RUMANIANS THROW BACK SERIES OF GERMAN-BULGAR ATTACKS

ENEMY PLANS NEW OFFENSIVE IN THE BALKANS

Huns Plan Balkan Drive; Will Send 300,000 Men To Rescue of the Bulgars

Conference By Central Powers Said To Have Decided on An Offensive in the Balkans—Mackensen Robs Southern Front To Invade Rumania, and Sacrifice is Likely To Cost Him Dear.

[Canadian Press.] London, Sept. 14.—1:45 p.m.—A wireless press dispatch from Rome says that at the general council of the Central Powers at the headquarters of the German emperor, an offensive campaign in the Balkans was mapped out, and that Germany will send 300,000 men and Austria 100,000 for this purpose.

GERMANS ON THE DANUBE.

[Canadian Press.] London, Sept. 14.—A Milan dispatch says: Information just received from Rome controverts the assertion that Field Marshal Von Mackensen is leading an army of 400,000 in Dobruja, made by Count Von Reventlow so late as two weeks ago.

On the other hand, within the last six weeks rather reliable reports stated that some 50,000 Germans were being sent down the Danube, while several divisions of Turks were being removed from the Drobudja front and sent to Galicia. The only point, therefore, whence Macedonian armies could have been withdrawn was the Macedonian front. This is confirmed by dispatches received in Rome which suggest a really large part of the Bulgarian and German troops in Macedonia have been transferred to Dobruja.

A Secret Transfer.

This transfer began silently prob-

ably four weeks ago, while the Bulgarians were making a demonstration in the guise of a boasted offensive. Their attacks on the Allies' right and left wings, their occupation of the Greek forts, and the general manifestations of activity were intended only to cover the removal of a considerable part of their troops to another field, where greater danger threatened them. The Allied troops at Saloniki are fully prepared and supplied in all respects for a great offensive. Their munitions are inexhaustible, and the health of the troops is good. When the attack begins it will be discovered that by removing some 150,000 or more Bulgarian troops to Dobruja, Mackensen simply sacrificed his southern front to save his northern one. The Bulgarian Macedonian army is estimated at about 250,000 men. Since the above reports came in news has been received that another division with some 100,000 men has been sent to the Rumanian front along the Western Danube, opposite Orsova.

CONSTANTINOPLE CITY HAS BEEN PROMISED RUSSIANS BY THE ENTENTE ALLIES

[Canadian Press.] San Francisco, Sept. 14.—That Constantinople has been promised to Russia by the Entente Allies should the central empires be defeated in the war, was the statement made here yesterday by M. M. Itchak, member of the Duma, and one of the Russian parliamentary delegation that by the car to England, France and Italy to confer with these governments.

"The reason for the visit of the Duma delegation to England, France and Italy," said Mr. Itchak, "was to convince ourselves of the military and economic resources of our allies. Having

seen, we are more than ever prepared to go on with the war, the more so as we now have all the munitions we require, and maintain a continuous offensive."

"Russia has the solemn promise of the other allies that Constantinople and the Dardanelles will become Russian territory."

Japan, said he, was visiting America to consult with committees of his countrymen measures for the relief of the thousands of refugees who fled into Russia during the German troops occupied Lithuania.

SERBIANS TAKE TRENCHES AND HEIGHTS FROM BULGARS

[Canadian Press.] Paris, Sept. 14, noon.—Serbians and Bulgarians are engaged in violent fighting on the Macedonian front. The war office announced that the Serbians had captured Bulgarian trenches near Votrenik and a height northwest of Lake Ostrovo. An engagement south of the lake is turning in favor of the Allies.

ALLIES ARE AS ONE, DECLARES M. BRIAND; ONE FRONT TO ENEMY

Combined Efforts Have Reduced Germans to the Defensive.

[Canadian Press.] Paris, Sept. 14.—1:15 p.m.—In addressing the Chamber of Deputies on the military and diplomatic situation, Premier Briand this afternoon laid stress upon the close co-operation among the Allies against their common foe. The premier reviewed the circumstances leading up to the two most recent important developments of the war, Rumania's declaration of war against Austria and Italy's declaration of war upon Germany, and declared:

"Thus again confirmation is given of the determination to practice more intimately each day unity of action along the united front. The Allies, putting their efforts in common, combining and co-ordinating them in close collaboration, have determined upon an evolution of the war along these lines. The German empire finds themselves reduced to the defensive. The initiative of the operations has escaped them."

LOCAL TEMPERATURES.
Following were the highest and lowest temperatures recorded in London during the 24 hours previous to 8 o'clock last were: Highest, 83; lowest, 62.
The official temperatures for the 12 hours previous to 8 a.m. today were: Highest, 65; lowest, 61.

HUN HOUSE PARTIES HAVE MADE A PACT

Compromise Reached Between Premier and Opposition Leaders.

[Canadian Press.] Bern, Switzerland, Sept. 14.—Wireless dispatches from Budapest announce that a compromise has been reached between premier Tisza and the leaders of the opposition. The premier has consented not to adjourn parliament before the end of the month, and the Opposition leaders have agreed not to criticize the military authorities, but only the administration and its foreign policies.

Count Julius Andrássy, former premier and leader of the Opposition, precipitated a crisis in the Hungarian parliament on August 24, when he announced that he would no longer respect the political truce effected at the outbreak of the war, and would resume criticism of the Government. It was reported at that time that the developments in the Balkans had brought about a change in the Opposition for a coalition cabinet, and within the last few days it was reported that this had been agreed upon.

WILL REBUILD BRIDGE AS SOON AS POSSIBLE

[Canadian Press.] Ottawa, Sept. 14.—Announcement was made here this afternoon that the Quebec bridge will be rebuilt as soon as possible, according to the old lines. Messrs. Messers and Borden, two members of the bridge commission, were in the capital today in connection with the work. Instructions have been issued to the company in charge to proceed as planned with the bridge.

CLOUDY WEATHER FAILS TO DETER VISITORS TO FAIR

Thousands Pour in Through Turnstiles at Queen's Park Today.

PRESIDENT GETS A TIP
Is Offered Quarter to Find Man Seat in Grandstand.

TOY EXHIBIT A FAVORITE
Western Declared by Some Equal to Toronto and Detroit.

"Are we downhearted? Emphatically no." This has always been the slogan of the Western Fair board, but this year it has an added meaning.

The meeting this forenoon of the directors savored of a thanksgiving service and a love feast rolled into one. Everybody was pleased with everybody else, particularly the world and his wife and family, that had turned out in such large numbers to complete the success of the biggest and best Western Fair.

Yesterday was the biggest day in all the history of the Western Fair, and Tuesday and Monday edified all former records. By noon today it was apparent that Thursday was also to be a record-smashing occasion.

Notwithstanding the threat of rain, thousands passed through the gates in the early hours of the morning. By noon, mobs gathered around the offices where other money was changed for quarters, the only kind of ticket of admission accepted.

Each car, and they were coming at the rate of one a minute, was crowded to its capacity. Every old ark in the possession of the street railway seems to have been resurrected for the great week, and very good service is being rendered in handling the throngs of people. The wise are forewarned with their quarters, drop in the turnstile, but even at that, it is impossible to avoid some crushing.

President Given Tip.
It took today as if the public has been determined to get inside the gates of Queen's Park, let come what will in the way of showers afterwards.

RUMANIANS STOP MANY ATTACKS OF THE TEUTONS

Series of German-Bulgar Assaults in Dobruja Fail to Gain.

PETROGRAD WAR REPORT

Situation Unchanged on the Galician Front—Turks Report Success.

[Canadian Press.] Petrograd, Sept. 14.—Via London, 2:25 p.m.—Rumanian troops have repulsed a series of attacks by the German and Bulgarians in Dobruja, the war office announced today.

"In the region of Silistria, on the right bank of the Danube, fighting is still proceeding," the statement says. "The Rumanians repulsed a series of attacks by Germano-Bulgarian troops and captured eight guns."

THE RUSSIAN REPORT.

[Canadian Press.] Petrograd, Sept. 14.—Via London, 2:45 p.m.—"On the western (Russian and Galician) front, the situation is unchanged," says today's announcement from the war office.

"On the Caucasian front, in the region west of Kighi, hostile Kurds are showing increased activity. Near Harbin in the valley of the River Falcian, our detachments as a result of engagements captured camels and cattle from the enemy."

CHECKED, SAY TURKS.

[Canadian Press.] Constantinople, Sept. 14.—Via London, 2:45 p.m.—Turkish forces have checked the Russian offensive in the Ognott sector of the Turkish Armenia, according to a war office statement dated September 12. The Russians have suffered heavy losses in fruitless attacks, declares the report, which says:

"Caucasus front: On the right wing we repulsed an enemy attack in the Ognott sector. Two enemy attacks on September 10, prepared for by artillery, were repulsed by our counter-attacks. Enemy troops endeavoring to approach our positions in various groups were scattered by gunfire and suffered extraordinary losses. The number of officers and men captured on September 10 in the Kighi sector, is still increasing. In the left wing, during skirmishes which resulted in our favor, we captured prisoners, arms and equipments."

54,000 PRISONERS TAKEN IN SOMME OFFENSIVE

(Canadian Press.)

London, Sept. 14.—"Since the beginning of the offensive on the western front, the French and British on the Somme, and the French at Verdun have been able to announce the capture of 260 guns, 647 machine guns, and, roughly, 54,000 men. These results already constitute a victory, and it is quite evident the French do not intend to remain where they are, either on the north or south of the Somme."

LETTERS ON PRISONERS SHOW GERMAN SOLDIERS ARE WEARY OF THE WAR

Cry Out for an End of Bloodshed and Misery of the Struggle—Socialists Preparing Mighty Memorial Demanding Immediate Peace Without Annexation.

[By Philip Gibbs.]

With the British Armies in the Field, Tuesday, Sept. 12.—It is extraordinarily difficult to know whether all the British shell fire and all the dead have yet begun to shake the confidence of the Germans in the strength of their war machine. Some of the officers who have come in as prisoners still keep their pride. They have seen the losses inflicted on them and behind their lines, but say: "You can't beat us. We can't be beaten."

No Longer Talk Victory.
That is different from the old phrase: "We're winning. Victory is certain." "It is impossible to say anything definite, but we Socialists are now going to present the imperial chamber a great peace memorial, containing the signatures of those citizens who want a speedy peace without annexation, and without violence to other nations. These will put their names on the lists, and those lists will be collected from the whole empire and handed to the chancellor. God grant that their names may be put down in millions, that the Government may see that the great mass of the people want an early peace."

"One may hope this accused murdering of peoples may come to an end, but, unfortunately, the obstinate ones have no wish for peace. They are working in all countries against it, working with all their power, for the international capitalists can do no better business than they are doing now, and their purses appear not full yet."

"With us the distress gets greater from day to day and already many poor people are suffering from under-feeding. We will, however, hope and act, for surely the good sense of the peoples may conquer in the end."

TURK BASHI BAZOUKS MASSACRE CIVILIANS OF PORT OF KAVALA

[Canadian Press.] Paris, Sept. 14, 1:12 a.m.—The Greek port of Kavala was pillaged and citizens massacred by the Turkish Bashi Bazouks on the withdrawal of the Greek garrison, according to a Saloniki dispatch to the Havas Agency. The dispatch says the Bulgarians sent an ultimatum to Col. Christopoulos, the commander of the garrison, on the night of September 10. Col. Christopoulos then left with 1,500 men for Thessalonika.

A terrible panic occurred in the city when the garrison withdrew. The Bashi Bazouks, after breaking open the prisons, indulged in an orgy of pillage and massacre. All who could fled before the invaders.

The Bulgarians are now camped at the foot of the mountain. Bulgarian aeroplanes flew over Kavala on Tuesday and dropped bombs, which killed nine persons.

ARREST MAY CLEAR UP WESTMINSTER BANK STEAL

Detectives on Trail of Men Involved in Big Bank Robbery.

[Canadian Press.] Chicago, Sept. 14.—Chicago police today believed that the arrest of Michael B. Shortall of this city in Toronto, Canada, yesterday, may clear up the identity of the four bandits who robbed the branch of the Bank of Montreal at New Westminster, B. C., and led to the recovery of a large part of the \$271,000 stolen.

Police were today looking for Martin H. Flannigan, whose safety deposit box in the vault of the Bank of Toronto, Shortall was attempting to pry open when he was arrested. Chief of Police Healy assigned detectives to look up Flannigan, who is believed to have been the man arrested by detectives in May, 1915, on a charge of having in his possession stolen Westminster bills, but who was later acquitted.

SPRINGS SENSATION AT MONTREAL PROBE OF DROLET CHARGES

Ex-Controller States Mayor Was In Tramways Gang. SAYS MARTIN TOOK BRIBE

Hebert Declares He Was Threatened With Prison If He Told Truth.

[Canadian Press.] Montreal, Sept. 14.—The Panneton probe into the expropriations by the city of the Drolet street property has been concluded and the lawyers in the case today began the preparation of their addresses to be delivered next Tuesday. Yesterday afternoon former Controller Hebert, who it has been alleged, was interested in the deal, took the stand again.

Mr. Hebert stated that he read in the testimony of Gaston Maillet, editor of L'Autorite, that he (Maillet) considered him a liar and a hypocrite. To refute this he produced and read to the court articles which appeared in L'Autorite at the same time that Maillet was carrying on the contestation of election, deprecating that contestation and saying that Hebert was an honest man, and it was shameful to attack him with a contestation.

Contradicts Mayor.
Witness also positively contradicted Mayor Martin when the latter said he was not present at the drawing up of a new tramway's project at the house of the Perron, the tramway's lawyer, and gave further details of that meeting. He swore that it was Mr. Perron who induced him to join Martin and Controller Cote in the combination, and if left to himself he would have supported Controller Alery and McDonald. He swore that he had been threatened by Mayor Martin \$5,000 in gold for his goodwill, and Mayor Martin agreed to accept this sum instead of an oil painting.

Says Was Threatened.
Mr. Hebert told of the threats and intimidations exercised to prevent him from testifying the truth in this enquiry. He said he had been threatened with imprisonment and all sorts of things if he dared to attack the Tramways Company, but, said he: "I was determined to tell the truth, and nothing could make me change."

Controller Velleneuve was also on the stand for a few moments, during which time he stated that he would not believe Mayor Martin on oath in his testimony before this enquiry.

British Report Further Progress in the Great Offensive, and French Tell of Desperate Counter-Attacks Repelled—British Artillery Heavily Engaged and Trench Raids Successfully Carried Out.

(Canadian Press.)

London, Sept. 14.—1:45 p.m.—The British have made further progress on the Somme front north of Ginchy, it was announced officially today.

"The general situation is unchanged," says the statement. "South of the Ancre there were the usual artillery bombardments on both sides, hostile artillery being particularly active in the neighborhood of the Poziere's windmill and south of Thiépval. Some further progress has been made by us north of Ginchy."

"In the neighborhood of Souchez we carried out a successful raid last night, taking some prisoners."

THE FRENCH REPORT.

(Canadian Press.)

Paris, Sept. 14, noon.—The Germans made vigorous efforts last night to drive the French from territory they captured recently on the Somme and Verdun fronts. The war office today announced the repulse of several assaults north and south of the Somme, and east of the Meuse at Vaux-Chapitre Wood.

NEW PREMIER OF GREECE DEMANDS FULLEST POWERS

Hand Must Be Free To Take Whatever Steps Believed Necessary.

WILL CONSULT ENTENTE

Asks the King for Forty-Eight Hours in Which To Form Ministry.

[Canadian Press.]

Athens, Sept. 13.—7:15 p.m.—Via London, Sept. 14.—7:25 a.m.—(Delayed.)—M. Dimitracopoulos has asked King Constantine to allow him 48 hours in which to consult his friends before deciding as to whether he will undertake the formation of a new cabinet. The former minister of justice also wishes to sound the ministers of the Entente before reaching a decision.

M. Dimitracopoulos is known to have declared that his acceptance of the premiership will only be made on the basis that he is given full power to control the national policy. He will insist that his hands must be free to take whatever steps the present crisis calls for even to the entry of Greece in the war.

ZAIMIS' PRIDE WOUNDED.

Athens, Tuesday, Sept. 12.—Every effort to persuade Alexander Zaimis, the aged premier, to remain in office was fruitless. His pride was wounded by the appearance of the allied fleet off Piræus at the very moment when negotiations had begun for the entry of Greece into the war. The arrest of Austrians and Germans in Athens by French and British agents and the invasion of the French legation by ruffians, who fired shots there, taken in conjunction with the continual internal dissension in the face of a great national crisis, completely discouraged the entire cabinet. The result was not only to precipitate the retirement of the Zaimis ministry, but to bring to a standstill and possibly even to end all discussion of a departure from neutrality by Greece. Without a figure like Zaimis, detached from politics, to conduct the negotiations, there is scarcely a chance of a chance that this can be arranged, it is said.

RIOTING AT KAVALA.

[Canadian Press.] Athens, Wednesday, Sept. 13.—The British legation today informed Garrett Drovers, the American minister, that the Greeks had surrendered to the Bulgarians the last of the forts defending the seaport of Kavala, in Northeastern Greece. Several of the forts were occupied some time ago by the Bulgarians. Warships of the Entente Allies have removed 1,500 Greek soldiers to Thessalonika.

Rioting at Kavala is reported, and it is said houses and shops have been pillaged. A number of Americans are endangered, as is property of American tobacco companies to the amount of more than \$200,000. No ships are permitted to remain in the harbor.

THE FRENCH REPORT.

[Canadian Press.]

Paris, Sept. 14.—The official French announcement follows: "North of the Somme during the night we repulsed several German attempts at the southern extremity of Hill 70. According to late reports, the violent and fruitless counter-attacks delivered by the Germans during the night were carried out by a division hastily brought from the Verdun front."

"South of the Somme the enemy made several unsuccessful attempts against various points on our new front. To the west of Caubus during one of these attacks an enemy detachment about a company strong, was caught under our fire and almost completely destroyed. On the right bank of the Meuse (Verdun front), the German attacks against our new positions in Vaux-Chapitre wood, were repulsed easily."

"The night was calm on the remainder of the front."

FRONT SMASHED THROUGH.

[Canadian Press.]

London, Sept. 14.—The Times correspondent in Paris sends the following dispatch: "For the first time since trench warfare was introduced, the trench armor of the German front has been smashed through. The capture of Buchachewes takes the French right through the great German defensive organization as it existed when the battle began two and one-half months ago. For the first time the western front has been pierced."

Germans Still Digging.
"This is a significant fact, but its importance can easily be exaggerated. Nothing faintly approaching the strategic ruptures to which Gen. Bruffaut has accustomed us has been achieved. Ever since the fighting began the Germans have been digging miles behind their line, and there is no doubt there will be much fierce fighting and long waiting before the little ray of daylight let through the chink at Buchachewes really lightens the horizon."

A BIG BITE.

New York, Sept. 14.—A news agency dispatch to the Sun from London reads as follows: "The big bite the French took out of the German front on Tuesday is given great prominence by the newspapers here and commented upon with great enthusiasm."

"Every French success arouses immense interest."

FOUR MEN KILLED AND MANY INJURED IN DETROIT BLAZE

The Salvation Army Industrial Building Swept By Fire.

[Canadian Press.] Detroit, Sept. 14.—Four men are dead and a score of others narrowly escaped from a fire which swept the Salvation Army Industrial Building early today. About 75 persons were in the building when the fire was discovered. Most of them were on the second and third floors. One of the men who jumped from a top story may die. The property loss was nominal.

W. ONTARIO DOCTOR IS TRAPPED GIVING FALSE CERTIFICATES

Camp Borden Authorities
Frame Up a "Plant."

MAY LOSE HIS LICENSE

Physique of Men in 186th and
149th Battalions Aver-
ages Well.

[Special to The Advertiser.]

CAMP BORDEN, Sept. 13.—Investigations by the assistant director of medical services has disclosed the fact that a prominent physician in a leading Western Ontario town has been aiding soldiers to overstate their fitness by rendering false health certificates to them. A soldier by telling a false tale and on payment of a dollar or two would be given a certificate stating that he was fit for duty. It was found that this was done for a number of days, as he was suffering from some ailment which was in reality imaginary.

The medical authorities sent out a test case, and the physician, who was the bait, it is said, a soldier who had previously been examined at camp and found without the least sign of throat trouble, on application and the payment of one dollar, was given a certificate stating that he was fit for duty.

Well (as the narrative form of story permits us to say), Capt. — came up to the front line with his company when the first line of the British front. Huddled together in their narrow fire trenches, the Canucks could only wait the time when the "trafficking" would be down sufficiently for them to show their mettle. In those days, our supply of munitions was woefully short—not like it is today, when we are paying back our German hosts with a bullet for every bullet.

Even Bravest Uneasy.

The bravest man naturally experiences a feeling that at least might be described as uneasiness, when "coming up" for the first time under a heavy bombardment. The company O. C., however, didn't show it, and "his boys," long since seasoned to the hum of shells and the shock of detonation, admired him for his coolness.

They don't march up to the trenches in step and in column of route, by the left. "All right, boys, we'll stand up," says the O. C., and the "forwards," right, by the left," etc., of the parade ground. Keeping well spread out, the company straggled up via the "trenching route" for the communicating trenches which were shoulder-deep in water, with oozy feet of mud at the bottom.

And then, as they neared the "supplies," a screaming overhead and a cold rush of air told that an "H. E." (high explosive) was catapulting through space, a few feet overhead. Long-trained men fell flat, and every nerve on edge, awaited the dull thud, the blinding glare, the ear-splitting blast, and the death and wanton destruction that would follow in its wake.

Shield Boy With Own Body.

Almost at the captain's side through the long march had trudged a diminutive soldier, a scant 5 feet 2, and seemingly too young to bear the strain of combat. His young strength seemed insufficient to wield the heavy rifle and bayonet, the boy, for he was little else, had been made a batman, or officer's servant.

Col. Wigle in Ottawa.

Inquiries at headquarters and at the 8th Brigade failed to throw any light on the report that Lieut.-Col. E. S. Wigle was to be given a permanent appointment in the Canadian militia.

Col. Wigle is in Ottawa, it was learned, and in his absence Lieut.-Col. W. T. McMillen of the 18th Oxford Battalion is acting in his stead.

Capt. J. S. Carstairs of the records office has been recalled to Ottawa.

Lieut. P. R. Wilkes of the A. A. G. staff has been recommended to be promoted to the rank of captain and to succeed him.

Weeding Out "Unfits."

A medical examining board, composed of the following members, has commenced work on the units now in camp who may go overseas in the near future: Capt. J. W. Barton, Capt. F. N. Hughes, Capt. E. Ferguson, and Capt. P. L. Thompson. They are weeding out men who may have been developed injuries which have been lying dormant for some time, or as in a great many cases are over age.

Wherever possible these men are being transferred to No. 2 Special Service Company.

Today they examined the 186th Kent and the 149th Lambton battalions and reported that both these units averaged up well. Tomorrow they will inspect the 14th Highland and the 142nd London battalions.

142nd Man Sentenced.

No. 823100 Pte. Charles Sprague of the 142nd (London's Own) Battalion, was sentenced September 11 by the police magistrate of Barrie to four months with hard labor in the Central Prison and fines \$5 to cover costs, for absence without leave.

Capt. L. E. Marsh of the 180th (Sportsmen's) Battalion has been appointed deputy adjutant general to take the place of British Columbia men for their elections. The vote will be polled tomorrow, and the names of three officers and 50 other ranks are given in orders as being eligible.

Bufs Win Championship.

The 18th Buffs won the bayonet fighting championship of the sixth brigade tonight when they defeated the 16th Highland Battalion by the score of 21 to 16.

Dr. C. G. Hewitt, Dominion entomologist, lectured to all the medical and sanitary officers today on flies and other insect pests.

HOW YOU CAN REMOVE EVERY TRACE OF HAIR

(Toilet Talks.)

A stiff paste made with some powdered detolene and water and spread on a hairy surface about 2 minutes will, when removed, take every trace of hair with it. The skin should then be washed to free it from the remaining detolene. No harm can result from this treatment, but be sure it is detolene you get and you will not be disappointed.

BOY-BATMAN GIVES LIFE FOR OFFICER WHOSE BODY HAD SHIELDED HIM BEFORE

Young and Frail Looking, But Spirit Was That of Same
World Principle That Makes Men in Trenches Die
Cheerfully for It—Story of Quiet Heroism From Front

BOY BATMAN—MILITARY PAGE

The following vivid story of Canadian heroism in the trenches is by an "Adventurer" reporter now serving at the front. It was sent home as an illustration of the everyday acts of heroism that so mark the great struggle.

Up in the silent, where the 18th Battalion, C. E. F., was holding the most dangerous part of the apex, Capt. — of Toronto, almost universally known at the front as "Bub," and regarded as one of the most daring and likeable officers in the line, commanded a company during the last great drive of the Hunns before they fell back, exhausted, on the defensive.

The boys back from the line say that it doesn't take long to size up an officer, any more than it does for an officer to size up a man.

When a new officer goes into a trench to take charge, they look him over, and miss little in his general makeup. Now, the sly, they are interested in him, for he is going to lead them, care for them, and most important of all, treat them kindly or abuse them. There's not much of the latter treatment, but there are a few exceptions.

Well (as the narrative form of story permits us to say), Capt. — came up to the front line with his company when the first line of the British front. Huddled together in their narrow fire trenches, the Canucks could only wait the time when the "trafficking" would be down sufficiently for them to show their mettle. In those days, our supply of munitions was woefully short—not like it is today, when we are paying back our German hosts with a bullet for every bullet.

Weeding Out "Unfits."

A medical examining board, composed of the following members, has commenced work on the units now in camp who may go overseas in the near future: Capt. J. W. Barton, Capt. F. N. Hughes, Capt. E. Ferguson, and Capt. P. L. Thompson. They are weeding out men who may have been developed injuries which have been lying dormant for some time, or as in a great many cases are over age.

Wherever possible these men are being transferred to No. 2 Special Service Company.

Today they examined the 186th Kent and the 149th Lambton battalions and reported that both these units averaged up well. Tomorrow they will inspect the 14th Highland and the 142nd London battalions.

142nd Man Sentenced.

No. 823100 Pte. Charles Sprague of the 142nd (London's Own) Battalion, was sentenced September 11 by the police magistrate of Barrie to four months with hard labor in the Central Prison and fines \$5 to cover costs, for absence without leave.

Capt. L. E. Marsh of the 180th (Sportsmen's) Battalion has been appointed deputy adjutant general to take the place of British Columbia men for their elections. The vote will be polled tomorrow, and the names of three officers and 50 other ranks are given in orders as being eligible.

Bufs Win Championship.

The 18th Buffs won the bayonet fighting championship of the sixth brigade tonight when they defeated the 16th Highland Battalion by the score of 21 to 16.

Dr. C. G. Hewitt, Dominion entomologist, lectured to all the medical and sanitary officers today on flies and other insect pests.

HOW YOU CAN REMOVE EVERY TRACE OF HAIR

(Toilet Talks.)

A stiff paste made with some powdered detolene and water and spread on a hairy surface about 2 minutes will, when removed, take every trace of hair with it. The skin should then be washed to free it from the remaining detolene. No harm can result from this treatment, but be sure it is detolene you get and you will not be disappointed.

BOY BATMAN—MILITARY PAGE

The following vivid story of Canadian heroism in the trenches is by an "Adventurer" reporter now serving at the front. It was sent home as an illustration of the everyday acts of heroism that so mark the great struggle.

Up in the silent, where the 18th Battalion, C. E. F., was holding the most dangerous part of the apex, Capt. — of Toronto, almost universally known at the front as "Bub," and regarded as one of the most daring and likeable officers in the line, commanded a company during the last great drive of the Hunns before they fell back, exhausted, on the defensive.

The boys back from the line say that it doesn't take long to size up an officer, any more than it does for an officer to size up a man.

When a new officer goes into a trench to take charge, they look him over, and miss little in his general makeup. Now, the sly, they are interested in him, for he is going to lead them, care for them, and most important of all, treat them kindly or abuse them. There's not much of the latter treatment, but there are a few exceptions.

Well (as the narrative form of story permits us to say), Capt. — came up to the front line with his company when the first line of the British front. Huddled together in their narrow fire trenches, the Canucks could only wait the time when the "trafficking" would be down sufficiently for them to show their mettle. In those days, our supply of munitions was woefully short—not like it is today, when we are paying back our German hosts with a bullet for every bullet.

Even Bravest Uneasy.

The bravest man naturally experiences a feeling that at least might be described as uneasiness, when "coming up" for the first time under a heavy bombardment. The company O. C., however, didn't show it, and "his boys," long since seasoned to the hum of shells and the shock of detonation, admired him for his coolness.

They don't march up to the trenches in step and in column of route, by the left. "All right, boys, we'll stand up," says the O. C., and the "forwards," right, by the left," etc., of the parade ground. Keeping well spread out, the company straggled up via the "trenching route" for the communicating trenches which were shoulder-deep in water, with oozy feet of mud at the bottom.

And then, as they neared the "supplies," a screaming overhead and a cold rush of air told that an "H. E." (high explosive) was catapulting through space, a few feet overhead. Long-trained men fell flat, and every nerve on edge, awaited the dull thud, the blinding glare, the ear-splitting blast, and the death and wanton destruction that would follow in its wake.

Shield Boy With Own Body.

Almost at the captain's side through the long march had trudged a diminutive soldier, a scant 5 feet 2, and seemingly too young to bear the strain of combat. His young strength seemed insufficient to wield the heavy rifle and bayonet, the boy, for he was little else, had been made a batman, or officer's servant.

Col. Wigle in Ottawa.

Inquiries at headquarters and at the 8th Brigade failed to throw any light on the report that Lieut.-Col. E. S. Wigle was to be given a permanent appointment in the Canadian militia.

Col. Wigle is in Ottawa, it was learned, and in his absence Lieut.-Col. W. T. McMillen of the 18th Oxford Battalion is acting in his stead.

Capt. J. S. Carstairs of the records office has been recalled to Ottawa.

Lieut. P. R. Wilkes of the A. A. G. staff has been recommended to be promoted to the rank of captain and to succeed him.

AUTO IS NEEDED FOR OFFICERS OF NO. 10 HOSPITAL

Lieut.-Col. Seaborn Tells of
Transportation Difficulties.

UNIT AT SHORNCLIFFE

Was Warmly Welcomed on Its
Arrival by Saskatchewan
Soldiers.

President Brailwhite of the Western University has received a letter from Lieut.-Col. Edwin Seaborn, commander of No. 10 Stationary Hospital, in which he tells of the arrival of the unit at Shorncliffe and events on the trip across.

He emphasizes the transportation difficulties in the camp and makes an urgent request for funds for a cheap auto.

Of the amount required to purchase a cheap car he says \$102 is now available.

Lieut.-Col. Seaborn says in part: "We were forced to leave St. Gordon Stewart, son of Lieut. Stewart of London, of C. V. C. He had middle ear disease, and Capt. Henderson, who paid very close attention to him, thought it wiser that he be sent ashore."

"On our arrival at Shorncliffe, we found No. 8 Stationary Hospital (Saskatchewan) and were warmly welcomed by them. We soon got our bearings. Our documents were all examined by the adjutant of this camp area and found correct."

Lieut.-Col. Seaborn was honored on the arrival of No. 10 unit at Halifax by being appointed principal medical officer of all the troops on board the transport. It was arranged that the unit would take on the hospital on the boat. Splendid work was done, and Dr. Hope, Government officer, in his official report states that the hospital work was excellently managed.

Letters were received from the medical officers of all the battalions on board, thanking the medical officers for the care given patients. On previous trips the battalion medical officers took charge individually of their own patients.

The sanitary officer at Liverpool wrote, stating that he had never personally seen a ship come in with the hospital in such excellent condition and the sanitary arrangements so well carried out.

CHECKS HELD UP ON
ACCOUNT OF DESERTION

Patriotic Society Has Trouble Keeping
Track of Enlisted Men.

The failure of the militia department to report to the Middlesex Patriotic Society the number of desertions that have taken place from the 135th Battalion has placed the society in a difficult role.

At the present time there are seven patriotic checks being held by County Clerk Stuart, who has received information from a private source that every one of these men, whose wives are drawing an allowance from the Patriotic Fund, are at home as deserters and, therefore, their wives are not entitled to the allowance.

A check was mailed to a certain woman in the county a few days ago and yesterday this woman and her husband were seen together at the Fair.

The large number of these deserters are men who failed to return when allowed home on their last leave before going overseas.

While the battalion was in Canada the desertions were promptly brought to the attention of the Middlesex Patriotic Society and the allowances consequently were cancelled.

Since going overseas this matter has not been attended to, and all information regarding desertions has come from a private source.

The administration of the fund is a difficult problem at the best, but the conditions of this nature to contend with the situation grows more perplexing.

The society will appreciate any information that may be sent in concerning cases where allowances should not be made.

DOES LOOPHOLE IN PROHIBITION ACT PERMIT LOCAL SALE?

License Inspector, Galpin Believes It Does.

TOO OBSTREUSE, THEY SAY

London Lawyers Declare Technicalities of Measure Beyond Them.

There is a possibility that the Ontario temperance act to become effective on Saturday evening at 7 o'clock may permit citizens living along the U. S. frontier to have liquor delivered to them through American distributing companies.

This plan has been adopted by several Canadian breweries and distilleries, and if it comes within the act will mean that any quantity desired can be delivered by the Canadian firms on instructions from the American distributing companies.

Legal Advice Confirms It. According to a Windsor dispatch, it is stated that the best legal advice has been sought and decision given that the order system of procuring liquor comes within the act and cannot be regarded as a violation.

Licence Inspector A. R. Galpin, when questioned as to his opinion, stated that under the existing law, when it is tried to get liquor, it is not possible, but at the same time said that if it were so, amendments to the act would undoubtedly follow immediately to cover up any deficiencies that might be present.

The only portion of the act that might prevent the adoption of the "distributing company" plan is clause in section 2, of the act, that reads as follows:

What Act Says. "No person shall by himself, partner, agent, clerk, sell or deliver liquor of any kind to any person, or otherwise sell or deliver liquor of any kind to any person not entitled to sell liquor, and anyone who sells such liquor, or who buys for the purpose of selling, shall be guilty of a violation of the foregoing provision and shall be guilty of any offence under the Ontario temperance act."

On the legal interpretation of the above wording of this clause hangs a technicality that has been submitted to some of Ontario's greatest lawyers, and as with all acts, this one has resulted in different legal opinions.

Lawyers Cannot Tell. One prominent lawyer at the city said the wording was too obscure for him, and whether it would cover the "distributing company" plan or not was not in a position to state positively.

Licence Inspector Galpin thought that it might prevent, but at the same time stated there existed an element of doubt.

A local brewery representative stated that he had no doubt but that the goods could be delivered in Canada when imported by the Detroit company, and stated that they had similar arrangements made at Hull, Quebec, and would no doubt adhere to their original plan.

GARBAGE TAX QUESTION BEFORE COURT NEXT WEEK

Stated Case of Exemption Will Be Made on September 15.

The appeal of the churches against the garbage tax will go to the courts next week.

The last session of the court of revision will be held on the 15th of September. At this session, a formal case will be made out, giving the churches exemption. City Clerk T. G. Meredith will move, inside of five days, to have the case tried by a county judge, probably Judge Macbeth, and the dispute will be finally settled. "It will go to the courts in a week's time," said City Clerk Baker.

BEAUTIFUL BATTY LEAVES FOR GREENER PASTURES

Takes Magistrate's Advice—Another Game Under Police Suspicion.

"Beautiful Batty" Butch the palmer, who was ordered to leave the city by Police Magistrate Judd following a conviction for theft and fortune-telling, departed last evening for "greener pastures."

Batty and her company of supporting "artists" took the magistrate's advice and as "the sun was sinking in the golden west" about 7:30, the wags company "folded its tent like the Arabs and silently stole away."

London has no doubt seen the last of Batty, because if she returns she will be placed where they frown on fortune telling and believe in work.

This is the only instance to the present of anyone this year being arrested for operating any scheme regarded as illegal.

There is one "game of chance" being operated at the grounds at the present time that will be nipped just as soon as evidence can be secured to justify an arrest.

According to Sgt. Birrell, this game as it is operated at present gives the "customer" about the same chance as the proverbial sack of beans in "chance."

The reason that the operators of this game have not yet been "plucked" is because they have swung out a network of watchers, and signal the approach of an officer of the law, and the game then ends. "But we will nip them yet," said the sergeant, and past experience shows that the sergeant usually gets what he goes after.

DEATHS AND FUNERALS

DEATH OF A CHILD.

The death of Gordon Freeman McGill occurred this morning at the residence of his parents, 287 Central avenue. He was the youngest son of Howard McGill, and was one year and six months old.

The funeral, which will be private, will be held on Friday, at 3 o'clock. The services will be conducted at the house by Rev. H. B. Buchanan. Interment will be made at Mount Pleasant Cemetery.

DEATH OF MRS. MAGEE. The death of Martha Sutton Magee, widow of John J. Magee, occurred on Wednesday night at her residence, 183 Dufferin avenue.

She is survived by six children, W. J. Pearson, of this city; A. G. Pearson, of this city; P. W. Magee, London; Miss Bertha Magee, at home; Mrs. Charles Forrester, Stratford, and Frank Magee, of Pittsburgh.

The funeral will be private, and will be held from her residence, on Friday at 2 o'clock. The services will be held at the house at 2:30. Interment will be made at Mount Pleasant Cemetery.

CITY BREVITIES

SESSION TO BE SHORT.—There will be a meeting of No. 4 committee of the city council this afternoon, but the business will be light. Other than taking a few minutes to pass accounts, nothing will be done.

PAINFULLY HURT.—Miss Hazel Kennedy, one of the performers in a diving act at the Fair, was painfully hurt yesterday afternoon by striking a wire. Her injury, while not serious, is painful. She was taken to Victoria Hospital.

ABSENT 21 YEARS.—Rev. A. P. Solandt of Valhoo, Neb., is visiting his sister Mrs. Hugh Omond, 243 Oxford street. He is a Canadian and is now on a trip through Canada, after an absence of 21 years. He is accompanied by his son, A. W. Solandt, a student of the University of Chicago.

HAD ARM BROKEN.—F. J. Evans, a bookkeeper employed at the Beemer garage, had his arm broken, Wednesday afternoon, when the crank on an auto which he was starting, backed. He was attended by Dr. W. M. Shoebottom, and is reported as progressing favorably today.

C. P. F. OFFICIALS' VISIT.—C. E. E. Usher, general traffic manager of the C. P. R., and a party of officials will arrive in the city tomorrow morning via official car attached to the regular. The party will be the guests tomorrow of the Western Fair Board of Directors. They will be entertained to luncheon, followed by a general visit of the Fair and exhibits.

BLAMES CITY DRIVERS.—The new city motor bus met with an accident this morning, when it tried strength with a big motor truck of the Dextor Mills. At the corner of York and Clarence streets, about 9 o'clock, it backed into the truck of the Dextor Mills, smashing the side, and injuring the left arm of J. Kirkland, one of the drivers. The latter claims that the city truck was in the wrong, and the city will be asked to make good the damage.

IN POLICE COURT

Sixteen Drunks.

The "big harvest" is on in full swing and sixteen drunks appeared before Police Magistrate Judd at today's police court session.

Several of these were farmers who had come in, and believed in "making hay while the sun shines," and also believed in drinking booze when the time was short when all would be dry.

The "wheels of justice" may turn slow in some courts but not with Magistrate Judd when it comes to dealing with drunks. He disposed of the sixteen in fifteen minutes, less than one minute.

Had Good Time. Edward M. said he was in for a good time, had a good time, and a good drunk, and was now willing to go back to work.

\$5 or Fifteen Days. George Clark of West London has been before on a drunk charge, and drew \$5 or 15 days this morning.

Mike Discharged. Mike Petro said, "Sure, you bet I was drunk." "All right, Mike, the sergeant says your first time, so away you go," said the magistrate.

Belmont Boy. Oliver A. from Belmont, a boy just past 20, came in for the fair. Oliver found King street whiskey harder to "digest" than Belmont cider and was "nabbed" by the police. He was told to "beat it" for Belmont.

Quick Return. Fred Wilson, not satisfied with being allowed to go yesterday, went right out and got "soused" again, and this time drew a \$5 fine or fifteen days in jail.

Showed Back Again. John Reche, connected with the California Frank wild west show, made his second visit again this morning, being allowed to go yesterday. Five dollars or fifteen days was what John received today.

From St. Marys. Lordie L. Frenchman, from near St. Marys, made a quick getaway when the magistrate suggested that St. Marys would be a good place for him to hike back to at once.

Took Holiday. Alex. H. said he kept working up until 4 o'clock and everybody that came his way was drunk and rather than be an "oddy" he joined in with the throng and got "soused too." He was sped on his way.

Hensall Farmer. Frank H., a farmer from the village of Hensall, came in to the Fair and incidentally got on his "annual snort."

"Now don't you miss that next train to Hensall, and stay there too," said the magistrate as Frank gathered speed on his way out.

Listers Fined. Garnet Broderick and Allan DeGroat are both on the Indian list and for their violation of the liquor act were fined \$10 and costs or 21 days each in jail.

John Dishman appeared again for being drunk, having been discharged on the same charge only on Sunday morning.

John thought it was a long time ago, and tried to convince the magistrate to that effect.

For trying to "put one over" he was asked to donate a five case note or rest for fifteen days at Castle Carter.

First Timers. The balance of the docket were visitors to the Fair, first timers all, and were discharged.

READY IN FEW DAYS

Hydro Building Plans Being Completed Now.

Plans for the new hydro building, to house the departments of the public utilities commission, to be erected at Wellington and Dundas streets, are in the course of preparation, and will be ready in a day or two.

Architect L. E. Carrothers is at work on them, and will have everything prepared in a few days.

HIS 75TH ANNIVERSARY.

[Canadian Press.] Winnipeg, Sept. 14.—Rev. Father De-mas Dandurand, celebrated the 75th anniversary of his ordination as priest at St. Boniface. He is in his 98th year, and was formerly vicar-general at Ottawa.

Will Have Charge of Enlarged Departments of Western "U"

DR. BARKER. PROF. ROBERTSON.

WESTERN "U" TO REOPEN WITH IMPROVED FACILITIES

New Biological Laboratory and Extension to Physics Laboratory Will Aid Work of Coming Term—Large Classes Anticipated Despite War Conditions.

In order to keep pace with its development, extension of the work has again been necessary for the coming year in the Western University. The chief features of this extension is the fitting up of a well-equipped biological laboratory in the Cheapside School in charge of Prof. Robertson, professor of biology.

In the absence this year of Capt. Mel Brock overseas with the Western University Hospital Unit, Dr. Neville is to be the official head of the department of the Presbyterian Church in the following morning on the 28th. House-cleaning of the building is in progress at the present time in preparation for the opening.

The majority of the members of the arts faculty have returned to town, Dr. James is back from his summer home at Ipperwash Beach, Dr. Neville has returned from his farm at Nanawau, Prof. Patterson attended the general assembly of the Presbyterian Church in June, holidaying subsequently. He has been home for some time.

Dr. Tamblin spent some time in Muskoka this summer. Miss Hume Baynes has been in town the greater part of the summer.

Prof. Alfred Buckley, M. A., of Vancouver, the only addition of this year to the staff, is expected in town tonight. Prof. Buckley will lecture in philosophy and English.

President Braithwaite, who has just returned from his summer home at Unioville, states that the inquiries from prospective students have exceeded expectations and that there is a probability the classes will be as large as last year, notwithstanding war conditions. This will not be definitely known until registration day, Sept. 27. Lectures will commence promptly the following morning on the 28th. House-cleaning of the building is in progress at the present time in preparation for the opening.

An extensive addition is again being made to the library.

COUNCIL MUST DECIDE ON MACGREGOR WELLS PLAN
Purchase or Refusal is Now in Hands of the Aldermen.

The party or otherwise of the Macgregor wells will be a matter for the board of control and council to determine.

The action of the utilities commission in referring the question of purchase to the council took the wells out of the jurisdiction of the commission, and the aldermen will have to decide.

It is expected that further reports on the quantity and purity of the water will be demanded before the purchase by arbitration is recommended.

The question will be dealt with later.

FORTY THOUSAND FLOCKED TO FAIR ON FARMERS' DAY

People From Whole District Find London's Big Show More Satisfactory Than Ever — Keenest Interest Taken in Record Number of Exhibits at Grounds.

"I would judge that approximately 40,000 persons attended today, the highest and best 'Farmers' Day' in the history of the fair," said A. M. Hunt, secretary of the Western Fair Association, last evening, as the thousands poured through the exits at the close of the evening's performance.

Wednesday has always been regarded a big day with the Western Fair, and has always attracted thousands every year, but 1916 "Farmers' Day" certainly "takes the cake."

Favored again yesterday by weather conditions of an ideal character, the thousands that attended came to the city in various ways.

Many in Autos. Perhaps the greatest number came by train and auto. To show that the auto is "king," even with the fair, all that was necessary was for one to take a stroll over the downtown thoroughfares about noon or later in the afternoon.

Along the main streets and side thoroughfares, hundreds of autos were parked, and hardly an available inch of space could be secured by 1 o'clock in the afternoon.

The hotel yards and all streets in proximity were taken up by buggies and horses filled with the farmers and temporary arrangements provided.

Popular As Ever. The rural population of Western Ontario is standing by the fair better every year, and its patronage in such large numbers this year shows that it regards the Western Fair as one of Ontario's best.

"I have attended this fair for 22 consecutive years, but my impression this year is that the 1916 show is the best in several respects," said a Biddulph Township farmer, in discussing the fair with an Advertiser reporter yesterday afternoon.

The farmers came early and took in the whole fair from start to finish, many arriving in the forenoon and leaving at the conclusion of the fireworks.

The exhibits in all departments hold special attractions that appeal to the larger majority of the visitors, but the stock exhibits yesterday drew the farmers in hundreds to the horse stables, and to the cattle, sheep and swine sheds.

Horses Judged. The balance of the horses in the agricultural class was judged yesterday, and all the horses were judged at the horse meeting in the morning.

Arthur Little was elected as a director to succeed the late W. J. Reid. The selection of Joseph T. Reid, who succeeded the late president, will be made at an early date.

Live Stock Parade. Yesterday was the first presentation of the live stock parade. This feature will be repeated each day until the fair closes.

The military march past the grandstand at 2:30 will be given again today.

Today is known as Citizens' Day, and the Clinton Kiltie Brass Band will assist in the musical program.

On Friday, known as children's day, a special 5-cent children's rate will be effective.

Special trains on many of the branch lines held their late special until after the evening performance.

Crowds Down-Town. Between 10:30 and 11 o'clock last night, the streets, particularly Richmond between Dundas and the G. T. station, were a solid mass of humanity, and progress with any degree of speed at all had to be made by taking to the street.

Citizens' Day will be marked by the usual features of that day, and expectations are that it, too, will establish a new attendance record.

SPECIAL EXHIBITS. The dairy exhibits are arranged differently this year and present a very attractive appearance, while handsome cards showing the several sections add greatly to the display. Butter entries are not as large as last year, but the cheese entries are above the average of other years, and the quality is especially fine.

This point deserves special mention in view of the many difficulties under which the cheese and butter makers had to work this season, especially in the case of the cheese.

tion is made whereby it may be suited to the side of the bed, preventing it from hanging over the side. It can never expand, stretch or spread. In connection with the display of bedsteads, there is also an exhibit of brooms, in charge of W. Scarlett. These are the product of two recently-acquired broom factories in London and St. Thomas. So popular have they proved that the entire exhibit in duplicate has been sold sixteen times. All styles of brooms and whisks are exhibited, the latest being the Hydro broom, a red-handled broom sewn with white twine. Broom corn grown in London is a feature of the exhibit.

HIGH-GRADE AUTO TRAILERS. Although situated amongst hundreds of automobiles and carriage exhibits, the display of Greer automobile trailers in the carriage building is a feature of attraction. This is due to the fact that they are an absolutely new article on the market. Manufactured in styles to suit every customer, they are filling a long-felt want.

The universal joint-coupler, which is a feature of the trailer, makes it possible to tow any automobile. Either hard or pneumatic tires are supplied with them. Some of the styles on exhibition are the rack trailer, which is specially adapted for fruit-growers, and the box-trailer, which will accommodate many lines of business.

The trailer makes it possible to combine pleasure with business. Most cars are made to accommodate five passengers. Merchandise cannot be carried without a great deal of wear and tear on the upholstery, and the space is limited, besides. The automobile engine, however, is capable of pulling a much greater load than the car it is placed in. With the Greer trailer this waste of energy is utilized. By detaching it, the car remains a pleasure vehicle.

Fifty years of experience in vehicle manufacturing guarantees that the work is of the highest quality. The number used is thoroughly seasoned, the springs and axles are made of the best steel procurable. A. B. Greer & Son also carry a complete line of buggies, coaches and wagon bodies.

CANADIAN PERKINS GASOLINE ENGINE. The Powell Manufacturing Company have a specially interesting exhibit of gasoline engines under a tent on Transportation avenue (west). They are manufacturers of the Canadian Perkins, an engine justly appreciated for its simplicity.

These engines are made of entirely Canadian material by Canadian workmen under the supervision of one of the best machinists the country affords. In the exhibit, which has already attracted so many of the fair visitors, there are six engines, ranging from 1½ horsepower to 2½ and 7 horsepower. These engines are as simple as they are economical and easy to run, and they must have a great sale in this country after having attained such wonderful popularity in the United States.

It will well repay every man interested in gasoline engines and their many applications to farmers' needs, to visit this exhibit and meet Mr. Powell, manager of the company, whose works are at 65 King street, near Ridout. Phone 2947. Be sure you see the Canadian Perkins gasoline engine exhibit.

BRANTFORD ROOFING. The many business friends of Mr. J. A. Virtue, Mr. G. N. Huff, Mr. W. S. Smith and Mr. C. G. Second, representatives of the Brantford Roofing Company, will be welcomed to the company's exhibit, machinery building, Western Fair. It is hoped that these and all fair visitors who may be interested in good roofs will call. The company's exhibit gives one an opportunity to see just what the asphalt slates are made of. The company uses only the highest grade roof felt and waterproofing as a basis, finished with acid alkali, fire and waterproofing materials making this a splendidly reliable roofing.

That it is reliable and durable, satisfactory and economical, is best demonstrated by the design hanging up behind the exhibit, which reads: "We issue a 10-20-25-year guarantee bond, covering Brantford specification for flat roofs, 210 York street, Phone 654."

THE LONDON FOUNDRY COMPANY, LIMITED. is showing one of the most interesting exhibits of Canadian-made goods at the fair, their chief line, London Hardware. Besides these, there are samples of wheelbarrows, trucks, boiler works and butter boxes, post drills, roller mills, bonedowners, and a host of other specialties. The main attractions of the London Foundry Company's exhibit are the power washing machines.

The exhibit is a beautiful white enamel. It is run by a small electric motor which, besides furnishing the power for the washing, does the writing on the machine. The company has examined this machine has conceded it to be the most machine for the dollar of any in the fair. The gasoline power washers are identical in the same, excepting that it is equipped for a belt running from an engine. It is a great attraction for the farmer, who is taking advantage of their gasoline engines to save their families a lot of hard labor.

WINS ON ITS MERITS. Chit-name is a new gospel for housewives, and homemakers, the gospel of beauty, cleanliness and cheapness in household decorations. It is no longer a faded or a luxury. It is a necessity in every home where brightness and cheerfulness are the motto. This famous fluid is winning its way as fast as lightning in the paint line has in many a long year, and it is winning because of its merits.

In the main building at the Western Fair, there is an exhibit in connection with the Purdon Hardware display. Here the demonstrators show that what has been said above is just about half the truth—to tell it all would make it appear too strong. It is the stuff, Mr. Fred Crooks, the agent, and the demonstrators, have been more than busy this week, telling the folks a good story. A trial will add the finishing chapters.

SUGAR PUFF WAFFLES. Many of the Western Fair visitors have tasted the palates with delicious, puffy waffles, made by the Sugar Puff Waffle machine, exhibited by the International Products Company. There is one of these machines in operation by Mr. Frank White in a stand on King street, opposite the pond. Another is on display in the process building. This exhibit and demonstration is being made to introduce this new money-maker for concessionaires to the Canadian people. It is made in St. Louis, Mo., and the International Products Company of London are the selling agents for Canada. It will make money for visitors, and it is sure to be a success. The machine at work and try the waffles before you leave the fair.

SARNIA FENCE FIRST. On Transportation avenue, Western Fair, the Sarnia Fence Company, Limited, of Sarnia, Ont., have an exhibit of their woven wire field fencing, which they manufacture of all Canadian material by Canadian workmen at Sarnia, and sell direct to the farmer, freight paid to delivery point.

This fencing is made of several different weights and weaves, and is sold by the rod, on mail order, thereby saving the farmer the middleman's profit for purchase, stocking and handling, which should interest every farmer who seeks to save on his farm necessities.

At the exhibit you will find Mr. W. H. Pendergast, business manager of the Sarnia Fence Company, who is looking a great number of orders for future shipment. Call upon him. See the exhibit before you return home.

BIG MONEY-MAKERS. An exhibit of special interest to all farmers and gardeners is that of the Ontario Fertilizers, Limited, of Toronto, situated only a short distance from the King street entrance. Here exhibited in a tent so that they may be readily examined, are the high-grade animal and chemical fertilizers manufactured by the firm, which are in the form of Cottonseed Meal and Oil Cake Meal for cattle are also an interesting feature, as well as the Digestive Tankage for feeding hogs.

The city man, too, will find the exhibit interesting, for fertilizers for the garden, both flower and vegetable, and for the lawn, are also displayed. The worthless materials whatever are put in the fertilizers. In goods of low analysis the necessary weight is made up by the addition of lime carbonate, ground peat and other materials which have no fertilizer value. Absolutely nothing goes into Ontario Fertilizers that is not beneficial to them.

The digestive tankage is a highly concentrated protein meal, made from fresh, wholesome meat, together with pure blood, properly cooked, to produce a pure meat meal, put up in the most easily digested form and suitable for feeding hogs, developing the young ones, and keeping the larger ones in the pink of condition. Poultry foods made from the same high-class materials form the best that can be bought in this line.

Instructive literature, describing the fertilizers and their uses, is distributed at the booth, where a large staff of competent salesmen are stationed.

MUTUAL MOTOR CARS. With the coming of the fair this year the people of London and the district are enabled to see the 1917 models of the Mutual Motor Car Company of Jackson, Mich., the Marion-Hendley Six. Beautiful in line and finish, and constructed throughout of the best materials, they are attracting the admiration of all who see them.

It is within the reach of all who desire beauty and quality. Duty free, the car can be purchased for \$1,500. They are being imported by the Forest City Motor Sales, and the exhibit in the carriage building is well worth seeing.

FEW THOROUGHBREDS AMONG LIGHT HORSES AT THE WESTERN FAIR. Great Showing of Standard Breds and Harness Horses. SCARCITY OF JUMPERS. District Is Not Holding Its Own in Some Classes.

The light horses shown at the Western Fair call for one question—where is the thoroughbred? This is not a criticism of the fair board, nor the horse committee, nor any individual—it is a question that is brought out by the facts.

In days gone by, the thoroughbred race horse, the king of the turf, used to be prominent. Scores of good stallions, the best blood that England produced, were located through the province, laying the foundations of blood that have resulted in millions of dollars being expended in harness racing. The thoroughbred horse in this part of the Dominion.

But a Memory. At the Western Fair, the thoroughbred is but a memory. There were a few shown, very few, of no outstanding quality, and as a class might have been left out without doing violence to the exhibition in any way.

The question is put before the public, not in a criticizing way, but simply to call attention to a fact that is not wholesome. TRUST the children to know what is good to eat. Kellogg's is a warm favorite with them because they like the delicious crispness of the delicately toasted flakes. Mother knows that Kellogg's Toasted Corn Flakes are good by the way the youngsters thrive on them. VOICE OF THE PEOPLE
More Hearst Literature.
To the Editor of The Advertiser:
I would like to draw the attention of your readers to a singular metamorphosis recently accomplished by Pearson's Magazine. It has just changed editors, the new editor being a Mr. Frank Harris. That Mr. Harris is a very gifted, eloquent, well-informed man of wide culture and intimate with many of the leaders in art, literature and politics, goes without saying. The more the pity that such a man should be not only a rabid pro-German—he has a right to be that if he likes—but also a publisher of lies and misrepresentations affecting the welfare of the nation, which no man has any right to be.

The first number of Pearson's issued by the new editor is full of the most extraordinary statements, which only those whose Anglophile fanaticism has carried them to such heights of reasoning faculties are submerged, could believe. I have no doubt that if you give the number I refer to a cursory inspection you will be astonished that such a production should have passed the censor. To quote only one statement, Mr. Harris, referring to the Julian battle, calmly asserts that the British losses in tonnage were twice as large as the Germans (20,000-30,000), a disaster of action, he and his followers ought not to whine and complain and scream against Asquith and England just because he has to pay the penalty. I don't say it was wrong, but I don't say that if Casement was more of a man he would at least have accepted the inevitable without complaint. Moreover, as regards Mr. Harris' reflection on English statesmanship and England's navy—the British Government may not be perfect, but anyone who knows anything about history knows that it is not only the greatest empire, but also the wisest and most efficient government the world has ever seen. I quote from a Paris newspaper of five years ago, which was rather opposed to England than otherwise.

very great, . . . but their views on many points were very wide apart. Has your correspondent been any more successful in placing Mr. Norwood than he has in placing Mr. Maurice? I doubt it. Having heard Mr. Norwood but twice, I would hesitate to place him myself, except that he gave evidence belonging to that growing party which says "We decline to believe things just because other people say so—we will if possible know for ourselves." Mr. Norwood is a truthseeker, and when he thinks he has found it, he fearlessly proclaims it, but he does not ask anyone to believe what he says because he says it. The discussion on the salvation of the soldier has been instructive, revealing a very earnest, lovable, fearless truthseeker, who whilst not yet probably possessed of all the truth, has enough of it to lead London far into the kingdom of God, and has eyes to behold a prophet in its midst.

BELGIANS BY HUNDREDS DRIVEN INTO EXILE
Deportation Continuing Throughout Antwerp District.

HAVRE, Sept. 12.—It is reported that 1,200 Belgian men of ages from 18 to 35 years of age, have been removed from Ghent by the German military authorities.

The deportation of the Belgians continues throughout the entire Antwerp district, the reports assert.

PIONEER SHOE MERCHANT DIES IN CLINTON, AGED 88
John Jackson Succumbs As Result of Recent Stroke.

[Special to The Advertiser.]
CLINTON, Sept. 13.—John Jackson, a shoe merchant in Clinton for forty years, and a resident since 1854, died at his home on Battenburg street today in his 88th year. He was the last surviving member and official of the first Methodist Church established in Clinton, and up to a few weeks ago had been a continuous adherent of the church.

He is survived by two brothers, Isaac of Clinton and Richard of Hart, Manitoaba; also by one daughter and five sons, Mrs. Steep of Toronto, Frank of Barrie, Walter of Brantford, Sydney of Leithbridge, Alta., Arthur of Kansas City, and Fred of Clinton. He was a much-esteemed and remarkable health, hardly ever knowing what it was to be sick. The end came from a stroke of paralysis only a few days ago.

THE IRISH VORTEX.

FROM all reports the agitation in Ireland for independence or at any rate against a division of the island, grows more bitter. The immediate cause of this trouble are the intrigues which culminated in last Easter's rebellion and the recent action of Lord Lansdowne and followers in the British cabinet effecting a veto upon Lloyd George's settlement.

It was hard enough for both Mr. Redmond and Sir Edward Carson, brought together by the tactful Welshman, to lead their followers to the point of consenting to a division of Ireland, six counties of Ulster to remain in the Union and the rest of the country to have a Home Rule Government at Dublin. Now since Lord Lansdowne's action, there has come a revulsion of feeling in Southern and Central Ireland. A wild cry has gone up against the compromise, the momentary yielding of the point of Irish unity. Only most reluctantly did a rather small majority of the Nationalist convention concede the release of the six Orange counties, and now there is a feeling like that of Cromwell cursing amidst the flames of his martyrdom "that unworthy hand."

Will not these people look the facts in the face? If they want home rule now they simply can't have it with Belfast in. If they start a fight to cover Belfast they will be "knocked in the head," to recall Cromwell's brutal phrase at Drogheda, as the Easter experience should show them. If, on the other hand, they are definitely throwing home rule over along with Mr. Redmond, and are out for an independent Ireland, it is plain to anyone but themselves and some Tammany friends in New York that that way ruin lies. Great Britain is bound to protect the liberties of Ulster, as would have been done under the home rule act, let alone in the Lloyd George modification of it. An Ulster submerged in an independent Ireland is quite out of the question. The present trend in Ireland is full of tragedy and the most delicate handling is required. Mr. Redmond is the levelled head in his own country and it is to be hoped that he will continue to dominate the political situation there.

SPAIN COMING IN.

FROM VARIOUS VERSIONS of a speech made by former Premier Maura of Spain, two facts stand out: He has decided that continued neutrality is impossible for his country and he favors the friendship of the Allies rather than that of the Germans. In fact, one report says he openly advocates an Anglo-French-Spanish alliance and points out that any other course spells national political extinction.

Spain has been a useful neutral, King Alfonso having acted as a mediator between Kaiser Wilhelm and his prisoners on more than one occasion. But in this immense struggle, when the map of Europe is being radically changed, Senor Maura does not see how Spain can possibly retain her national standing without taking a hand in the war. He advocates her entry for patriotic reasons, without pretending that it is on behalf of any other nation; like Russia, he advises joining the winning side.

A somewhat remarkable phase of the situation is that his huge following was thought to be mainly composed of pro-Germans. Surely this can hardly be the case, and the Teutonic propaganda must have been much less fruitful than was believed. Thousands of Germans, according to Lord Northcliffe, have been using their influence in Spain and spending vast sums in an endeavor to keep her from having any friendly dealings with Britain and France, but Maura has evidently taken their efforts for what they are worth and refused to be misled.

It is stated that the former premier's prestige in the country was never so strong as it is today. If this is so, his words may be expected to have considerable effect on the attitude of the people and, therefore, on the Government.

Just what value the services of Spain would amount to on the battlefield it is difficult to estimate, but an alliance with Britain and France at this time would certainly drive some additional nails in Germany's coffin. It would proclaim to the world her trust and confidence in her allies to win the war and would carry weight with the countries still remaining neutral. To the German nation, it would carry the message that outsiders, who see most of the game, award victory to the Allies and would necessitate even more explanation than Rumania's declaration. The Hun may be persuaded that Rumania was crazy and that Greece is weak, but there is a limit to their credulity, and when they see one country after another veering to the Allies' side it cannot fail to impress

them with the hopelessness of their cause. It is not to be expected that Spain will join the Allies within the next few days. Moves of such import must only be made after deep consideration, but the words of Maura will help the Allies in the meantime, and there is more than a chance that they are the prelude to more definite steps by his country. It is not unlikely that they are officially inspired.

A PACIFIST'S VIEW.

AT THE time of the Boer War, Kipling wrote his poem "The Islanders," a scornful denunciation of British pacifism. In a clever reply and parody by W. Monro Anderson, these lines characterize Kipling's prescription of military service for the "degenerating" Briton:

"Bidding him strut the pavement
Like some war-baited seer.
Bidding him rule the people
By aping the foreign cur.
Whose market-place is silenced
By the clink of the bully's spur."

Mr. Anderson is a pacifist with a bass voice and a big fist. He sounds as though he would fight for peace. He is not the sort of person that whines in American "neutral" papers about the "uselessness" and "crime" of this great struggle. He knows that the object of the fight is to crush the bully-seer and obviate all necessity of our having to imitate his ways and go him even one worse. He knows that we are defending our democracy, said in Germany to be a bad thing.

GERMAN BLINDNESS.

GERMAN officers still declare their faith in their trained general staff and veteran regimental officers to obtain victory over the hastily-raised British forces. Even yet they have failed to learn one of the great lessons of the war—that a just cause has so inspired the British that newly-formed battalions of clerks, farmers, lawyers, etc., are able to smash the finest and most loudly boasted of Prussian or Bavarian trained regiments.

The Hun talk of their trained and veteran officers. What are they? The majority of them have had much longer theoretical military training than the British officers, but every indication points to the comparative uselessness of this in the present struggle. Old methods have given way under stress of circumstances to new, or yet older, plans, and the adaptability of the British has allowed them to more quickly imitate the new ideas.

It is not at all improbable that the German "veterans" and their strict training are a disadvantage to the Teutons. So thoroughly imbued are they with the idea that all must be done according to drill and text book, that they are incapable of learning the lessons taught by modern warfare. This is noticeable in their insistence for many months on attacking in massed formation. That their troops were mown down in thousands and yet failed to reach their goal, did not matter; the system must be right, and the fault must lie with the men. Thus reasoned the "veterans."

The experience of these vaunted staff officers has been obtained either in peace times or, in the case of the older ones, in the last war with France. In opposition to these British commanders who have fought in important wars of much later date, and have had lifelong experience in handling troops under every conceivable difficulty. They went to France ready to assimilate every good scheme which came to their notice. They were backed up by men in authority, who were not bound and tied by red tape, and who did not hesitate to break through tradition when necessary; only honor must remain unscathed.

To which body of men would a civilized nation prefer to trust its army? To those experienced, but ready to learn new tricks and abandon the old and useless, or to those of vast training who command by rule of thumb? The superior qualities of their general staff and veterans are but weak reasons for German victory.

STAR DREAMS.

There's an evening trail that leads to the meadows of the sky,
Where the star blossoms cuddle when the twilight shadows die.
In each alien starry blossom, treasured there and set apart,
There's a star dream softly nestling in each star flower's silken heart.

In the garden of the heavens, through the moonlight bars I see,
Sparkling dream flowers soft unfurling, growing there for you and me,
Promises of brighter mornings, day dream bubbles light as air,
Luring on to coolest vistas of the great night garden fair.

Softest night winds sway the blossoms, crooning drowsy lullabies,
Hushing all the baby blossoms in the garden of the stars;
Till each star flower noddling nodding, 'neath the crooning rundelay,
Slips into the sheltering portals, just behind the lights of day.

ONLY HIS SISTER.

It was the first time Reginald had ever been to a masked ball, and, although usually of a quiet disposition, the spirit of the evening had filled him with sprightliness. Espying a glimmer of white in a very shadowy corner, he determined not to lose the opportunity of cultivating Cupid's acquaintance.

Noislessly he approached the fair unknown, and slipping behind her, kissed her almost before she was aware of his presence.
"How dare you?" she shrieked crossly. "You forward boy! You ought to know better, sir!"
"Pardon me," he blurted readily, stepping out into the light. "I thought you were my sister!"

There was a moment's hesitation on the part of the masked maiden—just one moment.

"Silly chump!" she snapped. Then, stepping into the light beside him: "So I am!"—Pearson's Weekly.

The Matchmaker

By Susan E. Clagett.

The moon was at its full and the young men to him. Telling them his intention, he was soon the centre of a fluttering group of femininity—pretty girls, some not quite so good looking as others, but making up for that lack by unusual brightness, but all delighted with the prospect of a week of gaiety. For this happening took place when house parties were an event in young lives whose chief social interest lay in the weekly meetings in the churchyard.

And Uncle Charles did not make them wait for their pleasure. The next evening found the gay crowd in his home and thereafter, every day, every evening, was filled with some form of amusement.

Neil and Warren were to all appearances the gayest of the company, but those who knew them well felt there was something wrong between them, possibly revealed by the extreme politeness of the one to the other. When two days had passed, and then a week, and Uncle Charles saw no prospect of a settlement of their quarrel, he decided upon his final scheme, a ride to Annapolis—twenty-seven miles away—dinner there and a return home by moonlight. If that did not bring about results it was his intention to have a "heavenly" talk with them and to tell them to kiss and make up. By this it will be seen he was really in need of that intuitive sense of what one should not do as a go-between. Anne never mistook him for a matchmaker.

When two days had passed, and then a week, and Uncle Charles saw no prospect of a settlement of their quarrel, he decided upon his final scheme, a ride to Annapolis—twenty-seven miles away—dinner there and a return home by moonlight. If that did not bring about results it was his intention to have a "heavenly" talk with them and to tell them to kiss and make up. By this it will be seen he was really in need of that intuitive sense of what one should not do as a go-between. Anne never mistook him for a matchmaker.

Neil was a coward about horses, but those who knew them well felt there was something wrong between them, possibly revealed by the extreme politeness of the one to the other. When two days had passed, and then a week, and Uncle Charles saw no prospect of a settlement of their quarrel, he decided upon his final scheme, a ride to Annapolis—twenty-seven miles away—dinner there and a return home by moonlight. If that did not bring about results it was his intention to have a "heavenly" talk with them and to tell them to kiss and make up. Edgar A. Guest of the Detroit Free Press, being a parent, composes a regular ode to castor oil. We give it because we too have suffered.

When I was young I lived in dread Of mother coming to my bed With castor oil for me to take To cure the common stomach ache. There was no terror of the night That could my little soul frighten And make my youthful nerves recoil So much as thoughts of castor oil.

If anything has marred my life, And scarred it with the trail of strife, And hovered round me day by day, A fear that never went away, A ghost that haunted orchards green, And lurked wherever I have been, My too-brief hours of joy to spoil, It is that stuff called castor oil.

Nor have I yet outgrown that fear, I shudder when its name I hear, I dread it now as much as then, And suffer all its torments when The mother says: "You hold your nose And see to it he doesn't close His teeth before I get it down, And spill it all upon his gown."

I hate to give the stuff or take, I dread the scenes they always make When mother gets it from the shelf, And I could run away myself, I'd rather stand to war's alarms Than see them struggling in my arms. And face the disagreeable toil Of giving children castor oil.

Today is "Shocker Day" in Detroit. President Navin of the Tigers has invited all the teams in the Detroit Amateur Association and semi-pro leagues to attend the game between the Yankees and Tigers and pay honor to Urban Shocker, the former Canadian League player now with New York. Whether Shocker will be allowed to pitch the game for New York is a question, as Donovan has a couple of his veteran pitchers ready to use against the Tigers.

Cobb Lost Some Ground in the batting race as a result of yesterday's games. Speaker had three hits in three times up, while the Detroit star went hitless in four times up.

Freddy Welsh has announced through his manager that Johnny Kilbane can have a twenty-round go with him for \$15,000 under the same weight conditions that White fought on the day of the fight. The promoters are after Welsh to take on Johnny Dundee.

Zach Wheat of the Brooklyn club, registered his twenty-sixth consecutive game without missing a hit Wednesday.

According to the Detroit Free Press, whose figures are based on the official list issued by Sam Johnson, Speaker is leading Cobb by 27 points in their batting race.

Here is the dope, up to the minute:

	AB.	H.	AB.	H.
Speaker	485	189	339	138
Cobb	485	175	361	131

Just before the Philadelphia-Cleveland game started Wednesday baseball fans were given a rare exhibition of pitching.

On a bet, Pitcher Joe Bush of the Athletics, stood at home plate and threw a ball over right field fence. The bet was the outwitting of a dis-
cussion over Ty Cobb's first home run Tuesday that was driven over the fence.

"That's nothing," said Bush, "I can throw a ball that far," said Charley Pick, third baseman for the Mackmen, and the wager was on.

Bush's throw cleared the right field fence by ten feet. The fence is 290 feet from the plate and 45 feet high.

LEADING COLLEGES IN
PLAY FOR GOLF TITLE

[Canadian Press.]
Pittsburgh, Pa., Sept. 14.—The intercollegiate golf championship opened on the links of the Oakmont Country Club at Oakmont today with several of the leading colleges of the country present. The pairings for the first round, Princeton drew a bye, Yale plays Pennsylvania; Illinois plays Cornell, and Williams plays Harvard. The final will be played Saturday, while the individual championship will start next Monday. Among those competing are Frank Blossom, present intercollegiate champion, D. C. Corkran of Princeton, and a finalist in the national championship last week; Dudley Snodgrass of Yale, and M. M. Jack of Pennsylvania.

Athletics.

DETROIT, Sept. 13.—Detroit defeated New York in the opening game of the series 4 to 1 this afternoon, and moved within two points of first place. The game was hotly-contested with good pitching on both sides and much spectacular fielding. Coveleskie showed signs of weakening, and was relieved by Dauss, who held the visitors safe scores.

ST. LOUIS TEAMS OWN
YOUNGEST PAIR OF STARS

The greatest pair of young players to start the fans this season is on the rival St. Louis teams, and all St. Louis is worked up as to which one is the greater. They are, of course, George Sisler, the remarkable first baseman of the Browns, and Roger Hornsby, the all-around infielder and batting star of the Cardinals.

Neither of these players can really be spoken of as 1916 finds, as both were with their teams last year. Sisler played 81 games with the St. Louis American and hit .285, and was as well known at this time last year as he is today. Hornsby may more rightly be spoken of as a 1916 jewel, as he played only 15 games with the Cardinals last fall, hitting .246, and few gave him a tumble.

BOTH CHICAGO MANAGERS
ARE SLATED TO DEPART

Rumor has it that both managers of the Chicago major league clubs—Joe Tinker and Clarence Rowland—are slated for the soaped runway before another season opens. Of course, the customary denials have been made by the club owners, but records are records, and when managers fail to deliver with the material given Rowland and Tinker, the fans are certain to demand a change. And, since the fans pay the freight, their demands usually carry some weight. Eddie Collins is said to be slated for Rowland's job, and Art Wilson is reported to have been taken back from Pittsburgh to step into Tinker's shoes.

WINS BIG FUTURITY

Tommy Murphy's Bay Filly Lands \$6,000 Event.

LEADS ALL THE WAY

Walter Cox, With Young Todd, Takes Syracuse Stakes in Three Heats.

SYRACUSE, N.Y., Sept. 13.—Expressive Lou, Tommy Murphy's bay filly, won the \$6,000 American Breeders' Futurity, the feature of today's Grand Circuit races, with impressive ease. The Murphy entry led the field from start to finish in both heats and crossed the line with plenty to spare.

Walter Cox drove Young Todd and easy victory in the Syracuse stakes for 2:17 paces, winning in straight heats. Todd led the field in each heat.

The 2:10 trot was captured by Howe Constantine and Sis Bingen literally walked away with the 2:14 pace, winning each of the three heats.

DODE PASKERT HAVING
ONE OF HIS BEST YEARS

Dode Paskert is flashing one of the best years of his long connection with the game. He is 35 years old, and has been in the majors for ten years. But never has he performed more brilliantly than now. Paskert is lacing the horsehide for a mark close to 300, and he is getting in most of his clouts just when they count for runs. Rarely has he been fooled in a pinch. Always a marvelous fielder, he is playing beyond anything heretofore shown. A score of times since the season began he has killed seemingly sure hits. His throws have been wonderful in their accuracy, and their speed, and even on the bases Paskert is moving his legs at a clip that alarms the opposing catcher.

YOUNG AL. WALTERS
A REAL CATCHING FIND

Young Al Walters, who is spending his first year in the big show as first string catcher for the Yankees, already is called one of the best catchers in the business. On a recent visit of the White Sox to New York Gotham writers took great delight in comparing the Chicago star and not to Walters' disadvantage. Walters has been accused of conceit and an inclination to grandstand, but the fans in New York are for him just the same.

KEEP CLEAR OF DUNDEE
IS ADVICE OF MANAGERS

"If I had a good lightweight I'd never let him get within a mile of Dundee." That is the way about half a dozen boxing managers have declared themselves. And, remembering what the Scotch Wop said to both Little Johnny Gaglian and Johnny O'Leary, one is ready to agree that only such fellows as Freddie Welsh or men of his boxing ability should tackle Dan McKelrick of New York, saying that nothing would suit his lightweight star, Frankie Callahan, better than a meeting with Dundee, and in a city where a decision can be given on the affair.

The Springwood Gun Club tournament held yesterday was not as well attended as was expected, but the shooters who were on hand enjoyed a good day's sport. The program consisted of 150 targets from the sixties to the nineties. Fred Kerr of Crediton was high gun with the good score of 143; R. Eay of London, second, with 140; and W. Hart of Dresden, third, with 138.

Nelson Long of Hamilton was the winner of an extra event at 40 targets, with the score of 49.

THERE'S A DIFFERENCE

between the Zam-Buk method of healing and that of ordinary ointments. That is why Zam-Buk cures when other ointments fail, and why Zam-Buk cures are permanent.

Mr. A. Josey, of Spry Harbor, N.S., writes: "For three years I suffered with eczema on my hands. The burning and irritation were intense that I could not sleep at night. I tried numerous remedies, but nothing gave me relief until I used Zam-Buk. This herbal balm, however, soon ended the burning and irritation, and before long my hands were completely cured. I shall never be without Zam-Buk again—it is certainly a wonderful ointment."

ANGELICAN SYNOD FAVORS REVISED PRAYER BOOK

Action Practically Assures Final Adoption of Book.

HAMILTON, Sept. 13.—The Provincial Anglican Synod of Ontario, after a five-hour debate this evening, endorsed the work of the revision committee of the Book of Common Prayer, a resolution being passed supporting the action of the general synod in adopting the book as revised, with the exception that the synod did not accept the revised form of reciting the Athanasian Creed.

The synod was practically unanimous, only three voting against the resolution. This action of the synod practically insures the final adoption of the book, which will be brought in general use almost immediately.

TWO VOTES FROM 100 MEN ALL THAT COULD BE GOT, SAYS OFFICER IN TRENCHES

Declares Effort to Take a Referendum for British Columbia Elections Will Fail—Men Have Other Things to Think About.

LONDON, Sept. 6.—(Correspondence of the Associated Press).—Soldiers from British Columbia now training in the British Isles were invited this month to record their votes for the candidates seeking the suffrages of the electorate of British Columbia at the general election. It is said there are about 40,000 soldiers-electors from the far Western Canada provinces now in Europe serving the Empire, and many of these are in London or its immediate vicinity. The results were telegraphed to the authorities in British Columbia.

The recording of these soldiers' votes while they are away from home has aroused much interest in political circles in the British Isles, where there has been much discussion as to how the electors for the Imperial Parliament now serving in the army would be affected in the event of a general election.

Lord Salisbury has introduced a bill to provide for such an emergency. Its clauses provide that every soldier and soldier registered as an elector should receive a copy of the candidates' election addresses. The commanding officer of the fighting unit would be required to appoint a day for the delivery of the marked ballot papers in the sealed envelopes supplied to his men.

and these would be forwarded to the electoral officials.

An officer now in the trenches, who, in normal times, is an ardent politician, writes to the newspapers to point out that soldiers have other things to worry about instead of politics. He says: "If people at home really think that our men are worrying about being temporarily disfranchised they have got the whole show in the wrong perspective. My men are worrying about rats and mosquitoes and piquebacks and woolly bears and things like that, and if you took a referendum out here you would get about two replies out of a hundred—and they probably would be spoilt votes because the lads express themselves crudely at times. The things they want are home and wives and children and sweethearts and clean clothes and a bath and some English beer—quite simple things like that. Not votes at all. They are quite content to leave all that to the people who are carrying on at home. When you are serving a gun day and night in a place like this it seems ridiculous to think of a Tommy worrying himself about voting. He's too busy sending—and dodging—death."

The politicians, however, appear to think otherwise, and continue working up their agitation for the political privileges of the soldier in the trenches.

Serbian Legation To Be Established in United States

WASHINGTON, Sept. 13.—Negotiations are in progress between the United States and Serbia for the sending of a minister to this country. The Serbian Legation in this country, being represented solely by a consul-general at New York. It was learned today that the Serbian Government, after having had long discussions with the United States, has suggested that it send a minister to the United States, and that the state department probably will accept the designation.

FALLS POWER ZONE CLOSELY GUARDED UNDER NEW ORDERS

No One May Enter It Without a Pass.

NIAGARA FALLS, Sept. 13.—An order isolating the power zone and the international belt loop went into effect at 6 o'clock this morning. Guards are riding on all cars passing within this area. Only those having passes are permitted to leave the area. Barbed wire entanglements surround the prohibited area. Passes have been issued only to the employees and officials of the power company and those employed at the city waterworks station.

Alexander C. Landreth, a photographer of Niagara Falls, N. Y., who conducts a concession on this side, and William Mark of Buffalo, a motion picture man, took pictures in Queen Victoria Park yesterday afternoon and were taken into custody on suspicion of espionage, but after it was explained that they had entered the proscribed zone under verbal leave of an army officer, they were released.

FLIGHT TO CAMP BORDEN AT 99 MILES PER HOUR

Carlstrom Makes Trip From Long Branch in Thirty-Five Minutes.

TORONTO, Sept. 13.—Thirty-five minutes after he left the Long Branch aviation school this morning, Victor Carlstrom, with a passenger, was circling over Camp Borden. He covered the distance of 55 miles at an average speed of about 99 miles an hour. The actual time in the air, computed from the moment that the aeroplane sped down the take-off at Long Branch until it landed at Camp Borden, was 35 minutes.

Mr. Carlstrom circled over the Long Branch school for ten minutes during which time he climbed to an altitude of over 4,000 feet, and then headed for the camp, climbing steadily all the time until, when he arrived over Alliston, at 9:45, his barograph indicated an altitude of 5,700 feet.

On his return flight Mr. Carlstrom ran short of oil and was compelled to make a landing at Clarendville, twelve miles north of Long Branch.

FLIGHT LIEUTENANT IVAN C. MACDONNELL KILLED IN AIR DUEL

WINDSOR, Sept. 13.—Lieut. Jan Cameron Macdonnell, only son of Brig. Gen. A. Macdonnell, and a grandson of a former Windsor mayor, fell to his death in the Somme region a short time ago, according to dispatches received by friends here Wednesday, when his aeroplane was attacked by three German fliers.

Lieut. Macdonnell's father, Archibald, went to school in Windsor, having lived in this city for many years. When the war broke out young Macdonnell, who was only 21 years old at the time of his death, was attached to the Royal Canadian Dragoons at Winnipeg. He was a member of Gen. Seely's staff in France before transferring to the flying branch of the service. He was rapidly promoted to first lieutenant.

Witnesses say he was well over the enemy line directing artillery fire, when three German planes simultaneously attacked his machine. He endeavored to return to the British lines, but his escape was cut off and his plane was seen to descend in flames.

DROWNED IN ST. LAWRENCE. CORNWALL, Sept. 13.—Arthur Stirling, aged 20 years, a son of William Stirling, superintendent of the Counties' Home of Industry and Refuge, was drowned in the St. Lawrence this evening while bathing. He got beyond his depth, and perished before other boys could respond to his call for help. The body was recovered shortly afterwards.

Those of us who are accustomed to feel dull and heavy when we arise; splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, lame back, can, instead, both look and feel as fresh as a daisy always by washing the poisons and toxins from the body with phosphated hot water each morning.

We should drink, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to flush from the stomach, liver, kidneys and bowels the poisons and toxins of the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary tract before putting more food into the stomach.

The action of limestone phosphate and hot water on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity, and gives one a splendid appetite for breakfast, and it is said to be but a little while and the roses begin to appear in the cheeks.

A quarter pound of limestone phosphate will cost very little at the drug store, but is sufficient to make anyone who is bothered with biliousness, constipation, stomach trouble or rheumatism a real enthusiast on the subject of intestinal sanitation. Try it and you are assured that you will look better and feel better in every way shortly.

Open sluices of the system each morning and wash away the poisonous, stagnant matter.

RUSS DESTROYER REPORTED SUNK BY GERMAN AEROPLANES

Attacks Made in Baltic and Black Sea.

BERLIN, Sept. 13.—Wireless to Sayville.—A Russian destroyer has been sunk in the Gulf of Riga by a German aeroplane squadron, says a report given out by the German admiralty today. German naval planes also have attacked Russian sea forces in the Black Sea off Constantia, Rumania. The statement says:

"German seaplanes have attacked sea forces off Constantia and the coast to the south. Hits on one battleship, one submarine and several destroyers were observed. All the seaplanes returned unharmed."

"On the evening of September 12 several German naval aeroplanes attacked the enemy's sea force in the Gulf of Riga. Several hits were obtained, and one of the enemy destroyers sank immediately. Despite heavy shelling all the aeroplanes returned safely."

CAMPBELLVILLE SOLDIER KILLED AT CAMP BORDEN

Pte. Loll Kingsbury Misses Footing in Alighting From Train.

[Special to The Advertiser.] GUELPH, Sept. 13.—Gilbert Kingsbury of R. R. No. 1, Campbellville, has received word that his son, Pte. Loll Kingsbury, who enlisted in Milton with the 16th Battalion, and who had just been home on a furlough leave, had been killed at Camp Borden when alighting from a train.

In some way he missed his footing and was dragged under the train, death following soon after. He was in his eighteenth year, and besides his father and mother leaves two sisters and a brother.

The remains will be brought home for interment.

YEAR FOR TRYING TO STEAL STICKPIN

WINDSOR, Sept. 13.—One year in the Ontario Reformatory was the sentence imposed by Magistrate Leggett Wednesday on Saul Belinky, the Detroit, who was found guilty of attempting to steal a \$1,000 stickpin from a Kentville Park racetrack visitor on Friday last. He protested his innocence.

Crown Attorney Rodd said that he learned Belinky had a long police record, and that he was wanted at the present time in Chicago on a charge of grand larceny.

A reward of \$50 was offered by the Chicago authorities for his capture, and will likely go to Provincial Officers Hannah and J. P. Smith, who caught the man after a long chase.

He will probably be turned over to the Windy City authorities after he serves his sentence in Guelph.

COMMUNION SERVICE FOR GREY BATTALION

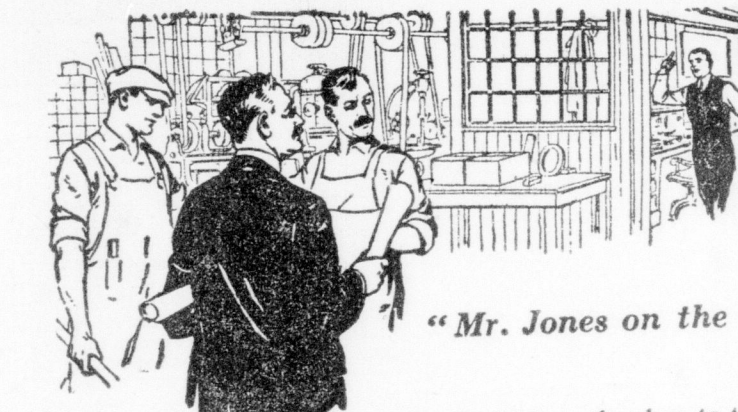

[Special to The Advertiser.] OWEN SOUND, Sept. 13.—The members of the Baptist Church have arranged to present the 14th Grey Battalion with a communion service. It is at present being engraved. BRITISH WITHDRAW ACROSS THE STRUMA; DEFEATED BULGARS

Serbs Drive Enemy From Advanced Positions.

ITALIANS SCORE VICTORY

Rumania's Greatest Soldier Is Given Charge of Dobruja Campaign.

LONDON, Sept. 14.—The British forces which crossed the Struma River in Greek Macedonia last Sunday have been withdrawn, after having inflicted heavy losses on the Bulgarians, according to a report sent by the British press representative at Saloniki.

LONDON, Sept. 13.—The latest official communications shed almost no light on what is happening in the Dobruja region of Rumania. There is no news of the activities of the Russian forces in the theatre.

That the Rumanians attach importance to the Dobruja operations is indicated by the announcement that General A. Averesco, former Rumanian war minister, and the kingdom's most distinguished soldier, who initiated the brilliant invasion of Transylvania, has been transferred from the northern front to command in Dobruja. General Averesco is another illustration of the military leader who has risen from the ranks, as he entered the Rumanian army as a cavalryman 40 years ago.

Gen. Averesco's place in Transylvania has been taken over by Gen. Oranikiano, who also is a former chief of the general staff and war minister.

Fighting on Danube Front.

The Rumanian war office today issued the following official communication:

"There have been light skirmishes on the whole of the north and north-west fronts. We took 378 prisoners."

"On the south front there has been an exchange of machine guns along the Danube, while in the Dobruja we are in contact with the enemy on the entire front, with lively engagements between patrols and advance guards."

"A detachment of the enemy which had advanced on the Danube was counter-attacked and repulsed, leaving in our hands eight German guns. The Serbian official communication issued today says:

"A violent artillery duel was started by the Serbians yesterday. Serbian infantry at many points expelled the Bulgars from their advanced positions and occupied them. The Bulgarian counter-attacks in the course of the night were completely repulsed, where the Serbian attacks carried out during the night were successful."

ITALIANS DEFEAT THE BULGARS IN FIRST BATTLE.

BERLIN, Sept. 13.—(By wireless to Saville).—The Bulgarian army which is invading Eastern Rumania has made further gains, says the official announcement issued yesterday at Sofia, which follows:

"On the bank of the Danube calm prevails."

"Our troops are continuing to advance in Dobruja."

"On the Macedonian front, near Ochovo Lake, there was activity on the part of patrols, as well as artillery fighting. A small enemy detachment was repulsed in the Moglenia valley. In the valley of the Vardar and near Dolan the artillery fighting was spirited."

"Two Italian companies with machine guns and one squadron of cavalry advanced in the direction of Butkova (near the Struma river). We made counter-attacks and dispersed them. Some Italians were captured. This was our first battle with Italian troops."

"In the Struma valley, near Nevoynen and Kavakovo, on Sept. 10, the enemy lost seven officers and about 100 men killed. We captured many rifles and a quantity of ammunition thrown away by the enemy, who fled. We took prisoner two Scotch officers and more than 100 British soldiers."

"A hostile act is continuing off the Aegean coast. Our hydroplanes made a successful attack on enemy warships in the harbor of Kavala."

BULGARS DEFEATED.

ROME, Sept. 13.—(Via London, 3:44 p.m.)—Italian troops operating on the Macedonian front have defeated and driven back Bulgarian detachments near Lake Butkova, west of the Vardar, the war office announced today in reporting on the situation in the Balkans.

The statement says:

"Saloniki front—Monday and Tuesday, in the district west of Butkova Lake, our columns had skirmishes with Bulgarian detachments, which were driven in beyond the Demir-Hissar-Dolran railway line."

"On the Macedonian front, our aeroplanes fought 17 engagements yesterday. One German machine was brought down, one in the direction of Alacourt and the other in the neighborhood of Molaisins, northward, and in the direction of Peronne. Four other enemy machines appear to have been badly damaged."

"Many Bombs Dropped."

"Last night our bombers dropped a large number of bombs. Eighty-seven bombs of 120 millimetres were dropped on the railroad station and small buildings at Guiscard, where the explosion followed by fire was noticed. Twenty-four bombs were dropped on the railroad station at Rotel, and on depots at Hendicourt. Seventy-four bombs were dropped on enemy installations in the region of Etain, thirty-two on Bivouacs, in the region of Danville, and six shells on Montmety station."

"During the same night one of our bombing groups carried out the following operations: One hundred and five bombs were dropped on the Thionville line, six on the Uckermark and Iron Foundry, and during this bombardment one of our machines covered the distance to the scene of the operations twice. Six bombs were dropped on four factories at Bombach and six on the railroad from Metz to Pont-a-Mousson."

"BRITISH REPULSE ATTACKS."

LONDON, Sept. 13.—The war office communication issued this evening says, concerning the fighting on the British front in France:

"A general situation continues unchanged. An attack made last night on our lines from the direction of the Mougnet farm was stopped by our fire, and the enemy driven back to his trenches with considerable loss."

"The hostile artillery activity is normal."

"GERMAN REPORT."

BERLIN, Sept. 13.—By wireless to Saville.—The capture by the French of Bouchavesnes, on the Somme front, is reported in the official announcement.

FRENCH EXTEND THE GAINS BEYOND ROAD LEADING TO PERONNE

Important Positions Taken, Lost and Retaken.

COMBLES SOON TO FALL

French in Yesterday's Fighting Took 2,300 Men and Many Guns.

[Canadian Press.]

Paris, Sept. 13.—In addition to capturing the village of Bouchavesnes, three miles southeast of Combles, and the Bois l'Abbe farm, about 600 yards east of the Peronne-Bapaume road, the war office statement tonight says the French have captured their positions in this region and stormed powerfully-organized trenches south of Le Friez farm.

The fighting has been violent throughout the day, the Germans making desperate efforts to regain the lost ground. By counter-attacks they succeeded in recapturing l'Abbe wood and Hill 76, but both were taken again by the French in hand-to-hand encounters. Tonight's report showed that all gains are being maintained.

The total captures of yesterday and today were 2,300 prisoners, 10 guns and 40 machine guns.

Road Definitely Cut.

The capture of Bouchavesnes, with adjacent territory apparently clinches French possession of the main highway to Peronne from the north at Combles, which appears seriously threatened by the new advance of the French, one of the most important gains made in any single operation since the beginning of the Somme offensive.

This afternoon's report says:

"A Brilliant Fight."

"North of the Somme fighting continued last evening with distinct success for our arms. The village of Bouchavesnes was attacked towards 8 o'clock in the evening and carried in its entirety by our troops in a brilliant fight, despite the enemy's resistance. He had strongly entrenched himself."

"During the night our infantry organized itself in the conquered position. The Germans did not attempt a counter-attack."

"This morning our troops continuing their advance eastward, took by assault the Bois l'Abbe farm, situated 600 metres eastward of the Bapaume road, southeast of Bouchavesnes. We took some additional prisoners during these actions and captured a large amount of material. No precise figures have yet reached us on this subject."

"To the north of the Somme we approached the German trench in the region of Andrech and gained additional prisoners."

"On the right bank of the Meuse (Verdun front) we made some progress in the northern portion of the Vaux-Clagny wood. Artillery fighting continues with moderate activity in the Fleury-le-Chateau region. Everywhere else the night was calm."

Deep French Wedge Between Combles and Peronne

The map shows the road between the German bases of Peronne and Bapaume, which the French have crossed, endangering both Peronne and Combles. The British have extended their line southeast of Ginchy.

from the war office today. The statement follows:

"Front of Field Marshal Prince Rupprecht of Bavaria: The battle north of the Somme has recommenced. Our troops are engaged in heavy fighting between Combles and the Somme. The French entered Bouchavesnes. Artillery duels of great violence continue on both sides of the Somme."

"Front of the German Crown Prince: East of the Meuse (Verdun front) at 2 o'clock in the morning the French made a surprise attack on the sector of Thiaumont and Souville (failed, causing them sanguinary losses."

SWIFT ADVANCE OF FRENCH SURPRISE TO THE GERMANS

Most of Enemy Troops Recently Arrived From Verdun Front.

PARIS, Sept. 14.—The speed of the French advance in Tuesday's battle on the Somme front took the Germans completely by surprise according to a description of the fighting given by an eye-witness. He said:

"The attack began at 12:30 a.m. in perfect order. In a few minutes the first objective was carried and at 12:35 the news arrived that the Berlinot trench was already occupied. Then information came in fast of further gains, and the observers saw a stream of surrendering Germans running toward the French lines."

"Many of the Germans who surrendered were hit by the enemy fire of their own artillery. Most of them were troops who had recently arrived from the Verdun front. The prisoners declared that though they expected the attack the rapidity with which it was delivered took them by surprise."

GERMANS STEALING FOOD OF BELGIANS SENT FROM STATES

Knapsacks Filled With the
Victuals Intended for the
Starving Refugees.

[Canadian Press.]

New York, Sept. 14.—A London news agency dispatch to the Sun says: German soldiers are seizing stores accumulated in Belgium by the American Relief Commission, and paid for by Americans, who thought they were feeding the starving Belgians, according to our Copenhagen correspondent of the Times, who quotes the Rife Stiftende as saying:

"Not only do German troops go from Belgium to the trenches on the western front have their rations eked out by these supplies, but soldiers going home on furlough arrive with their knapsacks filled with these pilfered victuals."

FURSETH STARTS ROW.
Saville, Sept. 14.—A police escort was necessary to see Andrew Furseth, president of the International Seamen's Union, safely to the Labor Temple here last night, when a meeting of the Central Labor Council broke up in disorder.

Furseth, in a speech sympathizing with the San Francisco Longshoremen's Union in settling a strike there against the wishes of Longshoremen at North Pacific ports, precipitated the disorder.

PAYABLE AT PAR AT

OTTAWA, HALIFAX, ST. JOHN, CHARLOTTETOWN, MONTREAL, TORONTO, WINNIPEG, REGINA, CALGARY, VICTORIA.

INTEREST PAYABLE HALF-YEARLY, 1st APRIL, 1st OCTOBER.

PRINCIPAL AND INTEREST PAYABLE IN GOLD.

ISSUE PRICE 97½

A FULL HALF-YEAR'S INTEREST WILL BE PAID ON 1st APRIL, 1917.

THE PROCEEDS OF THE LOAN WILL BE USED FOR WAR PURPOSES ONLY.

THE MINISTER OF FINANCE offers herewith, on behalf of the Government, the above named Bonds for subscription at 97½, payable as follows:

10 per cent on application;
30 " " 16th October, 1916;
30 " " 15th November, 1916;
27½ " " 15th December, 1916.

The total allotment of bonds of this issue will be limited to one hundred million dollars exclusive of the amount (if any) paid for by the surrender of bonds at the equivalent of cash under the terms of the War Loan prospectus of 22nd November, 1915.

The instalments may be paid in full on the 16th day of October, 1916, or on any instalment due date thereafter, under discount at the rate of four per cent per annum. All payments are to be made to a chartered bank for the credit of the Minister of Finance. Failure to pay any instalment when due will render previous payments liable to forfeiture and the allotment, to cancellation.

Subscriptions, accompanied by a deposit of ten per cent of the amount subscribed, must be forwarded through the medium of a chartered bank. Any branch in Canada of any chartered bank will receive subscriptions and issue provisional receipts.

This loan is authorized under Act of the Parliament of Canada, and both principal and interest will be a charge upon the Consolidated Revenue Fund.

Forms of application may be obtained from any branch in Canada of any chartered bank and at the office of any Assistant Receiver General in Canada.

Subscriptions must be for even hundreds of dollars.

In case of partial allotments the surplus deposit will be applied towards payment of the amount due on the October instalment.

Scrip certificates, non-negotiable or payable to bearer in accordance with the choice of the applicant for registered or bearer bonds, will be issued, after allotment, in exchange for the provisional receipts.

When the scrip certificates have been paid in full and payment endorsed thereon by the bank receiving the money, they may be exchanged for bonds, when prepared, with coupons attached, payable to bearer or registered as

to principal, or for fully registered bonds, when prepared, without coupons, in accordance with the application.

Delivery of scrip certificates and of bonds will be made through the chartered banks.

The issue will be exempt from taxes—including any income tax—imposed in pursuance of legislation enacted by the Parliament of Canada.

The bonds with coupons will be issued in denominations of \$100, \$500, \$1,000. Fully registered bonds without coupons will be issued in denominations of \$1,000, \$5,000 or any authorized multiple of \$5,000.

The bonds will be paid at maturity at par at the office of the Minister of Finance and Receiver General at Ottawa, or at the office of the Assistant Receiver General at Halifax, St. John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary, or Victoria.

The interest on the fully registered bonds will be paid by cheque, which will be remitted by post. Interest on bonds with coupons will be paid on surrender of coupons. Both cheques and coupons will be payable free of exchange at any branch in Canada of any chartered bank.

Subject to the payment of twenty-five cents for each new bond issued, holders of fully registered bonds without coupons will have the right to convert into bonds of the denomination of \$1,000 with coupons, and holders of bonds with coupons will have the right to convert into fully registered bonds of authorized denominations without coupons at any time on application to the Minister of Finance.

The books of the loan will be kept at the Department of Finance, Ottawa.

Application will be made in due course for the listing of the issue on the Montreal and Toronto Stock Exchanges.

Recognized bond and stock brokers will be allowed a commission of one-quarter of one per cent on allotments made in respect of applications bearing their stamp, provided, however, that no commission will be allowed in respect of the amount of any allotment paid for by the surrender of bonds issued under the War Loan prospectus of 22nd November, 1915. No commission will be allowed in respect of applications on forms which have not been printed by the King's Printer.

Subscription Lists will close on or before 23rd September, 1916.

TORONTO HYDRO REPORTS SURPLUS OF \$31,337

Increase in Year of 7,100 Customers and \$100,000 Revenue.

TORONTO, Sept. 13.—Substantial progress is shown by the annual report of the Toronto Hydro-Electric Commissioners, showing the condition of the business on December 31, 1915. Despite the reduction in rates, a surplus of \$31,337 is reported after interest, depreciation and sinking funds have been set aside. The year's business shows an increase of 30 per cent in power sold, an increase of 7,100 customers, and an increase in revenue of \$100,000.

THIRTEEN VICTIMS NOW

QUEBEC, Sept. 13.—Another victim has been added to the list of killed in the Quebec Bridge tragedy on Monday, bringing the list of dead up to thirteen. The latest victim is J. MEXICAN GOVERNMENT TO CONFISCATE MINES

Will Take Over Properties of Americans and British.

EL PASO, Texas, Sept. 13.—All mining properties in the state of Guanajuato not in operation by October 1 will be confiscated by the Mexican de facto government under a recently promulgated decree of the civil governor of the state, according to an American mining engineer who reached the border from Guanajuato today. These properties are virtually all owned by American and British interests.

CONSTABLE MAKES REPLY TO SEAFORTH LADY

W. T. Fellow Declares Ladies Were Courteously Treated During Search.

To the Editor of The Advertiser:

Regarding the letter published in Monday's Advertiser from Miss Birdie Stephens of Seaforth, concerning a search of the Queen's Hotel, kindly allow me space to say that as the officer in charge, I had a search warrant from the police magistrate to search every part of the hotel and premises, and gave a copy of this to Mr. Thomas Stephens, the proprietor, as soon as we entered the hotel, and both he and his son were in the building when we were making the search, and the fact that neither of them came upstairs when we were searching the bedrooms, would be an indication that they had no objection to the manner in which the search was conducted.

The two young ladies and their mother were treated as gentlemen as far as possible up to the time when they actually tried to prevent me from entering the closet where the liquor was finally found. After being delayed over half an hour in the search I came to the conclusion that it was a pure game of bluff on the part of the women to deceive the officers and prevent us finding the liquor. As to the abuse of furniture and tramping on clothes, nothing of the kind was attempted, except perhaps in the small closet, where the liquor was found covered over with bedding and all manner of clothing to avoid detection.

When the first five bottles were found in a back bedroom, which they called the servants' room, much surprise was expressed by Miss Stephens, and it was claimed that a former servant must have left it there; and, in fact, from the first Miss Stephens assured me that they had no liquor whatever in the house, and yet it was not long afterwards that the three women were trying to prevent me from searching the closet, where the ten-gallon keg and five cases of liquor were found. As an officer of the law, I have always tried, and will continue to do so, to carry out my instructions courteously, but finally, and in this I am fulfilling my obligations to the crown, Yours truly, W. T. FELLOW, County Constable.

DOMINION OF CANADA

As with the previous Loan, we predict a great success for this issue. During this period of stress our Government needs our help and counts upon our patriotism. But a chance is given investors of placing their money in securities of the highest grade, upon terms of liberality of which will, perhaps, not be fully realized until the return of normal times.

If this Loan were issued to yield 4½%, instead of about 5 13%, the price would be 105.41, instead of 97.50. A 4% yield (the basis on which Dominion Government bonds sold so recently as 1914) would mean a price of 111 for the present issue.

We will forward your application, procure your allotment and render other services free of charge to you.

CONGRESSMAN MANN AGAIN NOMINATED FOR WASHINGTON

Senator Poindexter Leads in the Primaries.

PAGE WINS IN VERMONT

Defeats Governor and Former Governor in Run for Upper House.

NEW YORK, Sept. 13.—Almost complete returns from states in which primaries were held yesterday and today indicate the following results:

Illinois—Former Governor Frank O. Lowden and Governor Edward F. Dunne, incumbent, were nominated by large pluralities by the Republicans and Democrats, respectively. In the Congressional primaries Congressman James R. Mann, Republican House leader, won over Rev. Melbourne P. Boynton, by 15,000 majority. Former Senator William Lorimer was defeated for Congress.

Colorado—Governor George A. Carlson has a lead of 6,000 votes over Samuel D. Nicholson for the Republican nomination for governor.

Washington—United States Senator Miles Poindexter defeated Wm. R. Humphrey for the Republican senatorial nomination by a plurality of 7,000. The Democrats have apparently selected former United States Senator Geo. Turner to oppose Poindexter. Ernest Lister, the present state executive, will be opposed by Henry McBride of Seattle, as Republican nominee for governor.

South Carolina—Governor Richard I. Manning has been renominated for governor over former Governor Cole L. Blease by a comparatively small margin on the Democratic ticket.

Arizona—Late returns indicate that the nomination of Governor G. W. P. Hunt over George Olney for the Democratic gubernatorial nomination. Those who supported the Republican candidate, Joseph H. Kibbey, appear to have won the Republican senatorial nomination over W. H. Stilwell. Senator W. P. Ashurst, Democrat, was unopposed. Vermont—Complete returns tonight give Senator Carroll S. Page an overwhelming majority over former Governor Fletcher and Governor Charles W. Gates, for renomination for United States senator. Robert W. W. Hubbard was successful over John E. Weeks for the Republican nomination for lieutenant-governor.

CITY OF VERDUN IS HONORED BY ALLIES

Chief Decorations of All Nations Conferred by Monarchs.

PARIS, Sept. 14.—President Poincaré has decorated the city of Verdun with the Russian St. George's Cross, the British Military Cross, the Italian and Serbian Gold Medals of Valor, the Belgian Cross of Leopold, the Montenegrin Gold Medal, and the French Legion of Honor and War Cross, which are awarded by the allied governments in recognition of Verdun's heroic defence. President further announced that the Emperor of Japan had decided to give the city an award of honor.

HELD IN CONNECTION WITH BANK ROBBERY

Michael Shortall Denies Having Anything to Do With It.

TORONTO, Sept. 13.—Michael E. Shortall, a marble worker, 652 Perry avenue, Chicago, was arrested this afternoon in connection with the robbery five years ago of the New Westminster branch of the Bank of Montreal. About two years ago Martin H. Flanagan, of Chicago, was arrested charged with bringing the stolen notes into Canada. The money, amounting to \$1,225, was deposited by Flanagan in a safe at 303½ vault where it has lain ever since. Flanagan was acquitted as the numbers on the notes did not correspond with those stolen. Shortall was trying to withdraw the money when he was arrested and claimed that he was simply acting as an emissary of Flanagan and knew nothing about where the money came from.

All Must Be in Their Homes by Seven in Evening.

LONDON, Sept. 14.—3:10 a.m.—Because it is alleged the people of Brussels signalled to a British aviator who flew over the city last week, says the Exchange Telegraph's Amsterdam correspondent, the German authorities have ordered all the inhabitants to be in their homes before 7 o'clock in the evening and all cafes within a certain area closed.

NO NEED OF IMPORTING "BOOZE" INTO ONTARIO IS OPINION OF LAWYERS

Manufacturers at Windsor and Walkerville Sell Output to Detroit Concern, Which Will Deliver Direct From Breweries and Distilleries.

[Special to The Advertiser.] WINDSOR, Sept. 13.—Citizens living along the Canadian frontier will have little difficulty in purchasing all the beer and liquor they require after Saturday night, when the new prohibition act goes into effect, if a plan adopted by the local brewers and distillers comes within the scope of the new law, as interpreted legally by the advisers of the manufacturers.

"Distributing companies," with offices in Detroit, have been formed to handle products of Canadian breweries, and all that is necessary, according to advice given the manufacturers by three of the most eminent lawyers of Ontario, is for the residents of border towns to phone their orders to a Detroit company, who will instruct representatives at the distillery and breweries to deliver.

AMBASSADOR GERARD WARNS THE GERMANS AGAINST SUB WAR

Arouses the Wrath of the Teuton Press.

WILL ENDANGER TRADE

Diplomat Intimates That U. Boat Activities Might Interfere With Exports.

BERLIN, via London, Sept. 13.—The American ambassador, James W. Gerard, is again under fire in a section of the German press, this time for a remark attributed to him regarding a speech made recently by Dr. Gustav Stresemann, National Liberal member of the Reichstag, advocating, among other things, a resumption of the submarine warfare.

"Ambassador Gerard is quoted as saying that he did not understand how the representatives of districts for which export to America was a vital question could advocate ruthless submarine warfare."

The National Liberal press agency, in a communication to the newspapers, takes the ambassador to task for what is termed "unwarranted intervention in a purely German question," and says that the ambassador's remark is characterized by "that naive presumption which believes that the decision affecting Germany's political future will be dictated by Germany's American export interests."

AUSTRIANS STILL GIVE WAY TO RUMANIANS

VIENNA, via London, Sept. 12.—The official Austrian statement issued today regarding the Rumanian front says it is unchanged.

BUCHAREST, Sept. 12.—Via London, Sept. 13, 4:55 a.m.—The continued retreat of the Austrians in Transylvania is reported in an official announcement issued by the war office today. "The text of the statement follows: 'On the north and northwest front the enemy continues to retreat westward in the valleys of the Upper Maros and Aluta Rivers. 'On the south front the navigation of enemy merchantships on the Danube has been stopped. On the Dobruja front operations are progressing. 'Enemy aeroplanes bombarded the town of Platra and Neamtzu, killing an old man and seriously wounding two infants.'

NEW GREEK MINISTER FOR STATES IS NAMED

D. Cacamannos Will Succeed Agamemnon Schlemmer Very Shortly.

ATHENS, via Paris, Sept. 13.—The official journal today publishes the nomination of D. Cacamannos as Greek minister to the United States, to succeed Agamemnon Schlemmer.

SHERIFF AND ANOTHER KILLED IN A DUEL

WORTHVILLE, Ky., Sept. 13.—J. E. Robertson, sheriff of Carroll County, and Lucian Rice, whom he was attempting to arrest, were killed simultaneously in a pistol duel late today at Rice's home at Sanders, near here. Sheriff Robertson found Rice sitting on his front porch, armed. Both at once opened fire. Each was instantly killed. Rice was wanted on a disorderly conduct charge.

GERMANS FIGHTING TO STOP THE DRIVE OF THE RUMANIANS

Have Their First Engagement in Transylvania.

HEAVY MOUNTAIN BATTLE

Both Berlin and Vienna Declare Russians Are Repulsed.

BERLIN, Sept. 13.—By wireless to Sayville.—The repulse of violent Russian attacks on a long front in the Carpathians is announced by the war office today. In Transylvania German troops have been brought up to fight the Rumanians. The announcement follows:

"Front of Prince Leopold of Bavaria: The situation is unchanged. Russian attacks north of Drenemuth and Gartrunovka were repulsed. 'Front of Archduke Charles Francis: In the Carpathians the Russians made a simultaneous attack along the whole front between Smotrych and the Golden Bystritsa. They were repulsed everywhere, with heavy loss, by our gallant troops under General Von Conas. In Transylvania German troops entered into fighting contact with Rumanians in the districts of Hermannstadt and southeast of Boetzing.

SAYS RUSSIANS FAILED. VIENNA, via London, Sept. 13.—11:34 p.m.—The official statement from Austrian general headquarters issued today reads:

"Russian massed attacks against our Carpathian front between Smotrych, southwest of Zabolot, and the golden Bystritsa failed before the brave resistance of the defenders with extraordinarily heavy Russian losses.

"In eastern Galicia there is nothing of importance and only moderate artillery and bombing activity on Prince Leopold of Bavaria's front. 'Southeastern theatre—There have been vigorous skirmishes around the Voyvusa River (Albania).

RUSSIAN REPORT.

PETROGRAD, Sept. 13, via London—3 p.m.—The Russians are holding the ground they won in the recent fighting in the Carpathians despite heavy counter-attacks by the Teutonic forces, according to today's war office statement. "In the region of Riga and on the River Dvina, the activity of the enemy's air fleet increased considerably. 'In the region south of Jessoel (in Galicia, ten miles south of Halicz), enemy attempts to cross the River Bystritsa were frustrated by our fire. 'In the wooded Carpathian region, along the upper course of the River Charny-Cheremosh, the enemy launched unsuccessful attacks on the heights captured by us.

"In the Baltic, on the evening of September 9, our fleet successfully bombarded enemy trawlers in the Irbien Straits. Some of these were compelled to run ashore.

ITALIANS HAVE SEVERED FOE'S COMMUNICATIONS

Capture From Austrians Position Commanding Pass in Dolomites.

ROME, Sept. 13.—Via London, 5:44 p.m.—Italian troops in the Dolomite Alps, on the far northerly line of the Austro-Italian front, have captured a position commanding the Travencaz Pass, and cutting Austria's communications between the Travencaz valley and the Lagazuza region, today. The official statement follows:

"Minor offensives continue. In the Area and Upper Posina valleys, on Monday evening we repulsed attacks cast of Griso and in the Zala valley. 'North of Falcogaro, our Alpine troops gained possession of a position in which we not only command the Travencaz pass, but also interrupt enemy communications between the Travencaz valley and the Lagazuza district.

"On the remainder of the front nothing of importance occurred. 'Last evening enemy aircraft bombarded Pordenone, Udine, Tolmezzo, Marano, Cervignano, and Aquileia, wounding a few civilians and doing slight damage."

ASK TECHNICAL SCHOOLS FOR INVALIDED SOLDIERS

[Canadian Press.]
Quebec, Sept. 14.—At last night's sitting, the delegates to the Congress of the Canadian Federation of Labor adopted resolutions asking the Federal Government to establish technical schools for the education of our inviolated soldiers. A resolution was also passed asking for federal legislation, fixing a maximum price on all foodstuffs in Canada.

HOAXED THE WORLD.
[Canadian Press.]
London, Sept. 14.—French police appear to have hoaxed the world, England, and the United States, by announcing the capture of various distinguished Frenchmen, like Rostand, Richepin, and Rodin, on the military order against them.

These comments appear to have been accepted as genuine on two continents. They were in reality bogus remarks attributed to the eminent men named, but invented by a witty contributor to Le Pease, one of the French papers by which the French soldiers beguile their leisure.

The Journal des Debats quoted the comments with due appreciation of their humor, but the correspondent who first sent the story to America, whence it has come to England, appears to have thought them genuine or, at least, to have omitted sufficiently to indicate the humorous character of Le Pease.

INDUCTION LITTLE DAMAGED.
[Canadian Press.]
Port Mulgrave, N. S., Sept. 14.—The tugboat Induction, of 192 tons, which was wrecked on the Magdalen Islands on August 21 and abandoned, has been brought to this port. The steamer appears to have sustained little damage.

The Induction drifted clear of the rocks after being abandoned, and was picked up by the tug Amelia. A few days ago by the tug Amelia. A few days' tow, in which the tug Amelia assisted for a part of the time, brought the steamer here.

The steamer sailed from Newcastle, N. B., on August 18, for Calais, with a cargo of lumber valued at about \$250,000, and understood to be shipped for the use of the British army.

GIRL SLAYS HERSELF.
[Canadian Press.]
Burlington, Vermont, Sept. 13.—Rose Willett, 25 years of age, shot and killed herself here today immediately after shooting and slightly wounding John Devette, her brother-in-law.

Devette, a coal dealer, was in his office reading when the woman, according to information obtained by the police, fired two shots at him through a window, both of which took effect. The cause of the shooting has not been determined.

MAIL CONFISCATED.
[Canadian Press.]
Berlin, Sept. 14.—By Wireless to Sayville.—The Danish mail on board the Norwegian liner Kristianstad, from New York to Bergen, was confiscated by the British authorities at Kirkwall, according to a report of the postmaster-general of Denmark, the Overseas News Agency announced today.

LAMARCA RESIGNS.
[Canadian Press.]
Montreal, Sept. 14.—Paul E. Lamarca, federal member for Nicolet, resigned his seat on September 21. He says that he was elected in 1911 for five years, and notwithstanding the extension of his term, he cannot conscientiously remain in office without receiving a fresh mandate from his constituents.

Mr. Lamarca voted against the act. Dated at Toronto, this 13th day of September, 1916. 63c

HOT POLITICAL CAMPAIGN AHEAD FOR ILLINOIS

Dunne and Lowden Nominated for Governor's Chair.

[Canadian Press.]
Chicago, Sept. 14.—One of the hardest fought political campaigns in the history of Illinois will be waged between Governor Edward F. Dunne, Democrat, and Former Congressman Frank O. Lowden, Republican, nominated for governor yesterday by the Democrats and Republicans, respectively. It was predicted today. Both rolled up pluralities of approximately 100,000 over their nearest competitors in the nomination race, according to returns available early today. Both are veteran campaigners.

Governor Dunne defeated William B. Brinton, of Dixon, a manufacturer, who had the backing of Rogers, Bullard, and Dunne won Cook County by approximately 50,000, and had a plurality of about 9,000 in one-third of the down state precincts.

Lowden won in Cook by about 30,000 and down state by twice that plurality. Morton D. Hull and Frank L. Smith, his opponents, ran close together.

CASE OF PARALYSIS IN TILBURY EAST
Twelve-Year-Old Son of Charles Gilbert is Patient.

[Special to The Advertiser.]
Merrill, Sept. 13.—The first case of infantile paralysis in this district was reported to the M. O. H. of Tilbury East Township yesterday, by Dr. J. C. Bell of Merrill.

The patient is the 12-year-old son of Charles Gilbert, Glenwood. Every precaution is being taken to prevent any further spread of the disease.

Wheat, Sept. 14.—Wheat closed 3 1/2 higher for May. Oats were 3/4 up for October and 1/2 up for December. Corn was 1/2 higher for May. Flax gained 1/2 in October, 1/4 in November and December.

Chicago, Sept. 14.—Wheat prices here developed considerable strength today. Influenced largely by firmness on the Liverpool market. It was said Argentine shipments promised a sharp decrease. The wheat was received at terminal markets in the American Northwest and it was expected that it would be used only for feed.

Opening prices, which ranged from 80c to 82c, were followed by decided gains all around.

Upward Tendency in Cotton Prices on N. Y. Exchange

Strong Cables, Threatening Weather and Other Bullish Factors Help Values Advance.

[Reported by Thomson & McKinnon.]
New York, Sept. 13.—Cotton prices advanced on strong cables, threatening weather, fears of a tropical storm striking the Atlantic states, less hedge selling by the south, and finally good buying by Liverpool spot interests and bulls.

Weekly Government report, too, had some unfavorable features, and some that were better than expected. A New Orleans bank which estimated the crop last year at 2,200,000 bales, and therefore got it about right now, says the yield this year is 12,600,000 bales, including lint.

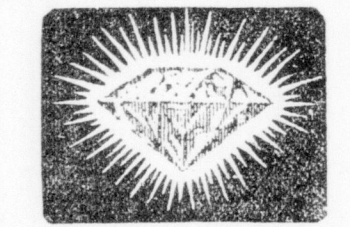

Storm warnings were up on the Atlantic coast from Virginia to Florida. It is cool in Texas and a late frost is highly desirable, as otherwise the crop is to be very short. Trade is good in both raw and manufactured cotton, spot prices here advancing ten points.

Short interest is rather large, and outlook for crop generally points to moderate or short yield, coincident with a big consumption, which not a few people believe will sooner or later bring about higher prices.

COL. SHANNON URGES I. O. D. E. TO AID IN WORK OF RECRUITING EVERY ELIGIBLE MAN IN DISTRICT

Big Conference Will Be Held in London Again Next Year—Splendid Reports of Work Done Presented at Yesterday's Session by Western Ontario Delegates.

Members of the Imperial Order of Daughters of the Empire from all parts of No. 1 Military District, attending the conference of workers in the city yesterday, very much appreciated the presence at the beginning of the afternoon session of the commanding officer, Col. L. W. Shannon. Accompanied by Col. H. D. Smith, of the headquarters staff, Col. Shannon not only conveyed a greeting on behalf of the headquarters of the military district, but delivered a most helpful address, in the course of which he emphasized the need of continuing an unrelenting war relief work during the coming year.

After his introduction, during which he contrasted the democracy of Great Britain, in which all consideration is given to the individual, with the autocracy of Germany, in which the state is all important, and the individual a mere pawn, to be moved at the will of the state, "This is just as much Germany's struggle for freedom as the rest of the world's," he declared. "We are engaged in a life-and-death struggle. In the beginning of the third year of the war, thank God, the prospects are that the Allies will come out victorious. But every possible effort must be put forth in every way. Every moment possible must be given to the cause. While the men must fight, there is work for the ladies to do. I do not need to tell you that the men in training at home as well as the men in the trenches abroad, I know you will go forth to renewed effort."

Can Help Recruiting.
"But there is one line in which you can do more—in recruiting." A pause was at this point necessitated by an outburst of applause. "I am glad to hear the applause," continued Col. Shannon, "when he could be heard again. 'That shows you are with me in what I have said. This war is a war for everyone, not for me alone, or the men next door. Every man of military age who is able to go should be in khaki today.'"

His Worship Mayor Stevenson next welcomed the delegates on behalf of the city, paying a glowing tribute to the work done by the I. O. D. E. not only in the city and military district, but throughout the Empire. In an address, listened to with greatest interest, was delivered by Mrs. Kerr of Chatham, who told of her visit to Red Cross headquarters in London, England, during the past summer, to military hospitals, and to the Maple Leaf Club. From what she had seen overseas she had become convinced of the need of the I. O. D. E. most needed work in the trenches and in training. The British and Canadian Red Cross provide everything for the welfare and comfort of the sick and wounded.

Personal property bags and razors were named among "comforts" especially appreciated. **Send Parcels Early.**
Advice passed along obtained from Lady Drummond's department was to send Christmas parcels early, and wrapped in canvas. "Some parcels did not reach those for whom they were intended for Christmas last year until March," she stated. A vivid description was next given of the "Maple Leaf Club" in London, England, where the home spot for Canadian soldiers, whether on furlough from the trenches or in London for any other reason.

Concerning pyjamas for overseas, she had been advised to tell the Canadians at home to "make the legs two inches wider." A characteristically witty and forceful address was given by Mrs. H. A. Fuller, honorary regent of the Municipal Chapter, who announced herself as "a kind of a postscript" in extending a welcome towards the close of the meeting. She dwelt eloquently upon the "magical work of the sisterhood of loving service." In other words, the Daughters of the Empire. In regard to the inspirational value of the conference, she termed it "the blessed infection of loving, faithful, unselfish service."

Before closing, she thanked the chapters and individuals from whom had come contributions to the Lady Beatty fund for the sailors' "guardians of the night of way of the ocean, and guardians of our shores."

Sends \$200 Check.
She had just received a gift which had given her special delight, a check for \$200 towards the sailors' fund from the "Society of Bachelors" Chapter of Wallaceburg. Count the sailors in your year's work, she admonished, and may God speed you in your work.

Mrs. Niven conveyed the greetings of Mrs. Gooderham, president of the National Chapter, who had also sent regrets at being unable to attend the conference.

Miss Priddis told of an I. O. D. E. Christmas card which the Abigail Becker Chapter has designed and hopes to sell to chapters of the order from Vancouver to Halifax, chapters ordering the cards making a profit of 25 per cent on what they sell.

Mrs. Niven for a second time in the day made an appeal for work for the French war sufferers, and, on motion of Mrs. McVean, of Dresden, seconded by Mrs. Fraser, of Wallaceburg, it was decided that the I. O. D. E. of No. 1 military district should take up French relief as a special work during the coming year.

Relief as a special work during the coming year.

Mrs. A. A. Campbell, organizing secretary for the district, impressed the importance of organizing the younger girls into chapters, by the senior chapters. "The younger girls of today will tomorrow be the women who should be carrying on the work of the order such as we are now doing," she insisted. Coupled with this, she pointed out the benefit to the girls being allied with such a far-reaching organization as the I. O. D. E., the largest organization of women in the world. "There are many kinds of work they could do," she added, "which would not involve much expense, such as educational work."

She reported having organized four new chapters.

[Special to The Advertiser.]
CHATHAM, Sept. 13. — George Goddard, Taylor avenue, received a telegram from Ottawa today conveying the information that his son, Pte. George Henry Goddard, of the 34th Battalion, had been wounded in the arm and shoulder, and had been admitted to the second eastern general hospital at Brighton, England. The extent of the injuries are not known. Pte. Goddard was formerly employed in Taylor's mills in the packing department, and he is well known locally.

TILLSONBURG BOYS READY TO GO OVERSEAS

[Special to The Advertiser.]
TILLSONBURG, Sept. 12. — "C" company, 16th Oxford Battalion, left for Camp Borden Tuesday afternoon on the 2:30 p.m. special train, via Grand Trunk, after their first monthly leave. Rumors that seem to be well founded are to the effect that the men will only have one more leave before going overseas, and the men are jubilant at the prospect of activity.

SEE CORN FLAKES IN THE MAKING.

Visitors at the Western Fair are invited to "come in" and see Kellogg's Toasted Corn Flakes in the making. The factory is conveniently situated just east of the Fair grounds, and on the same side of the street. You will be made welcome at the factory any day during visiting hours, which are from 10 a.m. to 12 noon, and from 2 p.m. to 4 p.m. Guides will cheerfully show you through our new modern plant, and explain the various steps in the process of manufacture. This is an exceptional opportunity for you, as this is the only Canadian factory manufacturing Kellogg's Toasted Corn Flakes—the most popular breakfast food in America. Come in and be our guests.
