## WALLACEBURG MAKES APPEAL

First Hearing Of Important Case Before Judge Bell

Knotty Problem Of Assessment To Be Argued Out

On Saturday, before Judge Bell, the initial hearing of the County assessment appeals was held. All of the members of the County Council were present, as well as the solicitors for the various municipalities concerned. This appeal is originally the appeal of the Town of Wallaceburg against the equalization of assessments made by the County Council, and it opens up the question so that all of the seventeen municipalities in the County have to defend their position. John S. Fraser, solicitor for the Town of Wallaceburg, contends that the towns in the municipality, and particularly Wallaceburg, are assessed too high in proportion to the rural municipalities; Wallaceburg's equalization being nearly doubled by the County Council.

The rural municipalities contend that the personal property in Wallaceburg must be taken into consideration, and that the property of the B. & N. Sugar Company, and the Glass Company, which are exempt from taxes, should also be counted in the equalization. Then again the question of increased assessment or valuation on oil lands in Tilbury arises, the other municipalities contending that the value of property in Tilbury is greatly increased thereby.

The case was postponed in order to enable the Registrar to furnish sales of lands in all of the municipalities for the years 1903-04-05 and '06. The price at which these sales were made will be compared with the assessments, and evidence will be taken from the assessors of the different municipalities as to the basis of their assessments. The next hearing of the appeal will be held Tuesday, August 13. J. S. Fraser is acting for the appellants; Matthew Wilson, K. C. for Camden, Harwich and Dover; and J. G. Kerr for Tilbury. County Solicitor J. W. Walker appeared for the County Saturday, but the Judge considered that the County was not interested in the appeal, and argument on their part would therefore be unnecessary.

## THREE KILLED BY EXPLOSION.

Water Tank Demolished and Scene of Carnage Deluged

Schenectady, N. Y., July 2.—A ten-ton steel cylinder, loaded with brick of equal weight and filled with steam at a pressure of 120 pounds to the square inch, at the plant of the Schenectady Sandstone Brick Co. was opened by mistake without first reducing the steam pressure, and as a result exploded.

The cylinder head, which was partly unsealed, went in one direction, killing two men, wrecking a portion of the plant, twisting a steel water tower into scrap iron, wrecking a big water tank and windmill, and deluging the scene of carnage with water. The big cylinder, five feet in diameter and 40 feet long, went through the end of the building, and a pile of brick five feet thick, across the highway, hit a carload of coal and a telegraph pole a glancing blow, killed a track repairer and skidded up the D. and H. track to a point fully 15 yards from its original position.

## TWO BURNED TO DEATH.

Sought Refuge In Barn But Were Struck By Lightning.

Brookville, July 2.—Miss Jennie Grant of Clinton Mills and James Bond of Ellenburg Centre, aged respectively 20 and 23 years, were burned to death in a barn in which they took refuge during a severe thunderstorm.

They were driving home, but the storm became so severe that they sought shelter in the first building in sight.

They had no more than entered the barn, when it was struck by a bolt of lightning and burned to the ground, both of them perishing.

It is thought they were either killed or stunned by the shock and thus rendered helpless.

Their charred remains were found in the ruins.

## ROBBED IN DAYLIGHT.

Messenger Relieved of Money He Had Just Drawn From Bank.

Montreal, July 2.—The information was given out last night that Gerald Murray, messenger of the Allan Line office, was robbed of \$1,500 as he was entering the company's office Saturday at noon. There were three in the gang and all escaped. Murray had just drawn the money from the Merchants' Bank.

Fingers Cut Off By Machine. Brookville, July 2.—Emil Gouthier of Ogdensburg, while grinding sawage at his father's meat shop, had all the fingers of his right hand cut off in the grinder.

## WAS RESCUED FROM DROWNING

Harry W. Anderson Saves Young Lady's Life At Erieau

A Heroic Deed Accomplished By Former Editor Of The Planet

Blenheim, July 1.—Had it not been for the prompt and heroic action of Mr. Harry W. Anderson, a Toronto newspaper man, and officer of the Press Club, a drowning accident would have occurred at Erieau. This afternoon, while out boating, Miss Kate Gammage, of Blenheim, upset and sank in the waters of the Eau.

HARRY W. ANDERSON, Who Rescued Girl From Drowning Yesterday.

There were cries for help, and Mr. Anderson, who was on the pier near where she had fallen, sprang to the rescue. He swam out to the drowning young lady and succeeded in grasping her as she rose the second time. It was some time before help was secured from the shore, but finally a boat was launched and rescued and rescuer were finally landed, both badly exhausted. Miss Gammage was some time in recovering.

Mr. Anderson was formerly editor of The Planet and has hosts of warm friends in this city.

## UNWRITTEN LAW SCORES.

Virginia Jury Acquits Judge Loving Within an Hour.

Houston, Va., July 2.—It took the jury but 53 minutes to decide that ex-Judge William Loving, who killed Theodore Bates for an alleged assault on his daughter, was entitled to an acquittal. Had it not been for a sense of propriety the verdict would have been rendered fifteen minutes after the jury retired, for on the first ballot all voted to discharge the prisoner. Judge Barksdale, presiding, warned the crowd that he would permit no demonstration, but notwithstanding this a considerable ripple of applause was heard in the rear of the hall of justice.

While awaiting his fate Loving, who was astonishing calm, as was his wife, who sat beside him, shed no tears. Scores rushed up to congratulate the couple as they withdrew from the courtroom.

The Estes faction are profoundly distressed at the verdict, not so much because they are vindictive, as because the verdict indirectly casts an imputation of guilt on the dead man. As a matter of fact, collateral evidence touching his culpability was excluded and it was this which scored the great victory for him.

The accused left for his home in Nelson County and will at once resume his usual walks of life.

## FIERCE STORM IN ENGLAND.

Fatalities and Damage by Lightning—Thrilling Balloon Incident.

London, July 2.—England experienced on Sunday one of the fiercest thunderstorms in years. Two persons were killed and several others injured by lightning which created havoc in many other ways, causing fire and interference and break-downs with electrical installations. The most thrilling incident of the storm was the adventure of Ernest Bucknall in the balloon Enchantress, which was beaten to the earth by the force of the rain. Lightning played around the balloon till it descended. Eyewitnesses described a great flash of lightning which seemed to hit the balloon and then it dropped. The occupants, however, managed to scramble unharmed off the roof of a house.

It was a long distance aerial race with the balloon till it rapidly descended. Eleven competitors started in the full blast of the storm, but the elements became too much for the aeronauts, who came to earth as quickly as was compatible with safety.

## TOO MUCH FRIVOLITY

Rev. Mr. MacGillivray Points Out Defects In Home Life

Patriotic Service In First Church—Splendid Musical Numbers

The two sermons delivered by Rev. A. H. MacGillivray in First Church on Sunday last were two of the most thoughtful and practical addresses given in this city for some time. Mr. MacGillivray is leading the ministers of the city in shortening the church services during the hot summer months, and on Sunday he demonstrated that the change is a welcome one as far as the comfort of the congregation is concerned, and at the same time the value of the services as an inspiration and source of help and benefit is by no means lessened.

In the morning the services were of a patriotic nature, a scheme which was followed out in all Presbyterian churches on that day. Mr. MacGillivray confined his remarks to the influence of the home in the great work of nation building. During the course of his remarks he brought out some striking and forcible illustrations of the great influence which the early training bears upon the future life of the child, and therefore on the life of the nation.

"People in this age are wondering why it is that there are not more young men entering the ministry," said he. "I have heard the matter discussed on the floor of Assemblies and many reasons are given. I am convinced that it is not the salary that keeps the young men out. It is not the long course of training which is necessary before a young man can take up the calling of the ministry. It is not the fault of the age. The reason must be laid at the door of the home life of the people of to-day. It is here that we as a people are weaker than we were a generation ago, and in saying this I am not a pessimist. We to-day like to see our boys take up commercial pursuits or enter one of the professions. We chose that for him, and as a result the influence of the early training leads in that direction. The atmosphere of the home is too often one of worldliness instead of faith. The age or the church are not to blame for the fact that the young people are drifting away. The cause is nearer home. It is the spirit of the home. Too often the influence of the home is for worldliness, frivolity, false social standing which makes up the unreal work of nation building. The only spiritual training which many of the children in our Christian homes receive is given by the Sunday school teacher. This is one reason why I place so much importance in this work. Time was when the Sunday school was for the purpose of teaching the children who had no opportunity to receive Christian training in their own homes. Now all is changed and the great bulk of the work of instructing all children in matters spiritual rests upon the Sunday school teacher. This is why the church is devoting such attention to this work, and in many places Sunday school missions are established first. They realize that as the present children are given proper instruction, the future of the nation is assured."

The music at both services was of a very high order. The organ was presided over by Mr. Walter Dolman, who officiated with much ability. In the evening Miss Beatrice Smith rendered a solo, "My Redeemer and My Lord." Miss Smith is one of the rising singers of Chatham. She is a talented pupil of Mr. Samuel Slade, of Detroit, and she has a remarkable soprano voice. Her solo was greatly appreciated on Sunday. She sang with great expression and ease and fairly surprised her hearers.

## SCORES "ALL-RED" SCHEME.

London Daily News Calls It Preposterously Extravagant.

London, July 2.—The Daily News, which voices the opinions of the more extreme Radicals, publishes a "somewhat alarming rumor" to the effect that the Government is "still considering the request for a subsidy for the all-red route." It says it is seriously suggested that a free trade government, bent upon economy, should spend anything up to £400,000 a year upon this preposterously extravagant scheme. The News declares no one knows the party would answer for the division if such a proposal were brought forward in the House of Commons.

The Morning Post editorially assumes Sir Wilfrid Laurier that public opinion here is steadily setting in the imperial direction he desires, but for the moment it must be confessed the prospects are none too bright for the all-red route.

The Liberal Imperialist Chronicle hopes the Government will assist in carrying out the all-red route.

In time of sickness the soul collects itself anew.

### THE SHORTER SERVICE.

A sensible example has been set by the Dean of Huron in shortening the Sunday services during the hot summer months, says the London Free Press, one which might well be followed generally in city and country.

It is a fair compromise between a full liturgy and the closing up of the churches for a long vacation as is done in some metropolitan centres.

When the mercury is in the eighties, and existence becomes a "stew" everywhere but in the cold storage, the short sermon is more welcome than a long one in any congregation. What the preacher has to say can be better remembered when pithily condensed.

It was the opinion of a great English Bishop that all that was essential to be said at one time in a sermon on the largest subject might be said in twenty minutes. A village clergyman in Ontario, discussing the point, contended that the time could be reduced with still better results, but the average congregation desired exhaustive discourses, as an evidence that the preacher's heart was in the work.

However this might apply to the seasons of cool temperature, and to those who may have driven long distances to settle down to Sunday instruction even they will probably agree that in July and August an exception may be allowed, as a relaxation to both pulpit and pew, which will dispose both to more hearty effort in the cause of religion when the season changes.

### HAY WILL BE DEAR

Will Montgomery, of the 9th concession, Dover, in the city on Saturday. He says that the hay crop through Dover is very light this year. Hay will, as a result, be very scarce this fall, and according to Mr. Montgomery, who has kept an eye on the conditions through the county in the matter of hay, the whole crop will be considered a failure. He says that he expects that hay will be up to \$20 a ton this fall.

### MR. O'HARA SINGING AT THE TEMPLE

Mr. Geoffrey O'Hara, a recent Chathamite, is singing this week at the Temple Theatre, Detroit, with the Big City Quartette. His last appearance was with the Spook Minstrels, still a big vaudeville attraction.

Mr. O'Hara got a good training back in the 29th singing in a quartette composed of James Rhody, Mort Sheldon, Wm. Wilson and himself. A good schooling has turned out a good profession.

### FAREWELL TO ANOTHER TEACHER

The pupils and ex-pupils of S. S. No. 18, Harwich, held their second annual picnic in Purser's grove last Saturday afternoon. A number of the parents also attended, and though the pleasure was somewhat marred by the fact that this was the last time that teacher and pupils were to meet in that relation, the afternoon was agreeably spent in swinging, games, races, etc. Just before lunch, Councillor J. T. West made a few remarks and called upon Master Earl Pelkey, who read the following address:

To Miss Gregory:—We wish to tell you before you leave us how sorry we are to lose you, and to thank you for all your kindness to us in the past three years and a half, and for the good teaching we have received.

We hope your future life may be peaceful and happy, and that you will always make friends who will love you as we children do. As a remembrance we would ask you to accept this little gift.

Signed on behalf of the school.  
EARL PELKEY.  
ROY ELLIS.

June 29, 1907.

At the conclusion of the address, Master Roy Ellis presented a handsome ebony set, consisting of brushes and mirror.

Miss Gregory, who was evidently deeply touched, thanked the pupils for the memento of the happy years she had spent as their teacher, and reciprocated their wishes for the future.

### DOES YOUR HEART FLUTTER?

You know heart fluttering means you're not as well as you should be. It's an evidence of impaired nerve and muscular power. To obtain sure relief, try Ferrozone; it has a special action on the heart, as seen in the case of Thos. Grover, of Cole Harbor, N. S., who says, "If I exerted myself it would bring palpitation. Ferrozone gave my heart the very assistance it needed, and now I am quite well." For heart or nerves it's hard to excel Ferrozone; 50c. per box at all dealers.

"Who do you think will win the fight, Kid?" asked a bookmaker at Sheepshead Bay track yesterday. "Why, Burns will win. I didn't think this fellow Squires was the wonder they say he is, and then again, I have letters from friends of mine, who tell me Burns ought to beat him sure."

### CABINET FOR PARDEE

Toronto, June 28.—The Toronto News' Ottawa correspondent says: Rumors as to cabinet reconstruction continue, and the latest of them concerns the succession to Mr. Hyman. It is suggested that Mr. F. F. Pardee, for two sessions members for West Lambton, may take the post. Mr. Pardee, who is the son of a minister of the Mowat cabinet, has a certain amount of prestige, has shown himself fairly clever and alert and decidedly aggressive. He has yet, however, to show that he has any points of view other than those of an ordinary partisan, and if he came into the cabinet, would be a sort of replica of Mr. Hyman.

The members of L. O. L. No. 1041, accompanied by the Orange Young Britons, paraded to divine service in Holy Trinity Church Sunday evening. There was a good attendance of the brethren, and they made a fine appearance on parade. They were headed by the pipe and drum band, which discoursed excellent music, and were led by Marshall W. A. Gallagher. The ladies of the lodge assembled at the church earlier in the evening and took their places in the seats allotted to them. The centre of the church was reserved for the use of three brethren. Rev. Mr. Hodgins preached a very instructive and eloquent sermon, appropriate to the occasion. Excellent music was rendered by the choir. On the return to the lodge-rooms a hearty vote of thanks was passed to Mr. Hodgins and the choir for the very able sermon and the beautiful service.

## KILLED IN

## TRAIN WRECK

Express Thrown Off Track And Down Embankment

Calgary, July 2.—Shortly before six o'clock Sunday night No. 2 express, east-bound, was wrecked at Brook Station, 96 miles west of Medicine Hat, and Express Messenger William McKinley of Orangeville, Ont., was killed through the explosion of the acetylene gas tank. His leg was blown off and he died a few hours later. Eight passenger cars were burned, as there were no means available to quench the fire, and no way of cutting the train, as the engine was on the wrong side of the fire. The line was reported clear at ten o'clock yesterday morning. The passengers have not yet been brought to Medicine Hat.

A broken wheel on the second baggage car is said to have caused the derailment, as this was the first car to leave the track, dragging with it two colonist cars, a first-class coach and diner, in the plunge down the embankment. Another coach left the rails and plowed along the ties, ripping them into matchwood. Baggage man McDonald was thrown about in the baggage car and stunned, but was able to crawl outside. None of the passengers suffered severe injury.

## Drowned While Fishing.

Belleville, July 2.—C. Ritz of Thurlow Township lost his life yesterday afternoon by drowning. He was fishing on the River Moira, near the Village of Foxboro, when he slipped off a ledge of rock into a deep hole and never rose.

## Drowned While Bathing.

### PASSED FORGED CHECKS

Tilbury, July 1.—Chief Wellwood arrested a couple of young men here this forenoon on a charge of passing forged checks. Both of the prisoners have been working in the oil fields, coming here some time ago from Pennsylvania.

One check was for \$16, in favor of Edwin Baldwin, with the forged signature of P. G. Murphy, Fletcher, attached, and the other check was for \$14, in favor of John Maxwell, on E. H. Argue, of this town. D. H. Edmonds, confectioner, cashed the Murphy check and when the Argue check was presented to him a short time later, he asked the Havings Bank teller if it were good. He pronounced it worthless, and also said the check cashed by Edmonds on Murphy was a forgery.

Murphy was called up by phone at Fletcher and said he had given no checks for \$16. Then the two men who gave their names as Edwin Baldwin and Arthur Smith, were taken into custody. They offered to redeem the \$16 check, and they received it and the one for \$14 from a man named Painter, who had left for the Indian Territory.

It appears they had tried about a dozen different places, but as the same racket was worked here a few weeks ago it was not an easy matter to get any person to take a chance on the paper.

### KEEP ON SMILING.

I think we walk too gloomily Along Life's solitary road. And heavily plod on the way of God. When smiles would lighten the load! Our hopes fly low, aims stunted grow In fear of Fate's rude filing. Yet the best ideal can be made real To those who keep on smiling.

Troubles don't come every day (Tho' their shadows fall on most), And cheeriness makes many sun-bright breaks In the somber ranks of the host. Trailing cares may clog our track, Or worries ever filing—We shall yet win through, and doughtily, too, If we only keep on smiling.

Our suffering frame is seldom sound—There's an ache or a break here often, Faults (of our own) and failings to moan Hard times we fain would soften. But think of the many glad hours we've had, And of more in the future beguiling. If there's much to annoy, there is more to enjoy For those who keep on smiling. —J. W. Winson.

### TURKEY IN CHURCH.

Stories of Amusing Experiences Told By Clergymen.

Although the average person would scarcely look for humor in church services, ludicrous incidents arise now and again which make it an extremely difficult matter for the officiating clergymen to preserve the solemnity of the occasion and maintain a dignified countenance. How many men, for instance, could have successfully resisted the impulse to laugh outright if placed in the circumstances related by a cleric respondent of the Church Family Newspaper?

This correspondent tells how he had just commenced taking service one Sunday in a village in southern Manitoba, when on looking down the aisle he saw to his consternation that a turkey had strayed into the church. "The novelty of the situation filled me with an almost uncontrollable desire to laugh," the minister continues; "so partly on this account I resolved to ask the church-warden to eject the intruder. But before I could do so a dog appeared and seated himself just inside the door. Visions of a turkey-dog squabble forced me to abandon ideas of offensive operations.

"Meanwhile, it must be admitted, the turkey was behaving itself most devoutly, except that when the congregation stood up it exhibited symptoms of perturbation by protruding its feathers and stretching upward its neck to the furthest limit. Imagine the difficult of preaching before that bird, and maintaining one's equilibrium, especially when we sang 'Happy Birds That Sing and Fly.' Fortunately the turkey did not take the hint, but remained quietly seated on the floor to the end of the service, when it walked out with the people."

### Queer Antiquities.

A loaf of bread six hundred years old is something of an antiquity. Such a loaf is to be found at Amboston, in Derbyshire, England. It was included in a grant of land from the Crown in the reign of King John, and has remained in the Soar family ever since.

There is also news of the discovery of the Assyrian loaf recently brought to light by a French explorer, which is supposed to have been baked in 300 B.C., and was in excellent condition when found. The loaf was sun-shaped, and was found wrapped in a cloth in a tightly sealed sarcophagus.

Some decidedly ancient loaves were found a few years ago at Pompeii. An oven, well preserved, was unearthed, and in it were resting several charred loaves, upon which the baker's name was still plain to be seen. The bakers of Pompeii made their loaves round, with indentations that permitted them to be broken into eight parts. Similar loaves are baked in the present day in Calabria and Italy.

Almost as great a curiosity as this is a house eleven hundred years old and yet fit for habitation. This ancient dwelling, the oldest inhabited house in England, was built in the time of King Offa of Mercia. It is octagonal in shape, and the walls of its lower story are of green stone. The upper part is of oak. At one time the house was fortified and known by the name of St. German's Gate. It stands close to the River Ver, only a few yards from St. Alban's Abbey. Old bread and old houses grow juvenile in comparison with a marriage proposal thirty-four hundred years of age—a proposal that is still in existence and deposited in the British Museum. It is the oldest marriage proposal of which there is any definite record. It consists of about ninety-eight lines of very fine cuneiform writing, and is on a small clay tablet made of Nile mud. It is a marriage proposal of a Pharaoh, for the hand of the daughter of the King of Babylon, and was written about 1550 B.C.

### Ages of Great Painters.

It is strange to notice what great ages most of the famous Italian painters reached. Spinello was nearly 100 at the time of his death, Michael Angelo nearly ninety, Da Vinci reached seventy-five, Claude Lorraine, eighty-two, Carlo Maratti eighty-eight, and the list might be greatly extended.

### How to Be Vulgar.

A writer in The London Mail in some suggestions on "how to be vulgar" says: "If you want to be absolutely on the safe side, wear a set of whiskers, any kind—sideboards, lace fins, fungi, mutton chops, earmuffs, weepers, hold-alls, let-us-prays or ear-guards—will do."

London, June 29.—A severe earthquake occurred at Anglesey on Thursday. Buildings and their contents were much shaken. Otherwise the shock was harmless.

## Weak Women

To weak and ailing women, there is at least one way to help. But with that way, two treatments must be combined. One is local, one is constitutional, but both are important, both essential. Dr. Shoop's Night Cure is the Local. The former—Dr. Shoop's Night Cure—is a topical mucous membrane suppository remedy, while Dr. Shoop's Restorative is wholly an internal treatment. The Restorative reaches throughout the entire system, seeking the repair of all nerve, blood, and all blood ailments.

The "Night Cure," as its name implies, does its work while you sleep. It soothes sore and inflamed mucous surfaces, heals local weaknesses and discharges, while the Restorative, eases nervous excitement, gives renewed vigor and ambition, builds up wasted tissues, bringing about renewed strength, vigor, and energy. Take Dr. Shoop's Restorative—Tablets or Liquid—this general tonic to the system. For positive local help, use as well

### INHERITANCE OF THE

Some Breeds Are Born With Strong Friendship for Man.

By the environment of his forbears for generations back you may know the dog, says The Chicago Chronicle. An Eskimo or sledge dog, or a Chinese chow chow, could never create the deep friendship that a deerhound or an old English sheep dog or collie, or a bulldog, or a terrier is capable of inspiring.

Years before any of us were thought of the sledge dog was a beast of burden, tolerated because human lives depended on his "motor" power, begrudged the necessary wherewithal to keep his "machinery" in good order and treated not as a companion, but as a pariah and as a brute without feeling, without thought, without hope.

How expect a descendant of these half-starved, cuffed and buffeted animals not to shrink from the uplifted hand and treat with suspicion all friendly overtures? All man has done for him and his forbears has been to play the brute and make life a weary bondage.

And in all parts of the globe where the struggle for life is most desperate, and people, according to our estimate, are brutes or semi or whole savages, so are the dogs of that people. Persian wolfhounds, chow chows, "dingoes" in the wilds of Australia, Tibet mastiffs, all more or less dread man, who many years ago beat them into subjection, not affection.

With the \$500, \$1,000 and \$2,000 champions and their brothers, sisters and cousins who claim prizes at bench shows the story is different. Neither they nor their ancestors have known what it was to turn cannibals to avert starvation. Man did not beat them into drudgery. Man warmed to them and they gave their all to man. And of the 2,000 dogs gathered together from here, there and everywhere there were probably not a dozen who would churlishly snarl at a stranger's greeting.

### KING APPLAUDS BLIND.

At Royal Normal College, London.

King Edward and Queen Alexandra, accompanied by the Prince and Princess of Wales and Princess Victoria, were present during an entertainment given at the Albert Hall recently by the students and graduates of the Royal Normal College for the Blind.

One fancied that the slightest performers could observe the kindly, interested faces of the royal party, for never did songs sound sweeter than those sung by the blind songsters, and never were gymnastic feats more adroitly performed than they were by the college's young men.

As the King and Queen entered the royal box, which was gay with flowers, the full chorus of 150 voices sang "God Save the King," and every face was turned towards Their Majesties. Thenceforth nobody applauded so heartily as the King, whose interest in the entertainment, was evident from the way in which he commented upon every item.

The climax of the musical half of the performance was reached when Master Wilfred Kershaw, a boy of nine years, played Mendelssohn's "Capriccio Brillante" with a feeling and expression unequalled by many a pampered youthful prodigy.

The second part of the program was a gymnastic display. The lads wheeled and turned about in perfect order, and showed themselves adepts in the use of the dumb-bells and iron wands. So cleanly and swiftly did they perform that one forgot that to them the world was dark, and it was only when, now and again, one of them groped for the parallel bars or stumbled against a fellow that one realized the full pathos of those black spectacles that hid pitiful, unseeing eyes.

### A Frank Opinion.

That estimable journal, "Collier's Weekly," seems to be growing sadder as the days go by. The following editorial from a recent issue shows a knowledge of the Canadian attitude towards the United States, which is almost unique among United States publications. More frankness of this kind would probably help each nation to understand the other. "Collier's" says:

"Our fool treatment of Canada is another illustration of what our legislators can accomplish. The Dominion has now made up her mind to treat us to as harsh laws as can be devised, and her decision is wise and right. For a quarter of a century she has waited patiently, while one President after another, and Secretary of State after another, devised treaties intended for the mutual benefit of Canada and the United States. Every time the Senate, imagining itself to exist for sequestering benefits desired by the well-intrenched, has protected its clients against the Administration and the people. Calmly, at length, Canadian leaders have seen that no fair measure of reciprocity could ever pass the Senate, and she has decided to do all in her power to stop trade with us, to develop it with England and her other colonies, to favor all Europe against the United States, to develop her own incalculable resources. We wish her well. Whatever harm our ass policy brings to us has been fully and painstakingly deserved."

### Sir Wilfrid's Retort.

Ever since the Colonial Conference, anecdotes concerning Sir Wilfrid Laurier have been flying freely in British and United States newspapers. One of these yarns asserts that Sir Wilfrid has a facility for repartee which he sometimes turns to good account. He was addressing a meeting on one occasion, when a portly man in the audience, a large employer of labor, interrupted him, charging the Premier with "fattening on the sweat of the people."

Sir Wilfrid, slim and dapper, waited until perfect quiet replaced the commotion which this remark had made. Then he observed calmly: "I leave those present to decide which of us is the more exposed to that charge."

## It's The Tone That Proves the Quality Of A Piano . . . .

In outward appearance one make of piano may resemble another very closely. The real difference lies in the tone, which is concealed within the case.

It's the tone every time that proves the quality of a piano. Run your fingers over the keyboard of a "Nordheimer" and just listen to the superb tone. No doubt about the quality of the "Nordheimer" piano with such a tone as it possesses.

Those who know the real value of tone-quality naturally select the "Nordheimer"—the unrivalled Canadian piano. Will you not come in and play over a selection and judge the quality of the "Nordheimer" tone from what your own ear tells you?

Friday at four o'clock a game of ball was played off between the Tammany Heelers and the Canada Mills, resulting in a victory for the former team with a score of 25 to 7.

The game was enthusiastic, each team having a large crowd of rooters. The two teams were not at all matched, and the Tammany Heelers had the game from the start. At the end of the eighth innings the C. F. M., knowing that they had sufficient of the Heelers, decided to stop playing. Trotter, bases and strictly the feature. Pleasance led in the slugging, getting a home run and two two base hits. Rayner made five errors, thus letting in four runs for the C. F. M. The line-up was as follows:

## DIED AT FLINT, MICH.

Clarence Prudhomme, aged twenty-four years, died this morning about three o'clock at the residence of Mrs. Katherine Stevens, of First avenue. The deceased had come to Flint three months ago from Chatham, Ont., and was employed at the Genesee and works. Death came as a result of typhoid fever.

The young man's mother arrived at his bedside Thursday, but her son's condition was already comatose, and he did not regain consciousness sufficiently to recognize her. For the past few days he had been growing rapidly worse.

While a resident of this city but a short time, the deceased is highly spoken of by all who knew him. As a workman it is stated that he was one of the best, and in disposition he was bright and cheerful. Besides the bereaved father and mother, the former of whom is expected to arrive in Flint to-day, the deceased is survived by a brother, George, also of Flint; Fred, and Edward, at home in Chatham, Ont., and three sisters.

The body will be taken to Chatham for interment.—Herald, Flint, Mich., July 1.

The remains of this young gentleman arrived this morning on the funeral will take place to-morrow morning at ten o'clock. Service will be held in St. Joseph's church and interment will be made in St. Anthony cemetery. The bereaved family and friends have the deepest sympathy of the entire community in their sad and sudden bereavement.

## A HEROIC DEED.

Tilbury, 1.—Delbert Ford, of Leamington, was saved from almost certain death yesterday by the pluck of Charlie Conger, a Pennsylvanian oil-well shooter, who is located here.

Ford was unloading some household goods from a hayrack at the M. C. R. station, when the horses started suddenly and threw him from the load on the tongue of the wagon. Out of the M. C. R. yard and down Queen street dashed the team and wagon, with Ford clinging to the tongue for his life. At the risk of his own life, Conger grabbed the bridle of one of the horses, and after being dragged a distance under the hoofs of the infuriated animals, he got them under control. It was a plucky deed.
