MESSAGES MIXED.

A message from Tunis tells of a curious incident in connection with the wireless telegraph instruments installed on the French ironclad St. Louis, and the torpedo boat Dunois, which recently arrived at Tunis. The officers were surprised to find that their instruments were affected by another set, of which they were ignorant. The operator on the St. Louis could not read the messages, but the one on the Dunois could. Subsequently it was found that the strange apparatus belonged to a lieutenant of the Fourth Zouaves and another of Tunis, who had had installed for a week imperfect sets of wireless instruments in their residences for their personal use. Board of Education Discuss Proposed Kindergarten at Chesley Avenue School.

Last night's session of the board of education did not last an hour. There was doubt at first as to whether the required quorum of eight could be secured, as several members of the board had allowed their Scottish blood to draw them from the path of duty into that of pleasure, in the form of attendance at the St. Andrew's Society's concert. The only important feature of the session was a discussion on the proposed establishment of a kindergarten at Chesley avenue school, in the course of which Trustee Birtwistle threatened to lay before the board a in a proposition which will save 75 covered. per cent of the present expenditure, without impairing the efficiency of the

COMMITTEE REPORTS. No. 1 committee's report recommended that eight globes and two dictionaries, to cost about \$124, be purchased for the public schools. The name of James Kirkwood was added to the substitute list of teachers. The board's printing was recommended to be awarded to C. P. Heal & Co. On account of Trustee McLear's potice of count of Trustee McLean's notice of motion to put the Typographical Union label on the board's printing, progress was reported on the letter upon the subject from local union, No. 133. Progress was also reported on Trus-tee Gillean's motion re kindergartens. Accounts totaling \$102 were recommend-

ed for payment. The report passed without amendment. No. 2 committee reported that Janitor Drewe had been placed in charge of the furnaces at the Collegiate Institute, Janitor Jury being transferred to St. George's school. An increase of \$10 per room in the salary of Mrs. Cox, janitress of Colborne street south school, was recommended. Progress was reported on the application of Janitors Scott and Bruce for increases of salary accounts, totaling \$94 14, were recommended for payment. The report was adopted without discussion.

WANTS FENCE BUILT. A letter signed by Mrs. Stiles, of 35 Central avenue, but speaking of her in the third person, requested the erection of a fence between her property and Talbot street school. The letter also contained the information that a barn on Mrs. Stiles' property extended two feet on to the school grounds. The communication was sent to No. 2 committee.

A KINDERGARTEN SYSTEM. Trustee English brought up the mat-ter of the establishment of a kinder-and presto-before long you will be garten at Chesley avenue school." petition had been received from the residents of the vicinity, and he thought there would be a large attendance. He therefore moved that preparations be made for the establishing of a kindergarten there immediately after the conclusion of the Easter holidays. He pointed out that the only expense of furnishing would be the purchase of a piano, as there is enough

other furniture available. Trustee Birtwistle said he was not altogether a believer in the kindergarten system as carried out in London. He meant to move for a special meeting of the board at which the whole of the city's educational system could be thoroughly discussed. He promised to lay before the board a proposition by which 75 per cent of the present outlay on schools could be

After a lengthy discussion Trustee Macpherson moved in amendment that action on the matter be deferred till evidence be secured by the board of the necessity of the establishment of a kindergarten on Chesley avenue.

The amendment carried by a division of 6 to 3.

#### TORONTO PAINTERS GETTING TO WORK

Men Talk of Starting a Co-Operative Business-'Longshoremen on Strike.

Toronto, April 2 .- The failure of the offering to pay the men more than the rate demanded by the union, to complete work left unfinished when the lockout occurred. In three cases application was made, one for 15, another for 16, and a third for 9 men. A number of requests for men also were made by individual property owners. One employer, who is independent of the Master Painters' Association, agreed, according to the men, to comply with the requests of the union, and his men were allowed to go back to work.

'LONGSHOREMEN'S STRIKE. Halifax, N. S., April 1 .- The Longshoremen's Union decided to go on strike at midnight. Over 600 men will be affected. They now receive twenty cents an hour. They demand twentyfive cents an hour for day work, thirty cents for night work, and fifty cents an hour for Sundays and holidays. The steamship agents have refused to accede to the demand. Today the agency of the Furness-Withby Steamship Company locked out the 150 union men in their employ. They engaged 40 nonunion men to remove the cargo from the steamer Dalton Hall. When the order was issued the men employed on the steamers all stopped work.

C. P. R. TRACKMEN. Montreal, March 31 .- A deputation, consisting of about ten of the Brotherhood of the C. P. R. Trackmen were in conference today with Mr. D. McNicoll, second vice-president and general manager, and with Mr. C. W. Spencer, general superintendent of the C. P. R., regarding the new schedule, the men by Mr. McNicoll. #### The Width of a River.

It is necessary to make use only of the eyes and the brim of a hat to measure the width of any ordinary stream, or even of a good-sized river, and here is the way to do it: Select a part of the river bank where the grounds run back level, and, standing at the water's edge, fix your eyes on the opposite bank. Now, me your hat down over your brow until the edge of the brim is exactly on a line with the water line on the other side. This will give you a visual angle that may be used on any level surface, and if, as has been suggested, the ground on your side of the river be flat, you may "lay off" a corresponding distance on it. To do this you have only to hold your head perfectly steady, after getting the angle with your hat brim, supporting your chin with your hand, if necessary, and turn slowly around until your back is to-ward the river. Now take careful lockout in the painting trade may result in the men starting a co-operative level surface of the ground as you look business. Physical Culture In Helping Mother.

America still has several million girls who find a large part of their physical culture in helping mamma, and are not blushing because of the fact. For such girls, the vista of possibilities is

long and alluring. For arms, fingers, and wrists, washing and wiping dishes will be found admirable. One is as good as the other. Perhaps the water aids in giving suppleness to the points of the fingers. That is an advantage washing dishes has over wiping them. However, there is surely a fine elbow move-

ment in the wiping. Bed-making, as it is still taught in the homely physical-culture academies of Yankee farmhouses, cannot be too highly recommended. With the folding of every counterpane, blanket and sheet, the arms are stretched as far apart as they will go, each hand holding one end. Then, standing perfectly erect, the chest is thrown out. Quickly the hands are brought together again, and, presto! the sheet is folded double! Shoulders, body and limbs are all developed by the mattress-turning. The eye and the sense of symmetry learn much from the regular arrangement of counterpane and pillows. Of course, this exercise ought not to be carried

too far. Sweeping gives much the same motion, without the jerkiness of golfing strokes. For the graceful perfection of arms and shoulders, so much desired by every ambitious girl, nothing could be better. I do not advise excess in this recreation. But there will be nothing harmful if you only sweep each room in the house once a week. Floor-scrubing, like lawn tennis, is rather violent, and not to be tried un-

less you are sure about your heart. At first, it will be almost as severe on the knees as rowing in a shell; but, as you get used to the occupation, it will give a subtle satisfaction of its own. Running up stairs when mamma wants something is first-class exercise, and running down stairs is almost as good. Interesting diversions will be found in egg-beating, and ice cream freezing. Dusting ought to have a chapter by itself. First, you are down on all fours; then you are on tiptoe, seeing how far the duster will reach. This tiptoeing with its ankle development, is superb! But that isn't all! You twist yourself into all sorts of positions to get at the corners of the carved furniture. First you are on one knee, and then on the other. Every muscle, every tendon is brought into service before you are through. Even this magnificent exercise can be overdone, but you will make no mistake if you only dust every room after you have swept it-although most house-

Views Expressed by Hon. Mr. Harcourt on Matters Referred To in Public School Teachers' Report.

Toronto, April 1 .- The Ontario Educational Association opened its 41st annual meeting this morning at the Normal School. The attendance promises to be the highest on record. The morning was given up to sectional meetings. The committee appointed last year by the public school department of the association to wait on Mr. Harcourt with reference to public school matters, submitted its report to the department. Referring to the sugges-tion that no certificate be granted to any one under 21 years of age, Mr. Harcourt expressed himself as personally favorable, but feared that opposition would be offered in some quarters for some reasons, such as the increased remuneration which would be demanded, and admitted that there were times when the government should lead public opinion, not follow it. He said that the question of model school training was under consideration, and that it was hoped soon to arrange it so as (1) to have fewer model schools; (2) to have these well attended, and (3) to extend the term to the academic year, The minister was personally in favor of making Latin optional. As for the educational council, the minister suggested adding to it five representatives elected by the O.E.A., say the president of the association, the chairman of the college and high school, and the public school departments, and one person elected by each of these two departments. As for changes in textbooks, there would be no change in the near future. He was in favor of the teaching of the metric system in the public schools.

At the afternoon session of the Ontario Educational Association, the pub-lic school trustees discussed a motion introduced by Rev. W. A. Cook, of Thorold, that a committee be appoint-ed to confer with the minister of education as to ways and means for reintroducing the Bible as a book of literature in the curriculum of the schools and colleges of the province. The meeting, which included a number of clergymen, and seemed to represent all the Protestant denominations, was apparently pretty evenly divided. Nothing was done, and, practically, action has been deferred for

another year. Ald. Leitch, of Brantford, president of the public school trustees department, in his annual address, said that the rural schools needed improvement. The foolish fear of increased taxation hindered the engagement of specially qualified teachers. In self-defense and for the moral welfare of the community, if for nothing else, there should be placed at the disposal of every youth as near home as possible all that was essential to make him intelligent and moral. He advocated having the public school put on such a footing as to provide a good, practical education, sufficient for everyday life. He would raise public school teaching to the digof a permanent profession by making the remuneration sufficient. Wm. Johnston, of Athens, spoke of inspectors' salaries, and a committee was appointed to wait on the minister

of education in reference to the ques-The inspectors unanimously placed themselves on record as opposed to the abolition of high school entrance ex-At the evening session Mr. Harcoart delivered an address, dealing with the

conditions at Kewaneee, Ill. A parson of the Illinois town performed the ceremony with the couple standing on their heads. MaGee has been on the stage four years, and hails from New York. Miss Thompson, who is a dashing girl of 25 years, is a native of Waterbury, Conn., and has been in the same com-pany with MaGee for several months. The elopement was a surprise to the other members of the troupe, for they had believed that MaGee would marry a blonde soubrette who was not friend-

ly with Miss Thompson. "I don't see why we have to quarrel so often," said MaGee one night after the show. "Well. I know this is my fault."

When the last night was finished and the lovers were about to say good-night, Amy said: "John, I want to quarrel with you." "Well, we'll be married tomorrow night," replied he, as he kissed her. But the company made one-night stands on the way from Denver to Chicago, and every evening when they were about to seek a preacher the man-

#### A Peculiar Magnaimity.

The Free Press seems to be determined to mislead the public with reference to the Hospital. It is apparently impossible to get it to state the truth. In an article the other day it beats its own record. It says:

"By the reform in progress an educated and thoroughly competent staff will be introduced on a salary basis but \$2 a month in excess of the salary amount given to the variety of talent that has been for the best of reasons

"Back of that, the yearly expense of management has already been reduced from \$17,000 to \$12,000. The hope is indulged that next year economy will be so far improved that only \$10,000 will be asked for from

the citizens for maintenance." The truth is, the expense of the Hospital is increased from between six and seven thousand dollars annually to the citizens to more than double that amount, exclusive of the interest to be paid on the cost of the Hospital building, which will make the present cost nearly three times what it has been. Yet the Free Press says the expense of management is being stead-

ily reduced. The sneers of the Free Press at Mr. Purdom need not be noticed, but when it refers to the "magnanimous and whole-souled treatment of the Hospital servants," who resigned, the citizens have a right to know what the Free Press considers magnanimous and

Dr. Balfour was admitted to be thoroughly competent. At a recent meeting Mayor Beck stated that a leading physician said Dr. Balfour was all right; the trouble was with the lady superintendent. Yet Dr. Balfour was replaced by Mr. Heard. Dr. Balfour's treatment will be magnanimous and whole-souled when persecution is such.

The lady superintendent, Miss Murray, a graduate of the London School, a daughter of a citizen of London, is paid \$35 a month; and was to have been given time to visit the large hospitals. Without consultation with the other members of the Trust, Mayor Beck arranges to bring Miss Meikle-John from Öttawa. A hitch occurs; he can't get her; he then arranges to take anyone she recommends, and Miss Mayou, of Philadelphia, is sent. Salary, \$70 per month. Magnanimous and whole-souled at the public expense!

But what has Miss Murray's assistant done to deserve such "magnanimous," "whole-souled" treatment from the Trust? Has anyone said she is incompetent? Yet the new lady superintendent stipulates for the right to bring her own assistant, and is granted the privilege. Miss Murray was appointed on the recommendations of London physicians, who are known to London citizens. Her successor's recommendations are unknown. It may be "magnanimous" and "whole-souled" to replace the lady superintendent and her assistant without any reason by two ladies, unknown, recommended by men

unknown. The Free Press cannot deceive the public. The cost of maintaining the Hospital today is more than double what it was with the old Hospitalnearly three times as large. Neither can they be got to believe that injustice and persecution is "magnanimous" and "whole-souled."

The Hamilton Times suggests that the preference on the British imports might be further cut from one-third to one-half the general tariff, with benefit to the Canadian consumer and to the revenue. This would elicit another howl from the party which claims that the existing preference is a menace to Canadian industry, and at the same time preaches a policy of mutual preference which must be based on free trade within the Empire, or something very near it.

#### A Glimpse of Gotham.

New York, April 1, 1902. Already this city has assumed almost a summer appearance. Yesterday, on Fifth avenue, the Easter Sunday parade made one think summer was not far away, and although today is not so warm winter is over.

I took the opportunity to hear the successor of Dr. John Hall, the Rev. J. Ross Stevenson, D.D. His sermon was appropriate for Easter Sunday. And, although it may not be the right thing to do, I concluded that we had preachers in London who need not be ashamed to fill any pulpit in America. It is certain that London has better preachers than ever in its history, and er than the ministry's. The King has it is true, I think, that the congrega- referred to him again and again as a tions are better able to appreciate

Dr. John Hall's name has been a household word for many years, and stantiate the saying that great cooks his pulpit is probably the leading one in America, in the Presbyterian denomination. His successor does not seem to be anything like his equal or than five years ago. He is a Frenchthe equal of Dr. Parkhurst, but as he is young, only 36, time must be allowed for development. At present I should say he was an average preacher, no more.

As the congregation dispersed, the Easter Sunday parade, as it is called, artists. Its Tory neighbor, the Carleton, plodded along with the old, plain was at its best, and for miles streams of men and women, all well-dressed, passed up and down the street, the nationality most noticeable being the Jewish. #### **Apply This Test** To Your Nerves

If You Have These Symptoms Your Nerves Are Weak and Exhausted-You Can Get Well by Using

#### Dr. Chase's Nerve Food

Nervous diseases are little understood. They have long been enshrouded in more or less mystery by the medical profession. Many who are fast falling victims of nervous prostration, paralysis, or locomotor ataxia think that they are merely not very well, and will soon be around againso insidious is the approach of nerous diseases and nervous collapse. Study these symptoms. They are for your guidance. You may not have them all, but if you have any of them your nervous system is not up to the nark, and a little extra expenditure of nerve force may bring the dreadful

Intolerant of motion, noise and light twitching of the muscles of the face, and eyelids; fatiguing sleep, sudden startings and jerkings of the limbs; lizziness and flashes of light before the eyes; irritability and restlessness n every part of the body, headache, ndigestion, feelings of weariness and lepression; and loss of interest in the

affairs of life.
So long as the daily expenditure of nerve force is greater than the daily income, physical bankruptcy is certain to result sooner or later. Nerve force must be increased, and this can best be accomplished by the use of Dr. Chase's Nerve Food, because it contains in concentrated form the very elements of nature which go directly o form nervous energy. Nervous dis ases do not right themselves. ome on gradually as nerve force beomes exhausted, and can only be ured when the nerve force is restored. #### A Physicians Testimony For Labatt's Stout.

ALEXANDRIA, DEC., 20th. 1901. Speaking from personal experience I can state that your Stout is excellent in building up the system-I was very much run down and was advised to use Labatt's Porter—this I have done for some time and I largely attribute to its effects my steady improvement in strength and weight. I deem it but justice to you, and it certainly is a pleasure to me, to add my testimony to its sterling qualities, and I gladly recommend your Stout as an excellent tonic and food in cases where such is required. 10HN LABATT, Eso., Brewer,

Yours truly, G. S. TIFFANY, M.D.

## THE REVENGE OF

A Thrilling Middle-West Tale of Love and

[Indianapolis Sentinel.]

A letter carrier in an Ohio postoffice was engaged to a young lady whose aspirations ran in the direction of a government office. The letter carrier had an aged mother to support, and it was his intention to save a sufficient sum to enable him to marry and keep those dependent upon him in comfort as well. Yielding to the persuasions of his lady love, he went to the postmaster and recommended the young lady for a clerkship. In due course of time the young lady passed the civil service examination and was appointed to a place at the general delivery

"W-h-e-w!" he said, with a long-drawn breath. "How long has this been around her?" "It's been getting worse for the last week," responded the clerk. "I didn't want to say anything about it at first, but I'll have to go home if it isn't taken away."

"Something must be dead under the floor," said the postmaster, after due deliberation, and he ordered the boards removed and the space beneath searched. It was done and nothing found. Then the chief decided that an army of rats must have fought a decisive action behind the partition walls, and city, and at present in charge of a he ordered the carpenters to remove the wainscoting and hunt for the victims. But the search revealed no sign

A man was selected to temporarily fill her place, and he appeared for duty equipped with a noseguard and several bottles of perfumery. After a day in the stuffy office, however, he, too, protested against the inhuman cruelty of a chief who would ask a man to work in an atmosphere which he described at great length in an exceedingly picturesque language, and a further search to determine the cause of the trouble was determined upon. While the laborers were removing a case of pigeon-holes which contained the mail, it was knocked over and the contents scat-

tered all over the floor. What are these funny-looking little boxes" asked the postmaster, who was directing the work of the laborers in then dropped it, with an exclamation of disgust, and rushed to the window. "Bundle these things up, he said. "We have found the smell, and put them in the cellar. If anybody calls for them, YOUNG BACHELORS' DANCE. have him arrested for abetting a nuis-

The inspectors found that they could not do anything, for there is no provision of the postal regulations which prohibits the sending of cheese, limourger or otherwise, through the mails. The letter carrier was, of course, fired 'for cause." But he seemed to expect that and moved to another town.

Detective Laid Charge Against Billposter Jenkins.

WAS \$58,670 Police Magistrate Dismissed Case— Teamster Fined for Obstructing

> At police court this morning William Jenkins, a bill poster, employed by the London Bill Posting Company, was charged with putting up inindecent placards in public places, being contrary to bylaw 751, section 2 of the city of London. The placards

in question were posters advertising the Dainty Paree Burlesquers, which played in the city last week. The poster depicted three females standing with a raised umbrella in front of them. The two outside girls were rather scantily clothed, while the garb of the middle one is left largely to conjecture.

Detective Egelton testified that the poster in question had been exhibited on a bill board on Richmond street, near John street. He considered it not very moral. Mr. Jenkins had told him that he (Jenkins) had posted five such The witness admitted saying to Mr. Jenkins that he had seen much Worse posters in the city.

Chief Williams said his attention had been called to the poster by several people, and he had ordered its removal. He ordered his subordinates to have all similar posters taken down but he did not know if it had been done. The chief pointed out at length his reasons for considering the picture an indecent one. Its whole tone was meant to pander to the lowest tastes. It was a picture that would make any decent woman blush, and it should not be 

exhibited in public. Mr. J. Vining, who appeared for Mr Jenkins, contended that no evidence had been given to show that his client had personally put up the poster, nor had it been put on a fence or wall, as prohibited by law, but on a billboard, As for the decency of the picture, only persons anxious to find indecency would consider the poster to be such. It was not a picture to damage public morals. He asked that the case be dismissed without hearing the de

police magistrate said that enough evidence had been adduced to lead him to go on with the case. Mr. Jenkins then took the stand in his own defense. The police magistrate, at its conclusion, dismissed the case, holding that the poster could not be classed as indecent, though coming close to it. It would be better, he said, if such posters

were not exhibited. Two hours were taken up with the hearing of a charge against a C. P. R. drayman, Frederic Leslie, of obstructing the sidewalk on Carling street, op-posite Garvey's warehouse, After the hearing of eight or ten witnesses the magistrate fined Leslie \$1 and costs, at the same time laying down the principle that at least four feet of the side- ful wedding gifts were sent from very trians. The afternoon session was brightened by a carefully-prepared and helpful paper upon the subject, "Excuse a Hindrance to True Discipleship," which was read by Mrs. (Rev.) Arthur Shore. An address on missionary work was given by Miss Young, who is on furlough from Japan, and Bishop Baldwin gave an inspiring Bible reading.

#### AN EXPRESSION OF CHATHAM'S REGRET.

Mr. W. A. Thrasher Honored Upon His Removal to This City.

The people of Chatham apparently are of the opinion that London is gaining at their expense by the removal of Mr. W. A. Thrasher, who comes to this city to take up Mr. James Mcat the Rankin House, and expressed the regret which they felt at losing a citizen of such worth and public spirit. Yet they congratulated Mr. Thrasher upon his appointment, which they considered a well-merited reward. Their regard for him was shown also in the gift of a gold watch and chain and \$160 in gold. #### Modern Martyrs ! "A bad workman quarrels with his tools."

The age of martyrs is not passed. There are thousands of women all over the country enduring physical torture and mental anguish almost beyond description. They are not victims of persecution, like the martyrs of old; they are not called on to face the scaffold or the stake; but their sufferings. borne in silence and hidden from the world at large, are scarcely less

The seat of the trouble being in some one of the female organs, the remedy to be effective must act on this portion of the anatomy.

This is the secret of the success which always follows the use ORANGE LILY in derangements of this kind. It is a strictly local treatment. It is absorbed directly into the parts that are inflamed and congested, and its beneficent, soothing influence is noticeable from the start. The irritation of the delicate membrane is relieved; the congestion is overcome by the discharge of the watery matter which served to oppress the nerves and cause mental depression; the nerves are toned and invigorated; and the cause mental depression, the herves are toned and invigorated, and the sunshine and joy of life again becomes part of her being. An Hereditary Predisposition to the Disease That Must Be Guarded Against.

Did my grandfather, grandmother, aunts or uncles die of cancer? is a question that every person approaching mid-life would do well to ponder, especially if there be lumps or sores appearing on any portion of the body. Cancer, you know, often runs in families, and if there has been any trace of the disease in your progenitors, better be on your guard. If there be any lump, sore or ulcer that does not prove amendable to ordinary treatment, you should start taking the New Constitutional Remedy, which is the most thoroughgoing treatment known for cancers, tumors and all malignant growths. It's easy to cure cancer in the first Burns, the immortal, or whether it be stages-more difficult when the roots are all through the system—still the New Remedy cures in all stages but chant, or the pathetic chords of "The the very last (even then it gives great Land o' the Leal," every mood and tense of national feeling and of individual emotion has found expression in Scottish music and song.
