larger in every way--longer--roomier--it gives more leg room everywhere. The driver's seat is divided. The folding seats in the tonneau are large, fully cushioned, and disappear completely in the floor when not in use--Studebaker's exclusive design. Following the latest European design, the body has been made deeper and the seats lower so that you sit down INSIDE the car and not up on it. The cushions, deeper and softer than ever, are tilted to throw you back into them. The upholstery has been greatly improved. Deeper coil springs--a higher grade of curled hair--a new and exclusive method of cushion construction, that keeps the cushions springy--and the finest grade of hand-buffed, semi-bright straight-grained leather exactly the same as that used on a Detroit made car costing over \$2,000. All of these combine to make this new Studebaker SIX the most COMFORTABLE car that you ever sat in. And with the longer chassis, and the better balance that has been achieved and the long flat three-quarter elliptic, UNDERSLUNG springs--well, you can't find a car with more delightful riding qualities than this new Studebaker SIX. Sets a New Quality-Mark. You take the upholstery for example--and the leather is the best grade of leather on the market. In the finish, five more operations have been added to the already long list of 20 finishing operations--just to make sure that the lustre is lasting. The steering knuckle is now forged of the highest grade chrome vanadium steel. In endless other details, this insistence on higher quality than ever reveals itself. You get MORE than ever--you get BETTER quality than ever. And Yet You Pay LESS. You pay \$400 less than ever "because it's a Studebaker," because it's a product of one of the world's largest producers of cars. See it--see for yourself what Studebaker resources and manufacturing facilities have accomplished. And judge if you need pay more for a SIX or if you dare pay less, unless you are willing to be content with a car that gives you less. Demonstration at any time. Come in. They are here today.

LETTER FROM THE FRONT--Somewhere in France. To the Editor of the Graphic: Dear Friend: Just a few lines to let you know that I spent a very nice Xmas and a happy New Year. Why I had to laugh a little while after New Year's, the big mail I received. Parcels right and left. It's a good job I was in the trenches at the time, because they would have filled my dugout. I was out for Xmas and I am glad to say we were treated very well. Why we were happy as a frog in a pond, and when I got the big mail we had the second Xmas. I must thank both you and all my friends for their kindness towards me. Well, I hope next Xmas I'll spend it home in town. I hear our brave boys in both Campbellton and elsewhere are getting ready for the front. We'll be here to give them the glad hand when they get over. The only thing they need fear in the trenches is the rats, and they are very plentiful. But it is only fun killing them. Why I saw the rats sit down on my bayonet when I would be on guard and eat my gas helmet all to pieces one night. I see some cats around the trenches too. Last time I was up the trenches we were shelled and I picked up some nice nose caps from the German guns. I'll try my best to give you one or two of them. You can give the boys my best regards. The hardest thing they got to go through is that 4-m left, right, and pick up your step and not that left your other left and so on. Why the rest of the war is O. K. All you got to do in the trenches is to wait till a damn fool German sticks his head up and then blow his brains out, that is if he's got any. I don't think he has or if he did have any, he would of brought them with him. It is very dangerous going in

and out of trenches, but once you're there you are at home. Well, I am going to the trenches in a very short time from now, and I hope it will be the last time, because I would like to go home to dear old Canada, the land of the Maple Leaf again. But tell the boys to cheer up and come over and join us and we'll go home together. I must close my short letter and sorry to say this might be the last for a time because I am going to the trenches, but I'll drop you a field card when I get there. My best regards to all at home with deep sentiments of love, I remain, Your friend, S. P. JOHNSON.
